under the

Regulation S Program for the Issuance of Notes, Series A and B, Warrants and Certificates

The Offering Circular referred to below (as completed by this Pricing Supplement) has been prepared on the basis that any offer of the Securities in any Member State of the European Economic Area which has implemented the Prospectus Directive (2003/71/EC) (as amended, including by Directive 2010/73/EU) (together, the "Prospectus Directive") (each, a "Relevant Member State") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Securities. Accordingly any person making or intending to make an offer in that Relevant Member State of the Securities may only do so in circumstances in which no obligation arises for the Issuer or any Distribution Agent to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer nor any Distribution Agent has authorised, nor do they authorise, the making of any offer of Securities in any other circumstances.

Warning: Neither this Pricing Supplement nor the Offering Circular referred to below constitutes a "prospectus" for the purposes of Article 5.4 of Directive 2003/71/EC (as amended, including by Directive 2010/73/EU, the "Prospectus Directive"), and the Pricing Supplement and the Offering Circular have been prepared on the basis that no prospectus shall be required under the Prospectus Directive in relation to any Securities be offered and sold under hereby.

This document constitutes the Pricing Supplement relating to the issue of Certificates described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Warrants and Certificates (the "**Conditions**") set forth in the Offering Circular dated 18 August 2014 and the supplemental Offering Circular dated 29 September 2014 and 28 November 2014 (together, the "**Offering Circular**"). The Certificates shall constitute Securities for the purposes of the Conditions. This Pricing Supplement must be read in conjunction with such Offering Circular as so supplemented. Full information on the Issuer and the offer of the Certificates is only available on the basis of the combination of this Pricing Supplement and the Offering Circular. Copies of the Offering Circular are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London E14 4QA. The Offering Circular has also been published on the website of the Irish Stock Exchange (www.ise.ie) and on the website of the Luxembourg Stock Exchange (www.bourse.lu).

Information Concerning Investment Risk

Certificateholders and prospective purchasers of Certificates should ensure that they understand the nature of the Certificates and the extent of their exposure to risk and that they consider the suitability of the Certificates as an investment in the light of their own circumstances and financial condition. The amount payable on redemption of the Certificates is linked to the performance of the Underlying (as defined herein), and may be less than par. Given the highly specialised nature of these Certificates, Morgan Stanley (the "**Issuer**") and Morgan Stanley & Co. International plc ("**MSI plc**") consider that they are only suitable for highly sophisticated investors who are able to determine for themselves the risk of an investment linked to the Underlying, are willing to take risks and can absorb the partial or complete loss of their initial investment. Consequently, if you are not an investor who falls within the description above you should not consider purchasing these Certificates without taking detailed advice from a specialised professional adviser.

Potential investors are urged to consult with their legal, regulatory, investment, accounting, tax and other advisors with regard to any proposed or actual investment in the Certificates and to review the Offering Circular. Please see the Offering Circular together with the Pricing Supplement for a full detailed description of the Certificates and in particular, please review the Risk Factors associated with these Certificates. Investing in the Certificates entails certain risks including, but not limited to, the following:

Risk of loss of up to entire investment: The Certificates are not capital protected instruments and you could lose some and up to all of your money, depending on the performance of the Underlying (as defined below).

No Recourse: Holders of Certificates shall have no recourse to, and no legal or beneficial interest in, the Underlying or any asset in the Underlying.

Adjustments by the Determination Agent: The terms and conditions of the Certificates will allow the Determination Agent to make adjustments to the Certificates and/or the Underlying or take any other appropriate action if circumstances occur where the Certificates or the Underlying (including assets thereof) are affected by market disruption, adjustment events or circumstances affecting normal activities.

