Secured Transaction Programme

Under the Secured Transaction Programme (the “**Programme**”) described in this offering circular (the “**Offering Circular**”), Claris Limited (“**Claris**”), Claris 2 Limited (“**Claris 2**”), Claris III Limited (“**Claris III**”), Claris IV Limited (“**Claris IV**”), Iris SPV plc (“**Iris**”) and Iris II SPV Limited (“**Iris II**”) (each, an “**Issuer**”), subject to compliance with all relevant laws, regulations and directives, may from time to time issue, borrow under, buy, sell or enter into financial transactions not including the guarantee by it, or its becoming obligated for, the debt of any other person or entity, but including, without limitation, a series of notes (“**Notes**”), a series of warrants (“**Warrants**”), loans (“**Loans**”), swap transactions (“**Swap Transactions**”) and options (“**Options**”), contracts for the sale and/or purchase of assets, and the incurring by the Issuer of indebtedness in forms other than Notes, or any combination of such transactions, in each case where recourse in respect of such transactions is limited to the proceeds of enforcement of the security over the assets of the Issuer on which such transactions are secured (“**Transactions**”), on the terms set out herein, as supplemented (in the case of Notes or Warrants (together, the “**Securities**”)) by a memorandum supplementary hereto (each an “**Offering Circular Supplement**”) or (in the case of any other Transactions) any relevant documentation entered into in connection therewith. **The aggregate nominal amount of Notes outstanding under the Programme will not at any time exceed EUR 20,000,000,000 (or the equivalent in other currencies).**

It is intended that certain companies (each a “**Specified Issuer**”) from time to time may enter into Transactions under the Programme, denominated in any currency agreed upon by the relevant Specified Issuer and the relevant Dealers (as defined herein) subject to compliance with relevant laws, regulations and directives. In connection with the proposed entering into of Transactions by a Specified Issuer, such Specified Issuer will have executed a deed (an “**Acceptance Deed**”) agreeing to be bound by all the terms of the Principal Trust Deed (as defined herein), certain other Master Documents (as defined in the relevant Acceptance Deed) and the other documents executed pursuant to or in connection with the entering into of Transactions. The Specified Issuer will also prepare a

supplement to this Offering Circular. From and after execution and delivery of an Acceptance Deed, such Specified Issuer shall become and be treated as an “**Issuer**” for the purposes of the Master Documents and this Offering Circular.

References herein to “**Issuer**” are references to the relevant Issuer in respect of (and only to the extent of) the Transactions entered into by it and in respect of the Master Documents only to the extent that it is bound by them and such references specifically exclude any other Issuer. Each Issuer shall be bound by the Master Documents only in respect of any Transaction entered into by it and any matters relating thereto. No Issuer shall be bound by the Master Documents in respect of any Transactions entered into by any other Issuer.

Securities will each be issued in Series (as defined in “*Overview of the Programme*”) and each Series may be secured by a charge on and/or assignment of and/or other security interest over or in respect of certain transferable securities (“**Collateral Securities**”) and may also be secured by an assignment of the Issuer’s rights under a rate of interest and/or currency exchange agreement (including any applicable guarantee, a “**Swap**”), a contract under which the Issuer may agree to buy or sell securities or enter into other contractual relations (a “**Collateral Securities Agreement**”) and a credit support document (the “**Credit Support Document**”), together with such additional security, if any, as may be described in the relevant Offering Circular Supplement. The Issuer’s rights, title and interest in and under any Collateral Securities, each Swap, each Collateral Securities Agreement, each Contract, each Deposit Agreement, each Other Agreement and each Credit Support Document are referred to in this Offering Circular as “**Collateral**”. The Securities will also be secured by a charge over all sums held by the Issuing and Paying Agent or the Warrant Agent, as the case may be, and/or the Custodian (each as defined herein) to meet payments due in respect of the relevant Securities and by an assignment of the Issuer’s rights under the Agency Agreement (as defined herein). All the Issuer’s assets and rights subject to the security constituted by each Supplemental Trust Deed (as defined herein) are referred to in this Offering Circular as “**Mortgaged Property**”. The obligations of the Issuer under a Swap, a Collateral Securities Agreement and/or any other agreement under which the Issuer may incur indebtedness, grant options or incur other obligations (a “**Contract**”), as the case may be, together with claims (if any) by the Custodian and/or the Issuing and Paying Agent or the Warrant Agent, as applicable, in respect of payments made on behalf of the Issuer, will also be secured by certain assets comprised in the Mortgaged Property. Claims against the Issuer by Holders (as defined below) of the Securities of a particular Series and, if applicable, the counterparty to the relevant Swap, Collateral Securities Agreement or Contract, the Custodian, the Issuing and Paying Agent and the Warrant Agent, will be limited to the Mortgaged Property applicable to that Series.

The date of this Offering Circular, which supersedes and replaces the previous offering circular relating to the Programme dated 26 June 2013, is 26 June 2014.

If the net proceeds of the enforcement of the Transaction Security (as defined herein) over the Mortgaged Property for each Transaction are not sufficient to make all payments then due in respect of that Transaction and, if applicable, the claims of any Other Creditors (including the Swap Counterparty under the Swap (as such terms are defined herein)), the Custodian and the Issuing and Paying Agent or the Warrant Agent, as applicable, the obligations of the Issuer will be limited to such net proceeds and any other assets of the Issuer (and any assets of any other Issuer) will not be available to meet any shortfall. The Issuer will not be obliged to make any further payment in excess of such net proceeds and no debt shall be owed by the Issuer in respect of such shortfall. No party may petition or take any other step for the winding-up of (or the appointment of an examiner to Iris or Iris II) the Issuer, or have any claim in respect of the Mortgaged Property for any other Series.

Under the Programme, the Issuer may from time to time issue further Securities on the same terms as existing Securities and such further Securities shall be consolidated and form a single Series with such existing Securities, *provided that*, unless otherwise approved by Extraordinary Resolution of Holders (as such terms are defined herein), the Issuer provides additional assets as security for such further Securities in accordance with Condition 14 (*Further Issues*). Transactions other than Securities will

be secured in the manner described in the documentation relating thereto but, in each case, recourse against the Issuer in respect of such Transaction will be limited to the assets of the Issuer that form security for such Transactions. Transactions may be credit enhanced by a guarantee, insurance or other support agreement.

Application will be made to the Irish Stock Exchange for the Securities issued under the Programme within 12 months of this Offering Circular to be admitted to the Official List (the “**Official List**”) and trading on the Global Exchange Market of the Irish Stock Exchange (“**GEM**”). There is no guarantee that such application will be successful. The Global Exchange Market is not a regulated market for the purposes of Directive 2004/39/EC (the “**Markets in Financial Instruments Directive**”). Application may be made for the Securities to be admitted to trading on such other or further stock exchanges or markets as may be specified in the relevant Offering Circular Supplement. Each Issuer may also issue unlisted Securities and/or Securities not admitted to trading on any market. The relevant Offering Circular Supplement in respect of a Series will specify whether or not such Securities will be listed on GEM (or any other stock exchange). References in this Offering Circular to Securities being “listed” on the Irish Stock Exchange (and all related references) shall mean that such Securities have been admitted to trading on the GEM and have been listed on the Irish Stock Exchange. Copies of this Offering Circular and each Offering Circular Supplement will be available at the specified office set out below of the Issuer and each of the Paying Agents (as defined herein). This Offering Circular is not a prospectus prepared in compliance with the Prospectus Directive and has not been approved by a competent authority for the purposes of the Prospectus Directive (where “**Prospectus Directive**” means Directive 2003/71/EC (and amendments thereto, including the PD Amending Directive, to the extent implemented in the relevant Member State of the European Economic Area which has implemented the Prospectus Directive) and “**PD Amending Directive**” means Directive 2010/73/EU).

This Offering Circular constitutes Listing Particulars (the “**Listing Particulars**”) where Securities are to be listed or admitted to trading on the GEM. Each Offering Circular Supplement will constitute supplemental listing particulars (“**Supplemental Listing Particulars**”) for such purposes. Application has been made to the Irish Stock Exchange for the approval of this document as Listing Particulars. Application may be made for the Securities to be admitted to trading on the Global Exchange Market of the Irish Stock Exchange.

Where Securities are to be admitted to trading on the GEM, “Offering Circular” should be taken to mean “Listing Particulars”.

THIS OFFERING CIRCULAR HAS BEEN PREPARED ON THE BASIS THAT ANY OFFER OF SECURITIES IN A MEMBER STATE OF THE EUROPEAN ECONOMIC AREA WHICH HAS IMPLEMENTED THE PROSPECTUS DIRECTIVE WILL BE MADE PURSUANT TO AN EXEMPTION TO THE PROSPECTUS DIRECTIVE FROM THE REQUIREMENT TO PUBLISH A PROSPECTUS FOR OFFERS OF THE RELEVANT SECURITIES. ACCORDINGLY, ANY PERSON MAKING OR INTENDING TO MAKE AN OFFER IN ANY RELEVANT MEMBER STATE OF SECURITIES WHICH ARE ISSUED PURSUANT TO THIS OFFERING CIRCULAR AS COMPLETED BY THE RELEVANT OFFERING CIRCULAR SUPPLEMENT, MAY ONLY DO SO IN CIRCUMSTANCES IN WHICH NO OBLIGATION ARISES TO PUBLISH A PROSPECTUS PURSUANT TO ARTICLE 3 OF THE PROSPECTUS DIRECTIVE. THE ARRANGER HAS NOT AUTHORISED AND WILL NOT AUTHORISE THE MAKING OF ANY OFFER OF SECURITIES IN CIRCUMSTANCES IN WHICH AN OBLIGATION ARISES FOR THE ARRANGER OR ANY OTHER ENTITY TO PUBLISH A PROSPECTUS IN RESPECT OF SUCH OFFER.

Each Series of Notes to be issued in global bearer form will be represented on issue by a temporary global note in bearer form (each a “**temporary Global Bearer Note**”) or a permanent global note in bearer form (each a “**permanent Global Bearer Note**” and together with the temporary Global Bearer Notes, the “**Global Bearer Notes**”). Each Series of Notes to be issued in global registered

form will be represented on issue by a permanent global note in registered form, without interest coupons or principal receipts (each, a “**Global Registered Note**” and, together with the Global Bearer Notes, the “**Global Notes**”) and will be registered in the name of a nominee, or the nominee for the Common Depositary, for one or more clearing systems. Each Series of Warrants to be issued in global clearing system form will be represented on issue by a bearer clearing system global warrant (each a “**Clearing System Global Warrant**”). Each Series of Warrants to be issued in global registered form will be represented on issue by a global warrant in registered form (each a “**Global Registered Warrant**” and, together with the Clearing System Global Warrants, “**Global Warrants**”) and will be registered in the name of a nominee, or the nominee for the Common Depositary, for one or more clearing systems. The Global Warrants and the Global Notes are referred to as the “**Global Securities**” and will be deposited on the issue date with a common depositary on behalf of Euroclear Bank S.A./N.V. (“**Euroclear**”) and Clearstream Banking, société anonyme (“**Clearstream, Luxembourg**” and together with Euroclear, the “**ICSDs**”) or, in the case of Notes only, if the relevant Offering Circular Supplement indicates that (a) any temporary Global Bearer Note or permanent Global Bearer Note issued by either Iris or Iris II is intended to be in New Global Note form or (b) any Global Registered Note issued by either Iris or Iris II is intended to be in NSS Global Registered Note form, with a common safekeeper for the ICSDs, unless otherwise specified in the relevant Offering Circular Supplement. Each Series of Notes to be issued in definitive bearer form (“**Definitive Bearer Notes**”) will be delivered on the issue date to the owner thereof or its nominee. Each Series of Notes to be issued in definitive registered form without interest coupons or principal receipts (“**Definitive Registered Notes**” and, together with the Definitive Bearer Notes, the “**Definitive Notes**”) and each Series of Warrants to be issued in definitive registered form (“**Definitive Registered Warrants**” and, together with the Definitive Notes, “**Definitive Securities**”) will be delivered on the issue date to the owner thereof or its nominee and will be registered in the name of the owner thereof or its nominee.

*The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) or with any securities regulatory authority of any state or other jurisdiction of the United States and trading in the Securities has not been approved by the Commodities Futures Trading Commission (the “**CFTC**”) under the United States Commodities Exchange Act, as amended (the “**CEA**”). In addition, the Issuer has not been and will not be registered as an investment company under the United States Investment Company Act of 1940, as amended, and the rules and regulations thereunder (the “**Investment Company Act**”). Accordingly, the Securities may only be offered, sold or otherwise transferred in a transaction outside the United States to persons that are not U.S. persons within the meaning of the United States Security Act of 1933, as amended (the “**Securities Act**”). All purchasers of the Securities are deemed, by acceptance of the Securities, to agree that they will transfer the Securities only in the manner set forth under “Subscription and Sale” and “Selling Restrictions”. Each purchaser who purchases a beneficial interest in any Global Note or Global Warrant will be deemed to have made certain acknowledgements, representations and warranties as set forth under “Subscription and Sale” and “Selling Restrictions”. The Notes may include Notes that are in bearer form that are subject to U.S. tax law requirements. The Warrants will not be issued in bearer form.*

THE SECURITIES OFFERED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED WITH, OR APPROVED BY, ANY UNITED STATES FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT PASSED UPON OR ENDORSED THE MERITS OF THIS OFFERING OR THE ACCURACY OR ADEQUACY OF THIS OFFERING CIRCULAR. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

THE SECURITIES DESCRIBED HEREIN ARE AVAILABLE ONLY TO INVESTORS WHO ARE (1) LOCATED OUTSIDE THE UNITED STATES, AND WHO ARE (2) NON-US PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT AND RULE 4.7(a)(1)(iv) OF THE COMMODITY FUTURES TRADING COMMISSION UNDER THE COMMODITY EXCHANGE ACT (AS SUCH TERMS MAY BE AMENDED FROM TIME TO TIME)).

Unless specified otherwise in the relevant Offering Circular Supplement, Notes will each be represented on issue by a temporary Global Bearer Note exchangeable, in accordance with its terms, for interests in a permanent Global Bearer Note, or be in registered form only. Warrants will each be represented on issue by a Clearing System Global Warrant or be in registered form only.

Unless specified otherwise in the relevant Offering Circular Supplement, Notes in definitive form (the “**Definitive Notes**”) and Warrants in definitive form (the “**Definitive Warrants**”) will be issued in exchange for a beneficial interest in any Global Notes or Global Warrants, as applicable, only in limited circumstances. See “*Summary of Provisions relating to the Securities while in Global Form*” and “*Book-Entry Clearance Procedures*” below.

If indicated in the relevant Offering Circular Supplement, any Global Notes issued from time to time by either Iris or Iris II may be intended to be held in a manner which will allow Eurosystem eligibility. This only means that such Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, either upon issue, or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria as specified by the European Central Bank. See further the section entitled “*Summary of Provisions relating to the Securities while in Global Form*” and “*Book-Entry Clearance Procedures*” below.

For a description of certain restrictions on offers and sales of Securities and on distribution of this Offering Circular, see “*Subscription and Sale*” and “*Selling Restrictions*”.

Notes to be issued under the Programme may be rated or unrated. Warrants to be issued under the Programme will be unrated. Where a Tranche of Notes is to be rated, such rating will not necessarily be the same as the rating assigned to the Notes already issued. Whether or not a rating in relation to any Tranche of Notes will be treated as having been issued by a credit rating agency established in the European Union and registered under Regulation (EC) No 1060/2009 on credit rating agencies, as amended by Regulation (EU) No. 513/2011 (the “**CRA Regulation**”) will be disclosed in the relevant Offering Circular Supplement. Where the amount of any Issuer's obligations is determined by reference to a market-dependent index, the ratings do not currently address the likelihood that payments will be due under the terms of the Notes. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. A suspension, reduction or withdrawal of the rating assigned to the Notes may adversely affect the market price of the Notes.

The language of this Offering Circular is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

Neither this Offering Circular nor any Offering Circular Supplement or other financial statements are intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of the Issuers, the Arranger, the Dealers or the Trustee that any recipient of this Offering Circular or any other financial statements should subscribe for or purchase the Securities or enter into any Transaction. Each investor contemplating purchasing any of the Securities should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the relevant Issuer.

None of the Dealers, the Arranger or the Trustee undertakes to review the financial condition or affairs of any of the Issuers during the life of the Transactions contemplated by this Offering Circular, nor to advise any investor or potential investor in the Securities or counterparty to any Transaction of any information coming to the attention of the Dealers, the Arranger or the Trustee.

GENERAL INFORMATION.....	339

RISK FACTORS

Each Issuer believes that the following factors may affect its ability to fulfil its obligations under the Securities. Most of these factors are contingencies which may or may not occur and none of the Issuers is in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which each of the Issuers believes are material for the purpose of assessing the market risks associated with the Securities are also described below.

Each Issuer believes that the factors described below represent the principal risks inherent in investing in the Securities, but the inability of the relevant Issuer to pay interest, principal or other amounts on or in connection with any Notes or the settlement amount or other amount (where applicable) in the case of Warrants, may occur for other reasons which may not be considered significant risks by each Issuer based on information currently available to it or which they may not currently be able to anticipate. Each of the Issuers does not represent that the statements below regarding the risks of holding any Securities are exhaustive. Consequently, the statements below, or in the applicable Offering Circular Supplement regarding the risks of investing in the Securities of any Series should not be viewed as exhaustive. The applicable Offering Circular Supplement in respect of any Securities may contain additional risk factors relating to such Securities that should be considered, together with the risk factors of this Offering Circular, before making an investment decision. Prospective investors should also read the detailed information set out elsewhere in this Offering Circular and the applicable Offering Circular Supplement and reach their own views prior to making any investment decision. No investment should be made in the Securities of any Series until after careful consideration of all those factors that are relevant in relation to the Securities of such Series. Prospective investors should reach an investment decision with respect to the suitability of the Securities of such Series for them only after careful consideration and consultation with their financial, tax, regulatory and legal advisers.

The order in which the following risk factors are presented is not an indication of the likelihood of their occurrence.

General

Before making an investment decision prospective purchasers of, or investors in, Securities or other Transactions should conduct such independent investigation and analysis (together with taking such professional advice as they deem appropriate under the circumstances) regarding the relevant Issuer, the Securities or other Transactions, the Mortgaged Property, each Swap Counterparty under each Swap, each Credit Support Provider under each Credit Support Document, each Counterparty under each Collateral Securities Agreement, each Beneficiary under each Contract and all other relevant persons and such market, economic and other factors as they deem appropriate to evaluate the merits and risks of an investment in the Securities or other Transactions and to determine whether such investment is fully consistent with their financial needs, objectives and condition, complies with and is consistent with all investment policies, guidelines and restrictions applicable to them and whether it is a fit, proper and suitable investment for them, notwithstanding the clear and substantial risks inherent in investing in or holding the Securities.

As part of such independent investigation and analysis, prospective purchasers of, or investors in, the Securities or other Transactions should consider carefully all the information set forth in this Offering Circular relating to the Programme and the relevant Issuer, in the applicable Offering Circular Supplement and the considerations set out below.

Risks Relating to each Issuer

The nature of each Issuer

Each Issuer is a special purpose vehicle established for the purpose of, amongst other things, issuing Securities and entering into other Transactions under the Programme. Each Issuer has, and will have, no assets that are or may be available to the Holders other than the Collateral acquired by it, in each

case in connection with the issue of Securities or the entry by it into other obligations relating to the Programme or otherwise from time to time. Recourse of the Holders against the Issuer is limited to the funds available to the Issuer from time to time in respect of the Mortgaged Property specified in the Offering Circular Supplement relating to such Series of Securities and the Issuer shall have no liability to make any payments under the Securities where such funds are not available to it. Therefore, the Holders are exposed to the risk that the Issuer will not have sufficient funds available to it to make payments owed under the Securities and will not have any further recourse against the Issuer or any other party in such circumstances, but will suffer a corresponding loss on their investment.

Conflicts of interest

Each Issuer, in connection with its business activities, may possess or acquire material information about the underlying assets which relates to a particular Series. Such activities and information may cause consequences adverse to the Holders. Such actions and conflicts may include, without limitation, the exercise of voting power, the purchase and sale of securities and exercise of creditor rights. Each Issuer has no obligation to disclose such information about the underlying assets or the companies to which it relates. Each Issuer and any of its officers and directors may engage in any such activities without regard to the Securities or the effect that such activities may directly or indirectly have on any Securities.

Hedging and Trading Activity by Société Générale, any of its Affiliates and/or each Issuer could Potentially Affect the Value of the Securities

In the ordinary course of its business, Société Générale (which for the purposes of this paragraph shall include any of its affiliates) and/or each Issuer may effect transactions for each account of its customers and hold long or short positions in the Reference Asset(s) (as defined below) or related derivatives. In addition, in connection with the offering of the Securities, Société Générale and/or the Issuer may enter into one or more hedging transactions with respect to the Reference Asset(s) or related derivatives. In connection with such hedging or any market-making activities or with respect to proprietary activities by Société Générale or an Issuer, Société Générale and/or each Issuer may enter into transactions in the Reference Asset(s) or related derivatives which may affect the market price, liquidity or value of the Reference Asset(s) and, consequently, the Securities and which could be deemed to be adverse to the interests of the relevant Holders.

The above situations may result in consequences which may be adverse to Holders. The Issuer assumes no responsibility whatsoever for such consequences and their impact on Holders.

Issuers' Dependency upon Certain Counterparties

In certain cases, the ability of the relevant Issuer to meet its obligations under the Securities may depend on the receipt by it of certain payments from an underlying fund or assets (if any) and/or on the receipt by it of payments under a relevant Swap, Deposit Agreement, Collateral Securities Agreement or any other agreement, notwithstanding the performance of any relevant underlying fund or assets. Consequently, the relevant Issuer, and therefore the Holders, will be exposed to a payment delay or failure in respect of any underlying fund or assets and/or the ability of the counterparty to any such agreement to perform its obligations under such agreement and to the creditworthiness of such counterparty.

Issuers' Dependency upon Certain Agents

The Issuer will depend upon each of HSBC Bank plc, as Issuing and Paying Agent, Warrant Agent, Transfer Agent, Registrar, Calculation Agent and Custodian and HSBC Institutional Trust Services (Ireland) Limited as Paying Agent in Ireland to perform its obligations under the Agency Agreement. If any of such entities becomes unable to perform its obligations under the Agency Agreement due to insolvency or otherwise, this may affect the Issuer's ability to make payments to the Holders.

No Regulation of the Issuer by any Regulatory Authority

The Issuer is not required to be licensed or authorised under any current securities, commodities, insurance or banking laws of its jurisdiction of incorporation. There is no assurance, however, that the regulatory authorities in one or more jurisdictions would not take a contrary view regarding the applicability of any such laws to the Issuer. The taking of a contrary view by any such regulatory authority could have an adverse impact on the Issuer, or the Holders of Securities issued by the Issuer.

Any investment in the Securities does not have the status of a bank deposit in Ireland and is not within the scope of the deposit protection scheme operated by the Central Bank of Ireland. The Issuer is not regulated by the Central Bank of Ireland by virtue of the issue of Securities.

Taxation position of Iris and Iris II

Iris and Iris II have each been advised that they should fall within the Irish regime for the taxation of qualifying companies as set out in Section 110 of the Taxes Consolidation Act 1997 (as amended) (“**Section 110**”), and as such should be taxed only on the amount of their respective retained profit after deducting all amounts of interest and other revenue expenses due to be paid by them. If, for any reason, Iris or Iris II are not or cease to be entitled to the benefits of Section 110, then profits or losses could arise in Iris or Iris II, which could result in tax consequences not contemplated in the cash flows in respect of any Securities issued by Iris or Iris II. In such circumstances both the tax treatment of Iris or Iris II and consequently payments on such Securities issued by Iris or Iris II could be adversely affected.

Iris II and Related Risks

Iris II is a private limited company and accordingly its Articles of Association prohibits any invitation or offer to the public to subscribe for any shares, debentures or other securities of Iris II.

Preferred Creditors under Irish Law and Floating Charges

Under Irish law, upon an insolvency of an Irish company such as Iris or Iris II, when applying the proceeds of assets subject to fixed security which may have been realised in the course of a liquidation or receivership, the claims of a limited category of preferential creditors will take priority over the claims of creditors holding the relevant fixed security. These preferred claims include the remuneration, costs and expenses properly incurred by any examiner of the company (which may include any borrowings made by an examiner to fund the company’s requirements for the duration of his appointment) which have been approved by the Irish courts. (See “*Examinership*” below).

The holder of a fixed security over the book debts of an Irish tax resident company (which would include Iris and Iris II) may be required by the Irish Revenue Commissioners, by notice in writing from the Irish Revenue Commissioners, to pay to them sums equivalent to those which the holder received in payment of debts due to it by the company.

Where the holder of the security has given notice to the Irish Revenue Commissioners of the creation of the security within 21 days of its creation, the holder’s liability is limited to the amount of certain outstanding Irish tax liabilities of the company (including liabilities in respect of value added tax) arising after the issuance of the Irish Revenue Commissioners’ notice to the holder of fixed security.

The Irish Revenue Commissioners may also attach any debt due to an Irish tax resident company by another person in order to discharge any liabilities of the company in respect of outstanding tax whether the liabilities are due on its own account or as an agent or trustee. The scope of this right of the Irish Revenue Commissioners has not yet been considered by the Irish courts and it may override the rights of holders of security (whether fixed or floating) over the debt in question.

In relation to the disposal of assets of any Irish tax resident company which are subject to security, a person entitled to the benefit of the security may be liable for tax in relation to any capital gains made by the company on a disposal of those assets on exercise of the security.

The essence of a fixed charge is that the person creating the charge does not have liberty to deal with the assets which are the subject matter of the security in the sense of disposing of such assets or expending or appropriating the moneys or claims constituting such assets and accordingly, if and to the extent that such liberty is given to Iris and/or Iris II any respective charge constituted by the Trust Deed may operate as a floating, rather than a fixed charge.

In particular, the Irish courts have held that in order to create a fixed charge on receivables it is necessary to oblige the charger to pay the proceeds of collection of the receivables into a designated bank account and to prohibit the charger from withdrawing or otherwise dealing with the monies standing to the credit of such account without the consent of the chargee.

Depending upon the level of control actually exercised by the chargor, there is therefore a possibility that the fixed security over Iris' and/or Iris II's accounts and the respective Securities would be regarded by the Irish courts as a floating charge.

Floating charges have certain weaknesses, including the following:

- (i) they have weak priority against purchasers (who are not on notice of any negative pledge contained in the floating charge) and the chargees of the assets concerned and against lien holders, execution creditors and creditors with rights of set-off;
- (ii) as discussed above, they rank after certain preferential creditors, such as claims of employees and certain taxes on winding-up;
- (iii) they rank after certain insolvency remuneration expenses and liabilities;
- (iv) the examiner of a company has certain rights to deal with the property covered by the floating charge; and
- (v) they rank after fixed charges.

Examinership

Examinership is a court procedure available under the Irish Companies (Amendment) Act 1990 (as amended) (the “**1990 Act**”) to facilitate the survival of Irish companies in financial difficulties.

Iris or Iris II, the directors of Iris or Iris II, a contingent, prospective or actual creditor of Iris or Iris II, or shareholders of Iris or Iris II holding, at the date of presentation of the petition, not less than one-tenth of its voting share capital are each entitled to petition the court for the appointment of an examiner. The examiner, once appointed, has the power to set aside contracts and arrangements entered into by the company after this appointment and, in certain circumstances, can avoid a negative pledge given by the company prior to this appointment. Furthermore, the examiner may sell assets, the subject of a fixed charge. However, if such power is exercised the examiner must account to the holders of the fixed charge for the amount realised and discharge the amount due to the holders of the fixed charge out of the proceeds of the sale.

During the period of protection, the examiner will formulate proposals for a compromise or scheme or arrangement to assist the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the Irish High Court when at least one class of creditors has voted in favour of the proposals and the Irish High Court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement.

In considering proposals by the examiner, it is likely that secured and unsecured creditors would form separate classes of creditors. In the case of Iris or Iris II, if the Trustee represented the majority in number and value of claims within the secured creditor class (which would be likely given the restrictions agreed to by Iris or Iris II in the Conditions), the Trustee would be in a position to reject

any proposal not in favour of the Holders. The Trustee would also be entitled to argue at the Irish High Court hearing at which the proposed scheme of arrangement is considered that the proposals are unfair and inequitable in relation to the Holders, especially if such proposals included a writing down to the value of amounts due by the relevant Issuer to the Holders. The primary risks to the Holders if an examiner were appointed to Iris or Iris II are as follows:

- (i) the potential for a compromise or scheme of arrangement being approved involving the writing down of the debt due by Iris or Iris II to the Holders as secured by the Trust Deed;
- (ii) the potential for the examiner to seek to set aside any negative pledge in the Securities prohibiting the creation of security of the incurring of borrowings by Iris or Iris II to enable the examiner to borrow to fund Iris or Iris II during the protection period; and
- (iii) in the event that a scheme of arrangement is not approved and Iris or Iris II subsequently goes into liquidation, the examiner's remuneration and expenses (including certain borrowings incurred by the examiner on behalf of Iris or Iris II and approved by the Irish High Court) will take priority over the monies and liabilities which from time to time are or may become due, owing or payable by Iris or Iris II to each of the secured Creditors under the Securities or the transaction documents.

Risks Relating to Securities generally

Set out below is a brief description of certain risks relating to the Securities generally.

Risks Related to the Structure of a Particular Series of Securities

A wide range of Securities may be issued under the Programme. A number of these Securities may have features which present particular risks for potential investors. Set out below is a description of the most common such features, which may increase the risk of investing in such Securities, although other less common risks may also be applicable.

Securities subject to Optional Redemption or Cancellation by the Issuer

An optional redemption feature of Notes or an optional cancellation feature of Warrants is likely to limit their market value. During any period when the Issuer may elect to redeem Notes or cancel Warrants, as the case may be, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed or cancelled. This also may be true prior to any redemption or cancellation period.

Underlying Reference Linked Securities and Dual Currency Notes

The Issuer may issue Securities with principal or interest (in the case of Notes) or the settlement amount (in the case of Warrants) determined by reference to an index or formula and which will be linked to changes in the values of one or more index, share, inflation index, commodity, security, unit, interest or share in a fund, currency exchange rates, the credit risk of one or more reference entity or reference asset or other factors or the combination of any of the foregoing (each, a “**Relevant Factor**”). The Relevant Factors may themselves contain substantial credit, equity, funds, correlation, volatility, commodity interest rate, foreign exchange, time value, political and/or other risk. In addition, the Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated.

An investment in Securities linked to a Relevant Factor therefore entails significant risks that are not associated with similar investments in a conventional fixed or floating rate debt security. Potential investors in Securities linked to a Relevant Factor should be aware that such risks may include:

- (i) the market price of such index linked Securities and dual currency Notes may be volatile;

- (ii) the resulting returns or interest rate (where applicable) will be different from that payable on a conventional debt security issued by the applicable Issuer at the same time and may be zero;
- (iii) payment of principal or interest or the relevant settlement amount may occur at a different time or in a different currency than expected;
- (iv) a loss of all or a substantial portion of the principal of the relevant Note (whether payable at maturity or upon redemption or repayment), and, if the principal is lost, interest, or any other return on principal, may cease to be payable on such Note;
- (v) any Warrants held by the relevant Holder may expire worthless or amounts payable on settlement (whether on the cash settlement date or upon earlier cancellation) may be significantly less than the purchase price paid by such Holder;
- (vi) a Relevant Factor may be subject to significant fluctuations, whether due to the composition of any such Relevant Factor itself, or because of fluctuations in value of the Relevant Factor that may not correlate with changes in interest rates, currencies or other indices;
- (vii) if a Relevant Factor is applied to Securities in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal, interest, the settlement amount or other amounts, as the case may be, payable is likely to be magnified;
- (viii) any Securities that are linked to more than one type of Relevant Factor, or to formulae that encompass the risks associated with more than one type of Relevant Factor, may carry levels of risk that are greater than Securities that are linked to only one type of Relevant Factor;
- (ix) it may not be possible for investors to hedge their exposure to these various risks relating to the Securities linked to a Relevant Factor;
- (x) a significant market disruption could mean that any Relevant Factor or the price of any Relevant Factor ceases to exist; and
- (xi) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

The historical experience of a Relevant Factor should not be viewed as an indication of the future performance of such Relevant Factor during the term of the applicable Securities. Additionally, there may be regulatory and other ramifications associated with the ownership by certain investors of Securities linked to certain Relevant Factors and investors should ensure that their acquisition of such Securities is lawful under the laws of the jurisdiction of their incorporation and/or in which they operate. Accordingly, each potential investor should consult its own financial, tax, regulatory and legal advisers about the risk entailed by an investment in any such Securities or dual currency Notes and the suitability of such Securities in light of its particular circumstances. The Issuers believe that such Securities should only be purchased by investors that are in a position to understand the special risks that an investment in these instruments involves, in particular relating to options and derivatives and related transactions, and should be prepared to sustain a total loss of the purchase price of their Securities.

A purchaser of Securities linked to certain Relevant Factors, the terms and conditions of which are set out in the relevant technical annex to this Offering Circular, should be aware that certain disruption events, extraordinary events or other circumstances affecting such Relevant Factors (together, “**Adjustment Events**”) may result in the Calculation Agent making such adjustments as it determines appropriate to the terms and conditions of any Securities affected by one or more Adjustment Events.

Such adjustments may include delaying the day on which a calculation or payment is made, substituting one or more of the Relevant Factors referenced by the affected Securities or otherwise adjusting the terms and conditions of such Securities in order to account for the effect of such Adjustment Event(s). In certain circumstances, the Calculation Agent may determine that the appropriate action to take in respect of Securities affected by an Adjustment Event is to redeem the Notes or cancel the Warrants, as the case may be, in which case the Holder of such Securities may suffer a significant or total loss in respect of its investment.

Securities Linked to Certain Events

The interest rate or redemption amount (in the case of Notes) or the settlement amount (in the case of Warrants) may be linked to the occurrence or non-occurrence of certain events which are not connected with the Issuer such as credit. The occurrence of such events is beyond the control of the Issuer and Holders are exposed to the risk of such event occurring or not, as the case may be.

Modification

The Conditions of the Securities contain provisions for calling meetings of Holders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Holders including Holders who did not attend and vote at the relevant meeting and Holders who voted in a manner contrary to the majority.

Limitations on recourse and rights with respect to underlyings

Where the Securities are backed by collateral securities, a Holder of the Notes has no rights against the company that has issued such securities; where the Securities relate to an index, such Holder of the Securities has no rights against the sponsor of such index; where the Securities relate to a fund, such Holder of the Securities has no rights against the manager of such fund; and where the Securities relate to a swap or other kind of hedging contract, such Holder of the Securities has no rights against the counterparty of such swap or contract. Further, an investment in the Securities is not an investment in the underlying assets relating to a relevant Series and a Holder of the Securities will have no rights in relation to voting rights or other entitlements (including any dividend or other distributions) relating to such underlying assets.

Certain Considerations Regarding Hedging

Prospective Holders intending to purchase Securities to hedge against the market risk associated with investing in a reference security (or basket of securities), index (or basket of indices), currency (or basket of currencies), commodity (or basket of commodities) or other basis of reference, should recognise the complexities of utilising Securities in this manner. For example, the value of the Securities may not exactly correlate with the value of the reference security (or basket of securities), index (or basket of indices), currency (or basket of currencies), commodity (or basket of commodities) or other reference basis. Due to fluctuating supply and demand for the Securities, there is no assurance that their value will correlate with movements of the reference security (or basket of securities), index (or basket of indices), currency (or basket of currencies), commodity (or basket of commodities) or other reference basis.

Change of Law

The Conditions of the Securities (including any non-contractual obligations arising therefrom or connected therewith) are based on relevant laws in effect as at the date of this Offering Circular. No assurance can be given as to the impact of any possible judicial decision or change to such laws or the official application or interpretation of such laws or administrative practices after the date of this Offering Circular.

Trustee and enforcement

Only the Trustee may pursue the remedies available under the Trust Deed to enforce the rights of the parties secured thereunder (including Holders). The Trustee is not obliged to take any such action without first being indemnified and/or secured to its satisfaction (including, where so required by the Trustee, by way of pre-funding). When determining whether an indemnity or any security or pre-funding is satisfactory to it, the Trustee shall be entitled (i) to evaluate its risk in any given circumstance by considering the worst-case scenario and, for this purpose, it may take into account, without limitation, the potential costs of defending or commencing proceedings in England or elsewhere and the risk, however remote, of any award of damages against it in England or elsewhere and (ii) to require that any indemnity or security or prefunding given to it by the Holders or any of them or any other person be given on a joint and several basis and be supported by evidence satisfactory to it as to the financial standing and creditworthiness of each counterparty and/or as to the value of the security and an opinion as to the capacity, power and authority of each counterparty and/or the validity and effectiveness of the indemnity, security and/or prefunding. The Trustee is not responsible for ensuring that the relevant Issuer's obligations (or the security interest created by the relevant Issuer) are valid and enforceable.

Notwithstanding the occurrence of an Event of Default pursuant to Condition 10(b) or 10(c) (*Events of Default*), the Transaction Security shall not become enforceable unless and until either the Event of Default set out in Condition 10(a) (*Events of Default*) has occurred or one of the other limited circumstances set out in Trust Deed applies. Accordingly, Holders should be aware that neither the Trustee nor any other party will be entitled to enforce the Transaction Security in respect of any Series of Securities by reason only of one of the events described in Condition 10(b) or 10(c) (*Events of Default*) occurring. In such circumstances, there may be a material delay in the enforcement of the Transaction Security following an Event of Default which may adversely impact on the recovery available to distributed to Holders.

Excess Assets Direction

In circumstances where the Transaction Security in respect of any Series of Securities becomes enforceable and the Trustee (or any receiver, agent or other person appointed by the Trustee) determines that the value of the Mortgaged Property relating thereto exceeds or is likely to exceed the total liabilities of the Issuer in respect of such Series, the Trustee will be required to notify certain parties in accordance with Condition 4(f) (*Excess Assets Direction*). Following such notification, the Trustee may receive an Excess Assets Direction from an Other Creditor that has provided security to the Issuer in support of its obligations under a Swap, Contract, Collateral Securities Agreement, Deposit Agreement or Other Agreement. An Excess Assets Direction will describe the way in which the Trustee (or any receiver, agent or other person appointed by the Trustee) is required (subject to the Trustee's limited discretion to act otherwise than in accordance with such Excess Assets Direction, as set out in Condition 4(f) (*Excess Assets Direction*)) to realise the Mortgaged Property, which may affect (i) the amount received in respect of such realisation and (ii) the time frame in which the Mortgaged Property is realised. Accordingly, in such circumstances the Trustee will act in accordance with the directions of the Other Creditor in relation to the manner in which the Mortgaged Property is realised and in doing so shall have no consideration of the interests of Holders of Securities. Accordingly, an Excess Assets Direction may be adverse to the interests of the Holders of Securities.

U.S. Foreign Account Tax Compliance Act withholding

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, and US Treasury regulations promulgated thereunder that took effect on 28 January 2013, as amended from time to time (together “**FATCA**”) impose a new reporting regime and potentially a 30% withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a “**foreign financial institution**”, or “**FFI**” (as defined by FATCA)) that does not become a “Participating FFI” by entering into an agreement with the U.S. Internal Revenue Service (“**IRS**”) to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with

FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether such investor is a U.S. person or should otherwise be treated as holding a United States Account of the relevant Issuer (a “**Recalcitrant Holder**”).

FATCA implementation is being phased in from 1 July 2014 for payments from sources within the United States and is currently proposed to apply to "foreign passthru payments" (a term not yet defined) made by an FFI to a non-participating FFI or Recalcitrant Holder no earlier than 1 January 2017. This withholding would potentially apply to payments in respect of (i) any Securities issued or materially modified on or after the "grandfathering date", which is the later of (a) 1 July 2014 and (b) the date that is six months after the date on which final U.S. Treasury regulations defining the term 'foreign passthru payment' are filed with the Federal Register; and (ii) any Securities characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Securities are issued before the grandfathering date, and additional Securities of the same series are issued on or after that date, the additional Securities may not be treated as grandfathered, which may have negative consequences for the existing Securities, including a negative impact on market price.

The United States and a number of other jurisdictions announced their intention to enter into intergovernmental agreements to facilitate the implementation of FATCA (each, an “**IGA**”). In some cases such IGAs have been signed; in other cases, negotiations are still ongoing. Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, most FFIs in an IGA signatory country should be treated as a "Reporting FI" that would generally not be subject to withholding under FATCA on any payments it receives. Further, an FFI in a Model 1 IGA jurisdiction would not be required to withhold under FATCA or an IGA (or any law implementing an IGA or agreement with the IRS relating to FATCA) (any such withholding being a “**FATCA Withholding**”) from payments it makes (unless, in certain limited circumstances, where the payments are made to a Recalcitrant Holder). Under the Model 1 IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government. The US IRS announced in Notice 2013-43 its intention to provide a list of jurisdictions that will be treated as having in effect an IGA, even though that IGA may not have entered into force as of 1 July 2014 or implemented under national legislation.

Jersey entered into a Model 1 IGA with the United States on 13 December 2013. As such, Claris, Claris 2, Claris III and Claris IV will be required to comply with FATCA under national legislation implementing such intergovernmental agreement with the United States.

Ireland entered into a Model 1 IGA with the United States on 21 December 2012. As such, Iris and Iris II will be required to comply with FATCA under national legislation implementing such intergovernmental agreement with the United States.

It is not currently expected that any Issuer will be required to make any FATCA Withholdings from the payments that it makes. There can be no assurance, however, that any Issuer would not in the future be required to deduct FATCA Withholding from future payments. Accordingly, the relevant Issuer and financial institutions through which payments on the Securities are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Securities is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder. If an Issuer is required to make such a withholding, it could directly or indirectly affect a Holder of Securities issued by such Issuer regardless of whether or not that Holder has failed to comply with FATCA requirements. In such circumstances, an early redemption (in the case of Notes) or a cancellation (in the case of Warrants) could be triggered in accordance with the Conditions and the relevant Issuer would redeem early the Notes or cancel the Warrants, as the case may be.

If a FATCA Withholding were to be made from interest, principal, settlement amounts or other payments made in respect of the Securities, neither the relevant Issuer nor any Paying Agent nor any other person would, pursuant to the Conditions of the Securities, be required to pay any additional

amounts as a result of the FATCA Withholding, and as a result, investors may receive less interest or principal than expected.

In the case of Securities which are in global form and held within a clearing system, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Securities by the Issuer or any paying agent for such clearing system, given that each of the entities in the payment chain between the Issuer and the clearing system is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Securities. However, Securities may be issued in definitive form and therefore not held through a clearing system. Where that is the case, depending on the circumstances payments to a non-FATCA compliant Holder could be subject to FATCA Withholding. In addition, the documentation expressly contemplates the possibility that, in certain specific circumstances, Securities may convert into definitive form and therefore cease to be held through a clearing system. If this were to happen then, depending on the circumstances, payments to a non-FATCA compliant holder could be subject to FATCA Withholding.

FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA Withholding. It may also affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA Withholding. Investors should choose the custodians or intermediaries with care (to ensure that each is compliant with FATCA or other laws or agreements related to FATCA), provide each custodian or intermediary with any information, forms and/or other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA Withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The relevant Issuer's obligations under the Securities are discharged once it has paid the depositary for the clearing system (as legal owner of the Securities) and the relevant Issuer has therefore no responsibility for any amount thereafter transmitted through the hands of the clearing systems and custodians or intermediaries.

THE FATCA PROVISIONS ARE PARTICULARLY COMPLEX AND THEIR APPLICATION TO THE ISSUERS AND THE SECURITIES IS UNCERTAIN AT THIS TIME. THE ABOVE DESCRIPTION IS BASED IN PART ON REGULATIONS, OFFICIAL GUIDANCE AND MODEL IGAS, ALL OF WHICH ARE SUBJECT TO CHANGE OR MAY BE IMPLEMENTED IN A MATERIALLY DIFFERENT FORM. NOTHING IN THIS SECTION CONSTITUTES OR PURPORTS TO CONSTITUTE TAX ADVICE AND HOLDERS ARE NOT ENTITLED TO RELY ON ANY PROVISION SET OUT IN THIS SECTION FOR THE PURPOSES OF MAKING ANY INVESTMENT DECISION, TAX DECISION OR OTHERWISE. EACH INVESTOR SHOULD CONSULT ITS OWN TAX ADVISER TO OBTAIN A MORE DETAILED EXPLANATION OF THE FATCA PROVISIONS AND TO LEARN HOW THIS LEGISLATION MIGHT AFFECT IT IN ITS PARTICULAR CIRCUMSTANCE.

Intergovernmental Agreement between Jersey and the United States

The US Hiring Incentives to Restore Employment Act resulted in the introduction of FATCA. Under FATCA a 30 per cent withholding tax may be imposed on payments of US source income and certain payments of proceeds from the sale of property that could give rise to US source income, unless the relevant Jersey Issuer complies with requirements to report on an annual basis the identity of, and certain other information about, direct and indirect US holders of Securities issued by the relevant Jersey Issuer to the IRS or to the relevant Jersey authority for onward transmission to the IRS. A holder of Securities issued by the relevant Jersey Issuer that fails to provide the required information to the relevant Jersey Issuer may be subject to the 30 per cent withholding tax with respect to any

payments directly or indirectly attributable to US sources and the relevant Jersey Issuer might be required to redeem any Securities held by such holder.

