THE NOTES AND ANY BENEFICIAL INTERESTS THEREIN MAY NOT BE REOFFERED, RESOLD, PLEDGED, EXCHANGED OR OTHERWISE TRANSFERRED AT ANY TIME EXCEPT TO PERSONS WHO (A) ARE NOT "U.S. PERSONS" AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT ("**REGULATION S**") IN AN OFFSHORE TRANSACTION MEETING THE REQUIREMENTS OF REGULATION S; (B) ARE "NON-UNITED STATES PERSONS" AS DEFINED IN RULE 4.7(a)(1)(iv) OF THE RULES OF THE COMMODITY FUTURES TRADING COMMISSION (THE "**CFTC**"); AND (C) ARE NOT A "U.S. PERSON" AS DESCRIBED IN AND FOR THE PURPOSES OF THE CFTC'S INTERPRETIVE GUIDANCE AND POLICY STATEMENT REGARDING COMPLIANCE WITH CERTAIN SWAP REGULATIONS, 78 FED REG. 45292 (JULY 16, 2013), IN EACH CASE AS AMENDED FROM TIME TO TIME.

This Series Listing Particulars (this "**Series Listing Particulars**") is prepared in connection with the Note Issuance Program of EM Falcon Limited (the "**Issuer**") and must be read in conjunction with the Base Listing Particulars dated November 11, 2015 (the "**Base Listing Particulars**" and, together with this Series Listing Particulars, the "**Listing Particulars**" or the "**Placement Memorandum**"), issued by the Issuer. Terms used but not defined in this Series Listing Particulars have the same meanings as in the Base Listing Particulars. The Base Listing Particulars is incorporated by reference into this Series Listing Particulars.

This Series Listing Particulars has been prepared for the purpose of giving information about the issue of the Notes.

This document does not constitute a "prospectus" for the purposes of the Prospectus Directive (Directive 2003/71/EC) as implemented in Ireland by the Prospectus Regulations 2005.

Application has been made to the Irish Stock Exchange for the approval of this Series Listing Particulars.

Application has been made to the Irish Stock Exchange for the Notes to be admitted to the Official List and to trading on the Global Exchange Market of the Irish Stock Exchange (the "**Global Exchange Market**"). The Global Exchange Market is not a regulated market for the purposes of Directive 2004/39/EC.

The Notes were issued on September 2, 2015 pursuant to the Series 2015-01 Indenture described herein (as supplemented, the "**Indenture**") among The Bank of New York Mellon as trustee (the "**Trustee**"), the Issuer and the other parties thereto.

The secured assets relating to the Notes will be referred to herein as the "**Charged Assets**". The holders of the Notes (the "**Holders**" or the "**Noteholders**") have recourse only to the Charged Assets. The Charged Assets primarily consist of (i) the Underlying Securities described herein, (ii) the Issuer's rights under the Applicable Transaction Agreement described herein, the Collateral Disposal Agreement and the other agreements (other than the Indenture and the Brazilian Pledge Agreement) entered into in connection with the issuance of the Notes, (iii) the Collection Account, (iv) the Brazilian Account and the related sub-account(s) in which the Underlying Securities are held by the Brazilian Account Custodian, (v) certain property incidental thereto, and (vi) the proceeds of the foregoing. See "The Charged Assets" herein.

The Notes were issued in Book-Entry form and are represented by one or more Global Notes in registered form. The Notes will initially be represented by a Global Note registered in the name of the nominee of a common depositary for Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream**").

The Notes have not been and will not be registered with the Securities and Exchange Commission of Brazil (*Comissão de Valores Mobiliários* - CVM) in the Federative Republic of Brazil ("**Brazil**"). Therefore, the Notes may not be publicly offered in Brazil. The issuance of the Notes, as well as trading and payments in respect of the Notes, will occur outside Brazil. Any investor of Brazilian nationality that purchases the Notes does so at its own risk.

The Notes are not rated.

The Notes have not been and will not be registered under the Securities Act. The Notes may not be offered or sold within the United States or to U.S. persons at any time. The offering and sale of the Notes pursuant to this Series Listing Particulars and the Base Listing Particulars shall be subject to the transfer restrictions set forth herein and therein.

The Series of Notes was structured so as not to meet the definition of a "covered fund" for purposes of Section 619 (the "**Volcker Rule**") under the Dodd-Frank Wall Street Reform and Consumer Protection Act. This structuring relies on provisions in the relevant implementing regulations that exclude a non-US entity that has been offered and sold solely outside the United States from the definition of covered fund for a U.S. banking entity that neither (1) holds an "ownership interest" in the non-U.S. entity nor (2) "sponsors" the non-U.S. entity. However, there is uncertainty in interpreting the applicable provisions of the Volcker Rule and the implementing regulations. If the Series of Notes or the Issuer were determined to be a covered fund, the determination could negatively affect the liquidity and market value of the Notes and the ability of Morgan Stanley to enter into transactions with the Issuer.

The language of this Listing Particulars is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

The Issuer accepts responsibility for all the information contained in this Listing Particulars and, to the best of the knowledge and belief of the Issuer (which has taken all reasonable care to ensure that such is the case), the information contained in this Listing Particulars is in accordance with the facts and does not omit anything likely to affect the import of such information. The Trustee makes no representation whatsoever with respect to any of the information contained herein.

The Issuer is not and will not be regulated by the Central Bank of Ireland (the "**Central Bank**") as a result of issuing the Notes. Any investment in the Notes does not have the status of a bank deposit and is not within the scope of the deposit protection scheme operated by the Central Bank.

ANNEX A – Form of Applicable Transaction Agreement.....	Annex A-1
ANNEX B – Defined Terms.....	Annex B-1

RISK FACTORS

The risk factors below must be read in conjunction with the risk factors set forth in the Base Listing Particulars. To the extent any provision in this Series Listing Particulars is inconsistent with the Base Listing Particulars, the provisions in this Series Listing Particulars shall control.

