

FINAL TERMS

25 September 2020

BBVA GLOBAL MARKETS, B.V.

*(a private company with limited liability (besloten vennootschap met beperkte aansprakelijkheid)
incorporated under Dutch law with its seat in Amsterdam, the Netherlands but its tax residency in Spain)*
(as “**Issuer**”)

Legal Entity Identifier (“**LEI**”): 213800L2COK1WB5Q3Z55

Issue of Series 3038 EUR 1,000,000 Index Linked Notes due 2026 (the “**Notes**”)

under the €4,000,000,000

Structured Medium Term Note Programme

guaranteed by

BANCO BILBAO VIZCAYA ARGENTARIA, S.A.

(incorporated with limited liability in Spain)
(as “**Guarantor**”)

These Notes are not intended for, and are not to be offered to, the public in any jurisdiction of the European Economic Area or in the United Kingdom. Any person making or intending to make an offer of the Notes may only do so in circumstances in which no obligation arises for the Issuer or the Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or to supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. The expression “**Prospectus Regulation**” means Regulation (EU) 2017/1129 (as amended or superseded).

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA or in the UK other than in accordance with Regulation (EU) No 1286/2014 (the “**PRIIPs Regulation**”) and in each case in accordance with the additional requirements (if any) of the national competent authority in the Member State of EEA and the UK (the “**Relevant State**”). Pursuant to the PRIIPs Regulation, any Relevant State may require the ex-ante notification of the key information document (the “**KID**”) to the competent authority for PRIIPs marketed in that Relevant State (a “**Notification State**”). The Notes should not be offered, sold or otherwise made available to any retail investor in any such Notification State unless all relevant requirements in such Notification State have been first complied with. Where the Notification State requires a KID to be provided in a particular language, to the extent that BBVA has not already prepared a KID in such language, the Notes should not be offered, sold or otherwise made available to any retail investor in any such Notification State unless a KID has been prepared by Banco Bilbao Vizcaya Argentaria, S.A. in the relevant language. Responsibility for compliance with any ex-ante notification and any ongoing regulatory obligation in respect of such KID in such Notification State shall lie solely with the person offering, selling or otherwise making the Notes available in the Notification State. For these purposes, a “**retail investor**” means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2016/97/EU, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129, as amended.

MIFID II PRODUCT GOVERNANCE TARGET MARKET - Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories in item 18 of the Guidelines published by ESMA on 5 February 2018, has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in

Directive 2014/65/EU (as amended, “**MiFID II**”); and (ii) the following channels for distribution of the Notes are appropriate: investment advice, portfolio management and non advised sales, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

PART A - CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the General Conditions of the Notes (and, together with the applicable Annex(es), the “**Conditions**”) set forth in the Base Prospectus dated 18 June 2020 and the supplement to it dated 17 August 2020 which together constitute a Base Listing Particulars (the “**Base Prospectus**”). This document constitutes the Final Terms of the Notes and must be read in conjunction with the Base Prospectus. Full information on the Issuer, the Guarantor and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus. An issue specific summary of the Notes (which comprises the summary in the Base Prospectus as amended to reflect the provisions of these Final Terms) is annexed to these Final Terms. The Base Prospectus has been published on the websites of Euronext Dublin (www.ise.ie) and the Central Bank of Ireland (<http://www.centralbank.ie>).

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) or under any state securities laws, and the Notes may not be offered, sold, transferred, pledged, delivered, redeemed, directly or indirectly, at any time within the United States or to, or for the account or benefit of, or by, any U.S. person. Furthermore, the Notes do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the U.S. Commodity Exchange Act, as amended (the “**CEA**”), and trading in the Notes has not been approved by the U.S. Commodity Futures Trading Commission (the “**CFTC**”) pursuant to the CEA, and no U.S. person may at any time trade or maintain a position in the Notes. For a description of the restrictions on offers and sales of the Notes, see “*Subscription and Sale*” in the Base Prospectus.

