Premium Green PLC (the “**Issuer**”) is an Issuer under the PREMIUM Multi-Issuer Asset-Backed Medium Term Note Programme (the “**Programme**”).

These supplemental listing particulars (these “**Supplemental Listing Particulars**”) are not a prospectus prepared in compliance with Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”) and have not been approved by a competent authority for the purposes of the Prospectus Regulation.

These Supplemental Listing Particulars will be available from the website of the Irish Stock Exchange plc, trading as Euronext Dublin (“**Euronext Dublin**”). These Supplemental Listing Particulars contain information relating to the issue by the Issuer of its USD 20,000,000 Credit-Linked Asset-Backed Notes due 2031 (the “**Notes**”) under the Programme, and must be read in conjunction with and incorporates by reference the contents of the base listing particulars (the “**Base Listing Particulars**”) dated 20 July 2020, each prepared by the Issuer. Any capitalised terms used but not defined in these Supplemental Listing Particulars shall have the meanings given to them in the Base Listing Particulars.

The Notes will be issued on 21 July 2020 (the “**Issue Date**” and the “**Interest Commencement Date**”). The Notes will bear interest in respect of each Interest Period from, and including, the Issue Date to, but excluding, 13 January 2031 at a formula-linked rate, which is the greater of: (i) a specified USD swap rate with a 2 year maturity plus 1.92 per cent. and (ii) 0 per cent., in either case multiplied by an Accrual Factor. The Accrual Factor in respect of an Interest Period shall be (A) the number of calendar days in the relevant Interest Observation Period in respect of which: (i)(x) a specified USD swap rate with a 30 year maturity less a specified USD swap rate with a 2 year maturity; is above or equal to (y) -0.05 per cent. per annum; and (ii) a specified USD swap rate with a 10 year maturity is below or equal to 6 per cent. per annum; divided by (B) the total number of calendar days in such interest observation period. Interest Amounts shall be payable in arrears on each Interest Payment Date during such period, such Interest Payment Dates being subject to adjustment in accordance with the Modified Following Business Day Convention, as all such terms are defined and more fully described herein.

The Issuer has entered into an asset swap transaction (the “**Asset Swap Transaction**”) and a credit default swap transaction (the “**Credit Default Swap Transaction**”) and, together with the Asset Swap Transaction, the “**Swap Transactions**”) with Crédit Agricole Corporate and Investment Bank as asset swap counterparty (the “**Asset Swap Counterparty**”) and Credit Default Swap Counterparty (the “**Credit Default Swap Counterparty**”) and, together with the Asset Swap Counterparty, the “**Swap Counterparty**”) in connection with the issue of the Notes, as further described herein. See Annex 1 (*Form of Asset Swap Confirmation*) and Annex 2 (*Form of Credit Default Swap Confirmation*) to the Terms and Conditions of the Notes and the “*Description of the ISDA Master Agreement*” below.

Unless previously redeemed pursuant to Condition 7 (*Redemption, Purchase and Exchange*) or Condition 10 (*Events of Default*), on 13 January 2031 or such later date if postponed in accordance with the Terms and Conditions of the Notes as further described herein (the “**Maturity Date**”), the Notes will redeem at their principal amount, as more fully described herein. Upon the occurrence of an Early Redemption Event, the Issuer shall (i) to the extent required, pay any amounts due by it under the Swap Agreement upon termination of the Swap Transactions and to other creditors of the Issuer excluding the Noteholders in cash, to the extent that it holds the same and through the sale of the Underlying Asset, any Deliverable Obligations and any credit support under the Swap Agreement held by the Issuer and (ii) redeem the Notes by way of Cash Settlement or Physical Settlement (as applicable) to the Noteholders, as all such terms are defined and more fully described herein.

The Notes and the interest thereon constitute secured, limited recourse obligations of the Issuer, secured in the manner described in Condition 4 (*Related Agreements and Security*) and recourse in respect of which is limited in the manner described in Condition 11 (*Limited Recourse Enforcement*), and will rank *pari passu* without any preference among themselves.

Application has been made to Euronext Dublin for the approval of this document as Listing Particulars. Application has been made to Euronext Dublin for the Notes to be admitted to the official list (“**Official List**”) and trading on the Global Exchange Market which is the exchange regulated market of Euronext Dublin. However, there can be no assurance that such listing or admission to trading will be successful, or if successful, will continue for the term of the Notes. The Global Exchange Market is not a regulated market for the purposes of Directive 2014/65/EU (as amended “**MiFID II**”).

