The Issuer is not offering the Notes in any jurisdiction in circumstances that would require a prospectus to be prepared pursuant to the Prospectus Regulation. It is expected that delivery of the Notes will be made on or about the Issue Date. The Placement Agent may offer the J.P. Morgan Placed Notes and the Issuer may offer any other Notes sold to the Retention Holder or Affiliates of the Retention Holder, in each case, at prices as may be negotiated at the time of sale which may vary among different purchasers and be different to the issue price of the Notes.

EU Retention and Disclosure Requirements

In accordance with the EU Retention Requirements, the Retention Holder will undertake to the Issuer, the Trustee, the Collateral Administrator and the Placement Agent pursuant to the Risk Retention Letter that, on the Issue Date, it will acquire and hold on an ongoing basis for so long as any Class of Notes remains Outstanding, a material net economic interest of not less than five per cent. of the nominal value of each Class of Notes then Outstanding for the purposes of satisfying the EU Retention Requirements (as in force on the Issue Date).

In respect of the EU Disclosure Requirements, (a) the Issuer will be designated as the entity required to make available to the Noteholders, potential investors in the Notes and the competent authorities the reports and information necessary to fulfil the reporting requirements thereunder and (b) the Collateral Manager (at the expense of the Issuer) will undertake (subject to any confidentiality undertakings given by the Collateral Manager or to which the Collateral Manager is subject) to provide to the Issuer (or any third party reporting services provider appointed by the Issuer) and the Collateral Administrator all reports, data and other information reasonably necessary and in its possession and/or control in connection for the proper performance by the Issuer as the reporting entity of such reporting obligations. The Collateral Administrator shall assist the Issuer with providing such reporting, including in respect of the Investor Reports, the Portfolio Reports (each as defined in the Conditions) and any reports in respect of Inside Information and Significant Events (each as defined in the Conditions).

For the avoidance of doubt, neither the Collateral Administrator nor any other person will assume any responsibility for the Issuer's obligations as the entity responsible to fulfil reporting obligations under the EU Disclosure Requirements. In providing such information and reporting, neither the Collateral Administrator nor any other person assumes any responsibility or liability to any third party, including the Noteholders and potential Noteholders (including for their use and/or onward disclosure of such information and reporting), and shall have the benefit of the powers, protections and indemnities granted to it under the Transaction Documents.

Notwithstanding anything to the contrary herein, none of the Issuer, the Collateral Manager, the Retention Holder, the Placement Agent, the Collateral Administrator, the Trustee, their respective Affiliates, corporate officers or professional advisers or any other person makes any representation, warranty or guarantee that any such information is sufficient for such purposes or any other purpose and no such person shall have any liability to any prospective investor or any other person with respect to the insufficiency of such information or any failure of the transactions contemplated hereby to satisfy the EU Retention and Disclosure Requirements in their relevant jurisdiction or any other applicable legal, regulatory or other requirements, other than as set out above. Each prospective investor in the Notes which is subject to the EU Retention and Disclosure Requirements or any other regulatory requirement should consult with its own legal, accounting and other advisors and/or its national regulator to determine whether, and to what extent, such information is sufficient for such purposes and any other requirements of the EU Retention and Disclosure Requirements or similar requirements of which it is uncertain.

The Placement Agent does not accept any responsibility for compliance of the Issuer, the Collateral Manager, the Retention Holder and the Collateral Administrator with the EU Retention and Disclosure Requirements. See "*Risk Factors—Regulatory Initiatives—Risk Retention and Due Diligence Requirements—Securitisation Regulation*" and "*The EU Retention and Disclosure Requirements*" below.

Volcker Rule

Section 619 of the Dodd-Frank Act (the "**Volcker Rule**") and the corresponding implementing rules prevents "banking entities" (a term which includes affiliates of a U.S. banking organisation as well as affiliates of a non-U.S. banking organisation that has a branch or agency office in the U.S., regardless of where such affiliates are located) from (i) engaging in proprietary trading in financial instruments, or (ii) acquiring or retaining any "ownership interest" in, or in "sponsoring", a "covered fund", subject to certain exemptions. In addition, in certain

circumstances, the Volcker Rule restricts relevant banking entities from entering into certain transactions with covered funds.

An "ownership interest" is defined widely and may arise through a holder's exposure to the profits and losses of the "covered fund", as well as through certain rights of the holder to participate in the selection or removal of an investment advisor, investment manager, or general partner, trustee, or member of the board of directors of the "covered fund". A "covered fund" is defined widely, and includes any issuer which would be an investment company under the Investment Company Act 1940 (the "**ICA**") but is exempt from registration solely in reliance on section 3(c)(1) or 3(c)(7) of that Act, subject to certain exclusions found in the Volcker Rule's implementing regulations.

The Issuer intends to be a "covered fund" for the purposes of the Volcker Rule. See "*Risk Factors—Regulatory Initiatives—Volcker Rule*".

It should be noted that a "commodity pool" as defined in the CEA (see "*Risk Factors—Regulatory Initiatives—Commodity Pool Regulation*") could, depending on which CEA exemption is used by such "commodity pool" or its "commodity pool operator", also fall within the definition of a "covered fund" as described above.

In June 2020, the five federal agencies responsible for implementing the Volcker Rule adopted amendments to the Volcker Rule's final regulations, including changes relevant to the treatment of securitisations (the "**Volcker Changes**"). Among other things, the Volcker Changes create additional exclusions from the "covered fund" definition, and narrow the definition of "ownership interest" to exclude certain "senior debt interests". In addition, under the Volcker Changes, a debt interest would no longer be considered an "ownership interest" solely because the holder has the right to remove or replace the manager following a cause-related default. The Volcker Changes became effective on 1 October 2020 (subject to the potential rescission of such rules by the United States Congress in accordance with the Congressional Review Act of 1996, as discussed below).

Furthermore, the holders of any of the Class A Notes in the form of CM Removal and Replacement Exchangeable Non-Voting Notes or CM Removal and Replacement Non-Voting Notes are disenfranchised in respect of any CM Removal Resolution or CM Replacement Resolution.

The Volcker Changes were designated as a "major rule" under the Congressional Review Act (the "**CRA**"). Under the CRA, before a rule can take effect, an agency must submit a report to each house of Congress and the comptroller general containing a copy of the rule and a general statement describing the rule, including whether it is a major rule. After receiving the report, members of Congress have specified time periods during which they must submit and act on a joint resolution of disapproval. If both houses pass the resolution, it is sent to the President for signature or veto. If a joint resolution of disapproval is submitted within the CRA-specified deadline, passed by Congress, and signed by the President, the CRA states that the disapproved rule shall not take effect (or continue). That is, the rule would be deemed not to have had any effect at any time, and even provisions that had become effective would be retroactively negated. Furthermore, if a joint resolution of disapproval is enacted, the CRA provides that a rule may not be issued in substantially the same form as the disapproved rule unless it is specifically authorized by a subsequent law. The statute prohibits judicial review of any "determination, finding, action, or omission under" the CRA. Due to the COVID-19 pandemic, it is possible that the deadline for review of the 2020 Volcker Changes will extend into the next Congress and presidential administration.

The Issuer believes that, following the effectiveness of the Volcker Changes, the Rated Notes should not be considered "ownership interests" for purposes of the Volcker Rule, and the Rated Notes should be permitted to be acquired by a banking entity without regard to whether the Issuer is a covered fund.

If the Issuer is deemed to be a "covered fund", the provisions of the Volcker Rule and its related regulatory provisions will severely limit the ability of "banking entities" to hold an "ownership interest" in the Issuer or enter into certain credit related financial transactions with the Issuer. Any entity that is a "banking entity" as defined under the Volcker Rule and is considering an investment in "ownership interests" of the Issuer should consult its own legal advisors and consider the potential impact of the Volcker Rule in respect of such investment. If

investment by "banking entities" in the Notes of any Class is prohibited or restricted by the Volcker Rule, this could impair the marketability and liquidity of such Notes, particularly given the lack of interpretative guidance of the Volcker Rule. None of the Issuer, the Placement Agent, the Collateral Manager, the Trustee or any of their affiliates makes any representation to any prospective investor or purchaser of the Notes regarding the application of the Volcker Rule to the Issuer, or to the investor's investment in the Notes on the Issue Date or at any time in the future.

No assurance can be made as to the effect of the Volcker Rule on the ability of certain investors subject thereto to acquire or retain an interest in the Notes. Each prospective investor in the Notes should independently consider the potential impact of the Volcker Rule in respect of any investment in the Notes. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Placement Agent, the Collateral Manager, the Collateral Manager Related Persons, the Trustee, the Agents or any of their Affiliates makes any representation, warranty or guarantee to any prospective investor or purchaser of the Notes as to how any regulator may interpret the application of the Volcker Rule to the Issuer, or to such investor's investment in the Notes on the Issue Date or at any time in the future. See "*Risk Factors—Regulatory Initiatives—Volcker Rule*" for further information.

U.S. Investment Company Act of 1940

As at the Issue Date, the Issuer has not been and will not be registered under the Investment Company Act in reliance on Section 3(c)(7) of the Investment Company Act. Exemptions or exclusions from registration as an investment company under the Investment Company Act other than those set out in sections 3(c)(1) and 3(c)(7) of the Investment Company Act may be available to the Issuer, but it is unlikely, and there can be no assurance that, any such exemptions or exclusions will be available or that the Issuer will elect to rely on such exemptions.

Investors should conduct their own analysis to determine whether the Issuer may be considered to be a "covered fund" for their purposes. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Placement Agent, the Collateral Manager, the Collateral Manager Related Persons, the Trustee, the Agents or any of their Affiliates makes any representation, warranty or guarantee to any prospective investor or purchaser of the Notes as to how any regulator may interpret the application of the Volcker Rule to the Issuer, or to such investor's investment in the Notes on the Issue Date or at any time in the future. See "*Risk Factors—Regulatory Initiatives—Volcker Rule*" below for further information.

Information as to placement within the United States

The Notes of each Class offered pursuant to an exemption from registration requirements under Rule 144A under the Securities Act ("**Rule 144A**") (the "**Rule 144A Notes**") will be sold only to "qualified institutional buyers" ("**QIBs**") (as defined in Rule 144A) that are also "qualified purchasers" ("**QPs**") for the purposes of Section 3(c)(7) of the Investment Company Act. Rule 144A Notes of each Class will be represented on issue by beneficial interests in one or more permanent global certificates of such Class (each, a "**Rule 144A Global Certificate**" and, together, the "**Rule 144A Global Certificates**"), in each case in fully registered form, without interest coupons or principal receipts, which will be deposited on or about the Issue Date with, and registered in the name of a nominee of, a common depositary for Euroclear Bank SA/NV, as operator of the Euroclear system ("**Euroclear**") and Clearstream Banking, *société anonyme* ("**Clearstream, Luxembourg**"). The Notes of each Class sold outside the United States to non-U.S. Persons in reliance on Regulation S ("**Regulation S**") under the Securities Act (the "**Regulation S Notes**") will each be represented on issue by beneficial interests in one or more permanent global certificates of such Class (each, a "**Regulation S Global Certificate**" and together, the "**Regulation S Global Certificates**"), in each case in fully registered form, without interest coupons or principal receipts, which will be deposited on or about the Issue Date with, and registered in the name of a nominee of, a common depositary for Euroclear and Clearstream Luxembourg. Neither U.S. Persons nor "U.S. residents" (as determined for the purposes of the Investment Company Act) ("**U.S. Residents**") may hold an interest in a Regulation S Global Certificate or a Regulation S Definitive Certificate. Ownership interests in the Regulation S Global Certificates and the Rule 144A Global Certificates (together, the "**Global Certificates**") will be shown on, and transfers thereof will only be effected through, records maintained by Euroclear and Clearstream, Luxembourg and their

respective participants. Notes in definitive, certificated, fully registered form will be issued only in limited circumstances. In each case, purchasers and transferees of Notes will be deemed, and in certain circumstances will be required, to have made certain representations and agreements. See "*Form of the Notes*", "*Book Entry Clearance Procedures*", "*Plan of Distribution*" and "*Transfer Restrictions*".

Each purchaser of an interest in the Notes (other than a non-U.S. Person outside the U.S.) will be deemed to have represented and agreed that it is both a QIB and a QP and will also be deemed to have made the representations set out in "*Transfer Restrictions*" herein. The purchaser of any Note, by such purchase, agrees that such Note is being acquired for its own account and not with a view to distribution (other than in the case of the Placement Agent) and may be resold, pledged or otherwise transferred only: (1) to the Issuer (upon redemption thereof or otherwise); (2) to a person the purchaser reasonably believes is both a QIB and a QP, in a transaction meeting the requirements of Rule 144A; or (3) outside the United States to a non-U.S. Person in an "offshore transaction" in reliance on Regulation S, in each case, in compliance with the Trust Deed and all applicable securities laws of any state of the United States or any other jurisdiction. See "*Transfer Restrictions*".

In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the Notes and the offering thereof described herein, including the merits and risks involved.

Important Notice regarding the implementation of European Union ("EU") Law in the United Kingdom

ALL REFERENCES TO EU LAWS AND REGULATIONS IN THIS OFFERING CIRCULAR SHALL BE READ TO INCLUDE THE EUROPEAN UNION (WITHDRAWAL AGREEMENT) ACT 2020 (THE "**WITHDRAWAL ACT**") WHICH IMPLEMENTS SUCH LAW AND REGULATION INTO UNITED KINGDOM LAW AND ANY SUBSEQUENT UK LEGISLATION WHICH REPLACES, AMENDS, SUPERSEDES SUCH LAW OR REGULATION, IN EACH CASE, AS AMENDED FROM TIME TO TIME.

General Notice

EACH PURCHASER OF THE NOTES MUST COMPLY WITH ALL APPLICABLE LAWS AND REGULATIONS IN FORCE IN EACH JURISDICTION IN WHICH IT PURCHASES, OFFERS OR SELLS SUCH NOTES OR POSSESSES OR DISTRIBUTES THIS OFFERING CIRCULAR AND MUST OBTAIN ANY CONSENT, APPROVAL OR PERMISSION REQUIRED FOR THE PURCHASE, OFFER OR SALE BY IT OF SUCH NOTES UNDER THE LAWS AND REGULATIONS IN FORCE IN ANY JURISDICTIONS TO WHICH IT IS SUBJECT OR IN WHICH IT MAKES SUCH PURCHASES, OFFERS OR SALES, AND NONE OF THE ISSUER, THE PLACEMENT AGENT, THE COLLATERAL MANAGER, THE TRUSTEE, OR THE COLLATERAL ADMINISTRATOR (OR ANY OF THEIR RESPECTIVE AFFILIATES) SPECIFIED HEREIN SHALL HAVE ANY RESPONSIBILITY THEREFOR.

THE NOTES ARE SUBJECT TO RESTRICTIONS ON TRANSFERABILITY AND RESALE AND MAY NOT BE TRANSFERRED OR RESOLD OR PLEDGED EXCEPT AS PERMITTED UNDER THE U.S. SECURITIES ACT 1933, AS AMENDED, AND THE APPLICABLE STATE SECURITIES LAWS, PURSUANT TO REGISTRATION OR EXEMPTION THEREFROM. INVESTORS SHOULD BE AWARE THAT THEY MAY BE REQUIRED TO BEAR THE FINANCIAL RISKS OF THIS INVESTMENT FOR AN INDEFINITE PERIOD OF TIME.

THE ISSUER IS A DESIGNATED ACTIVITY COMPANY LIMITED BY SHARES DULY INCORPORATED UNDER THE LAWS OF IRELAND AND, ACCORDINGLY, IS PROHIBITED FROM MAKING ANY INVITATION TO THE PUBLIC TO SUBSCRIBE FOR, OR MAKING ANY OFFER TO THE PUBLIC OF, THE NOTES. NEITHER THIS OFFERING CIRCULAR NOR ANY OTHER DOCUMENT CONSTITUTES AN OFFER TO PURCHASE, OR AN INVITATION TO THE PUBLIC BY OR ON BEHALF OF THE ISSUER TO SUBSCRIBE FOR, THE NOTES.

Currencies

In this Offering Circular, unless otherwise specified or the context otherwise requires, all references to: (i) "**Euro**", "**euro**", "**€**" and "**EUR**" are to the lawful currency of the member states of the European Union that have adopted and retain the single currency in accordance with the Treaty establishing the European Community, as amended from time to time; provided that if any member state or states cease to have such single currency as its lawful currency (such member state(s) being the "**Exiting State(s)**"), **Euro**, **euro**, **€** and **EUR** shall, for the avoidance of doubt, mean for all purposes the single currency adopted and retained as the lawful currency of the remaining member states and shall not include any successor currency introduced by the Exiting State(s); (ii) "**US Dollar**", "**US dollar**", "**USD**", "**U.S. Dollar**" or "**\$**" shall mean the lawful currency of the United States of America; and (iii) "**£**", "**Sterling**" and "**GBP**" are references to the lawful currency for the time being of the United Kingdom of Great Britain and Northern Ireland.

No Stabilisation

In connection with the issue of the Notes, no stabilisation will take place and neither the Placement Agent nor any Affiliate thereof will act as stabilising manager in respect of the Notes.

Commodity Pool Regulation

BASED UPON INTERPRETIVE GUIDANCE PROVIDED FROM A DIVISION OF THE U.S. COMMODITY FUTURES TRADING COMMISSION (THE "CFTC"), THE ISSUER IS NOT EXPECTED TO BE TREATED AS A COMMODITY POOL AND AS SUCH, THE ISSUER (OR THE COLLATERAL MANAGER ON THE ISSUER'S BEHALF) MAY ENTER INTO ONE OR MORE HEDGE AGREEMENTS (OR ANY OTHER AGREEMENT THAT WOULD FALL WITHIN THE DEFINITION OF "SWAP" AS SET OUT IN THE CEA (AS DEFINED BELOW)) FOLLOWING RECEIPT OF LEGAL ADVICE FROM REPUTABLE COUNSEL TO THE EFFECT THAT NONE OF THE ISSUER, ITS DIRECTORS OR OFFICERS, OR THE COLLATERAL MANAGER OR ANY OF ITS DIRECTORS, OFFICERS OR EMPLOYEES, SHOULD BE REQUIRED TO REGISTER WITH THE CFTC AS A "COMMODITY POOL OPERATOR" (AS SUCH TERM IS DEFINED IN THE U.S. COMMODITY EXCHANGE ACT OF 1936, AS AMENDED (THE "CEA")) IN RESPECT OF THE ISSUER. IN THE EVENT THAT TRADING OR ENTERING INTO ONE OR MORE HEDGE AGREEMENTS WOULD RESULT IN THE ISSUER'S ACTIVITIES FALLING WITHIN THE DEFINITION OF A "COMMODITY POOL" AS DEFINED IN THE CEA, THE COLLATERAL MANAGER WOULD EITHER SEEK TO UTILISE ANY AVAILABLE EXEMPTIONS FROM REGISTRATION AS A COMMODITY POOL OPERATOR (A "CPO") OR REGISTER AS A CPO. UTILIZING ANY SUCH EXEMPTION FROM REGISTRATION MAY IMPOSE ADDITIONAL COSTS ON THE COLLATERAL MANAGER, AND MAY SIGNIFICANTLY LIMIT ITS ABILITY TO ENGAGE IN HEDGING ACTIVITIES ON BEHALF OF THE ISSUER. IF THE COLLATERAL MANAGER IS REQUIRED TO REGISTER AS A CPO, IT WILL BECOME SUBJECT TO NUMEROUS REPORTING AND OTHER REQUIREMENTS AND IT IS EXPECTED THAT IT WILL INCUR SIGNIFICANT ADDITIONAL COSTS IN COMPLYING WITH ITS OBLIGATIONS AS A REGISTERED CPO, WHICH COSTS ARE EXPECTED TO BE PASSED ON TO THE ISSUER AND MAY ADVERSELY AFFECT THE ISSUER'S ABILITY TO MAKE PAYMENT ON THE NOTES. SEE "*RISK FACTORS—REGULATORY INITIATIVES—COMMODITY POOL REGULATION*" BELOW.

MiFID II Product Governance

Solely for the purposes of the manufacturer's (the "**Manufacturer**") product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**Distributor**") should take into consideration the Manufacturer's target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the Manufacturers' target market assessment) and determining appropriate distribution channels.

PRIIPs Regulation and Prospectus Regulation

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**") or the United Kingdom (the "**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended or superseded from time to time, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA and/or the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA and/or the UK may be unlawful under the PRIIPs Regulation.

Non-Payment and Deferral of
Interest

.....

Failure on the part of the Issuer to pay the Interest Amounts due and payable on the Class X Notes, the Class A Notes or the Class B Notes in accordance with Condition 6 (*Interest*) and the Priorities of Payment by reason solely that there are insufficient funds standing to the credit of the Payment

Account shall not constitute an Event of Default unless and until such failure continues for a period of at least five Business Days (save in the case of an administrative error or omission only, where such failure continues for a period of at least seven Business Days) and except, in each case, as the result of any deduction therefrom or the imposition of any withholding thereon as set out in Condition 9 (*Taxation*).

Failure on the part of the Issuer to pay interest payments due and payable on the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes pursuant to Condition 6 (*Interest*) and the Priorities of Payment will not constitute an Event of Default. To the extent that interest payments on the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes are not made on the relevant Payment Date, an amount equal to such unpaid interest will be added to the Principal Amount Outstanding of the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes (as applicable) and from the date such unpaid interest is added to the applicable Principal Amount Outstanding of the relevant Class of Notes, such unpaid amount will accrue interest at the rate of interest applicable to the relevant Notes. See Condition 6(c) (*Deferral of Interest*).

Non-payment of amounts due and payable on the Subordinated Notes as a result of the insufficiency of available Interest Proceeds or Principal Proceeds will not constitute an Event of Default.

Redemption of the Principal payments on the Notes may be made in the following circumstances:

.....

- (a) on the Maturity Date (see Condition 7(a) (*Final Redemption*));
- (b) on any Payment Date on and after the Effective Date following a Determination Date on which a Coverage Test is not satisfied (to the extent such test is required to be satisfied on such Determination Date) (see Condition 7(c) (*Mandatory Redemption upon Breach of Coverage Tests*));
- (c) if, as at the Business Day prior to the Payment Date following the Effective Date, an Effective Date Rating Event has occurred and is continuing, the Rated Notes shall be redeemed in accordance with the Note Payment Sequence on such Payment Date and thereafter on each subsequent Payment Date (to the extent required) out of Interest Proceeds and thereafter out of Principal Proceeds subject to the Priorities of Payment, in each case until redeemed in full or, if earlier, until such Effective

Date Rating Event is no longer continuing (see Condition 7(e) (*Redemption upon Effective Date Rating Event*));

- (d) after the Reinvestment Period, on each Payment Date out of Principal Proceeds transferred to the Payment Account immediately prior to the related Payment Date (see Condition 7(f) (*Redemption following Expiry of the Reinvestment Period*));
- (e) on any Payment Date during the Reinvestment Period at the sole and absolute discretion of the Collateral Manager (acting on behalf of the Issuer) following written notification by the Collateral Manager to the Trustee (with a copy to the Issuer) that, using reasonable endeavours, it has been unable, for a period of 20 consecutive Business Days, to identify a sufficient quantity of additional Collateral Debt Obligations or Substitute Collateral Debt Obligations (that are deemed appropriate by the Collateral Manager in its sole discretion) in which to invest or reinvest Principal Proceeds. The amounts used for any such redemption will be designated by the Collateral Manager as all or a portion of such Principal Proceeds (see Condition 7(d) (*Special Redemption*));
- (f) in whole (with respect to all Classes of Rated Notes) but not in part on any Business Day following the expiry of the Non-Call Period from Sale Proceeds or any Refinancing Proceeds (or any combination thereof), (x) if directed in writing by the Subordinated Noteholders acting by way of an Ordinary Resolution (as evidenced by duly completed Redemption Notices); provided, that such redemption shall not be effected without the consent of the Retention Holder, in the case of any redemption to be effected wholly or partly with Refinancing Proceeds, if the Retention Holder gives written notice to the Trustee and the Issuer (which notice the Issuer will promptly transmit to the Subordinated Noteholders) that it has determined in good faith that such redemption could cause the Retention Holder to fail to be in compliance with the EU Retention Requirements or the U.S. Risk Retention Rules; or (y) at the written direction of the Collateral Manager (provided the Subordinated Noteholders have not, acting independently by Ordinary Resolution, objected to such redemption within 10 Business Days of notice of such redemption being given to Noteholders in accordance with Condition 16 (*Notices*)) (see Condition 7(b)(i) (*Optional*

Redemption in Whole – Subordinated Noteholders or Collateral Manager);

- (g) in part by the redemption in whole of one or more Classes of Rated Notes from Refinancing Proceeds on any Business Day following the expiry of the Non-Call Period if directed in writing by either (x) the Subordinated Noteholders acting by way of an Ordinary Resolution (as evidenced by duly completed Redemption Notices); provided, that such redemption shall not be effected without the consent of the Retention Holder, in the case of any redemption to be effected wholly or partly with Refinancing Proceeds, if the Retention Holder gives written notice to the Trustee and the Issuer (which notice the Issuer will promptly transmit to the Subordinated Noteholders) that it has determined in good faith that such redemption could cause the Retention Holder to fail to be in compliance with the EU Retention Requirements or the U.S. Risk Retention Rules; or (y) at the written direction of the Collateral Manager, in each case, as long as the Class of Rated Notes to be redeemed represents not less than the entire Class of such Rated Notes; (see Condition 7(b)(ii) *(Optional Redemption in Part – Subordinated Noteholders or Collateral Manager)*);
- (h) in whole (with respect to all Classes of Rated Notes) but not in part, at the applicable Redemption Prices, from Sale Proceeds on any Business Day falling on or after the expiry of the Non-Call Period if, upon or at any time following the expiry of the Non-Call Period the Aggregate Collateral Balance is less than 20 per cent. of the Target Par Amount and if directed in writing by the Collateral Manager (on behalf of the Issuer) (see Condition 7(b)(iii) *(Optional Redemption in Whole – Collateral Manager)*);
- (i) on any Business Day, the Subordinated Notes may be redeemed at their Redemption Price in whole but not in part on any Business Day on or after the redemption or repayment in full of the Rated Notes, at the direction of either of (x) the Subordinated Noteholders (acting by way of Ordinary Resolution) or (y) the Collateral Manager (on behalf of the Issuer) (see Condition 7(b)(ix) *(Optional Redemption of Subordinated Notes)*);
- (j) in whole (with respect to all Classes of Rated Notes) but not in part on any Business Day following the occurrence of a Collateral Tax Event

from Sale Proceeds or any Refinancing Proceeds (or any combination thereof) if directed by the Subordinated Noteholders acting by way of Ordinary Resolution (as evidenced by duly completed Redemption Notices) (See Condition 7(b)(i) (*Optional Redemption in Whole – Subordinated Noteholders or Collateral Manager*));

- (k) in whole (with respect to all Classes of Notes) but not in part on any Business Day if directed in writing by the Controlling Class or the Subordinated Noteholders, in each case, acting by way of Ordinary Resolution, following the occurrence of a Note Tax Event, subject to: (i) the Issuer having failed to remedy the Note Tax Event; and (ii) certain minimum time periods. See Condition 7(g) (*Redemption following Note Tax Event*);
- (l) at any time following an Event of Default which occurs and is continuing, provided an Acceleration Notice has been given or deemed to have been given and not rescinded or annulled (see Condition 10 (*Events of Default*));
- (m) in part (with respect to all Classes of Notes) on any Business Day at the written direction of the Collateral Manager in order to comply with the Retention Requirements (see Condition 7(b)(vi) (*Optional Redemption effected through Regulatory Refinancing*); and
- (n) the Class X Notes shall be subject to mandatory redemption in part on each Payment Date beginning on (and including) the second Payment Date following the Issue Date, in each case in an amount equal to the Class X Principal Amortisation Amount in accordance with and subject to the Priorities of Payment (see Condition 7(n) (*Mandatory Redemption of the Class X Notes*)).

RISK FACTORS

An investment in the Notes of any Class involves certain risks, including risks relating to the Collateral Debt Obligations securing such Notes and risks relating to the structure and rights of such Notes and the related arrangements. There can be no assurance that the Issuer will not incur losses or that investors will receive a return on their investments. The following risk factors are applicable to an investment in the Notes. Prospective investors should carefully consider the following factors, in addition to the matters set forth elsewhere in this Offering Circular prior to investing in any Notes. Terms not defined in this section and not otherwise defined above have the meanings set out in Condition 1 (Definitions) of the "Terms and Conditions of the Notes".

1. GENERAL COMMERCIAL RISKS

1.1 General

It is intended that the Issuer will invest in Collateral Debt Obligations (and other financial assets) with certain risk characteristics as described below and subject to the investment policies, restrictions and guidelines described in the section of this Offering Circular titled "*The Portfolio*". There can be no assurance that the Issuer's investments will be successful, that its investment objectives will be achieved, that the Noteholders will receive the full amounts payable by the Issuer under the Notes or that they will receive any return on their investment in the Notes. Prospective investors are therefore advised to review this entire Offering Circular carefully and should consider, among other things, the risk factors set out in this section before deciding whether to invest in the Notes. Except as is otherwise stated below, such risk factors are generally applicable to all Classes of Notes, although the degree of risk associated with each Class of Notes will vary in accordance with the position of such Class of Notes in the Priorities of Payment. See Condition 3(c) (*Priorities of Payment*) and Condition 11(b) (*Enforcement*). In particular, (i) payments in respect of the Class X Notes and the Class A Notes are generally higher in the Priorities of Payment than those of the other Classes of Notes; (ii) payments in respect of the Class B Notes are generally higher in the Priorities of Payment than those of the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Subordinated Notes; (iii) payments in respect of the Class C Notes are generally higher in the Priorities of Payment than those of the Class D Notes, the Class E Notes, the Class F Notes and the Subordinated Notes; (iv) payments in respect of the Class D Notes are generally higher in the Priorities of Payment than those of the Class E Notes, the Class F Notes and the Subordinated Notes; (v) payments in respect of the Class E Notes are generally higher in the Priorities of Payment than those of the Class F Notes and the Subordinated Notes; and (vi) payments in respect of the Class F Notes are generally higher in the Priorities of Payment than those of the Subordinated Notes.

None of the Placement Agent, the Agents or the Trustee undertakes to review the financial condition or affairs of the Issuer or the Collateral Manager during the life of the arrangements contemplated by this Offering Circular or to advise any investor or potential investor in the Notes of any information coming to the attention of the Placement Agent, the Agents or the Trustee which is not included in this Offering Circular, the Monthly Reports or the Payment Date Reports, as the case may be.

In preparing and furnishing the Monthly Reports and the Payment Date Reports, the Issuer will rely conclusively on the accuracy and completeness of the information or data regarding the Collateral Debt Obligations that has been provided to it by the Collateral Administrator (which will rely conclusively, in turn, on the accuracy and completeness of certain information provided to it by the Collateral Manager and third parties) (and reviewed by the Collateral Manager), and the Issuer will not verify, re-compute, reconcile or recalculate any such information or data.

In addition, the information contained in the Monthly Reports and the Payment Date Reports will be dependent in part on interpretations, calculations and/or determinations made by the Collateral Administrator and the Collateral Manager. The accuracy of the Monthly Reports and the Payment Date Reports, and the information included therein, will therefore be subject to the accuracy of the

interpretations, calculations and/or determinations of the Collateral Administrator and the Collateral Manager.

1.2 **Suitability**

Prospective purchasers of the Notes of any Class should ensure that they understand the nature of such Notes and the extent of their exposure to risk, that they have sufficient knowledge, experience and access to professional advisers to make their own legal, tax, regulatory, accounting and financial evaluation of the merits and risks of investment in such Notes and that they consider the suitability of such Notes as an investment in light of their own circumstances and financial condition and that of any accounts for which they are acting.

1.3 **Limited Resources of Funds to Pay Expenses of the Issuer**

The funds available to the Issuer to pay its expenses on any Payment Date are limited as provided in the Priorities of Payment. If such funds are not sufficient to pay the expenses incurred by the Issuer, the ability of the Issuer to operate effectively may be impaired, and it may not be able to defend or prosecute legal proceedings brought against it or which it might otherwise bring to protect its interests or be able to pay the expenses of legal proceedings against persons it has indemnified and or pre funded and/or secured.

1.4 **Business and Regulatory Risks for Vehicles with Investment Strategies such as the Issuer's**

Legal, tax and regulatory changes could occur over the course of the life of the Notes that may adversely affect the Issuer. The regulatory environment for vehicles of the nature of the Issuer is evolving, and changes in regulation may adversely affect the value of investments held by the Issuer and the ability of the Issuer to obtain the leverage it might otherwise obtain or to pursue its investment and trading strategies. In addition, the securities and derivatives markets are subject to comprehensive statutory, regulatory and margin requirements. Certain regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions if there are market emergencies. The regulation of transactions of a type similar to this transaction and derivative transactions and vehicles that engage in such transactions is an evolving area of law and is subject to modification by government and judicial action. The effect of any future regulatory change on the Issuer could be substantial and adverse.

1.5 **General Economic Conditions may Deteriorate and may Affect the Ability of the Issuer to make Payments on the Notes**

European financial markets have experienced volatility and have been adversely affected by concerns over economic contraction in certain EU member states (the "**Member States**"), rising government debt levels, credit rating downgrades and risk of default or restructuring of government debt. These events could cause bond yields and credit spreads to increase.

Many European economies continue to suffer from high rates of unemployment. This economic climate may have an adverse effect on the ability of consumers and businesses to repay or refinance their existing debt.

As discussed further in 1.7 "*European Union and Euro Zone Risk*", it is possible that countries that have adopted the Euro could return to a national currency. The effect on a national economy as a result of it leaving the Euro is impossible to predict, but is likely to be negative. The exit of one or more countries from the Euro zone could have a destabilising effect on all European economies and possibly the global economy as well.

In addition, Obligors of Collateral Debt Obligations may be organised in, or otherwise Domiciled in, certain of such countries currently suffering from economic distress, or other countries that may begin to suffer economic distress, and the uncertainty and market instability in any such country may increase the

likelihood of default by such Obligor. If any such Obligor becomes insolvent, by virtue of being organised in such a jurisdiction or having a substantial percentage of its revenues or assets in such a jurisdiction, it may be more likely to be subject to bankruptcy or insolvency proceedings in such jurisdiction at the same time as such jurisdiction is itself potentially unstable.

Significant risks for the Issuer and investors exist as a result of current economic conditions. These risks include, among others, (i) the likelihood that the Issuer will find it more difficult to sell any of its assets or to purchase new assets in the secondary market, (ii) the possibility that, on or after the Issue Date, the price at which assets can be sold by the Issuer will have deteriorated from their effective purchase price and (iii) the illiquidity of the Notes. These additional risks may affect the returns on the Notes to investors and/or the ability of investors to realise their investment in the Notes prior to their Maturity Date, if at all. In addition, the primary market for a number of financial products including leveraged loans has not fully recovered from the effects of the global credit crisis and the ability of private equity sponsors and leveraged loans arrangers to effectuate new leveraged buy-outs may be partially or significantly limited. As well as reducing opportunities for the Issuer to purchase assets in the primary market, this is likely to increase the refinancing risk in respect of maturing assets. A continuing decreased ability of obligors to obtain refinancing may result in an economic decline causing a deterioration in loan performance generally and defaults of Collateral Debt Obligations. Although there have recently been signs that the primary market for certain financial products is recovering, particularly in the United States of America, the impact of the economic crisis on the primary market may adversely affect the flexibility of the Collateral Manager to invest and, ultimately, reduce the returns on the Notes to investors.

Difficult macro-economic conditions may adversely affect the rating, performance and the realisation value of the Collateral. Default rates on loans and other investments may continue to fluctuate and accordingly the performance of many collateralised loan obligation ("CLO") transactions and other types of investment vehicles may suffer as a result. It is also possible that the Collateral will experience higher default rates than anticipated and that performance will suffer.

The ability of the Issuer to make payments on the Notes can depend on the general economic climate and the state of the global economy. The business, financial condition or results of operations of the Obligors of the Collateral Debt Obligations may be adversely affected by a deterioration of economic and business conditions. To the extent that economic and business conditions deteriorate or fail to improve, non-performing assets are likely to increase, and the value and collectability of the Collateral Debt Obligations are likely to decrease. A decrease in market value of the Collateral Debt Obligations would also adversely affect the Sale Proceeds that could be obtained upon the sale of the Collateral Debt Obligations and could ultimately affect the ability of the Issuer to pay in full or redeem the Rated Notes, as well as the ability to make any distributions in respect of the Subordinated Notes.

Many financial institutions, including banks, continue to suffer from capitalisation issues in a regulatory environment which may increase the capital requirement for certain businesses. The bankruptcy or insolvency of a major financial institution may have an adverse effect on the Issuer, particularly if such financial institution is a grantor of a participation in an asset or is a hedge counterparty to a swap or hedge involving the Issuer, or a counterparty to a buy or sell trade that has not settled with respect to an asset. The bankruptcy or insolvency of another financial institution may result in the disruption of payments to the Issuer. In addition, the bankruptcy or insolvency of one or more additional financial institutions may trigger additional crises in the global credit markets and overall economy which could have a significant adverse effect on the Issuer, the Collateral and the Notes.

The global credit crisis and its consequences, together with the perceived failure of the preceding financial regulatory regime, continue to drive legislation and regulators towards a restrictive regulatory environment, including the implementation of further regulation which affects financial institutions, markets, instruments and the bond market. Such additional rules and regulations could, among other things, adversely affect Noteholders as well as the flexibility of the Collateral Manager in managing and administering the Collateral. Increasing capital requirements and changing regulations may also result in

some financial institutions exiting, curtailing or otherwise adjusting some trading, hedging or investment activities which may have effects on the liquidity of investments such as the Notes as well as the Collateral.

While it is possible that current conditions may improve for certain sectors of the global economy, there can be no assurance that the CLO, leveraged finance or structured finance markets will recover from an economic downturn at the same time or to the same degree as such other recovering sectors or whether such conditions or markets will deteriorate rather than improve.

There has been an outbreak of a novel coronavirus (SARS-CoV-2) and related respiratory disease (coronavirus disease (COVID-19)) ("**COVID-19**"), that was first detected in December 2019 and which has now been found in over 200 countries globally. This outbreak and measures being put in place to restrict its spread have disrupted (and continue to disrupt) economies and slowed (and continue to slow) economic growth both in countries where the outbreak has been detected and in a number of other countries. This may result, and in some cases (including in respect of the United Kingdom and Member States of the European Union) has resulted, in the downgrade of certain sovereign credit ratings by certain rating agencies. This has (and continues to) materially and adversely impact the global supply chain, market and economies. At this time, the outbreak has not been successfully contained and continues to detrimentally affect societies and economies globally and it remains uncertain as to what its ultimate impact will be in different affected areas, or how disruptive such outbreak and preventive measures (including for example certain financial relief measures for both individuals and corporate entities adopted by governmental bodies and financial institutions) may be to the global and regional economies. This state of affairs is causing (and may continue to cause) significant uncertainty in both domestic and global financial markets, has led to (and may continue to cause) volatility and disruption in the capital markets and has had (and may continue to have) a material adverse effect on Obligors of Collateral Debt Obligations. In particular, these additional risks and market disruptions have materially and adversely affected (and may continue to materially and adversely affect) the ability of certain Obligors to make payments under Collateral Debt Obligations, the ratings applicable to Collateral Debt Obligations (see also 4.26 "*Ratings on Collateral Debt Obligations*"), and may materially and adversely affect the Issuer's ability to make payments on the Notes, the liquidity and value of the Notes, and the Issuer's ability to acquire and sell Collateral Debt Obligations. Rating actions (including, in respect of the potential downgrade of ratings applicable to Collateral Debt Obligations, such ratings being downgraded between the date of this Offering Circular and the Issue Date) may result in the Initial Ratings of any Class of Rated Notes published by the Rating Agencies being lower than is described in this Offering Circular. Furthermore, any such rating actions taken between the Issue Date and the Effective Date could result in (a) a downgrade of one of more Classes of Rated Notes from their Initial Ratings and (b) certain Collateral Quality Tests and Portfolio Profile Tests not being satisfied as at the Effective Date, resulting in an Effective Date Rating Event and following which the applicable Rated Notes will be subject to redemption in part in an amount and in the manner described under Condition 7(e) (*Redemption upon Effective Date Rating Event*) (see also 4.5 "*Considerations Relating to the Initial Investment Period*"). If any rating assigned to the Notes is subject to a downgrade, the market value of the Notes may reduce and holders of the Notes may not be able to resell their Notes without a substantial discount (see 3.16 "*Ratings of the Notes Not Assured and Limited in Scope*").

1.6 Illiquidity in the Collateralised Debt Obligation, Leveraged Finance and Fixed Income Markets may Affect the Noteholders

In previous years, events in the collateralised debt obligation (including CLO), leveraged finance and fixed income markets have resulted in substantial fluctuations in prices for leveraged loans and high-yield debt securities and limited liquidity for such instruments. No assurance can be made that conditions giving rise to similar price fluctuations and limited liquidity may not emerge following the Issue Date. During periods of limited liquidity and higher price volatility, the Issuer's ability to acquire or dispose of Collateral Debt Obligations at a price and time that the Issuer deems advantageous may be severely impaired. As a result, in periods of rising market prices, the Issuer may be unable to participate in price

increases fully to the extent that it is unable to acquire desired positions quickly; and the Issuer's inability to dispose fully and promptly of positions in declining markets may exacerbate losses suffered by the Issuer when Collateral Debt Obligations are sold. Furthermore, significant additional risks for the Issuer and investors in the Notes may exist. Such risks include, among others, (i) the possibility that, after the Issue Date, the prices at which Collateral Debt Obligations can be sold by the Issuer may deteriorate from their purchase price, (ii) the possibility that opportunities for the Issuer to sell its Collateral Debt Obligations in the secondary market, including Credit Impaired Obligations, Credit Improved Obligations and Defaulted Obligations, may be impaired, and (iii) increased illiquidity of the Notes because of reduced secondary trading in CLO securities. These additional risks may affect the returns on the Notes to investors or otherwise adversely affect Noteholders.

1.7 European Union and Euro Zone Risk

Investors should carefully consider how changes to the Euro zone may affect their investment in the Notes. Since the global economic crisis, the deterioration of the sovereign debt of several countries, together with the risk of contagion to other, more stable, countries, has continued to pose risks. This situation has also raised uncertainties regarding the stability and overall standing of the European Economic and Monetary Union and may result in changes to the composition of the Euro zone.

As a confidence building measure, the European Commission created the European Financial Stability Facility (the "EFSF") and the European Financial Stability Mechanism (the "EFSM") to provide funding to Euro zone countries in financial difficulties that seek such support. Subsequently, the European Council agreed that Euro zone countries would establish a permanent stability mechanism, the European Stability Mechanism, to assume the role of the EFSF and the EFSM in providing external financial assistance to Euro zone countries which has been active since July 2013.

Despite these measures, concerns persist regarding the growing risk that other Euro zone countries could be subject to an increase in borrowing costs and could face an economic crisis similar to that of Cyprus, Greece, Italy, Ireland, Spain and Portugal, together with the risk that some countries could leave the Euro zone (either voluntarily or involuntarily including as a result of an electoral decision to leave the European Union), and that the impact of these events on Europe and the global financial system could be severe which could have a negative impact on the Collateral.

Furthermore, concerns that the Euro zone sovereign debt crisis could worsen may lead to the imposition of capital controls, the reintroduction of national currencies in one or more Euro zone countries or, in more extreme circumstances, the possible dissolution of the Euro entirely. The departure or risk of departure from the Euro by one or more Euro zone countries and/or the abandonment of the Euro as a currency could have major negative effects on the Collateral (including the risks of currency losses arising out of redenomination and related haircuts on any affected assets), the Issuer and the Notes. Should the Euro dissolve entirely, the legal and contractual consequences for holders of Euro-denominated obligations would be determined by laws in effect at such time. These potential developments, or market perceptions concerning these and related issues, could adversely affect the value of the Notes. Investors should carefully consider how changes to the Euro zone may affect their investment in the Notes.

1.8 The UK's Withdrawal from the European Union

On 31 January 2020, the UK withdrew from the EU (as more particularly described below). At this time, the full consequences of such withdrawal are not clear.

In particular, there is uncertainty as to the final trade arrangements to be put in place following the expiry of the Transition Period (as defined below). Investors should be aware that the Issuer's risk profile may be materially affected by this uncertainty which might also have an adverse impact on the Portfolio and the Issuer's business, financial condition, results of operations and prospects and could therefore also be

materially detrimental to Noteholders. Any such potential adverse economic conditions may also affect the ability of the obligors to make payment under the Collateral Debt Obligations which in turn may adversely affect the ability of the Issuer to pay interest and repay principal to the Noteholders.

Applicability of EU law in the UK

The negotiated withdrawal agreement between the EU and the UK provides for a transition period, commencing on 31 January 2020 and ending at 11.00 p.m. GMT on 31 December 2020, unless extended by a single decision for up to one or two years (such period, the "**Transition Period**"). On 12 June 2020, the UK formally confirmed that it would not seek such an extension and this was formally accepted by the EU. The negotiated withdrawal agreement states that, unless otherwise provided in the agreement, EU law will be applicable to and in the UK during the Transition Period. **Accordingly, during the Transition Period any references in this Offering Circular to the "EU" and its "Member States" in the context of EU legislation and the application thereof shall be interpreted so as to include the UK (except where expressly indicated otherwise).**

During the Transition Period negotiations will continue between the UK and the EU in respect of the nature of their future relationship. It is at present unclear what type of future trading relationship between the UK and the EU will be established. It is possible that a new relationship would preserve the applicability of certain EU rules (or equivalent rules) in the UK. At this time it is not possible to state with any certainty to what extent that might be so or when negotiations of such relationship will be finalised.

Following the end of the Transition Period, EU law will cease to apply in the UK. However, many EU laws have been transposed into English law and these transposed laws will continue to apply until such time that they are repealed, replaced or amended. Over the years, English law has been devised to function in conjunction with EU law (in particular, laws relating to financial markets, financial services, prudential and conduct regulation of financial institutions, financial collateral, settlement finality and market infrastructure). As a result, depending on the final trade arrangements to be put in place, substantial amendments to English law may occur and may diverge from the corresponding provisions of EU law applicable after the Transition Period. Consequently, English law may change and differ from EU law and it is impossible at this time to predict the consequences on the Portfolio, the Issuer's business, financial condition, results of operations or prospects or any potential investors. Such changes could be materially detrimental to Noteholders.

Regulatory Risk

Under the EU single market directives, mutual access rights to markets and market infrastructure exist across the EEA and the mutual recognition of insolvency, bank recovery and resolution regimes applies. In addition, regulated entities licensed or authorised in one EEA jurisdiction may operate on a cross-border basis in other EEA countries without the need for a separate licence or authorisation. There is uncertainty as to how, following the expiry of the Transition Period, the existing passporting regime will apply (if at all). Depending on the terms of any future trading relationship between the EEA and the UK, it is likely that, UK regulated entities may, following the expiry of the Transition Period lose the right to passport their services to EEA countries, and EEA entities may lose the right to reciprocal passporting into the UK. Also, UK entities may no longer have access rights to market infrastructure across the EU and the recognition of insolvency, bank recovery and resolution regimes across the EU may no longer be mutual.

There can be no assurance that the terms of the UK's future trade relationship with the EU will include arrangements for the continuation of the existing passporting regime or mutual access rights to market infrastructure and recognition of insolvency, bank recovery and resolution regimes. Such uncertainty could adversely impact the Issuer and, in particular, the ability of third parties to provide services to the Issuer, and could be materially detrimental to Noteholders.

Market Risk

Following the result of the referendum on the UK's withdrawal from the EU and its subsequent withdrawal, the financial markets have experienced volatility and disruption. This volatility and disruption may continue or increase, and investors should consider the effect thereof on the market for securities such as the Notes and on the ability of Obligor to meet their obligations under the Collateral Debt Obligations.

Investors should be aware that as a result of the UK's withdrawal from the EU, any negotiation between the UK and the EU with respect to their future trading relationship and following the expiry of the Transition Period, changes to legislation may introduce potentially significant new uncertainties and instabilities in the financial markets. These uncertainties and instabilities could have an adverse impact on the business, financial condition, results of operations and prospects of the Issuer, the Obligor, the Portfolio, the Collateral Manager and the other parties to the transaction and could therefore also be materially detrimental to Noteholders.

Exposure to Counterparties

The Issuer will be exposed to a number of counterparties (including in relation to any Assignments, Participations and Hedge Transactions and also each of the Agents) throughout the life of the Notes. Investors should note that following the UK's withdrawal from the EU and the end of the Transition Period and depending on the terms of any future trading relationship between the UK and the EU, such counterparties may be unable to perform their obligations due to changes in regulation, including the loss of, or changes to, existing regulatory rights to do cross-border business in the EU or the costs of such transactions with such counterparties may increase. In addition, counterparties may be adversely affected by rating actions or volatile and illiquid markets (including currency markets and bank funding markets) arising from the withdrawal of the UK from the EU, therefore increasing the risk that such counterparties may become unable to fulfil their obligations. Such inability could adversely impact the Issuer and could be materially detrimental to Noteholders. For further information on counterparties, see 4.17 "*Counterparty Risk*".

Ratings Actions

Since the result of the referendum on the withdrawal of the UK from the EU each of S&P, Fitch and Moody's downgraded the UK's sovereign credit rating and Moody's also placed such rating on negative outlook, suggesting possible further negative rating action. Following the outbreak of COVID-19, Fitch have further downgraded the UK's sovereign credit rating and placed such rating on negative outlook, suggesting possible further negative rating action.

The credit rating of a country affects the ratings of entities operating in its territory, and in particular the ratings of financial institutions. Accordingly, such downgrades of the UK's sovereign credit rating and any further downgrade action may trigger downgrades in respect of parties to the Transaction Documents. If a counterparty no longer satisfies the relevant Rating Requirement, the Transaction Documents may require that such counterparty be replaced with an entity that satisfies the relevant Rating Requirement. If rating downgrades are widespread, it may become difficult or impossible to replace counterparties with entities that satisfy the relevant Rating Requirement.

While the extent and impact of these issues are unknown, investors should be aware that they could have an adverse impact on the Issuer, its service providers, the payment of interest and repayment of principal on the Notes and therefore, the Noteholders. For further information, see 4.17 "*Counterparty Risk*".

1.9 **Third Party Litigation; Limited Funds Available**

Investment activities such as the purchase, selling, holding and participation in voting or the restructuring of Collateral Debt Obligations may subject the Issuer to the risks of becoming involved in litigation by third parties. This risk may be greater where the Issuer exercises control or significant influence over a company's direction. The expense of defending claims against the Issuer by third parties (including bankruptcy or insolvency proceedings) and paying any amounts pursuant to settlements or judgments would, except in the unlikely event that the Issuer is indemnified for such amounts, be borne by the Issuer and would reduce the funds available for distribution and the Issuer's net assets. The funds available to the Issuer to pay certain fees and expenses of the Trustee, the Collateral Administrator, the Corporate Services Provider and for payment of the Issuer's other accrued and unpaid Administrative Expenses are limited to those amounts available in accordance with the Priorities of Payment. If such funds are not sufficient to pay the expenses incurred by the Issuer, the ability of the Issuer to operate effectively may be impaired, and the Issuer may not be able to defend or prosecute legal proceedings that may be brought against it or that the Issuer might otherwise bring to protect its interests.

2. **REGULATORY INITIATIVES**

In Europe, the U.S. and elsewhere there has been, and there continues to be, increased political and regulatory scrutiny of banks, financial institutions, "shadow banking entities" and the asset-backed securities industry. This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may have an adverse impact on the regulatory capital charge to certain investors in securitisation exposures and/or the incentives for certain investors to hold or trade asset-backed securities, and may thereby affect the liquidity of such securities.

This uncertainty is further compounded by the numerous regulatory efforts underway in Europe, the U.S. and globally. Certain of these efforts overlap. In addition, even where these regulatory efforts overlap, they generally have not been undertaken on a coordinated basis creating the potential for conflict across jurisdictions. Investors should be aware that risks posed by such regulatory overlap and divergence are material and that the Issuer and, consequently, an investment in the Notes, could be materially and adversely affected thereby.

None of the Issuer, the Placement Agent, the Collateral Manager, the Trustee or any of their respective Affiliates makes any representation as to the proper characterisation of the Notes for legal investment, financial institution regulatory, financial reporting or other purposes, as to the ability of particular investors to invest in the Notes under applicable legal investment or other restrictions or as to the consequences of an investment in the Notes for such purposes or under such restrictions. All investors whose investment activities are subject to: investment laws, rules and regulations (including risk retention laws, rules and regulations that apply currently to the investor, or which may do so in the future); regulatory capital requirements; or to review by regulatory authorities (including risk retention rules whether currently applicable to the investor or in respect of the introduction or proposal of future risk retention rules) should consult with their own legal, accounting and other advisors in determining whether, and to what extent, the Notes are subject to any such investment or other restrictions and to unfavourable accounting treatment, capital charges or reserve requirements. None of the Issuer, the Placement Agent, the Trustee, the Collateral Administrator, the Risk Retention Holder and the Collateral Manager nor any of their affiliates makes any representation, warranty, or guarantee that the structure of the Notes is compliant with any applicable legal, regulatory, or other framework (nor regarding the manner in which such a framework applies to any investor's investment in the Notes).

2.1 **Basel III and Basel IV**

The Basel Committee on Banking Supervision ("**BCBS**") has approved significant changes to the Basel regulatory capital and liquidity framework (such changes being commonly referred to as "**Basel III**") and has proposed certain revisions to the securitisation framework. Basel III provides for a substantial strengthening of existing prudential rules, including new requirements intended to reinforce capital standards (with heightened requirements for global systemically important banks) and to establish a leverage ratio "backstop" for financial institutions and certain minimum liquidity standards (referred to

as the Liquidity Coverage Ratio ("**LCR**") and the Net Stable Funding Ratio ("**NSFR**"). BCBS member countries agreed to implement Basel III from 1 January 2013, subject to transitional and phase-in arrangements for certain requirements (for example, the LCR requirements referred to implementation from the start of 2015, with full implementation by January 2019, and the NSFR requirements referred to implementation from January 2018). As implementation of any changes to the Basel framework (including those made via Basel III) requires legislation in each jurisdiction, the final rules and the timetable for its implementation in each jurisdiction, as well as the treatment of asset-backed securities (for example, as LCR eligible assets or not), may be subject to some level of variation between jurisdictions. It should also be noted that changes to regulatory capital requirements have been introduced for insurance and reinsurance undertakings through jurisdiction specific initiatives, such as the Solvency II framework in the European Union.

In December 2017, the BCBS announced a set of amendments to the Basel III package, described by some commentators as "**Basel IV**". These reforms introduce significant limitations on the ability of banks to reduce their capital requirements through their calculation of risk weighted assets ("**RWAs**") using the Internal Ratings Based approach (the "**IRB Approach**"). The reforms include revisions to the IRB Approach for credit risk, revised minimum capital requirements for market risk, revisions to the credit value adjustment risk framework, amendments to the leverage ratio exposure measure and the introduction of a leverage ratio buffer for global systemically important banks ("**G-SIBs**"), which will take the form of a Tier 1 capital buffer set at 50 per cent. of a G-SIB's risk-weighted capital buffer. The reforms also introduce an aggregate output floor, which will ensure that banks' RWAs generated by internal models used in the IRB approach are no lower than 72.5 per cent. of RWAs as calculated by the Basel III framework's standardised approaches. The Basel IV reforms will have to be implemented by January 2022, with the exception of the new output floor requirement, which will be phased in between 1 January 2022 and the end of 2026, becoming fully effective on 1 January 2027. No timeline has been established for adopting these changes by the U.S. banking regulatory agencies.

Prospective investors should therefore make themselves aware of the changes and requirements described above (and any corresponding implementing rules of their regulator), where applicable to them, in addition to any other applicable regulatory requirements with respect to their investment in the Notes. The matters described above and any other changes to the regulation or regulatory treatment of the Notes for some or all investors may negatively impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market. None of the Issuer, the Placement Agent, the Collateral Manager, the Agents, the Trustee or any of their affiliates makes any representation or warranty to any such prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment in the Notes on the Issue Date or at any time in the future.

2.2 **Risk Retention and Due Diligence Requirements**

Securitisation Regulation

Background

A regulation (Regulation (EU) 2017/2401) to amend the CRR (as defined below) (the "**CRR Amendment Regulation**") and a regulation (Regulation (EU) 2017/2402) aiming to create a general European framework for securitisation and a specific framework for "simple, transparent and standardised" securitisation (the "**Securitisation Regulation**") were published in the Official Journal of the European Union on 28 December 2017 and entered into force on the twentieth day thereafter. The Securitisation Regulation applies to securitisations the securities of which are issued on or after 1 January 2019. The CRR Amendment Regulation applied from 1 January 2019 (subject to certain transitional provisions regarding securitisations the securities of which were issued before 1 January 2019).

There are uncertainties regarding the scope of the obligations in the Securitisation Regulation and the obligations in the technical standards that will be adopted pursuant thereto which will provide details of

the requirements under the Securitisation Regulation, as further described below. Most of the relevant technical standards have not yet been adopted.

Investors should be aware, and in some cases are required to be aware, of the retention, due diligence and disclosure requirements in the EU (the "**EU Retention, Due Diligence and Disclosure Requirements**") set out in the Securitisation Regulation (as defined below) (and of any corresponding implementing rules of their regulator), in addition to any other regulatory requirements that are (or may become) applicable to them and/or with respect to their investment in the Notes. Each investor should consult with its own legal, accounting, regulatory and other advisors and/or its regulator before committing to acquire any Notes to determine whether, and to what extent, the information set out in this Offering Circular and in any investor report provided in relation to the transaction is sufficient for the purpose of satisfying such requirements.

None of the Issuer, the Collateral Manager, the Placement Agent, the Trustee, the Collateral Administrator, the Retention Holder, their respective Affiliates or any other person makes any representation, warranty or guarantee that the information set out in this Offering Circular is sufficient for such purposes or any other purpose or that the structure of the Notes and the transactions described herein are compliant with the EU Retention, Due Diligence and Disclosure Requirements or any other applicable legal regulatory or other requirements. No such person shall have any liability to any prospective investor with respect to any deficiency in such information or any failure of the transactions contemplated hereby to comply with or otherwise satisfy such requirements.

Due-diligence Requirements for Institutional Investors

The EU Retention, Due Diligence and Disclosure Requirements contain due diligence requirements that apply to certain types of "institutional investor" as defined in the Securitisation Regulation ("**Institutional Investors**"). Such Institutional Investors include institutions for occupational retirement provision, credit institutions, alternative investment fund managers that manage and/or market alternative investment funds in the EU, investment firms as defined in Regulation (EU) No 575/2013 (the "**Capital Requirements Regulations**" or the "**CRR**"), insurance and reinsurance undertakings, and management companies of UCITS funds (or internally managed UCITS).

These requirements restrict such Institutional Investors from investing in securitisations unless such investors have verified (among other things) that: (i) the originator, sponsor or original lender will retain, on an ongoing basis, a material net economic interest of not less than five per cent. in the securitisation in accordance with the Securitisation Regulation and the risk retention is disclosed to the Institutional Investor; (ii) the originator, sponsor or securitisation special purpose entity ("**SSPE**") has, where applicable, made available the information required by Article 7 of the Securitisation Regulation (as to which see "*Disclosure Requirements*") in accordance with the frequency and modalities provided for in that Article; (iii) where the originator or original lender is established in the EU, and is not a credit institution or an investment firm as defined in the CRR, the originator or original lender grants all the credits giving rise to the underlying exposures on the basis of sound and well-defined criteria and clearly established processes for approving, amending, renewing and financing those credits and has effective systems in place to apply those criteria and processes in accordance with Article 9(1) of the Securitisation Regulation; and (iv) where the originator or original lender is established in a non-EU country, credit granting criteria apply that are substantially similar to those in (iii).

Pursuant to Article 14 of the CRR consolidated subsidiaries of credit institutions and investment firms subject to the CRR may also be subject to these requirements.

Failure to comply with one or more of the requirements may result in various penalties including, in the case of those Institutional Investors subject to regulatory capital requirements, the imposition of a punitive capital charge in respect of the Notes acquired by the relevant investor.

Risk Retention Obligation

The Securitisation Regulation imposes a direct obligation on the originator, sponsor or original lender of a securitisation to retain on an ongoing basis a material net economic interest in the securitisation of not less than five per cent. A failure by the Retention Holder to comply with the Securitisation Regulation's direct retention requirements may result in administrative and/or criminal penalties being imposed on the Retention Holder including, in the case of a legal person, pecuniary sanctions of at least EUR 5,000,000 (or its equivalent) or of up to 10 per cent. of total annual net turnover (the "**Pecuniary Sanctions**").

Any such Pecuniary Sanction levied on the Retention Holder may materially adversely affect the ability of the Retention Holder to perform its obligations under the Transaction Documents and could have a negative impact on the price and liquidity of the Notes in the secondary market.

With respect to the commitment of the Retention Holder to retain a material net economic interest in the securitisation, please see the statements set out in the section of this Offering Circular titled "*The EU Retention and Disclosure Requirements*".

Disclosure Requirements

The originator, sponsor and SSPE (i.e. the Issuer) of a securitisation are required to designate one of them (the "**reporting entity**") to fulfil the Securitisation Regulation's reporting requirements as set out in the EU Disclosure Requirements. The reporting entity must make certain prescribed information available to holders of a securitisation position, to the relevant competent authorities ("**Competent Authorities**") and, upon request, to potential investors.

Under Article 7 of the Securitisation Regulation, certain Transaction Documents and any transaction summary required pursuant to Article 7(1)(c) are required to be made available before pricing. It is not possible to make final documentation available before pricing and so the Collateral Administrator (acting on behalf of the Issuer), has made draft documentation available in substantially final form via the Reporting Website). Such Transaction Documents in final form will be available on and after the Issue Date.

Article 7 of the Securitisation Regulation also includes ongoing reporting obligations which include quarterly portfolio level disclosure ("**Portfolio Reports**"); quarterly investor reports ("**Investor Reports**"); any inside information relating to the securitisation that the reporting entity is obliged to make public under the Market Abuse Regulation (Regulation (EU) No 596/2014) ("**Inside Information**"); and, where applicable, information on "significant events" ("**Significant Events**").

The Portfolio Reports and the Investor Reports are to be made available simultaneously on a quarterly basis and at the latest one month after each Payment Date. With respect to any period where no Payment Date occurs quarterly, the Portfolio Reports and Investor Reports are required to be made available simultaneously not more than three months after the most recent publication of the Portfolio Reports and Investor Reports, or within three months of the Issue Date. Disclosures relating to any Inside Information and Significant Events are required to be made available without delay.

On 16 October 2019 the Commission adopted certain technical standards under the EU Disclosure Requirements containing detailed draft disclosure templates that are required to be completed with respect to the Portfolio Reports, Investor Reports and, in relation to public transactions only, Inside Information and Significant Events. These technical standards (the Article 7 RTS, as defined in the Conditions) were published in the Official Journal of the European Union on 3 September 2020 and have applied from 23 September 2020. There remains significant uncertainty as to the jurisdictional scope of the reporting requirements contained in the Article 7 RTS.

EU Disclosure Requirements – Collateral Manager and Issuer arrangements

In relation to the EU Disclosure Requirements: (a) the Issuer will be designated as the reporting entity; (b) the Collateral Manager will undertake in the Collateral Management Agreement to provide to the Collateral Administrator and the Issuer any reports, data and other information required in connection with the proper performance by the Issuer, as the reporting entity, of its obligation to make available to the Noteholders, potential investors and the Competent Authorities, the reports and information necessary to fulfil the EU Disclosure Requirements; and (c) the Collateral Administrator, on behalf (and at the expense) of the Issuer and in consultation with the Collateral Manager, will agree in the Collateral Management Agreement to compile each of the Portfolio Reports and Investor Reports, in each case in the form required by and in accordance with the frequency requirements set out in the EU Disclosure Requirements and subject to the receipt by the Collateral Administrator of any reports, data and other information that is not otherwise in its possession or reasonably available to it as is necessary in connection with the preparation thereof; and (d) the Collateral Administrator shall make such Portfolio Reports and Investor Reports, together with any other information, data and reports (as may be provided to it by the Collateral Manager and the Issuer) available to the Relevant Recipients via the Reporting Website or such other method of dissemination as is required by the Securitisation Regulation or a Competent Authority (as instructed by the Issuer or the Collateral Manager on its behalf and as agreed with the Collateral Administrator).

The Issuer intends to ensure that the Portfolio Reports and Investor Reports will be prepared in accordance with the requirements of the Article 7 RTS.

Whether the Collateral Manager will be able to obtain and provide to the Issuer and the Collateral Administrator all of the information required to be reported in accordance with the EU Disclosure Requirements is unclear.

Although the Issuer has undertaken to act as the reporting entity, it should be noted that the Securitisation Regulation's reporting obligations will apply to both the Collateral Manager as the originator as well as to the Issuer. Any failure by the Issuer, as the reporting entity, or by the Collateral Administrator (on behalf of the reporting entity), or by the Collateral Manager, to fulfil the EU Disclosure Requirements applicable to them or covenants relating thereto may cause the transaction to be non-compliant with the Securitisation Regulation.

The Collateral Manager is required to indemnify the Issuer for Collateral Manager Breaches in accordance with the Collateral Management Agreement and the Collateral Manager may be entitled to indemnification by the Issuer in relation, *inter alia*, to the performance of the Collateral Manager's obligations under the Collateral Management Agreement, subject to the terms of the Collateral Management Agreement, which will be payable in accordance with the Priorities of Payment (including any pecuniary sanctions to which the Collateral Manager may become liable pursuant to Article 32 of the Securitisation Regulation (save that the Collateral Manager shall not be reimbursed for pecuniary sanctions imposed upon it to the extent such sanctions are imposed as a result of any act or omission that constitutes wilful default or negligence on the part of the Collateral Manager)) (see the section of this Offering Circular titled "*Description of the Collateral Management Agreement – Liability of the Collateral Manager*").

If a Competent Authority determines that the transaction did not comply or is no longer in compliance with the EU Disclosure Requirements, then: (i) investors may be required by their regulator to set aside additional capital against their investment in the Notes or take other remedial measures in respect of their investment in the Notes; and (ii) the Collateral Manager as the originator and/or the Issuer may be subject to the Pecuniary Sanctions as described above. Any such Pecuniary Sanctions levied on the Issuer may materially adversely affect the Issuer's ability to perform its obligations under the Notes and any such Pecuniary Sanctions levied on the Collateral Manager as the originator may materially adversely affect its ability to perform its obligations under the Transaction Documents and could have a negative impact on the price and liquidity of the Notes in the secondary market.

Jurisdictional Scope of the Securitisation Regulation Obligations

The Securitisation Regulation is silent as to the jurisdictional scope of the direct risk retention obligation and the EU Disclosure Requirements and whether, for example, these obligations apply to U.S. established entities such as the Collateral Manager.

As regards the jurisdictional scope of the direct risk retention obligation, the Explanatory Memorandum to the original European Commission proposal for a Securitisation Regulation implied that the direct obligation would not apply where none of the originator, sponsor or original lender is established in the EU. The European Banking Authority (the "EBA") confirmed this interpretation (in its "Feedback on the public consultation" section of its Final Draft Regulatory Technical Standards published on 31 July 2018) where it said: "The EBA agrees however that a "direct" obligation should apply only to originators, sponsors and original lenders established in the EU as suggested by the Commission in the explanatory memorandum." This EBA interpretation is, however, non-binding and not legally enforceable.

The Securitisation Regulation is silent as to the jurisdictional scope of the EU Disclosure Requirements, and it is unclear if they apply where none of originator, sponsor and SSPE is established in the EU.

Uncertainties in the Scope of the EU Retention, Due Diligence and Disclosure Requirements

Aspects of the detail and effect of the EU Retention, Due Diligence and Disclosure Requirements and what is, or will be, required to demonstrate compliance to Competent Authorities remain unclear. The EU authorities have published only limited binding guidance relating to the satisfaction of the EU Retention, Due Diligence and Disclosure Requirements by an institution, similar to the Retention Holder. Furthermore, any relevant regulator's views with regard to the EU Retention, Due Diligence and Disclosure Requirements may not be based exclusively on technical standards, guidance or other information known at this time.

Any changes in the law or regulation, the interpretation or application of any law or regulation or changes in the regulatory capital treatment of the Notes for some or all investors may negatively impact the regulatory position of individual investors and, in addition, may have a negative impact on the price and liquidity of the Notes in the secondary market.

No assurance can be given that the EU Retention, Due Diligence and Disclosure Requirements, or the interpretation or application thereof, will not change, and, if any such change is effected, whether such change would affect the regulatory position of current or future investors in the Notes. The Retention Holder does not have an obligation to change the quantum or nature of its holding of the Retention Notes due to any future changes in the EU Retention, Due Diligence and Disclosure Requirements or in the interpretation thereof. Any costs incurred by the Issuer and/or the Collateral Manager in connection with satisfying the requirements of the Securitisation Regulation shall be paid by the Issuer as Administrative Expenses.

Relevant investors are required to independently assess and determine the sufficiency of the information described herein for the purposes of complying with any relevant requirements. None of the Issuer, the Collateral Manager, the Placement Agent, the Trustee, the Collateral Administrator, any other Agent, the Retention Holder their respective Affiliates or any other Person makes any representation, warranty or guarantee that any information described herein is sufficient in all circumstances for such purposes or any other purpose or that the structure of the Notes, the Retention Holder (including its holding of the Retention Notes) and the transactions described herein are compliant with the EU Retention, Due Diligence and Disclosure Requirements or any other applicable legal or regulatory or other requirements and no such person shall have any liability to any prospective investor with respect to any deficiency in such information or any failure of the transactions or structure contemplated hereby to comply with or otherwise satisfy such requirements.

The Future UK Securitisation Regime

It is currently proposed that, with effect from the end of the Transition Period, (i) the Securitisation Regulation will cease to be applicable in the UK, and (ii) certain UK legislation (the "**UK Securitisation Regime**") will take effect. The UK Securitisation Regime as currently drafted, in broad terms (and

amongst other things), would impose upon relevant UK-established or UK-regulated persons certain restrictions and obligations that would be similar in nature to those imposed by the Securitisation Regulation as at the end of the Transition Period. However, such restrictions and obligations would in certain respects be different, and such differences might, in certain cases, be material for investors, originators and other parties. In addition, the UK Securitisation Regime in its current form does not include any general transitional (or "grandfathering") provision, by which a person who is in compliance with the Securitisation Regulation in respect of any securitisation immediately before the end of the Transition Period would be deemed to be in compliance with the UK Securitisation Regime in respect of such securitisation with effect from the end of the Transition Period. It remains possible that legislation providing for the UK Securitisation Regime may not be brought into force, and/or that it may be amended before or after it takes effect. There remains uncertainty as to whether key interpretative guidance issued by EU regulatory authorities will also be replicated in the UK Securitisation Regime by UK regulators.

If, at any time, any Noteholder requires any action to be taken for purposes of its compliance with the UK Securitisation Regime, no party to the transaction described in this Offering Circular shall be obliged to take any such action, except to the extent that it is otherwise obliged to do so, as described in this Offering Circular or as provided by the Risk Retention Letter. No such party gives any assurance as to any person's ability to comply, at any time, with any requirement of the UK Securitisation Regime, or shall have any liability to any person in respect of any non-compliance, or inability to comply, with any requirement of the UK Securitisation Regime. Prospective investors are responsible for analysing their own legal and regulatory position and are encouraged, where relevant, to consult with their own advisors regarding the UK Securitisation Regime, and any changes that may be made thereto.

U.S. Risk Retention Rules

On 21 October 2014, the final rules implementing the credit risk retention requirements of Section 941 of the Dodd-Frank Act (the "**U.S. Risk Retention Rules**") were issued. Except with respect to asset-backed securities transactions that satisfy certain exemptions, the U.S. Risk Retention Rules generally require a "sponsor" of asset-backed securities or its "majority-owned affiliate" (as defined in the U.S. Risk Retention Rules) to retain not less than 5 per cent. of the credit risk of the assets collateralizing asset-backed securities (the "**Minimum Risk Retention Requirement**"). On 9 February 2018, a three-judge panel (the "**Panel**") of the United States Court of Appeals for the District of Columbia Circuit ruled in favor of the Loan Syndications and Trading Association in its lawsuit against the Securities and Exchange Commission and the Board of Governors of the Federal Reserve System and held that collateral managers of "open market CLOs" (described in the LSTA Decision as CLOs where assets are acquired from "arms-length negotiations and trading on an open market") are not "securitizers" or "sponsors" under Section 941 of the Dodd-Frank Act and, therefore, are not subject to risk retention and do not have to comply with the U.S. Risk Retention Rules (the "**LSTA Decision**"). The Panel's opinion in the LSTA Decision became effective on 5 April 2018, when the district court entered its order following the issuance of the appellate mandate on 3 April 2018 (the "**Mandate**") in respect thereof.

As a result the Collateral Manager has informed the Issuer that it does not expect to be required to retain the Minimum Risk Retention Requirement pursuant to the U.S. Risk Retention Rules; provided, however, that the Collateral Manager in its capacity as Retention Holder will retain the Retention Notes on the Issue Date, with the intention of complying with the EU Retention Requirements. Accordingly investors will not be entitled to the protections previously afforded by the U.S. Risk Retention Rules that required CLO collateral managers to have "skin in the game" and to comply with certain disclosure obligations specified in the U.S. Risk Retention Rules.

No assurance can be made whether or not any governmental authority will continue to take further legislative or regulatory action in response to past or future economic crises, or otherwise, including by adopting new credit risk retention rules for the type of transaction contemplated herein (a "**New Risk Retention Rule**" and together with the U.S. Risk Retention Rules, "**U.S. Retention Regulations**"), and the effect (and extent) of such actions, if any, cannot be known or predicted.

If any determination is made that this transaction is subject to the U.S. Risk Retention Rules, the Collateral Manager may fail to comply (or not be able to comply) with the U.S. Risk Retention Rules, which may have a material adverse effect on the Collateral Manager, the Issuer and/or the market value and/or liquidity of the Notes.

If the U.S. Retention Regulations become applicable to this transaction in the future, the Issuer's ability to effect any additional issuance of Notes, any Refinancing or any material amendment may be impaired or limited due to the consent rights of the Collateral Manager with respect to each such action. In granting or withholding its consent to any such action to the extent it is required under the Trust Deed with respect thereto, it should be expected that the Collateral Manager will act in its own self-interest (and will not take into account the interests of any other Person, including the Issuers and/or any holders of Notes).

Recent developments concerning the treatment of CLOs for certain Japanese investors

On 15 March 2019, the Japanese Financial Services Agency (the "**JFSA**") published a rule (the "**JFSA Securitisation Regulation**") concerning the regulatory capital treatment of securitisation transactions for Japanese banks, bank holding companies, certain Japanese credit unions and cooperatives and certain other Japanese financial institutions and their respective affiliates (such investors, "**Affected Japanese Investors**"). The JFSA Securitisation Regulation subjects Affected Japanese Investors to punitive capital charges and/or other regulatory penalties for securitisation exposures they purchase after 31 March 2019 unless the applicable investor (i) has conducted satisfactory due diligence on the assets underlying such securitisation, including the establishment and utilization of a due diligence system for evaluating securitised products and (ii) has determined that either (a) the underlying assets of the applicable securitisation transaction were "not inadequately or inappropriately formed" or (b) the relevant "originator" (as defined in the JFSA Securitisation Regulation), or another party "deeply involved in the organization of the securitised product," retains at least 5 per cent. of the securitised exposures. At this time there are several unresolved questions relating to the JFSA Securitisation Regulation (for which no official English translation is yet available) and little guidance on many aspects of the rule including, among others, (i) what is meant by assets "not inadequately or inappropriately formed" and what materials an Affected Japanese Investor may be required to review to make such a determination, (ii) the eligibility requirements for a retention holder for purposes of the rule and (iii) on what basis to calculate the 5 per cent. retention requirement (i.e., how to determine the amount of "securitised exposures").

The JFSA Securitisation Regulation is expected to apply to Affected Japanese Investors investing in the Notes and potentially to any securities issued in connection with a Refinancing or additional issuance of Notes purchased by Affected Japanese Investors.

The JFSA Securitisation Regulation may lead to decreased participation of Affected Japanese Investors in the market for CLO securities, which may adversely affect (i) the liquidity of the Notes in the secondary market, (ii) the leveraged loan and CLO markets generally and (iii) the ability of the Issuer to effect a Refinancing and/or additional issuance of Notes.

Notwithstanding the fact that the Retention Holder is purchasing on the Issue Date and retaining Notes of each Class with the intention of satisfying the EU Retention and Disclosure Requirements, no party including, without limitation, the Issuer, the Placement Agent, the Collateral Manager, the Retention Holder, the Trustee or any of their respective affiliates makes any representation, warranty or guaranty that such retention would enable any Affected Japanese Investor to comply with the JFSA Securitisation Regulation.

Furthermore, no party including, without limitation, the Issuer, the Placement Agent, the Collateral Manager, the Trustee or any of their respective affiliates, makes any representation, warranty or guaranty that the Collateral Debt Obligations were not, or will not be, "inadequately or inappropriately formed," that the information made available with respect to the Collateral Debt Obligations is sufficient to make such a determination or that this transaction otherwise satisfies the JFSA Securitisation Regulation.

It is the responsibility of each Affected Japanese Investor to conduct adequate due diligence to confirm and verify that the requirements of the JFSA Securitisation Regulation have been satisfied and none of the Issuer, the Placement Agent, the Collateral Manager or the Trustee assumes any responsibility or liability for the failure of any Affected Japanese Investor to conduct the due diligence that is necessary to satisfy the JFSA Securitisation Regulation.

2.3 **Retention Financing**

The Retention Holder intends to enter into financing arrangements in respect of the Retention Notes that it is required to acquire in order to comply with the Retention Requirements (any such arrangements, the "**Retention Financing Arrangements**") and in respect of any Retention Financing Arrangements, will either grant security over, or transfer title to, the Retention Notes in connection with such financing. If the collateral arrangements in respect of such Retention Financing Arrangements are by way of title transfer, the Retention Holder would retain the economic risk in the Retention Notes but not legal ownership of them and furthermore, the counterparty having acquired the Retention Notes may have the ability to dispose of them. None of the Collateral Manager, the Retention Holder, any Agent, the Issuer, the Trustee, the Placement Agent or any of their respective Affiliates makes any representation, warranty or guarantee that such Retention Financing Arrangements will comply with the Retention Requirements. In particular, should the Retention Holder default in the performance of its obligations under the Retention Financing Arrangements, the lender or lenders thereunder would have the right to enforce the security granted by the Retention Holder, including effecting the sale or appropriation of some or all of the Retention Notes or, if the collateral arrangements in respect of such Retention Financing Arrangements are by way of title transfer, the Retention Holder would not be entitled to have the Retention Notes (or equivalent securities) returned to it. In exercising its rights pursuant to any Retention Financing Arrangements, any lender would not be required to have regard to the Retention Requirements or the Noteholders and any such sale or appropriation may therefore cause the transaction described in this Offering Circular to be non-compliant with the Retention Requirements. Additionally, a default by a financing counterparty under a Retention Financing Arrangement that was effected by way of title transfer may also result in the Retention Notes failing to be returned to the Retention Holder. Although the Collateral Manager may direct a Regulatory Refinancing and purchase additional Notes thereunder in order to maintain compliance with the EU Retention Requirements, there can be no assurance that the Regulatory Refinancing in accordance with Condition 7(b)(vi) (*Optional Redemption effected through Regulatory Refinancing*) will be viewed effective for such purposes by the applicable governmental authorities. See Condition 7(b)(vi) (*Optional Redemption effected through Regulatory Refinancing*).

The term of any Retention Financing Arrangements may be considerably shorter than the effective term of the Notes, and separately, or as a result of other terms of the Retention Financing Arrangements may require the Retention Holder to repay or refinance the Retention Financing Arrangements whilst some or all Classes of Notes are Outstanding. If refinancing opportunities were limited at such time and the Retention Holder was unable to repay the retention financing from other its own resources, the Retention Holder could be forced to sell some or all of the Retention Notes in order to obtain funds to repay the retention financing without regard to the Retention Requirements, and such sales may therefore cause the transaction described in this Offering Circular to be non-compliant with the Retention Requirements.

2.4 **European Market Infrastructure Regulation (EMIR)**

The European Market Infrastructure Regulation EU 648/2012 as amended from time to time ("**EMIR**") and its various delegated regulations and technical standards impose a range of obligations on parties to "over-the-counter" ("**OTC**") derivative contracts according to whether they are "financial counterparties" ("**FCs**") (such as certain investment firms, alternative investment funds (in respect of which, see 2.5 "*Alternative Investment Fund Managers Directive*"), credit institutions and insurance companies), "non-financial counterparties" ("**NFCs**") or third country entities equivalent to FCs or NFCs.

Types of entities and obligations

EMIR sets out thresholds for entities to assist with the categorisation thereof: (i) in the case of NFCs, the aggregate month-end average position for the previous 12 months of all OTC derivative contracts entered into by the NFC and other non-financial entities within its "group" (as defined in EMIR), excluding eligible hedging transactions, does not exceed certain thresholds (set per asset class of OTC derivatives), however, once the threshold for one asset class is exceeded, the NFC will be categorised as an NFC+ and (ii), in the case of FCs, the same thresholds apply, but FCs: (A) cannot exclude their hedging transactions from the threshold calculations, and (B) once the threshold for one asset class is exceeded, the FC must clear all OTC derivatives via an authorised or recognised central counterparty. FCs and NFCs, in each case, which are above the "clearing threshold" ("FC+s" and "NFC+s" respectively) are subject to an obligation to clear through an authorised or recognised central counterparty (the "**clearing obligation**") all "eligible" OTC derivative contracts entered into with other counterparties (NFC+s need only clear those asset classes in respect of which the clearing threshold is exceeded). All counterparties must report the details of all derivative contracts to a trade repository (the "**reporting obligation**") (provided that from 18 June 2020, FCs have been responsible under EMIR for reporting in connection with OTC derivative contracts on behalf of both themselves and their NFC counterparties that are not subject to the clearing obligation, and accordingly, each Hedge Counterparty will be required to report details of any relevant Hedge Transactions for both itself and the Issuer) and undertake certain risk-mitigation techniques in respect of OTC derivative contracts which are not cleared by a central counterparty such as timely confirmation of terms, portfolio reconciliation and compression and the implementation of dispute resolution procedures (the "**risk mitigation obligations**"). Non-cleared OTC derivatives entered into by FCs and NFC+s must also be marked-to-market on a daily basis and collateral may be required to be exchanged (the "**margin requirement**") to the extent that the FC or NFC+ enters into OTC derivatives transactions with other counterparties subject to the margin requirement.

NFCs which are below such "clearing threshold" (each, an "NFC-") and small financial counterparties (as described under EMIR) are not subject to the clearing obligation. An NFC- is also exempted from certain additional risk mitigation obligations, such as the posting of collateral.

Margin requirement

The margin requirement applies to non-cleared OTC derivatives. The margin requirement applies to FCs and NFC+s which transact with other FCs, NFC+s and third country equivalents (subject to exemptions) and, depending on the counterparty, will require collection and posting of variation margin and, for the largest counterparties/groups, initial margin. Variation margin requirements already apply and initial margin requirements are taking effect through a staged implementation period.

Under EMIR, NFCs may choose to calculate their aggregate month-end average positions for the previous 12 months. However, if an entity (such as the Issuer) is classified as NFC-, it is important that the calculation is made to avoid any concern or questions arising relating to the correct classification of the entity as an NFC-.

The Issuer expects to be an NFC-. However, if the Issuer is considered to be a member of a "group" (as defined in EMIR) (which may, for example, potentially be the case if the Issuer is consolidated by a Noteholder as a result of such Noteholder's holding of a significant proportion of the Subordinated Notes) and/or if the aggregate month-end average position of OTC derivative contracts entered into by the Issuer and any non-financial entities within such group exceeds the applicable thresholds (excluding eligible hedging transactions), the Issuer would be subject to the clearing obligation, or if the relevant contract is not a type required to be cleared, to the risk mitigation obligations, including the margin requirement. Also, please see 2.5 "*Alternative Investment Fund Managers Directive*" in respect of the potential classification of the Issuer as an alternative investment fund (an "AIF").

Prospective investors should be aware that if the Issuer becomes subject to the clearing obligation or to the margin requirement, it is unlikely that it would be able to comply with such requirements, which would adversely affect the Issuer's ability to enter into or materially amend Hedge Transactions (and

may also lead to termination of existing Hedge Transactions and/or Hedge Agreements) and/or may significantly increase the cost of entering into derivative contracts (to the extent that the Issuer is reclassified as a FC or NFC+ and becomes subject to marking to market and collateral posting requirements in respect of non-cleared OTC derivatives such as the Currency Hedge Transactions and the Interest Rate Hedge Transactions). These changes may adversely affect the Issuer's ability to enter into Hedge Transactions and therefore the Issuer's ability to acquire Non-Euro Obligations and manage interest rate risk. As a result of such increased costs and/or additional regulatory requirements, investors may receive significantly less or no interest or return, as the case may be, as the Collateral Manager may not be able to execute its investment strategy as anticipated. Investors should consult their own independent advisers and make their own assessment about the potential risks posed by EMIR in making any investment decision in respect of the Notes.

The Hedge Agreements may also contain early termination events which are based on the application of EMIR and which may allow the relevant Hedge Counterparty to terminate a Hedge Transaction upon the occurrence of an adverse EMIR related event. The termination of a Hedge Transaction in these circumstances may result in a termination payment being payable by the Issuer. See the section of this Offering Circular titled "*Hedging Arrangements*".

The Conditions permit the Issuer to amend, modify and/or supplement any Transaction Document and/or the Conditions and oblige the Trustee, without the consent of any of the Noteholders, to consent to the making of such amendment, modification or supplement to the Transaction Documents and/or the Conditions in order to enable the Issuer to comply with any requirements which apply to it under EMIR.

2.5 **Alternative Investment Fund Managers Directive**

AIFMD introduced authorisation and regulatory requirements for managers of AIFs. If the Issuer were to be considered to be an AIF within the meaning in AIFMD, it would need to be managed by a manager authorised under AIFMD (an "**AIFM**"). If considered to be an AIF managed by an AIFM, the Issuer would also be classified as an FC under EMIR and may be required to comply with the EMIR clearing obligation and/or risk mitigation techniques for uncleared OTC derivatives contracts (including obligations to exchange margin) with respect to Hedge Transactions (under EMIR all AIFs will be FCs whether or not managed by an authorised AIFM). See also 2.4 "*European Market Infrastructure Regulation (EMIR)*".

There is an exemption from the definition of AIF in AIFMD for "SSPEs" (the "**SSPE Exemption**"). The European Securities and Markets Authority ("**ESMA**") has not yet given any formal guidance on the application of the SSPE Exemption or whether a vehicle such as the Issuer would fall within it. However, as regards the position in Ireland, the Central Bank has confirmed that pending such further clarification from ESMA, "registered financial vehicle corporations" within the meaning of Article 1(2) of Regulation (EC) No 24/2009 of the European Central Bank (which has now been recast pursuant to Regulation (EU) No 1075/2013 of the European Central Bank), such as the Issuer, do not need to seek authorisation as an AIF or appoint an AIFM unless the Central Bank issues further guidance advising them to do so.

If the SSPE Exemption does not apply and the Issuer is considered to be an AIF, the Collateral Manager may not be able to continue to manage the Issuer's assets, or its ability to do so may be impaired. As a result, any application of AIFMD may affect the return investors receive from their investment.

The Conditions of the Notes allow the Issuer and oblige the Trustee, without the consent of any of the Noteholders, to concur with the Issuer in the making of modifications to the Transaction Documents and/or the Conditions of the Notes in order to enable the Issuer to comply with any requirements which apply to it under AIFMD.

If the Issuer were to be considered an AIF and an AIFM were to be appointed to manage the Issuer's assets, such AIFM would need to comply with a number of requirements under AIFMD, including the appointment of a custodian in respect of the Issuer's assets and compliance with certain reporting and disclosure obligations. Compliance with AIFMD by any such AIFM appointed by the Issuer will involve significant additional costs which may affect the return Noteholders receive from their investment.

2.6 U.S. Dodd-Frank Act

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the "**Dodd-Frank Act**") was signed into law on 21 July 2010. The Dodd-Frank Act represents a comprehensive change to financial regulation in the United States, and affects virtually every area of the capital markets. Implementation of the Dodd-Frank Act has required, and will continue to require, many lengthy rulemaking processes resulting in the adoption of a multitude of new regulations applicable to entities which transact business in the U.S. or with U.S. persons outside the U.S. The Dodd-Frank Act affects many aspects, in the U.S. and internationally, of the business of the Collateral Manager, including securitisation, proprietary trading, investing, creation and management of investment funds, OTC derivatives and other activities. While many regulations implementing various provisions of the Dodd-Frank Act have been finalised and adopted, some implementing regulations currently exist only in draft form and are subject to comment and revision, and still other implementing regulations have not yet been proposed. It is therefore difficult to predict whether and to what extent the Issuer and the businesses of the Collateral Manager and its subsidiaries and affiliates, will be affected by the Dodd-Frank Act as implementing regulations are finalised over time and come into effect.

The Securities and Exchange Commission (the "**SEC**") proposed changes to Regulation AB (as defined under the Securities Act) under the Securities Act which would have had the potential to impose new disclosure requirements on securities offerings pursuant to Rule 144A under the Securities Act or pursuant to other SEC regulatory exemptions from registration. Such rules, if adopted, could have restricted the use of this Offering Circular or require the publication of a new offering circular in connection with the issuance and sale of any additional notes issued pursuant to Condition 17 (*Additional Issuances*) or any Refinancing. While on 27 August 2014, the SEC adopted final rules amending Regulation AB that did not implement these proposals. However, the SEC has indicated that it is continuing to consider amendments that were proposed with respect to Regulation AB but not adopted, and that further amendments may be forthcoming in the future. If such amendments are made to Regulation AB in the future, they may place additional requirements and expenses on the Issuer in the event of the issuance and sale of any additional notes, which expenses may reduce the amounts available for distribution to the Noteholders.

None of the Issuer, the Collateral Manager or the Placement Agent makes any representation as to such matters. As such, investors should consult their own independent advisers and make their own assessment about the potential risks posed by the Dodd-Frank Act and the rules to be promulgated thereunder in making any investment decision in respect of the Notes.

2.7 CFTC Regulations

Pursuant to the Dodd-Frank Act regulators in the United States (including the CFTC) have promulgated and continue to promulgate a range of new regulatory requirements that may affect the pricing, terms and compliance costs associated with the entry into any Hedge Transaction by the Issuer and the availability of such Hedge Transactions. Some or all of the Hedge Transactions that the Issuer may enter into may be affected by, among others, (i) the requirement that certain swaps be centrally cleared and traded on a designated contract market or swap execution facility, (ii) initial or variation margin requirements of any central clearing organisation (with respect to cleared swaps) or initial or variation margin requirements with respect to uncleared swaps and (iii) swap reporting and recordkeeping obligations, and other matters. These requirements may (x) significantly increase the cost to the Issuer and/or the Collateral Manager of entering into Hedge Transactions such that the Issuer may be unable to

purchase certain types of Collateral Debt Obligations, (y) have unforeseen legal consequences on the Issuer or the Collateral Manager or (z) have other material adverse effects on the Issuer or the Noteholders.

Furthermore, regulations requiring the posting of initial and variation margin on uncleared swaps entered into by entities such as the Issuer entered into effect in the United States on 1 March 2017 for all registered swap dealers with respect to variation margin (subject to limited relief) and are being phased in for registered swap dealers between 1 September 2016 and 1 September 2021 with respect to initial margin. Hedge Transactions may be subject to such requirements, depending on the identity of the Hedge Counterparty. The Trust Deed does not permit the Issuer to post initial or variation margin. Accordingly, the application of United States regulations to a Hedge Transaction or a proposed Hedge Transaction could have a material adverse effect on the Issuer's ability to hedge its interest or currency rate exposure, or on the cost of such hedging.

