<b>B.24</b>	<b>Material adverse changes</b>	As of the date of this document there has been no material adverse change in the prospects of the Issuer since the date of its last published audited financial statements for the period to 30 September 2014.																																														
<b>B.25</b>	<b>Description of underlying assets</b>	<p><b>The Borrower Loan Agreement</b></p> <p>The Issuer will, on or about the date of this Base Prospectus, enter into the Borrower Loan Agreement with the Borrower.</p> <p>Under the Borrower Loan Agreement the Issuer pays the amount raised from the issue of the Notes (less certain costs payable by the Issuer) to the Borrower. In return, the Borrower agrees to pay to the Issuer an amount not less than the Interest and the Final Redemption Amount as the Notes mature.</p> <p>The Borrower Loan Agreement has the characteristics that demonstrate capacity to produce the funds required to service the payments due and payable on the Notes. However, the Interest</p>																																														

		<p>and Final Redemption Amount payable to the Investors is dependent on the Borrower's ability to meet its payment obligations under the Borrower Loan Agreement and the relevant Advance.</p> <p>The Borrower does not provide any security to the Issuer to meet its obligations under the Borrower Loan Agreement.</p> <p>The Borrower meets its obligations under the Borrower Loan Agreement to pay the Interest and the Final Redemption Amount by providing Mortgages to UK customers and investing in liquid assets.</p> <p><b>Castle Trust's business</b></p> <p>Castle Trust's business model is based on the provision of loans to the owners of UK residential property secured by a mortgage. Castle Trust generates its margins on Mortgages through the accrual of interest or, instead of collecting interest, by participating (on the basis of a pre-defined formula) in any rise in the value of the property upon which its Mortgages are secured. In some cases Castle Trust's returns are based on the movements of the Index rather than upon the value of the individual mortgaged property. Castle Trust Mortgages may, in some cases, include both house price linked and interest accruing features.</p> <p>Each Mortgage represents a relatively small proportion (typically up to 20%) of the value of each individual property. These individual, granular exposures are pooled to achieve broad diversification. The element of exposure to house price movements which Castle Trust assumes through its Mortgages is offered to investors who seek exposure to UK housing returns through Castle Trust's Housa investments. The element of exposure to UK interest rates which Castle Trust assumes through its Mortgages is offered to investors through the issue of Fortress Bonds.</p> <p>Liquid assets: a minimum of 20% of the Investment Amount paid by Investors for their Notes is invested by Castle Trust into liquid assets such as money market funds, cash and cash equivalents with a maturity of less than two years. This is intended to ensure that Castle Trust has sufficient liquid reserves in order to fund the Interest and Final Redemption Amount payments due pursuant to the Borrower Loan Agreement.</p> <p>Investors do not have any rights over the mortgages provided by Castle Trust nor the liquid assets it holds from time to time.</p>
<b>B.26</b>	<b>Details of actively managed pool of assets</b>	Not applicable; there is not an actively managed pool of assets backing the Notes.
<b>B.27</b>	<b>Statement if further securities backed by same assets</b>	There is not a separate identifiable pool of Mortgages backing each Advance under the Borrower Loan Agreement. Accordingly, the Issuer proposes to issue further Notes backed by the same assets, which will be announced to the market (including holders of the Notes) by the Issuer.
<b>B.28</b>	<b>Transaction structure</b>	All Notes are issued by the Issuer to Castle Trust on their respective issue dates. Once issued, the Notes are admitted to

trading on the regulated market of the ISE on the same business day.

Castle Trust sells the Notes to investors who make valid applications during the offer period(s) for the relevant Series of Notes (the "Offer Period"). Castle Trust pays the sums received from sale of the Notes to the Issuer to discharge the outstanding inter-company loan created when the Notes are issued by the Issuer to Castle Trust. Any Notes which are not sold by Castle Trust during the Offer Period are redeemed.