The Notes will initially be represented by a temporary global note without interest coupons (the “**Temporary Global Note**”) which will be deposited on or before the Issue Date with a common depositary on behalf of Euroclear Bank S.A./N.V. (“**Euroclear**”) and/or Clearstream Banking, société anonyme (“**Clearstream, Luxembourg**”). The Temporary Global Note will be exchangeable, in accordance with its terms, for interests in a permanent global note, without interest coupons (the “**Permanent Global Note**”) on or after a date which is expected to be 30 August 2020, upon certification as to non-U.S. beneficial ownership. The Permanent Global Note will be exchangeable for definitive Notes in bearer form in the denomination of USD 1,000,000 with interest coupons attached, only in the limited circumstances set out in the Permanent Global Note. See “*Summary of Conditions relating to the Notes while in Global Form*” set out in the Base Listing Particulars.

The Notes have not been rated.

See “*Risk Factors*” on pages 2 to 39 of the Base Listing Particulars and pages 1 to 4 of this document for certain factors relevant to an investment in the Notes.

The Issuer accepts responsibility for the accuracy of such extraction but accepts no further or other responsibility in respect of such information. So far as the Issuer is aware and/or able to ascertain from such published information, no facts have been omitted which would render the reproduced information inaccurate or misleading. The Issuer has not been responsible for, nor has it undertaken, any investigation or verification of statements, including statements as to foreign law, contained in such information. The Issuer has not conducted extensive due diligence on the Third Party Information. The Issuer has only made very limited enquiries with regards to the Third Party Information for the purposes of obtaining the information reproduced herein as Third Party Information. Otherwise the Issuer has not made any enquiries in relation to the Third Party Information. The Issuer does not make any representation or warranty, expressed or implied, as to the accuracy or completeness of the Third Party Information (other than any Third Party Information relating to itself) and prospective investors in the Notes should not rely upon, and should make their own independent investigations and enquiries in respect of the same.

Neither the Dealer nor the Trustee has separately verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Dealer or the Trustee or any of their respective affiliates as to the accuracy or completeness of the information contained in these Supplemental Listing Particulars or any other information supplied in connection with the Notes or their distribution. Neither the delivery of these Supplemental Listing Particulars nor any composite part thereof nor the offering, sale or delivery the Notes shall, in any circumstances, create any implication that the information contained in these Supplemental Listing Particulars is correct subsequent to the date hereof.

The distribution of these Supplemental Listing Particulars and the offer or sale of the Notes may be restricted by law in certain jurisdictions. Persons into whose possession these Supplemental Listing Particulars or any composite part thereof or any Notes come must inform themselves about, and observe, any such restrictions.

None of the Issuer, the Dealer or the Trustee represent that these Supplemental Listing Particulars may be lawfully distributed, or that the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular,

no action has been taken by the Issuer, the Dealer or the Trustee which would permit a public offering of any Notes or distribution of these Supplemental Listing Particulars or any composite part thereof in any jurisdiction where action for that purpose is required. Accordingly, Notes may not lawfully be offered or sold, directly or indirectly, and none of these Supplemental Listing Particulars or any advertisement or other offering material relating to the Notes may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations, and the Dealer has represented that all offers and sales by it will be made on the same terms.

These Supplemental Listing Particulars and any further information supplied pursuant to the terms of the Notes should not be considered as a recommendation or constituting an invitation, offer or recommendation by or on behalf of the Issuer, the Trustee, the Dealer or any of their respective affiliates that any recipient of these Supplemental Listing Particulars or any further information supplied pursuant to the terms of the Notes should subscribe for or purchase any of the Notes. Each investor contemplating purchasing any Notes should make their own independent investigation of the financial condition and affairs, and their own appraisal of the creditworthiness, of the Issuer, the issuer of the Underlying Asset and the Swap Counterparty.

The Notes have not been and will not be registered under the United Securities Act of 1933, as amended (the “**Securities Act**”) and, subject to certain exceptions, may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act).

A further description of the restrictions on offers and sales of the Notes in the United States or to, or for the benefit of, U.S. persons, and in certain other jurisdictions, is set forth under “*Subscription and Sale*” in the Base Listing Particulars.

Any investment in the Notes does not have the status of a bank deposit and is not within the scope of the deposit protection scheme operated by the Central Bank of Ireland. The Issuer is not and will not be regulated by the Central Bank of Ireland as a result of issuing the Notes.

Solely for the purposes of each manufacturer’s product approval process the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturers’ target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers’ target market assessment) and determining appropriate distribution channels.