2.8 **Commodity Pool Regulation**

The Issuer's ability to enter into Hedge Transactions may cause the Issuer to be a "commodity pool" as defined in the United States Commodity Exchange Act, as amended ("**CEA**") and, the Collateral Manager to be a "commodity pool operator" ("**CPO**") and/or a "commodity trading advisor" (a "**CTA**"), each as defined in the CEA in respect of the Issuer. The CEA, as amended by the Dodd-Frank Act, defines a "commodity pool" to include certain investment vehicles operated for the purpose of trading in "commodity interests" which includes swaps. CPOs and CTAs are subject to regulation by the CFTC and must register with the CFTC unless an exemption from registration is available. Based on applicable CFTC interpretive guidance, the Issuer is not expected to fall within the definition of a "commodity pool" under the CEA and, as such, the Issuer (or the Collateral Manager on the Issuer's behalf) may enter into Hedge Agreements (or any other agreement that would fall within the definition of "swap" as set out in the CEA) following receipt by the Collateral Manager of legal advice from reputable legal counsel to the effect that none of the Issuer, its directors or officers, the Collateral Manager or any of its or their affiliates or any other person would be required to register as a CPO and/or a CTA with the CFTC with respect to the Issuer.

If trading or entering into one or more Hedge Agreements would result in the Issuer's activities falling within the definition of a "commodity pool", the Collateral Manager may cause the Issuer to be operated in compliance with the exemption set forth in CFTC Rule 4.13(a)(3) for CPOs to pools whose interests are sold to qualifying investors pursuant to an exemption from registration under the Securities Act, and that limit transactions in commodity interests to the trading thresholds set forth in the Rule. Specifically, under CFTC Rule 4.13(a)(3), the Issuer would be required to limit transactions in commodity interests so that either (i) no more than 5 per cent. of the liquidation value of the Issuer's assets is used as margin, premiums and required minimum security deposits to establish such positions, or (ii) the aggregate net notional value of the Issuer's positions in commodity interests does not exceed 100 per cent. of the Issuer's liquidation value. If the Collateral Manager elects to file for a registration exemption under CFTC Rule 4.13(a)(3), then unlike a CFTC-registered CPO, the Collateral Manager would not be required to deliver a CFTC-mandated disclosure document or a certified annual report to investors, or otherwise comply with the requirements applicable to CFTC-registered CPOs and CTAs. Utilising any such exemption from registration may impose additional costs on the Collateral Manager and the Issuer and may significantly limit the Collateral Manager's ability to engage in hedging activities on behalf of the Issuer.

Notwithstanding the above, if the CFTC guidance referred to above changes or the Issuer engages in one or more activities that might cause it to fall within the definition of a "commodity pool" under the CEA and no exemption from registration is available, registration of the Collateral Manager as a CPO or a CTA may be required before the Issuer (or the Collateral Manager on the Issuer's behalf) may enter into any Hedge Agreement. Registration of the Collateral Manager as a CPO and/or a CTA could cause the Collateral Manager to be subject to extensive compliance and reporting requirements that would involve

material costs which may be passed on to the Issuer. The scope of such compliance costs is uncertain but could adversely affect the amount of funds available to make payments on the Notes.

Further, if the Collateral Manager determines that additional Hedge Transactions should be entered into by the Issuer in excess of the trading limitations set forth in any applicable exemption from registration as a CPO and/or a CTA, the Collateral Manager may elect to withdraw its exemption from registration and instead register with the CFTC as the Issuer's CPO and/or CTA. The costs of obtaining and maintaining these registrations and the related compliance obligations may be paid by the Issuer as Administrative Expenses. Such costs would reduce the amount of funds available to make payments on the Notes. These costs are uncertain and could be materially greater than the Collateral Manager anticipated when deciding to enter into the transaction and register as a CPO and/or a CTA. In addition, it may not be possible or advisable for the Collateral Manager to withdraw from registration as a CPO and/or a CTA after any relevant swap transactions terminate or expire. The costs of CPO and/or CTA registration and the ongoing CPO and/or CTA compliance obligations of the Collateral Manager could exceed, perhaps significantly, the financial risks that are being hedged pursuant to any Hedge Transaction.

Neither the CFTC nor the National Futures Association (the "NFA") pass judgement upon the merits of participating in a pool or upon the adequacy or accuracy of offering memoranda. Consequently, neither the CFTC nor the NFA has reviewed or approved this Offering Circular or any related agreement for the placement or purchase of Notes by any Person.

2.9 **Volcker Rule**

Section 619 of the Dodd-Frank Act (the "**Volcker Rule**") and the corresponding implementing rules prevents "banking entities" (a term which includes affiliates of a U.S. banking organisation as well as affiliates of a non-U.S. banking organisation that has a branch or agency office in the U.S., regardless of where such affiliates are located) from (i) engaging in proprietary trading in financial instruments, or (ii) acquiring or retaining any "ownership interest" in, or in "sponsoring", a "covered fund", subject to certain exemptions. In addition, in certain circumstances, the Volcker Rule restricts relevant banking entities from entering into certain transactions with covered funds.

An "ownership interest" is defined widely and may arise through a holder's exposure to the profits and losses of the "covered fund", as well as through certain rights of the holder to participate in the selection or removal of an investment advisor, investment manager, or general partner, trustee, or member of the board of directors of the "covered fund". A "covered fund" is defined widely, and includes any issuer which would be an investment company under the Investment Company Act 1940 (the "**ICA**") but is exempt from registration solely in reliance on section 3(c)(1) or 3(c)(7) of that Act, subject to certain exclusions found in the Volcker Rule's implementing regulations.

It should be noted that a commodity pool as defined in the CEA (see 2.8 "*Commodity Pool Regulation*") could, depending on which CEA exemption is used by such commodity pool or its commodity pool operator, also fall within the definition of a covered fund as described above.

In June 2020, the five federal agencies responsible for implementing the Volcker Rule adopted amendments to the Volcker Rule's final regulations, including changes relevant to the treatment of securitisations (the "**Volcker Changes**"). Among other things, the Volcker Changes create additional exclusions from the "covered fund" definition, and narrow the definition of "ownership interest" to exclude certain "senior debt interests". In addition, under the Volcker Changes, a debt interest would no longer be considered an "ownership interest" solely because the holder has the right to remove or replace the manager following a cause-related default. The Volcker Changes became effective on 1 October 2020 (subject to the potential rescission of such rules by the United States Congress in accordance with the Congressional Review Act of 1996, as discussed below).

The Volcker Changes were designated as a "major rule" under the Congressional Review Act (the "CRA"). Under the CRA, before a rule can take effect, an agency must submit a report to each house of Congress and the comptroller general containing a copy of the rule and a general statement describing the rule, including whether it is a major rule. After receiving the report, members of Congress have specified time periods during which they must submit and act on a joint resolution of disapproval. If both houses pass the resolution, it is sent to the President for signature or veto. If a joint resolution of disapproval is submitted within the CRA-specified deadline, passed by Congress, and signed by the President, the CRA states that the disapproved rule shall not take effect (or continue). That is, the rule would be deemed not to have had any effect at any time, and even provisions that had become effective would be retroactively negated. Furthermore, if a joint resolution of disapproval is enacted, the CRA provides that a rule may not be issued in substantially the same form as the disapproved rule unless it is specifically authorized by a subsequent law. The statute prohibits judicial review of any "determination, finding, action, or omission under" the CRA. Due to the COVID-19 pandemic, it is possible that the deadline for review of the 2020 Volcker Changes will extend into the next Congress and presidential administration.

The Issuer believes that, following the effectiveness of the Volcker Changes, the Rated Notes should not be considered "ownership interests" for purposes of the Volcker Rule, and the Rated Notes should be permitted to be acquired by a banking entity without regard to whether the Issuer is a covered fund.

Furthermore, the Transaction Documents have been drafted in a manner so as to disenfranchise the holders of any Class A Notes in the form of CM Removal and Replacement Non-Voting Notes or CM Removal and Replacement Exchangeable Non-Voting Notes in respect of any CM Removal Resolution and/or CM Replacement Resolution.

Prospective investors should make their own determinations as to whether their investment qualifies as an "ownership interest".

If the Issuer is deemed to be a "covered fund", the provisions of the Volcker Rule and its related regulatory provisions will severely limit the ability of "banking entities" to hold an "ownership interest" in the Issuer or enter into certain credit related financial transactions with the Issuer. Any entity that is a "banking entity" as defined under the Volcker Rule and is considering an investment in "ownership interests" of the Issuer should consult its own legal advisors and consider the potential impact of the Volcker Rule in respect of such investment. If investment by "banking entities" in the Notes of any Class is prohibited or restricted by the Volcker Rule, this could impair the marketability and liquidity of such Notes, particularly given the lack of interpretative guidance of the Volcker Rule. None of the Issuer, the Placement Agent, the Collateral Manager, the Trustee or any of their affiliates makes any representation to any prospective investor or purchaser of the Notes regarding the application of the Volcker Rule to the Issuer, or to the investor's investment in the Notes on the Issue Date or at any time in the future.

No assurance can be made as to the effect of the Volcker Rule on the ability of certain investors subject thereto to acquire or retain an interest in the Notes. Each prospective investor in the Notes should independently consider the potential impact of the Volcker Rule in respect of any investment in the Notes.

2.10 Reliance on Rating Agency Ratings

The Dodd-Frank Act requires that federal banking agencies amend their regulations to remove reference to or reliance on credit agency ratings, including but not limited to those found in the federal banking agencies' risk-based capital regulations. Investments in asset-backed securities like the Notes by such institutions may result in greater capital charges to financial institutions that own such securities, or otherwise adversely affect the treatment of such securities for regulatory capital purposes. Changes in capital requirements have been announced by the Basel Committee on Banking Supervision and it is uncertain when all such changes will be fully implemented. When fully implemented, investments in asset-backed securities like the Notes by such institutions may result in greater capital charges to financial

institutions that own such securities, or otherwise adversely affect the treatment of such securities for regulatory capital purposes. Furthermore, all prospective investors in the Notes whose investment activities are subject to legal investment laws and regulations, regulatory capital requirements, or review by regulatory authorities should consult with their own legal, accounting and other advisors in determining whether, and to what extent, the Notes will constitute legal investments for them or are subject to investment or other regulatory restrictions, unfavourable accounting treatment, capital charges or reserve requirements.

2.11 **LIBOR and EURIBOR Reform**

The London Interbank Offered Rate ("**LIBOR**") has been reformed, with developments including:

- (a) the activities of administering a specified benchmark and of providing information in relation to a specified benchmark becoming regulated activities in the United Kingdom (LIBOR has been a specified benchmark since April 2013);
- (b) ICE Benchmark Administration Limited becoming the LIBOR administrator in place of the British Bankers' Association in February 2014;
- (c) a reduction in the number of currencies and tenors for which LIBOR is calculated; and
- (d) the introduction of a LIBOR code of conduct for contributing banks.

ICE Benchmark Administration Limited intends to make further reforms to the submission methodology for LIBOR panel banks.

In a speech on 27 July 2017, Andrew Bailey, the Chief Executive of the FCA, announced the FCA's intention to cease sustaining LIBOR from the end of 2021.

The FCA has statutory powers to compel panel banks to contribute to LIBOR where necessary. The FCA has decided not to ask, or to require, that panel banks continue to submit contributions to LIBOR beyond the end of 2021. The FCA has indicated that the current panel banks will voluntarily sustain LIBOR until the end of 2021. The FCA's intention is that after 2021, it will no longer be necessary for the FCA to persuade, or to compel, banks to submit to LIBOR. The FCA does not intend to sustain LIBOR through using its influence or legal powers beyond that date.

It is possible that the LIBOR administrator, ICE Benchmark Administration, and the panel banks could continue to produce LIBOR on the current basis after 2021, if they are willing and able to do so. However, the survival of LIBOR in its current form, or at all, is not guaranteed after 2021. If LIBOR does not survive in its current form or at all, this could adversely affect the value of, and amounts payable under, any Collateral Debt Obligations which pay interest calculated with reference to LIBOR and therefore reduce amounts which may be available to the Issuer to pay Noteholders. Furthermore, the uncertainty as to whether LIBOR will survive in its current form or at all may lead to adverse market conditions, which may have an adverse effect on the amounts available to the Issuer to pay to Noteholders.

The Euro Interbank Offered Rate (for the purposes of this risk factor, "**EURIBOR**"), together with LIBOR, and other so-called "benchmarks" are the subject of reform measures by a number of international authorities and other bodies.

In the EU, in September 2013, the European Commission published a proposal for a regulation (the "**Benchmarks Regulation**") on indices used as benchmarks in financial instruments and financial contracts. The Benchmarks Regulation was published in the Official Journal of the EU on 29 June 2016 and entered into force on 30 June 2016. The application date for the majority of its provisions was 1 January 2018. It is directly applicable law across the EU.

The Benchmarks Regulation applies principally to "administrators" and also, in some respects, to "contributors" and certain "users" of "benchmarks", and will, among other things, (i) require benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and make significant changes to the way in which benchmarks falling within scope of the Benchmarks Regulation are governed (including reforms of governance and control arrangements, obligations in relation to input data, certain transparency and record-keeping requirements and detailed codes of conduct for contributors) and (ii) prevent certain uses of "benchmarks" provided by unauthorised administrators by supervised entities in the EU. The scope of the Benchmarks Regulation is wide and, in addition to so-called "critical benchmark" indices, could also potentially apply to many interest rate and foreign exchange rate indices, equity indices and other indices (including "proprietary" indices or strategies) where used to determine the amount payable under or the value or performance of certain financial instruments traded on a trading venue, financial contracts and investment funds. EURIBOR and LIBOR have been designated "critical benchmarks" for the purposes of the Benchmarks Regulation, by way of European Commission Implementing Regulations published on 12 August 2016 and 28 December 2017, respectively.

Benchmarks such as EURIBOR or LIBOR may be discontinued if they do not comply with the requirements of the Benchmarks Regulation, or if the administrator of the benchmark either fails to apply for authorisation or is refused authorisation by its home regulator. On 2 July 2019, the European Money Markets Institute, administrator for EURIBOR, was granted authorisation under the Benchmarks Regulation by the Financial Services and Markets Authority of Belgium. EURIBOR is now considered compliant with the Benchmarks Regulation.

Potential effects of the Benchmarks Regulation include (among other things):

- (a) an index which is a "benchmark" could not be used by a supervised entity in certain ways if its administrator does not obtain authorisation or, if based in a non-EU jurisdiction, the administrator is not otherwise recognised as equivalent; and
- (b) the methodology or other terms of the "benchmark" could be changed in order to comply with the terms of the Benchmarks Regulation, and such changes could (among other things) have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level of the benchmark.

Investors should be aware that:

- (a) any of the international, national or other measures or proposals for reform, or general increased regulatory scrutiny of "benchmarks" could have a material adverse effect on the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain "benchmarks", trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the disappearance of certain "benchmarks";
- (b) any of these changes or any other changes could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would otherwise be;
- (c) if the applicable rate of interest on any Collateral Debt Obligation is calculated with reference to a benchmark (or currency or tenor) which is discontinued:
 - (i) such rate of interest will then be determined by the provisions of the affected Collateral Debt Obligation, which may include determination by the relevant calculation agent in its discretion; and

- (ii) there may be a mismatch between the replacement rate of interest applicable to the affected Collateral Debt Obligation and the replacement rate of interest the Issuer must pay under any applicable Hedge Agreement. This could lead to the Issuer receiving amounts from affected Collateral Debt Obligations which are insufficient to make the due payment under the Hedge Agreement, and potential termination of the Hedge Agreement;
- (d) if any of the relevant EURIBOR benchmarks referenced in Condition 6 (*Interest*) are discontinued, interest on the Notes will be calculated under Condition 6(e) (*Interest on the Rated Notes*). In general, fall-back mechanisms which may govern the determination of interest rates where a benchmark rate is not available (such as those described in paragraph (c) immediately above) are not suitable for long term use. Accordingly, if a benchmark rate is permanently discontinued, it may be desirable to amend the applicable interest rate provisions in the affected Collateral Debt Obligation, Hedge Agreement or the Notes. Investors should note that the Issuer may, in certain circumstances, amend the Transaction Documents to modify or amend the reference rate in respect of the Notes without the consent of Noteholders, provided that, as applicable, the Controlling Class and the Subordinated Noteholders have consented within the timescale provided in Condition 14(c) (*Modification and Waiver*), in each case, acting by way of Ordinary Resolution. See Condition 14(c) (*Modification and Waiver*); and
- (e) the administrator of a relevant benchmark will not have any involvement in the Collateral Debt Obligations or the Notes and may take any actions in respect of such benchmark without regard to the effect of such actions on the Collateral Debt Obligations or the Notes.

Any of the above or any other significant changes to EURIBOR or any other benchmark could have a material adverse effect on the value of, and the amount payable under (i) any Collateral Debt Obligations which pay interest linked to a EURIBOR rate or other benchmark (as applicable), and (ii) the Notes.

2.12 Financial Transaction Tax ("FTT")

In February 2013 the European Commission published a proposal (the "**Commission Proposal**") for a Council Directive implementing enhanced cooperation for a financial transaction tax ("**FTT**") requested by Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Slovakia, Slovenia and Spain (together, other than Estonia, the "**Participating Member States**"). However, on 16 March 2016, Estonia completed the formalities required to cease participation in the enhanced cooperation on FTT.

Under the Commission Proposal, the proposed FTT would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a Participating Member State or the financial instrument in which the parties are dealing is issued in a Participating Member State. The FTT may apply to both transaction parties where one of these circumstances applies. The FTT may also apply to dealings in the Collateral to the extent the Collateral constitutes financial instruments within its scope, such as bonds. In such circumstances, it is not possible to predict with certainty what effect the proposed FTT might have on the business of the Issuer, there will be no gross-up by any party to the transaction and amounts due to Noteholders may be adversely affected.

Certain aspects of the Commission Proposal are controversial and, while the Commission Proposal initially identified the date of introduction of the FTT across the Participating Member States as being 1 January 2014, this anticipated introduction date has been extended on several occasions due to disagreement among the Participating Member States regarding a number of key issues concerning the scope and application of the FTT. Accordingly, the date of implementation of the FTT remains uncertain.

Additional Member States may also decide to participate in the FTT. Prospective holders of the Notes are advised to seek their own professional advice in relation to any FTT and its potential impact on their dealings in the Notes before investing.

2.13 **Anti-Money Laundering, Anti-Terrorism, Anti-Corruption, Bribery and Similar Laws May Require Certain Actions or Disclosures**

The Uniting and Strengthening America By Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the "**USA PATRIOT Act**"), signed into law on and effective as of 26 October 2001, requires that financial institutions, a term that includes banks, broker-dealers and investment companies, establish and maintain compliance programs to guard against money laundering activities. The USA PATRIOT Act requires the Treasury to prescribe regulations in connection with anti-money laundering policies of financial institutions. The Financial Crimes Enforcement Network ("**FinCEN**"), an agency of the Treasury, has announced that it is likely that such regulations would require pooled investment vehicles such as the Issuer to enact anti-money laundering policies.

Many other jurisdictions have adopted wide-ranging anti-money laundering, economic and trade sanctions, and anti-corruption and anti-bribery laws, and regulations (collectively with the USA PATRIOT Act, the "**AML Requirements**"). Any of the Issuer, the Placement Agent, the Collateral Manager, the Trustee or the Agents could be requested or required to obtain certain assurances from prospective investors intending to purchase Notes and to retain such information or to disclose information pertaining to them to governmental, regulatory or other authorities or to financial intermediaries or engage in due diligence or take other related actions in the future. It is expected that the Issuer, the Collateral Manager and the Trustee will comply with AML Requirements to which they are or may become subject and to interpret such AML Requirements broadly in favour of disclosure. The AML Requirements could require the Issuer to implement additional restrictions on the transfer of the Notes.

The Issuer reserves the right to request such information as is necessary to verify the identity of a Noteholder and the source of the payment of subscription monies, or as is necessary to comply with any customer identification programs required by FinCEN and/or the SEC or any other applicable AML Requirements. If there is a delay or failure by the applicant to produce any information required for verification purposes, an application for or transfer of Notes and the subscription monies relating thereto may be refused.

2.14 **CRA**

CRA Regulation in Europe

Regulation (EU) 462/2013 of the European Parliament and of the European Council amending Regulation EC 1060/2009 on credit rating agencies ("**CRA3**") came into force on 20 June 2013. CRA3 has subsequently been supplemented by Delegated Regulation (EU) 2015/3 of 30 September 2014 (the "**CRA3 RTS**").

Article 8(c) of CRA3 has introduced a requirement that where an issuer or a related third party intends to solicit a credit rating of a structured finance instruments, it shall obtain two independent ratings for such instruments. Article 8(d) of CRA3 has introduced a requirement that where an issuer or a related third party intends to appoint at least two credit rating agencies to rate the same instrument, the issuer or a related third party shall consider appointing at least one rating agency having less than a 10 per cent. market share among agencies capable of rating that instrument. The Issuer intends to have two rating agencies appointed, but does not make any representation as to market share of either agency, and any consequences for the Issuer, related third parties and investors if an agency does not have a less than 10 per cent. market share are not specified. Investors should consult their legal advisors as to the applicability of CRA3 and any consequence of non-compliance in respect of their investment in the Notes.

2.15 Action Plan on Base Erosion and Profit Shifting

On 5 October 2015, the Organisation for Economic Co-operation and Development ("**OECD**") published final reports, analyses and sets of recommendations for all of the fifteen actions it identified as part of its Action Plan on Base Erosion and Profit Shifting ("**BEPS**"), which G20 finance ministers then endorsed during a meeting on 8 October 2015 in Lima, Peru (the "**Final Report**"). The Final Report was endorsed by G20 Leaders during their annual summit on 15-16 November 2015 in Antalya, Turkey.

The focus of one of the actions (Action 6) is the prevention of treaty abuse by developing model treaty provisions to prevent the granting of treaty benefits in inappropriate circumstances. The Final Report recommends, as a minimum, that countries should include in their tax treaties: (i) an express statement that the common intention of each contracting state which is party to such treaties is to eliminate double taxation without creating opportunities for non-taxation or reduced taxation through tax evasion or avoidance; and one, or both, of (ii) a "limitation-on-benefits" ("**LOB**") rule; and (iii) a "principal purposes test" ("**PPT**") rule.

The PPT rule could deny a treaty benefit (such as a reduced rate of withholding tax) if it is reasonable to conclude, having regard to all facts and circumstances, that obtaining that benefit was one of the principal purposes of any arrangement or transaction that resulted directly or indirectly in that benefit, unless it is established that granting that benefit in those circumstances would be in accordance with the object and purpose of the relevant provisions of the treaty.

On 24 November 2016, the OECD published the text and explanatory statement of the "Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting", developed by an ad hoc group of 99 countries which included Ireland and the UK (the "**Multilateral Instrument**"). The Multilateral Instrument is to be applied alongside existing tax treaties (rather than amending them directly), modifying the application of those existing treaties in order to implement BEPS measures.

The United Kingdom and Ireland signed the Multilateral Instrument with both countries indicating that the double tax treaty entered into between the United Kingdom and Ireland is to be designated as a Covered Tax Agreement ("**CTA**"), being a tax treaty that is to be modified by the Multilateral Instrument. The United Kingdom deposited its instrument of ratification with the OECD on 29 June 2018 and therefore the Multilateral Instrument came into force in respect of the United Kingdom on 1 October 2018. Ireland deposited its instrument of ratification with the OECD on 29 January 2019 and therefore the Multilateral Instrument came into force in respect of Ireland on 1 May 2019.

The Multilateral Instrument entered into force for Ireland on 1 May 2019. As a general rule, it is effective for Ireland's tax treaties:

- with respect to taxes withheld at source, from 1 January 2020; and
- with respect to all other taxes levied by Ireland, for taxes levied with respect to taxable periods beginning on or after 1 November 2019.

The date on which the Multilateral Instrument modifies each treaty depends on when Ireland's treaty partners deposit their own instruments of ratification.

The UK and Ireland signed the Multilateral Instrument with both countries indicating that the double tax treaty entered into between the United Kingdom and Ireland is to be designated as a CTA, being a tax treaty that is to be modified by the Multilateral Instrument.

In particular it remains to be seen what specific changes will be made to many of the double tax treaties on which the Issuer may rely (for example, in receiving interest from an overseas borrower at a potentially

reduced rate of withholding tax under an applicable double tax treaty). A change in the application or interpretation of these double tax treaties (as a result of the adoption of the recommendations of the Final Report by way of the Multilateral Instrument or otherwise) might result in the Issuer being treated as having a taxable permanent establishment outside of Ireland, in denying the Issuer the benefit of Ireland's network of double tax treaties or in other tax consequences for the Issuer. In each case, this could have a material adverse effect on the Issuer's business, tax and financial position.

It is also possible that Ireland will negotiate other bespoke amendments to its double tax treaties on a bilateral basis in the future which may affect the ability of the Issuer to obtain the benefits of those treaties.

Investors should note that other action points which form part of the OECD BEPS project (such as Action 4, which can deny deductions for financing costs, see 2.16, *EU Anti-Tax Avoidance Directive and EU Anti-Tax Avoidance Directive 2*) may be implemented in a manner which affects the tax position of the Issuer. In addition, there may be subsequent proposals.

2.16 **EU Anti-Tax Avoidance Directive and EU Anti-Tax Avoidance Directive 2**

As part of its anti-tax avoidance package, and to provide a framework for a harmonised implementation of the BEPS conclusions across the EU, the EU Council adopted Council Directive (EU) 2016/1164 (the "**ATAD 1**") on 12 July 2016. EU member states had until 31 December 2018 to implement ATAD 1 (subject, in certain cases, to derogations for EU member states which have equivalent measures in their domestic law). ATAD 1 requires the introduction of rules in relation to (i) controlled foreign company rules, (ii) rules regarding anti-hybrid mismatches within the EU, (iii) general interest limitation rules, and (iv) a general anti-abuse rule ("**GAAR**").

Amongst the measures contained in ATAD 1 is an interest deductibility limitation rule similar to the recommendation contained in the BEPS Action 4 proposals. The Irish Minister for Finance had stated that Ireland would not introduce these rules until 2024. However, the Irish Department of Finance has more recently stated that Ireland will continue to engage with the European Commission in this regard and commenced work to examine options to bring forward the process of transposition from the original planned deadline of end of 2023. It is generally expected that the interest limitation rules will be introduced in Ireland from 1 January 2021.

Until the timing and manner of implementation of the interest deductibility limitation rule is known, it is not possible to provide detailed guidance on the impact of the rule on the Issuer's Irish tax position.

ATAD 1 interest limitation rules provide that interest costs in excess of the higher of (a) EUR 3,000,000 or (b) 30 per cent of an entity's earnings before interest, tax, depreciation and amortisation will not be deductible in the year in which they are incurred but would remain available for carry forward. However, the restriction on interest deductibility would only be in respect of the amount by which the borrowing costs exceed "interest revenues and other equivalent taxable revenues from financial assets".

There is also a carve-out in ATAD 1 for financial undertakings, although as currently drafted the Issuer would not be treated as a financial undertaking. The EU Commission is also pursuing other initiatives, such as the introduction of a common corporate tax base, the impact of which, if implemented, is uncertain.

EU Anti-Hybrid Rules

On 21 February 2017, the Economic and Financial Affairs Council of the European Union agreed an amendment to ATAD 1 to provide for minimum standards for counteracting hybrid mismatches involving EU Member States and third countries which the EU Council adopted on 29 May 2017.

("ATAD 2"). ATAD 2 requires EU Member States to either delay and/or deny deduction of payments, expenses or losses or include payments as taxable income, in case of hybrid mismatches.

ATAD 2 significantly extends the rules on hybrid mismatches. It has been implemented in Ireland by way of Finance Act 2019 with the provisions effective from 1 January 2020 (other than with respect to reverse hybrids). A hybrid mismatch arrangement is a crossborder arrangement that generally uses a hybrid entity or hybrid instrument and results in a mismatch in the tax treatment of a payment across jurisdictions.

ATAD 2 covers, inter alia, hybrid mismatches arising between (i) associated enterprises, (ii) head offices and permanent establishments, (iii) permanent establishments of the same entity or (iv) under certain structured arrangements. The forms of hybrid mismatch that are most likely to be relevant to an entity such as the Issuer relate to financial instrument mismatches and hybrid entity mismatches.

The Issuer's Irish tax position may be impacted by Ireland's implementation of the anti-hybrid legislation which occurred as part of Finance Act 2019. To the extent the Issuer is deemed to be associated with any of its Noteholders, or is engaged in certain transactions which have, as their purpose, the exploitation of hybrid mismatches, these anti-hybrid rules may impact the deductibility of payments of interest by the Issuer to certain Noteholders. Associated for these purposes includes direct and indirect participation in terms of voting rights or capital ownership of 25% or more (50% in certain circumstances) or an entitlement to receive 25 % or more (50% in certain circumstances) of the profits of that entity as well as entities that are part of the same consolidated group for financial accounting purposes or enterprises that have a significant influence in the management of the taxpayer.

Noteholders are not currently anticipated to be persons who would be considered associated with the Issuer, merely by reason of holding Notes.

2.17 Taxation Implications of Contributions

A Subordinated Noteholder may, in certain circumstances, provide the Issuer with cash by way of a Contribution in accordance with Condition 2(n) (*Contributions*)

). Subordinated Noteholders may become subject to taxation in relation to the making of a Contribution. Subordinated Noteholders are responsible for any and all taxation liabilities that may be applicable in such circumstances. Subordinated Noteholders should consult their own tax advisers as to the tax treatment to them of making a Contribution in accordance with Condition 2(n) (*Contributions*).

2.18 Imposition of unanticipated Taxes on Issuer / Irish Value Added Tax Treatment of the Collateral Management Fees

The Issuer has been advised that under current Irish domestic law, the Collateral Management Fees should be exempt from VAT. This is on the basis that they should be treated as consideration paid for collective portfolio management services provided to a "*qualifying company*" as defined in section 110 of the Taxes Consolidation Act 1997.

This exemption is based upon Article 135(1)(g) of Council Directive 2006/112/EC on the Common System of Value Added Tax (the "**VAT Directive**"), which provides that Member States shall exempt from VAT the management of "*special investment funds*" as defined by Member States.

Historically, a similar position has been taken by the Netherlands, though recent developments have changed this and, in February 2020 the Dutch tax authorities issued letters to participants in the Dutch CLO market explaining that collateral management and administration services are subject to VAT. This change in approach stems in part from the decision of the Court of Justice of the European Union on 9 December 2015 in the case of *Staatssecretaris van Financiën v Fiscale Eenheid X NV cs Case C-595/13*. The *Fiscale Eenheid X* case concerned whether a Dutch fund investing in real estate could qualify as a "special investment fund". The Court decided that funds such as those under consideration that are not

UCITS could only qualify as "special investment funds" if they are "*subject to specific State supervision*" because only "*investment funds that are subject to specific State supervision can be subject to the same conditions of competition and appeal to the same circle of investors*".

Partly in response to the *Fiscale Eenheid X* case, the European Commission has asked the VAT Committee (an advisory body comprising representatives from tax authorities of all of the Member States and chaired by a representative from the European Commission) (the "**VAT Committee**") to shed light on the types of entities that can also qualify as "*special investment funds*". A large majority of the VAT Committee concluded that an entity cannot qualify as a "*special investment fund*" if it cannot be seen to target the same circle of investors as UCITS either because of the characteristics of its investment portfolio or because of the conditions under which investors are permitted to participate in the fund.

The views expressed by the VAT Committee are merely advisory and do not necessarily have the agreement of the European Commission. Furthermore, its views are not legally binding and the courts may disagree with them. There is nevertheless a risk that the European Commission will accept the views of the VAT Committee and will conclude that entities such as the Issuer cannot qualify as a "special investment fund" because they are either not subject to the right sort of regulatory supervision in Ireland and/or because they do not target the same circle of investors as UCITS.

Member States have a degree of discretion on how to define "*special investment funds*", and therefore there are some discrepancies amongst Member States on the meaning of the term. The *Fiscale Eenheid X* case was about how broad that discretion is. The application of the VAT exemption for "*special investment funds*" could now be reviewed at a Member State level and/or by the European Commission to ensure that the definitions used are within the ambit of discretion permitted by the VAT Directive.

The Issuer is not aware of any proposal to amend Irish domestic law to remove the exemption from VAT on collateral management fees paid by entities such as the Issuer. However, it is possible that some Member States (including Ireland) could change their domestic VAT laws, or the European Commission could require them to do so. If so, the Issuer could from then be required to account for VAT in Ireland in respect of the Collateral Management Fees. The standard VAT rate in Ireland is currently 23 per cent. It is also possible that Ireland could be required to recover the benefit of the VAT exemption obtained before the date on which the law changes from the Issuer together with interest.

The imposition of VAT in Ireland on the Collateral Management Fees will not constitute a Note Tax Event or a Collateral Tax Event. Accordingly, Noteholders will not become entitled to redeem the Notes in accordance with Condition 7(g) (*Redemption following Note Tax Event*) or Condition 7(b)(i)(B) (*Optional Redemption in Whole – Subordinated Noteholders or Collateral Manager*) as a consequence thereof. Furthermore, it may not be possible to substitute the Issuer with another company that is incorporated in another jurisdiction within the European Economic Area that does not charge VAT on CLO collateral management and administration fees.

2.19 **The Common Reporting Standard**

The common reporting standard framework was first released by the OECD in February 2014 as a result of the G20 members endorsing a global model of automatic exchange of information in order to increase international tax transparency. On 21 July 2014, the Standard for Automatic Exchange of Financial Account Information in Tax Matters was published by the OECD and this includes the Common Reporting Standard (the "**CRS**"). The goal of the CRS is to provide for the annual automatic exchange between governments of financial account information reported to them by local reporting financial institutions (as defined) ("**FIs**") relating to account holders who are tax resident in other participating jurisdictions.

Directive 2014/107/EU on Administrative Cooperation in the Field of Taxation ("**DAC II**") implements the CRS in a European context and creates a mandatory obligation for all EU Member States to exchange

financial account information in respect of residents in other EU Member States on an annual basis commencing in 2017 in respect of the 2016 calendar year (or from 2018 in the case of Austria).

Ireland is a signatory jurisdiction to a Multilateral Competent Authority Agreement on the automatic exchange of financial account information in respect of the CRS while the Finance Act 2014 of Ireland and the Finance Act 2015 of Ireland contain measures necessary to implement the CRS internationally and across the European Union, respectively. The Returns of Certain Information by Reporting Financial Institutions Regulations 2015 of Ireland (the "**Regulations**") giving effect to the CRS from 1 January 2016 came into operation on 31 December 2015.

Over 95 jurisdictions have committed to exchanging information under the CRS and a group of 50 countries, including Ireland, and all other EU Member States (known as the "**Early Adopter Group**") committed to the early adoption of the CRS from 1 January 2016. The Early Adopter Group activated their exchange relationships under the CRS and commenced the exchange of data in September 2017. In November 2017, a further 53 jurisdictions committed to activating their exchange relationships by September 2018.

The Irish Revenue Commissioners have indicated that Irish FIs (such as the Issuer) will be obliged to make a single return in respect of CRS and DAC II. For the purposes of complying with its obligations under CRS and DAC II, an Irish FI (such as the Issuer) shall be entitled to require Noteholders to provide any information regarding their and, in certain circumstances, their controlling persons' tax status, identity or residence in order to satisfy any reporting requirements which the Issuer may have as a result of CRS and DAC II and Noteholders will be deemed, by their holding to have authorised the automatic disclosure of such information by the Issuer (or any nominated service provider) or any other person to the Irish Revenue Commissioners. The information will be provided to the Irish Revenue Commissioners who will exchange the information with the tax authorities of other participating jurisdictions, as applicable. Failure by an Irish FI to comply with its CRS and DAC II obligations may result in the Issuer being deemed to be non-compliant in respect of its CRS obligations and monetary penalties may be imposed on a non-compliant FI under Irish legislation.

The Issuer (or any nominated service provider) will agree that information (including the identity of any Noteholder) supplied for the purposes of CRS and DAC II compliance is intended for the Issuer's (or any nominated service provider's) use for the purposes of satisfying CRS and DAC II requirements and the Issuer (or any nominated service provider) will agree, to the extent permitted by applicable law, that it will take reasonable steps to treat such information in a confidential manner, except that the Issuer may disclose such information (i) to its officers, directors, agents and advisors, (ii) to the extent reasonably necessary or advisable in connection with tax matters, including achieving CRS and DAC II compliance, (iii) to any person with the consent of the applicable Noteholder, or (iv) as otherwise required by law or court order or on the advice of its advisors. Further information in relation to CRS can be found on the Automatic Exchange of Information webpage on www.revenue.ie.

2.20 **Regulated Banking Activity**

In many jurisdictions, especially in continental Europe, engaging in lending activities "in" certain jurisdictions particularly via the original extension of credit granting a loan and in some cases including purchases of receivables, discounting of invoices, guarantee transactions or otherwise (collectively, "**Regulated Banking Activities**") is generally considered a regulated financial activity and, accordingly, must be conducted in compliance with applicable local banking laws (or the AIFMD, in the case of European long-term investment funds). In many such jurisdictions, there is comparatively little statutory, regulatory or interpretive guidance issued by the competent authorities or other authoritative guidance as to what constitutes the conduct of Regulated Banking Activities in such jurisdictions.

Collateral Debt Obligations subject to these local law requirements may restrict the Issuer's ability to purchase the relevant Collateral Debt Obligation or may require it to obtain exposure via a Participation.

Moreover, these regulatory considerations may differ depending on the country in which each Obligor is located or domiciled, on the type of Obligor and other considerations. Therefore, at the time when Collateral Debt Obligations are acquired by the Issuer, there can be no assurance that, as a result of the application of regulatory law, rule or regulation or interpretation thereof by the relevant governmental body or agency, or change in such application or interpretation thereof by such governmental body or agency, payments on the Collateral Debt Obligations might not in the future be adversely affected as a result of such application of regulatory law or that the Issuer might become subject to proceedings or action by the relevant governmental body or agency, which if determined adversely to the Issuer, may adversely affect its ability to make payments in respect of the Notes.

2.21 **EU Bank Recovery and Resolution Directive**

The EU Bank Recovery and Resolution Directive (2014/59/EU) (collectively with secondary and implementing EU rules, and national implementing legislation, the "**BRRD**") equips national authorities in Member States (the "**Resolution Authorities**") with tools and powers for preparatory and preventive measures, early supervisory intervention and resolution of credit institutions and significant investment firms (collectively, "**relevant institutions**"). If a relevant institution enters into an arrangement with the Issuer and is deemed likely to fail in the circumstances identified in the BRRD, the relevant Resolution Authority may employ such tools and powers in order to intervene in the relevant institution's failure (including in the case of derivatives transactions, powers to close-out such transactions or suspend any rights to close-out such transactions). In particular, liabilities of relevant institutions arising out of the Transaction Documents or Underlying Instruments (for example, liabilities arising under Participations or provisions in Underlying Instruments requiring lenders to share amounts) not otherwise subject to an exception, could be subject to the exercise of "bail-in" powers of the relevant Resolution Authorities. It should be noted that certain secured liabilities of relevant institutions are excepted. If the relevant Resolution Authority decides to "bail-in" the liabilities of a relevant institution, then subject to certain exceptions set out in the BRRD, the liabilities of such relevant institution could, among other things, be reduced, converted or extinguished in full. As a result, the Issuer and ultimately, the Noteholders may not be able to recover any liabilities owed by such an entity to the Issuer. In addition, a relevant Resolution Authority may exercise its discretions in a manner that produces different outcomes amongst institutions resolved in different EU Member States. It should also be noted that similar powers and provisions are being considered in the context of financial institutions of other jurisdictions.

The European Commission adopted a set of draft regulatory technical standards in respect of the valuation of derivatives for the purposes of the BRRD on 23 May 2016. They were published in the Official Journal on 8 July 2016 and entered into force on 28 July 2016 and provide, among other things, that the relevant Resolution Authorities will have the power to terminate swap agreements (as part of the bail-in process) and to value the position thereunder. This will therefore limit any control the Issuer or the Trustee may have in respect of the valuation process, which may be detrimental to the Issuer and consequently, the Noteholders.

Resolution Authorities also have the right to amend certain agreements, under applicable laws, regulations and guidance ("**Stay Regulations**"), to ensure stays or overrides of certain termination rights. Such special resolution regimes ("**SRRs**") vary from jurisdiction to jurisdiction, including differences in their respective implementation dates. In the UK, the Prudential Regulation Authority ("**PRA**") has implemented rules (Appendix 1 to the PRA's policy statement 25/15) which require relevant institutions to ensure that the discretion of the PRA to temporarily suspend termination and security interests under the relevant SRR is respected by counterparties. Any applicable Stay Regulations may result in the Issuer not being able to immediately enforce liabilities owed by relevant institutions that are subject to "stays" under SRRs.

The resolution mechanisms under the BRRD correspond closely to those available to the Single Resolution Board (the "**SRB**") and the European Commission under the single resolution mechanism provided for in Regulation (EU) No 806/2014 (the "**SRM Regulation**"). The SRM Regulation applies to

participating Member States (including Member States outside the Euro zone that voluntarily participate through a close co-operation agreement). In such jurisdictions, the SRB will take on many of the functions that would otherwise be assigned to national Resolution Authorities by the BRRD. If a Member State outside the Euro zone has chosen not to participate in the bank single supervisory mechanism, relevant institutions established in such Member State will not be subject to the SRM Regulation, but to the application of the BRRD by the Resolution Authorities. It is possible, on the specific facts of a case, that resolution plans and resolution decisions made by the SRB may differ from the resolution schemes that would have been applied by the Resolution Authorities. Therefore, the way in which a relevant institution is resolved and ultimately, the effect of any such resolution on the Issuer and the Noteholders may vary depending on the authority applying the resolution framework.

2.22 **U.S. Stay Rules Relating to Qualified Financial Contracts**

U.S. regulators have adopted final rules and interpretative guidance setting forth limitations on certain insolvency-related default rights of parties to certain "qualified financial contracts" ("**QFCs**") entered into with counterparties that have been designated as systemically important, along with certain of such entities' subsidiaries and affiliates (each, a "**Covered Entity**"). Such rules and guidance (the "**QFC Stay Rules**") generally require: (i) the Covered Entity to ensure that any stays imposed as a result of the entry of such entity into certain liquidation proceedings are contractually acknowledged by the counterparty to the QFC (in particular, where the relevant QFC is governed by non-U.S. law and/or the counterparty is located in a non-U.S. jurisdiction); and (ii) the Covered Entity to not agree in its QFCs to certain types of cross-defaults that are related, directly or indirectly, to the entry into a receivership, insolvency, liquidation, resolution or similar proceeding of certain affiliates of the Covered Entity. If a Covered Entity enters into a contract with the Issuer that is subject to the QFC Stay Rules, the Covered Entity will be responsible for ensuring that such QFC complies with the QFC Stay Rules. As a result of the application of such rules, the Issuer may be required to accept limitations in its insolvency-related default rights against the Covered Entity.

2.23 **Centre of Main Interests**

The Issuer has its registered office in Ireland. As a result there is a rebuttable presumption that its centre of main interest ("**COMI**") is in Ireland and consequently that any main insolvency proceedings applicable to it would be governed by Irish law. In the decision by the Court of Justice of the European Union ("**CJEU**") in relation to Eurofood IFSC Limited, the CJEU restated the presumption in Council Regulation (EC) No. 1346/2000 of 29 May 2000 on Insolvency Proceedings, that the place of a company's registered office is presumed to be the company's COMI and stated that the presumption can only be rebutted if "factors which are both objective and ascertainable by third parties enable it to be established that an actual situation exists which is different from that which locating it at the registered office is deemed to reflect". As the Issuer has its registered office in Ireland, has Irish Directors, is registered for tax in Ireland and has an Irish corporate services provider, the Issuer does not believe that factors exist that would rebut this presumption, although this would ultimately be a matter for the relevant court to decide, based on the circumstances existing at the time when it was asked to make that decision. If the Issuer's COMI is not located in Ireland, and is held to be in a different jurisdiction within the European Union, main insolvency proceedings may not be opened in Ireland.

Recital 28 to Regulation (EU) No. 2015/848 of the European Parliament and of the Council of 20 May 2015 on insolvency proceedings (the "**Insolvency Regulation**") further indicates that in assessing whether a company's centre of main interests is ascertainable to third parties for these purposes, "special consideration should be given to the creditors and to their perception as to where a debtor conducts the administration of its interests". As the Issuer has its registered office in Ireland, has not moved its registered office from another Member State to Ireland within the three month period prior to a request for the opening of "insolvency proceedings", has an Irish corporate services provider, has Irish directors and is registered for tax in Ireland, the Issuer does not believe that factors exist that would rebut this presumption, although this would ultimately be a matter for the relevant court to decide, based on the

circumstances existing at the time when it was asked to make that decision. If the Issuer's COMI is not located in Ireland, and is held to be in a different jurisdiction within the European Union, main insolvency proceedings may not be opened in Ireland.

Accordingly, pursuant to Article 3 of the Insolvency Regulation and as the Issuer is an Irish incorporated company and has its registered office in Ireland there is a rebuttable presumption that the Issuer's COMI is in Ireland and consequently that any main insolvency proceedings applicable to it would be governed by Irish law.

3. RELATING TO THE NOTES

3.1 Limited Liquidity and Restrictions on Transfer

The Placement Agent (or any of its affiliates) is not under any obligation to make a market for the Notes. The Notes are illiquid investments. There can be no assurance that any secondary market for any of the Notes will develop or, if a secondary market does develop, that it will provide the Noteholders with liquidity of investment or that it will continue for the life of such Notes. Consequently, a purchaser must be prepared to hold such Notes for an indefinite period of time or until the Maturity Date. In addition, no sale, assignment, participation, pledge or transfer of the Notes may be effected if, among other things, it would require any of the Issuer or any of their officers or directors to register under, or otherwise be subject to the provisions of, the Investment Company Act or any other similar legislation or regulatory action. Furthermore, the Notes will not be registered under the Securities Act or any U.S. state securities laws, and the Issuer has no plans, and is under no obligation, to register the Notes under the Securities Act. The Notes are subject to certain transfer restrictions and can be transferred only to certain transferees. See the sections of this Offering Circular titled "*Plan of Distribution*" and "*Transfer Restrictions*". Such restrictions on the transfer of the Notes may further limit their liquidity.

In addition, Class A Notes in the form of CM Removal and Replacement Non-Voting Notes may not be exchanged at any time into CM Removal and Replacement Voting Notes or CM Removal and Replacement Exchangeable Non-Voting Notes and there are restrictions as to the circumstances in which Class A Notes in the form of CM Removal and Replacement Exchangeable Non-Voting Notes may be exchanged for CM Removal and Replacement Voting Notes. Such restrictions on exchange may limit the liquidity of the Class A Notes in the form of CM Removal and Replacement Non-Voting Notes and the CM Removal and Replacement Exchangeable Non-Voting Notes.

3.2 The Notes are not guaranteed by the Issuer, the Placement Agent, the Collateral Manager, the Agents, the Directors, any Hedge Counterparty or the Trustee.

None of the Issuer, the Placement Agent, the Collateral Manager, the Agents, the Directors, any Hedge Counterparty, the Trustee or any Affiliate thereof makes any assurance, guarantee or representation whatsoever as to the expected or projected success, profitability, return, performance, result, effect, consequence or benefit (including legal, regulatory, tax, financial, accounting or otherwise) to any Noteholder of ownership of the Notes, and no Noteholder may rely on any such party for a determination of expected or projected success, profitability, return, performance, result, effect, consequence or benefit (including legal, regulatory, tax, financial, accounting or otherwise) to any investor of ownership of the Notes. Each Noteholder will be required to represent (or, in the case of certain non-certificated Notes, deemed to represent) to the Issuer and the Placement Agent, among other things, that it has consulted with its own legal, regulatory, tax, business, investment, financial, and accounting advisors regarding investment in the Notes as it has deemed necessary and that the investment by it is within its powers and authority, is permissible under applicable laws governing such purchase, has been duly authorised by it and complies with applicable securities laws and other laws.

3.3 Optional Redemption and Market Volatility

The market value of the Collateral Debt Obligations may fluctuate, with, among other things, changes in prevailing interest rates, foreign exchange rates, general economic conditions, the conditions of financial markets (particularly the markets for senior and mezzanine loans and bonds and high yield bonds),

European and international political events, events in the home countries of the issuers of the Collateral Debt Obligations or the countries in which their assets and operations are based, developments or trends in any particular industry and the financial condition of such issuers. The secondary market for senior and mezzanine loans and high yield bonds is still limited. A decrease in the market value of the Portfolio would adversely affect the amount of proceeds which could be realised upon liquidation of the Portfolio and ultimately the ability of the Issuer to redeem the Notes.

A form of liquidity for the Subordinated Notes is the optional redemption provision set out in Condition 7(b) (*Optional Redemption*). There can be no assurance, however, that such optional redemption provision will be capable of being exercised in accordance with the conditions set out in Condition 7(b) (*Optional Redemption*) which may in some cases require a determination that the amount realisable from the Portfolio in such circumstances is greater than the aggregate of all amounts which would be due and payable on redemption of the Rated Notes and to the other creditors of the Issuer pursuant to Condition 11(b) (*Enforcement*) which rank in priority to payments in respect of the Subordinated Notes in accordance with the Priorities of Payment.

3.4 **The Notes are Subject to Optional Redemption in Whole or in Part by Class (or by tranche in relation to the Class B Notes)**

The Rated Notes may be redeemed in whole from Sale Proceeds and/or Refinancing Proceeds (or a combination thereof):

- (a) on any date on or after the expiry of the Non-Call Period, either (x) at the direction of the Subordinated Noteholders acting by way of Ordinary Resolution, (provided that such redemption shall not be effected without the consent of the Retention Holder in the case of any redemption to be effected wholly or partly with Refinancing Proceeds if the Retention Holder gives written notice to the Trustee and the Issuer (which notice the Issuer will promptly transmit to the Subordinated Noteholders) that it has determined in good faith that such redemption could cause the Retention Holder to fail to be in compliance with the EU Retention Requirements or the U.S. Risk Retention Rules), or (y) at the written direction of the Collateral Manager (provided the Subordinated Noteholders have not, acting independently by Ordinary Resolution, objected to such redemption within 10 Business Days of notice of such redemption being given to Noteholders in accordance with Condition 16 (*Notices*));
- (b) on any Business Day following the occurrence of a Collateral Tax Event at the direction of the Subordinated Noteholders acting by Ordinary Resolution; or
- (c) on any Business Day following the occurrence of a Note Tax Event at the direction of the Controlling Class or the Subordinated Noteholders, each acting by way of Ordinary Resolution,

in each case subject to certain requirements and conditions set out in the Conditions. See Condition 7 (*Redemption and Purchase*). Investors should carefully review the circumstances and requirements set out in Condition 7 (*Redemption and Purchase*).

Noteholders should note that amendments as may be contemplated to facilitate or in connection with an Optional Redemption in whole or in part by way of a Refinancing may be effected by way of Ordinary Resolution and, as such, fundamental amendments including, but not limited to, an extension of the Reinvestment Period and/or Maturity Date may be effected with the approval of a simple majority of each relevant Class of Noteholders. Noteholders should further note that any amendment made contemporaneously with an Optional Redemption in whole or in part by way of a Refinancing may be effected by way of Ordinary Resolution and, as such, fundamental amendments including, but not limited to, an extension of the Reinvestment Period and/or Maturity Date may be effected with the approval of a simple majority of each relevant Class of Noteholders. Noteholders should note that to the extent that the Subordinated Noteholders are to vote on a matter which would otherwise require an Extraordinary

Resolution as described above, such matter may be approved by the Subordinated Noteholders acting by Ordinary Resolution only and, as such fundamental amendments including, but not limited to, an extension of the Reinvestment Period and/or Maturity Date may be effected by the Subordinated Noteholders acting by Ordinary Resolution (without prejudice to any Extraordinary Resolution of the relevant Class(es) of Rated Notes which may also be requested).

As described in Condition 7(b)(v) (*Optional Redemption effected in whole or in part through Refinancing*) subject to certain conditions at the option of the Subordinated Noteholders or the Collateral Manager, as the case may be, Refinancing Proceeds may be used in connection with either a redemption in whole of the Rated Notes or a redemption in part of the Rated Notes by Class. It should be noted that a Refinancing or the issuance of additional Notes will trigger the U.S. Risk Retention Rules (to the extent they are applicable to the transaction following the Issue Date). As such, the ability of the Issuer and the Noteholders to issue additional notes or enter into a Refinancing may be impacted. See 2.2 "**U.S. Risk Retention Rules**".

As described in Condition 7(b)(vi) (*Optional Redemption effected through Regulatory Refinancing*), the Issuer may, on any Business Day (including any time during the Non-Call Period) at the written direction of the Collateral Manager, in order to avoid the Collateral Manager failing to be in compliance with the Retention Requirements and provided that certain conditions are met (as further described in Condition 7(b)(vi) (*Optional Redemption effected through Regulatory Refinancing*)), redeem in part on a pro rata basis the Specified Percentage of each Class of Notes (or tranche, as applicable).

Prospective investors in the Subordinated Notes should note that their ability to direct or elect for optional redemption of the Rated Notes (in whole or in part by Class) in the above circumstances is subject to the consent of the Retention Holder if the Retention Holder gives written notice to the Trustee and the Issuer (which notice the Issuer will promptly transmit to the Subordinated Noteholders) that it has determined in good faith that such Refinancing could cause the Retention Holder to fail to be in compliance with the EU Retention Requirements or the U.S. Risk Retention Rules.

The Trust Deed provides that the holders of the Subordinated Notes will not have any cause of action against any of the Issuer, the Collateral Manager, the Placement Agent, the Collateral Administrator or the Trustee for any failure to obtain a Refinancing. If a Refinancing is obtained meeting the requirements of the Trust Deed, the Issuer may amend the Trust Deed and the Trustee shall concur with such amendments to the Trust Deed to the extent the Issuer certifies to the Trustee that such amendments are necessary to reflect the terms of the Refinancing and no further consent for such amendments shall be required from the holders of the Subordinated Notes. No assurance can be given that any such amendments to the Trust Deed or the terms of any Refinancing will not adversely affect the holders of any Class or Classes of Notes not subject to redemption (or, in the case of the Subordinated Notes, the holders of the Subordinated Notes who do not direct such redemption).

The Subordinated Notes may also be redeemed at their Redemption Price, in whole but not in part, on any Business Day on or after the redemption or repayment in full of the Rated Notes, at the direction of either of (x) the Subordinated Noteholders (acting by Ordinary Resolution) or (y) the Collateral Manager (on behalf of the Issuer).

The Collateral Manager may also cause the Issuer to redeem the Rated Notes in whole from Sale Proceeds on any Business Day falling on or after the expiry of the Non-Call Period, if, upon or at any time following the expiry of the Non-Call Period, the Aggregate Collateral Balance is less than 20 per cent. of the Target Par Amount.

If there is an early redemption, the holders of the Notes will be repaid prior to the Maturity Date. Where the Notes are to be redeemed by liquidation, there can be no assurance that the Sale Proceeds realised and other available funds would permit any distribution on the Subordinated Notes after all required payments are made to the holders of the Rated Notes or, in certain circumstances, that losses would not

be incurred on the Rated Notes. In addition, an Optional Redemption could require the Collateral Manager to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the realised value of the Collateral Debt Obligations sold.

Where the Rated Notes are redeemable at the discretion of a transaction party or a particular Class of Noteholders, there is no obligation to consider the interests of any other party or Class of Noteholders when exercising such discretion. Furthermore, where one or more Classes of Rated Notes are redeemed through a Refinancing, Noteholders should be aware that any such redemption would occur outside of the Note Payment Sequence and the Priorities of Payment. In addition Noteholders of a Class of Rated Notes that are redeemed through a Refinancing should be aware that the Applicable Margin of any new notes will be equal to or lower than the Applicable Margin of such Rated Notes immediately prior to such Refinancing.

3.5 The Notes are Subject to Special Redemption at the Option of the Collateral Manager

The Notes will be subject to redemption in part by the Issuer on any Payment Date during the Reinvestment Period if the Collateral Manager (acting on behalf of the Issuer) notifies the Trustee that using reasonable endeavours it has been unable, for a period of at least 20 consecutive Business Days, to identify additional Collateral Debt Obligations that are deemed appropriate by the Collateral Manager (acting on behalf of the Issuer) in its sole discretion and which would meet the Eligibility Criteria or, to the extent applicable, the Reinvestment Criteria, in sufficient amounts to permit the investment or reinvestment of all or a portion of the funds then in the Principal Account to be invested in additional Collateral Debt Obligations. On the Special Redemption Date, the Special Redemption Amount will be applied in accordance with the Priorities of Payment. The application of funds in that manner could result in an elimination, deferral or reduction of amounts available to make payments with respect to the Subordinated Notes.

3.6 Mandatory Redemption of the Notes

Certain mandatory redemption arrangements may result in an elimination, deferral or reduction in the interest payments or principal repayments made to the Class X Noteholders, the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders and the Class F Noteholders or the level of the returns to the Subordinated Noteholders, including the breach of any of the Coverage Tests or an Effective Date Rating Event. See Condition 7(c) (*Mandatory Redemption upon Breach of Coverage Tests*) and Condition 7(e) (*Redemption upon Effective Date Rating Event*).

3.7 The Reinvestment Period may Terminate Early

The Reinvestment Period may terminate early if any of the following occur: (a) acceleration following an Event of Default or (b) the Collateral Manager notifies the Issuer that it is unable to invest in additional Collateral Debt Obligations in accordance with the Collateral Management Agreement. Early termination of the Reinvestment Period could adversely affect returns to the Subordinated Noteholders and may also cause the holders of Rated Notes to receive principal payments earlier than anticipated.

3.8 The Collateral Manager May Reinvest After the End of the Reinvestment Period

After the end of the Reinvestment Period, the Collateral Manager may continue to reinvest Unscheduled Principal Proceeds received in respect of Collateral Debt Obligations and the Sale Proceeds from the sale of Credit Impaired Obligations and Credit Improved Obligations, subject to certain conditions set forth in the Collateral Management Agreement. See the section of this Offering Circular titled "*The Portfolio — Following the Expiry of the Reinvestment Period*". Reinvestment of Unscheduled Principal Proceeds and Sale Proceeds from the sale of Credit Impaired Obligations and Credit Improved Obligations will likely have the effect of extending the Weighted Average Life of the Collateral Debt Obligations and the average lives of the Notes.

3.9 **Actions May Prevent the Failure of Coverage Tests and an Event of Default**

Additional Issuances

At any time during the Reinvestment Period, subject to certain conditions set out in Condition 17 (*Additional Issuances*), the Issuer may issue and sell additional Notes (other than the Class X Notes) and use the net proceeds to acquire Collateral Debt Obligations and, if applicable, enter into additional Hedge Transactions in connection with the Issuer's issuance of, and making payments on, the Notes and ownership of and disposition of the Collateral Debt Obligations. See Condition 17 (*Additional Issuances*).

Redirection of Funds to Reinvestment

The Collateral Manager may, pursuant to the Priorities of Payment, redirect funds (including by deferring or waiving payment of some or all of its Collateral Management Fees) to be applied toward the acquisition of additional Collateral Debt Obligations or other Permitted Uses.

Collateral Manager Advances

The Collateral Manager may make Collateral Manager Advances pursuant to Condition 3(k) (*Collateral Manager Advances*) from time to time to the extent there are insufficient sums standing to the credit of the Collateral Enhancement Account to purchase or exercise rights under Collateral Enhancement Obligations which the Collateral Manager determines on behalf of the Issuer should be purchased or exercised. Outstanding Collateral Manager Advances may accrue interest at a maximum rate of EURIBOR plus 2.0 per cent. per annum. The aggregate amount outstanding of all Collateral Manager Advances may not, at any time, exceed €5,000,000 or such greater number as the Subordinated Noteholders and Controlling Class may approve, in each case, acting by way of an Ordinary Resolution. In addition, the Collateral Manager is limited to making not more than 3 Collateral Manager Advances, each such Collateral Manager Advance shall be in an amount not less than €1,000,000 and the making of any Collateral Manager Advance shall be subject to the condition that each Par Value Test will be satisfied immediately after giving effect to any such Collateral Manager Advance.

Any of the above actions could result in satisfaction of a Coverage Test that would otherwise be failing and therefore potentially decrease the occurrence of principal prepayments of the highest ranking Class of Notes. Likewise, any such action could prevent an Event of Default which would otherwise have occurred and therefore potentially result in the Notes continuing to be outstanding in circumstances where the Controlling Class may otherwise have had the right to direct the Trustee to accelerate the Notes. Consequentially, the average life of the Notes may be longer than it would otherwise be (see 3.17 "*Average Life and Prepayment Considerations*").

3.10 **Limited Recourse Obligations**

The Notes are limited recourse obligations of the Issuer and are payable solely from amounts received in respect of the Collateral securing the Notes. Payments on the Notes both prior to and following enforcement of the security over the Collateral are subordinated to the prior payment of certain fees and expenses of, or payable by, the Issuer and to payment of principal and interest on prior ranking Classes of Notes. See Condition 4(c) (*Limited Recourse and Non-Petition*). None of the Collateral Manager, the Noteholders of any Class, the Placement Agent, the Retention Holder, the Trustee, the Corporate Services Provider, the Collateral Administrator, the Custodian, any Agent, any Hedge Counterparty or any Affiliates of any of the foregoing or the Issuer's Affiliates or any other person or entity (other than the Issuer) will be obliged to make payments on the Notes of any Class. Consequently, Noteholders must rely solely on distributions on the Collateral Debt Obligations and other Collateral securing the Notes for the payment of principal, discount, interest and premium, if any, thereon. There can be no assurance that the distributions on the Collateral Debt Obligations and other Collateral securing the Notes will be

sufficient to make payments on any Class of Notes after making payments on more senior Classes of Notes and certain other required amounts to other creditors ranking senior to or *pari passu* with such Class pursuant to the Priorities of Payment. If distributions on the Collateral are insufficient to make payments on the Notes, no other assets (and, in particular, no assets of the Collateral Manager, the Noteholders, the Placement Agent, the Retention Holder, the Trustee, the Corporate Services Provider, the Collateral Administrator, the Custodian, any Agent, any Hedge Counterparty or any Affiliates of any of the foregoing) will be available for payment of the deficiency and following realisation of the Collateral and the application of the proceeds thereof in accordance with the Priorities of Payment, the debts, liabilities and obligations of the Issuer to pay such deficiency shall be extinguished. Such shortfall will be borne (as amongst the Noteholders) by (a) firstly, the Subordinated Noteholders; (b) secondly, the Class F Noteholders; (c) thirdly, the Class E Noteholders; (d) fourthly, the Class D Noteholders; (e) fifthly, the Class C Noteholders; and (f) sixthly, the Class B Noteholders; and (g) lastly, the Class A Noteholders and the Class X Noteholders, in each case in accordance with the Priorities of Payment.

In addition, at any time while the Notes are Outstanding, none of the Noteholders, the Trustee or any other Secured Party (or any other person acting on behalf of any of them) shall be entitled at any time to institute against the Issuer, or join in any institution against the Issuer of any bankruptcy, reorganisation, arrangement, examinership, insolvency, winding up or liquidation proceedings or other proceedings under any applicable bankruptcy or similar law in connection with any debts, liabilities and obligations of the Issuer relating to the Notes, the Trust Deed or otherwise owed to the Noteholders, save for lodging a claim in the liquidation of the Issuer which is initiated by another party (which is not an Affiliate of such party) or taking proceedings to obtain a declaration as to the obligations of the Issuer nor shall any of them have a claim arising in respect of the share capital of the Issuer. These limited recourse provisions shall survive the termination of the Notes.

3.11 **Failure of a Court to Enforce Non-Petition Obligations will Adversely Affect Noteholders**

Each Noteholder will agree, and each beneficial owner of Notes will be deemed to agree, pursuant to the Trust Deed, that it will be subject to non-petition covenants. If such provision failed to be enforceable under applicable bankruptcy laws, and a winding-up (or similar) petition was presented in respect of the Issuer, then the presentation of such a petition could (subject to certain conditions) result in one or more payments on the Notes made during the period prior to such presentation being deemed to be preferential transfers subject to avoidance by the bankruptcy trustee or similar official exercising authority with respect to the Issuer's bankruptcy estate. It could also result in the bankruptcy court, trustee or receiver liquidating the assets of the Issuer without regard to any votes or directions required for such liquidation pursuant to the Trust Deed and could result in any payments under the Notes made during the period prior to such presentation being deemed to be a fraudulent or improper disposition of the Issuer's assets.

3.12 **Subordination of the Notes**

Except as described below, the Class B Notes are fully subordinated to the Class X Notes and the Class A Notes, the Class C Notes are fully subordinated to the Class X Notes, the Class A Notes and the Class B Notes, the Class D Notes are fully subordinated to the Class X Notes, the Class A Notes, the Class B Notes and the Class C Notes, the Class E Notes are fully subordinated to the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, the Class F Notes are fully subordinated to the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, and the Subordinated Notes are fully subordinated to the Rated Notes.

Except as described below, the payment of principal and interest on any other Classes of Notes may not be made until all payments of principal and interest due and payable on any Classes of Notes ranking in priority thereto pursuant to the Priorities of Payment have been made in full. Payments on the Subordinated Notes will be made by the Issuer to the extent of available funds and no payments thereon will be made until the payment of certain fees and expenses have been made and until interest on the Rated Notes has been paid and, subject always to the right of the Collateral Manager on behalf of the

Issuer to transfer amounts which would have been payable on the Subordinated Notes to the Collateral Enhancement Account to be applied for a Permitted Use, the requirement to transfer amounts to the Principal Account if the Reinvestment Overcollateralisation Test is not met during the Reinvestment Period and the right of the Collateral Manager on behalf of the Issuer to transfer amounts which would have been payable on the Subordinated Notes to the Collateral Enhancement Account or the Principal Account if the Principal Transfer Test has been satisfied at any time following the expiry of the Non-Call Period. Notwithstanding the above, Collateral Enhancement Obligation Proceeds may be distributed to the Subordinated Noteholders from the Collateral Enhancement Account provided the conditions for such distribution are satisfied.

Non payment of any Interest Amount due and payable in respect of the Class X Notes, the Class A Notes or the Class B Notes on any Payment Date will constitute an Event of Default (where such non-payment continues for a period of at least five Business Days or seven Business Days in the case of an administrative error or omission and except as the result of any deduction therefrom or the imposition of any withholding thereon as set out in Condition 9 (*Taxation*)). In such circumstances, the Controlling Class, which in these circumstances will be the Class A Noteholders or, following redemption in full of the Class A Notes, the Class B Noteholders, acting by Extraordinary Resolution, may request the Trustee to accelerate the Notes pursuant to Condition 10 (*Events of Default*). Failure to pay scheduled interest on the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes (as applicable), or to pay interest and principal on the Subordinated Notes at any time due to there being insufficient funds available to pay such interest and/or principal (as applicable) in accordance with the applicable Priorities of Payment, will not be an Event of Default. Holders of such Classes of Notes will consequently have no right to accelerate their Notes or to direct that the Trustee take enforcement action with respect to the Collateral to recover such outstanding interest on or the principal amount of their Notes outstanding in such circumstances.

If any acceleration of the Class X Notes or the Class A Notes occurs, the Class B Notes (and, following redemption in full of the Class A Notes, if any acceleration of the Class B Notes occurs), the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Subordinated Notes will also be subject to automatic redemption and/or acceleration and the Collateral will, in each case, be liquidated. Liquidation of the Collateral at such time or remedies pursued by the Trustee upon enforcement of the security over the Collateral could be adverse to the interests of the Class X Noteholders, the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders or the Subordinated Noteholders, as the case may be. To the extent that any losses are incurred by the Issuer in respect of any Collateral, such losses will be borne first by the Subordinated Noteholders, then by the Class F Noteholders, then by the Class E Noteholders, then by the Class D Noteholders, then by the Class C Noteholders, then by the Class B Noteholders and, finally, by Class X Noteholders and the Class A Noteholders. Remedies pursued on behalf of the Class X Noteholders and the Class A Noteholders could be adverse to the interests of the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders. Remedies pursued on behalf of the Class B Noteholders could be adverse to the interests of the Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders. Remedies pursued on behalf of the Class C Noteholders could be adverse to the interests of the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders. Remedies pursued on behalf of the Class D Noteholders could be adverse to the interests of, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders. Remedies pursued on behalf of the Class E Noteholders could be adverse to the interests of the Class F Noteholders and the Subordinated Noteholders. Remedies pursued on behalf of the Class F Noteholders could be adverse to the interests of the Subordinated Noteholders.

The Trust Deed provides that in the event of any conflict of interest among or between the Noteholders, the interests of the Controlling Class will prevail. If the holders of the Controlling Class do not have an interest in the outcome of the conflict, the Trustee shall give priority to the interests of the most senior

Class of Notes then Outstanding that have an interest in the outcome of the conflict. If the Trustee receives conflicting or inconsistent requests from two or more groups of holders of the Controlling Class (or another Class is given priority as described in this paragraph), the Trustee shall give priority to the group which holds the greater amount of Notes Outstanding of such Class. The Trust Deed provides further that the Trustee will act upon the directions of the holders of the Controlling Class (or other Class given priority as described in this paragraph) in such circumstances, and shall not be obliged to consider the interests of the holders of any other Class of Notes. See Condition 14(e) (*Entitlement of the Trustee and Conflicts of Interest*).

Notwithstanding the foregoing, pursuant to Condition 17(c) (*Additional Issuances*), the Issuer may at any time during the Reinvestment Period, subject to the approval of the Subordinated Noteholders acting by Ordinary Resolution and subject to the separate approval in writing of the Collateral Manager, issue one or more new classes of Notes that are subordinate in the payment of interest and principal to the most junior Class of Notes then Outstanding (other than the Subordinated Notes).

3.13 **Calculation of Rate of Interest**

If the relevant EURIBOR screen rate does not appear, or the relevant page is unavailable, in the manner described in Condition 6(e)(i) (*Floating Rate of Interest*) there can be no guarantee that the Calculation Agent will be able to select four Reference Banks to provide quotations, in order to determine any floating rate of Interest in respect of the Notes. Certain financial institutions that have historically acted as Reference Banks have indicated that they will not currently provide quotations and there can be no assurance that they will agree to do so in the future. No Reference Banks have been selected as at the date of this Offering Circular.

If a EURIBOR screen rate does not appear, or the relevant page is unavailable, and the Calculation Agent is unable to obtain quotations from four Reference Banks in the manner described in Condition 6(e)(i)(B) (*Floating Rate of Interest*), the relevant Rate of Interest in respect of such Payment Date shall be determined pursuant to Condition 6(e)(i)(C) (*Floating Rate of Interest*). Pursuant to Condition 6(e)(i)(C) (*Floating Rate of Interest*) if, one only or none of the Reference Banks provides such quotations, the Collateral Manager may (but is not obliged to) propose a Collateral Manager Alternative Quotations (subject to the consent of the Controlling Class (acting by way of Ordinary Resolution) (and no other Class of Notes) for the next Accrual Period or the Controlling Class may propose a Controlling Class Alternative Quotations for the next Accrual Period (subject to the consent of the Collateral Manager) as more particularly described in Condition 6(e)(i)(C) (*Floating Rate of Interest*). If no Collateral Manager Alternative Quotations or Controlling Class Alternative Quotations are proposed by the Collateral Manager or the Controlling Class (as applicable) or no agreement is reached as between the Collateral Manager and the Controlling Class, then the relevant Rate of Interest in respect of such Payment Date shall be the Rate of Interest in effect as at the immediately preceding Accrual Period; provided that, in respect of any Accrual Period during which a Frequency Switch Event occurs, the relevant Rate of Interest shall be calculated using the offered rate for six month Euro deposits using the rate available as at the previous Interest Determination Date. To the extent interest amounts in respect of the Notes are determined by reference to a previously calculated rate, Noteholders may be adversely affected. In such circumstances, neither the Calculation Agent nor the Trustee shall have any obligation to determine the Rate of Interest on any other basis. Noteholders should note that, in consenting to a Collateral Manager Alternative Quotations or proposing a Controlling Class Alternative Quotations, the Controlling Class shall not be obliged to consider the interests of the holders of any other Class of Notes.

3.14 **Amount and Timing of Payments**

To the extent that interest payments on the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes are not made on a relevant Payment Date, such unpaid interest amounts will be deferred and the amount thereof added to the principal amount Outstanding of the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes as the case may be, and earn interest at the interest rate

applicable to such Notes. Any failure to pay scheduled interest on the Class C Notes, the Class D Notes, the Class E Notes, or the Class F Notes (as applicable) (save in the case of an administrative error or omission only, where such failure continues for a period of at least seven Business Days and except as the result of any deduction therefrom or the imposition of any withholding thereon as set out in Condition 9 (*Taxation*), constitute an Event of Default), or to pay interest and principal on the Subordinated Notes at any time, due to there being insufficient funds available to pay such interest and/or principal (as applicable) in accordance with the applicable Priorities of Payment, will not be an Event of Default. Payments of interest and principal on the Subordinated Notes will only be made to the extent that there are Interest Proceeds and Principal Proceeds available for such purpose in accordance with the Priorities of Payment. No interest or principal may therefore be payable on the Subordinated Notes for an unlimited period of time, to maturity or at all.

Investment in the Notes of any Class involves a degree of risk arising from fluctuations in the amount and timing of receipt of the principal and interest on the Collateral Debt Obligations by or on behalf of the Issuer and the amounts of the claims of creditors of the Issuer ranking in priority to the holders of each Class of the Notes. In particular, prospective purchasers of such Notes should be aware that the amount and timing of payment of the principal and interest on the Collateral Debt Obligations will depend upon the detailed terms of the documentation relating to each of the Collateral Debt Obligations and on whether or not any Obligor thereunder defaults in its obligations.

3.15 Reports Provided by the Collateral Administrator Will Not Be Audited

The Monthly Reports, Payment Date Reports, Investor Reports and Portfolio Reports made available to Noteholders will be compiled by the Collateral Administrator, on behalf of the Issuer, based on certain information provided to it by the Collateral Manager. Noteholders may access these reports by way of a unique password obtained from the Collateral Administrator (or as may otherwise be permitted by the Collateral Manager). In preparing and furnishing these reports, the Issuer will rely conclusively on the accuracy and completeness of the information or data regarding the Collateral Debt Obligations that has been provided to it by the Collateral Administrator (which will rely conclusively, in turn, on the accuracy and completeness of certain information provided to it by the Collateral Manager), and the Issuer will not verify, recompute, reconcile or recalculate any such information or data. Information in the reports will not be audited nor will reports include a review or opinion by a public accounting firm.

3.16 Ratings of the Notes Not Assured and Limited in Scope

A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal by any Rating Agency at any time. Credit ratings represent a rating agency's opinion regarding the credit quality of an asset but are not a guarantee of such quality. There is no assurance that a rating accorded to any of the Rated Notes will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by a Rating Agency if, in its judgement, circumstances in the future so warrant. If a rating initially assigned to any of the Rated Notes is subsequently lowered for any reason, no person or entity is required to provide any additional support or credit enhancement with respect to any such Rated Notes and the market value of such Rated Notes is likely to be adversely affected.

Prospective investors in the Notes should be aware that as a result of the recent economic events, Rating Agencies have undertaken extensive reviews of their rating methodology and criteria used to rate notes issued as part of CLO transactions. This could impact on the ratings assigned to the Notes after the Issue Date and potentially result in the downgrade or withdrawal thereof following the Issue Date.

The Rating Agencies may change their published ratings criteria or methodologies for securities such as the Rated Notes at any time in the future. Further, the Rating Agencies may retroactively apply any new standards to the ratings of the Rated Notes. Any such action could result in a substantial lowering (or even withdrawal) of any rating assigned to any Rated Note, despite the fact that such Rated Note might

still be performing fully to the specifications set forth for such Rated Note in this Offering Circular and the Transaction Documents. The rating assigned to any Rated Note may also be lowered following the occurrence of an event or circumstance despite the fact that the related Rating Agency previously provided confirmation that such occurrence would not result in the rating of such Rated Note being lowered. Additionally, any Rating Agency may, at any time and without any change in its published ratings criteria or methodology, lower or withdraw any rating assigned by it to any Class of Rated Notes. If any rating initially assigned to any Rated Note is subsequently lowered or withdrawn for any reason, Noteholders may not be able to resell their Notes without a substantial discount. Any reduction or withdrawal to the ratings on any Class of Rated Notes may significantly reduce the liquidity of the Notes and may adversely affect the Issuer's ability to make certain changes to the composition of the Collateral Debt Obligations. See the sections of this Offering Circular titled "*The Portfolio*" and "*Ratings of the Notes*").

As at the date of this Offering Circular, each of the Rating Agencies is established in the European Union and is registered under CRA3. As such each Rating Agency is included in the list of credit rating agencies published by ESMA on its website in accordance with CRA3. ESMA may determine that one or both of the Rating Agencies no longer qualifies for registration under CRA3 and that determination may also have an adverse effect on the market prices and liquidity of the Rated Notes.

Rating Agencies may refuse to give Rating Agency Confirmations

Historically, many actions by issuers of collateralised loan obligation vehicles (including but not limited to issuing additional securities and amending relevant agreements) have been conditioned on receipt of confirmation from the applicable rating agencies that such action would not cause the ratings on the applicable securities to be reduced or withdrawn. Recently, certain rating agencies have changed the manner and the circumstances under which they are willing to provide such confirmation and have indicated reluctance to provide confirmation in the future, regardless of the requirements of the Trust Deed and the other Transaction Documents. If the Transaction Documents require that written confirmation from a Rating Agency be obtained before certain actions may be taken and an applicable Rating Agency is unwilling to provide the required confirmation, it may be impossible to effect such action, which could result in losses being realised by the Issuer and, indirectly, by Noteholders.

If a Rating Agency announces or informs the Trustee, the Collateral Manager or the Issuer that confirmation from such Rating Agency is not required for a certain action or that its practice is to not give such confirmations for certain types of actions, the requirement for confirmation from such Rating Agency will not apply. Further, in connection with the Effective Date, if an Effective Date Rating Event shall have occurred, the applicable Rated Notes will be subject to redemption in part in an amount and in the manner described under Condition 7(e) (*Redemption upon Effective Date Rating Event*). There can be no assurance that a Rating Agency will provide such rating confirmations upon request, regardless of the terms agreed to among transaction participants, or not subsequently withdraw or downgrade its ratings on one or more Classes of Rated Notes, which could materially adversely affect the value or liquidity of the Rated Notes.

Requirements imposed on Rating Agencies could result in Withdrawal of Ratings if Certain Actions are not Taken by the Issuer

On 2 June 2010, certain amendments to Rule 17g-5 under the Exchange Act promulgated by the SEC became effective. Amended Rule 17g-5 requires each rating agency providing a rating of a structured finance product (such as this transaction) paid for by the "arranger" (defined as the issuer, the underwriter or the sponsor) to obtain an undertaking from the arranger to (i) create a password protected website, (ii) post on that website all information provided to the rating agency in connection with the initial rating of any Class of Rated Notes and all information provided to the rating agency in connection with the surveillance of such rating, in each case, contemporaneous with the provision of such information to the applicable rating agency and (iii) provide access to such website to other rating agencies that have made

certain certifications to the arranger regarding their use of the information. In this transaction, the "arranger" is the Issuer.

Each Rating Agency must be able to reasonably rely on the arranger's certifications. If the arranger does not comply with its undertakings to any Rating Agency with respect to this transaction, such Rating Agency may withdraw its ratings of the Rated Notes. In such case, the withdrawal of ratings by any Rating Agency may adversely affect the price or transferability of the Rated Notes and may adversely affect any beneficial owner that relies on ratings of securities for regulatory or other compliance purposes.

Under Rule 17g-5, rating agencies providing the requisite certifications described above may issue unsolicited ratings of the Rated Notes ("**Unsolicited Ratings**") which may be lower and, in some cases, significantly lower than the ratings provided by the Rating Agencies. The Unsolicited Ratings may be issued prior to, on or after the Issue Date and will not be reflected herein. Issuance of any Unsolicited Rating will not affect the issuance of the Notes. Issuance of an Unsolicited Rating lower than the ratings assigned by the Rating Agencies on the applicable Rated Notes might adversely affect the liquidity and market value of the Rated Notes and, for regulated entities, could adversely affect the value of the Rated Notes as an investment or the capital treatment of the Rated Notes. The Issuer, the Collateral Manager, the Placement Agent, the Trustee and each of their respective Affiliates are not obliged to take any action following the publication or announcement of any such Unsolicited Ratings.

The SEC may determine that one or both of the Rating Agencies no longer qualifies as a nationally recognised statistical rating organisation for purposes of the federal securities laws and that determination may also have an adverse effect on the liquidity and market value of the Rated Notes.

Actions of any Rating Agency can Adversely Affect the Market Value or Liquidity of the Notes

The SEC adopted Rule 15Ga-2 and Rule 17g-10 to the United States Securities Exchange Act of 1934, on 27 August 2014, which require certain filings or certifications to be made in connection with the performance of "due diligence services" for rated asset-backed securities on or after 15 June 2015. Under Rule 17g-10, a provider of third-party due diligence services must provide to each nationally recognised statistical rating organisation that is rating the applicable transaction, a written certification in a prescribed form (which obligation may be satisfied if the Issuer posts such certification in the required form to the Rule 17g-5 website referred to above, maintained in connection with the transaction). In connection with the Effective Date, the Collateral Management Agreement requires an accountant's agreed upon procedures report to be delivered to the Issuer and the Collateral Manager, and portions of this report may constitute "due diligence services" under Rule 17g-10. Although the Issuer has agreed to post any certification in the required form that it receives in respect of such portion of such report to the Rule 17g-5 website, it is unclear what, if any, other services provided or to be provided by third parties to the Issuer in connection with the transaction described in this Offering Circular, would constitute "due diligence services" under Rule 17g-10. Consequently, no assurance can be given as to whether any certification will be posted by the Issuer or delivered by any applicable third party service provider to the Rating Agencies in circumstances where such certification is deemed to have been required under the rules. If the Issuer or any third party that provides due diligence services to the Issuer does not comply with its obligations under Rule 17g-10, the Rating Agencies may withdraw (or fail to confirm) their ratings of the Rated Notes. In such case, the price or transferability of the Notes (and any beneficial owner of Rated Notes that relies on ratings of securities for regulatory or other compliance purposes) may be adversely affected.

3.17 Average Life and Prepayment Considerations

The Maturity Date of the Notes is the Payment Date falling on 15 January 2034 (subject to adjustment for non-Business Days); however, the principal of the Notes of each Class is expected to be repaid in full prior to the Maturity Date. Average life refers to the average amount of time that will elapse from the

date of delivery of a Note until each Euro of the principal of such Note will be paid to the investor. The average lives of the Notes will be determined by the amount and frequency of principal payments, which are dependent upon, among other things, the amount of payments received at or in advance of the scheduled maturity of the Collateral Debt Obligations (whether through sale, maturity, redemption, default or other liquidation or disposition). The actual average lives and actual maturities of the Notes will be affected by the financial condition of the obligors of the underlying Collateral Debt Obligations and the characteristics of such assets, including the existence and frequency of exercise of any optional or mandatory redemption features, the prevailing level of interest rates, the redemption price, any prepayment fees, the actual default rate, the actual level of recoveries on any Defaulted Obligations and the timing of defaults and recoveries, and the frequency of tender or exchange offers for such Collateral Debt Obligations. Collateral Debt Obligations may be subject to optional prepayment by the Obligor of such loans. Any disposition of a Collateral Debt Obligation may change the composition and characteristics of the remaining Portfolio and the rate of payment thereon and, accordingly, may affect the actual average lives of the Notes. The rate of and timing of future defaults and the amount and timing of any cash realisation from Defaulted Obligations also will affect the maturity and average lives of the Notes.

3.18 Projections, Forecasts and Estimates are Forward Looking Statements and are Inherently Uncertain

Estimates of the average lives of the Notes, together with any projections, forecasts and estimates provided to prospective purchasers of the Notes, are forward-looking statements. Projections are necessarily speculative in nature, and it should be expected that some or all of the assumptions underlying the projections will not materialise or will vary significantly from actual results. Accordingly, actual results will vary from the projections, and such variations may be material. Some important factors that could cause actual results to differ materially from those in any forward-looking statements include changes in interest rates, exchange rates and default and recovery rates; market, financial or legal uncertainties; the timing of acquisitions of Collateral Debt Obligations; differences in the actual allocation of Collateral Debt Obligations among asset categories from those assumed; mismatches between the time of accrual and receipt of Interest Proceeds from the Collateral Debt Obligations. None of the Issuer, the Collateral Manager, the Trustee, the Placement Agent, the Collateral Administrator or any other party to this transaction or any of their respective Affiliates has any obligation to update or otherwise revise any projections, forecasts or estimates, including any revisions to reflect changes in economic conditions or other circumstances arising after the date of this Offering Circular or to reflect the occurrence of unanticipated events.

3.19 Volatility of the Subordinated Notes

The Subordinated Notes represent a leveraged investment in the underlying Collateral Debt Obligations. Accordingly, it is expected that changes in the market value of the Subordinated Notes will be greater than changes in the market value of the underlying Collateral Debt Obligations, which themselves are subject to credit, liquidity, interest rate and other risks. Utilisation of leverage is a speculative investment technique and involves certain risks to investors and will generally magnify the Subordinated Noteholders' opportunities for gain and risk of loss. In certain scenarios, the Notes may not be paid in full, and the Subordinated Notes and one or more Classes of Rated Notes may be subject to a partial or a complete loss of invested capital. The Subordinated Notes represent the most junior securities in a leveraged capital structure. As a result, any deterioration in performance of the asset portfolio, including defaults and losses, a reduction of realised yield or other factors, will be borne first by holders of the Subordinated Notes, and then by the holders of the Rated Notes in reverse order of seniority. Furthermore, if an Event of Default has occurred and is continuing, the holders of the Subordinated Notes will not have any creditors' rights against the Issuer and will not have the right to determine the remedies to be exercised under the Trust Deed. There is no guarantee that any funds will remain to make distributions to the holders of subordinated Classes of Notes and in particular, the Subordinated Notes,

following any liquidation of the Collateral and the application of the proceeds from the Collateral to pay senior Classes of Notes and the fees, expenses, and other liabilities payable by the Issuer.

In addition, the failure to meet certain Coverage Tests will result in cash flow that may have been otherwise available for distribution to the Subordinated Notes, to pay interest on one or more subordinate Classes of Rated Notes, or for reinvestment in Collateral Debt Obligations, instead being applied on the next Payment Date to make principal payments on the more senior classes of Rated Notes until such tests have been satisfied. This feature will likely reduce the return on the Subordinated Notes and/or one or more subordinate Classes of Rated Notes and cause temporary or permanent suspension of distributions to the Subordinated Notes and/or one or more subordinate Classes of Rated Notes. See 3.6 "*Mandatory Redemption of the Notes*".

Issuer expenses (including management fees) are generally based on a percentage of the total asset portfolio of the Issuer, including the assets obtained through the use of leverage. Given the leveraged capital structure of the Issuer, expenses attributable to the Subordinated Notes will be higher because such expenses will be based on total assets of the Issuer.

3.20 Net Proceeds less than Aggregate Amount of the Notes

It is anticipated that the net proceeds received by the Issuer on the Issue Date from the issuance of the Notes will be less than the aggregate Principal Amount Outstanding of the Notes in full. Consequently, it is anticipated that on the Issue Date the Collateral would be insufficient to redeem the Notes in full upon the occurrence of an Event of Default on or about that date.

3.21 Withholding Tax on the Notes

So long as the Notes remain listed on the Global Exchange Market of Euronext Dublin or another recognised stock exchange for the purposes of Section 64 of the Taxes Consolidation Act 1997 ("TCA") and the Notes are held in a "recognised clearing system" for the purposes of Section 64 or interest on the Notes is paid by a paying agent that is not in Ireland, no withholding tax under current law is expected to be imposed in Ireland on payments of interest on the Notes. However, there can be no assurance that the law will not change. In addition, as described under Condition 9 (*Taxation*), the Issuer is authorised to withhold amounts otherwise distributable to a holder if the holder fails to provide the Issuer or its agents with any correct, complete and accurate information that may be required for the Issuer to comply with FATCA and to prevent the imposition of U.S. federal withholding tax under FATCA on payments to or for the benefit of the Issuer, or if the holder's ownership of any Notes would otherwise cause the Issuer to be subject to tax under FATCA.

If any withholding tax or deduction for tax is imposed on payments of interest on the Notes, the holders of the Notes will not be entitled to receive grossed-up amounts to compensate for such withholding tax and no Event of Default shall occur as a result of any such withholding or deduction.

If a Note Tax Event occurs pursuant to which any payment on the Notes of any Class becomes properly subject to any withholding tax or deduction on account of tax, the Notes may be redeemed in whole but not in part at the direction of the holders of either the Controlling Class or the Subordinated Notes, in each case acting by way of Ordinary Resolution, subject to certain conditions.

3.22 Book-entry Holders are not Considered Noteholders under the Trust Deed and may Delay Receipt of Payments on the Notes

Holders of beneficial interests in any Notes held in global form will not be considered holders of such Notes under the Trust Deed. After payment of any interest, principal or other amount to the applicable Clearing System, the Issuer will have no responsibility or liability for the payment of such amount by the applicable Clearing System or to any holder of a beneficial interest in a Note. The applicable Clearing System or its nominee will be the sole holder for any Notes held in global form, and therefore each person

owning a beneficial interest in a Note held in global form must rely on the procedures of such Clearing System (and if such Person is not a participant in the applicable Clearing System on the procedures of the participant through which such Person holds such interest) with respect to the exercise of any rights of a Noteholder under the Trust Deed.

Noteholders owning a book-entry Note may experience some delay in their receipt of distributions of interest and principal on such Note since distributions are required to be forwarded by the Principal Paying Agent to the applicable Clearing System, and the applicable Clearing System will be required to credit such distributions to the accounts of its participants which thereafter will be required to credit them to the accounts of the applicable Noteholders, either directly or indirectly through indirect participants. See the section of this Offering Circular titled "*Form of the Notes*".

3.23 **Security**

Clearing Systems

Collateral Debt Obligations or other assets forming part of the Collateral which are in the form of securities (if any) will be held by the Custodian on behalf of the Issuer pursuant to the Agency Agreement. The Custodian will hold such assets which can be cleared through Euroclear in an account with Euroclear unless the Trustee otherwise consents and will hold the other securities comprising the Portfolio which cannot be so cleared (i) through its accounts with Clearstream, Luxembourg and The Depository Trust Company ("**DTC**"), as appropriate, and (ii) through its sub-custodians who will in turn hold such assets which are securities both directly and through any appropriate clearing system. Those assets held in clearing systems will not be held in special purpose accounts and will be fungible with other securities from the same issue held in the same accounts on behalf of the other customers of the Custodian or its sub custodian, as the case may be. A first fixed charge over the Portfolio will be created under English law pursuant to the Trust Deed and, in respect of any Collateral Debt Obligations or other assets forming part of the Collateral which are in the form of securities, under Irish law pursuant to the Irish Security Agreement, on the Issue Date which will, in relation to the Collateral Debt Obligations that are held through the Custodian, take effect as a security interest over (i) the beneficial interest of the Issuer in its share of the pool of securities fungible with the relevant Collateral Debt Obligations held in the accounts of the Custodian for the benefit of the Issuer and (ii) the Issuer's ancillary contractual rights against the Custodian in accordance with the terms of the Agency Agreement which may expose the Secured Parties to the risk of loss in the case of a shortfall of such securities if the Custodian or its sub-custodian becomes insolvent.

In addition, custody and clearance risks may be associated with Collateral Debt Obligations or other assets comprising the Portfolio which are securities that do not clear through DTC, Euroclear or Clearstream, Luxembourg. There is a risk, for example, that such securities could be counterfeit, or subject to a defect in title or claims to ownership by other parties, including custody liens imposed by standard custody terms at various stages in the chain of intermediary ownership of such Collateral Debt Obligations.

Any risk of loss arising from any insufficiency or ineffectiveness of the security for the Notes or the custody and clearance risks which may be associated with assets comprising the Portfolio will be borne by the Noteholders without recourse to the Issuer, the Placement Agent, the Trustee, the Collateral Manager, the Collateral Administrator, the Custodian, the Hedge Counterparties or any other party.

Fixed Security

Although the security constituted by the Trust Deed and the Irish Security Agreement over the Collateral held from time to time, including the security over the Accounts, is expressed to take effect as a fixed charge, it may (as a result of, among other things, the substitutions of Collateral Debt Obligations or Eligible Investments contemplated by the Collateral Management Agreement and the payments to be

made from the Accounts in accordance with the Conditions and the Trust Deed) take effect as a floating charge which, in particular, would rank after a subsequently created fixed charge. However, the Issuer has covenanted in the Trust Deed not to create any such subsequent security interests (other than those permitted under the Trust Deed) without the consent of the Trustee.

3.24 **Resolutions, Amendments and Waivers**

The Conditions and the Trust Deed contain detailed provisions governing modification of the Conditions and the Transaction Documents and the convening of meetings and passing of Resolutions by the Noteholders. Certain key risks relating to these provisions are summarised below.

