under the

Regulation S Program for the Issuance of Notes, Series A and B, Warrants and Certificates

The Offering Circular referred to below (as completed by this Pricing Supplement) has been prepared on the basis that any offer of the Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (2003/71/EC) (as amended, including by Directive 2010/73/EU (together, the "Prospectus Directive")) (each, a "Relevant Member State") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of the Notes may only do so in circumstances in which no obligation arises for the Issuer or any Distribution Agent to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer nor any Distribution Agent has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

Warning: Neither this Pricing Supplement nor the Offering Circular referred to below constitutes a "prospectus" for the purposes of Article 5.4 of Directive 2003/71/EC (as amended by Directive 2010/73/EU, the "Prospectus Directive"), and the Pricing Supplement and the Offering Circular have been prepared on the basis that no prospectus shall be required under the Prospectus Directive in relation to any Notes be offered and sold under hereby.

#### **Information Concerning Investment Risk**

**Noteholders and prospective purchasers of Notes should ensure that they understand the nature of the Notes and the extent of their exposure to risk and that they consider the suitability of the Notes as an investment in the light of their own circumstances and financial condition.**

**In purchasing any Notes, purchasers will be deemed to represent and undertake to the Issuer, Dealer and each of their affiliates that (i) such purchaser understands the risks and potential consequences associated with the purchase of the Notes and (ii) that such purchaser has consulted with its own legal, regulatory, investment, accounting, tax and other advisers to extent it believes is appropriate to assist it in understanding and evaluating the risks involved in, and the consequences of, purchasing the Notes.**

**Potential investors are urged to consult with their legal, regulatory, investment, accounting, tax and other advisors with regard to any proposed or actual investment in the Notes and to review the Offering Circular. Please see the Offering Circular together with this Pricing Supplement for a full detailed description of the Notes and in particular, please review the Risk Factors associated with these Notes. Investing in the Notes entails certain risks including, but not limited to, the following:**

**Adjustments by the Determination Agent:** The terms and conditions of the Notes will allow the Determination Agent to make adjustments or take any other appropriate action if circumstances occur where the Notes or any exchanges are affected by market disruption, adjustment events or circumstances affecting normal activities.

**Credit Risk:** Investors are exposed to the credit risk of the Issuer. The Notes are essentially a loan to the Issuer with a repayment amount that the Issuer promises to pay to you at maturity. There is the risk, however, that the Issuer may not be able to fulfil its promise to you. If any companies in the Morgan Stanley group incur losses with respect to any of their activities, this may have a negative impact on the financial condition of the Issuer. You may lose all or part of your investment if the Issuer is unable to pay the redemption amount and/or goes into liquidation. No assets of the Issuer are segregated and specifically set aside in order to pay the holders of the Notes in the event of liquidation of the Issuer, and the holders of the Notes will rank behind creditors who have priority rights over certain assets of the Issuer.

**Market Risk:** The Notes are denominated, and all payments will be made, in U.S. Dollars. There are risks inherent in investments in notes denominated and payable in U.S. Dollars for investors whose home and/or functional currency is not U.S. Dollars. You should consult your financial, legal and tax advisers as to any specific risks entailed by an investment in notes that are denominated and payable in a currency other than the currency of the country in which you are resident or in which you conduct your business. We refer to such country as your “home country” and to the currency of your home country as your “home currency”.

**Exit Risk:** The secondary market price of the Notes will depend on numerous factors, including interest rates, interest rate volatility, perceptions of the Issuer’s credit quality and time remaining to maturity. The secondary market price may be lower than the market value of the Notes as at the Issue Date to take into account amounts relating to the hedging of the Issuer’s obligations. As a result of all of these factors, the holder may receive an amount in the secondary market which may be less than the then intrinsic market value of the Note and which may also be less than the amount the holder would have received had the holder held the Note through to maturity.

**Issuer Call Option Risk:** The Issuer may call the Note at any time or at the time as specified in this Pricing Supplement. This generally means that (i) the holder will receive a pre-determined amount which may be less than any amount that the holder could have realised under the terms of the Notes if such option had not been exercised, (ii) the market value of the Notes may be limited and (iii) if the Issuer call option is exercised, the holder may not be able to reinvest the proceeds at an effective interest rate as high as any interest rate on the Note.

**Reinvestment risk:** If the Notes are early redeemed in accordance with the terms and conditions of the Notes, investors should note when he/she reinvests the proceeds into another product or instrument, the terms of such product or instrument may not be as favorable as those of the Notes.

**Liquidity Risk:** The Notes should be viewed as longer-term investments, not as liquid instruments. There can be no assurance that there will be any secondary market for the Notes. Morgan Stanley is not obliged to make a secondary market in the Notes. When Morgan Stanley purchases Notes, the bid/offer spread in most cases may be wider than plain vanilla corporate, supranational or agency bonds.

**Hedging Risk:** On or prior to and after the Trade Date, the Issuer, through its affiliates or others, will likely hedge its anticipated exposure under the Notes by taking positions in the Underlying, in option contracts on the Underlying or positions in any other available securities or instruments. In addition, the Issuer and its affiliates trade the Underlying as part of their general businesses. Any of these activities could potentially affect the value of the Underlying, and accordingly, could affect the payout to holders on the Notes.

**Potential Conflict of Interest:** The Determination Agent (Morgan Stanley & Co. International plc) is an affiliate of the Issuer and the economic interests of the Determination Agent may be adverse to the interests of holders of the Notes. Determinations made by the Determination Agent may affect the amount payable to holders pursuant to the terms of the Notes.

**Tax Considerations for non-U.S. holders:** Special tax considerations may apply to certain types of taxpayers. Prospective investors are urged to consult with their own tax advisors to determine any tax implications of this investment. A Non-U.S. holder will be subject to U.S. withholding tax unless the beneficial owner of the note (or a financial institution holding the note on behalf of the beneficial owner) furnishes the appropriate Form W-8, on which the beneficial owner certifies under penalties of perjury that it is not a U.S. person. If withholding or deduction of taxes is required by law (regardless of whether a holder furnished an appropriate form), payments on the notes will be made net of applicable withholding taxes, and we will not be required to pay any additional amounts to Non-U.S. holders with respect to any taxes withheld.

**Accounting Considerations:** Special accounting considerations may apply to certain types of investors. Prospective investors are urged to consult with their own accounting advisors to determine implications of this investment.

Morgan Stanley is not qualified to give legal, tax or accounting advice to its clients and does not purport to do so in this document. Clients are urged to seek the advice of their own professional advisers about the consequences of the proposals contained herein.
