RISK FACTORS

Prospective investors should carefully consider the following investment considerations, in addition to the matters set forth elsewhere in these Supplemental Listing Particulars and the Offering Circular, prior to investing in the Notes. The purchase of Notes may involve substantial risks and is suitable only for sophisticated prospective investors who are sophisticated and have the requisite knowledge and experience in financial and business matters necessary to evaluate the risks and merits of investing in the Notes, and with sufficient resources to bear any losses which may result from such an investment. Before making an investment decision, prospective investors should carefully consider, in light of their own financial circumstances and investment objectives, all the information set out in the Offering Circular and in these Supplemental Listing Particulars and, in particular, the following investment considerations, prior to investing in the Notes.

The investment considerations set out below are not and are not intended to be, a comprehensive or exhaustive list of (i) all considerations relevant to a decision to purchase or hold any Notes and (ii) all potential risks in connection with any investment in the Notes. Such risks are to be identified and considered by each prospective investor on an individual basis.

Limited liquidity of the Notes

There is not at present an active and liquid secondary market for the Notes. Although an application has been made for the Notes to be admitted to trading on the Global Exchange Market of the Irish Stock Exchange, it is not anticipated that there will be significant trading in the Notes. It is unlikely that a secondary market for any of the Notes will develop, or, if a secondary market does develop, that it will provide the holders of the Notes with liquidity or that it will continue for the entire life of the Notes. This may leave Noteholders with an illiquid investment. Illiquidity means that a Noteholder may not be able to realise its anticipated yield. Illiquidity can have an adverse effect on the market value of the Notes. Consequently, any purchaser of Notes must be prepared to hold such Notes until final redemption or maturity of the Notes.

Non reliance

The Noteholders who purchase the Notes will be deemed to have represented and agreed that they (i) have the knowledge and sophistication independently to appraise and understand the financial and legal terms and conditions of the Notes and to assume the economic consequences and risks thereof; (ii) to the extent necessary, have consulted with their own independent financial, legal, regulatory or other advisers and have made their own investment, hedging and trading decisions in connection with the Notes based upon their own judgement and the advice of such advisers and not upon any view expressed by the Issuer or the Swap Counterparty; (iii) have not relied upon any representations (whether written or oral) of any other party, and are not in any fiduciary relationship with the Issuer or the Swap Counterparty; (iv) have not obtained from the Issuer or the Swap Counterparty (directly or indirectly through any other person) any advice, counsel or assurances as to the expected or projected success, profitability, performance, results or benefits of the Notes, and have agreed that the Issuer and the Swap Counterparty do not have any liability in that respect.

Collateral Securities

Purchasers of Notes should conduct such independent investigation and analysis regarding the Collateral Securities and all other assets from time to time comprising the Collateral Securities and the issuer of the Collateral Securities as they deem appropriate to evaluate the merits and risks of an investment in the Notes. The Issuer and the Swap Counterparty disclaim any responsibility to advise purchasers of Notes of the risks and investment considerations associated with the purchase of the Notes as they may exist at the date hereof or from time to time thereafter.

Limited Recourse

Noteholders are only entitled to have recourse to the assets over which security has been created in relation to the Notes (including the Swap Agreement). After those assets have been realised and the proceeds distributed in accordance with the order of priority set out herein, the Noteholders are not entitled to take any further steps against the Issuer to recover any sum and no debt, liability or obligation shall be owed by the Issuer in respect of any further sum.

This is not a capital guaranteed product. In a worst case scenario, investors could lose their entire investment. Therefore, investors should make an investment decision on this product only after careful consideration with their advisers as to the suitability of this product in the light of their particular financial circumstances.

Imposition of Withholding Tax or Other Charges

In the event of any change in, or amendment to, the laws or regulations of France, Ireland or the United States or any change in the application or official interpretation of such laws or regulations, relating to present or future taxes, duties, assessments or governmental charges of whatever nature applicable to the payment of interest and/or principal under the Collateral Securities or the Notes, there is a risk that a withholding or deduction for, or on account of, any such present or future taxes, duties, assessments or governmental charges of whatever nature may be imposed or levied, which may lead to an early redemption of the Collateral Securities and the Notes, which would result in losses to the Noteholders.