Although regulations implementing FATCA have been issued in the US and on 13 December 2013 an intergovernmental agreement was entered into between Jersey and the US in respect of FATCA, the detailed requirements for complying with FATCA are not yet fully known not least because it has not yet been enacted into domestic legislation in Jersey. In addition, official guidance with respect to aspects of FATCA compliance and with respect to compliance with the agreement is expected to be published and may affect such requirements. The requirements, when finalised, may impose additional burdens and costs on the relevant Jersey Issuer or the holders of Securities issued by the relevant Jersey Issuer.

Although the relevant Jersey Issuer will attempt to satisfy any obligations imposed on it to avoid the imposition of this withholding tax, no assurance can be given that the relevant Jersey Issuer will be able to satisfy such obligations. If the relevant Jersey Issuer becomes subject to a withholding tax as a result of FATCA, the return on some or all Securities issued by the relevant Jersey Issuer may be materially and adversely affected. In certain circumstances, the relevant Jersey Issuer may compulsorily redeem some or all of the Securities held by one or more holders and/or may reduce the redemption proceeds payable to any holder of Securities.

Intergovernmental Agreement between Jersey and the United Kingdom

On 22 October 2013, Jersey and the UK signed an intergovernmental agreement concerning the automatic exchange of tax information. The intergovernmental agreement is part of a package of measures intended to enhance existing arrangements in relation to the exchange of tax information in respect of UK residents, similar to the intergovernmental agreement with the US for the purposes of FATCA. Pursuant to the terms of the intergovernmental agreement, the relevant Jersey Issuers will, on an annual basis, be required to provide certain information in relation to UK resident holders of Securities issued by the relevant Jersey Issuer and their holding of the Securities to the relevant Jersey authority for onward transmission to HMRC in the UK. The intergovernmental agreement includes an alternative reporting mechanism in respect of UK resident non-domiciled holders of Securities issued by the relevant Jersey Issuer. Although the intergovernmental agreement has effect with respect to holders of Securities issued by the relevant Jersey Issuer and their holdings of the Securities from this calendar year 2014, the relevant Jersey Issuer will not be required to provide the relevant information to the relevant Jersey authority in respect of 2014 before 30 September 2016.

The detailed requirements for complying with the intergovernmental agreement are not yet fully known not least because it has not yet been enacted into domestic legislation in Jersey. In addition, official guidance with respect to compliance with the agreement is expected to be published and may affect such requirements. The requirements, when finalised, may impose additional burdens and costs on the relevant Jersey Issuer or holders of Securities issued by the relevant Jersey Issuer.

Considerations regarding increased regulation

The financial markets are encountering the increased involvement of governmental and regulatory authorities in the financial sector and in the operation of financial institutions and products offered and/or arranged by them. In particular, governmental and regulatory authorities in a number of jurisdictions have imposed stricter regulatory controls around certain financial activities and/or have indicated that they intend to impose such controls in the future. The United States of America, the European Union and other jurisdictions are actively considering or are in the process of implementing various reform measures covering, among other things, derivative transactions and the offering of structured products and other financial investments and instruments. Such regulatory changes and the method of their implementation may have a significant impact on the operation of the financial markets and may also effect the value, characterisation and/or treatment of Securities issued by the Issuer and/or the characterisation and/or treatment of any of the transactions or agreements relating thereto.

Certain of the regulatory developments may also impose obligations on the Issuer, the Swap Counterparty, the Agents and/or other applicable parties including, without limitation and among other things, in respect of derivative transactions (such as the reporting of transactional and other information relating to derivative transactions to trade repositories in various jurisdictions, the provision of collateral in certain circumstances mandated by such regulations and, potentially, the mandated clearing of certain derivative transactions). The ability of the Issuer, the Swap Counterparty, the Agents and/or other applicable parties to comply with such regulatory obligations (whether in respect of derivative transactions or other areas relevant to Securities issued by the Issuer) may depend on, among other things, the initial and/or ongoing implementation of such regulations by the applicable authorities, the status and/or nature of the Issuer, the Swap Counterparty, the Agents and/or other applicable parties, as relevant, the activities of such parties and/or other matters that may be outside the control of such parties (including contractual restrictions to which they may be subject).

Accordingly, no assurance can be given as to the consequences for any investor on their investment in Securities as a result of such regulatory developments and/or as a result of any compliance or lack of compliance by such party in respect of the same.

The Dodd-Frank Wall Street Reform and Consumer Protection Act and other regulatory changes affecting derivatives markets

The Dodd-Frank Wall Street Reform and Consumer Protection Act (“**Dodd-Frank**”), which provides for substantial changes to the regulation of the futures and over-the-counter (“**OTC**”) derivative markets, was enacted in July 2010. Dodd-Frank requires regulators, to adopt regulations and provide regulatory guidance on the regulation of swaps as commodity interests (as promulgated by the Commodity Exchange Act of 1936 (as amended) (the “**CEA**”), in response to Dodd-Frank) in order to implement many of the requirements of the legislation including the CFTC rules in respect of regulations. Based on the regulations issued and guidance provided to date, it is not clear whether the Warrants would be deemed to be “swaps” or “securities-based swaps” under Dodd-Frank and/or the CEA, and regulated as such. If the Warrants were deemed to be “swaps” or “security-based swaps” and issued by a non-US person to other non-US persons, the Warrants may not be subject to Dodd-Frank, but the CFTC has not yet provided final guidance on the definition of a “U.S. person” for purposes of extraterritorial application.

Options, Swaps and other instruments entered into by the Issuer may also be considered “swaps” or “securities-based swaps” under Dodd-Frank and be subject to regulation thereunder, including, but not limited to, requirements with respect to reporting, recordkeeping, due diligence of potential investors and clearing. While the CFTC has adopted many of the final regulations, the ultimate nature and scope of the regulations cannot yet be determined. These regulations may have the effect of reducing liquidity and increasing costs in these markets as well as affecting the structure of the markets in other ways. In addition, these legislative and regulatory changes will likely increase the level of regulation of markets and market participants, and therefore the costs of participating in the commodities, futures and OTC derivative markets. Without limitation, these changes will require many OTC derivative transactions to be executed on regulated exchanges or trading platforms and cleared through regulated clearing houses. Swap dealers will also be required to be registered and will be subject to various regulatory requirements, including capital and margin requirements. The various legislative and regulatory changes, and the resulting increased costs and regulatory oversight requirements, could result in market participants being required to, or deciding to, limit their trading activities, which could cause reductions in market liquidity and increases in market volatility. These consequences could adversely affect the return on and value of the Securities.

While many of the financial regulations have been issued, other key regulations and guidance, such as that relating to extraterritoriality and swap execution facilities (“**SEF**”) have not been finalized and even with respect to certain rules that have been finalized, there remain issues requiring further clarification. Under U.S. law pre-Dodd-Frank, the swaps under the Programme were over-the-counter contracts not required to be cleared or executed through a SEF. Dodd-Frank or rules thereunder may

require that the swaps underlying a Series of Securities be cleared and executed through a SEF or executed on and cleared through an exchange.

Further, one of the Issuers could be required to register as a commodity pool operator and to register one or more Series as commodity pools with the CFTC through the National Futures Association. Such additional registrations may result in increased reporting obligations and also in extraordinary, non-recurring expenses of the Issuers thereby materially and adversely impacting a Security's value.

Given that the full scope and consequences of the enactment of Dodd-Frank and the rules still to be enacted thereunder are not yet known, investors are urged to consult their own advisors regarding the suitability of an investment in any Securities under the Programme.

Investors should also be aware of the risks that the requirements of Dodd-Frank may result in (i) Notes being redeemed early at the Early Redemption Amount in the circumstances set out in Condition 7(c)(iv) (Mandatory Redemption) or (ii) Warrants being cancelled early at the Cancellation Amount in the circumstances set out in Condition 24(b)(iv) (Mandatory Cancellation).

European Market Infrastructure Regulation and Markets in Financial Instruments Directive

In addition, European Regulation 648/2012, known as the European Market Infrastructure Regulation (“**EMIR**”) entered into force on 16 August 2012. Under EMIR certain over-the-counter (“**OTC**”) derivatives that are traded in the European Union by financial counterparties (“**FCs**”), such as investment firms, credit institutions and insurance companies, and certain non-financial counterparties (“**NFCs**”) have to be cleared (the “**clearing obligation**”) via an authorised central clearing counterparty (a “**CCP**”). In addition, EMIR requires the reporting of OTC derivative contracts to a trade repository (the “**reporting obligation**”) and introduces certain risk mitigation requirements in relation to OTC derivative contracts that are not cleared by a CCP.

Under EMIR, a CCP will be used to meet the clearing obligation (where applicable) by interposing itself between the counterparties to the eligible derivative contracts. CCPs will connect with certain derivative counterparties through their clearing members. Each affected derivative counterparty will be required to post both initial and variation margin to the clearing member, which will in turn be required to post margin to the CCP. EMIR requires CCPs to only accept highly liquid collateral with minimal credit and market risk. A NFC may also be subject to the clearing obligation, subject to its positions in OTC derivatives contracts exceeding certain thresholds. Whilst it appears that entities like the Issuers would be considered a NFC under EMIR, the position remains to be fully clarified. Thus, it cannot be excluded that one or more of the Issuers will be subject to the clearing obligation in the future. NFCs which enter into an OTC derivative contract which are not “eligible” for clearing would have to ensure that appropriate procedures and arrangements are in place to monitor and minimise operational and credit risk.

The Issuers may have to apply certain risk mitigation techniques in relation to timely confirmation, portfolio reconciliation and compression, and dispute resolution that are applicable to OTC derivatives contracts that are not cleared by a CCP. Investors should be aware that the Issuer will be required to disclose the details of any derivative transaction it enters into to a “trade repository” and/or to regulatory authorities as a consequence of the requirements of the trade reporting under EMIR. In addition, the Issuer has entered into, and may enter into further, agreements which do not amend or modify the term of any Notes, with the Swap Counterparty in order to comply with the risk mitigation techniques for uncleared trades. The Issuer may enter into similar arrangements or agreements without Trustee or Noteholder consent to facilitate compliance with EMIR.

The EU regulatory framework relating to derivatives is set not only by EMIR but also by the proposal to update the existing Markets in Financial Instruments Directive (“**MiFID II**”) which is expected to come into force in June 2014. In particular, MiFID II is expected to require all transactions in OTC derivatives to be executed on a trading venue. In this respect, it is difficult to predict the full impact of these regulatory requirements on the Issuers.

Investors in the Securities should be aware that the regulatory changes arising from EMIR and MiFID II may in due course significantly raise the costs of entering into derivative contracts and may adversely affect the Issuers' ability to engage in transactions in OTC derivatives. As a result of such increased costs or increased regulatory requirements, investors may receive less interest or return, as the case may be. Investors should be aware that such risks are material and that the Issuers could be materially and adversely affected thereby. The full impact of EMIR and of MiFID II remains to be clarified and the scope of their possible implications of for investors in the Securities cannot currently be predicted. As such, investors should consult their own independent advisers and make their own assessment about the potential risks posed by EMIR and MiFID II and technical implementation in making any investment decision in respect of the Securities.

Investors should also be aware of the risks that the requirements of EMIR may result in (i) Notes being redeemed early at the Early Redemption Amount in the circumstances set out in Condition 7(c)(iv) (*Mandatory Redemption*) or (ii) Warrants being cancelled early at the Cancellation Amount in the circumstances set out in Condition 24(b)(iv) (*Mandatory Cancellation*).

Alternative Investment Fund Managers Directive

EU Directive 2011/61/EU on Alternative Investment Fund Managers (“**AIFMD**”) came into force on 21 July 2011 and the requirements thereunder were broadly implemented into the national laws of the Member States of the European Union by 22 July 2013.

AIFMD provides, amongst other things, that all alternative investment funds (“**AIFs**”) must have a designated alternative investment fund manager with responsibility for portfolio and risk management. If the Issuer is an AIF (which may be determined by reference to any transactions it has entered into) the provisions of AIFMD would apply to the Issuer. In addition, the Issuer may constitute a “financial counterparty” for the purposes of EMIR and become subject to the clearing obligation and/or to post margin to any central clearing counterparty or market counterparty.

Investors should therefore be aware of the risk that the requirements of AIFMD may result in (i) Notes being redeemed early at the Early Redemption Amount in the circumstances set out in Condition 7(c)(iv) (*Mandatory Redemption*) or (ii) Warrants being cancelled early at the Cancellation Amount in the circumstances set out in Condition 24(b)(iv) (*Mandatory Cancellation*).

Given the material and presently unknown extent of the risks which may affect the Notes or Alternative Investments as a consequence of the implementation of AIFMD, potential investors in the Notes or Alternative Investments should take independent advice and make an independent assessment about such risks in the context of any potential investment decision with respect to the Notes or Alternative Investments.

Bank Recovery Resolution Directive

On 15 April 2014, the European Parliament adopted the Bank Recovery Resolution Directive (the “**BRRD**”) which sets out an EU-wide framework for the recovery and resolution of credit institutions. On 6 May 2014, the BRRD was adopted by the EU Council. It is due to be published in the Official Journal of the European Union in the summer of 2014 and will be required to be transposed into Member States law and regulation by the end of 2014. Amongst other things, the BRRD contemplates the introduction of a package of minimum early intervention and resolution-related tools and powers for relevant authorities and provides for special rules for cross-border groups. The resolution tools and powers referred to in the BRRD include certain tools and powers which overlap with those available under the Banking Act 2009 (amongst others). As the BRRD is still being implemented there can be no assurance that the Holders will not be adversely affected by an action taken under it in respect of a relevant transaction entity. Such action, which may include (but is not limited to) forced changes to an entity’s legal or operational structure (prior to any resolution), bail-in of liabilities or transfers of assets, may affect the ability of such entities to satisfy their obligations under the relevant documents and/or result in modifications to such documents, and may, in particular, affect the ability of the Issuer to meet its obligations in respect of the Securities.

Selling Restrictions

The Securities may be subject to certain selling restrictions. Securities may not be offered or sold to, or for the account or benefit of, a U.S. person. Securities can only be sold or otherwise transferred to certain transferees as described under “*Subscription and Sale*”. Such restrictions on transfer may limit the liquidity of such Securities. Consequently, a purchaser must be prepared to hold such Securities for an indefinite period of time and potentially until their maturity or exercise in the case of Warrants.

Any sale or transfer of Securities to, or for the account or benefit of, U.S. persons in violation of the selling restrictions will be void *ab initio* and will not be honoured by the relevant Issuer, except to the extent otherwise required by law. In addition, the relevant Issuer may, in its discretion, redeem the Notes held by such purchaser or other transferee at the Early Redemption Amount, cancel the Warrants held by such purchaser or other transferee against payment of the Cancellation Amount or compel any such purchaser or other transferee to transfer such Notes or such Warrants. Any such redemption, cancellation or forced transfer may result in a significant loss of a Holder's investment.

No legal and tax advice

Each prospective investor should consult its own advisers as to legal, financial, tax, regulatory and related aspects of investment in the Securities. A Holder's effective yield on the Securities may be diminished by the tax on that Holder of its investment in the Securities.

A Holder's actual yield on the Securities may be reduced from the stated yield by transaction costs.

EU Savings Directive

Under European Directive 2003/48/EC on taxation of savings income (the “**Savings Directive**”), Member States are required to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person within its jurisdiction to an individual resident in another Member State, except that for a transitional period Luxembourg and Austria instead operate a withholding system unless during that period they elect otherwise (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries and territories). The rate of withholding tax in those jurisdictions is 35%. In April 2013, the Luxembourg government announced its intention to end its transitional period and move to automatic exchange of information under the Savings Directive with effect from 1 January 2015. Certain other jurisdictions, including Switzerland, have enacted equivalent legislation which imposes a withholding tax in substantially the same circumstances as envisaged by the Savings Directive.

On 24 March 2014, the Council of the European Union adopted an EU Council Directive amending and broadening the scope of the requirements described above. In particular, the changes expand the range of payments covered by the Savings Directive to include certain additional types of income, and widen the range of recipients payments to whom are covered by the Savings Directive, to include certain other types of entity and legal arrangement. Member States are required to implement national legislation giving effect to these changes by 1 January 2016 (which national legislation must apply from 1 January 2017).

Holders of the Securities should note that should any payment in respect of the Securities be subject to withholding imposed as a consequence of the Savings Directive or under equivalent legislation, no additional amounts would be payable by the relevant Issuer nor any Paying Agent nor any other person.

The proposed financial transactions tax (“FTT”)

The European Commission has published a proposal for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the participating Member States).

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are exempt.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

Specific Risks relating to Notes

Partly-Paid Notes

The Issuer may issue Notes where the issue price is payable in more than one part payment. Failure to pay any subsequent part payment could result in an investor losing some or all of his investment.

Variable Rate Notes with a Multiplier or other Leverage Factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Notes

Inverse floating rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse floating rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Fixed/Floating Rate Notes

Fixed/floating rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/floating rate Notes may be less favourable than then prevailing spreads on comparable floating rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a Substantial Discount or Premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities,

the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Subordination Generally

One or more Tranches of Notes may be subordinated to any other Tranche of Notes. Unless specified otherwise in the relevant Offering Circular Supplement, payments of principal on any Tranche of Notes may not be made until all payments of principal due and payable on any Tranche of Notes ranking in priority thereto pursuant to the application of proceeds as set out in the Trust Deed (as defined below), have been made in full. Unless specified otherwise in the relevant Offering Circular Supplement, payments of interest on any Tranche of Notes may not be made until all payments of interest due and payable on any Tranche of Notes ranking in priority thereto pursuant to the application of proceeds as set out in the Trust Deed, have been made in full. Payments of principal and interest on the Notes are also subordinated to payment of certain expenses of the Issuer and amounts payable to any Other Creditor as specified in the application of proceeds as set out in the Trust Deed. The risk of delays in payments or ultimate non-payment of principal and/or interest will be borne disproportionately by the Holders of the more Subordinated Tranche of Notes as compared to the more senior Tranche of Notes determined by reference to their ranking pursuant to the application of proceeds as set out in the Trust Deed. In addition, to the extent described herein and unless otherwise specified in the relevant Offering Circular Supplement, payments of interest on one or more Tranches of Notes may be deferred to the extent there are not sufficient proceeds available to pay such interest in accordance with the application of proceeds as set out in the Trust Deed and such deferral of interest will not constitute an Event of Default under the Notes at any time whilst, in the case of one or more Subordinated Tranche of Notes any Senior Tranche of Notes remain outstanding. Any such deferral of interest will increase the effect of the subordination of the Tranche or Tranches of Notes in respect of which payment was deferred. Non-payment of interest on one or more Subordinated Tranche of Notes as a result of the non-availability of proceeds will not constitute an Event of Default in any circumstances.

Subordination of Subordinated Notes

Payments on one or more Tranches of Notes both prior to and following enforcement of the Transaction Security may be subordinated to payments in respect of any other Tranche of Notes and to payment of certain fees and other amounts payable by the Issuer in accordance with the application of the proceeds in accordance with the Trust Deed. Unless specified otherwise in the relevant Offering Circular Supplement, interest on the subordinated Tranche of Notes will be paid only to the extent that there are proceeds available on each Interest Payment Date following payment of interest on the Senior Tranche of Notes and the fees, expenses and other amounts set out in the Trust Deed.

The Issuer's ability to make payments in respect of any Tranche of Notes will be constrained by the terms of the Tranche of Notes more senior to such Tranche and by the level of distributions received in respect of the Collateral securing the Notes.

As referred to under "*Subordination Generally*" above, the risk of delays in payments or ultimate non-payment of principal and/or interest may be borne disproportionately by one or more Tranches of Notes as compared to any other Tranche of Notes. In addition, any deferral of interest payable on the Senior Tranche of Notes, as described in "*Subordination Generally*" above, may increase the effect of the subordination of one or more Tranches of Notes.

In the event of any redemption or repayment in whole of one or more Tranche of Notes pursuant to Condition 7 (*Redemption, Purchase and Options*) or acceleration thereof, one or more Tranche of Notes may also be redeemed and the Mortgaged Property will be liquidated. Liquidation of the Mortgaged Property at such time and/or the remedies pursued by the Trustee upon enforcement of the security over the Mortgaged Property in such circumstances could be adverse to the interests of the Holders of one or more Tranches of Notes. See Condition 12(d) (*Entitlement of the Trustee and Conflicts of Interest*).

Subordination through Conflicts between Tranches

Following the occurrence of an Event of Default, the Notes may be accelerated in accordance with Condition 10 (*Events of Default*) by the Trustee at the request of the Holders of at least one-fifth in nominal amount of the most Senior Tranche of Notes then outstanding or if so directed by an Extraordinary Resolution. Liquidation of the Mortgaged Property after such time and/or the remedies pursued by the Trustee upon enforcement of the Transaction Security in such circumstances could be adverse to the interest of Holders of the Subordinated Tranche of Notes which ranks junior in terms of priority to the Holders of the most Senior Tranche directing such enforcement, and the Holders of the most Senior Tranche entitled to vote at any time will have no obligation to consider the effect of any such vote on the Holders of any other Tranche of Notes.

The relevant Trust Deed provides that in the event of any conflict of interest between the various Tranches of Noteholders, the Trustee will (subject to being indemnified to its satisfaction (including, where so required by the Trustee, by way of pre-funding) against all liabilities, proceeding, claims and demands to which it may thereby become liable and all costs, charges and expenses which may be properly incurred by it in connection therewith) act upon the directions of the Noteholders of the most Senior Tranche in such circumstances, and shall not be obliged to consider the interests of the Holders of any other Tranche of Noteholders. In acting upon the direction of the Noteholders of the most Senior Tranche, the Trustee shall not be held liable for the consequence of the taking of or the failure to take (for whatever reason) any action and may take such action or refrain from taking such action without having regard to the effect of such action or inaction on any Other Creditor in relation to the Notes. The Trustee shall, save as otherwise expressly provided, not have regard to the interests of any Other Creditor other than the relevant Tranche of Noteholders except to apply the proceeds of enforcement of the Transaction Security in the order set out in the Trust Deed.

Fungibility of Notes

Unless specified otherwise in the Offering Circular Supplement, each Tranche of Bearer Notes issued in compliance with U.S. Treas. Reg. §1.163-5(c)(2)(i)(D) (as defined in “*Overview of the Programme — Regulation S*” below) will not be fungible with any prior Tranches of the same Series of Notes until 40 days after the issue date of such Tranche.

Amount and Timing of Payments

To the extent that interest payments on one or more Tranches of Notes which rank senior to other Tranches of Notes are not made on the relevant Interest Payment Date, such unpaid interest amount will be deferred and the amount thereof added to the principal amount outstanding of such Senior Tranche of Notes and will earn interest at the interest rate applicable to such Notes. Any failure to pay scheduled interest on such Senior Tranche of Notes to the extent that there are insufficient funds available to pay such interest in accordance with the application of the proceeds set out in the Trust Deed will not be an Event of Default. Payments of interest and principal on or more Tranches of Notes will only be made to the extent that there are proceeds available for such purpose in accordance with the application of proceeds set out in the Trust Deed. No interest or principal may therefore be payable on one or more Tranche of Notes which may be subordinated for an unlimited period of time, to maturity or at all.

Notes where Denominations involve Integral Multiples: Definitive Bearer Notes

In relation to any issue of Bearer Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Bearer Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a Holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Bearer Note in respect of such holding (should definitive Bearer Notes be printed) and would need to purchase a principal amount of Bearer Notes such that its holding amounts to a Specified Denomination.

If definitive Bearer Notes are issued, Holders should be aware that definitive Bearer Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Specific Risks relating to Warrants

General

Prospective purchasers of Warrants should recognise that their Warrants may expire worthless. Prospective purchasers should be prepared to sustain a total loss of the purchase price of their Warrants.

The risk of the loss of some or all of the purchase price of a Warrant upon expiration means that, in order to recover and realise a return upon its investment, a purchaser of a Warrant must generally be correct about the direction, timing and magnitude of an anticipated change in value of the Relevant Factor which may be specified in the applicable Offering Circular Supplement.

Assuming all other factors are held constant, the lower the value of a Warrant and the shorter the remaining term of a Warrant to expiration, the greater the risk that purchasers of such Warrants will lose all or part of their investment. The only means through which a Holder of a Warrant can realise value from the Warrant prior to its exercise date in relation to such Warrant is to sell it at its then market price in an available secondary market. See “No Secondary Market and Illiquid Securities” below.

Limitations on exercise of Warrants

If so indicated in the Offering Circular Supplement, the Issuer will have the option to limit the number of Warrants exercisable on any date (other than the final exercise date) to the maximum number specified in the Offering Circular Supplement and, in conjunction with such limitation, to limit the number of Warrants exercisable by any person or group of persons (whether or not acting in concert) on such date. In the event that the total number of Warrants being exercised on any date (other than the final exercise date) exceeds such maximum number and the Issuer elects to limit the number of Warrants exercisable on such date, a Warrantholder may not be able to exercise on such date all the Warrants that such Warrantholder desires to exercise. In any such case, the number of Warrants to be exercised on such date will be reduced until the total number of Warrants exercised on such date no longer exceeds such maximum, such Warrants being selected at the discretion of the Calculation Agent or in any other manner specified in the applicable Offering Circular Supplement. Unless otherwise specified in the Offering Circular Supplement, the Warrants tendered for exercise but not exercised on such date will be automatically exercised on the next date on which Warrants may be exercised, subject to the same daily maximum limitation and delayed exercise provisions.

Minimum Exercise Amount of Warrants

If so indicated in the Offering Circular Supplement, a Warrantholder must tender or, in the case of automatic exercise, hold, a specified number of Warrants at any one time in order to exercise its rights in respect of such Warrants. As such, Warrantholders with fewer than the specified minimum number of Warrants will either have to sell their Warrants or purchase additional Warrants, incurring transaction costs in each case, in order to realise their investment. Furthermore, Warrantholders incur the risk that there may be differences between the trading price of such Warrants and the Settlement Amount relating to such Warrants.

Time lag after exercise of Warrants

In the case of any exercise of Warrants, there will be a time lag between the time a Holder of Warrants gives instructions to exercise and the time the applicable Settlement Amount relating to such exercise is determined. Any such delay between the time of exercise and the determination of the Settlement Amount will be specified in the applicable Offering Circular Supplement or the Conditions of the Warrants. However, such delay could be significantly longer, particularly in the case of a delay

in the exercise of Warrants arising from any daily maximum exercise limitation, the occurrence of a disruption event in relation to settlement, the failure to open of an exchange (if applicable) or other event. The applicable Settlement Amount may change significantly during any such period, and such movement or movements could decrease the Settlement Amount of the relevant Warrants, and may result in such Settlement Amount being zero.

Subordination

Payments in respect of the Warrants are subordinated to the payment of certain expenses of the Issuer and amounts payable to any Other Creditor as specified in the application of proceeds as set out in the Trust Deed.

Risks related to the structure of a particular issue of Securities

Risk Factors relating to Index Linked Securities, the Redemption or Settlement Amount of which is linked to one or more Fund Units¹

Fund units, and investments in hedge funds generally, are speculative and involve a high degree of risk. The relevant Issuer does not give any assurance as to the performance of fund units.

Hedge funds, including the funds on which Index Linked Securities may be indexed, generally do not make information about their operations and holdings public. Even if the relevant Issuer may have arrangements with a fund's managers to obtain information required to calculate the value of the fund, it may not have access to the activities of the fund on a continuous basis or at all. There are currently no regulatory requirements compelling funds to release information of the kind that would allow the relevant Issuer to value a fund or to accurately determine the value of the fund units and, consequently, the Final Redemption Amount or Early Redemption Amount (if any) (in the case of Notes) or the Settlement Amount or Cancellation Amount (in the case of Warrants).

The following risk factors apply where a Series of Securities is linked to one or more Fund Units

Volatility of the Markets may Adversely Affect the Value of the Fund Units

Hedge funds' performances may be highly volatile. Movements in the net asset value of the fund tracked by the fund units may vary from week to week. Trades made by fund managers may be based upon their expectation of price movements as the relevant investments approach and reach maturity several months following initiation of the trades. In the meantime, the market value of positions may not increase, and may in fact decrease, and this will be reflected in the net asset value per share.

Investments made by the underlying funds can involve substantial risks. The nature of these investments means that the value of the fund units may fluctuate significantly during a day or over longer periods. Consequently, the performance of the fund units over a given period will not necessarily be indicative of future performance.

Market volatility may produce significant losses on the fund units which may in turn impact on the value of any applicable Securities.

The Use of Leverage may Increase the Risk of Loss in the Value of the Fund Units

The underlying funds may have recourse to leverage i.e. borrow amounts that represent more than 100 per cent. of the value of their assets to invest further in assets that involve further risks. Accordingly, a small downward movement in the value of a fund's assets may result in a significantly larger loss of the fund.

¹ Statements in this section concerning funds and fund managers also apply to any portfolio or basket of funds and any related portfolio manager.

Funds Managers may be Eligible to Earn Incentive Compensation

The potential for a fund manager to earn performance based compensation (including a manager that is affiliated with Société Générale) may encourage such fund manager to trade in a more speculative manner than it otherwise would. Therefore, because the incentive compensation of the fund's managers and/or investment advisors to hedge funds is often directly influenced by the performance of such funds, each may have an incentive to make more risky investments that may result in greater profits. Such risky investments also allow the opportunity for significant losses. In addition, the fund's managers and/or the investment advisors may receive management, advisory or performance fees even though the fund has not realized any gains.

Funds Managers' Investments are not verified

Neither of the relevant Issuer nor the Calculation Agent under the Securities is or will be responsible for verifying or ensuring that the fund's managers comply with its stated trading strategy (including a manager that is affiliated with Société Générale).

The fund's managers (including a manager that is affiliated with Société Générale) do not have any obligations to the Holders, or other role in connection with, the Securities, including any obligation to take the needs of the Holders into consideration for any reason. The fund's managers (including a manager that is affiliated with Société Générale) are not responsible for, and have not endorsed or participated in, the offering, placement, sale, purchase or transfer of the Securities. The fund's managers (including a manager that is affiliated with Société Générale) are not responsible for, and will not participate in, the determination or calculation of the amounts receivable by Holders.

Hedge funds, including the underlying funds, are not subject to the same regulatory regime, or regulated to the same extent as, mutual funds or registered securities or securities offerings. Changes to the current regulatory environment could affect the investment, operations and structure of the underlying funds and could adversely affect the performance of the underlying funds.

The underlying funds may invest in assets that involve further risks and such risks may not be fully disclosed at the time of investment by the relevant Issuer. The fund's managers and/or the investment advisors to hedge funds may invest in and trade in a variety of financial instruments using sophisticated investment techniques for hedging and non-hedging purposes. Such financial instruments and investment techniques include but are not limited to the use of leverage (i.e., borrowing money for investment purposes), short sales of securities, transactions that use derivatives such as swaps, stock options, index options, futures contracts and options on futures, transactions that involve the lending of securities to certain financial institutions, the entry into repurchase and reverse repurchase agreements for securities and the investment in foreign securities and foreign currencies. Furthermore, hedge funds may borrow an amount more than 100 per cent. of its assets on a consistent basis to increase its leverage. While these investment strategies and financial instruments allow the fund's managers and/or the investment advisors the flexibility to implement a range of strategies in an attempt to generate positive returns for the fund, they also create the risk of significant losses that may adversely affect the fund.

Hedge funds may invest in securities listed or traded on foreign exchanges. The execution of transactions on foreign exchanges might involve particular risks including but not limited to: higher volatility, government intervention, lack of transparency, lack of regulation, currency risk, political risk and economic social instability.

Reliance on fund's managers and/or investment advisors of the underlying fund(s)

Investment in Securities is speculative and entails substantial risks. The Final Redemption Amount or Early Redemption Amount (in the case of Notes) or the Settlement Amount or Cancellation Amount (in the case of Warrants) is based on, amongst other things, changes in the value of the underlying fund(s), which fluctuates and cannot be predicted. Moreover, any persons relying on the performance of the underlying fund(s) should note that such performance will depend to a considerable extent on

the performance of the fund's managers and/or investment advisors of the fund(s). None of the Issuer, Société Générale as Calculation Agent under the Securities or Société Générale's affiliates is in a position to protect the Holders against fraud and misrepresentation by unaffiliated fund managers or the investment advisors. Investors should understand that they could be materially adversely affected by any such acts. Holders do not have and are not entitled to any beneficial interests in the underlying fund(s) and as such, have no recourse against the underlying fund(s), any investment advisor or manager either contractually or statutorily. Furthermore, as a practical matter, it may be difficult to bring an action, or to seek to enforce a judgment obtained in an action, against any of the aforementioned entities. In addition, the fund's managers and/or the investment advisors may be removed or replaced, the allocation of assets may vary from time to time and the various positions of the investments of the underlying fund(s) may be economically offsetting, all of which may affect the performance of the underlying fund(s).

The fund's managers and/or the investment advisors may manage or advise other funds and/or accounts and may have financial and other incentives to favour such other funds and/or accounts over the underlying fund(s). Also, the fund's managers and/or the investment advisors may manage or advise for their own accounts and the accounts of their clients and may make recommendations or take positions similar or dissimilar to those of the underlying fund(s) or which may compete with the underlying fund(s).

Fees, Deductions and Charges will reduce the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount or the Settlement Amount, Cancellation Amount or Optional Cancellation Amount

Fund fees will be deducted from the net asset value of the fund, reducing the value of the fund units. Accordingly, to the extent that the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount (in the case of Notes) or the Settlement Amount, Cancellation Amount or Optional Cancellation Amount (in the case of Warrants) is linked to the net asset value of a fund, such amount payable to Holders will be less than it would have been absent these fees, deductions and charges and Société Générale or one of its affiliates may be the beneficiary of such fees or obtain rebate on such fees from third parties.

Net Asset Value

The Issuer believes that the market value of the Securities will likely depend substantially on the then-current net asset value of the underlying fund(s). If an investor chooses to sell its Securities, such investor may receive substantially less than the amount that would be payable at any relevant payment date based on that net asset value because of, for example, possible market expectations that the net asset value of the underlying fund(s) will continue to fluctuate between such time and the time when the final net asset value of the underlying fund(s) is determined. Political, economic and other developments that affect the investments underlying the underlying fund(s) may also affect the net asset value of the underlying fund(s) and, thus the value of the Securities.

The illiquidity of the underlying fund's investments may cause the payment of the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount (in the case of Notes) or the Settlement Amount, Cancellation Amount or Optional Cancellation Amount (in the case of Warrants) to be reduced or delayed

The Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount (in the case of Notes) or the Settlement Amount, Cancellation Amount or Optional Cancellation Amount (in the case of Warrants) due to investors in Securities having funds as underlyings may be based on the redemption proceeds that would be paid in cash by the underlying fund to a hypothetical investor as a result of a valid and timely notice for redemption given by such hypothetical investor with effect as of the relevant valuation date. To meet a redemption request, the underlying fund would likely sell its own assets but such investments may not be readily saleable on or shortly after the valuation date for various reasons, including, but not limited to:

- infrequent redemption opportunities allowed by such underlying fund (for example, many hedge funds only allow monthly or quarterly liquidity);
- “gating,” lock-ups, side pockets or discretionary redemption delays or suspensions imposed by such underlying fund (for example, many hedge funds have provisions whereby redemption requests are scaled back if the aggregate amount of such requests reaches a predetermined limit); or
- such underlying funds’ own investments may be illiquid.

In these situations, the payment of the amount due to Holders may occur on the basis of the redemption proceeds paid by the underlying fund in respect of a valid and timely redemption order given after the occurrence of an event described above. If the redemption proceeds have not been paid by the underlying fund on the Maturity Date (in the case of Notes) or the applicable Settlement Date (in the case of Warrants), the payment of the amounts due on such date may be postponed after the Maturity Date or Expiration Date, as the case may be, up to a maximum period of two years. If at the expiry of this two-year period, the underlying fund has not paid in full the redemption proceeds, the final redemption amounts shall be determined by the Calculation Agent on the basis of what has actually been paid by the underlying fund. The amount received by the investors in the Securities may be as low as zero.

In the case of the occurrence of certain extraordinary events affecting an underlying fund, such as, but without limitation the insolvency, nationalization or merger of the underlying fund, the resignation or termination or replacement of the administrator, custodian, investment adviser or manager of the fund, a breach by the underlying fund of its investment strategy, the Calculation Agent may decide to terminate soon after the occurrence of such extraordinary event, the exposure of the Securities to the underlying fund and pay Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount at the Maturity Date (in the case of Notes) or the Settlement Amount, Cancellation Amount or Optional Cancellation Amount at the Expiration Date (in the case of Warrants) on the basis of the redemption proceeds paid by the underlying fund in the liquidation of such underlying fund. If the underlying fund is also subject to liquidity problems as described above, the postponement of the payment of the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount (in the case of Notes) or the Settlement Amount, Cancellation Amount or Optional Cancellation Amount (in the case of Warrants) up to a maximum period of two years may also apply.

Given recent experience in the hedge fund industry, it is likely that such delay would have an adverse impact on the amount payable to an investor under the Securities.

If the underlying fund(s) invest(s) through a master-feeder structure, the latter may have an adverse effect on the underlying fund(s) and, therefore, the Securities

The underlying fund(s) may invest through a “master-feeder” structure. As such, the underlying fund(s) will contribute substantially part or all of its assets to the master fund and may do so alongside other investors, including other feeder funds. The relevant master fund may also establish or allow investment by additional investors or feeder funds in the future.

The master-feeder fund structure, in particular the existence of multiple investment vehicles investing in the same portfolio, presents certain unique risks to investors. The underlying fund(s) may be materially affected by the actions of other investors, investment vehicles and feeder funds investing in the master fund, particularly if such investors have large investments in the master fund. For example, if a larger investment vehicle or entity with a large investment in the master fund redeems its investment in the master fund, illiquidity in certain securities or markets could make it difficult for the master fund to liquidate positions on favourable terms to effect such redemption, which could result in losses or a decrease in the net asset value of the master fund. In addition, to satisfy such redemptions, the sub-manager may need to liquidate the master fund’s most liquid investments; leaving remaining investors (including the underlying fund(s)) invested in more illiquid instruments. Such withdrawals

may also leave the master fund with a less diversified pool of investments. This may increase the overall portfolio risk of the master fund, and, ultimately, the Notes. Conversely, the sub-manager may refuse a redemption request if it believes that such request, if fulfilled, would have a material adverse impact on the remaining investors of the master fund. This may negatively impact the liquidity of the master fund and, therefore, the underlying fund(s) and the Securities.

Certain business activities may create conflicts of interest with Holders

Société Générale (which for the purposes of this paragraph shall include any of its affiliates) and/or the Issuer may engage in trading and other business activities relating to the underlying fund(s) or their underlying assets that are not for the Holders' accounts or on behalf of the Holders. These activities may present a conflict between a Holder's interest in the Securities and the interests Société Générale and/or the Issuer, may have in their proprietary account. Such activities may include, among other things, the exercise of voting power, financial advisory relationships, financing transactions, derivative transactions and the exercise of creditor rights, each of which may be contrary to the interests of the Holders. Any of these trading and/or business activities may affect the value of an underlying fund(s) and thus could be adverse to a Holder's return on the Securities. Société Générale and/or the Issuer may engage in any such activities without regard to the Securities or the effect that such activities may directly or indirectly have on Securities of any Series.

In addition, in connection with these activities, Société Générale and/or the Issuer may receive information about the underlying fund(s) or their underlying assets that will not be disclosed to the Holders. Société Générale and/or the Issuer have no obligation to disclose such information about the underlying fund(s) or the companies to which they relate to Holders.

Additional Investments in, or Withdrawals of Amounts Previously Invested in, the Fund may Adversely Affect the Value of the Fund Units

In the ordinary course of their business, whether or not they will engage in any secondary market making activities, Société Générale (which for the purposes of this paragraph shall include any of its affiliates) and/or the Issuer may effect transactions for their own account or for the account of their customers and hold long or short positions in the underlying fund(s), underlying assets of the underlying fund(s) and/or related derivatives. In addition, in connection with the offering of any Series of Securities and during the term of such Series of Securities, each of Société Générale and/or the Issuer, in order to hedge its obligations under the Securities, may enter into one or more hedging transactions with respect to the underlying fund(s), underlying assets of the underlying fund(s) and/or related derivatives.

In connection with any of such hedging or any market making activities or with respect to proprietary or other such trading activities, Société Générale and/or the Issuer may enter into transactions in the underlying fund(s), underlying assets of the underlying fund(s) and/or related derivatives which may affect the market price, liquidity or value of the underlying fund(s) or their underlying assets, and therefore the Securities. Société Générale and/or the Issuer may also issue other securities or financial or derivative instruments with returns linked or related to changes in the performance of the underlying fund(s) or their underlying assets. Any of the above situations may result in consequences which may be adverse to a Holder's investment. Société Générale and/or the Issuer assumes no responsibility whatsoever for such consequences and their impact on a Holder's investment.

Investors should be aware that, as a result of hedging decisions by the hedging counterparty, transfers into or out of the fund by the hedging counterparty may affect the value of the fund units and, in turn, the fund linked amount of the Securities.

Furthermore, the Issuer may issue additional Tranches of Securities that are fungible with the Securities, or other bonds, notes or instruments that, while not fungible with the Securities, may be linked to an index with a component which has the underlying funds as reference asset. If such Securities are issued, Société Générale or one of its affiliates may make additional investments in the underlying funds to hedge exposure incurred in connection with such transactions related to such

Securities. Any such investment in the underlying funds could adversely affect the performance of the fund units, which could adversely affect the trading value of the Securities and the Final Redemption Amount or Early Redemption Amount (in the case of Notes) or the Settlement Amount or Cancellation Amount (in the case of Warrants).

Legal, tax and regulatory changes

Legal, tax and regulatory changes could occur during the term of the Securities that may adversely affect the underlying fund(s). The regulatory environment for hedge funds is evolving, and changes in the regulation of hedge funds may adversely affect the value of investments held by the underlying fund(s). In addition, the securities and futures markets are subject to comprehensive statutes, regulations and margin requirements. Regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The regulation of derivatives transactions and funds that engage in such transactions is an evolving area of law and is subject to modification by government and judicial action. The effect of any future regulatory change on the underlying fund(s) could be substantial and adverse and consequently adversely affect the value of the Securities.

No ownership rights in any underlying fund(s)

An investment in the Securities does not entitle Holders to any ownership interest or rights in any underlying fund(s), such as voting rights or rights to any payments made to owners of the underlying fund(s). Instead, a Security represents a notional investment in the underlying fund(s). The term “notional” is used because although the value of the underlying fund(s) will be used to calculate payment under the Securities to Holders, Holders' investment in the Securities will not be used to purchase interests in the underlying fund(s) on their behalf.

Société Générale (which for the purposes of this paragraph shall include any of its affiliates) and/or the Issuer, may purchase interests in the underlying fund(s) in order to hedge its obligations under the Securities but it is under no obligation to do so. Such interests, if any, are the separate property of Société Générale and/or the Issuer and do not secure or otherwise underly the Securities. Therefore, in the event of a failure to pay the Final Redemption Amount and/or Early Redemption Amount (in the case of Notes) or the Settlement Amount or Cancellation Amount (in the case of Warrants) by the Issuer under the Securities, Holders will have no beneficial interest in or claim to any such interests in the underlying fund(s). Accordingly, any claims by Holders pursuant to the terms and conditions of such Securities will be *pari passu* with all other unsecured, unsubordinated, unconditional creditors of the Issuer.

Common Risk Factors relating to Index Linked Securities

Where payments (whether in respect of principal and/or interest or settlement amounts and whether at maturity, exercise or otherwise) on Index Linked Securities are calculated by reference to an index or a basket of indices, or a share or a basket of shares, the creditworthiness of any reference entity or reference obligation or a basket of reference entities or reference obligations, a commodity or a basket of commodities, (each a “**Reference Asset**”), the return of the Securities is based on changes in the value of the Reference Asset, which fluctuates. Changes in the value of the Reference Asset cannot be predicted. Although historical data with respect to the Reference Asset is available, the historical performance of the Reference Asset should not be taken as an indication of future performance.

Investors' Yield may be Lower Than the Yield on a Standard Debt Security of Comparable Maturity

Unlike conventional fixed rate or floating rate debt securities, Index Linked Securities whose payments (whether in respect of principal and/or interest or settlement and whether at maturity, exercise or otherwise) are calculated by reference to an index, may (i) not provide periodic payments of interest in the case of Notes or (ii) provide payment of any Settlement Amount in an amount significantly reduced from that anticipated or expire worthless in the case of Warrants. Further, with respect to the Final Redemption Amount of any Notes, the effective yield to maturity of the Notes

may be less than that which would be payable on a conventional fixed rate or floating rate debt security. The return of the Final Redemption Amount of each Note at maturity or the Settlement Amount following the exercise of any Warrant may not compensate the Holder for any opportunity cost implied by inflation and other factors relating to the value of money over time.

