D.2	<p data-bbox="352 259 687 315">Key risks regarding the Issuer and the Guarantor:</p> <p data-bbox="699 259 1402 775">In purchasing Notes, investors assume the risk that the Issuer and the Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer and the Guarantor becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's and the Guarantor's control. The Issuer and the Guarantor have identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Notes. These factors include:</p> <p data-bbox="699 824 1090 853">Risk Factors relating to the Issuer</p> <ul data-bbox="699 887 1402 1043" style="list-style-type: none"> <li data-bbox="699 887 1402 943">• Issuer's dependence on the Guarantor to make payments on the Notes. <li data-bbox="699 981 1402 1043">• Certain considerations in relation to the forum upon insolvency of the Issuer. <p data-bbox="699 1093 1402 1149">Factors that may affect the Guarantor's ability to fulfil its obligations under the Guarantee</p> <p data-bbox="699 1189 943 1218">Macroeconomic Risks</p> <ul data-bbox="699 1252 1402 1973" style="list-style-type: none"> <li data-bbox="699 1252 1402 1346">• Economic conditions in the countries where the Group operates could have a material adverse effect on the Group's business, financial condition and results of operations. <li data-bbox="699 1384 1402 1478">• Since the Guarantor's loan portfolio is highly concentrated in Spain, adverse changes affecting the Spanish economy could have a material adverse effect on its financial condition. <li data-bbox="699 1516 1402 1610">• Any decline in the Kingdom of Spain's sovereign credit ratings could adversely affect the Group's business, financial condition and results of operations. <li data-bbox="699 1648 1402 1711">• The Group may be materially adversely affected by developments in the emerging markets where it operates. <li data-bbox="699 1749 1402 1877">• The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions. <li data-bbox="699 1915 1402 1973">• Exposure to the real estate market makes the Group vulnerable to developments in this market.

Financial and Risk Reporting

- Weaknesses or failures in the Group's internal processes, systems and security could materially adversely affect its results of operations, financial condition or prospects, and could result in reputational damage.

		<ul style="list-style-type: none"> • The financial industry is increasingly dependent on information technology systems, which may fail, may not be adequate for the tasks at hand or may no longer be available. • The Guarantor's financial statements are based in part on assumptions and estimates which, if inaccurate, could cause material misstatement of the results of its operations and financial position. <p>Risk related to Early Intervention and Resolution</p> <ul style="list-style-type: none"> • The Notes may be subject to the exercise of the Spanish Loss-Absorption Powers Bail-in Power by the Relevant Spanish Resolution Authority. - The value of the Notes could be adversely affected by a change in English law or administrative practice.
- Reliance on DTC, Euroclear and Clearstream, Luxembourg procedures.
- Credit ratings assigned to the Issuer, the Guarantor or any Notes may not reflect all the risks associated with an investment in those Notes.