There are significant risks associated with the Notes, including but not limited to interest rate risk, price risk, liquidity risk, credit risk and non-recourse risk. Investors should consult their own financial, legal, accounting and tax advisors about the risks associated with an investment in the Notes, the appropriate tools to analyze that investment, and the suitability of that investment in each investor's particular circumstances. No investor should invest in the Notes unless that investor understands and has sufficient financial resources to bear the price, market, liquidity, structure and other risks associated with an investment in the Notes. Each Noteholder, by purchasing Notes, acknowledges and agrees that the occurrence of any of the circumstances described in the risk factors below, or of other risks not described herein, could result in its receiving substantially less than the Principal Balance of its Notes and even zero.

Non-Recourse Risk

The Issuer will have no assets to service the Notes other than the Charged Assets, which comprise principally the Underlying Securities and the Applicable Transaction Agreement. To the extent that these assets of the Issuer are not sufficient to meet the claims of any Noteholders and any creditor ranking in priority thereto, such claims will not be paid and will be extinguished and the Noteholders will have no right to take any legal action against the Issuer in such circumstance. None of the Transaction Counterparty, the Transaction Counterparty Guarantor and their respective affiliates (collectively, the "**Morgan Stanley Entities**") will have any obligation to make payments of principal or interest on any of the Notes.

Currency Risk and Convertibility Event

Although the Notes are denominated in USD, the Underlying Securities are denominated and paid in BRL. As a result, payments made under the Underlying Securities in BRL will need to be converted to USD in order for the Issuer to make payments under the Notes. The Issuer has entered into the Applicable Transaction Agreement to effect a hedge of its BRL/USD exposure. However, if a Convertibility Event occurs such that conversion of BRL to USD is not possible, the Holders may receive an amount in BRL which cannot be converted to USD, or an amount in USD converted from BRL at a rate determined by the Currency Exchange Bank and not by reference to any official currency exchange rate.

Currency exchange rates are volatile and unpredictable and may be affected by macroeconomic factors and speculation. Such rates and the ability to convert from one currency to another may be influenced by direct governmental action or political or economic developments in Brazil or elsewhere and could lead to significant and sudden changes in the exchange rate between BRL and USD. In certain circumstances the Determination Agent may determine in its sole discretion the exchange rate which will apply for converting between BRL and USD.

Liquidity Risk

The Notes should be viewed as a longer term investment, not as a trading investment. There is no guarantee that any secondary market in the Notes will exist at any point in time. None of the Morgan Stanley Entities is obligated to make a market for any Notes and may or may not do so.

Issuer's Ability to Meet Its Payment Obligations on the Notes is Dependent Upon Performance of Others

The ability of the Issuer to meet its payment obligation on the Notes (after payment in full has been made by the Issuer of all amounts due and owing which rank senior in priority thereto) depends upon timely receipt by the Issuer of all amounts payable to it in respect of the Underlying Securities and under the Applicable Transaction Agreement.

Transaction Counterparty Default Risk

The ability of the Issuer to meet its payment obligation on the Notes is linked to the performance of the Applicable Transaction Agreement. Therefore, Noteholders are exposed to the credit risk of the Transaction Counterparty and the Transaction Counterparty Guarantor. Upon a bankruptcy of, or failure to pay by the Transaction Counterparty and the Transaction Counterparty Guarantor, the Applicable Transaction Agreement may be terminated by the Issuer and the Notes

will be redeemed early in accordance with their terms. In those circumstances, Noteholders may receive substantially less than the Principal Balance of the Notes upon redemption and may even receive zero.

Underlying Securities Issuer Credit Risk

The ability of the Issuer to meet its payment obligation on the Notes in a timely manner or at all is conditional on the actual receipt by the Issuer of corresponding payments of interest and principal from the Underlying Securities Issuer in accordance with the terms of the Underlying Securities. A default by the Underlying Securities Issuer on its payment obligations under the Underlying Securities may result in a Holder of Notes receiving less interest or principal payments than the respective amounts provided for in such Notes, or no payment at all, and/or receiving any such payments later than the anticipated date for payment. In addition, a reduction in the credit rating of the Underlying Securities Issuer or its default on other obligations outstanding may adversely impact the value of the Notes.

Other Issuer Obligations Rank in Priority of Payment to Payments on the Notes

Payments of principal and interest in respect of the Notes will be made after the payment of certain other amounts payable by the Issuer, as set out in the relevant Priority of Payments. In particular, certain accrued and unpaid expense payments due to the Trustee, the Brazilian Account Custodian and other service providers of the Issuer and amounts due to the Transaction Counterparty under the Applicable Transaction Agreement (including any Termination Payment) will be made before payments are made to the Noteholders. In certain circumstances, returns to the Noteholders may be substantially less than the Principal Balance of the Notes and may even be zero.

Notes May be Redeemed at Less Than 100% of Principal if Redeemed Early

If the Notes are, for any reason, redeemed prior to the Scheduled Maturity Date, Holders will receive either BRL or USD, as more fully described herein. In each case the Holder may face delays in receipt or payment. The Early Redemption Amount is calculated by reference to amounts received by the Issuer as holder of the Underlying Securities. The Liquidation Proceeds Amount is the amount received on disposal of the Underlying Securities, and is accordingly liable to be affected by market conditions. The Early Redemption Amount and the Liquidation Proceeds Amount may be, depending on the circumstances and as further described herein, payable in BRL or in USD, depending on whether certain Local Settlement Conditions are satisfied or a Convertibility Event has occurred and is continuing (and if so, for how long). In addition, any amounts payable will be reduced by amounts ranking prior to the Holders in the Priority of Payments.

If an Underlying Securities Early Redemption has occurred, the Holder will receive the Early Redemption Amount in USD or, subject to the Local Settlement Conditions, in BRL, corresponding to such Underlying Securities so redeemed, calculated using the PTAX Rate or, if a Convertibility Event has occurred and is continuing for 30 calendar days or longer, using an exchange rate determined by the Currency Exchange Bank in its sole discretion. If an Underlying Securities Default, a Tax Redemption Event, Indenture Event of Default (other than an Underlying Securities Default), or a Convertibility Event that is also an Early Redemption Event has occurred, the Holder will receive, subject to deduction of an amount equal to all claims which rank in priority to such Holder in accordance with the Priority of Payments, either (i) subject to the Local Settlement Conditions for cash payments being satisfied, at the Holder's request an amount in BRL or, unless a Convertibility Event has occurred and is continuing, USD (calculated using the PTAX Rate), in each case equal to such Holder's pro rata share of the Liquidation Proceeds Amount or (ii) if a Convertibility Event has occurred and is continuing, and, except where a Convertibility Event has occurred that is also an Early Redemption Event, an amount in USD equal to such Holder's pro rata share of the Liquidation Proceeds Amount calculated using an exchange rate determined by the Currency Exchange Bank in its sole discretion.