As used herein, “**U.S. person**” includes any “**U.S. person**” or person that is not a “**non-United States person**” as either such term may be defined in Regulation S or in regulations adopted under the CEA.

Net Cash flow from investing activities	(556,846)	(176,077)

There have been no qualifications in the audited annual financial statements of the Issuer for the financial years ended on 31 December 2019 and 31 December 2018.

B.3 Key risks

B.3.1 What are the key risks that are specific to the Issuer?

- The Issuer is dependent on the Guarantor to make payments on the Notes. If the Guarantor fails to pay interest or repay any loan made to it by the Issuer in a timely fashion this will have a material adverse effect on the ability of the Issuer to fulfil its obligations under the Notes.
- In the event of an eventual insolvency of the Issuer, there is uncertainty as to whether the insolvency proceedings would be opened in the Netherlands or in Spain.

C. KEY INFORMATION ON THE SECURITIES

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

It is a bond for which the Client pays a purchase amount and the Issuer assumes, on the Maturity Date, the obligation to pay part of the Nominal amount of the bond or all the Nominal amount of the bond ("**Nominal Amount**"), depending on the evolution of one or several Underlying Assets, with no commitment of paying back the whole Nominal

Amount. Furthermore, the product grants to its holders the right to receive a Payout (as defined below), provided that certain conditions related to the evolution of one or more Underlying Assets are met.

Objectives

The Payout and the payment of the Nominal Amount will depend on the fulfillment of certain conditions, related to the performance of the Underlying Asset on the Reference Date, the Final Reference Date and the Barrier Observation Date:

- a) If, on a Reference Date or on the Final Reference Date, the Value of the Underlying Asset is higher than or equal to the Trigger, the Product will redeem and the Issuer will pay the Nominal Amount for each bond and, in addition, will settle a Payout for each bond equal to the result of the following formula:

$$\text{Nominal Amount} \times \text{Coupon}$$

- b) If, on the Final Reference Date, the Value of the Underlying Asset is lower than the Trigger, the Issuer will settle no Payout and regarding the payment of the Nominal Amount:
- (i) if the Barrier Activation Condition has not been verified, the Issuer will pay the Nominal Amount for each bond;
- (ii) if the Barrier Activation Condition has been verified, the Issuer will pay a portion of the Nominal Amount for each bond equal to the following formula:

$$\text{Nominal Amount} \times \text{Value of the Underlying Asset} / \text{Strike}$$

In such a situation it may occur that **the Nominal Amount will not be returned.**

Underlying Asset: EUROSTOXX50 IND

Barrier Activation Condition: if, at any of the Barrier Observation Dates the closing price of the Underlying Asset is lower than the Barrier Level.

Coupon: 14.08%, 15.84%, 17.6%, 19.36%, 21.12%, 22.88%, 24.64%, 26.4%, 28.16%, 29.92%, 31.68%, 33.44%, 35.2%, 36.96%, 38.72%, 40.48%, 42.24%

Barrier Observation Dates: 18/09/2026, unless the product expires before the date, as mentioned before.

Reference Dates: 19/09/2022, 19/12/2022, 20/03/2023, 19/06/2023, 18/09/2023, 18/12/2023, 18/03/2024, 18/06/2024, 18/09/2024, 18/12/2024, 18/03/2025, 18/06/2025, 18/09/2025, 18/12/2025, 18/03/2026, 18/06/2026 and 18/09/2026

Final Reference Date: 18/09/2026

Maturity Date: 25/09/2026

Nominal Amount: EUR 1,000

Barrier Level: 70% of the strike

Strike: Closing Price of the Underlying Asset on 07/09/2020

Trigger: 100% of the Strike

Value of the Underlying Asset: Closing Price of the Underlying Asset on each Reference Date

What are the risks and what could I get in return?