Risk Factors relating to Index Linked Securities based on Indices

Return does not reflect Dividends

Depending upon the calculation methodology of an index, where the performance of an index is taken into account in order to calculate payments due under the Index Linked Securities the payment of income (such as dividends for an index that has stocks as underlyings) may not be reflected as the index may be calculated by reference to the prices of the underlyings comprising the index without taking into consideration the value of any income paid on those underlying assets. Therefore, the yield to maturity of Index Linked Securities referring to an index may not be the same as the yield that would be produced if such underlying assets were purchased and held for a similar period.

Risks relating to an Index

Index Linked Securities based on an index are subject to risks broadly similar to those attending any investment in a broadly-based portfolio of assets including, without limitation, the risk that the general level of prices for such assets may decline. The following is a list of some of the significant risks associated with an index:

- (i) historical performance of the index does not indicate the future performance of the index. It is impossible to predict whether the value of the index will fall or rise during the term of the Securities; and
- (ii) if the index comprises underlying stocks, the trading prices of the stocks underlying the index will be influenced by political, economic, financial, market and other factors. It is impossible to predict what effect these factors will have on the value of any asset related to the index and, in turn, the return on the Securities.

The policies of the sponsor of an index (including a sponsor that is affiliated with Société Générale) concerning additions, deletions and substitutions of the assets underlying the index and the manner in which the index sponsor takes account of certain changes affecting such underlying assets may affect the value of the index. The policies of an index sponsor with respect to the calculation of an index could also affect the value of the index. An index sponsor may discontinue or suspend calculation or dissemination of information relating to its index. Any such actions could affect the value of the Securities.

In addition, indices may be subject to management fees and other fees as well as charges that are payable to the index sponsor(s) and which can reduce the Final Redemption Amount or Settlement Amount payable to Holders. Such fees may be paid to index sponsors that are affiliates of Société Générale.

Conflicts of interest in connection with indices

The composition of, and the methodologies used in connection with, certain indices to which Securities are linked may be determined and selected by Société Générale or one of its affiliates. In selecting such methodologies, Société Générale or the relevant affiliate of Société Générale, can be expected to have regard to its own objectives and interests and/or those of its affiliates and there is no guarantee that the methodologies selected will not be less favourable to the interests of investors than methodologies used by other index sponsors in comparable circumstances.

If the hedging activities of Société Générale or one of its affiliates in connection with a particular index are disrupted, Société Générale or the relevant affiliate may decide to terminate calculations in

relation to such index sooner than another index sponsor would in comparable circumstances. Such a termination may trigger the early redemption or cancellation of the Securities.

Risk Factors specific to Index Linked Securities based on Shares

No Beneficial Interest in the Underlying Shares

A Holder of the Securities will not be a beneficial owner of the underlying shares and therefore will not be entitled to receive any dividends or similar amounts paid on the underlying shares, nor will a Holder be entitled to purchase the underlying shares by virtue of their ownership of the Securities. Moreover, Holders of the Securities will not be entitled to any voting rights or other control rights that holders of the underlying shares may have with respect to the issuer of such underlying shares. The Final Redemption Amount or Settlement Amount will not reflect the payment of any dividends on the underlying shares. Accordingly, the return on the Securities will not reflect the return a Holder would realise if such Holder actually owned the underlying shares and received dividends, if any, paid on those securities. Therefore, the yield to maturity based on the methodology for calculating the Final Redemption Amount or Settlement Amount will not be the same yield as would be produced if the underlying shares were purchased directly and held for a similar period.

Risks arising from Conduct of Issuers of Shares

The issuers of underlying shares are not involved in the offer of the Securities in any way and have no obligation to consider a Holder's interests in taking any corporate actions that might affect the value of the Securities. The issuers of underlying shares may take actions that will adversely affect the value of the Securities.

Risk Factors relating to Commodity Linked Securities

Commodity Linked Securities may be redeemed by the Issuer at their par value and/or by the physical delivery of the underlying asset(s) and/or by payment of an amount determined by reference to the value of the underlying asset(s). Accordingly, an investment in Commodity Linked Securities may bear similar market risks to a direct investment in the relevant commodities and investors should take advice accordingly. Interest payable on Commodity Linked Securities may be calculated by reference to the value of one or more underlying asset(s). The value of the underlying asset(s) may vary over time and may increase or decrease by reference to a variety of factors which may include global supply and demand of commodities to which the underlying asset(s) refer, production and selling activities of the respective commodities by producers, central banks and international organisations, demand for end-products based on the respective commodity, net investment demand and industrial demand.

Risk Factors relating to Credit Linked Securities²

Credit risk on Reference Entities

In the event of the occurrence of certain circumstances (which may include, amongst other things, Bankruptcy, Failure to Pay, Obligation Acceleration, Obligation Default, Repudiation/Moratorium or Restructuring) in relation to a Reference Entity or Reference Entities, in each case as specified in the applicable Offering Circular Supplement, the obligation of the Issuer to pay principal or a settlement amount may be replaced by (i) an obligation to pay other amounts which are equal to either certain fixed amount(s) as specified in the applicable Offering Circular Supplement or amounts calculated by reference to the value of the underlying asset(s) (which may, in each case, be less than the par value of the Securities at the relevant time) and/or (ii) an obligation to deliver the underlying asset(s). In addition, interest-bearing credit linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances.

² Capitalised terms used in this section, but not otherwise defined in this Offering Circular, shall have the meanings given to them in the 2003 ISDA Credit Derivatives Definitions, as amended and/or supplemented from time to time.

Accordingly, Holders may be exposed to fluctuations in the creditworthiness of the Reference Entities to the full extent of their investment in the credit linked Securities.

Credit observation period

Holders may suffer a loss of some or all of their investment in respect of one or more Credit Events that occur on or after the date falling 60 days prior to the Trade Date or the Issue Date. Neither the Calculation Agent or the Issuer nor any of their respective affiliates has any responsibility to avoid or mitigate the effects of a Credit Event that has taken place prior to the Trade Date (being a date specified in the Offering Circular Supplement and being, generally, the date on which the initial investor(s) in any Series of Securities commit to purchase such Securities, and accordingly, on which the Swap Counterparty will undertake related hedging activity) or the Issue Date (being the settlement date of the Securities on which the Securities are issued and the investor pays the purchase price).

Actions of Reference Entities

Actions of Reference Entities (for example, merger or demerger or the repayment or transfer of indebtedness) may adversely affect the value of the Securities. The views of market participants and/or legal counsel may differ as to how the terms of market standard credit default swaps, and corresponding terms of the Securities, should be interpreted in the context of such actions, or such terms may operate in a manner contrary to the expectations of market participants and/or adversely to the interests of Holders. Holders should be aware that the Reference Entities to which the value of the Securities is exposed, and the terms of such exposure, may change over the term of the Securities.

Valuation

If the Securities are cash settled, then, following the occurrence of a Credit Event, the Calculation Agent will be required to seek quotations in respect of selected obligations of the affected Reference Entity. Quotations obtained will be “bid-side” - that is, they will be reduced to take account of a bid-offer spread charged by the relevant dealer. Such quotations may not be available, or the level of such quotations may be substantially reduced as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the affected Reference Entity (for example, liquidity constraints affecting market dealers). Accordingly, any quotations so obtained may be significantly lower than the value of the relevant obligation which would be determined by reference to (for example) the present value of related cashflows. Quotations will be deemed to be zero in the event that no such quotations are available.

“Cheapest-to-Deliver” risk

Since the Swap Counterparty, as buyer of protection, in relation to a credit linked security, has discretion to choose the portfolio of obligations to be valued or delivered following a Credit Event in respect of a Reference Entity, it is likely that the portfolio of obligations selected will be obligations of the Reference Entity with the lowest market value that are permitted to be selected pursuant to the Securities and the Swap Agreement. This could result in a lower recovery value and hence greater losses for investors in the Securities.

No information

None of the Swap Counterparty, the Calculation Agent, the Trustee or the relevant Issuer is obliged to disclose to Holders any information which it may have at the Issue Date of the Securities or receive thereafter in relation any Reference Entity.

Compounding of risks

Risks relating to the Securities may be correlated or compounded and such correlation and/or compounding may result in increased volatility in the value of the Securities and/or in increased losses for Holders.

No need for loss

Credit losses will be calculated for the purposes of the Securities irrespective of whether the Swap Counterparty or its affiliates or the relevant Issuer has suffered an actual loss in relation to the Reference Entity or any obligations thereof. Neither the Swap Counterparty nor the Issuer is obliged to account for any recovery which it may subsequently make in relation to such Reference Entity or its obligations.

No interest in obligations of Reference Entities

The Securities do not constitute an acquisition by the Holders of any interest in any obligation of a Reference Entity. Neither the Swap Counterparty nor the Issuer grants any security interest over any such obligation.

Absence of benchmarks for valuation

In determining the value of the Securities, dealers may take into account the level of a related credit index in addition to or as an alternative to other sources of pricing data. If any relevant index ceases to be liquid, or ceases to be published in its entirety, then the value of the Securities may be adversely affected.

Historical performance may not predict future performance

Individual credits may not perform as indicated by the historical performance of similar credits. Even if future performance is similar to that of historic performance for the entire market, each prospective investor must make its own determination as to whether the performance of the Securities will reflect such experience. Historical default statistics may not capture events that would constitute Credit Events for the purposes of the Securities.

Limited provision of information about the Reference Entities

This Offering Circular and any Offering Circular Supplement will provide limited information with respect to the Reference Entities. Investors should conduct their own investigation and analysis with respect to the creditworthiness of Reference Entities and the likelihood of the occurrence of a Credit Event and seek appropriate advice where necessary.

None of the Issuer, the Swap Counterparty or the Calculation Agent or any of their respective affiliates will have any obligation to keep investors informed as to any matters with respect to the Reference Entities or any of their obligations, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Credit Event or a Succession Event with respect to the Reference Entities.

Auction settlement relating to Credit Linked Securities and certain other forms of Securities³

ISDA Credit Derivatives Determinations Committees

ISDA Credit Derivatives Determinations Committees were established in 2009 to make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency.

In making any determination with respect to a credit event or a succession event, the Calculation Agent under the Swap Agreement may have regard to announcements, determinations and resolutions made by ISDA and/or the ISDA Credit Derivatives Determinations Committees. In certain circumstances, the Securities may be subject to the announcements, determinations and resolutions

³ Capitalised terms used in this section, but not otherwise defined in this Offering Circular, shall have the meanings given to them in the 2003 ISDA Credit Derivatives Definitions, as amended and/or supplemented from time to time.

made by ISDA and/or the ISDA Credit Derivatives Determinations Committees. Such announcements, determinations and resolutions could affect the quantum and timing of payments of interest and principal (in the case of Notes) or settlement amount (in the case of Warrants). For the avoidance of doubt, none of the Issuer, the Swap Counterparty, the Calculation Agent under the Swap Agreement or the Determination Agent or any other relevant parties in respect of the Securities will be liable to any person for any determination, redemption, calculation and/or delay or suspension of payments and/or redemption or cancellation of the Securities resulting from or relating to any announcements, publications, determinations and resolutions made by ISDA and/or any ISDA Credit Derivatives Determinations Committee.

Risks associated with auction settlement following a credit event

To the extent that auction settlement relates to the Securities, amounts payable under the Securities may be determined on the basis of the final price determined pursuant to the auction held in respect of the Reference Entity or Reference Obligation, provided that the ISDA Credit Derivatives Determinations Committee determines that an applicable auction will be held. Holders are subject to the risk that where a final price is determined in accordance with an auction, this may result in a different recovery value than the Reference Entity or Reference Obligation would have had if such final price had been determined pursuant to alternative methods and a lower recovery value would tend to reduce the amount payable to Holders upon redemption or exercise of the Securities. If the ISDA Credit Derivatives Determinations Committee does not decide to hold an auction with respect to obligations of the Reference Entity or auction settlement is otherwise not relevant to the Securities, then the cash or physical settlement method may apply.

Potential conflicts of interest

Société Générale is a leading dealer in the credit derivatives market and may act as Calculation Agent under the Swap Agreement. If an auction is held in respect of a Reference Entity for which a credit event has occurred, there is a high probability that Société Générale or one of its affiliates would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the final price determined pursuant to the auction, including, without limitation, (i) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations that are not denominated in the auction currency into such currency for the purposes of the auction and (ii) submitting bids, offers and physical settlement requests with respect to the relevant deliverable obligations. In deciding whether to take any such action, or whether to act as a participating bidder in any auction, Société Générale and its affiliates shall be under no obligation to consider the interests of any Holder.

Société Générale (or, as the case may be, one of its affiliates) may be a voting member on one or more of the ISDA Credit Derivatives Determinations Committees and if it is a voting member, it may take certain actions that may influence the process and outcome of decisions of such ISDA Credit Derivatives Determinations Committees. Such actions may be adverse to the interests of the Holders and may result in an economic benefit accruing to Société Générale or its affiliates. In taking any action relating to the ISDA Credit Derivatives Determinations Committees or performing any duty under the Rules that govern the ISDA Credit Derivatives Determinations Committees, Société Générale (or, as the case may be, one of its affiliates) shall have no obligation to consider the interests of the Holders and may ignore any conflict of interest arising in respect of the Securities.

Holders will not be able to refer questions to the ISDA Credit Derivatives Determinations Committees

Holders, in their capacity as Holders of the Securities, will not have the ability to refer questions to an ISDA Credit Derivatives Determinations Committee since the Securities are not a credit default swap transaction and the Securities do not otherwise allow for such referral. As a result, Holders will be dependent on other market participants to refer specific questions to the ISDA Credit Derivatives Determinations Committees that may be relevant to the Holders. The Calculation Agent under the

Swap Agreement has no duty to the Holders to refer specific questions to the ISDA Credit Derivatives Determinations Committees.

Holders will have no role in the composition of the ISDA Credit Derivatives Determinations Committees

Separate criteria will apply to the selection of dealer and non-dealer institutions to serve on the ISDA Credit Derivatives Determinations Committees, and Holders will have no role in establishing such criteria. In addition, the composition of the ISDA Credit Derivatives Determinations Committees will change from time to time in accordance with its rules, as the term of a member institution may expire or a member institution may be required to be replaced. Holders will have no control over the process for selecting institutions to participate on the ISDA Credit Derivatives Determinations Committees and, to the extent provided for in the Securities, will be subject to the determinations made by such selected institutions in accordance with such rules.

Holders will have no recourse against either the institutions serving on the ISDA Credit Derivatives Determinations Committees or the external reviewers

Institutions serving on the ISDA Credit Derivatives Determinations Committees and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the rules governing the ISDA Credit Derivatives Determinations Committees, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the member institutions of the ISDA Credit Derivatives Determinations Committees from time to time will not owe any duty to the Holders, and the Holders will be prevented from pursuing legal claims with respect to actions taken by such member institutions under such rules.

Holders should also be aware that member institutions of the ISDA Credit Derivatives Determinations Committees have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the ISDA Credit Derivatives Determinations Committees are not obligated to follow previous determinations and, therefore, could reach a conflicting determination for a similar set of facts.

Holders will be responsible for obtaining information relating to deliberations of the ISDA Credit Derivatives Determinations Committees

Notices of questions referred to the ISDA Credit Derivatives Determinations Committees, meetings convened to deliberate such questions and the results of binding votes of the ISDA Credit Derivatives Determinations Committees will be published on the website of ISDA and none of the Issuer, the Swap Counterparty, the Calculation Agent under the Swap Agreement or the Determination Agent or any other relevant parties in respect of the Securities or any of their respective affiliates shall be obliged to inform Holders of such information, other than as expressly provided in the terms of the Securities. Any failure by Holders to be aware of information relating to determinations of an ISDA Credit Derivatives Determinations Committee will have no effect under the Securities and Holders are solely responsible for obtaining any such information.

Market and Other Risks

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk.

No Secondary Market and Illiquid Securities

There can be no assurance that a secondary market will develop in respect of the Securities or other Transactions.

Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with a yield comparable to similar investments

that have a developed secondary market. This is particularly the case for Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors and where the Securities comprise or include privately placed, unlisted securities or domestic securities or other assets which are not admitted to any trading market and which are not readily realisable.

These types of Securities generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Securities.

In addition, Holders should be aware of the prevailing and widely reported global credit market conditions (which continue at the date of this Offering Circular), whereby there is a general lack of liquidity in the secondary market for instruments similar to certain of the Securities which may be issued hereunder. Such lack of liquidity may result in investors suffering losses on the Securities in secondary resales even if there is no decline in the performance of the Securities, any underlying or reference, or the assets of the Issuer. The Issuer cannot predict whether these circumstances will change and whether, if and when they do change, there will be a more liquid market for the Notes and instruments similar to the Notes at that time.

Exchange Rate Risks and Exchange Controls

The Issuer will pay principal and interest on the Notes, or the settlement amount (where applicable) in the case of Warrants in the Specified Currency (as defined herein). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the “**Investor's Currency**”) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes, or the settlement amount (where applicable) in the case of Warrants and (3) the Investor's Currency equivalent market value of the Securities.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest Rate Risks

Investment in fixed rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the fixed rate Notes.

Credit Ratings may not Reflect All Risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

During its holding of a Note, a Noteholder should take such steps as it considers necessary to evaluate the on-going risks and merits of a continued investment in such Notes. Such steps should not rely solely on ratings. In particular, prospective investors should not rely solely on downgrades of ratings as indicators of deteriorating credit. Market indicators (such as rising credit default spreads and yield spreads with respect to the relevant entity) often indicate significant credit issues prior to any downgrade. During the global financial crisis, rating agencies have been the subject of criticism from

a number of global governmental bodies that they did not downgrade entities on a sufficiently quick basis.

Prospective investors who place too much reliance on ratings, or who do not understand what the rating addresses, may be subject to losses as a result.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). Certain information with respect to the credit rating agencies and ratings will be disclosed in the applicable Offering Circular Supplement.

Legal Investment Considerations may restrict Certain Investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Securities are legal investments for it, (ii) Securities can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Securities. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Securities under any applicable risk-based capital or similar rules.

Emerging Markets

The assets comprising the Collateral or, as the case may be, to which the return on any Series of Securities may be linked may originate from an emerging markets country. Investing in securities issued by entities in emerging markets countries or in securities, the return on which is linked to such securities involves certain systemic and other risks and special considerations which include:

- (i) the prices of emerging markets assets may be subject to sharp and sudden fluctuations and declines;
- (ii) emerging markets securities and other assets tend to be relatively illiquid. Trading volume may be lower than in debt of higher grade credits. This may result in wide bid/offer spreads prevailing in adverse market conditions. In addition, the sale or purchase price quoted for a portion of the Collateral may be better than can actually be obtained on the sale of the entire holding of the Collateral;
- (iii) published information in or in respect of emerging markets countries and the issuers of or obligors in respect of emerging markets securities or other assets has been proven on occasions to be materially inaccurate;
- (iv) in certain cases the Holders of Securities or investors in other Transactions may be exposed to the risk of default by a sub-custodian in an emerging markets country; and
- (v) realisation of Collateral comprising emerging markets securities or other assets may be subject to restrictions or delays arising under local law.

Limited Recourse Obligations and Related Risks

Holders are only entitled to have recourse to the assets over which security has been created in relation to the Securities. After those assets have been realised and the proceeds distributed in accordance with the order of priority set out herein, the Holders are not entitled to take any further

steps against the Issuer to recover any sum and no debt, liability or obligation shall be owed by the Issuer in respect of any further sum.

This Offering Circular does not constitute, and may not be used for the purposes of, an offer of, or an invitation by or on behalf of anyone to subscribe or purchase any of the Securities.

Prospective purchasers of the Securities should be aware that there are a number of risks associated with the purchase of the Securities, including the risk that the Issuer may become subject to claims or other liabilities (whether in respect of the Securities or otherwise) which are not themselves subject to limited recourse or non-petition provisions as set out above.

Eligibility of certain Global Notes for Eurosystem Monetary Policy

If indicated in the relevant Offering Circular Supplement, any Global Notes issued from time to time by either Iris or Iris II may be intended to be held in a manner which will allow Eurosystem eligibility. This simply means that such Notes were upon issue deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operation by the Eurosystem (“**Eurosystem Eligible Collateral**”) either upon issue, or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria as specified by the European Central Bank. If the Notes do not satisfy the criteria specified by the European Central Bank, there is a risk that the Notes will not be Eurosystem Eligible Collateral. The Issuer gives no representation, warranty, confirmation or guarantee to any investor in such Notes that the Notes will, either upon issue, or at any or all times during their life, satisfy all or any requirements for Eurosystem eligibility and be recognised as Eurosystem Eligible Collateral. Any potential investor in such Notes should make their own conclusions and seek their own advice with respect to whether or not the Notes constitute Eurosystem Eligible Collateral.

No Registration under Investment Company Act

None of the Issuers has been or will be registered with the United States Securities and Exchange Commission (the “SEC”) as an investment company pursuant to the Investment Company Act.

If the SEC or a court of competent jurisdiction were to find that the Issuer was required, but in violation of the Investment Company Act had failed, to register as an investment company, possible consequences include, but are not limited to, the following: (a) the SEC could apply to a district court to seek civil penalties for such violation; and (b) any contract to which the Issuer is party that is made in, or whose performance involves a, violation of the Investment Company Act or any rule or regulation thereunder would be unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act. Should the Issuer be subjected to any or all of the foregoing, the Issuer would be materially and adversely affected.

In the case of a transfer of Registered Securities to a person who is already a Holder of such Series of Securities, a new Registered Security representing the enlarged holding shall only be issued against surrender of the Registered Security representing the existing holding.

(i) Regulations Concerning Transfer and Registration

All transfers of Securities and entries on the Register will be made subject to the detailed regulations concerning the transfer of Securities scheduled to the Dealer Agreement including, without limitation, that a transfer of Securities in breach of certain of such regulations will result in such Securities becoming subject to the provisions of Condition 2(j) (*Redemption, cancellation or Forced Transfer of Registered Securities*) and Condition 2(k) (*Redemption, cancellation or Forced Transfer of Bearer Notes or Clearing System Warrants*) below. The regulations may be changed by the Issuer in any manner which is reasonably required by the Issuer (after consultation with the Trustee) to reflect changes in legal requirements or in any other manner which, in the opinion of the Issuer (after consultation with the Trustee), is not prejudicial to the interests of the Holders of the relevant Tranche of Securities. A copy of the current regulations will be sent by the Registrar to any Holder who so requests and is available at the offices of each of the Paying Agents.

(j) Redemption, cancellation or Forced Transfer of Registered Securities

If the Issuer determines at any time that a Holder of Registered Securities purchased Registered Securities in breach of the deemed or actual representations given by such Holder upon the

purchase of such Registered Securities, the Issuer may (a) in the case of Registered Notes, redeem such Registered Notes at the Early Redemption Amount or, in the case of Registered Warrants, cancel such Registered Warrants and pay to Holders the Cancellation Amount (if any) or (b) direct such Holder to sell or transfer its Securities to a non-U.S. person in an offshore transaction meeting the requirements of Regulation S within 30 days following receipt of such notice. If such sale is not effected within such 30 days, upon written direction from the Issuer, the Trustee will be authorised to conduct a commercially reasonable sale of such Securities to a non-U.S. person in an offshore transaction meeting the requirements of Regulation S and, pending transfer, no further payments will be made in respect of such Securities or any beneficial interest therein.

If such sale is not effected within such 30 days, upon written direction from the Issuer, the Trustee will be authorised to conduct a commercially reasonable sale of such Securities to a person who is not a U.S. person in an offshore transaction meeting the requirements of Regulation S and, pending transfer, no further payments will be made in respect of such Securities or any beneficial interest therein.

(d) **Realisation of Transaction Security**

If any Transaction Security becomes enforceable, the Trustee may at its discretion and shall (as long as it has been indemnified, secured and/or prefunded to its satisfaction), on receipt of whichever of a Holder Request, Extraordinary Resolution Direction or a Creditor Direction as shall be specified in the Supplemental Trust Deed or (if none is so specified) a Creditor Direction, enforce the Transaction Security constituted by the Trust Deed. Any such Holder Request or Extraordinary Resolution Direction made in respect of an Event of Default pursuant to Condition 10(a) (*Events of Default*) shall, if it does not already do so, be deemed to request the Trustee to give notice to the Issuer that, in the case of Notes, the Notes are, and shall immediately become, due and payable at their Early Redemption Amount or, in the case of Warrants, the Warrants are to be cancelled with the Cancellation Amount payable to the Warrantholders.

To do this it may at its discretion (and either acting itself or through a receiver, agent or other person appointed by the Trustee) take possession of and/or realise the Collateral Securities and/or take action against any person to enforce, terminate and/or realise any Credit Support Document, Swap, Collateral Securities Agreement, Contract, Deposit Agreement or Other Agreement in accordance with its or their terms, and/or take action against any Obligor but without any liability as to the consequence of such action and without having regard to the effect of such action on individual Noteholders, Receiptholders or Couponholders, or Warrantholders, as the case may be, and *provided that* the Trustee shall not be required to take any action that would involve any liability or expense without first being indemnified and/or secured to its satisfaction (including, where so required by the Trustee, by way of pre-funding).

In this Condition 4(d):

- (i) “**Creditor Direction**” means where sums are due to the Beneficiary and/or the Counterparty and/or the Swap Counterparty and/or the Deposit Bank and/or the Other Party and/or the Custodian and/or the Issuing and Paying Agent and/or the Warrant Agent (the claims in respect of which are secured) the first direction in writing by any such party unless this would in the opinion of the Trustee be contrary to the interests of the Holders of the Notes, Receipts, Coupons or Talons, or the Warrants, as the case may be;
- (ii) “**Extraordinary Resolution Direction**” means a direction by Extraordinary Resolution (as defined in Condition 12(a) (*Meetings of Holders*)) of the Holders; and
- (iii) “**Holder Request**” means a request in writing by the Holders of (I) in the case of Notes, at least one-fifth in aggregate nominal amount of either the most Senior Tranche of Notes (in the case of more than one Tranche of Notes) or the Notes (in the case of one Tranche of Notes) then outstanding (as defined in the Trust Deed) or (II) in the case of Warrants, at least one-fifth of the total number of Outstanding Warrants.

For the purposes of these Conditions, “**Outstanding Warrants**” means, in relation to a Series of Warrants, all the Warrants issued except (a) those that have been exercised and settled in accordance with these Conditions; (b) those in respect of which the relevant Settlement Date (as defined in Condition 21(e) (*General*)) has occurred and the settlement moneys have been duly paid to the Trustee or to the Warrant Agent in accordance with Clause 2 (*Issue of Securities, Entering into Transactions and Covenant to Pay*) of the Principal Trust Deed and remain available for payment against presentation and surrender of Warrants; (c) those that have become void; (d) those in respect of which the expiration date has occurred where Automatic Exercise did not apply and which were not exercised in accordance with the Conditions; and (e) those that have been purchased and cancelled as provided in these Conditions; *provided that* for the purposes of (i) ascertaining the right to attend and vote at any meeting of the Warrantholders; (ii) the determination of how many Warrants are unexercised for the purposes of Conditions 10 (*Events of Default*), 11 (*Enforcement*) and 12 (*Meetings of Holders, Modification, Waiver and Substitution*); and (iii) the exercise of any discretion, power or authority that the Trustee is required, expressly or impliedly, to exercise in or by reference to the interests of the Warrantholders, those Warrants that are beneficially held by or on behalf of the Issuer and not cancelled shall (unless no longer so held) be deemed not to be Outstanding Warrants.

(e) **Shortfall after Application of Proceeds**

If the net proceeds of the realisation of the Transaction Security under Condition 4(d) (*Realisation of Transaction Security*) above (the “**Net Proceeds**”) are not sufficient to make all payments which but for the effect of this provision would then be due in respect of the Obligations or claims of the Custodian and/or any Agent, then the obligations of the Issuer in respect of them will be limited to such Net Proceeds and the other assets of the Issuer will not be available for payment of any Shortfall (as defined below) arising therefrom. Any such Shortfall shall be borne according to the priorities specified in the Supplemental Trust Deed.

The Issuer will not be obliged to make any further payment in excess of the Net Proceeds and accordingly no debt or obligation shall be owed by the Issuer in respect of any Shortfall remaining after realisation of the Transaction Security under Condition 4(d) (*Realisation of Transaction Security*) and application of the proceeds in accordance with the Trust Deed. None of the Trustee, any Creditor, the Custodian and any Agent (nor any person acting on behalf of any of them) may take any further action to recover such Shortfall. In particular, none of the Trustee, any Creditor, the Custodian, any Agent, nor any other party to the Supplemental Trust Deed shall be entitled to petition or take any other step for the winding-up of the Issuer or for the declaration of the Issuer’s assets *en désastre* or for any other bankruptcy or insolvency proceedings with respect to the Issuer. Failure to make any payment in respect of any Shortfall shall in no circumstances constitute an Event of Default under Condition 10 (*Events of Default*).

In this Condition “**Shortfall**” means the difference between the amount of the Net Proceeds and the amount which would but for this Condition 4(e) have been due under the Obligations or in respect of claims of the Custodian and/or the Issuing and Paying Agent and/or the Warrant Agent (if any).

(f) **Excess Assets Direction**

Where the Transaction Security in respect of a Series becomes enforceable, the Trustee (or any receiver, agent or other person appointed by the Trustee on its behalf) shall determine whether the value of the Mortgaged Property in respect of such Series exceeds or is likely to exceed the total liabilities of the Issuer in respect of the Obligations or claims of the Custodian and/or any Agent as a result of any security provided to the Issuer (the “**Excess Assets Security**”) by an Other Creditor in support of its obligations under a Swap, Contract, Collateral Securities Agreement, Deposit Agreement or Other Agreement (an “**Excess Assets Event**”). Upon a determination by the Trustee (or any receiver, agent or other person so appointed) that an Excess Assets Event has occurred, it shall notify the Holders of Securities, the Other Creditors or the Obligees (as defined in the Principal Trust Deed), as the case may be, in accordance with Clause 6.6 (*Excess Assets Direction*) of the Principal Trust Deed. In making any such determination, the Trustee (or any receiver, agent

or other person so appointed) shall be entitled to rely solely upon valuation advice that it has obtained from any expert without additional enquiry or investigation, provided that the Trustee shall not be obliged to procure any such valuation where it would be prohibitively expensive or time consuming to do so. In such circumstances, the party that provided the Excess Assets Security may send a notice to the Trustee, with a copy to the Issuer, Swap Counterparty and Other Creditors or Obligees, within 5 Business Days of receipt of notice from the Trustee of the occurrence of the Excess Assets Event, notifying it of how to realise the Mortgaged Property (such notice an “**Excess Assets Direction**”) (including in what order to realise assets) and requesting the Trustee to deliver any residual assets which form part of the Excess Assets Security (or to deliver any remaining proceeds of realisation of such assets) following the payment of all claims in respect of the Obligations or claims of the Custodian and/or any Agent to the party which provided such Excess Assets Security. Subject always to the Trustee being indemnified and/or secured (including by way of pre-funding) against any liability or cost which it may incur by so acting, the Trustee shall act in accordance with the terms of such Excess Assets Direction provided that if the Trustee determines (or any receiver, agent or other person appointed by the Trustee determines on its behalf) that (i) the realisation of the Mortgaged Property in the manner set out in the Excess Assets Direction will not realise sufficient funds to make payment of all the amounts payable by the Issuer in respect of the Obligations or claims of the Custodian and/or any Agent or (ii) effecting the realisation of the relevant assets in the manner set out in the relevant Excess Assets Direction will not realise sufficient funds to make payment of all the amounts payable by the Issuer in respect of the Obligations or claims of the Custodian and/or any Agent, the Trustee shall be entitled to treat such notice as if it had never been sent save to the extent that all claims and liabilities in respect of the Obligations or claims of the Custodian and/or any Agent are satisfied in full and there are residual assets or cash remaining after satisfaction of such liabilities and claims, in which case the Trustee shall deliver such residual assets in accordance with the Excess Assets Direction. Within five Business Days (or such longer period as may be agreed between the Trustee and the party that provided the Excess Assets Security) of receipt of any Excess Assets Direction, the Trustee shall acknowledge receipt of the same and, where it elects to treat such Excess Assets Direction as if it had never been sent in accordance with (i) or (ii) in the preceding sentence, it shall, in addition to such acknowledgment of receipt, notify the relevant Issuer, Holders, Swap Counterparty and Other Creditors or Obligees of such election. Where an Excess Assets Direction is delivered, Clause 6.5 (*Division of Transaction Security*) of the Principal Trust Deed shall not apply. The Trustee (and any receiver, agent or other person appointed by the Trustee) and the Issuer shall incur no liability to any person from complying with the instructions in any Excess Assets Direction and the Trustee shall not be required to have any consideration of the interests of the Holders of Securities with respect to the implementation of any Excess Assets Direction. For the avoidance of doubt, nothing in an Excess Assets Direction shall modify the manner in which the Trustee is required to apply monies received by it in connection with the realisation or enforcement of the Transaction Security pursuant to Clause 6.2 (*Post-Enforcement*) of the Principal Trust Deed.

(g) **Substitution of Mortgaged Property**

The Issuer may from time to time upon agreement with all the Noteholders or Warrantholders, as the case may be, or if so directed by an Extraordinary Resolution or, where the Trustee is satisfied that such substitution is not materially prejudicial to the interests of the Noteholders or Warrantholders, as the case may be, upon agreement with the Trustee, and, in each case, with the prior written consent of each Other Creditor, substitute alternative secured assets for such of the Mortgaged Property as it may deem appropriate (provided, in each case, that notice is given to Moody’s (in the case of rated Notes issued by Claris, Claris IV, Iris and/or Iris II) and S&P (in the case of rated Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II) (each as defined in the Principal Trust Deed)). Any such alternative secured assets shall be held subject to the Transaction Security in favour of the Trustee and the Issuer shall execute such further documentation as the Trustee may require in order to constitute such Transaction Security as a condition to such substitution (which documentation shall include, as long as any Securities are listed on the Irish Stock Exchange and the rules of that stock exchange so require, a supplement to the Offering

Circular Supplement setting out details of such substitute alternative secured assets). If the relevant Holders or, as the case may be, the Trustee (where satisfied as stated above) and each Other Creditor agree to such substitution, the Issuer shall notify the relevant Holders thereof in accordance with Condition 15 (*Notices*) and, if the Securities are listed on any stock exchange, the Issuer shall also notify such stock exchange of such substitution.

(h) **Issuer's Rights as Beneficial Owner of Collateral**

Until the Transaction Security becomes enforceable, the Issuer may exercise any rights in its capacity as beneficial owner of the Collateral only with the consent of the Trustee or by an Extraordinary Resolution Direction and, if such direction or consent is given, the Issuer will act only in accordance with such direction or consent. In particular, the Issuer will not attend or vote at any meeting of holders of the Collateral Securities, or give any consent or notification or make any declaration in relation to the Collateral, unless the Trustee shall so direct or pursuant to an Extraordinary Resolution Direction.

In this Condition 4(h):

“**Extraordinary Resolution Direction**” shall mean a direction by Extraordinary Resolution (as defined in the Trust Deed) of the relevant Holders.

5. **RESTRICTIONS**

So long as any of the Transactions remain outstanding, the Issuer shall not, without the consent of the Trustee and any Other Creditors, incur any other indebtedness for borrowed moneys or engage in any business (other than acquiring and holding the Mortgaged Property, entering into Transactions (whether under the Programme or otherwise) including the issue of notes or warrants (as provided below), entering into any Credit Support Document and/or Other Obligations and entering into related agreements and transactions (as described below)) (*provided that* for the avoidance of doubt nothing shall prevent the Issuer from engaging an administrator, accountants, statutory auditors and legal and banking advisers), declare any dividends in excess of an aggregate annual amount of £1,200, have any subsidiaries or employees, purchase, own, lease or otherwise acquire any real property (including office premises or like facilities), consolidate or merge with any other person or convey or transfer its properties or assets substantially as an entity to any person (otherwise than as contemplated in these Conditions and the Trust Deed) or issue any shares (other than such shares as were in issue on (i) 10 January 2003, in the case of either Claris or Claris 2; (ii) 9 December 2004, in the case of Iris; (iii) 10 May 2006, in the case of Claris III; (iv) 25 September 2006, in the case of Claris IV; (v) 28 May 2007, in the case of Iris II; or (vi) the date of the Acceptance Deed, in the case of the Specified Issuer).

The Issuer may from time to time (without the consent of the Holders or any Other Creditor but *provided that* the Trustee is satisfied that the restrictions of this Condition will be complied with) issue further notes (which may form a single series with the Notes) or issue further warrants (which may form a single series with the Warrants) and create or incur further obligations relating to such notes or warrants, as the case may be, *provided that* such further notes or warrants, as applicable, and obligations:

- (a) are secured (save in the case of such further notes or warrants forming a single series with the Notes or Warrants, as applicable) on assets of the Issuer other than (i) the Mortgaged Property; (ii) the assets on which any other obligations of the Issuer are secured; and (iii) the Issuer's share capital;
- (b) are issued or created on terms substantially in the form contained in Conditions 4(e) (*Shortfall after Application of Proceeds*) and 11 (*Enforcement*);
- (c) are, in the case of such further notes or warrants forming a single series with the Notes or Warrants, as applicable, secured *pari passu* with such Notes or Warrants upon the

Mortgaged Property and such further assets of the Issuer upon which such further notes or warrants are secured, all in accordance with Condition 14 (*Further Issues*); and

- (d) shall be notified to Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II).

(c) **Interest on Floating Rate Notes and Structured Interest Notes**

(i) *Interest Payment Dates*

Each floating rate Note or structured interest Note in respect of which the applicable Offering Circular Supplement specifies that interest will be payable by reference to an equity (including shares, dividends, American depositary receipts, exchange traded funds, indices or SGI indices), a fund, commodity, inflation, foreign exchange rate or reference rate underlying (an “**Equity Linked Interest Note**”, a “**Fund Linked Interest Note**”, a “**Commodity Linked Interest Note**”, an “**Inflation Linked Interest Note**”, a “**Foreign Exchange Rate Linked Interest Note**” and a “**Reference Rate Linked Interest Note**” respectively and each a “**Structured Interest Notes**”) bears interest on its outstanding

nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. Such Interest Payment Date(s) is/are either shown in the relevant Offering Circular Supplement as Specified Interest Payment Date(s) or, if no Specified Interest Payment Date(s) is/are shown in the relevant Offering Circular Supplement, Interest Payment Date shall mean each date which falls the number of months or other period shown in the relevant Offering Circular Supplement as the Specified Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

(ii) *Business Day Convention*

If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day; (B) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day; or (C) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(iii) *Rate of Interest for Floating Rate Notes*

The Rate of Interest in respect of floating rate Notes for each Interest Accrual Period shall be determined in the manner specified in the relevant Offering Circular Supplement and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified in the relevant Offering Circular Supplement.

(A) ISDA Determination for floating rate Notes:

Where ISDA Determination is specified in the relevant Offering Circular Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as indicated in the relevant Offering Circular Supplement) the Margin (if any). For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (x) the Floating Rate Option is as specified in the relevant Offering Circular Supplement;
- (y) the Designated Maturity is a period specified in the relevant Offering Circular Supplement; and
- (z) the relevant Reset Date is the first day of that Interest Accrual Period unless otherwise specified in the relevant Offering Circular Supplement.

For the purposes of this sub-paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination for floating rate Notes:

Where Screen Rate Determination is specified in the relevant Offering Circular Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent at or about the Relevant Time on the Interest Determination Date in respect of such Interest Accrual Period in accordance with the following:

(x) if the Primary Source for Floating Rate is a Page, subject as provided below, the Rate of Interest shall be:

(I) the Relevant Rate (where such Relevant Rate on such Page is a composite quotation or is customarily supplied by one entity); or

(II) the arithmetic mean of the Relevant Rates of the persons whose Relevant Rates appear on that Page,

in each case appearing on such Page at the Relevant Time on the Interest Determination Date;

(y) if the Primary Source for the Floating Rate is Reference Banks or if subparagraph (x)(I) applies and no Relevant Rate appears on the Page at the Relevant Time on the Interest Determination Date or if subparagraph (x)(II) above applies and fewer than two Relevant Rates appear on the Page at the Relevant Time on the Interest Determination Date, subject as provided below, the Rate of Interest shall be the arithmetic mean of the Relevant Rates that each of the Reference Banks is quoting to leading banks in the Relevant Financial Centre at the Relevant Time on the Interest Determination Date, as determined by the Calculation Agent; and

(z) if paragraph (y) above applies and the Calculation Agent determines that fewer than two Reference Banks are so quoting Relevant Rates, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) that the Calculation Agent determines to be the rates (being the nearest equivalent to the Benchmark) in respect of an amount that is representative for a single transaction in the relevant market at the time of the Specified Currency that at least two out of five leading banks selected by the Calculation Agent in the principal financial centre of the country of the Specified Currency or, if the Specified Currency is euro, in the Euro-zone as selected by the Calculation Agent (the “**Principal Financial Centre**”) are quoting at or about the Relevant Time on the date on which such banks would customarily quote such rates for a period commencing on the Effective Date for a period equivalent to the Specified Duration (I) to leading banks carrying on business in Europe, or (if the Calculation Agent determines that fewer than two of such banks are so quoting to leading banks in Europe) (II) to leading banks carrying on business in the Principal Financial Centre; except that, if fewer than two of such banks are so quoting to leading banks in the Principal Financial Centre, the Rate of Interest shall be the Rate of Interest determined on the previous Interest Determination Date (after readjustment for any difference between any Margin, Rate Multiplier or Maximum or Minimum Rate of Interest applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).

(iv) *Rate of Interest for Structured Interest Notes*

The Rate of Interest in respect of Structured Interest Notes shall be determined in the manner specified in the relevant Offering Circular Supplement and interest will accrue by

reference to a formula as specified in the relevant Offering Circular Supplement. The Offering Circular may apply one or more Technical Annexes which will set out additional terms and conditions in relation to the relevant underlying by reference to which the Rate of Interest is determined.

(d) Zero Coupon Notes

Where a Note to which Zero Coupon Note Provisions are applicable, is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 7(b)(i) (*Zero Coupon Notes*)).

(e) Dual Currency Notes

In the case of Dual Currency Notes, if the rate or amount of interest falls to be determined by reference to a Rate of Exchange or a method of calculating a Rate of Exchange, the rate or amount of interest payable shall be determined in the manner specified in the relevant Offering Circular Supplement.

(f) Partly Paid Notes

In the case of partly paid Notes (other than partly paid Notes which are zero coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the relevant Offering Circular Supplement.

(g) Accrual of Interest

Interest shall cease to accrue on each Note on the due date for redemption unless, upon due presentation (unless (a) in the case of a temporary or permanent Global Bearer Note issued by either Iris or Iris II, the relevant Offering Circular Supplement indicates that such Note is intended to be in NGN form or (b) in the case of Global Registered Notes issued by either Iris or Iris II, the relevant Offering Circular Supplement indicates that such Note is intended to be in NSSGRN form), payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgment) at the Rate of Interest in the manner provided in this Condition 6 to the Relevant Date.

(h) Margin, Maximum/Minimum Rates of Interest, Instalment Amounts and Redemption Amounts, Rate Multipliers and Rounding

- (i) If any Margin or Rate Multiplier is specified in the relevant Offering Circular Supplement (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with Condition 6(c) (*Interest on Floating Rate Notes and Structured Interest Notes*) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin or multiplying by such Rate Multiplier, subject always to the next paragraph.
- (ii) If any Maximum or Minimum Rate of Interest, Instalment Amount or Redemption Amount is specified in the relevant Offering Circular Supplement, then any Rate of Interest, Instalment Amount or Redemption Amount shall be subject to such maximum or minimum, as the case may be.
- (iii) For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves

being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes “unit” means the lowest amount of such currency that is available as legal tender in the country(ies) of such currency.

(i) **Calculations**

The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Rate of Interest and the outstanding nominal amount of such Note by the Day Count Fraction, unless an Interest Amount (or a formula for its calculation) is specified in the relevant Offering Circular Supplement in respect of such period, in which case the amount of interest payable in respect of such Note for such period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods.

(j) **Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts and Instalment Amounts**

As soon as practicable after the relevant time on each Interest Determination Date or such other time on such date as the Calculation Agent may be required to calculate such rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate and calculate the Interest Amounts in respect of each Specified Denomination of the Notes for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or Instalment Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or any Instalment Amount to be notified to the Trustee, the Issuer, each of the Paying Agents, the relevant Holders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 6(c)(ii) (*Business Day Convention*), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made with the consent of the Trustee by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 10 (*Events of Default*), the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made unless the Trustee otherwise requires. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

(k) **Calculation Agent and Reference Banks**

If Reference Banks is chosen as primary source for floating rate Notes in the relevant Offering Circular Supplement and for so long as any Note is outstanding, or as may be otherwise provided in the relevant Offering Circular Supplement, the Issuer shall procure that there shall at all times be four Reference Banks (or such other number as may be required) with offices in the Relevant Financial Centre and one or more Calculation Agents. If any Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as a Reference Bank, then the Issuer shall

(with the prior approval of the Trustee) appoint another Reference Bank with an office in the Relevant Financial Centre to act as such in its place. Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Period or Interest Accrual Period or to calculate any Interest Amount, Instalment Amount, Final Redemption Amount, Early Redemption Amount, or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the Issuer shall (with the prior approval of the Trustee) appoint a leading bank or investment banking firm engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal London office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

7. REDEMPTION, PURCHASE AND OPTIONS

This Condition 7 shall apply to Notes only.

