This document constitutes the Pricing Supplement relating to the issue of Certificates described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Certificates and Certificates (the "**Conditions**") set forth in the Offering Circular dated 17 August 2015 and the supplemental Offering Circular dated 30 November 2015, 23 December 2015 and 14 April 2016 (together, the "**Offering Circular**") The Certificates shall constitute Securities for the purposes of the Conditions. This Pricing Supplement must be read in conjunction with such Offering Circular. Full information on the Issuer and the offer of the Certificates is only available on the basis of the combination of this Pricing Supplement and the Offering Circular. Copies of the Offering Circular are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London E14 4QA. The Offering Circular has also been published on the website of the Irish Stock Exchange ([www.ise.ie](http://www.ise.ie)) and on the website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)).

### **Information Concerning Investment Risk**

Certificateholders and prospective purchasers of Certificates should ensure that they understand the nature of the Certificates and the extent of their exposure to risk and that they consider the suitability of the Certificates as an investment in the light of their own circumstances and financial condition. The amount payable on redemption of the Certificates is linked to the performance of the Underlying (as defined herein), and may be less than par. Given the highly specialised nature of these Certificates, Morgan Stanley & Co International Plc (the "Issuer" and "MSI plc"), considers that they are only suitable for highly sophisticated investors who are able to determine for themselves the risk of an investment linked to the Underlying Index, are willing to take risks and can absorb the partial or complete loss of their initial investment. Consequently, if you are not an investor who falls within the description above you should not consider purchasing these Certificates without taking detailed advice from a specialised professional adviser.

Potential investors are urged to consult with their legal, regulatory, investment, accounting, tax and other advisors with regard to any proposed or actual investment in these Certificates. Please see the Offering Circular for a full detailed description of the Certificates and in particular, please review the Risk Factors associated with these Certificates.

In purchasing any Certificates, purchasers will be deemed to represent and undertake to the Issuer, the Dealer and each of their affiliates that (i) such purchaser understands the risks and potential consequences associated with the purchase of the Certificates, (ii) that such purchaser has consulted with its own legal, regulatory, investment, accounting, tax and other advisors to extent it believes is appropriate to assist it in understanding and evaluating the risks involved in, and the consequences of, purchasing the Certificates and (iii) in accordance with the terms set out in Annex 2.

**Adjustments by the Determination Agent:** The terms and conditions of the Certificates will allow the Determination Agent to make adjustments or take any other appropriate action if circumstances occur where the Certificates or any exchanges are affected by market disruption, adjustment events or circumstances affecting normal activities. In addition, other circumstances may occur which either increase the liability of the Issuer fulfilling its obligations under the Certificates or increase the liability of any hedging activities related to such obligations, including without limitation the adoption of or any change in any tax law relating to a common system of financial transaction tax in the European Union or otherwise.

In such circumstances, the Determination Agent can in its sole and absolute discretion determine whether to redeem the Securities early, or adjust the terms of the Certificates, which may include without limitation adjustments to the Strike Price, the Cash Settlement Amount or the Underlying. The Determination Agent is not required but has the discretion to make adjustments with respect to each and every corporate action. Potential investors should see the Offering Circular for a detailed description of potential adjustment events and adjustments.

**Credit Risk:** Investors are exposed to the credit risk of the Issuer and the Guarantor. The Certificates are essentially a loan to the Issuer with a repayment amount linked to the performance of the Underlying that the Issuer promises to pay to you at maturity. There is the risk, however, that the Issuer may not be able to fulfil its promise to you. If any companies in the Morgan Stanley group incur losses with respect to any of their activities, this may have a negative impact on the financial condition of the Issuer. You may lose all or part of your investment if the Issuer is unable to pay the redemption amount and/or goes into liquidation. No assets of the Issuer are segregated and specifically set aside in order to pay the holders of the Certificates in the event of liquidation of the Issuer, and the holders of the Certificates will rank behind creditors who have priority rights over certain assets of the Issuer.

**Capital is not protected:** the final redemption amount depends on the performance of the Underlying and could be zero.

**Exit Risk:** The secondary market price of the Certificates will depend on many factors, including the value and volatility of the Underlying, interest rates, time remaining to maturity and the creditworthiness of the Issuer and the Guarantor. The secondary market price may be lower than the market value of the issued Certificates as at the Issue Date to take into account amounts paid distributors and other intermediaries relating to the issue and sale of the Certificates as well as amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, the holder may receive an amount in the secondary market which may be less than the then intrinsic market value of the Certificate and which may also be less than the amount the holder would have received had the holder held the Certificate through to maturity.

**Liquidity Risk:** Any secondary market in the Certificates made by the Dealer will be made on a reasonable efforts basis only and subject to market conditions, law, regulation and internal policy. Even whilst there may be a secondary market in the Certificates it may not be liquid enough to facilitate a sale by the holder.

**Hedging Risk:** On or prior to and after the Trade Date, the Issuer, through its affiliates or others, will likely hedge its anticipated exposure under the Certificates by taking positions in the Underlying, in option contracts on the Underlying or positions in any other available securities or instruments. In addition, the Issuer and its affiliates trade the Underlying as part of their general businesses. Any of these activities could potentially affect the value of the Underlying, and accordingly, could affect the payout to holders on the Certificates.

**Product Market Risk:** The value of the Certificates and the returns available under the terms of the Certificates will be influenced and dependent on the value of the Underlying. It is impossible to predict how the level of the Underlying will vary over time. The historical performance (if any) of the Underlying is not indicative of its future performance.

**Potential Conflict of Interest:** The Determination Agent, which is an affiliate of the Issuer, will determine the pay-out to the investor at maturity. Morgan Stanley & Co. International plc and its affiliates may trade the Underlying on a regular basis as part of its general broker-dealer business and may also carry out hedging activities in relation to the Certificates. Any of these activities could influence the Determination Agent's determination of adjustments made to any Certificates and any such trading activity could potentially affect the price of the Underlying and, accordingly, could affect the investor's pay-out on any Certificate.

**Underlying Issuer Risk:** The issuer of the relevant Underlying is not an affiliate of the Issuer or its affiliates and is not involved with this offering in any way. Consequently, the Issuer and the Determination Agent have no ability to control the actions of the issuer of the relevant Underlying, including and rebalancing that could trigger an adjustment to the terms of the Certificates by the Determination Agent.

Morgan Stanley is not qualified to give legal, tax or accounting advice to its clients and does not purport to do so in this document. Clients are urged to seek the advice of their own professional advisers about the consequences of the proposals contained herein.