Credit Risk

Insofar as payments are due from Societe Generale (in its capacity as Swap Counterparty under the Notes), Noteholders are exposed to the credit risk of Societe Generale. None of the Issuer or any other person makes any representation or warranty, express or implied, as to the Swap Counterparty or any information regarding the Swap Counterparty contained in any public sources.

Risk of having to liquidate in unfavourable market conditions

The marked to market value of the Notes or other financial instruments from a Noteholder's portfolio may be subject to significant volatility or fluctuations, which may require a Noteholder to pay margin calls, make provisional payments or resell partly or totally the Notes before maturity in order to comply with contractual or regulatory obligations. As a consequence a Noteholder may have to sell off or liquidate the Notes under market conditions unfavourable to it. If a potential investor in the Notes has any liquidity constraint, it is likely that an investment in the Notes with such risks must be excluded or limited.

Noteholders should be aware that there are a number of risks associated with this product, including the risk that the Issuer may become subject to claims or other liabilities (whether in respect of the Notes or otherwise) which are not themselves subject to limited recourse or non-petition limitations.

Agreement”).

Under the CSA (as defined under sub-paragraph (xii) (*Swap*)) the Swap Counterparty or the Issuer, as the case may be, will post Eligible Credit Support (as defined below) in support of its obligations under the Swap (as defined under sub-paragraph (xii) (*Swap*)). The Swap Counterparty will (acting in its capacity as Valuation Agent under the CSA), in accordance with the terms of the CSA, calculate the collateral requirements of the Issuer and the Swap Counterparty based on each party's exposure to the other party under the Swap on each Business Day from the Issue Date to the Maturity Date and (i) to the extent that Original Collateral Securities or other Collateral Securities are to be delivered from the Issuer to the Swap Counterparty under the CSA, the security created by the Supplemental Trust Deed relating to the Notes over such Original Collateral Securities or other Collateral Securities will be deemed to be released and the Issuer or the Custodian acting on its behalf shall deliver such Original Collateral Securities or other Collateral Securities to the Swap Counterparty (for the avoidance of doubt upon such release and delivery such Original Collateral Securities or other Collateral Securities shall cease to comprise part of the Mortgaged Property) and (ii) to the extent that Eligible Credit Support is due to be delivered by the Swap Counterparty to the Issuer in accordance with the CSA, the Swap Counterparty shall deliver Eligible Credit Support to the Issuer or to the Custodian on its behalf whereupon such Eligible Credit Support will become subject to the security created by the Supplemental Trust Deed relating to the Notes and constitute Collateral Securities and become part of the Mortgaged Property.

(iii) thirdly, by delivering Original Collateral Securities.

Where the Swap Counterparty is required to transfer Eligible Credit Support to the Issuer in accordance with the terms of the CSA, it shall do so in accordance with the following order of priority:

(i) first, to the extent that it has previously received an amount of Original Collateral Securities from the Issuer (the “**Delivered Original Collateral Securities**”), by transferring an amount of bonds which are equivalent to the Delivered Original Collateral Securities up to a maximum nominal value equal to the nominal value of the Delivered Original Collateral Securities; and

(ii) secondly, by delivering Eligible Credit Support (other than Delivered Original Collateral Securities) to the Custodian Securities Account and/or by payment of an amount of cash in EUR to the Custodian Cash Account.

In any event, the obligation of the Issuer to deliver Eligible Credit Support to the Swap Counterparty under the CSA is limited to the amount of Eligible Credit Support held from time to time by the Issuer.

For the purposes of the above:

“**Custodian Securities Account**” means the security account opened in the name of the Issuer in the books of the Custodian in respect of the Notes.

“**Custodian Cash Account**” means the EUR denominated cash account opened in the name of the Issuer in the books of the Custodian in respect of the Notes.

be paid, the costs of realising any Transaction Security and the Trustee's remuneration);

- (2) *secondly*, on a *pari passu* basis, in payment of any Custodian Claim, any Issuing and Paying Agent claim and any claim of the Notice Agent;

(xii)	Swap:	The description of the Swap Agreement set out below is a summary of certain features of the Swap Agreement and is qualified by reference to the detailed provisions of the Swap Agreement.