If it is unlawful, impossible or otherwise impracticable to convert the redemption or liquidation proceeds received from the Underlying Securities as set out above, the Issuer will hold the BRL amounts that would otherwise be payable on redemption or liquidation for the account and risk of the relevant Holder until either (i) such transfer is permitted or (ii) the Holder has elected to receive payment in BRL and the Local Settlement Conditions are satisfied, but the Issuer shall not in any event hold the Underlying Securities or such amounts longer than the Holding Period. If after the expiration of the Holding Period it is still unlawful, impossible or otherwise impracticable to make the necessary payment, the relevant Holder will receive its pro rata share of the USD equivalent, determined by the Currency Exchange Bank (calculated using the PTAX Rate), of the Early Redemption Amount or the Liquidation Proceeds Amount, as the case may be, which may be zero.

Notes May be Redeemed Early if an Early Redemption Event or Indenture Event of Default Occurs

The Notes will be redeemed prior to the Maturity Date in the event that (i) an Early Redemption Event occurs prior to such date or (ii) an Indenture Event of Default occurs prior to such date and the Holder opts to have its Notes redeemed early. On redemption of the Notes in these circumstances, Holders may not be repaid the full amount of their investment in the Notes. See "Notes May be Redeemed at Less Than 100% of Principal if Redeemed Early" above.

Action or lack of action taken by the government of the Underlying Securities Issuer and changes in political, economic or social conditions in the jurisdiction of the Underlying Securities Issuer could lead to the occurrence of an Early Redemption Event which would affect the rights of the Holders to receive payments in respect of Notes in USD and would affect the market conditions and price of the Underlying Securities.

Termination of the Applicable Transaction Agreement

An Early Redemption Event can occur in a number of circumstances including where the Transaction Counterparty has exercised its right to terminate the Applicable Transaction Agreement. The Transaction Counterparty does not owe any duty or obligation to Noteholders in the exercise of its right to terminate the Applicable Transaction Agreement. Prior to making an investment decision, potential investors must ensure that they have reviewed in full and fully understand the circumstances in which the Applicable Transaction Agreement can be terminated by the Issuer and/or the Transaction Counterparty and the consequences of such termination. Because the termination of the Applicable Transaction Agreement will result in an Early Redemption Event, the Notes will be redeemed early at an amount which may be substantially less than the Principal Balance of the Notes and may even be zero.

Market Value Risk with respect to the Underlying Securities

In addition to the credit risk with respect to the Underlying Securities, holders of the Notes will be exposed to market value risk with respect to the Underlying Securities. If an Early Redemption Event or an Indenture Event of Default occurs, the Issuer's primary source of funds for redeeming the Notes will be the redemption proceeds or, as the case may be, liquidation proceeds of the Underlying Securities. In the case of a liquidation of the Underlying Securities, if the Issuer cannot sell the Underlying Securities for a price at least equal to the Principal Balance plus an amount equal to all claims which rank in priority to the claims of the Holders of the Notes in accordance with the Priority of Payments, the amount received by the Holders of the Notes will be reduced to reflect the Issuer's shortfall.

No Detailed Information About Underlying Securities

Prospective purchasers of the Notes are urged to undertake their own investigation of the Underlying Securities. Neither the Issuer nor any Morgan Stanley Entity will provide to any prospective Noteholder any information other than what is set forth herein. The limited information concerning any Underlying Securities and any issuer thereof that is set forth herein is based upon publicly available sources and has not been independently checked or verified by the Issuer, the Distributor, the Transaction Counterparty, any other Morgan Stanley Entity, the Trustee or anyone else in connection with the issuance of the Notes.

Certain Conflicts of Interest

With respect to the Notes, various potential and actual conflicts of interest may arise. Morgan Stanley Entities may have positions in, and may effect transactions in, securities and instruments of issuers mentioned herein and may also perform or seek to perform investments banking services for the issuers of such securities and instruments. In addition, the Morgan Stanley Entities are involved in the structure relating to the Notes at various levels and various conflicts of interest may arise as a result of the roles each undertakes in the structure as well as from the overall activities of the Morgan Stanley Entities.

Tax Considerations

Special tax considerations may apply to certain types of taxpayers. Prospective investors are urged to consult with their own tax advisors to determine any tax implications of this investment.

Accounting Considerations

Special accounting considerations may apply to certain types of investors. Prospective investors are urged to consult with their own accounting advisors to determine implications of this investment.

Brazilian Account Custodian Risk

The Underlying Securities will be held by the Brazilian Account Custodian as custodian and therefore the insolvency of the Brazilian Account Custodian could adversely affect the amount or timing of payments on the Notes if the corresponding payments of interest and principal on the Underlying Securities are subject to the claims of creditors of the Brazilian Account Custodian. Further, the Brazilian Account Custodian may resign as custodian upon 90 days' written notice to the Issuer if a successor custodian has been selected and appointed by the Trustee following appropriate direction from the Holders of Notes. The resignation of the Brazilian Account Custodian and the selection and appointment of a successor custodian may cause payments of interest or principal on the Notes to be delayed.

Currency Exchange Bank Risk

The Currency Exchange Bank will convert amounts received by the Issuer in BRL into USD and transfer such amounts to the Collection Account. For the period between the time that funds received by the Issuer in the Brazilian Account have been transferred to the Currency Exchange Bank to be converted into USD and a transfer of funds to the Collection Account has been completed, the Holders will be exposed to the credit risk of the Currency Exchange Bank. In the event of an insolvency of the Currency Exchange Bank during this period, the Holders may be treated as unsecured creditors of the Currency Exchange Bank. Under such circumstances the amount or timing of payments on the Notes could be adversely affected.