(a) Redemption by Instalments and Final Redemption

- (i) Unless previously redeemed, purchased and cancelled as provided in this Condition 7 or the relevant Instalment Date (being one of the dates so specified in the relevant Offering Circular Supplement) is extended pursuant to any option provided in the relevant Offering Circular Supplement including any Issuer's or Noteholder's option in accordance with Condition 7(e) (*Redemption at the Option of the Issuer and Exercise of Issuer's Option*) or 7(f) (*Redemption at the Option of Noteholders and Exercise of Noteholders' Option*), each Note that provides for Instalment Dates and Instalment Amounts shall be partially redeemed on each Instalment Date at the related Instalment Amount specified in the relevant Offering Circular Supplement. The outstanding nominal amount of each such Note shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Note, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused on presentation (unless (a) in the case of a temporary or permanent Global Bearer Note issued by either Iris or Iris II, the relevant Offering Circular Supplement indicates that such Note is intended to be in NGN form or (b) in the case of Global Registered Notes issued either by Iris or Iris II, the relevant Offering Circular Supplement indicates that such Note is intended to be in NSSGRN form) of the related Receipt, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.
- (ii) Unless previously redeemed, purchased and cancelled as provided below or its maturity is extended pursuant to any option provided in the relevant Offering Circular Supplement including any Issuer's or Noteholder's option in accordance with Condition 7(e) (*Redemption at the Option of the Issuer and Exercise of Issuer's Option*) or 7(f) (*Redemption at the Option of Noteholders and Exercise of Noteholder's Option*), each Note shall, unless the provisions of Condition 7(i) (*Exchange of Notes*) shall apply, be finally redeemed on the Maturity Date specified in the relevant Offering Circular Supplement at its Final Redemption Amount (which, unless otherwise provided in the relevant Offering Circular Supplement, is its nominal amount) or, in the case of a Note falling within Condition 7(a)(i) above, its final Instalment Amount.

(b) **Early Redemption**

(i) *Zero Coupon Notes*

- (A) The Early Redemption Amount payable in respect of any zero coupon Note prior to the Maturity Date and the Early Redemption Amount of which is not linked to an index and/or a formula, upon redemption of such Note pursuant to Condition 7(c) (*Mandatory Redemption*) or 7(d)(ii) (*Withholding and Redemption of Notes for Taxation Reasons*) or upon it becoming due and payable as provided in Condition 10 (*Events of Default*), shall be the Amortised Face Amount (as defined and calculated as provided below) of such Note unless otherwise specified in the relevant Offering Circular Supplement.
- (B) Subject to the provisions of sub-paragraph (C) below, the “**Amortised Face Amount**” of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at a rate per annum (expressed as a percentage) equal to the “**Amortisation Yield**” (as set out in the relevant Offering Circular Supplement or which, if none is shown in the relevant Offering Circular Supplement, shall be such rate as would produce an Amortised Face Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date) compounded annually.
- (C) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 7(c) (*Mandatory Redemption*) or 7(d)(ii) (*Withholding and Redemption of Notes for Taxation Reasons*) or upon it becoming due and payable as provided in Condition 10 (*Events of Default*) is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Face Amount of such Note as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the date on which the Note becomes due and payable were the Relevant Date. The calculation of the Amortised Face Amount in accordance with this sub-paragraph shall continue to be made (as well after as before judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 6(d) (*Zero Coupon Notes*).

Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction shown in the relevant Offering Circular Supplement.

(ii) *Other Notes*

The Early Redemption Amount payable in respect of any Note (other than Notes described in (i) above), upon redemption of such Note pursuant to Condition 7(c) (*Mandatory Redemption*) or 7(d)(ii) (*Withholding and Redemption of Notes for Taxation Reasons*) or upon it becoming due and payable as provided in Condition 10 (*Events of Default*), shall be the Final Redemption Amount unless otherwise specified in the relevant Offering Circular Supplement or the applicable Technical Annex.

(c) **Mandatory Redemption**

The applicable Offering Circular Supplement may specify that one or more of the following events applies:

- (i) any of the Collateral Securities becomes payable or repayable or becomes capable of being declared due and payable or repayable prior to its stated date of maturity for whatever reason (a “**Collateral Securities Repayment Event**”);

- (ii) unless the Trustee otherwise agrees, there is a payment default in respect of any of the Collateral Securities (a “**Collateral Securities Default Event**”);
- (iii) a Credit Support Document, a Swap, a Collateral Securities Agreement, a Contract, a Deposit Agreement or an Other Agreement is terminated in whole for any reason other than as a consequence of, or pre-condition to, the substitution of any third party for a party to any of the foregoing contracts in accordance with their terms and conditions and unless alternative secured assets are substituted for such Credit Support Document, Swap, Collateral Securities Agreement, Contract, Deposit Agreement or Other Agreement pursuant to, and in accordance with, Condition 4(g) (*Substitution of Mortgaged Property*) prior to the date for such termination (an “**Agreement Termination Event**”); and/or
- (iv) one or more of the following events (each, a “**Regulatory Event**”) occurs:
 - (1) the adoption of, or any change in, any applicable law or regulation after the Issue Date, or promulgation of, or any change in, the interpretation by any Authority of any applicable law or regulation, or any practice relating thereto after the Issue Date, and with applicable law or regulation for this purpose meaning any similar, related or analogous law, regulation or rule to those in Dodd-Frank, FATCA, AIFMD, EMIR or MiFID II or any law or regulation that imposes a financial transaction tax or other similar tax or obligation which has, or may have, a material adverse effect on the Issuer or the Regulatory Event Counterparty as a result of, or in connection with, the issuance of the Notes or in connection with the Mortgaged Property;
 - (2) any regulation or rule under Dodd-Frank, FATCA, AIFMD, EMIR or MiFID II or under any law or regulation that imposes a financial transaction tax or other similar tax or obligation which, in each case, was either not in force as at the Issue Date or was in force at the Issue Date but the manner of its application was not known or unclear at the Issue Date is implemented, promulgated or otherwise made known, and such implementation, promulgation or application has, or may have, a material adverse effect on the Issuer or the Regulatory Event Counterparty as a result of, or in connection with, the issuance of the Notes or in connection with the Mortgaged Property;
 - (3) the Issuer or the Regulatory Event Counterparty is required to be regulated by any additional or alternative regulatory authority or in compliance with any additional laws which has, or may have, a material adverse effect on the Issuer or the Regulatory Event Counterparty or as a result of, or in connection with, the issuance of the Notes or in connection with the Mortgaged Property, whether or not such determination was caused by a change in the law, the promulgation of regulations thereunder, the interpretation of such laws and regulations by any relevant Authority, any practice related thereto or otherwise; and whether or not such laws, regulations or practice were known or unclear at the Issue Date;
 - (4) the Issuer is required to clear any derivatives transaction entered into connection with the Notes with a central clearing counterparty;
 - (5) the Issuer or the Regulatory Event Counterparty would be an “AIFM” or an “AIF” for the purposes of AIFMD by virtue (wholly or partially) of its involvement with the Notes or any Credit Support Document;
 - (6) the Issuer or the Regulatory Event Counterparty is, as a result of, or in connection with, the issuance of the Notes or in connection with the Mortgaged Property:
 - (A) subject to materially increased capital charges, however defined, above those capital charges (if any) that prevailed as at the Issue Date; or

- (B) required to provide collateral or any form of initial or variation margin to the other in addition to that (if any) contemplated on the Issue Date; and/or
- (7) an Additional Regulatory Event, as specified in the applicable Offering Circular Supplement,

in each case, as determined by the Regulatory Event Counterparty, provided that the Regulatory Event shall only be deemed to have occurred if the Issuer has first obtained consent to the resulting early redemption of the Notes from the Regulatory Event Counterparty, where:

“**AIFMD**” means Directive 2011/61/EU of the European Parliament and of the Council of 8 June 2011 on Alternative Investment Fund Managers and any implementing legislation in an EU Member State and any technical guidelines and regulatory technical standards, further regulations, official guidance or official rules of procedures with respect thereto;

“**Authority**” means any nation, any political subdivision thereof, whether state or local, any international organization, and any agency, authority, instrumentality, judicial or administrative, regulatory body, law enforcement body, securities or futures exchange, court, central bank or other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government.

“**Dodd-Frank**” means the Dodd-Frank Wall Street Reform and Consumer Protection Act or the adoption of any law, regulation or rule related thereto;

“**EMIR**” means the Regulation (EU) No 648/2012 of the European Parliament and the Council of 4 July 2012 on OTC Derivatives, Central Counterparties and Trade Repositories and any technical guidelines and regulatory technical standards, further regulations, official guidance or official rules of procedures with respect thereto;

“**FATCA**” means sections 1471 through 1474 of the United States Internal Revenue Code of 1986, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto;

“**MIFID II**” means the recent text on amending the Directive 2004/39/EU and Regulation 648/2012; and

“**Regulatory Event Counterparty**” means the party or parties so specified in the Offering Circular Supplement.

If any event does so apply then the Issuer or an agent acting on behalf of the Issuer (as applicable) shall give notice of the occurrence of such event as soon as reasonably practicable upon such occurrence (unless otherwise specified in the relevant Supplemental Trust Deed) to the Trustee and the Noteholders and upon the giving of such notice shall redeem each Note at its Early Redemption Amount, either in whole or, in respect of a Collateral Securities Repayment Event or a Collateral Securities Default Event (as defined below), as the case may be, in part on a *pro rata* basis in a proportion of its Final Redemption Amount equal to the proportion that the nominal amount of the Repayable Assets (as defined below) bears to the nominal amount of all the Collateral Securities (including the Repayable Assets):

In respect of a Collateral Securities Repayment Event or a Collateral Securities Default Event, all Collateral Securities in respect of which such event has occurred, together with any or all remaining Collateral Securities, as specified in the relevant Supplemental Trust Deed (which may or may not form obligations of the same person as those which have become repayable or in respect of which there has been such a payment default), shall be deemed to have become immediately repayable (the “**Repayable Assets**”).

Interest (if any) in respect of any Note redeemed following the occurrence of any Collateral Securities Repayment Event, Collateral Securities Default Event, Agreement Termination Event or Regulatory Event shall be as set out in the relevant Offering Circular Supplement.

In the event of Notes becoming mandatorily due for redemption, the Issuer shall redeem the Notes early by making payment of the Early Redemption Amount, which may be less than the principal amount, and any accrued interest or other sums due under, of the Notes being redeemed.

(d) Withholding and Redemption of Notes for Taxation and other Reasons

(i) All payments of principal and interest by the Issuer in respect of the Notes, the Receipts and the Coupons shall be made free and clear of, and without deduction for, any taxes, duties, assessments or governmental charges whatsoever, except to the extent required by law or an agreement made pursuant to FATCA. Where such deduction is required by law or an agreement made pursuant to FATCA, no Issuer shall be obliged to make any additional payment in respect of the same.

(ii) If:

(A) the Issuer, on the occasion of the next payment due in respect of the Notes, would be required by Jersey law, Irish law, or English law, as applicable, to withhold or account for tax or would suffer tax in respect of its income so that it would be unable to make payment of the full amount due (other than where such circumstance, tax charge or other imposition arises as a result of any withholding or deduction pursuant to FATCA), then the Issuer shall so inform the Trustee, and shall use all reasonable endeavours to arrange the substitution of a company incorporated in another jurisdiction approved beforehand in writing by the Trustee and the Other Creditors (*provided that*, in the case of any Series of rated Notes, such substitution will also be notified in writing to Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and/or S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II)) as the principal obligor or to change (to the satisfaction of the Trustee and the Other Creditors (*provided that*, in the case of any Series of rated Notes, such change will also be notified in writing to Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and/or S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II))) its residence for taxation purposes to another jurisdiction approved beforehand in writing by the Trustee and the Other Creditors; or

(B) the Issuer is, or the Issuer on reasonable grounds satisfies the Trustee that the Issuer will be, subject to any circumstance (whether by reason of any law, regulation, regulatory requirement or double taxation convention or the interpretation or application thereof or otherwise) or to a tax charge (whether by direct assessment or by withholding at source) or other imposition by any jurisdiction which would make it illegal for the Issuer to maintain, or have a material adverse effect on the Issuer's ability to comply with or satisfy, its obligations under the Supplement Trust Deed or in respect of the Notes, or materially increase the cost to it of complying with its obligations under the Supplemental Trust Deed or under the Notes or materially increase the operating or administrative expenses of the Issuer or the arrangements under which the shares in the Issuer are held or otherwise oblige the Issuer or the Trustee to make any payment on, or calculated by reference to, the amount of any sum received or receivable by the Issuer or the Trustee or by the Trustee on behalf of the Issuer as contemplated in the Supplemental Trust Deed other than where such circumstance, tax charge or other imposition arises as a result of any withholding or deduction pursuant to FATCA; or

- (C) the Issuer, on the occasion of the next payment due in respect of the Notes, would be required pursuant to FATCA, to withhold or account for tax or would suffer tax in respect of its income so that it would be unable to make payment of the full amount due,

then the Issuer shall (in the case of Condition 7(d)(ii)(A), only if it is unable to arrange the substitution referred to therein) give notice as soon as is reasonably practicable (unless otherwise specified in the relevant Offering Circular Supplement) to the Trustee, the Noteholders, the Swap Counterparty, the Counterparty, the Beneficiary, the Deposit Bank and the Other Party and upon the giving of such notice all but not some only of the Notes shall become due for redemption on the date specified in such notice at their outstanding Early Redemption Amount (as described in Condition 7(b) (*Early Redemption*) above) (together with any interest accrued to the date fixed for redemption).

- (iii) Notwithstanding the foregoing, if the requirement to withhold or account for tax set out in Condition 7(d)(ii)(A) arises as a result of:

- (A) a withholding or deduction imposed on a payment by or on behalf of the Issuer to an individual required to be made pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive;
- (B) the presentation for payment of any Note, Receipt or Coupon by or on behalf of a Noteholder who would have been able to avoid such withholding or deduction by presenting the relevant Note, Receipt or Coupon to another Paying Agent in a Member State of the European Union;
- (C) any present or former connection of any Noteholder (or between a fiduciary, settlor, beneficiary, member or shareholder of such Noteholder if such Noteholder is an estate, a trust, a partnership, or a corporation) with Jersey (in the case of Notes issued by Claris, Claris 2, Claris III or Claris IV) or Ireland (in the case of Notes issued by Iris or Iris II) (including, without limitation, such Noteholder (or such fiduciary, settlor, beneficiary, member or shareholder) being or having been a citizen or resident thereof or being or having been engaged in a trade or business or present therein or having had a permanent establishment therein) otherwise than by reason only of the holding of any Note or receiving principal or interest in respect thereof;
- (D) the failure by the relevant Noteholder to comply with any applicable procedures required to establish non-residence or other similar claim for exemption from such tax or to provide information concerning nationality, residency or connection with Jersey (in the case of Notes issued by Claris, Claris 2, Claris III or Claris IV) or Ireland (in the case of Notes issued by Iris or Iris II); or
- (E) any combination of the immediately preceding paragraphs (A) through (D) inclusive,

then Condition 7(d)(ii)(A) shall not apply. In such circumstances the Issuer shall deduct such taxes from the amounts payable to such Noteholder. In any such circumstances, all other Noteholders shall receive the due amounts payable to them and their Notes shall not be redeemed. Any such deduction shall not constitute an Event of Default under Condition 10 (*Events of Default*).

- (iv) Notwithstanding the foregoing, if the requirement to withhold or account for tax set out in Condition 7(d)(ii)(C) arises as a result of a Noteholder, or any related person, not being compliant with FATCA or failing to provide in a timely manner such information as the Issuer considers necessary or desirable for the Issuer, or any authorised agent of the Issuer, to comply with FATCA, and the Issuer elects to make such withholding in respect of such

Noteholder then Condition 7(d)(ii)(C) shall not apply. In such circumstances the Issuer shall deduct such taxes from the amounts payable to such Noteholder or may alternatively give notice to the relevant Noteholder of redemption of their relevant Notes, and upon the giving of such notice, the relevant Notes held by (or on behalf of) such Noteholder shall become due for redemption on the date specified in such notice at their outstanding Early Redemption Amount (as described in Condition 7(b) (Early Redemption) above) (together with any interest accrued to the date fixed for redemption). In any such circumstances, all other Noteholders shall receive the due amounts payable to them and their Notes shall not be redeemed. Any such deduction shall not constitute an Event of Default under Condition 10 (*Events of Default*).

In the event of the Notes becoming due for redemption payment of the Early Redemption Amount shall be made, and may be less than the principal amount of, and any accrued interest and other sums due under, the Notes being redeemed.

(e) Redemption at the Option of the Issuer and Exercise of Issuer's Option

If Issuer Call Option is specified in the Offering Circular Supplement, the Issuer may, on giving not less than 15 nor more than 30 days' irrevocable notice to the Noteholders (or such other notice period as may be specified), redeem, or exercise any Issuer's option (as may be described in the relevant Offering Circular Supplement) in relation to, all or, if so provided, some of the Notes on any Optional Redemption Date or Option Exercise Date, as the case may be. Any such redemption of Notes shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption. Any such redemption or exercise must relate to Notes of a nominal amount at least equal to the minimum nominal amount to be redeemed specified in the Offering Circular Supplement and no greater than the maximum nominal amount to be redeemed specified in the relevant Offering Circular Supplement.

All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption or a partial exercise of an Issuer's option, the notice to Noteholders shall also contain the certificate numbers of the Notes to be redeemed or in respect of which such option has been exercised, which shall have been drawn in such place as the Trustee may approve and in such manner as it deems appropriate, subject to compliance with any applicable laws and stock exchange or other relevant authority requirements and the rules and procedures of Euroclear and/or Clearstream, Luxembourg, where applicable (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or reduction in nominal amount or otherwise, in each case at their discretion) or any other Alternative Clearing System (as the case may be). So long as the Notes are listed on the Irish Stock Exchange or any other stock exchange and the rules of the relevant stock exchange or other relevant authority so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be filed with the Company Announcements Office of the Irish Stock Exchange, or as specified by such other stock exchange or other relevant authority, a notice specifying the aggregate nominal amount of Notes outstanding and a list of the Notes drawn for redemption but not surrendered.

In the event of an early redemption of Notes pursuant to this Condition 7(e), payment of the Optional Redemption Amount may be made subject to the operation of Condition 4(e) (*Shortfall after Application of Proceeds*), and therefore may be less than the principal amount of, and any accrued interest and other sums due under, the Notes being redeemed.

In the event of an early redemption of Notes pursuant to this Condition 7(e), the Issuer, in the case of any Series of rated Notes, shall notify Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and/or S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II) in writing of the occurrence of such early redemption.

(f) **Redemption at the Option of Noteholders and Exercise of Noteholders' Option**

If Redemption at the Option of the Holder is specified in the Offering Circular Supplement, the Issuer shall, at the option of the Holder of any Note, upon the Holder of such Note giving not less than 15 nor more than 30 days' notice to the Issuer (or such other notice period as may be specified in the relevant Offering Circular Supplement) redeem such Note on the Optional Redemption Date(s) at its Optional Redemption Amount together with interest accrued to the date fixed for redemption.

To exercise such option or any other Noteholders' option that may be set out in the Offering Circular Supplement (which must be exercised on an Option Exercise Date) the Holder must deposit (in the case of Global Bearer Notes) such Note (together with all unmatured Receipts and Coupons and unexchanged Talons) with any Paying Agent or (in the case of Registered Notes) the Registered Note with any Transfer Agent at its specified office, together with a duly completed option exercise notice (the "**Option Exercise Notice**") in or substantially in the form set out in the Agency Agreement, copies of which are obtainable from any Paying Agent or any Transfer Agent (as applicable) within the notice period. No Note so deposited and option exercised may be withdrawn (except as provided in the Agency Agreement) without the prior consent of the Issuer.

In the event of an early redemption of Notes pursuant to this Condition 7(f), payment of the Optional Redemption Amount may be made subject to the operation of Condition 4(e) (*Shortfall after Application of Proceeds*), and therefore may be less than the principal amount of, and any accrued interest and other sums due under, the Notes being redeemed.

In the event of an early redemption of Notes pursuant to this Condition 7(f), the Issuer, in the case of any Series of rated Notes, shall notify Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and/or S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II) in writing of the occurrence of such early redemption.

(g) **Technical Annex Redemption**

In the case of Equity Linked Notes, Fund Linked Notes, Commodity Linked Notes, Inflation Linked Notes, Foreign Exchange Rate Linked Notes and Reference Rate Linked Notes the applicable Offering Circular Supplement may specify that Technical Annex redemption is applicable ("**Technical Annex Redemption**"). If Technical Annex Redemption is specified as applicable then, following a determination by the Calculation Agent in accordance with the relevant provisions of the applicable Technical Annex that the Issuer is to terminate its obligations in respect of the Notes in accordance with this Condition 7(g), the Issuer shall give notice as soon as is reasonably practicable (unless otherwise specified in the relevant Offering Circular Supplement) to the Trustee, the Noteholders, the Swap Counterparty, the Counterparty, the Beneficiary, the Deposit Bank and the Other Party and upon the giving of such notice all but not some only of the Notes shall become due for redemption on the date specified in such notice at their Early Redemption Amount (as specified in the applicable Offering Circular Supplement) (together with any interest accrued to the date fixed for redemption).

(h) **Partly Paid Notes**

Partly paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition 7 and the provisions specified in the Offering Circular Supplement.

(i) **Exchange of Notes**

(i) If the Supplemental Trust Deed specifies that the Notes are Exchangeable Notes, upon the occurrence of an event (the "**Exchange Event**"), as specified in the Supplemental Trust Deed, the Issuer, in the case of any Series of rated Notes, shall notify Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and/or S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II) in writing of the occurrence of such

Exchange Event and shall deliver, or cause to be delivered, to the Clearing System for credit to the respective accounts of entitled Noteholders on the Exchange Settlement Date (as defined below) the Securities Entitlement (as defined below) relating to the Notes presented and surrendered in accordance with this Condition in lieu of redeeming the Notes. Notes presented and surrendered by a Noteholder shall be aggregated for the purpose of determining the aggregate Securities Entitlement of that Noteholder. If the aggregate Securities Entitlement of a Noteholder does not comprise a nominal amount of Collateral Securities equal to an integral multiple of the minimum denomination of the Collateral Securities, the Issuer shall not deliver Collateral Securities in a nominal amount equal to a fraction of the minimum denomination of the Collateral Securities but shall account to each affected Noteholder for the net cash value (if any) of any such fraction, as determined by the Calculation Agent.

- (ii) The Issuer shall not deliver, or cause to be delivered, the Securities Entitlement in respect of any Exchangeable Notes unless such Note has been presented and surrendered together with a notification in writing (a “**Delivery Notice**”) specifying either an account in the Clearing System or such account broker or other method for delivery of Collateral Securities (in or substantially in the form set out in the Agency Agreement, copies of which are available at the specified office of each of the Paying Agents) to the Issuing and Paying Agent on any business day in London during the period (the “**Notice Delivery Period**”) specified in the Supplemental Trust Deed. The Holder of a Note may present and surrender such Note (together with a Delivery Notice) to the Paying Agent in Ireland (in the case of Notes listed on the Irish Stock Exchange). In these circumstances, the Noteholder shall be deemed to have presented and surrendered such Note (together with the Delivery Notice) on the business day in London next following the date on which such presentation and surrender occurred. The Issuer shall procure that upon presentation and surrender of a Note pursuant to this paragraph the Paying Agent shall issue to the Holder thereof a receipt in respect of such Note. The Notes shall cease to be outstanding on the first day on or after the Exchange Settlement Date upon which the Issuer makes the aggregate Securities Entitlement available for delivery in accordance with these Conditions.
- (iii) If there is a Settlement Disruption Event (as defined below) that prevents settlement on the Exchange Settlement Date (as defined below), then settlement shall be on the first succeeding day on which settlement can take place unless a Settlement Disruption Event exists for a period of 30 calendar days after the original date on which, but for the Settlement Disruption Event, settlement would have occurred. If settlement does not occur during such 30 calendar day period, the Issuer shall use best efforts to deliver the Collateral Securities comprising the aggregate Securities Entitlement promptly thereafter to a nominee selected by the Issuer and approved by the Trustee.

(j) **Purchases**

If the Issuer has satisfied the Trustee that it has made arrangements for the realisation of no more than the equivalent proportion of the Collateral Securities, for the reduction in the notional amount of any Other Obligation and for the purchase of the Notes, which transactions will leave the Issuer with no assets or net liabilities in respect thereof, it may purchase Notes (*provided that* all unmatured Receipts and Coupons and unexchanged Talons appertaining thereto are attached or surrendered therewith) in the open market or otherwise at any price.

(k) **Cancellation**

All Notes purchased by or on behalf of the Issuer may be surrendered for cancellation, in the case of Global Bearer Notes, by surrendering each such Note together with all unmatured Receipts and Coupons and all unexchanged Talons to or to the order of the Issuing and Paying Agent and, in the case of Registered Notes, by surrendering such Notes to the Registrar and, in each case, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith on behalf of the Issuer (together with all unmatured Receipts and Coupons and unexchanged Talons attached thereto or

surrendered therewith). Any Notes so surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.

(l) **Definitions**

As used in this Condition:

“**Clearing System**” means each of Clearstream, Luxembourg, Euroclear (if specified in the relevant Offering Circular Supplement) and, in relation to any Tranche, such other clearing system as may be agreed between the Issuer, the Issuing and Paying Agent, the Trustee, the Irish Stock Exchange (in relation to Notes listed on the Irish Stock Exchange) and the relevant Dealer, and references to “**Clearing System**” or “**Clearing Systems**” are references to one or more of the Clearing Systems as may be relevant in respect of any Series of Notes;

(b) Modification of the Trust Deed, etc.

The Trustee may agree, without the consent of the Noteholders or Couponholders, or Warrantholders, as the case may be, to (i) any modification of any of the provisions of the Trust Deed, the Agency Agreement, Credit Support Document, Swap, Contract, Collateral Securities Agreement, Deposit Agreement, Custody Agreement or Other Agreement that is of a formal, minor or technical nature or is made to correct a manifest error or to cure any ambiguity, inconsistency or defective provision; and (ii) any other modification (except as mentioned in the Trust Deed), and any waiver or authorisation of any breach or proposed breach, of any of these Conditions or any of the provisions of the Trust Deed, Credit Support Document, Swap, Contract, Collateral Securities Agreement, Agency Agreement, Deposit Agreement, Custody Agreement or Other Agreement that is in the opinion of the Trustee not materially prejudicial to the interests of the Noteholders or the Couponholders, or the Warrantholders, as the case may be. Any such modification, authorisation or waiver shall be binding on the Noteholders and the Couponholders, or the Warrantholders, as the case may be, and, if the Trustee so requires, such modification shall be notified to the Holders as soon as practicable. The Issuer or an agent acting on behalf of the Issuer (as applicable) shall notify Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II) of any modification made by it in accordance with this Condition 12(b) and the Trust Deed.

(c) Substitution

The Trust Deed contains provisions permitting the Trustee to agree, subject to such amendment of the Trust Deed and such other conditions as the Trustee may require, without the consent of the Noteholders or the Couponholders, or the Warrantholders, as the case may be, but subject to the prior written consent of the Other Creditors, to the substitution of any other company in place of the Issuer, or of any previous substituted company, as principal debtor under the Trust Deed and all of the Securities then outstanding provided that, in the case of any Series of rated Notes, such substitution shall be notified to Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and/or S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II). In the case of such a substitution the Trustee may agree, without the consent of the Noteholders or the Couponholders, or the Warrantholders, as the case may be, to a change of the law governing the Notes, the Receipts, the Coupons or the Talons, or the Warrants, as the case may be, and/or the Trust Deed provided that such change would not in the opinion of the Trustee be materially prejudicial to the interests of the Noteholders and Couponholders, or the Warrantholders, as the case may be, and, in the case of any Series of rated Notes, that such change shall be notified to Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and/or S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II). Under the Trust Deed, the Trustee may agree or require the Issuer to use all reasonable endeavours to procure the substitution as principal debtor under the Trust Deed and all of the Notes then outstanding and in respect of all of the Outstanding Warrants, of a company incorporated in some other jurisdiction in the event of the Issuer becoming subject to any form of tax on its income or payments in respect of the Securities, subject to the approval of the Other Creditors and provided that, in the case of any Series of rated Notes, such substitution shall be notified to Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and/or S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II).

In the event of the substitution pursuant to this Condition 12(c) (*Substitution*) of an Issuer as principal debtor under the Trust Deed and of any Notes then outstanding or in respect of any Outstanding Warrants, in each case which are listed on the Irish Stock Exchange, such substituted Issuer shall prepare and issue a supplemental offering circular for submission to the Irish Stock Exchange and will notify Holders of such substitution in accordance with Condition 15 (*Notices*).

(d) **Entitlement of the Trustee and Conflicts of Interest**

In connection with the exercise of its functions (including but not limited to those referred to in this Condition) the Trustee shall have regard to the interests of each Tranche of Holders as a class and shall not have regard to the consequences (in particular, any tax consequences) of such exercise for individual Noteholders or Couponholders, or Warrantholders, as the case may be, of such Tranche and the Trustee shall not be entitled to require, nor shall any Noteholder, Couponholder or Warrantholder, as applicable, be entitled to claim, from the Issuer, the Trustee or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders or Couponholders, or Warrantholders, as the case may be, of any Tranche.

Except where expressly provided otherwise, where in the opinion of the Trustee there is a conflict between the interests of different Tranches of Noteholders, the Trustee shall give priority to the interests of the holders of the Senior Tranche of Notes, whose interests shall prevail and shall act in accordance with the Holder Request. In the event that the Trustee shall receive conflicting or inconsistent requests from two or more groups of Holders of the Senior Tranche of Notes (or other Tranche given priority as described in this paragraph), each representing less than the majority by principal amount of the Senior Tranche of Notes (or other Tranche given priority as described in this paragraph), the Trustee shall give priority to the group which holds the greater amount of Notes outstanding of such Tranche. The Trustee shall not be obliged to consider the interests of the holders of any other Tranche of Notes.

In these conditions:

“**Senior Tranche**” means, in relation to a Series of Notes, those Notes of that Series then outstanding that are issued on the same date at the same issue price and in respect of which the first payment of interest and, if applicable, the first instalment of principal is identical but such Tranche ranks in priority to any other Tranche of Notes in the application of proceeds as set out in the Trust Deed.

13. **REPLACEMENT OF NOTES, WARRANTS, RECEIPTS, COUPONS AND TALONS**

If a Note, Warrant, Receipt, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Issuing and Paying Agent (in the case of Bearer Notes, Receipts, Coupons or Talons) and of the Registrar (in the case of Registered Securities) or such other Paying Agent or Transfer Agent, as the case may be, as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Holders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, among other things, that if the allegedly lost, stolen or destroyed Note, Warrant, Receipt, Coupon or Talon is subsequently presented (unless (a) in the case of a temporary or permanent Global Bearer Note issued by either Iris or Iris II, the relevant Offering Circular Supplement indicates that such Note is intended to be in NGN form or (b) in the case of a Global Registered Note issued either by Iris or Iris II, the relevant Offering Circular Supplement indicates that such Note is intended to be in NSSGRN form) for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Notes, Warrants, Receipts, Coupons or further Coupons) and otherwise as the Issuer may require. Mutilated or defaced Notes, Warrants, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

14. **FURTHER ISSUES**

The Issuer may from time to time without the consent of the Noteholders or Couponholders, or Warrantholders, as the case may be, but subject to Condition 5 (*Restrictions*) and (in the case of Claris, Claris III, Claris IV, Iris and/or Iris II) upon prior notice in writing to each of Moody's (in the case of Notes issued by Claris, Claris IV, Iris and/or Iris II) and/or S&P (in the case of Notes issued by Claris, Claris III, Claris IV, Iris and/or Iris II), create and issue further notes or warrants,

as the case may be, either having the same terms and conditions as the Notes or Warrants, as applicable, in all respects (or in all respects except, in the case of Notes, for the first payment of interest on them) and so that such further issue shall be consolidated and form a single series with the Notes or Warrants, as applicable, or upon such terms as the Issuer may determine at the time of their issue. Any such further notes or warrants shall only form a single issue with the Notes or Warrants, as applicable, (unless otherwise approved by an Extraordinary Resolution) if the Issuer provides additional assets as security for such further notes which are fungible with, and have the same proportionate composition as, those forming part of the Mortgaged Property for the Notes or Warrants, as applicable and in the same proportion that, in the case of Notes, the nominal amount of such new notes bears to the Notes or, in the case of Warrants, the number of such new warrants bears to the Warrants, and the Issuer enters into, or has the benefit of, additional or supplemental Credit Support Documents, Swaps, Collateral Securities Agreements, Contracts, Deposit Agreements and Other Agreements extending the terms of any existing Credit Support Documents, Swaps, Collateral Securities Agreements, Contracts, Deposit Agreements and Other Agreements to the new notes or warrants on terms no less favourable than such existing documents and agreements. Any new notes or warrants forming a single series with the Notes or Warrants, as applicable, shall be constituted and secured by a deed supplemental to the Trust Deed, such further security shall be added to the Mortgaged Property so that the new notes and the existing Notes or the new warrants and the existing Warrants, as the case may be, shall be secured by the same Mortgaged Property and references in these Conditions to **“Notes”**, **“Warrants”**, **“Collateral”**, **“Mortgaged Property”**, **“Credit Support Documents”**, **“Swaps”**, **“Collateral Securities Agreements”**, **“Contracts”**, **“Deposit Agreements”**, **“Other Agreements”**, **“Obligations”**, **“Other Obligations”**, **“Creditors”** and **“Other Creditors”** shall be construed accordingly. The Trust Deed contains provisions for convening a single meeting of the Holders of the Securities and the Holders of notes or warrants of other specified series in certain circumstances where the Trustee so decides.

Whenever it is proposed to create and issue any further notes or warrants, the Issuer shall use its reasonable efforts to give to the Trustee not less than 14 days' notice (or such shorter period of notice as agreed between the Issuer and the Trustee, acting in a reasonable manner) in writing of its intention so to do stating the amount of further notes or warrants, as the case may be, proposed to be created and issued.

15. **NOTICES**

Notices to the Holders of Registered Securities shall be mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing. Notices to the Holders of Bearer Notes shall be valid if published in a daily newspaper of general circulation in London (which is expected to be the Financial Times) and, in the case of each of the Registered Securities, Clearing System Warrants and Bearer Notes, so long as such Securities are listed on the Irish Stock Exchange, if filed with the Company Announcements Office of the Irish Stock Exchange. Any such notice shall be deemed to have been given (i) in the case of notices delivered to Euroclear and/or Clearstream, Luxembourg, on the Business Day on which such delivery takes place or (ii) on the date of such publication or, if published more than once or on different dates, on the first date on which publication is made, as provided above.

Whilst any of the Securities are

represented by a Global Security, notice may be given by any Holder to the Issuing and Paying Agent, the Warrant Agent or the Registrar (as applicable) via Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Issuing and Paying Agent, Warrant Agent or the Registrar (as applicable), and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

16. INDEMNIFICATION AND OBLIGATIONS OF THE TRUSTEE

The Trust Deed contains provisions for the indemnification of the Trustee, for its relief from responsibility including for the exercise of any voting rights in respect of the Collateral Securities and for the validity, sufficiency and enforceability (which the Trustee has not investigated) of the Transaction Security created over the Mortgaged Property. The Trustee is not obliged or required to take any action under the Trust Deed which may involve it in incurring any personal liability or expense unless indemnified, secured and/or prefunded to its satisfaction. When determining whether an indemnity or any security or pre-funding is satisfactory to it, the Trustee shall be entitled (i) to evaluate its risk in any given circumstance by considering the worst-case scenario and, for this purpose, it may take into account, without limitation, the potential costs of defending or commencing proceedings in England or elsewhere and the risk, however remote, of any award of damages against it in England or elsewhere and (ii) to require that any indemnity or security or prefunding given to it by the Holders or any of them or any other person be given on a joint and several basis and be supported by evidence satisfactory to it as to the financial standing and creditworthiness of each counterparty and/or as to the value of the security and an opinion as to the capacity, power and authority of each counterparty and/or the validity and effectiveness of the indemnity, security and/or prefunding. The Trustee and any affiliate are entitled to enter into business transactions with the Issuer, any Obligor, any Credit Support Provider, Swap Counterparty, Swap Guarantor Beneficiary, Counterparty, Deposit Bank or Other Party, or any of their subsidiary, holding or associated companies without accounting to the Noteholders or the Couponholders, or the Warrantholders, as the case may be, for profit resulting therefrom.

The Trustee is exempted from liability with respect to any loss or theft or reduction in value of the Collateral Securities, from any obligation to insure or to procure the insuring of the Collateral Securities and from any claim arising from the fact that the Collateral Securities will be held in safe custody by the Custodian or any custodian selected by the Trustee (in each case, if applicable). The Trustee is not responsible for monitoring or supervising the performance by any other person of its obligations to the Issuer and may assume these are being performed unless it shall have actual knowledge to the contrary.

The Trust Deed provides that in acting as Trustee under this Trust Deed the Trustee shall not assume any duty or responsibility to the Other Creditors, the Custodian, the Issuing and Paying Agent or the Warrant Agent (other than to pay to any of such parties any moneys received and repayable to it and to act in accordance with the provisions of Condition 4 (*Transaction Security*)) and shall have regard solely to the interests of the Holders.

The Trust Deed contains provisions for the Trustee to retire provided that the Trustee has given at least 60 days' written notice to each of the Issuers. The Trust Deed also contains provisions whereby the Holders may by Extraordinary Resolution remove the Trustee. Any such retirement or removal shall not be effective until a successor Trustee has been appointed. Noteholders and Warrantholders shall be notified in accordance with Condition 15 (*Notices*) of any such retirement, removal and/or replacement of the Trustee.

Upon receipt of such confirmation, the Warrant Agent will inform the Issuer thereof. The relevant Clearing System will on or before the Settlement Date debit the securities account of the relevant Warrantholder with the Warrants being exercised. If the Warrants are American Style Warrants or Bermudan Style Warrants, upon exercise of less than all the Warrants constituted by the Clearing System Global Warrant or Global Registered Warrant, as the case may be, the Common Depositary will, on the instructions of, and on behalf of the Warrant Agent, note such exercise on the schedule to such Clearing System Global Warrant or Global Registered Warrant and the number of Warrants so constituted shall be reduced by the cancellation to the extent of the Warrants so exercised.

In the case of Definitive Registered Warrants, upon receipt of an Exercise Notice, the Registrar shall verify that the person exercising the Warrants is the Holder according to the Register. Subject thereto, the Registrar shall confirm to the Issuer and the Warrant Agent the series number and the number of Warrants being exercised and the account details, if applicable, for the payment of the Settlement Amount of each Warrant being exercised. The Issuer shall, on the Settlement Date, pay or cause to be paid the Settlement Amount (if any) for each duly exercised Warrant or Unit, as the case may be, to the Warrantholder's account specified in the relevant Exercise Notice for value on the Settlement Date less any Exercise Expenses.

(e) Determinations

Any determination as to whether an Exercise Notice is duly completed and in proper form shall be made by (i) in the case of Clearing System Warrants or Global Registered Warrants, the relevant Clearing System or (ii) in the case of Definitive Registered Warrants, the Registrar, in each case in consultation with the Warrant Agent and shall be conclusive and binding on the Issuer, the Agents and the relevant Warrantholder. In the absence of negligence or wilful misconduct on its part, the Issuer shall not be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Warrantholder.

If such Exercise Notice is subsequently corrected to the satisfaction of the relevant Clearing System, Warrant Agent or Registrar, as applicable, in consultation with the Warrant Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction was delivered to the relevant Clearing System, Warrant Agent or Registrar, as the case may be.

If Automatic Exercise is not specified as applying in the applicable Offering Circular Supplement, any Warrant with respect to which the Exercise Notice has not been duly completed and delivered in the manner set out above before the Expiration Date specified in (i) Condition 21(a) (*American Style Warrants*), in the case of American Style Warrants, (ii) Condition 21(b) (*European Style*

Warrants), in the case of European Style Warrants or (iii) Condition 21(c) (*Bermudan Style Warrants*), in the case of Bermudan Style Warrants, shall become void.

The relevant Clearing System or Registrar, as the case may be, shall use its best efforts promptly to notify the Warrantholder submitting an Exercise Notice if, in consultation with the Warrant Agent, it has determined that such Exercise Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Agents, the Registrar or the relevant Clearing System shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Warrantholder.

(f) **Delivery of an Exercise Notice**

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Warrantholder to exercise the Warrants specified. After the delivery of such Exercise Notice, such exercising Warrantholder may not transfer such Warrants.

(g) **Automatic Exercise**

This Condition only applies if Automatic Exercise is specified as applying in the applicable Offering Circular Supplement and the Warrants are automatically exercised as provided in Condition 21(a) (*American Style Warrants*), Condition 21(b) (*European Style Warrants*) or Condition 21(c) (*Bermudan Style Warrants*).

Unless otherwise provided in the applicable Offering Circular Supplement, no Exercise Notice is required to be submitted or any other action required to be taken in the case of Clearing System Warrants or Global Registered Warrants by any relevant Warrantholder in order to receive the Settlement Amount (if any) in respect of such Warrant or Unit, as the case may be. The Issuer shall transfer or cause to be transferred to each Clearing System through which such Warrants are held an amount equal to the aggregate of the Settlement Amounts in respect of the Warrants held in each such Clearing System and each such Clearing System shall, subject to having received such aggregate Settlement Amount, on the Settlement Date credit the account of each Warrantholder of such Warrant(s) in its books with an amount equal to the aggregate Settlement Amount relating to the Warrant(s) held by such Warrantholder and on or before the Settlement Date debit such account with the number of Warrants exercised and in respect of which such Settlement Amount is being paid. The Issuer shall have no responsibility for the crediting by the relevant Clearing System of any such amounts to any such accounts.

Unless otherwise provided in the applicable Offering Circular Supplement, in order to receive the Settlement Amount in respect of a Warrant or Unit, as the case may be, the relevant Warrantholder must, in the case of Definitive Registered Warrants, deliver in writing a duly completed Exercise Notice together with the relevant Definitive Registered Warrant to the Registrar with a copy to the Warrant Agent, on any Business Day until not later than 10.00 a.m., London time, on the day (the “**Cut-off Date**”) falling 180 days after (x) the Actual Exercise Date, in the case of American Style Warrants or Bermudan Style Warrants, or (y) the Expiration Date, in the case of European Style Warrants. The Exercise Notice shall include the applicable information set out in the Exercise Notice referred to in Conditions 22(a)(A)-(G) or Conditions 22(b)(A)-(F), as applicable. The Business Day during the period from the Expiration Date or the Actual Exercise Date, as the case may be, until the Cut-off Date on which an Exercise Notice is delivered to the relevant Clearing System or the Registrar, and a copy thereof delivered to the Warrant Agent, is referred to in this Condition 22(g) as the “**Exercise Notice Delivery Date**”, provided that, in the case of Definitive Registered Warrants, if the Exercise Notice is received by the Registrar or the copy thereof received by the Warrant Agent after 10.00 a.m., London time, on any Business Day, such Exercise Notice shall be deemed to have been delivered on the next Business Day, which Business Day shall be deemed to be the Exercise Notice Delivery Date.

Subject to the relevant Warrantholder performing its obligations in respect of the relevant Warrant or Unit, as the case may be, in accordance with these Conditions, the Settlement Date for such Warrants or Units, as the case may be, shall be the fifth Business Day following the Exercise Notice Delivery Date. In the case of Definitive Registered Warrants, in the event that a Warrantholder does not, where applicable, so deliver an Exercise Notice in accordance with this Condition 22(g) prior to 10.00 a.m., London time, on the Cut-off Date, the Issuer's obligations in respect of such Warrants shall be discharged and no further liability or obligation in respect thereof shall attach to the Issuer. For the avoidance of doubt, a Warrantholder shall not be entitled to any payment, whether of interest or otherwise, in respect of the period from the Actual Exercise Date to the Settlement Date.

(h) **Exercise Risk**

Exercise of the Warrants is subject to all applicable laws, regulations and practices in force on the relevant date on which such exercise takes place and neither the Issuer nor the Warrant Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated as a result of any such laws, regulations or practices. None of the Issuer, the Trustee or the Agents shall under any circumstances be liable for any acts or defaults of the relevant Clearing System in relation to the performance of its duties in relation to the Warrants.

23. **MAXIMUM AND MINIMUM NUMBER OF WARRANTS EXERCISABLE**

(a) **American Style Warrants and Bermudan Style Warrants**

This Condition 23(a) applies only to American Style Warrants and Bermudan Style Warrants.