Payments under the Swap Agreement

Pursuant to a 1992 ISDA Master Agreement (Multicurrency Cross Border) (the “**Master Agreement**”) dated as of 11 June 2007 (including the Schedule thereto), the Issuer has entered into a swap with the Swap Counterparty (as defined in paragraph 22(xiii)) with an effective date (the “**Effective Date**”) that shall correspond to the Issue Date and a termination date (the “**Termination Date**”) corresponding to the Maturity Date (the “**Swap**”). In addition, the Issuer and the Swap Counterparty have entered into a 1995 ISDA Credit Support Annex (Bilateral Form Transfer) (the “**Credit Support Annex**” or the “**CSA**”) in relation to the Swap. The Master Agreement, the Swap and the

Credit Support Annex are together the “**Swap Agreement**”).

Pursuant to the Swap, on the Effective Date: (A) the Swap Counterparty will pay to Issuer the excess of the Original Collateral Securities Initial Purchase Amount over the Aggregate Nominal Amount of the Notes being EUR 17,905,000 and (B) the Swap Counterparty will pay to the Issuer EUR 165,000 to pay permitted expenses.

Subject to the early termination provisions set out below, thereafter:

- (i) For the purposes of the next paragraph, “**Original Collateral Securities Distribution Date**” means, for the period from and including the Effective Date to and including the Termination Date, each day on which the Issuer would receive an Original Collateral Securities Distribution, “**Original Collateral Securities Distribution**” means, an amount in respect of the Original Collateral Securities, whether in respect of interest, coupon or other sums analogous to interest (other than payments of principal) payable under the Original Collateral Securities in accordance with the Original Collateral Securities Information Documentation in force as at the Trade Date (as defined in the Swap Agreement) and “**Reference Quantity**” means in respect of any day, a nominal amount equal to 100% of the outstanding nominal amount of the Notes (for the avoidance of doubt, the Reference Quantity on the Effective Date equals EUR 50,000,000, as adjusted pursuant to the provisions set out in Annex 1).

The Issuer will pay to the Swap Counterparty an amount equal to the Original Collateral Securities Distribution that the Issuer would have received on the relevant Original Collateral Securities Distribution Date as if it were the holder of a Reference Quantity of Original Collateral Securities as of the date that entitled a holder of the Original Collateral Securities to such Original Collateral Securities Distribution;

- (ii) the Swap Counterparty will pay to the Issuer on each Interest Payment Date, an amount equal to the product of (i) the Interest Amount per Note and (ii) the number of Notes outstanding as of such Interest Payment Date;

Termination of the Swap Agreement

The Swap Agreement will terminate on the Maturity Date, subject to the early termination provisions set out below.

The Swap Agreement shall terminate, subject to the provisions of the Swap Agreement, on the due date for redemption of the Notes if at any time any of the Notes becomes redeemable in accordance with the Conditions prior to the Maturity Date. Pursuant to the terms of the Swap Agreement, the Swap Agreement may be terminated early (in whole only but not in part), among other circumstances (save for any partial termination of such Swap Agreement as a result of a partial purchase and cancellation of the Notes pursuant to Conditions 7(j) and 7(k)):

- (1) if at any time any of the Notes becomes repayable or subject to redemption in accordance with the Conditions prior to the Maturity Date; or
- (2) at the option of one party, if there is a failure by the other party to pay any amounts due under the Swap Agreement; or
- (3) if (subject as provided in the Swap Agreement) withholding taxes are imposed on payments made by the Issuer or the Swap Counterparty under the Swap Agreement (subject, in the case of the Issuer, to the Issuer using all reasonable endeavours to transfer its obligations to avoid such withholding) or it becomes illegal for either party to perform its obligations under the Swap Agreement; or
- (4) upon the occurrence of certain other events with respect to either party to the Swap Agreement, including bankruptcy of the Issuer.

Consequences of Early Termination

Upon early termination of the Swap Agreement each of the Issuer and the Swap Counterparty shall, other than in the case where such early termination arises as a result of an Event of Default (as defined in the Swap Agreement) in relation to the Swap Counterparty, redeliver to each other the Eligible Credit Support which has been delivered to it pursuant to the terms of the Credit Support Annex.

Upon any such early termination of the Swap Agreement, the Issuer or the Swap Counterparty may (subject as set out below) be liable to make a

termination payment to the other (regardless, if applicable, of which of such parties may have caused such termination).

Pursuant to the terms of the Swap Agreement, such termination payment will be based upon Loss (as defined in the Swap Agreement).

(xiii) Swap Counterparty(ies): The Swap Counterparty in respect of the Index Swap shall be:

Societe Generale, 29 boulevard Haussmann, 75009 Paris, France.