Decisions may be taken by Noteholders by way of Ordinary Resolution or Extraordinary Resolution, in each case, either acting together or, to the extent specified in any applicable Transaction Document, as a Class of Noteholders acting independently. Such Resolutions can be effected either at a duly convened meeting of the applicable Noteholders or by the applicable Noteholders resolving in writing. Meetings of the Noteholders may be convened by the Issuer, the Trustee or by one or more Noteholders holding not less than 10.0 per cent. of the aggregate Principal Amount Outstanding of the Notes of a particular Class, subject to certain conditions including minimum notice periods.

The Trustee may, in its discretion, determine that any proposed Ordinary Resolution or Extraordinary Resolution affects only the holders of one or more Classes of Notes, in which event the required quorum and minimum percentage voting requirements of such Ordinary Resolution or Extraordinary Resolution may be determined by reference only to the holders of that Class or Classes of Notes.

Any Notes held by or on behalf of the Collateral Manager or any Collateral Manager Related Person shall have no voting rights with respect to, and shall not be counted for the purposes of determining a quorum and the results of voting on any, CM Removal Resolution or CM Replacement Resolution.

If a meeting of Noteholders is called to consider a Resolution, determination as to whether the requisite number of Notes has been voted in favour of such Resolution will be determined by reference to the percentage which the Notes voted in favour represent of the total amount of Notes voted in respect of such Resolution and not the aggregate Principal Amount Outstanding of all such Notes held or represented by any person or persons entitled to vote at such meeting. The voting threshold at any Noteholders' meeting in respect of an Ordinary Resolution or an Extraordinary Resolution of all Noteholders is, respectively, more than 50 per cent. or not less than $66\frac{2}{3}$ per cent. of the votes cast on such Resolution. This means that a lower percentage of Noteholders may pass a Resolution which is put to a meeting of Noteholders than would be required for a Written Resolution in respect of the same matter. There are however quorum provisions which provide that a minimum number of Noteholders representing a minimum amount of the aggregate Principal Amount Outstanding of the applicable Class or Classes of Notes be present at any meeting to consider an Extraordinary Resolution or Ordinary Resolution. In the case of an Extraordinary Resolution, this is one or more persons holding or representing not less than $66\frac{2}{3}$ per cent. of the aggregate Principal Amount Outstanding of each Class of Notes then Outstanding (or the relevant Class or Classes only, if applicable) and in the case of an Ordinary Resolution this is one or more persons holding or representing more than 50 per cent. of the aggregate Principal Amount Outstanding of each Class of Notes then Outstanding (or the relevant Class or Classes only, if applicable). Such quorum provisions still, however, require considerably lower thresholds than would be required for a Written Resolution. In addition, if a quorum requirement is not satisfied at any meeting, lower quorum thresholds will apply at any meeting previously adjourned for want of quorum as set out in Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*) and in the Trust Deed.

The Class X Notes will have no right to vote in connection with and will not be counted for the purposes of determining a quorum or the result of voting on any CM Removal Resolution or any CM Replacement Resolution.

Class A Notes that are in the form of CM Removal and Replacement Non-Voting Notes or CM Removal and Replacement Exchangeable Non-Voting Notes will have no right to vote in connection with and will not be counted for the purposes of determining a quorum or the result of voting on any CM Removal Resolution or any CM Replacement Resolution. Class A Notes in the form of CM Removal and Replacement Voting Notes may form a small percentage of the Controlling Class (or other relevant Class or Classes) and/or be held by a concentrated group of Noteholders. Investors should be aware that such CM Removal and Replacement Voting Notes will be entitled to vote to pass a CM Removal Resolution and a CM Replacement Resolution and the remaining percentage of the Controlling Class (or other relevant Class or Classes) held in the form of CM Removal and Replacement Non-Voting Notes and/or CM Removal and Replacement Exchangeable Non-Voting Notes will be bound by such Resolution. Holders of the CM Voting Notes may have interests that differ from other holders of Class A Notes and may seek to profit or seek direct benefits from their voting rights.

The entire Class of Subordinated Notes may also be held by a concentrated group of Noteholders. Investors should also be aware that such group of Noteholders would in such circumstances exercise effective control over the exercise of rights granted to Subordinated Noteholders as a Class pursuant to the Conditions and the Trust Deed and may have interests that differ from other Noteholders and may seek to profit or seek direct benefits from their effective control over the exercise of such rights.

Investors in Class A Notes should be aware that for so long as Class A Notes have not been redeemed and paid in full, if no Class A Notes are held in the form of CM Removal and Replacement Voting Notes, the Class A Notes will not be entitled to vote in respect of such CM Removal Resolution or CM Replacement Resolution and such right shall pass to a more junior Class of Notes in accordance with the definition of Controlling Class.

Certain amendments, waivers and modifications may be made without the consent of Noteholders. See Condition 14(c) (*Modification and Waiver*). Such amendments, waivers or modifications could be adverse to certain Noteholders. Without limitation to the foregoing, potential investors should note that the Issuer may amend the Transaction Documents to modify or amend the components of the Portfolio Profile Tests, the Eligibility Criteria, the Reinvestment Criteria, the Collateral Quality Tests, the Fitch Test Matrices or the S&P coefficients C0, C1 or C2 in the definition of "S&P CDO BDR" and the related definitions, provided that Rating Agency Confirmation has been obtained and (to the extent provided in Condition 14(c) (*Modification and Waiver*)) the Controlling Class has consented by way of Ordinary Resolution.

Investors should note that for the purposes of determining voting rights attributable to the Notes and the applicable quorum at any meeting of the Noteholders pursuant to Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*), (a) the Class X Notes and the Class A Notes shall together be deemed to constitute a single Class in respect of any voting rights specifically granted to them (save in respect of matters to be voted on by the Controlling Class) and holders of the Class X Notes and the Class A Notes shall act not separately but together as a single Class for voting purposes, including in relation to amendments where the interests of such Noteholders may not be aligned and (b) the Class B-1 Notes and the Class B-2 Notes shall together be deemed to constitute a single Class in respect of any voting rights specifically granted to them (including as the Controlling Class but other than in relation to a Refinancing, in which case each of the Class B-1 Notes and the Class B-2 Notes shall constitute separate Classes of Notes).

Certain entrenched rights relating to the Terms and Conditions of the Notes including the currency thereof, Payment Dates applicable thereto, the Priorities of Payment, the provisions relating to quorums and the percentages of votes required for the passing of a Resolution, cannot be amended or waived by Ordinary Resolution but require an Extraordinary Resolution. Similarly, modifications of Transaction Documents having a material adverse effect on the security over the Collateral constituted by the Trust Deed and the Irish Security Agreement and of provisions relating to quorum and voting thresholds for the purposes of passing an Extraordinary Resolution cannot be amended or waived by Ordinary Resolution but require Extraordinary Resolution. In particular, Noteholders should note that amendments as may be contemplated to facilitate or in connection with an Optional Redemption in whole or in part

by way of a Refinancing may be effected by way of Ordinary Resolution and, as such, fundamental amendments including, but not limited to, an extension of the Reinvestment Period and/or Maturity Date may be effected with the approval of a simple majority of each relevant Class of Noteholders. Noteholders should further note that any amendment made contemporaneously with an Optional Redemption in whole or in part by way of a Refinancing may be effected by way of Ordinary Resolution and, as such, fundamental amendments including, but not limited to, an extension of the Reinvestment Period and/or Maturity Date may be effected with the approval of a simple majority of each relevant Class of Noteholders. Noteholders should note that to the extent that the Subordinated Noteholders are to vote on a matter which would otherwise require an Extraordinary Resolution as described above, such matter may be approved by the Subordinated Noteholders acting by Ordinary Resolution only and, as such fundamental amendments including, but not limited to, an extension of the Reinvestment Period and/or Maturity Date may be effected by the Subordinated Noteholders acting by Ordinary Resolution (without prejudice to any Extraordinary Resolution of the relevant Class(es) of Rated Notes which may also be requested). It should however be noted that amendments may still be effected and waivers may still be granted in respect of such provisions in circumstances where not all Noteholders agree with the terms thereof and any amendments or waivers once passed in accordance with the provisions of the Terms and Conditions of the Notes and the provisions of the Trust Deed will be binding on all such dissenting Noteholders.

In addition to the Trustee's right to agree to changes to the Transaction Documents which, in its opinion, are made to correct a manifest error or which are of a formal, minor or technical nature, or to changes which, in its opinion, are not materially prejudicial to the interests of the Noteholders of any Class without the consent of the Noteholders, the Trustee shall be obliged to consent to modifications and waivers granted in respect of certain other matters, subject to prior notice thereof being given to the Trustee, without the consent of the Noteholders as set out in Condition 14(c) (*Modification and Waiver*).

Each Hedge Counterparty may also need to be notified and its consent required to the extent provided for in the applicable Hedge Agreement in respect of a modification, amendment or supplement to any provision of the Transaction Documents. Any such consent, if withheld, may prevent the modification of the Transaction Documents which may be beneficial to or in the best interests of the Noteholders.

3.25 **Concentrated Ownership of One or More Classes of Notes**

If at any time one or more investors that are affiliated hold a majority of any Class of Notes, it may be more difficult for other investors to take certain actions that require consent of any such Classes of Notes without their consent. For example, optional redemption and the removal of the Collateral Manager for cause and appointment are at the direction of Noteholders of specified percentages of Subordinated Notes and/or the Controlling Class (as applicable).

3.26 **Enforcement Rights Following an Event of Default**

If an Event of Default occurs and is continuing, the Trustee may, at its discretion, and shall, at the request of the Controlling Class acting by way of Extraordinary Resolution (subject, in each case, to the Trustee being indemnified and/or secured and/or prefunded to its satisfaction), give notice to the Issuer and the Collateral Manager that all the Notes are immediately due and repayable, provided that following the occurrence of an Event of Default described in Condition 10(a)(vi) (*Insolvency Proceedings*) or Condition 10(a)(vii) (*Illegality*) such notice shall be deemed to have been given and all the Notes shall automatically become immediately due and payable.

At any time after the Notes become due and repayable and the security under the Trust Deed and the Irish Security Agreement becomes enforceable, the Trustee may, at its discretion, and shall, if so directed by the Controlling Class acting by Ordinary Resolution (subject, in each case, to the Trustee being indemnified and/or secured and/or prefunded to its satisfaction), take Enforcement Action in respect of the security over the Collateral provided that no such Enforcement Action may be taken by the Trustee

unless: (A) it determines that the anticipated proceeds realised from such Enforcement Action (after deducting any expenses properly incurred in connection therewith) would be sufficient to discharge in full all amounts due and payable in respect of all Classes of Notes other than the Subordinated Notes (including, without limitation, Deferred Interest on the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes) and all amounts payable in priority to the Subordinated Notes pursuant to the Priorities of Payment; (B) otherwise, in the case of an Event of Default specified in paragraphs (a)(i), (a)(ii) or (a)(iv) of Condition 10 (*Events of Default*) the Controlling Class acting by way of Extraordinary Resolution (and no other Class of Notes) may direct the Trustee to take Enforcement Action without regard to any other Event of Default which has occurred prior to, contemporaneously or subsequent to such Event of Default; or (C) in the case of any other Event of Default, each Class of Rated Notes acting independently by way of Ordinary Resolution may direct the Trustee to take Enforcement Action (subject, in each case, to the Trustee being indemnified and/or secured and/or prefunded to its satisfaction).

The requirements described above could result in the Controlling Class being unable to procure enforcement of the security over the Collateral in circumstances in which they desire such enforcement and may also result in enforcement of such security in circumstances where the proceeds of liquidation thereof would be insufficient to ensure payment in full of all amounts due and payable in respect of the Notes in accordance with the Priorities of Payment and/or at a time when enforcement thereof may be adverse to the interests of certain Classes of Notes and, in particular, the Subordinated Notes.

3.27 **Certain ERISA Considerations**

Under a regulation of the U.S. Department of Labor, as modified by Section 3(42) of ERISA, if certain employee benefit plans or other retirement arrangements subject to the fiduciary responsibility provisions of Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended, (the "**Code**"), or entities whose underlying assets are treated as assets of such plans or arrangements (collectively, "**Plans**") invest in a Class of Notes that is treated as equity under the regulation (which could include the Class E Notes, the Class F Notes or the Subordinated Notes), the assets of the Issuer could be considered to be assets of such Plans and certain of the transactions contemplated by the Issuer could be considered "prohibited transactions" under Section 406 of ERISA or Section 4975 of the Code. See the section of this Offering Circular titled "*Certain ERISA Considerations*".

3.28 **Forced Transfer**

Each initial purchaser of an interest in a Rule 144A Note and each transferee of an interest in a Rule 144A Note will be deemed to represent at the time of purchase that, amongst other things, the purchaser is both a QIB and a QP. In addition each Noteholder will be deemed or in some cases required to make certain representations in respect of ERISA. The Trust Deed provides that if, notwithstanding the restrictions on transfer contained therein, the Issuer determines that any holder of an interest in a Rule 144A Note is a "U.S. person" as defined under Regulation S under the Securities Act (a "**U.S. Person**") and is not both a QIB and a QP at the time it acquires an interest in a Rule 144A Note (any such person, a "**Non-Permitted Holder**") or a Noteholder is a Non-Permitted ERISA Holder (as applicable), the Issuer may, promptly after determination that such person is a Non-Permitted Holder or Non-Permitted ERISA Holder by the Issuer, send notice to such Non-Permitted Holder or Non-Permitted ERISA Holder (as applicable) demanding that such Holder transfer its interest outside the United States to a non-U.S. Person or to a person that is not a Non-Permitted Holder or Non-Permitted ERISA Holder (as applicable) within 30 calendar days (or 10 calendar days in the case of a Non-Permitted ERISA Holder) of the date of such notice. If such Holder fails to effect the transfer required within such 30-day period (or 10-day period in the case of a Non-Permitted ERISA Holder), (a) upon direction from the Issuer or the Collateral Manager on its behalf, a Transfer Agent, on behalf of and at the expense of the Issuer, shall cause such beneficial interest to be transferred in a commercially reasonable sale to a person or entity that certifies in writing to such Transfer Agent and the Issuer, in connection with such transfer, that such person or entity either

is not a U.S. Person or is a QIB and a QP and is not a Non-Permitted ERISA Holder (b) pending such transfer, no further payments will be made in respect of such beneficial interest.

In addition, the Trust Deed generally provides that if a Noteholder fails to provide the Issuer or its agents with any correct, complete and accurate information or documentation that may be required for the Issuer to comply with FATCA and the CRS and to prevent the imposition of U.S. federal withholding tax under FATCA on payments to or for the benefit of the Issuer, or if the Noteholder's ownership of any Notes would otherwise cause the Issuer to be subject to tax under FATCA, the Issuer is authorised to withhold amounts otherwise distributable to the Noteholder, to compel the Noteholder to sell its Notes, and, if the Noteholder does not sell its Notes 10 Business Days after notice from the Issuer, to sell the Noteholder's Notes on behalf of the Noteholder.

3.29 **U.S. Tax Risks**

Changes in Tax Law; Imposition of Tax on Non-U.S. Holders

Distributions on the Notes to a Non-U.S. Holder (as defined in the section of this Offering Circular titled "*Tax Considerations—Certain U.S. Federal Income Tax Considerations*") that provides appropriate tax certifications to the Issuer and gain recognised on the sale, exchange or retirement of the Notes by the Non-U.S. Holder will not be subject to U.S. federal income tax unless the payments or gain are effectively connected with a trade or business conducted by the Non-U.S. Holder in the United States or, in the case of gain, the Non-U.S. Holder is a non-resident alien individual who holds the Notes as a capital asset and is present in the United States for more than 182 days in the taxable year of the sale, and certain other conditions are satisfied. However, no assurance can be given that Non-U.S. Holders will not in the future be subject to tax imposed by the United States.

U.S. Trade or Business

If the Issuer were to breach certain of its covenants and acquire certain assets (for example, a "United States real property interest" or an equity interest in an entity that is treated as a partnership for U.S. federal income tax purposes and that is itself engaged in a trade or business in the United States), including upon a foreclosure, or breach certain of its other covenants, the Issuer could be treated as engaged in a U.S. trade or business for U.S. federal income tax purposes. Moreover, a breach of certain of these covenants may not give rise to an Event of Default and may not give rise to a claim against the Issuer or the Collateral Manager. A change in law or its interpretation also could result in the Issuer being treated as engaged in a trade or business in the United States for U.S. federal income tax purposes, or otherwise subject to U.S. federal income tax on a net income basis. If it is determined that the Issuer is treated as engaged in a trade or business in the United States for U.S. federal income tax purposes, and the Issuer has taxable income that is effectively connected with such U.S. trade or business, the Issuer will be subject under the Code to the regular U.S. corporate income tax on its effectively connected taxable income, which may be imposed on a gross basis, and possibly to a 30 per cent. branch profits tax and state and local taxes as well. The imposition of such a tax liability could materially adversely affect the Issuer's ability to make payments on the Notes. . See "*Tax Considerations—Certain U.S. Federal Income Tax Considerations—U.S. Federal Tax Treatment of the Issuer.*"

FATCA

Under FATCA, the Issuer may be subject to a 30 per cent. withholding tax on certain income. Under an intergovernmental agreement entered into between the United States and Ireland, the Issuer will not be subject to withholding under FATCA if it complies with Irish implementing regulations that require the Issuer to provide the name, address, and taxpayer identification number of, and certain other information with respect to, certain Noteholders to the Irish Revenue Commissioners, which would then provide this information to the IRS. The Issuer shall use reasonable best efforts to comply with the intergovernmental agreement and these regulations; however, there can be no assurance that the Issuer will be able to do so.

Moreover, the intergovernmental agreement or the Irish implementing regulations could be amended to require the Issuer to withhold on "passthru" payments to holders that fail to provide certain information to the Issuer or are certain "foreign financial institutions" that do not comply with FATCA.

If a Noteholder fails to provide the Issuer or its agents with any correct, complete and accurate information or documentation that may be required for the Issuer to comply with FATCA and to prevent the imposition of U.S. federal withholding tax under FATCA on payments to or for the benefit of the Issuer, or if the Noteholder's ownership of any Notes would otherwise cause the Issuer to be subject to tax under FATCA, the Issuer is authorised to withhold amounts otherwise distributable to the Noteholder, to compel the Noteholder to sell its Notes, and, if the Noteholder does not sell its Notes within 10 Business Days after notice from the Issuer, to sell the Noteholder's Notes on behalf of the Noteholder.

Possible Treatment of the Class E Notes and Class F Notes as Equity in the Issuer for U.S. Federal Income Tax Purposes

The Class E Notes and Class F Notes could be treated as representing equity in the Issuer for U.S. federal income tax purposes. If the Class E Notes or Class F Notes are so treated, gain on the sale of a Class E Note or Class F Note could be treated as ordinary income and subject to an additional tax in the nature of interest, and certain interest on the Class E Notes or Class F Notes could be subject to the additional tax. U.S. Noteholders (as defined in the section of this Offering Circular titled "*Tax Considerations—Certain U.S. Federal Income Tax Considerations*") may be able to avoid these adverse consequences by filing a protective qualified electing fund ("**QEF**") election with respect to their Class E Notes and Class F Notes. Alternatively, if the Class E Notes or Class F Notes are treated as equity for U.S. federal income tax purposes, U.S. Holders of those Notes could be subject to the rules pertaining to 10 per cent United States shareholders of CFCs. See the section of this Offering Circular titled "*Tax Considerations - Certain U.S. Federal Income Tax Considerations – U.S. Federal Tax Treatment of U.S. Holders of Rated Notes - U.S. Federal Income Tax Treatment of U.S. Holders of Subordinated Notes*".

U.S. Federal Income Tax Consequences of an Investment in the Notes are Uncertain

The U.S. federal income tax consequences of an investment in the Notes are uncertain, as to both the timing and character of any inclusion in income in respect of the Notes. Because of this uncertainty, prospective investors are urged to consult their tax advisors as to the tax consequences of an investment in a Note. For a more complete discussion of the U.S. federal income tax consequences of an investment in a Note, see the section of this Offering Circular titled "*Tax Considerations—Certain U.S. Federal Income Tax Considerations*".

3.30 Flip Clauses

The validity and enforceability of certain provisions in contractual priorities of payment which purport to alter the priority in which a particular secured creditor is paid as a result of the occurrence of one or more specified trigger events, including the insolvency of such creditor ("flip clauses"), have been challenged recently in the English and U.S. courts on the basis that the operation of a flip clause as a result of such creditor's insolvency breaches the "anti-deprivation" principles of English and U.S. insolvency law. This principle prevents a party from agreeing to a provision that deprives its creditors of an asset upon its insolvency.

The English Supreme Court has, in *Belmont Park Investments Pty Limited v BNY Corporate Trustee Services Limited and Lehman Brothers Special Financing Inc.* [2011] UKSC 38, upheld the validity of a flip clause contained in an English-law governed security document, stating that the anti-deprivation principle was not breached by such provisions.

In the U.S. courts, the U.S. Bankruptcy Court for the Southern District of New York in *Lehman Brothers Special Financing Inc. v. BNY Corporate Trustee Services Limited*. (In re *Lehman Brothers Holdings*

Inc.), Adv. Pro. No. 09-1242-JMP (Bankr S.D.N.Y. May 20, 2009) (the "**BNY Case**") examined a flip clause contained in an indenture related to a swap agreement and held that such a provision, which seeks to modify one creditor's position in a priority of payments when that creditor files for bankruptcy, is unenforceable under the U.S. Bankruptcy Code. Judge Peck also found that the Code's safe harbour provisions, which protect certain contractual rights under swap agreements, did not apply to the flip clause because the flip clause provisions were contained in the indenture, and not in the swap agreement itself. Judge Peck acknowledged that this has resulted in the U.S. courts coming to a decision "directly at odds with the judgement of the English Courts". While BNY Corporate Trustee Services Ltd filed a motion for and was granted leave to appeal with the U.S. Bankruptcy Court, the case was settled before the appeal was heard.

On 28 June 2016, the U.S. Bankruptcy Court issued a decision in *Lehman Brothers Special Financing Inc. v. Bank of America National Association, et al.* Case No. 10-3547 (In re Lehman Brothers Holdings Inc.), Chapter 11 Case No. 10-03547 (Bankr S.D.N.Y. June 2016). In this decision, the court held that not all priority of payment provisions would be unenforceable ipso facto clauses under the U.S. Bankruptcy Code. Instead, the court identified two materially distinct approaches to such provisions. Where a counterparty's automatic right to payment priority ahead of the noteholders is "flipped" or modified upon, for example, such counterparty's default under the swap document, the court confirmed that such priority provisions were unenforceable ipso facto clauses. Conversely, the court held that priority provisions where no right of priority is established until after a termination event under the swap documents has occurred were not ipso facto clauses, and, therefore, fully enforceable. Moreover, even where the provisions at issue were ipso facto clauses, the Court found that they were nonetheless enforceable under the Code's safe harbour provisions. Specifically, the Court concluded that priority of distribution was a necessary part of liquidation of a swap agreement, which the safe harbour provisions expressly protect. The Court effectively limited the analysis in the BNY Case to instances where the flip provisions are only in an indenture, and do not constitute part of the swap agreement. This judgment highlights the difference in approach taken between U.S. and English law on this subject, although it significantly reduces the practical differences in outcome. Lehman filed a notice of appeal with regards to this decision on 6 February 2017 and on 11 August 2020 such appeal was dismissed by the Second Circuit. In addition, there remain several actions in the U.S. commenced by debtors of Lehman Brothers concerning the enforceability of flip clauses and this is likely to be an area of continued judicial focus particularly in respect of multi-jurisdictional insolvencies.

The flip clause examined in the Belmont case is similar in substance to the relevant provisions in the Priorities of Payment, however the context and manner of subordination which may be applied to a Hedge Counterparty in accordance with such provisions will not be identical; and the judgments in Belmont and subsequent litigation in which the same rule has been applied have noted that English law questions relating to the anti-deprivation principle will be determined on the basis of the particular terms at hand and their commercial context. As such, it is not necessarily settled that the particular flip clauses contained in the Priorities of Payment would certainly be enforceable as a matter of English law, in the case of insolvency of a Hedge Counterparty.

Moreover, if the Priorities of Payment are the subject of litigation in any jurisdiction outside England and Wales, in particular in the United States of America, and such litigation results in a conflicting judgment in respect of the binding nature of the Priorities of Payment, it is possible that termination payments due to the Hedge Counterparties would not be subordinated as envisaged by the Priorities of Payment and as a result, the Issuer's ability to repay the Noteholders in full may be adversely affected. There is a particular risk of such conflicting judgments where a Hedge Counterparty is the subject of bankruptcy or insolvency proceedings outside England and Wales.

3.31 **Diverted Profits Tax**

The Finance Act 2015 introduced a new tax in the United Kingdom called the "diverted profits tax" which is charged at 25 per cent. of any "taxable diverted profits". The tax has effect from 1 April 2015

and may apply in circumstances including where arrangements are designed to ensure that a non-UK resident company does not carry on a trade in the United Kingdom through a permanent establishment, the non-resident company supplies goods, services or other property in the course of that non-resident company's trade and it is reasonable to assume that arrangements are in place the main purpose or one of the main purposes of which is to avoid United Kingdom corporation tax.

The basis upon which HM Revenue & Customs will apply the diverted profits tax in practice remains uncertain although it should be noted that there are specific exemptions for United Kingdom investment managers who enter into transactions on behalf of certain overseas persons and in respect of which the Investment Manager Exemption would apply and a general exemption where the activities of the non-UK resident company in the United Kingdom are carried out by an agent of independent status which is not connected to such non-UK resident company.

4. RELATING TO THE COLLATERAL

4.1 The Portfolio

The decision by any prospective holder of Notes to invest in such Notes should be based, among other things (including, without limitation, the identity of the Collateral Manager), on the Eligibility Criteria (and Reinvestment Criteria, when applicable) which each Collateral Debt Obligation is required to satisfy, as disclosed in this Offering Circular, and on the Portfolio Profile Tests, Collateral Quality Tests, Coverage Tests and Target Par Amount that the Portfolio is required to satisfy as at the Effective Date (other than in respect of the Interest Coverage Tests, which are required to be satisfied on and after the Determination Date immediately preceding the second Payment Date) and in each case (save as described herein) thereafter. This Offering Circular does not contain any information regarding the individual Collateral Debt Obligations on which the Notes will be secured from time to time. Purchasers of any of the Notes will not have an opportunity to evaluate for themselves the relevant economic, financial and other information regarding the investments to be made by the Issuer and, accordingly, will be dependent upon the judgement and ability of the Collateral Manager in acquiring investments for purchase on behalf of the Issuer over time. No assurance can be given that the Issuer will be successful in obtaining suitable investments or that, if such investments are made, the objectives of the Issuer will be achieved.

Neither the Issuer nor the Placement Agent has made any investigation into the Obligors of the Collateral Debt Obligations. The value of the Portfolio may fluctuate from time to time (as a result of substitution or otherwise) and none of the Issuer, the Trustee, the Placement Agent, the Custodian, the Collateral Manager, the Collateral Administrator, any Hedge Counterparty, or any of their Affiliates are under any obligation to maintain the value of the Collateral Debt Obligations at any particular level. None of the Issuer, the Trustee, the Custodian, the Collateral Manager, the Collateral Administrator, any Hedge Counterparty, the Placement Agent or any of their Affiliates has any liability to the Noteholders as to the amount or value of, or any decrease in the value of, the Collateral Debt Obligations from time to time.

Furthermore, pursuant to the Collateral Management Agreement, the Collateral Manager is required to carry out due diligence in accordance with the Standard of Care specified in the Collateral Management Agreement, to ensure the Eligibility Criteria will be satisfied prior to the entry by the Issuer (or the Collateral Manager (acting on behalf of the Issuer)) into a commitment to purchase an asset intended to constitute a Collateral Debt Obligation and that the Issuer will, upon the settlement of such purchase, become the legal and beneficial holder of such Collateral Debt Obligations in accordance with the terms of the relevant Underlying Instrument and all applicable laws. Noteholders are reliant on the Collateral Manager conducting such due diligence in a manner which ensures that the Collateral Debt Obligations are properly and effectively transferred and satisfy each of the Eligibility Criteria.

4.2 Nature of Collateral; Defaults

The Collateral on which the Notes and the claims of the other Secured Parties are secured will be subject to credit, liquidity, interest rate and exchange rate risks. The Portfolio of Collateral Debt Obligations

which will secure the Notes will be predominantly comprised of Senior Secured Loans, Unsecured Senior Loans, Second Lien Loans (each such loan, a "**Senior Loan**"), Senior Secured Bonds, Mezzanine Obligations and High Yield Bonds lent to or issued by a variety of Obligor with a principal place of business in a Qualifying Country which are primarily rated below investment grade.

The lower rating of below investment grade collateral reflects a greater possibility that adverse changes in the financial condition of an issuer or borrower or in general economic conditions or both may impair the ability of the relevant issuer or borrower, as the case may be, to make payments of principal or interest. Such investments may be speculative. See the section of this Offering Circular titled "*The Portfolio*".

An investment in the Notes of any Class involves a degree of risk arising from fluctuations in the amount and timing of receipt of the principal and interest on the Collateral Debt Obligations by or on behalf of the Issuer and the amounts of the claims of creditors of the Issuer ranking in priority to the holders of each Class of Notes. In particular, prospective purchasers of such Notes should be aware that the amount and timing of payment of the principal and interest on the Collateral Debt Obligations will depend upon the detailed terms of the documentation relating to each of the Collateral Debt Obligations and on whether or not any Obligor thereunder defaults in its obligations.

The subordination levels of each Class of Notes will be established to withstand certain assumed deficiencies in payment caused by defaults on the related Collateral Debt Obligations. If, however, actual payment deficiencies exceed such assumed levels, payments on the relevant Class of Notes could be adversely affected. Whether and by how much defaults on the Collateral Debt Obligations adversely affect each Class of Notes will be directly related to the level of subordination thereof pursuant to the Priorities of Payment. The risk that payments on the Notes could be adversely affected by defaults on the related Collateral Debt Obligations is likely to be increased to the extent that the Portfolio of Collateral Debt Obligations is concentrated in any one issuer, industry, region or country as a result of the increased potential for correlated defaults in respect of a single issuer or within a single industry, region or country as a result of downturns relating generally to such industry, region or country. Subject to any confidentiality obligations binding on the Issuer, Noteholders will receive information through the Reports from time to time of the identity of Collateral Debt Obligations which are Defaulted Obligations.

To the extent that a default occurs with respect to any Collateral Debt Obligation and the Issuer or Trustee sells or otherwise disposes of such Collateral Debt Obligation, the proceeds of such sale or disposition are likely to be less than the unpaid principal and interest thereon. Even in the absence of a default with respect to any of the Collateral Debt Obligations, the potential volatility and illiquidity of the sub-investment grade high yield and leveraged loan markets means that the market value of such Collateral Debt Obligations at any time will vary, and may vary substantially, from the price at which such Collateral Debt Obligations were initially purchased and from the principal amount of such Collateral Debt Obligations. Accordingly, no assurance can be given as to the amount of proceeds of any sale or disposition of such Collateral Debt Obligations at any time, or that the proceeds of any such sale or disposition would be sufficient to repay a corresponding par amount of principal of and interest on the Notes after, in each case, paying all amounts payable prior thereto pursuant to the Priorities of Payment. Moreover, there can be no assurance as to the amount or timing of any recoveries received in respect of Defaulted Obligations.

The composition of the collateral pool may be influenced by discussions that the Collateral Manager and/or, prior to the Issue Date, the Placement Agent may have with investors, and there is no assurance that (i) any investor would have agreed with any views regarding the initial proposed portfolio that are expressed by another investor in such discussions, (ii) the collateral pool was not, and will not be, influenced more heavily by the views of certain investors, particularly if that investor's participation in the transaction is necessary for the transaction to occur, in which case the Collateral Manager or the Placement Agent would not receive the benefits of its role in the transaction, and in order to preserve the possibility of future business opportunities between the Collateral Manager or the Placement Agent and

such investors, (iii) those views, and any modifications made to the portfolio as a result of those discussions, will not adversely affect the performance of a holder's Notes, or (iv) the views of any particular investors that are expressed in such discussions will not influence the composition of the collateral pool. The Collateral Manager will have sole authority to select, and sole responsibility for selecting, the Collateral Debt Obligations. Except for a right to approve purchases under the Warehouse Arrangements as described below, the Placement Agent has not and will not determine the composition of the collateral pool.

4.3 **Acquisition of Collateral Debt Obligations Prior to the Issue Date**

It is expected that at least €225,000,000 in aggregate principal amount of the initial Collateral Debt Obligations will have been acquired (or committed to be acquired) under the Warehouse Facility (as defined below) as of the Issue Date at prevailing market prices at the time of purchase by the Collateral Manager (on behalf of the Issuer).

The Issuer's purchase of such Collateral Debt Obligations have been financed by a warehouse financing facility (the "**Warehouse Facility**") provided by JPMorgan Chase Bank, National Association ("**JPMCB**"), as lender and the Collateral Manager as purchaser of warehouse subordinated notes (the "**Warehouse Subordinated Notes**") issued by the Issuer (the "**Warehouse Equity Purchaser**"). Pursuant to the terms of the warehousing deed dated 13 January 2020 (the "**Warehousing Deed**") documenting the Warehouse Facility, the Collateral Manager was appointed as collateral manager.

On the Issue Date, the Warehouse Facility will terminate and JPMCB as lender will be paid in full from the issuance proceeds received by the Issuer for the Notes. All unrealised losses and gains with respect to the Collateral Debt Obligations purchased under the Warehouse Facility will be for the Issuer's account and, consequently, the market value of such Collateral Debt Obligations on the Issue Date may be lower or higher (as the case may be) than at the time they were acquired by the Issuer. If the issuance of the Notes does not occur, the initial Collateral Debt Obligations may be liquidated and JPMCB as lender and/or the Warehouse Equity Purchaser may suffer a loss. This risk may provide an incentive for the Placement Agent and the Collateral Manager to close the transaction in non-optimal conditions.

In connection with the Warehouse Facility, JPMCB has the right to approve all Collateral Debt Obligations which are selected and acquired under the Warehouse Facility (on behalf of the Issuer) and, in certain circumstances, JPMCB has the right to require or approve sales of Collateral Debt Obligations. JPMCB will exercise those rights solely for its own benefit as a lender and in a manner that protects its rights and interests as a creditor of the Issuer. In certain circumstances, prior to the Issue Date, Collateral Debt Obligations previously acquired may be sold pursuant to the Warehouse Facility. The Warehouse Equity Purchaser may purchase Notes on the Issue Date or at any time thereafter. None of JPMCB, the Placement Agent or any of their Affiliates or the Warehouse Equity Purchaser has done, and no such person will do, any analysis of the Collateral Debt Obligations so acquired or sold for the benefit of, or in a manner designed to further the interests of, any Noteholder. Neither JPMCB nor the Warehouse Equity Purchaser will have the right to approve the sale or purchase of any Collateral Debt Obligations by the Collateral Manager (on behalf of the Issuer) on and after the Issue Date.

By its purchase of Notes, each Noteholder is deemed to have consented to the purchase of the initial Collateral Debt Obligations by the Issuer and the arrangements described above.

4.4 **Acquisitions of Collateral Debt Obligations**

For reasons not necessarily attributable to any of the risks set forth herein (for example, supply/demand imbalances or other market forces), the prices of the Collateral Debt Obligations in which the Issuer invests may decline substantially. In particular, purchasing assets at what may appear to be "undervalued" levels is no guarantee that these assets will not be trading at even lower levels at a time of valuation or at the time of sale. It may not be possible to predict, or to hedge against, such risk.

The requirement that the Eligibility Criteria be satisfied applies only (i) at the time that the Issuer (or the Collateral Manager, acting on behalf of the Issuer) enters into any commitment to purchase a Collateral Debt Obligation, (ii) in respect of Issue Date Collateral Debt Obligations, on the Issue Date and (iii) in respect of certain of the Eligibility Criteria that comprise the Restructured Obligation Criteria, those

Collateral Debt Obligations which are the subject of a restructuring (whether effected by way of an amendment to the terms of such Collateral Debt Obligation (including but not limited to an extension of its maturity) or by way of substitution of new obligations and/or change of Obligor), on the applicable Restructuring Date, and, in each case, any failure by such Collateral Debt Obligation to satisfy the relevant Eligibility Criteria at a later stage will not result in any requirement to sell it or take any other action.

4.5 **Considerations Relating to the Initial Investment Period**

During the Initial Investment Period, the Collateral Manager on behalf of the Issuer, will seek to acquire additional Collateral Debt Obligations in order to satisfy, as at the Effective Date, the Target Par Amount and each of the Coverage Tests (other than in respect of the Interest Coverage Tests, which are required to be satisfied on and after the Determination Date immediately preceding the second Payment Date), Collateral Quality Tests and Portfolio Profile Tests. See the section of this Offering Circular titled "*The Portfolio*". The ability to satisfy such tests and requirement will depend on a number of factors beyond the control of the Issuer and the Collateral Manager, including the availability of obligations that satisfy the Eligibility Criteria and other Portfolio related requirements in the primary and secondary loan markets, the condition of the financial markets, general economic conditions, international political events and other macroeconomic events. Therefore, there can be no assurance that such tests and requirements will be met. See 1.5 "*General Economic Conditions may Deteriorate and may Affect the Ability of the Issuer to make Payments on the Notes*". In addition, the ability of the Issuer to enter into Currency Hedge Transactions upon the acquisition of Non-Euro Obligations will depend upon a number of factors outside the control of the Collateral Manager, including its ability to identify a suitable Currency Hedge Counterparty with whom the Issuer may enter into Currency Hedge Transactions. See also 2.4 "*European Market Infrastructure Regulation (EMIR)*". To the extent it is not possible to purchase such additional Collateral Debt Obligations, the level of income receivable by the Issuer on the Collateral, and therefore its ability to meet its interest payment obligations under the Notes, may be adversely affected. Such inability to invest may also shorten the weighted average lives of the Notes as it may lead to early redemption of the Notes. To the extent such additional Collateral Debt Obligations are not purchased, the level of income receivable by the Issuer on the Collateral and therefore its ability to meet its interest payment obligations under the Notes, together with the weighted average lives of the Notes, may be adversely affected. Any failure by the Collateral Manager (on behalf of the Issuer) to acquire such additional Collateral Debt Obligations and/or enter into required Currency Hedge Transactions during such period could result in the non-confirmation or downgrade or withdrawal by any Rating Agency of its Initial Rating of any Class of Notes. Such non-confirmation, downgrade or withdrawal may result in the redemption of the Notes, shortening their weighted average life and reducing the leverage ratio of the Subordinated Notes to the other Classes of Notes which could adversely affect the level of returns to the holders of the Subordinated Notes. Any such redemption of the Notes may also adversely affect the risk profile of Classes of Notes in addition to the Subordinated Notes to the extent that the amount of excess spread capable of being generated in the transaction reduces as the result of redemption of the most senior ranking Classes of Notes in accordance with the Note Payment Sequence which bear a lower rate of interest than the remaining Classes of Rated Notes.

Investors should note that, prior to the Determination Date relating to the first Payment Date, the Collateral Manager may transfer some or all amounts standing to the credit of the First Period Reserve Account to the Unused Proceeds Account for the purpose of being applied toward the purchase of additional Collateral Debt Obligations. Such application may affect the amounts which would otherwise have been payable to Noteholders and, in particular, may reduce amounts available for distribution to the Subordinated Noteholders.

4.6 **The Target Par Amount**

As of the Effective Date, the Issuer is required to have acquired, or entered into binding commitments to acquire, Collateral Debt Obligations the Aggregate Collateral Balance of which equals or exceeds the Reinvestment Target Par Balance by such date (provided that, for the purposes of determining the

Aggregate Collateral Balance as provided above, the Principal Balance of a Collateral Debt Obligation which is a Defaulted Obligation will be the lower of its Fitch Collateral Value and its S&P Collateral Value). If the Reinvestment Target Par Balance has not been reached on the Effective Date, an Effective Date Rating Event may occur pursuant to the Conditions which may in certain circumstances lead to an early redemption of the Notes.

4.7 **Prepayment Risk**

Loans are generally prepayable in whole or in part at any time at the option of the obligor thereof at par plus accrued and unpaid interest thereon. Senior Secured Bonds may include obligor call or prepayment features, with or without a premium or make whole. Prepayments on loans and bonds may be caused by a variety of factors, which are difficult to predict. Accordingly, there exists a risk that loans or bonds purchased at a price greater than par may experience a capital loss as a result of such a prepayment. In addition, Principal Proceeds received upon such a prepayment are subject to reinvestment risk. Any inability of the Issuer to reinvest payments or other proceeds in Collateral Debt Obligations with comparable interest rates in compliance with the Reinvestment Criteria may adversely affect the timing and amount of payments and distributions received by the Noteholders and the yield to maturity of the Notes. There can be no assurance that the Issuer will be able to reinvest proceeds in Collateral Debt Obligations with comparable interest rates in compliance with the Reinvestment Criteria or (if it is able to make such reinvestments) as to the length of any delays before such investments are made. The rate of prepayments, amortisation and defaults may be influenced by various factors including:

- changes in Obligor performance and requirements for capital;
- the level of interest rates;
- lack of credit being extended and/or the tightening of credit underwriting standards in the commercial lending industry; and
- the overall economic environment, including any fluctuations in the recovery from the current economic conditions.

The Issuer cannot predict the actual rate of prepayments, accelerated amortisation or defaults which will be experienced with respect to the Collateral Debt Obligations. As a result, the Notes may not be a suitable investment for any investor that requires a regular or predictable schedule of principal payments.

Bonds frequently have call or redemption features (with or without a premium or make whole) that permit the issuer to redeem such obligations prior to their final maturity date.

Repayments on bonds may be caused by a variety of factors which are difficult to predict. Accordingly, there exists a risk that bonds purchased at a price greater than par may experience a capital loss as a result of such repayment. In addition, Principal Proceeds received upon such a repayment are subject to reinvestment risk. Any inability of the Issuer to reinvest payments or other proceeds in Collateral Debt Obligations with comparable interest rates that satisfy the Eligibility Criteria and may be acquired in compliance with the Reinvestment Criteria may adversely affect the timing and amount of payments and distributions received by holders of the Notes and the yield to maturity of the Notes. There can be no assurance that the Issuer will be able to reinvest proceeds in Collateral Debt Obligations with comparable interest rates that satisfy the Eligibility Criteria or in compliance with the Reinvestment Criteria or (if it is able to make such reinvestments) as to the length of any delays before such investments are made.

4.8 **Defaults and Recoveries**

The Collateral Debt Obligations will consist primarily of non-investment grade loans or interests in non-investment grade loans and bonds, which are subject to liquidity, market value, credit, interest rate, reinvestment and certain other risks. It is anticipated that the Collateral Debt Obligations generally will

be subject to greater risks than investment grade corporate obligations. These risks could be exacerbated to the extent that the Portfolio is concentrated in one or more particular types of Collateral Debt Obligations.

Prices of the Collateral Debt Obligations may be volatile, and will generally fluctuate due to a variety of factors that are inherently difficult to predict, including but not limited to changes in interest rates, prevailing credit spreads, general economic conditions, financial market conditions, domestic and international economic or political events, developments or trends in any particular industry, and the financial condition of the Obligor of the Collateral Debt Obligations. The current uncertainty affecting the European economy and the economies of countries in which issuers of the Collateral Debt Obligations are domiciled and the possibility of increased volatility in financial markets could adversely affect the value and performance of the Collateral Debt Obligations. Additionally, loans and interests in loans have significant liquidity and market value risks since they are not generally traded in organised exchange markets but are traded by banks and other institutional investors engaged in loan syndications. Because loans are privately syndicated and loan agreements are privately negotiated and customised, loans are not purchased or sold as easily as publicly traded securities. In addition, historically the trading volume in the loan market has been small relative to the debt securities market.

There is limited historical data available as to the levels of defaults and/or recoveries that may be experienced on Senior Obligations, Second Lien Loans and Mezzanine Obligations and no assurance can be given as to the levels of default and/or recoveries that may apply to any Senior Obligations, Second Lien Loans and Mezzanine Obligations purchased by the Issuer. As referred to above, although any particular Senior Obligations, Second Lien Loans and Mezzanine Obligations often will share many similar features with other loans and obligations of its type, the actual terms of any particular Senior Obligations, Second Lien Loans and Mezzanine Obligations will have been a matter of negotiation and will thus be unique. The types of protection afforded to creditors will therefore vary from investment to investment. Recoveries on both Senior Obligations, Second Lien Loans and Mezzanine Obligations may also be affected by the different bankruptcy regimes applicable in different jurisdictions, the availability of comprehensive security packages in different jurisdictions and the enforceability of claims against the Obligors thereunder.

The effect of an economic downturn on default rates and the ability of finance providers to protect their investment in a default situation is uncertain. Furthermore, the holders of Senior Obligations, Second Lien Loans and Mezzanine Obligations are more diverse than ever before, including not only banks and specialist finance providers but also alternative collateral managers, specialist debt and distressed debt investors and other financial institutions. The increasing diversification of the investor base has also been accompanied by an increase in the use of hedges, swaps and other derivative instruments to protect against or spread the economic risk of defaults. All of these developments may further increase the risk that historic recovery levels will not be realised. The returns on Senior Obligations, Second Lien Loans and/or Mezzanine Obligations therefore may not adequately reflect the risk of future defaults and the ultimate recovery rates.

A non-investment grade loan or debt obligation or an interest in a non-investment grade loan is generally considered speculative in nature and may become a Defaulted Obligation for a variety of reasons. Upon any Collateral Debt Obligation becoming a Defaulted Obligation, such Defaulted Obligation may become subject to either substantial workout negotiations or restructuring, which may entail, among other things, a substantial change in the interest rate, a substantial write-down of principal, a conversion of some or all of the principal debt into equity, and a substantial change in the terms, conditions and covenants with respect to such Defaulted Obligation. Junior creditors may find that a restructuring leads to the total eradication of their debt whilst the borrower continues to service more senior tranches of debt on improved terms for the senior lenders. In addition, such negotiations or restructuring may be quite extensive and protracted over time, and therefore may result in uncertainty with respect to the ultimate recovery on such Defaulted Obligation. Forum shopping for a favourable legal regime for a restructuring

is not uncommon, English law schemes of arrangement having become a popular tool for European incorporated companies, even for borrowers with little connection to the UK. In such instance, a lender may be forced by a court to accept restructuring terms. The liquidity for Defaulted Obligations may be limited, and to the extent that Defaulted Obligations are sold, it is highly unlikely that the proceeds from such sale will be equal to the amount of unpaid principal and interest thereon. Furthermore, there can be no assurance that the ultimate recovery on any Defaulted Obligation will be at least equal either to the minimum recovery rate assumed by the Rating Agencies in rating the Notes or any recovery rate used in the analysis of the Notes by investors (including any such analysis prepared by the Placement Agent for or at the direction of investors) in determining whether to purchase the Notes.

In some European jurisdictions (including the UK), obligors or lenders may seek a "scheme of arrangement". In such instance, a lender may be forced by a court to accept restructuring terms.

Recoveries on Senior Obligations, Second Lien Loans and Mezzanine Obligations will also be affected by the different bankruptcy regimes applicable in different European jurisdictions and the enforceability of claims against the Obligors thereunder. See 4.27 *"Insolvency Considerations relating to Collateral Debt Obligations"*.

It is a requirement of the rating of the Rated Notes that Collateral Debt Obligations that are to constitute Restructured Obligations following a restructuring satisfy the Restructured Obligation Criteria on the applicable Restructuring Date. Such requirement may result in Collateral Debt Obligations ceasing to be Collateral Debt Obligations following a restructuring of the terms thereof.

For the purpose of the foregoing "**Senior Obligations**" means Senior Secured Loans, Senior Secured Bonds and Unsecured Senior Loans.

4.9 **Underlying Portfolio**

Characteristics of Senior Loans, Senior Secured Bonds and Mezzanine Obligations

The Portfolio Profile Tests provide that as of the Effective Date, at least 95.0 per cent. of the Aggregate Collateral Balance must consist of Senior Secured Loans and Senior Secured Bonds] in aggregate (which shall comprise for this purpose the aggregate of the Aggregate Principal Balance of the Senior Secured Loans and Senior Secured Bonds and the balances standing to the credit of the Principal Account and the Unused Proceeds Account, including Eligible Investments that represent Principal Proceeds in respect of such accounts, in each case as at the relevant Measurement Date). Senior Obligations, Second Lien Loans and Mezzanine Obligations are of a type generally incurred by the Obligors thereunder in connection with highly leveraged transactions, often (although not exclusively) to finance internal growth, pay dividends or other distributions to the equity holders in the Obligor, or finance acquisitions, mergers, and/or stock purchases. As a result of the additional debt incurred by the Obligor in the course of such a transaction, the Obligor's creditworthiness is typically judged by the rating agencies to be below investment grade. Senior Secured Loans, Senior Secured Bonds and Unsecured Senior Loans are typically at the most senior level of the capital structure with Second Lien Loans being subordinated thereto and Mezzanine Obligations being subordinated to any Senior Obligations or to any other senior debt of the Obligor. Senior Secured Loans and Senior Secured Bonds are often secured by specific collateral, including but not limited to, trademarks, patents, accounts receivable, inventory, equipment, buildings, real estate, franchises and common and preferred stock of the Obligor and its subsidiaries and any applicable associated liens relating thereto. In continental Europe, security is often limited to shares in certain group companies, accounts receivable, bank account balances and intellectual property rights. Second Lien Loans and Mezzanine Obligations may have the benefit of a second priority charge over such assets. Unsecured Senior Loans do not have the benefit of such security. Senior Secured Loans usually have shorter terms than more junior obligations and often require mandatory prepayments from excess cash flows, asset dispositions and offerings of debt and/or equity securities.

Senior Secured Bonds typically contain bondholder collective action clauses permitting specified majorities of bondholders to approve matters which, in a typical Senior Loan, would require unanimous lender consent. The Obligor under a Senior Secured Bond may therefore be able to amend the terms of the bond, including terms as to the amount and timing of payments, with the consent of a specified majority of bondholders, either voting by written resolution or as a majority of those attending and voting at a meeting, and the Issuer is unlikely to have a blocking minority position in respect of any such resolution. The Issuer may further be restricted by the Collateral Management Agreement from voting on certain matters, particularly extensions of maturity, which may be considered at a bondholder meeting. Consequently, material terms of a Senior Secured Bond may be varied without the consent of the Issuer.

Mezzanine Obligations generally take the form of medium term loans repayable shortly (perhaps six months or one year) after the senior loans of the obligor thereunder are repaid. Because Mezzanine Obligations are only repayable after the senior debt (and interest payments may be blocked to protect the position of senior debt interest in certain circumstances), it will carry a higher rate of interest to reflect the greater risk of it not being repaid. Due to the greater risk associated with Mezzanine Obligations as a result of their subordination below senior loans of the Obligor, mezzanine lenders may be granted share options, warrants or higher cash paying instruments or payment in kind in the Obligor which can be exercised in certain circumstances, principally being immediately prior to the Obligor's shares being sold or floated in an initial public offering.

Some Collateral Debt Obligations may bear interest at a fixed rate, for example high yield bonds. Risks associated with fixed rate obligations are discussed at 4.20 "*Interest Rate Risk*".

The majority of Senior Obligations and Mezzanine Obligations bear interest based on a floating rate index, for example EURIBOR, a certificate of deposit rate, a prime or base rate (each as defined in the applicable loan agreement) or other index, which may reset daily (as most prime or base rate indices do) or offer the borrower a choice of one, two, three, six, nine or twelve month interest and rate reset periods. The purchaser of an interest in a Senior Obligation or Mezzanine Obligation may receive certain syndication or participation fees in connection with its purchase. Other fees payable in respect of a Senior Obligation or Mezzanine Obligation, which are separate from interest payments on such loan, may include facility, commitment, amendment and prepayment fees.

Senior Obligations and Mezzanine Obligations also generally provide for restrictive covenants designed to limit the activities of the Obligors thereunder in an effort to protect the rights of lenders to receive timely payments of interest on, and repayment of, principal of the loans. Such covenants may include restrictions on dividend payments, specific mandatory minimum financial ratios, limits on total debt and other financial tests. A breach of covenant (after giving effect to any cure period) under a Senior Obligation or Mezzanine Obligation which is not waived by the lending syndicate normally is an event of acceleration which allows the syndicate to demand immediate repayment in full of the outstanding loan.

However, although any particular Senior Obligation or Mezzanine Obligation may share many similar features with other loans and obligations of its type, the actual terms of any Senior Obligation or Mezzanine Obligation will have been a matter of negotiation and will be unique. Any such particular loan may contain non-standard terms and may provide less protection for creditors than may be expected generally, including in respect of covenants, events of default, security or guarantees.

Limited Liquidity, Prepayment and Default Risk in relation to Senior Obligations, Second Lien Loans and Mezzanine Obligations

In order to induce banks and institutional investors to invest in a Senior Obligation, Second Lien Loan or Mezzanine Obligation, and to obtain a favourable rate of interest, an Obligor under such an obligation often provides the investors therein with extensive information about its business, which is not generally available to the public. Because of the provision of confidential information, the unique and customised

nature of the loan agreement relating to such Senior Obligation, Second Lien Loan or Mezzanine Obligation, and the private syndication of the Senior Obligations, Second Lien Loans and Mezzanine Obligations are not as easily purchased or sold as a publicly traded security, and historically the trading volume in the loan market has been small relative to, for example, the high yield bond market. Historically, investors in or lenders under European Senior Obligations, Second Lien Loans and Mezzanine Obligations have been predominantly commercial banks and investment banks. The range of investors for such loans has broadened significantly to include money managers, insurance companies, arbitrageurs, bankruptcy investors and mutual funds seeking increased potential total returns and collateral managers of trusts or special purpose companies issuing collateralised bond and loan obligations. As secondary market trading volumes increase, new loans are frequently adopting more standardised documentation to facilitate loan trading which should improve market liquidity. There can be no assurance, however, that future levels of supply and demand in loan trading will provide the degree of liquidity which currently exists in the market. This means that such assets will be subject to greater disposal risk if such assets are sold following enforcement of the security over the Collateral or otherwise. The European market for Mezzanine Obligations is also generally less liquid than that for Senior Obligations, resulting in increased disposal risk for such obligations.

Senior Secured Bonds are generally freely transferrable negotiable instruments (subject to standard selling and transfer restrictions to ensure compliance with applicable law, and subject to minimum denominations) and may be listed and admitted to trading on a regulated or an exchange regulated market; however there is currently no liquid market for them to any materially greater extent than there is for Senior Obligations which are loans. Additionally, as a consequence of the disclosure and transparency requirements associated with such listing, the information supplied by the Obligor to its debtholders may typically be less than would be provided on Senior Obligations which are loans.

Increased Risks for Mezzanine Obligations

The fact that Mezzanine Obligations are generally subordinated to any Senior Obligations and potentially other indebtedness of the relevant Obligor thereunder, may have a longer maturity than such other indebtedness and will generally only have a second ranking security interest over any security granted in respect thereof, increases the risk of non-payment thereunder of such Mezzanine Obligations in an enforcement situation.

Mezzanine Obligations may provide that all or part of the interest accruing thereon will not be paid on a current basis but will be deferred. Mezzanine Obligations also generally involve greater credit and liquidity risks than those associated with investment grade corporate obligations and Senior Obligations. They are often entered into in connection with leveraged acquisitions or recapitalisations in which the Obligors thereunder incur a substantially higher amount of indebtedness than the level at which they previously operated and, as referred to above, sit at a subordinated level in the capital structure of such companies.

Mezzanine Obligations are likely to be subject to intercreditor arrangements that may include restrictions on the ability of the holders of the relevant Mezzanine Obligations from taking independent enforcement action.

Investing in Cov-Lite Loans involves certain risks

The Issuer or the Collateral Manager acting on its behalf may purchase Collateral Debt Obligations which are Cov-Lite Loans. Cov-Lite Loans typically do not have maintenance covenants. Ownership of Cov-Lite Loans may expose the Issuer to different risks, including with respect to liquidity, price volatility and ability to restructure loans, than is the case with loans that have maintenance covenants. In addition, the lack of maintenance covenants may make it more difficult for lenders to trigger a default in respect of such obligations. This may make it more likely that any default arising under a Cov-Lite Loan will arise at a time when the relevant Obligor is in a greater degree of financial stress. Such a delay may make

a successful restructuring more difficult to achieve and/or result in a greater reduction in the value of the Cov-Lite Loans as a consequence of any restructuring effected in such circumstances.

Characteristics of High Yield Bonds

High Yield Bonds are generally unsecured, may be subordinated to other obligations of the applicable obligor and generally involve greater credit and liquidity risks than those associated with investment grade corporate obligations. They are often issued in connection with leveraged acquisitions or recapitalisations in which the obligors thereunder incur a substantially higher amount of indebtedness than the level at which they previously operated. Depending upon market conditions, there may be a very limited market for High Yield Bonds.

High Yield Bonds have historically experienced greater default rates than investment grade securities. Although several studies have been made of historical default rates in the U.S. high yield market, such studies do not necessarily provide a basis for drawing definitive conclusions with respect to default rates and, in any event, do not necessarily provide a basis for predicting future default rates in either the European or the U.S. high yield markets which may exceed the hypothetical default rates assumed by investors in determining whether to purchase the Notes or by the Rating Agencies in rating the Rated Notes.

The lower rating of securities in the high yield sector reflects a greater possibility that adverse changes in the financial condition of an issuer thereof, or in general economic conditions (including a sustained period of rising interest rates or an economic downturn), or both, may affect the ability of such issuer to make payments of principal and interest on its debt. Many issuers of High Yield Bonds are highly leveraged, and specific developments affecting such issuers, including reduced cash flow from operations or inability to refinance debt at maturity, may also adversely affect such issuers' ability to meet their debt service obligations. There can be no assurance as to the levels of defaults and/or recoveries that may be experienced on the High Yield Bonds in the Portfolio.

European High Yield Bonds are generally subordinated structurally, as opposed to contractually, to senior secured debtholders. Structural subordination is when a high yield security investor lends to a holding company whose primary asset is ownership of a cash-generating operating company or companies. The debt investment of the high yield investor is serviced by passing the revenues and tangible assets from the operating companies upstream through the holding company (which typically has no revenue-generating capacity of its own) to the security holders. In the absence of upstream guarantees from operating or asset owning companies in the group, such a process leaves the High Yield Bond investors deeply subordinated to secured and unsecured creditors of the operating companies and means that investors therein will not necessarily have access to the same security package as the senior lenders (even on a second priority charge basis) or be able to participate directly in insolvency proceedings or pre-insolvency discussions relating to the operating companies within the group. This facet of the European high yield market differs from the U.S. high yield market, where structural subordination is markedly less prevalent.

In the case of High Yield Bonds issued by Obligors with their principal place of business in Europe, structural subordination of High Yield Bonds, coupled with the relatively shallow depth of the European high yield market, leads European high yield defaults to realise lower average recoveries than their U.S. counterparts. Another factor affecting recovery rates for European high yield bonds is the bankruptcy regimes applicable in different European jurisdictions and the enforceability of claims against the high yield bond issuer. See 4.27 "*Insolvency Considerations relating to Collateral Debt Obligations*". It must be noted, however, that the overall probability of default (based on credit rating) remains similar for both U.S. and European credits; it is the severity of the effect of any default that differs between the two markets as a result of the aforementioned factors.

In addition to the characteristics described above, high yield securities frequently have call or redemption features that permit the issuer to redeem such obligations prior to their final maturity date. If such a call or redemption were exercised by an issuer during a period of declining interest rates, the Collateral Manager, acting on behalf of the Issuer, may only be able to replace such called obligation with a lower yielding obligation, thus decreasing the net investment income from the Portfolio.

The Collateral Manager may, in accordance with its portfolio management practices and subject to the Transaction Documents, agree on behalf of the Issuer to extend or defer the maturity, or adjust the outstanding balance of any underlying asset, or otherwise amend, modify or waive the terms of any related loan agreement, including the payment terms thereunder. Any amendment, waiver or modification of an underlying asset could postpone the expected maturity of the Notes and/or reduce the likelihood of timely and complete payment of interest on or principal of the Notes.

Investing in Second Lien Loans involves certain risks

The Collateral Debt Obligations may include Second Lien Loans, each of which will be secured by collateral, but which is subordinated (with respect to liquidation preferences with respect to pledged collateral) to other secured obligations of the Obligors secured by all or a portion of the collateral securing such secured loan. Second Lien Loans are typically subject to intercreditor arrangements, the provisions of which may prohibit or restrict the ability of the holder of a Second Lien Loan to (i) exercise remedies against the collateral with respect to their second liens; (ii) challenge any exercise of remedies against the collateral by the first lien lenders with respect to their first liens; (iii) challenge the enforceability or priority of the first liens on the collateral; and (iv) exercise certain other secured creditor rights, both before and during a bankruptcy of the borrower. In addition, during a bankruptcy of the Obligor, the holder of a Second Lien Loan may be required to give advance consent to (a) any use of cash collateral approved by the first lien creditors; (b) sales of collateral approved by the first lien lenders and the bankruptcy court, so long as the second liens continue to attach to the sale proceeds; and (c) "debtor-in-possession" financings.

Liens arising by operation of law may take priority over the Issuer's liens on an Obligor's underlying collateral and impair the Issuer's recovery on a Collateral Debt Obligation if a default or foreclosure on that Collateral Debt Obligation occurs.

Liens on the collateral (if any) securing a Collateral Debt Obligation may arise at law that have priority over the Issuer's interest. An example of a lien arising under law is a tax or other government lien on property of an Obligor. A tax lien may have priority over the Issuer's lien on such collateral. To the extent a lien having priority over the Issuer's lien exists with respect to the collateral related to any Collateral Debt Obligation, the Issuer's interest in the asset will be subordinate to such lien. If the creditor holding such lien exercises its remedies, it is possible that, after such creditor is repaid, sufficient cash proceeds from the underlying collateral will not be available to pay the outstanding principal amount of such Collateral Debt Obligation.

Characteristics of Unsecured Senior Loans

The Collateral Debt Obligations may include Unsecured Senior Loans. Such obligations generally have greater credit, insolvency and liquidity risk than is typically associated with secured obligations. Unsecured Senior Loans will generally have lower rates of recovery than secured obligations following a default. Also, if the insolvency of an Obligor of any Unsecured Senior Loans occurs, the holders of such obligation will be considered general, unsecured creditors of the Obligor and will have fewer rights than secured creditors of the Obligor.

4.10 **Corporate Rescue Obligations**

Corporate Rescue Obligations are made to companies that have experienced, or are experiencing, significant financial or business difficulties such that they have become subject to bankruptcy or other reorganisation and liquidation proceedings and thus involve additional risks. The level of analytical sophistication, both financial and legal, necessary for successful investment in companies experiencing significant business and financial difficulties is unusually high. There is no assurance that the Issuer will correctly evaluate the value of the assets securing the Corporate Rescue Obligation or the prospects for a successful reorganisation or similar action and accordingly the Issuer could suffer significant losses on its investments in such Corporate Rescue Obligation. In any reorganisation or liquidation case relating to a company in which the Issuer invests, the Issuer may lose its entire investment, may be required to accept cash or securities with a value less than the Issuer's original investment and/or may be required to accept payment over an extended period of time.

Distressed company and other asset-based investments require active monitoring and may, at times, require participation by the Issuer in business strategy or bankruptcy proceedings. To the extent that the Issuer becomes involved in such proceedings, the Issuer's more active participation in the affairs of the bankruptcy debtor could result in the imposition of restrictions limiting the Issuer's ability to liquidate its position in the debtor.

Although a Corporate Rescue Obligation is secured, where the Obligor is subject to U.S. bankruptcy law, it has a priority permitted by section 364(c) or section 364(d) under the United States Bankruptcy Code and at the time that it is acquired by the Issuer is required to be current with respect to scheduled payments of interest and principal (if any). This will not typically be the case for Obligor who are not subject to U.S. bankruptcy proceedings.

4.11 **Bridge Loans**

The Portfolio Profile Tests provide that not more than 2.5 per cent. of the Aggregate Collateral Balance may be comprised of Bridge Loans. Bridge Loans are generally a temporary financing instrument and as such the interest rate may increase after a short period of time in order to encourage an Obligor to refinance the Bridge Loan with more long-term financing. If an Obligor is unable to refinance a Bridge Loan, the interest rate may be subject to an increase and as such Bridge Loans may have greater credit and liquidity risk than other types of loans.

4.12 **Workout Obligations**

The Collateral Manager has the discretion at any time but subject to certain conditions and limitations, to purchase Workout Obligations using amounts standing to the credit of the Interest Account, the Principal Account or the Collateral Enhancement Account. Workout Obligations shall not be required to satisfy any of the Eligibility Criteria upon acquisition, but may only be designated as Collateral Debt Obligations by the Collateral Manager in accordance with the terms specified in the Collateral Management Agreement. Until their designation as Collateral Debt Obligations and notwithstanding that they may not have satisfied the Eligibility Criteria, such assets may, subject to certain conditions, be given some value in the calculation of the Par Value Tests. In relation to amounts received in respect of such assets, the Collateral Manager may determine their constitution as either Interest Proceeds or Principal Proceeds, subject to certain conditions. The Collateral Manager can sell such assets at any time and is obliged to sell them in certain circumstances. Interest Proceeds or Principal Proceeds which may otherwise be used to repay Noteholders can be used by the Collateral Manager to purchase Workout Obligations in certain circumstances to the extent permitted pursuant to Condition 3(j) (*Payments to and from the Accounts*). Whilst the discretions of the Collateral Manager to purchase Workout Obligations may permit the Collateral Manager to participate more significantly in restructuring processes, proceeds which may have otherwise been utilised for the purchase of Collateral Debt Obligations may be used to purchase Workout Obligations and there is no guarantee that the acquisition of Workout Obligations will serve to maintain or improve the value of the Portfolio generally, including any related Defaulted Obligations or Credit Impaired Obligations held by the Issuer.

4.13 Collateral Enhancement Obligations

All funds required in respect of the purchase price of any Collateral Enhancement Obligations and all funds required in respect of the exercise price of any rights or options thereunder, may only be paid out of the Balance standing to the credit of the Collateral Enhancement Account at the relevant time as well as from Contributions by Noteholders in accordance with the Conditions. Such Balance shall be comprised of all sums deposited therein from time to time which will comprise interest payable in respect of the Subordinated Notes which the Collateral Manager, acting on behalf of the Issuer, determines shall be paid into the Collateral Enhancement Account pursuant to the Priorities of Payment rather than being paid to the Subordinated Noteholders. The aggregate amount which may be credited to the Collateral Enhancement Account in accordance with the Priorities of Payment are subject to the following caps: (i) in aggregate on any particular Payment Date, such amount may not exceed €3,000,000 and (ii) the cumulative maximum aggregate total in respect of all Payment Dates may not exceed €12,000,000.

The Collateral Manager is under no obligation whatsoever to exercise its discretion (acting on behalf of the Issuer) to take any of the actions described above and there can be no assurance that the Balance standing to the credit of the Collateral Enhancement Account will be sufficient to fund the exercise of any right or option under any Collateral Enhancement Obligation at any time. The ability of the Collateral Manager (acting on behalf of the Issuer) to exercise any rights or options under any Collateral Enhancement Obligation will be dependent upon there being sufficient amounts standing to the credit of the Collateral Enhancement Account to pay the costs of any such exercise. Failure to exercise any such right or option may result in a reduction of the returns to the Subordinated Noteholders (and, potentially, Noteholders of other Classes).

Collateral Enhancement Obligations and any income or return generated thereby are not taken into account for the purposes of determining satisfaction of, or required to satisfy, any of the Coverage Tests, the Portfolio Profile Tests, the Collateral Quality Tests, the Principal Transfer Test or the Reinvestment Overcollateralisation Test.

To the extent that there are insufficient sums standing to the credit of the Collateral Enhancement Account from time to time to purchase or exercise rights under Collateral Enhancement Obligations which the Collateral Manager determines on behalf of the Issuer should be purchased or exercised, the Collateral Manager may, at its discretion and subject to satisfaction of the requirements set out Condition 3(k) (*Collateral Manager Advances*), pay amounts required in order to fund such purchase or exercise (each such amount, a "**Collateral Manager Advance**") to such account pursuant to the terms of the Collateral Management Agreement. All such Collateral Manager Advances shall be repaid (together with interest thereon) out of the Interest Proceeds and Principal Proceeds on each Payment Date pursuant to the Priorities of Payment.

4.14 Limited Control of Administration and Amendment of Collateral Debt Obligations

As a holder of an interest in a syndicated loan, the Issuer will have limited consent and control rights and such rights may not be effective in view of the expected proportion of such obligations held by the Issuer. The Collateral Manager will exercise or enforce, or refrain from exercising or enforcing, any or all of the Issuer's rights in connection with the Collateral Debt Obligations or any related documents or will refuse amendments or waivers of the terms of any underlying asset and related documents in accordance with its investment management practices and the standard of care specified in the Collateral Management Agreement. The Noteholders will not have any right to compel the Collateral Manager to take or refrain from taking any actions other than in accordance with its investment management practices and the Standard of Care specified in the Collateral Management Agreement.

The Collateral Manager may, in accordance with its investment management practices and subject to the Trust Deed and the Collateral Management Agreement, agree on behalf of the Issuer to extend or defer the maturity, or adjust the outstanding balance of any underlying asset, or otherwise amend, modify or

waive the terms of any related loan agreement, including the payment terms thereunder. Any amendment, waiver or modification of an underlying asset could postpone the expected maturity of the Notes and/or reduce the likelihood of timely and complete payment of interest on or principal of the Notes.

4.15 **Participations, Novations and Assignments**

The Collateral Manager, acting on behalf of the Issuer may acquire interests in Collateral Debt Obligations which are loans either directly (by way of novation or assignment) or indirectly (by way of sub participation). Each institution from which such an interest is taken by way of participation or acquired by way of assignment is referred to herein as a "**Selling Institution**". Interests in loans acquired directly by way of novation or assignment are referred to herein as "**Assignments**". Interests in loans taken indirectly by way of sub participation are referred to herein as "**Participations**".

The purchaser of an Assignment typically succeeds to all the rights of the assigning Selling Institution and becomes entitled to the benefit of the loans and the other rights of the lender under the loan agreement. The Issuer, as an assignee, will generally have the right to receive directly from the borrower all payments of principal and interest to which it is entitled, provided that notice of such Assignment has been given to the borrower. As a purchaser of an Assignment, the Issuer typically will have the same voting rights as other lenders under the applicable loan agreement and will have the right to vote to waive enforcement of breaches of covenants. The Issuer will generally also have the same rights as other lenders to enforce compliance by the borrower with the terms of the loan agreement, to set off claims against the borrower and to have recourse to collateral supporting the loan. As a result, the Issuer will generally not bear the credit risk of the Selling Institution and the insolvency of the Selling Institution should have no effect on the ability of the Issuer to continue to receive payment of principal or interest from the borrower once the novation or assignment is complete. The Issuer will, however, assume the credit risk of the borrower. The purchaser of an Assignment also typically succeeds to and becomes entitled to the benefit of any other rights of the Selling Institution in respect of the loan agreement including the right to the benefit of any security granted in respect of the loan interest transferred. The loan agreement usually contains mechanisms for the transfer of the benefit of the loan and the security relating thereto. The efficacy of these mechanisms is rarely tested, if ever, and there is debate amongst counsel in continental jurisdictions over their effectiveness. With regard to some of the loan agreements, security will have been granted over assets in different jurisdictions. Some of the jurisdictions will require registrations, filings and/or other formalities to be carried out not only in relation to the transfer of the loan but, depending on the mechanism for transfer, also with respect to the transfer of the benefit of the security.

Participations by the Issuer in a Selling Institution's portion of the loan typically results in a contractual relationship only with such Selling Institution and not with the borrower under such loan. The Issuer would, in such case, only be entitled to receive payments of principal and interest to the extent that the Selling Institution has received such payments from the borrower. In purchasing Participations, the Issuer generally will have no right to enforce compliance by the borrower with the terms of the applicable loan agreement and the Issuer may not directly benefit from the collateral supporting the loan in respect of which it has purchased a Participation. As a result, the Issuer will assume the credit risk of both the borrower and the Selling Institution selling the Participation. If the Selling Institution selling a Participation becomes insolvent, the Issuer may be treated as a general creditor of the Selling Institution and may not benefit from any set off between the Selling Institution and the borrower and the Issuer may suffer a loss to the extent that the borrower sets off claims against the Selling Institution. The Issuer may purchase a Participation from a Selling Institution that does not itself retain any economic interest in the loan, and therefore, may have limited interest in monitoring the terms of the loan agreement and the continuing creditworthiness of the borrower. When the Issuer holds a Participation in a loan it generally will not have the right to participate directly in any vote to waive enforcement of any covenants breached by a borrower. A Selling Institution voting in connection with a potential waiver of a restrictive covenant may have interests which are different from those of the Issuer and such Selling Institutions may not be required to consider the interest of the Issuer in connection with the exercise of its votes. Whilst the

Issuer may have a right to elevate a Participation to a direct interest in the participated loan, such right may be limited by a number of factors.

In addition, Participations may be subject to the exercise of the "bail-in" powers attributed to Resolution Authorities under the BRRD or similar resolution mechanisms provided for in the SRM Regulation. See 2.21 "*EU Bank Recovery and Resolution Directive*".

Additional risks are therefore associated with the purchase of Participations by the Issuer as opposed to Assignments. The Portfolio Profile Tests including the Bivariate Risk Table impose limits on the amount of Collateral Debt Obligations that may comprise Participations as a proportion of the Aggregate Collateral Balance.

4.16 **Voting Restrictions on Syndicated Loans for Minority Holders**

The Issuer will generally purchase each underlying asset in the form of an assignment of, or participation interest in, a note or other obligation issued under a loan facility to which more than one lender is a party. These loan facilities are administered for the lenders by a lender or other agent acting as the lead administrator. The terms and conditions of these loan facilities may be amended, modified or waived only by the agreement of the lenders. Generally, any such agreement requires the consent of a majority or a super-majority (measured by outstanding loans or commitments) or, in certain circumstances, a unanimous vote of the lenders, and the Issuer may have a minority interest in such loan facilities. Consequently, the terms and conditions of an underlying asset issued or sold in connection with a loan facility could be modified, amended or waived in a manner contrary to the preferences of the Issuer if the amendment, modification or waiver of such term or condition does not require the unanimous vote of the lenders and a sufficient number of the other lenders concur with such modification, amendment or waiver. There can be no assurance that any Collateral Debt Obligations issued or sold in connection with any loan facility will maintain the terms and conditions to which the Issuer or a predecessor in interest to the Issuer originally agreed.

4.17 **Counterparty Risk**

Assignments, Participations and Hedge Transactions involve the Issuer entering into contracts with counterparties. Pursuant to such contracts, the counterparties agree to make payments to the Issuer under certain circumstances as described therein. The Issuer will be exposed to the credit risk of the counterparty with respect of any such payments. Counterparties in respect of Participations and Hedge Transactions are required to satisfy the applicable Rating Requirement, upon entry into the applicable contract or instrument.

If a Hedge Counterparty is subject to a rating withdrawal or downgrade by the Rating Agencies to below the applicable Rating Requirement, there will generally be a termination event under the applicable Hedge Agreement unless, within the applicable grace period following such rating withdrawal or downgrade, such Hedge Counterparty either transfers its obligations under the applicable Hedge Agreement to a replacement counterparty with the requisite ratings, obtains a guarantee of its obligations by a guarantor with the requisite ratings, collateralises its obligations in a manner satisfactory to the Rating Agencies or employs some other strategy as results in the rating of the Rated Notes being maintained at their then current level within the remedy period specified in the ratings criteria of the Rating Agencies.

Similarly, the Issuer will be exposed to the credit risk of the Account Bank and the Custodian to the extent of, respectively, all cash of the Issuer held in the Accounts and all Collateral of the Issuer held by the Custodian. If the Account Bank or the Custodian is subject to a rating withdrawal or downgrade by the Rating Agencies to below the applicable Rating Requirement, the Issuer shall use its reasonable endeavours to procure the appointment of a replacement Account Bank or Custodian, as the case may be, with the applicable Rating Requirement and within the time limits prescribed for such action in the applicable Transaction Documents. There can be no assurance that the applicable Hedge Counterparty will be able to transfer its obligations to a suitable replacement counterparty or exercise any of the other aforementioned remedies within the specified remedy period. Failure to do so may result in interest rate

or currency mismatches, which could adversely affect the ability of the Issuer to make payments on the Notes as the Issuer may not receive payments it would otherwise be entitled to from such Hedge Counterparty to cover its interest rate risk exposure or currency risk exposure in respect of Non-Euro Obligations for so long as the Issuer has not entered into a replacement Hedge Transaction (see 4.20 "Interest Rate Risk" and 4.21 "Non-Euro Obligations and Currency Hedge Transactions – Currency Risk"). For further information, see the section of this Offering Circular titled "Hedging Arrangements".

Transactions with counterparties that are relevant institutions for the purposes of the BRRD may be subject to the exercise of the "bail-in" powers attributed to Resolution Authorities under the BRRD or similar resolution mechanisms provided for in the SRM Regulation. See 2.21 "EU Bank Recovery and Resolution Directive".

4.18 **Concentration Risk**

Although no significant concentration with respect to any particular Obligor, industry or country is expected to exist at the Effective Date, the concentration of the Portfolio in any one Obligor would subject the Notes to a greater degree of risk with respect to defaults by such Obligor, and the concentration of the Portfolio in any one industry would subject the Notes to a greater degree of risk with respect to economic downturns relating to such industry. The Portfolio Profile Tests and Collateral Quality Tests attempt to mitigate any concentration risk in the Portfolio. See the section of this Offering Circular titled "The Portfolio - Portfolio Profile Tests and Collateral Quality Tests". Although the resulting diversification of Collateral may reduce the risk described above, the diversification requirements applicable to the Issuer may cause the Issuer to invest in obligors or industries that suffer more defaults than if the Issuer were not required to invest in a diversified portfolio.

4.19 **Credit Risk**

Risks applicable to Collateral Debt Obligations also include the possibility that earnings of the Obligor may be insufficient to meet its debt service obligations thereunder and the declining creditworthiness and potential for insolvency of the Obligor of such Collateral Debt Obligations during periods of rising interest rates and economic downturn. An economic downturn could severely disrupt the market for leveraged loans and adversely affect the value thereof and the ability of the Obligor thereunder to repay principal and interest.

4.20 **Interest Rate Risk**

The Class X Notes, Class A Notes, Class B-1 Notes, Class C Notes, Class D Notes, Class E Notes and Class F Notes bear interest at a floating rate based on EURIBOR. The Class B-2 Notes bear interest at a fixed rate of interest. It is possible that Collateral Debt Obligations (in particular Senior Secured Bonds and High Yield Bonds) may bear interest at fixed rates and there is no requirement that the amount or portion of Collateral Debt Obligations securing the Notes must bear interest on a particular basis, save for the Portfolio Profile Test which requires that not more than 5.0 per cent. of the Aggregate Collateral Balance may comprise Fixed Rate Collateral Debt Obligations (or in relation to a Fitch Test Matrix selected by the Collateral Manager where such Fitch Test Matrix applies a maximum percentage of the Aggregate Collateral Balance that can comprise Fixed Rate Collateral Debt Obligations, such lower percentage calculated in accordance with the provisions set out in the section of this Offering Circular entitled "The Portfolio — Portfolio Profile Tests and Collateral Quality Tests — Fitch Test Matrices").

In addition, any payments of principal or interest received in respect of Collateral Debt Obligations and not otherwise reinvested during the Reinvestment Period in Substitute Collateral Debt Obligations will generally be invested in Eligible Investments until shortly before the next Payment Date. There is no requirement that such Eligible Investments bear interest on a particular basis, and the interest rates available for such Eligible Investments are inherently uncertain.

As a result of these factors, it is expected that there will be a fixed/floating rate mismatch, floating rate basis mismatch, maturity date mismatch and/or mismatch in timing of determination of the applicable floating rate benchmark, in each case between the Notes and the underlying Collateral Debt Obligations and Eligible Investments. Such mismatch may be material and may change from time to time as the composition of the related Collateral Debt Obligations and Eligible Investments change and as the liabilities of the Issuer accrue or are repaid. As a result of such mismatches, changes in the level of EURIBOR could adversely affect the ability to make payments on the Notes. In addition, pursuant to the Collateral Management Agreement, the Collateral Manager, acting on behalf of the Issuer, is authorised to enter into the Hedge Transactions in order to mitigate such interest rate mismatch from time to time, subject to receipt in each case of Rating Agency Confirmation in respect thereof and subject to certain regulatory considerations in relation to swaps, discussed in 2.8 "*Commodity Pool Regulation*". However, the Issuer will depend on each Hedge Counterparty to perform its obligations under any Hedge Transaction to which it is a party and if any Hedge Counterparty defaults or becomes unable to perform due to insolvency or otherwise, the Issuer may not receive payments it would otherwise be entitled to from such Hedge Counterparty to cover its interest rate risk exposure. Furthermore, the terms of the Hedge Agreements may provide for the ability of the Hedge Counterparty to terminate such Hedge Agreement upon the occurrence of certain events, including related to certain regulatory matters. Any such termination in the case of an Interest Rate Hedge Transaction would result in the Issuer's exposure to interest rate exposure increasing, and may result in the Issuer being required to pay a termination amount to the relevant Hedge Counterparty. See the section of this Offering Circular titled "*Hedging Arrangements*".

If a significant number of Collateral Debt Obligations pay interest on a semi-annual basis there may be insufficient interest received to make quarterly interest payments on the Notes prior to the occurrence of a Frequency Switch Event. In order to mitigate the effects of any such timing mis-match, the Issuer will hold back a portion of the interest received on Collateral Debt Obligations which pay interest less frequently than quarterly in order to make quarterly payments of interest on the Notes ("**Interest Smoothing**"). In addition, to mitigate re-set risk, a Frequency Switch Event shall occur if (amongst other things) a sufficient portion of the Collateral Debt Obligations re-set from quarterly to semi-annual pay, as more particularly described in the definition of "**Frequency Switch Event**". There can be no assurance that Interest Smoothing and the occurrence of a Frequency Switch Event shall be sufficient to mitigate any timing and reset risks, respectively. Furthermore, the Portfolio Profile Tests permit up to 5.0 per cent. of the Aggregate Collateral Balance to comprise Annual Obligations (being Collateral Debt Obligations which, in accordance with their terms, pay interest less frequently than semi-annually).

There can be no assurance that the Collateral Debt Obligations and Eligible Investments securing the Notes will in all circumstances generate sufficient Interest Proceeds to make timely payments of interest on the Notes or that any particular levels of return will be generated on the Subordinated Notes.

On 5 June 2014, the European Central Bank announced that it would charge a negative rate of interest on bank deposits with the European Central Bank. To the extent the European Central Bank's or other central bank's deposit rate from time to time results in the Account Bank or the Custodian incurring negative deposit rates as a result of maintaining any accounts on the Issuer's behalf, the Issuer will be required to reimburse the Account Bank or the Custodian in an amount equal to the chargeable interest incurred on such accounts as a result of such negative deposit rates. Prospective investors should note that given recent levels of, and moves in respect of, deposit rates, it appears likely the Issuer will be required to make such payments in reimbursement of the Account Bank and the Custodian. Any such payments shall be paid as Administrative Expenses, subject to and in accordance with the Priorities of Payment and may, accordingly, have a negative impact on the amounts available to the Issuer to apply as payments on the Notes.

To the extent that the European Central Bank's or other central bank's deposit rate from time to time results in obligors in respect of financial instruments held by the Issuer as Eligible Investments incurring

negative deposit rates as a result of having issued such instruments and whilst such instruments remain outstanding, the Issuer (as holder of such instruments) may also be required to compensate the relevant obligors for such chargeable interest incurred in the form of a mandatory reduction in the principal amount outstanding of such instruments in accordance with their terms.

4.21 **Non-Euro Obligations and Currency Hedge Transactions**

The Portfolio Profile Tests provide that up to 20.0 per cent. of the Aggregate Collateral Balance may comprise Non-Euro Obligations denominated in certain Qualifying Currencies. The percentage of the Portfolio that is comprised of these types of obligations may increase or decrease over the life of the Notes within the limits set by the Portfolio Profile Tests. Although the Issuer intends to hedge against certain currency exposures pursuant to Currency Hedge Transactions, it is not required that all Non-Euro Obligations must be the subject of an Currency Hedge Transaction. In accordance with the Portfolio Profile Tests, up to 2.5 per cent. of the Aggregate Collateral Balance may consist of Unhedged Collateral Debt Obligations.

Notwithstanding that Non-Euro Obligations may be subject to Currency Hedge Transactions, fluctuations in the currency exchange rates for currencies in which Collateral Debt Obligations are denominated may lead to the proceeds of the Portfolio being insufficient to pay all amounts due to the respective Classes of Noteholders. In addition, fluctuations in euro exchange rates may result in a decrease in value of the Portfolio for the purposes of sale thereof (including but not limited to a Non-Euro Obligation upon enforcement of the security over it). The Collateral Manager may also be limited at the time of investment in its choice of Collateral Debt Obligations because of the cost of entry into such Currency Hedge Transactions and due to restrictions in the Collateral Management Agreement with respect thereto. The Collateral Manager may also be unable to find suitable Hedge Counterparties willing to provide Currency Hedge Transactions. Furthermore, the terms of the Hedge Agreements may provide for the ability of the Hedge Counterparty to terminate such Hedge Agreement upon the occurrence of certain events, including related to certain regulatory matters. Any such termination in the case of an Currency Hedge Transaction would result in the Issuer being exposed to currency risk in respect of the related Non-Euro Obligations for so long as the Issuer has not entered into a replacement Currency Hedge Transaction, and may result in the Issuer being required to pay a termination amount to the relevant Hedge Counterparty. There are also currently a number of regulatory initiatives which may make it difficult or impossible for the Issuer to enter into Currency Hedge Transactions or Interest Rate Hedge Transactions. See 2.4 "*European Market Infrastructure Regulation (EMIR)*", 2.7 "*CFTC Regulations*" and 2.8 "*Commodity Pool Regulation*".

The Issuer's ongoing payment obligations under such Currency Hedge Transactions (including termination payments) may be significant. The payments associated with such hedging arrangements generally rank senior to payments on the Notes. In addition, it may be necessary for the Issuer to make substantial up-front payments in order to enter into currency hedging arrangements on the terms required by the Collateral Management Agreement.

Defaults, prepayments, trading and other events may increase the risk of a mismatch between the foreign exchange hedges and Collateral Debt Obligations. This may cause losses.

The Issuer will depend upon the Currency Hedge Counterparty to perform its obligations under any hedges. If the Currency Hedge Counterparty defaults or becomes unable to perform due to insolvency or otherwise, the Issuer may not receive payments it would otherwise be entitled to from the Currency Hedge Counterparty to cover its foreign exchange exposure.

4.22 **Long-Dated Restructured Obligations**

Investors should note that 3.0 per cent. of the Aggregate Collateral Balance may consist of Restructured Obligations with a Collateral Debt Obligation Stated Maturity falling on or after the Maturity Date of the

Notes. If the CLO is not redeemed prior to the Maturity Date, the Issuer (or the Collateral Manager acting on its behalf) will be required to sell any Long-Dated Restructured Obligations prior to the Maturity Date of the Notes at the then current market value. In such circumstances the Issuer (or the Collateral Manager acting on its behalf) will not be able to hold on to such assets to obtain the best price. This could lead to less proceeds available to redeem the Notes on their Maturity Date.

4.23 **Reinvestment Risk/Uninvested Cash Balances**

To the extent the Issuer (or the Collateral Manager on its behalf) maintains cash balances invested in short-term investments instead of higher yielding loans or bonds, portfolio income will be reduced which will result in reduced amounts available for payment on the Notes. In general, the larger the amount and the longer the time period during which cash balances remain uninvested the greater the adverse impact on portfolio income which will reduce amounts available for payment on the Notes, especially the Subordinated Notes. The extent to which cash balances remain uninvested will be subject to a variety of factors, including future market conditions and is difficult to predict.

During the Reinvestment Period, subject to compliance with certain criteria and limitations described herein, the Collateral Manager will have discretion to dispose of certain Collateral Debt Obligations and to reinvest the proceeds thereof in Substitute Collateral Debt Obligations in compliance with the Reinvestment Criteria. In addition, during the Reinvestment Period, to the extent that any Collateral Debt Obligations prepay or mature prior to the Maturity Date, the Collateral Manager will seek to invest the proceeds thereof in Substitute Collateral Debt Obligations, subject to the Reinvestment Criteria. In addition, following the expiry of the Reinvestment Period, the Collateral Manager may reinvest some types of Principal Proceeds - see 3.8 "*The Collateral Manager May Reinvest After the End of the Reinvestment Period*". The yield with respect to such Substitute Collateral Debt Obligations will depend, among other factors, on reinvestment rates available at the time, on the availability of investments which satisfy the Reinvestment Criteria and are acceptable to the Collateral Manager, and on market conditions related to high yield securities and bank loans in general. The need to satisfy such Reinvestment Criteria and identify acceptable investments may require the purchase of Collateral Debt Obligations with a lower yield than those replaced, with different characteristics than those replaced (including, but not limited to, coupon, maturity, call features and/or credit quality) or require that such funds be maintained in cash or Eligible Investments pending reinvestment in Substitute Collateral Debt Obligations, which will further reduce the Adjusted Collateral Principal Amount. Any decrease in the Adjusted Collateral Principal Amount will have the effect of reducing the amounts available to make distributions of interest on the Notes which will adversely affect cash flows available to make payments on the Notes, especially the most junior Class or Classes of Notes. There can be no assurance that if the Collateral Debt Obligations are sold, prepaid, or mature, yields on Collateral Debt Obligations that are eligible for purchase will be at the same levels as those replaced and there can be no assurance that the characteristics of any Substitute Collateral Debt Obligations purchased will be the same as those replaced and there can be no assurance as to the timing of the purchase of any Substitute Collateral Debt Obligations.

The timing of the initial investment of the net proceeds of issue of the Notes remaining after the payment of certain fees and expenses due and payable by the Issuer on the Issue Date and reinvestment of Sale Proceeds, Scheduled Principal Proceeds and Unscheduled Principal Proceeds, can affect the return to holders of, and cash flows available to make payments on, the Notes, especially the most junior Class or Classes of Notes. Loans and privately placed high yield securities are not as easily (or as quickly) purchased or sold as publicly traded securities for a variety of reasons, including confidentiality requirements with respect to Obligor information, the customised nature of loan agreements and private syndication. The reduced liquidity and lower volume of trading in loans, in addition to restrictions on investment represented by the Reinvestment Criteria, could result in periods of time during which the Issuer is not able to fully invest its cash in Collateral Debt Obligations. The longer the period between reinvestment of cash in Collateral Debt Obligations, the greater the adverse impact may be on the aggregate amount of the Interest Proceeds collected and distributed by the Issuer, including on the Notes, especially the most junior Class or Classes of Notes, thereby resulting in lower yields than could have

been obtained if Principal Proceeds were immediately reinvested. In addition, loans are often prepayable by the borrowers thereof with no, or limited, penalty or premium. As a result, loans generally prepay more frequently than other corporate debt obligations of the issuers thereof. Senior loans usually have shorter terms than more junior obligations and often require mandatory repayments from excess cash flow, asset dispositions and offerings of debt and/or equity securities. The increased levels of prepayments and amortisation of loans increase the associated reinvestment risk on the Collateral Debt Obligations which risk will first be borne by holders of the Subordinated Notes and then by holders of the Rated Notes, beginning with the most junior Class.

In addition, the amount of Collateral Debt Obligations owned by the Issuer on the Issue Date, the timing of purchases of additional Collateral Debt Obligations on and after the Issue Date and the scheduled interest payment dates of those Collateral Debt Obligations may have a material impact on collections of Interest Proceeds during the first Due Period, which could affect interest payments on the Rated Notes and the payment of distributions to the Subordinated Notes on the first Payment Date.

4.24 Rising Interest Rates may Render some Obligors Unable to pay Interest on their Collateral Debt Obligations

Most of the Collateral Debt Obligations bear interest at floating interest rates. To the extent interest rates increase, periodic interest obligations owed by the related Obligors will also increase. As prevailing interest rates increase, some Obligors may not be able to make the increased interest payments on Collateral Debt Obligations or refinance their balloon and bullet Collateral Debt Obligations, resulting in payment defaults, Defaulted Obligations and an inability of the Issuer to make payment on some or all Classes of Notes. Conversely if interest rates decline, Obligors may refinance their Collateral Debt Obligations at lower interest rates which could shorten the average life of the Notes.