Risk Related to Failure to Maintain a Valid Security Interest in the Charged Assets

The Trustee's security interest in the Charged Assets may depend on timely and properly filing recordings, filings or registrations in Brazil, Ireland, the United Kingdom or the United States that evidence such security interest. Such recordings, filings or registrations may need to be made on a periodic basis in order to maintain the validity of the Trustee's security interest. The Issuer is responsible for making and maintaining all such filings necessary to maintain a perfected security interest in the Charged Assets. The Trustee takes no responsibility for effecting or monitoring these recordings, filings or registrations. In addition the ability of Trustee, as an entity that is not domiciled or regulated by a relevant governing body in Brazil, to foreclose on the Charged Assets under Brazilian law may be subject to legal or other challenges under Brazilian law. A failure to maintain the validity of the Trustee's security interest in the Charged Assets or of the ability of the Trustee to foreclose on the Charged Assets under Brazilian law may adversely affect the amount that the Holders receive in the event of liquidation or redemption of the Underlying Securities or other Charged Assets. Certain costs relating to a foreclosure on the Charged Assets incurred by the Trustee will be paid as a first priority from the proceeds of such foreclosure.

Holders Should Seek Independent Advice before Purchasing the Notes

By its purchase of a Note, each Holder represents that it has sought independent legal, regulatory, tax, business, investment, financial and accounting advice to the extent it deems such advice necessary in evaluating and understanding all the conditions and the risks of such Note, and it is willing to assume (financially and otherwise) all such risks.

OVERVIEW OF THE NOTES

Any decision to invest in the Notes should be based on a consideration of the Prospectus as a whole, including any documents incorporated by reference. Following the implementation of the relevant provisions of the Prospectus Directive in each Member State of the European Economic Area (an "EEA State"), no civil liability will attach to the Responsible Person(s) in any such Member State solely on the basis of this overview, including any translation thereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus or it does not provide, when read together with the other parts of the Prospectus, key information in order to aid investors when considering whether to invest in the Notes. Credit Support Annex

Under the terms of the Credit Support Annex and subject to limited recourse provisions contained in the Applicable Transaction Agreement, the Issuer will post as collateral the Underlying Securities in favor of the Transaction Counterparty, which posting will be deemed satisfied by the Issuer entering into the Brazilian Pledge Agreement. Any failure by the Issuer to post sufficient collateral as a result of the limited recourse provisions shall not constitute an Event of Default or a Termination Event under the Applicable Transaction Agreement so long as the Issuer has posted all the Underlying Securities under the Credit Support Annex by entering into the Brazilian Pledge Agreement.

Applicable Transaction Agreement Reporting
and Other Obligations:

The ISDA 2013 EMIR Portfolio Reconciliation, Dispute Resolution and Disclosure Protocol (the "**EMIR Protocol**") enables parties to amend the terms of their 'Protocol Covered Agreements' (as defined in the EMIR Protocol) to reflect the portfolio reconciliation and dispute resolution requirements imposed by Regulation (EU) No 648.2012 of the European Parliament and of the Council of 4 July 2012 on OTC derivatives, central counterparties and trade repositories ("**EMIR**") as well as to include a disclosure waiver to help ensure parties can meet the various reporting and record keeping requirements under EMIR without breaching confidentiality restrictions. In order for the Transaction Counterparty to comply with its obligations under EMIR, the Issuer will enter into a bilateral agreement with the Transaction Counterparty that would have an analogous effect to the EMIR Protocol.

In addition or alternatively, the ISDA August 2012 and March 2013 DF Protocols (the "**DF Protocols**") are multilateral contractual mechanisms that allow for various standardized amendments to be deemed to be made to the relevant Protocol Covered Agreements (as defined in the DF Protocols) between any two adhering parties and for certain new agreements to be entered between any two adhering parties. They build on the principle that parties may agree with one or more other parties that certain terms and provisions will apply to their respective relationships (unless and until they specifically agree otherwise). The DF Protocols are designed to supplement existing written agreements governing the terms and conditions of one or more transactions in swaps. The DF Protocols also allow adhering parties to enter into an agreement to apply selected Dodd-Frank compliance provisions to their trading relationship in respect of swaps that are not (i) governed by a written agreement that exists at the time of execution of the swap, which provides for, among other things, the terms governing the payment obligations of the parties in respect of such swap, or (ii) agreed by the parties to be cleared on a clearing organization. In order for the Transaction Counterparty to comply with its obligations under Dodd-Frank Act, the Issuer will enter into a bilateral agreement with the Transaction Counterparty that would have an analogous effect to the DF Protocols.

The recipients identified in paragraphs (i) to (vi) above are together referred to as the "Secured Parties".

Convertibility Events: "Convertibility Event" means the occurrence or continuance of an Inconvertibility Event or a Non-Transferability Event during the period from and including the Valuation Date to and including the Maturity Date as determined by the Determination Agent in its sole and absolute discretion.

Inconvertibility Event: (a) The occurrence of any event or circumstance (including an event that occurs as a result of the enactment, promulgation, execution, ratification, interpretation, application of, or any change in or amendment to, any law, rule, or regulation by any Governmental Authority) that generally makes it impossible, illegal or impracticable to convert BRL into USD through customary legal channels or to effect currency transactions on terms as favorable as those available to residents, in either case, in Brazil; or (b) it becomes impossible to determine a rate of exchange for the conversion of BRL into USD; or (c) the imposition of any incremental taxes or charges that could amount to any of the foregoing.

Non-Transferability Event: The occurrence of any event (including an event that occurs as a result of the enactment, promulgation, execution, ratification, interpretation, application of, or any change in or amendment to, any law, rule, or regulation by any Governmental Authority) that makes it impossible, illegal or impractical generally to transfer through customary legal channels any funds (including funds in BRL inside Brazil and in USD outside of Brazil), securities or other assets: (i) between accounts inside Brazil; or (ii) between accounts held outside of Brazil of a financial institution domiciled or regulated by a relevant governing body in Brazil and an account held by any other party outside of Brazil; or (iii) the imposition of any incremental taxes or charges that could amount to any of the foregoing.

Governmental Authority: The government of Brazil, any other political subdivision thereof, whether state or local, and any agency, authority, instrumentality, regulatory body, court, central bank or other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government.

Effect of a Convertibility Event: Upon the occurrence of a Convertibility Event, Noteholders may receive a notice (in writing or through the relevant clearing system) allowing for election by such Noteholder of:

- (i) Convertibility BRL Settlement, provided that the Local

Settlement Conditions are satisfied;

- (ii) Convertibility Postponement; or
- (iii) Convertibility USD Settlement.