Amounts payable under the Notes are calculated by reference to USD-ICE-Swap Rate 2Y, USD-ICE-Swap Rate 10Y and USD-ICE-Swap Rate 30Y, which are provided by ICE Benchmark Administration Limited, the administrator in relation to such benchmark. As at the date hereof, such administrator is included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority pursuant to Article 36 of the Benchmarks Regulation (Regulation (EU) 2016/1011).

## **RISK FACTORS RELATING TO THE NOTES**

*Prospective investors should read the entire Base Listing Particulars, these Supplemental Listing Particulars and the Pricing Supplement contained herein. Words and expressions defined elsewhere in these Supplemental Listing Particulars or the Base Listing Particulars (as the case may be) have the same meanings in this section.*

*The investment considerations set out below are not exhaustive. There may be other risk factors that a prospective investor should consider that are relevant to its own particular circumstances or generally. More than one investment risk may have a simultaneous effect with regard to the value of the Notes and the effect may not be predictable. In addition, more than one investment risk may have a compounding effect and no assurance can be given as to the effect that any combination of investment risks may have on the value of the Notes. Prior to investing in any Notes, prospective investors should carefully consider the following factors, in addition to the matters set forth elsewhere in these Supplemental Listing Particulars, and take their own legal, financial, accounting, tax and other relevant advice as to the structure and viability of any investment in the Notes. Terms not defined in this section and not otherwise defined above have the meanings set out in the Conditions.*

### **Notes not guaranteed**

The Notes will be obligations solely of the Issuer and will not be guaranteed by, or be the responsibility of, any other entity. In particular the Notes will not be obligations of, and will not be guaranteed by, the Trustee, any Agent or the Dealer.

### **Reliability on the Creditworthiness of the Swap Counterparty**

The ability of the Issuer to meet its obligations under the Notes will depend on the receipt by it of payments and deliveries under the Swap Agreement (as defined in “*Description of the ISDA Master Agreement*” below). Consequently, the Issuer is exposed not only to, *inter alia*, the occurrence of Underlying Disposal Events relating to the Underlying Asset and the issuer thereof, but also to the ability of the Swap Counterparty to perform its obligations in respect of the Swap Transactions under the Swap Agreement. The obligations of the Swap Counterparty under the Swap Agreement are not secured, but shall be subject to the provisions of a Credit Support Annex.

### **No Prior Market for the Notes; Resale Restrictions**

There is no existing market for the Notes, and there can be no assurance that any market will develop for the Notes or that holders of the Notes will be able to sell their Notes in the secondary market, in which case the market or trading price and liquidity of the Notes may be adversely affected.

The Notes are designed to be held until the maturity date. The price at which investors will be able to sell their Notes prior to maturity, if at all, may be substantially less than the aggregate principal amount of the Notes. Any potential returns described herein assume that the Notes, which are not designed to be short-term trading instruments, are held to maturity.

### **Independent Investigation**

The cash flows arising from the Underlying Asset, together with the payments and deliveries under the Swap Transactions, constitute the sole financial resources of the Notes for the purposes of the payment of principal and interest amounts due in respect of the Notes. Purchasers of Notes should conduct such independent investigation and analysis regarding the Underlying Asset and all other assets from time to time comprising the Underlying Asset and the issuer of the Underlying Asset and the Swap Counterparty as they deem appropriate to evaluate the merits and risks of an investment in the Notes. The Issuer and Swap Counterparty disclaim any responsibility to advise purchasers of Notes of the risks and investment considerations associated with the purchase of the Notes as they may exist at the date hereof or from time to time thereafter.

## **Modification of certain documents without consent of Secured Creditors**

Certain amendments, modifications or waivers may be made in respect of the Obligation Documents, the Trust Deed or the Transaction Documents without the consent of Secured Creditors (including the holders of the Notes).

These include amendments, modifications or waivers which are required to reflect legal or regulatory changes as may be required to comply with certain regulations, including but not limited to the European Market Infrastructure Regulation (Regulation (EU) No 648/2012, as amended, supplemented or re-enacted), including any implementing regulation, technical standards and guidance related thereto. See Condition 14(a) (*Meetings of Noteholders, Modification, Waiver, Authorisation and Substitution*), as amended in the Terms and Conditions of the Notes.

Any such amendment, modification or waiver could be prejudicial or adverse to Noteholders.