4.25 Balloon Obligations and Bullet Obligations Present Refinancing Risk

The Collateral may consist of Collateral Debt Obligations that are either balloon obligations or bullet obligations. Balloon obligations and bullet obligations involve a greater degree of risk than other types of transactions because they are structured to allow for either small (balloon) or no (bullet) principal payments over the term of the loan, requiring the Obligor to make a large final payment upon the maturity of the Collateral Debt Obligation. The ability of such Obligor to make this final payment upon the maturity of the Collateral Debt Obligation typically depends upon its ability either to refinance the Collateral Debt Obligation prior to maturity or to generate sufficient cash flow to repay the Collateral Debt Obligation at maturity. The ability of any Obligor to accomplish any of these goals will be affected by many factors, including the availability of financing at acceptable rates to such Obligor, the financial condition of such Obligor, the marketability of the collateral (if any) securing such Collateral Debt Obligation, the operating history of the related business, tax laws and the prevailing general economic conditions. Consequently, such Obligor may not have the ability to repay the Collateral Debt Obligation at maturity, and the Issuer could lose all or most of the principal of the Collateral Debt Obligation. Given their relative size and limited resources and access to capital, some Obligors may have difficulty in repaying or refinancing their balloon and bullet Collateral Debt Obligation on a timely basis or at all.

4.26 Ratings on Collateral Debt Obligations

Credit ratings of Collateral Debt Obligations represent the rating agencies' opinions regarding their credit quality but are not a guarantee of such quality or performance. A credit rating is not a recommendation to buy, sell or hold Collateral Debt Obligations and may be subject to revision, suspension or withdrawal at any time by the assigning rating agency. If a credit rating assigned to any Collateral Debt Obligation is lowered for any reason, no party is obliged to provide any additional support or credit enhancement with respect to such Collateral Debt Obligation. Rating agencies attempt to evaluate the relative future creditworthiness of an obligation and do not address other risks, including but not limited to liquidity risk, market value or price volatility; therefore, ratings do not fully reflect the true risks of an investment. Also, rating agencies may fail to make timely changes in credit ratings in response to subsequent events,

so that an Obligor's current financial condition may be better or worse than a rating indicates. Consequently, credit ratings of any Collateral Debt Obligation (as is also the case in respect of the Rated Notes) should be used only as a preliminary indicator of investment quality and should not be considered a completely reliable indicator of investment quality. Rating reductions or withdrawals may occur for any number of reasons and may affect numerous Collateral Debt Obligations at a single time or within a short period of time, with material adverse effects upon the Notes. It is possible that many credit ratings of Collateral Debt Obligations that the Issuer holds from time to time will be subject to significant or severe adjustments downward.

The Collateral Quality Tests, the Portfolio Profile Tests, the Coverage Tests, the Principal Transfer Test and the Reinvestment Overcollateralisation Test are sensitive to variations in the ratings applicable to the underlying Collateral Debt Obligations. Generally, deteriorations in the business environment or increases in the business risks facing any particular Obligor may result in downgrade of its obligations, which may result in such obligation becoming a Credit Impaired Obligation, a Fitch CCC Obligation, an S&P CCC Obligation or a Defaulted Obligation (and therefore potentially subject to haircuts in the determination of the Par Value Tests, the Principal Transfer Test and the Reinvestment Overcollateralisation Test and restriction in the Portfolio Profile Tests). The Collateral Management Agreement contains detailed provisions for determining the S&P Rating and the Fitch Rating. In some instances, the S&P Rating and the Fitch Rating will not be based on or derived from a public rating of the Obligor or the actual Collateral Debt Obligation but may be based on either a private rating of the Obligor or Collateral Debt Obligation or, in certain cases, a confidential credit estimate determined separately by S&P, Fitch or Moody's. Such private ratings and confidential credit estimates are private and therefore not capable of being disclosed to Noteholders. In addition, some ratings will be derived by the Collateral Manager based on, among other things, Obligor group or affiliate ratings, comparable ratings provided by a different rating agency and, in certain circumstances, temporary ratings applied by the Collateral Manager. Furthermore, such derived ratings will not reflect detailed credit analysis of the particular Collateral Debt Obligation and may reflect a more or less conservative view of the actual credit risk of such Collateral Debt Obligation than any such fundamental credit analysis might, if conducted, warrant; and model-derived variations in such ratings may occur (and have consequential effects on the Collateral Quality Tests, the Portfolio Profile Tests and the Coverage Tests) without necessarily reflecting comparable variation in the actual credit quality of the Collateral Debt Obligation in question. See the sections of this Offering Circular titled "*Ratings of the Notes*" and "*The Portfolio*".

There can be no assurance that rating agencies will continue to assign such ratings utilising the same methods and standards utilised as at the date of this Offering Circular despite the fact that such Collateral Debt Obligation might still be performing fully to the specifications set forth in its Underlying Instrument. Any change in such methods and standards could result in a significant rise in the number of Fitch CCC Obligations, S&P CCC Obligations and/or Defaulted Obligations in the Portfolio, which could cause the Issuer to fail to satisfy (i) the Par Value Tests on subsequent Determination Dates, which failure could lead to the early amortisation of some or all of one or more Classes of the Notes or restrict the Issuer (or the Collateral Manager on its behalf) from reinvesting in substitute Collateral Debt Obligations (see Condition 7(c) (*Mandatory Redemption upon Breach of Coverage Tests*)) or (ii) the Reinvestment Overcollateralisation Test, which failure could cause a reduction in the amounts available for distribution to the Subordinated Noteholders.

4.27 **Insolvency Considerations relating to Collateral Debt Obligations**

Collateral Debt Obligations may be subject to various laws enacted for the protection of creditors in the countries of the jurisdictions of incorporation of Obligors and, if different, in which the Obligors conduct business and in which they hold the assets, which may adversely affect such Obligors' abilities to make payment on a full or timely basis. These insolvency considerations will differ depending on the country in which each Obligor is located or domiciled and may differ depending on whether the Obligor is a non-sovereign or a sovereign entity. In particular, it should be noted that a number of continental European jurisdictions operate "debtor friendly" insolvency regimes which would result in delays in payments

under Collateral Debt Obligations where obligations thereunder are subject to such regimes, if the relevant Obligor becomes insolvent.

The different insolvency regimes applicable in the different European jurisdictions result in a corresponding variability of recovery rates for different types of Collateral Debt Obligations entered into by Obligor in such jurisdictions. No reliable historical data is available.

4.28 **Lender Liability Considerations; Equitable Subordination**

In recent years, a number of judicial decisions in the United States and other jurisdictions have upheld the right of borrowers to sue lenders or bondholders on the basis of various evolving legal theories (collectively, termed "**lender liability**"). Generally, lender liability is founded upon the premise that an institutional lender or bondholder has violated a duty (whether implied or contractual) of good faith and fair dealing owed to the borrower or issuer or has assumed a degree of control over the borrower or issuer resulting in the creation of a fiduciary duty owed to the borrower or issuer or its other creditors or shareholders. Although it would be a novel application of the lender liability theories, the Issuer may be subject to allegations of lender liability. However, the Issuer does not intend to engage in, and the Collateral Manager does not intend to advise the Issuer with respect to, any conduct that would form the basis for a successful cause of action based upon lender liability.

In addition, under common law principles that in some cases form the basis for lender liability claims, if a lender or bondholder (a) intentionally takes an action that results in the under capitalisation of a borrower to the detriment of other creditors of such borrower, (b) engages in other inequitable conduct to the detriment of such other creditors, (c) engages in fraud with respect to, or makes misrepresentations to, such other creditors or (d) uses its influence as a stockholder to dominate or control a borrower to the detriment of other creditors of such borrower, a court may elect to subordinate the claim of the offending lender or bondholder to the claims of the disadvantaged creditor or creditors, a remedy called "**equitable subordination**". Because of the nature of the Collateral Debt Obligations, the Issuer may be subject to claims from creditors of an Obligor that Collateral Debt Obligations issued by such Obligor that are held by the Issuer should be equitably subordinated. However, the Issuer does not intend to engage in, and the Collateral Manager does not intend to advise the Issuer with respect to, any conduct that would form the basis for a successful cause of action based upon the equitable subordination doctrine.

Because Affiliates of, or Persons related to, the Collateral Manager may hold equity or other interests in Obligor of Collateral Debt Obligations, the Issuer could be exposed to claims for equitable subordination or lender liability or both based on such equity or other holdings.

The preceding discussion is based upon principles of United States federal and state laws. Insofar as Collateral Debt Obligations that are obligations of non-United States Obligor are concerned, the laws of certain foreign jurisdictions may impose liability upon lenders or bondholders under factual circumstances similar to those described above, with consequences that may or may not be analogous to those described above under United States federal and state laws.

4.29 **Loan Repricing**

Leveraged loans may experience volatility in the spread that is paid on such leveraged loans. Such spreads will vary based on a variety of factors, including, but not limited to, the level of supply and demand in the leveraged loan market, general economic conditions, levels of relative liquidity for leveraged loans, the actual and perceived level of credit risk in the leveraged loan market, regulatory changes, changes in credit ratings, and the methodology used by credit rating agencies in assigning credit ratings, and such other factors that may affect pricing in the leveraged loan market. Since leveraged loans may generally be prepaid at any time without penalty, the obligors of such leveraged loans would be expected to prepay or refinance such leveraged loans if alternative financing were available at a lower cost. For example, if the credit ratings of an obligor were upgraded, the obligor were recapitalised or if

credit spreads were declining for leveraged loans, such obligor would likely seek to refinance at a lower credit spread. Declining credit spreads in the leveraged loan market and increasing rates of prepayments and refinancings will likely result in a reduction of portfolio yield and interest collection on the Collateral Debt Obligations, which would have an adverse effect on the amount available for distributions on Notes, beginning with the Subordinated Notes as the most junior Class.

4.30 **Withholding Tax on the Collateral Debt Obligations**

At the time when they are acquired by the Issuer, the Eligibility Criteria require that payments of interest on the Collateral Debt Obligations either will not be reduced by any withholding tax imposed by any jurisdiction (other than U.S. withholding tax imposed on commitment fees, amendment fees, waiver fees, consent fees, letter of credit fees, extension fees, or similar fees) or, if and to the extent that any such withholding tax does apply, either (i) such withholding tax can, upon the completion of the relevant procedural formalities, be sheltered by application being made under a double tax treaty or otherwise or (ii) the relevant Obligor will be obliged to make "gross-up" payments to the Issuer that cover the full amount of such withholding tax.

However, there can be no assurance that, as a result of any change in any applicable law, rule or regulation or interpretation thereof, or as a result of a Collateral Debt Obligation being restructured or otherwise, the payments on the Collateral Debt Obligations might not in the future become subject to withholding tax or increased withholding rates in respect of which the relevant Obligor will not be obliged to gross up to the Issuer. In such circumstances, the Issuer may be able, but will not be obliged, to take advantage of (a) a double taxation treaty between Ireland and the jurisdiction from which the relevant payment is made, (b) the current applicable law in the jurisdiction of the Obligor or (c) the fact that the Issuer has taken a Participation in such Collateral Debt Obligations from a Selling Institution which is able to pay interest payable under such Participation gross.

If the Issuer receives any interest payments on any Collateral Debt Obligation net of any applicable withholding tax, the Coverage Tests and Collateral Quality Tests will be determined by reference to such net receipts. Such withholding would also reduce the amounts available to make payments on the Notes. There can be no assurance that remaining payments on the Collateral Debt Obligations would be sufficient to make timely payments of interest and principal on the Notes of each Class and the other amounts payable in respect of the Notes on the Maturity Date.

If payments in respect of Collateral Debt Obligations to the Issuer become subject to withholding tax, this may also trigger a Collateral Tax Event and result in an optional redemption of the Rated Notes in accordance with Condition 7(b)(i)(B) (*Optional Redemption in Whole – Subordinated Noteholders or Collateral Manager*).

4.31 **Collateral Manager**

The Collateral Manager is given authority in the Collateral Management Agreement to act as Collateral Manager to the Issuer in respect of the Portfolio pursuant to and in accordance with the parameters and criteria set out in the Collateral Management Agreement. See the sections of this Offering Circular titled "*The Portfolio*" and "*Description of the Collateral Management Agreement*". The powers and duties of the Collateral Manager in relation to the Portfolio include effecting, on behalf of the Issuer, in accordance with the provisions of the Collateral Management Agreement: (a) the acquisition of Collateral Debt Obligations during the Reinvestment Period; (b) the sale of Collateral Debt Obligations during the Reinvestment Period (subject to certain limits) and, at any time, upon the occurrence of certain events (including a Collateral Debt Obligation becoming a Defaulted Obligation, a Credit Improved Obligation or a Credit Impaired Obligation); and (c) the participation in restructuring and work-outs of Collateral Debt Obligations on behalf of the Issuer. See the section of this Offering Circular titled "*The Portfolio*". Any analysis by the Collateral Manager (on behalf of the Issuer) of Obligors under Collateral Debt Obligations which it is purchasing (on behalf of the Issuer) or which are held in the Portfolio from time to time will, in respect of Collateral Debt Obligations which are publicly listed bonds, be limited to a review of readily available public information and in respect of Collateral Debt Obligations which are bonds which are not publicly listed, any analysis by the Collateral Manager (on behalf of the Issuer) will be in accordance with standard review procedures for such type of bonds and, in respect of Collateral Debt Obligations which are Assignments or Participations of senior and mezzanine loans and in relation to which the Collateral Manager has non-public information, such analysis will include due diligence of

the kind common in relation to loans of such kind. Any analysis by the Collateral Manager (on behalf of the Issuer) in respect of Collateral Enhancement Obligations will be in accordance with standard review procedures for such type of assets.

In addition, the Collateral Management Agreement places significant restrictions on the Collateral Manager's ability to buy and sell Collateral Debt Obligations, and the Collateral Manager is required to comply with the restrictions contained in the Collateral Management Agreement. Accordingly, during certain periods or in certain specified circumstances, the Collateral Manager may be unable to buy or sell Collateral Debt Obligations or to take other actions which it might consider in the best interest of the Issuer and the Noteholders, as a result of such restrictions.

The Collateral Manager shall indemnify the Issuer in respect of Collateral Manager Breaches subject to and in accordance with the Collateral Management Agreement. Investors should note, that in respect to such indemnity, the Collateral Manager shall only indemnify the Issuer in instances where it has acted in a manner constituting bad faith, wilful misconduct, fraud or gross negligence (in the meaning given under New York law), whereas the administrative sanctions under the Securitisation Regulation described above may be applied to the Issuer on the basis of ordinary negligence. Accordingly, should the Issuer be subject to any such administrative sanction due to the Collateral Manager's negligence, the Issuer may be unable to have recourse to the Collateral Manager under the Collateral Manager's indemnity as described above.

The Issuer is a newly formed entity and has no operating history or performance record of its own, other than entry into the Warehouse Arrangements and certain ancillary matters. The actual performance of the Issuer will depend on numerous factors which are difficult to predict and may be beyond the control of the Collateral Manager. The nature of and risks associated with, the Issuer's future investments may differ substantially from those investments and strategies undertaken historically by the Collateral Manager and such persons. There can be no assurance that the Issuer's investments will perform as well as the past investments of any such persons or entities.

The performance of other collateralised debt obligation vehicles ("**CLO Vehicles**") or other similar investment funds ("**Other Funds**") managed or advised by the Collateral Manager or Affiliates of the Collateral Manager should not be relied upon as an indication or prediction of the performance of the Issuer. Such other CLO Vehicles and Other Funds may have significantly different characteristics, including but not limited to their structures, composition of the collateral pool, investment objectives, leverage, financing costs, fees and expenses, management personnel and other terms when compared to the Issuer and may have been formed and managed under significantly different market conditions than those which apply to the Issuer and its Portfolio.

The Issuer will be highly dependent on the financial and managerial experience of certain individuals associated with the Collateral Manager in analysing, selecting and managing the Collateral Debt Obligations. There can be no assurance that such key personnel currently associated with the Collateral Manager or any of its Affiliates will remain in such position throughout the life of the transaction. The loss of one or more of such individuals could have a material adverse effect on the performance of the Issuer.

In addition, the Collateral Manager may resign or be removed in certain circumstances as described in the section of this Offering Circular titled "*Description of the Collateral Management Agreement*". There can be no assurance that any successor collateral manager would have the same level of skill in performing the obligations of the Collateral Manager, in which event payments on the Notes could be reduced or delayed.

The Collateral Manager is not required to devote all of its time to the performance of the Collateral Management Agreement and will continue to advise and manage other investment funds in the future.

The Collateral Manager's information and technology systems may be vulnerable to damage or interruption from computer viruses, network failures, computer and telecommunications failures, infiltration by unauthorised persons and security breaches, usage errors by their respective professionals, power outages and catastrophic events such as fires, tornadoes, floods, hurricanes and earthquakes. Although the Collateral Manager may have implemented various measures to manage risks relating to these types of events, the failure of these systems and/or of disaster recovery plans for any reason could cause significant interruptions in the Collateral Manager's operations and result in a failure to maintain the security, confidentiality or privacy of sensitive data. Such a failure could impede the ability of the Collateral Manager to perform its duties under the Transaction Documents.

4.32 **No Placement Agent Role Post-Closing**

The Placement Agent takes no responsibility for, and has no obligations in respect of, the Issuer and will have no obligation to monitor the performance of the Portfolio or the actions of the Collateral Manager or the Issuer and has no authority to advise the Collateral Manager or the Issuer or to direct their actions, which will be solely the responsibility of the Collateral Manager and the Issuer. If the Placement Agent or its Affiliates acts as Hedge Counterparty or owns Notes, they will have no responsibility to consider the interests of any other owner of Notes with respect to actions they take or refrain from taking in such capacity. While the Placement Agent may own a portion of certain Classes of Rated Notes on the Issue Date and may own Notes at any time, it has no obligation to make any investment in any Notes and may sell at any time any Notes it does purchase. See also 5 "*Certain Conflicts Of Interest – Certain Conflicts of Interest Involving or Relating to the Placement Agent and its Affiliates*".

4.33 **Trading Gains**

Pursuant to the Conditions, the Collateral Manager may, in its discretion, direct that any Trading Gains which would otherwise have been deposited into the Principal Account and designated for reinvestment or used to redeem the Notes are instead deposited into the Interest Account, subject to certain conditions as more particularly described in Condition 3(j)(ii)(K) (*Interest Account*). Such Trading Gains will then be distributed as Interest Proceeds in accordance with the Priorities of Payments. As a result, such Trading Gains may not be available to be reinvested in Collateral Debt Obligations and therefore the Aggregate Principal Balance of Collateral Debt Obligations securing the Notes may be less than what would have otherwise been the case if such amounts had been reinvested in Collateral Debt Obligations.

4.34 **Acquisition and Disposition of Collateral Debt Obligations**

The Issuer anticipates that, by the Issue Date, it will have purchased or committed to purchase Collateral Debt Obligations, the Aggregate Principal Balance of which equals at least €225,000,000 (representing 90 per cent. of the Target Par Amount). The estimated net proceeds of the issue of the Notes after payment of fees and expenses payable on or about the Issue Date (including, without duplication, amounts deposited into the Expense Reserve Account) will be used by the Issuer for the repayment of any amounts borrowed by the Issuer under the Warehouse Arrangements (together with any interest thereon) and all other amounts due in order to finance the acquisition of warehoused Collateral Debt Obligations purchased by the Issuer prior to the Issue Date and to fund the First Period Reserve Account. The remaining proceeds shall be retained in the Unused Proceeds Account and used to purchase (or enter into agreements to purchase) additional Collateral Debt Obligations during the Initial Investment Period (as defined in the Conditions). The Collateral Manager's decisions concerning purchases of Collateral Debt Obligations will be influenced by a number of factors, including market conditions and the availability of securities and loans satisfying the Eligibility Criteria, Reinvestment Criteria and the other requirements of the Collateral Management Agreement. The failure or inability of the Collateral Manager to acquire Collateral Debt Obligations with the proceeds of the offering or to reinvest Sale Proceeds or payments and prepayments of principal in Substitute Collateral Debt Obligations in a timely manner will adversely affect the returns on the Notes, in particular with respect to the most junior Class or Classes. There is no assurance that the Collateral Manager on behalf of the Issuer will be able to acquire Collateral Debt Obligations that satisfy the Eligibility Criteria or the Reinvestment Criteria, as applicable.

The Issuer does not expect and is not required to satisfy the Collateral Quality Tests, Portfolio Profile Tests or the Coverage Tests prior to the Effective Date. The Collateral Manager may declare that the Initial Investment Period has ended and the Effective Date has occurred prior to 15 June 2021, subject to the Effective Date Determination Requirements being satisfied.

Under the Collateral Management Agreement and as described herein, the Collateral Manager may only, on behalf of the Issuer, dispose of a limited percentage of Collateral Debt Obligations in any period of 12 calendar months as well as any Collateral Debt Obligation that meets the definition of a Defaulted Obligation, an Exchanged Security and, subject to the satisfaction of certain conditions, a Credit Impaired Obligation or Credit Improved Obligation. Notwithstanding such restrictions and subject to the satisfaction of the conditions set forth in the Collateral Management Agreement, sales and purchases by the Collateral Manager of Collateral Debt Obligations could result in losses by the Issuer, which will be borne in the first instance by the holders of the Subordinated Notes and then by holders of the Rated Notes, beginning with the most junior Class.

In addition, circumstances may exist under which the Collateral Manager may believe that it is in the best interests of the Issuer to dispose of a Collateral Debt Obligation, but will not be permitted to do so under the terms of the Collateral Management Agreement.

4.35 **Valuation Information; Limited Information**

None of the Placement Agent, the Collateral Manager or any other transaction party will be required to provide periodic pricing or valuation information to investors. Investors will receive limited information with regard to the Collateral Debt Obligations and none of the transaction parties (including the Issuer, Trustee, or Collateral Manager) will be required to provide any information other than what is required in the Trust Deed or the Collateral Management Agreement. Furthermore, if any information is provided to the Noteholders (including required reports under the Trust Deed), such information may not be audited. The Collateral Manager may be in possession of material, non-public information with regard to the Collateral Debt Obligations and will not be required to disclose such information to the Noteholders. In particular, the Collateral Manager will not have any obligation to keep any of these parties informed as to matters arising in relation to any Collateral Debt Obligations, except as may be required in connection with the regular reports prepared by the Issuer (or the Collateral Administrator on behalf of the Issuer) in accordance with the Trust Deed.

The Noteholders and the Trustee will not have any right to inspect any records relating to the Collateral Debt Obligations, and the Collateral Manager will not be obligated to disclose any further information or evidence regarding the existence or terms of, or the identity of any Obligor on, any Collateral Debt Obligations, unless (i) specifically required by the Collateral Management Agreement or (ii) following its receipt of a written request from the Trustee, the Collateral Manager in its sole discretion determines that the disclosure of such further information or evidence regarding the existence or terms of, or the identity of any Obligor on, any Collateral Debt Obligation to the Trustee would not be prohibited by applicable law or the Underlying Instruments relating to such Collateral Debt Obligation, in which case the Collateral Manager will disclose such further information or evidence to the Trustee; provided that (a) the Trustee will not disclose such further information or evidence to any third party except (i) to the extent disclosure may be required by law or any governmental or regulatory authority; and (ii) to the extent that the Trustee, in its sole discretion, may determine that such disclosure is consistent with its obligations under the Trust Deed. Furthermore, the Collateral Manager may, with respect to any information that it elects to disclose, demand that persons receiving such information execute confidentiality agreements before being provided with the information.

5. **CERTAIN CONFLICTS OF INTEREST**

The Placement Agent and its Affiliates and the Collateral Manager and its Affiliates are acting in a number of capacities in connection with the transaction described herein, which may give rise to certain

conflicts of interest. The activities of the Rating Agencies in connection with the transaction described herein may also give rise to certain conflicts of interest. The following briefly summarises some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

Certain Conflicts of Interest Involving or Relating to the Collateral Manager and its Affiliates

On the Issue Date, the Retention Holder will purchase the Retention Notes and retain the Retention Notes as long as required by the EU Retention Requirements. On the Issue Date, the Collateral Manager will be reimbursed by the Issuer for certain of its expenses incurred in connection with the transaction described herein.

The Collateral Manager may enter into agreements with one or more holders of the Notes pursuant to which the Collateral Manager may agree, subject to its obligations under the Trust Deed, the Collateral Management Agreement and applicable law, to take actions with respect to such holders of the Notes that it will not take with respect to other holders of the Notes. In addition, the Collateral Manager expects to enter into on the Issue Date and may also, from time to time, enter into agreements which provide that certain Noteholders or one or more third parties will be entitled to receive a portion of the Collateral Management Fees from the Collateral Manager on one or more Payment Dates (which may include the Placement Agent and/or its Affiliates) during the term of the transaction. The performance and incentives of the Collateral Manager may be negatively impacted by any such fee rebate arrangements. In addition, the terms of such fee rebate arrangements may prohibit the Collateral Manager agreeing to any amendment to the Collateral Management Agreement which directly and adversely affects either the amount of the Collateral Management Fees to be paid to the Collateral Manager or the period during which the Collateral Manager is entitled to receive such fee. Investors should also note that the existence of such fee arrangements may incentivise the relevant Noteholders in receipt of such fees to exercise their voting rights in a particular way, including voting against the removal and/or replacement of the Collateral Manager.

Various potential and actual conflicts of interest may arise from the overall investment activities of the Collateral Manager, its Affiliates and their respective clients and employees. The Collateral Manager and its Affiliates may invest, on behalf of themselves and other clients, in loans that would be appropriate as Collateral Debt Obligations. The Collateral Manager and its Affiliates may give advice or take action for their own account or their other client accounts with similar strategies that may differ from advice given or action taken for the Issuer. The Collateral Manager and its Affiliates may also have ongoing relationships with companies whose obligations are included in the Collateral, and may own, directly or through other funds that they manage, equity or debt securities issued by obligors of obligations included in the Collateral. The Collateral Manager and its Affiliates may also provide certain services to companies whose obligations are Collateral. In addition, the Collateral Manager, its Affiliates and their respective clients and employees may invest, or have already invested, in obligations and/or other securities that are identical to or senior to, or have interests different from or adverse to, the Collateral. In addition, the Collateral Manager or any of its Affiliates may serve as a general partner, adviser, officer, director, sponsor or manager of partnerships or companies organized to issue loan obligations secured by non-investment grade loans.

The Collateral Manager may at certain times be engaged in seeking investments to purchase for the Issuer while at the same time the Collateral Manager or one or more Affiliates is also seeking to purchase or has already purchased similar or identical investments for its own account or clients or Affiliates or another entity for which it serves as a general partner, adviser, officer, director, sponsor or manager. By reason of the various activities of the Collateral Manager and its Affiliates, the Collateral Manager and such Affiliates may acquire confidential or material non public information or be restricted from effecting transactions in certain Collateral Debt Obligations or other Collateral that otherwise might have been initiated or prevented. At times, the Collateral Manager, in an effort to avoid restrictions for the Issuer and its other clients, may elect not to receive information that other market participants or counterparties are eligible to receive or have received.

Affiliates of the Collateral Manager syndicate or distribute new issue loans. The Collateral Manager may cause the Issuer to purchase such loans subject to the U.S. Tax Guidelines and requirements of the Collateral Management Agreement.

Neither the Collateral Manager nor any of its Affiliates has any affirmative obligation to offer any investments to the Issuer or to inform the Issuer of any investments before offering any investments to other funds or accounts that the Collateral Manager or any of its Affiliates manage or advise. The Collateral Manager and its Affiliates may also make investments on their own behalf without offering such investment opportunities to the Issuer. Furthermore, the Collateral Manager and its Affiliates may be bound by affirmative obligations at present or in the future, whereby it or they are obligated to offer certain investments to funds or accounts that it or they manage or advise before or without the Collateral Manager or its Affiliates offering those investments to the Issuer. Typically, the Collateral Manager and its Affiliates offer certain investments to funds or accounts that it or they manage or advise simultaneously with or in addition to offering those investments to the Issuer. Thus, other funds or accounts that it or they manage or advise could become co-investors with the Issuer.

The Collateral Manager will endeavour to resolve conflicts with respect to investment opportunities in a manner that it deems equitable to the extent practicable under the prevailing facts and circumstances. Further, the Collateral Manager will be prohibited under the terms of the Collateral Management Agreement from directing the acquisition of Collateral Debt Obligations from, or disposition of Collateral Debt Obligations to, its Affiliates or any other account managed by the Collateral Manager except where the terms of such transaction are at least substantially as advantageous to the Issuer as the terms the Issuer would obtain in a comparable arm's length transaction with a non-Affiliate, and where such transaction complies with the Investment Advisers Act of 1940, as amended (the "**Investment Advisers Act**").

The Collateral Manager currently serves as the portfolio manager for a number of CLO transactions, retail mutual funds, institutional funds and private accounts secured by collateral consisting primarily of non-investment grade loans. Although the professional staff of the Collateral Manager will devote as much time to the Issuer as the Collateral Manager deems appropriate to perform its duties in accordance with the Collateral Management Agreement, the staff of the Collateral Manager may have conflicts in allocating their time and services among the Issuer and the Collateral Manager's other accounts. The Collateral Manager may, in its sole discretion, aggregate orders for its accounts under management. There is no assurance that any CLO or other client with strategies or investment objectives similar to the Issuer will hold the same assets or perform in a similar manner.

In addition, the Collateral Manager and its affiliates may, from time to time, be presented with investment opportunities that fall within the investment objectives of the Issuer and other investment funds managed by the Collateral Manager or its affiliates, and in such circumstances, the Collateral Manager and its affiliates expect to allocate such opportunities among the Issuer and such other affiliated funds on a basis that the Collateral Manager and its affiliates determine in good faith is appropriate taking into consideration such factors as its duties owed to the Issuer and such other funds, the primary mandates of the Issuer and such other funds, the capital available to the Issuer and such other funds, any restrictions on investment, the sourcing of the transaction, the size of the transaction, the amount of potential follow-on investing that may be required for such investment and the assets of the Issuer and such other funds, the relation of such opportunity to the investment strategy of the Issuer and such other funds, reasons of portfolio balance, the nature and extent of involvement in the transaction on the part of the respective teams of investment professionals for the Issuer and each such other fund and any other consideration deemed relevant by the Collateral Manager and its affiliates in good faith. The objective of the Collateral Manager will be to allocate investments in any participating accounts (including the Issuer) in a manner that is fair and equitable over time and is consistent with applicable law, such allocation procedures as may be in place from time to time as described in its Form ADV Part 2A which will be provided to the Issuer prior to entering into the Collateral Management Agreement and is available subsequently upon request from the Collateral Manager and other relevant internal policies and procedures of the Collateral

Manager from time to time. However, there is no assurance that such investment opportunities will be allocated to the Issuer fairly or equitably in the short-term or over time and there can be no assurance that the Issuer will be able to participate in all such investment opportunities that are suitable for it. For example, if the Collateral Manager or its Affiliates seek to purchase a loan on behalf of the Issuer and other accounts they manage, the amount of such asset available in the market and allocated to the Issuer by the Collateral Manager or its Affiliates may be less than the amount the Collateral Manager originally intended for the Issuer to purchase.

On any Payment Date on which the Incentive Collateral Management Fee IRR Threshold has been met or surpassed and the Incentive Collateral Management Fee is otherwise due and payable, the Collateral Manager will be paid the Incentive Collateral Management Fee to the extent of funds available in accordance with the Priority of Payments. The manner in which the Incentive Collateral Management Fee is determined could create an incentive for the Collateral Manager to make more speculative investments in the Collateral than the Issuer would otherwise make in order to seek to increase the likelihood that the Target Return would be achieved so that the Collateral Manager would be paid the Incentive Collateral Management Fee. See "*Description of the Collateral Management Agreement—Fees.*"

The Collateral Manager and its Affiliates and portfolios managed by them may own equity or other securities of obligors on the Collateral Debt Obligations and may have provided and may provide in the future, advisory and other services to obligors of Collateral Debt Obligations. The Collateral Manager and/or its Affiliates and portfolios managed by them may from time to time purchase and hold Notes. Any such person will act in their own interests with respect to such Notes and such interests may conflict with or be adverse to the interest of other holders of the Notes. Any such Notes acquired by any such person may be sold by any such person to related and/or unrelated parties at any time.

While the Collateral Manager may interact with investors and prospective investors in the Notes and may provide to them information regarding the portfolio of investments of the Issuer, the Collateral Manager has the sole authority to select and manage the portfolio of Collateral Debt Obligations. Upon request, investors and prospective investors in, and other beneficial owners of, the Notes, or stakeholders in the Issuer, may obtain information or hold discussions regarding the Collateral Manager's selections of Collateral Debt Obligations for the Issuer; however, no investor or prospective investor has any right to require the Collateral Manager to select a particular asset for purchase or, other than the disposition of ineligible assets prior to the Issue Date, sale by the Issuer. There can be no assurance that such discussions will not influence the actions or inactions of the Collateral Manager in its management role.

Conflicts related to obligations that the Collateral Manager, its affiliates or their respective related Persons have to other clients.

The Collateral Manager, its affiliates or their respective related Persons may provide services to, or serve as officers, directors, managers, personnel or principals of, entities that operate in the same or a related line of business as the Issuer or other clients. In serving in these multiple capacities, they may have obligations to other clients or investors in those entities, the fulfilment of which may not be in the best interests of the Issuer or the holders of the Notes. The Issuer may compete with these and other entities managed by the Collateral Manager and its affiliates for capital and investment opportunities.

Rating Agencies

Fitch and S&P have been engaged by the Issuer to provide their ratings on the Rated Notes. Either Rating Agency may have a conflict of interest where the issuer of a security pays the fee charged by the Rating Agency for its rating services, as is the case with the rating of the Rated Notes (with the exception of unsolicited ratings).

Certain Conflicts of Interest Involving or Relating to the Placement Agent and its Affiliates

Various potential and actual conflicts of interest may arise as a result of the investment banking, commercial banking, asset management, financing and financial advisory services and products provided by JPMorgan Chase & Co. and its Affiliates (including the Placement Agent, JPMorgan Chase Bank, National Association ("**JPMCB**") and its Affiliates) (together, the "**J.P. Morgan Companies**") to the Issuer, the Trustee, the Collateral Manager, the issuers of the Collateral Debt Obligations and other assets comprised in the Portfolio, as well as in connection with the investment, trading and brokerage activities of the J.P. Morgan Companies. The following briefly summarises some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

J.P. Morgan Securities plc will serve as Placement Agent to the Issuer and will be paid fees and commissions for such service by the Issuer from the proceeds of the issuance of the Notes. If Notes are placed by the Placement Agent with investors at prices that differ from the issue price paid by the Placement Agent for the Notes, this may impact the amount of such net fee paid to the Placement Agent by the Issuer. One or more other J.P. Morgan Companies and one or more accounts or funds managed by a J.P. Morgan Company may from time to time hold Notes (the "**J.P. Morgan Holders**"). Without limitation to the foregoing, J.P. Morgan Holders may purchase certain unsold Notes and such purchases may be at prices which may be higher or lower than the prices at which such Notes were sold to other investors. No J.P. Morgan Holder will be required to retain any Notes acquired by it and a J.P. Morgan Holder may realise a gain in the secondary market by selling Notes purchased by it. J.P. Morgan Holders will be able to influence the voting of Classes of Notes which they hold, and thereby have an effect on certain aspects of the transaction generally. To the extent that one or more J.P. Morgan Holders hold sufficient Notes of the Controlling Class to exercise Ordinary Resolutions or Extraordinary Resolutions (as applicable), they will be able to exercise their influence to determine whether the Notes are accelerated during the occurrence and continuance of certain Events of Default and what remedies should be taken against the Issuer or the Collateral Debt Obligations. The interests of the J.P. Morgan Holders may not coincide with those of the other Noteholders at all times. Any J.P. Morgan Holder in its capacity as a Noteholder may act in its own commercial interest and need not consider whether its actions will have an adverse effect on the Issuer or the other holders. The J.P. Morgan Holders will have no responsibility for or obligation in respect of the Issuer and will have no obligation to own Notes on or after the Issue Date, or to retain Notes for any length of time. An Affiliate of the Placement Agent was also a lender to the Issuer in connection with the Warehouse Arrangements prior to the Issue Date. See further 4.3 "*Acquisition of Collateral Debt Obligations Prior to the Issue Date*".

The J.P. Morgan Companies will not be limited in their activities relating to buying, holding or selling Notes or obligations constituting, or which may constitute, part of the Collateral Debt Obligations. Without limitation of the foregoing, at any time, one or more J.P. Morgan Companies may have a long or short position in, or enter into a hedge or derivative position relating to, any obligation constituting part of the Collateral Debt Obligations or any Class of Notes.

Prior to the Issue Date, JPMCB has provided the Warehouse Facility to the Issuer as described under 4.3 "*Acquisition of Collateral Debt Obligations Prior to the Issue Date*". Upon the occurrence of the Issue Date, the Warehouse Facility will terminate and JPMCB will be paid in full from the issuance proceeds received by the Issuer for the Notes. As a lender and administrative agent in connection with the Warehouse Facility, JPMCB has the right to approve all Collateral Debt Obligations which are selected and acquired under the Warehouse Facility (on behalf of the Issuer) and, in certain circumstances, JPMCB has the right to require or approve sales of Collateral Debt Obligations by the Issuer. JPMCB will exercise those rights solely for its own benefit as a lender, solely for its own benefit in such capacity and in a manner that protects its rights and interests as a creditor of the Issuer. No J.P. Morgan Company has done, and no J.P. Morgan Company will do, any analysis of the Collateral Debt Obligations acquired or sold by the Issuer for the benefit of, or in a manner designed to further the interests of, any Noteholder.

The J.P. Morgan Companies are significant participants in the leveraged loan and high yield bond markets. The Issuer has purchased and sold prior to the Issue Date, and it is likely that the Issuer will purchase or sell after the Issue Date, Collateral Debt Obligations from, to or through one or more of the J.P. Morgan Companies (and such purchases or sales may relate to a significant portion of the Collateral Debt Obligations and may be at prices that differ from the market values of the relevant Collateral Debt Obligations at the time of purchase) and will also have purchased or sold, or will purchase or sell (as applicable) Collateral Debt Obligations with respect to which a J.P. Morgan Company acted as underwriter, arranger, lender or administrative agent or in a similar capacity as further described below (and such Collateral Debt Obligations may constitute a significant portion of the Portfolio).

Certain Eligible Investments may be issued, managed or underwritten by one or more of the J.P. Morgan Companies. One or more of the J.P. Morgan Companies may provide investment banking, commercial banking, asset management, financing and financial advisory services and products to the Collateral Manager, its Affiliates, and funds managed by the Collateral Manager and its Affiliates, and purchase, hold and sell, both for their respective accounts or for the account of their respective clients, on a principal or agency basis, loans, securities, and other obligations and financial instruments of the Collateral Manager, its Affiliates, and funds managed by the Collateral Manager and its Affiliates.

As a result of such transactions or arrangements, one or more of the J.P. Morgan Companies may have interests adverse to those of the Issuer and the Noteholders. The J.P. Morgan Companies will not be restricted in their performance of any such services or in the types of debt or equity investments, which they may make. In conducting the foregoing activities, the J.P. Morgan Companies will be acting for their own account or the account of their customers and will have no obligation to act in the interest of the Issuer.

One or more of the J.P. Morgan Companies may:

- have placed or underwritten, or acted as a financial arranger, structuring agent or advisor in connection with the original issuance of, or may act as a broker or dealer with respect to, certain of the Collateral Debt Obligations;
- act as trustee, facility agent, paying agent and in other capacities in connection with certain of the Collateral Debt Obligations or other classes of securities issued by an issuer of a Collateral Debt Obligation or an Affiliate thereof;
- be a counterparty to issuers of certain of the Collateral Debt Obligations under swap or other derivative agreements;
- provide finance under the Warehouse Facility in respect of certain assets;
- be a Hedge Counterparty under a Hedge Agreement with the Issuer;
- sell Collateral Debt Obligations to the Issuer, including Collateral Debt Obligations in respect of which the J.P. Morgan Companies act as underwriter, arranger, lender, obligor or administrative agent;
- be a Selling Institution with respect to a Participation;
- lend to certain of the issuers of Collateral Debt Obligations or their respective Affiliates or receive guarantees from the issuers of those Collateral Debt Obligations or their respective Affiliates;
- provide other investment banking, asset management, commercial banking, financing or financial advisory services to the issuers of Collateral Debt Obligations or their respective Affiliates; or
- have an equity interest, which may be a substantial equity interest, in certain Obligors of the Collateral Debt Obligations or their respective Affiliates.

When acting as a trustee, facility agent, paying agent or in other service capacities with respect to a Collateral Debt Obligation, the J.P. Morgan Companies will be entitled to fees and expenses senior in priority to payments to such Collateral Debt Obligation. When acting as a trustee for other classes of securities issued by the issuer of a Collateral Debt Obligation or an Affiliate thereof, the J.P. Morgan Companies will owe fiduciary duties to the holders of such other classes of securities, which classes of securities may have differing interests from the holders of the class of securities of which the Collateral Debt Obligation is a part, and may take actions that are adverse to the holders (including the Issuer) of the class of securities of which the Collateral Debt Obligation is a part. As a counterparty under swaps and other derivative agreements (including without limitation, under a Hedge Agreement), the J.P. Morgan Companies might take actions adverse to the interests of the Issuer, including, but not limited to, demanding collateralisation of its exposure under such agreements (if provided for thereunder) or terminating such swaps or agreements in accordance with the terms thereof. In making and administering

loans and other obligations, the J.P. Morgan Companies might take actions including, but not limited to, restructuring a loan, foreclosing on or exercising other remedies with respect to a loan, requiring additional collateral or other credit enhancement, charging significant fees and interest, placing the Obligor in bankruptcy or demanding payment on a loan guarantee or under other credit enhancement. The Issuer's purchase, holding and sale of Collateral Debt Obligations may enhance the profitability or value of investments made by the J.P. Morgan Companies in the issuers thereof. As a result of all such transactions or arrangements between the J.P. Morgan Companies and issuers of Collateral Debt Obligations or their respective Affiliates, the J.P. Morgan Companies may have interests that are contrary to the interests of the Issuer and the Noteholders. Further, additional J.P. Morgan Companies may subsequently become Hedge Counterparties. The interests of such entities as a Hedge Counterparty may not coincide with those of Noteholders at all times. Such entities, in their capacities as Hedge Counterparties, may act in their own commercial interest and need not consider whether their actions will have an adverse effect on the Issuer or the Noteholders.

As part of their regular business, the J.P. Morgan Companies may also provide investment banking, commercial banking, asset management, financing and financial advisory services and products to, and purchase, hold and sell, both for their respective accounts or for the account of their respective clients, on a principal or agency basis, loans, securities, and other obligations and financial instruments and engage in private equity investment activities. The J.P. Morgan Companies will not be restricted in their performance of any such services or in the types of debt or equity investments, which they may make. In conducting the foregoing activities, the J.P. Morgan Companies will be acting for their own account or the account of their customers and will have no obligation to act in the interest of the Issuer.

The J.P. Morgan Companies may, by virtue of the relationships described above or otherwise, at the date hereof or at any time hereafter, be in possession of information regarding certain of the issuers of Collateral Debt Obligations and their respective Affiliates, that is or may be material in the context of the Notes and that is or may not be known to the general public. None of the J.P. Morgan Companies has any obligation, and the offering of the Notes will not create any obligation on their part, to disclose to any purchaser of the Notes any such relationship or information, whether or not confidential.

6. INVESTMENT COMPANY ACT

The Issuer has not registered with the United States Securities and Exchange Commission (the "SEC") as an investment company pursuant to the Investment Company Act, in reliance on an exclusion under Section 3(c)(7) of the Investment Company Act for securities issuers (a) whose outstanding securities are beneficially owned only by "qualified purchasers" (within the meaning given to such term in the Investment Company Act and the regulations of the SEC thereunder) and certain transferees thereof identified in Rule 3c-6 under the Investment Company Act and (b) which do not make a public offering of their securities in the United States.

No opinion or no-action position has been, nor will be requested of the SEC with respect to the status of the Issuer as an investment company under the Investment Company Act.

If the SEC or a court of competent jurisdiction were to find that the Issuer is required, but in violation of the Investment Company Act had failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the Issuer could sue the Issuer and seek recovery of any damages caused by the violation; and (iii) any contract to which the Issuer is party could be declared unenforceable unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act. Should the Issuer be subjected to any or all of the foregoing, the Issuer would be materially and adversely affected.

Each initial purchaser of an interest in a Rule 144A Note and each transferee of an interest in a Rule 144A Note will be deemed to represent at the time of purchase that, amongst other things, the purchaser is a QIB/QP.

The Trust Deed provides that if, notwithstanding the restrictions on transfer contained therein, the Issuer determines that any holder of an interest in a Rule 144A Note is a Non-Permitted Holder, the Issuer shall require the sale of the relevant Notes subject to and in accordance with the Conditions. See 3.28 "*Forced Transfer*".

7. RISKS RELATING TO THE ISSUER UNDER IRISH LAW

7.1 Lack of Operating History

The Issuer is a recently incorporated designated activity company with limited liability under Irish law that has no prior operating history or revenues upon which may be used to evaluate its likely performance and the performance of the Notes.

7.2 Preferred Creditors under Irish Law and Floating Charges

If the Issuer becomes subject to an insolvency proceeding and the Issuer has obligations to creditors that are treated under Irish law as creditors that are senior relative to the Noteholders and other Secured Parties, the Noteholders (and other Secured Parties) may suffer losses as a result of their subordinated status during such insolvency proceedings. In particular, under Irish law, upon an insolvency of an Irish company, such as the Issuer, when applying the proceeds of assets subject to fixed security which may have been realised in the course of a liquidation or receivership, the claims of a limited category of preferential creditors will take priority over the claims of creditors holding the relevant fixed security. These preferred claims include the remuneration, certain rates and taxes, costs and expenses properly incurred by any examiner of the company (which may include any borrowings made by an examiner to fund the company's requirements for the duration of his appointment) which have been approved by the relevant Irish courts. See 7.3 "*Examinership*".

The holder of a fixed security over the book debts of an Irish incorporated company may be required by the Irish Revenue Commissioners, by notice in writing from the Irish Revenue Commissioners, to pay to them sums equivalent to those which the holder received in payment of debts due to it by the company.

Where the holder of the security has given notice to the Irish Revenue Commissioners of the creation of the security within 21 calendar days of its creation, the holder's liability is limited to the amount of certain outstanding Irish tax liabilities of the company (including liabilities in respect of value added tax) arising after the issuance of the Irish Revenue Commissioners' notice to the holder of fixed security.

The Irish Revenue Commissioners may also attach any debt due to an Irish tax resident company by another person in order to discharge any liabilities of the company in respect of outstanding tax whether the liabilities are due on its own account or as an agent or trustee. The scope of this right of the Irish Revenue Commissioners has not yet been considered by the Irish courts and it may override the rights of holders of security (whether fixed or floating) over the debt in question.

In relation to the disposal of assets of any Irish tax resident company which are subject to security, a person entitled to the benefit of the security may be liable for tax in relation to any capital gains made by the company on a disposal of those assets on exercise of the security.

The essence of a fixed charge is that the person creating the charge does not have liberty to deal with the assets which are the subject matter of the security in the sense of disposing of such assets or expending or appropriating the moneys or claims constituting such assets and accordingly, if and to the extent that such liberty is given to the Issuer any charge constituted by the Trust Deed and/or the Irish Security Agreement may operate as a floating, rather than a fixed charge.

In particular, the Irish courts have held that in order to create a fixed charge on receivables it is necessary to oblige the chargor to pay the proceeds of collection of the receivables into a designated bank account

and to prohibit the chargor from withdrawing or otherwise dealing with the monies standing to the credit of such account without the consent of the chargee.

Depending upon the level of control actually exercised by the chargor, there is therefore a possibility that the fixed security over the relevant charged assets would be regarded by the Irish courts as a floating charge.

Floating charges have certain weaknesses, including the following:

- (a) they have weak priority against purchasers (who are not on notice of any negative pledge contained in the floating charge) and the chargees of the assets concerned and against lien holders, execution creditors and creditors with rights of set-off;
- (b) as discussed above, they rank after certain preferential creditors, such as claims of employees and certain taxes on winding-up, even if crystallised prior to the commencement of winding-up;
- (c) they rank after certain insolvency remuneration expenses and liabilities;
- (d) the examiner of a company has certain rights to deal with the property covered by the floating charge; and
- (e) they rank after fixed charges.

7.3 **Examinership**

Examinership is a court procedure available under the Companies Act 2014 (as amended) (the "**Companies Act**") to facilitate the survival of Irish companies in financial difficulties. Where a company, which has its COMI in Ireland is, or is likely to be unable to pay its debts an examiner may be appointed on a petition to the relevant Irish court under Section 509 of the Companies Act.

The Issuer, the Directors, a contingent, prospective or actual creditor of the Issuer, or shareholders of the Issuer holding, at the date of presentation of the petition, not less than one-tenth of the voting share capital of the Issuer are each entitled to petition the court for the appointment of an examiner. The examiner, once appointed, has the power to set aside contracts and arrangements entered into by the company after this appointment and, in certain circumstances, can avoid a negative pledge given by the company prior to this appointment. Furthermore, the examiner may sell assets, the subject of a fixed charge. However, if such power is exercised the examiner must account to the holders of the fixed charge for the amount realised and discharge the amount due to the holders of the fixed charge out of the proceeds of the sale.

During the period of protection, the examiner will formulate proposals for a compromise or scheme of arrangement to assist the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the relevant Irish court when at least one class of creditors has voted in favour of the proposals and the relevant Irish court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement.

In considering proposals by the examiner, it is likely that secured and unsecured creditors would form separate classes of creditors. In the case of the Issuer, if the Trustee represented the majority in number and value of claims within the secured creditor class, the Trustee would be in a position to reject any proposal not in favour of the Noteholders. The Trustee would also be entitled to argue at the relevant Irish court hearing at which the proposed scheme of arrangement is considered that the proposals are unfair and inequitable in relation to the Noteholders, especially if such proposals included a writing down to the value of amounts due by the Issuer to the Noteholders.

The fact that the Issuer is a special purpose vehicle and that all of its liabilities should be of a limited recourse nature means that it is unlikely that an examiner would be appointed to the Issuer.

However, if for any reason an examiner were appointed in respect of the Issuer, the primary risks to the Noteholders are as follows:

- (a) the potential for a compromise or scheme of arrangement being approved involving the writing down or rescheduling of the debt due by the Issuer to the Noteholders as secured by the Trust Deed and/or the Irish Security Agreement;
- (b) the Trustee, acting for and on behalf of the Secured Parties, would not be able to enforce rights against the Issuer during the period of examinership;
- (c) the potential for the examiner to seek to set aside any negative pledge in the Notes prohibiting the creation of security or the incurring of borrowings by the Issuer to enable the examiner to borrow to fund the Issuer during the protection period; and
- (d) if a scheme of arrangement is not approved and the Issuer subsequently goes into liquidation, the examiner's remuneration and expenses (including certain borrowings incurred by the examiner on behalf of the Issuer and approved by the relevant Irish court) will take priority over the monies and liabilities which from time to time are or may become due, owing or payable by the Issuer to each of the Secured Parties under the Notes or the Transaction Documents.

7.4 **Irish Taxation Position of the Issuer**

Interest payments on the Notes may be subject to Irish withholding tax if there is a change in Irish tax law or if the various exemption conditions set forth under the section of this Offering Circular titled "*Tax Considerations - Irish Taxation*" are not fulfilled. The Issuer is not obligated to gross up or otherwise compensate Noteholders for withholding taxes incurred. This may, therefore, affect the return which Noteholders received on the Notes.

Changes in Irish tax laws may adversely impact the Issuer's business and the value of the Noteholders' investment.

The Issuer is treated as a securitisation vehicle which is taxed pursuant to Section 110 of the Taxes Consolidation Act 1997 ("TCA"). There is no guarantee that the tax treatment of an Irish securitisation company will not change in the future. The tax deductibility of the Issuer's interest costs will depend on the applicability of Section 110 TCA and the current revenue practice in relation to that matter. If these rules change this may have an impact on the return for Noteholders.

7.5 **Increased Tax in the Issuer**

In certain circumstances, there may be restrictions on the tax deductibility of interest, funding expenses or other expenses paid or payable by the Issuer. Such restrictions or changes could increase the amount of Irish or other tax payable by the Issuer.

Firstly, restrictions on deductibility of interest or funding expenses could arise due to the provisions of ATAD 1 or ATAD 2, or the Irish legislation enacting such directives as described previously.

Secondly, under Irish tax law restrictions on deductibility of interest could arise if the Issuer acquires assets related to Irish land. These restrictions apply to qualifying companies which carry on a business of holding, managing or both holding and managing of assets described as "specified mortgages". Specified mortgages broadly includes loans secured on and deriving their value from Irish real estate, units in an Irish Real Estate Fund (IREF) or shares that derive their value, or the greater part of their value from Irish land. These restrictions should not apply where the Issuer is engaged in a transaction which qualifies as a "CLO transaction". A CLO transaction is defined as a securitisation transaction carried out in conformity with a prospectus, within the meaning of the Prospectus Regulation or listing particulars where the securities are listed on an EU exchange. In addition, based on the prospectus or

listing particulars and the activities of the qualifying company, it must be reasonable to consider that the acquisition of specified mortgages was not the main purpose, or one of the main purposes, of the qualifying company. As such, the restrictions on deductibility should not apply if either: (a) the Issuer does not hold or manage specified mortgages; or (b) the Issuer's activities fall within the definition of a CLO transaction. If these conditions are not satisfied, the Issuer's ability to deduct its financing costs may be impacted.

Thirdly, section 110 provides that certain results dependent or excessive interest payments to a "specified person" may not be deductible unless, broadly, those payments are subject to tax in an EU member state or a jurisdiction with which Ireland has signed a double taxation agreement.

A person will be a specified person if they control the Issuer, or are under common control with the Issuer. In broad terms, a person will have control in this context if they have the ability to secure, through shares, voting power or the constitutional documents of the Issuer, that the affairs of the Issuer are conducted in accordance with their wishes.

Finance Act 2019 has extended the concept of specified person to mean that a person will control the Issuer (and therefore be a specified person), if they have:

- A. an ability to participate in the financial and operating decisions of the Issuer ("significant influence"); and
- B. hold more than 20% of any of (i) the share capital of the Issuer, (ii) the principal value of any securities which carry a right to interest or distributions which are to any extent dependent on the results of the Issuer's business or exceed a reasonable commercial rate, or (iii) the right to more than 20% of the interest payable on securities described at (ii).

These latter provisions are only likely to be relevant to holders of the Subordinated Notes who are entitled to more than 20% of the participations described above and who have significant influence over the Issuer. Significant influence is a new concept in Irish law and its meaning is uncertain. There is currently no Revenue guidance published on the concept.

If any payment was made by the Issuer to a specified person where such payment is not subject to tax in an EU member state or a jurisdiction with which Ireland has signed a double taxation agreement, the Issuer may not be entitled to take a deduction for such payment for tax purposes and the Issuer would be subject to tax on any profits which are treated as arising for Irish tax purposes. In addition, withholding tax may be required to be levied on the payment to the Noteholder.

Fourthly, deductibility may be restricted where the interest or other distribution paid, or the security to which the payment relates forms part of any arrangement or scheme of which the main purpose, or one of the main purposes is the avoidance of Irish tax or could not reasonably be considered to be for bona fide commercial purposes.

Finally, in the future there may be other changes in Irish or non-Irish tax law, regulations, interpretation, treaties or other measures which could give rise to increased Irish tax liabilities of the Issuer.

(i) Forced Sale pursuant to FATCA

Each Noteholder (which, for the purposes of this Condition 2(i) (*Forced Sale pursuant to FATCA*) may include a nominee or beneficial owner of a Note) will agree to provide the Issuer or its agents with any correct, complete and accurate information or documentation that may be required for the Issuer to comply with FATCA and to prevent the imposition of tax under FATCA on payments to or for the benefit of the Issuer. In the event the Noteholder fails to provide such information or documentation for the purposes of FATCA, or to the extent that its ownership of the Notes would otherwise cause the Issuer to be subject to tax under FATCA, (A) the Issuer or its agents are authorised to withhold amounts otherwise distributable to the Noteholder as compensation for any amount withheld from payments to or for the benefit of the Issuer under FATCA as a result of such failure or the Noteholder's ownership of Notes, and (B) except in the case of the Retention Notes, to the extent necessary to avoid an adverse effect on the Issuer as a result of such failure or the Noteholder's ownership of Notes, the Issuer will have the right to compel the Noteholder to sell its Notes, and, if the Noteholder does not sell its Notes within 10 Business Days after notice from the Issuer or any agent of the Issuer, the Issuer will have the right to sell such Notes at a public or private sale called and conducted in any manner permitted by law, and to remit the net proceeds of such sale (taking into account any expenses, costs and taxes incurred by the Issuer in connection with such sale) to the Noteholder as payment in full for such Notes. The Issuer may also assign each such Note a separate ISIN in the Issuer's sole discretion.

(j) Forced Transfer pursuant to ERISA

If any Noteholder is determined by the Issuer to be a Noteholder who has made or is deemed to have made a prohibited transaction, Benefit Plan Investor, Controlling Person, Other Plan Law or Similar Law representation that is subsequently shown to be false or misleading, or whose beneficial ownership otherwise causes a violation of the 25 per cent. limitation set out in ERISA and the relevant regulations (any such Noteholder a "**Non-Permitted ERISA Holder**"), the Non-Permitted ERISA Holder may be required by the Issuer to sell or otherwise transfer its Notes to an eligible purchaser (selected by the Issuer) at a price to be agreed between the Issuer (exercising its sole discretion) and such eligible purchaser at the time of sale, subject to the transfer restrictions set out in the Trust Deed. Each Noteholder and each other Person in the chain of title from the Noteholder, by its acceptance of an interest in such Notes, agrees to cooperate with the Issuer, to the extent required to effect such transfers. None of the Issuer, the Trustee and the Registrar shall be liable to any Noteholder having an interest in the Notes sold or otherwise transferred as a result of any such sale or transfer. The Issuer shall be entitled to deduct from the sale or transfer price an amount equal to all the expenses and costs incurred and any loss suffered by the Issuer as a result of such forced transfer. The Non-Permitted ERISA Holder will receive the balance, if any.

(k) Forced Transfer mechanics

In order to effect the forced transfer provisions set out in Conditions 2(h) (*Forced Transfer of Rule 144A Notes*), 2(j) (*Forced Transfer pursuant to ERISA*) and 2(i) (*Forced Sale pursuant to FATCA*), the Issuer may repay any affected Notes and issue replacement Notes and the Issuer, the Trustee and the Agents (each at the expense of the Issuer) shall work with the Clearing Systems to take such action as may be necessary to effect such repayment and issue of replacement Notes.

(l) Registrar authorisation

The Noteholders hereby authorise the Registrar and the Clearing Systems to take such actions as are necessary in order to effect the forced transfer provisions set out in Conditions 2(h) (*Forced Transfer of Rule 144A Notes*), 2(j) (*Forced Transfer pursuant to ERISA*) and 2(i) (*Forced Sale pursuant to FATCA*) above without the need for any further express instruction from any affected Noteholder. The Noteholders shall be bound by any actions taken by the Registrar, the Clearing Systems or any other party taken pursuant to the above-named Conditions.

(m) Exchange of Voting/Non-Voting Notes

A Noteholder holding Class A Notes in the form of CM Removal and Replacement Exchangeable Non-Voting Notes may request by the delivery to the Registrar or a Transfer Agent of a written request that such Notes be exchanged for Notes in the form of CM Removal and Replacement Non-Voting Notes.

A Noteholder holding Class A Notes in the form of CM Removal and Replacement Exchangeable Non-Voting Notes may request by the delivery to the Registrar or a Transfer Agent of a written request that such Notes be exchanged for Notes in the form of CM Removal and Replacement Voting Notes only in connection with the transfer of such Notes to an entity that is not an Affiliate of such Noteholder.

The Collateral Manager, on behalf of the Issuer, may accept or reject any Contribution in its absolute discretion and will notify the Trustee of any such acceptance. If a Contribution is accepted, it will be received into the Collateral Enhancement Account and applied by the Collateral Manager on behalf of the Issuer for the Permitted Use as directed by the Contributor at the time such Contribution is made (or, if no direction is given by the Contributor, for such Permitted Use as determined by the Collateral Manager in its absolute discretion). No Contribution or portion thereof will be returned to the Contributor at any time (other than in accordance with the Priorities of Payment). The acceptance of Contributions by the Collateral Manager, on behalf of the Issuer, shall be subject to the following conditions:

The obligations of the Issuer to pay amounts due and payable in respect of the Notes and to the other Secured Parties at any time shall be limited to the proceeds available at such time to make such payments in accordance with the Priorities of Payment and Condition 3(j) (*Payments to and from the Accounts*). Notwithstanding anything to the contrary in these Conditions, the Irish Security Agreement or any other Transaction Document, if the net proceeds of realisation of the security constituted by the Trust Deed and the Irish Security Agreement, upon enforcement thereof in accordance with Condition 11

(*Enforcement*) and the provisions of the Trust Deed and the Irish Security Agreement, are less than the aggregate amount payable in such circumstances by the Issuer in respect of the Notes and to the other Secured Parties (such negative amount being referred to herein as a "**shortfall**"), the claims, obligations, debts and liabilities of the Issuer in respect of the Notes of each Class and its claims, obligations, debts and liabilities to the other Secured Parties in such circumstances will be limited to such net proceeds, which shall be applied in accordance with the Priorities of Payment. In such circumstances, the other assets (including the Irish Excluded Assets) of the Issuer will not be available for payment of such shortfall which shall be borne by the Noteholders and the other Secured Parties in accordance with the Priorities of Payment (applied in reverse order). The rights of the Secured Parties to receive any further amounts in respect of such claims, obligations, debts and liabilities shall be extinguished and none of the Noteholders of each Class or the other Secured Parties may take any further action to recover such amounts. None of the Noteholders of any Class, the Trustee or the other Secured Parties (nor any other person acting on behalf of any of them) shall be entitled at any time to institute against the Issuer, or join in any institution against the Issuer of, any bankruptcy, reorganisation, arrangement, examinership, insolvency, winding up or liquidation proceedings, proceedings for the appointment of a liquidator, examiner, administrator or similar official or other proceedings under any applicable bankruptcy or similar law in connection with any claims, obligations, debts and liabilities of the Issuer relating to the Notes of any Class, the Trust Deed, the Irish Security Agreement or otherwise owed to the Secured Parties, save for lodging a claim in the liquidation of the Issuer which is initiated by another non-Affiliated party or taking proceedings to obtain a declaration or judgment as to the obligations of the Issuer and without limitation to the Trustee's right to enforce and/or realise the security constituted by the Trust Deed and the Irish Security Agreement (including by appointing a receiver or an administrative receiver).

In addition, none of the Noteholders or any of the other Secured Parties shall have any recourse against any director, shareholder, agent or officer of the Issuer in respect of any claims, obligations, covenants or agreements entered into or made by the Issuer pursuant to the terms of these Conditions, the Trust Deed, the Irish Security Agreement or any other Transaction Document to which the Issuer is a party or any notice or documents which it is requested to deliver hereunder or thereunder.

None of the Trustee, the Directors, the Placement Agent, the Corporate Services Provider, the Collateral Manager, the Retention Holder and any Agent has any obligation to any Noteholder of any Class for payment of any amount by the Issuer in respect of the Notes of any Class.

(d) Acquisition and Sale of Portfolio

Prior to the Issue Date, the Issuer acquired certain Collateral Debt Obligations pursuant to the Warehouse Arrangements. The Collateral Manager is required to manage the Portfolio and to act in specific circumstances in relation to the Portfolio on behalf of the Issuer pursuant to the terms of, and subject to the parameters set out in, the Collateral Management Agreement and subject to the overall supervision and control of the Issuer. The duties of the Collateral Manager subject to the Standard of Care in, and the other provisions of, the Collateral Management Agreement, with respect to the Portfolio include (amongst others) the use of reasonable endeavours to:

- (i) purchase Collateral Debt Obligations on or prior to the Issue Date and during the Initial Investment Period;
- (ii) invest the amounts standing to the credit of the Accounts (other than the Counterparty Downgrade Collateral Accounts, the Unfunded Revolver Reserve Account, the Collection Account and the Payment Account) in Eligible Investments; and
- (iii) sell certain of the Collateral Debt Obligations and reinvest the Principal Proceeds received from such sale or from repayments on such Collateral Debt Obligations in Substitute Collateral Debt Obligations in accordance with the criteria set out in the Collateral Management Agreement.

The Collateral Manager is required to monitor the Collateral Debt Obligations with a view to seeking to determine whether any Collateral Debt Obligation has converted into, or been exchanged for, an Exchanged Security or Defaulted Obligation, provided that, if it fails to do so, it will not have any liability to the Issuer except by reason of acts constituting bad faith, wilful misconduct, fraud or gross negligence (with such term given its meaning under New York law) or reckless disregard in the performance of its obligations. No Noteholder shall have any recourse against any of the Issuer, the Collateral Manager, the Retention Holder, the Collateral Administrator, the Custodian, the Principal Paying Agent, the Registrar or the Trustee for any loss suffered as a result of such failure.

(e) Exercise of Rights in Respect of the Portfolio

Pursuant to the Collateral Management Agreement, the Issuer authorises the Collateral Manager, prior to enforcement of the security over the Collateral, to exercise all rights and remedies of the Issuer in its capacity as a holder of, or person beneficially entitled to, the Portfolio. In particular, the Collateral Manager is authorised, subject to any specific direction given by the Issuer, to attend and vote at any meeting of holders of, or other persons interested or participating in, or entitled to the rights or benefits (or a part thereof) under, the Portfolio and to give any consent, waiver, indulgence, time or notification, make any declaration or agree any composition, compounding or other similar arrangement with respect to any obligations forming part of the Portfolio, subject to and in accordance with the management criteria set out in the Collateral Management Agreement.

(f) Securitisation Regulation

Pursuant to the Collateral Management Agreement, the Issuer has agreed to be designated as the entity required to fulfil the EU Disclosure Requirements. The Issuer will assume all costs of complying with the EU Disclosure Requirements (including the properly incurred costs and expenses (including legal fees) of all parties incurred in connection with any amendment of the Transaction Documents for this purpose) and shall reimburse each of the Collateral Manager and the Collateral Administrator for any such costs incurred by the Collateral Manager or the Collateral Administrator in connection with the preparation and filing of such information and reports required pursuant to the provisions of the Securitisation Regulation, such costs to be paid as Trustee Fees and Expenses and/or Administrative Expenses, as applicable.

(g) Information Regarding the Collateral

The Issuer shall procure that a copy of:

- (i) each Monthly Report and any Payment Date Report is made available to any person that certifies (in the form set out in the Collateral Management Agreement, which certificate may be given electronically and upon which certificate the Collateral Administrator shall be entitled to rely absolutely and without enquiry or liability) to the Collateral Administrator that it is a Relevant Recipient (as defined in the Collateral Management Agreement); and
- (ii) each Portfolio Report and Investor Report is made available to each person that certifies (in the form set out in the Collateral Management Agreement, which certificate may be given electronically and upon which certificate the Collateral Administrator shall be entitled to rely absolutely and without enquiry or liability) that it is a Relevant Recipient (as defined in the Collateral Management Agreement),

in each case, within two Business Days of publication thereof in accordance with the terms of the Collateral Management Agreement.

(h) Significant Events and Inside Information

The Issuer shall procure that any event based disclosure is made available as required by Article 7(1)(f) and (g) (as applicable) of the Securitisation Regulation in accordance with the Collateral Management Agreement.

5. Covenants of and Restrictions on the Issuer

(a) Covenants of the Issuer

Unless otherwise provided and as more fully described in the Transaction Documents, the Issuer covenants to the Trustee on behalf of the holders of the Notes that, for so long as any Note remains Outstanding, the Issuer will:

- (v) pay its debts generally as they fall due;
- (vi) do all such things as are necessary to maintain its corporate existence;

If, however, it is unable to do so, having used such endeavours, or if the maintenance of such listings are agreed by the Trustee to be unduly onerous and the Trustee is satisfied that the interests of the holders of the Outstanding Notes of each Class would not thereby be materially prejudiced, the Issuer will instead use all reasonable endeavours promptly to obtain and thereafter to maintain a listing for such Notes on such other stock exchange(s) as it may (with the approval of the Trustee) decide;

- (viii) supply such information to the Rating Agencies as they may reasonably request;
 - (ix) ensure that its "centre of main interests" (as that term is referred to in Article 3(1) of Regulation (EU) 2015/848 of 20 May 2015 on Insolvency Proceedings (recast)) and its tax residence is and remains at all times in Ireland;

 - (xii) maintain its central management and control and its place of effective management only in Ireland and in particular shall not be treated under any of the double taxation treaties entered into by Ireland as being resident in any other jurisdiction;
 - (xiii) conduct its business and affairs such that, at all times:
 - (A) it shall maintain its registered office in Ireland;
 - (B) it shall hold all meetings of its board of Directors in Ireland and ensure that all of its directors are resident in Ireland for tax purposes, that they will exercise their control over the business of the Issuer independently and that those directors (acting independently) exercise their authority only from and within Ireland by taking all key decisions relating to the Issuer in Ireland;
 - (C) it shall not open any office or branch or place of business outside of Ireland; and
 - (xiv) ensure that its tax residence is and remains at all times in Ireland.
- (b) Restrictions on the Issuer

As more fully described in the Trust Deed, for so long as any of the Notes remain Outstanding, save as contemplated in the Transaction Documents, the Issuer covenants to the holders of such Outstanding Notes that (to the extent applicable) it will not, without the prior written consent of the Trustee (and in the case of paragraph (vi) below only, subject to Rating Agency Confirmation from S&P):

- (i) sell, factor, discount, transfer, assign, lend or otherwise dispose of any of its right, title or interest in or to the Collateral, other than in accordance with the Collateral Management Agreement, nor will it create or permit to be outstanding any mortgage, pledge, lien, charge, encumbrance or other security interest over the Collateral except in accordance with the Trust Deed, these Conditions or the Transaction Documents;
- (ii) sell, factor, discount, transfer, assign, lend or otherwise dispose of, nor create or permit to be outstanding any mortgage, pledge, lien, charge, encumbrance or other security interest over, any of its other property or assets or any part thereof or interest therein other than in accordance with the Trust Deed, a Hedge Agreement, these Conditions or the Transaction Documents;

 - (A) acquiring and holding any property, assets or rights that are capable of being effectively charged in favour of the Trustee or that are capable of being held on trust by the Issuer in favour of the Trustee under the Trust Deed or the Irish Security Agreement;
 - (B) issuing and performing its obligations under the Notes;

- (C) entering into, exercising its rights and performing its obligations under or enforcing its rights under the Trust Deed, the Agency Agreement, the Collateral Management Agreement and each other Transaction Document to which it is a party, as applicable; or
 - (D) performing any act incidental to or necessary in connection with any of the above;
- (iv) amend any term or Condition of the Notes of any Class (save in accordance with these Conditions and the Trust Deed);

- (xiii) enter into any material agreement or contract with any Person (other than an agreement on customary market terms which for the avoidance of doubt will include agreements to buy and sell obligations and documentation relating to restructurings (including steering committee indemnity letters), which terms do not contain the provisions below) unless such contract or agreement contains "limited recourse" and "non-petition" provisions and such Person agrees that it shall not take any action or institute any proceeding against the Issuer under any insolvency law applicable to the Issuer or which would reasonably be likely to cause the Issuer to be subject to or seek protection of, any such insolvency law; provided that such Person shall be permitted to become a party to and to participate in any proceeding or action under any such insolvency law that is initiated by any other Person other than one of its Affiliates;
- (xiv) otherwise than as contemplated in the Transaction Documents, release from or terminate the appointment of the Custodian or the Account Bank under the Agency Agreement, the Collateral Manager or the Collateral Administrator under the Collateral Management Agreement (including, in each case, any transactions entered into thereunder) or, in each case, from any executory obligation thereunder;

6. Interest

(a) Payment Dates

(i) Rated Notes

The Rated Notes each bear interest from (and including) the Issue Date and such interest will be payable: (A) in the case of interest accrued during the initial Accrual Period, for the period from (and including) the Issue Date to (but excluding) the Payment Date falling in July 2021; (B) in respect of each six month Accrual Period, semi-annually; and (C) in respect of each three month Accrual Period, quarterly, in each case in arrear on each Payment Date.

(ii) Subordinated Notes

Interest shall be payable on the Subordinated Notes to the extent funds are available in accordance with paragraph (BB) of the Interest Proceeds Priority of Payments, paragraph (S) of the Principal Proceeds Priority of Payments, paragraph (Z) of the Post-Acceleration Priority of Payments on each Relevant Payment Date and pursuant to Condition 3(j)(vi) (*Collateral Enhancement Account*) and shall continue to be payable in accordance with this Condition 6 (*Interest*) notwithstanding redemption in full of any Subordinated Note at its applicable Redemption Price.

Notwithstanding any other provision of these Conditions or the Trust Deed, all references herein and therein to the Subordinated Notes being redeemed in full or at their Principal Amount Outstanding shall be deemed to be amended to the extent required to ensure that a minimum of €1 principal amount of the Subordinated Notes remains Outstanding at all times and any amounts which are to be applied in redemption of the Subordinated Notes pursuant hereto which are in excess of the Principal Amount Outstanding thereof minus €1, shall constitute interest payable in respect of the Subordinated Notes and shall not be applied in redemption of the Principal Amount Outstanding thereof, provided always however that such €1 principal shall no longer remain Outstanding and the Subordinated Notes shall be redeemed in full on the date on which all of the Collateral securing the Notes has been realised and is to be finally distributed to the Noteholders.

If the aggregate of income and gains earned by the Issuer during an accounting period exceeds the costs and expenses accrued for that period, such excess shall accrue as additional interest on the Subordinated Notes but shall only be payable on each Relevant Payment Date following payment in full of amounts payable pursuant to the Priorities of Payment.

(b) Interest Accrual

(i) Rated Notes

Each Rated Note will cease to bear interest from the due date for redemption unless, upon due presentation, payment of principal is improperly withheld or refused. In such event, it shall continue to bear interest in accordance with this Condition 6 (*Interest*) (both before and after judgment) until whichever is the earlier of (A) the day on which all sums due in respect of such

Note up to that day are received by or on behalf of the relevant Noteholder and (B) the day following seven days after the Trustee or the Principal Paying Agent has notified the Noteholders of such Class of Notes in accordance with Condition 16 (*Notices*) of receipt of all sums due in respect of all the Notes of such Class up to that seventh day (except to the extent that there is failure in the subsequent payment, and including, to the relevant holders under these Conditions).

(ii) Subordinated Notes

Payments on the Subordinated Notes will cease to be payable in respect of each Subordinated Note upon the date that all of the Collateral has been realised and no Interest Proceeds or Principal Proceeds or, where applicable, other net proceeds of enforcement of the security over the Collateral remain available for distribution in accordance with the Priorities of Payment.

(c) Deferral of Interest

(i) The Issuer shall, and shall only be obliged to, pay any Interest Amount payable in respect of the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes in full on any Payment Date, in each case, to the extent that there are Interest Proceeds or Principal Proceeds available for payment thereof in accordance with the Priorities of Payment.

(ii) In the case of the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes an amount of interest equal to any shortfall in payment of the Interest Amount which would, but for paragraph (i) above, otherwise be due and payable in respect of any of such Classes of Notes on any Payment Date in accordance with the Interest Proceeds Priority of Payments (each such amount being referred to as "**Deferred Interest**") will not be due and payable on such Payment Date, but will be added to the principal amount of the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, as applicable, and thereafter will accrue interest at the rate of interest applicable to that Class of Notes, and the failure to pay such Deferred Interest to the holders of such Notes, as applicable, will not be an Event of Default until the Maturity Date or any earlier date of redemption in full of the Notes.

(d) Payment of Deferred Interest

Deferred Interest in respect of any Class C Note, Class D Note, Class E Note or Class F Note shall only become payable by the Issuer in accordance with the Priorities of Payment, to the extent that Interest Proceeds or Principal Proceeds, as applicable, are available to make such payment in accordance with the Priorities of Payment (and, if applicable, the Note Payment Sequence). Deferred Interest on the Class C Notes and/or Class D Notes and/or the Class E Notes and/or the Class F Notes, as applicable will be added to the principal amount of the Class C Notes and/or Class D Notes and/or the Class E Notes and/or the Class F Notes, as applicable. An amount equal to any such Deferred Interest so paid shall be subtracted from the principal amount of the Class C Notes and/or Class D Notes and/or Class E Notes and/or Class F Notes, as applicable.

(e) Interest on the Rated Notes

(i) Floating Rate of Interest

The rate of interest (each a "**Rate of Interest**") from time to time in respect of the Floating Rate Notes will be determined by the Calculation Agent on the following basis:

(A) On each Interest Determination Date:

- (1) in the case of the initial Accrual Period, the Calculation Agent will determine a straight line interpolation of the offered rate for 6-month and 12-month Euro deposits;

- (2) in the case of each Interest Determination Date other than the initial Interest Determination Date and prior to the occurrence of a Frequency Switch Event, the Calculation Agent will determine (i) the offered rate for 3-month Euro deposits; and (ii) the offered rate for 6-month Euro deposits; and
- (3) in the case of each Interest Determination Date following the occurrence of a Frequency Switch Event, the Calculation Agent will determine the offered rate for 6-month Euro deposits,

in each case, as at 11.00 am (London time) on the Interest Determination Date in question ("**EURIBOR**"). Such offered rate will be that which appears on the display designated on the Bloomberg Screen "**BTMM EU**" Page (or such other page or service as may replace it for the purpose of displaying EURIBOR rates). The relevant Rate of Interest for such Accrual Period shall be the aggregate of the Applicable Margin (as defined below) in respect of (i) the initial Accrual Period, the rate referred to in paragraph (1) above; (ii) each 6-month Accrual Period, the rate referred to in paragraph (2)(i) or paragraph (3) above (as applicable); and (iii) each 3-month Accrual Period, the rate referred to in paragraph (2)(ii), above, in each case as determined by the Calculation Agent.

- (B) If the offered rate so appearing is replaced by the corresponding rates of more than one bank then paragraph (A) shall be applied, with any necessary consequential changes, to the arithmetic mean (rounded, if necessary, to the nearest one hundred thousandth of a percentage point (with 0.000005 being rounded upwards)) of the rates (being at least two) which so appear, as determined by the Calculation Agent. If for any other reason such offered rate does not so appear, or if the relevant page is unavailable, the Calculation Agent will request each of four major banks in the Euro zone interbank market (selected by the Collateral Manager on behalf of the Issuer, subject to Condition 6(e)(iv) (*Reference Banks and Calculation Agent*)) acting in each case through its principal Euro zone office (the "**Reference Banks**") to provide the Calculation Agent with its offered quotation to leading banks for Euro deposits in the Euro zone interbank market:

- (1) in the case of the initial Accrual Period, for a straight line interpolation of the offered quotation for 6-month and 12-month Euro deposits;
- (2) in respect of each Interest Determination Date other than the initial Interest Determination Date and prior to the occurrence of a Frequency Switch Event, for a period of (i) 3 months; and (ii) 6 months; and
- (3) in respect of each Interest Determination Date following the occurrence of a Frequency Switch Event, for a period of 6 months,

in each case, as at 11.00 am (London time) on the Interest Determination Date in question. The relevant Rate of Interest for such Accrual Period shall be the aggregate of the Applicable Margin (if any) and the arithmetic mean, in each case, (rounded, if necessary, to the nearest one hundred thousandth of a percentage point (with 0.000005 being rounded upwards)) of, in respect of (i) the initial Accrual Period; the quotations referred to in paragraph (1) above; (ii) each 6-month Accrual Period, the quotations referred to in paragraph (2)(i) or paragraph (3) above (as applicable); and (iii) each 3-month Accrual Period, the quotations referred to in paragraph (2)(ii) above (or of such quotations, being at least two, as are so provided), all as determined by the Calculation Agent.

- (C) If on any Interest Determination Date one only or none of the Reference Banks provides such quotations, for the next Accrual Period:

- (1) the Collateral Manager may (but is not be obliged to) propose an alternative to the offered quotations referred to in Condition 6(e)(i)(B)(1), (2) and (3) (the "**Collateral Manager Alternative Quotations**") to the Controlling Class by written notification thereof within 10 Business Days of the Interest Determination Date which the Controlling Class may consent to by way of Ordinary Resolution within 5 Business Days of receipt of such written notification;
- (2) if (a) the Collateral Manager does not propose a Collateral Manager Alternative Quotations pursuant to paragraph (1) above, then the Controlling Class may (but shall not be obliged to) (acting by Ordinary Resolution) propose its own alternative to the offered quotations referred to in Condition 6(e)(i)(B)(1), (2) and (3) (the "**Controlling Class Alternative Quotations**") to the Collateral Manager within 5 Business Days of the Interest Determination Date; or (b) the Collateral Manager proposes a Collateral Manager Alternative Quotations to be applied pursuant to paragraph (1) above and the Controlling Class (acting by way of Ordinary Resolution) does not consent to the use of such Collateral Manager Alternative Quotations within 5 Business Days of written notification thereof, then the Controlling Class may (but shall not be obliged to) (acting by Ordinary Resolution) propose a Controlling Class Alternative Quotations within 5 Business Days of receipt of the written proposal from the Collateral Manager under paragraph (1) above. The use of any such Controlling Class Alternative Quotations is subject to the consent of the Collateral Manager to be given within 5 Business Days of receipt of the proposal for the Controlling Class Alternative Quotations from the Controlling Class.
- (3) If the Collateral Manager and the Controlling Class agree the Collateral Manager Alternative Quotations described in paragraph (1) above or the Controlling Class Alternative Quotations described in paragraph (2) above, then the relevant Rate of Interest for such next Accrual Period shall be the aggregate of the Applicable Margin (if any) and the arithmetic mean, in each case, (rounded, if necessary, to the nearest one hundred thousandth of a percentage point (with 0.000005 being rounded upwards)) of the relevant Collateral Manager Alternative Quotations or Controlling Class Alternative Quotations (as applicable) or with such modifications to such calculations as may be agreed as part of the Collateral Manager Alternative Quotations or Controlling Class Alternative Quotations (as applicable) in respect of (i) the initial Accrual Period; (ii) each six month Accrual Period, and (iii) each three month Accrual Period, all as determined by the Calculation Agent;
- (4) if (a) the Collateral Manager does not make a proposal for a Collateral Manager Alternative Quotations or such Collateral Manager Alternative Quotations are not consented to by the Controlling Class under paragraph (1) above, or (b) the Controlling Class does not propose a Controlling Class Alternative Quotations or the Collateral Manager does not consent to the Controlling Class Alternative Quotations proposed under paragraph (2) above, in each case within the relevant time period specified under paragraphs (1) and (2) above (as applicable), then the relevant Rate of Interest for the next Accrual Period shall be the respective Rate of Interest, in each case, in effect as at the immediately preceding Accrual Period; *provided that* in respect of any Accrual Period during which a Frequency Switch Event occurs, the relevant Rate of Interest shall be calculated using the offered rate for six

month Euro deposits using the rate available as at the previous Interest Determination Date.

(D) Where:

"**Applicable Margin**" means:

- (1) in the case of the Class X Notes: 0.50 per cent. per annum;
- (2) in the case of the Class A Notes: 1.15 per cent. per annum;
- (3) in the case of the Class B-1 Notes: 1.95 per cent. per annum;
- (4) in the case of the Class C Notes: 2.70 per cent. per annum;
- (5) in the case of the Class D Notes: 4.25 per cent. per annum;
- (6) in the case of the Class E Notes: 6.65 per cent. per annum; and
- (7) in the case of the Class F Notes: 8.53 per cent. per annum,

notwithstanding paragraphs (A), (B) and (C) above, if, in relation to any Interest Determination Date, EURIBOR as determined in accordance with paragraphs (A), (B) and (C) above would yield a rate less than zero, such rate shall be deemed to be zero for the purposes of determining the relevant Rate of Interest pursuant to this Condition 6(e)(i) (*Floating Rate of Interest*).

(ii) Determination of Floating Rate of Interest and Calculation of Interest Amount

In respect of each Accrual Period, the Calculation Agent will, as soon as practicable (and in any event (i) for each Accrual Period following the occurrence of a Frequency Switch Event, not later than the Business Day following the relevant Interest Determination Date; and (ii) for each Accrual Period prior to the occurrence of a Frequency Switch Event and for any Accrual Period during which a Frequency Switch Event occurs, not later than the Determination Date immediately preceding the relevant Payment Date), determine the Rates of Interest and calculate the interest amount payable in respect of original principal amounts of the Floating Rate Notes equal to the Authorised Integral Amount applicable thereto for the relevant Accrual Period. The amount of interest (an "**Interest Amount**") payable in respect of each Authorised Integral Amount applicable to any such Floating Rate Notes shall be calculated by applying the relevant Rate of Interest to an amount equal to the Principal Amount Outstanding in respect of such Authorised Integral Amount in respect of the relevant Class of Notes, multiplying the product by the actual number of days in the Accrual Period concerned, divided by 360 and rounding the resultant figure to the nearest €0.01 (€0.005 being rounded upwards).

(iii) Calculation of the Class B-2 Interest Amounts

The Calculation Agent will as soon as practicable after 11.00 am (London time) on the Interest Determination Date in question, but in no event later than the Business Day after such date, calculate the amount of interest (an "**Interest Amount**") payable in respect of the Class B-2 Notes for the relevant Accrual Period by applying the Class B-2 Fixed Rate of Interest to an amount equal to the Principal Amount Outstanding in respect of the such Authorised Integral Amount, multiplying the product by the number of days in the Accrual Period concerned (the number of days to be calculated on the basis of a year of 360 days with 12 months of 30 days each), divided by 360 and rounding the resultant figure to the nearest €0.01 (€0.005 being rounded upwards), where:

"**Class B-2 Fixed Rate of Interest**" means 2.15 per cent. per annum.

(iv) Reference Banks and Calculation Agent

The Issuer will procure that, so long as any Rated Note remains Outstanding:

- (A) a Calculation Agent shall be appointed and maintained for the purposes of determining the interest rate and interest amount payable in respect of the Notes; and
- (B) in the event that a relevant Rate of Interest is to be calculated by Reference Banks pursuant to paragraph (B) of Condition 6(e)(i) (*Floating Rate of Interest*), that the number of Reference Banks required pursuant to such paragraph (B) are appointed.

If the Calculation Agent is unable or unwilling to continue to act as the Calculation Agent for the purpose of calculating interest hereunder or fails duly to establish any Rate of Interest for any Accrual Period, or to calculate the Interest Amount on any Class of Rated Notes, the Issuer shall (with the prior approval of the Trustee) appoint some other leading bank to act as such in its place. The Calculation Agent may not resign its duties without a successor having been so appointed.

(f) Proceeds in respect of Subordinated Notes

Solely in respect of Subordinated Notes, the Calculation Agent will on each Determination Date calculate the proceeds payable to the extent of available funds in respect of an original principal amount of Subordinated Notes equal to the Authorised Integral Amount applicable thereto for the relevant Accrual Period. The proceeds payable on each Payment Date in respect of an original principal amount of Subordinated Notes equal to the Authorised Integral Amount applicable thereto shall be calculated by multiplying the amount of proceeds to be applied on the Subordinated Notes on the applicable Payment Date pursuant to paragraph (BB) of the Interest Proceeds Priority of Payments, paragraph (S) of the Principal Proceeds Priority of Payments, paragraph (Z) of the Post-Acceleration Priority of Payments and Condition 3(j)(vi) (*Collateral Enhancement Account*) by fractions equal to the amount of such Authorised Integral Amount, as applicable, divided by the aggregate original principal amount of the Subordinated Notes.

(g) Publication of Rates of Interest, Interest Amounts and Deferred Interest

The Calculation Agent will (at the cost of the Issuer) cause each Rate of Interest and the Interest Amounts payable in respect of each Class of Rated Notes, the amount of any Deferred Interest due but not paid on any Class C Notes, Class D Notes, Class E Notes or Class F Notes for each Accrual Period and Payment Date and the Principal Amount Outstanding of each Class of Notes as of the applicable Payment Date to be notified to the Registrar, the Principal Paying Agent, the Transfer Agent, the Trustee and the Collateral Manager, as soon as possible after their determination but in no event later than the fourth Business Day thereafter, and the Principal Paying Agent shall cause each such rate, amount and date (and, following receipt of notice thereof from the Collateral Manager, the occurrence of a Frequency Switch Event) to be notified to the Noteholders of each Class in accordance with Condition 16 (*Notices*) as soon as possible following notification to the Principal Paying Agent but in no event later than the third Business Day after such notification. The Interest Amounts in respect of the Notes or the Payment Date in respect of any Class of Notes so published may subsequently be amended (or appropriate alternative arrangements made with the consent of the Trustee by way of adjustment) without notice in the event of an extension or shortening of the Accrual Period. If any of the Notes become due and payable under Condition 10 (*Events of Default*), interest shall nevertheless continue to be calculated as previously by the Calculation Agent in accordance with this Condition 6 (*Interest*) but no publication of the applicable Interest Amounts shall be made unless the Trustee so determines.

(h) Notifications, etc. to be Final

All notifications, opinions, determinations, certificates, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 6 (*Interest*), whether by the Reference Banks (or any of them) or the Calculation Agent, will (in the absence of manifest error) be binding on the Issuer, the Reference Banks or the Calculation Agent, the Trustee, the Registrar, the Principal Paying Agent, the Transfer Agent and all Noteholders and (in the absence of the fraud, negligence or wilful misconduct in respect of the Reference Banks or Calculation Agent (as applicable) no liability to the Issuer or the Noteholders of any Class shall attach to the Reference Banks or the Calculation Agent in connection with the exercise or non-exercise by them of their powers, duties and discretions under this Condition 6(h) (*Notifications, etc. to be Final*).

In the case of a redemption pursuant to this Condition 7(a) (*Final Redemption*), the Rated Notes will be redeemed at their Redemption Price in accordance with the Note Payment Sequence and the Subordinated Notes will be redeemed at the amount equal to their share of the amounts of Principal Proceeds to be applied towards such redemption pursuant to paragraph (S) of the Principal Proceeds Priority of Payments. Notes may not be redeemed other than in accordance with this Condition 7 (*Redemption and Purchase*).

(b) Optional Redemption

(i) Optional Redemption in Whole – Subordinated Noteholders or Collateral Manager

Subject to the provisions of Condition 7(b)(iv) (*Terms and Conditions of an Optional Redemption*), Condition 7(b)(v) (*Optional Redemption effected in whole or in part through Refinancing*) and Condition 7(b)(vii) (*Optional Redemption effected through Liquidation only*), the Rated Notes may be redeemed in whole but not in part by the Issuer at the applicable Redemption Prices, from Sale Proceeds or any Refinancing Proceeds (or a combination thereof):

- (A) on any Business Day falling on or after expiry of the Non-Call Period at the option of either (i) the Subordinated Noteholders acting by Ordinary Resolution (as evidenced by duly completed Redemption Notices); *provided*, that such redemption shall not be effected without the consent of the Retention Holder, in the case of any redemption to be effected wholly or partly with Refinancing Proceeds, if the Retention Holder gives written notice to the Trustee and the Issuer (which notice the Issuer will promptly transmit to the Subordinated Noteholders) that it has determined in good faith that such redemption could cause the Retention Holder to fail to be in compliance with the EU Retention Requirements or the U.S. Risk Retention Rules, or (ii) at the written direction of the Collateral Manager (provided the Subordinated Noteholders have not, acting independently by Ordinary Resolution, objected to such redemption within 10 Business Days of notice of such redemption being given to Noteholders in accordance with Condition 16 (*Notices*)); or
- (B) upon the occurrence of a Collateral Tax Event, on any Business Day falling after such occurrence at the direction of the Subordinated Noteholders acting by Ordinary Resolution (as evidenced by duly completed Redemption Notices).

(ii) Optional Redemption in Part – Subordinated Noteholders or Collateral Manager

Subject to the provisions of Condition 7(b)(iv) (*Terms and Conditions of an Optional Redemption*) and Condition 7(b)(v) (*Optional Redemption effected in whole or in part through Refinancing*), the Rated Notes of any Class may be redeemed by the Issuer at the applicable

Redemption Prices, solely from Refinancing Proceeds on any Business Day falling on or after expiry of the Non-Call Period at the direction of either: (x) the Subordinated Noteholders acting by Ordinary Resolution (as evidenced by duly completed Redemption Notices); *provided*, that such redemption shall not be effected without the consent of the Retention Holder, in the case of any redemption to be effected wholly or partly with Refinancing Proceeds, if the Retention Holder gives written notice to the Trustee and the Issuer (which notice the Issuer will promptly transmit to the Subordinated Noteholders) that it has determined in good faith that such redemption could cause the Retention Holder to fail to be in compliance with the EU Retention Requirements or the U.S. Risk Retention Rules; or (y) at the written direction of the Collateral Manager. No such Optional Redemption may occur unless any Class of Rated Notes to be redeemed represents the entire Class of such Rated Notes.