If, for any reason, (a) a valid election is not received 10 Business Days prior to the relevant scheduled payment date with respect to an election of Convertibility BRL Settlement; or (b) a valid election is not received 3 Business Days prior to the relevant scheduled payment date with respect to an election of Convertibility Postponement; or (c) Convertibility BRL Settlement is elected but the Local Settlement Conditions are not satisfied, Convertibility USD Settlement will apply. The Notes will redeem 2 Business Days following the election (or deemed election) of Convertibility BRL Settlement or Convertibility USD Settlement (as applicable) (the "**Convertibility Settlement Date**").

Convertibility BRL Settlement: If Convertibility BRL Settlement is elected and the Local Settlement Conditions are satisfied, the Notes will redeem in full in BRL, subject to the Priority of Payments, by application of the redemption proceeds of the Underlying Assets in BRL plus or minus (as applicable) the BRL FX Forward Amount under the FX Forward Transaction (the amount of such payment to Noteholders, the "**BRL Settlement Amount**").

Local Settlement Conditions:..... Local Settlement Conditions will be met if:

- (a) a Noteholder provides the Trustee with details of a nominated on-shore Brazilian account to which the BRL can be delivered;
- (b) such Noteholder represents, and provide evidence demonstrating to the Determination Agent's satisfaction (at its sole and absolute discretion), which evidence may include any required governmental licenses, permits, authorizations or approvals, that it is legal under the laws of Brazil for such Noteholder to receive the payment through such nominated account; and
- (c) the Determination Agent determines, in its sole discretion, that such payment can legally be made in the manner in which such payments are customarily made on instruments similar to the Notes and without limiting the Issuer's ability to make payments in BRL to the nominated on-shore Brazilian accounts of the other holders of the Notes.

The Trustee, the Issuer, the Calculation Agent, the Collateral Disposal Agent, the Currency Exchange Bank and the Brazilian Account Custodian make no representations as to the current or future legality of making or receiving payments in Brazil or in BRL. Each Holder acknowledges that restrictions may currently exist that make local settlement in BRL unlawful within Brazil, in which case payments may be made only in USD in accordance with the terms set forth above.

Convertibility Postponement: If Convertibility Postponement is elected, all payments under the Notes to such electing Noteholder will be postponed until the earlier of (a) 2 Business Days following the date on which the Determination Agent determines in its sole and absolute discretion that a Convertibility Event is no longer occurring or continuing (the "**Convertibility Cessation Date**"); and (b) 90 calendar days following the Scheduled Maturity Date (the "**Convertibility Postponement End Date**").

The Notes will redeem in full either:

- (a) on the Convertibility Cessation Date by payment of the Redemption Amount in USD, subject to the Priority of Payments, provided that no additional interest shall be payable in respect of the period of postponement of payment; or
- (b) on the Convertibility Postponement End Date in accordance with Convertibility USD Settlement (other than for the date of settlement).

Convertibility USD Settlement: If Convertibility USD Settlement is elected or otherwise applies, the Notes will redeem in full in USD, subject to the Priority of Payments, at the BRL Settlement Amount, as converted into USD at the rate that the Determination Agent, in its sole and absolute discretion, determines to be the rate of exchange of BRL for USD that are deliverable to an account that is located outside of Brazil of a non-Brazilian financial institution on the relevant Convertibility Settlement Date.

Payments on or after the Maturity Date and upon an Early Redemption Event:

On or after the Scheduled Maturity Date Unless redeemed pursuant to an Early Redemption Event or an Indenture Event of Default occurs on or prior to the Scheduled Maturity Date of the Notes, the redemption proceeds or liquidation proceeds of the Underlying Securities, plus or minus any Termination Payment payable to or by the Issuer in respect of the Applicable Transaction Agreement, will be applied in accordance with the Priority of Payments set out above to redeem the Notes in full.

Early Redemption Upon the occurrence of an Indenture Event of Default or Early Redemption Event:

(i) the Calculation Agent will promptly notify the Issuer and the Trustee of its determination that an Indenture Event of Default or Early Redemption Event (as applicable) has occurred;

(ii) the Applicable Transaction Agreement will be terminated and the Transaction Counterparty will calculate the Termination Payment in respect of thereof;

(iii) the Collateral Disposal Agent, acting as agent on behalf of the Issuer, will procure the sale of the Underlying Securities for the Issuer; and

(iv) the Underlying Securities sale or redemption proceeds, plus or minus any Termination Payment due to the Issuer or the Transaction Counterparty, as applicable, will be applied in accordance with the Priority of Payments within 5 Business Days following the sale or redemption of the Underlying Securities.

Early Redemption Event The Notes will redeem early (the date on which the Notes redeem early herein referred to as the "**Early Redemption Date**") upon the occurrence of any of the following early redemption events (each, an "**Early Redemption Event**"): (i) an Applicable Transaction Agreement Redemption Event; (ii) a Regulatory Event; (iii) a Tax Redemption Event; and (iv) an Underlying Securities Event.

An "**Applicable Transaction Agreement Redemption Event**" occurs when the Applicable Transaction Agreement is terminated in whole (but not in part) (unless such termination occurs as a result of an Indenture Event of Default or any other Early Redemption Event), without replacement thereof (on or prior to such termination) that is satisfactory

to and has the prior written approval of the Trustee, at the direction of the Transaction Counterparty.

The Transaction Counterparty may terminate the Applicable Transaction Agreement and the Notes will redeem early if it determines that at any time after the Trade Date a Regulatory Event has occurred. The Issuer and the Transaction Counterparty will each be an Affected Party in the case of such Additional Termination Event.

"Regulatory Event" means the determination by the Transaction Counterparty that there is an implementation or adoption of, or change in, any applicable law or regulation, or the interpretation or administration thereof by any court, tribunal or regulatory authority with competent jurisdiction, or the Transaction Counterparty reasonably anticipates the imminent occurrence of any of the foregoing, the effect of which is that it is or will be unlawful, impossible or impracticable for the Transaction Counterparty to maintain or carry out the FX Forward Confirmation or that compliance with the foregoing will result in materially increased costs of the Transaction Counterparty.

