INFORMATION CONCERNING INVESTMENT RISK

Noteholders and prospective purchasers of Notes should ensure that they understand the nature of the Notes and the extent of their exposure to risk and that they consider the suitability of the Notes as an investment in the light of their own circumstances and financial condition. The amount payable or the number of Underlying Shares deliverable on redemption of the Notes is linked to the performance of each Underlying Share (as defined herein) in the Basket of Shares (as defined herein), and may be less than par. Given the highly specialised nature of these Notes, Morgan Stanley B.V. (“the Issuer”) and Morgan Stanley & Co. International plc (“MSI plc” or the “Dealer”) consider that they are only suitable for highly sophisticated investors who are able to determine for themselves the risk of an investment linked to each Underlying Share, are willing to take risks and can absorb the partial or complete loss of their initial investment. Consequently, if you are not an investor who falls within the description above, you should not consider purchasing these Notes without taking detailed advice from a specialised professional adviser.

Potential investors are urged to consult with their legal, regulatory, investment, accounting, tax and other advisors with regard to any proposed or actual investment in these Notes. Please see the Offering Circular for a full detailed description of the Notes and in particular, please review the section of the Offering

Circular entitled “*Risk Factors Relating to the Program Securities*”. Investing in the Notes entails certain risks including, but not limited to, the following:

- **Adjustments by the Determination Agent:** The terms and conditions of the Notes will allow the Determination Agent to make adjustments or take any other appropriate action if circumstances occur where each Underlying Share or any relevant exchange(s) are affected by market disruption, adjustment events or circumstances affecting normal activities of the issuer of each Underlying Share or the relevant exchange(s).
- **Credit Risk:** The holder of the Notes will be exposed to the credit risk of the Issuer and the Guarantor.
- **No Principal Protection:** The principal amount is not protected. Potential investors run the risk that they may receive an amount which is significantly less than their initial investment.

Exit Risk: The secondary market price of the Notes will depend on many factors, including the value and volatility of each Underlying Share, the level of each Underlying Share at any time on any day and the time left until the maturity of the Notes, the dividend rate, time remaining to maturity and the creditworthiness of the Issuer. The secondary market price may be lower than the market value of the issued Notes as at the Issue Date to take into account amounts paid to distributors and other intermediaries relating to the issue and sale of the Notes as well as amounts relating to the hedging of the Issuer’s obligations. As a result of all of these factors, the holder may receive an amount in the secondary market which may be less than the then intrinsic market value of the Notes and which may also be less than the amount the holder would have received had the holder held the Notes through to maturity.

- **Hedging Risk:** On or prior to and after the Trade Date, the Issuer, through its affiliates or others, will likely hedge its anticipated exposure under the Notes by taking positions in each Underlying Share, in option contracts on each Underlying Share or positions in any other available securities or instruments. In addition, the Issuer and its affiliates trade each Underlying Share as part of their general businesses. Any of these activities could potentially affect the value of each Underlying Share including on any date on which the value of each Underlying Share will be determined, and accordingly, could significantly affect the payout to holders on the Notes.
- **Liquidity Risk:** The Dealer will make a secondary market in the Notes on a reasonable efforts basis only and subject to market conditions, law, regulation and internal policy. The liquidity of the Notes reflects the liquidity of each Underlying Share and even whilst there may be a secondary market in the Notes it may not be liquid enough to facilitate a sale by the holder.
- **No Shareholder Rights:** A holder of Notes will have no beneficial interest in or any voting rights and will not have the right to receive dividends or other distributions with respect to each Underlying Share.
- **Potential Conflict of Interest:** The Determination Agent (MSI plc) is an affiliate of the Issuer and the economic interests of the Determination Agent may be adverse to the interests of holders of the Notes. Determinations made by the Determination Agent, including in the event of a market disruption may affect the amount payable to holders pursuant to the terms of the Notes.
- **Underlying Issuer Risk:** The issuer of each Underlying Share is not an affiliate of the Issuer or its affiliates and is not involved with this offering in any way. Consequently, the Issuer and its affiliates have no ability to control the actions of the issuer of each Underlying Share, including any corporate actions that could trigger an adjustment to the terms of the Notes by the Determination Agent.

In purchasing any Notes, purchasers will be deemed to represent and undertake to the Issuer, the Dealer and each of their affiliates that (i) such purchaser understands the risks and potential consequences associated with the purchase of the Notes, (ii) that such purchaser has consulted with its own legal, regulatory, investment, accounting, tax and other advisers to extent it believes is appropriate to assist it in understanding and evaluating the risks involved in, and the consequences of, purchasing the Notes.

Morgan Stanley is not qualified to give legal, tax or accounting advice to its clients and does not purport to do so in this Pricing Supplement. Clients are urged to seek the advice of their own professional advisers about the consequences of the proposals contained herein.