(xiv) Swap Guarantor (if applicable): Not applicable.

(xv) Details of Credit Support Document (if applicable): Not applicable.

(xvi) Credit Support Provider: Not applicable.

23. Realisation of Security: Creditor Direction.

PROVISIONS RELATING TO REDEMPTION

24. Redemption at the option of the Issuer: Not applicable.

25. Redemption at the option of the Holder: Not applicable.

26. Exchangeable Notes: No.

27. Exchange Event: Not applicable.

For the avoidance of doubt, if:

(i) an Event of Default occurs and the Notes are declared due and payable in accordance with Condition 10 at any time prior to the Scheduled Maturity Date; or

(ii) an Early Redemption Event Determination Date occurs at any time on or after the Issue Date up to and including the second Business Day preceding the Scheduled Maturity Date, then the Notes will be redeemed at their Early Redemption Amount on the Early Redemption Date in accordance with paragraph 30 below.

30. Early Redemption Amount

If any such event occurs, then:

- (i) Early Redemption Amount(s) payable on mandatory redemption (Condition 7(c) (*Mandatory Redemption*)), redemption of Notes for taxation (Condition 7(d)(ii) (*Withholding and Redemption of Notes for Taxation*)) or an event of default (Condition 10 (*Event of Default*)) and/or the method of calculating the same (if required or if different from that set out in the Conditions):
- (A) the Issuer and the Swap Counterparty shall, other than in the case when such early redemption occurs as a result of an Event of Default (as defined in the Swap Agreement) in relation to the Swap Counterparty, redeliver to each other all Eligible Credit Support which has been transferred to it pursuant to the terms of the CSA;
- (B) the Issuer (or the Disposal Agent) shall realise the Original Collateral Securities as soon as reasonably practicable and in any event no later than 30 Business Days following the Early Redemption Event Determination Date;
- (C) the Swap Agreement will be terminated and the amount of any termination amount payable as a result (which shall comprise a valuation of (i) the transaction comprising the Swap only in the case where (A) above applies and (ii) the transaction comprising the Swap and the CSA in the case where (A) above does not apply) will be determined by the Series Calculation Agent in its sole and absolute discretion using the payment measure and payment method elected by the parties to the Agreement; and
- (D) the Series Calculation Agent shall calculate the Early Redemption Amount in accordance with the provisions contained below.

For the purpose of the Notes, the method of redemption and the way in which the Early Redemption Amount is calculated in respect of an early redemption of the Notes pursuant to Conditions 7(g) or 7(m) shall also be as set out in this paragraph 30(i).

The Early Redemption Amount payable in respect of each Note shall be the greater of:

- (a) zero; and
- (b) an amount determined in accordance with the following formula:

$$\frac{MV - STC}{N}$$

For the purpose of this paragraph (30)(i) only:

“MV” means the net proceeds received pursuant to

paragraph 30(i)(B) above;

“STC” means an amount equal to the termination amount payable pursuant to paragraph 30(i)(C) above, as determined by the Series Calculation Agent on the Breakage Cost Valuation Date, such termination amount being expressed as a positive number if payable by the Issuer to the Swap Counterparty, and a negative number if payable by the Swap Counterparty to the Issuer provided that the STC, when a positive number, shall not exceed an amount equal to MV (the **“STC Determination Method”**).

“N” means the number of Notes outstanding.

Where the Issuer is to sell any of the Collateral Securities (including any Original Collateral Securities), such sale shall be effected on behalf of the Issuer by the Disposal Agent in accordance with the terms of the Disposal Agency Agreement.

With respect to the calculation of the Early Redemption Amount, the determinations and calculations of the Series Calculation Agent will be conclusive and binding upon the Issuer, the Custodian, the Trustee and the Noteholders, in the absence of manifest error.

For the avoidance of doubt, any such early redemption may take place after the Maturity Date; but, in such event, no interest shall be payable under the Notes in respect of any period from and including the Maturity Date until the Early Redemption Date.

“Breakage Cost Valuation Date” means the date on which (i) the Early Redemption Amount is determined or announced by the Series Calculation Agent, which is expected to be within 30 Business Days following the Early Redemption Event Determination Date, to the extent reasonably practicable.