A **"Tax Redemption Event"** occurs when:

(i) the Issuer on the occasion of the next payment due in respect of the Notes would be required to withhold or account for tax;

(ii) the Issuer would be unable to make payment of any amount due on the Notes because (a) the Issuer pays tax in respect of its income with respect to the Underlying Securities or payments made to it under the Applicable Transaction Agreement, (b) the Issuer becomes subject to an obligation to deduct or withhold tax on payments made by it under the Applicable Transaction Agreement and to pay an additional amount under the Applicable Transaction Agreement in respect thereof, or (c) the payments in respect of the Underlying Securities or payments made to the Issuer under the Applicable Transaction Agreement are made net of any tax; or

(iii) any exchange controls or other currency exchange or transfer restrictions or taxes are imposed on the Issuer or any payments to be made to or by the Issuer (save for any such exchange controls or other currency exchange or transfer restrictions or tax imposed upon payments made by the Issuer solely by reason of the jurisdiction of any Noteholder or by reason of the failure of any Noteholder to comply with any applicable procedures required by the relevant authority to establish an exemption from such), the Trustee having required the Issuer to use its best endeavors to procure the substitution of a company incorporated in another jurisdiction (in which jurisdiction the relevant tax, exchange control, or currency exchange or transfer restrictions do not apply) approved in writing by the Trustee as the principal obligor in respect of the Notes, or the establishment of a branch office in another jurisdiction (in which jurisdiction the relevant tax, exchange control, or currency exchange or transfer restrictions do not apply) approved in writing by the Trustee as directed by the Holders of at least a majority of the Principal Balance of the Notes (in each case subject to the satisfaction of certain conditions as more fully specified in the Indenture) and the Issuer, having used its best endeavors, is unable to arrange such substitution before the next payment is due in respect of the Notes.

For the avoidance of doubt, a Tax Redemption Event addresses taxes imposed on the Issuer in respect of the Notes. Convertibility Events and

/ or Brazilian taxes with respect to the Underlying Assets are not addressed in a Tax Redemption Event.

An "**Underlying Securities Event**" occurs when:

(i) there has been a payment default on the due date therefor (subject to the expiry of any applicable grace period) in respect of the Underlying Securities;

(ii) the Underlying Securities have been redeemed prior to their stated maturity date in an amount less than the principal amount of the Underlying Securities;

(iii) the Underlying Securities Issuer disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, its obligations under the Underlying Securities;

(iv) the Underlying Securities Issuer declares or imposes a moratorium, standstill, roll-over or deferral, whether de facto or de jure, with respect to the relevant obligations under any of the Underlying Securities;

(v) the terms and conditions of the Underlying Securities are amended such that the Underlying Securities Issuer shall no longer be obliged to pay the same amounts on the same day as contemplated in the terms and conditions of the date of issue of the Notes; or

(vi) the Underlying Securities are capable of being declared due and payable before they would otherwise have become due and payable in accordance with their terms and conditions.

Specified Currency	All payments of interest and principal under the Notes are payable in USD.
Authorized Denominations and Minimum Subscription	USD1,000,000 and integral multiples of USD500 in excess thereof.
Ratings	The Notes are not rated.
Listing	Application has been made to the Irish Stock Exchange for the Notes to be admitted to trading on the Global Exchange Market.
MS Note Redemption	<p>In the case of any Notes held by a Morgan Stanley Affiliate which were acquired by it in a market-making or riskless principal transaction, such Morgan Stanley Affiliate (each such person, a "Morgan Stanley Noteholder") shall have the option, exercisable at any time and from time to time upon one (1) day's written notice, to require the Issuer to redeem all or some only of the Notes held by it (or beneficially owned by it) (the "MS Note Redemption").</p> <p>Upon an exercise of the MS Note Redemption, the Relevant Portion of the Applicable Transaction Agreement will terminate and the Calculation Agent will:</p> <p>(i) arrange for the sale or liquidation of the Relevant Portion of the Underlying Securities (rounded down, if appropriate, to the nearest denomination) and that amount of the Underlying Securities shall be released from the security constituted by the Charged Assets; and</p> <p>(ii) identify any changes to the terms and conditions of the Notes and the Applicable Transaction Agreement which the Calculation Agent considers are required in order to reflect and account for the redemption pursuant to the exercise of the MS Note Redemption and to ensure that</p>

the amounts payable on those Notes which are not redeemed are the same (in all material respects) as the amounts which would have been payable on those Notes but for that redemption. Upon identification by the Calculation Agent of any such changes, the terms and conditions of the Notes and the Applicable Transaction Agreement will be deemed to be amended without any further action required by or consent from any other party.

For this purpose, "**Relevant Portion**" means, in relation to the notional amount of the Applicable Transaction Agreement or the aggregate principal amount of the Underlying Securities, a share thereof corresponding to the proportion which the Principal Balance of the Notes to be redeemed bears to the aggregate Principal Balance of all of the Notes (including the Notes to be redeemed).

The Redemption Amount in respect of all the Notes to be redeemed in the event of an exercise of the MS Note Redemption is an amount equal to (a) the proceeds of sale or liquidation of the Relevant Portion (subject to any rounding) of the Underlying Securities (net of the costs incurred in effecting that sale or liquidation) plus (b) the amount (if any) paid to the Issuer on termination of the Relevant Portion of the Applicable Transaction Agreement less (c) the amount (if any) payable by the Issuer on termination of the Relevant Portion of the Applicable Transaction Agreement less (d) an amount equal to all claims which rank in priority to the claims of the Holders of the Notes (and a pro rata amount will be payable in respect of each Note).

Governing Law

The Notes are governed by the law of the State of New York.

Transfer Restrictions

The Notes have not been and will not be registered under the Securities Act and the Issuer will not be registered under the Investment Company Act. The Notes will be offered only to non-U.S. persons in offshore transactions in reliance and in accordance with Regulation S under the Securities Act, in Authorized Denominations for any single beneficial owner. The Notes may not be offered, sold, reoffered, resold, pledged, exchanged or otherwise transferred at any time to any person except to a person who (a) is not a "U.S. person" as defined in Regulations S in an offshore transaction meeting the requirements of Regulation S; (b) is a "Non-United States Person" as defined in Rule 4.7(a)(1)(IV) of the Rules of the CFTC at 17 CFR § 4.7; and (c) is not a "U.S. person" as described in and for the purposes of the CFTC's Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, 78 Fed. Reg. 45292 (July 16, 2013), in each case as amended from time to time. Each purchaser of the Notes (whether by initial purchase or by transfer) will be deemed to have made the representations and agreements set forth in the Notice to Investors and the Transfer Restrictions sections in the Base Listing Particulars (as amended above).