Credit Risk: Investors are exposed to the credit risk of the Issuer. The Certificates are essentially a loan to the Issuer with a repayment amount linked to the performance of the Underlying that the Issuer promises to pay to you at maturity. There is the risk, however, that the Issuer may not be able to fulfil its promise to you. If any companies in the Morgan Stanley group incur losses with respect to any of their activities, this may have a negative impact on the financial condition of the Issuer. You may lose all or part of your investment if the Issuer is unable to pay the redemption amount and/or goes into liquidation. No assets of the Issuer are segregated and specifically set aside in order to pay the holders of the Certificates in the event of liquidation of the Issuer, and the holders of the Certificates will rank behind creditors who have priority rights over certain assets of the Issuer.

Exit Risk: The secondary market price of the Certificates will depend on many factors, including the value and volatility of the Underlying, interest rates, time remaining to maturity and the creditworthiness of the Issuer. The secondary market price may be lower than the market value of the issued Certificates as at the Issue Date to take into account amounts paid distributors and other intermediaries relating to the issue and sale of the Certificates as well as amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, the holder may receive an amount in the secondary market which may be less than the then intrinsic market value of the Certificate and which may also be less than the amount the holder would have received had the holder held the Certificate through to maturity.

Issuer Call Risk: The Issuer may call the Certificates at any time, subject to the requirement to provide a notice of not less than five business days. In this event, the holder will receive an early redemption amount equal to the increase in value (if any) of the Underlying determined at the day in which the Issuer has exercised its right to early terminate the Certificates as compared to the value of the Underlying on the Trade Date. Such early redemption amount may be less than any amount that the holder could have realised if such option had not been exercised. Furthermore, a holder will not be able to participate in any future performance of the Underlying following the exercise of the Issuer call option. If the Issuer call option is exercised, a holder may not be able to reinvest the proceeds at an effective interest rate as high as any effective interest rate on the Certificates.

Capital is not protected: the final redemption amount depends on the performance of the Underlying and could be zero.

Exit Risk: The secondary market price of the Certificates will depend on many factors, including the value and volatility of the Underlying, interest rates, time remaining to maturity and the creditworthiness of the Issuer. The secondary market price may be lower than the market value of the issued Certificates as at the Issue Date to take into account amounts paid distributors and other intermediaries relating to the issue and sale of the Certificates as well as amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, the holder may receive an amount in the secondary market which may be less than the then intrinsic market value of the Certificate and which may also be less than the amount the holder would have received had the holder held the Certificate through to maturity.

Liquidity Risk: Any secondary market in the Certificates made by the Dealer will be made on a reasonable efforts basis only and subject to market conditions, law, regulation and internal policy. Even whilst there may be a secondary market in the Certificates it may not be liquid enough to facilitate a sale by the holder.

Hedging Risk: On or prior to and after the Trade Date, the Issuer, through its affiliates or others, will likely hedge its anticipated exposure under the Certificates by taking positions in the Underlying, in option contracts on the Underlying or positions in any other available securities or instruments. In addition, the Issuer and its affiliates trade the Underlying as part of their general businesses. Any of these activities could potentially affect the value of the Underlying, and accordingly, could affect the payout to holders on the Certificates.

Potential Conflict of Interest: The Determination Agent, which is an affiliate of the Issuer, will determine the pay-out to the investor at maturity. Morgan Stanley & Co. International plc and its affiliates may trade the Underlying on a regular basis as part of its general broker-dealer business and may also carry out hedging activities in relation to the Certificates. Any of these activities could influence the Determination Agent's determination of adjustments made to any Certificates and any such trading activity could potentially affect the price of the Underlying and, accordingly, could affect the investor's pay-out on any Certificate.

In purchasing any Certificates, purchasers will be deemed to represent and undertake to the Issuer, the Dealer and each of their affiliates that (i) such purchaser understands the risks and potential consequences associated with the purchase of the Certificates, (ii) that such purchaser has consulted with its own legal, regulatory, investment, accounting, tax and other advisers to extent it believes is appropriate to assist it in understanding and evaluating the risks involved in, and the consequences of, purchasing the Certificates and (iii) in accordance with the terms set out in Annex 1.

Morgan Stanley is not qualified to give legal, tax or accounting advice to its clients and does not purport to do so in this document. Clients are urged to seek the advice of their own professional advisers about the consequences of the proposals contained herein.