(iii) Optional Redemption in Whole – Collateral Manager

Subject to the provisions of Condition 7(b)(iv) (*Terms and Conditions of an Optional Redemption*) and Condition 7(b)(vii) (*Optional Redemption effected through Liquidation only*), the Rated Notes may be redeemed in whole but not in part by the Issuer, at the applicable Redemption Prices, from Sale Proceeds on any Business Day falling on or after expiry of the Non-Call Period if, upon or at any time following the expiry of the Non-Call Period, the Aggregate Collateral Balance is less than 20 per cent. of the Target Par Amount and if directed in writing by the Collateral Manager (on behalf of the Issuer).

(iv) Terms and Conditions of an Optional Redemption

In connection with any Optional Redemption:

- (A) the Issuer shall procure that at least 15 calendar days' prior written notice of such Optional Redemption (but stating that such redemption is subject to satisfaction of the conditions set out in this Condition 7 (*Redemption and Purchase*), including the applicable Redemption Date, and the relevant Redemption Price therefor), is given to the Trustee, the Collateral Administrator, each Hedge Counterparty and the Noteholders in accordance with Condition 16 (*Notices*));
- (B) the Rated Notes to be redeemed shall be redeemed at their applicable Redemption Prices (subject, in the case of an Optional Redemption of the Rated Notes in whole, to the right of holders of 100 per cent. of the aggregate Principal Amount Outstanding of any Class of Rated Notes to elect to receive less than 100 per cent. of the Redemption Price that would otherwise be payable to the holders of such Class of Rated Notes). Such right shall be exercised by delivery by each holder of the relevant Class of Rated Notes of a written direction confirming such holder's election to receive less than 100 per cent. of the Redemption Price that would otherwise be payable to it, together with evidence of their holding to the Issuer, the Trustee and the Collateral Manager no later than 10 calendar days (or such shorter period of time as may be agreed by the Trustee and the Collateral Manager, acting reasonably) prior to the relevant Redemption Date;
- (C) any such redemption must comply with the procedures set out in Condition 7(b)(viii) (*Mechanics of Redemption*); and
- (D) any redemption in part of the Notes pursuant to Condition 7(b)(ii) (*Optional Redemption in Part – Subordinated Noteholders or Collateral Manager*) may be effected solely from Refinancing Proceeds in accordance with Condition 7(b)(v) (*Optional Redemption effected in whole or in part through Refinancing*) below.

(v) Optional Redemption effected in whole or in part through Refinancing

Following receipt of, or as the case may be, confirmation from the Registrar of receipt of (i) a direction in writing from the requisite percentage of Subordinated Noteholders; or (ii) a direction in writing from the Collateral Manager, as the case may be, to exercise any right of

optional redemption pursuant Condition 7(b)(i) (*Optional Redemption in Whole – Subordinated Noteholders or Collateral Manager*) or Condition 7(b)(ii) (*Optional Redemption in Part – Subordinated Noteholders or Collateral Manager*), the Issuer may:

- (A) in the case of a redemption in whole of all Classes of Rated Notes (1), enter into a loan (as borrower thereunder) with one or more financial institutions; or (2) issue replacement notes; and
- (B) in the case of a redemption in part of the entire Class of a Class of Rated Notes (or in relation to the Class B Notes, the redemption of the entire tranche of the Class B-1 Notes and/or Class B-2 Notes), issue replacement notes (each, a "**Refinancing Obligation**"),

whose terms in each case will be negotiated by the Collateral Manager on behalf of the Issuer (any such refinancing, a "**Refinancing**"); *provided*, that such Refinancing shall not be effected without the consent of the Retention Holder if the Retention Holder gives written notice to the Trustee and the Issuer (which notice the Issuer will promptly transmit to the Subordinated Noteholders) that it has determined in good faith that such Refinancing could cause the Retention Holder to fail to be in compliance with the EU Retention Requirements or the U.S. Risk Retention Rules. Each Refinancing is required to satisfy the conditions described in this Condition 7(b)(v) (*Optional Redemption effected in whole or in part through Refinancing*).

Refinancing Proceeds may be applied in addition to (or in place of) Sale Proceeds in the redemption of the Rated Notes in whole pursuant to Condition 7(b)(i) (*Optional Redemption in Whole – Subordinated Noteholders or Collateral Manager*). In addition, Refinancing Proceeds may be applied in the redemption of the Rated Notes in part by Class pursuant to Condition 7(b)(ii) (*Optional Redemption in Part – Subordinated Noteholders or Collateral Manager*).

- (C) Refinancing in relation to a Redemption in Whole

In the case of a Refinancing in relation to the redemption of the Rated Notes in whole but not in part pursuant to Condition 7(b)(i) (*Optional Redemption in Whole – Subordinated Noteholders or Collateral Manager*) as described above, such Refinancing will be effective only if:

- (1) the Issuer provides prior written notice thereof to Fitch and S&P;
- (2) all Principal Proceeds, Refinancing Proceeds, all Sale Proceeds, if any, from the sale of Collateral Debt Obligations, Eligible Investments, Exchanged Securities and Workout Obligations and all other available funds will be at least sufficient to pay any Refinancing Costs, (including, for the avoidance of doubt, any Trustee Fees and Expenses that are Refinancing Costs and any Administrative Expenses that are Refinancing Costs) and all amounts due and payable in respect of all Classes of Notes save for the Subordinated Notes (including without limitation Deferred Interest on the Class C Notes, the Class D Notes, Class E Notes and the Class F Notes) and all amounts payable in priority thereto pursuant to the Priorities of Payment (subject to any election to receive less than 100 per cent. of the Redemption Price) on such Redemption Date when applied in accordance with the Post-Acceleration Priority of Payments;
- (3) all Principal Proceeds, Refinancing Proceeds, Sale Proceeds, if any, and other available funds are used (to the extent necessary) to make such redemption;

- (4) each agreement entered into by the Issuer in respect of such Refinancing contains limited recourse and non-petition provisions substantially the same as those contained in the Trust Deed; and
- (5) all Refinancing Proceeds, Principal Proceeds and all Sale Proceeds, if any, from the sale of Collateral Debt Obligations and Eligible Investments, are received by (or on behalf of) the Issuer on or prior to the applicable Redemption Date,

in each case, as certified to the Issuer and the Trustee by the Collateral Manager (upon which certificate the Trustee may rely absolutely and without enquiry or liability).

(D) Refinancing in relation to a Redemption in Part

In the case of a Refinancing in relation to a redemption of the Rated Notes in part by Class (or by tranche, as applicable) pursuant to Condition 7(b)(ii) (*Optional Redemption in Part – Subordinated Noteholders or Collateral Manager*), such Refinancing will be effective only if:

- (1) the Issuer provides prior written notice thereof to Fitch and S&P;
- (2) the Refinancing Obligations are in the form of notes;
- (3) any redemption of a Class of Notes is a redemption of the entire Class (or tranche, as applicable) which is subject to the redemption;
- (4) the sum of (A) the Refinancing Proceeds and (B) the Partial Redemption Interest Proceeds will be at least sufficient to pay in full
 - (a) the aggregate Redemption Prices of the entire Class or Classes (or tranche or tranches, as applicable) of Rated Notes subject to the Optional Redemption; plus
 - (b) all accrued and unpaid Trustee Fees and Expenses and Administrative Expenses in connection with such Refinancing;
- (5) the Partial Redemption Date is not a Payment Date, the amount the Collateral Manager reasonably determines would be available for distribution under the Interest Proceeds Priorities of Payments on the immediately following Payment Date will be at least sufficient to pay in full:
 - (a) all accrued and unpaid Trustee Fees and Expenses and Administrative Expenses due on the immediately following Payment Date (excluding any such amounts incurred in connection with such Refinancing); plus
 - (b) all accrued and unpaid Interest on the Rated Notes (excluding any such amounts paid in connection with the Refinancing);
- (6) the Refinancing Proceeds are used (to the extent necessary) to make such redemption;
- (7) each agreement entered into by the Issuer in respect of such Refinancing contains limited recourse and non-petition provisions substantially the same as those contained in the Trust Deed;
- (8) the aggregate principal amount of the Refinancing Obligations is equal to the aggregate Principal Amount Outstanding of the Class or Classes (or tranche

or tranches, as applicable) of Notes being redeemed with the Refinancing Proceeds and Partial Redemption Interest Proceeds;

- (9) the maturity date of each class (or tranche, as applicable) of Refinancing Obligation is the same as the Maturity Date of the Class or Classes (or tranche or tranches, as applicable) of Notes being redeemed with the Refinancing Proceeds and Partial Redemption Interest Proceeds;
- (10) (a) the margin applicable to any Refinancing Obligations for the purposes of determining the relevant interest rate will be equal to or less than the margin applicable to the Rated Notes subject to such Optional Redemption, or, (b) if either (i) any of the Notes being redeemed are Fixed Rate Notes, and the related Refinancing Obligations are floating rate obligations, or (ii) any of the Notes being redeemed are Floating Rate Notes, and the related Refinancing Obligations are fixed rate obligations, the interest payable on all such Refinancing Obligations is expected (in the reasonable determination of the Collateral Manager) to be less than the interest that would have been payable on the Notes being redeemed over the expected remaining life of such Notes being redeemed (in each case determined on a weighted average basis over such expected remaining life), had such redemption in part not occurred;
- (11) payments in respect of the Refinancing Obligations are subject to the Priorities of Payment and rank at the same priority pursuant to the Priorities of Payment than the relevant Class or Classes (or tranche or tranches, as applicable) of Rated Notes being redeemed;
- (12) the voting rights, consent rights, redemption rights (other than any modification to remove the right of the Subordinated Noteholders or any other party to direct the Issuer to redeem the Refinancing Obligations issued in respect thereof by way of a further Refinancing) and all other rights of the Refinancing Obligations are the same as the rights of the corresponding Class (or tranche, as applicable) of Rated Notes being redeemed; and
- (13) all Refinancing Proceeds are received by (or on behalf of) the Issuer on or prior to the applicable Redemption Date,

in each case, as certified to the Issuer and the Trustee by the Collateral Manager (upon which certificate the Trustee may rely absolutely and without enquiry or liability), and, in the case of paragraph (10)(b) above, *provided that* Rating Agency Confirmation is received with respect to any Class or Classes (or tranche or tranches, as applicable) of Rated Notes that are not being redeemed.

If, in relation to a proposed optional redemption of the Notes, any of the conditions specified in this Condition 7(b)(v) (*Optional Redemption effected in whole or in part through Refinancing*) are not satisfied, the Issuer shall cancel the relevant redemption of the Notes and shall give notice of such cancellation to the Trustee, the Collateral Manager and the Noteholders in accordance with Condition 16 (*Notices*).

None of the Issuer, the Collateral Manager, the Collateral Administrator or the Trustee shall be liable to any party, including the Subordinated Noteholders, for any failure to obtain a Refinancing.

(E) Consequential Amendments

Following a Refinancing, the Trustee shall agree to the modification of the Trust Deed and the other Transaction Documents to the extent the Issuer certifies (upon which certificate the Trustee will be entitled to conclusively rely without enquiry and without liability) that any such modification is necessary to reflect the terms of the Refinancing

(including any modification to remove the right of the Subordinated Noteholders or any other party to direct the Issuer to redeem the Refinancing Obligations issued in respect thereof by way of a further Refinancing). No further consent for such amendments shall be required from the holders of Notes (subject always to each Hedge Counterparty's right as set out in Condition 14(c) (*Modification and Waiver*)).

The Trustee will not be obliged to enter into any modification that, in its opinion would have the effect of (i) exposing the Trustee to any liability against which it has not been indemnified and/or secured and/or prefunded to its satisfaction or (ii) adding to or increasing its duties, obligations or liabilities or decreasing its rights, powers, authorisations, indemnities or protections under the Trust Deed or the other Transaction Documents, and the Trustee will be entitled to conclusively rely upon an officer's certificate or opinion of counsel as to matters of law (which may be supported as to factual (including financial and capital markets) matters by any relevant certificates and other documents necessary or advisable in the judgement of counsel delivering such opinion of counsel) provided by the Issuer to the effect that such amendment meets the requirements specified above and is permitted under the Trust Deed without the consent of the holders of the Notes (except that such officer or counsel will have no obligation to certify or opine as to the sufficiency of the Refinancing Proceeds).

(vi) Optional Redemption effected through Regulatory Refinancing

The Specified Percentage of any Class of Notes will be redeemed at the applicable Regulatory Refinancing Redemption Price on any Business Day from Regulatory Refinancing Proceeds, Regulatory Refinancing Interest Proceeds and all other available proceeds from a Contribution, if any, at the direction of the Collateral Manager at least 15 Business Days prior to the Business Day fixed by the Issuer (and notified in writing to the Trustee) for such redemption (such date, the "**Regulatory Refinancing Date**") to redeem the Specified Percentage of each such Class of Notes, by the issuance of Regulatory Refinancing Obligations (such issuance, a "**Regulatory Refinancing**"); provided that, the Collateral Manager has used commercially reasonable efforts to purchase the Specified Percentage of each applicable Class of Notes prior to directing such Regulatory Refinancing and so certifies to the Issuer and the Trustee (upon which certification the Trustee shall be entitled to rely conclusively and without enquiry or liability) in connection with such direction (it being understood that in no case will the Collateral Manager be required to pay a purchase price greater than the then-current market price (as reasonably determined by the Collateral Manager) for any Notes in order to satisfy such condition).

Such Regulatory Refinancing will be effective only if the Collateral Manager determines and certifies to the Trustee (upon which certification the Trustee shall be entitled to rely conclusively and without enquiry or liability) at least 10 Business Days prior to the Regulatory Refinancing Date:

- (A) that it has received advice of counsel that a Regulatory Refinancing is necessary for the Collateral Manager, the Retention Holder or any "sponsor" (as defined in the U.S. Risk Retention Rules) of the Issuer to avoid failing to be in compliance with the Retention Requirements;
- (B) the Specified Percentage of each Class of Notes that is subject to such Regulatory Refinancing;
- (C) that the Regulatory Refinancing Proceeds, Regulatory Refinancing Interest Proceeds and all other available proceeds from Contributions, if any, for this purpose will be at least sufficient to pay in full (i) the aggregate Regulatory Refinancing Redemption Prices of the Specified Percentage of each Class of Notes subject to such Regulatory

Refinancing, and (ii) all accrued and unpaid Trustee Fees and Expenses and Administrative Expenses in connection with such Regulatory Refinancing;

- (D) if the Regulatory Refinancing Date is not a Payment Date, the amount the Collateral Manager reasonably determines would be available for distribution under the Interest Proceeds Priorities of Payments on the immediately following Payment Date will be at least sufficient to pay in full:
 - (1) all accrued and unpaid Trustee Fees and Expenses and Administrative Expenses due on the immediately following Payment Date (excluding any such amounts incurred in connection with such Regulatory Refinancing); plus
 - (2) all accrued and unpaid Interest on the Rated Notes (excluding any such amounts paid in connection with the Regulatory Refinancing);
- (E) the stated maturity of the Regulatory Refinancing Obligations is the same as the corresponding Stated Maturity of each Class being refinanced;
- (F) that the terms of the Regulatory Refinancing Obligations are identical to the respective terms of the corresponding Class of Notes subject to such Regulatory Refinancing (except that interest due on Regulatory Refinancing Obligations will accrue from the Regulatory Refinancing Date and the price of the Regulatory Refinancing Obligations is not required to be identical to the corresponding Class of Notes subject to such Regulatory Refinancing, *provided that* (i) in the case of the Regulatory Refinancing Obligations that are Rated Notes, the price of such Regulatory Refinancing Obligations shall be at least equal to par and (ii) in the case of the Regulatory Refinancing Obligations that are Subordinated Notes, the price will be equal to the Subordinated Notes Regulatory Refinancing Redemption Price);
- (G) that the Issuer has, at least 10 Business Days prior to the Regulatory Refinancing Date ((but stating that such redemption is subject to satisfaction of the conditions set out in this Condition 7(b)(vi) (*Optional Redemption effected through Regulatory Refinancing*)), including the proposed Regulatory Refinancing Date and the Specified Percentage, is given to the Noteholders in accordance with Condition 16 (*Notices*); and
- (H) that it has provided written notice thereof to S&P and Fitch and that Rating Agency Confirmation is received with respect to such Regulatory Refinancing, including the Regulatory Refinancing Obligations in the principal amount of each Class of Rated Notes for which such satisfaction is requested.

If, in relation to a proposed optional redemption of the Notes under this Condition 7(b)(vi) (*Optional Redemption effected through Regulatory Refinancing*), any of the conditions specified in this Condition 7(b)(vi) (*Optional Redemption effected through Regulatory Refinancing*) are not satisfied, the Issuer shall cancel the relevant redemption of the Notes and shall give notice of such cancellation to the Trustee, the Collateral Manager and the Noteholders in accordance with Condition 16 (*Notices*).

None of the Issuer, the Placement Agent, the Collateral Manager, the Trustee or any other Person shall be liable to the Noteholders for the failure of a Regulatory Refinancing. If a Regulatory Refinancing is obtained meeting the requirements specified above as certified by the Collateral Manager, the Issuer and the Trustee shall amend the Trust Deed to the extent the Issuer certifies (upon which certification the Trustee shall be entitled to rely conclusively and without enquiry or liability) that any such amendment is necessary to reflect the terms of the Regulatory Refinancing and no further consent for such amendments shall be required from the Noteholders.

The Notes (or portions thereof) comprising the Specified Percentage of each Class subject to a Regulatory Refinancing shall be allocated among the Noteholders of each such Class, *pro rata*,

based on the proportion that the Principal Amount Outstanding of Notes of such Class held by such Noteholders bears to the total Principal Amount Outstanding of all Notes of such Class. If any portion of the Principal Amount Outstanding of any Note held by a Noteholder is subject to a Regulatory Refinancing, the Principal Amount Outstanding of such Note shall be reduced by such amount on the Regulatory Refinancing Date.

All Regulatory Refinancing Obligations will be acquired by the Collateral Manager, an Affiliate thereof or a retention financing provider thereto or, if required by applicable law or for compliance with the policies and procedures of any applicable Clearing System, through one or more financial institutions or initial purchasers who are participants of the relevant Clearing System. Such Regulatory Refinancing Obligation will be issued either: (i) in the form of a certificated Note bearing the same ISIN as the certificated Notes of the corresponding Class of Notes being refinanced with such Regulatory Refinancing Obligation or (ii) reflected as a beneficial interest in a Global Certificate bearing either the same ISIN or a different ISIN (if the Collateral Manager has determined that a Global Certificate bearing such ISIN is in accordance with the Retention Requirements and any other applicable law) as such applicable Global Certificates of the corresponding Class of Notes being refinanced with such Regulatory Refinancing Obligations. The Collateral Manager shall, in consultation with the Issuer and based on considerations of applicable law and the policies and procedures of the applicable Clearing System, determine whether the Regulatory Refinancing Obligations will be acquired in the form of a certificated Note or as a beneficial interest in a Global Certificate.

(vii) Optional Redemption effected through Liquidation only

Following receipt of notice from the Issuer or, as the case may be, of confirmation from the Registrar of (i) a direction in writing from the requisite percentage of Subordinated Noteholders or (ii) a direction in writing from the Collateral Manager, as the case may be, and additionally including, where appropriate, confirmation of the consent of the Retention Holder in connection with such optional redemption (where the Retention Holder has given written notice to the Trustee and the Issuer that it has determined in good faith that such redemption could cause the Retention Holder to fail to be in compliance with the EU Retention Requirements or the U.S. Risk Retention Rules), to exercise any right of optional redemption pursuant to this Condition 7(b) (*Optional Redemption*) or Condition 7(g) (*Redemption following Note Tax Event*) to be effected solely through the liquidation or realisation of the Collateral, the Collateral Administrator shall, as soon as practicable, and in any event not later than 10 Business Days prior to the scheduled Redemption Date (the "**Redemption Determination Date**"), calculate the Redemption Threshold Amount in consultation with the Collateral Manager.

The Notes shall not be optionally redeemed where such Optional Redemption is to be effected solely through the liquidation or realisation of the Collateral unless:

- (A) (i) prior to selling any Collateral Debt Obligations and/or Eligible Investments and at least five Business Days before the scheduled Redemption Date the Collateral Manager shall have certified in writing to the Trustee that the Collateral Manager on behalf of the Issuer has entered into a binding agreement or agreements with (1) a financial or other institution or institutions (which (a) either (x) has a long-term issuer default rating of at least "A" by S&P or, if it does not have such a long-term issuer default rating by S&P, a short-term issuer default rating of at least "A-1" by S&P or (y) in respect of which Rating Agency Confirmation from S&P has been obtained and (b) either (x) has a long-term issuer default rating of at least "A" by Fitch or, if it does not have such a long-term issuer default rating by Fitch, a short-term issuer default rating of at least "F1" by Fitch, or (y) in respect of which a Rating Agency Confirmation from Fitch has been obtained) or (2) a bankruptcy remote special purpose vehicle, with sufficient available funding capacity, to purchase (directly or by participation or other arrangement) from the Issuer, not later than the Business Day immediately preceding

the scheduled Redemption Date in immediately available funds, all or part of the Portfolio at a purchase price at least sufficient, together with the Eligible Investments maturing, redeemable or putable to the issuer thereof at par on or prior to the scheduled Redemption Date, to meet the Redemption Threshold Amount, to purchase (directly or by participation or other arrangement) from the Issuer, not later than the Business Day immediately preceding the scheduled Redemption Date in immediately available funds, all or part of the Portfolio at a purchase price at least sufficient, when calculated together with (and without duplication) (A) amounts standing to the credit of the Accounts that will be available to be applied in accordance with the Priorities of Payment, (B) expected proceeds from the sale or maturing of Eligible Investments, and (C) for each Collateral Debt Obligation, the product of its Principal Balance and its Market Value, to meet the Redemption Threshold Amount; and (ii) at least one Business Day before the scheduled Redemption Date, the Issuer shall have received proceeds of disposition of all or part of the Portfolio at least sufficient to meet the Redemption Threshold Amount.

- (B) prior to the scheduled Redemption Date, the Collateral Administrator shall give notice to the Trustee in writing of the amount of all expenses incurred by the Issuer up to and including the scheduled Redemption Date in effecting such liquidation.
- (C) any confirmation delivered by the Collateral Manager pursuant to this section must include (1) details of the amounts standing to the credit of the Accounts that will be available to be applied in accordance with the Priorities of Payment, (2) the prices of, and expected proceeds from, the sale (directly or by participation or other arrangement) or redemption of any Collateral Debt Obligations and/or Eligible Investments and (3) all calculations required by this Condition 7(b) (*Optional Redemption*). Any Noteholder, the Collateral Manager or any of the Collateral Manager's Affiliates, shall have the right, subject to the same terms and conditions afforded to other bidders, to bid on Collateral Debt Obligations to be sold as part of an Optional Redemption pursuant to this Condition 7(b)(vii) (*Optional Redemption effected through Liquidation only*).
- (D) the Trustee will be entitled to conclusively rely without enquiry or liability upon any evidence, confirmation or certificate formalised by the Collateral Manager pursuant to or in connection with this Condition 7(b)(vii) (*Optional Redemption effected through Liquidation only*).

If paragraph (A) above is not satisfied on the Business Day falling immediately prior to the Redemption Date, the Issuer shall cancel the redemption of the Notes and shall give notice of such cancellation to the Trustee, the Collateral Administrator, the Collateral Manager and the Noteholders in accordance with Condition 16 (*Notices*). For the avoidance of doubt, any failure to effect an Optional Redemption due to a cancellation pursuant to the foregoing shall not constitute an Event of Default.

If the condition in paragraph (A)(i) above is satisfied and the condition in paragraph (A)(ii) above is not satisfied on the Business Day immediately prior to the Redemption Date solely as result of the fact that one or more of the trades has not been settled on or prior to that date, the Issuer shall give notice of such to the Trustee, the Collateral Administrator and the Noteholders in accordance with Condition 16 (*Notices*) and the Subordinated Noteholders (acting by Ordinary Resolution) shall have the right to elect to direct the Issuer to redeem the Notes on a date falling not less than 3 Business Days after the first date notified to Noteholders of as the date of such redemption (the "**Original Redemption Date**") and no more than 30 Business Days after the Original Redemption Date.

If the condition in (A)(ii) above is not satisfied on the Business Day immediately prior to the Redemption Date as extended pursuant to the immediately preceding paragraph, the Issuer shall cancel the redemption of the Notes and shall give notice of such cancellation to the Trustee, the

Collateral Administrator, the Collateral Manager and the Noteholders in accordance with Condition 16 (*Notices*).

The provisions of Condition 7(b)(iv) (*Terms and Conditions of an Optional Redemption*) and this Condition 7(b)(vii) (*Optional Redemption effected through Liquidation only*) shall apply as conditions to a redemption at the election of the Subordinated Noteholders pursuant to this Condition 7(b)(vii) (*Optional Redemption effected through Liquidation only*), provided that the notice period in Condition 7(b)(iv)(A) (*Terms and Conditions of an Optional Redemption*) shall be read as 7 calendar days' prior written notice (rather than 15 calendar days' prior written notice) and the Redemption Determination Date shall be 1 Business Day prior to any such Redemption Date (rather than 15 Business Days prior to the scheduled Redemption Date).

(viii) Mechanics of Redemption

Following calculation by the Collateral Administrator of the relevant Redemption Threshold Amount, if applicable, the Collateral Administrator shall make such other calculations as it is required to make pursuant to the Collateral Management Agreement and shall notify the Issuer, the Trustee, the Collateral Manager and the Registrar, whereupon the Registrar shall notify the Noteholders (in accordance with Condition 16 (*Notices*)) of such amounts.

Any exercise of a right of Optional Redemption by the Subordinated Noteholders pursuant to this Condition 7(b) (*Optional Redemption*) or the Controlling Class pursuant to Condition 7(g) (*Redemption following Note Tax Event*) shall be effected by delivery to a Transfer Agent, by the requisite amount of Subordinated Noteholders or the requisite amount of Notes comprising the Controlling Class (as applicable) held thereby together with duly completed Redemption Notices not less than 30 calendar days, or such shorter period of time as the Trustee and the Collateral Manager find reasonably acceptable, prior to the proposed Redemption Date prior to the applicable Redemption Date. No Redemption Notice and Subordinated Note or Notes comprising the Controlling Class so delivered or any direction given by the Collateral Manager or the Retention Holder may be withdrawn without the prior consent of the Issuer. The Registrar shall copy each Redemption Notice or any direction given by the Collateral Manager or the Retention Holder received to each of the Issuer, the Trustee, the Collateral Administrator, each Hedge Counterparty, and, if applicable, the Collateral Manager.

The Collateral Manager shall notify the Issuer, the Trustee, the Collateral Administrator, each Hedge Counterparty and the Registrar upon satisfaction of any of the relevant conditions set out in this Condition 7(b) (*Optional Redemption*) and shall use commercially reasonable endeavours to arrange for liquidation and/or realisation of the Portfolio in whole or in part as necessary, on behalf of the Issuer in accordance with the Collateral Management Agreement. The Issuer shall deposit, or cause to be deposited, the funds required for an optional redemption of the Notes in accordance with this Condition 7(b) (*Optional Redemption*) in the Payment Account on or before the Business Day prior to the applicable Redemption Date (or, in the case of a Refinancing, on or prior to the applicable Redemption Date). Principal Proceeds and Interest Proceeds received in connection with a redemption in whole of all the Rated Notes shall be payable in accordance with the Post-Acceleration Priority of Payments. Any redemption in whole of a Class (or tranche, as applicable) of Rated Notes (other than a redemption in whole of all Classes of Rated Notes) shall be paid to the holders of such Class (or tranche, as applicable) of Notes.

(ix) Optional Redemption of Subordinated Notes

Subject to the provisions of Condition 7(b)(vii) (*Optional Redemption effected through Liquidation only*), the Subordinated Notes may be redeemed at their Redemption Price, in whole but not in part, on any Business Day on or after the redemption or repayment in full of the Rated

Notes, at the direction of either of (x) the Subordinated Noteholders (acting by Ordinary Resolution) or (y) the Collateral Manager (on behalf of the Issuer).

(c) Mandatory Redemption upon Breach of Coverage Tests

(d) Special Redemption

Principal payments on the Notes shall be made in accordance with the Principal Proceeds Priority of Payments at the sole and absolute discretion of the Collateral Manager (acting on behalf of the Issuer) if, at any time during the Reinvestment Period, the Collateral Manager (acting on behalf of the Issuer) notifies the Trustee (with a copy to the Issuer) (upon which notification to the Trustee will be entitled to conclusively rely without enquiry and without liability) that using reasonable endeavours it has been unable, for a period of 20 consecutive Business Days, to identify additional Collateral Debt Obligations that are deemed appropriate by the Collateral Manager (acting on behalf of the Issuer) in its sole discretion which meet the Eligibility Criteria or, to the extent applicable, the Reinvestment Criteria, in sufficient amounts to permit the investment or reinvestment of all or a portion of the funds then in the Principal Account that are to be invested in additional Collateral Debt Obligations (a "**Special Redemption**"). On the first Payment Date following the Due Period in which such notice is given (a "**Special Redemption Date**"), the funds in the Principal Account representing Principal Proceeds which, using reasonable endeavours, cannot be reinvested in additional Collateral Debt Obligations or Substitute Collateral Debt Obligations (the "**Special Redemption Amount**") will be applied in accordance with paragraph (O) of the Principal Proceeds Priority of Payments. Notice of payments pursuant to this Condition 7(d) (*Special Redemption*) shall be given by the Issuer in accordance with Condition 16 (*Notices*) not less than three Business Days prior to the applicable Special Redemption Date to the Noteholders of each Class of Notes and to each Rating Agency. For the avoidance of doubt, the exercise of a Special Redemption shall be at the sole and absolute discretion of the Collateral Manager (acting on behalf of the Issuer) and the Collateral Manager shall be under no obligation to, or have any responsibility to, any Noteholder or any other person for the exercise or non-exercise (as applicable) of such Special Redemption.

(e) Redemption upon Effective Date Rating Event

In the event that as at the Business Day prior to the Payment Date following the Effective Date, an Effective Date Rating Event has occurred and is continuing, either (i) the Issuer, at the direction of the Collateral Manager, shall purchase additional Collateral Debt Obligations or transfer amounts into the Principal Account pending reinvestment in Collateral Debt Obligations at a later date, in each case subject to and in accordance with the Priorities of Payments, until an Effective Date Rating Event is no longer continuing or (ii) the Rated Notes shall be redeemed in accordance with the Note Payment Sequence on such Payment Date and thereafter on each Payment Date (to the extent required) out of Interest Proceeds and thereafter out of Principal Proceeds subject to the Priorities of Payment, in each case, until redeemed in full or, if earlier, until an Effective Date Rating Event is no longer continuing.

(f) Redemption following Expiry of the Reinvestment Period

Following expiry of the Reinvestment Period, the Issuer shall, on each Payment Date occurring thereafter, apply Principal Proceeds transferred to the Payment Account immediately prior to the related Payment Date in redemption of the Notes at their applicable Redemption Prices in accordance with the Priorities of Payment.

(g) Redemption following Note Tax Event

Upon the occurrence of a Note Tax Event, the Issuer shall, subject to and in accordance with the terms of the Trust Deed, use all reasonable efforts to cure the Note Tax Event (which may include changing the jurisdiction in which it is resident for tax purposes to another jurisdiction which, at the time of such change, would not give rise to a Note Tax Event). Upon the earlier of (i) the date upon which the Issuer

notifies (or procures the notification of) the Trustee (upon which notification the Trustee will be entitled to conclusively rely without enquiry and without liability) and the Noteholders in accordance with Condition 16 (*Notices*) that it is not able to cure the Note Tax Event, and (ii) the date which is 90 calendar days from the date upon which the Issuer first becomes aware of such Note Tax Event (provided that such 90 day period shall be extended by a further 90 calendar days in the event that during the former period the Issuer has notified (or procured the notification of) the Noteholders in accordance with Condition 16 (*Notices*) that, based on advice received by it, it expects that it shall have cured the Note Tax Event by the end of the latter 90 day period), the Controlling Class or the Subordinated Noteholders, in each case acting by way of Ordinary Resolution, may elect that the Notes of each Class are redeemed, in whole but not in part, on any Business Day thereafter, at their respective Redemption Prices in accordance with the Note Payment Sequence, in which case the Issuer shall so redeem the Notes on such terms, provided that such Note Tax Event would affect payment of principal or interest in respect of the Controlling Class or, as the case may be, the Subordinated Notes (in addition to any other Class of Notes) on such Business Day; provided further that such redemption of the Notes, whether pursuant to the exercise of such option by the Controlling Class or the Subordinated Noteholders, shall take place in accordance with the procedures set out in Condition 7(b) (*Optional Redemption*).

(h) Redemption

Unless otherwise specified in this Condition 7 (*Redemption and Purchase*), all Notes in respect of which any notice of redemption is given shall be redeemed on the Redemption Date at their applicable Redemption Prices and to the extent specified in such notice and in accordance with the requirements of this Condition 7 (*Redemption and Purchase*) and in accordance with the Priorities of Payment.

(i) Cancellation

All Notes redeemed in full by the Issuer will be cancelled and may not be reissued or resold.

No Note may be surrendered (including in connection with any abandonment, donation, gift, contribution or other event or circumstance) except for payment as provided herein for cancellation pursuant to Condition 7(k) (*Purchase*) below, for registration of transfer, exchange or redemption, or for replacement in connection with any Note mutilated, defaced or deemed lost or stolen.

In respect of Notes represented by a Global Certificate, cancellation of any Note required by these Conditions to be cancelled will be effected by reduction in the principal amount of the Notes on the Register, with a corresponding notation made on the applicable Global Certificate.

(j) Notice of Redemption

The Issuer shall procure that notice of any redemption in accordance with this Condition 7 (*Redemption and Purchase*) (which notice shall be irrevocable) is given to the Trustee, Noteholders and each Hedge Counterparty in accordance with Condition 16 (*Notices*) and promptly in writing to the Rating Agencies.

(k) Purchase

On any Payment Date, at the discretion of the Collateral Manager (acting on behalf of the Issuer), the Issuer may, subject to the conditions below, purchase any of the Rated Notes (in whole or in part), using Principal Proceeds standing to the credit of the Principal Account or the Collateral Enhancement Account.

No purchase of Rated Notes by the Issuer may occur if such Notes are being sold pursuant to Condition 2(h) (*Forced Transfer of Rule 144A Notes*), Condition 2(i) (*Forced Sale pursuant to FATCA*) or Condition 2(j) (*Forced Transfer pursuant to ERISA*) or unless each of the following conditions is satisfied:

- (i) (A) such purchase of Rated Notes shall occur in the following sequential order of priority: *first*, the Class X Notes and the Class A Notes (on a *pari passu* basis), until the Class X Notes and the Class A Notes are purchased or redeemed in full and cancelled; *second*, the Class B Notes (on a *pari passu* basis between the Class B-1 Notes and Class B-2 Notes) until the Class B-1 Notes and the Class B-2 Notes are purchased or redeemed in full and cancelled; *third*, the Class C Notes, until the Class C Notes are purchased or redeemed in full and cancelled; *fourth*, the Class D Notes, until the Class D Notes are purchased or redeemed in full and cancelled; *fifth*, the Class E Notes, until the Class E Notes are purchased or redeemed in full and cancelled; and *sixth*, the Class F Notes, until the Class F Notes are purchased or redeemed in full and cancelled;
- (B) (1) each such purchase of Rated Notes of any Class shall be made pursuant to an offer made to all holders of the Rated Notes of such Class, by notice to such holders, which notice shall specify the purchase price (as a percentage of par) at which such purchase will be effected, the maximum amount of Principal Proceeds and Collateral Enhancement Amounts that will be used to effect such purchase and the length of the period during which such offer will be open for acceptance;
- (2) each such holder of a Rated Note shall have the right, but not the obligation, to accept such offer in accordance with its terms; and
- (3) if the aggregate Principal Amount Outstanding of Notes of the relevant Class held by holders who accept such offer exceeds the amount of Principal Proceeds specified in such offer, a portion of the Notes of each accepting holder shall be purchased *pro rata* based on the respective Principal Amount Outstanding held by each such holder subject to adjustment for Authorised Denominations if required (and in the case of Class B Notes on a *pari passu* basis between the relevant holders of the Class B-1 Notes and the Class B-2 Notes);
- (C) each such purchase shall be effected only at prices discounted from par;
- (D) each such purchase of Rated Notes shall occur prior to the expiry of the Reinvestment Period;
- (E) each Coverage Test is satisfied immediately prior to each such purchase and will be satisfied after giving effect to such purchase or, if any Coverage Test is not satisfied it shall be at least maintained or improved after giving effect to such purchase as it was immediately prior thereto;
- (F) if Sale Proceeds are used to consummate any such purchase, either:
 - (1) each requirement or test, as the case may be, of the Portfolio Profile Tests and the Collateral Quality Tests will be satisfied after giving effect to such purchase; or
 - (2) if any requirement or test, as the case may be, of the Portfolio Profile Tests and the Collateral Quality Tests was not satisfied immediately prior to such purchase, such requirement or test will be maintained or improved after giving effect to such purchase;
- (G) no Event of Default shall have occurred and be continuing;
- (H) any Rated Notes to be purchased shall be surrendered to the Registrar for cancellation and may not be reissued or resold; and
- (I) each such purchase will otherwise be conducted in accordance with applicable law (including the laws of Ireland).

Upon instruction by the Issuer, the Registrar shall cancel any such purchased Rated Notes surrendered to it for cancellation. The cancellation (and/or decrease, as applicable) of any such surrendered Rated Notes shall be taken into account for purposes of all relevant calculations. The Issuer shall procure that notice is given to the Rating Agencies of any purchase of Rated Notes pursuant to this Condition 7(k) (*Purchase*).

(l) Exercise of Optional Redemption

The Subordinated Noteholders' and the Controlling Class' option in Condition 7(b) (*Optional Redemption*) and Condition 7(g) (*Redemption following Note Tax Event*) may be exercised by the Subordinated Notes or the Controlling Class (as applicable) giving notice to the Registrar of the principal amount of Subordinated Notes or Notes representing the Controlling Class (as applicable) in respect of which the option is exercised and presenting the relevant Definitive Certificate and/or Global Certificate for endorsement of exercise within the time limit specified in Condition 7(b) (*Optional Redemption*).

(m) Subordinated Notes

The Subordinated Notes shall be entitled upon redemption to receive (i) the Principal Amount Outstanding thereof (if any), and (ii) any proceeds available in accordance with paragraph (BB) of Condition 3(c)(i) (*Application of Interest Proceeds*), paragraph (S) of Condition 3(c)(ii) (*Application of Principal Proceeds*), paragraph (Z) of the Post-Acceleration Priority of Payments and Condition 3(j)(vi) (*Collateral Enhancement Account*), in each case, to the extent proceeds are available and subject to Condition 4(c) (*Limited Recourse*).

(n) Mandatory Redemption of the Class X Notes

The Class X Notes shall be subject to mandatory redemption in part on each Payment Date beginning on (and including) the second Payment Date following the Issue Date, in each case in an amount equal to the relevant Class X Principal Amortisation Amount in accordance with and subject to the Priorities of Payment.

8. Payments

(a) Method of Payment

Payments of principal upon final redemption in respect of each Note will be made against presentation and surrender (or, in the case of part payment only, endorsement) of such Note at the specified office of the Principal Paying Agent or any Paying Agent by wire transfer. Payments of interest on each Note and, prior to redemption in full thereof, principal in respect of each Note, will be made by wire transfer. Upon application of the holder to the specified office of the Principal Paying Agent or any Paying Agent not less than five Business Days before the due date for any payment in respect of a Note, the payment may be made (in the case of any final payment of principal against presentation and surrender (or, in the case of part payment only of such final payment, endorsement) of such Note as provided above) by wire transfer, in immediately available funds, on the due date to a Euro account maintained by the payee with a bank in Western Europe.

Payments of principal and interest in respect of Notes represented by a Global Certificate will be made against presentation and, if no further payment falls to be made in respect of the relevant Notes, upon surrender of such Global Certificate to or to the order of the Principal Paying Agent or such other Transfer Agent as shall have been notified to the relevant Noteholders for such purpose. On each occasion on which a payment of interest (if the Notes represented thereby do not bear interest) or principal is made in respect of the relevant Global Certificate, the Registrar shall note the same in the Register and cause the aggregate principal amount of the Notes represented by a Global Certificate to be decreased accordingly.

(b) Payments

All payments are subject in all cases to (i) any applicable fiscal or other laws, regulations and directives, but without prejudice to the provisions of Condition 9 (*Taxation*) and (ii) any withholding or deduction required pursuant to FATCA. No commission shall be charged to the Noteholders.

(c) Payments on Presentation Days

A holder shall be entitled to present a Note for payment only on a Presentation Date and shall not, except as provided in Condition 6 (*Interest*), be entitled to any further interest or other payment if a Presentation Date falls after the due date.

If a Note is presented for payment at a time when, as a result of differences in time zones it is not practicable to transfer the relevant amount to an account as referred to above for value on the relevant Presentation Date, the Issuer shall not be obliged so to do but shall be obliged to transfer the relevant amount to the account for value on the first practicable date after the Presentation Date.

(d) Principal Paying Agent and Transfer Agents

The names of the initial Principal Paying Agent and Transfer Agents and their initial specified offices are set out below. The Issuer reserves the right at any time, with the prior written approval of the Trustee, to vary or terminate the appointment of the Principal Paying Agent and any Transfer Agent and appoint additional or other Agents, provided that it will maintain a Principal Paying Agent as approved in writing by the Trustee and shall procure that it shall at all times maintain a Custodian, Account Bank, Collateral Manager and Collateral Administrator. Notice of any change in any Agent or their specified offices or in the Collateral Manager will promptly be given to the Noteholders by the Issuer in accordance with Condition 16 (*Notices*).

9. Taxation

All payments of principal and interest in respect of the Notes shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within Ireland, or any political sub division or any authority therein or thereof or anywhere else in the world having the power to tax, unless such withholding or deduction is required by law. For the avoidance of doubt, the Issuer shall not be required to gross up any payments made to Noteholders of any Class and shall withhold or deduct from any such payments any amounts on account of such tax where so required by law (including FATCA). Any such withholding or deduction shall not constitute an Event of Default under Condition 10(a) (*Events of Default*).

Subject as provided below, if the Issuer certifies to the Trustee (upon which certification the Trustee will be entitled to conclusively rely without enquiry and without liability) that it has or will on the occasion of the next payment due in respect of the Notes of any Class become obliged by the laws of Ireland to withhold or account for tax so that it would be unable to make payment of the full amount that would otherwise be due but for the imposition of such tax and that it is not otherwise able to remedy the Note Tax Event as contemplated by Condition 7(g) (*Redemption following Note Tax Event*), the Issuer (with the consent of the Trustee and save as provided below) shall use all reasonable endeavours to arrange for the substitution of a company incorporated in another jurisdiction approved by the Trustee as the principal obligor under the Notes of such Class, or to change its tax residence to another jurisdiction approved by the Trustee, subject to receipt of Rating Agency Confirmation in relation to such substitution or change.

Notwithstanding the above, if any taxes referred to in this Condition 9 (*Taxation*) arise:

- (a) due to any present or former connection of any Noteholder (or between a fiduciary, settlor, beneficiary, member or shareholder of such Noteholder if such Noteholder is an estate, a trust, a partnership, or a corporation) with Ireland (including without limitation, such Noteholder (or such fiduciary, settlor, beneficiary, member or shareholder) being or having been a citizen or resident thereof or being or having been engaged in a trade or business or present therein or having had a permanent establishment therein) otherwise than by reason only of the holding of any Note or receiving principal or interest in respect thereof;
- (b) by reason of the failure by the relevant Noteholder to comply with any applicable procedures required to establish non-residence or other similar claim for exemption from such tax or to provide information concerning nationality, residency or connection with Ireland or other applicable taxing authority;
- (c) in connection with FATCA; or
- (d) any combination of the preceding paragraphs (a) through (c) (inclusive),

the requirement to substitute the Issuer as a principal obligor and/or change its residence for taxation purposes shall not apply.

10. Events of Default

(a) Events of Default

Any of the following events shall constitute an "**Event of Default**":

(i) Non-payment of Interest

the Issuer fails to pay any interest in respect of any Class X Note, Class A Note or Class B Note when the same becomes due and payable (save as the result of any deduction therefrom or the imposition of withholding thereon in the circumstances described in Condition 9 (*Taxation*)) and provided that any such failure to pay such interest in such circumstances continues for a period of at least five Business Days (save, in the case of a failure to disburse due to an administrative error or omission only, where such failure continues for a period of at least seven Business Days after the Issuer, the Collateral Administrator and the Principal Paying Agent receive written notice of, or have actual knowledge of, such administrative error or omission); provided further, that the failure to effect any Optional Redemption or Redemption following a Note Tax Event for which notice is withdrawn in accordance with these Conditions or, in the case of an Optional Redemption with respect to which a Refinancing fails, will not constitute an Event of Default;

(ii) Non-payment of Principal

the Issuer fails to pay any principal when the same becomes due and payable on any Rated Note on any Redemption Date and such failure to pay principal continues for a period of at least five Business Days provided that, in the case of a failure to disburse due to an administrative error or omission, such failure continues for a period of at least seven Business Days after the Issuer and/or the Trustee receive written notice of, or have actual knowledge of, such administrative error or omission and provided further that, failure to effect any Optional Redemption or redemption following a Note Tax Event for which notice is withdrawn in accordance with these Conditions or, in the case of an Optional Redemption with respect to which a Refinancing fails, will not constitute an Event of Default;

(iii) Default under Priorities of Payment

the failure on any Payment Date to disburse amounts (except to the extent provided in paragraph (i) (*Non-payment of Interest*) or (ii) (*Non-payment of Principal*) above) available in the Payment Account in excess of €1,000 and payable in accordance with the Priorities of Payment and continuation of such failure for a period of 10 Business Days or, in the case of a failure to disburse due to an administrative error or omission or another non-credit-related reason (as determined by the Collateral Manager acting in a commercially reasonable manner and certified in writing to the Issuer and the Trustee (upon which certification the Issuer and the Trustee may rely absolutely and without further enquiry or liability), but without liability as to such determination) by the Issuer, such failure continues for 10 Business Days after the Issuer and the Trustee receive written notice of, or have actual knowledge of, such administrative error or omission or such other non-credit-related reason;

(iv) Collateral Debt Obligations

on any Measurement Date on and after the Effective Date, failure of the percentage equivalent of a fraction, (A) the numerator of which is equal to (1) the Aggregate Collateral Balance for which purpose the Principal Balance of each Defaulted Obligation shall be multiplied by its Market Value) and (B) the denominator of which is equal to the Principal Amount Outstanding of the Class X Notes and the Class A Notes, to equal or exceed 102.50 per cent.;

(v) Breach of Other Obligations

except as otherwise provided in this definition of "Event of Default" a default in a material respect in the performance by, or breach in a material respect of any material covenant of, the Issuer under the Trust Deed (provided that any failure to meet any Portfolio Profile Test, Collateral Quality Test, Coverage Test, the Principal Transfer Test or the Reinvestment Overcollateralisation Test is not an Event of Default and any failure to satisfy the Effective Date Determination Requirements is not an Event of Default, except in either case to the extent provided in paragraph (iv) (*Collateral Debt Obligations*) above) or the failure of any material representation or warranty of the Issuer made in the Trust Deed or in any certificate or other writing delivered pursuant thereto or in connection therewith to be correct in each case in all material respects when the same shall have been made, and the continuation of such default, breach or failure for a period of 30 calendar days after the earlier of (A) the date the Issuer has actual knowledge of such default, breach or failure and (B) the date notice is given to the Issuer and the Collateral Manager by registered or certified mail or courier, from the Trustee, the Issuer, or the Collateral Manager, or to the Issuer, the Collateral Manager and the Trustee from the Controlling Class acting pursuant to an Ordinary Resolution, specifying such default, breach or failure and requiring it to be remedied and stating that such notice is a "Notice of Default" under the Trust Deed; provided that if the Issuer (as notified to the Trustee by the Collateral Manager in writing) has commenced curing such default, breach or failure during the 30 day period specified above, such default, breach or failure shall not constitute an Event of Default under this paragraph (v) (*Breach of Other Obligations*) unless it continues for a period of 45 calendar days (rather than, and not in addition to, such 30 calendar day period specified above) after the earlier of (A) the date the Issuer has actual knowledge of such default, breach or failure and (B) the date notice is given to the Issuer in accordance herewith. For the purposes of this paragraph (v) (*Breach of Other Obligations*), the materiality of such default, breach, representation or warranty shall be determined by the Trustee who shall make such determination by considering whether such default or breach is materially prejudicial to the interests of the Noteholders of any Class;

(vi) Insolvency Proceedings

proceedings are initiated against the Issuer under any applicable liquidation, examinership, insolvency, bankruptcy, composition, reorganisation or other similar laws (together,

"**Insolvency Law**"), or a receiver, administrative receiver, trustee, administrator, custodian, conservator, liquidator, examiner, curator, or other similar insolvency official (a "**Receiver**") is appointed in relation to the Issuer or in relation to the whole or any substantial part of the undertaking or assets of the Issuer and in any of the foregoing cases, except in relation to the appointment of a Receiver, is not discharged within 30 calendar days; or the Issuer is subject to, or initiates or consents to judicial proceedings relating to itself under any applicable Insolvency Law, or seeks the appointment of a Receiver, or makes a conveyance or assignment for the benefit of its creditors generally or otherwise becomes subject to any reorganisation or amalgamation (other than on terms previously approved in writing by the Trustee or by an Extraordinary Resolution of the Controlling Class);

(vii) Illegality

it is or will become unlawful for the Issuer to perform or comply with any one or more of its obligations under the Notes; or

(viii) Investment Company Act

the Issuer or any of the Collateral becomes required to register as an "investment company" under the Investment Company Act and such requirement continues for 45 calendar days.

(b) Acceleration

(i) If an Event of Default occurs and is continuing, the Trustee may, at its discretion and shall, at the request of the Controlling Class acting by way of Extraordinary Resolution, (subject, in each case, to being indemnified and/or secured and/or prefunded to its satisfaction against all liabilities, proceedings, claims and demands to which it may thereby become liable and all costs, charges and expenses which may be incurred by it in connection therewith) give notice to the Issuer, the Collateral Manager and each Hedge Counterparty that all the Notes are immediately due and repayable (such notice, an "**Acceleration Notice**"), provided that following an Event of Default described in paragraph (a)(vi) (*Insolvency Proceedings*) or paragraph (a)(vii) (*Illegality*) of the definition thereof shall occur, an Acceleration Notice shall be deemed to have been given and all the Notes shall automatically become immediately due and repayable at their applicable Redemption Price.

(ii) Upon any such Acceleration Notice being given to the Issuer in accordance with paragraph (b)(i) (*Acceleration*), all of the Notes shall immediately become due and repayable at their applicable Redemption Prices (other than with respect to an Event of Default occurring under paragraph (a)(vi) (*Insolvency Proceedings*) or paragraph (a)(vii) (*Illegality*) of the definition thereof where delivery of an Acceleration Notice is not required and shall be deemed to have been given).

(c) Curing of Default

At any time after an Acceleration Notice has been given pursuant to paragraph (b)(i) (*Acceleration*) following the occurrence of an Event of Default (other than with respect to an Event of Default occurring under paragraph (a)(vi) (*Insolvency Proceedings*) or paragraph (a)(vii) (*Illegality*) of the definition thereof where delivery of an Acceleration Notice is not required and shall be deemed to have been given) and prior to enforcement of the security pursuant to Condition 11 (*Enforcement*), the Trustee, subject to receipt of consent in writing from the Controlling Class, may and shall, if so requested by the Controlling Class, in each case, acting by Ordinary Resolution, (and subject, in each case, to the Trustee being indemnified and/or secured and/or prefunded to its satisfaction against all liabilities, proceedings, claims and demands to which it may thereby become liable and all costs, charges and expenses which may be incurred by it in connection therewith) rescind and annul such Acceleration Notice under paragraph (b)(i) (*Acceleration*) above and its consequences if:

- (i) the Issuer has paid or deposited with the Trustee (or to its order) a sum sufficient to pay:
 - (A) all overdue payments of interest and principal on the Notes, other than the Subordinated Notes;
 - (B) all due but unpaid taxes owing by the Issuer, as certified by an Authorised Officer of the Issuer to the Trustee;
 - (C) all unpaid Administrative Expenses and Trustee Fees and Expenses (in each case, without regard to the Senior Expenses Cap); and
 - (D) all amounts due and payable by the Issuer under any Currency Hedge Agreement or Interest Rate Hedge Agreement;
- (ii) the Trustee has determined that all Events of Default, other than the non-payment of the interest in respect of, or principal of, the Notes that have become due solely as a result of the acceleration thereof under paragraph (b)(i) (*Acceleration*) above due to such Events of Default, have been cured or waived.

Any previous rescission and annulment of a notice of an Acceleration Notice pursuant to this paragraph (c) (*Curing of Default*) shall not prevent the subsequent acceleration of the Notes if the Trustee, at its discretion or, as subsequently requested, accelerates the Notes or if the Notes are automatically accelerated in accordance with paragraph (b)(i) (*Acceleration*) above.

All amounts received in respect of this paragraph (c) (*Curing of Default*) shall be distributed two Business Days following receipt by or on behalf of the Trustee of such amounts in accordance with the Post-Acceleration Priority of Payment.

(d) Restriction on Acceleration of Notes

No acceleration of the Notes shall be permitted pursuant to this paragraph (d) (*Restriction on Acceleration of Notes*) by any Class of Noteholders, other than the Controlling Class as provided in paragraph (b) (*Acceleration*) above.

(e) Notification and Confirmation of No Default

The Issuer shall immediately notify the Trustee, the Collateral Manager, the Noteholders (in accordance with Condition 16 (*Notices*), each Hedge Counterparty and the Rating Agencies upon becoming aware of the occurrence of an Event of Default. The Trust Deed contains provision for the Issuer to provide written confirmation to the Trustee and the Rating Agencies on an annual basis that no Event of Default has occurred and that no condition, event or act has occurred which, with the lapse of time and/or the issue, making or giving of any notice, certification, declaration and/or request and/or the taking of any similar action and/or the fulfilment of any similar condition would constitute an Event of Default and that no other matter which is required (pursuant thereto) to be brought to the Trustee's attention has occurred.

11. Enforcement

(a) Security Becoming Enforceable

Subject as provided in paragraph (b) (*Enforcement*) below, the security constituted by the Trust Deed and the Irish Security Agreement over the Collateral shall become enforceable upon an acceleration of the maturity of the Notes pursuant to Condition 10(b) (*Acceleration*).

(b) Enforcement

At any time after the Notes become due and repayable and the security under the Trust Deed or the Irish Security Agreement, as applicable, becomes enforceable, the Trustee may, at its discretion but subject always to Condition 4(c) (*Limited Recourse*), and shall, if so directed by the Controlling Class acting by Ordinary Resolution, institute such proceedings or take such other action against the Issuer or take any other action as it may think fit to enforce the terms of the Trust Deed, the Irish Security Agreement and the Notes and pursuant and subject to the terms of the Trust Deed, the Irish Security Agreement and the Notes, realise and/or otherwise liquidate or sell the Collateral in whole or in part and/or take such other action as may be permitted under applicable laws against any Obligor in respect of the Collateral and/or take any other action to enforce or realise the security over the Collateral in accordance with the Trust Deed and/or the Irish Security Agreement, as applicable (such actions together, "**Enforcement Actions**"), in each case without any liability as to the consequence of such action and without having regard (save to the extent provided in Condition 14(e) (*Entitlement of the Trustee and Conflicts of Interest*)) to the effect of such action on individual Noteholders of any Class or any other Secured Party provided however that:

- (i) no such Enforcement Action may be taken by the Trustee unless:
 - (A) subject to being indemnified and/or prefunded and/or secured to its satisfaction, the Trustee (or any Appointee on its behalf) determines that the anticipated proceeds realised from such Enforcement Action (after deducting any expenses properly incurred in connection therewith) would be sufficient to discharge in full all amounts due and payable in respect of all Classes of Notes (including, without limitation, Deferred Interest on the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes) other than the Subordinated Notes and all amounts payable in priority thereto pursuant to the Post-Acceleration Priority of Payments (such amount the "**Enforcement Threshold**" and such determination being an "**Enforcement Threshold Determination**"), subject to consultation with the Collateral Manager; or
 - (B) if the Enforcement Threshold will not have been met then:
 - (1) in the case of an Event of Default specified in paragraph (i) (*Non-payment of Interest*), (ii) (*Non-payment of Principal*) or (iv) (*Collateral Debt Obligations*) of Condition 10(a) (*Events of Default*), the Controlling Class acting by way of Extraordinary Resolution (and no other Class of Notes) directs the Trustee to take Enforcement Action without regard to any other Event of Default which has occurred prior to, contemporaneously or subsequent to such Event of Default; or
 - (2) in the case of any other Event of Default, the holders of each Class of Rated Notes voting separately by Class by way of Ordinary Resolution direct the Trustee to take Enforcement Action,
- (ii) the Trustee shall not be bound to institute any Enforcement Action or take any other action unless it is directed to do so by the Controlling Class (acting by way of Ordinary Resolution) (or, in the case of paragraph (i)(B)(1) above, the Controlling Class acting by way of Extraordinary Resolution or, in the case of paragraph (i)(B)(2) above, each Class of Rated Notes acting by way of Ordinary Resolution) and, in each case, the Trustee is indemnified and/or secured and/or prefunded to its satisfaction against all liabilities, proceedings, claims and demands to which it may thereby become liable and all costs, charges and expenses which may be incurred by it in connection therewith. Following redemption and payment in full of the Rated Notes, the Trustee shall (provided it is indemnified and/or secured and/or prefunded to its satisfaction against all liabilities, proceedings, claims and demands to which it may thereby become liable and all costs, charges and expenses which may be incurred by it in connection therewith) act upon the directions of the Subordinated Noteholders acting by Extraordinary Resolution; and

- (iii) the Trustee shall determine or shall procure that an Enforcement Agent determines the aggregate proceeds that can be realised pursuant to any Enforcement Action by using reasonable efforts to obtain, with the cooperation of the Collateral Manager (to the extent the Enforcement Agent is not the Collateral Manager), bid prices with respect to each asset comprising the Portfolio from two recognised dealers (as specified by the Collateral Manager in writing) at the time making a market therein and shall compute the anticipated proceeds of sale or liquidation on the basis of the lower of such bid prices for each such asset. In the event that the Trustee or the Enforcement Agent, as applicable and with the cooperation of the Collateral Manager (to the extent the Enforcement Agent is not the Collateral Manager), is only able to obtain bid prices with respect to an asset from one recognised dealer at the time making a market therein, the Trustee or the Enforcement Agent shall compute the anticipated proceeds of sale or liquidation on the basis of such one bid price. In addition, for the purposes of determining issues relating to the execution of a sale or liquidation of the Portfolio and the execution of a sale or other liquidation thereof in connection with an Enforcement Threshold Determination will be met, the Trustee or the Enforcement Agent may obtain and rely on an opinion of an independent investment banking firm, or other appropriate advisor (the cost of which shall be payable as a Trustee Fee and Expense).
- (iv) The Trustee shall notify the Noteholders (in accordance with Condition 16 (*Notices*)), the Issuer, the Agents, each Hedge Counterparty, the Collateral Manager and, so long as any of the Notes rated by one or more Rating Agency remain Outstanding, each such Rating Agency in the event that it or any Appointee on its behalf makes an Enforcement Threshold Determination at any time or takes any Enforcement Action at any time (such notice an "**Enforcement Notice**"). Following the delivery of an Acceleration Notice (deemed or otherwise) which has not been rescinded and annulled in accordance with Condition 10(c) (*Curing of Default*) or, as the case may be following automatic acceleration of the Notes or pursuant to an Optional Redemption in whole in accordance with Condition 7(b) (*Optional Redemption*) or Condition 7(g) (*Redemption following Note Tax Event*), Interest Proceeds, Principal Proceeds and the net proceeds of enforcement of the security over the Collateral (other than with respect to any Hedge Issuer Tax Credit Payments and/or Counterparty Downgrade Collateral which is required to be paid or returned to a Hedge Counterparty outside the Priorities of Payment in accordance with the Hedge Agreement, Condition 3(j)(ii) (*Interest Account*) and/or Condition 3(j)(v) (*Counterparty Downgrade Collateral Accounts*) and other than Sale Proceeds in respect of Non-Euro Obligations sold subject to and in accordance with a Currency Hedge Transaction which shall be paid to the relevant Hedge Counterparty in accordance with the terms thereof outside the Priorities of Payment), shall be credited to the Payment Account and shall be distributed in accordance with the following order of priority but in each case only to the extent that all payments of a higher priority have been made in full (the "**Post-Acceleration Priority of Payments**"):
 - (A) to the payment of (i) other than following an enforcement of the Notes in accordance with this Condition 11(b) (*Enforcement*), taxes owing by the Issuer accrued in respect of the related Due Period (other than Irish corporate income tax in relation to the Issuer Profit Amount referred to in (ii) below), as certified by an Authorised Officer of the Issuer to the Trustee, if any, (save for any VAT or any other tax payable in respect of any payment made by the Issuer pursuant to the Post-Acceleration Priority of Payments); and (ii) to the payment of the Issuer Profit Amount, for deposit into the Issuer Profit Account from time to time;
 - (B) to the payment of accrued and unpaid Trustee Fees and Expenses, up to an amount equal to the Senior Expenses Cap in respect of the related Due Period; provided that following the occurrence of an Event of Default that is continuing, or following an acceleration of the Notes (which has not been rescinded or annulled) in accordance with Condition 10(b) (*Acceleration*), the Senior Expenses Cap shall not apply in respect of such Trustee Fees and Expenses;
 - (C) to the payment of accrued and unpaid Administrative Expenses in relation to each item thereof in the order of priority stated in the definition thereof up to an amount equal to the Senior Expenses Cap in respect of the related Due Period less any amounts paid pursuant to paragraph (B) above, provided that upon an acceleration of the Notes

(which has not been rescinded or annulled) in accordance with Condition 10(b) (*Acceleration*) the Senior Expenses Cap shall not apply in respect of such Administrative Expenses;

- (D) to the payment:
- (1) *firstly*, on a *pro rata* basis to the Collateral Manager of the Senior Collateral Management Fee due and payable on such Payment Date and any VAT in respect thereof (whether payable to the Collateral Manager or directly to the relevant taxing authority) save for any Deferred Senior Collateral Management Amounts which shall not be paid pursuant to this paragraph; and

If such amounts are paid pursuant to the Post-Acceleration Priority of Payments above as a result of the enforcement of the security pursuant to this Condition 11(b) (*Enforcement*), the Issuer shall only account for the tax liabilities of a Secured Party.

(c) Only Trustee to Act

Only the Trustee may pursue the remedies available under the Trust Deed or the Irish Security Agreement to enforce the rights of the Noteholders or, in respect of the Collateral, of any of the other Secured Parties under the Trust Deed, the Irish Security Agreement and the Notes and no Noteholder or other Secured Party may proceed directly against the Issuer or any of its assets unless the Trustee, having become bound to proceed in accordance with the terms of the Trust Deed, fails or neglects to do so within a reasonable period after having received notice of such failure and such failure or neglect continues for at least 30 calendar days following receipt of such notice by the Trustee. Any proceeds received by a Noteholder or other Secured Party pursuant to any such proceedings brought by a Noteholder or other Secured Party shall be paid promptly following receipt thereof to the Trustee for application pursuant to these Conditions and the terms of the Trust Deed. After realisation of the security which has become enforceable and distribution of the net proceeds in accordance with the Priorities of Payment, no Noteholder or other Secured Party may take any further steps against the Issuer to recover any sum still unpaid in respect of the Notes or the Issuer's obligations to such Secured Party and all claims against the Issuer to recover any sum still unpaid in respect of the Notes or the Issuer's obligations to such Secured Party and all claims against the Issuer in respect of such sums unpaid shall be extinguished. In particular, none of the Trustee, any Noteholder or any other Secured Party shall be entitled in respect thereof to petition or take any other step for the winding up of the Issuer except to the extent permitted under the Trust Deed.

(d) **Purchase of Collateral by Noteholders or Collateral Manager**

Upon any sale of any part of the Collateral following the acceleration of the Notes under Condition 10(b) (*Acceleration*) whether made under the power of sale under the Trust Deed or by virtue of judicial proceedings, any Noteholder, the Collateral Manager or any Collateral Manager Related Person, may (but shall not be obliged to) bid for and purchase the Collateral or any part thereof and, upon compliance with the terms of sale, may hold, retain, possess or dispose of such property in its or their own absolute right without accountability. In addition, any purchaser in any such sale which is a Noteholder may deliver Notes held by it in place of payment of the purchase price for such Collateral where the amount payable to such Noteholder in respect of such Notes pursuant to the Priorities of Payment out of the net proceeds of such sale is equal to or exceeds the purchase moneys so payable.

12. Prescription

Claims in respect of principal and interest payable on redemption in full of the relevant Notes while the Notes are represented by a Definitive Certificate will become void unless presentation for payment is made as required by Condition 7 (*Redemption and Purchase*) within a period of five years, in the case of interest, and 10 years, in the case of principal, from the date on which payment in respect of such Notes is received by the applicable Paying Agent.

Notwithstanding the above, claims against the Issuer in respect of principal and interest on the Notes while the Notes are represented by a Global Certificate will become void unless presented for payment within a period of 10 years (in the case of principal) and five years (in the case of interest) from the date on which any payment first becomes due.

13. Replacement of Notes

If any Note is lost, stolen, mutilated, defaced or destroyed it may be replaced at the specified office of any Transfer Agent, subject in each case to all applicable laws and Euronext Dublin requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may require (provided that the requirement is reasonable in the light of prevailing market practice). Mutilated or defaced Notes must be surrendered before replacements will be issued.

14. Meetings of Noteholders, Modification, Waiver and Substitution

(a) **Provisions in Trust Deed**

The Trust Deed contains provisions for convening meetings of the Noteholders (and for passing Written Resolutions) to consider matters affecting the interests of the Noteholders including, without limitation, modifying or waiving certain of the provisions of these Conditions and the substitution of the Issuer in certain circumstances. The provisions in this Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*) are descriptive of the detailed provisions of the Trust Deed.

(b) **Decisions and Meetings of Noteholders**

(i) **General**

Decisions may be taken by Noteholders by way of Ordinary Resolution or Extraordinary Resolution, in each case, either acting together or, to the extent specified in any applicable Transaction Document, as a Class of Noteholders acting independently. Such Resolutions can be effected either at a duly convened meeting of the applicable Noteholders or by the applicable Noteholders resolving in writing, in each case, in at least the minimum percentages specified in the table "**Minimum Percentage Voting Requirements**" in paragraph (b)(iii) (*Minimum Voting Rights*) below. Meetings of the Noteholders may be convened by the Issuer, the Trustee

or by one or more Noteholders holding not less than 10 per cent. in principal amount of the Notes Outstanding of a particular Class, subject to certain conditions including minimum notice periods.

The Trustee may, in its discretion, determine that any proposed Ordinary Resolution or Extraordinary Resolution affects the holders of only one or more Classes of Notes, in which event the required quorum and minimum percentage voting requirements of such Ordinary Resolution or Extraordinary Resolution may be determined by reference only to the holders of that Class or Classes of Notes and not the holders of any other Notes as set forth in the tables below.

Notice of any Resolution passed by the Noteholders will be given to Fitch and S&P in writing.

The holder of each Global Certificate will be treated as being one person for the purposes of any quorum requirements of, or the right to demand a poll at, a meeting of Noteholders and, at any such meeting, as having one vote in respect of each €1,000 of principal amount of Notes for which the relevant Global Certificate may be exchanged.

(ii) Quorum

The quorum required for any meeting convened to consider an Ordinary Resolution or Extraordinary Resolution, in each case, of all the Noteholders or of any Class of Noteholders, or at any adjourned meeting to consider such a Resolution, shall be as set out in the relevant column and row corresponding to the type of resolution in the table "Quorum Requirements" below.

For the avoidance of doubt, for the purposes of determining voting rights attributable to the Notes and the applicable quorum at any meeting of the Noteholders pursuant to this Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*) and Schedule 5 (*Provisions for Meetings of the Noteholders of Each Class*) of the Trust Deed, the Class B-1 Notes and the Class B-2 Notes together shall be deemed to constitute a single Class of Notes in respect of any voting rights specifically granted to them including as the Controlling Class (in each case, other than in relation to a Refinancing, in which case each of the Class B-1 Notes and the Class B-2 Notes shall constitute separate Classes of Notes).

Quorum Requirements

The Trust Deed does not contain any provision for higher quorums in any circumstances.

In connection with a CM Removal Resolution or a CM Replacement Resolution, (x) any Notes held by, for the benefit of, or on behalf of the Collateral Manager or any Collateral Manager Related Person, (y) any Class A Notes held in the form of CM Removal and Replacement Non-Voting Notes and/or CM Removal and Replacement Exchangeable Non-Voting Notes, and (z) the Class X Notes, shall not (i) entitle the holder of such Notes to vote in respect of any such CM Removal Resolution or CM Replacement Resolution; or (ii) be counted for the purposes of determining a quorum or the result of voting in respect of any such CM Removal Resolution or CM Replacement Resolution.

(iii) **Minimum Voting Rights**

Set out in the table "**Minimum Percentage Voting Requirements**" below are the minimum percentages required to pass the Resolutions specified in such table which (A) in the event that such Resolution is being considered at a duly convened meeting of Noteholders, shall be determined by reference to the percentage which the aggregate Principal Amount Outstanding of Notes Outstanding held or represented by any person or persons who vote in favour of such Resolution represents of the aggregate Principal Amount Outstanding of all applicable Notes Outstanding which are represented at such meeting and are voted or, (B) in the case of any Written Resolution, shall be determined by reference to the percentage which the aggregate Principal Amount Outstanding of Notes Outstanding entitled to be voted in respect of such Resolution and which are voted in favour thereof represent of the aggregate Principal Amount Outstanding of all the Notes Outstanding entitled to vote in respect of such Written Resolution.

Minimum Percentage Voting Requirements

Type of Resolution	Per cent.
Extraordinary Resolution of all Noteholders (or of a certain Class or Classes only)	At least 66⅔ per cent.

In respect of any voting rights specifically

granted to the Controlling Class, the Class B-1 Notes and the Class B-2 Notes shall together be deemed to constitute a single Class.

(iv) Written Resolutions

Any Written Resolution may be contained in one document or in several documents in like form each signed by or on behalf of one or more of the relevant Noteholders and the date of such Written Resolution shall be the date on which the latest such document is signed. Any Extraordinary Resolution or Ordinary Resolution may be passed by way of a Written Resolution.

(v) All Resolutions Binding

Subject to Condition 14(e) (*Entitlement of the Trustee and Conflicts of Interest*) and in accordance with the Trust Deed, any Resolution of the Noteholders (including any resolution of a specified Class or Classes of Noteholders, where the resolution of one or more other Classes is not required) duly passed shall be binding on all Noteholders (regardless of Class and regardless of whether or not a Noteholder was present at the meeting at which such Resolution was passed).

(vi) Extraordinary Resolution

Any Resolution to sanction any of the following items (each a "**Key Terms Modification**") will be required to be passed by an Extraordinary Resolution (in each case, subject to anything else specified in the Trust Deed, the Collateral Management Agreement or the relevant Transaction Document):

- (A) the Redemption Price in respect of such Class of Notes being less than 100 per cent. of the Principal Amount Outstanding thereof, together with any accrued and unpaid interest in respect thereof to the relevant day of redemption;

- (F) the modification of any of the provisions of the Trust Deed which would directly and adversely affect the calculation of the amount of any payment of interest or principal on any Note;
- (G) the adjustment of the outstanding principal amount of the Notes Outstanding of the relevant Class other than in connection with a further issue of Notes pursuant to Condition 17 (*Additional Issuances*);
- (H) a change in the currency of payment of the Notes of a Class;

- (I) any item requiring approval by Extraordinary Resolution pursuant to these Conditions or any Transaction Document; and
- (J) any change in the Priorities of Payment or of any payment items in the Priorities of Payment,

provided however that any such modification, adjustment or change will not require an Extraordinary Resolution but may be passed by an Ordinary Resolution of the holders of the relevant Class or Classes of Notes if such modification, adjustment or change is contemplated to facilitate or in connection with or being effected contemporaneously with an Optional Redemption by way of a Refinancing in whole or in part.

Notwithstanding anything to the contrary herein, to the extent that the Subordinated Noteholders are to vote on a matter which would otherwise require an Extraordinary Resolution of the Rated Notes (or a Class or Classes thereof), such matter may be approved by the Subordinated Noteholders acting by Ordinary Resolution only (without prejudice to any Extraordinary Resolution of the relevant Class(es) of Rated Notes which may also be required).

(vii) Ordinary Resolution

Any meeting of the Noteholders shall, subject to these Conditions and the Trust Deed, have power by Ordinary Resolution to approve any other matter relating to the Notes not referred to in paragraph (b)(vi) (*Extraordinary Resolution*) above.

(viii) Matters affecting a certain Class of Notes

Matters affecting the interests of only one Class (in the opinion of the Trustee) shall only be considered by and voted upon at a meeting of Noteholders of that relevant Class or by written resolution of the holders of that relevant Class.

(ix) Resolutions affecting other Classes

- (A) subject to paragraphs (C) and (D) below, a Resolution which in the opinion of the Trustee affects only the Notes of a Class or Classes (the "**Affected Class(es)**"), but not another Class or Classes, as the case may be, shall be deemed to have been duly passed if passed at a meeting or meetings of the holders of the Notes of the Affected Class(es) and such Resolution shall be binding on all the Noteholders, including the holders of Notes which are not an Affected Class;

- (viii) save as contemplated in paragraph (d) (*Substitution*) below, to take any action advisable to prevent the Issuer from becoming subject to (or to otherwise reduce) withholding or other taxes, fees or assessments;
- (ix) to take any action advisable to prevent the Issuer from being treated as resident in any jurisdiction outside of Ireland for tax purposes or otherwise as generally subject to tax on its profits, income or gains outside of Ireland or subject to VAT in any jurisdiction in respect of any Collateral Management Fees;

- (xix) subject to paragraph (xiii) above, but notwithstanding paragraph (xvii) above, to evidence any waiver or modification by any Rating Agency in its rating methodology or as to any requirement or condition, as applicable, of such Rating Agency set forth in the Transaction Documents subject to the consent of the Controlling Class, acting by way of Ordinary Resolution;

- (xxiii) to make any other modification of any of the provisions of the Trust Deed, the Collateral Management Agreement or any other Transaction Document to comply with changes in the EU Retention Requirements;

- (xxv) subject to Rating Agency Confirmation (other than to the extent otherwise permitted pursuant to paragraph (xxii) above), to amend, modify or supplement any Hedge Agreement to the extent necessary to allow the Issuer or the relevant Hedge Counterparty to comply with any enactment, promulgation, execution or ratification of, or any change in or amendment to, any law or regulation (or in the application or official interpretation of any law or regulation) that occurs after the parties enter into the Hedge Agreement, provided that Rating Agency Confirmation shall not be required in the event that the relevant Hedge Agreement will be a Form Approved Hedge following such amendment, modification or supplement;
- (xxvi) notwithstanding paragraph (xiii) above, to modify the terms of the Transaction Documents in order that they may be consistent with the requirements of the Rating Agencies, in a manner that an officer of the Collateral Manager certifies to the Trustee (upon which certificate the Trustee shall rely absolutely and without further enquiry or liability) would not materially prejudice the interests of the Noteholders of any Class of Notes, subject to (i) receipt by the

Trustee of Rating Agency Confirmation that such modifications will not result in the reduction or withdrawal of any of the ratings currently assigned to the Rated Notes by such Rating Agency in respect of the Rated Notes from each Rating Agency then rating the Rated Notes (upon which certification and confirmation the Trustee shall be entitled to rely absolutely and without further enquiry or liability and (ii) the consent of the Controlling Class, acting by way of Ordinary Resolution;

- (xxix) to amend, modify or otherwise accommodate changes to any Transaction Document relating to the administrative procedures for reaffirmation of ratings on the Notes as required by the rating criteria of the Rating Agencies;
- (xxx) to change the date within the month on which Reports are required to be delivered;
- (xxxi) notwithstanding any other provision of this Condition 14(c) (*Modification and Waiver*), if Fitch or S&P (as applicable) publicly announce a change in the Fitch Recovery Rates, the S&P Recovery Rates or the Fitch Rating Factors (as applicable), to amend or modify such recovery rates or rating factors in the Transaction Documents at the discretion of the Collateral Manager subject to the consent of the Controlling Class, acting by way of Ordinary Resolution;
- (xxxii) to facilitate a Regulatory Refinancing or any changes required as a consequence of a Regulatory Refinancing in each case, under Condition 7(b)(vi) (*Optional Redemption effected through Regulatory Refinancing*); or
- (xxxiii) to enter into one or more supplemental trust deeds or any other modification, authorisation or waiver of the provisions of the Transaction Documents upon terms satisfactory to the Collateral Manager to:
 - (A) change the reference rate in respect of the Floating Rate Notes from EURIBOR to an alternative base rate (such rate, the "**Alternative Base Rate**");
 - (B) to replace references to "LIBOR", "EURIBOR", "London Interbank Offered Rate" and "Euro Interbank Offered Rate" (or similar terms) to the Alternative Base Rate when used with respect to a Floating Rate Collateral Debt Obligation;
 - (C) amend provisions which reference an index that has an equivalent frequency and setting date to the index applicable to a Floating Rate Collateral Debt Obligation to the extent that no such equivalent is available; or
 - (D) to make such other amendments as are necessary or advisable in the reasonable judgement of the Collateral Manager to facilitate the foregoing changes,

provided that:

- (1) unless the Alternative Base Rate is the Designated Base Rate, the Controlling Class and the Subordinated Noteholders (each acting by Ordinary Resolution) consent to such supplemental trust deed or other modification, authorisation or waiver;
- (2) such amendments and modifications are being undertaken due to (x) a material disruption to LIBOR, EURIBOR or another applicable or related index or benchmark, (y) a change in the methodology of calculating LIBOR, EURIBOR or another applicable or related index or benchmark or (z) LIBOR, EURIBOR or another applicable or related index or benchmark ceasing to exist (or the reasonable expectation of the Collateral Manager that any of the events specified in paragraphs (x), (y) or (z) will occur); and
- (3) any such amendment, modification, authorisation or waiver does not affect the applicability of any floor in respect of the relevant reference rate in respect of any Class of Notes (including, without limitation, the zero floor described in Condition 6(e)(i) (*Floating Rate of Interest*)).

Any such modification, authorisation or waiver shall be binding on the Noteholders and shall be notified by the Issuer as soon as reasonably practicable following the execution of any trust deed supplemental to the Trust Deed or any other modification, authorisation or waiver pursuant to this Condition 14(c) (*Modification and Waiver*) to:

- (A) so long as any of the Notes rated by the Rating Agencies remains Outstanding, each Rating Agency; and
- (B) the Noteholders in accordance with Condition 16 (*Notices*); and

Notwithstanding anything to the contrary herein and in the Trust Deed, the Issuer shall not agree to amend, modify or supplement any provisions of the Transaction Documents without the prior consent of each Hedge Counterparty if such change would have a material adverse effect on the rights or obligations of such Hedge Counterparty without such Hedge Counterparty's prior written consent.

To the extent required pursuant to a Hedge Agreement, the Issuer shall notify each Hedge Counterparty of any proposed amendment to any provisions of the Transaction Documents and, other than where there are no Hedge Transactions then outstanding with the relevant Hedge Counterparty, seek the prior consent of such Hedge Counterparty in respect thereof, in each case to the extent required in accordance with and subject to the terms of the relevant Hedge Agreement. For the avoidance of doubt, such notice shall only be given and such consent shall only be sought to the extent required above or in accordance with and subject to the terms of the relevant Hedge Agreement. If a Hedge Agreement allows a certain period for the relevant Hedge Counterparty to consider and respond to such a consent request, during such period and pending a response from the relevant Hedge Counterparty, the Issuer shall not make any such proposed amendment. For the avoidance of doubt, the Issuer may make such proposed amendment if any timeframe specified in the relevant Hedge Agreement for such Hedge Counterparty to provide their consent to the relevant proposed amendment has lapsed.

For the avoidance of doubt, the Trustee shall, without the consent or sanction of any of the Noteholders (other than as otherwise provided in paragraphs (xiii) and (xxxiii) above) or any other Secured Party (unless otherwise specified above), concur with the Issuer, in making any modification, amendment, waiver or supplement pursuant to the paragraphs above to the Transaction Documents which the Issuer certifies to the Trustee as being made subject to and in accordance with such paragraphs (upon which certification the Trustee will be entitled to conclusively rely without enquiry or liability), provided that the Trustee shall not be obliged to agree to any modification which, in the opinion of the Trustee, would have the effect of (i) exposing the Trustee to any liability against which it has not been indemnified

and/or secured and/or pre-funded to its satisfaction or (ii) adding to or increasing the obligations, liabilities or duties, or decreasing the rights, powers, authorisations, indemnities, discretions or protections, of the Trustee in respect of the Transaction Documents.

In the case of a modification, amendment, waiver or supplement pursuant to paragraphs (xi), (xii) and (xiv) above, under no circumstances shall the Trustee be required to give such consent on less than 21 days' notice and the Trustee shall be entitled to obtain expert advice, at the expense of the Issuer, and rely on such advice in connection with determining whether or not to give such consent as it sees fit.

In particular, the Issuer shall notify the Controlling Class in accordance with these Conditions of any proposed modification pursuant to paragraph (xxvi) above promptly upon being notified thereof by the Collateral Manager in accordance with the Collateral Management Agreement. Notwithstanding any provision of the Transaction Documents or these Conditions, if the Controlling Class (acting by Ordinary Resolution, including by way of Written Resolution), delivers a notice of objection to any such proposed modification to the Principal Paying Agent in accordance with the Trust Deed, no later than 10 Business Days after having received notice of such proposed modification from the Issuer (such notice being deemed to have been received by each Noteholder on the Business Day following the date of delivery of such notice by the Principal Paying Agent on behalf of the Issuer to the Clearing Systems for onward transmission to beneficial owners in accordance with the Agency Agreement and the Trust Deed), no such proposed modification may be effected by the Issuer (or the Collateral Manager on behalf of the Issuer).

The right of the Collateral Manager in the Collateral Management Agreement to choose which case is applicable for the purposes of the Fitch Minimum Weighted Average Recovery Rate Test, the Fitch Maximum Weighted Average Rating Factor Test and the Fitch Minimum Weighted Average Spread Test, in each case by reference to the Fitch Test Matrices, will not constitute a modification or an amendment of a component to the Fitch Test Matrices for the purposes of Condition 14(c)(xvii) (*Modification and Waiver*).

(d) Substitution

The Trust Deed contains provisions permitting the Trustee to agree, subject to such amendment of the Trust Deed and such other conditions as the Trustee may require (without the consent of the Noteholders of any Class or any other Secured Party), to the substitution of any other company in place of the Issuer, or of any previous substituted company, as principal debtor under the Trust Deed and the Notes of each Class, if required for taxation purposes, provided that such substitution would not, in the opinion of the Trustee, be materially prejudicial to the interests of the Noteholders of any Class. In the case of such a substitution the Trustee may agree, subject to the consent of the Controlling Class (acting by way of Ordinary Resolution) and receipt of Rating Agency Confirmation (subject to receipt of such information and/or opinion(s) as the Rating Agencies may require), to a change of the law governing the Notes and/or the Trust Deed, provided that such change would not, in the opinion of the Trustee, be materially prejudicial to the interests of the Noteholders of any Class. Any substitution agreed by the Trustee pursuant to this Condition 14(d) (*Substitution*) shall be binding on the Noteholders, and shall be notified by the Issuer to the Noteholders as soon as practicable in accordance with Condition 16 (*Notices*).

The Trustee may, subject to the satisfaction of certain conditions specified in the Trust Deed, including receipt of Rating Agency Confirmation, agree to a change in the place of residence of the Issuer for taxation purposes without the consent of the Noteholders of any Class, provided the Issuer does all such things as the Trustee may require in order that such change in the place of residence of the Issuer for taxation purposes is fully effective and complies with such other requirements which are in the interests of the Noteholders as it may direct.

The Issuer shall procure that, so long as the Notes are listed on the Global Exchange Market of Euronext Dublin any material amendments or modifications to these Conditions, the Trust Deed or such other

conditions made pursuant to Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*) shall be notified to Euronext Dublin.

(e) Entitlement of the Trustee and Conflicts of Interest

In connection with the exercise of its trusts, powers, duties and discretions (including but not limited to those referred to in this Condition 14(e) (*Entitlement of the Trustee and Conflicts of Interest*)), the Trustee shall have regard to the interests of each Class of Noteholders as a Class and shall not have regard to the consequences of such exercise for individual Noteholders of such Class and the Trustee shall not be entitled to require, nor shall any Noteholder be entitled to claim, from the Issuer, the Trustee or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders except to the extent already provided for in Condition 9 (*Taxation*).

In considering the interests of Noteholders while the Global Certificates are held on behalf of a Clearing System, the Trustee may have regard to any information provided to it by such Clearing System or its operator as to the identity (either individually or by category) of its account holders with entitlements to each Global Certificate and may consider such interests as if such account holders were the holders of any Global Certificate.

The Trust Deed provides that in the event of any conflict of interest between or among the holders of the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Subordinated Notes, the interests of the holders of the Controlling Class will prevail. If the holders of the Controlling Class do not have an interest in the outcome of the conflict, the Trustee shall give priority to the interests of (i) the Class X Noteholders over the Class B Noteholders, Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders, (ii) the Class B Noteholders over the Class C Noteholders, the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders, (iii) the Class C Noteholders over the Class D Noteholders, the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders, (iv) the Class D Noteholders over the Class E Noteholders, the Class F Noteholders and the Subordinated Noteholders, (v) the Class E Noteholders over the Class F Noteholders and the Subordinated Noteholders, and (vi) the Class F Noteholders over the Subordinated Noteholders. If the Trustee receives conflicting or inconsistent requests from two or more groups of holders of a Class, given priority as described in this paragraph, each representing less than the majority by principal amount outstanding of such Class, the Trustee shall give priority to the group which holds the greater amount of Notes Outstanding of such Class. The Trust Deed provides further that, except as expressly provided otherwise in any applicable Transaction Document or these Conditions, the Trustee will act upon the directions of the holders of the Controlling Class (or other Class where the holders of the Class or Classes having priority over such other Class do not have an interest in the subject matter of such directions) (in each case acting by Extraordinary Resolution) subject to being indemnified and/or secured and/or prefunded to its satisfaction, and shall not be obliged to consider the interests of and is exempted from any liability to the holders of any other Class of Notes.

In addition, the Trust Deed provides that, so long as any Note is Outstanding, the Trustee shall have no regard to the interests of any Secured Party other than the Noteholders or, at any time, to the interests of any other person.

15. Indemnification of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility in certain circumstances, including provisions relieving it from instituting proceedings to enforce repayment or to enforce the security constituted by or pursuant to the Trust Deed or the Irish Security Agreement, unless indemnified and/or secured and/or prefunded to its satisfaction. The Trustee is entitled to enter into business transactions with the Issuer or any other party to any Transaction Document and any entity related to the Issuer or any other party to any Transaction Document without

accounting for any profit. The Trustee is exempted from any liability in respect of any loss or theft or reduction in value of the Collateral from any obligation to insure, or to monitor the provisions of any insurance arrangements in respect of, the Collateral (for the avoidance of doubt, under the Trust Deed the Trustee is under no such obligation) and from any claim arising from the fact that the Collateral is held by the Custodian or is otherwise held in safe custody by a bank or other custodian. The Trustee shall not be responsible for the performance by the Custodian of any of its duties under the Agency Agreement or for the performance by the Collateral Manager of any of its duties under the Collateral Management Agreement, for the performance by the Collateral Administrator of its duties under the Collateral Management Agreement or for the performance by any other person appointed by the Issuer in relation to the Notes or by any other party to any Transaction Document. The Trustee shall not have any responsibility for the administration, management or operation of the Collateral including the request by the Collateral Manager to release any of the Collateral from time to time.

The Trust Deed contains provisions for the retirement of the Trustee and the removal of the Trustee by Extraordinary Resolution of the Controlling Class, but no such retirement or removal shall become effective until a successor trustee is appointed.

16. Notices

Notices to Noteholders will be valid if posted to the address of such Noteholder appearing in the Register at the time of publication of such notice by pre-paid, first class mail (or any other manner approved by the Trustee which may be by electronic transmission) and (for so long as the Notes are listed on the Global Exchange Market of Euronext Dublin and the rules of Euronext Dublin so require) shall be sent to the Company Announcements Office of Euronext Dublin or such other process as Euronext Dublin may require. Any such notice shall be deemed to have been given to the Noteholders (a) in the case of inland mail three calendar days after the date of dispatch thereof, (b) in the case of overseas mail, seven calendar days after the dispatch thereof or, (c) in the case of electronic transmission, on the date of dispatch.

Notices will be valid and will be deemed to have been given, for so long as the Notes are admitted to trading on Euronext Dublin, when such notice is filed in the Company Announcements Office of Euronext Dublin or such other process as Euronext Dublin may require.

The Trustee shall be at liberty to sanction some other method of giving notice to the Noteholders (or a category of them) if, in its opinion, such other method is reasonable having regard to market practice then prevailing and to the rules of the stock exchange on which the Notes are then listed and provided that notice of such other method is given to the Noteholders in such manner as the Trustee shall require.

Notwithstanding the above, so long as any Notes are represented by a Global Certificate and such Global Certificate is held on behalf of a Clearing System, notices to Noteholders may be given by delivery of the relevant notice to that Clearing System for communication by it to entitled account holders in substitution for delivery thereof as specified above, provided that such notice is also made to the Company Announcements Office of Euronext Dublin for so long as such Notes are listed on the Global Exchange Market of Euronext Dublin and the rules of Euronext Dublin so require. Such notice will be deemed to have been given to the Noteholders on the date of delivery of the relevant notice to the relevant Clearing System.