## **Interest Rate**

The coupon on the Notes for each Interest Period from, and including, the Issue Date to, but excluding, the Scheduled Maturity Date is a formula-linked rate based on a formula linked to the USD-ICE-Swap Rate, the rate for USD swap transactions with a maturity of two years (“**USD-ICE-Swap Rate 2Y**”), ten years (“**USD-ICE-Swap Rate 10Y**”) and thirty years (“**USD-ICE-Swap Rate 30Y**”) and, together with the USD-ICE-Swap Rate 2Y and USD-ICE-Swap Rate 10Y, the “**USD-ICE-Swap Rates**”).

The USD-ICE-Swap Rates are variable rates and as such are not pre-defined for the lifespan of the Notes; conversely the USD-ICE-Swap Rates allow investors to follow market changes with an instrument reflecting changes in the levels of yields.

Curve shape changes will also affect the market value of the Notes: any steepening of the long end of the yield curve will increase the market value of the Notes and conversely any flattening of the long end will decrease the market value of the Notes.

Potential investors should not assume that the Interest Rate applicable to any particular Interest Period is the same Interest Rate as may have applied to any previous Interest Period.

Accordingly, an investment in the Notes entails significant risks and may not be appropriate for investors lacking financial expertise. Prospective investors should consult their own financial, tax and legal advisors as to the risks entailed by an investment in such Notes and the suitability of such Notes in light of their particular circumstances and ensure that its acquisition is fully consistent with their financial needs and investment policies, is lawful under the laws of the jurisdiction of its incorporation and/or in which it operates, and is a suitable investment for it to make. The Issuer believes that such Notes should only be purchased by investors who are, or who are purchasing under the guidance of, financial institutions or other professional investors that are in a position to understand the special risks that an investment in these instruments involves, in particular relating to options and derivatives and related transactions, and should be prepared to sustain a total loss of the purchase price of their Notes.

## Collateral Adjustment Event

The Asset Swap Agreement contains an Additional Termination Event which can be triggered by: (i) an amendment to the terms of the Underlying Asset (including a redenomination of the Underlying Asset); or (ii) the application of any fallbacks following the occurrence of a disruption event in respect of an index, benchmark or price source which is referenced by the Underlying Asset. In the event that the Asset Swap Counterparty exercises its right to terminate pursuant to such Additional Termination Event, the Asset Swap Transaction will terminate early. Pursuant to Condition 7(b)(i)(B) (*Early Redemption – Underlying Disposal Event*), the termination of the Asset Swap Transaction will constitute an Early Redemption Event under the Notes.

In such circumstances Noteholders may lose all or part of their investment.

## Credit Support Annex

A 1995 Credit Support Annex (Bilateral Form – Transfer) (the “**Credit Support Annex**”) will form part of the Swap Agreement on the Issue Date.

The provision of credit support by the Issuer and the Swap Counterparty shall be more fully set out in the Credit Support Annex prepared in connection with the issuance of the Notes. See the “*Description of the ISDA Master Agreement*” below.

The Credit Support Annex provides for the provision of credit support for the exposure of a party to the Swap Transactions to the other party. The exact amount of credit support transferred at any point in time depends on the exposure (which depends on the value of the Swap Transactions), the independent amount, if any, (a fixed amount required to be collateralised irrespective of the value of the Swap Transactions), the value of available credit support (which may be adjusted down by a haircut), any threshold (an amount of exposure not required to be collateralised) and any minimum transfer amount. The eligible credit support which may be transferred by the Issuer as credit support and equivalent credit support under the Credit Support Annex includes, to the extent that the Swap Counterparty has previously transferred the same to the Issuer as credit support or equivalent support under the Credit Support Annex and it has not yet been returned by the Issuer to the Swap Counterparty, USD, JPY, EUR or GBP denominated cash and certain additional government bonds and other bonds. The eligible credit support which may be transferred by the Swap Counterparty as credit support and equivalent credit support under the Credit Support Annex includes the Underlying Asset and, to the extent that the Underlying Asset previously transferred by the Issuer to the Swap Counterparty as credit support or equivalent credit support under the Credit Support Annex have been returned to the Issuer, thereafter USD, JPY, EUR or GBP denominated cash and other assets or property notified by the Swap Counterparty to the Issuer in writing from time to time, provided such assets are available to the Issuer.