- (i) The number of Warrants exercisable by any Warrantholder on any Actual Exercise Date or, in the case of Automatic Exercise, the number of Warrants held by any Warrantholder on any Actual Exercise Date, in each case as determined by the Warrant Agent, must not be less than the Minimum Exercise Number specified in the applicable Offering Circular Supplement and, if specified in the applicable Offering Circular Supplement, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Offering Circular Supplement. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.
- (ii) If the Warrant Agent determines that the number of Warrants being exercised on any Actual Exercise Date by any Warrantholder or a group of Warrantholders (whether or not acting in concert) exceeds the Maximum Exercise Number (a number equal to the Maximum Exercise Number being the “Quota”), the Warrant Agent may deem the Actual Exercise Date for the first Quota of such Warrants, selected at the sole discretion of the Warrant Agent, to be such day and the Actual Exercise Date for each additional Quota of such Warrants (and any remaining number thereof) to be each of the succeeding (i) Business Days, in the case of American Style Warrants or (ii) Specified Exercise Dates, in the case of Bermudan Style Warrants, until all such Warrants have been attributed with an Actual Exercise Date, provided, however, that the deemed Actual Exercise Date for any such Warrants which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where more than the Quota of Warrants is exercised on the same day by Holder(s) of Warrants, the order of settlement in respect of such Warrants shall be at the sole discretion of the Warrant Agent.

(b) **European Style Warrants**

This Condition 23(b) applies only to European Style Warrants.

The number of Warrants exercisable by any Warrantholder on the Exercise Date, as determined by the Warrant Agent, must be equal to the Minimum Exercise Number specified in the applicable Offering Circular Supplement and, if specified in the applicable Offering Circular Supplement, if a

number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Offering Circular Supplement. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.

24. CANCELLATION

(a) Cancellation

The amount (the “**Cancellation Amount**”) payable in respect of any Warrant, upon cancellation of such Warrant pursuant to Condition 24(b) (*Mandatory Cancellation*), 24(c)(ii) (*Withholding and Cancellation of Warrants for Taxation Reasons*) or 24(d) (*Technical Annex Cancellation*), or upon it becoming due to be cancelled as provided in Condition 10 (*Events of Default*), shall be the amount specified as such in the relevant Offering Circular Supplement.

The applicable Offering Circular Supplement may specify that one or more of the following events applies:

- (i) any of the Collateral Securities becomes payable or repayable or becomes capable of being declared due and payable or repayable prior to its stated date of maturity for whatever reason (a “**Collateral Securities Repayment Event**”);
- (ii) unless the Trustee otherwise agrees, there is a payment default in respect of any of the Collateral Securities (a “**Collateral Securities Default Event**”);
- (iii) a Credit Support Document, a Swap, a Collateral Securities Agreement, a Contract, a Deposit Agreement or an Other Agreement is terminated in whole for any reason other than as a consequence of, or pre-condition to, the substitution of any third party for a party to any of the foregoing contracts in accordance with their terms and conditions and unless alternative secured assets are substituted for such Credit Support Document, Swap, Collateral Securities Agreement, Contract, Deposit Agreement or Other Agreement pursuant to, and in accordance with, Condition 4(g) (*Substitution of Mortgaged Property*) prior to the date for such termination (an “**Agreement Termination Event**”); and/or
- (iv) one or more of the following events (a “**Regulatory Event**”) occurs:
 - (1) the adoption of, or any change in, any applicable law or regulation after the Issue Date, or promulgation of, or any change in, the interpretation by any Authority with competent jurisdiction of any applicable law or regulation, or any practice related thereto, after the Issue Date, and with applicable law or regulation for this purpose meaning any similar, related or analogous law, regulation or rule to those in Dodd-Frank, FATCA, AIFMD, EMIR or MiFID II or any law or regulation that imposes a financial transaction tax or other similar tax or obligation which has, or may have, a material adverse effect on the Issuer or the Regulatory Event Counterparty as a result of, or in connection with, the issuance of the Warrants or in connection with the Mortgaged Property;
 - (2) any regulation or rule under Dodd-Frank, FATCA, AIFMD, EMIR or MiFID II or under any law or regulation that imposes a financial transaction tax or other similar tax or obligation which, in each case, was either not in force as at the Issue Date or was in force at the Issue Date but the manner of its application was not known or unclear at the Issue Date is implemented, promulgated or otherwise made known, and such implementation, promulgation or application has, or may have, a material adverse effect on the Issuer or the Regulatory Event Counterparty as a result of, or

in connection with, the issuance of the Warrants or in connection with the Mortgaged Property;

- (3) the Issuer or the Regulatory Event Counterparty is required to be regulated by any additional or alternative regulatory authority or in compliance with any additional laws which has, or may have, a material adverse effect on the Issuer or the Regulatory Event Counterparty or as a result of, or in connection with, the issuance of the Warrants or in connection with the Mortgaged Property, whether or not such determination was caused by a change in the law, the promulgation of regulations thereunder, the interpretation of such laws and regulations by any relevant Authority, any practice related thereto or otherwise; and whether or not such laws, regulations or practice were known or unclear at the Issue Date;
- (4) the Issuer is required to clear any derivatives transaction entered into connection with the Warrants with a central clearing counterparty;
- (5) the Issuer or the Regulatory Event Counterparty would be an “AIFM” or an “AIF” for the purposes of AIFMD by virtue (wholly or partially) of its involvement with the Warrants or any Credit Support Document; and/or

 - (A) subject to materially increased capital charges, however defined, above those capital charges (if any) that prevailed as at the Issue Date; or
 - (B) required to provide collateral or any form of initial or variation margin to the other in addition to that (if any) contemplated on the Issue Date and/or
- (7) an Additional Regulatory Event, as specified in the applicable Offering Circular Supplement,

in each case, as determined by the Regulatory Event Counterparty, provided that the Regulatory Event shall only be deemed to have occurred if the Issuer has first obtained consent to the resulting cancellation of the Warrants from the Regulatory Event Counterparty, where:

“**AIFMD**” means Directive 2011/61/EU of the European Parliament and of the Council of 8 June 2011 on Alternative Investment Fund Managers and any implementing legislation in an EU Member State and any technical guidelines and regulatory technical standards, further regulations, official guidance or official rules of procedures with respect thereto;

“**Authority**” means any nation, any political subdivision thereof, whether state or local, any international organization, and any agency, authority, instrumentality, judicial or administrative, regulatory body, law enforcement body, securities or futures exchange, court, central bank or other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government.

“**Dodd-Frank**” means the Dodd-Frank Wall Street Reform and Consumer Protection Act or the adoption of any law, regulation or rule related thereto;

“**EMIR**” means the Regulation (EU) No 648/2012 of the European Parliament and the Council of 4 July 2012 on OTC Derivatives, Central Counterparties and Trade Repositories and any technical guidelines and regulatory technical standards, further regulations, official guidance or official rules of procedures with respect thereto;

“**FATCA**” means sections 1471 through 1474 of the United States Internal Revenue Code of 1986, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto;

“**MIFID II**” means the recent text on amending the Directive 2004/39/EU and Regulation 648/2012; and

“**Regulatory Event Counterparty**” means the party or parties so specified in the Offering Circular Supplement.

If any event does so apply then the Issuer or an agent acting on behalf of the Issuer (as applicable) shall give notice of the occurrence of such event as soon as reasonably practicable upon such occurrence (unless otherwise specified in the relevant Supplemental Trust Deed) to the Trustee and the Warrantholders and upon the giving of such notice shall cancel each Warrant at its Cancellation Amount in whole.

In respect of a Collateral Securities Repayment Event or a Collateral Securities Default Event, all Collateral Securities in respect of which such event has occurred, together with any or all remaining Collateral Securities, as specified in the relevant Supplemental Trust Deed (which may or may not form obligations of the same person as those which have become repayable or in respect of which there has been such a payment default), shall be deemed to have become immediately repayable (the “**Repayable Assets**”).

In the event of Warrants becoming mandatorily due for cancellation, the Issuer shall cancel the Warrants by making payment of the Cancellation Amount, which may be less than the mark-to-market value of the Warrants subject to such cancellation immediately prior to the occurrence of the circumstances giving rise to such cancellation.

(c) **Withholding and Cancellation of Warrants for Taxation Reasons**

(i) All payments by the Issuer in respect of the Warrants shall be made free and clear of, and without deduction for, any taxes, duties, assessments or governmental charges whatsoever, except to the extent required by law or an agreement made pursuant to FATCA. Where such deduction is required by law or an agreement made pursuant to FATCA, no Issuer shall be obliged to make any additional payment in respect of the same.

(ii) If:

(A) the Issuer, on the occasion of the next payment due in respect of the Warrants, would be required by Jersey law, Irish law, or English law, as applicable, to withhold or account for tax or would suffer tax in respect of its income so that it would be unable to make payment of the full amount due (other than where such circumstance, tax charge or other imposition arises as a result of any withholding or deduction pursuant to FATCA), then the Issuer shall so inform the Trustee, and shall use all reasonable endeavours to arrange the substitution of a company incorporated in another jurisdiction approved beforehand in writing by the Trustee and the Other Creditors as the principal obligor or to change (to the satisfaction of the Trustee and the Other Creditors) its residence for taxation purposes to another jurisdiction approved beforehand in writing by the Trustee and the Other Creditors; or

(B) the Issuer is, or the Issuer on reasonable grounds satisfies the Trustee that the Issuer will be, subject to any circumstance (whether by reason of any law, regulation, regulatory requirement or double taxation convention or the interpretation or application thereof or otherwise) or to a tax charge (whether by direct assessment or by withholding at source) or other imposition by any jurisdiction which would make it illegal for the Issuer to maintain, or have a

material adverse effect on the Issuer's ability to comply with or satisfy, its obligations under the Supplement Trust Deed or in respect of the Notes, or materially increase the cost to it of complying with its obligations under the Supplemental Trust Deed or under the Warrants or materially increase the operating or administrative expenses of the Issuer or the arrangements under which the shares in the Issuer are held or otherwise oblige the Issuer or the Trustee to make any payment on, or calculated by reference to, the amount of any sum received or receivable by the Issuer or the Trustee or by the Trustee on behalf of the Issuer as contemplated in the Supplemental Trust Deed other than where such circumstance, tax charge or other imposition arises as a result of any withholding or deduction pursuant to FATCA; or

- (C) the Issuer, on the occasion of the next payment due in respect of the Warrants, would be required pursuant to FATCA, to withhold or account for tax or would suffer tax in respect of its income so that it would be unable to make payment of the full amount due,

then the Issuer shall (in the case of Condition 24(c)(ii)(A), only if it is unable to arrange the substitution referred to therein) give notice as soon as is reasonably practicable (unless otherwise specified in the relevant Offering Circular Supplement) give notice as soon as is reasonably practicable (unless otherwise specified in the relevant Offering Circular Supplement) to the Trustee, the Warrantholders, the Swap Counterparty, the Counterparty, the Beneficiary, the Deposit Bank and the Other Party and upon the giving of such notice all but not some only of the Warrants shall become due for cancellation on the date specified in such notice at their Cancellation Amount (as described in Condition 24(a) (Cancellation) above).

- (iii) Notwithstanding the foregoing, if the requirement to withhold or account for tax set out in Condition 24(c)(ii)(A) arises as a result of:
 - (A) a withholding or deduction imposed on a payment by or on behalf of the Issuer to an individual required to be made pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive;
 - (B) the presentation for payment of any Warrant by or on behalf of a Warrantholder who would have been able to avoid such withholding or deduction by presenting the relevant Warrant to another Paying Agent in a Member State of the European Union;
 - (C) any present or former connection of any Warrantholder (or between a fiduciary, settlor, beneficiary, member or shareholder of such Warrantholder if such Warrantholder is an estate, a trust, a partnership, or a corporation) with Jersey (in the case of Warrants issued by Claris, Claris 2, Claris III or Claris IV) or Ireland (in the case of Warrants issued by Iris or Iris II) (including, without limitation, such Warrantholder (or such fiduciary, settlor, beneficiary, member or shareholder) being or having been a citizen or resident thereof or being or having been engaged in a trade or business or present therein or having had a permanent establishment therein) otherwise than by reason only of the holding of any Warrant or receiving principal or interest in respect thereof;
 - (D) the failure by the relevant Warrantholder to comply with any applicable procedures required to establish non-residence or other similar claim for exemption from such tax or to provide information concerning nationality, residency or connection with

Jersey (in the case of Warrants issued by Claris, Claris 2, Claris III or Claris IV) or Ireland (in the case of Warrants issued by Iris or Iris II);

- (E) a Warrantholder, or any related person, not being compliant with FATCA or failing to provide in a timely manner such information as the Issuer considers necessary or desirable for the Issuer, or any authorised agent of the Issuer, to comply with FATCA, and the Issuer elects to make such withholding in respect of such Noteholder; or
- (F) any combination of the immediately preceding paragraphs (A) through (D) inclusive,

then Condition 24(c)(ii)(A) shall not apply. In such circumstances the Issuer shall deduct such taxes from the amounts payable to such Warrantholder. In any such circumstances, all other Warrantholders shall receive the due amounts payable to them and their Warrants shall not be cancelled. Any such deduction shall not constitute an Event of Default under Condition 10 (*Events of Default*).

- (iv) Notwithstanding the foregoing, if the requirement to withhold or account for tax set out in Condition 24(c)(ii)(C) arises as a result of a Warrantholder, or any related person, not being compliant with FATCA or failing to provide in a timely manner such information as the Issuer considers necessary or desirable for the Issuer, or any authorised agent of the Issuer, to comply with FATCA, and the Issuer elects to make such withholding in respect of such Noteholder then Condition 24(c)(ii) shall not apply. In such circumstances the Issuer shall deduct such taxes from the amounts payable to such Warrantholder or the Issuer may alternatively give notice to the relevant Warrantholder of cancellation of their relevant Warrants, and upon the giving of such notice, the relevant Warrants held by (or on behalf of) such Warrantholder shall become due for cancellation on the date specified in such notice at their Cancellation Amount (as described in Condition 24(a) (Cancellation) above). In any such circumstances, all other Warrantholders shall receive the due amounts payable to them and their Warrants shall not be cancelled. Any such deduction shall not constitute an Event of Default under Condition 10 (*Events of Default*).

In the event of the Warrants becoming due for cancellation, the Issuer shall cancel the Warrants by making payment of the Cancellation Amount, which may be less than the mark-to-market value of the Warrants subject to such cancellation immediately prior to the occurrence of the circumstances giving rise to such cancellation.

(d) **Technical Annex Cancellation**

In the case of Equity Linked Warrants, Fund Linked Warrants, Commodity Linked Warrants, Inflation Linked Warrants, Foreign Exchange Rate Linked Warrants and Reference Rate Linked Warrants the applicable Offering Circular Supplement may specify that Technical Annex cancellation is applicable (“**Technical Annex Cancellation**”). If Technical Annex Cancellation is specified as applicable then, following a determination by the Calculation Agent in accordance with the relevant provisions of the applicable Technical Annex that the Issuer is to terminate its obligations in respect of the Warrants in accordance with this Condition 24(d), the Issuer shall give notice as soon as is reasonably practicable (unless otherwise specified in the relevant Offering Circular Supplement) to the Trustee, the Warrantholders, the Swap Counterparty, the Counterparty, the Beneficiary, the Deposit Bank and the Other Party and upon the giving of such notice all but not some only of the Warrants shall become due for cancellation on the date specified in such notice at their Cancellation Amount (as specified in the applicable Offering Circular Supplement).

(e) **Cancellation at the Option of the Issuer and Exercise of Issuer’s Option**

If Cancellation at the Option of the Issuer is specified in the Offering Circular Supplement, the Issuer may, on giving not less than 15 nor more than 30 days’ irrevocable notice to the

Warrantholders (or such other notice period as may be specified), cancel, or exercise any Issuer's option (as may be described in the relevant Offering Circular Supplement) in relation to, all or, if so provided, some of the Warrants on any Optional Cancellation Date or Option Exercise Date specified in the Offering Circular Supplement, as the case may be. Any such cancellation of Warrants shall be at an amount (the "**Optional Cancellation Amount**") specified in the Offering Circular Supplement. Any such cancellation or exercise must relate to a quantity of Warrants at least equal to the minimum number of Warrants to be cancelled specified in the Offering Circular Supplement and no greater than the maximum number of Warrants to be cancelled specified in the relevant Offering Circular Supplement.

All Warrants in respect of which any such notice is given shall be cancelled, or the Issuer's option shall be exercised, on the date specified in such notice in accordance with this Condition.

In the case of a partial cancellation or a partial exercise of an Issuer's option, the notice to Warrantholders shall also contain the certificate numbers of the Warrants to be cancelled or in respect of which such option has been exercised, which shall have been drawn in such place as the Trustee may approve and in such manner as it deems appropriate, subject to compliance with any applicable laws and stock exchange or other relevant authority requirements and the rules and procedures of Euroclear and/or Clearstream, Luxembourg, where applicable (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or reduction in number of Warrants or otherwise, in each case at their discretion) or any other Alternative Clearing System (as the case may be). So long as the Warrants are listed on the Irish Stock Exchange or any other stock exchange and the rules of the relevant stock exchange or other relevant authority so require, the Issuer shall, once in each year in which there has been a partial cancellation of the Warrants, cause to be filed with the Company Announcements Office of the Irish Stock Exchange, or as specified by such other stock exchange or other relevant authority, a notice specifying the aggregate number of Warrants outstanding and a list of the Warrants drawn for cancellation but not surrendered.

In the event of a cancellation of Warrants pursuant to this Condition 24(e), payment of the Optional Cancellation Amount may be made subject to the operation of Condition 4(e) (*Shortfall after Application of Proceeds*), and therefore may be less than the mark-to-market value of the Warrants subject to such cancellation immediately prior to the optional cancellation or exercise of the Issuer's option.

(f) **Purchases**

If the Issuer has satisfied the Trustee that it has made arrangements for the realisation of no more than the equivalent proportion of the Collateral Securities, for the reduction in the notional amount of any Other Obligation and for the purchase of the Warrants, which transactions will leave the Issuer with no assets or net liabilities in respect thereof, it may purchase Warrants in the open market or otherwise at any price.

(g) **Cancellation**

All Warrants purchased by or on behalf of the Issuer may be surrendered for cancellation, in the case of Clearing System Global Warrants, by surrendering each such Warrant to or to the order of the Warrant Agent and, in the case of Registered Warrants, by surrendering such Warrants to the Registrar and, in each case, shall, together with all Warrants cancelled by the Issuer, be cancelled forthwith on behalf of the Issuer. Any Warrants so surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Warrants shall be discharged.

25. **EXPENSES**

All Exercise Expenses relating to such Warrants shall be for the account of the Warrantholder. The Issuer shall deduct from amounts payable to Warrantholders all Related Expenses, not previously

deducted from amounts paid or assets delivered to Warrantholders, as the Calculation Agent shall in its sole and absolute discretion determine are attributable to the Warrants. Such deduction by the Issuer shall not constitute an Event of Default under Condition 10 (*Events of Default*).

For the avoidance of doubt, neither the Issuer nor the Trustee shall be liable for any Related Expenses and Warrantholders shall be liable to pay the Related Expenses attributable to their Warrants.

26. **DETERMINATION OF SETTLEMENT AMOUNTS, CANCELLATION AMOUNTS AND OPTIONAL CANCELLATION AMOUNTS**

As soon as practicable after the relevant time on each date that the Calculation Agent may be required to calculate an amount, obtain any quotation or make any determination or calculation, it shall determine such amount, calculate the Settlement Amount, Cancellation Amount or Optional Cancellation Amount and obtain such quotation or make such determination or calculation, as the case may be, and cause such amount and, if required to be calculated, the Settlement Amount, Cancellation Amount or Optional Cancellation Amount to be notified to the Trustee, the Issuer, each of the Paying Agents, the relevant Holders, any other Calculation Agent appointed in respect of the Warrants that is to make a further calculation upon receipt of such information and, if the Warrants are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than the fourth Business Day after such determination. The determination of any amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

- (i) **“Trading Disruption”** means, in respect of a Share, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (a) relating to the Share on the Exchange or (b) in futures or options contracts relating to the Share on any relevant Related Exchange;

- (iii) **“Early Closure”** means, the closure on any Exchange Business Day of (a) the relevant Exchange, or (b) any Related Exchange, prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (x) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (y) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day,

In that case:

- (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date (as the case may be), for the Share notwithstanding the fact that such day is a Disrupted Day; and
- (ii) the Calculation Agent shall determine, its good faith estimate of the value of the Share as of the Valuation Time on that eighth Scheduled Trading Day and the good faith estimate of the value of the Share so calculated shall be deemed the Closing Price.

Provided that if the Share is included in a Basket, the above provisions shall apply only to the Share affected by the occurrence of a Disrupted Day and the Valuation Date or the Averaging Date for each Share not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date,

provided however that:

- (A) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in Part 1 - (c)(ii) above, and the good faith estimate of the value of the Share so calculated shall be deemed the Closing Price;
- (B) notwithstanding the foregoing, in respect of any Securities, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made in respect of such Securities on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made in respect of such Securities on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in Part 1 – (c)(ii) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the value of the Share so calculated shall be deemed the Closing Price.

PART 2 – ADJUSTMENTS AND EXTRAORDINARY EVENTS - MONETISATION UNTIL THE MATURITY/EXPIRATION DATE - HEDGING DISRUPTION, INCREASED COST OF HEDGING, INSOLVENCY FILING AND CONSEQUENCES - CHANGE IN LAW AND CONSEQUENCES

1. Adjustments and Extraordinary Events

(a) Potential Adjustment Events

“Potential Adjustment Event” means, in relation to a Share, any of the following:

- (i) a subdivision, consolidation or reclassification of such Share (unless resulting in a Merger Event), including, for the avoidance of doubt, a stock split or reverse stock split, or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of such Share of (a) such Shares, (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Shares, (c) share capital, other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;

- (iii) an extraordinary dividend as determined by the Calculation Agent;
- (iv) a call by the Company in respect of Shares that are not fully paid;
- (v) a repurchase by the Company or any of its subsidiaries of Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- (vii) any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the Shares.

Following the occurrence of any Potential Adjustment Event as defined above, the Calculation Agent will, as soon as reasonably practicable after it becomes aware of such event determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Share and, if so, will (a) calculate the corresponding adjustment, if any, to be made to the elements relating to the relevant Share used to determine any settlement or payment terms under the Securities and/or any other terms of the Securities as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Securities and (b) determine the effective date of that adjustment. In its determinations of the existence and extent of any dilutive or concentrative effect on the theoretical value of the Shares of any Potential Adjustment Event, and any related adjustments to the terms of the Securities, the Calculation Agent shall take into account any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Potential Adjustment Event. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options on the Share traded on such Related Exchange.

Definitions applicable to this Part 2 - 1(a):

“**Local Taxes**” shall mean taxes, duties, and similar charges imposed by the taxing authority of the country in which the Company has been incorporated or in which the Exchange on which the Share is listed is located; and

“**Offshore Investor**” shall mean a holder of Shares who is an institutional investor not resident in the country in which the Company has been incorporated or in which the Exchange on which the Share is listed is located (the “**Local Jurisdiction**”), for the purposes of the tax laws and regulations of the Local Jurisdiction and, for the avoidance of doubt, whose jurisdiction of residence (a) shall be determined by the Calculation Agent and (b) may be the jurisdiction of Société Générale or any of its affiliates.

(b) Extraordinary Events

- (i) Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of the opening of an Offering Period relating to a Merger Event, a De-merger Event, a De-listing Event, an Insolvency, a Nationalisation or a Participation Event, in respect of a Share (an “**Affected Share**”) then during such Offering Period, the Calculation Agent may decide in good faith to apply Method of Substitution with respect to the Affected Share;

- (ii) If the Calculation Agent decides not to apply Method of Substitution during the Offering Period with respect to the Affected Share, then:
- (A) in respect of a Merger Event, from the Merger Date, and/or upon consummation of the Merger Event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, shall apply either:
 - (1) Share-for-Share Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity or Expiration Date, or Early Redemption/Cancellation;
 - (2) Share-for-Other Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity or Expiration Date, or Early Redemption/Cancellation; or
 - (3) Share-for-Combined Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity or Expiration Date, or Early Redemption/Cancellation,
 - (B) in the case of a Merger Event affecting two Shares comprised in a Basket, the Calculation Agent will either:
 - (1) continue with the share resulting from the Merger Event and, in order to maintain the original number of companies in the Basket, a Substitute Share or Substitute ADR (as applicable) will be selected by the Calculation Agent and included in the Basket;
 - (2) substitute both Shares with two Substitute Shares (or Substitute ADR) selected as described in the Method of Substitution;
 - (3) apply Monetisation until the Maturity or Expiration Date; or
 - (4) apply Early Redemption or Cancellation,
 - (C) in respect of a De-merger Event, from the De-merger Date, and/or upon consummation of the De-merger Event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, will either:
 - (1) replace the Affected Share with the shares or American depositary receipts of the successor companies;
 - (2) substitute one or more share(s) or American depositary receipt(s) resulting from such De-merger Event pursuant to the Method of Substitution;
 - (3) apply Monetisation until the Maturity Date or Expiration Date; or
 - (4) apply Early Redemption or Cancellation,

it being understood that, in the case of a Basket, the Calculation Agent shall maintain the initial number of companies in the Basket and that, in the case where the Calculation Agent has elected to substitute the Affected Share with several shares or American depositary receipts resulting from such De-merger Event, such shares or American depositary receipts shall be placed in a sub-basket and considered as one component of the Basket,
 - (D) in respect of a De-listing Event or a Nationalisation, from the effective date of such event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, may, but is not obliged to, apply the Method of Substitution or Monetisation until the Maturity/Expiration Date or the Early Redemption/Cancellation;

- (E) in respect of an Insolvency, the Calculation Agent will decide, either:
 - (1) that the Affected Share will be substituted pursuant to the Method of Substitution; or
 - (2) that the value of the relevant component in the formula used to determine the amount to be paid or whether a condition has occurred, if any, as described in the applicable Offering Circular Supplement, representing the Affected Share will be accounted by the Calculation Agent for its fair market value determined at any time as from the date of occurrence of such Insolvency until the last Valuation Date or the last Averaging Date. The determination of the fair market value shall depend upon the liquidity of the market and the trading conditions relating to the Share affected at the time of calculation;
 - (3) to apply Monetisation until the Maturity/Expiration Date; or
 - (4) to apply Early Redemption/Cancellation, and
- (F) in respect of a Participation Event from the effective date of such event until the sixtieth Business Day thereafter, the Calculation Agent may, but is not obliged to, select a Substitute Share or Substitute ADR for the Affected Share pursuant to the Method of Substitution.
- (iii) Notwithstanding anything herein to the contrary, the Calculation Agent shall use its reasonable endeavours at all times to maintain the original number of companies in the Basket as Companies hereunder.

Definitions applicable to this Part 2 - 1(b):

“Alternative Obligation” means:

- (i) if, in respect of a Share-for-Share Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the relevant Merger Date the New Shares and the issuer of such New Shares will be deemed the Shares and the Company, respectively, and, if necessary, the Calculation Agent will adjust any relevant terms of the Securities on the basis of the number of New Shares (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of Shares immediately prior to the occurrence of the Merger Event would be entitled upon consummation of the Merger Event;
- (ii) if, in respect of a Share-for-Other Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the relevant Merger Date, the Calculation Agent will adjust any relevant terms of the Securities on the basis of the amount of Other Consideration (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of Shares would be entitled upon consummation of the Merger Event and, if necessary, any relevant terms of the Securities; and
- (iii) if, in respect of a Share-for-Combined Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the Merger Date the New Shares and the Other Consideration will be deemed the “**Shares**” and the issuer of the New Shares will be deemed the “**Company**” respectively, and, if necessary, the Calculation Agent will adjust any relevant terms of the Securities on the basis of the number of New Shares and the amount of Other Consideration (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of Shares would be entitled upon consummation of the Merger Event,

“Combined Consideration” means New Shares in combination with Other Consideration;

“De-listing Event” means, in respect of a Share, that such Share (a) ceases to be listed, traded or publicly quoted on the relevant Exchange or listing compartment of the relevant Exchange (for any reason other than a Merger Event or a tender offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any Member State of the European Union) or; (b) has its listing, trading or public quotation maintained in inappropriate conditions in the opinion of the Calculation Agent (such conditions to include, without limitation, a lack of liquidity or the disappearance of the relevant futures and/or option contract of the relevant Share);

“De-merger Event” means, in respect of any Share, that the Company relevant to such Share is affected by a de-merger including, without limitation, a spin-off, scission or any operation of a similar nature;

“De-merger Date” means the date on which a De-merger Event becomes effective;

“Early Redemption/Cancellation” means that there will be an early redemption of the Notes or a cancellation of the Warrants, as the case may be, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be;

“Fixing Period” means the period, subject to a maximum of ten Exchange Business Days, which shall expire no later than 90 Business Days following the Merger Date, the De-merger Date or the effective date of the De-listing Event, Nationalisation, Insolvency or Participation Event, during which:

- (i) the Hedge Entity sells the Affected Shares, the New Shares and/or the Other Consideration, (as the case may be), on the basis of the weighted average of the closing prices of the relevant assets traded by the Hedge Entity with regards to the relevant Securities, as observed during such Fixing Period; and
- (ii) the proceeds of such sale are re-invested in the Substitute Shares, Substitute ADR, Substitute GDR and/or New Shares accordingly during the said Fixing Period on the basis of the weighted average of the closing prices of such Substitute Shares, Substitute ADR, Substitute GDR and/or New Shares traded by the Hedge Entity with regards to the relevant Securities, as observed during such Fixing Period,

“Insolvency” means, in respect of a Company, voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of, or any analogous proceeding affecting, such Company, as determined in good faith by the Calculation Agent;

“Merger Date” means, in respect of a Share, the date upon which holders of the necessary number of the relevant Shares (other than, in the case of a takeover offer, Shares owned or controlled by the offeror) to constitute a Merger Event have agreed or have irrevocably become obliged to transfer their Shares;

“Merger Event” means, in respect of any Share:

- (i) any reclassification or change of such Share (including the change of currency reference of the Share) that results in a transfer of or an irrevocable commitment to transfer all of such Share outstanding to another entity or person;

that results in a transfer of or an irrevocable commitment to transfer all or part of such Shares (other than any of such Shares owned or controlled by the offeror);

- (iv) any consolidation, amalgamation, merger or binding share exchange of the relevant Company or its subsidiaries with or into another entity in which such Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such event; or
- (v) any takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant,

“Method of Substitution” means that in the case of a Merger Event, De-merger Event, De-listing Event, Nationalisation, Insolvency or Participation Event (regardless of the consideration to be received), in respect of an Affected Share, the Calculation Agent may consider that the Affected Share, the New Shares and/or all or part of the Other Consideration (as the case may be) is/are converted into cash and that the proceeds will be reinvested either (a) into a new share, an American depositary receipt or a global depositary receipt of the same economic sector or into a share, an American depositary receipt or a global depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share (the **“Substitute Share”**, the **“Substitute ADR”** or the **“Substitute GDR”**, as the case may be) or (b) in the case of Combined Consideration, into New Shares. In the event of Other Consideration to be received in cash, in the future the Calculation Agent may consider that the cash to be received in the future is discounted in order to immediately re-invest the proceeds then procured in accordance with (a) and (b) above;

The sale of the Affected Share, the New Shares and/or the Other Consideration shall be deemed to take place during the Fixing Period. The Substitute Share, the Substitute ADR or the Substitute GDR, as the case may be and the company issuing such Substituted Share (or, in the case of an American depositary receipt or global depositary receipt, the company issuing the deposited securities related to such American depositary receipt or global depositary receipt, as applicable) will be deemed a **“Share”** and the **“Company”** respectively, and the Calculation Agent will adjust any relevant terms of the Securities;

For information purposes, it is understood that in all cases described herein where a Share is substituted, on any date “t”, with a Substitute Share, Substitute ADR or Substitute GDR, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Offering Circular Supplement, shall not be affected by the substitution on such date “t” in respect of the Substitute Share, Substitute ADR or Substitute GDR and would mean the closing price of such Substitute Share, Substitute ADR or Substitute GDR on the relevant Exchange on the date “t” is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share on such date “t”;

“Nationalisation” means that all the Shares or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;

“New Shares” means shares or American depositary receipts (whether of the offeror or a third party) that are listed or quoted on a recognised exchange involved in the application of Method of Substitution or Alternative Obligation as determined by the Calculation Agent;

“Offering Period” means the period from and including the date on which the Merger Event, the De-listing Event, the De-merger Event, the Insolvency, the Nationalisation or the Participation Event is publicly and officially announced to but excluding the Merger Date or the De-merger Date or the effective date of the De-listing Event, the Insolvency, the Nationalisation or the Participation Event;

“Other Consideration” means cash and/or any securities (other than New Shares) or assets (whether of the offeror or a third party);

“Participation Event” means that a Company (whose Shares form part of a Basket) takes a stake exceeding 20 per cent. of another Company whose Shares (which shall be the Affected Share in respect of such Participation Event) also form part of the Basket;

“Share-for-Combined Merger Event” means, in respect of a Merger Event, that the consideration for the relevant Shares consists of Combined Consideration;

“Share-for-Other Merger Event” means, in respect of a Merger Event, that the consideration for the relevant Shares consists solely of Other Consideration; and

“Share-for-Share Merger Event” means, in respect of a Merger Event, that the consideration for the relevant Shares consists (or, at the option of the holder of such Shares, may consist) solely of New Shares.

(c) Stop-Loss Event relating to a Share

If on any Exchange Business Day between the initial Valuation Date (excluded) and the last Valuation Date (included), the Closing Price of a Share is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **“Affected Share”** and the event, the **“Stop-Loss Event”**), then:

- (i) the Calculation Agent may decide to substitute the Affected Share by a new share or American depositary receipt or global depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share (the **“Substitute Share”**, **“Substitute ADR”** or **“Substitute GDR”** as the case may be) and will adjust any relevant terms of the Securities accordingly;
- (ii) the Calculation Agent may decide to continue with the Affected Share; or
- (iii) if the Calculation Agent has neither retained any Substitute Share, Substitute ADR or Substitute GDR nor decided to continue with the Affected Share or the Calculation Agent may either
 - (A) apply Monetisation until the Maturity Date or Expiration Date; or
 - (B) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, and in that case, the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be.

For information purposes, it is understood that in all cases described herein where a Share is substituted, on any date “t”, with a Substitute Share, Substitute ADR or Substitute GDR, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Offering Circular Supplement, shall not be affected by the substitution on such date “t” in respect of the Substitute Share, Substitute ADR or Substitute GDR and would mean that the closing price of such Substitute Share, Substitute ADR or Substitute GDR on the relevant Exchange

on the date “t” is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share on such date “t”.

(d) Correction of the Closing Price of a Share

In the event that any price or level published on the Exchange and which is utilised for any calculation or determination made under the Securities is subsequently corrected and the correction is published and made available to the public by the Exchange after the original publication but no later than (i) in the case of Notes, four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Offering Circular Supplement) or (ii) in the case of Warrants, the earlier of (x) the Actual Exercise Date in respect of any Warrant and (y) the fourth Business Day prior to the Expiration Date, the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Securities to account for such correction.

2. Monetisation until the Maturity/Expiration Date

(a) Monetisation until the Maturity Date (in respect of Notes only)

Following the occurrence of an event giving rise to Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (A) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (B) the Optional Redemption Amount on the Optional Redemption Date and/or (C) the Final Redemption Amount as defined in the applicable Offering Circular Supplement on the Maturity Date, but instead will, in full and final satisfaction of its obligations pay an amount described in sub-paragraphs (i), (ii) and/or (iii) below:

(i) Monetisation of any Intermediate Amount

- (A) *In respect of the payment of any Intermediate Amount as defined in the applicable Offering Circular Supplement which could be as low as zero*

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay (a) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (1) (1) the net positive cash amount that the Hedge Entity would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and
- (2) an amount equal to the Minimum Intermediate Amount,

for the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; and/or

(ii) ***Monetisation of any Optional Redemption Amount***

- (A) *In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (B) *In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Offering Circular Supplement will in all circumstances be a positive amount (the “**Optional Minimum Redemption Amount**”)*

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay:

- (1) (a) on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between: (1) the net positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating, the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and
- (2) an amount equal to the Optional Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero,

(iii) ***Monetisation of the Final Redemption Amount***

- (A) *In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Hedge Positions shall be deemed to be used in priority to

extinguish any liability, if any, incurred by the Hedge Entity under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (a) the Minimum Redemption Amount and (b) an amount, equal to the positive difference, if any, between:

- (1) (1) the net positive cash amount that the Hedge Entity would be left with on the Full Liquidation Date, as a result of liquidating, the Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and
- (2) an amount equal to the Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

(b) Monetisation until the Expiration Date (in respect of Warrants only)

If, in relation to Warrants only, “Issuer Call Option” is specified as being applicable in the Offering Circular Supplement of the relevant Warrants:

Following the occurrence of an event giving rise to Monetisation until the Expiration Date, the Issuer shall no longer be liable for the payment of (A) the Optional Cancellation Amount on the Optional Cancellation Date and/or (B) the Settlement Amount as defined in the applicable Offering Circular Supplement on the Expiration Date, but instead will, in full and final satisfaction of its obligations pay an amount as described in sub-paragraph (i) and (ii) below:

(i) Monetisation of an Optional Cancellation Amount

- (A) *In respect of the cancellation of Warrants whose Optional Cancellation Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

(a) Hedging Disruption, Increased Cost of Hedging and Insolvency Filing and consequences

“Hedging Disruption” means, in respect of Securities that have one or more Share(s) as Underlying(s), that the Hedge Entity is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of the Issuer entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by

the Issuer in relation to the Securities or (b) freely realise, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the “**Affected Jurisdiction**”) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction;

“**Increased Cost of Hedging**” means, in respect of Securities that have one or more Share(s) as Underlying(s), that the Hedge Entity would incur a materially increased (as compared with circumstances existing on the date(s) on which the Hedge Entity enters into the Hedge Positions in respect of the Securities) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities or (b) freely realise, recover or remit the proceeds of its Hedge Positions;

“**Insolvency Filing**” means, in respect of Securities that have one or more Share(s) as Underlying(s) that the Company institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors’ rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the Company shall not be deemed an Insolvency Filing;

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to a Share or of the occurrence of an Insolvency Filing relating to a Share (the “**Affected Underlying**”), the Calculation Agent may:

- (i) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be; or
- (ii) replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or

Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

- (B) in respect of Notes only and in the absence of any Interest Amount, (a) from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note, whichever comes first, and (b) in the absence of any Intermediate Amount, Instalment Amount, Optional Redemption Amount or Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero); or
- (C) in respect of Warrants only, (a) from the Optional Cancellation Amount (if any) or the Cancellation Amount (if any) due under one Warrant, whichever comes first, and (b) in the absence of any Optional Cancellation Amount or Cancellation Amount in respect of the Warrants, from the Settlement Amount due under one Warrant on the Settlement Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, the Calculation Agent will decide either to:

- (i) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be; or

“**Scheduled Closing Time**” means, in respect of an Exchange or Related Exchange, the scheduled weekday closing time of such Exchange or Related Exchange, without regard to after hours or any other trading outside of the regular trading session hours;

“**Scheduled Trading Day**” means:

- (i) in respect of a Share, an ADR or a GDR (or, in the case of a Basket of Shares, ADR or GDR, in respect of any Share, ADR or GDR comprising the Basket and observed separately), any day on which each Exchange and each Related Exchange, if any, are scheduled to be open for trading for their respective regular trading session; and
- (ii) in respect of an Index, any day on which (a) the Index Sponsor is scheduled to publish the Closing Price of the Index and (b) the Related Exchange is scheduled to be open for trading during its regular trading session,

“Valuation Date” means, in respect of a Share, an ADR, a GDR or an Index, each date specified as such in the applicable Offering Circular Supplement (or, if such date is not a Scheduled Trading Day for such Share, ADR, GDR or Index, the next following Scheduled Trading Day), unless such day is a Disrupted Day in which case it shall be postponed pursuant to the provisions of Part 1 – (c) below; and

“Valuation Time” means, in respect of a Share, an ADR, a GDR or an Index, the Scheduled Closing Time, provided however that if the Exchange closes prior to its Scheduled Closing Time, the Valuation Time shall be the actual closing time of the Exchange.

(c) Consequences of Disrupted Days for a Share, an ADR, a GDR or an Index

If any Valuation Date or Averaging Date specified in the applicable Offering Circular Supplement (the **“Scheduled Valuation Date”** and the **“Scheduled Averaging Date”** respectively), is a Disrupted Day for a Share, an ADR, a GDR or an Index, the Valuation Date or the Averaging Date (as the case may be) for such Share, ADR, GDR or Index shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of that Share, ADR, GDR or Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or the Scheduled Averaging Date is also a Disrupted Day. In that case, that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date (as the case may be), for the Share, ADR, GDR or Index notwithstanding the fact that such day is a Disrupted Day.

Provided that if the Share, ADR, GDR or Index is included in a Basket, the above provisions shall apply only to the Share, ADR, GDR or Index affected by the occurrence of a Disrupted Day and the Valuation Date or the Averaging Date for each Share, ADR, GDR or Index not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date,

provided however that,

- (i) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date);
- (ii) notwithstanding the foregoing, in respect of any Securities, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made in respect of such Securities on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made in respect of such Securities on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date.

PART 2 – ADJUSTMENTS AND EXTRAORDINARY EVENTS RELATING TO DIVIDENDS - MONETISATION UNTIL THE MATURITY/EXPIRATION DATE - HEDGING DISRUPTION,

INCREASED COST OF HEDGING, INSOLVENCY FILING AND CONSEQUENCES - CHANGE IN LAW AND CONSEQUENCES

1. Adjustments and Extraordinary Events

(a) Potential Adjustment Events relating to Shares, ADR or GDR

“**Potential Adjustment Event**” means, in relation to a Share, any of the following:

- (i) a subdivision, consolidation or reclassification of such Share (unless resulting in a Merger Event), including, for the avoidance of doubt, a stock split or reverse stock split, or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of such Share of (a) such Shares, (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Shares, (c) share capital, other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;
- (iii) an extraordinary dividend as determined by the Calculation Agent;
- (iv) a call by the Company in respect of Shares that are not fully paid;
- (v) a repurchase by the Company or any of its subsidiaries of Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- (vii) any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the Shares.

With respect to an ADR, or a GDR, references to “*Share*” in the definition of “*Potential Adjustment Event*” above refer to the deposited securities underlying such ADR or GDR, as applicable.

(b) Adjustments

- (i) *Adjustments in relation to an Index the components of which are used to determine the amounts due under Securities indexed on Dividends*

If an event occurs affecting the Index the components of which are used to determine the amounts due under Securities indexed on Dividends (the “**Event**”) which in the determination of the Calculation Agent has a material effect on the amounts due under the Securities, then the Calculation Agent shall either:

- (A) adjust any terms of the Securities it determines appropriate, in order to take into account the economic effect on the Securities of such event; or
- (B) replace the Index by a new index, provided that such index is (a) representative of the same economic or geographic sector (as the case may be) and (b) to the extent

possible, representative of shares listed on one or more Exchanges of one or more OECD countries;

- (C) consider such event as an Event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be, and then the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the Event, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be; or
 - (D) apply Monetisation until the Maturity Date (as defined below).
- (ii) *Adjustments in relation to a Share, ADR or GDR the dividend of which is used to determine the amounts due under Securities indexed on Dividends*

If an Extraordinary Event (as defined in Part 2 – 1(c) below) occurs affecting the Share, ADR or GDR (the “**Affected Share**”, the “**Affected ADR**” or the “**Affected GDR**”) the dividend of which is used to determine the amounts due under Securities indexed on Dividends, then the Calculation Agent shall either:

- (A) adjust any terms of the Securities it determines appropriate, in order to take into account the economic effect on the Securities of such event; or
- (B) replace the Affected Share, the Affected ADR or the Affected GDR by the resulting share or by a new share or ADR which related deposited securities were issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share, the Affected ADR or the Affected GDR;
- (C) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as applicable and then the Issuer shall terminate its obligations under the Notes or the Warrants and pay to each Noteholder or Warrantholder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount or the Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be; or
- (D) apply Monetisation until the Maturity Date (as defined below).

If a Potential Adjustment Event (as defined in Part 2 – 1(a) above) occurs affecting the Share, ADR or GDR (the “**Affected Share**”, the “**Affected ADR**” or the “**Affected GDR**”) the dividend of which is used to determine the amounts due under Securities indexed on Dividends, then the Calculation Agent will, subject to the provisions of the last paragraph of the definition “*Dividend*” in Part 1 – (a) above, adjust any terms of the Securities, it determines appropriate, in order to take into account the economic effect on the Securities of such event.