Each Holder and beneficial owner of a Note will be deemed to acknowledge and agree that (a) the Distributor may obtain or be in possession of non-public information regarding the Underlying Securities Issuer which may not be made available to any Holder and (b) the Distributor makes no representations with respect to the Underlying Securities Issuer or the accuracy or completeness of any information regarding the foregoing.

The Notes must not be offered or sold in any jurisdiction except to persons whose investment activities involve them in acquiring, holding,

managing or disposing (as principal or agent) of investments of a nature similar to the Notes and who are particularly knowledgeable in investment matters.

Each purchaser agrees that it will comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes this term sheet or any offering material connected with the Notes.

No action has been or will be taken in any jurisdiction by the Issuer or the Distributor that would permit a public offering of Notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for the purpose is required. Persons into whose hands this term sheet and any offering material comes are required by the Issuer and the Distributor to comply with all applicable laws and regulations in each country in which they purchase, offer, sell or deliver Notes or have in their possession or distribute such offering material, in all cases at their own expense.

Each holder of a Note shall promptly notify the Distributor if at any time it becomes a "U.S. Person" as defined in Regulation S, it ceases to be a "Non-United States Person" as defined in CFTC Rule 4.7(a)(1)(iv), or it becomes a "U.S. Person" as described in and for the purposes of the CFTC's interpretive guidance and policy statement regarding compliance with certain swap regulations, 78 Fed Reg. 45292 (July 16, 2013). Each holder of a Note, and any intermediary involved in the sale of Notes, is required to notify any purchaser to whom it sells a Note of the resale restrictions described above. Any transfer in violation of the foregoing will be of no force and effect, will be void *ab initio*, and will not operate to transfer any rights to the transferee, notwithstanding any instructions to the contrary to the Issuer, Distributor, Trustee or any intermediary. If at any time the Issuer determines or is notified that the holder of a Note or a beneficial interest therein was in breach of any of the representations set forth in this Listing Particulars, the Issuer, Distributor or Trustee may declare the acquisition of the Note or such interest in the Note void, in the event of a breach at the time given, and, in the event of such a determination or notice of a breach, at the time given or at any subsequent time, the Issuer, Distributor or Trustee may require that the Note or such interest therein be transferred to a person designated by the Issuer.

Each beneficial owner of a Note (a) will be deemed to have made the representations and agreements set forth in these transfer restrictions of this Listing Particulars; and (b) acknowledges that the Issuer, Distributor and Trustee reserve the right prior to any sale or other transfer of a Note to require the delivery of such certifications, legal opinions and other information as the Issuer, Distributor and Trustee may reasonably require to confirm that the proposed sale or other transfer complies with the transfer restrictions of this Listing Particulars.

Limited Recourse.....

The Notes are limited recourse obligations of the Issuer. The payment of principal, interest and other amounts in respect of the Notes will be made solely from amounts actually received in respect of the Charged Assets in accordance with the Priority of Payments and not from the assets relating to any other Series or from the general assets of the Issuer. Holders of the Notes will not have any recourse to the general assets of the Issuer or any assets forming part of the Charged Assets of

any other Series of Notes. Moreover, no recourse shall be had for the payment of any amount owing in respect of the Notes or the Indenture against any officer, director, employee, stockholder or incorporator of the Issuer. The Charged Assets in respect of the Notes shall not be available or used to meet liabilities to, and shall be absolutely protected from, any creditors of the Issuer who are not Secured Parties in respect of the Notes, and who accordingly shall not be entitled to recourse to such Charged Assets. The fees and claims of, amongst others, the Trustee and any agent or receiver shall have priority over the claims of the Holders of the Notes in respect of the Charged Assets. The obligations of the Issuer to pay any amounts due and payable in respect of the Notes shall be limited to the proceeds available at such time to make such payments in accordance with the Priority of Payments. If the net proceeds of realization of the security constituted by the Indenture upon enforcement thereof (as converted to USD in accordance with the terms hereof) are less than the aggregate amount payable in such circumstances by the Issuer in respect of the Notes and to the other Secured Parties (such negative amount being referred to herein as a "**shortfall**"), all of the obligations of the Issuer in respect of the Notes and its obligations to the other Secured Parties in such circumstances will be limited to such net proceeds which shall be applied in accordance with the Priority of Payments. In such circumstances the Issuer will not be obligated to pay, and the other assets (if any) of the Issuer will not be available for payment of, such shortfall which shall be suffered by the Secured Parties in accordance with the Priority of Payments (applied in reverse order), the rights of the Secured Parties to receive any further amounts in respect of such obligations shall be extinguished and shall not thereafter revive and none of the Holders or the other Secured Parties may take any further action to recover such amounts. The application of any proceeds by the Trustee in accordance with the Priority of Payments shall be without any liability as to the consequence of such action and without having regard to the effect thereof on, or being required to account for such action to, any Secured Party; provided that the Trustee will not be required to take any action that would involve the Trustee in any liability or expense unless previously indemnified and/or secured to its satisfaction in its sole discretion.

Collateral Disposal Agreement.....

The power of attorney pursuant to which the Collateral Disposal Agent is appointed shall be a "Collateral Disposal Agreement" for the purposes of the Base Listing Particulars.

Voting and Noteholder Meetings.....

Notwithstanding anything to the contrary in the Base Listing Particulars, without the consent of 100% of the Noteholders, the Issuer may not (a) change the Scheduled Maturity Date or any Payment Date, or (other than as contemplated by the Notes as of their Issue Date) reduce the Principal Balance of any Note or the amount of interest payable thereon or change the coin or currency in which any Note or interest thereon is payable; (b) change the Priority of Payments for the application of collections; (c) impair the right to institute suit for the enforcement of any such payment on or after the date any such payment becomes due and payable; (d) reduce the percentage of Principal Balance, the consent of the Holders of which is required for the execution of any amendment or supplement to the Indenture, or the consent of the Noteholders of which is required for any waiver of compliance with provisions of the Indenture or for any waiver of Indenture Events of Default under the Indenture and their consequences

provided for in the Indenture; (e) change any obligation to redeem Notes or change any redemption price or dates; (f) permit the creation of any lien ranking prior to or on a parity with the lien of the Trustee for the benefit of, among others, the Noteholders under the Indenture with respect to any part of the Charged Assets (which change would also require the consent of the Trustee), or except as otherwise permitted thereunder, terminate the lien under the Indenture on any property at any time subject thereto or deprive a Noteholder of the security afforded by such liens; or (g) modify certain provisions of the Indenture relating to amendments, control or limitation on suits by Noteholders.