Depending upon the value of the Swap Transactions on any given valuation date, it is possible that the Issuer has transferred to the Swap Counterparty all of the Underlying Asset which will no longer form part of the Security in respect of the Notes and the Notes will otherwise be secured by the Issuers rights under the Swap Agreement. If the Swap Counterparty is the defaulting party and the Swap Transactions are terminated as a result thereof, the Swap Counterparty will be required to transfer to the Issuer any credit support held by the Swap Counterparty and will not be permitted to net such amount against any settlement amount determined in respect of the Swap Transactions. Any claim of the Swap Counterparty in respect of any amount due under Section 6(e) (*Payments on Early Termination*) of the Swap Agreement will be satisfied in accordance with paragraph 64 (*Application of Proceeds*) and paragraph 65 (*Credit Event – Application of Proceeds*) of the Terms and Conditions of the Notes.

As the Swap Counterparty may transfer the Underlying Asset, USD, JPY, EUR or GBP denominated cash and certain other assets or property notified by the Swap Counterparty to the Issuer in writing from time to time to the Issuer as credit support under the Credit Support Annex, such assets may also form part of the Security in respect of the Notes.

If the Issuer has an insufficient remaining amount of USD, JPY, EUR or GBP denominated cash and certain additional government bonds and other bonds to meet its transfer obligations under the Credit Support Annex then its inability to post collateral and its subsequent failure to perform under the Credit Support Annex shall not constitute an Event of Default or Termination Event under the Swap Agreement. For the avoidance of doubt, any obligation of the Issuer to transfer credit support under the Credit Support Annex shall be subject to the limited recourse and non-petition provisions in the Supplemental Trust Deed.

In each of the above circumstances Noteholders may lose all or part of their investment.

### FORMULA-LINKED INTEREST RATE

The Formula-Linked Interest Rate applicable to the Notes in respect of each Interest Period from, and including the Interest Commencement Date to, but excluding, the earlier to occur of the Scheduled Maturity Date or Specified Interest Payment Date immediately prior to the Event Determination Date, shall be a rate determined by the Calculation Agent in accordance with the following formula:

$$\text{Max} [(USD-ICE-Swap Rate 2Y + 1.92 \text{ per cent.}), \text{Interest Rate Floor}] \times \text{Accrual Factor per annum}$$

Unless the payment of interest has been suspended pursuant to paragraph 38 (*Credit Linked Provisions*) of the Terms and Conditions of the Notes, the Interest Amount payable per Calculation Amount in respect of the relevant Interest Period shall be an amount determined by the Calculation Agent, equal to the product of the Calculation Amount, the Interest Rate determined as described above rounded, if necessary, to the nearest cent, half a cent being rounded upwards, and the Day Count Fraction.

It is expressly agreed that where the Specified Interest Payment Dates (as defined in paragraph 21(iv) of the Terms and Conditions of the Notes) are to be adjusted in accordance with the Modified Following Business Day Convention no adjustment will be made to the Interest Amount payable on such date.

For the purposes hereof:

**“Accrual Factor”** means, in respect of an Interest Period, the number of calendar days in the relevant Interest Observation Period in respect of which the Underlying Rate 1 is above or equal to the Underlying Floor and the Underlying Rate 2 is below or equal to the Underlying Cap divided by the total number of calendar days in such Interest Observation Period, in each case as determined by the Calculation Agent. The Underlying Rate 1 and/or Underlying Rate 2 (as the case may be) in respect of any day which is not a Calculation Business Day shall be deemed to be the Underlying Rate 1 and/or Underlying Rate 2 (as the case may be) in respect of the immediately preceding Calculation Business Day.

**“Interest Observation Period”** means the period which commences on (and includes) the day that is two Calculation Business Days prior to the first day of each Interest Period and ends on (but excludes) the day that is two Calculation Business Days prior to the first day of the immediately succeeding Interest Period or, in the case of the final Interest Period, the Scheduled Maturity Date.

**“Interest Rate Floor”** means 0.00 per cent. per annum.

**“Underlying Cap”** means 6.00 per cent. per annum.

**“Underlying Floor”** means -0.05 per cent. per annum.

**“Underlying Rate 1”** means USD-ICE-Swap Rate 30Y – USD-ICE-Swap Rate 2Y.

**“Underlying Rate 2”** means USD-ICE-Swap Rate 10Y.

**“USD-ICE-Swap Rate 2Y”** means the rate (formerly USD-ISDA-Swap Rate) for US Dollar Swaps with a Designated Maturity of 2 years and a Reset Date on the first day of the Interest Period, expressed as a percentage, which appears on the Reuters Screen Page ICESWAP1 (or any successor page to that page) at 11.00 a.m. (New York City time), save where such rate is used for the purposes of determining the Accrual Factor where **“USD-ICE-Swap Rate 2Y”** shall mean the rate (formerly USD-ISDA-Swap Rate) for US Dollar Swaps with a Designated Maturity of 2 years, expressed as a percentage, which appears on the Reuters Screen Page ICESWAP1 (or any successor page to that

page) at 11.00 a.m. (New York City time) on each calendar day during the relevant Interest Observation Period.