(c) Extraordinary Events

- (i) Extraordinary Events relating to Shares, ADR or GDR

“**Extraordinary Events**” means, in relation to a Share, an ADR or a GDR, the occurrence of (A) a De-listing Event, (B) a De-merger Event, (C) an Insolvency, (D) a Merger Event, (E) a Nationalization or (F) a Participation Event. For the purpose hereof:

- (A) “**De-listing Event**” means, in respect of a Share, an ADR or a GDR, that such Share, ADR or GDR (or deposited securities related to such ADR or GDR): (a) ceases to be listed, traded or publicly quoted on the relevant Exchange or listing compartment of the relevant Exchange (for any reason other than a Merger Event

or a tender offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any Member State of the European Union) or (b) has its listing, trading or public quotation maintained in inappropriate conditions in the opinion of the Calculation Agent (such conditions to include, without limitation, a lack of liquidity or the disappearance of the relevant futures and/or option contract of the relevant Share) or (c) with respect to an ADR or a GDR, the related deposit agreement is terminated;

- (B) **“De-merger Event”** means, in respect of any Share, ADR or a GDR, that the Company relevant to such Share, ADR or GDR is affected by a de-merger including, without limitation, a spin off, scission or any operation of a similar nature;

- (D) **“Merger Event”** means, in respect of any Share:
 - (1) any reclassification or change of such Share (including the change of currency reference of the Share) that results in a transfer of or an irrevocable commitment to transfer all of such Share outstanding to another entity or person;
 - (2) any consolidation, amalgamation, merger or binding share exchange of the relevant Company with or into another entity (other than a consolidation, amalgamation or merger in which such Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding);
 - (3) other takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares that results in a transfer of or an irrevocable commitment to transfer all or part of such Shares (other than any of such Shares owned or controlled by the offeror);
 - (4) any consolidation, amalgamation, merger or binding share exchange of the relevant Company or its subsidiaries with or into another entity in which such Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such event; or
 - (5) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant,
- (E) **“Nationalisation”** means that all the Shares or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be

With respect to an ADR issued pursuant to a deposit agreement references to “**Share**” in this definition refer to the deposited securities underlying such ADR or GDR, as applicable.

(d) Extraordinary Events relating to Dividends

(i) “Failure to Publish”

If during the Dividend Period, the Index Sponsor fails (for whatever reason including, without limitation, the occurrence of a Market Disruption Event) to calculate and publish the number of free-float shares in respect of any Share or the Official Index Divisor, then the Calculation Agent shall determine the number of free-float shares in respect of such Share or ADR or GDR or the Official Index Divisor (as the case may be).

In making any such determination, the Calculation Agent may (but shall not be obliged to) make reference to the formula for and method of calculating the number of free-float shares or the Official Index Divisor (as the case may be) last in effect prior to the failure by the Index Sponsor to make the relevant calculation or publication.

(ii) “Dividend Recovery”

If (a) the amount actually paid or delivered by an issuer to holders of record of the relevant Share, ADR or GDR in respect of any Dividend declared by such issuer (a “**Declared Dividend**”) to holders of record of such Share, ADR or GDR is not equal to such Declared Dividend (a “**Dividend Mismatch Event**”); or (b) such issuer fails to make any payment or delivery in respect of such Declared Dividend by the third Business Day following the relevant due date, then the Calculation Agent may (but shall not be obliged to) determine any appropriate adjustment to be made to account for such correction or subsequent publication, together with interest, on any amount subsequently due under the Securities.

(iii) “Corrections”

In the event that an Official Index Divisor or number of free floating shares calculated and published by the Index Sponsor (or determined by the Calculation Agent pursuant to the provisions above relating to Part 2 – 1(d)(i) above) and utilised for any calculation or determination made in respect of the Securities is subsequently corrected (or, where there has been a Failure to Publish, published by the Index Sponsor) and the correction is published (or, where there has been a Failure to Publish, publication is made) by the Index Sponsor within five Scheduled Trading Days after the original publication, the Calculation Agent will adjust the Dividend, as required, to take into account such correction, provided that such correction or subsequent publication occurs no later than (i) in the case of Notes, four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Offering Circular Supplement) or (ii) in the case of Warrants, the earlier of (x) the Actual Exercise Date in respect of any Warrant and (y) the fourth Business Day prior to the Expiration Date.

2. Monetisation until the Maturity/Expiration Date

(a) Monetisation until the Maturity Date (in respect of Notes only)

Following the occurrence of an event giving rise to Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (A) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (B) the Optional Redemption Amount on the

Optional Redemption Date and/or (C) the Final Redemption Amount on the Maturity Date, but instead will, in full and final satisfaction of its obligations pay an amount described in subparagraphs (i), (ii) and/or (iii) below.

(i) ***Monetisation of any Intermediate Amount***

- (A) *In respect of the payment of any Intermediate Amount as defined in the applicable Offering Circular Supplement which could be as low as zero*

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (B) *In respect of the payment of any Intermediate Amount as defined in the applicable Offering Circular Supplement which will in all circumstances be a positive amount (the “**Minimum Intermediate Amount**”)*

- (1) (1) the net positive cash amount that the Hedge Entity would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and

(b) Monetisation until the Expiration Date (in respect of Warrants only)

- (i) If, in relation to Warrants only, “Issuer Call Option” is specified as being applicable in the Offering Circular Supplement of the relevant Warrants:

Following the occurrence of an event giving rise to Monetisation until the Expiration Date, the Issuer shall no longer be liable for the payment of (A) the Optional Cancellation Amount on the Optional Cancellation Date and/or (B) the Settlement Amount on the Expiration Date, but instead will, in full and final satisfaction of its obligations pay an amount described in sub-paragraphs (i) and (ii) below.

(a) Hedging Disruption, Increased Cost of Hedging and Insolvency Filing and consequences

“Hedging Disruption” means, in respect of Securities that have one or more Dividend(s) as Underlying(s), that the Hedge Entity is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of the Issuer entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities or (b) freely realise, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the

jurisdiction of the Hedge Positions (the “**Affected Jurisdiction**”) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction;

“**Increased Cost of Hedging**” means, in respect of Securities that have one or more Dividend(s) as Underlying(s), that the Hedge Entity would incur a materially increased (as compared with circumstances existing on the date(s) on which the Hedge Entity enters into the Hedge Positions in respect of the Securities) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities or (b) freely realise, recover or remit the proceeds of its Hedge Positions;

“**Insolvency Filing**” means, in respect of Securities that have one or more Dividend(s) as Underlying(s) that the Company institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors’ rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the Company shall not be deemed an Insolvency Filing;

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to Dividend(s) or of the occurrence of an Insolvency Filing relating to Dividend(s) (the “**Affected Underlying**”), the Calculation Agent may:

- (i) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be; or
- (ii) replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- (iii) apply Monetisation until the Maturity Date or Expiration Date; or
- (iv) only in the case of Increased Cost of Hedging, deduct:
 - (A) in respect of Notes only, from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by the Hedge Entity, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the “**Reduction Amount**”); provided however that if on an Interest Payment Date on which a Reduction Amount would otherwise be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest

Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

- (B) in respect of Notes only and in the absence of any Interest Amount, (a) from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note, whichever comes first, and (b) in the absence of any Intermediate Amount, Instalment Amount, Optional Redemption Amount or Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero); or
- (C) in respect of Warrants only, (a) from the Optional Cancellation Amount (if any) or the Cancellation Amount (if any) due under one Warrant, whichever comes first, and (b) in the absence of any Optional Cancellation Amount or Cancellation Amount in respect of the Warrants, from the Settlement Amount due under one Warrant on the Settlement Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

(b) Change in Law and consequences

“**Change in Law**” means, in respect of Securities that have one or more Dividend(s) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Securities (i) due to the adoption of any change in any applicable law or regulation (including, without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority) or the combined effect thereof if occurring more than once, the Calculation Agent determines in good faith that it has become illegal for the Issuer or the Hedge Entity to hold, acquire or dispose of Hedge Positions (as defined in Part 1 – (a) above) or to maintain any agreement entered into with the Hedge Entity by the Issuer of the Securities, relating to the Underlying of the Securities (the “**Affected Underlying**”);

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, then the Calculation Agent will decide either to:

- (i) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be;
- (ii) replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or

- (iii) apply Monetisation until the Maturity Date or Expiration Date.

The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Agents and the Holders, in the absence of manifest error or proven error.

“Disrupted Day” means, in respect of an ADR or a GDR (or, in the case of a Basket of ADR and/or GDR, in respect of any ADR and/or GDR comprising the Basket and observed separately), any Scheduled Trading Day on which (a) a relevant Exchange or Related Exchange fails to open for trading during its regular trading session or (b) a Market Disruption Event has occurred;

For the purpose hereof:

- (i) **“Trading Disruption”** means, in respect of an ADR or a GDR and the Deposited Securities relating to such ADR or GDR, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (a) relating to the ADR or GDR or the Deposited Securities relating to such ADR on the Exchange or (b) in futures or options contracts relating to the ADR or GDR or the Deposited Securities relating to such ADR or GDR on any relevant Related Exchange;

“Scheduled Closing Time” means, in respect of an Exchange or Related Exchange, the scheduled weekday closing time of such Exchange or Related Exchange, without regard to after hours or any other trading outside of the regular trading session hours;

shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of that ADR or GDR, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or the Scheduled Averaging Date is also a Disrupted Day. In that case:

- (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date (as the case may be), for the ADR or GDR notwithstanding the fact that such day is a Disrupted Day; and
- (ii) the Calculation Agent shall determine its good faith estimate of the value of the ADR or GDR as of the Valuation Time on that eighth Scheduled Trading Day and the good faith estimate of the value of the ADR or GDR so calculated shall be deemed the Closing Price.

Provided that if the ADR or GDR is included in a Basket, the above provisions shall apply only to the ADR or GDR affected by the occurrence of a Disrupted Day and the Valuation Date or the Averaging Date for each ADR or GDR not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date,

provided however that:

- (A) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in Part 1 – (c)(ii) above, and the good faith estimate of the value of the ADR or GDR so calculated shall be deemed the Closing Price;
- (B) notwithstanding the foregoing in respect of any Securities, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made in respect of such Securities on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made in respect of such Securities on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in Part 1 – (c)(ii) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the value of the ADR or GDR so calculated shall be deemed the Closing Price.

PART 2 – ADJUSTMENTS AND EXTRAORDINARY EVENTS - MONETISATION UNTIL THE MATURITY/EXPIRATION DATE, HEDGING DISRUPTION, INCREASED COST OF HEDGING, INSOLVENCY FILING AND CONSEQUENCES - CHANGE IN LAW AND CONSEQUENCES

1. Adjustments and Extraordinary Events

(a) Potential Adjustment Events

“Potential Adjustment Event” means, in relation to an ADR or a GDR, any of the following:

- (i) a subdivision, consolidation or reclassification of the Deposited Securities underlying such ADR or GDR (unless resulting in a Merger Event), including, for the avoidance of doubt, a

stock split or reverse stock split, or a free distribution or dividend of any such Deposited Securities to existing holders by way of bonus, capitalisation or similar issue;

- (ii) a distribution, issue or dividend to existing holders of the Deposited Securities underlying such ADR or GDR of (a) such Deposited Securities, (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Deposited Securities, (c) share capital, other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;
- (iii) an extraordinary dividend as determined by the Calculation Agent;
- (iv) a call by the Company in respect of Deposited Securities underlying such ADR or GDR that are not fully paid;
- (v) a repurchase by the Company or any of its subsidiaries of Deposited Securities underlying such ADR or GDR whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- (vii) any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the Deposited Securities that affects theoretical value of the ADR or GDR.

Following the occurrence of any Potential Adjustment Event as defined above, the Calculation Agent will, as soon as reasonably practicable after it becomes aware of such event determine whether such Potential Adjustment Event has a diluting or concentrative effect on the Deposited Securities that affects the theoretical value of the ADR or GDR.

An event that has a diluting or concentrative effect on the Deposited Securities will affect the theoretical value of the ADR or GDR unless (and to the extent that) the Company or the Depositary, pursuant to its authority (if any) under the Deposit Agreement, elects to adjust the number of the Deposited Securities that are represented by each ADR or GDR such that the price of the ADR or GDR will not be affected by any such event (as determined by the Calculation Agent), in which case the Calculation Agent will make no adjustment. If the Company or the Depositary elects not to adjust the number of Deposited Securities that are represented by an ADR or a GDR or makes an adjustment that the Calculation Agent determines not to have been adequate, then the Calculation Agent may, in its discretion, make the necessary adjustment to the elements relating to the Underlying used to determine any settlement or payment terms under the Securities and/or any other terms of the Securities as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Securities and determine the effective date of that adjustment. The Depositary may also have the ability pursuant to the Deposit Agreement to make adjustments in respect of the ADR or GDR for share distributions, rights distributions, cash distributions and distributions other than shares, rights and cash. Upon any such adjustment by the Depositary, the Calculation Agent may, in its discretion, make the necessary adjustments as the Calculation Agent deems appropriate to account for such event.

In its determinations of the existence and extent of any dilutive or concentrative effect on the Deposited Securities that affects the theoretical value of the ADR or GDR of any Potential

Adjustment Event, and any related adjustments to the terms of the Securities, the Calculation Agent shall take into account any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Potential Adjustment Event. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options on the Deposited Securities traded on such Related Exchange.

Definitions applicable to this Part 2 – 1(a):

“**Local Taxes**” shall mean taxes, duties, and similar charges imposed by the taxing authority of the country in which the Company has been incorporated or in which the Exchange on which the Deposited Securities are listed is located; and

“**Offshore Investor**” shall mean a holder of Deposited Securities who is an institutional investor not resident in the country in which the Company has been incorporated or in which the Exchange on which the Deposited Securities are listed is located (the “**Local Jurisdiction**”), for the purposes of the tax laws and regulations of the Local Jurisdiction and, for the avoidance of doubt, whose jurisdiction of residence (a) shall be determined by the Calculation Agent and (b) may be the jurisdiction of Société Générale or any of its affiliates.

(b) Extraordinary Events

- (i) Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of the opening of an Offering Period relating to a Merger Event, a De-merger Event, a De-listing Event, an Insolvency, a Nationalisation or a Participation Event, in respect of an ADR or a GDR (an “**Affected ADR**” or an “**Affected GDR**”), then during such Offering Period, the Calculation Agent may decide in good faith to apply Method of Substitution with respect to the Affected ADR or Affected GDR.
- (ii) If the Calculation Agent decides not to apply Method of Substitution during the Offering Period with respect to the Affected ADR or Affected GDR, then:
 - (A) in respect of a Merger Event, from the Merger Date, and/or upon consummation of the Merger Event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, shall apply either:
 - (1) Share-for-Share Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity or Expiration Date, or Early Redemption/Cancellation;
 - (2) Share-for-Other Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity or Expiration Date, or Early Redemption/Cancellation; or
 - (3) Share-for-Combined Merger Event: Alternative Obligation and/or Method of Substitution or Monetisation until the Maturity or Expiration Date, or Early Redemption/Cancellation,
 - (B) in the case of a Merger Event affecting two ADR or GDR comprised in a Basket, the Calculation Agent will either:

The determination of the fair market value shall depend upon the liquidity of the market and the trading conditions relating to the ADR or GDR affected at the time of calculation;

Definitions applicable to this Part 2 – 1(b):

“Alternative Obligation” means:

- (ii) the proceeds of such sale are re-invested in the Substitute Shares, Substitute ADR, the Affected GDR, and/or New Shares accordingly during the said Fixing Period on the basis of the weighted average of the closing prices of such Substitute Shares, Substitute ADR, the Affected GDR, and/or New Shares traded by the Hedge Entity with regards to the relevant Securities, as observed during such Fixing Period,

“Merger Event” means, in respect of any ADR or GDR issued pursuant to a Deposit Agreement:

- (v) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the

Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant,

“Method of Substitution” means that in the case of a Merger Event, De-merger Event, De-listing Event, Nationalisation, Insolvency or Participation Event (regardless of the consideration to be received), in respect of an Affected ADR or an Affected GDR, the Calculation Agent may consider that the Affected ADR or the Affected GDR, the New Shares and/or, all or part of the Other Consideration (as the case may be) is/are converted into cash and that the proceeds will be reinvested either (a) into a share or a new American depositary receipt or a new global depositary receipt of the same economic sector or into a share or an American depositary receipt or a global depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected ADR or the Affected GDR (the **“Substitute Share”** or the **“Substitute ADR”** or the **“Affected GDR”**, as the case may be) or (b) in the case of Combined Consideration into New Shares. In the event of Other Consideration to be received in cash, in the future, the Calculation Agent may consider that the cash to be received in the future is discounted in order to immediately re-invest the proceeds then procured in accordance with (a) and (b) above.

The sale of the Affected ADR, the Affected GDR, the New Shares and/or the Other Consideration shall be deemed to take place during the Fixing Period. The Substitute Share or the Substitute ADR or the Substitute GDR, as the case may be, and the company issuing such Substituted Share (or, in the case of an ADR or a GDR, the company issuing the Deposited Securities related to such ADR or GDR) will be deemed an **“ADR”** or a **“GDR”** and the **“Company”** respectively, and the Calculation Agent will adjust any relevant terms of the Notes.

For information purposes, it is understood that in all cases described herein where an ADR or a GDR is substituted, on any date “t”, with a Substitute Share or Substitute ADR or Substitute GDR, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Offering Circular Supplement, shall not be affected by the substitution on such date “t” in respect of the Substitute Share or Substitute ADR or Substitute GDR and would mean the closing price of such Substitute Share or Substitute ADR or Substitute GDR on the relevant Exchange on the date “t” is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected ADR or the Affected GDR on such date “t”.

“Nationalisation” means that all the Deposited Securities related to an ADR or a GDR or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;

“New Shares” means shares or ADR or GDR (whether of the offeror or a third party) that are listed or quoted on a recognised exchange involved in the application of Method of Substitution or Alternative Obligation as determined by the Calculation Agent;

“Offering Period” means the period from and including the date on which the Merger Event, the De-listing Event, the De-merger Event, the Insolvency, the Nationalisation or the Participation Event is publicly and officially announced to but excluding the Merger Date or the De-merger Date or the effective date of the De-listing Event, the Insolvency, the Nationalisation or the Participation Event;

“Share-for-Share Merger Event” means, in respect of a Merger Event, that the consideration for the relevant ADR or GDR consists (or, at the option of the holder of such ADR, may consist) solely of New Shares.

(c) Stop-Loss Event relating to an ADR or a GDR

If on any Exchange Business Day between the initial Valuation Date (excluded) and the last Valuation Date (included), the Closing Price of an ADR or a GDR is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **“Affected ADR”** or the **“Affected GDR”** and the event, the **“Stop-Loss Event”**), then:

- (i) the Calculation Agent may decide to substitute the Affected ADR or the Affected GDR by a new share or American depositary receipt or global depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected ADR (the **“Substitute Share”** or **“Substitute ADR”** or **“Substitute GDR”**, as the case may be) and will adjust any relevant terms of the Notes accordingly;
- (ii) the Calculation Agent may decide to continue with the Affected ADR or the Affected GDR; or
- (A) if the Calculation Agent has neither retained any Substitute Share or Substitute ADR or Substitute GDR nor decided to continue with the Affected ADR or the Affected GDR, the Calculation Agent may either:
 - (1) apply Monetisation until the Maturity Date or Expiration Date; or
 - (2) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (Technical Annex Redemption) or Condition 24(d) (Technical Annex Cancellation) of the Conditions of the Securities, as the case may be.

For information purposes, it is understood that in all cases described herein where an ADR or a GDR is substituted, on any date “t”, with a Substitute Share or Substitute ADR or Substitute GDR, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Offering Circular Supplement, shall not be affected by the substitution on such date “t” in respect of the Substitute Share or Substitute ADR or Substitute GDR and would mean that the closing price of such Substitute Share or Substitute ADR or Substitute GDR on the relevant Exchange on the date “t” is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected ADR or the Affected GDR on such date “t”.

(d) Correction of the Closing Price of an ADR or a GDR

In the event that any price or level published on the Exchange and which is utilised for any calculation or determination made under the Securities is subsequently corrected and the correction is published and made available to the public by the Exchange after the original publication but no later than (i) in the case of Notes, four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Offering Circular Supplement) or (ii) in the case of Warrants, the earlier of (x) the Actual Exercise Date in respect of any Warrant and (y) the fourth Business Day prior to the Expiration Date, the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Securities to account for such correction.

2. Monetisation until the Maturity/Expiration Date

(a) **Monetisation until the Maturity Date (in respect of Notes only)**

Following the occurrence of an event giving rise to Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (A) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (B) the Optional Redemption Amount on the Optional Redemption Date and/or (C) the Final Redemption Amount as defined in the applicable Offering Circular Supplement on the Maturity Date, but instead will, in full and final satisfaction of its obligations pay an amount described in sub-paragraphs (i), (ii) and/or (iii).

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (B) *In respect of the payment of any Intermediate Amount as defined in the applicable Offering Circular Supplement which will in all circumstances be a positive amount (the “**Minimum Intermediate Amount**”)*

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay (a) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (1) (1) the net positive cash amount that the Hedge Entity would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the

Compounding Method shall be a “**Calculation Period**”) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and

- (2) an amount equal to the Minimum Intermediate Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; and/or

- (A) *In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (B) *In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Offering Circular Supplement will in all circumstances be a positive amount (the “**Optional Minimum Redemption Amount**”)*

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay (a) on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (1) (1) the net positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating, the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant

to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and

- (2) an amount equal to the Optional Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero;

(iii) ***Monetisation of the Final Redemption Amount***

- (A) *In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

- (1) (1) the net positive cash amount that the Hedge Entity would be left with on the Full Liquidation Date, as a result of liquidating, the Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the

Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and

- (2) an amount equal to the Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

(b) **Monetisation until the Expiration Date (in respect of Warrants only)**

If, in relation to Warrants only, “Issuer Call Option” is specified as being applicable in the Offering Circular Supplement of the relevant Warrants:

Following the occurrence of an event giving rise to Monetisation until the Expiration Date, the Issuer shall no longer be liable for the payment of (A) the Optional Cancellation Amount on the Optional Cancellation Date and/or (B) the Settlement Amount on the Expiration Date, but instead will, in full and final satisfaction of its obligations pay an amount described in sub-paragraphs (i) and/or (ii) below.

(i) ***Monetisation of any Optional Cancellation Amount***

- (A) *In respect of the cancellation of Warrants whose Optional Cancellation Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

3. Hedging Disruption, Increased Cost of Hedging, Insolvency Filing and consequences - Change in Law and consequences

(a) Hedging Disruption, Increased Cost of Hedging, Insolvency Filing and consequences

“Hedging Disruption” means, in respect of Securities that have one or more ADR or GDR as Underlying(s), that the Hedge Entity is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Securities or the agreement entered into with the Hedge Entity by the Issuer in relation to the Securities; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **“Affected Jurisdiction”**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction;

“Increased Cost of Hedging” means, in respect of Securities that have one or more ADR or GDR as Underlying(s), that the Hedge Entity would incur a materially increased (as compared with circumstances existing on the date(s) on which the Hedge Entity enters into the Hedge Positions in respect of the Securities) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities or (b) freely realise, recover or remit the proceeds of its Hedge Positions; and

“Insolvency Filing” means, in respect of Securities that have one or more ADR or GDR as Underlying(s) that the Company institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the Company shall not be deemed an Insolvency Filing.

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging or an Insolvency Filing relating to an ADR or a GDR (the “**Affected Underlying**”), the Calculation Agent may:

- (i) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter, an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In that case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be;
- (ii) replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector;
- (iii) apply Monetisation until the Maturity/Expiration Date (as defined above); or
- (iv) only in the case of Increased Cost of Hedging, deduct:
 - (A) in respect of Notes only, from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by the Hedge Entity, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the “**Reduction Amount**”); provided however that if on an Interest Payment Date on which a Reduction Amount would otherwise be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (B) in respect of Notes only and in the absence of any Interest Amount, (a) from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note, whichever comes first, and (b) in the absence of any Intermediate Amount, Instalment Amount, Optional Redemption Amount or Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero); or
 - (C) in respect of Warrants only, (a) from the Optional Cancellation Amount (if any) or the Cancellation Amount (if any) due under one Warrant, whichever comes first, and (b) in the absence of any Optional Cancellation Amount or Cancellation Amount in respect of the Warrants, from the Settlement Amount due under one Warrant on the Settlement Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

(b) Change in Law

“**Change in Law**” means in respect of Securities that have one or more ADR or GDR as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Securities (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal for the Hedge Entity to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with the Hedge Entity by the Issuer of the Securities, relating to the Underlying of the Securities (the “**Affected Underlying**”).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, then the Calculation Agent will decide with regard to the Affected Underlying in respect of such Change in Law, either to:

- (i) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter, an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In that case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be;
- (ii) replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- (iii) apply Monetisation until the Maturity Date or Expiration Date (as defined above).

For information purposes, it is understood that in all cases described herein where an ETF, a Share or ADR is substituted, on any date “t”, with a Substitute ETF, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Offering Circular Supplement, shall not be affected by the substitution on such date “t” in respect of the Substitute ETF and would mean that the closing price of such Substitute ETF on the relevant Exchange on the date “t” is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected ETF on such date “t”; or

- (iv) only in the case of Increased Cost of Hedging, deduct:
 - (A) in respect of Notes only, from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by the Hedge Entity, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the “**Reduction Amount**”); provided however that if on an Interest Payment Date on which a Reduction Amount would otherwise be deducted from the Interest Amount, the Reduction Amount in respect of one Security is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from

the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

- (C) in respect of Warrants only, (a) from the Optional Cancellation Amount (if any) or the Cancellation Amount (if any) due under one Warrant, whichever comes first, and (b) in the absence of any Optional Cancellation Amount or Cancellation Amount in respect of the Warrants, from the Settlement Amount due under one Warrant on the Settlement Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

(b) Definitions and provisions relating to valuation and Market Disruption Event

“Disrupted Day” means, in respect of an Index, any Scheduled Trading Day on which (a) a relevant Related Exchange fails to open for trading during its regular trading session, (b) a Market Disruption Event has occurred or (c) the Index Sponsor fails to publish the Closing Price of the Index;

For the purpose hereof:

- (i) **“Trading Disruption”** means, in respect of an Index, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (a) on the relevant Exchange(s) relating to securities that comprise 20 per cent. or more of the level of the relevant Index or (b) in futures or options contracts relating to the relevant Index on any relevant Related Exchange;
- (ii) **“Exchange Disruption”** means, in respect of an Index, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for (a) the share on any relevant Exchange(s) relating to securities that comprise 20 per cent. or more of the level of the relevant Index, or (b) futures or options contracts relating to the relevant Index on any relevant Related Exchange; and
- (iii) **“Early Closure”** means, the closure on any Exchange Business Day of (a) any relevant Exchange(s) relating to securities that comprise 20 per cent. or more of the level of the relevant Index, or (b) any Related Exchange, prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (x) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (y) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day,

“Scheduled Closing Time” means, in respect of an Exchange or Related Exchange, the scheduled weekday closing time of such Exchange or Related Exchange, without regard to after hours or any other trading outside of the regular trading session hours;

“Valuation Time” means, in respect of an Index, the Scheduled Closing Time, provided however that if the Exchange closes prior to its Scheduled Closing Time, the Valuation Time shall be the actual closing time of the Exchange.

(c) Consequences of Disrupted Days for an Index

If any Valuation Date or Averaging Date specified in the applicable Offering Circular Supplement (the **“Scheduled Valuation Date”** and the **“Scheduled Averaging Date”** respectively), is a Disrupted Day for an Index, the Valuation Date or the Averaging Date (as the case may be) for such Index shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of that Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or the Scheduled Averaging Date is also a Disrupted Day. In that case:

- (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date (as the case may be), for the Index notwithstanding the fact that such day is a Disrupted Day; and
- (ii) the Calculation Agent shall determine the level of the Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using

the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value of the relevant security as of the Valuation Time on that eighth Scheduled Trading Day) and the good faith estimate of the value of the level of the Index so calculated shall be deemed the Closing Price.

Provided that if the Index is included in a Basket, the above provisions shall apply only to the Index affected by the occurrence of a Disrupted Day and the Valuation Date or the Averaging Date for each Index not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date,

provided however that:

- (A) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in Part 1 – (c)(ii) above, and the good faith estimate of the level of the Index so calculated shall be deemed the Closing Price;
- (B) notwithstanding the foregoing, in respect of any Securities, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made in respect of such Securities on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made in respect of such Securities on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in Part 1 – (c)(ii) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the level of the Index so calculated shall be deemed the Closing Price.

PART 2 – ADJUSTMENTS AND EVENTS - MONETISATION UNTIL THE MATURITY DATE OR EXPIRATION DATE - HEDGING DISRUPTION, INCREASED COST OF HEDGING AND CONSEQUENCES - CHANGE IN LAW AND CONSEQUENCES

1. Adjustments and Events

(a) Adjustments

- (i) If an Index is:
 - (A) not calculated and announced by the relevant Index Sponsor or the Index Calculation Agent, as the case may be, but is calculated and announced by a relevant successor sponsor (the “**Successor Index Sponsor**”) or a successor calculation agent (the “**Successor Index Calculation Agent**”) acceptable to the Calculation Agent; or

- (B) replaced by a successor index (the “Successor Index”) using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index,

then the Index will be deemed to be the index so calculated and announced by the relevant Successor Index Sponsor or Successor Index Calculation Agent or that Successor Index (as the case may be).

(ii) If, in the determination of the Calculation Agent:

- (A) on or prior to a Valuation Date or an Averaging Date, the relevant Index Sponsor (or if applicable the Successor Index Sponsor) makes a material change in the formula for, or the method of calculating, that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events);
- (B) on or prior to any Valuation Date or Averaging Date, the relevant Index Sponsor (or, if applicable, the relevant Successor Index Sponsor) or the Index Calculation Agent (or the Successor Index Calculation Agent) as the case may be, fails to calculate and publish the level of the Index and such failure is likely to have a material impact on any hedging transactions entered into by the Hedge Entity in connection with the Securities; or
- (C) the Index Sponsor (or, if applicable, the Successor Index Sponsor) permanently cancels the Index and no Successor Index exists,

then the Calculation Agent shall either:

- (A) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Offering Circular Supplement using, in lieu of a published level for the Index, the level of that Index as at the Valuation Time on the relevant Valuation Date or Averaging Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that change, failure or cancellation (other than those securities that have since ceased to be listed on any relevant Exchange); or
- (B) replace the Index by a new index, provided that such index is (a) representative of the same economic or geographic sector (as the case may be) and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries,

if the Calculation Agent has not retained (A) and if in (B) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

- (A) apply Monetisation until the Maturity Date or Expiration Date; or
- (B) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of any of the events described in Part 2 –1(a)(ii)(A), 1(a)(ii)(B) or 1(a)(ii)(C) above, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g)

(*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be.

- (iii) If an Index merges with another index or if an Index which forms part of the Basket merges with another index which does not form part of the Basket (the “Event”), the Calculation Agent will either:

- (A) continue using the index resulting from the merger; or
- (B) replace the Index with another index (the “**New Index**”); as long as the New Index is (a) representative of the same economic or geographic sector (as the case may be) and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries,

if the Calculation Agent has not retained (A) and if in (B) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

- (A) apply Monetisation until the Maturity Date or Expiration Date; or
- (B) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the Event described in Part 2 – 1(a)(iii) above, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be.

- (iv) In the case of a merger affecting two Indices comprised in a Basket (the “**Event**”), the Calculation Agent will either:

- (A) continue using the index resulting from the merger and, in order to maintain the same number of indices within the Basket, the Calculation Agent will select a further index (a “**New Index**”) to be included in the Basket, as long as such New Index is (a) representative of the same economic or geographic sector (as the case may be) and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries; or
- (B) replace both Indices with two other indices (each a “New Index”); as long as each New Index is (a) representative of the same economic or geographic sector (as the case may be) and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries,

if the Calculation Agent has not retained (A) and if in (B) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

- (A) apply Monetisation until the Maturity Date or Expiration Date; or
- (B) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the Event described in Part 2 – 1(a)(iv) above, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be.

(v) If an Index is split into two or more new indices (the “**Event**”), the Calculation Agent will either:

- (A) use the indices resulting from the split to determine an index equivalent to the one existing prior to the split (provided that the indices resulting from the split will be deemed to form together the “**New Index**”); or
- (B) replace the split Index with a new index (a “**New Index**”) as long as such New Index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible representative of shares listed on one or more Exchanges of one or more OECD countries,

if the Calculation Agent has not retained (A) and if in (B) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

- (A) apply Monetisation until the Maturity Date or Expiration Date; or
- (B) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the Event described in this Part 2 – 1(v), an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be.

(vi) In the case of a Basket of Indices, in the event that shares forming part of one Index comprising the Basket represent at least 20 per cent. of the capitalisation of another Index forming part of the Basket (the “**Affected Index**”) (the “**Event**”), the Calculation Agent may, but is not obliged to, replace such Affected Index with a new index as long as such new index is (a) representative of the same economic or geographic sector (as the case may be) and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries.

If no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

- (A) apply Monetisation until the Maturity Date or Expiration Date; or
- (B) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the Event, described in this Part 2 – 1(a)(vi), an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be.

(vii) In the event that an Index ceases to be the underlying of a futures and/or option contract (as the case may be) (the “**Event**”), the Calculation Agent may, but is not obliged to, replace such Index with a new index as long as such new index is (a) representative of the same economic or geographic sector (as the case may be) and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries.

if no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

- (A) apply Monetisation until the Maturity Date or Expiration Date; or
- (B) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the Event described in this (G), an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be.

(b) Stop-Loss Event relating to an Index

If on any Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of an Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the “**Affected Index**” and the event, the “**Stop-Loss Event**”), then:

- (i) the Calculation Agent may decide to substitute the Affected Index by a new index representative of the same economic or geographic sector (as the case may be), and to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries (the “**Substitute Index**”) and will adjust any relevant terms of the Securities accordingly;
- (ii) the Calculation Agent may decide to continue with the Affected Index;
- (iii) if the Calculation Agent has neither retained any Substitute Index nor decided to continue with the Affected Index, the Calculation Agent may either:
 - (A) apply Monetisation until the Maturity Date or Expiration Date; or
 - (B) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be.

(c) Correction of the Closing Price of an Index

In the event that any price or level published on the Exchange or by the Index Sponsor and which is used for any calculation or determination made under the Securities is subsequently corrected and the correction is published and made available to the public by the Exchange or the Index Sponsor after the original publication but no later than (i) in the case of Notes, four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Offering Circular Supplement) or (ii) in the case of Warrants, the earlier of (x) the Actual Exercise Date in respect of any Warrant and (y) the fourth Business Day prior to the Expiration Date, the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Securities to account for such correction.

2. Monetisation until the Maturity/Expiration Date

(a) Monetisation until the Maturity Date (in the case of Notes only)

Following the occurrence of an event giving rise to Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (A) the Intermediate Amount(s) initially scheduled to

be paid on any Intermediate Payment Date and/or (B) the Optional Redemption Amount on the Optional Redemption Date and/or (C) the Final Redemption Amount as defined in the applicable Offering Circular Supplement on the Maturity Date, but instead will, in full and final satisfaction of its obligations pay an amount described in sub-paragraphs (i), (ii) and/or (iii) below.

(i) ***Monetisation of any Intermediate Amount***

- (A) *In respect of the payment of any Intermediate Amount as defined in the applicable Offering Circular Supplement which could be as low as zero*

Pursuant to the provisions of Part 2 - 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (B) *In respect of the payment of any Intermediate Amount as defined in the applicable Offering Circular Supplement which will in all circumstances be a positive amount (the “**Minimum Intermediate Amount**”)*

Pursuant to the provisions of Part 2 - 2(a), the Issuer shall, pay (a) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (1) The net positive cash amount that the Hedge Entity would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and

- (2) an amount equal to the Minimum Intermediate Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; and/or

(ii) **Monetisation of any Optional Redemption Amount**

- (A) *In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

Pursuant to the provisions of Part 2 - 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (B) *In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Offering Circular Supplement will in all circumstances be a positive amount (the “**Optional Minimum Redemption Amount**”)*

Pursuant to the provisions of Part 2 - 2(a), the Issuer shall pay (a) on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between: (1) the net positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating, the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day

preceding the Maturity Date (excluded), and an amount equal to the Optional Minimum Redemption Amount.

3. Hedging Disruption, Increased Cost of Hedging and consequences - Change in Law and consequences

(a) Hedging Disruption, Increased Cost of Hedging and consequences

“Hedging Disruption” means, in respect of Securities that have one or more Index(ices) as Underlying(s), that the Hedge Entity is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer of the Securities or (b) freely realise, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **“Affected Jurisdiction”**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction;

“Increased Cost of Hedging” means, in respect of Securities that have one or more Index(ices) as Underlying(s), that the Hedge Entity would incur a materially increased (as compared with circumstances existing on the date(s) on which the Hedge Entity enters into the Hedge Positions in respect of the Securities) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities or (b) freely realise, recover or remit the proceeds of its Hedge Positions.

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to an Index (the Affected Underlying), the Calculation Agent may:

- (i) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an **“Early Redemption Event”** or a **“Cancellation Event”** respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be; or
- (ii) replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or

- (iii) apply Monetisation until the Maturity Date or Expiration Date; or
- (iv) only in the case of Increased Cost of Hedging, deduct:
 - (A) in respect of Notes only, from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by the Hedge Entity, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the “**Reduction Amount**”); provided however that if on an Interest Payment Date on which a Reduction Amount would otherwise be deducted from the Interest Amount, the Reduction Amount in respect of one Security is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (B) in respect of Notes only and in the absence of any Interest Amount, (a) from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note, whichever comes first, and (b) in the absence of any Intermediate Amount, Instalment Amount, Optional Redemption Amount or Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero); or
 - (C) in respect of Warrants only, (a) from the Optional Cancellation Amount (if any) or the Cancellation Amount (if any) due under one Warrant, whichever comes first, and (b) in the absence of any Optional Cancellation Amount or Cancellation Amount in respect of the Warrants, from the Settlement Amount due under one Warrant on the Settlement Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

(b) Change in Law

“**Change in Law**” means, in respect of Securities that have one or more Index(ices) Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Securities (i) due to the adoption of any change in any applicable law or regulation (including, without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority) or the combined effect thereof if occurring more than once, the Calculation Agent determines in good faith that it has become illegal for the Issuer or the Hedge Entity to hold, acquire or dispose of Hedge Positions or to maintain any agreement entered into with the Hedge Entity by the Issuer of the Securities, relating to the Underlying of the Securities (the “**Affected Underlying**”).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, then the Calculation Agent will decide either to:

- (i) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be;
- (ii) replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or
- (iii) apply Monetisation until the Maturity Date or Expiration Date.

The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Agents and the Holders, in the absence of manifest error or proven error.

- (A) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in Part 1 – (b)(ii) above, and the good faith estimate of the level of the SGI Index so calculated shall be deemed the Closing Price;

PART 2 – ADJUSTMENTS AND EVENTS - MONETISATION UNTIL THE MATURITY/EXPIRATION DATE - HEDGING DISRUPTION, INCREASED COST OF HEDGING AND CONSEQUENCES CHANGE IN LAW AND CONSEQUENCES

1. Adjustments and Events

(a) Adjustments

- (i) If on any Scheduled Trading Day, an SGI Index is:
- (A) not published by the relevant Index Calculation Agent, but is published by a successor index calculation agent (the “**Successor Index Calculation Agent**”), acceptable to the Calculation Agent; or
 - (B) replaced by a Similar Index,
- then in each case that index published by the Successor Index Calculation Agent or Similar Index will be deemed to be the SGI Index so calculated and announced;
- (ii) if, in the determination of the Calculation Agent:
- (A) on or prior to any Valuation Date or Averaging Date, the relevant Index Sponsor and/or Index Calculation Agent announce(s) that it/they will make a material change in the formula for or the method of calculating that SGI Index or in any other way materially modifies that SGI Index (other than a modification prescribed in that formula or method to maintain that SGI Index in the event of changes in Index Components and other routine events) (an “**Index Modification**”);
 - (B) the Index Sponsor permanently cancels the SGI Index and no Similar Index exists or the agreement between the Index Calculation Agent and the Index Sponsor is terminated (an “**Index Cancellation**”); or
 - (C) on any Valuation Date or Averaging Date, the Index Calculation Agent fails to publish the Closing Price of the SGI Index other than as a result of the occurrence of a Market Disruption Event (an “**Index Disruption**” and together with an Index Modification and an Index Cancellation, each an “**Index Adjustment Event**”),

then the Calculation Agent shall either:

- (w) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Offering Circular Supplement using, in lieu of a published level for the SGI Index, the level of that SGI Index on the relevant Valuation Date or Averaging Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that SGI Index last in effect prior to that Index Adjustment Event, but using only those Index Components that comprised the SGI Index immediately prior to that

Index Adjustment Event (other than those Index Components that have since then ceased to be listed on any relevant Exchange), and adjust, as the case may be, any of the relevant terms of the Securities;

- (x) replace the SGI Index by a Similar Index (except for the case described in (B) above);
- (y) consider such Index Adjustment Event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and pay to each Holder as soon as possible after the occurrence of any of the events described in Part 2 – 1(a)(ii)(A), 1(a)(ii)(B) and 1(a)(ii)(C) above, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be; or
- (z) apply Monetisation until the Maturity Date or the Expiration Date (as defined below).

(b) Stop-Loss Event relating to a SGI Index

If, on any Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of an SGI Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the “**Affected SGI Index**” and the event, the “**Stop-Loss Event**”), then the Calculation Agent may decide to:

- (i) substitute the Affected SGI Index by a Similar Index and will adjust any relevant terms of the Securities accordingly;
- (ii) continue with the Affected SGI Index;
- (iii) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be; or
- (iv) continue the Securities according to their terms.

(c) Correction of the Closing Price of an SGI Index

In the event that any price or level published by the Index Calculation Agent and which is used for any calculation or determination made under the Securities is subsequently corrected and the correction is published and made available to the public by the Index Calculation Agent after the original publication but no later than (i) in the case of Notes, four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Offering Circular Supplement) or (ii) in the case of Warrants, the earlier of (x) the Actual Exercise Date in respect of any Warrant and (y) the fourth Business Day prior to the Expiration Date, the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Securities to account for such correction.

2. Monetisation until the Maturity/Expiration Date

(a) Monetisation until the Maturity Date (in respect of Notes only)

Following the occurrence of an event giving rise to Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (A) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (B) the Optional Redemption Amount on the Optional Redemption Date and/or (C) the Final Redemption Amount as defined in the Offering Circular Supplement on the Maturity Date, but instead will, in full and final satisfaction of its obligations pay an amount described in sub-paragraphs (i), (ii) and/or (iii) below.

preceding the Maturity Date (excluded), and (ii) an amount equal to the Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

(B) *In respect of the redemption of Notes whose Optional Redemption Amount as defined in the Offering Circular Supplement will in all circumstances be a positive amount (the “**Optional Minimum Redemption Amount**”)*

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay (a) on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between (i)(1) the net positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding

Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded) and (ii) an amount equal to the Optional Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

Pursuant to the provisions of Part 2 – 2(a), the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

3. Hedging Disruption, Increased Cost of Hedging and consequences - Change in Law and consequences

(a) Hedging Disruption and Increased Cost of Hedging and consequences

“Hedging Disruption” means, in respect of Securities that have one or more SGI Index(ices) as Underlying(s), that the Hedge Entity is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of the Issuer entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities or (b) freely realise, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **“Affected Jurisdiction”**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction;

“Increased Cost of Hedging” means, in respect of Securities that have one or more SGI Index(ices) as Underlying(s), that the Hedge Entity would incur a materially increased (as compared with circumstances existing on the date(s) on which the Hedge Entity enters into the Hedge Positions in respect of the Securities) amount of tax, duty, expense or fee (other than brokerage commissions) or costs specified in the Index Rules to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing

its obligations with respect to the Securities, any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities or (b) freely realise, recover or remit the proceeds of its Hedge Positions;

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to a SGI Index (the “**Affected Underlying**”), the Calculation Agent may:

- (i) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be;
- (ii) replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector and which will be a Similar Index; or
- (iii) apply Monetisation until the Maturity Date or Expiration Date; or
- (iv) only in the case of Increased Cost of Hedging, deduct:

 - (B) in respect of Notes only and in the absence of any Interest Amount, (a) from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note, whichever comes first, and (b) in the absence of any Intermediate Amount, Instalment Amount, Optional Redemption Amount or Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero); or
 - (C) in respect of Warrants only, (a) from the Optional Cancellation Amount (if any) or the Cancellation Amount (if any) due under one Warrant, whichever comes first, and (b) in the absence of any Optional Cancellation Amount or Cancellation Amount in respect of the Warrants, from the Settlement Amount due under one

“**Change in Law**” means, in respect of Securities that have one or more SGI Index(ices) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Securities (i) due to the adoption of any change in any applicable law or regulation (including, without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority) or the combined effect thereof if occurring more than once, the Calculation Agent determines in good faith that it has become illegal for the Issuer or the Hedge Entity to hold, acquire or dispose of Hedge Positions or to maintain any agreement entered into with the Hedge Entity by the Issuer of the Securities, relating to the Underlying of the Securities (the “**Affected Underlying**”).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, then the Calculation Agent will decide either to:

- (i) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be;

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (c) **Postponement to the Adjusted Intermediate Payment Date (in respect of Notes only)**

Following the occurrence of an Extraordinary Event, the Issuer shall no longer be liable for the payment of the Intermediate Amount(s) initially scheduled to be paid on the Intermediate Payment Date(s), but instead will, in full and final satisfaction of its obligations pay an amount as described in sub-paragraphs (i) and/or (ii) below.