“Breakage Cost Valuation Notice” means a notice to be sent by the Series Calculation Agent (on behalf of the Issuer) no later than two Business Days after the Breakage Cost Valuation Date to the Notice Agent and, as long as the Notes are in global form, to the Clearing System, specifying the Early Redemption Amount and the Early Redemption Date.

“Early Redemption Date” means the date notified as such by the Series Calculation Agent (on behalf of the Issuer) in the Breakage Cost Valuation Notice, which is expected to be the fifth Business Day following the Breakage Cost Valuation Date, to the extent reasonably practicable.

“Early Redemption Event” means the occurrence (i) at any time prior to the Maturity Date of any of the events set out in Condition 10 or (ii) at any time from and including the Issue Date to and including the Latest Determination Time of any of the early redemption events referred to in Condition 7(c), Condition 7(d) or Condition 7(m) (as provided for below) or in application of Condition 7(g), provided that, in determining whether, in respect of Condition 7(c), a payment default in respect of any of the Original Collateral Securities shall be deemed to occur without any regard to any grace period under the Original Collateral Securities.

“Early Redemption Event Determination Date” means (i) a date on which the Trustee declares the Notes due and repayable in accordance with Condition 10 or (ii) the date on which an Early Redemption Event Notice is delivered by the Series Calculation Agent (on behalf of the Issuer) to the Notice Agent and, as long as the Notes are in global form, to the Clearing System.

“Early Redemption Event Notice” means a notice to be delivered, at any time on or after the Trade Date (as defined in the Swap Agreement) and on or prior to the second Business Day preceding the Maturity Date, as soon as practicable after having been notified by the Issuer of the occurrence of an Early Redemption Event (other than in the case of a MTM Trigger Event where such notification by the Issuer shall be requested), by the Series Calculation Agent (on behalf of the Issuer) to the Notice Agent and, as long as the Notes are in global form, to the Clearing System notifying of the occurrence of such event and setting out any relevant information evidencing the occurrence of such event at any time from and including the Issue Date up to the Latest Determination Time.

For the avoidance of doubt, an event described in Condition 7(c), 7(d), 7(g) or 7(m) need not be continuing on the date on which the Early Redemption Event Notice is delivered by the Series Calculation Agent. Failure by the Series Calculation Agent to deliver an Early Redemption Event Notice shall not preclude the Issuer from notifying the Series Calculation Agent of the occurrence of one or more than one subsequent event(s) described in Condition 7(c), 7(d), 7(g) or 7(m).

“Latest Determination Time” means 5.00 p.m. (Paris time) on the second Business Day preceding the Maturity Date.

“(m) MTM Trigger Event

The Notes shall be redeemed at their Early Redemption Amount if an MTM Trigger Event occurs. An MTM Trigger Event shall occur if on any Business Day the Market Trigger Condition, as determined by the Series Calculation Agent, has been satisfied and the Series Calculation Agent has notified the Issuer, the Notice Agent, the Clearing System, the Trustee, the Noteholders and the Swap Counterparty of such occurrence within 10 Business Days and such notice shall be deemed to constitute an Early Redemption Event Notice.

For the purpose of the above a Market Trigger Condition shall be satisfied on any Business Day when the difference between (i) the market value of the Securities as determined by the Calculation Agent and (ii) the market value of the Swap Agreement, being the amount (positive or negative) that the Issuer would pay to the Swap Counterparty for unwinding the Swap Agreement as of such date as determined by the Calculation Agent, falls below 30% of the notional amount of the Swap Agreement.

The Notes shall not be redeemed early unless pursuant to Conditions 7(c), 7(d), 7(g) and 7(m), an Early Redemption Event Notice is delivered on or prior to the Latest Determination Time.

The Issuer may only issue further notes having the same terms and conditions as the Notes in all respects and so that such further issue shall be consolidated and form a single series with the Notes in accordance with Condition 14 if the value of the Mortgaged Property relating to the series is correspondingly increased.

Where some only of the Notes are to be redeemed and cancelled in accordance with Condition 7(k), the early redemption amount payable in respect of each Note shall be determined by the Series Calculation Agent in accordance with the preceding provisions in paragraph 30(i) above, *mutatis mutandis*, as if:

- (i) reference therein to the realisation of the Collateral Securities, were to the realisation of a *pro rata* portion of the Collateral Securities;
- (ii) references therein to the termination of the Swap Agreement were to the *pro rata* partial termination of the Swap Agreement; and
- (iii) “N” was defined as the number of Notes being redeemed.