Subject to the Benchmark Provisions, if the USD-ICE-Swap Rate 2Y is not available (for any reason whatsoever), where the ISDA Definitions state that the determination of the Floating Rate Option (as defined in the ISDA Definitions) will be pursuant to any requirement for the Calculation Agent to request quotes from Reference Banks, Reference Dealers or major banks pursuant to the ISDA Definitions, such requirement to make requests for quotations for rates from, and the provision of quotations for rates by, the requisite number of Reference Banks, Reference Dealers or major banks may be effected by reference to and using quotations or tradable market prices which are made available by such Reference Banks, Reference Dealers or major banks via electronic data providers or electronic trading platforms. For the purposes of the preceding sentence, the terms "Reference Banks" and "Reference Dealers" shall have the meanings set out in the ISDA Definitions. If the fallback as set out in the definition of the Floating Rate Option does not produce a result, the Calculation Agent shall determine the rate acting in good faith and in a commercially reasonable manner. Alternatively if in the reasonable and independent judgement of the Calculation Agent, one or more of the relevant screen pages indicated for USD-ICE-Swap Rate 2Y are no longer representative, then the Calculation Agent will determine USD-ICE-Swap Rate 2Y (or a method for determining USD-ICE-Swap Rate 2Y), acting in a commercially reasonable manner and taking into consideration all available information that in good faith it deems relevant and its determinations and calculations will be binding in the absence of manifest error.

**“USD-ICE-Swap Rate 10Y”** means the rate (formerly USD-ISDA-Swap Rate) for US Dollar Swaps with a Designated Maturity of 10 years, expressed as a percentage, which appears on the Reuters Screen Page ICESWAP1 (or any successor page to that page) at 11.00 a.m. (New York City time), on each calendar day during the relevant Interest Observation Period.

Subject to the Benchmark Provisions, if the USD-ICE-Swap Rate 10Y is not available (for any reason whatsoever), where the ISDA Definitions state that the determination of the Floating Rate Option (as defined in the ISDA Definitions) will be pursuant to any requirement for the Calculation Agent to request quotes from Reference Banks, Reference Dealers or major banks pursuant to the ISDA Definitions, such requirement to make requests for quotations for rates from, and the provision of quotations for rates by, the requisite number of Reference Banks, Reference Dealers or major banks may be effected by reference to and using quotations or tradable market prices which are made available by such Reference Banks, Reference Dealers or major banks via electronic data providers or electronic trading platforms. For the purposes of the preceding sentence, the terms "Reference Banks" and "Reference Dealers" shall have the meanings set out in the ISDA Definitions. If the fallback as set out in the definition of the Floating Rate Option does not produce a result, the Calculation Agent shall determine the rate acting in good faith and in a commercially reasonable manner. **“USD-ICE-Swap Rate 30Y”** means the rate (formerly USD-ISDA-Swap Rate) for US Dollar Swaps with a Designated Maturity of 30 years, expressed as a percentage, which appears on the Reuters Screen Page ICESWAP1 (or any successor page to that page) at 11.00 a.m. (New York City time), on each calendar day during the relevant Interest Observation Period.

Subject to the Benchmark Provisions, if the USD-ICE-Swap Rate 30Y is not available (for any reason whatsoever), where the ISDA Definitions state that the determination of the Floating Rate Option (as defined in the ISDA Definitions) will be pursuant to any requirement for the Calculation Agent to request quotes from Reference Banks, Reference Dealers or major banks pursuant to the ISDA Definitions, such requirement to make requests for quotations for rates from, and the provision of

## USE OF PROCEEDS

On the Issue Date, the Issuer will use the net proceeds of the issue of the Notes (USD 20,000,000) and the amount received from the Asset Swap Counterparty (USD 1,650,871.21) (the “**Upfront Amount**”) to purchase the Underlying Asset (as described in paragraph 73 (*Description of Underlying Asset*) of the Terms and Conditions of the Notes above). The Issuer will purchase the Underlying Asset from Crédit Agricole Corporate and Investment Bank in its capacity as vendor under the Sale Agreement. There will be no repayment of the Upfront Amount under the terms of the Asset Swap Agreement.