Pursuant to the provisions of Part 2 - 2.2(c), the Issuer shall pay on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision).

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

3. **Disruption Events relating to any Fund and/or any Fund Unit**

3.1 Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of any of the following events (each a “**Disruption Event**”) in respect of a Valuation Date (the “**Disrupted Day**”) and a Fund or Fund Unit (the “**Affected Fund**”):

- (a) “**Calculation and/or Publication Disruption**” means the occurrence of an event, beyond the control of a Hypothetical Investor (including in case of any gate, deferral, suspension or other provisions in the Fund Documents permitting the Fund to delay or refuse subscription and/or redemption orders) which precludes the calculation and/or publication of the official net asset value per Fund Unit of the Fund by the Fund (or the Fund Service Provider generally in charge of calculating such official net asset value); or
- (b) “**Fund Settlement Disruption**” means a failure by the Fund to pay in cash the full amount of the redemption proceeds on the date by which the Fund was scheduled to have paid such amount and which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price, including without limitation due to (a) the transfer of all illiquid assets of such Fund to a dedicated fund, account or structure pending the liquidation of such assets for the benefit of existing holders of the Fund Units (side pocket), (b) the restriction on the amount or number of redemption orders that the Fund (or the Fund Service Provider generally in charge of accepting redemption orders) will accept in relation to a single date on which the Fund normally accepts redemption orders (a gate), (c) the suspension for any reason of the subscription or redemption orders by the Fund (or the Fund Service Provider generally in charge of accepting subscription and redemption orders) or (d) the postponement of the payment of the balance of redemption proceeds to a date occurring after the financial statements of the Fund have been reviewed by the Fund’s statutory auditors (holdback), in each case whether these events are imposed by the Fund without being envisaged in the Fund Documents on the Issue Date of the Securities or are already envisaged by the Fund Documents on the Issue Date of the Securities and are solely implemented by the Fund after such date; or
- (c) “**NAV Determination Disruption Event**” means the occurrence of any event (beyond the control of a Hypothetical Investor) other than the events mentioned in “*Calculation and/or Publication Disruption*” in Part 2 – 3(a) above or “*Fund Settlement Disruption*” in Part 2 – 3(b) above affecting such Fund which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price,

the Valuation Date, in respect of the Affected Fund, shall be postponed to the immediately following Fund Business Day or Fund Valuation Day (as specified to be applicable in relation to such Valuation Date in the Offering Circular Supplement) that is no longer affected by a Disruption Event for such Affected Fund.

If a Disruption Event has occurred or is continuing on each of the five scheduled Fund Business Days or Fund Valuation Days, as the case may be, following the Scheduled Valuation Date or if no Fund Business Day or Fund Valuation Day, as the case may be, that is not affected by a Disruption Event has occurred at the latest on the thirty-fifth calendar day following the Scheduled Valuation Date, then the Calculation Agent may either:

- (i) determine its good faith estimate of the net asset value per Fund Unit of such Fund which shall be deemed to be the Closing Price in respect of such Valuation Date; or
- (ii) consider such Disruption Event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be; or
- (iii) determine that the Issuer will apply either “Monetisation until the Maturity Date or Expiration Date” (as described in Part 3 – 3.2(a) or (b), as applicable, below) or “Postponement to the Adjusted Intermediate Payment Date” (as described in Part 3 – 3.2(c) below) or “Substitution” (as described in Part 3 – 3.2(d) below).

Notwithstanding the foregoing, in respect of any Securities, a Valuation Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Securities on the basis of determinations made on such Valuation Date; if a Valuation Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Securities on the basis of determinations made on such Valuation Date, then that fourth Business Day shall be deemed the Valuation Date and the Calculation Agent shall make, on that day the determinations described in Part 2 – 3.1(i) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the net asset value of the Fund so calculated shall be deemed the Closing Price.

PART 2 – PROVISIONS APPLICABLE TO COMMODITIES OTHER THAN INDICES

1. Commodity Business Day Adjustment

- (a) If a Valuation Date is not a Commodity Business Day with respect to a Commodity Reference Price, then the Valuation Date for such Commodity Reference Price shall be postponed to the next day which is a Commodity Business Day with respect to such Commodity Reference Price, subject to valuation deadline provisions in Part 2 – 1(c) below.
- (b) If a Barrier Date is not a Common Commodity Business Day, then such Barrier Date shall be postponed to the next day which is a Common Commodity Business Day, subject to determination deadline provisions in Part 2 – 1(c) below.

- (c) Notwithstanding the foregoing, a Valuation Date or a Barrier Date shall occur not later than the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date, as the case may be. Such fourth Business Day shall be deemed to be the Valuation Date or Barrier Date, as relevant, and the Calculation Agent shall determine in good faith the fair market value of the Commodity or Commodities for which that fourth Business Day is not a Commodity Business Day.

2. Consequences of Market Disruption Events

- (a) If a Market Disruption Event occurs or is continuing with respect to a Commodity Reference Price on a Valuation Date, then the price of such Commodity with respect to such Valuation Date will be determined in accordance with (i), (ii) or (iii) below.
 - (i) The Commodity Reference Price for such Valuation Date published by the relevant Exchange on the next Commodity Business Day on which there is no Market Disruption Event (the “**Determination Day**”).
 - (ii) If the Commodity Reference Price is not determined as per paragraph (a) above or is a Limit Price, the Commodity Reference Price published by the relevant Exchange for such Determination Day.

For the purposes of paragraph (a) and (b) above, a Determination Day shall fall within a period of five Commodity Business Days from and including the relevant Valuation Date.

The determination of the Commodity Reference Price in (a) and (b) above is subject to determination deadline provisions in Part 2 – 2(b) below.

- (iii) If there is no Determination Day within a period of five Commodity Business Days following (and including) the Valuation Date, then the prices for such Valuation Date shall be determined, in good faith, by the Calculation Agent on such fifth Commodity Business Day, using:
 - (A) with respect to the Commodity or Commodities which are not affected by a Market Disruption Event on the fifth Commodity Business Day, the relevant Commodity Reference Price for that fifth Commodity Business Day; and
 - (B) with respect to the Commodity or Commodities which are affected by a Market Disruption Event on the fifth Commodity Business Day, the fair market value of such Commodity or Commodities.
- (b) Notwithstanding the foregoing, the prices for a Valuation Date shall be determined by the Calculation Agent at the latest on the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date. This Part 2 – 2 shall not apply to a Barrier Date.

3. Consequences of Extraordinary Events affecting the Commodities or Commodity Reference Prices

If, in the determination of the Calculation Agent:

- (a) the relevant Commodity Reference Price disappears or permanently discontinues or otherwise becomes unavailable; or
- (b) at any time following the first Valuation Date, a material change in the formula or the calculation method for the relevant Commodity Reference Price occurs; or
- (c) at any time following the first Valuation Date, a material change in the content, the composition or the constitution of the relevant Commodity occurs,

then the Calculation Agent will be entitled to either:

- (y) determine in good faith the fair market value of the relevant Commodity for the relevant Valuation Date or Barrier Date; or
- (z) replace, to the extent possible, the affected Commodity Reference Price with a similar price.

If the Calculation Agent does not make a determination in accordance with Part 2 – 3(y) above and if, in the determination of the Calculation Agent, no price meets the criteria to be an appropriate replacement price in accordance with Part 2 – 3(z) above, then the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be.

4. Consequences of adjustment events affecting the Commodity Reference Price

If a Commodity Reference Price made public on the relevant Price Source's page and utilised in any calculation or determination made under the Securities is subsequently corrected and the correction is made available to the public on the relevant Price Source's page after the original publication but no later than (i) in the case of Notes, four Commodity Business Days or Index Business Days, as applicable, prior to the Maturity Date (or any payment date(s) determined in the applicable Offering Circular Supplement) or (ii) in the case of Warrants, the earlier of (x) the Actual Exercise Date in respect of any Warrant and (y) the fourth Commodity Business Day or Index Business Day, as applicable, prior to the Expiration Date, the Calculation Agent will determine in its sole discretion whether adjustments to the terms of the Securities are necessary to account for such correction. Any adjustment resulting from such correction shall be made in the Calculation Agent's sole discretion.

PART 3 - PROVISIONS APPLICABLE TO INDICES ON COMMODITIES

1. Index Business Day Adjustment

- (a) If a Valuation Date is not an Index Business Day with respect to a Commodity Index, then the Valuation Date for such Commodity Index shall be postponed to the next day which is an Index Business Day with respect to such Commodity Index, subject to valuation deadline provisions in C below.
- (b) If a Barrier Date is not a Common Index Business Day, then such Barrier Date shall be postponed to the next day which is a Common Index Business Day, subject to determination deadline provisions in C below.
- (c) Notwithstanding the foregoing, a Valuation Date or a Barrier Date shall occur not later than the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date; as the case may be. Such fourth Business Day shall be deemed to be the Valuation Date or Barrier Date, as relevant, and the Calculation Agent shall determine in good faith the fair market level of the Commodity Index or Commodity Indices for which that fourth Business Day is not an Index Business Day.

2. Consequences of Index Disruption Events

- (a) If a Valuation Date specified in the applicable Offering Circular Supplement is subject to an Index Disruption Event for a Commodity Index and any Underlying Index, as applicable, the level of such Commodity Index or Underlying Index shall be determined by the Calculation Agent in good faith in accordance with the formula and calculation method for that Commodity Index and Underlying Index, as applicable, last in effect prior to the occurrence of the first Index Disruption Event (subject to determination deadline provisions in B below), using:

- (i) with respect to each commodity comprised in the Commodity Index or any Underlying Index for which no Relevant Futures Contract is affected by an Index Disruption Event, its settlement price as determined and made public by the relevant Exchange for the Valuation Date; and
- (ii) with respect to each commodity comprised in the Commodity Index or any Underlying Index for which one or more Relevant Futures Contract is affected by an Index Disruption Event:
 - (A) the settlement price of Relevant Futures Contracts related to such commodity as determined by the relevant Exchange for the Valuation Date and made public on the Valuation Date or retrospectively on the next Commodity Business Day on which there is no Index Disruption Event with respect to such Relevant Futures Contracts;
 - (B) if the settlement price is not determined as per (ii)(A) above or is a Limit Price, the settlement price of all Relevant Futures Contracts related to such commodity published by the relevant Exchange for the next Commodity Business Day on which the Index Disruption Event ceases to exist with respect to all Relevant Futures Contracts;
 - (C) the settlement price of such Relevant Futures Contracts shall be determined within the 5 Commodity Business Days from and including the relevant Valuation Date for the purposes of paragraph (ii)(A) and (ii)(B) above;
 - (D) if the settlement price of one or more Relevant Futures Contracts is not determined as per (ii)(A) and (ii)(B) above, the fair market value of all Relevant Futures Contracts on that fifth Commodity Business Day.
- (b) Notwithstanding the foregoing, the date on which the value of a Commodity comprised in the Commodity Index and the level of Commodity Index are determined shall occur not later than the fourth Business Day prior to the date of any payment to be made under the Securities on the basis of determinations made on such date.

3. Consequences of Extraordinary Events and adjustments to Indices

- (a) If a Commodity Index is:
 - (i) not calculated and made public by the relevant Index Sponsor but is calculated and made public by a relevant successor sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or
 - (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Commodity Index,

then the Commodity Index will be deemed to be the index so calculated and made public by the relevant Successor Sponsor or that successor index (as the case may be).
- (b) If, in the determination of the Calculation Agent:
 - (i) the relevant Index Sponsor (or, if applicable, the Successor Sponsor) makes a material change in the formula of a Commodity Index or in any other way materially modifies a Commodity Index (other than a modification prescribed in that formula or method to maintain that Commodity Index in the event of changes in commodities comprised in the Commodity Index and capitalisation and other routine events); or
 - (ii) the Index Sponsor (or, if applicable, the Successor Sponsor) permanently cancels a Commodity Index and no successor index exists,

then the Calculation Agent will be entitled to either:

- (y) determine the level of that Commodity Index for the relevant Valuation Date or Barrier Date in accordance with the formula and calculation method for that Commodity Index last in effect prior to that change, failure or cancellation. The Commodity Index so calculated will be used in lieu of the Closing Price made public by the Index Sponsor for the determination of an amount to be paid under the Securities or to determine whether a condition, if any, has occurred or not; or
- (z) replace the Commodity Index with a new index to the extent possible, representative of the similar type of commodities comprised in the Commodity Index and traded on one or more Exchanges.

If the Calculation Agent does not make a calculation in accordance with Part 3 – 3(y) above and if, in the determination of the Calculation Agent, no index meets the criteria to be an appropriate replacement index in accordance with Part 3 – 3(z) above, then the Issuer shall terminate its obligations under the Securities and pay to each Holder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities.

PART 4 – CHANGE IN LAW, HEDGING DISRUPTION AND INCREASED COST OF HEDGING - CONSEQUENCES

1. Change in Law, Hedging Disruption and Increased Cost of Hedging

“**Change in Law**” means, with respect to Securities that have one or more Commodity(ies) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Securities, due to:

- (a) the adoption of, or any change in, any applicable law (including without limitation, any Commodity Futures Trading Commission or any law or regulation in respect of tax, solvency or capital requirements) or any regulation, rule or procedure of any exchange or principal trading market on which a Commodity or any component thereof is traded (together the “**Applicable Regulation**”); or
- (b) the promulgation of, or any change in the published interpretation by any court, tribunal or regulatory authority with competent jurisdiction or supervisory duty, of any Applicable Regulation (including any action taken by a taxing authority),

the Calculation Agent determines in good faith that:

- (y) it has become illegal or contrary to any Applicable Regulation for the Hedge Entity to (a) hold, acquire or dispose of any Hedge Position (as defined below) or (b) maintain the agreement entered into with the Issuer in relation to the Securities or the Underlying(s) of the Securities or to perform its obligations or exercise its rights thereunder; or
- (z) the Hedge Entity incurs or there is a substantial likelihood that the Hedge Entity will incur increased costs, fees or charges in (a) acquiring, establishing, re-establishing, substituting, maintaining, unwinding or disposing of any Hedge Position or (b) maintaining any agreement entered into with the Issuer in relation to the Securities or the Underlying(s) of the Securities or performing its obligations thereunder.

“**Hedging Disruption**” means, with respect to Securities that have one or more Commodity(ies) or one or more Indice(s) as Underlying(s), that, as determined in good faith by the Calculation Agent, the Hedge Entity is unable, after using commercially reasonable efforts, to either:

- (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hedge Position; or
- (b) freely realise, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Position or any agreement entered into with the Issuer in relation to the Securities or the Underlying(s) of the Securities.

For the purpose hereof, “**Hedge Position**” means one or more positions in or contracts related to commodities, over-the-counter or exchange-traded commodity derivative transactions, foreign exchange transactions or other instruments or arrangements (howsoever described) necessary to hedge, individually or on a portfolio basis or otherwise, the risks of the Hedge Entity of (a) issuing and performing any of the obligations with respect to the Securities or (b) entering into and performing the obligations under the agreement entered into with the Issuer in relation to the Securities or the Underlying(s) of the Securities.

“**Hedge Entity**” means the Issuer and any party and/or such party’s affiliates (which may, for the avoidance of doubt, include Société Générale and/or any of its affiliates) with which the Issuer enters into one or any number of arrangements in order to hedge the Issuer’s obligations to make any payment in respect of the relevant Commodity Linked Securities

“**Increased Cost of Hedging**” means, with respect to Securities that have one or more Commodity(ies) or one or more Indice(s) as Underlying(s), that as determined in good faith by the Calculation Agent, the Hedge Entity would incur a materially increased (as compared with circumstances existing on the date (s) on which the Hedge Entity enters into the Hedge Position in respect of the Securities) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, price risk, foreign exchange risk and interest rate risk) of entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities, or (b) freely realize, recover or remit the proceeds of the proceeds of its Hedge Positions.

2. Consequences

Upon the occurrence, as determined by the Calculation Agent in good faith, of a Hedging Disruption or a Change in Law or an Increased Cost of Hedging (the relevant Commodity(ies) as Underlying being the “**Affected Underlying**”), the Calculation Agent may:

- (x) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities; or
- (y) replace, to the extent possible, the Affected Underlying by a new underlying with a similar price; or
- (z) deduct:
 - (A) in respect of Notes only, from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s), the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging or triggered by a Change in Law incurred by the Hedge Entity, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the “**Reduction Amount**”); provided however that if on an Interest Payment Date on

which a Reduction Amount would otherwise be deducted from the Interest Amount, the Reduction Amount in respect of one Security is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

- (B) in respect of Notes only and in the absence of any Interest Amount, (a) from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note, whichever comes first, and (b) in the absence of any Intermediate Amount, Instalment Amount, Optional Redemption Amount or Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero); or
- (C) in respect of Warrants only, (a) from the Optional Cancellation Amount (if any) or the Cancellation Amount (if any) due under one Warrant, whichever comes first, and (b) in the absence of any Optional Cancellation Amount or Cancellation Amount in respect of the Warrants, from the Settlement Amount due under one Warrant on the Settlement Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

PART 5 - CALCULATIONS BY THE CALCULATION AGENT

- (a) Unless otherwise specified in the applicable Offering Circular Supplement, and with respect to Securities to which this Commodities Technical Annex applies, the Calculation Agent responsible for determining the Commodity Reference Price and calculating the Rate of Interest, the Final Redemption Amount, interest payable, the Early Redemption Amount, the Settlement Amount and the Cancellation Amount shall be Société Générale of 17 cours Valmy F 92987 Paris La Défense Cedex, France. The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Issuing and Paying Agent, the Warrant Agent and the Holders, in the absence of manifest error or proven error.
- (b) Following the occurrence of an event giving rise to an adjustment which is substantial in the opinion of the Calculation Agent or of an extraordinary event affecting an Underlying in respect of this Commodities Technical Annex, the Calculation Agent shall notify the Issuer, which shall in its turn notify the Issuing and Paying Agent or Warrant Agent, as the case may be, and the Holders, pursuant to the provisions of Condition 15 (*Notices*) of the Conditions of the Securities, of the relevant adjustment made or decision taken by the Calculation Agent. Details of such adjustment made or decision taken can be obtained by the Holders upon request at the Calculation Agent's specified address.

INFLATION TECHNICAL ANNEX

The terms and conditions (the “**Inflation Linked Conditions**”) set out in the following inflation technical annex (the “**Inflation Technical Annex**”) shall, if stated to be applicable in the applicable Offering Circular Supplement, form part of the conditions of the Securities and any reference to the “Conditions” of the relevant Securities shall be construed accordingly. This Inflation Technical Annex shall be applicable if the following is stated in the applicable Offering Circular Supplement:

“The provisions of the Inflation Technical Annex apply to these [Notes]/[Warrants] and should be read together with this Offering Circular Supplement. In the event of any inconsistency between the Inflation Technical Annex and this Offering Circular Supplement, this Offering Circular Supplement shall prevail.”

Terms used in this Inflation Technical Annex, unless specifically defined herein, shall have the same meanings as those set out in the Conditions of the Securities or the Principal Trust Deed, as the context requires.

PART 1 – DEFINITIONS RELATING TO INFLATION INDICES

1. General definitions

“**Business Day**” means a “Business Day” as defined in Condition 27(a) (*Definitions*) of the Conditions of the Securities, determined on the basis of the Specified Currency of the relevant Securities.

“**Closing Price**” means the level of the Inflation Index for a Reference Period which is relevant to the calculation of a payment under the Securities.

“**Fallback Bond**” means a bond, if any, selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Inflation Index relates and which pays an interest or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays an interest or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged). For the avoidance of doubt, if no bond defined in (a), (b) or (c) above is selected by the Calculation Agent, there will be no Fallback Bond.

“**Hedge Positions**” means any purchase, sale, entry into or maintenance, by the Hedge Entity, of one or more (i) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (ii) securities lending/borrowing transactions, (iii) any cash deposits or cash borrowings and/or (iv) other instruments, arrangements, assets or liabilities howsoever described in order to hedge individually or on a portfolio basis the part of the Hedging Entity’s obligations in respect of the Securities.

“**Index Sponsor**” means the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index on a regular basis.

“Inflation Index” means any inflation index specified as Underlying in the applicable Offering Circular Supplement, subject to adjustment pursuant to the provisions of Part 2 - 1 below.

“Payment Date” means any date on which a payment is due and payable pursuant to the terms of the Securities.

“Reference Period” means the time period for which the level of the Inflation Index was calculated and to which, as a result, such level of Inflation Index refers, regardless of when this level is published or announced. The time period may be, but is not limited to, a calendar year, a semester, a quarter or a month.

“Substitute Index Level” means an index level, determined by the Calculation Agent in accordance with Part 2 - 1.1 below.

“Successor Index” has the meaning given to it in Part 2 - 1.2 below.

PART 2 – ADJUSTMENTS AND EVENTS - CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING - CONSEQUENCES

1. Adjustments and Events

1.1 Delay of Publication

- (a) If the Closing Price is not published or announced by the day that is five Business Days prior to the next following Payment Date under the Securities, the Calculation Agent will determine a Substitute Index Level (in place of such Closing Price) by using the following methodology:
 - (i) if applicable, the Calculation Agent shall take the same action to determine the Substitute Index Level for such Payment Date as that taken by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond;
 - (ii) if (i) above does not result in a Substitute Index Level for such Payment Date for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

Where:

“Base Level” means the level of the Inflation Index (excluding any “flash” estimates) published or announced by the Index Sponsor in respect of the time period which is 12 calendar months prior to the time period for which the Substitute Index Level is being determined;

“Latest Level” means the latest level of the Inflation Index (excluding any “flash” estimates) published or announced by the Index Sponsor prior to the time period in respect of which the Substitute Index Level is being calculated; and

“Reference Level” means the level of the Inflation Index (excluding any “flash” estimates) published or announced by the Index Sponsor prior to the time period that is 12 calendar months prior to the time period referred to in “Latest Level” above.

- (b) If a Closing Price is published or announced at any time after the day that is five Business Days prior to the next following Payment Date under the Securities, such Closing Price will not be used in any calculations. The Substitute Index Level so determined pursuant to Part 2 – 1.1(a) will be the definitive level for that Reference Period.

If the Calculation Agent determines a Substitute Index Level in accordance with this Part 2 - 1.1, the Calculation Agent may make any adjustment or adjustments (without limitation) to (x) the

Substitute Index Level determined in accordance with this Part 2 - 1.1 and/or (y) any amount payable under the Securities and/or any other relevant term of the Securities, in each case, as the Calculation Agent deems necessary.

1.2 Cessation of Publication

If the Calculation Agent determines that the level of an Inflation Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will not longer continue to publish or announce the Inflation Index and/or the Index Sponsor cancels the Inflation Index, then the Calculation Agent shall determine a successor index (a “**Successor Index**”) (in lieu of any previously applicable Inflation Index) for the purposes of the Securities as follows:

- (i) if at any time, a successor index has been designated by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond, such successor index shall be designated a Successor Index for the purposes of all subsequent Payment Dates in relation to the Securities, notwithstanding that any other Successor Index may previously have been determined under paragraphs (ii), (iii) or (iv) below;
- (ii) if a Successor Index has not been determined under paragraph (i) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Securities from the date that such replacement index comes into effect;
- (iii) if a Successor Index has not been determined under paragraphs (i) or (ii) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the “Successor Index”. If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the “Successor Index”. If fewer than three responses are received, the Calculation Agent will proceed to paragraph (iv) hereof;
- (iv) if no Successor Index has been determined under paragraphs (i), (ii) and (iii) above by the fifth Business Day prior to the next following Payment Date under the Securities, the Calculation Agent will determine an appropriate alternative index for such date, acting in good faith and in a commercially reasonable manner, and such index will be deemed the “Successor Index”;
- (v) if the Calculation Agent determines that no alternative index is appropriate, the Calculation Agent shall consider such event as an event triggering an early redemption of the Securities. In that case, the Calculation Agent shall terminate its obligations under the Securities and pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities.

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the Inflation Index for the purposes of the Securities.

If a Successor Index is determined in accordance with this Part 2 - 1.2, the Calculation Agent may make any adjustment or adjustments (without limitation) to any amount payable under the Securities and/or any other relevant term of the Securities as the Calculation Agent deems necessary.

1.3 **Rebasing of the Inflation Index**

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the “**Rebased Index**”) will be used for purposes of determining the Closing Price from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Fallback Bond, if any, to the level of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Fallback Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Securities.

1.4 **Material Modification Prior to Payment Date**

If, on or prior to the day that is five Business Days prior to the next following Payment Date under the Securities, the Index Sponsor announces that it will make a material change to the Inflation Index, then the Calculation Agent, acting in good faith and in a commercially reasonable manner, shall make any such adjustments to the Inflation Index consistent with adjustments made to the Fallback Bond, or, if there is no Fallback Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index.

1.5 **Manifest Error in Publication**

If, within the earlier of (i) 30 days of publication, and (ii) the day that is five Business Days prior to the next following Payment Date under the Securities, the Calculation Agent determines that the Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent may make any adjustment to any amount payable under the Securities and/or any other relevant term of the Securities as the Calculation Agent deems appropriate as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction.

2. **Change in Law, Hedging Disruption, Increased Cost of Hedging - Consequences**

2.1 **Change in Law, Hedging Disruption, Increased Cost of Hedging**

“**Change in Law**” means in respect of Securities that have one or more Inflation Index(ices) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Securities (i) due to the adoption of any change in any applicable law or regulation (including, without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority) or the combined effect thereof if occurring more than once, the Calculation Agent determines in good faith that it has become illegal for the Issuer or the Hedge Entity to hold, acquire or dispose of Hedge Positions or to maintain any agreement entered into with the Hedge Entity by the Issuer of the Securities, relating to the Underlying of the Securities (the “**Affected Underlying**”).

“**Hedging Disruption**” means in respect of Securities that have one or more Inflation Index(ices) as Underlying(s), that the Hedge Entity is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) or any futures or options contract(s) it deems necessary to hedge the market risk (or any relevant price risk, including but not limited to the currency risk) of the Issuer entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the “**Affected Jurisdiction**”) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

“Increased Cost of Hedging” means, in respect of Securities that have one or more Inflation Index(ices) as Underlying(s), that the Hedge Entity would incur a materially increased (as compared with circumstances existing on the date(s) on which the Hedge Entity enters into the Hedge Positions in respect of the Securities) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, price risk, foreign exchange risk and interest rate risk) of entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities, or (b) freely realise, recover or remit the proceeds of the proceeds of its Hedge Positions.

2.2 Consequences

In case of the occurrence of a Change in Law, a Hedging Disruption or an Increased Cost of Hedging relating to an Inflation Index (the **“Affected Underlying”**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities; or
- B. determine an appropriate alternative index to replace the Inflation Index for the purposes of the Securities and adjust any relevant terms of the Securities; or
- C. only in the case of Increased Cost of Hedging, deduct:
 - (A) in respect of Notes only, from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by the Hedge Entity, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the **“Reduction Amount”**); provided however that if on an Interest Payment Date on which a Reduction Amount would otherwise be deducted from the Interest Amount, the Reduction Amount in respect of one Security is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (B) in respect of Notes only and in the absence of any Interest Amount, (a) from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note, whichever comes first, and (b) in the absence of any Intermediate Amount, Instalment Amount, Optional Redemption Amount or Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost

Hedging, the Reduction Amount (the result of such deduction being floored at zero); or

- (C) in respect of Warrants only, (a) from the Optional Cancellation Amount (if any) or the Cancellation Amount (if any) due under one Warrant, whichever comes first, and (b) in the absence of any Optional Cancellation Amount or Cancellation Amount in respect of the Warrants, from the Settlement Amount due under one Warrant on the Settlement Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).

PART 3 – CALCULATIONS BY THE CALCULATION AGENT

- (a) Unless otherwise specified in the applicable Offering Circular Supplement, and in respect of Securities to which this Inflation Technical Annex applies, the Calculation Agent responsible for calculating the Rate of Interest and/or the Final Redemption Amount and/or the Settlement Amount and/or interest payable and/or the Early Redemption Amount and/or the Cancellation Amount and/or Optional Redemption Amount and/or Optional Cancellation Amount (in each case to the extent applicable) shall be Société Générale of 17 cours Valmy, 92987 Paris La Défense Cedex, France. The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Agents and the Holders, in the absence of manifest error or proven error.
- (b) Following the occurrence of an event giving rise to an Adjustment which is substantial in the opinion of the Calculation Agent or of an Extraordinary Event affecting an Underlying, the Calculation Agent shall notify the Issuer, which shall in its turn notify the Issuing and Paying Agent or Warrant Agent, as applicable, and the Holders pursuant to the provisions of Condition 15 (*Notices*) of the Conditions of the Securities of the relevant adjustment made or decision taken by the Calculation Agent. Details of such adjustment made or decision taken can be obtained by the Holders upon request at the Calculation Agent's specified address.

FOREIGN EXCHANGE RATE TECHNICAL ANNEX

For the purpose hereof:

- (a) “**Price Source Disruption**” means that it becomes impossible to obtain the rate or rates from which the Closing Price is calculated.
- (b) “**Illiquidity Disruption**” means the occurrence of any event in respect of any Foreign Exchange Rate whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on the relevant Averaging Date or any Valuation Date.
- (c) “**Dual Exchange Rate**” means that the Foreign Exchange Rate splits into dual or multiple foreign exchange rates.

“**Foreign Exchange Rate**” means any exchange rate expressed as X/Y (X and Y are currencies) and specified as Underlying in the applicable Offering Circular Supplement. “**Hedge Entity**” means the Issuer and any party and/or such party’s affiliates (which may, for the avoidance of doubt, include Société Générale and/or any of its affiliates) with which the Issuer enters into one or any number of arrangements in order to hedge the Issuer’s obligations to make any payment in respect of the relevant Foreign Exchange Rate Linked Securities.

“Settlement Date” means, in relation to Warrants only, the date determined in accordance with Condition 21(e) (*General*), unless otherwise specified in the applicable Offering Circular Supplement.

“Settlement Disruption Event” means, in respect of any Warrant that has been validly exercised (whether by delivery of an Exercise Notice or the application of Automatic Exercise) or in respect of which the Issuer has exercised its option to cancel early such Warrants, that the Warrant Full Liquidation Date and/or Optional Cancellation Date has not occurred on or before the fourth Business Day preceding the applicable Settlement Date.

“Substitute Price Source” means the substitute published source, information vendor or provider as specified in the applicable Offering Circular Supplement (if any) containing or reporting the rate or rates from which the Closing Price is calculated.

“Valuation Time” means the time at which the Price Source publishes the relevant rate or rates from which the Closing Price is calculated, as specified in the applicable Offering Circular Supplement.

PART 2 – CONSEQUENCES OF A DISRUPTION EVENT

1. If any Valuation Date or Averaging Date specified in the applicable Offering Circular Supplement (the **“Scheduled Valuation Date”** and the **“Scheduled Averaging Date”** respectively), is a Disrupted Day for a Foreign Exchange Rate, the Calculation Agent shall:

- (a) determine to apply any of the following methods:
 - (x) determine that the Valuation Date or Averaging Date for such Foreign Exchange Rate shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of such Foreign Exchange Rate, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or Scheduled Averaging Date is also a Disrupted Day. In that case, that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date for the Foreign Exchange Rate notwithstanding the fact that such day is a Disrupted Day, and the Calculation Agent shall determine, its good faith estimate of the fixing of the Foreign Exchange Rate as of the Valuation Time on that eighth Scheduled Trading Day and the good faith estimate of the fixing of the Foreign Exchange Rate so calculated shall be deemed the Closing Price;

Provided however that if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day

following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (x) above, and the good faith estimate of the fixing of the Foreign Exchange Rate so calculated shall be deemed the Closing Price; or

- (y) consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be (hereafter an “**Early Redemption Event**” or a “**Cancellation Event**” respectively). In the case where an Early Redemption Event or a Cancellation Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities, as the case may be; or;
- (z) determine that the Issuer will apply Monetisation until the Maturity Date or Expiration Date (as set out at Part 3 - 1 below); and/or
- (b) postpone any payment date related to such Averaging Date or Valuation Date (including, if applicable, the Maturity Date or Expiration Date, as applicable, until the fourth Business Day following the date on which a Disruption Event is no longer subsisting. No interest or other amount shall be paid by the Issuer in respect of such postponement.

PART 3 – MONETISATION UNTIL THE MATURITY DATE OR EXPIRATION DATE

1. Monetisation until the Maturity Date (in the case of Notes only)

Following the occurrence of an event giving rise to Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (A) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (B) the Optional Redemption Amount on the Optional Redemption Date and/or (C) the Final Redemption Amount as defined in the applicable Offering Circular Supplement on the Maturity Date, but instead will, in full and final satisfaction of its obligations pay an amount described in sub-paragraphs (i), (ii) and/or (iii) below.

(i) *Monetisation of any Intermediate Amount*

- (A) *In respect of the payment of any Intermediate Amount as defined in the applicable Offering Circular Supplement which could be as low as zero*

Pursuant to the provisions of Part 3 – 1, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a Calculation Amount for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a Calculation Period) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (B) *In respect of the payment of any Intermediate Amount as defined in the applicable Offering Circular Supplement which cannot be in any case lower than a positive amount (the “**Minimum Intermediate Amount**”)*

Pursuant to the provisions of Part 3 – 1, the Issuer shall pay (a) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (i) (1) the net positive cash amount that the Hedge Entity would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a Calculation Amount for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a Calculation Period) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and
- (ii) an amount equal to the Minimum Intermediate Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; and/or,

(ii) ***Monetisation of any Optional Redemption Amount***

- (A) *In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

Pursuant to the provisions of Part 3 – 1, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a Calculation Amount for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a Calculation Period) between (x) the

Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (B) *In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Offering Circular Supplement cannot be in any case lower than a positive amount (the “**Optional Minimum Redemption Amount**”)*

Pursuant to the provisions of Part 3 – 1, the Issuer shall pay (a) on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (i) (1) the net positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating, the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a Calculation Amount for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a Calculation Period) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and
- (ii) an amount equal to the Optional Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero; and/or,

(iii) ***Monetisation of the Final Redemption Amount***

- (A) *In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

Pursuant to the provisions of Part 3 – 1, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a Calculation Amount for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the

Compounding Method shall be a Calculation Period) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (B) *in respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Offering Circular Supplement cannot be in any case lower than a positive amount (the “Minimum Redemption Amount”)*

Pursuant to the provisions of Part 3 – 1, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (a) the Minimum Redemption Amount and (b) an amount, equal to the positive difference, if any, between:

- (i) (1) the net positive cash amount that the Hedge Entity would be left with on the Full Liquidation Date, as a result of liquidating, the Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a Calculation Amount for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); and
- (ii) an amount equal to the Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

2. **Monetisation until the Expiration Date (in respect of Warrants only)**

If, in relation to Warrants only, “Issuer Call Option” is specified as being applicable in the Offering Circular Supplement of the relevant Warrants:

Following the occurrence of an event giving rise to Monetisation Until Maturity Date, the Issuer shall no longer be liable for the payment of (A) the Optional Cancellation Amount on the Optional Cancellation Date and/or (B) the Settlement Amount on the Expiration Date, but instead will, in full and final satisfaction of its obligations pay an amount described in sub-paragraphs (i) and/or (ii) below.

(i) ***Monetisation of any Optional Cancellation Amount***

- (A) *In respect of the settlement of Warrants whose Optional Cancellation Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

Pursuant to the provisions of Part 3 - 2, the Issuer shall pay on the Expiration Date an amount per Warrant, determined by the Calculation Agent, based on (a) the net

positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (B) *in respect of the redemption of Warrants whose Optional Settlement Amount as defined in the applicable Offering Circular Supplement cannot be in any case lower than a positive amount (the “**Optional Minimum Settlement Amount**”)*

Pursuant to the provisions of Part 3 - 2, the Issuer shall pay (a) on the Optional Settlement Date an amount per Warrant equal to the Optional Minimum Settlement Amount and (b) on the Expiration Date an amount per Warrant, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (i) (1) the net positive cash amount that the Hedge Entity would be left with on the Optional Full Liquidation Date, as a result of liquidating, the Optional Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Expiration Date (excluded); and
- (ii) an amount equal to the Optional Minimum Settlement Amount;

For the avoidance of doubt, the liquidation proceeds of any assets held by the Hedge Entity as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Hedge Entity under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero; and/or,

(ii) ***Monetisation of any Settlement Amount***

- (A) *In respect of the settlement of Warrants whose Settlement Amount as defined in the applicable Offering Circular Supplement could be as low as zero*

Pursuant to the provisions of Part 3 - 2, the Issuer shall pay on the Expiration Date an amount per Warrant, determined by the Calculation Agent, based on (a) the net positive cash amount that the Hedge Entity would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Warrant Full Liquidation Date, is a “**Calculation Amount**” for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a “**Calculation Period**”) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Expiration Date (excluded).

1. Change in Law, Hedging Disruption, Increased Cost of Hedging

1.1 Upon the occurrence or likely occurrence, as determined by the Calculation Agent, of any of the following events (each an “**Extraordinary Event**”) on or after the Issue Date:

- (a) “**Change in Law**” means, in respect of Securities that have one or more Foreign Exchange Rate(s) as Underlying(s), that on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Securities (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), or the combined effect thereof if occurring more than once, the Calculation Agent determines in good faith that it has become illegal for the Issuer or the Hedge Entity to hold, acquire or dispose of Hedge Positions or to maintain any agreement entered into with the Hedge Entity by the Issuer of the Securities, relating to the Underlying of the Securities (the “**Affected Underlying**”).
- (b) “**Hedging Disruption**” means, in respect of Securities that have one or more Foreign Exchange Rate(s) as Underlying(s), that the Hedge Entity is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) or any futures or options contract(s) it deems necessary to hedge the market risk (or any relevant price risk including but not limited to the currency risk) of entering into and performing its obligations with respect to the Securities or any agreement entered into with the Hedge Entity by the Issuer in relation to the Securities, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the “**Affected Jurisdiction**”) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

1.2 Consequences

In case of the occurrence of a Change in Law, a Hedging Disruption or an Increased Cost of Hedging relating to a Foreign Exchange Rate (the “**Affected Underlying**”), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes or a cancellation of the Warrants, as the case may be. In that case, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid an Early Redemption Amount or Cancellation Amount, as applicable, in accordance with the provisions of Condition 7(g) (*Technical Annex Redemption*) or Condition 24(d) (*Technical Annex Cancellation*) of the Conditions of the Securities; or

- B. determine an appropriate alternative exchange rate to replace the Foreign Exchange Rate for the purposes of the Securities and adjust any relevant terms of the Securities; or
- C. determine that the Issuer will apply Monetisation until the Maturity Date or Expiration Date (as defined above); or
- D. only in the case of Increased Cost of Hedging, deduct:
 - (A) in respect of Notes only, from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by the Hedge Entity, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the “Reduction Amount”); provided however that if on an Interest Payment Date on which a Reduction Amount would otherwise be deducted from the Interest Amount, the Reduction Amount in respect of one Security is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (B) in respect of Notes only and in the absence of any Interest Amount, (a) from the Intermediate Amount (if any), the Instalment Amount (if any), the Optional Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note, whichever comes first, and (b) in the absence of any Intermediate Amount, Instalment Amount, Optional Redemption Amount or Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero); or
 - (C) in respect of Warrants only, (a) from the Optional Cancellation Amount (if any) or the Cancellation Amount (if any) due under one Warrant, whichever comes first, and (b) in the absence of any Optional Cancellation Amount or Cancellation Amount in respect of the Warrants, from the Settlement Amount due under one Warrant on the Settlement Date, in each case after the occurrence of the Increased Cost Hedging, the Reduction Amount (the result of such deduction being floored at zero).]

The Clearing System Warrants of each Tranche offered and sold in reliance on Regulation S in offshore transactions to non-U.S. persons outside the United States, will be represented on issue by a Clearing System Global Warrant which will be deposited on or about the issue date of the relevant Warrants on behalf of the subscribers of the relevant Warrants (a) in the case of a Series intended to be cleared through Euroclear and/or Clearstream, Luxembourg with a Common Depositary or (b) in the case of a Series intended to be cleared through a clearing system other than Euroclear or Clearstream, Luxembourg, as agreed between the Issuer, the Warrant Agent, the Trustee and the relevant Dealer. For the avoidance of doubt, each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or any Alternative Clearing System as the Holder of a beneficial interest in a Warrant must look solely to Euroclear, Clearstream, Luxembourg, or any such Alternative Clearing System (as the case may be) for his share of each payment made by the Issuer to the Holder of the Clearing System Global Warrant and (ii) the Common Depositary for the relevant Clearing System is entitled to receive an aggregate amount from the relevant Issuer in respect of all amounts due to such beneficial holders of the Warrants, and in relation to all other rights arising under the Warrants, subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream, Luxembourg, or any such Alternative Clearing System (as the case may be). Such persons shall have no claim directly against the Issuer in respect of payments due in respect of the Warrants for so long as the Warrants are represented by such Clearing System Global Warrant and such obligations of the Issuer will be discharged by payment to the Holder of the Clearing System Global Warrant in respect of each amount so paid.

5. **GLOBAL REGISTERED SECURITIES**

If specified in the relevant Offering Circular Supplement, the Global Registered Securities of each Tranche offered and sold in reliance on Regulation S, which will be sold in offshore transactions to non-U.S. persons outside the United States, will initially be represented by a Global Registered Security, without, in the case of Global Registered Notes, Receipts or Coupons (a “**Global Registered Security**”).

The Global Registered Securities will be deposited on or about the issue date of the relevant Securities on behalf of the subscribers of the relevant Securities (a) in the case of a Series intended to be cleared through Euroclear and/or Clearstream, Luxembourg with a nominee for, and registered in the name of a nominee of, either (i) the Common Depositary (if, in the case of Registered Notes, the Global Registered Note is not intended to be issued in Eurosystem-eligible NSSGRN form) or (ii) Euroclear and Clearstream, Luxembourg acting as common safekeeper (if, in the case of Registered Notes only, the Global Registered Note is intended to be issued in Eurosystem-eligible NSSGRN form); or (b) in the case of a Series intended to be cleared through a clearing system other than Euroclear or Clearstream, Luxembourg, as agreed between the Issuer, the Issuing and Paying Agent or Warrant Agent (as applicable), the Trustee and the relevant Dealer.

6. **EXCHANGE**

6.1 **Temporary Global Notes**

Each temporary Global Bearer Note will be exchangeable, free of charge to the Holder, on or after its Exchange Date:

- (i) if the relevant Offering Circular Supplement indicates that such Global Bearer Note is issued in compliance with U.S. Treas. Reg. §1.163-5(c)(2)(i)(C) or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code (the “**TEFRA C Rules**”) or in a transaction to which the United States Tax Equity and Fiscal Responsibility Act of 1982 is not applicable, in whole, but not in part, for the Definitive Notes defined and described below; and
- (ii) otherwise, in whole or in part, on or after the date which is 40 days after the completion of the distribution of all of the Notes of the relevant Tranche (as determined and certified by the relevant Dealer) (the “**Distribution Compliance Period**”) upon certification as to non-U.S. beneficial ownership in the form set out in the Agency Agreement, for interests in a permanent Global Bearer Note or, if so provided in the relevant Offering Circular Supplement, for Definitive Bearer Notes.

Each temporary Global Bearer Note that is also an Exchangeable Bearer Note will be exchangeable for Registered Notes in accordance with the Conditions in addition to any permanent Global Bearer Note or Definitive Bearer Notes for which it may be exchangeable and, before its Exchange Date, will also be exchangeable in whole or in part for Registered Notes only.

6.2 Permanent Global Notes

Each permanent Global Bearer Note will be exchangeable, free of charge to the Holder, on or after its Exchange Date in whole but not, except as provided under “**Partial Exchange of Permanent Global Notes**”, in part for Definitive Bearer Notes or, in the case of (iii) below, Registered Notes:

- (i) if an Event of Default (as defined in Condition 10 (*Events of Default*)) has occurred and is continuing;
- (ii) if, on the occasion of the next payment in respect of any Global Bearer Notes, the Issuer would be required to withhold amounts as referred to in Condition 7(d)(ii) (*Withholding and Redemption of Notes for Taxation Reasons*) and such withholding would not be required if such Global Bearer Note was in definitive form; provided, however, that if the relevant Global Bearer Note is issued in respect of a Tranche of Notes described as Partly paid Notes in the applicable Offering Circular Supplement, such Global Bearer Note may be exchanged for Definitive Bearer Notes with (to the extent applicable) Coupons, Receipts and/or Talons attached only if the final part payment on all such Partly paid Notes then outstanding has been paid;
- (iii) if the permanent Global Bearer Note is an Exchangeable Bearer Note, by the Holder giving notice to the Issuing and Paying Agent of its election to exchange the whole or a part of such Global Bearer Note for Registered Notes; and
- (iv) otherwise if the permanent Global Bearer Note is held on behalf of Euroclear, Clearstream, Luxembourg or any other clearing system (an “**Alternative Clearing System**”) and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or in fact does so.