Summary Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is 5 a medium - high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions are very unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

The risk indicator assumes you keep the product for 6 years and 18 days; until the date 25 September 2026. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may have to pay a significant extra cost to cash in early.

Performance Scenarios

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment EUR 10,000		1 year	3 years	6 years and 18 days final maturity
Stress scenario	What you might get back after costs	EUR 4,510	EUR 5,249	EUR 2,679
	Average return each year	-54.93%	-19.34%	-19.57%
Unfavourable scenario	What you might get back after costs	EUR 9,775	EUR 9,192	EUR 6,108
	Average return each year	-2.26%	-2.77%	-7.83%
Moderate scenario	What you might get back after costs	EUR 10,859	EUR 11,359	EUR 11,261
	Average return each year	8.60%	4.34%	1.98%
Favourable scenario	What you might get back after costs	EUR 10,940	EUR 11,547	EUR 12,382
	Average return each year	9.41%	4.91%	3.60%

This table shows the money you could get back over the next 6 years and 18 days, under different scenarios, assuming that you invest EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the

situation where we are not able to pay you. This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Payments made to a client during the life of a product requires BBVA to make certain assumptions. This is for the purpose of undertaking scenario analysis and the calculation of product profitability as shown in the table. BBVA has chosen to capitalize on these payments, assuming a reinvestment until maturity at a risk-free rate of interest.

What happens if the Issuer is unable to pay out?

The Client could suffer a financial loss. Moreover, the product is not covered by the Deposit Guarantee Scheme of Credit Institutions nor by any other guarantee scheme or guarantor.

In the event of the resolution of the issuer of such financial instrument (applicable process when the issuer is insolvent or it is expected that it will become insolvent in the near future and due to public interest and financial stability it is necessary to avoid its insolvency), such product could be converted into shares or its Nominal Amount and, as a result, the Client could make losses in their investment.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest 10,000 EUR. The figures are estimates and may change in the future.

Costs Over Time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment EUR 10,000			
Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in at recommended holding period
Total costs	EUR 167.76	EUR 160.27	EUR 156.43
Impact on return (RIY) per year	1.68%	0.53%	0.26%

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might receive at the end of the recommended holding period;
- the meaning of the different cost categories.

This table shows the impact on return per year

One-off costs	Entry costs	0.26%	The impact of the costs you pay when entering your investment. The impact is included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures
Ongoing costs	Portfolio transaction costs	0.00%	The impact of the costs of us buying and selling underlying investments for the
	Other ongoing costs	0.00%	The impact of the costs that we take each year for managing your investments presented in section II.

How long should I hold it and can I take money out early?

Recommended Holding Period: 6 years and 18 days

The Product does not allow cancellation or a refund in advance. The Client may sell the Product before its Maturity Date, provided there is liquidity in the market. In that case, the Client will not be entitled to Compensation and may suffer a loss if the selling price is less than the Amount Invested

C.2	<i>What are the key risks that are specific to the Securities?</i>
------------	---

There are a number of risks associated with an investment in the Notes. These risks include:

- The Notes may not be a suitable investment for all investors. The Notes are complex financial instruments and may entail significant risks not associated with investments in conventional securities such as debt or equity.
- There are specific risks relating Index Linked Notes. Potential investors may receive no or a limited amount of interest lose all or a substantial portion of their investment if the value of the index/indices does not move in the anticipated direction.
- A Noteholder does not have rights of ownership in the Reference Item(s) and potential investors in Equity Linked Notes or Fund may receive less return than expected.
- There are specific risks relating to Reference Item Linked Notes. The Reference Item Linked Notes are securities which do not provide for predetermined redemption amounts and/or interest payments and the amounts payable (whether in respect of principal and/or interest) or deliverable will be dependent upon the performance of the Reference Item, or a combination of Reference Items, which themselves may contain substantial credit, interest rate, foreign exchange, correlation, time value, political and/or other risks.
- The past performance of a Reference Item is not indicative of future performance and the range of, or trends in, fluctuations in the Reference Item that may occur in the future. It is therefore possible that future performance of a Reference Item may differ from, and be worse than, such past performance.
- Investors may lose the original invested amount due to various reasons including without limitation: (a) possible insolvency proceedings or some other event impairing the ability of the Issuer and the Guarantor to meet its obligations under the Notes; (b) the fact that the terms of the relevant Notes do not provide for full repayment of the initial purchase price upon final maturity and/or mandatory early redemption of such Notes and the relevant Reference Item(s) perform in such a manner that the final redemption amount and/or mandatory early redemption amount is less than the initial purchase price; (c) the fact that the purchaser seeks to sell the relevant Notes prior to their scheduled maturity, and the sale price of the Notes in the secondary market is less than the purchaser's initial investment; and (d) the fact that the Notes are subject to certain adjustments in accordance with the terms and conditions of such Notes that may result in the scheduled amount to be paid or asset(s) to be delivered upon redemption being reduced to or being valued at an amount less than a purchaser's initial investment.
- Credit ratings assigned to the Issuer, the Guarantor or any Notes may not reflect all the risks associated with an investment in those Notes. Should the credit ratings of the Issuer, the Guarantor or any Notes be revised, suspended or withdrawn this could result in increased interest and other expenses on the Issuer's and the Guarantor's future borrowings and, therefore, have a material adverse effect on the Guarantor's business, results of operations, and financial condition.
- The Calculation Agent, which will generally be the Guarantor or an affiliate of the Guarantor, has broad

discretionary powers which may not take into account the interests of the Noteholders. Potential conflicts of interest may exist between the Calculation Agent and the Noteholders, including with respect to the exercise of the very broad discretionary powers of the Calculation Agent.	
C.3	<i>Risk factors relating to the Guarantor</i>
<ul style="list-style-type: none"> • The coronavirus (COVID-19) pandemic is adversely affecting the Group as it has resulted in an increase in debt defaults by both companies and individuals, volatility in the financial markets, volatility in exchange rates and falls in the value of assets and investments. The Group may be affected by the measures adopted by regulatory authorities and the pandemic could also adversely affect the business and operations of third parties that provide critical services to the Group and it could be more difficult for the Group to maintain the required service levels. • The Group's businesses are subject to inherent risks concerning borrower and counterparty credit quality, which have affected and are expected to continue to affect the recoverability and value of assets on the Group's balance sheet. Adverse changes in the credit quality of the Group's borrowers and counterparties or collateral, or in their behaviour or businesses, may reduce the value of the Group's assets, and materially increase the Group's write-downs and loss allowances. • The Group has a continuous demand for liquidity to finance its activities and the withdrawal of deposits or other sources of liquidity could significantly affect it. In the event of a withdrawal of deposits or other sources of liquidity, especially if it is sudden or unexpected, the Group may not be able to finance its financial obligations or meet the minimum liquidity requirements that apply to it, and may be forced to incur higher financial costs, liquidate assets and take additional measures to reduce their level of leverage. • The Group is party to a number of legal and regulatory actions and proceedings which may result in a significant increase in operating and compliance costs or even a reduction of revenues, and it is possible that an adverse outcome in any proceedings (depending on the amount thereof, the penalties imposed or the procedural or management costs for the Group) could damage the Group's reputation, have significant consequential costs and related implications for the Group or otherwise adversely affect the Group. • The Group is subject to a broad regulatory and supervisory framework, including resolution regulations, which could have a significant adverse effect on its business, financial condition and results of operations. Any legislative or regulatory measure and any necessary change in the Group's business operations, as a consequence of such measures, as well as any deficiency in complying with them, could result in a significant loss of income, represent a limitation on the ability of the Group to take advantage of business opportunities and offer certain products and services, affect the value of the Group's assets, force the Group to increase prices (which could reduce the demand for its products), impose additional compliance costs or result in other possible negative effects for the Group.