## DESCRIPTION OF THE ISDA MASTER AGREEMENT

*The description of the ISDA Master Agreement set out below is a summary of certain features of the ISDA Master Agreement and is qualified by reference and subject to the detailed provisions of the ISDA Master Agreement, the Asset Swap Confirmation (the form of which is as set out in Annex 1 (Form of Asset Swap Confirmation)) and the Credit Default Swap Confirmation (the form of which is set out in Annex 2 (Form of Credit Default Swap Confirmation)).*

### Payments under the Swap Agreement

Under a 1992 (Multicurrency - Cross Border) ISDA Master Agreement (including the Schedule thereto, each dated 21 July 2020) and a 1995 Credit Support Annex (Bilateral Form - Transfer) dated 21 July 2020 supplementing the Schedule to the ISDA Master Agreement (the “**Credit Support Annex**”), (together, the “**ISDA Master Agreement**”), the Issuer and the Asset Swap Counterparty have entered into a confirmation (the “**Asset Swap Confirmation**”) in connection with the issue of the Notes, with an effective date of the Issue Date, and confirming the terms of an asset swap transaction (the “**Asset Swap Agreement**”) and the Issuer and the Credit Default Swap Counterparty have entered into a confirmation (the “**Credit Default Swap Confirmation**”) in connection with the issue of the Notes, with an effective date of the Issue Date, and confirming the terms of a credit default swap transaction (the “**Credit Default Swap Agreement**” and together with the Asset Swap Agreement, the “**Swap Agreement**”). The Swap Agreement is governed by English law.

### Termination of the Swap Agreement

Except as stated in the following paragraphs and/or in the Asset Swap Confirmation and/or the Credit Default Swap Confirmation, the Swap Agreement shall terminate on the Scheduled Maturity Date of the Notes.

The Swap Agreement may be terminated in accordance with the terms thereof, among other circumstances:

- (i) if at any time the Trustee gives notice to the Issuer in accordance with Condition 10 (*Event of Default*) that the Notes are immediately due and repayable;
- (ii) the principal amount of the Notes is reduced to zero prior to the Scheduled Maturity Date (otherwise as a result of an Event of Default);
- (iii) at the option of one party, if there is a failure by the other party to pay any amounts due, or to comply with or (in the case of the Swap Counterparty) perform any obligation, under the Swap Agreement, including a failure by any party to make, when due, any payment or delivery under the Credit Support Annex required to be made by it if such failure is not remedied on or before the third local business day after notice of such failure is given to the party; and
- (iv) if withholding taxes are imposed on payments made either by the Issuer or by the Swap Counterparty under the Swap Agreement or it becomes illegal for either party to perform its obligations under the Swap Agreement (see “*Transfer to avoid Termination Event*” below).

In addition to the foregoing, the Swap Agreement may also be terminated upon the occurrence of certain other standard events as defined in the ISDA Master Agreement (including Failure to Pay or Bankruptcy) and additional terminal events as set out in the Asset Swap Confirmation or Credit Default Swap Confirmation.

### Consequences of Early Termination in Whole

Upon any early termination of the Swap Agreement, the Issuer or the Swap Counterparty may be liable to make a termination payment to the other (regardless, if applicable, of which of such parties may have caused such termination).

Subject to the application of Section 6(e) (*Payments on Early Termination*) of the Swap Agreement, such termination payments will be determined on the basis of quotations from reference market-makers and based on the replacement cost or gain for an asset swap agreement or credit default swap agreement on substantially similar terms as the asset swap agreement or credit default swap agreement (as applicable) that would have the effect of preserving for the party making the determination the economic equivalent of the Swap Agreement together with any unpaid amounts under the Swap Agreement.

### **Consequences of Purchase of Notes**

As a consequence of a purchase of Notes by the Issuer pursuant to paragraph 28 (*Purchase at Issuer's Option*) of the Terms and Conditions of the Notes above, the notional amounts, in respect of which fixed and/or floating amounts are payable by the Issuer and Swap Counterparty under the Swap Agreement are calculated, will be adjusted by the Calculation Agent and an amount will be payable by either the Issuer or the Swap Counterparty, as applicable, in connection with such adjustment of the notional amounts, each as set out in the Asset Swap Confirmation and the Credit Default Swap Confirmation.

### **Taxation**

The Issuer is not obliged under the Swap Agreement to gross up if withholding taxes are imposed on payments made by it under such Swap Agreement.

### **General**

Except as stated under “*Transfer to avoid Termination Event*” below, neither the Issuer nor the Swap Counterparty are, save for the assignment by way of security in favour of the Trustee under the Trust Deed, permitted to assign, novate or transfer as a whole or in part any of their rights, obligations or interests under the Swap Agreement.