17. Additional Issuances

- (a) The Issuer may during the Reinvestment Period, subject to the approval of the Controlling Class acting by Ordinary Resolution in respect of any additional issuance of Rated Notes, create and issue additional Notes of each Class (other than the Class X Notes) (on a *pro rata* basis with respect to each existing Class of Notes) which shall be consolidated and form a single series with the Outstanding Notes of such Class (unless otherwise provided) (in each case, any such Notes, "**Additional Notes**") and use the proceeds to purchase additional Collateral Debt Obligations and, if applicable, enter into additional

Hedge Transactions in connection with the Issuer's issuance of, and making payments on, the Notes and ownership of and disposition of the Collateral Debt Obligations or, solely with the proceeds of an issuance of additional Subordinated Notes, to purchase Collateral Enhancement Obligations or as otherwise permitted under the Trust Deed, provided that the following conditions are met:

- (i) in the case of an issuance of Additional Notes of an existing Class, such issuance may not exceed 100 per cent. of the original outstanding amount of the applicable Class or Classes of Rated Notes;
- (ii) in the case of an issuance of Additional Notes of an existing Class, the terms of the issued Notes must be identical to the respective terms of previously issued Notes of the applicable Class (except that the interest due on any additional Rated Notes will accrue from the issue date of such additional Rated Notes and the interest rate and price of such Notes do not have to be identical to those of the initial Notes of that Class, provided that, if (A) the margin applicable to any Additional Notes for the purposes of determining the relevant interest rate is not equal to or less than the margin applicable to the initial Notes of that Class or (B) if either (i) any of the Notes of an existing Class are Fixed Rate Notes, and the related Additional Notes are floating rate obligations, or (ii) any of the Notes of an existing Class are Floating Rate Notes, and the related Additional Notes are fixed rate obligations, Rating Agency Confirmation has been obtained from each of from Fitch and S&P);
- (iii) the proceeds of any Additional Notes (net of fees and expenses incurred in connection with such issuance) will be treated as Principal Proceeds, used to purchase additional Collateral Debt Obligations and, if applicable, enter into additional Hedge Transactions in connection with the Issuer's issuance of, and making payments on, the Notes and ownership of and disposition of the Collateral Debt Obligations or, solely with the proceeds of an issuance of additional Subordinated Notes, Collateral Enhancement Obligations, or applied as otherwise permitted under the Trust Deed;
- (iv) the Issuer (or an agent acting on behalf of the Issuer) must notify the Rating Agencies then rating any Notes of such additional issuance and, for so long as S&P is rating any Notes, Rating Agency Confirmation from S&P has been obtained;
- (v) the Coverage Tests will be satisfied after giving effect to such additional issuance of Notes;
- (vi) the holders of the relevant Class of Notes in respect of which further Notes are issued shall have been notified in writing 15 calendar days prior to such issuance and shall have been afforded the opportunity to purchase additional Notes of the relevant Class in an amount not to exceed the percentage of the relevant Class of Notes each holder held immediately prior to the issuance (the "**Anti-Dilution Percentage**") of such additional Notes and on the same terms offered to investors generally;
- (vii) (so long as the existing Notes of the Class of Notes to be issued are listed on the Global Exchange Market of Euronext Dublin) the additional Notes of such Class to be issued are in accordance with the requirements of Euronext Dublin and are listed on the Global Exchange Market of Euronext Dublin (for so long as the rules of Euronext Dublin so requires);
- (viii) such additional issuances are in accordance with all applicable laws including, without limitation, the securities and banking laws and regulations of Ireland and do not adversely affect the Irish tax position of the Issuer;
- (ix) the Issuer and the Trustee will have received advice of tax counsel of nationally recognised standing in the United States experienced in such matters to the effect that (A) such additional issuance will not cause the opinion delivered on the Issue Date by Allen & Overy LLP with respect to the characterisation of the Class X Notes, Class A Notes, Class B Notes, Class C Notes, Class D Notes and the Class E Notes as indebtedness for U.S. federal income tax purposes to be incorrect, and (B) any additional Class A Notes, Class B Notes, Class C Notes and Class D Notes will be treated, and any additional Class E Notes should be treated, as indebtedness for U.S. federal income tax purposes, *provided, however*, that the advice of tax counsel described in paragraph (B) will not be required with respect to any Additional Notes

that bear a different ISIN (or equivalent identifier) from the Notes of the same Class that were issued on the Issue Date and are Outstanding at the time of the additional issuance;

- (x) any Additional Notes that are not fungible for U.S. federal income tax purposes with existing Notes shall have a different ISIN (or equivalent identifier);
 - (xi) such issuance of Additional Notes is accomplished in a manner that allows the accountants of the Issuer to accurately provide the tax information relating to original issue discount of any applicable Notes (including the Additional Notes);
 - (xii) an officer's certificate of the Issuer is delivered to the Trustee stating that the foregoing paragraphs (i) to (x) (inclusive) have been satisfied;
 - (xiii) the Retention Holder consenting to purchase a sufficient amount of each of the tranches sold or transferred to investors which are the subject of such additional issuance such that its holding equals no less than 5 per cent. of the nominal value of each of the tranches sold or transferred to investors, and for these purposes, any Class of Notes ranking at the same level shall constitute a "**tranche**"; and
 - (xiv) a good faith determination by the Retention Holder that such issuance of Additional Notes will not cause the Retention Holder to fail to be in compliance with the EU Retention Requirements or the U.S. Risk Retention Rules.
- (b) The Issuer may from time to time also create and issue additional Subordinated Notes (without issuing Notes of any other Class) having the same terms and conditions as existing Subordinated Notes (subject as provided below), subject to the approval of the Subordinated Noteholders acting by Ordinary Resolution and the prior written approval of the Retention Holder, which shall be consolidated and form a single series with the Outstanding Subordinated Notes, provided that:
- (i) the subordination terms of such Subordinated Notes are identical to the terms of the previously issued Subordinated Notes;
 - (ii) the terms (other than the date of issuance, the issue price and the date from which interest will accrue) of such Subordinated Notes must be identical to the terms of the previously issued Subordinated Notes;
 - (iii) such additional Subordinated Notes are issued for a cash sales price;
 - (iv) the Issuer must notify the Rating Agencies then rating any Notes of such additional issuance;
 - (v) the holders of the Subordinated Notes shall have been notified in writing 15 calendar days prior to such issuance and shall have been afforded the opportunity to purchase additional Subordinated Notes in an amount not to exceed the Anti-Dilution Percentage of such additional Subordinated Notes and on the same terms offered to investors generally;
 - (vi) such additional issuance is in accordance with all applicable laws including, without limitation, the securities and banking laws and regulations of Ireland and do not adversely affect the Irish tax position of the Issuer;
 - (vii) (so long as the existing Subordinated Notes are listed on the Global Exchange Market of Euronext Dublin) the additional Subordinated Notes to be issued are in accordance with the requirements of Euronext Dublin and are listed on the Global Exchange Market of Euronext Dublin (for so long as the rules of Euronext Dublin so requires);
 - (viii) a good faith determination by the Retention Holder that such issuance of Additional Notes will not cause the Retention Holder to fail to be in compliance with the EU Retention Requirements or the U.S. Risk Retention Rules; and

- (ix) an opinion of counsel of nationally recognised experience in such matter has been delivered to the Issuer and the Trustee confirming that neither the Issuer nor the Portfolio will be required to register under the Investment Company Act as a result of such additional issuance.
- (c) In addition to Condition 17(a) and (b) (*Additional Issuances*) above, the Issuer may at any time during the Reinvestment Period, subject to the approval of the Subordinated Noteholders acting by Ordinary Resolution and subject to the separate approval in writing of the Collateral Manager, create and issue new Notes (other than Class X Notes) having substantially the same terms and conditions as existing Classes of Notes (subject as provided below), and will use the proceeds of sale thereof to purchase additional Collateral Debt Obligations and, if applicable, enter into additional Hedge Transactions in connection with the Issuer's issuance of, and making payments on, the Notes and ownership of and disposition of the Collateral Debt Obligations, provided that the following conditions are met:
- (i) such new class or classes of Notes will be subordinate in the payment of interest and principal to the most junior Class of Notes then Outstanding (other than the Subordinated Notes);
 - (ii) such new Notes must be issued for a cash sale price and the net proceeds invested in Collateral Debt Obligations or, pending such investment, during the Initial Investment Period deposited in the Unused Proceeds Account or, thereafter, deposited in the Principal Account and, in each case, invested in Eligible Investments;
 - (iii) (subject to paragraph (i) above, the terms (other than the date of issuance, the issue price, the rate of interest, and the date from which interest will accrue) of such new Notes must be substantially identical to the terms of previously issued Notes, provided that such new Notes may be unsecured notwithstanding that the previously issued Notes are secured;
 - (iv) the Issuer (or an agent acting on behalf of the Issuer) must notify the Rating Agencies then rating any Notes of such new issuance;
 - (v) (x) each Interest Coverage Test will be satisfied or, if not satisfied, will be maintained or improved, and (y) each Par Value Ratio will remain the same or increase, in each case after giving effect to such additional issuance of new Notes compared to what they were immediately prior to such additional issuance of new Notes;
 - (vi) (so long as the existing Notes are listed on the Global Exchange Market of Euronext Dublin) the new Notes to be issued are in accordance with the requirements of Euronext Dublin and are listed on the Global Exchange Market of Euronext Dublin (for so long as the rules of Euronext Dublin so requires);
 - (vii) such new issuances are in accordance with all applicable laws including, without limitation, the securities and banking laws and regulations of Ireland and do not adversely affect the Irish tax position of the Issuer; and
 - (viii) any issuance of new Notes would not result in non-compliance by the Collateral Manager with the EU Retention Requirements.

References in these Conditions to the "Notes" include (unless the context requires otherwise) any other notes issued pursuant to this Condition 17 (*Additional Issuances*) and forming a single series with the Notes. Any further securities forming a single series with Notes constituted by the Trust Deed or any deed supplemental to it shall be constituted by a deed supplemental to the Trust Deed.

18. Third Party Rights

No person shall have any right to enforce any term of these Conditions under the Contracts (Rights of Third Parties) Act 1999.

19. Governing Law

(a) Governing Law

The Trust Deed and each Class of Notes and any dispute, controversy, proceedings or claim of whatever nature (whether contractual or non-contractual) arising out of or in any way relating to the Trust Deed or any Class of Notes are governed by and shall be construed in accordance with English law. The Corporate Services Agreement and any non-contractual obligations arising out of or in connection with the Corporate Services Agreement is governed by and shall be construed in accordance with Irish law. The Irish Security Agreement and any dispute, controversy, proceedings or claim of whatever nature (whether contractual or non-contractual) arising out of or in any way relating to the Irish Security Agreement is governed by and shall be construed in accordance with Irish law.

(b) Jurisdiction

The courts of England are to have exclusive jurisdiction to settle any disputes (whether contractual or non-contractual) which may arise out of or in connection with the Notes, and accordingly any legal action or proceedings arising out of or in connection with the Notes ("**Proceedings**") may be brought in such courts. The Issuer has in the Trust Deed irrevocably submitted to the jurisdiction of such courts and waives any objection to Proceedings in any such courts whether on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission is made for the benefit of each of the Noteholders, the Trustee and the other Secured Parties and shall not limit the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

(c) Agent for Service of Process

The Issuer appoints Maples and Calder (having an office, at the date hereof, at having an office at 11th Floor, 200 Aldersgate Street, London, United Kingdom, EC1A 4HD) as its agent in England to receive service of process in any Proceedings in England based on any of the Notes. If for any reason the Issuer does not have such agent in England, it will promptly appoint a substitute process agent in England and notify the Trustee and the Noteholders of such appointment. Nothing herein shall affect the right to service of process in any other manner permitted by law.

USE OF PROCEEDS

The estimated net proceeds of the issue of the Notes after payment of fees, expenses and other amounts payable on or about the Issue Date (including, without duplication, amounts deposited into the Expense Reserve Account) are expected to be approximately €249,675,000. Such proceeds will be used by the Issuer in payment of all net amounts due and payable in connection with the acquisition of Issue Date Collateral Debt Obligations on or prior to the Issue Date and net amounts due and payable in connection with the Warehouse Arrangements (as further described in "*The Portfolio—Acquisition of Collateral Debt Obligations*") and to fund the First Period Reserve Account on the Issue Date. The remaining proceeds shall be retained in the Unused Proceeds Account.

FORM OF THE NOTES

References below to Notes and to the Global Certificates and the Definitive Certificates representing such Notes are to each respective Class of Notes, except as otherwise indicated.

Initial Issue of Notes

The Regulation S Notes of each Class will be represented on issue by a Regulation S Global Certificate deposited with, and registered in the name of a nominee of, a common depositary for Euroclear and Clearstream, Luxembourg. Beneficial interests in a Regulation S Global Certificate may be held at any time only through Euroclear or Clearstream, Luxembourg. See "*Book Entry Clearance Procedures*". Beneficial interests in a Regulation S Global Certificate may not be held by a U.S. Person or U.S. Resident at any time. By acquisition of a beneficial interest in a Regulation S Global Certificate, the purchaser thereof will be deemed to represent, among other things, that it is not a U.S. Person, and that, if in the future it determines to transfer such beneficial interest, it will transfer such interest only to a person whom the seller reasonably believes (a) to be a non-U.S. Person in an "offshore transaction" in accordance with Rule 903 or Rule 904 of Regulation S, or (b) to be a person who takes delivery in the form of an interest in a Rule 144A Global Certificate. See "*Transfer Restrictions*".

The Rule 144A Notes of each Class will be represented on issue by a Rule 144A Global Certificate deposited with, and registered in the name of a nominee of, a common depositary for Euroclear and Clearstream, Luxembourg. Beneficial interests in a Rule 144A Global Certificate may only be held at any time only through Euroclear or Clearstream, Luxembourg. See "*Book Entry Clearance Procedures*". By acquisition of a beneficial interest in a Rule 144A Global Certificate, the purchaser thereof will be deemed to represent, amongst other things, that it is a QIB/QP and that, if in the future it determines to transfer such beneficial interest, it will transfer such interest in accordance with the procedures and restrictions contained in the Trust Deed. See "*Transfer Restrictions*".

Beneficial interests in Global Certificates will be subject to certain restrictions on transfer set forth therein and in the Trust Deed and as set forth in Rule 144A, and the Notes will bear the applicable legends regarding the restrictions set forth under "*Transfer Restrictions*". In the case of each Class of Notes, a beneficial interest in a Regulation S Global Certificate may be transferred to a person who takes delivery in the form of an interest in a Rule 144A Global Certificate in denominations greater than or equal to the minimum denominations and authorised integral amounts in excess thereof applicable to interests in such Rule 144A Global Certificate only upon receipt by the Transfer Agent of a written certification (in the form provided in the Trust Deed) to the effect that the transferor reasonably believes that the transferee is a QIB/QP and that such transaction is in accordance with any applicable securities laws of any state of the United States or any other jurisdiction. Beneficial interests in the Rule 144A Global Certificates may be transferred to a person who takes delivery in the form of an interest in a Regulation S Global Certificate only upon receipt by the Transfer Agent of a written certification (in the form provided in the Trust Deed) from the transferor to the effect that the transfer is being made to a non-U.S. Person in an "offshore transaction" and in accordance with Regulation S.

Any beneficial interest in a Regulation S Global Certificate that is transferred to a person who takes delivery in the form of an interest in a Rule 144A Global Certificate will, upon transfer, cease to be an interest in such Regulation S Global Certificate and become an interest in the Rule 144A Global Certificate, and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in a Rule 144A Global Certificate for as long as it remains such an interest. Any beneficial interest in a Rule 144A Global Certificate that is transferred to a person who takes delivery in the form of an interest in a Regulation S Global Certificate will, upon transfer, cease to be an interest in a Rule 144A Global Certificate and become an interest in the Regulation S Global Certificate and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in a Regulation S Global Certificate for so long as it remains such an interest. No service charge will be made for any registration of transfer or exchange of Notes, but the Transfer Agent may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

CM Removal and Replacement Voting and Non-Voting Notes

A beneficial interest in a Rule 144A Global Certificate in the form of CM Removal and Replacement Exchangeable Non-Voting Notes may be transferred to a person who takes delivery in the form of an interest in a Rule 144A Global Certificate in the form of CM Removal and Replacement Non-Voting Notes or an entity that is not an Affiliate of the transferor who takes delivery in the form of an interest in a Rule 144A Global Certificate in the form of CM Removal and Replacement Voting Notes, in each case in denominations greater than or equal to the minimum denominations applicable to interests in such Rule 144A Global Certificate only upon receipt by a Transfer Agent of a written transfer request (in the form provided in the Trust Deed) from the transferor.

A beneficial interest in a Rule 144A Global Certificate in the form of CM Removal and Replacement Voting Notes may be transferred to a person who takes delivery in the form of an interest in a Rule 144A Global Certificate in the form of CM Removal and Replacement Non-Voting Notes or CM Removal and Replacement Exchangeable Non-Voting Notes in denominations greater than or equal to the minimum denominations applicable to interests in such Rule 144A Global Certificate only upon receipt by a Transfer Agent of a written transfer request (in the form provided in the Trust Deed) from the transferor.

A beneficial interest in a Regulation S Global Certificate in the form of CM Removal and Replacement Exchangeable Non-Voting Notes may be transferred to a person who takes delivery in the form of an interest in a Regulation S Global Certificate in the form of CM Removal and Replacement Non-Voting Notes or an entity that is not an Affiliate of the transferor who takes delivery in the form of an interest in a Regulation S Global Certificate in the form of CM Removal and Replacement Voting Notes in denominations greater than or equal to the minimum denominations applicable to interests in such Regulation S Global Certificate, in each case only upon receipt by a Transfer Agent of a written transfer request (in the form provided in the Trust Deed) from the transferor.

A beneficial interest in a Regulation S Global Certificate in the form of CM Removal and Replacement Voting Notes may be transferred to a person who takes delivery in the form of an interest in a Regulation S Global Certificate in the form of CM Removal and Replacement Non-Voting Notes or CM Removal and Replacement Exchangeable Non-Voting Notes in denominations greater than or equal to the minimum denominations applicable to interests in such Regulation S Global Certificate only upon receipt by a Transfer Agent of a written transfer request (in the form provided in the Trust Deed) from the transferor.

A Noteholder holding a beneficial interest in a Global Certificate representing Notes in the form of CM Removal and Replacement Exchangeable Non-Voting Notes may request by the delivery to a Transfer Agent of a written request that such beneficial interest be exchanged for a beneficial interest in a Global Certificate representing Notes in the form of CM Removal and Replacement Voting Notes only in connection with the transfer of such Notes to an entity that is not an Affiliate of such Noteholder, as provided above.

Beneficial interests in a Global Certificate representing Notes in the form of CM Removal and Replacement Exchangeable Non-Voting Notes shall not be exchanged for a beneficial interest in a Global Certificate representing Notes in the form of CM Removal and Replacement Voting Notes in any other circumstances.

Beneficial interests in a Global Certificate representing Notes in the form of CM Removal and Replacement Non-Voting Notes shall not be exchangeable at any time for a beneficial interest in a Global Certificate representing Notes in the form of CM Removal and Replacement Voting Notes or CM Removal and Replacement Exchangeable Non-Voting Notes.

Except in the limited circumstances described below, owners of beneficial interests in Global Certificates will not be entitled to receive physical delivery of certificated Notes.

A transferee of a Class E Note, Class F Note or Subordinated Note in the form of a Rule 144A Global Certificate or a Regulation S Global Certificate will be deemed to represent (among other things) that it is not, and is not acting on behalf of (and for so long as it holds such Note or interest therein will not be, and will not be acting on

behalf of) a Benefit Plan Investor or a Controlling Person. If a transferee is unable to make such deemed representation, such transferee may not acquire such Class E Note, Class F Note or Subordinated Note, as applicable, in the form of a Rule 144A Global Certificate or a Regulation S Global Certificate unless such transferee (i) obtains the written consent of the Issuer and (ii) provides an ERISA certificate (substantially in the form of Annex B (*Form of ERISA Certificate*)) to a Transfer Agent and the Issuer as to its status as a Benefit Plan Investor or Controlling Person.

The Notes are not issuable in bearer form.

Exchange for Definitive Certificates

Exchange

Each Global Certificate will be exchangeable, free of charge to the holder, on or after its Definitive Exchange Date (as defined below), in whole but not in part, for Definitive Certificates if a Global Certificate is held (directly or indirectly) on behalf of Euroclear, Clearstream, Luxembourg or an alternative clearing system and any such clearing system is closed for business for a continuous period of 14 calendar days (other than by reason of holiday, statutory or otherwise) or announces its intention to permanently cease business or does in fact do so.

No proposed transfer of Class E Notes, Class F Notes or Subordinated Notes (or interests therein) will be permitted or recognised if such transfer will cause 25 per cent. or more of the total value of the Class E Notes, Class F Notes or Subordinated Notes (determined separately by class) to be held by Benefit Plan Investors, disregarding Class E Notes, Class F Notes or Subordinated Notes (or interests therein) held by Controlling Persons.

The Registrar will not register the transfer of, or exchange of interests in, a Global Certificate for Definitive Certificates during the period from (but excluding) the Record Date to (and including) the date for any payment of principal or interest in respect of the Notes.

If only one of the Global Certificates (the "**Exchanged Global Certificate**") becomes exchangeable for Definitive Certificates in accordance with the above paragraphs, transfers of Notes may not take place between, on the one hand, persons holding Definitive Certificates issued in exchange for beneficial interests in the Exchanged Global Certificate and, on the other hand, persons wishing to purchase beneficial interests in the other Global Certificate.

"**Definitive Exchange Date**" means a day falling not less than 30 calendar days after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office of the Registrar and any Transfer Agent is located.

Delivery

In such circumstances, the relevant Global Certificate shall be exchanged in full for Definitive Certificates and the Issuer will, at the cost of the Issuer (but upon payment by the Noteholder or transferee or the giving of such indemnity as the Registrar or any relevant Transfer Agent may require in respect of any stamp duty, tax or other duty or governmental charge of whatever nature which may be levied or imposed in connection with such exchange), cause sufficient Definitive Certificates to be executed and delivered to the Registrar for completion, authentication and dispatch to the relevant Noteholders. A person having an interest in a Global Certificate must provide the Registrar with (a) a written order containing instructions and such other information as the Issuer and the Registrar may require to complete, execute and deliver such Definitive Certificates and (b) a fully completed, signed certification substantially to the effect that the exchanging holder is not transferring its interest at the time of such exchange or, in the case of simultaneous sale pursuant to Rule 144A or Regulation S, as applicable, a certification that the transfer is being made in compliance with the provisions of Rule 144A or Regulation S, as applicable. Definitive Certificates issued in exchange for a beneficial interest in the Rule 144A Global Certificate or Regulation S Global Certificate, as applicable, shall bear the legends applicable to transfers, as set out under "*Transfer Restrictions*" below.

Legends

The holder of a Definitive Certificate in registered definitive form, as applicable, may transfer the Notes represented thereby in whole or in part in the applicable minimum denomination or authorised integral amounts thereof by surrendering it at the specified office of the Registrar or any Transfer Agent, together with the completed form of transfer and to the extent applicable, written consent of the Issuer and a duly completed ERISA certificate (substantially in the form of Annex B (*Form of ERISA Certificate*)). Upon the transfer, exchange or replacement of a Definitive Certificate in registered definitive form, as applicable, bearing the legend referred to under "*Transfer Restrictions*" below, or upon specific request for removal of the legend on a Definitive Certificate in registered definitive form, as applicable, the Issuer will deliver only Definitive Certificates that bear such legend, or will refuse to remove such legend, as the case may be, unless there is delivered to the Issuer and the Registrar such satisfactory evidence, which may include an opinion of counsel, as may reasonably be required by the Issuer that neither the legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act and the Investment Company Act.

BOOK ENTRY CLEARANCE PROCEDURES

The information set out below has been obtained from sources that the Issuer believes to be reliable, but prospective investors are advised to make their own enquiries as to such procedures. In particular, such information is subject to any change in or interpretation of the rules, regulations and procedures of the Clearing Systems currently in effect and investors wishing to use the facilities of any of the Clearing Systems are therefore advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuer, the Trustee, the Collateral Manager, the Placement Agent or any Agent party to the Agency Agreement (or any Affiliate of any of the above, or any person by whom any of the above is controlled for the purposes of the Securities Act), will have any responsibility for the performance by the Clearing Systems or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations or for the sufficiency for any purpose of the arrangements described below.

Euroclear and Clearstream, Luxembourg

Custodial and depositary links have been established between Euroclear and Clearstream, Luxembourg to facilitate the initial issue of the Notes and cross-market transfers of the Notes associated with secondary market trading (see "*Book Entry Ownership—Settlement and Transfer of Notes*" below).

Euroclear and Clearstream, Luxembourg each hold securities for their customers and facilitate the clearance and settlement of securities transactions through electronic book entry transfer between their respective accountholders. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions which clear through or maintain a custodial relationship with an accountholder of either system. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depositary and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective customers may settle trades with each other. Their customers are worldwide financial institutions including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Investors may hold their interests in such Global Certificates directly through Euroclear or Clearstream, Luxembourg if they are accountholders ("**Direct Participants**") or indirectly ("**Indirect Participants**"), together with Direct Participants, ("**Participants**") through organisations which are accountholders therein.

Book Entry Ownership

Euroclear and Clearstream, Luxembourg

Each Regulation S Global Certificate and each Rule 144A Global Certificate will have an ISIN and a Common Code and will be deposited with, and registered in the name of a nominee of, the common depositary on behalf of Euroclear and Clearstream, Luxembourg.

Relationship of Participants with Clearing Systems

Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a Note represented by a Global Certificate must look solely to Euroclear or Clearstream, Luxembourg (as the case may be) for his share of each payment made by the Issuer to the holder of such Global Certificate and in relation to all other rights arising under the Global Certificate, subject to and in accordance with the respective rules and procedures of Euroclear or Clearstream, Luxembourg. The Issuer expects that, upon receipt of any payment in respect of Notes represented by a Global Certificate, the common depositary by whom such Note is held, or nominee in whose name it is registered, will immediately credit the relevant Participants' or accountholders' accounts in the relevant Clearing System with payments in amounts proportionate to their respective beneficial interests in the principal amount of the relevant Global Certificate as shown on the records of the relevant Clearing

System or its nominee. The Issuer also expects that payments by Direct Participants in any Clearing System to owners of beneficial interests in any Global Certificate held through such Direct Participants in any Clearing System will be governed by standing instructions and customary practices. Save as aforesaid, such persons shall have no claim directly against the Issuer in respect of payments due on the Notes for so long as the Notes are represented by such Global Certificate and the obligations of the Issuer will be discharged by payment to the registered holder, as the case may be, of such Global Certificate in respect of each amount so paid. None of the Issuer, the Trustee or any Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of ownership interests in any Global Certificate or for maintaining, supervising or reviewing any records relating to such ownership interests.

Settlement and Transfer of Notes

Subject to the rules and procedures of each applicable Clearing System, purchases of Notes held within a Clearing System must be made by or through Direct Participants, which will receive a credit for such Notes on the Clearing System's records. The ownership interest of each actual purchaser of each such Note (the "**Beneficial Owner**") will in turn be recorded on the Direct Participant and Indirect Participant's records. Beneficial Owners will not receive written confirmation from any Clearing System of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct Participant or Indirect Participant through which such Beneficial Owner entered into the transaction. Transfers of ownership interests in Notes held within the Clearing System will be effected by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in such Notes, unless and until interests in any Global Certificate held within a Clearing System are exchanged for Definitive Certificates.

No Clearing System has knowledge of the actual Beneficial Owners of the Notes held within such Clearing System and their records will reflect only the identity of the Direct Participants to whose accounts such Notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers. Conveyance of notices and other communications by the Clearing Systems to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Trading between Euroclear and/or Clearstream, Luxembourg Participants

Secondary market sales of book entry interests in the Notes held through Euroclear or Clearstream, Luxembourg to purchasers of book entry interests in the Notes held through Euroclear or Clearstream, Luxembourg will be conducted in accordance with the normal rules and operating procedures of Euroclear and Clearstream, Luxembourg and will be settled using the procedures applicable to conventional eurobonds.

RATINGS OF THE NOTES

General

It is a condition of the issue and sale of the Notes that the Notes (except for the Subordinated Notes) be issued with at least the following ratings: the Class X Notes: "AAA (sf)" from S&P and "AAA (sf)" from Fitch; the Class A Notes: "AAA (sf)" from S&P and "AAA (sf)" from Fitch; the Class B-1 Notes: "AA (sf)" from S&P and "AA (sf)" from Fitch; the Class B-2 Notes: "AA (sf)" from S&P and "AA (sf)" from Fitch; the Class C Notes: "A (sf)" from S&P and "A (sf)" from Fitch; the Class D Notes: "BBB(sf)" from S&P and "BBB- (sf)" from Fitch; the Class E Notes: "BB- (sf)" from S&P and "BB- (sf)" from Fitch; and the Class F Notes: "B- (sf)" from S&P and "B- (sf)" from Fitch. The Subordinated Notes will not be rated.

The ratings assigned by Fitch and S&P to the Class X Notes, the Class A Notes and the Class B Notes address the timely payment of interest and the ultimate payment of principal. The ratings assigned by Fitch and S&P to the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes address the ultimate payment of principal and interest.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the applicable rating agency.

As of the date of this Offering Circular, each of the Rating Agencies is established in the European Union ("EU") and is registered under Regulation (EC) No 1060/2009 (as amended) (the "CRA3"). As such each Rating Agency is included in the list of credit rating agencies published by the European Securities and Markets Authority ("ESMA") on its website in accordance with the CRA3.

S&P Ratings

S&P will rate the Rated Notes in a manner similar to the manner in which it rates other structured issues. This requires an analysis of the following:

- (a) the credit quality of the portfolio of Collateral Debt Obligations securing the Notes;
- (b) the cash flow used to pay liabilities and the priorities of these payments; and
- (c) legal considerations.

Based on these analyses, S&P determines the necessary level of credit enhancement needed to achieve a desired rating. In this connection, the S&P CDO Monitor Test is applied from the period beginning as of the Effective Date and ending on the expiry of the Reinvestment Period.

S&P's analysis includes the application of its proprietary default expectation computer model (the "**S&P CDO Monitor**") which is used to estimate the default rate S&P projects the Portfolio is likely to experience and which will be provided to the Collateral Manager on or before the Issue Date. The S&P CDO Monitor calculates the cumulative default rate of a pool of Collateral Debt Obligations and Eligible Investments consistent with a specified benchmark rating level based upon S&P's proprietary corporate debt default studies. The S&P CDO Monitor takes into consideration the rating of each Obligor, the number of Obligors, the Obligor industry concentration and the remaining weighted average maturity of each of the Collateral Debt Obligations included in the Portfolio. The risks posed by these variables are accounted for by effectively adjusting the necessary default level needed to achieve a desired rating. The higher the desired rating, the higher the level of defaults the Portfolio must withstand. For example, the higher the Obligor industry concentration or the longer the weighted average maturity, the higher the default level is assumed to be.

Credit enhancement to support a particular rating is then provided on the results of the S&P CDO Monitor, as well as other more qualitative considerations such as legal issues and management capabilities. Credit enhancement is typically provided by a combination of over collateralisation/subordination, cash collateral/reserve account, excess spread/interest and amortisation. A cash flow model (the "**Transaction Specific**")

Cash Flow Model") is used to evaluate the portfolio and determine whether it can comfortably withstand the estimated level of default while fully repaying the class of debt under consideration.

There can be no assurance that actual losses on the Collateral Debt Obligations will not exceed those assumed in the application of the S&P CDO Monitor or that recovery rates and the timing of recovery with respect thereto will not differ from those assumed in the Transaction Specific Cash Flow Model. None of S&P, the Issuer, the Collateral Manager, the Collateral Administrator, the Trustee, or the Retention Holder, makes any representation as to the expected rate of defaults on the Portfolio or as to the expected timing of any defaults that may occur.

S&P's Ratings of the Rated Notes will be established under various assumptions and scenario analyses. There can be no assurance that actual defaults on the Collateral Debt Obligations will not exceed those assumed by S&P in its analysis, or that recovery rates with respect thereto (and, consequently, loss rates) will not differ from those assumed by S&P.

Fitch Ratings

The ratings assigned to the Rated Notes by Fitch are based upon Fitch's statistical analysis of historical default rates on debt obligations with similar characteristics to the Collateral Debt Obligations and the various eligibility requirements that the Collateral Debt Obligations are required to satisfy.

Fitch analyses the likelihood that each Collateral Debt Obligation will default, based on historical default rates for similar debt obligations, the historical volatility of such default rates (which increases as securities with lower ratings are added to the portfolio) and an additional default assumption to account for future fluctuations in defaults. Fitch then determines the level of credit protection necessary based on a specific percentile of the portfolio default distribution determined by the Fitch "Portfolio Credit Model" which takes into account the correlation between assets in the portfolio based on the level of diversification by region, issuer and industry.

The results of a statistical analysis are incorporated into a cash flow model built to mimic the structure of the transaction. In this regard, the results of several default scenarios, in conjunction with various qualitative tests (e.g., analysis of the strength of the Collateral Manager), are used to determine the credit enhancement required to support a particular rating.

Fitch's ratings of the Rated Notes were established under various assumptions and scenarios.

There can be no assurance that actual defaults on the Collateral Debt Obligations will not exceed those assumed by Fitch in its analysis, or that recovery rates with respect thereto (and consequently loss rates) will not differ from those assumed by Fitch.

In addition to those quantitative tests, Fitch Ratings take into account qualitative features of a transaction including the experience of the Collateral Manager, the legal structure and the risks associated with such structure and other factors that Fitch deems relevant.

Investment Process

The Collateral Manager employs a disciplined process to identify, analyse, purchase and monitor investments. This process begins with macroeconomic research. The Collateral Manager continually monitors world events, interest rate trends, domestic and global economic cycles and other economic variables. This research helps the Collateral Manager identify industries for further review and analysis.

Once industries have been identified for further review and analysis, the Collateral Manager analyses those industries in terms of, among other things, whether they are cyclical or non-cyclical, production or distribution, durable or non-durable, integrated or non-integrated, industrial or consumer, domestic or international, and analyses their capital flows, developing trends, pricing power and supply/demand dynamics.

Fundamental credit analysis is the foundation of the Collateral Manager's portfolio construction. The Collateral Manager analyses potential investments with respect to both the individual company and the deal structure. Fundamental credit analysis of a company is an in-depth, independent analysis focused on free cash flow generation, liquidity and adequacy of collateral coverage. In addition, the Collateral Manager evaluates a company's management, its competitive position, its market share within its industry, and the strengths and weaknesses of its business segments.

The Collateral Manager's review of the structure of a proposed investment focuses on the provisions of the credit documents, including the strength of the protective covenants and the voting rights of lenders. The Collateral Manager also analyses the sponsors of the transaction to determine whether they are proven, committed, and have the financial resources required to support the company if necessary.

Proposed investments that are recommended after the foregoing review and analysis are presented to the Collateral Manager's Investment Committee. The Investment Committee is comprised of the Voya Senior Loan Group's two group heads and a senior credit officer. The Investment Committee approves all new credit exposure and sets maximum per issuer credit limits. It also oversees secondary trading and compliance, validates credit scores, sets trading policy and provides approval of regular quarterly monitoring. All investment decisions of the Investment Committee must receive majority approval.

The final aspect of the Collateral Manager's investment process is rigorous on-going monitoring. The Collateral Manager's investment professionals continuously monitor general economic and company specific information, including daily review of indicative market valuations. The Investment Committee oversees internal credit ratings on all assets under management. In addition, all assets are subject to a formal credit review by the Investment Committee at least quarterly.

To the best of the knowledge and belief of the Retention Holder (which has taken all reasonable care to ensure that such is the case), such information is in accordance with the facts and does not omit anything likely to affect the import of such information. Such information has been prepared by the Retention Holder and has not been independently verified by the Issuer, the Placement Agent or any other party and none of such Persons assumes any responsibility for the accuracy, completeness or applicability of such information.

The information appearing in this section consists of a summary of certain provisions of the Risk Retention Letter and does not purport to be complete and is qualified by reference to the detailed provisions of such letter.

Description of the Retention Holder

Voya Alternative Asset Management LLC shall act as Retention Holder for the purposes of the EU Retention Requirements.

The description and the address of the Retention Holder is set out in the "*The Collateral Manager*" section of this Offering Circular.

On the Issue Date, the Collateral Manager, in its separate capacity as Retention Holder, acting for its own account, will sign the Risk Retention Letter addressed to the Issuer, the Trustee (for the benefit of the Noteholders), the Collateral Administrator and the Placement Agent. The Retention Holder will hold the Retention Notes, as described below, in its capacity as "originator" for the purposes of the EU Retention Requirements. On the basis of the paragraphs below, and the undertakings, representations, warranties and acknowledgements to be given by the Retention Holder set out below, the Retention Holder reasonably believes that it is an "originator" for the purposes of the EU Retention and Disclosure Requirements.

Prospective investors should consider the discussion in "*Risk Factors—Regulatory Initiatives—Risk Retention and Due Diligence Requirements—Securitisation Regulation*" above.

The Retention

Under the Risk Retention Letter, the Retention Holder will agree, undertake and covenant (and, in relation to paragraphs (f) and (g) below, also represent and warrant) for the benefit of the Trustee (solely in its capacity as trustee for the Noteholders), the Issuer, the Collateral Administrator and the Placement Agent that, for so long as any Notes are Outstanding:

- (a) on the Issue Date, it will subscribe for and hold on an ongoing basis, as originator, a material net economic interest of not less than 5 per cent. of the nominal value of each of the tranches sold or transferred to investors within the meaning of Articles 6(1) and 6(3)(a) of the Securitisation Regulation as it applies at the Issue Date (the "**Retention Notes**");
- (b) it will not to sell, hedge or otherwise mitigate its credit risk under or associated with the Retention Notes, except to the extent permitted in accordance with the EU Retention Requirements;
- (c) it will take such further reasonable action, provide such information (subject to any applicable duties of confidentiality) and on a confidential basis including confirmation of its compliance with paragraphs (a)

and (b) above and enter into such other agreements as may reasonably be required to satisfy the EU Retention Requirements as of (i) the Issue Date, and (ii) solely as regards the provision of information in the possession of the Retention Holder and to the extent the same is not subject to a duty of confidentiality, at any time prior to maturity of the Notes at the expense of the entity requesting such additional information;

- (d) it will confirm its continued compliance with the covenants set out at paragraphs (a) and (b) above (i) on a monthly basis to the Issuer, the Trustee, the Collateral Administrator and the Placement Agent in writing (which may be by way of email) and (ii) upon reasonable request in writing by the Issuer, the Trustee, the Collateral Administrator or the Placement Agent;
- (e) it will promptly notify the Issuer, the Trustee, the Collateral Administrator and the Placement Agent if for any reason it: (i) ceases to hold the Retention Notes in accordance with paragraph (a) above; (ii) fails to comply with the covenants set out in paragraph(s) (b), (c) and/or (f) in any way; or (iii) any of the representations, warranties, acknowledgements or confirmations contained in the Risk Retention Letter fail to be true on any date;
- (f) for so long as it is required to retain the Retention Notes, it is and will continue to retain the Retention Notes in its capacity as an eligible "originator" for the purposes of the EU Retention Requirements;
- (g)
 - (i) in relation to every Collateral Debt Obligation that it sells or transfers to the Issuer:
 - (A) it, either itself or through related entities, directly or indirectly, was involved or will be involved in the original agreement which created or will create such obligation; or
 - (B) it purchased or will purchase such Collateral Debt Obligation on its own account prior to selling such obligation to the Issuer;
 - (ii) it has established and is managing the securitisation scheme consisting of the issuance by the Issuer of the Notes described in this Offering Circular and appointed the Placement Agent to provide certain specific services in order to assist with such establishment;
 - (iii) on a continuous basis while any Notes remain Outstanding that (as of the time of such deemed representations):
 - (A) it is not an entity that has been established or that operates for the sole purpose of securitising exposures as further defined and set out in the EU Retention Requirements;
 - (B) it has a business strategy and the capacity to meet payment obligations consistent with a broader business enterprise and involving material support from capital, assets, fees or other income available to it, relying neither on the exposures it securitises, nor on any interests retained in accordance with the Securitisation Regulation, as well as any corresponding income from such exposures and interests; and
 - (C) its responsible decision makers have the required experience to enable it to pursue its established business strategy, as well as an adequate corporate governance arrangement; and
 - (iv) the Originator Requirement is satisfied on the Issue Date.

Prospective investors should consider the discussion in "*Risk Factors—Regulatory Initiatives—Risk Retention and Due Diligence Requirements—Securitisation Regulation*" above.

Originator Requirement

By way of background, the Securitisation Regulations define an "originator" refers to an entity which:

- (a) itself or through related entities, directly or indirectly, was involved in the original agreement which created the obligations or potential obligations of the debtor or potential debtor giving rise to the exposures being securitised; or
- (b) purchases third party exposures on its own account and then securitises them.

Article 3(1)(4) of the regulatory technical standards adopted by the EU Commission on 12 March 2014 ("the **CRR RTS**") provides that, where the securitised exposures are created by multiple originators (as is the case in a managed CLO, where assets are acquired from numerous sellers in the market), the retention requirements under Articles 404-410 (inclusive) of Regulation (EU) No. 575/2013 of the European Parliament and of the Council may be fulfilled in full by a single originator in circumstances where the relevant originator has established and is managing the scheme. Article 43(7) of the Securitisation Regulation confirms that the CRR RTS shall apply to securitisations until the regulatory technical standards to be adopted by the European Commission pursuant to Article 6(7) of the Securitisation Regulation.

"**Originator Requirement**" means the requirement which will be satisfied if, on the Issue Date:

- (a) the Aggregate Principal Balance of all Collateral Debt Obligations that have been acquired by the Issuer where the Collateral Manager has agreed to purchase such Collateral Debt Obligations from the Issuer in accordance with the Conditional Sale Agreement; divided by
- (b) the Target Par Amount,

is greater than or equal to 5 per cent.

Origination of Collateral Debt Obligations

General

The Collateral Manager may acquire assets on behalf of the Issuer which are intended to form part of the Collateral Debt Obligations ("**Originator Assets**"), such Originator Assets being acquired in the primary market or in the secondary market from third parties ("**Market Sellers**").

In relation to any asset acquired by it, the Collateral Manager may from time to time:

- (a) hold such asset to maturity;
- (b) sell such asset to the market; or
- (c) sell the asset to a CLO in respect of which it is the collateral manager, including the Issuer, subject to the satisfaction of certain conditions described below.

The Collateral Manager, having due regard to assets and liabilities held on its own balance sheet from time to time, shall have absolute discretion to acquire, hold and/or sell assets at any time and, if appropriate, shall also have absolute discretion to nominate the CLO to which any asset is proposed to be sold to.

Application of Losses/Risk

Any credit risk arising in connection with the Collateral Manager's purchase of any Originator Asset or losses in connection with its indirect financing of any Collateral Debt Obligation by way of its holding of the Retention Notes, shall be borne by the Collateral Manager.

Sale of Collateral Debt Obligations to CLOs

The Collateral Manager and the Issuer have entered into a conditional sale agreement (the "**Conditional Sale Agreement**") whereby the Collateral Manager has agreed that should an Originator Asset default in relation to the payment of interest or principal or if the obligor of such Originator Asset is subject to bankruptcy or insolvency proceedings at any time over the course of the 15 Business Days from the trade date of such Originator Asset in respect of the relevant sale by the applicable Market Seller to the Issuer (the "**Seasoning Period**"), the Collateral Manager shall purchase or settle such Originator Asset onto its balance sheet at a price equal to the price agreed by the Issuer to purchase such Originator Asset from the applicable Market Seller.

In the event that any Originator Asset does not satisfy certain conditions precedent during the Seasoning Period, including if such obligation becomes defaulted or the obligor is subject to bankruptcy or insolvency proceedings, the Issuer will not be obliged to complete the purchase of the Originator Asset and such Originator Asset will be purchased by the Collateral Manager in accordance with the terms of the Conditional Sale Agreement at a price equal to the price agreed by the Issuer to purchase such Originator Asset from the applicable Market Seller. As a result, the Collateral Manager will be exposed to default and credit risk on such Originator Assets for the applicable Seasoning Period.

Originator Selection of Assets

The Retention Holder shall apply to exposures to be securitised the same sound and well-defined criteria for credit-granting which it applies to non-securitised exposures and has clearly established processes for approving, amending, renewing and financing those credits and effective systems in place to apply those criteria and processes to ensure that credit-granting is based on a thorough assessment of the obligors' creditworthiness.

EU Disclosure Requirements

In accordance with Article 7(2) of the Securitisation Regulation, each of the originator, sponsor and the Issuer (as applicable) are required to designate amongst themselves one entity to be the designated entity (the "**reporting entity**") to make available to the Noteholders, potential investors in the Notes and competent authorities (together, the "**Relevant Recipients**"), the documents, reports and information necessary to fulfil the relevant reporting obligations under Article 7(1) of the Securitisation Regulation. The Issuer shall, pursuant to the Collateral Management Agreement, agree to be the reporting entity for this transaction.

U.S. Bank National Association, acting on behalf of the Issuer, has made drafts of the applicable documentation referred to in Articles 7(1)(b) and 7(1)(c) of the Securitisation Regulation (the "**Pre-Pricing Draft Documents**") available to the Relevant Recipients before pricing of the Notes via the Reporting Website or by such other method of dissemination as is required by the Securitisation Regulation (as instructed by the Issuer or the Collateral Manager on its behalf). Investors should note that the Pre-Pricing Draft Documents are subject to change and that on or after the Issue Date, each Pre-Pricing Draft Document will be replaced by the final or signed (as applicable) version of such document.

Pursuant to the Collateral Management Agreement the Collateral Manager (at the expense of the Issuer) is required (subject to any confidentiality undertakings given by the Collateral Manager or to which the Collateral Manager is subject) to provide to the Issuer (or any third party reporting services provider appointed by the Issuer) and the Collateral Administrator all reports, data and other information reasonably necessary and in its possession and/or control in connection with the proper performance by the Issuer as the reporting entity of such reporting obligations. The Collateral Administrator shall assist the Issuer with providing such reporting, including in respect

of the Investor Reports, the Portfolio Reports (each as defined in the Conditions) and any reports in respect of Inside Information and Significant Events (each as defined herein).

For the avoidance of doubt, neither the Collateral Administrator nor any other person will assume any responsibility for the Issuer's obligations as the entity responsible to fulfil reporting obligations under the EU Disclosure Requirements. In providing such information and reporting, neither the Collateral Administrator nor any other person assumes any responsibility or liability to any third party, including the Noteholders and potential Noteholders (including for their use and/or onward disclosure of such information and reporting), and shall have the benefit of the powers, protections and indemnities granted to it under the Transaction Documents.

THE PORTFOLIO

Terms used and not otherwise defined herein or in this Offering Circular as specifically referenced herein shall have the meaning given to them in Condition 1 (Definitions) of the Terms and Conditions of the Notes.

The following description of the Portfolio consists of a summary of certain provisions of the Collateral Management Agreement which does not purport to be complete and is qualified by reference to the detailed provisions of such agreement.

Introduction

Pursuant to the Collateral Management Agreement, the Collateral Manager will be required to act in specific circumstances in relation to the Portfolio on behalf of the Issuer and to carry out the duties and functions described below. In addition, the Collateral Administrator is required to perform certain calculations in relation to the Portfolio on behalf of the Issuer, in each case to the extent and in accordance with the information provided to it by the Collateral Manager.

Acquisition of Collateral Debt Obligations

The Collateral Manager will determine and will use commercially reasonable endeavours to cause to be acquired by the Issuer a portfolio of Senior Secured Loans, Unsecured Senior Loans, Second Lien Loans (each such loan, "**Senior Loan**"), Senior Secured Bonds, Mezzanine Obligations and High Yield Bonds during the Initial Investment Period, the Reinvestment Period and thereafter, in each case, subject to the Eligibility Criteria, all in accordance with the Collateral Management Agreement. The Issuer anticipates that, by the Issue Date, it or the Collateral Manager on its behalf will have purchased or committed to purchase Collateral Debt Obligations, the Aggregate Principal Balance of which is equal to at least €225,000,000 which is approximately 90 per cent. of the Target Par Amount. The proceeds of issue of the Notes remaining after payment of: (a) the acquisition costs for the Collateral Debt Obligations acquired by the Issuer pursuant to the Warehouse Arrangements; and (b) certain fees, costs and expenses incurred in connection with the issue of the Notes and anticipated to be payable by the Issuer following completion of the issue of the Notes will be deposited in the First Period Reserve Account, the Expense Reserve Account and the Unused Proceeds Account on the Issue Date. The Collateral Manager acting on behalf of the Issuer, shall use commercially reasonable endeavours to purchase Collateral Debt Obligations with an Aggregate Principal Balance (provided that, for the purposes of determining the Aggregate Principal Balance, the Principal Balance of a Collateral Debt Obligation which is a Defaulted Obligation will be the lower of its Fitch Collateral Value and its S&P Collateral Value) equal to at least the Target Par Amount out of the Balance standing to the credit of the Unused Proceeds Account during the Initial Investment Period.

The Issuer does not expect and is not required to satisfy the Collateral Quality Tests, Portfolio Profile Tests, the Coverage Tests, the Principal Transfer Test or the Reinvestment Overcollateralisation Test prior to the Effective Date. The Collateral Manager may declare that the Initial Investment Period has ended and the Effective Date has occurred prior to 15 June 2021, subject to the Effective Date Determination Requirements being satisfied.

On or after the Effective Date but no later than the second Payment Date after the Effective Date, the Balance standing to the credit of the Unused Proceeds Account and/or the Principal Account may be transferred to the Interest Account, in each case, at the discretion of the Collateral Manager (acting on behalf of the Issuer), provided that: (i) immediately after giving effect to such transfer, the Issuer shall have acquired or entered into binding commitments to acquire Collateral Debt Obligations, the Aggregate Collateral Balance of which equals or exceeds the Reinvestment Target Par Balance (provided that, for the purposes of determining the Aggregate Collateral Balance, the Principal Balance of a Collateral Debt Obligation which is a Defaulted Obligation will be the lower of its Fitch Collateral Value and its S&P Collateral Value); and (ii) no more than 1.0 per cent. of the Reinvestment Target Par Balance may be transferred to the Interest Account on a cumulative basis, in aggregate and without duplication, from the Unused Proceeds Account and/or the Principal Account.

Within 20 Business Days following the Effective Date, the Collateral Administrator, on behalf, and at the expense, of the Issuer and in consultation with the Collateral Manager, shall issue a report (the "**Effective Date Report**") containing the information required in a Monthly Report, confirming whether the Issuer has acquired or entered into a binding commitment to acquire Collateral Debt Obligations having an Aggregate Collateral Balance which equals or exceeds the Reinvestment Target Par Balance, copies of which shall be forwarded to the Issuer, the Trustee, the Collateral Manager, each Hedge Counterparty and the Rating Agencies and made available by the Collateral Administrator (a) via the Reporting Website to any person that certifies to the Collateral Administrator that it is (i) the Issuer, the Trustee, the Collateral Manager, the Placement Agent, a Hedge Counterparty, a Rating Agency, a Noteholder, Intex or Bloomberg or (ii) a potential investor in the Notes or any competent authority (as determined under the Securitisation Regulation) or (b) by such other method of dissemination as is required by the Securitisation Regulation (as instructed by the Issuer or the Collateral Manager on its behalf) (provided that, for the purposes of determining the Aggregate Collateral Balance as provided above, the Principal Balance of a Collateral Debt Obligation which is a Defaulted Obligation will be the lower of its Fitch Collateral Value and its S&P Collateral Value).

Within 30 Business Days following the Effective Date the Issuer will provide, or cause the Collateral Manager to provide, to the Trustee confirmation of receipt of an accountants' certificate recalculating and comparing the Aggregate Principal Balance of all Collateral Debt Obligations purchased or committed to be purchased as at the Effective Date and the computations and results of the Portfolio Profile Tests, the Collateral Quality Tests and the Coverage Tests (as applicable and other than the Interest Coverage Tests) by reference to such Collateral Debt Obligations.

The Collateral Manager (acting on behalf of the Issuer) shall promptly, following receipt of the Effective Date Report request that each of the Rating Agencies (to the extent not previously received) confirm its Initial Ratings of the Rated Notes, provided that if the Effective Date S&P Condition is satisfied then such Rating Agency Confirmation shall be deemed to have been received from S&P. If the Effective Date S&P Condition is not satisfied within 30 Business Days following the Effective Date, the Collateral Manager shall promptly notify S&P. If (a)(i) the Effective Date Determination Requirements are not satisfied and Rating Agency Confirmation has not been received in respect of such failure; and (ii) the Collateral Manager (acting on behalf of the Issuer) does not present a Rating Confirmation Plan to the Rating Agencies, or the Collateral Manager (acting on behalf of the Issuer) presents a Rating Confirmation Plan to the Rating Agencies and Rating Agency Confirmation from the Rating Agencies is not received in respect of such Rating Confirmation Plan upon request therefor by the Collateral Manager; or (b) the Effective Date S&P Condition is not satisfied and following a request therefor from the Collateral Manager following the Effective Date, Rating Agency Confirmation from S&P is not received, an Effective Date Rating Event shall have occurred, provided that any downgrade or withdrawal of the Initial Ratings of the Rated Notes which is not directly related to a request for confirmation thereof or which occurs after confirmation thereof by the Rating Agencies shall not constitute an Effective Date Rating Event.

In addition, if the Effective Date S&P Condition has not yet occurred on the Effective Date and (w) the Issuer provides S&P with the excel default model input file (as used by S&P), (x) the Issuer causes the Collateral Manager to provide to S&P the Effective Date Report and the Effective Date Report confirms satisfaction of the S&P CDO Monitor Test as of the Effective Date, (y) the Collateral Manager certifies to S&P (which confirmation may be in the form of an email) that the S&P CDO Monitor Test has been run as of the last day prior to the Effective Date (taking into account the S&P CDO Monitor Non-Model Adjustments described below) and that the result is passing and (z) the Collateral Manager provides to S&P an electronic copy of the Portfolio used to generate the passing test result, then a written confirmation from S&P of its Initial Ratings of the Rated Notes shall be deemed to have been provided; *provided that*, for purposes of determining compliance with the S&P CDO Monitor Test in connection with such Effective Date Report (A) the Aggregate Funded Spread shall be calculated without giving effect to the paragraph immediately beneath the proviso of the definition of "Aggregate Funded Spread" detailing the consequences of a EURIBOR floor and assuming that any Collateral Debt Obligation subject to a EURIBOR floor bears interest at a rate equal to the stated interest rate spread for such Collateral Debt Obligation and (B) for the purposes of the S&P CDO Adjusted BDR, without including in the Aggregate Principal

Balance any Principal Proceeds designated to be included as Interest Proceeds after the Effective Date (the foregoing subclauses (A) and (B), together, the "**S&P CDO Monitor Non-Model Adjustments**").

The Collateral Manager (acting on behalf of the Issuer) shall promptly, following receipt of the Effective Date Report request that each of the Rating Agencies (to the extent not previously received) confirm its Initial Ratings of the Rated Notes, *provided that* if the Effective Date Non-Model CDO Monitor Test is satisfied such rating confirmation shall be deemed to have been received from S&P.

If (a)(i) the Effective Date Determination Requirements are not satisfied as at the Effective Date and Rating Agency Confirmation of the Initial Ratings of the Rated Notes has not been received; and (ii) either (A) the Collateral Manager (acting on behalf of the Issuer) does not present a Rating Confirmation Plan to the Rating Agencies; or (B) Rating Agency Confirmation has not been obtained for the Rating Confirmation Plan that the Collateral Manager provides or (b) the Effective Date S&P Condition is not satisfied and, following a request therefor from the Collateral Manager after the Effective Date, Rating Agency Confirmation from S&P has not been obtained, an Effective Date Rating Event shall have occurred, *provided that* any downgrade or withdrawal of the Initial Ratings of the Rated Notes which is not directly related to a request for confirmation thereof or which occurs after confirmation thereof by the Rating Agencies shall not constitute an Effective Date Rating Event, notwithstanding paragraphs (a) and/or (b) above applying.

If an Effective Date Rating Event has occurred and is continuing on the Business Day prior to the Payment Date next following the Effective Date, either (a) the Issuer, at the direction of the Collateral Manager, shall purchase additional Collateral Debt Obligations or transfer amounts into the Principal Account pending reinvestment in Collateral Debt Obligations at a later date, in each case subject to and in accordance with the Priorities of Payments, until an Effective Date Rating Event is no longer continuing, or (b) the Rated Notes shall be redeemed, pursuant to Condition 7(e) (*Redemption upon Effective Date Rating Event*) on such Payment Date and thereafter on each Payment Date (to the extent required) out of Interest Proceeds and thereafter out of Principal Proceeds subject to the Priorities of Payment, until the earlier of (x) the date on which the Effective Date Rating Event is no longer continuing and (y) the date on which the Rated Notes have been redeemed in full. The Collateral Manager shall notify the Rating Agencies upon the discontinuance of an Effective Date Rating Event.

- (e) the date on which the Issuer (or the Collateral Manager acting on behalf of the Issuer) enters into a binding commitment to purchase such Substitute Collateral Debt Obligation occurs during the Reinvestment Period;
- (f) with respect to the reinvestment of Sale Proceeds, Scheduled Principal Proceeds and/or Unscheduled Principal Proceeds (other than Sale Proceeds, Scheduled Principal Proceeds and/or Unscheduled Principal Proceeds from Credit Impaired Obligations, Defaulted Obligations and Exchanged Securities) either:
 - (i) the Aggregate Principal Balance of all Collateral Debt Obligations (calculated for this purpose on the basis that the Principal Balance of each Defaulted Obligation is its Market Value multiplied by its Principal Balance) shall be maintained or improved after giving effect to such reinvestment when compared with the Aggregate Principal Balance (calculated for this purpose on the basis that the Principal Balance of each Defaulted Obligation is its Market Value multiplied by its Principal Balance) immediately prior to the sale that generates such Sale Proceeds or receipt of such Scheduled Principal Proceeds and/or Unscheduled Principal Proceeds; or
 - (ii) after giving effect to such sale or after receipt of such proceeds (as applicable), the sum of: (A) the Aggregate Principal Balance of all Collateral Debt Obligations (excluding all of the Collateral Debt Obligations being sold but including, without duplication, the Substitute Collateral Debt Obligations being purchased and the anticipated cash proceeds, if any, of such sale that are not applied to the purchase of such Substitute Collateral Debt Obligations and, for which purpose, the Principal Balance of each Defaulted Obligation shall be its Market Value); and (B) amounts standing to the credit of the Principal Account and Unused Proceeds Account (including any Eligible Investments (save for interest accrued on Eligible Investments)) is greater than or equal to the Reinvestment Target Par Balance; or
 - (iii) the Adjusted Collateral Principal Amount of all Collateral Debt Obligations shall be maintained or improved after giving effect to such reinvestment when compared with the Adjusted Collateral Principal Amount immediately prior to the sale that generates such Sale Proceeds or receipt of such Scheduled Principal Proceeds and/or Unscheduled Principal Proceeds; and
- (g) in the case of a Substitute Collateral Debt Obligation that is an Unhedged Collateral Debt Obligation, the sum of: (A) the Aggregate Principal Balance of all Collateral Debt Obligations (excluding all of the Collateral Debt Obligations being sold but including, without duplication, the Collateral Debt

Obligations being purchased and the anticipated cash proceeds, if any, of such sale that are not applied to the purchase of such Substitute Collateral Debt Obligations and provided, for such purpose the Principal Balance of each Defaulted Obligation shall be multiplied by its Market Value); and (B) amounts standing to the credit of the Principal Account and Unused Proceeds Account (to the extent such amounts have not and will not be designated as Interest Proceeds to be credited to the Interest Account and including Eligible Investments therein but save for any interest accrued on Eligible Investments) is equal to or greater than the Reinvestment Target Par Balance,

provided that in the case of Substitute Collateral Debt Obligations purchased with the Sale Proceeds of a Credit Impaired Obligation or a Defaulted Obligation, the S&P CDO Monitor Test will not apply.

Following the Expiry of the Reinvestment Period

Following the expiry of the Reinvestment Period, Unscheduled Principal Proceeds and Sale Proceeds from the sale of Credit Impaired Obligations and Credit Improved Obligations, only, may be reinvested by the Collateral Manager (acting on behalf of the Issuer) in one or more Substitute Collateral Debt Obligations satisfying the Eligibility Criteria, in each case provided that:

- (a) the Aggregate Principal Balance of Substitute Collateral Debt Obligations equals or exceeds: (i) the Aggregate Principal Balance of the related Collateral Debt Obligations that produced such Unscheduled Principal Proceeds or Sale Proceeds; or (ii) the amount of Sale Proceeds of such Credit Impaired Obligation, as the case may be;
- (b) each Coverage Test is satisfied immediately after giving effect to such reinvestment;
- (c) either (i) the Portfolio Profile Tests and the Collateral Quality Tests (except paragraphs (l) and (m) of the Portfolio Profile Tests, the S&P CDO Monitor Test, the Fitch Maximum Weighted Average Rating Factor Test and the Weighted Average Life Test) are satisfied after giving effect to such reinvestment, or (ii) if any such test was not satisfied immediately prior to such reinvestment, such test will be maintained or improved after giving effect to such reinvestment when compared to such test immediately prior to sale or prepayment (in whole or in part) of the relevant Collateral Debt Obligation;
- (d) either: (i) such Substitute Collateral Debt Obligation(s) have the same or a higher S&P Rating as the Collateral Debt Obligation that produced such Unscheduled Principal Proceeds or Sale Proceeds, as the case may be; or (ii) for so long as any Rated Notes by S&P are outstanding, the S&P CDO SDR is no greater following such reinvestment;
- (e) to the Collateral Manager's knowledge, no Event of Default has occurred that is continuing at the time of such reinvestment;
- (f) either (i) the Collateral Debt Obligation Stated Maturity of each Substitute Collateral Debt Obligation is the same as or earlier than the Collateral Debt Obligation Stated Maturity of the Collateral Debt Obligation that produced such Unscheduled Principal Proceeds or Sale Proceeds, as the case may be, provided that where such Substitute Collateral Debt Obligation is purchased pursuant to a Trading Plan, this paragraph (i) shall be satisfied if the Collateral Debt Obligation Stated Maturity of the Substitute Collateral Debt Obligations purchased pursuant to such Trading Plan (calculated on a weighted average basis with respect to each such Substitute Collateral Debt Obligation's Principal Balance) is the same or earlier than the Collateral Debt Obligation Stated Maturity of the Collateral Debt Obligations (calculated on a weighted average basis with respect to each such Collateral Debt Obligation's Principal Balance) that produced such Unscheduled Principal Proceeds or Sale Proceeds, as the case may be, or (ii) for so long as any Rated Notes by S&P are outstanding, the S&P CDO SDR is no greater following such reinvestment;
- (g) a Restricted Trading Period is not currently in effect;

- (h) after giving effect to the reinvestment, not more than 7.5 per cent. of the Aggregate Collateral Balance consists of obligations which are Fitch CCC Obligations;
- (i) after giving effect to the reinvestment, not more than 7.5 per cent. of the Aggregate Collateral Balance consists of obligations which are S&P CCC Obligations;
- (j) the Weighted Average Life Test will either (i) if the Weighted Average Life Test was not satisfied as of the last Business Day of the Reinvestment Period, be satisfied after giving effect to such reinvestment or (ii) if the Weighted Average Life Test was satisfied as of the last Business Day of the Reinvestment Period, be satisfied after giving effect to such reinvestment or if not satisfied, maintained or improved immediately after giving effect to such reinvestment, in each case when compared to the relevant level that applied to such test immediately prior to such sale, prepayment or repayment;
- (k) the Fitch Maximum Weighted Average Rating Factor Test is satisfied after giving effect to such reinvestment; and
- (l) in the case of a Substitute Collateral Debt Obligation that is an Unhedged Collateral Debt Obligation, the sum of: (A) the Aggregate Principal Balance of all Collateral Debt Obligations (excluding all of the Collateral Debt Obligations being sold but including, without duplication, the Collateral Debt Obligations being purchased and the anticipated cash proceeds, if any, of such sale that are not applied to the purchase of such Substitute Collateral Debt Obligations and provided, for such purpose the Principal Balance of each Defaulted Obligation shall be multiplied by its Market Value); and (B) amounts standing to the credit of the Principal Account and Unused Proceeds Account (to the extent such amounts have not and will not be designated as Interest Proceeds to be credited to the Interest Account and including Eligible Investments therein but save for any interest accrued on Eligible Investments) is equal to or greater than the Reinvestment Target Par Balance.

Following the expiry of the Reinvestment Period, the S&P CDO Monitor Test shall cease to apply. In addition, following the expiry of the Reinvestment Period, any Unscheduled Principal Proceeds and any Sale Proceeds from the sale of Credit Impaired Obligations and Credit Improved Obligations that have not been reinvested as provided above prior to the end of the Due Period in which such proceeds were received shall be paid into the Principal Account and disbursed in accordance with the Principal Proceeds Priority of Payment on the following Payment Date (subject as provided at the end of this paragraph), save that the Collateral Manager (acting on behalf of the Issuer) may in its discretion procure that Unscheduled Principal Proceeds and Sale Proceeds from the sale of any Credit Impaired Obligations and Credit Improved Obligations are paid into the Principal Account and designated for reinvestment in Substitute Collateral Debt Obligations, in which case such Principal Proceeds shall not be so disbursed in accordance with the Principal Proceeds Priority of Payments for so long as they remain so designated for reinvestment but no longer than the later of (A) 45 calendar days following their receipt by the Issuer and (B) the end of the relevant Due Period; *provided that*, in each case where any of the applicable Reinvestment Criteria are not satisfied as of the Payment Date next following receipt of such Sale Proceeds or Unscheduled Principal Proceeds, all such funds shall be paid into the Principal Account and disbursed in accordance with the Principal Proceeds Priority of Payments set out in Condition 3(c)(ii) (*Application of Principal Proceeds*) and such funds shall be applied only in redemption of the Notes in accordance with the Priorities of Payment.

Amendments to Collateral Debt Obligation Stated Maturities of Collateral Debt Obligations

The Issuer (or the Collateral Manager on the Issuer's behalf) may vote in favour of a Maturity Amendment only if, after giving effect to such Maturity Amendment:

- (a) the Collateral Debt Obligation Stated Maturity of the Collateral Debt Obligation that is the subject of such Maturity Amendment is not later than the Maturity Date of the Rated Notes; and
- (b) the Weighted Average Life Test is satisfied or, if not satisfied, maintained or improved after giving effect to such Maturity Amendment.

If the Issuer or the Collateral Manager (on behalf of the Issuer) has not voted in favour of a Maturity Amendment which would contravene the requirements of this paragraph but by way of scheme of arrangement or otherwise, the Collateral Debt Obligation Stated Maturity has been extended, the Issuer or the Collateral Manager acting on its behalf may but shall not be required to sell such Collateral Debt Obligation provided that in any event the Collateral Manager shall dispose of such Collateral Debt Obligation prior to the Maturity Date. Such proceeds shall constitute Sale Proceeds and may be reinvested in accordance with and subject to the Reinvestment Criteria.

"Maturity Amendment" means with respect to any Collateral Debt Obligation, any waiver, refinancing, modification, amendment or variance that would extend the Collateral Debt Obligation Stated Maturity of such Collateral Debt Obligation. For the avoidance of doubt, a waiver, refinancing, modification, amendment or variance that would extend the Collateral Debt Obligation Stated Maturity of the credit facility of which a Collateral Debt Obligation is part, but would not extend the Collateral Debt Obligation Stated Maturity of the Collateral Debt Obligation held by the Issuer, does not constitute a Maturity Amendment.

Expiry of the Reinvestment Criteria Certification

Immediately preceding the end of the Reinvestment Period, the Collateral Manager will deliver to the Trustee and the Collateral Administrator a schedule of Collateral Debt Obligations purchased by the Issuer with respect to which purchases the trade date has occurred but the settlement date has not yet occurred and will certify to the Trustee that sufficient Principal Proceeds are available (including for this purpose, cash on deposit in the Principal Account, any scheduled distributions of Principal Proceeds, as well as any Principal Proceeds that will be received by the Issuer from the sale of Collateral Debt Obligations for which the trade date has already occurred but the settlement date has not yet occurred) to effect the settlement of such Collateral Debt Obligations.

Reinvestment of Collateral Debt Obligations during, and following the expiry of the Reinvestment Period

Notwithstanding anything else in these reinvestment conditions to the contrary, it is a condition to any purchase of a Substitute Collateral Debt Obligation, that if the balance in the Principal Account after giving effect to (i) all expected debits and credits in connection with such purchase and all other sales and purchases (as applicable) previously or simultaneously committed to, and (ii) without duplication of amounts in the preceding paragraph (i), anticipated receipts of Principal Proceeds, is a negative amount, the absolute value of such amount may not be greater than 3.0 per cent. of the Aggregate Collateral Balance as of the Measurement Date immediately preceding the trade date for such purchase.

Reinvestment Overcollateralisation Test

On any Measurement Date on and after the Effective Date, during the Reinvestment Period only, if, the Class F Par Value Ratio is less than 104.63 per cent., on the relevant Determination Date, Interest Proceeds shall be paid to the Principal Account for the acquisition of additional Collateral Debt Obligations in an amount (such amount, the **"Required Diversion Amount"**) equal to the lesser of (1) 50 per cent. of all remaining Interest Proceeds available for payment in accordance with paragraph 3(c)(i)(W) of the Interest Proceeds Priority of Payments and (2) the amount which, after giving effect to the payment of all amounts payable in respect of paragraphs (A) through (U) (inclusive) of the Interest Proceeds Priority of Payments, would be sufficient to cause the Reinvestment Overcollateralisation Test to be met.

Designation for Reinvestment

After the expiry of the Reinvestment Period, the Collateral Manager shall, one Business Day following each Determination Date, notify the Issuer and the Collateral Administrator in writing of all Principal Proceeds which the Collateral Manager determines in its discretion (acting on behalf of the Issuer, and subject to the terms of Collateral Management Agreement as described above) shall remain designated for reinvestment in accordance with the Reinvestment Criteria, on or after the following Payment Date in which event such Principal Proceeds shall not constitute Principal Proceeds which are to be paid into the Payment Account and disbursed on such Payment Date in accordance with the Priorities of Payment.

The Collateral Manager (acting on behalf of the Issuer) may direct that the proceeds of sale of any Collateral Debt Obligation which represents accrued interest be designated as Interest Proceeds and paid into the Interest Account save for: (i) Purchased Accrued Interest; (ii) Ramp Accrued Interest; (iii) any interest received in respect of a Defaulted Obligation for so long as it is a Defaulted Obligation other than Defaulted Obligation Excess Amounts; and (iv) proceeds representing deferred interest accrued in respect of any PIK Security.

Accrued Interest

Amounts included in the purchase price of any Collateral Debt Obligation comprising accrued interest thereon may be paid from the Interest Account, the Principal Account or the Unused Proceeds Account at the discretion of the Collateral Manager (acting on behalf of the Issuer) but subject to the terms of the Collateral Management Agreement and Condition 3(j) (*Payments to and from the Accounts*). Notwithstanding the foregoing, in any Due Period, all payments of interest and proceeds of sale received during such Due Period in relation to any Collateral Debt Obligation, in each case, to the extent that such amounts represent accrued and/or capitalised interest in respect of such Collateral Debt Obligation (including, in respect of a Mezzanine Obligation, any accrued interest which, as at the time of purchase, had been capitalised and added to the principal amount of such Mezzanine Obligation in accordance with its terms), which was purchased at the time of acquisition thereof with Principal Proceeds (other than Ramp Accrued Interest) shall constitute Purchased Accrued Interest and shall be deposited into the Principal Account as Principal Proceeds. Ramp Accrued Interest shall be deposited into the Unused Proceeds Account.

Unsaleable Assets

Notwithstanding the other requirements set forth herein and in the Trust Deed, on any Business Day after the Reinvestment Period, the Collateral Manager, acting in a commercially reasonable manner, may conduct an auction on behalf of the Issuer of Unsaleable Assets (as defined below) in accordance with the procedures described in this paragraph provided that no such auction shall take place unless a redemption of the Notes in full in accordance with the Conditions is contemplated or scheduled to occur within three months of such auction. Promptly after receipt of written notice from the Collateral Manager of such auction, the Principal Paying Agent will provide notice (in such form as is prepared by the Collateral Manager (including the contact details of the Collateral Manager)) to the Noteholders (in accordance with the Conditions) of an auction, setting forth in reasonable detail a description of each Unsaleable Asset and the following auction procedures: (i) any Noteholder may submit a written bid within 10 Business Days after the date of such notice to purchase one or more Unsaleable Assets no later than the date specified in the auction notice (which will be at least 15 Business Days after the date of such notice); (ii) each bid must include an offer to purchase for a specified amount of cash on a proposed settlement date no later than 20 Business Days after the date of the auction notice and delivery instructions to the Principal Paying Agent to be passed on to the Collateral Administrator including the account to which the Unsaleable Asset is to be delivered if the bid is accepted; (iii) if no Noteholder submits such a bid within the time period specified under paragraph (i) above, unless the Collateral Manager determines that delivery in kind is not legally or commercially practicable and provides written notice thereof to the Principal Paying Agent, the Principal Paying Agent will provide notice thereof to each Noteholder (in accordance with Condition 16 (*Notices*)) and the Collateral Manager shall offer to deliver (at such Noteholder's expense) a *pro rata* portion (as determined by the Collateral Manager) of each unsold Unsaleable Asset to the Noteholders or beneficial owners of the most senior Class that provide delivery instructions to the Principal Paying Agent on or before the date specified in such notice, subject to minimum denominations; provided that, to the extent that minimum denominations do not permit a *pro rata* distribution, the Collateral Administrator upon the instruction of the Collateral Manager will distribute the Unsaleable Assets on a *pro rata* basis to the extent possible and the Collateral Manager will select by lottery the Noteholder or beneficial owner to whom the remaining amount will be delivered and deliver written notice thereof to the Collateral Administrator; provided, further, that the Collateral Administrator will use commercially reasonable efforts to effect delivery of such interests to the account specified in the delivery instructions; and (iv) if no such Noteholder or beneficial owner provides delivery instructions to the Principal Paying Agent to be passed on to the Collateral Administrator, the Collateral Administrator will promptly notify the Collateral Manager and offer to deliver (at the cost of the Collateral Manager) the Unsaleable Asset to the Collateral Manager. If the Collateral Manager declines such offer, the Collateral Administrator will take such

action as directed by the Collateral Manager (on behalf of the Issuer) in writing to dispose of the Unsaleable Asset, which may be by donation to a charity, abandonment or other means. For the avoidance of doubt, any sale or delivery or other transfer or disposal of an Unsaleable Asset in the circumstances contemplated in this paragraph shall not affect the Principal Amount Outstanding of any Notes.

"Unsaleable Assets" means (a)(i) a Defaulted Obligation or (ii) an obligation received in connection with an Offer, in a restructuring or plan of reorganisation with respect to the obligor, in each case, in respect of which the Issuer has not received a payment in cash during the preceding twelve months or (b) any Collateral Debt Obligation or Eligible Investment identified in an officer's certificate of the Collateral Manager as having a Market Value multiplied by its Principal Balance of less than Euro 1,000, in the case of each of (a) and (b) with respect to which the Collateral Manager confirms to the Trustee that (x) it has made commercially reasonable endeavours to dispose of such obligation for at least 90 calendar days and (y) in its commercially reasonable judgement such obligation is not expected to be saleable in the foreseeable future.

Block Trades

The requirements described herein with respect to the Portfolio shall be deemed to be satisfied upon any sale and/or purchase of Collateral Debt Obligations on any day in the event that such Collateral Debt Obligations satisfy such requirements in aggregate rather than on an individual basis.

For the purpose of calculating compliance with the Reinvestment Criteria, at the election of the Collateral Manager in its sole discretion, any proposed investment (whether a single Collateral Debt Obligation or a group of Collateral Debt Obligations or Eligible Investment(s) representing Principal Proceeds) identified by the Collateral Manager as such at the time (the **"Initial Trading Plan Calculation Date"**) when compliance with the Reinvestment Criteria is required to be calculated (in the case of (A) a New Issue Collateral Debt Obligation, a **"New Issue Trading Plan"** or (B) otherwise, a **"Standard Trading Plan"**, and in both cases a **"Trading Plan"**) may be evaluated after giving effect to all sales and reinvestments proposed to be entered into within the period from (and including) the date of determination of such compliance, to (and including) the earlier of (a) the date falling 20 Business Days following the date of determination of such compliance, and (b) the Business Day immediately preceding the Payment Date immediately following the date of determination of such compliance (such period, the **"Trading Plan Period"**); provided that (i) no Trading Plan may result in the purchase of Collateral Debt Obligations having an Aggregate Principal Balance that exceeds 5.0 per cent. of the Aggregate Collateral Balance (excluding Defaulted Obligations) as of the first day of the Trading Plan Period (ii) no Trading Plan Period may include a Payment Date, (iii) no more than one Trading Plan may be in effect at any time during a Trading Plan Period, (iv) if a New Issue Trading Plan is initially evaluated prior to the Issuer being allocated the New Issue Collateral Debt Obligation, and upon such allocation the amount to be purchased by the Issuer is lower than specified in the original New Issue Trading Plan, then the New Issue Trading Plan may be revised to account for such lower allocation, provided the revised New Issue Trading Plan would still be in compliance with the Reinvestment Criteria, (v) a Trading Plan may be revised after it has commenced to substitute one or more of the Collateral Debt Obligations subject to sales specified in the original Trading Plan that have not yet been committed to provided that such trading plan would still be in compliance with the Reinvestment Criteria, (vi) if the Reinvestment Criteria are satisfied prospectively after giving effect to a Trading Plan but are not satisfied upon the expiry of the relevant Trading Plan Period, the Reinvestment Criteria shall not at any time thereafter be evaluated by giving effect to a Trading Plan, unless Rating Agency Confirmation from Fitch and S&P is obtained with respect to the immediately subsequent Trading Plan and (vii) no Trading Plan may be entered into following the expiry of the Reinvestment Period if: (A) any of the Collateral Debt Obligations which form part of such Trading Plan have Collateral Debt Obligation Stated Maturities shorter than 6 months; and (B) the differential between the shortest and the longest maturities of the related Collateral Debt Obligations forming part of such Trading Plan exceeds three years. No further Rating Agency Confirmation from Fitch or S&P shall thereafter be required unless a Trading Plan subsequently fails, in which case Rating Agency Confirmation from Fitch and S&P will be required with respect to the immediately subsequent Trading Plan; provided further that no Trading Plan may result in the averaging of the purchase price of a Collateral Debt Obligation or Collateral Debt Obligations purchased at separate times for purposes of determining whether any particular Collateral Debt Obligation is a Discount Obligation. For the avoidance of doubt, when calculating compliance with the Reinvestment Criteria,

where a particular criterion in the Reinvestment Criteria only applies to one or some, but not all, of the Collateral Debt Obligations in a Trading Plan, (a) that criterion shall apply to the relevant Collateral Debt Obligation(s) only, (b) only those Collateral Debt Obligations shall be aggregated for the purpose of calculating compliance with that criterion, and (c) the other Collateral Debt Obligations in the Trading Plan shall not be taken into consideration for the purposes of calculating compliance with that criterion.

For the purposes of the foregoing the term "**New Issue Collateral Debt Obligation**") means, in respect to a Collateral Debt Obligation, the Issuer (or the Collateral Manager on its behalf) has (or will) enter into a binding commitment to purchase such Collateral Debt Obligation at the date of its issuance.

Eligible Investments

The Issuer or the Collateral Manager (acting on behalf of the Issuer) may from time to time purchase Eligible Investments out of the Balances standing to the credit of the Accounts (other than any Counterparty Downgrade Collateral Account, the Unfunded Revolver Reserve Account, the Collection Account and the Payment Account). For the avoidance of doubt, Eligible Investments may be sold by the Issuer or the Collateral Manager (acting on behalf of the Issuer) at any time.

Collateral Enhancement Obligations

The Collateral Manager (acting on behalf of the Issuer) may (a) from time to time purchase Collateral Enhancement Obligations independently or as part of a unit with the Collateral Debt Obligations being so purchased and (b) in its sole discretion reclassify as a Collateral Enhancement Obligation (i) any Non-Eligible Issue Date Collateral Debt Obligations (as reclassified by the Collateral Manager hereunder, "**Issue Date Ineligible Collateral Debt Obligations**") or (ii) any assets held by the Issuer that do not satisfy the Eligibility Criteria after the Issue Date (whether on the date they were required to do so or thereafter) or that do not satisfy the Restructured Obligation Criteria at the Restructuring Date (if applicable) (as reclassified by the Collateral Manager hereunder, "**Post-Issue Date Ineligible Collateral Debt Obligation**") and together with any Issue Date Ineligible Collateral Debt Obligations, "**Ineligible Collateral Debt Obligations**"), provided that any such assets may only be reclassified if an amount representing the Market Value thereof (or, in the sole discretion of the Collateral Manager, any greater amount) as at the relevant date of such reclassification (such date, the "**Reclassification Date**" and such amount the "**Reclassification Price**") is, on the Reclassification Date, either:

- (a) in respect of any Issue Date Ineligible Collateral Debt Obligations, deducted from the amount to be paid by the Issuer on the Issue Date to repay any subordinated funding amounts borrowed by the Issuer under the Warehouse Arrangements, the amount so deducted pursuant to a netting arrangement entered into on the Issue Date between the Issuer and the Collateral Manager, such amount representing a Collateral Manager Advance to be made on the Issue Date; or
- (b) in respect of any Post-Issue Date Ineligible Collateral Debt Obligations, credited to the Principal Account out of the Balance standing to the credit of the Collateral Enhancement Account at the relevant time which shall be deemed to be a purchase of a Collateral Enhancement Obligation in accordance with the terms thereunder.

All funds required in respect of the purchase price of any Collateral Enhancement Obligations, and all funds required in respect of the exercise price of any rights or options thereunder, may only be paid out of the balance standing to the credit of the Collateral Enhancement Account at the relevant time. Pursuant to Condition 3(j)(vi) (*Collateral Enhancement Account*), such Balance shall be comprised of all sums deposited therein from time to time which will comprise interest and/or principal payable in respect of the Subordinated Notes which the Collateral Manager acting on behalf of the Issuer, determines shall be paid into the Collateral Enhancement Account pursuant to the Priorities of Payment rather than being paid to the Subordinated Noteholders.

Collateral Enhancement Obligations may be sold at any time and all Collateral Enhancement Obligation Proceeds received by the Issuer shall be deposited into the Collateral Enhancement Account.

Collateral Enhancement Obligations and any income or return generated thereby are not taken into account for the purposes of determining satisfaction of, or the requirement to satisfy, any of the Coverage Tests, Portfolio Profile Tests, Collateral Quality Tests, the Principal Transfer Test or the Reinvestment Overcollateralisation Test.

For the avoidance of doubt, the acquisition of Collateral Enhancement Obligations will not require the satisfaction of the Eligibility Criteria.

Exercise of Warrants and Options

The Collateral Manager acting on behalf of the Issuer, may, at any time, exercise a warrant or option attached to a Collateral Debt Obligation or comprised in a Collateral Enhancement Obligation and shall on behalf of the Issuer instruct the Account Bank to make any necessary payment pursuant to a duly completed form of instruction.

Margin Stock

The Collateral Management Agreement requires that the Collateral Manager, on behalf of the Issuer, shall use reasonable endeavours to sell any Collateral Debt Obligation, Exchanged Security, Workout Obligation or Collateral Enhancement Obligation which is or at any time becomes Margin Stock as soon as practicable following such event.

"**Margin Stock**" means margin stock as defined under Regulation U issued by the Federal Reserve Board, including any debt security which is by its terms convertible into Margin Stock.

Non-Euro Obligations

The Collateral Manager shall be authorised to purchase, on behalf of the Issuer, Non-Euro Obligations from time to time provided that any such Non-Euro Obligation shall only constitute a Collateral Debt Obligation that satisfies paragraph (b) of the Eligibility Criteria if the Non-Euro Obligation is either (i) denominated in a Qualifying Currency other than Euro and no later than the settlement date of the acquisition thereof, or (ii) denominated in a Qualified Unhedged Currency, acquired in the Primary Market and no later than 180 calendar days following the settlement date of the acquisition thereof, is the subject of a Currency Hedge Transaction entered into by the Issuer (or the Collateral Manager on its behalf) pursuant to which the currency risk arising from receipt of cash flows from such Non-Euro Obligation, including interest and principal payments, is hedged through the swapping of such cash flows for Euro payments to be made by an Currency Hedge Counterparty. The Collateral Manager (on behalf of the Issuer) shall be authorised to enter into spot exchange transactions, as necessary, to fund the Issuer's payment obligations under any Currency Hedge Transaction. Rating Agency Confirmation shall be required in relation to entry into each Currency Hedge Transaction unless such Currency Hedge Transaction is a Form Approved Hedge. See "*Hedging Arrangements*".

In the event that a Non-Euro Obligation is subject to any readjustment, restructuring, refinancing or rescheduling (howsoever described) (a "**Debt Restructuring**"), then the Collateral Manager shall, in any negotiations in respect thereof, take into account the effect of such Debt Restructuring on the terms of any Currency Hedge Transaction in respect of the Non-Euro Obligation.

Revolving Obligations and Delayed Drawdown Collateral Debt Obligations

The Collateral Manager acting on behalf of the Issuer, may acquire Collateral Debt Obligations which are Revolving Obligations or Delayed Drawdown Collateral Debt Obligations from time to time.

Such Revolving Obligations and Delayed Drawdown Collateral Debt Obligations may only be acquired if they are capable of being drawn in a single currency only (being Euros) and are not payable in or convertible into another currency.

Each Revolving Obligation and Delayed Drawdown Collateral Debt Obligation will, pursuant to its terms, require the Issuer to make one or more future advances or other extensions of credit (including extensions of credit made

on an unfunded basis pursuant to which the Issuer may be required to reimburse the provider of a guarantee or other ancillary facilities made available to the obligor thereof in the event of any default by the obligor thereof in respect of its reimbursement obligations in connection therewith). Revolving Obligations may be repaid and reborrowed from time to time during their term by the Obligor thereunder. Upon acquisition of any Revolving Obligations and Delayed Drawdown Collateral Debt Obligations, the Issuer shall deposit into the Unfunded Revolver Reserve Account amounts equal to the combined aggregate principal amounts of the Unfunded Amounts under each of the Revolving Obligations and Delayed Drawdown Collateral Debt Obligations. To the extent required, the Issuer, or the Collateral Manager acting on its behalf, may direct that amounts standing to the credit of the Unfunded Revolver Reserve Account be deposited with a third party from time to time as collateral for any reimbursement or indemnification obligations owed by the Issuer to any other lender in connection with a Revolving Obligation or a Delayed Drawdown Collateral Debt Obligation, as applicable and upon receipt of an Issuer Order (as defined in the Collateral Management Agreement) the Trustee shall be deemed to have released such amounts from the security granted thereover pursuant to the Trust Deed.

Participations

The Collateral Manager acting on behalf of the Issuer, may from time to time, acquire Collateral Debt Obligations from Selling Institutions by way of Participation provided that at the time such Participation is taken:

- (a) the percentage of the Aggregate Collateral Balance that represents Participations (including sub-participations) entered into by the Issuer with a single Selling Institution will not exceed the individual and aggregate percentages set forth in the Bivariate Risk Table determined by reference to the credit rating of such third party (or any guarantor thereof); and
- (b) the percentage of the Aggregate Collateral Balance that represents Participations (including sub-participations) entered into by the Issuer with Selling Institutions (or any guarantor thereof, provided that any guarantee in respect of the obligations of Selling Institutions must satisfy the then current S&P guarantee criteria), each having the same credit rating (taking the lowest rating assigned thereto by any Rating Agency), will not exceed the aggregate third party credit exposure limit set forth in the Bivariate Risk Table for such credit rating,

and for the purpose of determining the foregoing, account shall be taken of each sub-participation from which the Issuer, directly or indirectly derives its interest in the relevant Collateral Debt Obligation.

Each Participation entered into pursuant to a sub-participation agreement shall be substantially in the form of:

- (a) the LSTA Model Participation Agreement for par/near par trades (as published by the Loan Syndications and Trading Association Inc. from time to time);
- (b) the LMA Funded Participation (Par) (as published by the Loan Market Association from time to time); or
- (c) such other documentation provided such agreement contains limited recourse and non-petition language substantially the same as the Trust Deed.

Assignments

The Collateral Manager acting on behalf of the Issuer, may from time to time, acquire Collateral Debt Obligations from Selling Institutions by way of Assignment provided that at the time such Assignment is acquired the Collateral Manager acting on behalf of the Issuer shall have complied, to the extent within their control, with any requirements relating to such Assignment set out in the relevant loan documentation for such Collateral Debt Obligation (including, without limitation, with respect to the form of such Assignment and obtaining the consent of any person specified in the relevant loan documentation).

"Assignment" means an interest in a loan acquired directly by way of novation or assignment.

Bivariate Risk Table

The following is the bivariate risk table (the "**Bivariate Risk Table**") and as referred to in "*Portfolio Profile Tests and Collateral Quality Tests*" below and "*Participations*" above. For the purposes of the limits specified in the Bivariate Risk Table, the individual third party credit exposure limit shall be determined by reference to the Aggregate Principal Balance of all Participations (excluding any Defaulted Obligations) entered into by the Issuer with the same counterparty (such amount in respect of such entity, the "**Third Party Exposure**") and the applicable percentage limits shall be determined by reference to the lower of the S&P or Fitch ratings applicable to such counterparty and the aggregate third party credit exposure limit shall be determined by reference to the aggregate of Third Party Exposure of all such counterparties which share the same rating level or have a lower rating level, as indicated in the Bivariate Risk Table.

Portfolio Profile Tests and Collateral Quality Tests

Measurement of Tests

The Portfolio Profile Tests and the Collateral Quality Tests will be used as criteria for purchasing Collateral Debt Obligations. The Collateral Administrator will measure the Portfolio Profile Tests and the Collateral Quality Tests on each Measurement Date (save as otherwise provided herein).

Collateral Debt Obligations in respect of which a binding commitment has been made to purchase such Collateral Debt Obligations but such purchase has not been settled shall nonetheless be deemed to have been purchased for the purposes of the Portfolio Profile Tests, the Collateral Quality Tests, the Coverage Tests, the Principal Purchase Test, the Reinvestment Overcollateralisation Test and all other tests and criteria applicable to the Portfolio. Collateral Debt Obligations in respect of which the Collateral Manager on behalf of the Issuer has entered into a binding commitment to sell but which have not yet settled, shall be deemed to have been sold for the purposes of the Portfolio Profile Tests, the Collateral Quality Tests, the Coverage Tests, the Principal Purchase Test, the Reinvestment Overcollateralisation Test and all other tests and criteria applicable to the Portfolio at any time as if such sale had been completed. See "*Management of the Portfolio—Reinvestment of Collateral Debt Obligations*" above.

"S&P Industry Diversity Measure" means the value calculated by determining the Aggregate Principal Balance of the S&P CLO Specified Assets within each S&P Industry Classification Group, then dividing each of these amounts by the Aggregate Principal Balance of the S&P CLO Specified Assets from all the industries, then squaring the result for each industry, and then taking the reciprocal of the sum of these squares.

"S&P Obligor Diversity Measure" means the value calculated by determining the Aggregate Principal Balance of the S&P CLO Specified Assets from each Obligor and its affiliates, then dividing each of these amounts by the Aggregate Principal Balance of all S&P CLO Specified Assets from all the Obligors in the Portfolio, then squaring the result for each Obligor, then taking the reciprocal of the sum of these squares.

"S&P Recovery Identifier" means, with respect to a Collateral Debt Obligation for which an S&P Recovery Rate is being determined, the identifier published by S&P, incorporating the S&P Recovery Rating and the S&P Recovery Range based upon the tables set forth in Annex C (*S&P Recovery Rates*) hereto.

"S&P Recovery Range" means, with respect to a Collateral Debt Obligation for which an S&P Recovery Rate is being determined, the upper or lower range assigned by S&P for a given S&P Recovery Rating based upon the tables set forth in Annex C (*S&P Recovery Rates*) hereto.

The **"S&P Recovery Rate"** means, in respect of each Collateral Debt Obligation and an assumed S&P Rating of "AAA", an S&P Recovery Rate determined in accordance with the Collateral Management Agreement or as advised by S&P. Extracts of the S&P Recovery Rates applicable under the Collateral Management Agreement are set out in Annex C (*S&P Recovery Rates*) hereto.

"S&P Regional Diversity Measure" means the value calculated by determining the Aggregate Principal Balance of the S&P CLO Specified Assets within each Standard & Poor's region categorization (set out in the "*CDO Evaluator Country Codes, Regions and Recovery Groups*" table in Annex C (*S&P Recovery Rates*) hereto), or such other published table by S&P that the Collateral Manager provides to the Collateral Administrator), then dividing each of these amounts by the Aggregate Principal Balance of the S&P CLO Specified Assets from all regions in the portfolio, then squaring the result for each region, then taking the reciprocal of the sum of these squares.

"S&P Weighted Average Life" means the value calculated by determining the number of years between the current date and the maturity date of each S&P CLO Specified Asset, then multiplying each S&P CLO Specified Asset's Principal Balance by such number of years, and then summing this amount of all S&P CLO Specified Assets, and dividing this amount by the Aggregate Principal Balance of all S&P CLO Specified Assets.

"S&P Weighted Average Rating Factor" means the value calculated by multiplying the Principal Balance for each S&P CLO Specified Asset by its S&P Global Ratings Factor, then summing the results of all S&P CLO Specified Assets, and then dividing this result by the Aggregate Principal Balance of the S&P CLO Specified Assets.

"S&P Weighted Average Recovery Rate" means, as of any Measurement Date the number (expressed as a percentage) obtained by summing the products obtained by multiplying the Principal Balance (excluding Purchased Accrued Interest and Ramp Accrued Interest) of each Collateral Debt Obligation, by its S&P Recovery Rate, dividing such sum by the Aggregate Principal Balance of all Collateral Debt Obligations, and rounding up

to the nearest 0.1 per cent.. For the purposes of this rate, the Principal Balance of any Defaulted Obligation shall be deemed to be zero.