Replacement of the Brazilian Account Custodian

The Brazilian Account Custodian may, on 90 days' prior written notice to the Issuer, resign as custodian, provided that the Trustee has received written direction of at least 75% of the Holders of the aggregate principal amount of the outstanding Notes delivered to the Trustee by the Holders, specifying a successor thereto and such successor has been appointed.

The Brazilian Account Custodian may also be removed by the Trustee, on agreement with at least 75% of the Holders of the aggregate principal amount of the outstanding Notes, by directing the Issuer to request the resignation of the Brazilian Account Custodian (i) on 90 days' prior written notice to the Brazilian Account Custodian, or (ii) immediately in the event the Brazilian Account Custodian becomes subject to insolvency or bankruptcy proceedings or otherwise defaults in the performance of its duties.

Further Issues.....

The Issuer may from time to time without the consent of the Holders create and issue further Notes having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest on them) and so that such further issue shall be consolidated and form a single series with the outstanding Notes of the same Series. References to the Notes include (unless the context requires otherwise) such other further issues of Notes forming a single series with the outstanding Notes of the same series constituted by the Indenture or any supplemental indenture to the Indenture, and any other Notes may be constituted by a supplement to the Indenture.

change in, any applicable law or regulation, or the interpretation or administration thereof by any court, tribunal or regulatory authority with competent jurisdiction, or the Transaction Counterparty reasonably anticipates the imminent occurrence of any of the foregoing, the effect of which is that it is or will be unlawful, impossible or impracticable for the Transaction Counterparty to maintain or carry out the FX Forward Confirmation or that compliance with the foregoing will result in materially increased costs of the Transaction Counterparty.

Termination of Applicable Transaction Agreement The Issuer may terminate the Applicable Transaction Agreement if there is an Event of Default or a Termination Event (each as defined in the ISDA Master Agreement) with respect to the Transaction Counterparty and the Transaction Counterparty may terminate the Applicable Transaction Agreement if there is an Event of Default or a Termination Event with respect to the Issuer.

Applicable Transaction Agreement Reporting and Other Obligations The ISDA 2013 EMIR Portfolio Reconciliation, Dispute Resolution and Disclosure Protocol (the "**EMIR Protocol**") enables parties to amend the terms of their 'Protocol Covered Agreements' (as defined in the EMIR Protocol) to reflect the portfolio reconciliation and dispute resolution requirements imposed by Regulation (EU) No 648.2012 of the European Parliament and of the Council of 4 July 2012 on OTC derivatives, central counterparties and trade repositories ("**EMIR**") as well as to include a disclosure waiver to help ensure parties can meet the various reporting and record keeping requirements under EMIR without breaching confidentiality restrictions. In order for the Transaction Counterparty to comply with its obligations under EMIR, the Issuer will enter into a bilateral agreement with the Transaction Counterparty that would have an analogous effect to the EMIR Protocol.

In addition or alternatively, the ISDA August 2012 and March 2013 DF Protocols (the "**DF Protocols**") are multilateral contractual mechanisms that allow for various standardized amendments to be

deemed to be made to the relevant Protocol Covered Agreements (as defined in the DF Protocols) between any two adhering parties and for certain new agreements to be entered between any two adhering parties. They build on the principle that parties may agree with one or more other parties that certain terms and provisions will apply to their respective relationships (unless and until they specifically agree otherwise). The DF Protocols are designed to supplement existing written agreements governing the terms and conditions of one or more transactions in swaps. The DF Protocols also allow adhering parties to enter into an agreement to apply selected Dodd-Frank compliance provisions to their trading relationship in respect of swaps that are not (i) governed by a written agreement that exists at the time of execution of the swap, which provides for, among other things, the terms governing the payment obligations of the parties in respect of such swap, or (ii) agreed by the parties to be cleared on a clearing organization. In order for the Transaction Counterparty to comply with its obligations under Dodd-Frank Act, the Issuer will enter into a bilateral agreement with the Transaction Counterparty that would have an analogous effect to the DF Protocols.

Upon the occurrence of a Convertibility Event, the recipient of the Payment Amount (the "**Payee**") may elect either:

- (i) Convertibility BRL Payment, provided that the Local Payment Conditions are satisfied;
- (ii) Convertibility Postponement; or

Following such election by a Noteholder for either (x), (y) or (z), the Payee shall make a similar election of either Convertibility BRL Payment (provided that the Local Payment Conditions are satisfied), Convertibility Postponement or Convertibility USD Payment depending on whether such Noteholder elects (x), (y) or (z), respectively. Furthermore, the Payee's election hereunder may be in respect of a partial payment of the total Payment Amount and such amount shall be reflective of the pro rata share of the payments due under the Notes to any particular Noteholder making an election as described in this paragraph.

- (b) the Payee represents, and provides evidence demonstrating to the Determination Agent's satisfaction (at its sole and absolute discretion), which evidence may include any required governmental licenses, permits, authorizations or approvals, that it is legal under the laws of Brazil for the Payee to receive the payment through such nominated account; and

Each Party acknowledges that restrictions may currently exist that make local settlement in BRL unlawful within Brazil, in which case payments may be made only in USD in accordance with the terms set forth above.

Convertibility Postponement:

If Convertibility Postponement is elected, the Payment Date will be postponed until the earlier of (a) 2 Business Days following the date on which the Determination Agent determines in its sole and absolute discretion that a Convertibility Event is no

- (a) on the Convertibility Cessation Date by payment of the USD FX Forward Amount in USD, provided that no additional interest shall be payable in respect of the period of postponement of payment; or
- (b) on the Convertibility Postponement End Date in accordance with Convertibility USD Payment (other than for the date of settlement).