### **Transfer to avoid Termination Event**

The ISDA Master Agreement provides that if withholding taxes are imposed on payments made by the Issuer or the Swap Counterparty under the Swap Agreement or if an Illegality (as defined in the Swap Agreement) occurs in respect of a party (the “**Affected Party**”), then such party will use all reasonable efforts to transfer within 20 days after the notice of such withholding tax or Illegality affecting it all of its interest and obligations under the Swap Agreement to another entity, whether or not in the same tax jurisdiction as the Issuer, as would not have any obligation to withhold or deduct (if the Issuer is or would be required to make such deduction or withholding) or to which the Swap Counterparty would be entitled to make payments free from the relevant deduction or withholding (if the Swap Counterparty is or would otherwise be required to make such withholding or deduction).

If the Affected Party is not able to make such transfer it will give notice to the other party to that effect within a 20 days period whereupon the other party may effect such transfer within 30 days after the notice of such withholding tax or Illegality. Any transfer will be subject to and conditional upon the prior consent of the other party, which consent may not be withheld if such other party's policies in effect at such time would permit it to enter into transactions with the transferee on the terms proposed.

### **Credit Support Annex**

The Credit Support Annex will form part of the Swap Agreement on the Issue Date.

The provision of credit support by the Issuer and the Swap Counterparty shall be more fully set out in the Credit Support Annex prepared in connection with the issuance of the Notes.

The Credit Support Annex provides for the provision of credit support for the exposure of a party to the Swap Transactions to the other party. The exact amount of credit support transferred at any point

in time depends on the exposure (which depends on the value of the Swap Transactions), the independent amount, if any, (a fixed amount required to be collateralised irrespective of the value of the Swap Transactions), the value of available credit support (which may be adjusted down by a haircut), any threshold (an amount of exposure not required to be collateralised) and any minimum transfer amount. The eligible credit support which may be transferred by the Issuer as credit support and equivalent credit support under the Credit Support Annex includes, to the extent that the Swap Counterparty has previously transferred the same to the Issuer as credit support or equivalent support under the Credit Support Annex and it has not yet been returned by the Issuer to the Swap Counterparty, USD, JPY, EUR or GBP denominated cash, any other asset or property notified by the Swap Counterparty to the Issuer in writing from time to time (provided such assets are available to the Issuer) and thereafter the Underlying Asset. The eligible credit support which may be transferred by the Swap Counterparty as credit support and equivalent credit support under the Credit Support Annex includes the Underlying Asset and, to the extent that all of the Underlying Asset previously transferred by the Issuer to the Swap Counterparty as credit support or equivalent credit support under the Credit Support Annex have been returned to the Issuer, thereafter USD, JPY, EUR or GBP denominated cash and certain additional government bonds and other bonds.

Depending upon the value of the Swap Transactions on any given valuation date, it is possible that the Issuer has transferred to the Swap Counterparty all of the Underlying Asset which will no longer form part of the Security in respect of the Notes and the Notes will otherwise be secured by the Issuers rights under the Swap Agreement. If the Swap Counterparty is the defaulting party and the Swap Transactions are terminated as a result thereof, the Swap Counterparty will be required to transfer to the Issuer any credit support held by the Swap Counterparty and will not be permitted to net such amount against any settlement amount determined in respect of the Swap Transactions. Any claim of the Swap Counterparty in respect of any amount due under Section 6(e) (*Payments on Early Termination*) of the Swap Agreement will be satisfied in accordance with paragraph 64 (*Application of Proceeds*) or paragraph 65 (*Credit Event – Application of Proceeds*) of the Terms and Conditions of the Notes.

As the Swap Counterparty may transfer USD, JPY, EUR or GBP denominated cash and certain additional government bonds and other bonds to the Issuer as credit support under the Credit Support Annex, such assets may also form part of the Security in respect of the Notes.

If the Issuer has an insufficient remaining amount of the Underlying Asset, the USD, JPY, EUR or any other asset or property notified by the Swap Counterparty to the Issuer in writing from time to time to meet its transfer obligations under the Credit Support Annex then its inability to post collateral and its subsequent failure to perform under the Credit Support Annex shall not constitute an Event of Default or Termination Event under the Swap Agreement. For the avoidance of doubt, any obligation of the Issuer to transfer credit support under the Credit Support Annex shall be subject to the limited recourse and non-petition provisions in the Supplemental Trust Deed.