Fitch Test Matrices

Subject to the provisions provided below, on or after the Effective Date, the Collateral Manager will have the option to elect which of the Fitch test matrices set out below (each such matrix to have a different concentration limit for both Fixed Rate Collateral Debt Obligations and the largest 10 Obligors by Principal Balance) (the "**Fitch Test Matrices**") and which of the cases set forth in such Fitch Test Matrices shall be applicable for purposes of the Fitch Maximum Weighted Average Rating Factor Test, the Fitch Minimum Weighted Average Recovery Rate Test and the Fitch Minimum Weighted Average Spread Test (as applicable). The Collateral Manager will have the option to use linear interpolation within and between the Fitch Test Matrices to the extent required. For any given case:

- (a) for the purposes of the restrictions described below, the maximum percentage of Fixed Rate Collateral Debt Obligations and the largest 10 Obligors by Principal Balance shall be that specified in the selected Fitch Test Matrix (or interpolation between Fitch Test Matrices, as applicable);
- (b) the applicable column for performing the Fitch Maximum Weighted Average Rating Factor Test will be the column (or linear interpolation between the two adjacent columns with the closest values, as applicable) in the Fitch Test Matrix selected by the Collateral Manager (or interpolation between Fitch Test Matrices, as applicable);
- (c) the applicable row for performing the Fitch Minimum Weighted Average Spread Test will be the row in the Fitch Test Matrix selected by the Collateral Manager (or linear interpolation between the two rows with the closest values, as applicable) (or interpolation between Fitch Test Matrices, as applicable); and
- (d) the applicable column and row for performing the Fitch Minimum Weighted Average Recovery Rate Test will be the column and row in the Fitch Test Matrix selected by the Collateral Manager in relation to (b) and (c) above (or a linear interpolation between the two rows with the closest values and/or a linear interpolation between the two adjacent columns, as applicable) (or interpolation between Fitch Test Matrices, as applicable).

On the Effective Date, the Collateral Manager will be required to elect which Fitch Test Matrix (or interpolation as applicable) and which case shall apply initially. Thereafter, on two Business Days' notice to the Issuer, the Collateral Administrator and Fitch, the Collateral Manager may elect to have a different case apply, provided that the percentage of the Aggregate Collateral Balance consisting of Fixed Rate Collateral Debt Obligations as of such Measurement Date is less than or equal to the maximum percentage of Fixed Rate Collateral Debt Obligations specified in such Fitch Test Matrix (or interpolation as applicable), the percentage of the Collateral Debt Obligations of the largest 10 Obligors by Principal Balance as of such Measurement Date is less than or equal to the Collateral Debt Obligations of the largest 10 Obligors by Principal Balance specified in such Fitch Test Matrix (or interpolation as applicable), the Fitch Maximum Weighted Average Rating Factor Test, the Fitch Minimum Weighted Average Recovery Rate Test and the Fitch Minimum Weighted Average Spread Test applicable to the case to which the Collateral Manager desires to change are satisfied or, in the case of any tests that are not satisfied, are closer to being satisfied. The Fitch Test Matrices may be amended and/or supplemented and/or replaced by the Collateral Manager subject to Rating Agency Confirmation from Fitch.

In no event will the Collateral Manager be obliged to elect to have a different Fitch Test Matrix, or case set forth in such Fitch Test Matrix, apply.

The Fitch Test Matrices may be amended and/or supplemented and/or replaced by the Collateral Manager subject to Rating Agency Confirmation from Fitch.

For the avoidance of doubt, the Collateral Manager may elect to interpolate between the Fitch Test Matrices with respect to the largest 10 Obligor by Principal Balance and the maximum percentage of Fixed Rate Collateral Debt Obligations.

The Fitch Maximum Weighted Average Rating Factor Test

"**Fitch Maximum Weighted Average Rating Factor Test**" means that test that will be satisfied, on any Measurement Date from (and including) the Effective Date, if the Fitch Weighted Average Rating Factor as at such date is less than or equal to the applicable level in the applicable Fitch Test Matrix.

"**Fitch Weighted Average Rating Factor**" is the number determined by summing the products obtained by multiplying the Principal Balance of each Collateral Debt Obligation, excluding Defaulted Obligations, by its Fitch Rating Factor, dividing such sum by the Aggregate Principal Balance of all such Collateral Debt Obligations, excluding Defaulted Obligations, and rounding the result down to the nearest two decimal places, *provided that* for the purposes of this definition, in respect of any Current Pay Obligation that has a Fitch Rating of "D" or "RD" at the time that the Issuer entered into a binding commitment to acquire such Current Pay Obligation, the Fitch Rating Factor for such Current Pay Obligation shall be determined by reference to a Fitch Rating of "D" or "RD" (as applicable). For the avoidance of doubt, (i) the Fitch Rating for such Current Pay Obligation shall not be determined by reference to proviso (ii) of the "Fitch Rating" definition and (ii) following a subsequent upgrade or downgrade to such Current Pay Obligation the Fitch Rating for such Current Pay Obligation shall be determined by reference to proviso (ii) of the "Fitch Rating" definition.

"**Fitch Rating Factor**" means, in respect of any Collateral Debt Obligation, the number set forth in the table below opposite the Fitch Rating in respect of such Collateral Debt Obligation. "**Fitch Weighted Average Recovery Rate**" means, as of any Measurement Date, the rate (expressed as a percentage) determined by summing the products obtained by multiplying the Principal Balance of each Collateral Debt Obligation, excluding Defaulted Obligations, by the Fitch Recovery Rate in relation thereto and dividing such sum by the lesser of (i) the Reinvestment Target Par Balance and (ii) the Aggregate Principal Balance of all Collateral Debt Obligations, excluding Defaulted Obligations, and rounding up to the nearest 0.1 per cent., *provided that* if the balance in the Principal Account after giving effect to (x) Principal Proceeds to be used to purchase Collateral Debt Obligations in respect of which the Collateral Manager on behalf of the Issuer has entered into a binding commitment to acquire but which are yet to settle (which for the avoidance of doubt shall be excluded from this balance), and (y) Principal Proceeds to be received in respect of any sale of Collateral Debt Obligations in respect of which the Collateral Manager on behalf of the Issuer has entered into a binding commitment to sell but is yet to settle (which for the avoidance of doubt shall be included in this balance), is a negative amount, the absolute value of such amount will be added to the Reinvestment Target Par Balance for the purpose of calculating the Fitch Weighted Average Recovery Rate.

- (a) in the case of each Floating Rate Collateral Debt Obligation (including only the required non-deferrable, current cash pay interest required by the Underlying Instruments thereon and excluding Non-Euro Obligations, Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligation and Revolving Obligation) that bears interest at a spread over EURIBOR, (i) the stated interest rate spread on such Collateral Debt Obligation above EURIBOR multiplied by (ii) the Principal Balance of such Collateral Debt Obligation (excluding the unfunded

portion of any Delayed Drawdown Collateral Debt Obligation or Revolving Obligation); provided that for purposes of this definition, the interest rate spread will be deemed to be, with respect to any Floating Rate Collateral Debt Obligation that has a EURIBOR floor, (i) the stated interest rate spread plus, (ii) if positive, (x) the EURIBOR floor value minus (y) the greater of (A) EURIBOR as in effect for the current accrual period and (B) zero (for the purposes of this paragraph (a) only, each reference to "EURIBOR" so far as it relates to a Collateral Debt Obligation shall mean EURIBOR as determined pursuant to the Underlying Instrument in respect of such Collateral Debt Obligation);

- (c) in the case of each Floating Rate Collateral Debt Obligation which is a Non-Euro Obligation (including, only the required non-deferrable, current cash pay interest required by the Underlying Instruments thereon and excluding Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligation and Revolving Obligation) and subject to a Currency Hedge Transaction, (i) (A) the sum of the stated interest rate spread over EURIBOR (in respect of the applicable Hedge Agreement) payable by the applicable Currency Hedge Counterparty to the Issuer under the related Currency Hedge Transaction plus (B) in circumstances where the relevant Non-Euro Obligation contains a floor in its interbank offered reference rate, the excess rate of interest (if any) of such floor over the available interbank offered reference rate on the Measurement Date under the applicable Currency Hedge Transaction, multiplied by (x) in the case of Non-Euro Obligations denominated in U.S. Dollars, Sterling, Danish Krone, Swiss Francs, Swedish Krona or Norwegian Krone, 0.85; and (y) in the case of Non-Euro Obligations denominated in any other Qualifying Currency, 0.50, and (ii) the Principal Balance of such Non-Euro Obligation; and
- (d) in the case of each Floating Rate Collateral Debt Obligation which is a Non-Euro Obligation (including, only the required non-deferrable, current cash pay interest required by the Underlying Instruments thereon and excluding Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligation and Revolving Obligation) and which is not subject to a Currency Hedge Transaction, the difference between (i) the annual interest amount payable by the relevant obligor converted to Euro at the applicable Spot Rate of Exchange multiplied by (A) in the case of Non-Euro Obligations denominated in U.S. Dollars, Sterling, Danish Krone, Swiss Francs, Swedish Krona or Norwegian Krone, 0.85; and (B) in the case of Non-Euro Obligations denominated in any other Qualifying Currency, 0.50; and (ii) the product of (x) EURIBOR with respect to the Rated Notes as of the immediately preceding Interest Determination Date multiplied by (y) the outstanding Principal Balance of such Non-Euro Obligation,

provided that for such purpose:

- (i) a Fixed Rate Collateral Debt Obligation which is subject to an Interest Rate Hedge Transaction which swaps the fixed rate on such Collateral Debt Obligation for a floating rate shall be treated as a Floating Rate Collateral Debt Obligation with a stated spread and index equal to the stated or applicable floating rate payable by the applicable Interest Rate Hedge Counterparty to the Issuer under such Interest Rate Hedge Transaction; and

- (ii) a Floating Rate Collateral Debt Obligation which is subject to an Interest Rate Hedge Transaction which swaps the floating rate on such Collateral Debt Obligation for a fixed rate shall be disregarded.

The "**Reference Weighted Average Fixed Coupon**" means, if any of the Collateral Debt Obligations are Fixed Rate Collateral Debt Obligations, 3.75 per cent., and otherwise, 0 per cent.

The "**Weighted Average Fixed Coupon**", as of any Measurement Date, is the number expressed as a percentage obtained by dividing:

- (a) the amount equal to the Aggregate Coupon; by
- (b) an amount equal to the Aggregate Principal Balance of all Fixed Rate Collateral Debt Obligations as of such Measurement Date,

in each case, excluding, for any Mezzanine Obligation, any interest that has been deferred and capitalised thereon (other than any such interest capitalised pursuant to the terms thereof which is paid for on the date of acquisition of such Mezzanine Obligation) and excluding Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligations and Revolving Obligations.

- (b) with respect to any Fixed Rate Collateral Debt Obligation which is a Non-Euro Obligation which is not subject to a Currency Hedge Transaction (including only the required non-deferrable, current cash pay interest required by the Underlying Instruments thereon and excluding Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligations and Revolving Obligations), an amount (converted into Euro at the Spot Rate) equal to the product of (x) stated coupon on such Collateral Debt Obligation expressed as a percentage and (y) the Principal Balance of such Non-Euro Obligation; and
- (c) with respect to all other Fixed Rate Collateral Debt Obligations (including only the required non-deferrable, current cash pay interest required by the Underlying Instruments thereon and excluding Defaulted Obligations, Deferring Securities and the unfunded portion of any Delayed Drawdown Collateral Debt Obligations and Revolving Obligations), the sum of the products obtained by multiplying, in the case of each Fixed Rate Collateral Debt Obligation, (x) the stated coupon on such Collateral Debt Obligation expressed as a percentage and (y) the Principal Balance of such Collateral Debt Obligation,

provided that for such purpose:

- (i) a Floating Rate Collateral Debt Obligation which is subject to an Interest Rate Hedge Transaction which swaps the floating rate on such Collateral Debt Obligation for a fixed rate shall be treated as a Fixed Rate Collateral Debt Obligation with a stated coupon equal to the stated fixed rate payable by the applicable Interest Rate Hedge Counterparty to the Issuer under such Interest Rate Hedge Transaction; and
- (ii) a Fixed Rate Collateral Debt Obligation which is subject to an Interest Rate Hedge Transaction which swaps the fixed rate on such Collateral Debt Obligation for a floating rate shall be disregarded.

Weighted Average Life Test

The "**Weighted Average Life Test**" will be satisfied on any Measurement Date if the Weighted Average Life as of such date is less than the number of years (rounded up to the nearest quarter, which shall be determined by rounding up to the nearest 0.25 years) during the period from such Measurement Date to 2 June 2029.

"**Weighted Average Life**" is, as of any Measurement Date with respect to all Collateral Debt Obligations (other than Defaulted Obligations) and Eligible Investments representing Principal Proceeds, the number of years (rounded down to the nearest one hundredth thereof) following such date obtained by:

- (a) summing the products obtained by multiplying (a) the Average Life at such time of each such Collateral Debt Obligation and Eligible Investment representing Principal Proceeds, by (b) the Principal Balance of such Collateral Debt Obligation and Eligible Investment representing Principal Proceeds,

and dividing such sum by:

- (b) the Aggregate Principal Balance at such time of all Collateral Debt Obligations (other than Defaulted Obligations) and Eligible Investments representing Principal Proceeds.

"**Average Life**" is, on any Measurement Date with respect to any Collateral Debt Obligation or Eligible Investment representing Principal Proceeds, the quotient obtained by dividing (i) the sum of the products of (a) the number of years (rounded to the nearest one hundredth thereof) from such Measurement Date to the respective dates of each successive scheduled distribution of principal of such Collateral Debt Obligation or such Eligible Investment, as the case may be, and (b) the respective amounts of principal of such scheduled distributions, by (ii) the sum of all successive scheduled distributions of principal on such Collateral Debt Obligation or such Eligible Investment, as the case may be.

Rating Definitions

S&P Ratings Definitions

The "**S&P Rating**" means, with respect to any Collateral Debt Obligation will be, as of any date of determination, the rating determined in accordance with the following methodology:

- (a) if there is an S&P Issuer Credit Rating of the issuer of such Collateral Debt Obligation by S&P as published by S&P, or the guarantor which unconditionally and irrevocably guarantees such Collateral Debt Obligation (such guarantee to comply with the current S&P criteria on guarantees), then the S&P Rating shall be such rating (regardless of whether there is a published rating by S&P on the Collateral Debt Obligations of such issuer, held by the Issuer, *provided that* private ratings (that is, ratings provided at the request of the Obligor) may be used for purposes of this definition if the related Obligor has consented to the disclosure thereof and a copy of such consent has been provided to S&P);
- (b) if, there is no S&P Issuer Credit Rating of the issuer or guarantor by S&P but:
 - (i) there is a senior secured rating on any obligation or security of the issuer, then the S&P Rating of such Collateral Debt Obligation shall be one sub-category below such rating;
 - (ii) if clause (i) above does not apply, but there is a senior unsecured rating on any obligation or security of the issuer, the S&P Rating of such Collateral Debt Obligation shall equal such rating; and
 - (iii) if neither clause (i) nor clause (ii) above applies, but there is a subordinated rating on any obligation or security of the issuer, then the S&P Rating of such Collateral Debt Obligation shall be one sub-category above such rating;
- (c) with respect to any Collateral Debt Obligation that is a Current Pay Obligation, the S&P Rating applicable to such obligation shall be the issue level rating thereof and if there is no such issue level rating, the S&P Rating applicable to such Current Pay Obligation shall be "CCC-";
- (d) with respect to any Collateral Debt Obligation, that is a Corporate Rescue Obligation :
 - (i) falling within paragraph (a) of the definition of Corporate Rescue Obligation , and if S&P has assigned a public rating to such Corporate Rescue Obligation , the S&P Rating for such Corporate Rescue Obligation shall be such public rating; or
 - (ii) falling within paragraph (b) of the definition of Corporate Rescue Obligation , and if S&P has assigned an S&P Issuer Credit Rating, or a credit estimate to such Corporate Rescue Obligation, the S&P Rating for such Corporate Rescue Obligation shall be such S&P Issuer Credit Rating or credit estimate (as applicable) provided that if no S&P Issuer Credit Rating or credit estimate is available but S&P has issued a public rating for such Corporate Rescue Obligation then such public rating after notching in accordance with limb (b) above shall be the S&P Rating; or
 - (iii) upon application by the Issuer (or the Collateral Manager on behalf of the Issuer) to S&P for a credit estimate, the applicable Corporate Rescue Obligation shall be deemed to have an S&P Rating of "D"; and
- (e) if there is no rating by S&P on the issuer or on an obligation of the issuer, then the S&P Rating may be determined (other than in the case of Corporate Rescue Obligations and Current Pay Obligations) pursuant to paragraphs (i) and (ii) below:

- (i) if such an obligation of the issuer is not a Corporate Rescue Obligation and is publicly rated by Moody's or Fitch and any successors thereto, then the S&P Rating will be determined in accordance with the methodologies for establishing the S&P Rating set forth above except that the S&P Rating of such obligation will be (A) one sub-category below the S&P equivalent of the (i) Moody's rating if such Moody's rating is "Baa3" or higher or (ii) Fitch rating if such Fitch rating is "BBB-" or higher and (B) two sub-categories below the S&P equivalent of the (i) Moody's rating if such Moody's rating is "Ba1" or lower or (ii) Fitch rating if such Fitch rating is "BB+" or lower, provided that in each case, if the Aggregate Principal Balance of Collateral Debt Obligations whose S&P Rating is determined pursuant to this paragraph (e)(i) exceeds 15.0 per cent. of the Aggregate Principal Balance, the S&P Rating of the excess of the Aggregate Principal Balance of the Collateral Debt Obligations where the S&P Rating is determined pursuant to this paragraph (e)(i) over an amount equal to 15.0 per cent. of the Aggregate Collateral Balance (calculated for this purpose on the basis that the Principal Balance of each Defaulted Obligation is its S&P Collateral Value) shall be "CCC-" (for the purposes of this paragraph (e)(i), the Collateral Debt Obligations whose S&P Rating is determined pursuant to this paragraph (e)(i) with the lowest S&P Collateral Value (expressed as a percentage of the Principal Balance of such Collateral Debt Obligation as of the relevant date of determination) shall be determined to comprise such excess);
- (ii) the S&P Rating may be based on a credit estimate provided by S&P, and in connection therewith, the Issuer, the Collateral Manager on behalf of the Issuer or the issuer of such Collateral Debt Obligation shall, prior to or within thirty calendar days after the acquisition of such Collateral Debt Obligation, apply (and concurrently submit all available information in respect of such application) to S&P for a credit estimate which shall be its S&P Rating; provided that, if such information is submitted within such thirty day period, then, for a period of up to ninety calendar days after acquisition of such Collateral Debt Obligation shall have an S&P Rating as determined by the Collateral Manager in its sole discretion if (A) the Collateral Manager certifies to the Trustee and the Collateral Administrator (upon which certificate the Trustee and the Collateral Administrator shall rely absolutely and without enquiry or liability) that it believes that such S&P Rating determined by the Collateral Manager is commercially reasonable and that the S&P Rating will be at least equal to such rating and (B) the Aggregate Principal Balance of the Collateral Debt Obligations subject to an S&P Rating determined by the Collateral Manager in accordance with (A) does not exceed 5.0 per cent. of the Aggregate Principal Balance (for such purpose, the Principal Balance of all Defaulted Obligations shall be their S&P Collateral Value); provided further that (x) if such information is not submitted within such thirty day period and (y) following the end of the ninety day period set forth above, pending receipt from S&P of such estimate, the Collateral Debt Obligation shall have an S&P Rating of "CCC-"; unless, in the case of clause (y) above, during such ninety day period, the Collateral Manager has requested the extension of such period and S&P, in its sole discretion, has granted such request; provided further that if the Collateral Debt Obligation has had a public rating by S&P that S&P has withdrawn or suspended within six months prior to the date of such application for a credit estimate in respect of such Collateral Debt Obligation, the S&P Rating in respect thereof shall be "CCC-", pending receipt from S&P of such estimate and S&P may elect not to provide such estimate until a period of six months have elapsed after the withdrawal or suspension of the public rating; provided further that such credit estimate shall expire twelve months after the acquisition of such Collateral Debt Obligation, following which such Collateral Debt Obligation shall have an S&P Rating of "CCC-" unless, during such twelve-month period, the Issuer (or the Collateral Manager acting on behalf of the Issuer) applies for renewal thereof in accordance with the Collateral Management Agreement in which case such credit estimate shall continue to be the S&P Rating of such Collateral Debt Obligation until S&P has confirmed or revised such credit estimate, upon which such confirmed or revised credit estimate shall be the S&P Rating of such Collateral Debt Obligation; provided further that such confirmed or revised credit estimate shall expire on the next succeeding twelve-month anniversary of the date

of the acquisition of such Collateral Debt Obligation and (when renewed annually in accordance with the Collateral Management Agreement) on each twelve-month anniversary thereafter; and

- (iii) with respect to a Collateral Debt Obligation that is not a Defaulted Obligation, the S&P Rating of such Collateral Debt Obligation will at the election of the Issuer (at the direction of the Collateral Manager) be "CCC-"; provided that (i) neither the Obligor of such Collateral Debt Obligation nor any of its Affiliates are subject to any bankruptcy or reorganisation proceedings; (ii) the Obligor thereof has not defaulted on any payment obligation in respect of any debt security or other obligation of such Obligor at any time within the two year period ending on such date of determination and all such debt securities and other obligations of the Obligor are current and the Collateral Manager reasonably expects them to remain current; and (iii) the Collateral Debt Obligation is current and the Collateral Manager reasonably expects it to remain current,

and provided that, for purposes of the determination of the S&P Rating, (x) if the applicable rating assigned by S&P to an Obligor or its obligations is on "credit watch positive" by S&P, such rating will be treated as being one sub-category above such assigned rating, (y) if the applicable rating assigned by S&P to an Obligor or its obligations is on "credit watch negative" by S&P, such rating will be treated as being one sub-category below such assigned rating and (z) only ratings assigned on the basis of ongoing surveillance (including any rating assigned by Moody's or Fitch) will be applicable for the purposes of determining the S&P Rating of a Collateral Debt Obligation, and provided further that in the case only where the S&P Rating is derived from a rating assigned by Moody's or Fitch then the rating assigned by Moody's from which such S&P Rating is derived shall (x) if the applicable rating assigned by Moody's or Fitch to an Obligor or its obligations is on "credit watch positive" by Moody's or "rating watch positive" by Fitch, be treated as being one sub category above such assigned rating and (y) if the applicable rating assigned by Moody's to an Obligor or its obligations is on "credit watch negative" by Moody's or "rating watch negative" by Fitch, such rating will be treated as being one sub-category below such assigned rating; and with respect to any Collateral Debt Obligation whose rating cannot be determined using any of the steps set out in paragraphs (a) to (e) above, the S&P Rating for such Collateral Debt Obligation shall be "CC".

"S&P Issuer Credit Rating" means, in respect of a Collateral Debt Obligation, a publicly available issuer credit rating by S&P in respect of the Obligor thereof.

Fitch Ratings Definitions

The **"Fitch Rating"** of any Collateral Debt Obligation will be determined in accordance with the below methodology (with the sub-paragraph earliest in this definition applying in the case where more than one sub-paragraph would otherwise be applicable):

- (a) with respect to any Collateral Debt Obligation in respect of which there is a Fitch issuer default rating, including credit opinions, whether public or privately provided to the Collateral Manager following notification by the Collateral Manager that the Issuer has entered into a binding commitment to acquire such Collateral Debt Obligation (the **"Fitch Issuer Default Rating"**), the Fitch Rating shall be such Fitch Issuer Default Rating;
- (b) if the Obligor thereof has an outstanding long term financial strength rating from Fitch (the **"Fitch LTSR"**), then the Fitch Rating shall be one notch lower than such Fitch LTSR;
- (c) if in respect of any other obligation of the Obligor or its Affiliates, there is a publicly available rating by Fitch, then the Fitch Rating shall be the Fitch IDR Equivalent determined by applying the Fitch Rating Mapping Table (as defined below) to such rating;

- (d) if in respect of the Collateral Debt Obligation there is a Moody's CFR, a Moody's Long Term Issuer Rating, or an S&P Issuer Credit Rating, then the Fitch Rating shall be the rating that corresponds to the lowest thereof;
- (e) if in respect of the Collateral Debt Obligation, there is an Insurance Financial Strength Rating, then the Fitch Rating shall be one notch lower than such Insurance Financial Strength Rating;
- (f) if in respect of the Collateral Debt Obligation there is a Moody's/S&P Corporate Issue Rating, then the Fitch Rating shall be the Fitch IDR Equivalent determined by applying the Fitch Rating Mapping Table (as defined below) to such rating;
- (g) if a Fitch Rating cannot otherwise be assigned, the Collateral Manager, on behalf of the Issuer, shall apply to Fitch for a credit opinion which shall then be the Fitch Rating or shall agree a rating with Fitch which shall then be the Fitch Rating, provided that pending receipt from Fitch of any credit opinion, the applicable Collateral Debt Obligation shall either be deemed to have a Fitch Rating of "B-", subject to the Collateral Manager believing (in its reasonable judgement) that such credit assessment will be at least "B-" or the rating specified as applicable thereto by Fitch pending receipt of such credit assessment; provided further that if no credit opinion from Fitch is expected (in the opinion of the Collateral Manager) to become available for the relevant Collateral Debt Obligation and (i) the relevant Collateral Debt Obligation is not a Defaulted Obligation or a Collateral Debt Obligation with a Fitch IDR Equivalent of "CCC+" or lower, (ii) the relevant Collateral Debt Obligation has a private rating by Moody's, and (iii) the Principal Balance of the relevant Collateral Debt Obligation when added to the Principal Balances of other such Collateral Debt Obligations satisfying (i) and (ii) of this proviso does not exceed 10.0 per cent. of the Aggregate Collateral Balance, then the Fitch Rating of the relevant Collateral Debt Obligation shall be deemed to be "B-", and if any of (i) to (iii) in the foregoing proviso are not met, the relevant Collateral Debt Obligation will be deemed to have a Fitch Rating of "CCC".
- (h) if such Collateral Debt Obligation is a Corporate Rescue Obligation:
 - (i) if such Corporate Rescue Obligation has a publicly available rating from Fitch or has been assigned an issue level credit assessment by Fitch, the Fitch Rating shall be such rating or credit assessment;
 - (ii) otherwise the Issuer or the Collateral Manager on behalf of the Issuer shall apply to Fitch for an issue level credit assessment provided that, pending receipt from Fitch of any issue level credit assessment, the applicable Corporate Rescue Obligation shall either be deemed to have a Fitch Rating of "B-", subject to the Collateral Manager believing (in its reasonable judgement) that such credit assessment will be at least "B-" or the rating specified as applicable thereto by Fitch pending receipt of such credit assessment; or

For the purposes of determining the Fitch Rating, the following definitions shall apply, *provided* always that:

- (a) a debt security or obligation of the Obligor has been in default during the past two years, the Fitch Rating of such Collateral Debt Obligation shall be treated as "D"; and
- (b) with respect to any Current Pay Obligation that is rated "D" or "RD", the Fitch Rating of such Current Pay Obligation will be "CCC",

and *provided* further that if the applicable Collateral Debt Obligation has been put on rating watch negative or negative credit watch for possible downgrade by:

- (i) Fitch, then the rating used to determine the Fitch Rating above shall be one rating subcategory below such rating by Fitch;

- (ii) Moody's, then in the case only where the Fitch Rating is derived from a rating assigned by Moody's then the Fitch Rating shall be one rating subcategory below what would otherwise be the Fitch Rating determined pursuant to paragraphs (a) to (h) above; or
- (iii) S&P, then in the case only where the Fitch Rating is derived from a rating assigned by S&P then the Fitch Rating shall be one rating subcategory below what would otherwise be the Fitch Rating determined pursuant to paragraphs (a) to (h) above; and
- (iv) notwithstanding the rating definition described above, Fitch reserves the right to use a credit opinion or a rating estimate for any Collateral Debt Obligations at any time.

"Fitch IDR Equivalent" means, in respect of any rating described in the Fitch Rating Mapping Table, the equivalent Fitch Issuer Default Rating determined by increasing (or reducing, in the case of a negative number) such rating (or the nearest Fitch equivalent thereof) by the number of notches specified under "Mapping Rule" in the fourth column of the Fitch Rating Mapping Table.

"Fitch Rating Mapping Table" means the following table:

- (p) provide such other services in connection with the business of the Issuer (subject to the provisions of the Trust Deed) as the Issuer and the Collateral Manager may from time to time agree, upon payment of such additional fees as may be agreed, provided that such additional fees shall only be paid as Administrative Expenses pursuant to the Priorities of Payment;
- (q) with respect to any Defaulted Obligation, instruct the trustee or agent for such Defaulted Obligation to enforce the Issuer's rights under the Underlying Instruments governing such Defaulted Obligation or any applicable law, rule or regulation in any manner permitted under the Collateral Management Agreement or the Trust Deed and that is consistent with the Standard of Care;

Due Diligence

Prior to the entry by the Issuer or the Collateral Manager (acting on behalf of the Issuer) into a commitment to purchase an asset intended to constitute a Collateral Debt Obligation, the Collateral Manager will carry out due diligence in accordance with the Standard of Care to ensure that the Eligibility Criteria will be satisfied and that, except for Collateral Debt Obligations which are acquired by way of Participation, the Issuer will, upon the settlement of such purchase, become the legal and beneficial holder of such Collateral Debt Obligation in accordance with the terms of the relevant Underlying Instrument and all applicable laws and regulations (including confidentiality requirements). Noteholders are reliant on the Collateral Manager conducting such due diligence in a manner which ensures that the Collateral Debt Obligations are properly and effectively transferred and satisfy each of the Eligibility Criteria.

Portfolio Profile Tests, Collateral Quality Tests and other tests

On or after the Effective Date and prior to the purchase of or investment in any Collateral Debt Obligation on behalf of the Issuer, the Collateral Manager shall forward a Test Request (as defined in the Collateral Management Agreement) to the Collateral Administrator requesting confirmation and certification that, as at the date of the proposed acquisition, following any investment of Principal Proceeds in Substitute Collateral Debt Obligations, the Reinvestment Overcollateralisation Test, the Coverage Tests, the Collateral Quality Tests, the Portfolio Profile Tests and the Reinvestment Criteria (in each case as applicable) will be satisfied, or if not, the extent to which they are not. The Collateral Manager may only commit to acquire any Collateral Debt Obligation on any given day if the Collateral Administrator has confirmed that the Reinvestment Criteria (to the extent applicable) are satisfied in respect thereof on such day.

During the Initial Investment Period, the Collateral Manager will be able to acquire Collateral Debt Obligations on behalf of the Issuer from the Balance standing to the credit of the Unused Proceeds Account and there shall be no requirement during such period to satisfy the Collateral Quality Tests, Portfolio Profile Tests, the Principal Transfer Test, the Reinvestment Overcollateralisation Test or the Coverage Tests (to the extent applicable). The Collateral Manager shall be under no obligation to forward a Test Request to the Collateral Administrator in respect of Collateral Debt Obligation acquisitions during the Initial Investment Period.

Obligations which are to constitute Collateral Debt Obligations in respect of which the Issuer (or the Collateral Manager on behalf of the Issuer) has entered into a binding commitment to purchase but which have not yet settled shall be included as Collateral Debt Obligations in the calculation of the Portfolio Profile Tests, the Collateral Quality Tests, the Coverage Tests, the Principal Transfer Test and the Reinvestment Overcollateralisation Test at any time as if such purchase had been completed and each Collateral Debt Obligation in respect of which the Issuer (or the Collateral Manager on behalf of the Issuer) has entered into a binding commitment to sell, but in respect of which such sale has not yet settled, shall be excluded from being Collateral Debt Obligations for the purpose of the calculation of the Portfolio Profile Tests, the Collateral Quality Tests, the Coverage Tests, the Principal Transfer Test and the Reinvestment Overcollateralisation Test at any time as if such sale had been completed.

Fees

As compensation for the performance of its obligations under the Collateral Management Agreement, the Collateral Manager (and/or, at its direction, an Affiliate of the Collateral Manager) will be entitled to receive, in arrear, from the Issuer on each Payment Date, a senior collateral management fee equal to 0.15 per cent. per annum (calculated on the basis of a 360-day year and the actual number of days elapsed in such Due Period) of the Aggregate Collateral Balance measured as of the first day of such Due Period (or if such day is not a Business Day, the next day which is a Business Day) relating to the applicable Payment Date, as determined by the Collateral Administrator, which collateral management fee will be payable senior to the Notes, but subordinated to certain fees and expenses of the Issuer in accordance with the Priorities of Payment (such fee, the "**Senior Collateral Management Fee**").

The Collateral Manager (and/or such person as the Collateral Manager may from time to time direct) will be entitled to receive, in arrear, from the Issuer on each Payment Date in respect of the immediately preceding Due Period, a subordinated collateral management fee equal to 0.35 per cent. per annum (calculated on the basis of a 360-day year and the actual number of days elapsed in such Due Period) of the Aggregate Collateral Balance measured as of the first day of such Due Period (or if such day is not a Business Day, the next day which is a Business Day), as determined by the Collateral Administrator, which collateral management fee will be payable senior to the payments on the Subordinated Notes, but subordinated to the Rated Notes in accordance with the Priorities of Payment (such fee, the "**Subordinated Collateral Management Fee**").

In addition to the Senior Collateral Management Fee and the Subordinated Collateral Management Fee, the Collateral Manager (and/or such person as the Collateral Manager may from time to time direct) will receive an incentive collateral management fee (such fee, the "**Incentive Collateral Management Fee**") on each Payment

Date on which the Incentive Collateral Management Fee IRR Threshold has been met or surpassed. On each such Payment Date, 20.0 per cent. of any Interest Proceeds, Principal Proceeds (after any payment required to satisfy the Incentive Collateral Management Fee IRR Threshold) that would otherwise be available to distribute to the Subordinated Noteholders in accordance with the Priorities of Payment, will be applied to pay the Incentive Collateral Management Fee as of such Payment Date. The Collateral Manager may, at its sole discretion designate, waive or reinvest all or a part of the Incentive Collateral Management Fee in additional Collateral Debt Obligations.

For the avoidance of doubt, the amount of the Collateral Management Fees, calculated as described above, shall be deemed not to include any applicable VAT thereon. In the event that any supply to which a Collateral Management Fee relates is or becomes subject to VAT payable by the Collateral Manager, then an amount equal to such VAT will be paid by the Issuer to the Collateral Manager in addition to such Collateral Management Fee against delivery of a valid VAT invoice.

If amounts distributable on any Payment Date in accordance with the Priorities of Payment are insufficient to pay the Collateral Management Fees in full, then a portion of the applicable Collateral Management Fee equal to the shortfall will be deferred and will be payable on subsequent Payment Dates on which funds are available therefor according to the Priorities of Payment.

The Collateral Manager, in respect of any Collateral Management Fees due to be paid to it on a Payment Date, may elect to:

- (a) defer any Senior Collateral Management Fees and/or Subordinated Collateral Management Fees;
- (b) irrevocably waive any Senior Collateral Management Fees and/or Subordinated Collateral Management Fees and/or Incentive Collateral Management Fees; and/or
- (c) direct payment by the Issuer of any of the Collateral Manager's Senior Collateral Management Fees and/or Subordinated Collateral Management Fees and/or Incentive Collateral Management Fees, or any part thereof, to a party of its choice.

Any amounts so deferred pursuant to paragraph (a) above or irrevocably waived pursuant to paragraph (b) above shall be applied in accordance with the Priorities of Payment. Any amounts so irrevocably waived pursuant to paragraph (b) above will cease to become due and payable and will not become due and payable at any time. Any amounts directed to be paid by the Collateral Manager to another party pursuant to paragraph (c) above will cease to become due and payable to the Collateral Manager upon proper receipt of those amounts by the nominated party. To the extent that the Collateral Manager elects to defer all or a portion thereof and later rescinds such deferral election, the Deferred Senior Collateral Management Amounts and/or Deferred Subordinated Collateral Management Amounts, as applicable, will be payable on subsequent Payment Dates in accordance with the Priorities of Payment.

Any due and unpaid Collateral Management Fees including Deferred Senior Collateral Management Amounts and Deferred Subordinated Collateral Management Amounts shall accrue interest at a rate per annum equal to 3-month EURIBOR or, if a Frequency Switch Event has occurred, 6-month EURIBOR (in each case calculated on the basis of a 360-day year consisting of twelve 30 day months from the date due and payable to the date of actual payment and provided that if any such EURIBOR rate is less than zero, the relevant rate of interest for such purpose shall be deemed to be zero). In addition, in accordance with the Priorities of Payment, the Collateral Manager may, in its sole discretion, elect, subject to and in accordance with Condition 3(c)(i)(D)(1) (*Application of Interest Proceeds*), to designate for reinvestment in Collateral Debt Obligations the Senior Collateral Management Fee and/or subject to and in accordance with Condition 3(c)(i)(Y)(1) (*Application of Interest Proceeds*), to designate for reinvestment in Collateral Debt Obligations the Subordinated Collateral Management Fee.

The Collateral Manager shall pay all expenses and costs incurred by it in connection with its services under the Collateral Management Agreement; provided, however, that certain expenses incurred by the Collateral Manager in the performance of its obligations under the Collateral Management Agreement will be reimbursed by the Issuer by way of further consideration in connection with the services provided by the Collateral Manager under the Collateral Management Agreement as Administrative Expenses to the extent funds are available therefor in accordance with and subject to the limitations contained in the Collateral Management Agreement and the Priorities of Payment. These expenses include, but are not limited to (i) legal advisers, consultants, rating agencies, accountants, brokers and other professionals retained by the Issuer or the Collateral Manager (on behalf of the Issuer); and (ii) asset pricing and asset rating services, compliance services and software, and accounting, programming and data entry services directly related to the management of the Collateral.

Related Party Transactions

The Collateral Manager and any of its Affiliates may at certain times seek to purchase or sell investments from or to the Issuer as principal for its own account or for the account of an Affiliate, such transactions being referred to as "principal" transactions.

The Collateral Manager and its Affiliates will be authorised to engage in certain "cross" transactions, including "agency cross" transactions (i.e., transactions in which either the Collateral Manager or one of its Affiliates or another person acts as a broker for both the Issuer and another person on the other side of the same transaction, which person may be an account or client for which the Collateral Manager or any Affiliate serves as investment adviser) and "client cross" transactions (i.e., transactions in which the Collateral Manager causes a transaction to be effected between the Issuer and another account advised by the Collateral Manager without the Collateral Manager or any of its Affiliates receiving any compensation for such transaction).

The Issuer has agreed to permit principal transactions and agency cross transactions entered into in accordance with applicable laws and regulations; provided that (i) such consent can be revoked at any time by the Issuer and (ii) certain transactions e.g. principal transactions require the advance consent of the Issuer. By purchasing a Note, a holder shall be deemed to have consented to the procedures described herein relating to cross transactions and principal transactions. The Collateral Manager or its Affiliates may receive commissions from, and have a potentially conflicting division of loyalties and responsibilities regarding, both parties to any such principal transaction or cross transactions. See "*Risk Factors—Certain Conflicts of Interest*".

Standard of Care of the Collateral Manager

Pursuant to the Collateral Management Agreement, the Collateral Manager will agree with the Issuer that it will perform its obligations, duties and discretions under the Collateral Management Agreement in good faith and exercise reasonable care in performing its duties under the Transaction Documents, using a degree of skill and attention no less than that which the Collateral Manager exercises with respect to comparable assets that it manages for itself, its Affiliates and for others in accordance with its existing practices and procedures relating to assets of the nature and character of the Collateral Debt Obligations and in a manner consistent with the degree of skill and attention exercised by reasonable and prudent institutional managers of assets of the nature and character of the Collateral Debt Obligations (the "**Standard of Care**").

The Collateral Manager will cause any purchase of or entry into or sale, termination or other disposal of Portfolio assets to be effected on an arm's length basis.

Liability of the Collateral Manager

None of the Collateral Manager or any Collateral Manager Related Person will be liable (whether directly or indirectly, in contract or in tort or otherwise) to the Issuer, the Trustee, the Collateral Administrator, the Placement Agent, any of the Noteholders, any of their respective Affiliates, shareholders, managers, directors, officers, partners, agents or employees or any other Person for any loss incurred by such Person arising out of, or in connection with, the performance, by the Collateral Manager, its Affiliates, their respective managers, directors,

officers, partners, agents or employees under or in connection with the Collateral Management Agreement or the terms of any other Transaction Document applicable to the Collateral Manager, or for any liabilities resulting from any failure to satisfy the Standard of Care, except in each case to the extent such liabilities were incurred:

- (a) by reason of acts or omissions constituting bad faith, wilful misconduct, fraud or gross negligence (with such term given its meaning under New York law) in the performance, or reckless disregard, of the duties and obligations of the Collateral Manager under the terms of the Collateral Management Agreement or any other Transaction Documents;
- (b) by reason of the Collateral Manager Information or the Retention Holder Information containing any untrue statement of material fact, which makes statements therein, in the light of the circumstances under which they were made, misleading; or
- (c) by reason of the Collateral Manager Information or the Retention Holder Information omitting to state a material fact, which makes statements therein, in the light of the circumstances under which they were made, misleading,

(each a "**Collateral Manager Breach**" and together the "**Collateral Manager Breaches**").

"**Collateral Manager Information**" means the information provided by the Collateral Manager for inclusion in this Offering Circular, being that contained in the sections respectively therein headed "*Risk Factors—Certain Conflicts of Interest—Certain Conflicts of Interest Involving or Relating to the Collateral Manager and its Affiliates*", "*Risk Factors—Certain Conflicts Of Interest—Conflicts related to obligations that the Collateral Manager, its affiliates or their respective related Persons have to other clients*", "*The Collateral Manager*" and the second paragraph of the section headed "*Risk Factors – Regulatory Initiatives – Risk Retention and Due Diligence Requirements – U.S. Risk Retention Rules*".

"**Retention Holder Information**" means the information provided by the Retention Holder for inclusion in the Offering Circular, being that contained in the sections respectively therein headed "*The EU Retention and Disclosure Requirements —Description of the Retention Holder*" and "*The EU Retention and Disclosure Requirements —Origination of Collateral Debt Obligations*";

In no event shall the Collateral Manager be liable for any indirect, punitive, special or consequential loss or damages (including loss of profit).

The Collateral Manager (any Affiliates of the Collateral Manager, and their shareholders, directors, officers, members, attorneys, advisors, agents and employees) will be entitled to indemnification by the Issuer in relation, *inter alia*, to the performance of the Collateral Manager's obligations under the Collateral Management Agreement, subject to the terms of the Collateral Management Agreement, which will be payable in accordance with the Priorities of Payment (including any pecuniary sanctions to which the Collateral Manager may become liable pursuant to Article 32 of the Securitisation Regulation (save that the Collateral Manager shall not be reimbursed for pecuniary sanctions imposed upon it to the extent such sanctions are imposed as a result of any act or omission that constitutes wilful default or negligence on the part of the Collateral Manager)).

The Collateral Manager shall indemnify the Issuer, the Collateral Administrator and the Trustee (including for properly incurred legal fees and expenses) in respect of Collateral Manager Breaches, subject to and in accordance with the Collateral Management Agreement.

Resignation of the Collateral Manager

The Collateral Manager may resign, upon 90 calendar days' (or such shorter notice as is acceptable to the Issuer) prior written notice to the Issuer, the Trustee, the Collateral Administrator, the Hedge Counterparties and each Rating Agency. Such resignation will not be effective until the date as of which a successor Collateral Manager

has been appointed in accordance with the Collateral Management Agreement. Any such resignation is without prejudice and subject to fulfilment of the Collateral Manager's obligations in respect of the Retention Notes.

Removal for Cause

Subject to the paragraph below, the Collateral Management Agreement may be terminated, and the Collateral Manager may be removed, for cause upon at least 30 days' prior written notice by (i) the Issuer at its discretion; or (ii) the Trustee (subject to being indemnified and/or secured and/or prefunded to its satisfaction) at the direction of the holders of (A) the Subordinated Notes, acting by Extraordinary Resolution or (B) the Controlling Class, acting by Ordinary Resolution (in each case, excluding (x) any Class A Notes held in the form of CM Removal and Replacement Non-Voting Notes or CM Removal and Replacement Exchangeable Non-Voting and (y) any Notes held by the Collateral Manager or a Collateral Manager Related Person), provided that notice of such removal shall have been given to the holders of each Class of the Notes, the Collateral Manager, the Trustee (in the case of termination by the Issuer), the Hedge Counterparties and each Rating Agency by the Issuer or the Trustee, as the case may be, in accordance with the Collateral Management Agreement.

For the purpose of determining "Cause" with respect to termination of the Collateral Management Agreement such term shall mean any one of the following events:

- (b) the Collateral Manager breaches any material provision of the Collateral Management Agreement applicable to it that, either individually or in the aggregate in the opinion of the Trustee has a material adverse effect on the Issuer or the interests of the Noteholders of any Class and the Collateral Manager fails to cure such breach within 30 calendar days of becoming aware of, or receiving notice from the Issuer or the Trustee of such breach, or, if such breach is not capable of cure within 30 calendar days but is capable of being cured, the Collateral Manager fails to cure such breach within the period in which a reasonably diligent person could cure such breach (but in no event more than 90 calendar days). Upon becoming aware of any such breach, the Collateral Manager shall give written notice thereof to the Issuer and the Trustee;
- (c) any representation, warranty, certification or statement made or delivered by the Collateral Manager in or pursuant to the Collateral Management Agreement fails to be correct in any respect when made and such failure has a material adverse effect on the interests of any Class of Noteholders under the Collateral Management Agreement and the Collateral Manager fails to (x) reasonably demonstrate that no such failure has occurred or (y) take such actions required for the facts (after giving effect to such actions) to conform in all material respects to such representation, warranty or certification, in each case within 30 days of receiving notice of the occurrence of such breach from the Issuer or the Trustee (at the direction of any holder) or, if such breach is not capable of cure within 30 days but is capable of being cured within a longer period, the Collateral Manager fails to cure such breach within the period in which a reasonably prudent person could cure such breach (but in no event more than 60 days);
- (d) the Collateral Manager is wound up or dissolved (other than pursuant to a consolidation, amalgamation or merger), or the Collateral Manager: (i) ceases to be able to, or admits in writing that it is unable to pay its debts as they become due and payable, or makes a general assignment for the benefit of, or enters into any composition or arrangement with, its creditors generally; (ii) applies for or consents (by admission of material allegations of a petition or otherwise) to the appointment of a receiver, administrator, examiner, trustee, assignee, custodian, liquidator or sequestrator (or other similar official) of the Collateral Manager or of any substantial part of its properties or assets, or authorises such an application or consent, or proceedings seeking such appointment are commenced against the Collateral Manager without such authorisation, consent or application and either continue undismissed for 45 calendar days or any such appointment is ordered by a court or regulatory body having jurisdiction; (iii) authorises or

files a voluntary petition in bankruptcy, or applies for or consents (by admission of material allegations of a petition or otherwise) to the application of any bankruptcy, reorganisation, examinership, arrangement, readjustment of debt, insolvency, dissolution, or similar law, or authorises such application or consent, or proceedings to such end are instituted against the Collateral Manager without such authorisation, application or consent and remain undismissed for 45 calendar days or result in adjudication of bankruptcy or insolvency or the issuance of an order for relief; or (iv) permits or suffers all or any substantial part of its properties or assets to be sequestered or attached by court order and the order (if contested in good faith) remains undismissed for 60 calendar days;

- (e) the occurrence of an Event of Default specified in paragraph (a)(i) (*Non-payment of Interest*) or paragraph (a)(ii) (*Non-payment of Principal*) of Condition 10 (*Events of Default*) (except in those circumstances where such an Event of Default is solely attributable to the actions of a third party which the Collateral Manager does not control), and which breach or default is not cured within any applicable cure period set forth in the Conditions; or
- (f) the occurrence of an act by the Collateral Manager (or any senior officer of the Collateral Manager directly involved in its CLO management business) that constitutes fraud or criminal activity in the performance of the Collateral Manager's obligations under the Collateral Management Agreement or its other investment management activities, or the Collateral Manager (or any senior officer of the Collateral Manager directly involved in its CLO management business) being found guilty of having committed a criminal offence materially related to the management of investments similar in nature and character to those which comprise the Collateral.

If the Collateral Manager becomes aware that any of the events specified in paragraphs (a) to (f) (inclusive) above has occurred, the Collateral Manager shall give prompt written notice thereof to the Issuer, the Trustee, the Collateral Administrator, the Rating Agencies, the Hedge Counterparties and the holders of all Outstanding Notes upon the Collateral Manager becoming so aware.

No Voting Rights

Notwithstanding any reference or provision in this Offering Circular (including, without limitation, this section "*Description of the Collateral Management Agreement*");

- i. any Notes held by, for the benefit of, or on behalf of the Collateral Manager or any Collateral Manager Related Person will have no voting rights with respect to, and shall not be counted for the purposes of, determining a quorum and the results of any votes in respect of any CM Removal Resolution or in respect of any CM Replacement Resolution (but shall carry a right to vote and be so counted on all other matters in respect of which such Notes have a right to vote and be counted);
- ii. any Class A Notes held in the form of CM Removal and Replacement Non-Voting Notes and/or CM Removal and Replacement Exchangeable Non-Voting Notes will have no voting rights with respect to, and shall not be counted for the purposes of, determining a quorum and the results of any votes in respect of any CM Removal Resolution or in respect of any CM Replacement Resolution (but shall carry a right to vote and be so counted on all other matters in respect of which the Class A Notes held in the form of CM Removal and Replacement Voting Notes have a right to vote and be counted);
- iii. the Class X Notes shall not have any voting rights with respect to, and shall not be counted for the purposes of, determining a quorum and the results of any votes in respect of any CM Removal Resolution or in respect of any CM Replacement Resolution.

Delegation and Transfers

The Collateral Manager may, in accordance with the terms of the Collateral Management Agreement, employ third parties to render advice, to provide services to arrange for trade execution and otherwise provide assistance

to the Issuer and to perform any of its non-material duties under this Agreement. The Issuer and/or the Collateral Manager may retain, at the Issuer's expense, one or more third parties, pursuant to a licensing or other agreement, to, among other things, provide software databases and applications to model, evaluate and monitor the Portfolio, the Notes and any other assets and liabilities or rights and obligations of the Issuer.

The Collateral Manager may not assign its rights and delegate its material duties under the Collateral Management Agreement to any assignee or delegate unless:

- (a) such assignment or delegation is consented to by (i) the Issuer; (ii) the Controlling Class (acting by Ordinary Resolution); and (iii) the Subordinated Noteholders (acting by Ordinary Resolution), in each case, excluding any Notes held by, for the benefit of, or on behalf of the Collateral Manager or any Collateral Manager Related Person and any Class A Notes held in the form of CM Removal and Replacement Non-Voting Notes or CM Removal and Replacement Exchangeable Non-Voting Notes;
- (b) prior written notice is given to each Rating Agency then rating the Rated Notes;
- (c) such assignee or delegate is legally qualified and has the regulatory capacity to act as such, including offering portfolio management services to Irish residents or benefits from an exception or exclusion from such requirements;
- (d) such assignment or delegation will not cause the Issuer to become subject to net income, profits or similar taxation in any jurisdiction other than Ireland or cause the Issuer to be engaged in a trade or business in the United States for U.S. federal income tax purposes or cause any other material adverse tax consequences to the Issuer;
- (e) such assignment or delegation will not cause either of the Issuer or the Collateral Manager to become required to register under the provisions of the Investment Company Act;
- (f) such assignment or delegation will not cause VAT (or additional VAT) to become payable by the Issuer or the assignee or delegate in respect of the Collateral Management Fees; and
- (g) such assignment or delegation will not cause the transaction described in this Offering Circular to be non-compliant with the EU Retention Requirements.

The Collateral Manager is permitted to assign its rights and delegate its duties under the Collateral Management Agreement to any Affiliate of the Collateral Manager without the consent of any party, provided that:

- (a) such Affiliate has demonstrated an ability to professionally and competently perform duties similar to those imposed upon the Collateral Manager under the Collateral Management Agreement and has a substantially similar (or better) level of expertise;
- (b) such Affiliate is legally qualified to and has the regulatory capacity (including Irish regulatory capacity to provide collateral management services to Irish counterparties as a matter of the laws of Ireland) to act as assignee or delegate or benefits from an exemption or exclusion from such requirements;
- (c) prior written notice is given to each Rating Agency then rating the Rated Notes;
- (d) such assignment or delegation will not cause the Issuer to become subject to net income taxation in any jurisdiction other than Ireland or cause the Issuer to be engaged in a trade or business in the United States for U.S. federal income tax purposes or cause any other material adverse tax consequences to the Issuer;
- (e) such assignment or delegation will not cause additional value added tax (or similar) to become payable by the Issuer or the assignee or delegate in respect of the Collateral Management Fees;

- (f) such assignment or delegation will not cause the Issuer, the Collateral Manager or the Collateral to become required to register or become registered under the provisions of the Investment Company Act; and
- (g) such assignment or delegation will not cause the transaction described in this Offering Circular to be non-compliant with the EU Retention Requirements.

Notwithstanding the foregoing, no delegation of responsibilities by the Collateral Manager shall relieve it from any liability under the Collateral Management Agreement.

The Issuer may not assign its rights under the Collateral Management Agreement without the prior written consent of the Collateral Manager, the Trustee, the holders of each Class of Notes acting by Ordinary Resolution, each voting as a separate class and subject to Rating Agency Confirmation, except in the case of an assignment by the Issuer (i) to an entity that is a successor to the Issuer permitted under the Trust Deed or (ii) to the Trustee.

Appointment of Successor

No resignation or termination of the appointment of the Collateral Manager will be effective until a successor Collateral Manager is duly appointed. Any successor Collateral Manager must satisfy the conditions set out in the Collateral Management Agreement and shall, for the avoidance of doubt, be appointed on substantially similar terms as those set out in the Collateral Management Agreement.

Within 90 calendar days of the resignation, termination or removal of the Collateral Manager while any of the Notes are outstanding, the Subordinated Noteholders (acting by Ordinary Resolution) may propose a successor Collateral Manager by delivering notice thereof to the Issuer, the Trustee and the holders of the Notes. The Controlling Class (acting by Ordinary Resolution) may consent to such successor Collateral Manager by delivery of notice of such consent to the Issuer and the Trustee. If the Controlling Class (acting by Ordinary Resolution) consents to such proposed successor Collateral Manager, such proposed successor will be appointed Collateral Manager by the Issuer subject to receipt of Rating Agency Confirmation from each Rating Agency then rating the Rated Notes.

If the Subordinated Noteholders (acting by Ordinary Resolution) make no such proposal within such 90-day period, the Controlling Class (acting by Ordinary Resolution and confirming in such resolution that the proposed successor Collateral Manager is not an Affiliate of a holder of the Controlling Class) may propose a successor Collateral Manager by delivering notice thereof to the Issuer, the Trustee and the holders of the Notes. The Subordinated Noteholders (acting by Ordinary Resolution) may, within 30 calendar days from receipt of such notice, object to such successor Collateral Manager by delivery of notice of such objection to the Issuer and the Trustee.

If no notice of objection is received by the Issuer and the Trustee within such time period, such proposed successor Collateral Manager will be appointed Collateral Manager by the Issuer subject to receipt of Rating Agency Confirmation from each Rating Agency then rating the Rated Notes. Within 30 calendar days of receipt of notice of any such objection, either the Controlling Class (acting by Ordinary Resolution) or the Subordinated Noteholders (acting by Ordinary Resolution) may propose a successor Collateral Manager by written notice to the Trustee, the Issuer and the holders of the Notes. In the case of such proposal by the Controlling Class, the Subordinated Noteholders (acting by Ordinary Resolution), may, within 30 calendar days from receipt of such notice, deliver to the Issuer and the Trustee notice of objection thereto. In the case of such a proposal by the Subordinated Noteholders, the Controlling Class (acting by Ordinary Resolution) may consent to such successor Collateral Manager by delivery of notice of such consent to the Issuer and the Trustee.

If no notice of objection of the Subordinated Noteholders (acting by Ordinary Resolution) is received by the Issuer and the Trustee within the relevant time period (in the case of a proposal by the Controlling Class) or the consent of the Controlling Class (acting by Ordinary Resolution) is received by the Issuer and the Trustee (in the case of a proposal by the Subordinated Noteholders), such proposed successor Collateral Manager will be appointed

Collateral Manager by the Issuer subject to receipt of Rating Agency Confirmation from each Rating Agency then rating the Rated Notes. If a notice of objection from the Subordinated Noteholders (acting by Ordinary Resolution) is received within 30 calendar days (in the case of a proposal by the Controlling Class) or the Controlling Class does not consent (acting by Ordinary Resolution) to a proposed successor (in the case of a proposal by the Subordinated Noteholders), then either group of Noteholders may again propose a successor Collateral Manager in accordance with the foregoing.

Notwithstanding the above, if no successor Collateral Manager has been appointed within 180 calendar days following the date of resignation, termination or removal of the Collateral Manager, the Issuer will appoint a successor Collateral Manager proposed by the Controlling Class (acting by Ordinary Resolution) so long as such successor Collateral Manager is not a Person that was previously objected to by the Subordinated Noteholders (acting by Ordinary Resolution) and subject to receipt of Rating Agency Confirmation from each Rating Agency then rating the Rated Notes.

If a successor collateral manager has still not been appointed on or before within 180 calendar day following the date of resignation, termination or removal of the Collateral Manager or if the Collateral Manager is required to resign or is removed as a result of illegality, the appointment of a successor collateral manager shall be determined by an arbitrator appointed by the Trustee (as directed by the Controlling Class acting by Ordinary Resolution) and approved by the Collateral Manager, which approval shall not be unreasonably withheld or delayed and the determination of any such arbitrator shall be final (subject to receipt of Rating Agency Confirmation from each Rating Agency then rating the Rated Notes).

Such successor collateral manager will be required to satisfy the criteria specified in the Collateral Management Agreement. The Retention Notes may be transferred to a successor collateral manager following its appointment, but the appointment of such successor shall not be conditional upon such a transfer. For the avoidance of doubt, no Notes either held in the form of CM Removal and Replacment Non-Voting Notes or CM Removal and Replacement Exchangeable Non-Voting Notes or held by or on behalf of the Collateral Manager or any Collateral Manager Related Person shall have any voting rights with respect to and shall not be counted for the purposes of determining a quorum and the results of any CM Removal Resolution or CM Replacement Resolution.

Upon notice of removal or resignation of the Collateral Manager

In the event that the Collateral Manager has received notice that it will be removed or has given notice of its resignation, until a successor collateral manager has been appointed and has accepted such appointment in accordance with the terms specified in the Collateral Management Agreement, acquisitions of Collateral Debt Obligations shall be only be made in relation to trades initiated prior to such removal or resignation and the only type of Collateral Debt Obligations that the Collateral Manager may sell on behalf of the Issuer are Credit Impaired Obligations, Credit Improved Obligations, Defaulted Obligations and Margin Stock.

HEDGING ARRANGEMENTS

The following section consists of a summary of certain provisions which, pursuant to the Collateral Management Agreement, are required to be contained in each Hedge Agreement and/or Hedge Transaction. Such summary does not purport to be complete and is qualified by reference to the detailed provisions of each Hedge Agreement and Hedge Transaction. The terms of a Hedge Agreement or Hedge Transaction may differ from the description provided herein, subject to receipt of Rating Agency Confirmation in respect thereof or without Rating Agency Confirmation if such Hedge Transaction constitutes a Form Approved Hedge.

Hedge Agreements

The Issuer (or the Collateral Manager on behalf of the Issuer) may purchase Non-Euro Obligations provided that the Collateral Manager, on behalf of the Issuer, for any Non-Euro Obligation, enters into a Currency Hedge Transaction with a Currency Hedge Counterparty no later than (i) if such Non-Euro Obligation is denominated in a Qualified Unhedged Currency and acquired in the Primary Market, within 180 calendar days of the settlement date of acquisition thereof and (ii) otherwise, the settlement date thereof, pursuant to the terms of which the initial principal exchange is made in connection with funding the Issuer's acquisition of the related Non-Euro Obligation and the final and, if applicable, interim principal exchanges are made to convert the principal proceeds received in respect thereof at maturity and prior to maturity, respectively and coupon exchanges are made at the exchange rate specified for such transaction.

Subject to the satisfaction of the Hedging Condition, the Issuer (or the Collateral Manager on its behalf) may enter into transactions documented under a 1992 Master Agreement (Multicurrency – Cross Border) or 2002 Master Agreement, in each case, as published by the International Swaps and Derivatives Association, Inc. ("ISDA") or such other form published by ISDA. Each Hedge Transaction will be evidenced by a confirmation entered into pursuant to a Hedge Agreement.

Each Hedge Transaction will be for the purposes of:

- (a) in the case of an Interest Rate Hedge Transaction, hedging any interest rate mismatch between the Rated Notes and the Collateral Debt Obligations; and
- (b) in the case of a Currency Hedge Transaction, exchanging payments of principal, interest and other amounts in respect of any Non-Euro Obligation for amounts denominated in Euros at the Currency Hedge Transaction Exchange Rate,

in each case subject to receipt of Rating Agency Confirmation in respect thereof (save in the case of a Form Approved Hedge) and provided that the Hedge Counterparty satisfies the applicable Rating Requirement upon the date of entry into such Hedge Transaction (taking into account any relevant guarantor thereof) and any applicable regulatory capacity to enter into derivatives transactions with Irish residents. If, following the receipt of Rating Agency Confirmation in respect of a Hedge Transaction or approval from the Rating Agencies of a Form Approved Hedge, but prior to entry by the Issuer (or the Collateral Manager on its behalf) into such Hedge Transaction or a Hedge Transaction constituting a Form Approved Hedge, as applicable, the relevant S&P or Fitch counterparty criteria change and S&P's and/or Fitch notify the Issuer or the Collateral Manager that a previously given Rating Agency Confirmation or approval has been withdrawn, the Collateral Manager (on behalf of the Issuer) will be required to seek a further Rating Agency Confirmation or approval, as applicable, in respect of any subsequent Hedge Transactions documented thereby.

For the avoidance of doubt, the ability of the Issuer or the Collateral Manager on its behalf to enter into any Currency Hedge Transactions, and therefore the ability of the Issuer or the Collateral Manager on its behalf to acquire Non-Euro Obligations, is subject to the satisfaction of the Hedging Condition. Provided that, in accordance with the Portfolio Profile Tests, the Issuer may hold a maximum of 2.5 per cent. of the Aggregate Collateral Balance as Unhedged Collateral Debt Obligations.

In accordance with the Portfolio Profile Tests, the Issuer may hold a maximum of 5.0 per cent. of the Aggregate Collateral Balance as Fixed Rate Collateral Debt Obligations or, in relation to a Fitch Test Matrix selected by the Collateral Manager where such Fitch Test Matrix applies a maximum percentage of the Aggregate Collateral Balance that can comprise Fixed Rate Collateral Debt Obligations, such lower percentage calculated in accordance with the provisions set out in the section of this Offering Circular entitled "*The Portfolio — Portfolio Profile Tests and Collateral Quality Tests — Fitch Test Matrices*".

Replacement Hedge Transactions

Currency Hedge Transactions: In the event that any Currency Hedge Transaction terminates in whole at any time in circumstances in which the applicable Currency Hedge Counterparty is the Defaulting Hedge Counterparty, the Issuer (or the Collateral Manager on its behalf) shall use commercially reasonable endeavours to enter into a replacement Currency Hedge Transaction within 30 calendar days of the termination thereof with another counterparty in compliance with the applicable Rating Requirement and which has the Irish regulatory capacity to enter into derivatives transactions with the Irish residents.

Interest Rate Hedge Transactions: In the event that any Interest Rate Hedge Transaction terminates in whole at any time in circumstances in which the applicable Interest Rate Hedge Counterparty is the Defaulting Hedge Counterparty, the Issuer (or the Collateral Manager on its behalf) shall use commercially reasonable endeavours to enter into a replacement Interest Rate Hedge Transaction within 30 calendar days of the termination thereof with another counterparty in compliance with the applicable Rating Requirement and which has the Irish regulatory capacity to enter into derivatives transactions with Irish residents.

Standard Terms of Currency Hedge Transactions

Any Currency Hedge Transaction shall contain the following terms (provided that the Issuer may enter into Currency Hedge Transactions on different terms than those set forth below, subject to receipt of Rating Agency Confirmation in respect thereof or without Rating Agency Confirmation if such Currency Hedge Transactions constitute Form Approved Hedges):

- (a) on the effective date of entry into such transaction, the Issuer pays to the Currency Hedge Counterparty an initial exchange amount in Euros equal to the purchase price of such Non-Euro Obligation, converted into Euros at the Currency Hedge Transaction Exchange Rate in exchange for payment by the Currency Hedge Counterparty of an initial exchange amount in the relevant currency equal to the purchase price of such Non-Euro Obligation;
- (b) on the scheduled date of termination of such transaction, which shall be the date falling two Business Days after the date on which the Non-Euro Obligation is scheduled to mature or such later date as otherwise specified in the relevant confirmation, the Issuer pays to the Currency Hedge Counterparty a final exchange amount equal to the amount payable upon maturity of the Non-Euro Obligation in the relevant currency (the "**Proceeds on Maturity**") in exchange for payment by the Currency Hedge Counterparty of a final exchange amount denominated in Euros, such final exchange amount to be an amount equal to the Proceeds on Maturity converted into Euros at the Currency Hedge Transaction Exchange Rate;
- (c) two Business Days following the date of each scheduled payment of interest on the related Non-Euro Obligation or such later date as otherwise specified in the relevant confirmation, the Issuer pays to the Currency Hedge Counterparty an amount in the relevant non-Euro currency based on the then outstanding principal amount of the relevant Non-Euro Obligation (the "**Non-Euro Notional Amount**") and the Currency Hedge Counterparty will pay to the Issuer a EURIBOR-linked amount based on the then outstanding principal amount of the related Non-Euro Obligation converted into Euros at the Currency Hedge Transaction Exchange Rate (the "**Euro Notional Amount**"); and

- (d) upon the sale of any Non-Euro Obligation, the Currency Hedge Transaction relating thereto shall be terminated on or around the date of such sale in accordance with its terms, resulting in either (i) the Currency Hedge Counterparty receiving the proceeds of the sale of the Non-Euro Obligation from the Issuer (which shall be funded outside the Priorities of Payment from the Relevant Currency Account) and such Currency Hedge Counterparty returning the Sale Proceeds (in accordance with paragraph (b) of the definition thereof) to the Issuer (which shall be credited to the Principal Account); or (ii) the Issuer retaining the proceeds of sale of the Non-Euro Obligation and either receiving a payment from the Currency Hedge Counterparty or making a payment to the Currency Hedge Counterparty out of such sale proceeds in connection with the termination of the Currency Hedge Transaction as required under the applicable Hedge Agreement (any amount so received by the Issuer to be converted into Euros at the Applicable Exchange Rate and paid into the Principal Account in accordance with the Conditions).

The Collateral Manager, acting on behalf of the Issuer, shall convert all amounts received by it in respect of any Non-Euro Obligation which is not the subject of a related Currency Hedge Transaction into Euros promptly upon receipt thereof at the Applicable Exchange Rate and shall procure that such amounts are paid into the Principal Account or the Interest Account, as applicable. The Collateral Manager (on behalf of the Issuer) is also authorised to enter into spot exchange transactions, as necessary, to fund the Issuer's payment obligations under any Currency Hedge Transaction.

All amounts received by the Issuer in respect of Non-Euro Obligations shall be paid into the appropriate Currency Account and all amounts payable by the Issuer under any Currency Hedge Transaction (other than any initial exchange amounts payable in Euros by the Issuer, any Hedge Replacement Payments (in respect of any Currency Hedge Transaction) and any Currency Hedge Issuer Termination Payments save to the extent otherwise provided in Condition 3(j)(x) (*Currency Accounts*)), will be paid out of the appropriate Currency Account, in each case to the extent amounts are available therein.

Without prejudice to the rights of the relevant Currency Hedge Counterparty under the Currency Hedge Agreement, the Issuer shall only be obliged to pay Scheduled Periodic Currency Hedge Issuer Payments to a Currency Hedge Counterparty if and to the extent it actually receives the corresponding amount in respect of the relevant Non-Euro Obligation.

Upon the insolvency of the Issuer and/or the acceleration of the Notes in accordance with Condition 10(b) (*Acceleration*), the Currency Hedge Counterparty may, but shall not be obliged to, terminate any or all Currency Hedge Transactions in which case any Currency Hedge Issuer Termination Payment would be paid (following acceleration of the Notes) in accordance with Condition 10(b) (*Acceleration*) and the Post-Acceleration Priority of Payments.

Standard Terms of Hedge Agreements

Each Hedge Agreement entered into by or on behalf of the Issuer shall contain the following standard provisions, save to the extent that any change thereto is agreed by the applicable Hedge Counterparty and subject to receipt of Rating Agency Confirmation in respect thereof or such Hedge Agreement being a Form Approved Hedge.

Gross up

Under each Hedge Agreement the Issuer will not be obliged to gross up any payments thereunder, however the applicable Hedge Counterparty may in certain circumstances be obliged to gross up a payment thereunder in the event of any withholding or deduction for or on account of Tax required to be paid on such payments provided that any withholding or deduction for or on account of FATCA may be excluded from such gross-up obligations. Any such event may however result in a "Tax Event" which is a "Termination Event" for the purposes of the relevant Hedge Agreement. In the event of the occurrence of a Tax Event (as defined in such Hedge Agreement), each Hedge Agreement will include provision for the relevant Affected Party (as defined therein) to use reasonable endeavours to (i) (in the case of the Hedge Counterparty) arrange for a transfer of all of its interests and obligations under the Hedge Agreement and all Transactions (as defined in the Hedge Agreement) thereunder to an Affiliate

that is incorporated in another jurisdiction so as to avoid the requirement to withhold or deduct for or on account of Tax; or (ii) (in the case of the Issuer) if a substitute principal obligor under the Notes has been substituted for the Issuer in accordance with Condition 9 (*Taxation*), arrange for a transfer of all of its interest and obligations under the Hedge Agreement and all Transactions thereunder to that substitute principal obligor so as to avoid the requirement to withhold or deduct for or on account of Tax subject to satisfaction of the conditions specified therein (including receipt of Rating Agency Confirmation).

Limited Recourse and Non-Petition

The obligations of the Issuer under each Hedge Agreement will be limited to the proceeds of enforcement of the Collateral as applied in accordance with the Priorities of Payment set out in Condition 3(c) (*Priorities of Payment*); provided that any Counterparty Downgrade Collateral standing to the credit of a Counterparty Downgrade Collateral Account shall be applied and delivered by the Issuer (or by the Collateral Manager on its behalf) in accordance with Condition 3(j)(v) (*Counterparty Downgrade Collateral Accounts*). The Issuer will have the benefit of non-petition language similar to the language set out in Condition 4(c) (*Limited Recourse*).

Termination Provisions

Each Hedge Agreement may terminate by its terms, whether or not the Notes have been paid in full prior to such termination, upon the earlier to occur of certain events, including but not limited to:

- (a) certain events of bankruptcy, insolvency, receivership or reorganisation of the Issuer or the related Hedge Counterparty;
- (b) failure on the part of the Issuer or the related Hedge Counterparty to make any payment under the applicable Hedge Agreement after taking into account the applicable grace period;
- (c) a change in law making it illegal for either the Issuer or the related Hedge Counterparty to be a party to, or perform its obligations under, the applicable Hedge Agreement;
- (d) in certain circumstances, upon a regulatory change or change in the regulatory status of the Issuer, as further described in the relevant Hedge Agreement;
- (e) any amendment to any provisions of the Transaction Documents without the written consent of the Hedge Counterparty which has a material adverse effect on its rights or obligations thereunder, subject to the terms of the relevant Hedge Agreement;
- (f) failure by a Hedge Counterparty to comply with the requirements of the Rating Agencies in the event that it (or, as relevant, its guarantor) is subject to a rating withdrawal or downgrade by the Rating Agencies to below the applicable Rating Requirement;
- (g) upon the early redemption in full or acceleration of the Notes; and
- (h) any other event as specified in the relevant Hedge Agreement.

A termination of a Hedge Agreement or a Hedge Transaction does not constitute an Event of Default under the Notes though the repayment in full of the Notes may be an additional termination event under a Hedge Agreement or a Hedge Transaction.

A Hedge Agreement may also contain provisions which allow a Hedge Counterparty to terminate a Hedge Transaction upon the occurrence of certain credit events or restructurings related to the underlying Non-Euro Obligation. These events could potentially be triggered in circumstances where the related Collateral Debt Obligation would not constitute a Defaulted Obligation.

Upon the occurrence of any Event of Default or Termination Event (each as defined in the applicable Hedge Agreement), a Hedge Agreement may be terminated by the Hedge Counterparty or the Issuer (or the Collateral Manager on its behalf) in accordance with the detailed provisions thereof and a lump sum (the "**Termination Payment**") may become payable by the Issuer to the applicable Hedge Counterparty or vice versa. Such Termination Payment will be determined by the applicable Hedge Counterparty and/or Issuer (or the Collateral Manager on its behalf) by reference to market quotations obtained in respect of the entry into of a replacement swap(s) on the same terms as that terminated, any loss suffered by a party or as otherwise described in the applicable Hedge Agreement.

Rating Downgrade Requirements

Each Hedge Agreement shall contain the terms and provisions required by the Rating Agencies for the type of derivative transaction represented by the Hedge Transactions in the event that the Hedge Counterparty (or, as relevant, its guarantor) is subject to a rating withdrawal or downgrade by the Rating Agencies to below the applicable Rating Requirement. Such provisions may include a requirement that a Hedge Counterparty must post collateral or transfer the Hedge Agreement to another entity meeting the applicable Rating Requirement or procure that a guarantor meeting the applicable Rating Requirement guarantees its obligations under the Hedge Agreement or take other actions subject to Rating Agency Confirmation.

Transfer and Modification

The Collateral Manager, acting on behalf of the Issuer, may not modify any Hedge Transaction or Hedge Agreement without Rating Agency Confirmation in relation to such modification, save to the extent that it would constitute a Form Approved Hedge following such modification. A Hedge Counterparty may transfer its rights and obligations under a Hedge Agreement to any institution which (or whose credit support provider (as defined in the applicable Hedge Agreement)) satisfies the applicable Rating Requirement and provided that such institution has the regulatory capacity to enter into derivatives transactions with Irish residents.

Any of the requirements set out herein may be modified in order to meet any new or additional requirements of any Rating Agency then rating any Class of Notes.

Governing Law

Each Hedge Agreement together with each Hedge Transaction thereunder, in each case including any non-contractual obligations arising out of or in relation thereto, will be governed by, and construed in accordance with, the laws of England.

Reporting of Specified Hedging Data

The Collateral Manager, on behalf of the Issuer, may from time to time enter into agreements with Hedge Counterparties (each a "**Reporting Agreement**") in a form approved by the Rating Agencies for the provision by the Issuer (or the Collateral Manager on its behalf) of certain information in connection with the performance by such Hedge Counterparty of certain derivative transaction reporting obligations.

The Collateral Administrator shall, subject to and in accordance with the Collateral Management Agreement, procure that any event based disclosure as required by Article 7(1)(f) and (g) (as applicable) of the Securitisation Regulation is made via the Reporting Website which shall be accessible to any competent authority or any person who certifies to the Collateral Administrator that it is a Relevant Report Recipient.

Miscellaneous

Each report shall state that it is for the purposes of information only, that certain information included in the report is estimated, approximated or projected and that it is provided without any representations or warranties as to the accuracy or completeness thereof and that none of the Collateral Administrator, the Trustee, the Issuer or the Collateral Manager will have any liability for estimates, approximations or projections contained therein.

In addition, the Collateral Administrator shall provide the Issuer with such other information and in such a format relating to the Portfolio as the Issuer may reasonably request and which is in the possession of the Collateral Administrator, in order for the Issuer to satisfy its obligation to make certain filings of information with the Central Bank and in respect of the preparation of its financial statements and tax returns.

Each report shall state that each of the defined terms set out in Condition 1 (*Definitions*), which are set out in full in this Offering Circular and the Trust Deed, are incorporated by reference into the Reports together with the

definitions of any technical terms which are used in the Reports and not so defined in this Offering Circular or Trust Deed (as provided to the Collateral Administrator by the Issuer (or the Collateral Manager on its behalf)).

Additional Reporting Definitions

In addition, the following defined terms are incorporated into the Monthly Reports and the Payment Date Reports:

"Assigned Moody's Rating" means the monitored publicly available rating or the estimated rating or the unpublished monitored loan rating, in each case expressly assigned to a debt obligation (or facility) by Moody's that addresses the full amount of the principal and interest promised.

"CFR" means, with respect to an obligor of a Collateral Debt Obligation, if such obligor has a corporate family rating by Moody's, then such corporate family rating; provided, if such obligor does not have a corporate family rating by Moody's but any entity in the obligor's corporate family does have a corporate family rating, then the CFR is such corporate family rating.

The **"Diversity Score"** is a single number that indicates collateral concentration and correlation in terms of both issuer and industry concentration and correlation. It is similar to a score that Moody's uses to measure concentration and correlation for the purposes of its ratings. A higher Diversity Score reflects a more diverse portfolio in terms of the issuer and industry concentration. The Diversity Score for the Collateral Debt Obligations is calculated by summing each of the Industry Diversity Scores which are calculated as follows and rounding the result to the nearest whole number (provided that no Defaulted Obligations shall be included in the calculation of the Diversity Score or any component thereof):

- (a) an **"Average Principal Balance"** is calculated by summing the Obligor Principal Balances and dividing by the sum of the aggregate number of issuers and/or borrowers represented;
- (b) an **"Obligor Principal Balance"** is calculated for each Obligor represented in the Collateral Debt Obligations by summing the Principal Balances of all Collateral Debt Obligations (excluding Defaulted Obligations) issued by such Obligor, provided that if a Collateral Debt Obligation has been sold or is the subject of an optional redemption or Offer, and the Sale Proceeds or Unscheduled Principal Proceeds from such event have not yet been reinvested in Substitute Collateral Debt Obligations or distributed to the Noteholders or the other creditors of the Issuer in accordance with the Priorities of Payment, the Obligor Principal Balance shall be calculated as if such Collateral Debt Obligation had not been sold or was not subject to such an optional redemption or Offer;
- (c) an **"Equivalent Unit Score"** is calculated for each Obligor by taking the lesser of (i) one and (ii) the Obligor Principal Balance for such Obligor divided by the Average Principal Balance;
- (d) an **"Aggregate Industry Equivalent Unit Score"** is then calculated for each of the 32 Moody's industrial classification groups by summing the Equivalent Unit Scores for each Obligor in the industry (or such other industrial classification groups and Equivalent Unit Scores as are published by Moody's from time to time);
- (e) an **"Industry Diversity Score"** is then established by reference to the Diversity Score Table shown below (or such other Diversity Score Table as is published by Moody's from time to time) (the **"Diversity Score Table"**) for the related Aggregate Industry Equivalent Unit Score. If the Aggregate Industry Equivalent Unit Score falls between any two such scores shown in the Diversity Score Table, then the Industry Diversity Score is the lower of the two Diversity Scores in the Diversity Score Table; and
- (f) each of the following industrial classification groups is deemed to be "local" in Moody's opinion (**"Local Industry"**):
 - (i) Environmental Industries;
 - (ii) Sovereign & Public Finances;

- (iii) Utilities: Electric;
- (iv) Utilities: Oil & Gas; and
- (v) Utilities: Water.

For the purposes of calculating the Aggregate Industry Equivalent Unit Score, where two or more Local Industries are located in different geographical regions, each such Local Industry will be treated as a separate industry.

For purposes of calculating the Diversity Scores any Obligor's Affiliated with one another will be considered to be one Obligor.

"Moody's Default Probability Rating" means, with respect to any Collateral Debt Obligation, as of any date of determination, the rating determined in accordance with the following methodology:

- (a) if the Obligor of such Collateral Debt Obligation has a CFR, then such CFR;
- (b) if not determined pursuant to paragraph (a) above, if the Obligor of such Collateral Debt Obligation has one or more senior unsecured obligations with an Assigned Moody's Rating, then the Assigned Moody's Rating on such obligation as selected by the Collateral Manager in its sole discretion;
- (c) if not determined pursuant to paragraphs (a) or (b) above, if the Obligor of such Collateral Debt Obligation has one or more senior secured obligations with an Assigned Moody's Rating, then the Moody's rating that is one subcategory lower than the Assigned Moody's Rating on any such senior secured obligation as selected by the Collateral Manager in its sole discretion;
- (d) if not determined pursuant to paragraphs (a), (b), or (c) above, if a rating estimate has been assigned to such Collateral Debt Obligation by Moody's upon the request of the Issuer, the Collateral Manager or an Affiliate of the Collateral Manager, then the Moody's Default Probability Rating is such rating estimate as long as such rating estimate or a renewal for such rating estimate has been issued or provided by Moody's in each case within the 15 month period preceding the date on which the Moody's Default Probability Rating is being determined; provided, that if such rating estimate has been issued or provided by Moody's for a period (x) longer than 12 months but not beyond 15 months, the Moody's Default Probability Rating will be one subcategory lower than such rating estimate and (y) beyond 15 months, the Moody's Default Probability Rating will be deemed to be "Caa3";
- (e) if not determined pursuant to paragraphs (a), (b), (c) or (d) above, the Moody's Derived Rating; and
- (f) if not determined pursuant to paragraph (a), (b), (c), (d) or (e) above, the Collateral Debt Obligation will be deemed to have a Moody's Default Probability Rating of "Caa3".

"Moody's Derived Rating" means, with respect to a Collateral Debt Obligation whose Moody's Rating or Moody's Default Probability Rating is determined as the Moody's Derived Rating, the rating as determined in the manner set forth below:

- (a) with respect to any Corporate Rescue Obligation, the Moody's Rating or Moody's Default Probability Rating of such Collateral Debt Obligation shall be the rating which is one subcategory below the facility rating (whether public or private) of such Corporate Rescue Obligation or Current Pay Obligation, as applicable, rated by Moody's;
- (b) if not determined pursuant to paragraph (a) above, then by using any one of the methods provided below:
 - (i) pursuant to the table below:

Type of Collateral Debt Obligation	S&P Rating (Public and Monitored)	Collateral Debt Obligation Rated by S&P	Number of Subcategories Relative to Moody's Equivalent of S&P Rating
Not Structured Finance Obligation	"BBB-"	Not a Loan or Participation Interest in Loan	-1
Not Structured Finance Obligation	"BB+"	Not a Loan or Participation Interest in Loan	-2
Not Structured Finance Obligation		Loan or Participation Interest in Loan	-2

- (ii) or, if such Collateral Debt Obligation is a Corporate Rescue Obligation, no Moody's Derived Rating may be determined based on a rating by S&P or any other rating agency; provided, that the Aggregate Principal Balance of the Collateral Debt Obligations that may have a Moody's Rating derived from an S&P Rating as set forth in sub-paragraphs (i) or (ii) of this paragraph (b) may not exceed 10 per cent. of the Aggregate Collateral Balance; and
- (c) if not determined pursuant to paragraphs (a) or (b) above and such Collateral Debt Obligation is not rated by Moody's or S&P and no other security or obligation of the issuer of such Collateral Debt Obligation is rated by Moody's or S&P, and if Moody's has been requested by the Issuer, the Collateral Manager or the issuer of such Collateral Debt Obligation to assign a rating or rating estimate with respect to such Collateral Debt Obligation but such rating or rating estimate has not been received, pending receipt of such estimate, the Moody's Derived Rating of such Collateral Debt Obligation for purposes of the definitions of Moody's Rating or Moody's Default Probability Rating shall be: (i) "B3" if the Collateral Manager confirms to the Trustee and the Collateral Administrator that the Collateral Manager believes that such estimate shall be at least "B3" and if the Aggregate Principal Balance of Collateral Debt Obligations determined pursuant to this paragraph (c) and paragraph (a) above does not exceed 5 per cent. of the Aggregate Collateral Balance; or (ii) otherwise, "Caa3".

"Moody's Rating" means:

- (a) with respect to a Collateral Debt Obligation that is a Senior Secured Loan or Senior Secured Bond:
- (i) if such Collateral Debt Obligation has an Assigned Moody's Rating, such Assigned Moody's Rating;
 - (ii) if such Collateral Debt Obligation does not have an Assigned Moody's Rating but the Obligor of such Collateral Debt Obligation has a CFR, then the Moody's rating that is one subcategory higher than such CFR;
 - (iii) if neither sub-paragraph (i) nor (ii) above apply, if such Collateral Debt Obligation does not have an Assigned Moody's Rating but the obligor of such Collateral Debt Obligation has one or more senior unsecured obligations with an Assigned Moody's Rating, then the Moody's rating that is two subcategories higher than the Assigned Moody's Rating on any such obligation as selected by the Collateral Manager in its sole discretion;
 - (iv) if none of sub-paragraphs (i) through (iii) above apply, at the election of the Collateral Manager, the Moody's Derived Rating; and
 - (v) if none of sub-paragraphs (i) through (iv) above apply, the Collateral Debt Obligation will be deemed to have a Moody's Rating of "Caa3"; and
- (b) with respect to a Collateral Debt Obligation other than a Senior Secured Loan or Senior Secured Bond:
- (i) if such Collateral Debt Obligation has an Assigned Moody's Rating, such Assigned Moody's Rating;

- (ii) if such Collateral Debt Obligation does not have an Assigned Moody's Rating but the obligor of such Collateral Debt Obligation has one or more senior unsecured obligations with an Assigned Moody's Rating, then the Assigned Moody's Rating on any such obligation as selected by the Collateral Manager in its sole discretion;
- (iii) if neither sub-paragraph (i) nor (ii) above apply, if such Collateral Debt Obligation does not have an Assigned Moody's Rating but the obligor of such Collateral Debt Obligation has a CFR, then the Moody's rating that is one subcategory lower than such CFR;
- (iv) if none of paragraphs (i), (ii) or (iii) above apply, if such Collateral Debt Obligation does not have an Assigned Moody's Rating but the obligor of such Collateral Debt Obligation has one or more subordinated debt obligations with an Assigned Moody's Rating, then the Moody's rating that is one subcategory higher than the Assigned Moody's Rating on any such obligation as selected by the Collateral Manager in its sole discretion;
- (v) if none of sub-paragraphs (i) through (iv) above apply, at the election of the Collateral Manager, the Moody's Derived Rating; and
- (vi) if none of sub-paragraphs (i) through (v) above apply, the Collateral Debt Obligation will be deemed to have a Moody's Rating of "Caa3".

The "**Moody's Rating Factor**" relating to any Collateral Debt Obligation is the number set forth in the table below opposite the Moody's Default Probability Rating of such Collateral Debt Obligation.

Moody's Default Probability Rating	Moody's Rating Factor	Moody's Default Probability Rating	Moody's Rating Factor
Aaa	1	Ba1	940
Aa1	10	Ba2	1,350
Aa2	20	Ba3	1,766
Aa3	40	B1	2,220
A1	70	B2	2,720
A2	120	B3	3,490
A3	180	Caa1	4,770
Baa1	260	Caa2	6,500
Baa2	360	Caa3	8,070
Baa3	610	Ca or lower	10,000

The "**Moody's Weighted Average Rating Factor**" is determined by summing the products obtained by multiplying the Principal Balance of each Collateral Debt Obligation, excluding Defaulted Obligations, by its Moody's Rating Factor, dividing such sum by the Aggregate Principal Balances of all such Collateral Debt Obligations, excluding Defaulted Obligations, and rounding the result down to the nearest whole number.

"**Relevant Report Recipient**" means (a) in relation to the Monthly Reports and the Payment Date Reports, the Issuer, the Trustee, the Collateral Manager, the Placement Agent, a Hedge Counterparty, a Rating Agency, a Noteholder, Intex or Bloomberg; and (b) in relation to the Portfolio Reports, the Investor Reports and the reports relating to Significant Events and Inside Information, the Issuer, the Trustee, the Collateral Manager, the Placement Agent, a Hedge Counterparty, a Rating Agency, a Noteholder, Intex, Bloomberg and a potential investor in the Notes or a competent authority (as determined under the Securitisation Regulation).

Modifications or amendments

The Collateral Manager may, at its sole discretion, modify or amend the Moody's Weighted Average Rating Factor and/or the Diversity Score or any of the other definitions under this Additional Reporting Definitions section which affect the calculation thereof or make any modifications or amendments thereto required to reflect any changes in the methodology applied by Moody's.

TAX CONSIDERATIONS

1. General

Purchasers of Notes may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of purchase in addition to the issue price of each Note.

Potential purchasers who are in any doubt about their tax position on purchase, ownership, transfer or exercise of any Note should consult their own tax advisers. Potential investors should be aware that the relevant fiscal rules or their interpretation may change, possibly with retrospective effect, and that this summary is not exhaustive. This summary does not constitute legal or tax advice or a guarantee to any potential investor of the tax consequences of investing in the Notes.

2. Irish Taxation

The following is a summary of certain Irish tax consequences of the purchase, ownership and disposition of the Notes. The summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes. The summary relates only to the position of persons who are the absolute beneficial owners of the Notes and may not apply to certain other classes of persons such as dealers in securities.

The summary is based upon Irish tax laws and the practice of the Irish Revenue Commissioners as in effect on the date of this Offering Circular, which are subject to prospective or retroactive change. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Notes should consult their own advisors as to the Irish or other tax consequences of the purchase, beneficial ownership and disposition of the Notes including, in particular, the effect of any state or local tax laws.

Withholding Tax

In general, tax at the standard rate of income tax (currently 20 per cent.), is required to be withheld from payments of Irish source interest which should include interest payable on the Notes.

The Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on a Note so long as it is a qualifying company (within the meaning of Section 110) and the interest paid on the relevant Note does not come within one of the following categories:

a) Interest paid on a quoted Eurobond: The Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on a Note where:

i. the Notes are quoted Eurobonds i.e. securities which are issued by a company (such as the Issuer), which are listed on a recognised stock exchange (such as the Global Exchange Market of Euronext Dublin) and which carry a right to interest; and

ii. the person by or through whom the payment is made is not in Ireland; or if such person is in Ireland, either:

A. the Notes are held in a clearing system recognised by the Irish Revenue Commissioners (Euroclear and Clearstream, Luxembourg are, amongst others, so recognised); or

B. the person who is the beneficial owner of the Notes and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to a relevant person (such as a paying agent located in Ireland) in the prescribed form; and

iii. one of the following conditions is satisfied:

A. the Noteholder is resident for tax purposes in Ireland; or

B. the Noteholder is subject, without any reduction computed by reference to the amount of such interest, premium or other distribution, to a tax in a relevant territory which generally applies to profits, income or gains received in that territory, by persons, from sources outside that territory; or

C. the Noteholder is not a company which, directly or indirectly, controls the Issuer, is controlled by the Issuer, or is controlled by a third company which also directly or indirectly controls the Issuer, and neither the Noteholder, nor any person connected with the Noteholder, is a person or persons:

1. from whom the Issuer has acquired assets;

2. to whom the Issuer has made loans or advances;

3. to whom loans or advances held by the Issuer were made; or

4. with whom the Issuer has entered into a swap agreement;

where the aggregate value of such assets, loans, advances or swap agreements represents not less than 75 per cent. of the assets of the Issuer (such a person falling within this category of person being a specified person);

As regards the definition of specified person, a person will be deemed to have control of the Issuer where they have the power to secure that the affairs of the Issuer are conducted in accordance with their wishes. No Noteholder should have such power merely by being a Noteholder. Finance Act 2019 has extended the definition of control. A person who has the ability to participate in the financial and operating decisions of the Issuer will be deemed to "control" the Issuer where they also hold over 20% of the principal value of, or 20% of the interest payable in respect of, any Notes which carry a results dependent return or a return which is not a commercially reasonable amount. Where interest is affected by these rules, it is treated as a distribution which is not deductible for tax purposes and thus will, form part of the taxable profits of the Issuer. It may also be subject to withholding tax, subject to any available exemptions.

or

D. at the time of issue of the Notes, the Issuer was not in possession, or aware, of any information which could reasonably be taken to indicate whether or not the beneficial owner of the Notes would be subject to tax on any interest payments,

where the term:

"relevant territory" means a member state of the European Union (other than Ireland) or a country with which Ireland has signed a double tax treaty ("Relevant Territory"); and

"swap agreement" means any agreement, arrangement or understanding that—

iv. provides for the exchange, on a fixed or contingent basis, of one or more payments based on the value, rate or amount of one or more interest or other rates, currencies, commodities, securities, instruments of indebtedness, indices, quantitative measures, or other financial or economic interests or property of any kind, or any interest therein or based on the value thereof, and

v. transfers to a person who is a party to the agreement, arrangement or understanding or to a person connected with that person, in whole or in part, the financial risk associated with a future change in any such value, rate or amount without also conveying a current or future direct or indirect ownership interest in an asset (including any enterprise or investment pool) or liability that incorporates the financial risk so transferred.