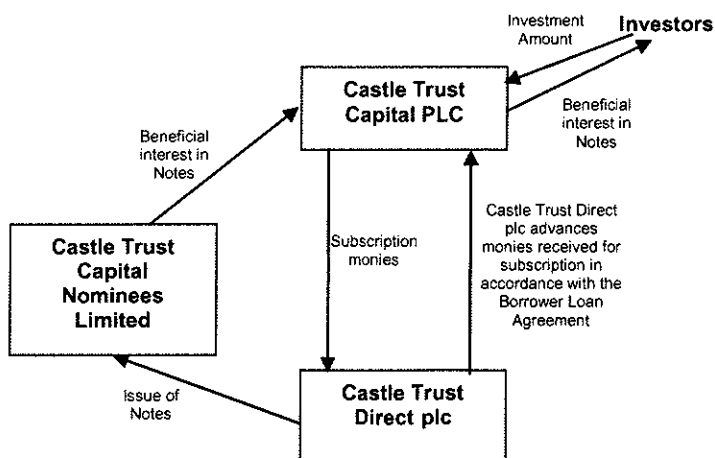

The Issuer advances all subscription monies in respect of Notes received from Castle Trust (less certain fees payable to CTCM) to Castle Trust under the Borrower Loan Agreement. Castle Trust will pay interest to the Issuer on each Advance on (or immediately prior to) the Interest Payment Date(s) (if any) and/or the Maturity Date of the relevant Series of Notes.

On the Maturity Date for each Series of Notes, the Advance made by the Issuer to Castle Trust in relation to that Series will mature and Castle Trust will pay the Issuer a sum not less than the Final Redemption Amount and any Interest due on the Maturity Date. The Issuer will pay the Final Redemption Amount and any Interest due on the Maturity Date to the Investor and the Notes of such Series will be redeemed in full.

The terms and conditions pursuant to which Investors purchase the Notes contain an obligation on Castle Trust to buy back the Notes held by Investors. This states that Castle Trust agrees to purchase the Notes held by that Investor on the Maturity Date if they have not been redeemed by 14.00 on that day for an amount equal to the Final Redemption Amount and any interest due but unpaid on the Notes.

The Issuer intends to ensure Notes are redeemed prior to this buy-back taking place.

The structure is illustrated in the following diagram:

<b>B.29</b>	<b>Flow of funds</b>	<p>The Notes are issued to Castle Trust and the subscription amount is left outstanding on inter-company account.</p> <p>Castle Trust sells the Notes to investors who make valid applications during the Offer Period. Castle Trust pays the sums received from the sale of the Notes to the Issuer to discharge the outstanding intercompany loan created when the Notes are issued by the Issuer to Castle Trust. Any Notes which are not sold by Castle Trust during the Offer Period are redeemed.</p> <p>The Issuer advances all subscription monies received from Castle Trust (less certain costs payable by the Issuer) to Castle Trust under the Borrower Loan Agreement. The Issuer offsets its liability to pay the subscription monies to Castle Trust under the Borrower Loan Agreement against Castle Trust's liability to satisfy the intercompany debt for the subscription amount for the Notes. This reduces the number of money flows required.</p> <p>Interest is payable on the Notes at the times specified as Interest Payment Dates (if any), and/or the Maturity Date set out, in the applicable Final Terms. Interest is funded by Castle Trust's obligations under the Borrower Loan Agreement. A minimum of 20% of the Investment Amount paid by Investors for their Notes (up to a maximum of the total subscription proceeds not issued as Mortgages) is invested by Castle Trust into liquid assets with a maturity of less than two years. <b>Section D – Risks</b>		
<b>D.2</b>	<b>Key information on the key risks specific to the Issuer and Castle Trust</b>	<p>The key risks specific to the Issuer are:</p> <ul style="list-style-type: none"> <li>• The Issuer has no material assets save for the Borrower's obligations under the Borrower Loan Agreement and therefore if the Borrower fails to meet those obligations the Issuer will not be able to meet its obligations to Investors.</li> <li>• The Issuer's only investments for each Series are in the relevant Advance under the Borrower Loan Agreement and there is no counterparty risk diversification.</li> </ul> <p>The key risks specific to the Borrower are:</p> <ul style="list-style-type: none"> <li>• Castle Trust is exposed to the risk of borrowers defaulting on their repayment obligations, and its overall financial performance depends to a certain extent on a number of macroeconomic factors outside the control of Castle Trust which impact on UK house buying and mortgage lending, including political, financial and economic conditions. Factors include gross domestic product growth, unemployment rates, consumer confidence, the availability and cost of credit, taxation, and regulatory changes. These factors could reduce the level of demand for Mortgages and adversely impact the ability of borrowers to satisfy their repayment obligations.</li> <li>• Mortgages that have been loaned by Castle Trust are unlikely to be easily sold by Castle Trust. If the period of time for which borrowers hold Mortgages is longer than usual for the UK mortgage market, Castle Trust may be unable to meet its obligations under the Borrower Loan Agreement because insufficient Mortgages have been repaid.</li> <li>• Castle Trust operates in a regulated environment. Non-compliance by Castle Trust with applicable laws, regulations and codes relevant to the financial services industry would lead to fines, public reprimands, damage to reputation, increased prudential requirements, enforced suspension of operation or, in extreme cases, withdrawal of authorisation to operate.</li> </ul>