6.3 Clearing System Global Warrants

Clearing System Global Warrants will be exchangeable in whole but not in part (free of charge to the Warrantholders) for Definitive Registered Warrants if such Clearing System Global Warrant is held by Euroclear, Clearstream, Luxembourg or an Alternative Clearing System and such clearing system is closed for business for a continuous period of 14 Business Days (other than by reason of holiday, statutory or otherwise) or which announces an intention permanently to cease business or does so cease business and no alternative clearing system satisfactory to the Issuer and the Warrant

Agent is available, in which case the Issuer will deliver, or arrange delivery of, Definitive Registered Warrants, serially numbered to the Warrantholders.

6.4 **Global Registered Securities**

If the Offering Circular Supplement states that the Securities are to be represented by a Global Registered Security on issue, the following will apply in respect of transfers of Securities held in Euroclear or Clearstream, Luxembourg or an Alternative Clearing System. These provisions will not prevent the trading of interests in the Securities within a clearing system whilst they are held on behalf of such clearing system, but will limit the circumstances in which the Securities may be withdrawn from the relevant clearing system.

Transfer of the holding of Securities represented by any Global Registered Security pursuant to Condition 2(b) (*Transfer of Registered Securities*) may only be made in part:

- (i) if the Securities represented by the Global Registered Security are held on behalf of Euroclear or Clearstream, Luxembourg or an Alternative Clearing System and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so;
- (ii) with the consent of the Issuer,

provided that, in the case of the first transfer of part of a holding pursuant to paragraph 6.3(i) above, the Registered Holder has given the Registrar not less than 30 days' notice at its specified office of the Registered Holder's intention to effect such transfer. Where the holding of Securities represented by a Global Registered Security is only transferable in its entirety, the Security issued to the transferee upon transfer of such holding shall be a Global Registered Security. Where transfers are permitted in part, Securities issued to transferees shall not be Global Registered Securities unless the transferee so requests and certifies to the Registrar that it is, or is acting as a nominee for, Clearstream, Luxembourg, Euroclear and/or an authorised representative of an Alternative Clearing System.

6.5 **Partial Exchange of Permanent Global Notes**

For so long as a permanent Global Bearer Note is held on behalf of a clearing system and the rules of that clearing system permit, such permanent Global Bearer Note will be exchangeable in part on one or more occasions (i) for Registered Notes if the permanent Global Bearer Note is an Exchangeable Bearer Note and the part submitted for exchange is to be exchanged for Registered Notes; or (ii) for Definitive Bearer Notes (a) if principal in respect of any Notes is not paid when due; or (b) if so provided in, and in accordance with, the Conditions (which will be set out in the relevant Offering Circular Supplement) relating to partly paid Notes.

6.6 **Delivery of Notes**

On or after any due date for exchange the Holder of a Global Bearer Note may surrender such Global Bearer Note or, in the case of a partial exchange, present it for endorsement to or to the order of the Issuing and Paying Agent. In exchange for any Global Bearer Note, or the part thereof to be exchanged, the Issuer will (i) in the case of a temporary Global Bearer Note exchangeable for a permanent Global Bearer Note, deliver, or procure the delivery of, a permanent Global Bearer Note in an aggregate nominal amount equal to that of the whole or that part of a temporary Global Bearer Note that is being exchanged or, in the case of a subsequent exchange, endorse, or procure the endorsement of, a permanent Global Bearer Note to reflect such exchange; or (ii) in the case of a Global Bearer Note exchangeable for Definitive Bearer Notes or Registered Notes, deliver, or procure the delivery of, an equal aggregate nominal amount of duly executed and authenticated Definitive Bearer Notes and/or Registered Notes, as the case may be. In this Offering Circular, “**Definitive Notes**” means, in relation to any Global Bearer Note, the Definitive Bearer Notes for

which such Global Bearer Note may be exchanged (if appropriate, having attached to them all Coupons and Receipts in respect of interest or Instalment Amounts that have not already been paid on the Global Bearer Note and a Talon). Definitive Bearer Notes will be security printed and Registered Notes will be printed in accordance with any applicable legal and stock exchange requirements in or substantially in the form set out in the Schedules to the Trust Deed. On exchange in full of each permanent Global Bearer Note, the Issuer will, if the Holder so requests, procure that it is cancelled and returned to the Holder together with the relevant Definitive Bearer Notes.

6.7 Exchange Date

“**Exchange Date**” means, in relation to a temporary Global Bearer Note, the day falling after the expiry of 40 days after its issue date and, in relation to a permanent Global Bearer Note, a day falling not less than 60 days, or in the case of an exchange for Registered Notes five days, or in the case of failure to pay principal in respect of any Notes when due 30 days, after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office of the Issuing and Paying Agent is located and in the city in which the relevant clearing system is located.

7. AMENDMENT TO CONDITIONS

The temporary Global Bearer Notes, permanent Global Bearer Notes, Clearing System Global Warrants, Global Registered Notes and Global Registered Warrants contain provisions that apply to the Notes or Warrants, as the case may be, that they represent, some of which modify the effect of the terms and conditions of the Notes or Warrants, as the case may be, set out in this Offering Circular. The following is a summary of those provisions:

7.1 Payments

No payment falling due after the Exchange Date will be made on any Global Bearer Note unless exchange for an interest in a permanent Global Bearer Note or for Definitive Bearer Notes or Registered Notes is improperly withheld or refused. Payments on any temporary Global Bearer Note issued in compliance with the U.S. Treas. Reg. §1.163-5(c)(2)(i)(D) or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code (the “**TEFRA D Rules**”) before the Exchange Date will only be made against presentation of certification as to non-U.S. beneficial ownership in the form set out in the Agency Agreement. All payments in respect of Notes represented by a Global Bearer Note will be made against presentation for endorsement (unless in the case of a temporary or permanent Global Bearer Note issued by either Iris or Iris II the relevant Offering Circular Supplement indicates that such Note is intended to be in NGN form) and, if no further payment falls to be made in respect of the Notes, surrender of that Global Bearer Note to or to the order of the Issuing and Paying Agent or such other Paying Agent as shall have been notified to the Noteholders for such purpose.

On any payment so made in respect of any Notes represented by Global Bearer Notes:

- (i) if the relevant Offering Circular Supplement indicates that such Global Bearer Note issued by either Iris or Iris II is intended to be a New Global Note, details of such payment shall be entered *pro rata* in the records of the relevant Clearing Systems, whereupon the nominal amount of the Notes recorded in the records of the relevant Clearing Systems and represented by the Global Bearer Note shall be reduced by the amount of such payment (in the case of principal only); or
- (ii) if the relevant Offering Circular Supplement indicates that such Global Bearer Note issued by either Iris or Iris II is not intended to be a New Global Note, a record of each payment so made will be endorsed on each Global Bearer Note, which endorsement will be *prima facie* evidence that such payment has been made in respect of the Notes.

Payments due in respect of Notes for the time being represented by a Global Bearer Note shall be made to the bearer of the Global Bearer Note and each payment so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries referred to above shall not affect such discharge.

Paragraph (B) of Condition 7(d)(iii) (*Withholding and Redemption of Notes for Taxation and other Reasons*) (if the requirement to withhold or account for tax set out in Condition 7(d)(ii)(A) (*Withholding and Redemption of Notes for Taxation Reasons*) arises as a result of the presentation for payment of any Global Bearer Note, Receipt or Coupon by or on behalf of a Holder who would have been able to avoid such withholding or deducting by presenting the relevant Global Bearer Note, Receipt or Coupon to another Paying Agent in a Member State of the European Union) and Condition 8(d) (*Appointment of Agents and Custodian*) will not apply to the Global Notes.

7.2 Discharge

For the purpose of any payments made in respect of a Global Bearer Note, the relevant place of presentation shall be disregarded in the definition of "business day" set out in Condition 27(a) (*Definitions*).

All payments in respect of Notes represented by a Global Registered Note will be made to, or to the order of, the person whose name is entered on the Register at the close of business on the Clearing System Business Day immediately prior to the date for payment, whose Clearing Business Day means Monday to Friday inclusive except 25 December and 1 January.

7.3 Prescription

Claims against the Issuer in respect of Notes that are represented by a permanent Global Bearer Note or Global Registered Note will become void unless it is presented for payment within a period of ten years (in the case of principal) and five years (in the case of interest) from the appropriate Relevant Date (as defined in the Conditions).

7.4 Meetings

The Holder of a permanent Global Bearer Note, Clearing System Global Warrant or beneficial interest in a Global Registered Security shall (unless such permanent Global Bearer Note, Clearing System Global Warrant or Global Registered Security represents only one Security) be treated as being two persons for the purposes of any quorum requirements of a meeting of Holders and, at any such meeting (i) in the case of Bearer Notes, the Holder of a permanent Global Bearer Note shall be treated as having one vote in respect of each minimum Specified Denomination of Notes for which such Global Bearer Note may be exchanged and (ii) in the case of Clearing System Warrants, the Holder of a Clearing System Global Warrant shall be treated as having one vote in respect of each Warrant represented by such Clearing System Global Warrant. (All Holders of Registered Securities are entitled to one vote in respect of each Security comprising such Holder's holding, whether or not represented by a Global Registered Security.)

7.5 Cancellation

Cancellation of any Security represented by a permanent Global Bearer Note, Clearing System Global Warrant or Global Registered Security that is required by the Conditions to be cancelled (other than upon its redemption or exercise, as the case may be) will be effected by (i) in the case of Notes, reduction in the nominal amount of the relevant permanent Global Bearer Note or Global Registered Note and (ii) in the case of Warrants, reduction in the number of Warrants represented by the Clearing System Global Warrant or Global Registered Warrant.

7.6 Purchase

Notes represented by a permanent Global Bearer Note or Global Registered Note may only be purchased by the Issuer if they are purchased together with the rights to receive all future payments of interest and Instalment Amounts (if any) thereon.

7.7 Issuer's Option

Any option of the Issuer provided for in the Conditions of any Securities while such Securities are, in the case of Notes, represented by a permanent Global Bearer Note or Global Registered Note or, in the case Warrants, represented by a Clearing System Global Warrant or Global Registered Warrant, shall be exercised by the Issuer giving notice to the relevant Holders within the time limits set out in and containing the information required by the Conditions, except that the notice shall not be required to contain the certificate numbers of Securities drawn in the case of a partial exercise of an option and accordingly no drawing of Securities shall be required. In the event that any option of the Issuer is exercised in respect of some but not all of the Securities of any Series, the rights of accountholders with a clearing system in respect of the Securities will be governed by the standard procedures of Euroclear and/or Clearstream, Luxembourg, where applicable (to be reflected in the records of Euroclear and/or Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount or otherwise, in each case at their discretion) or any other Alternative Clearing System (as the case may be).

7.8 Noteholders' Options

Any option of the Noteholders provided for in the Conditions of any Notes while such Notes are represented by a permanent Global Bearer Note or Global Registered Note may be exercised by the Holder of the permanent Global Bearer Note or Global Registered Note giving notice to the Issuing and Paying Agent within the time limits relating to the deposit of Notes with a Paying Agent set out in the Conditions substantially in the form of the notice available from any Paying Agent, except that the notice shall not be required to contain the certificate numbers of the Notes in respect of which the option has been exercised, and stating the nominal amount of Notes in respect of which the option is exercised and at the same time, where the permanent Global Note is not an NGN or where the Global Registered Note is not an NSSGRN, presenting the permanent Global Bearer Note or Global Registered Note to the Issuing and Paying Agent, or to a Paying Agent acting on behalf of the Issuing and Paying Agent, for notation. Where the Global Note is an NGN or where the Global Registered Note is an NSSGRN, the Issuer shall procure that details of such exercise shall be entered *pro rata* in the records of the relevant clearing system and the nominal amount of the Notes recorded in those records will be reduced accordingly.

7.9 Trustee's Powers

In considering the interests of Holders while any Global Bearer Note or Global Registered Security is held on behalf of, or Registered Securities are registered in the name of any nominee for, a clearing system, the Trustee may have regard to any information provided to it by such clearing system or its operator as to the identity (either individually or by category) of its accountholders with entitlements to such Global Bearer Note or Global Registered Security and may consider such interests as if such accountholders were the Holders of the Securities represented by such Global Bearer Note or Global Registered Security, as the case may be.

7.10 Notices

So long as any Securities are represented by a Global Bearer Note, Clearing System Global Warrant or Global Registered Security and such Global Bearer Note, Clearing System Global Warrant or Global Registered Security is held on behalf of a clearing system, notices to the Holders of Securities of that Series may be given by delivery of the relevant notice to that clearing system for communication by it to entitled accountholders in substitution for publication as required by the Conditions or by delivery of the relevant notice to the Holder of the Global Bearer Note, Clearing System Global Warrant or Global Registered Security except that for so long as the Securities are

listed on the Irish Stock Exchange, notices shall also be filed with the Company Announcements Office of the Irish Stock Exchange.

8. **PARTLY PAID NOTES**

The provisions relating to partly paid Notes are not set out in this Offering Circular, but will be contained in the relevant Offering Circular Supplement and thereby in the Global Bearer Notes and Global Registered Notes. While any instalments of the subscription moneys due from the Holder of partly paid Notes are overdue, no interest in a Global Bearer Note or Global Registered Note representing such Notes may be exchanged for Definitive Bearer Notes or Definitive Registered Notes (as the case may be). If any Noteholder fails to pay any instalment due on any partly paid Notes within the time specified, the Issuer may forfeit such Notes and shall have no further obligation to their Holder in respect of them.

BOOK-ENTRY CLEARANCE PROCEDURES

The information set out below has been obtained from sources that the Issuer believes to be reliable, but prospective investors are advised to make their own enquiries as to such procedures. In particular, such information is subject to any change in or reinterpretation of the rules, regulations and procedures of Euroclear or Clearstream, Luxembourg currently in effect and investors wishing to use the facilities of any of the Clearing Systems are therefore advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. The Issuer accepts responsibility solely for the correct reproduction of the information contained in this Section. None of the Issuer, the Trustee, the Arrangers, the Dealers or any Agent party to the Agency Agreement (or any Affiliate of any of the above, or any person by whom any of the above is controlled for the purposes of the Securities Act), will have any responsibility for the performance by the Clearing Systems or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations or for the sufficiency for any purpose of the arrangements described below.

Euroclear and Clearstream, Luxembourg

Custodial and depositary links have been established with Euroclear and Clearstream, Luxembourg to facilitate the initial issue of the Securities and transfers of the Securities associated with secondary market trading. (See “*Settlement and Transfer of Interests in Global Bearer Notes, Clearing System Global Warrants and Global Registered Securities*” below).

Euroclear and Clearstream, Luxembourg each hold securities for their customers and facilitate the clearance and settlement of securities transactions through electronic book-entry transfer between their respective accountholders. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions which clear through or maintain a custodial relationship with an accountholder of either system. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depositary and custodial relationships. Euroclear and Clearstream, Luxembourg and DTC have established an electronic bridge between their two systems across which their respective customers may settle trades with each other. Their customers are world-wide financial institutions including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Investors may hold their interests in the Global Securities directly through Euroclear or Clearstream, Luxembourg if they are accountholders (“**Direct Participants**”) or indirectly (“**Indirect Participants**” and together with Direct Participants, “**Participants**”) through organisations which are accountholders therein.

Distributions of payments with respect to interests in the Global Securities, held through Euroclear or Clearstream, Luxembourg, as applicable, will be credited to the extent received, to the cash accounts of Euroclear and Clearstream, Luxembourg participants in accordance with the relevant system’s rules and procedures.

As Euroclear and Clearstream, Luxembourg act on behalf of their respective accountholders only, who in turn may act on behalf of their respective clients, the ability of beneficial owners who are not accountholders with Euroclear or Clearstream, Luxembourg to pledge interests in the Global Securities to persons or entities that are not accountholders with Euroclear or Clearstream, Luxembourg, or otherwise take action in respect of interests in the Global Securities, may be limited.

Book-Entry Ownership

Each Global Security intended to be cleared through Euroclear and Clearstream, Luxembourg will have an ISIN and a Common Code and each such Global Security will be registered in the name of HSBC Issuer Services Common Depositary Nominee (UK) Limited as nominee for, and deposited with HSBC Bank plc as common depositary on behalf of, Euroclear and Clearstream, Luxembourg (the “**Common Depositary**”), unless the relevant Offering Circular Supplement indicates that, in the case of Notes only (a) any such Global Note that is a Global Bearer Note issued by either Iris or Iris II is intended to be a New Global Note or (b) any such Global Registered Note is intended to be a NSS Global Note (as the case may

be), in which case it will be deposited with a common safekeeper for Euroclear and Clearstream, Luxembourg (the “**Common Safekeeper**”).

Payments on Global Securities

Under the terms of the Trust Deed, the Issuer and the Trustee will treat the registered Holder of the Global Securities (being the Common Depositary or Common Safekeeper, as the case may be) as the owner thereof for the purposes of receiving payments and for all other purposes. Consequently, none of the Issuer, the Trustee or any agent of the Issuer or the Trustee has or will have any responsibility or liability for:

- (a) any aspect of the records of Euroclear or Clearstream, Luxembourg or any Participant or Indirect Participant relating to or payments made on account of an ownership interest in a Global Security (a “**Book-Entry Interest**”) or for maintaining, supervising or reviewing any of the records of Euroclear or Clearstream, Luxembourg or any Participant or Indirect Participant relating to or payments made on account of a Book-Entry Interest; or
- (b) Euroclear or Clearstream, Luxembourg or any Participant or Indirect Participant.

Payments by Participants to owners of Book-Entry interests in the Global Securities held through these Participants are the responsibility of such Participants, as is now the case with securities held for the accounts of customers registered in “street name”.

Settlement and Transfer of Interests in Global Securities

Subject to the rules and procedures of each applicable Clearing System, purchases of interests in the Global Securities held within a Clearing System must be made by or through Direct Participants, which will receive a credit for such interests in the Global Securities on the Clearing System’s records. The ownership interest of each actual purchaser of each such interest in a Global Security (the “**Beneficial Owner**”) will in turn be recorded on the Direct and Indirect Participant’s records. Beneficial Owners will not receive written confirmation from any clearing system of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which such Beneficial Owner entered into the transaction. Transfers of ownership interests in Global Securities held within the clearing system will be effected by entries made on the books of Participants acting on behalf of Beneficial Owners.

No Clearing System has knowledge of the actual Beneficial Owners of the Global Securities held within such Clearing Systems and their records will reflect only the identity of the Direct Participants to whose accounts such Global Securities are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers. Conveyance of notices and other communications by the Clearing Systems to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Book-Entry Interests owned through Euroclear and Clearstream, Luxembourg will follow the settlement procedures applicable to conventional eurobonds in registered form. Book-Entry Interests will be credited to the securities custody accounts of Euroclear and Clearstream, Luxembourg on the business day following the settlement date against payment for value on the settlement date.

Initial settlement

Upon the issuance of the Global Securities by the Issuer, Euroclear and Clearstream, Luxembourg, as applicable, will credit the respective principal amounts (in the case of Notes) or number of Warrants (in the case of Warrants) of the individual beneficial interests in the Global Securities, as applicable, to the relevant account holder(s), as notified by or on behalf of a Dealer. Ownership of beneficial interests in the Global Securities will be limited to persons who maintain accounts with Euroclear and Clearstream, Luxembourg, as applicable, or persons who hold interests through such persons. Ownership of beneficial interests in the Global Securities will be shown on, and the transfer of such interests will be effected only through, records

maintained by Euroclear and Clearstream, Luxembourg and in accordance with the applicable procedures of Euroclear and Clearstream, Luxembourg.

Unless Bearer Notes or Definitive Registered Securities are issued, owners of beneficial interests in Global Securities will not be entitled to have any portions of such Global Securities registered in their names, will not receive or be entitled to receive physical delivery of Securities in certificated form and will not be considered the owners or Holders of such Global Securities (or any Securities represented thereby) under the Trust Deed or the Securities.

In the event of an increase or decrease in (i) in the case of Notes, the aggregate nominal amount of Notes represented by any Global Note or (ii) in the case of Warrants, the aggregate number of Warrants represented by any Global Warrant, whether pursuant to the issue of additional Securities to be represented by such Global Security, the issue of Definitive Bearer Notes or Definitive Registered Securities, as applicable, the repurchase and cancellation of Securities represented by such Global Security (as a result of the application of Condition 2(g) (*Exchange of Interests in Registered Global Securities*) or otherwise) or, in the case of Warrants, the exercise of such Warrants, the Holder will present such Global Security to the Issuer or its agent for increase or decrease, as the case may be, of (a) in the case of Notes, the aggregate principal amount of Notes represented by such Global Note or (b) in the case of Warrants, the aggregate number of Warrants represented by such Global Warrant, by annotation thereon, unless the relevant Offering Circular Supplement indicates that, in the case of Notes only, any such Global Note, issued by either Iris or Iris II is intended to be a New Global Note or a NSS Global Note, as the case may be, in which case details of such increase or decrease in the aggregate nominal amount or repurchase or cancellation or otherwise shall be entered *pro rata* in the records of the relevant Clearing Systems, whereupon the nominal amount of the Notes recorded in the records of the relevant Clearing Systems and represented by such Global Note, shall be adjusted by the amount thereof.

Neither the Issuer, the Trustee nor any of their respective agents will have any responsibility or liability for any aspect of the records relating to beneficial ownership interests in the Global Securities for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Initial settlement for the Notes will be made in the currency of denomination of the Notes and for the Warrants will be made in the Specified Currency set out in the applicable Offering Circular Supplement.

Secondary Market Trading

The Book-Entry Interests will trade through Participants of Euroclear and Clearstream, Luxembourg and will settle in same-day funds.

Since the purchase determines the place of delivery, it is important to establish at the time of trading of any Book-Entry Interests where both the purchaser's and seller's accounts are located to ensure that settlement can be made on the desired value date.

Transfers between accountholders in Euroclear and Clearstream, Luxembourg will be effected in the ordinary way in accordance with their respective rules and operating procedures. Such transfers may be subject to certain restrictions. See "*Subscription and Sale*" and "*Selling Restrictions*".

Global Registered Securities and Definitive Registered Securities

The Global Registered Securities are exchangeable in whole but not in part for Definitive Registered Securities if and only if (i) Euroclear or Clearstream, Luxembourg (or any alternative clearing system on behalf of which the Global Registered Securities may be held) is closed for business for a continuous period of 14 days or more (other than by reason of legal holidays) or announces an intention permanently to cease business or does in fact do so; or (ii) any Security of the relevant Series becomes immediately redeemable or due to be cancelled following the occurrence of an Event of Default in relation thereto. Definitive Registered Securities will be issued in registered form only, without coupons (in the case of Notes), and will be registered in the name or names of such person or persons as the Holder of the Registered Security shall notify the Registrar. It is expected that such notification will be based upon directions received by the

Registrar from Euroclear and Clearstream, Luxembourg as applicable as to ownership of beneficial interests in the Registered Security.

Definitive Registered Securities issued in exchange for interests in a Global Registered Securities will bear the legends as set out in the “*Selling Restrictions*”.

Each permanent Global Bearer Note will be exchangeable, free of charge to the Holder, on or after its Exchange Date in whole but not in part for Definitive Bearer Notes (or, if so specified in the Supplemental Trust Deed, for Registered Notes (in the case of Exchangeable Bearer Notes) or for a combination of Definitive Bearer Notes and Registered Notes), if (i) any Note of the relevant Series becomes immediately redeemable following the occurrence of an Event of Default in relation thereto; or (ii) the permanent Global Bearer Note is held on behalf of Euroclear or Clearstream, Luxembourg or any other clearing system (an “**Alternative Clearing System**”) and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or in fact does so.

Clearing System Global Warrants will be exchangeable in whole but not in part (free of charge to the Warrantholders) for Definitive Registered Warrants if and only if (i) both Euroclear and Clearstream, Luxembourg are closed for business for a continuous period of 14 Business Days (other than by reason of holidays, statutory or otherwise) or announce an intention permanently to cease business or do so cease business and no alternative clearing system satisfactory to the Issuer and the Warrant Agent is available or (ii) any Warrant of the relevant Series becomes immediately due to be cancelled following the occurrence of an Event of Default in relation thereto, in which case the Issuer will deliver, or arrange delivery of, Definitive Registered Warrants, serially numbered to the Warrantholders.

General

The Issuer will not impose any fees in respect of the Securities; however, Holders of book-entry interests in the Global Securities may incur fees normally payable in respect of the maintenance and operation of accounts in Euroclear and Clearstream, Luxembourg.

Although the foregoing sets out a general summary of the procedures of Euroclear and Clearstream, Luxembourg in order to facilitate the transfers of interests in the Global Securities among participants of Euroclear and Clearstream, Luxembourg, none of Euroclear or Clearstream, Luxembourg are under any obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time.

None of the Issuer nor the Trustee nor any of their agents will have any responsibility or liability for the performance by Euroclear or Clearstream, Luxembourg or their respective accountholders of their respective obligations under the rules and procedures governing their operations.

USE OF PROCEEDS

The net proceeds from each issue of Securities will be used, among other things, to purchase the Collateral Securities comprising the Mortgaged Property in respect of the relevant Series or as otherwise described in the applicable Offering Circular Supplement. The net proceeds of any Transaction other than Securities will be used as described in the relevant documents relating to such Transaction.

The charge is intended to create a property interest in the Collateral Securities in favour of the Trustee to secure the Issuer's liabilities under the Trust Deed. However, where the Collateral Securities are held through a Clearing System the interests which the Custodian holds and which are traded in the Clearing System are not the physical Collateral Securities themselves but a series of contractual rights against such Clearing System. These rights consist of (i) the Issuer's rights against the Custodian; (ii) the Custodian's rights as a participant against the Clearing System; (iii) the rights of the Clearing System against the common depositary or common safekeeper; and (iv) the rights of the common depositary or common safekeeper against the issuer of the Collateral Securities. **As a result, where Collateral Securities are held in a Clearing System, the Transaction Security will take the form of an assignment of the Issuer's rights against the Custodian under the Agency Agreement or the Custody Agreement, as the case may be, rather than a charge over the Collateral Securities themselves.**

TAXATION

Jersey Taxation

Under the Income Tax (Jersey) Law 1961 (the “**Jersey Income Tax Law**”), each Issuer incorporated in Jersey (each, a “**Jersey Issuer**”) will be regarded as resident in Jersey but (being neither a financial services company nor a specified utility company under the Jersey Income Tax Law at the date hereof) will (except as noted below) be subject to Jersey income tax at a rate of 0 per cent.

If a Jersey Issuer derives any income from the ownership or disposal of land in Jersey, such income will be subject to tax at the rate of 20 per cent. It is not expected that any of the Jersey Issuers will derive any such income.

Each of the Jersey Issuers will continue to be able to make payments in respect of the Securities without any withholding or deduction for or on account of Jersey tax. Holders (other than residents of Jersey) will not be subject to any Jersey tax in respect of the holding, sale or other disposition of its Securities.

Under current Jersey law, there are no death or estate duties, capital gains, gift, wealth, inheritance or capital transfer taxes. No stamp duty is levied in Jersey on the issue, transfer, acquisition, ownership, redemption, sale or other disposal of Securities. Stamp duty of up to 0.75 per cent. is payable on the grant of probate or letters of administration in Jersey in respect of a deceased natural person (i) who died domiciled in Jersey, on the value of the entire estate; and (ii) otherwise, on the value of so much of the estate as is situate in Jersey.

Goods and services tax

Each Jersey Issuer is an “international services entity” for the purposes of the Goods and Services Tax (Jersey) Law 2007 (the “**GST Law**”). Consequently, none of the Jersey Issuers are required to:

- (a) register as a taxable person pursuant to the GST Law;
- (b) charge goods and services tax in Jersey in respect of any supply made by it; or
- (c) (subject to limited exceptions that are not expected to apply any of the Jersey Issuers) pay goods and services tax in Jersey in respect of any supply made to it.

European Union Directive on the Taxation of Savings Income

As part of an agreement reached in connection with the European Union (“EU”) directive on the taxation of savings income in the form of interest payments, and in line with steps taken by other relevant third countries, Jersey introduced with effect from 1 July 2005 a retention tax system in respect of payments of interest, or other similar income, made to an individual beneficial owner resident in an EU Member State by a paying agent established in Jersey. The retention tax system applies for a transitional period prior to the implementation of a system of automatic communication to EU Member States of information regarding such payments. During this transitional period, such an individual beneficial owner resident in an EU Member State will be entitled to request a paying agent not to retain tax from such payments but instead to apply a system by which the details of such payments are communicated to the tax authorities of the EU Member State in which the beneficial owner is resident.

The retention tax system in Jersey is implemented by means of bilateral agreements with each of the EU Member States, the Taxation (Agreements with European Union Member States) (Jersey) Regulations 2005 and Guidance Notes issued by the Policy & Resources Committee of the States of Jersey. Based on these provisions and our understanding of the current practice of the Jersey tax authorities (and subject to the transitional arrangements described above), neither Claris, Claris 2, Claris III nor Claris IV would be obliged to levy retention tax in Jersey under these provisions in respect of interest payments made by it to a paying agent established outside Jersey.

Irish Tax Information

The following is a summary of certain Irish tax consequences of the purchase, ownership and disposition of the Securities. The summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to purchase, own or dispose of the Securities. The summary relates only to the position of persons who are the absolute beneficial owners of the Securities and may not apply to certain other classes of persons such as dealers in securities. The summary does not apply to Transactions other than the Securities.

The summary is based upon Irish tax laws and the practice of the Irish Revenue Commissioners as in effect on the date of this Offering Circular, which are subject to prospective or retroactive change. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Securities should consult their own advisors as to the Irish or other tax consequences of the purchase, beneficial ownership and disposition of the Securities including, in particular, the effect of any state or local tax laws.

Income Tax

In general, persons who are resident in Ireland are liable to Irish taxation on their world-wide income whereas persons who are not resident in Ireland are only liable to Irish taxation on their Irish source income. All persons are under a statutory obligation to account for Irish taxation on a self-assessment basis and there is no requirement for the Irish Revenue Commissioners to issue or raise an assessment.

A Note issued by Iris or Iris II (each an “**Irish Issuer**”) may be regarded as property situate in Ireland (and hence Irish source income) on the grounds that a debt is deemed to be situate where the debtor resides. However, the interest earned on a Note is exempt from Irish income tax if it is paid to a person who is not a resident of Ireland and who, for the purposes of Section 198 of the Taxes Consolidation Act 1997 (as amended) (“**TCA 1997**”), is regarded as being a resident of a relevant territory. A relevant territory for this purpose is a Member State of the European Communities (other than Ireland) or, not being such a Member State, a territory with which Ireland has entered into a double tax treaty that has the force of law or, on completion of the necessary procedures, will have the force of law and such double tax treaty contains an article dealing with interest or income from debt claims. A list of the countries with which Ireland has entered into a double tax treaty is available on www.revenue.ie.

If the above exemption does not apply it is understood that there is a long standing unpublished practice whereby no action will be taken to pursue any liability to Irish tax in relation to such interest in respect of persons who are regarded as not being resident in Ireland except where such persons:

- (a) are chargeable in the name of a person (including a trustee) or in the name of an agent or branch in Ireland having the management or control of the interest; or
- (b) seek to claim relief and/or repayment of tax deducted at source in respect of taxed income from Irish sources; or
- (c) are chargeable to Irish corporation tax on the income of an Irish branch or agency or to income tax on the profits of a trade carried on in Ireland to which the interest is attributable.

There can be no assurance that this practice will continue to apply.

A Warrant issued by an Irish Issuer may be regarded as property situate in Ireland on the grounds that it is issued by an Irish company. To the extent that any payment is made by an Irish Issuer in respect of a Warrant, this payment may be treated as having an Irish source. Relief from Irish income tax may be available in respect of such payment under the provisions of a double tax treaty between Ireland and the country of residence of the holder of a Warrant.

Withholding Tax

In general, withholding tax (currently at the rate of 20 per cent.) must be deducted from interest payments made by an Irish company such as interest payments made by an Irish Issuer in respect of a Note. However, Section 246 TCA 1997 (“**Section 246**”) provides that this general obligation to withhold tax does not apply in respect of, among other things, interest payments made by an Irish Issuer to a person who, by virtue of the law of a relevant territory (see above for details), is resident for the purposes of tax in a relevant territory. This exemption does not apply if the interest is paid to a company in connection with a trade or business which is carried on in Ireland by that company through a branch or agency. Relief from Irish withholding tax may also be available under other exemptions contained in Irish tax legislation or under the specific provisions of a double tax treaty between Ireland and the country of residence of the holder of a Note.

Apart from Section 246, Section 64 TCA 1997 (“**Section 64**”) provides for the payment of interest on a “Quoted Eurobond” without deduction of tax in certain circumstances. A Quoted Eurobond is defined in Section 64 as a security which:

- (i) is issued by a company;
- (ii) is quoted on a recognised stock exchange (this term is not defined but is understood to mean an exchange which is recognised in the country in which it is established (such as the Irish Stock Exchange)); and
- (iii) carries a right to interest.

There is no obligation to withhold tax on Quoted Eurobonds where:

- (a) the person by or through whom the payment is made is not in Ireland; or
- (b) the payment is made by or through a person in Ireland; and
 - (i) the Quoted Eurobond is held in a recognised clearing system (Euroclear, Clearstream, Frankfurt, Clearstream, Luxembourg and the DTC have been designated as recognised clearing systems); or
 - (ii) the person who is the beneficial owner of the Quoted Eurobond and who is beneficially entitled to the interest is not resident in Ireland and has made an appropriate written declaration to this effect.

In certain circumstances, Irish encashment tax may be required to be withheld (currently at the rate of 20 per cent.) from interest on a Note, where such interest is collected by a person in Ireland on behalf of the holder of a Note.

Irish withholding tax may also apply to certain other types of payments made by an Irish Issuer which have an Irish source, such as annual payments in respect of Warrants. Payments made by an Irish Issuer in respect of Warrants which are once-off payments made on the Settlement Date and which do not constitute interest payments will not be subject to Irish withholding tax.

Capital Gains Tax

A holder of a Note or Warrant will not be subject to Irish taxes on capital gains *provided that* such holder is neither resident nor ordinarily resident in Ireland and does not have an enterprise, or an interest in an enterprise, which carries on business in Ireland through a branch or agency or a permanent representative to which the Note or Warrant is attributable.

Capital Acquisitions Tax

If a Note or Warrant is comprised in a gift or inheritance taken from an Irish domiciled, resident or ordinarily resident donor or if the donee or successor is resident or ordinarily resident in Ireland, or if a Note or Warrant is regarded as property situate in Ireland, the donee or successor may be liable to Irish

capital acquisitions tax. As a result, a donee or successor may be liable to Irish capital acquisitions tax even though neither the disponent nor the donee nor successor may be domiciled, resident or ordinarily resident in Ireland at the relevant time.

Stamp duty

For as long as an Irish Issuer is a qualifying company within the meaning of Section 110 TCA 1997, no Irish stamp duty will be payable on either the issue or transfer of a Note or Warrant issued by an Irish Issuer, *provided that* the money raised by the issue of such Note or Warrant is used in the course the Irish Issuer's business.

Other Taxes

EU Savings Directive

Under European Directive 2003/48/EC on taxation of savings income (the "**Savings Directive**"), Member States are required to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person within its jurisdiction to an individual resident in another Member State, except that for a transitional period Luxembourg and Austria instead operate a withholding system unless during that period they elect otherwise (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries and territories). The rate of withholding tax in those jurisdictions is 35%. In April 2013, the Luxembourg government announced its intention to end its transitional period and move to automatic exchange of information under the Savings Directive with effect from 1 January 2015. Certain other jurisdictions, including Switzerland, have enacted equivalent legislation which imposes a withholding tax in substantially the same circumstances as envisaged by the Savings Directive.

On 24 March 2014, the Council of the European Union adopted an EU Council Directive amending and broadening the scope of the requirements described above. In particular, the changes expand the range of payments covered by the Savings Directive to include certain additional types of income, and widen the range of recipients payments to whom are covered by the Savings Directive, to include certain other types of entity and legal arrangement. Member States are required to implement national legislation giving effect to these changes by 1 January 2016 (which national legislation must apply from 1 January 2017).

Holders of the Securities should note that should any payment in respect of the Securities be subject to withholding imposed as a consequence of the Savings Directive or under equivalent legislation, no additional amounts would be payable by the relevant Issuer nor any Paying Agent nor any other person.

SUBSCRIPTION AND SALE

Summary of Dealer Agreement

Subject to the terms and on the conditions contained in the dealer agreement dated 26 June 2014, between Claris, Claris 2, Claris III, Claris IV, Iris, Iris II and Société Générale (as Arranger and Dealer) (the “**Dealer Agreement**”), as acceded to pursuant to any Acceptance Deed entered into by a Specified Issuer, the Securities will be offered on a continuous basis by the Issuers to the Permanent Dealers or such other Dealers as may be appointed from time to time in respect of any Series pursuant to the Dealer Agreement. The Securities may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the Relevant Dealer. The Dealer Agreement also provides for Securities to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers.

Each of the Issuers has agreed to pay the commissions as agreed between it and the relevant Dealer(s) in respect of each issue of Securities on a syndicated basis or otherwise. Such commissions (if any) will be stated in the relevant Offering Circular Supplement.

Each of the Issuers has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Securities. The Dealer Agreement entitles the Dealers to terminate any agreement that they make to subscribe Securities in certain circumstances prior to payment for such Securities being made to the relevant Issuer.

SELLING RESTRICTIONS

Because of (i) the following selling restrictions; and (ii) the transfer restrictions listed in paragraph 3.2 (*Purchasers of Securities*) below, purchasers are advised to consult legal counsel prior to making any offer, resale, pledge or transfer of Securities.

1. INTRODUCTION

These are the selling restrictions referred to in Clause 4 (*Offering of Securities*) of the Dealer Agreement dated 26 June 2014 relating to the Secured Transaction Programme of Claris Limited, Claris 2 Limited, Claris III Limited, Claris IV Limited, Iris SPV plc and Iris II SPV Limited. These restrictions may be amended in relation to a specific Tranche by agreement between the Issuers and the Relevant Dealer or, if more than one, the Lead Manager on behalf of the Relevant Dealers or in relation to the Programme by agreement between the Issuers and the Arranger. Any such amendment in relation to a specific Tranche shall be set out in the Subscription Agreement, in the case of a Syndicated Issue, or in the Offering Circular Supplement, in the case of a non-Syndicated Issue.

2. GENERAL

These selling restrictions may be modified by the agreement of each of the Issuers and the Dealers following a change in a relevant law, regulation or directive. Any such modification will be set out in the Offering Circular Supplement issued in respect of the issue of Securities to which it relates or in a supplement to the Offering Circular.

Other than obtaining the Registrar's Consent in respect of Claris by the Jersey Financial Services Commission, no action has been taken in any jurisdiction that would permit a public offering of any of the Securities, or possession or distribution of the Offering Circular or any other offering material or any Offering Circular Supplement, in any country or jurisdiction where action for that purpose is required.

Each Dealer agrees that it will, to the best of its knowledge, comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Securities or has in its possession or distributes the Offering Circular, any other offering material or any Offering Circular Supplement, in all cases at its own expense, and none of the Issuers nor any other Dealer shall have responsibility therefore.

3. UNITED STATES OF AMERICA

[Beneficiary Claim/Counterparty

 - (xii) Swap (if applicable): *[Under an ISDA Master Agreement dated [●] and a confirmation thereto with an effective date of the Issue Date including any applicable guarantee, made between the Issuer and the Swap Counterparty, the Issuer will pay to the Swap Counterparty [[an amount equal to the net subscription moneys for the Notes payable to the Issuer] and sums equal to [interest and principal payable] in respect of the Collateral Securities and the Swap Counterparty will pay to the Issuer [an amount equal to the net sum payable by the Issuer for the purchase of the Collateral Securities and sums equal to the interest payable to the Noteholders under the Notes and the Final Redemption Amount] [set out other/additional payment provisions]. Except as stated below, the Swap will terminate on the Maturity Date.]*

[The Swap may be terminated early, (either in whole or, in certain circumstances, in part only) among other circumstances:
 - (i) *on the due date for payment of the Notes if at any time any of the Notes becomes repayable in accordance with the Conditions prior to the Maturity Date/on the date on which a date is set for redemption of the Notes if a date is set for redemption in accordance with the Conditions prior to the Maturity Date;*
 - (ii) *at the option of one party, if there is a failure by the other party to pay any*

amounts due under the Swap;

- (iii) if (subject as provided in the Swap) withholding taxes are imposed on payments made by the Issuer or the Swap Counterparty under the Swap or it becomes illegal for either party to perform its obligations under the Swap (see “*Transfer to avoid Termination Event*” below);
- (iv) upon the occurrence of certain other events with respect to either party to the Swap, including insolvency.

Consequences of Early Termination

Upon any such early termination of the Swap, the Issuer or the Swap Counterparty may (subject as set out below and provided, in the case of certain tax events, that the Issuer may first be obliged to use all reasonable endeavours to transfer its obligations) be liable to make a termination payment to the other (regardless, if applicable, of which of such parties may have caused such termination). In circumstances where some or all of the Notes are required by a Noteholder to be redeemed by the Issuer pursuant to Condition 7(f) (*Redemption at the option of Noteholders and Exercise of Noteholders’ Option*), no termination payment will be due by either party to the other in respect of the termination, in whole or in part, as the case may be, of the Swap.

Such termination payment will [(other than [*describe any circumstances where termination payments not calculated in accordance with ISDA or where a termination payment is not payable (e.g. in the case of Notes, on exercise of the put option pursuant to Condition 7(f) (Redemption at the option of Noteholders and Exercise of Noteholders’ Option) as to which, see wording in square brackets at end of previous paragraph*))]] be based on the replacement cost or gain for a swap transaction that would have the effect of preserving for the party making the determination the economic equivalent of the Swap. In all cases of early termination occurring other than by reason of a default by the Swap Counterparty (in which case the determination will be made by the Issuer) or illegality (in which case the party which is not the Affected Party (as defined in the Swap) will make the determination (or, if there are two Affected Parties, each party will make a determination which will be averaged)), the termination payment will be

determined by the Swap Counterparty on the basis of quotations received from at least three market-makers (failing which, by the Swap Counterparty or the Issuer, as aforesaid, based upon Loss (as defined in the Swap)).

Regardless of which party makes the determination of the termination payment (if any), there is no assurance that the proceeds from the sale of the Collateral Securities plus or minus, as the case may be, such termination payment will be sufficient to repay the principal amount due to be paid in respect of the Notes and any other amounts in respect thereof that are due.]

Trust Deed]

(xii) Swap (if applicable):

[Under an ISDA Master Agreement dated [●] and a confirmation thereto with an effective date of the Issue Date including any applicable guarantee, made between the Issuer and the Swap Counterparty, the Issuer will pay to the Swap Counterparty [an amount equal to the net subscription moneys for the Warrants payable to the Issuer] and sums equal to [interest and principal payable] in respect of the Collateral Securities and the Swap Counterparty will pay to the Issuer [an amount equal to the net sum payable by the Issuer for the purchase of the Collateral Securities and sums equal to [each of] the Settlement Amount[(s)] due in respect of the Warrants] [set out other/additional payment provisions]. Except as stated below, the Swap will terminate on the Expiration Date.]

[The Swap may be terminated early, (either in whole or, in certain circumstances, in part only) among other circumstances:

- (i) on the due date for payment of the Warrants if at any time any of the Warrants becomes due to be cancelled in accordance with the Conditions prior to the Expiration Date/on the date on which a date is set for cancellation of the Warrants if a date is set for cancellation in accordance with the Conditions prior to the Expiration Date;
- (ii) at the option of one party, if there is a failure by the other party to pay any amounts due under the Swap;
- (iii) if (subject as provided in the Swap) withholding taxes are imposed on payments made by the Issuer or the Swap Counterparty under the Swap or it becomes illegal for either party to perform its obligations under the Swap (see “*Transfer to avoid Termination Event*” below);
- (iv) upon the occurrence of certain other events with respect to either party to the Swap, including insolvency.

Consequences of Early Termination

Upon any such early termination of the Swap, the Issuer or the Swap Counterparty may (subject as set out below and provided, in the case of certain tax events, that the Issuer may first be obliged to

use all reasonable endeavours to transfer its obligations) be liable to make a termination payment to the other (regardless, if applicable, of which of such parties may have caused such termination).

Such termination payment will [(other than [*describe any circumstances where termination payments not calculated in accordance with ISDA or where a termination payment is not payable*])] be based on the replacement cost or gain for a swap transaction that would have the effect of preserving for the party making the determination the economic equivalent of the Swap. In all cases of early termination occurring other than by reason of a default by the Swap Counterparty (in which case the determination will be made by the Issuer) or illegality (in which case the party which is not the Affected Party (as defined in the Swap) will make the determination (or, if there are two Affected Parties, each party will make a determination which will be averaged)), the termination payment will be determined by the Swap Counterparty on the basis of quotations received from at least three market-makers (failing which, by the Swap Counterparty or the Issuer, as aforesaid, based upon Loss (as defined in the Swap)).

Regardless of which party makes the determination of the termination payment (if any), there is no assurance that the proceeds from the sale of the Collateral Securities plus or minus, as the case may be, such termination payment will be sufficient to pay any Settlement Amounts due to be paid in respect of the Warrants and any other amounts in respect thereof that are due.]
