#### Section D – Risks

Element	Title
D.2	<p data-bbox="308 219 635 275"><b>Key risks regarding the Issuer and the Guarantor:</b></p> <p data-bbox="651 219 1409 701">In purchasing Notes, investors assume the risk that the Issuer and the Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer and the Guarantor becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's and the Guarantor's control. The Issuer and the Guarantor have identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Notes. These factors include:</p> <p data-bbox="651 745 1042 779"><b>Risk Factors relating to the Issuer</b></p> <ul data-bbox="651 813 1409 969" style="list-style-type: none"> <li data-bbox="651 813 1409 880">• Issuer's dependence on the Guarantor to make payments on the Notes.</li> <li data-bbox="651 902 1409 969">• Certain considerations in relation to the forum upon insolvency of the Issuer.</li> </ul> <p data-bbox="651 1014 1409 1081"><b>Factors that may affect the Guarantor's ability to fulfil its obligations under the Guarantee</b></p> <p data-bbox="651 1115 898 1149">Macroeconomic Risks</p> <ul data-bbox="651 1171 1409 1910" style="list-style-type: none"> <li data-bbox="651 1171 1409 1283">• Economic conditions in the countries where the Group operates could have a material adverse effect on the Group's business, financial condition and results of operations.</li> <li data-bbox="651 1305 1409 1417">• Since the Guarantor's loan portfolio is highly concentrated in Spain, adverse changes affecting the Spanish economy could have a material adverse effect on its financial condition.</li> <li data-bbox="651 1440 1409 1552">• Any decline in the Kingdom of Spain's sovereign credit ratings could adversely affect the Group's business, financial condition and results of operations.</li> <li data-bbox="651 1574 1409 1641">• The Group may be materially adversely affected by developments in the emerging markets where it operates.</li> <li data-bbox="651 1664 1409 1798">• The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions.</li> <li data-bbox="651 1821 1409 1910">• Exposure to the real estate market makes the Group vulnerable to developments in this market.</li> </ul> <p data-bbox="651 1933 1090 1966">Legal, Regulatory and Compliance Risks</p>

- The Group is subject to substantial regulation and regulatory and governmental oversight. Changes in the regulatory framework could have a material adverse effect on its business, results of operations and financial condition.
- Increasingly onerous capital requirements may have a material adverse effect on the Guarantor's business, financial condition and results of operations.
- Minimum requirement for own funds and eligible liabilities (MREL). Any failure by BBVA and/or the Group to comply with its MREL could have a material adverse effect on the Guarantor's business, financial condition and results of operations.
- Increased taxation and other burdens imposed on the financial sector may have a material adverse effect on the Guarantor's business, financial condition and results of operations.
- Contributions for assisting in the future recovery and resolution of the Spanish banking sector may have a material adverse effect on the Guarantor's business, financial condition and results of operations.

- Withdrawals of deposits or other sources of liquidity may make it more difficult or costly for the Group to fund its business on favourable terms or cause the Group to take other actions.
- Implementation of internationally accepted liquidity ratios might require changes in business practices that affect the profitability of the Guarantor's business activities.

- The Group's businesses are subject to inherent risks concerning borrower and counterparty credit quality which have affected and are expected to continue to affect the recoverability and value of assets on the Group's balance sheet

- The Group faces risks related to its acquisitions and divestitures.
- The Group is party to lawsuits, tax claims and other legal proceedings.
- The Group's ability to maintain its competitive position depends significantly on its international operations, which expose the Group to foreign exchange, political and other risks in the countries in which it operates, which could cause an adverse effect on its business, financial condition and results of operations.

#### Financial and Risk Reporting

- Weaknesses or failures in the Group's internal processes, systems and security could materially adversely affect its results of operations, financial condition or prospects, and could result in reputational damage.
- The financial industry is increasingly dependent on information technology systems, which may fail, may not be adequate for the tasks at hand or may no longer be available.
- The Guarantor's financial statements are based in part on assumptions and estimates which, if inaccurate, could cause material misstatement of the results of its operations and financial position.

#### Risk related to Early Intervention and Resolution

- The Notes may be subject to the exercise of the Spanish Loss-Absorption Powers Bail-in Power by the Relevant Spanish Resolution Authority. Other powers contained in Law 11/2015 could materially affect the rights of the Noteholders under, and the value of, any

- The past performance of a Reference Item is not indicative of future performance.