		<ul style="list-style-type: none"> <li>• Castle Trust's future success depends to a significant degree upon the continued contribution of its key personnel, its ability to recruit, train, retain and motivate personnel, and to ensure that employment contract terms are appropriate.</li> <li>• Castle Trust is reliant on third party people. IT systems and architecture which are provided by and/or supported by third party vendors. A material systems failure could result in loss of key records, leading to financial loss and/or customer detriment.</li> </ul>
D.3	<b>Key information on the key risks specific to the securities</b>	<p>The key risks specific to the Notes are:</p> <ul style="list-style-type: none"> <li>• Investors' capital is at risk. Investors may lose up to the entire value of their investment in the Notes as a result of the occurrence of: <ul style="list-style-type: none"> <li>(a) the insolvency of the Issuer and/or Castle Trust; and</li> <li>(b) amounts payable being subject to deduction for tax and/or expense.</li> </ul> </li> <li>• Investors will not be entitled to redeem any of their Notes prior to the Maturity Date. However, Investors may dispose of their Notes if a secondary market develops but there is no guarantee that such a market will develop (independently of Castle Trust) or whether it will be liquid or illiquid. The FSCS does not apply to Investors who acquire Notes on any such secondary market.</li> <li>• The Borrower Loan Agreement is unsecured and Castle Trust does not provide collateral in respect of its obligations under the Borrower Loan Agreement. The Notes are therefore subject to the credit risk of Castle Trust.</li> <li>• In the event that Castle Trust has insufficient reserves to repurchase all Notes maturing, qualifying Investors' only recourse will be to the FSCS (under which, at the date of this document, they may seek to recover up to £50,000 of losses).</li> <li>• Otherwise, in the event that Castle Trust has insufficient reserves to pay to the Issuer the Final Redemption Amount for, and any Interest due on, the Notes as they mature, all affected Investors would rank as ordinary unsecured creditors of the Issuer to the extent that the Issuer has insufficient funds to pay in full the Final Redemption Amount and/or any Interest due on their Notes.</li> </ul>

<b>Section E – Offer</b>		
E.2b	<b>Reasons for offer; use of proceeds</b>	The net proceeds from the issue of Notes are used by the Issuer to invest in the Advance for that Series under the Borrower Loan Agreement. This is in line with the investment objective to pay to Investors the Final Redemption Amount at the Maturity Date and

		<p>to pay interest on the relevant Interest Payment Date(s) and/or the Maturity Date.</p> <p>Castle Trust uses the funds it receives from the Issuer under the Borrower Loan Agreement to lend Mortgages (a maximum of 80% of such funds received) and also to invest in liquid assets (a minimum of 20% of such assets). Obligations under the Borrower Loan Agreement mean that Castle Trust must pay the Issuer an amount equal to the Final Redemption Amount as Notes mature and to pay interest on the relevant Interest Payment Date(s) and/or the Maturity Date.</p>
