

Date: 03rd April 2009

APPLICABLE FINAL TERMS

ESPIRITO SANTO INVESTMENT p.l.c.
(incorporated with limited liability in Ireland)

EUR CLN La Caixa Subordinated due on 20th March 2016 (the "Notes")
issued pursuant to the € 2,500,000,000 Euro Medium Term Note Programme

With the benefit of a Keep Well Agreement
provided by

BANCO ESPIRITO SANTO DE INVESTIMENTO, S.A.

PART A – CONTRACTUAL TERMS

The Offering Circular referred to below (as completed by these Final Terms) has been prepared on the basis that, except as provided in sub-paragraph (ii) below, any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (2003/71/EC) (each, a Relevant Member State) will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly any person making or intending to make an offer of the Notes may only do so:

(i) in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer; or

(ii) in those Public Offer Jurisdictions mentioned in Paragraph 35 of Part A below, provided such person is one of the persons mentioned in Paragraph 35 of Part A below and that such offer is made during the Offer Period specified for such purpose therein.

Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions set forth in the Offering Circular dated 25 July 2008 which constitutes a base prospectus for the purposes of the Prospectus Directive (Directive 2003/71/EC) (the Prospectus Directive). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Offering Circular. Full information on the relevant Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Offering Circular. The Offering Circular is available for viewing at <http://www.esinvestment.com> and during normal business hours at Rua Alexandre Herculano, 38, 1269-161 Lisbon and copies may be obtained at the same address.

The definitions and provisions contained in the 2003 ISDA Credit Derivatives Definitions, as supplemented by the May 2003 Supplement to the 2003 ISDA Credit Derivatives Definitions, (together the "Definitions"), as published by the International Swaps and Derivatives Association, Inc., are incorporated into this Final Terms (the "Final Terms"). In the event of any inconsistency between the Definitions and this Final Terms, this Final Terms will govern.

The purchase of the Notes involves substantial risks and is suitable only for investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and merits of an investment in the Notes. Prior to making an investment decision or investing in Notes, prospective investors should carefully consider, in light of their own financial circumstances and investment objectives, all the information set forth in this Contractual Terms, and, in particular, the risk factors set forth below. Prospective purchasers should make such inquiries as they deem necessary without relying on Banco Espírito Santo de Investimento S.A. or any of its authorised branches or the Manager.

All determinations and calculations made by the Issuer and the Calculation Agent relating to the Notes shall be made in good faith in such person's sole discretion, and shall be binding on the Noteholders, absent manifest error.

These Contractual Terms represent all of the undertakings of the Issuer with respect to the subject matter thereof, and there are no additional promises, undertakings, representations or warranties of the Issuer not expressly set forth or referred to herein.

A Note does not represent a claim against the Reference Entity and in the event of any loss a Noteholder will not have recourse under a Note to the Reference Entity. However, investors in the Notes will be exposed to the credit risk of the Reference Entity and the Reference Obligations.

Neither the Issuer nor its affiliates nor its agents will be obligated to hold any Reference Obligation or pursue any remedies they may have with respect thereto (even if the Issuer transfers Reference Obligations to the investor or refers to their market value in connection with the satisfaction of the Issuer's obligations following the declaration of a Credit Event as described below).

This document is for information purposes only and does not constitute an offer or solicitation with respect to the purchase or sale of any security. Any opinion, estimate, or projection herein constitutes a judgment as of the date of this document, and there can be no assurance that future events or results will be consistent with any such opinion, estimate, or projection.

Country and Regional Risk

The price and value of the Reference Obligations may be influenced by the political, financial and economic stability of the country and/or region in which the Reference Entities are incorporated or have their principal place of business or of the country in the currency of which the Reference Obligations are denominated. In certain cases the price and value of assets originating from countries not ordinarily considered to be emerging markets countries may behave in a manner similar to those of assets originating from emerging markets countries.

Emerging Markets

The Reference Entities and the Reference Obligations may originate from an emerging markets country. Investing in securities issued by entities in emerging markets countries or in securities, the return of which is linked to such securities, involves certain systemic and other risks and special considerations which include:

- 1) the prices of emerging markets assets may be subject to sharp and sudden fluctuations and declines;
- 2) emerging markets securities and other assets tend to be relatively illiquid. Trading volume may be lower than in debt of higher grade credits. This may result in wide bid/offer spreads prevailing in adverse market conditions. In addition, the sale or purchase price quoted for the Reference Obligations may vary depending on the size for which a quotation has been sought; and
- 3) published information in or in respect of emerging markets countries and the issuers of or obligors in respect of emerging markets securities or other assets has been proven on occasions to be materially inaccurate; and
- 4) delivery of Obligations which are emerging markets securities or other assets may be subject to restrictions or delays arising under local law.

A Note does not represent a claim against the Reference Entity and in the event of any loss a Notcholder will not have recourse under a Note to the Reference Entity. However, investors in the Notes will be exposed to the credit risk of the Reference Entity, the Reference Obligation and the Deliverable Obligations. The occurrence of a Credit Event in respect of the Reference Entity may cause the mandatory redemption of all of the Notes by delivery of an amount of Deliverable Obligations of the Reference Entity with face value equal to the nominal amount of the Notes.