Thus, so long as the Notes continue to be quoted on the Global Exchange Market of Euronext Dublin, are held in Euroclear and Clearstream, Luxembourg, and one of the conditions set out in paragraph (a)(iii) above is met, interest on the Notes can be paid by any paying agent acting on behalf of the Issuer free of any withholding or deduction for or on account of Irish income tax. If the Notes continue to be quoted but cease to be held in a recognised clearing system, interest on the Notes may be paid without any withholding or deduction for or on account of Irish income tax provided such payment is made through a paying agent outside Ireland and one of the conditions set out in paragraph (a)(iii) above is met.

b) Interest paid by a qualifying company to certain non-residents:

If, for any reason, the exemption referred to above ceases to apply, interest payments may still be made free of withholding tax provided that:

i. the Issuer remains a "qualifying company" as defined in Section 110 and the Noteholder is a person which is resident in a Relevant Territory, and, where the recipient is a body corporate, the interest is not paid to it in connection with a trade or business carried on by it in Ireland through a branch or agency. The test of residence is determined by reference to the law of the Relevant Territory in which the Noteholder claims to be resident. The Issuer must be satisfied that the terms of the exemption are satisfied; and

ii. one of the following conditions is satisfied:

A. the Noteholder is a pension fund, government body or other person which is resident in a Relevant Territory and which, under the laws of that territory, is exempted from tax that corresponds to income tax or corporation tax in Ireland and which generally applies to profits, income or gains in that territory and which is not a company which, directly or indirectly, controls the Issuer, is controlled by the Issuer, or is controlled by a third company which also directly or indirectly controls the Issuer, and neither the holder of the Securities, nor any person connected with the holder of the Securities, is a person or persons: (a) from whom the Issuer has acquired assets; (b) to whom the Issuer has made loans or advances; or (c) with whom the Issuer has entered into a swap agreement, where the aggregate value of such assets, loans, advances or swap agreements represents not less than 75 per cent. of the assets of the Issuer; or

B. the interest is subject, without any reduction computed by reference to the amount of such interest, to a tax in a Relevant Territory which corresponds to income tax or corporation tax in Ireland and which generally applies to profits, income or gains received in that territory, by persons, from sources outside that territory.

Qualifying Companies Holding Irish Specified Mortgages

Section 110(5A) applies to qualifying companies which carry on a business of holding, managing or both holding and managing "specified mortgages", units in an IREF or shares that derive their value, or the greater part of their value from Irish land.

A "specified mortgage" for this purpose is:

- a) a loan which is secured on, and which derives its value from, or the greater part of its value from, directly or indirectly, land in Ireland;
- b) a specified agreement which derives all of its value, or the greater part of its value, directly or indirectly, from land in Ireland or a loan to which paragraph (a) applies. A specified agreement is defined in Section 110 and includes certain derivatives, swaps or similar arrangements. A specified mortgage does not include a specified agreement which derives its value or the greater part of its value from a CLO transaction, a CMBS/RMBS transaction, a loan origination business or a sub-participation transaction (as defined in Section 110); or
- c) any portion of a security issued by another qualifying company which carries on the business of holding or managing specified mortgages and which carries a right to results dependent or non-commercial interest; or

The holding of specified mortgages, (and from 19 October 2017) units in an IREF (within the meaning of Chapter 1B of Part 27 of the TCA) or shares that derive their value, or the greater part of their value from, directly or indirectly land in Ireland is defined as a "specified property business". Where the qualifying company carries on a specified property business in addition to other activities, it must treat the specified property business as a separate business and apportion its expenses on a just and reasonable basis between the separate businesses.

Where the qualifying company has financed itself with loans carrying interest which is dependent on the results of that company's business or interest which represents more than a reasonable commercial return for the use of the principal, or has entered into specified agreements (such as swaps) then the interest or return payable will not be deductible for Irish tax purposes to the extent it exceeds a reasonable commercial return which is not dependent on the results of the qualifying company.

This restriction is subject to a number of exceptions. Transactions which qualify as "CLO transactions" should not be subject to the restrictions described above. A CLO transaction is defined as a securitisation transaction carried out in conformity with:

- a) a prospectus, within the meaning of the Prospectus Directive;
- b) listing particulars, where any securities issued by the qualifying company are listed on an exchange, other than the main exchange, of Ireland or a relevant EU member state; or
- c) where the securities issued by the qualifying company will not be listed on an exchange in Ireland or a relevant EU member state, legally binding documents. In addition, the transaction
 - i. may provide for a warehousing period, which means a period not exceeding 3 years during which time the qualifying company is preparing to issue securities; and
 - ii. provide for investment eligibility criteria that govern the type and quality of assets to be acquired.

Finally, based on the documents referred to in paragraphs (a) to (c) and the activities of the qualifying company, in order for a transaction to be a CLO transaction it must not be reasonable to consider that the

main purpose, or one of the main purposes, of the qualifying company was to acquire specified mortgages.

In order to benefit from the exception, the qualifying company must not carry out any activities, other than activities which are incidental or preparatory to the transaction or business of a CLO transaction.

As such, the restrictions on deductibility should not apply if either:

- a) the Issuer does not hold or manage specified mortgages; or
- b) the Issuer's activities fall within the definition of a CLO transaction.

In addition, the legislation does contain other provisions which could limit or eliminate the restrictions on deductibility depending on the structuring of the transaction.

Encashment Tax

Irish tax will be required to be withheld at the standard rate of income tax (currently 20 per cent.) from interest on any Note, where such interest is collected or realised by a bank or encashment agent in Ireland on behalf of any Noteholder. There is an exemption from encashment tax where the beneficial owner of the interest is not resident in Ireland and has made a declaration to this effect in the prescribed form to the encashment agent or bank..

Income Tax, PRSI and Universal Social Charge

Notwithstanding that a Noteholder may receive interest on the Notes free of withholding tax, the Noteholder may still be liable to pay Irish tax with respect to such interest. Noteholders resident or ordinarily resident in Ireland who are individuals may be liable to pay Irish income tax, social insurance (PRSI) contributions and the universal social charge in respect of interest they receive on the Notes.

Interest paid on the Notes may have an Irish source and therefore may be within the charge to Irish income tax, notwithstanding that the Noteholder is not resident in Ireland. In the case of Noteholders who are non-resident individuals such Noteholders may also be liable to pay the universal social charge in respect of interest they receive on the Notes.

Ireland operates a self-assessment system in respect of tax and any person, including a person who is neither resident nor ordinarily resident in Ireland, with Irish source income comes within its scope.

There are a number of exemptions from Irish income tax available to certain non-residents. Firstly, interest payments made by the Issuer are exempt from income tax so long as the Issuer is a qualifying company for the purposes of Section 110, the recipient is not resident in Ireland and is resident in a Relevant Territory and, the interest is paid out of the assets of the Issuer. Secondly, interest payments made by the Issuer in the ordinary course of its trade or business to a company are exempt from income tax provided the recipient company is not resident in Ireland and is either resident for tax purposes in a Relevant Territory which imposes a tax that generally applies to interest receivable in that territory by companies from sources outside that territory or the interest is exempted from the charge to Irish income tax under the terms of a double tax agreement which is either in force or which will come into force once all ratification procedures have been completed. Thirdly, interest paid by the Issuer free of withholding tax under the quoted Eurobond exemption is exempt from income tax where the recipient is a person not resident in Ireland and resident in a relevant territory or is a company which is under the control, whether directly or indirectly, of person(s) who by virtue of the law of a relevant territory are resident for the purposes of tax in a relevant territory and is not under the control of person(s) who are not so resident or is a company where the principal class of shares of the company or its 75% parent is substantially and regularly traded on a recognised stock exchange. For the purpose of these exemptions and where not

specified otherwise, residence is determined under the terms of the relevant double taxation agreement or, in any other case, the law of the country in which the recipient claims to be resident. Interest falling within the above exemptions is also exempt from the universal social charge.

Notwithstanding these exemptions from income tax, a corporate recipient that carries on a trade in Ireland through a branch or agency in respect of which the Notes are held or attributed, may have a liability to Irish corporation tax on the interest.

Relief from Irish income tax may also be available under the specific provisions of a double tax treaty between Ireland and the country of residence of the recipient.

Interest on the Notes which does not fall within the above exemptions is within the charge to income tax, and, in the case of Noteholders who are individuals, the charge to the universal social charge. In the past the Irish Revenue Commissioners have not pursued liability to income tax in respect of persons who are not regarded as being resident in Ireland except where such persons have a taxable presence of some sort in Ireland or seek to claim any relief or repayment in respect of Irish tax. However, there can be no assurance that the Irish Revenue Commissioners will apply this treatment in the case of any Noteholder.

Capital Gains Tax

A holder of Notes will not be subject to Irish tax on capital gains on a disposal of Notes unless (i) such holder is either resident or ordinarily resident in Ireland or (ii) such holder carries on a trade or business in Ireland through a branch or agency in respect of which the Notes were used or held or (iii) the Notes cease to be listed on a stock exchange in circumstances where the Notes derive their value or more than 50% of their value from Irish real estate, mineral rights or exploration rights.

Capital Acquisitions Tax

A gift or inheritance comprising Notes will be within the charge to capital acquisitions tax (which subject to available exemptions and reliefs, is currently levied at 33 per cent) if either (i) the donor or the donee/successor in relation to the gift or inheritance is resident or ordinarily resident in Ireland (or, in certain circumstances, if the donor is domiciled in Ireland irrespective of his residence or that of the donee/successor) on the relevant date or (ii) if the Notes are regarded as property situate in Ireland (i.e. if the Notes are physically located in Ireland or if the register of the Notes is maintained in Ireland).

Stamp Duty

No stamp duty or similar tax is imposed in Ireland (on the basis of an exemption provided for in Section 85(2)(c) of the Irish Stamp Duties Consolidation Act, 1999 so long as the Issuer is a qualifying company for the purposes of Section 110 and the proceeds of the Notes are used in the course of the Issuer's business), on the issue, transfer or redemption of the Notes.

2.1 Automatic Exchange of information

Irish reporting financial institutions, which may include the Issuer have reporting obligations in respect of a Noteholder under FATCA as implemented pursuant to the Ireland-U.S. intergovernmental agreement and/or the OECD's Common Reporting Standard (see below).

2.2 FATCA

On 21 December 2012 Ireland signed an Intergovernmental Agreement the ("IGA") with the United States to Improve International Tax Compliance and to Implement FATCA. Under this agreement Ireland agreed to implement legislation to collect certain information in connection with FATCA and the Irish and U.S. tax authorities have agreed to automatically exchange this information. The IGA provides for

the annual automatic exchange of information in relation to accounts and investments held by certain U.S. persons in a broad category of Irish financial institutions and vice versa. The IGA is of a type commonly known as a "model 1" agreement. In July 2014, Ireland enacted Financial Accounts Reporting (United States of America) Regulations 2014 (the "**Irish FATCA Regulations**") which came into operation on 1 July 2014.

Under the IGA and the Irish FATCA Regulations implementing the information disclosure obligations Irish reporting financial institutions are required to report certain information with respect to U.S. account holders to the Irish Revenue Commissioners. The Irish Revenue Commissioners will automatically provide that information annually to the IRS. The Issuer expects to be treated as a "reporting financial institution" for FATCA purposes and intends to carry on its business in such a way as to ensure that it is treated as complying with FATCA pursuant to the terms of the IGA and the Irish FATCA Regulations. Unless an exemption applies, the Issuer shall be required to register with the US Internal Revenue Service as a "reporting financial institution" for FATCA purposes. In order for the Issuer to comply with its FATCA obligations it will be required to report certain information to the Irish Revenue Commissioners relating to Noteholders who, for FATCA purposes, are specified US persons, non-participating financial institutions or passive non-financial foreign entities that are controlled by specified US persons. Any information reported by the Issuer to the Irish Revenue Commissioners will be communicated to the US Internal Revenue Service pursuant to the IGA. It is possible that the Irish Revenue Commissioners may also communicate this information to other tax authorities pursuant to the terms of any applicable double tax treaty, intergovernmental agreement or exchange of information regime.

The Issuer or its agents shall be entitled to require Noteholders to provide any information regarding their FATCA status, identity or residency required by the Issuer to satisfy its FATCA obligations. Noteholders will be deemed, by their subscription for or holding of Notes to have authorised the automatic disclosure of such information by the Issuer or any other authorised person to the relevant tax authorities.

The Issuer should not generally be subject to FATCA withholding tax in respect of its US source income for so long as it complies with its FATCA obligations. However, FATCA withholding tax may arise on US source payments to the Issuer if the Issuer does not comply with its FATCA registration and reporting obligations and the US Internal Revenue Service specifically identified the Issuer as being a 'non-participating financial institution' for FATCA purposes. In addition, the Issuer may be unable to comply with its FATCA obligations if Noteholders do not provide the required certifications or information. If Noteholders do not provide the required certifications or information, the Issuer may withhold amounts otherwise distributable to the Noteholders or compel Noteholders to sell their Notes, in accordance with Condition 2(i) (*Forced Sale pursuant to FATCA*).

If an amount in respect of FATCA withholding were to be deducted or withheld either from amounts due to the Issuer or from interest, principal or other payments made in respect of the Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding. As a result, investors may receive less interest or principal than expected. It should be noted that the Irish Regulations require the collection of information and filing of returns with the Irish Revenue Commissioners regardless as to whether the Issuer holds any U.S. assets or has any U.S. investors. However to the extent that the Notes are listed on a recognised stock exchange and regularly traded (i.e. listed with the intention that the interests may be traded) and/or are held in a recognised clearing system the Issuer should have no reportable accounts in a tax year. In that event the Issuer, if an Irish reporting financial institution, will make a nil return for that year to the Irish Revenue Commissioners. Where the Notes do not satisfy the 'regularly traded' requirement and are not, or are no longer held, in a clearing system then the Issuer will need to report annually on its US reportable accounts to the extent it has any. In this regard it will need to have a way of having the requisite information collected on its behalf.

Noteholders should obtain independent tax advice in relation to the potential impact of FATCA before investing.

2.3 The Common Reporting Standard

The common reporting standard framework was first released by the OECD in February 2014 as a result of the G20 members endorsing a global model of automatic exchange of information in order to increase international tax transparency. On 21 July 2014, the Standard for Automatic Exchange of Financial Account Information in Tax Matters was published by the OECD and this includes the Common Reporting Standard (the "**CRS**"). The goal of the CRS is to provide for the annual automatic exchange between governments of financial account information reported to them by local reporting financial institutions (as defined) ("**FIs**") relating to account holders who are tax resident in other participating jurisdictions.

Directive 2014/107/EU on Administrative Cooperation in the Field of Taxation ("**DAC II**") implements the CRS in a European context and creates a mandatory obligation for all Member States to exchange financial account information in respect of residents in other Member States on an annual basis commencing in 2017 in respect of the 2016 calendar year (or from 2018 in the case of Austria).

Ireland is a signatory jurisdiction to a Multilateral Competent Authority Agreement on the automatic exchange of financial account information in respect of the CRS and the CRS and (DAC II) have been implemented into Irish law by Sections 891F and 891G of the TCA 1997 and regulations made thereunder with effect from 1 January 2016.

Irish FIs (such as the Issuer) will be obliged to make a single return in respect of CRS and DAC II. For the purposes of complying with its obligations under CRS and DAC II, an Irish FI (such as the Issuer) shall be entitled to require Noteholders to provide any information regarding their and, in certain circumstances, their controlling persons' tax status, identity or residence in order to satisfy any reporting requirements which the Issuer may have as a result of CRS and DAC II and Noteholders will be deemed, by their holding to have authorised the automatic disclosure of such information by the Issuer (or any nominated service provider) or any other person to the Irish Revenue Commissioners. The information will be provided to the Irish Revenue Commissioners who will exchange the information with the tax authorities of other participating jurisdictions, as applicable. Failure by an Irish FI to comply with its CRS and DAC II obligations may result in the Issuer being deemed to be non-compliant in respect of its CRS obligations and monetary penalties may be imposed on a non-compliant FI under Irish legislation.

The Issuer (or any nominated service provider) will agree that information (including the identity of any Noteholder) supplied for the purposes of CRS and DAC II compliance is intended for the Issuer's (or any nominated service provider's) use for the purposes of satisfying CRS and DAC II requirements and the Issuer (or any nominated service provider) will agree, to the extent permitted by applicable law, that it will take reasonable steps to treat such information in a confidential manner, except that the Issuer may disclose such information (i) to its officers, directors, agents and advisors, (ii) to the extent reasonably necessary or advisable in connection with tax matters, including achieving CRS and DAC II compliance, (iii) to any person with the consent of the applicable Noteholder, or (iv) as otherwise required by law or court order or on the advice of its advisors. Further information in relation to CRS can be found on the Automatic Exchange of Information webpage on www.revenue.ie.

The Issuer will require Noteholders to certify information relating to their status for the purposes of CRS, including their jurisdiction of tax residence, and to provide other forms, documentation and information in relation to their status for the purposes of these tax reporting regimes. The Issuer may be unable to comply with its obligations under CRS if Noteholders do not provide the required certifications and information.

3. **Certain U.S. Federal Income Tax Considerations**

3.1 Introduction

This is a discussion of certain U.S. federal income tax consequences of the acquisition, beneficial ownership, disposition, and retirement of the Notes. This discussion does not address all aspects of U.S. federal income taxation that may be relevant to a particular holder based on such holder's particular circumstances, nor does it address any aspect of state, local, or non-U.S. tax laws, net investment income tax consequences, alternative minimum tax considerations, or the possible application of U.S. federal gift or estate taxes. In particular, except as expressly set out below, this discussion does not address aspects of U.S. federal income taxation that may be applicable to holders that are subject to special treatment, including holders that:

- (a) are financial institutions, insurance companies, dealers or traders in securities that use a mark-to-market method of tax accounting or tax-exempt organisations, real estate investment trusts, regulated investment companies, grantor trusts;
- (b) are certain former citizens or long-term residents of the United States;
- (c) are partnerships or other pass-through entities for U.S. federal income tax purposes; or
- (d) hold Notes as part of a "hedge", "straddle" or "integrated transaction".

This discussion considers only holders that hold Notes as capital assets and U.S. Holders whose functional currency is the U.S. dollar. This discussion is generally limited to the tax consequences to initial holders that purchase Notes upon their initial issuance at their initial issue price (and does not address the potential tax consequences to holders of making a contribution to the Issuer in accordance with Condition 2(n) (*Contributions*)).

For purposes of this discussion, "**U.S. Holder**" means a beneficial owner of a Note that is, for U.S. federal income tax purposes:

- (a) a citizen or individual resident of the United States for U.S. federal income tax purposes;
- (b) a corporation (or other entity that is treated as a corporation for U.S. federal income tax purposes) created or organised under the laws of the United States or any political subdivision thereof or therein;
- (c) an estate or trust, the income of which is includable in gross income for U.S. federal income tax purposes regardless of the source; or
- (d) a trust, if such trust validly has elected to be treated as a U.S. person for U.S. federal income tax purposes or if: (i) a U.S. court can exercise primary supervision over its administration; and (ii) one or more U.S. persons have the authority to control all of the substantial decisions of such trust.

The term "**Non-U.S. Holder**" means, for purposes of this discussion, a beneficial owner of the Notes, other than a partnership, that is not a U.S. Holder.

If a partnership (or any other entity treated as a partnership for U.S. federal income tax purposes) holds the Notes, the tax treatment of the partnership and a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Such a partner or partnership should consult its own tax advisor as to the consequences of the acquisition, ownership, disposition and retirement of the Notes.

This discussion is based upon the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"), final, temporary and proposed Treasury regulations, and administrative pronouncements and court decisions, each as available and in effect as of the date hereof. All of the foregoing are subject to change, possibly on a retroactive basis, and any such change could affect the continuing validity of this discussion. Furthermore, there are no cases or rulings by the United States Internal Revenue Service ("**IRS**") addressing entities similar to the Issuer or securities similar to the Notes. As a result, the IRS might disagree with all or part of the discussion below. No rulings will be requested of the IRS regarding the issues discussed below or the U.S. federal income tax characterisation of the Notes.

Prospective holders should consult their tax advisor concerning the application of U.S. federal income tax laws, as well as the laws of any state, local or foreign taxing jurisdiction, to their particular situation.

3.2 U.S. Federal Tax Treatment of the Issuer

The Issuer will be treated as a foreign corporation for U.S. federal income tax purposes.

The Issuer intends to operate so as not to be subject to U.S. federal income tax on its net income. In this regard, the Issuer will receive an opinion of Cadwalader, Wickersham & Taft LLP to the effect that, if the Issuer and the Collateral Manager comply with Transaction Documents, including the tax guidelines appended to the Collateral Management Agreement (the "**U.S. Tax Guidelines**"), and certain other assumptions specified in the opinion are satisfied, although no authority exists that deals with situations substantially similar to those of the Issuer, the contemplated activities of the Issuer will not cause the Issuer to be treated as engaged in a trade or business within the United States for U.S. federal income tax purposes under current law. This opinion will be based on certain assumptions and certain representations and agreements regarding restrictions on the future activities of the Issuer and the Collateral Manager. The Issuer intends to conduct its business in accordance with the assumptions, representations and agreements upon which such opinion is based. In complying with such assumptions, representations and agreements, the Issuer and the Collateral Manager are entitled to rely in the future upon the advice and/or opinions of their selected counsel, and the opinion of Cadwalader, Wickersham & Taft LLP will assume that any such advice and/or opinions are correct and complete. Investors should be aware that the opinion of Cadwalader, Wickersham & Taft LLP simply represents counsel's best judgement and is not binding on the IRS or the courts. In this regard, there are no authorities that deal with situations substantially identical to the Issuer's, and the Issuer could be treated as engaged in the conduct of a trade or business within the United States as a result of unanticipated activities, changes in law, contrary conclusions by the IRS or other causes. Failure of the Issuer to comply with the U.S. Tax Guidelines or other Transaction Documents may not give rise to a default or an Event of Default and may not give rise to a claim against the Issuer or the Collateral Manager. In the event of such a failure, the Issuer could be engaged in a U.S. trade or business for U.S. federal income tax purposes. Moreover, a change in law or its interpretation could result in the Issuer being treated as engaged in a trade or business in the United States for U.S. federal income tax purposes, or otherwise subject to U.S. federal income tax on a net income basis. Finally, the Trust Deed could be amended in a manner that permits or causes the Issuer to be engaged in a trade or business in the United States for U.S. federal income tax purposes.

If it were determined that the Issuer is engaged in a trade or business in the United States for U.S. federal income tax purposes, and the Issuer has taxable income that is effectively connected with such U.S. trade or business, the Issuer would be subject under the Code to the regular U.S. corporate income tax on its effectively connected taxable income (computed possibly without any allowance for deductions), and possibly to a 30.0 per cent. branch profits tax and state and local taxes. The imposition of such a tax liability could materially adversely affect the Issuer's ability to make payments on the Notes. The balance of this summary assumes that the Issuer is not subject to U.S. federal income tax on its net income.

Each holder and beneficial owner of a Class E Note, Class F Note and a Subordinated Note that is not a "United States person" (as defined in Section 7701(a)(30) of the Code) will represent that (A) either (i) it is not a bank (within the meaning of Section 881(c)(3)(A) of the Code); (ii) after giving effect to its

purchase of Notes, it will not directly or indirectly own more than 33-1/3 per cent., by value, of the aggregate of the Notes within such Class and any other Notes that are ranked *pari passu* with or are subordinated to such Notes, and will not otherwise be related to the Issuer (within the meaning of Treasury regulations section 1.881-3); (iii) it has provided an IRS Form W-8ECI representing that all payments received or to be received by it from the Issuer are effectively connected with the conduct of a trade or business in the United States and includible in its gross income; or (iv) it is eligible for benefits under an income tax treaty with the United States that eliminates U.S. federal income taxation of U.S. source interest not attributable to a permanent establishment in the United States; and (B) it has not purchased the Notes in whole or in part to avoid any U.S. federal tax liability (including, without limitation, any U.S. withholding tax that would be imposed with respect to payments on the Collateral Debt Obligations if the Collateral Debt Obligations were held directly by the holder or beneficial owner).

3.3 U.S. Federal Withholding Taxes

Although the Issuer does not anticipate that it will be subject to U.S. federal income tax with respect to its net income, income derived by the Issuer may be subject to withholding or similar taxes imposed by the United States or other countries, and the imposition of such taxes could materially affect its financial ability to make payments on the Notes. Subject to certain exceptions set forth in the Collateral Management Agreement, the Issuer generally may acquire a particular Collateral Debt Obligation only if, at the time of commitment to purchase, either the interest payments thereon are not subject to withholding tax or the issuer of the Collateral Debt Obligation is required to make "gross-up" payments to the Issuer that cover the full amount of any such withholding on an after-tax basis. Accordingly, the Issuer does not generally expect to be subject to U.S. federal withholding taxes on interest from Collateral Debt Obligations. The Issuer may, however, be subject to withholding or similar taxes in respect of commitment fees, amendment fees, waiver fees, consent fees, letter of credit fees, extension fees, or similar fees, or under FATCA as discussed in more detail below. Any such withholding or similar taxes will not be grossed up.

Notwithstanding the foregoing, there can be no assurance that income derived by the Issuer will not become subject to withholding or similar taxes more generally as a result of changes in law, contrary conclusions by the IRS, or other causes. Such withholding or similar taxes could be applied retroactively to fees or other income previously received by the Issuer. To the extent that withholding or similar taxes are imposed and not paid through withholding, the Issuer may be directly liable to the taxing authority to pay such taxes. The imposition of unanticipated withholding or similar taxes could materially impair the Issuer's ability to make payments with respect to the Notes.

3.4 U.S. Characterisation and U.S. Federal Income Tax Treatment of the Rated Notes

Upon the issuance of the Notes, Allen & Overy LLP will deliver an opinion generally to the effect that under current law, assuming compliance with the Transaction Documents, and based on certain assumptions and factual representations made by the Issuer and/or the Collateral Manager, the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes will be treated, and the Class E Notes should be treated as debt of the Issuer for U.S. federal income tax purposes. No opinion will be given in respect of the Class F Notes, although the Issuer intends to treat the Class F Notes as debt of the Issuer for U.S. federal income tax purposes.

The Issuer has agreed and, by its acceptance of a Rated Note, each holder of a Rated Note (or any interest therein) will be deemed to have agreed, to treat the Rated Notes as debt of the Issuer for U.S. federal income tax purposes, except as otherwise required by applicable law. Nevertheless, the IRS could assert, and a court could ultimately hold, that one or more Classes of Rated Notes, particularly the Class E Notes or the Class F Notes because, are properly treated as equity in the Issuer. If any Rated Notes were treated as equity interests the U.S. federal income tax consequences of investing in those Rated Notes would be the same as described below with respect to investments in the Subordinated Notes (including, the special and potentially adverse U.S. tax rules applicable to U.S. equity owners in PFICs or CFCs). See "*U.S. Federal Tax Treatment of U.S. Holders of Subordinated Notes – Investment in a Passive Foreign*

Investment Company" and *"U.S. Federal Tax Treatment of U.S. Holders of Subordinated Notes – Investment in a Controlled Foreign Corporation"*.

Except as otherwise indicated, the balance of this summary assumes that all of the Rated Notes are treated as debt of the Issuer for U.S. federal income tax purposes. Prospective investors in the Rated Notes should consult their tax advisors regarding the U.S. federal income tax consequences with respect to the Rated Notes and the Issuer in the event such Rated Notes are treated as equity in the Issuer.

3.5 U.S. Federal Tax Treatment of U.S. Holders of Rated Notes

Payments of Stated Interest on the Class X Notes, the Class A Notes and the Class B Notes. U.S. Holders of the Class X Notes, Class A Notes or the Class B Notes will generally include in gross income the U.S. dollar value of payments of stated interest accrued or received on their Notes, in accordance with their usual method of tax accounting, as ordinary interest income, subject to the discussions under *"Payments of Stated Interest and OID on the Deferrable Notes; OID on the Class X Notes, Class A Notes and Class B Notes"* and *"Tax Treatment Under the TCJA"*.

A U.S. Holder that uses the cash method for U.S. federal income tax purposes and that receives a payment of stated interest on the Class X Notes, the Class A Notes or the Class B Notes will be required to include in income (as ordinary income from sources outside the United States) the U.S. dollar value of the euro interest payment (determined based on the spot rate on the date such payment is received) regardless of whether the payment is in fact converted to U.S. dollars at such time. A cash method U.S. Holder will not recognise exchange gain or loss with respect to the receipt of such stated interest.

A U.S. Holder that uses the accrual method of accounting for U.S. federal income tax purposes will be required to include in income (as ordinary income from sources outside the United States) the U.S. dollar value of the amount of stated interest income in euros that has accrued with respect to its Class X Notes, Class A Notes and Class B Notes during an accrual period. The U.S. dollar value of such euro denominated accrued stated interest will be determined by translating such amount at the average spot rate of exchange for the accrual period or, with respect to an accrual period that spans two taxable years, at the average spot rate of exchange for the partial period within each taxable year. An accrual basis U.S. Holder may elect, however, to translate such accrued stated interest income into U.S. dollars using the spot rate of exchange on the last day of the interest accrual period or, with respect to an accrual period that spans two taxable years, using the spot rate of exchange on the last day of the taxable year. Alternatively, if the last day of an accrual period is within five business days of the date of receipt of the accrued stated interest, a U.S. Holder that has made the election described in the prior sentence may translate such interest using the spot rate of exchange on the date of receipt of the stated interest. The above election will apply to all foreign currency denominated debt instruments held by an electing U.S. Holder and may not be changed without the consent of the IRS. U.S. Holders should consult their own tax advisors prior to making such an election. A U.S. Holder that uses the accrual method of accounting for U.S. federal income tax purposes will recognise exchange gain or loss with respect to accrued stated interest income on the date such interest is received. The amount of exchange gain or loss recognised will equal the difference, if any, between the U.S. dollar value of the euro payment received (determined based on the spot rate on the date such stated interest is received) in respect of such accrual period and the U.S. dollar value of the stated interest income that has accrued during such accrual period (as determined above), regardless of whether the payment is in fact converted to U.S. dollars at such time. Any such exchange gain or loss generally will constitute ordinary income or loss and be treated, for foreign tax credit purposes, as U.S. source income or loss, and generally not as an adjustment to interest income or expense.

Payments of Stated Interest and OID on the Deferrable Notes; OID on the Class X Notes, Class A Notes and Class B Notes. The Issuer will treat the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes (together, the **"Deferrable Notes"**) as issued with original issue discount (**"OID"**) for U.S. federal income tax purposes. The total amount of OID with respect to a Deferrable Note will equal the

sum of all payments to be received under such Note less its issue price (i.e., the first price at which a substantial amount of Notes within the applicable Class was sold to investors). In addition, if the discount at which a substantial amount of the Class X Notes, the Class A Notes and the Class B Notes is first sold to investors is at least 0.25 per cent. of the principal amount of that Class, multiplied by the number of complete years to the weighted average maturity of the Class, then the Issuer will treat that Class as issued with OID for U.S. federal income tax purposes. The total amount of such discount with respect to a Note within the Class will equal the excess of the principal amount of the Note over its issue price.

U.S. Holders of the Deferrable Notes, or, if issued with OID, the Class X Notes, Class A Notes or Class B Notes will be required to include OID (as ordinary income from sources outside the United States) in advance of the receipt of cash attributable to such income. A U.S. Holder of Deferrable Notes, or, if issued with OID, the Class X Notes, the Class A Notes and the Class B Notes will be required to include OID in income as it accrues (regardless of the U.S. Holder's method of accounting) under a constant yield method. Accruals of any such OID will be based on the weighted average life of the applicable Class rather than its stated maturity. In the case of the Deferrable Notes, accruals of OID on the Notes will be calculated by assuming that interest will be paid over the life of the applicable Class based on the value of EURIBOR used in setting the interest rate for the first Payment Date, and then adjusting the accrual for each subsequent Payment Date based on the difference between the value of EURIBOR used in setting interest for that subsequent Payment Date and the assumed rate. It is possible, however, that the IRS could assert, and a court could ultimately hold, that some other method of accruing OID on the Deferrable Notes, or, if applicable, the Class X Notes, the Class A Notes or the Class B Notes, should apply.

OID on the Notes will be determined for any accrual period in euros and then translated into U.S. dollars in accordance with either of the two alternative methods described above in the second paragraph under "*Payments of Stated Interest on the Class X Notes, the Class A Notes and the Class B Notes*". A U.S. Holder will recognise exchange gain or loss when OID is paid (including, upon the disposition of a Note, the receipt of proceeds that include amounts attributable to OID previously included in income) to the extent of the difference, if any, between the U.S. dollar value of the euro payment received, determined based on the spot rate on the date such payment is received, and the U.S. dollar value of the accrued OID, as determined in the manner described above. For these purposes, all receipts on a Note will be viewed first, in the case of the Class X Notes, the Class A Notes or Class B Notes, if issued with OID, as payments of stated interest payable on the such Note; second, as receipts of previously accrued OID (to the extent thereof), with payments considered made for the earliest accrual periods first; and third, as receipts of principal. Exchange gain or loss generally will constitute ordinary income or loss and be treated as U.S. source income or loss, and generally not as an adjustment to interest income or expense.

Because the OID rules are complex, each U.S. Holder of a Note treated as issued with OID should consult with its own tax advisor regarding the acquisition, ownership, and disposition of such Note. Interest received and OID earned on the Notes by a U.S. Holder will generally be treated as foreign source "passive income" for U.S. foreign tax credit purposes, or, in certain cases, "general category income".

Tax Treatment Under the TCJA. Under a recent amendment to Section 451(b), a U.S. Holder that uses an accrual method of accounting for U.S. federal income tax purposes generally will be required to include certain amounts in income no later than the time such amounts are reflected on certain financial statements of such U.S. Holder. The application of this rule thus may require the accrual of income earlier than would be the case under the general tax rules described above; however, recent proposed Treasury regulations generally exclude OID from this new rule. U.S. Holders are permitted to rely on the proposed Treasury regulations with respect to the Notes, provided that any such U.S. Holder applies all of the applicable rules contained in the proposed U.S. Treasury regulations consistently to all items of income during such U.S. Holder's taxable year. U.S. Holders that use an accrual method of accounting should consult with their tax advisors regarding the potential applicability of this legislation to their particular situation.

Sale, exchange, retirement or other taxable disposition of Notes. Upon the sale, exchange, retirement or other taxable disposition of a Rated Note, a U.S. Holder generally will recognise gain or loss equal to the difference, if any, between the amount realised upon such disposition (less, in the case of the Class X Notes, the Class A Notes or Class B Notes any amount equal to any accrued but unpaid stated interest, which will be taxable as stated interest income as discussed above to the extent not previously included in income by the U.S. Holder) and such U.S. Holder's adjusted tax basis in the Note.

A U.S. Holder's adjusted tax basis in a Rated Note will, in general, be the cost of such Note to such U.S. Holder (i) increased by any OID previously accrued by such U.S. Holder with respect to such Note and (ii) reduced by all payments received on such Note other than, in the case of the Class X Notes, the Class A Notes or Class B Notes, payments of stated interest. The cost of a Rated Note purchased with foreign currency will generally be the U.S. dollar value of the foreign currency purchase price on the date of purchase, calculated at the exchange rate in effect on that date. If the applicable Note is traded on an established securities market, a cash basis taxpayer (and if it elects, an accrual basis taxpayer) will determine the U.S. dollar value of the cost of the Rated Note at the spot rate on the settlement date of the purchase.

If a U.S. Holder receives foreign currency on such a sale, exchange, retirement or other taxable disposition of a Rated Note, the amount realised generally will be based on the U.S. dollar value of such foreign currency translated at the spot rate on the date of disposition. In the case of a Rated Note that is considered to be traded on an established securities market, a cash basis U.S. Holder and, if it so elects, an accrual basis U.S. Holder, will determine the U.S. dollar value of such foreign currency by translating such amount at the spot rate on the settlement date of the disposition. The special election available to accrual basis U.S. Holders in regard to the purchase and disposition of Rated Notes of a Class traded on an established securities market must be applied consistently to all debt instruments held by the U.S. Holder and cannot be changed without the consent of the IRS. If the Rated Notes of a Class are not traded on an established securities market (or the relevant holder is an accrual basis U.S. Holder that does not make the special settlement date election), a U.S. Holder will recognise exchange gain or loss to the extent that there are exchange rate fluctuations between the disposition date and the settlement date, and such gain or loss generally will constitute U.S. source ordinary income or loss.

Gain or loss recognised upon the sale, exchange, retirement or other taxable disposition of a Rated Note that is attributable to fluctuations in currency exchange rates with respect to the principal amount of such Note generally will be U.S. source ordinary income or loss and generally will not be treated as interest income or expense. Gain or loss attributable to fluctuations in currency exchange rates with respect to the principal amount of a Rated Note generally will equal the difference, if any, between the U.S. dollar value of the U.S. Holder's foreign currency purchase price for the Rated Note, determined at the spot rate on the date principal is received from the Issuer or the U.S. Holder disposes of the Rated Note, and the U.S. dollar value of the U.S. Holder's foreign currency purchase price for the Note, determined at the spot rate on the date the U.S. Holder purchased such Note. In addition, upon the sale, exchange, retirement or other taxable disposition of a Rated Note, a U.S. Holder may recognise exchange gain or loss attributable to amounts received with respect to accrued and unpaid stated interest and accrued OID, if any, which will be treated as discussed above. However, upon a sale, exchange, retirement or other taxable disposition of a Rated Note, a U.S. Holder will recognise any exchange gain or loss (including with respect to accrued interest and accrued OID) only to the extent of total gain or loss realised by such U.S. Holder on such disposition. Any gain or loss recognised upon the sale, exchange, retirement or other taxable disposition of a Rated Note in excess of exchange gain or loss attributable to such disposition generally will be U.S. source gain or loss and generally will be capital gain or loss. Capital gains of non-corporate U.S. Holders (including individuals) derived in respect of capital assets held for more than one year are generally eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

A U.S. Holder will recognise exchange gain or loss upon the receipt of principal payments on a Rated Note (prior to maturity) attributable to the fluctuation in currency exchange rates with respect to such principal payment in an amount equal to the difference, if any, between the U.S. dollar value of the U.S. Holder's foreign currency purchase price attributable to such principal payment, determined at the spot rate on the date such principal payment is received from the Issuer, and the U.S. dollar value of the U.S. Holder's foreign currency purchase price attributable to such principal payment, determined at the spot rate on the date the U.S. Holder purchased such Note. Exchange gain or loss generally will constitute ordinary income or loss and be treated as U.S. source income or loss, and generally not as an adjustment to interest income or expense.

Alternative Characterisation of the Rated Notes as Contingent Payment Debt Instruments. It is possible that one or more Classes of the Rated Notes could be treated as "contingent payment debt instruments" for U.S. federal income tax purposes. In this event, the timing of a U.S. Holder's OID inclusions could differ from that described above and any gain recognised on the sale, exchange, or retirement of such Notes would be treated as ordinary income and not capital gain.

In addition, it is possible that one or more Classes of Notes, particularly the Class E Notes and the Class F Notes, may be treated as equity, rather than debt, of the Issuer, in which case such classes of Notes would generally be treated as described below under "*U.S. Federal Income Tax Treatment of U.S. Holders of Subordinated Notes*" and certain transfer and reporting requirements could apply, as described under "*U.S. Federal Income Tax Treatment of U.S. Holders of Subordinated Notes—Transfer and Other Reporting Requirements*" below.

Exchange of Foreign Currencies. A U.S. Holder will have a tax basis in any euro received as payment of stated interest, OID or principal, or upon the sale, exchange, retirement or other taxable disposition of a Note equal to the U.S. dollar value thereof at the spot rate of exchange in effect on the date of receipt of the euros. Any gain or loss realised by a U.S. Holder on a sale or other disposition of euros, including their exchange for U.S. dollars, will be ordinary income or loss generally not treated as interest income or expense and generally will be income or loss from sources within the United States for U.S. foreign tax credit purposes.

3.6 U.S. Federal Income Tax Treatment of U.S. Holders of Subordinated Notes

The Issuer has agreed and, by its acceptance of a Subordinated Note, each holder of a Subordinated Note agrees or will be deemed to have agreed, to treat all Subordinated Notes as equity in the Issuer for U.S. federal income tax purposes, except as otherwise required by any U.S. governmental authority. If U.S. Holders of the Subordinated Notes were treated as owning debt of the Issuer, the U.S. federal income tax consequences to those U.S. Holders would be as described under "*U.S. Federal Tax Treatment of U.S. Holders of Rated Notes*". The balance of this discussion assumes that the Subordinated Notes will properly be characterised as equity in the Issuer. Prospective investors should consult their own tax advisors regarding the consequences of acquiring, holding or disposing of the Subordinated Notes.

Investment in a Passive Foreign Investment Company. A foreign corporation will be classified as a PFIC for U.S. federal income tax purposes if 75.0 per cent. or more of its gross income (including the *pro rata* share of the gross income of any corporation in which the Issuer is considered to own 25.0 per cent. or more of the shares by value) in a taxable year is passive income. Alternatively, a foreign corporation will be classified as a PFIC if at least 50.0 per cent. of its assets, averaged over the year and generally determined based on fair market value (including the *pro rata* share of the assets of any corporation in which the Issuer is considered to own 25.0 per cent. or more of the shares by value) are held for the production of, or produce, passive income.

Based on the assets that the Issuer expects to hold and the income anticipated thereon, it is highly likely that the Issuer will be classified as a PFIC for U.S. federal income tax purposes. Accordingly, the following discussion assumes that the Issuer will be a PFIC throughout the term of the Subordinated

Notes, and U.S. Holders of Subordinated Notes should assume that they will be subject to the U.S. federal income tax consequences described below that result from owning stock in a PFIC (subject to the discussion below under "*Investment in a Controlled Foreign Corporation*").

Unless a U.S. Holder elects to treat the Issuer as a QEF (as described in the next paragraph), upon certain distributions ("**excess distributions**") by the Issuer and upon a disposition of the Subordinated Notes at a gain, the U.S. Holder will be liable to pay tax at the highest tax rate on ordinary income in effect for each period to which the income is allocated plus interest on the tax, as if such distributions and gain had been recognised rateably over the U.S. Holder's holding period for the Subordinated Notes. An interest charge is also applied to the deferred tax amount resulting from the deemed rateable distribution.

If a U.S. Holder elects to treat the Issuer as a QEF for the first year of its holding period, distributions and gain will not be taxed as if recognised rateably over the U.S. Holder's holding period or subject to an interest charge. Instead, a U.S. Holder that makes a QEF election is required for each taxable year to include in income the U.S. Holder's *pro rata* share of the ordinary earnings of the QEF as ordinary income and a *pro rata* share of the net capital gain of the QEF as capital gain, regardless of whether such earnings or gain have in fact been distributed (assuming the discussion below under "*Investment in a Controlled Foreign Corporation*" does not apply), and subject to a separate election to defer payment of taxes, which deferral is subject to an interest charge. Consequently, in order to comply with the requirements of a QEF election, a U.S. Holder of Subordinated Notes must receive from the Issuer certain information ("**QEF Information**"). The Issuer will cause its independent accountants to provide U.S. Holders of the Subordinated Notes, upon request by such U.S. Holder and at the Issuer's expense, with the information reasonably available to the Issuer that a U.S. Holder would need to make a QEF election. The Issuer will also cause its independent accountants to provide such information to U.S. Holders of the Class E Notes and the Class F Notes, at the request and expense of such Holders that intend to make a protective QEF election.

Where a QEF election is not timely made by a U.S. Holder for the year in which it acquired its Subordinated Notes, but is made for a later year, the excess distribution rules can be avoided for such later year and subsequent years by making an election to recognise gain from a deemed sale of such Notes at the time when the QEF election becomes effective.

As a result of the nature of the Collateral Debt Obligations that the Issuer intends to hold, the Issuer may hold investments treated as equity of foreign corporations that are PFICs. In such a case, assuming that the Issuer is a PFIC, a U.S. Holder would be treated as owning its *pro rata* share of the stock of the PFIC owned by the Issuer. Such a U.S. Holder would be subject to the rules generally applicable to shareholders of PFICs discussed above with respect to distributions received by the Issuer from such PFIC and dispositions by the Issuer of the stock of such PFIC (even though the U.S. Holder may not have received the proceeds of such distribution or disposition). Assuming the Issuer receives the necessary information from the PFIC in which it owns stock, certain U.S. Holders may make the QEF election discussed above with respect to the stock of such PFIC. However, no assurance can be given that the Issuer will be able to provide U.S. Holders with such information.

If the Issuer is a PFIC, each U.S. Holder of a Subordinated Note must make an annual return on IRS Form 8621, reporting distributions received and gains realised with respect to each PFIC in which the U.S. Holder holds a direct or indirect interest. If a U.S. Holder does not file IRS Form 8621, the statute of limitations on the assessment and collection of U.S. federal income taxes of such U.S. Holder for the related tax year may not close before the date which is three years after the date on which such report is filed. Prospective investors should consult their own tax advisors regarding the potential application of the PFIC rules.

Investment in a Controlled Foreign Corporation. Depending on the degree of ownership of the Subordinated Notes and other equity interests in the Issuer by U.S. Holders, the Issuer may constitute a CFC. In general, a foreign corporation will constitute a CFC if more than 50.0 per cent. of the shares of the corporation, measured by reference to combined voting power or value, are owned, directly or indirectly, by "**U.S. 10.0 per cent. Shareholders**". A "**U.S. 10.0 per cent. Shareholder**", for this

purpose, is any United States person that owns or is treated as owning under specified attribution rules, 10.0 per cent. or more of the combined voting power or value of all classes of shares of a foreign corporation. Consequently, if more than 50.0 per cent. of the Subordinated Notes and other securities treated as equity of the Issuer are held by such U.S. 10.0 per cent. Shareholders, the Issuer would be treated as a CFC. Due to the application of certain constructive ownership rules (among other factors), it is possible that the Issuer may not have access to sufficient information to determine whether it is a CFC for any taxable year.

If the Issuer were treated as a CFC for any period during the taxable year, a U.S. 10.0 per cent. Shareholder of the Issuer would be treated, subject to certain exceptions, as receiving a distribution, taxable as ordinary income at the end of the taxable year of the Issuer in an amount equal to that person's *pro rata* share of the "subpart F income" and investments in U.S. property of the Issuer. Among other items, and subject to certain exceptions, "subpart F income" includes dividends, interest, annuities, gains from the sale of shares and securities, certain gains from commodities transactions, certain types of insurance income and income from certain transactions with related parties. It is likely that, if the Issuer were to constitute a CFC, substantially all of its income would be subpart F income. In addition, special rules apply to determine the appropriate exchange rate to be used to translate such amounts treated as a distribution and the amount of any foreign currency gain or loss with respect to distributions of previously taxed amounts attributable to movements in exchange rates between the times of deemed and actual distributions. The Issuer will cause, at the Issuer's expense, its independent accountants to provide U.S. Holders of the Subordinated Notes, upon request by such U.S. Holder, with the information reasonably available to the Issuer that a U.S. Holder reasonably requests to assist such holder with regard to filing requirements under the CFC rules. Unless otherwise noted, the discussion below assumes that the Issuer is not a CFC. U.S. Holders should consult their tax advisors regarding these special rules.

If the Issuer were to constitute a CFC, for the period during which a U.S. Holder of Subordinated Notes is a U.S. 10.0 per cent. Shareholder of the Issuer, such holder generally would be taxable on the subpart F income and investments in U.S. property of the Issuer under rules described in the preceding paragraph and not under the PFIC rules previously described. A U.S. Holder that is a U.S. 10.0 per cent. Shareholder of the Issuer subject to the CFC rules for only a portion of the time during which it holds Subordinated Notes should consult its own tax advisor regarding the interaction of the PFIC and CFC rules.

Phantom Income. U.S. Holders may be subject to U.S. federal income tax on the amounts that exceed the distributions they receive on the Subordinated Notes. For example, if the Issuer is a CFC and a U.S. Holder is a U.S. 10.0 per cent. Shareholder with respect to the Issuer, or a U.S. Holder makes a QEF election with respect to the Issuer, the U.S. Holder will be subject to U.S. federal income tax with respect to its share of the Issuer's income and gain (to the extent of the Issuer's "earnings and profits"), which may exceed the Issuer's distributions. It is expected that the Issuer's income and gain (and earnings and profits) will exceed cash distributions with respect to (i) debt instruments that were issued with OID and are held by the Issuer and (ii) the acquisition at a discount of the Rated Notes by the Issuer (including by reason of a Refinancing or any deemed exchange that occurs for U.S. federal income tax purposes as a result of a modification of the Trust Deed). U.S. Holders should consult their tax advisors regarding the timing of income and gain on the Subordinated Notes.

Distributions on the Subordinated Notes. Except to the extent that distributions are attributable to amounts previously taxed pursuant to the CFC rules or a QEF election is made, some or all of any distributions with respect to the Subordinated Notes may constitute excess distributions, taxable as previously described. Distributions of current or accumulated earnings and profits of the Issuer which are not excess distributions will be taxed as dividends when received. The amount of such income is determined by translating euro received into U.S. dollars at the spot rate on the date of receipt. A U.S. Holder may realise foreign currency gain or loss on a subsequent disposition of the euro received. Distributions in excess of current or accumulated earnings and profits of the Issuer will be treated first

as a non-taxable return of capital to the extent of the U.S. Holder's adjusted tax basis in the Subordinated Notes, and then as a disposition of a portion of the Subordinated Notes.

If a timely QEF election has been made, distributions should be allocated first to amounts previously taxed pursuant to the QEF election (or pursuant to the CFC rules, if applicable) and to this extent will not be taxable to such U.S. Holder. Distributions in excess of such previously taxed amounts will be treated first as a non-taxable return of capital, to the extent of the U.S. Holder's adjusted tax basis in the Subordinated Notes, and then as a disposition of a portion of the Subordinated Notes. In addition, a U.S. Holder will recognise exchange gain or loss with respect to amounts previously taxed pursuant to the QEF election (or pursuant to the CFC rules, if applicable) equal to the difference, if any, between the U.S. dollar value of the distribution on the date received and the U.S. dollar value of the previously taxed amount. Any exchange gain or loss will generally be treated as ordinary income or loss.

Disposition of the Subordinated Notes. In general, a U.S. Holder of a Subordinated Note will recognise gain or loss upon the sale or exchange of the Subordinated Note equal to the difference between the amount realised and such holder's adjusted tax basis in such Subordinated Note. Initially, the tax basis of a U.S. Holder should equal the amount paid for a Subordinated Note. Such basis will be increased by amounts taxable to such holder by virtue of the QEF or CFC rules (if applicable), and decreased by actual distributions from the Issuer that are deemed to consist of such previously taxed amounts or are treated as a non-taxable return of capital. A U.S. Holder that receives foreign currency upon the sale or other disposition of the Subordinated Notes generally will realise an amount equal to the U.S. dollar value of the foreign currency on the date of sale. A U.S. Holder will have a tax basis in the foreign currency received equal to the U.S. dollar amount realised. If, however, the Subordinated Notes are traded on an established securities market, a cash basis U.S. Holder or electing accrual basis U.S. Holder will determine the amount realised on the settlement date.

Unless a QEF election is made, it is highly likely that any gain realised on the sale or exchange of a Subordinated Note will be treated as an excess distribution and taxed as ordinary income under the special tax rules described above (assuming that the PFIC rules apply and not the CFC rules).

Subject to a special limitation for individual U.S. Holders that have held the Subordinated Notes for more than one year, if the Issuer were treated as a CFC and a U.S. Holder were treated as a U.S. 10.0 per cent. Shareholder therein, then any gain realised by such holder upon the disposition of Subordinated Notes would be treated as ordinary income to the extent of the U.S. Holder's *pro rata* share of current and accumulated earnings and profits of the Issuer and any of its subsidiaries. In this respect, earnings and profits would not include any amounts previously taxed pursuant to the CFC rules.

Foreign Currency Gain or Loss. A U.S. Holder of Subordinated Notes (or other Notes treated as equity interests in the Issuer) that recognises income from the Subordinated Notes under the QEF or CFC rules discussed above will recognise foreign currency gain or loss attributable to movement in foreign exchange rates between the date when it recognised income under those rules and the date when the income actually is distributed. Any such foreign currency gain or loss will be treated as ordinary income or loss from the same source as the associated income inclusion.

A U.S. Holder that receives foreign currency upon the sale or other disposition of the Subordinated Notes generally will realise an amount equal to the U.S. dollar value of the foreign currency on the date of sale or disposition. A U.S. Holder will have a tax basis in the foreign currency received equal to the U.S. dollar amount realised. Any gain or loss realised by a U.S. Holder on a subsequent disposition of the foreign currency will be foreign currency gain or loss, generally treated as U.S. source ordinary income or loss.

As a result of the uncertainty regarding the U.S. federal income tax consequences to U.S. Holders with respect to the Notes and the complexity of the foregoing rules, each U.S. Holder of a Note is urged to

consult its own tax advisor regarding the U.S. federal income tax consequences to the Holder of the purchase, ownership and disposition of the Note.

3.7 Transfer and Other Reporting Requirements

In general, U.S. Holders who acquire Subordinated Notes (or any Class of Rated Notes that is recharacterised as equity in the Issuer) for cash may be required to file IRS Form 926 with the IRS and to supply certain additional information to the IRS if (i) such U.S. Holder owns (directly or indirectly) immediately after the transfer, at least 10.0 per cent. by vote or value of the Issuer or (ii) the transfer when aggregated with all related transfers under applicable regulations, exceeds U.S. \$100,000.

In addition, a U.S. Holder of Subordinated Notes (or any Class of Notes that is recharacterised as equity in the Issuer) that owns (actually or constructively) at least 10.0 per cent. by vote or value of the Issuer (and each officer or director of the Issuer that is a U.S. citizen or resident) may be required to file an information return on IRS Form 5471. A U.S. Holder of Subordinated Notes generally is required to provide additional information regarding the Issuer annually on IRS Form 5471 if it owns (actually or constructively) more than 50.0 per cent. by vote or value of the Issuer. U.S. Holders should consult their own tax advisors regarding whether they are required to file IRS Form 5471.

Prospective investors in the Notes should consult with their own tax advisors regarding whether they are required to file IRS Form 8886 in respect of the Notes. Such filing generally will be required if such investors file U.S. federal income tax returns or U.S. federal information returns and recognise losses in excess of a specified threshold, and significant penalties may be imposed on taxpayers that fail to file the form timely. Such filing will also generally be required by a U.S. Holder of the Subordinated Notes if the Issuer both participates in certain types of transactions that are treated as "reportable transactions," such as a transaction in which its loss exceeds a specified threshold, and either (x) such U.S. Holder owns 10.0 per cent. or more of the aggregate amount of the Subordinated Notes and makes a QEF Election with respect to the Issuer or (y) the Issuer is treated as a CFC and such U.S. Holder is a "U.S. Shareholder" (as defined above) of the Issuer. If the Issuer does participate in a reportable transaction, it will make reasonable efforts to make such information available.

Certain U.S. Holders will be subject to reporting obligations with respect to their Notes if they do not hold them in an account maintained by a financial institution and the aggregate value of their Notes and certain other "specified foreign financial assets" exceeds certain U.S. dollar thresholds.

A U.S. Holder of Subordinated Notes (or any Class of Notes that are treated as equity in the Issuer for U.S. federal income tax purposes) may be required to file FinCEN Form 114 with respect to foreign financial accounts in which the Issuer has a financial interest if the U.S. Holder holds more than 50.0 per cent. of the aggregate outstanding principal amount of such Notes or is otherwise treated as owning more than 50.0 per cent. of the total value or voting power of the Issuer's outstanding equity.

U.S. Holders that fail to comply with applicable reporting requirements may be subject to adverse tax consequences, including a "tolling" of the statute of limitations with respect to their U.S. tax returns and in some cases significant penalties. U.S. Holders should consult their tax advisors with respect to these and any other reporting requirements that may apply with respect to their acquisition or ownership of the Notes.

Prospective investors in the Notes should consult their own tax advisors concerning any possible disclosure obligations with respect to their ownership or disposition of the Notes in light of their particular circumstances.

3.8 Base Rate Amendment

The treatment of a change from EURIBOR to an Alternative Base Rate ("**Base Rate Amendment**") for U.S. federal income tax purposes is not entirely clear.

If the Base Rate Amendment was classified as a modification, and such modification was treated as a "significant modification" for U.S. federal income tax purposes (which would generally include a Base Rate Amendment that changes the yield on the Class by more than the greater of (x) 0.25 per cent. or (y) 5.0 per cent. of the annual yield of the Class prior to the Base Rate Amendment), then, unless the Base Rate Amendment is treated as a tax-free "recapitalization" for U.S. federal income tax purposes or another exception exists at the time of the Base Rate Amendment, a U.S. Holder may be required to recognize gain or loss with respect to its affected Notes. This gain or loss would be equal to the difference between the issue price of the deemed new notes, which if such class of notes has a principal amount in excess of \$100 million, may be the fair market value rather than the principal amount of the notes, and the U.S. Holder's tax basis in the deemed old notes.

In the event the Base Rate Amendment is a taxable event for U.S. Holders and the stated redemption price at maturity of the new notes received in the deemed exchange is greater than the issue price of such notes, a U.S. Holder of a new note may be required to include additional OID in income as a result of the Base Rate Amendment. In the event that the issue price of the deemed new notes is less than the principal amount of such notes, the Issuer may be required to recognize cancellation of indebtedness income, which could affect the Holders of the Subordinated Notes that have made a QEF Election or are subject to inclusions under the CFC rules. This may result in adverse consequences for the Subordinated Notes. Additionally, any Notes that are subject to a Base Rate Amendment six months after the adoption of final regulations addressing withholding on foreign passthru payments would likely not be considered grandfathered obligations under FATCA (see "*Risk Factors – Relating to the Notes - U.S. Tax Risks—FATCA*") if the Base Rate Amendment is treated as a deemed exchange. Each prospective investor should consult its own tax advisor regarding the tax consequences to it of a Base Rate Amendment.

Under recent proposed Treasury Regulations, a change in the base rate from EURIBOR to a "qualified rate" as defined in such proposed Treasury Regulations generally will not be treated as a modification of a Floating Rate Note for U.S. federal income tax purposes. It cannot be determined at this time whether the final Treasury Regulations on this issue will contain the same standards as the proposed Treasury Regulations. U.S. Holders should consult their tax advisors regarding the tax consequences of a Base Rate Amendment.

3.9 U.S. Tax Treatment of Non-U.S. Holders of Notes

Subject to the discussions below under "*Information Reporting and Backup Withholding*" and "*Foreign Account Tax Compliance Act*", payments, including interest, OID and any amounts treated as dividends, on a Note to a Non-U.S. Holder and gain realised on the sale, exchange or retirement of a Note by a Non-U.S. Holder, will not be subject to U.S. federal income or withholding tax, unless (a) such income is effectively connected with a trade or business conducted by such Non-U.S. Holder in the United States; or (b) in the case of U.S. federal income tax imposed on gain, such Non-U.S. Holder is a non resident alien individual who holds a Note as a capital asset and is present in the United States for 183 calendar days or more in the taxable year of sale and certain other conditions are satisfied.\c

3.10 Information Reporting and Backup Withholding

The amount of interest and principal paid or accrued on the Notes, and the proceeds from the sale of a Note, in each case, paid within the United States or by a U.S. payor or U.S. middleman to a United States person (other than a corporation or other exempt recipient) will be reported to the IRS. Under the Code, a United States person may be subject, under certain circumstances, to "backup withholding" with respect to interest and principal on a Note or the gross proceeds from the sale of a Note paid within the United States or by a U.S. middleman or United States payor to a United States person. Backup withholding generally applies only if the United States person: (a) fails to furnish its social security or other taxpayer

identification number within a reasonable time after the request therefore; (b) furnishes an incorrect taxpayer identification number; (c) is notified by the IRS that it has failed to properly report interest OID or dividends; or (d) fails, under certain circumstances, to provide a certified statement, signed under penalty of perjury, that it has furnished a correct taxpayer identification number and has not been notified by the IRS that it is subject to backup withholding for failure to report interest and dividend payments.

Non-U.S. Holders or, in certain cases, their beneficial owners may be required to comply with certification procedures to establish that they are not U.S. Holders in order to avoid information reporting and backup withholding.

Backup withholding is not an additional tax. The amount of any backup withholding collected from a payment will be allowed as a credit against the recipient's U.S. federal income tax liability and may entitle the recipient to a refund, so long as the required information is properly furnished to the IRS. Holders should consult their own tax advisers about any additional reporting requirements that may arise as a result of their purchasing, holding or disposing of Notes.

3.11 Foreign Account Tax Compliance Act

Pursuant to FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. The Issuer expects to be a foreign financial institution for these purposes. A number of jurisdictions (including Ireland) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (IGAs), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register, and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

Each Noteholder may be required to provide certifications and identifying information about itself and its owners (or beneficial owners) in order to enable the Issuer (or an Intermediary) to identify and report on the Noteholder and certain of the Noteholder's direct and indirect U.S. beneficial owners to the IRS or an Irish authority. Further, the Noteholder will be required to permit the Issuer to share such information with the relevant taxing authority. Although certain exceptions to these disclosure requirements could apply, each Noteholder should assume that if it fails to provide the required information or otherwise prevents the Issuer from complying with FATCA, the Issuer generally have the right to force the sale of the Noteholder's Notes (and such sale could be for less than its then fair market value).

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form.

Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Notes.

CERTAIN ERISA CONSIDERATIONS

ERISA imposes certain requirements on "**employee benefit plans**" subject thereto and on entities (such as collective investment funds, insurance company separate accounts and some insurance company general accounts) the underlying assets of which include the assets of such plans (collectively, "**ERISA Plans**"), and on those persons who are fiduciaries with respect to ERISA Plans. Investments by ERISA Plans are subject to ERISA's general fiduciary requirements, including the requirement of prudence, diversification and that investments be made in accordance with the documents governing the plan. The prudence of a particular investment must be determined by the responsible fiduciary of an ERISA Plan by taking into account the ERISA Plan's particular circumstances and all of the facts and circumstances of the investment.

Section 406 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of an ERISA Plan, as well as assets of those plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts and Keogh plans, and entities the underlying assets of which include the assets of such plans (together with ERISA Plans, "**Plans**") and certain persons (referred to as "**parties in interest**" under ERISA or "**disqualified persons**" under the Code (collectively, "**Parties in Interest**")) having certain relationships to such Plans, unless a statutory or administrative exception or exemption is applicable to the transaction. A Party in Interest who engages in a prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code and the transaction may have to be rescinded, potentially at significant cost to the Issuer.

Governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA), while not subject to the fiduciary responsibility or prohibited transaction provisions of ERISA or the provisions of Section 4975 of the Code, may nevertheless be subject to substantially similar rules under federal, state, local or non-U.S. laws or regulations, and may be subject to the prohibited transaction rules of Section 503 of the Code.

Under ERISA and a regulation issued by the United States Department of Labor (29 C.F.R. Section 2510.3-101, as modified by Section 3(42) of ERISA, the "**Plan Asset Regulation**"), if a Plan invests in an "equity interest" of an entity that is neither a "publicly offered security" nor a security issued by an investment company registered under the Investment Company Act of 1940, the Plan's assets are deemed to include both the equity interest and an undivided interest in each of the entity's underlying assets, unless it is established (a) that the entity is an "operating company", as that term is defined in the Plan Asset Regulation, or (b) that less than 25 per cent. of the total value of each class of equity interest in the entity, disregarding the value of any equity interests held by persons (other than Benefit Plan Investors) with discretionary authority or control over the assets of the entity or who provide investment advice for a fee (direct or indirect) with respect to such assets (such as the Collateral Manager), and their respective Affiliates (each a "**Controlling Person**"), is held by Benefit Plan Investors (the "**25 per cent. Limitation**"). A "**Benefit Plan Investor**" means (1) an employee benefit plan (as defined in Section 3(3) of ERISA), subject to the provisions of part 4 of Subtitle B of Title I of ERISA, (2) a plan to which Section 4975 of the Code applies, or (3) any entity whose underlying assets include plan assets by reason of such an employee benefit plan's or plan's investment in such entity.

If the underlying assets of the Issuer are deemed to be Plan assets, the obligations and other responsibilities of Plan sponsors, Plan fiduciaries and Plan administrators, and of Parties in Interest, under Parts 1 and 4 of Subtitle B of Title I of ERISA and Section 4975 of the Code, as applicable, may be expanded, and there may be an increase in their liability under these and other provisions of ERISA and the Code. In addition, various providers of fiduciary or other services to the entity, and any other parties with authority or control with respect to the Issuer, could be deemed to be Plan fiduciaries or otherwise parties in interest or disqualified persons by virtue of their provision of such services (and there could be an improper delegation of authority to such providers).

The Plan Asset Regulation defines an "**equity interest**" as any interest in an entity other than an instrument that is treated as indebtedness under applicable local law and that has no substantial equity features. Although it is not free from doubt, the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes offered hereby will be treated by the Issuer as indebtedness with no substantial equity features for purposes

of ERISA. The treatment of the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes as not being equity interests in the Issuer could however, be affected, subsequent to their issuance, by certain changes in the structure or financial condition of the Issuer. However, the characteristics of the Class E Notes, the Class F Notes and the Subordinated Notes for purposes of the Plan Asset Regulation are less certain. The Class E Notes, the Class F Notes and the Subordinated Notes may be considered "equity interests" for purposes of the Plan Asset Regulation. Accordingly, in reliance on representations made by investors in the Class E Notes, the Class F Notes and the Subordinated Notes, the Issuer intends to limit investment by Benefit Plan Investors and Controlling Persons in the Class E Notes, the Class F Notes and the Subordinated Notes in order to satisfy the 25 per cent. Limitation with respect to the Class E Notes, the Class F Notes and the Subordinated Notes (determined separately by class) at all times (excluding for purposes of such calculation Class E Notes, Class F Notes and Subordinated Notes held by a Controlling Person). Each prospective purchaser (including a transferee) of a Class E Note, Class F Note or Subordinated Note will be required to make certain representations regarding its status as a Benefit Plan Investor or Controlling Person and other ERISA matters as described under "*Transfer Restrictions*" below. No Class E Note, Class F Note or Subordinated Note will be sold or transferred to purchasers that have represented that they are Benefit Plan Investors or Controlling Persons to the extent that such sale may result in ownership by Benefit Plan Investors exceeding the 25 per cent. limitation with respect to the Class E Notes, the Class F Notes or the Subordinated Notes (determined in separately by class). Except as otherwise provided by the Plan Asset Regulation, each Class E Note, Class F Note and Subordinated Note held by persons that have represented that they are Controlling Persons will be disregarded and will not be treated as outstanding for purposes of determining compliance with such 25 per cent. limitation.

With respect to each Note, including the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, even if such Notes would not be treated as equity interests in the Issuer for purposes of ERISA, it is possible that an investment in the Notes by a Benefit Plan Investor (or with the use of the assets of a Benefit Plan Investor) could be treated as a prohibited transaction under ERISA and/or Section 4975 of the Code. Such a prohibited transaction, however, may be subject to a statutory or administrative exemption. Included among these exemptions are Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code (relating to transactions with certain service providers) and Prohibited Transaction Class Exemption ("**PTCE**") 91-38 (relating to investments by bank collective investment funds), PTCE 84-14 (relating to transactions effected by "qualified professional asset managers"), PTCE 95-60 (relating to transactions involving insurance company general accounts), PTCE 90-1 (relating to investments by insurance company pooled separate accounts) and PTCE 96-23 (relating to transactions determined by certain "in-house asset managers"). Prospective investors should consult with their advisors regarding the prohibited transaction rules and these and other exemptions. There can be no assurance that any of these exemptions or any other exemption will be available with respect to any particular transaction involving the Notes. Even if an exemption were to apply, such exemption may not, however, apply to all of the transactions that could be deemed prohibited transactions in connection with an investment in the Notes by a Benefit Plan Investor.

In addition, each of the Issuer, the Placement Agent, the Collateral Manager, or their respective Affiliates may be the sponsor of, or investment adviser with respect to one, or more Plans. Because such parties may receive certain benefits in connection with the sale of the Notes to such Plans, whether or not the Notes are treated as equity interests in the Issuer, the purchase of such Notes using the assets of a Plan over which any of such parties has investment authority might be deemed to be a violation of the prohibited transaction rules of ERISA and/or Section 4975 of the Code for which no exemption may be available. Accordingly, the Class X Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes may not be acquired using the assets of any Plan if any of the Issuer, the Placement Agent, the Collateral Manager or their respective affiliates has investment authority with respect to such assets (except to the extent (if any) that a favourable statutory or administrative exemption or exception applies or the transaction is not otherwise prohibited).

It should be noted that an insurance company's general account may be deemed to include assets of Plans under certain circumstances, e.g., where a Plan purchases certain annuity contract issued by such an insurance company, based on the reasoning of the United States Supreme Court in *John Hancock Mutual Life Ins. Co. v. Harris Trust and Savings Bank*, 510 U.S. 86 (1993). An insurance company considering the purchase of Notes with assets of

its general account should consider such purchase and the insurance company's ability to make the representations described above in light of *John Hancock Mutual Life Ins. Co. v. Harris Trust and Savings Bank*, Section 401(c) of ERISA and a regulation promulgated by the U.S. Department of Labor under that Section of ERISA at 29 C.F.R. Section 2550.401c-1.

Each purchaser and transferee of a Class X Note, Class A Note, Class B Note, Class C Note or Class D Note or any interest in such Note will be deemed to have represented, warranted and agreed that (i) either (A) it is not and is not acting on behalf of (and for so long as it holds any such Note or interest therein will not be, and will not be acting on behalf of), a Benefit Plan Investor or a governmental, church, non-U.S. or other plan which is subject to any federal, state, local or non-U.S. law or regulation that is substantially similar to the prohibited transaction provisions of Section 406 of ERISA and/or Section 4975 of the Code ("**Other Plan Law**"), and no part of the assets to be used by it to acquire or hold such Note or any interest therein constitutes the assets of any Benefit Plan Investor or such governmental, church, non-U.S. or other plan, or (B) its acquisition, holding and disposition of such Note (or interest therein) will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, or, in the case of a governmental, church, non-U.S. or other plan, a violation of any Other Plan Law, and (ii) it will not sell or transfer such Note (or interest therein) to a transferee acquiring such Note (or interest therein) unless the transferee makes or is deemed to make the foregoing representations, warranties and agreements described in clause (i) hereof.

Each purchaser or transferee of a Class E Note, Class F Note or Subordinated Note will be deemed to represent, warrant and agree that (i) it is not, and is not acting on behalf of (and for so long as it holds such Note or interest therein will not be, and will not be acting on behalf of), a Benefit Plan Investor or Controlling Person unless it (A) receives the written consent of the Issuer and (B) provides an ERISA certificate in or substantially in the form of Annex B (*Form of ERISA Certificate*) to a Transfer Agent and the Issuer; (ii) (A) if purchaser is, or is acting on behalf of, a Benefit Plan Investor (to the extent permitted under clause (i) above), its acquisition, holding and disposition of such Note (or interest therein) will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, and (B) if it is a governmental, church, non-U.S. or other plan, (1) it is not, and for so long as it holds such Note or interests therein will not be, subject to any federal, state, local or non-U.S. law or regulation that could cause the underlying assets of the Issuer to be treated as assets of the investor in any Note (or any interest therein) by virtue of its interest and thereby subject the Issuer or the Collateral Manager (or other persons responsible for the investment and operation of the Issuer's assets) to Other Plan Law ("**Similar Law**") and (2) purchaser's acquisition, holding and disposition of such Note (or interest therein) will not constitute or result in a violation of any Other Plan Law; and (iii) purchaser will agree to the transfer restrictions described herein regarding its interest in such Note. Any purported transfer of the Class E Notes, the Class F Notes or the Subordinated Notes in violation of the requirements set forth in this paragraph or that may otherwise result in 25 per cent. or more of the total value of the Class E Notes, the Class F Notes or the Subordinated Notes to be held by Benefit Plan Investors for the purposes of ERISA shall be null and void *ab initio* and the Issuer will have the right to cause the sale of such Class E Notes, Class F Notes or Subordinated Notes to another acquirer that complies with the requirements of this paragraph in accordance with the terms of the Trust Deed.

Any purported transfer of the Class E Notes, the Class F Notes or the Subordinated Notes that may result in 25 per cent. or more of the total value of the Class E Notes, the Class F Notes or the Subordinated Notes being held by "Benefit Plan Investors" for the purposes of ERISA shall be null and void *ab initio* and the Issuer will have the right to cause the sale of such Class E Notes, Class F Notes or Subordinated Notes to another acquirer that complies with the requirements of this paragraph in accordance with the terms of the Trust Deed.

No transfer of an interest in the Class E Notes, the Class F Notes or the Subordinated Notes will be permitted or recognised if it would cause the 25 per cent. Limitation described above to be exceeded with respect to the Class E Notes, the Class F Notes or the Subordinated Notes (determined separately by class).

If the purchaser or transferee of any Notes or beneficial interest therein is a Benefit Plan Investor, it will be deemed to represent, warrant and agree that (i) none of the Issuer, the Placement Agent, the Trustee or the Collateral Administrator (the "**Transaction Parties**") or any of their affiliates, has provided any investment advice within

the meaning of Section 3(21) of ERISA to the Benefit Plan Investor, or to any fiduciary or other person investing the assets of the Benefit Plan Investor ("**Fiduciary**"), in connection with its acquisition of Notes, and (ii) the Fiduciary is exercising its own independent judgment in evaluating the investment in the Notes.

Any Plan fiduciary considering whether to acquire a Note on behalf of a Plan or an employee benefit plan not subject to ERISA or Section 4975 of the Code should consult with its counsel regarding the potential consequences of such investment, the applicability of the fiduciary responsibility provisions of ERISA and the prohibited transaction provisions of ERISA and the Code and/or similar provisions of Other Plan Law and Similar Law, and the scope of any available exemption relating to such investment.

The sale of Notes to a Plan or a plan not subject to ERISA or Section 4975 of the Code is in no respect a representation or warranty by the Issuer, or any other person that this investment meets all relevant legal requirements with respect to investments by Plans or such other plans generally or any particular plan, that any prohibited transaction exemption would apply to the acquisition, holding, or disposition of this investment by such plans in general or any particular plan, or that this investment is appropriate for such plans generally or any particular plan.

PLAN OF DISTRIBUTION

The following section consists of a summary of certain provisions of the Placement Agency Agreement which does not purport to be complete and is qualified by reference to the detailed provisions of such agreement.

J.P. Morgan Securities plc, in its capacity as Placement Agent, has agreed with the Issuer, subject to the satisfaction of certain conditions, to facilitate the sale by the Issuer of each Class of the Notes (other than any other Notes sold directly by the Issuer to the Retention Holder and its Affiliates) (the "**J.P. Morgan Placed Notes**") pursuant to the Placement Agency Agreement. The Placement Agency Agreement entitles the Placement Agent to terminate it in certain circumstances prior to payment being made to the Issuer.

The Retention Holder will purchase the Retention Notes from the Issuer pursuant to the Retention Note Purchase Agreement. Affiliates of the Retention Holder will purchase Notes from the Issuer pursuant to a Note Purchase Agreement.

The Placement Agent may offer the J.P. Morgan Placed Notes and the Issuer may offer the Notes other than the J.P. Morgan Placed Notes at prices as may be negotiated at the time of sale which may vary among different purchasers and which may be different to the issue price of the Notes.

It is a condition of the issue of the Notes of each Class that the Notes of each other Class be issued in the following principal amounts: Class X Notes: €1,000,000, Class A Notes: €155,000,000, Class B-1 Notes: €15,500,000, Class B-2 Notes: €7,000,000, Class C Notes: €18,500,000, Class D Notes: €15,300,000, Class E Notes: €13,800,000, Class F Notes: €6,100,000, and Subordinated Notes: €20,800,000.

The Issuer has agreed to indemnify the Placement Agent, the Collateral Manager, the Collateral Administrator, the Trustee and certain other participants against certain liabilities or to contribute to payments they may be required to make in respect thereof.

Certain of the Collateral Debt Obligations may have been originally underwritten or placed by the Placement Agent. In addition, the Placement Agent may have in the past performed and may in the future perform investment banking services or other services for issuers of the Collateral Debt Obligations. In addition, the Placement Agent and its Affiliates may from time to time as a principal or through one or more investment funds that it or they manage, make investments in the equity securities of one or more of the issuers of the Collateral Debt Obligations, with a result that one or more of such issuers may be or may become controlled by the Placement Agent or its Affiliates.

In addition, in the ordinary course of their business activities, the Placement Agent and its Affiliates may hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments (including the Notes) of the Issuer. The Placement Agent and its Affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

No action has been or will be taken by the Issuer, the Placement Agent, the Collateral Manager or the Retention Holder that would permit a public offering of the Notes or possession or distribution of this Offering Circular or any other offering material in relation to the Notes in any jurisdiction where action for the purpose is required. No offers, sales or deliveries of any Notes, or distribution of this Offering Circular or any other offering material relating to the Notes, may be made in or from any jurisdiction, except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligations on the Issuer or the Placement Agent.

The Notes have not been and will not be registered under the Securities Act and may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. Persons or to U.S. Residents except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act and in

the manner so as not to require the registration of the Issuer as an "investment company" pursuant to the Investment Company Act.

The Notes sold in reliance on Rule 144A for (i) each Class of Notes (save for the Class X Notes) will be issued in minimum denominations of €250,000 and integral multiples of €1,000 in excess thereof and (ii) the Class X Notes will be issued in minimum denominations of €100,000 and integral multiples of €1,000 in excess thereof. Any offer or sale of Rule 144A Notes in reliance on Rule 144A will be made by broker dealers who are registered as such under the Exchange Act. After the Notes are released for sale, the offering price and other selling terms may from time to time be varied by the Placement Agent (or its broker-dealer Affiliates).

The Placement Agent has acknowledged and agreed that it will not offer, sell or deliver any Regulation S Notes to, or for the account or benefit of, any U.S. Person or U.S. Resident as part of their distribution at any time and that it will send to each distributor, dealer or person receiving a selling concession, fee or other remuneration to which it sells Regulation S Notes a confirmation or other notice setting forth the prohibition on offers and sales of the Regulation S Notes within the United States or to, or for the account or benefit of, any U.S. Person or U.S. Resident.

This Offering Circular has been prepared by the Issuer for use in connection with the offer and sale of the Notes and for the listing of the Notes of each Class on the Global Exchange Market. The Issuer and the Placement Agent reserve the right to reject any offer to purchase, in whole or in part, for any reason, or to sell less than the principal amount of Notes which may be offered. This Offering Circular does not constitute an offer to any person in the United States or to any U.S. Person. Distribution of this Offering Circular to any such U.S. Person or to any person within the United States, other than in accordance with the procedures described above, is unauthorised and any disclosure of any of its contents, without the prior written consent of the Issuer, is prohibited.

The Placement Agent will represent and agree to comply with the following selling restrictions in respect of the J.P. Morgan Placed Notes:

Any subscriptions of Notes shall only become effective upon acceptance by the Issuer or the relevant dealer outside Taiwan and shall be deemed a contract entered into in the jurisdiction of incorporation of the Issuer or relevant dealer, as the case may be, unless otherwise specified in the subscription documents relating to the Notes signed by the investors.

TRANSFER RESTRICTIONS

Because of the following restrictions, purchasers are advised to consult legal counsel prior to making any offer, resale, pledge or transfer of the Notes.

Rule 144A Notes

Each prospective purchaser of Rule 144A Notes, by accepting delivery of this Offering Circular, will be deemed to have represented and agreed (or in the case of a Definitive Certificate, shall represent and agree) that such person acknowledges that this Offering Circular is personal to it and does not constitute an offer to any other person or to the public generally to subscribe for or otherwise acquire Notes other than pursuant to Rule 144A or in "offshore transactions" in accordance with Regulation S. Distribution of this Offering Circular, or disclosure of any of its contents to any person other than such offeree and those persons, if any, retained to advise it with respect thereto is unauthorized and any disclosure of any of its contents, without the prior written consent of the Issuer, is prohibited.

Each purchaser or transferee of Rule 144A Notes represented by a Rule 144A Global Certificate will be deemed to have represented and agreed and each purchaser or transferee of Rule 144A Notes represented by Definitive Certificates will be required to represent and agree, as follows:

1. The purchaser (a) is a QIB, (b) is aware that the sale of such Rule 144A Notes to it is being made in reliance on Rule 144A, (c) is acquiring such Notes for its own account or for the account of a QIB as to which the purchaser exercises sole investment discretion, and in a principal amount of not less than €250,000 (save in respect of the Class X Notes, which shall be in a principal amount of not less than €100,000) for the purchaser and for each such account and (d) will provide notice of the transfer restrictions described herein to any subsequent transferees.
2. The purchaser understands that such Rule 144A Notes have not been and will not be registered under the Securities Act, and may be reoffered, resold or pledged or otherwise transferred only (a)(i) to a person whom the purchaser reasonably believes is a QIB purchasing for its own account or for the account of a QIB as to which the purchaser exercises sole investment discretion in a transaction meeting the requirements of Rule 144A or (ii) to a non-"U.S. person" in an "offshore transaction" complying with Rule 903 or Rule 904 of Regulation S and (b) in accordance with all applicable securities laws including the securities laws of any state of the United States. The purchaser understands that the Issuer has not been registered under the Investment Company Act. The purchaser understands that before any interest in a Rule 144A Note may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in the Regulation S Notes, the Registrar is required to receive a written certification from the purchaser (in the form provided in the Trust Deed) as to compliance with the transfer restrictions described herein. The purchaser understands and agrees that any purported transfer of the Rule 144A Notes to a purchaser that does not comply with the requirements of this paragraph 2 shall be null and void *ab initio*.
3. The purchaser is not purchasing such Rule 144A Notes with a view toward the resale, distribution or other disposition thereof in violation of the Securities Act. The purchaser understands that an investment in the Rule 144A Notes involves certain risks, including the risk of loss of its entire investment in the Rule 144A Notes under certain circumstances. The purchaser has had access to such financial and other information concerning the Issuer and the Notes as it deemed necessary or appropriate in order to make an informed investment decision with respect to its purchase of the Rule 144A Notes, including an opportunity to ask questions of, and request information from, the Issuer.
4. In connection with the purchase of the Rule 144A Notes: (a) none of the Issuer, the Placement Agent, the Trustee, the Collateral Manager or the Collateral Administrator (the "**Transaction Parties**") is acting as a fiduciary or financial or collateral manager for the purchaser; (b) the purchaser is not relying (for purposes of making any investment decision or otherwise) upon any advice, counsel or representations

10. Without limiting the foregoing, by purchasing a Note, each purchaser will acknowledge and agree, among other things, that it understands that the Issuer is not registered as an investment company under the Investment Company Act, and that the Issuer intends to rely on an exception contained in Section 3(c)(7) of the Investment Company Act. Section 3(c)(7) excepts from the definition of "investment company" those issuers that privately place their securities solely to, and whose securities are held solely by, persons who at the time of purchase are "qualified purchasers" or entities owned exclusively by "qualified purchasers" as further described herein.

for a reduced rate of withholding or deduction in any jurisdiction from or through which the Issuer or its agents receive payments, and (C) to enable the Issuer or its agents to satisfy reporting and other obligations under the Code and Treasury Regulations or under any other applicable law, and will update or replace any tax forms or certifications as appropriate or in accordance with their terms or subsequent amendments thereto. Each purchaser or transferee acknowledges that the failure to provide, update or replace any such tax forms or certifications may result in the imposition of withholding or back up withholding upon payments to such purchaser or transferee, or to the Issuer. Amounts withheld from payments to the purchaser or transferee by the Issuer or its agents that are, in their sole judgement, required to be withheld pursuant to applicable tax laws will be treated as having been paid to the purchaser or transferee by the Issuer.

13. The purchaser or transferee will provide the Issuer or its agents with any correct, complete and accurate information or documentation that may be required for the Issuer to comply with FATCA and the CRS and to prevent the imposition of tax under FATCA on payments to or for the benefit of the Issuer. In the event the purchaser or transferee fails to provide such information or documentation for the purposes of FATCA, or to the extent that its ownership of the Notes would otherwise cause the Issuer to be subject to tax under FATCA, (A) the Issuer or its agents are authorised to withhold amounts otherwise distributable to the purchaser or transferee as compensation for any amount withheld from payments to or for the benefit of the Issuer under FATCA as a result of such failure or the Noteholder's ownership of Notes, and (B) except in the case of the Retention Notes, to the extent necessary to avoid an adverse effect on the Issuer as a result of such failure or such purchaser's or transferee's ownership of Notes, the Issuer will have the right to compel the purchaser or transferee to sell its Notes, and, if such purchaser or transferee does not sell its Notes within 10 Business Days after notice from the Issuer or any agent of the Issuer, the Issuer will have the right to sell such Notes at a public or private sale called and conducted in any manner permitted by law, and to remit the net proceeds of such sale (taking into account any expenses, costs and taxes incurred by the Issuer in connection with such sale) to such person as payment in full for such Notes. The Issuer may also assign each such Note a separate ISIN in the Issuer's sole discretion.

14. If it is a purchaser or transferee of Class E Notes, Class F Notes or Subordinated Notes and is not a United States person (as defined in Section 7701(a)(30) of the Code), it represents that (1) either:
 - (a) it is not a bank (within the meaning of Section 881(c)(3)(A) of the Code);
 - (b) after giving effect to its purchase of Notes, it will not directly or indirectly own more than 33-1/3 per cent., by value, of the aggregate of the Notes within such Class and any other Notes that are ranked *pari passu* with or are subordinated to such Notes, and will not otherwise be related to the Issuer (within the meaning of Treasury regulations section 1.881-3);
 - (c) it has provided an IRS Form W-8ECI representing that all payments received or to be received by it from the Issuer are effectively connected with the conduct of a trade or business in the United States and includible in its gross income; or
 - (d) it is eligible for benefits under an income tax treaty with the United States that eliminates U.S. federal income taxation of U.S. source interest not attributable to a permanent establishment in the United States; and

(2) it has not purchased the Notes in whole or in part to avoid any U.S. federal tax liability (including, without limitation, any U.S. withholding tax that would be imposed with respect to payments on the Collateral Debt Obligations if the Collateral Debt Obligations were held directly by the purchaser or transferee).

15. If it is a purchaser or transferee of Subordinated Notes and owns more than 50 per cent. of the Subordinated Notes by value or is otherwise treated as a member of the Issuer's "expanded affiliated group" (as defined in Treasury regulations section 1.1471-5(i) (or any successor provision)), it will (A)

confirm that any member of such expanded affiliated group (assuming that the Issuer is a "registered deemed-compliant FFI" within the meaning of Treasury regulations section 1.1471-1(b)(111) (or any successor provision)) that is treated as a "foreign financial institution" within the meaning of Section 1471(d)(4) of the Code and any Treasury regulations promulgated thereunder is either a "participating FFI", a "deemed-compliant FFI" or an "exempt beneficial owner" within the meaning of Treasury regulations section 1.1471-4(e) (or any successor provision), and (B) promptly notify the Issuer in the event that any member of such expanded affiliated group that is treated as a "foreign financial institution" within the meaning of Section 1471(d)(4) of the Code and any Treasury regulations promulgated thereunder is not either a "participating FFI", a "deemed-compliant FFI" or an "exempt beneficial owner" within the meaning of Treasury regulations section 1.1471-4(e) (or any successor provision), in each case except to the extent that the Issuer or its agents have provided such Noteholder with an express waiver of this requirement.

16. No purchaser or transferee of Subordinated Notes will treat any income with respect to its Subordinated Notes as derived in connection with the Issuer's active conduct of a banking, financing, insurance, or other similar business for purposes of Section 954(h)(2) of the Code.
17. The purchaser understands and acknowledges that the Issuer has the right under the Trust Deed to compel any Non-Permitted Holder or Non-Permitted ERISA Holder to sell its interest in the Notes, or may sell such interest in its Notes on behalf of such Non-Permitted Holder or Non-Permitted ERISA Holder.
18. By acquiring the Notes, the Placement Agent and its Affiliates along with each holder of the Notes will be deemed to have acknowledged the existence of such potential and actual conflicts of interest and, to the fullest extent permitted by applicable law, to have waived any claims with respect to the existence of such conflicts of interest.
19. The purchaser understands and acknowledges that the Issuer may receive a list of participants holding positions in its securities from one or more book-entry depositaries.
20. The purchaser acknowledges that the Issuer, the Placement Agent, the Retention Holder, the Trustee, the Collateral Manager, the Collateral Administrator (and, in each case, each of their Affiliates) and others, will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements.

Drafts of the documents set out above at paragraphs (b) to (f) (inclusive) and (k) to (m) (inclusive), in substantially agreed form shall be available before pricing of the Notes via the Reporting Website or by such other method of dissemination as is required by the Securitisation Regulation (as instructed by the Issuer or the Collateral Manager on its behalf) and copies of the final form of such documents (which may be subject to change since the date of pricing) shall be available on such website as of the Issue Date to investors and competent authorities and, upon request, potential investors. Enforceability of Judgments

The Issuer is a designated activity company incorporated under the laws of Ireland. None of the Directors or officers of the Issuer are residents of the United States, and all or a substantial portion of the assets of the Issuer and such persons may be located outside of the United States at any time. As a result, it may not be possible for investors to effect service of process within the United States upon the Issuer or such persons or to enforce against any of them in the United States courts judgments obtained in United States courts, including judgments predicated upon civil liability provisions of the securities laws of the United States or any State or territory within the United States.

As the United States is not a party to a convention with Ireland in respect of the enforcement of judgments, common law rules apply in order to determine whether a judgment of the United States courts is enforceable in Ireland. A judgment of the United States courts will be enforced by the courts of Ireland if the following general requirements are met:

- (a) the United States courts must have had jurisdiction in relation to the particular defendant according to Irish conflict of law rules (the submission to jurisdiction by the defendant would satisfy this rule); and
- (b) the judgment must be final and conclusive and the decree must be final and unalterable in the court which pronounces it. A judgment can be final and conclusive even if it is subject to appeal or even if an appeal is pending. Where, however, the effect of lodging an appeal under the applicable law is to stay execution of the judgment, it is possible that, in the meantime, the judgment should not be actionable in Ireland. It remains to be determined whether final judgment given in default of appearance is final and conclusive.

However, the Irish courts may refuse to enforce a judgment of the United States courts which meets the above requirements for one of the following reasons:

- (a) if the judgment is not for a definite sum of money;
- (b) if the judgment was obtained by fraud;
- (c) the enforcement of the judgment in Ireland would be contrary to natural or constitutional justice;
- (d) the judgment is contrary to Irish public policy or involves certain United States laws which will not be enforced in Ireland;
- (e) jurisdiction cannot be obtained by the Irish courts over the judgment debtors in the enforcement

proceedings by personal service in Ireland or outside Ireland under Order 11 of the Superior Courts Rules;

- (f) there is no practical benefit to the party in whose favour the foreign judgment is made in seeking to have that judgment enforced in Ireland;
- (g) the judgment is inconsistent with a judgment of the courts of Ireland in relation to the same matter; or
- (h) enforcement proceedings are not instituted in Ireland within six years of the date of the judgment.

Listing Agent

Maples and Calder LLP is acting solely in its capacity as listing agent for the Issuer in connection with the Notes and is not itself seeking admission of the Notes to the Official List of Euronext Dublin or to trading on the Global Exchange Market of Euronext Dublin.

ANNEX B – FORM OF ERISA CERTIFICATE

The purpose of this ERISA Certificate (this "**Certificate**") is, among other things, to (a) endeavour to ensure that less than 25% of the total value of [Class E Notes, Class F Notes and Subordinated Notes] (determined separately by class) issued by Voya Euro CLO IV Designated Activity Company (the "**Issuer**") is held by (i) an employee benefit plan that is subject to the fiduciary responsibility provisions of Title I of the United States Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), (ii) a plan that is subject to Section 4975 of the United States Internal Revenue Code of 1986, as amended (the "**Code**") or (iii) any entity whose underlying assets include "plan assets" by reason of any such employee benefit plan's or plan's investment in the entity (collectively, "**Benefit Plan Investors**"), (b) obtain from you certain representations and agreements and (c) provide you with certain related information with respect to your acquisition, holding or disposition of [Class E Notes, Class F Notes and Subordinated Notes]. By signing this Certificate, you agree to be bound by its terms.

Please be aware that the information contained in this Certificate is not intended to constitute advice and the examples given below are not intended to be, and are not, comprehensive. You should contact your own counsel if you have any questions in completing this Certificate. Capitalised terms not defined in this Certificate shall have the meanings ascribed to them in the Trust Deed.

By checking a box, you are representing, warranting and agreeing as to your status for so long as you hold a [Class E Note, Class F Note or Subordinated Note] or interest therein. If a box is not checked, you are representing, warranting and agreeing that the applicable Section does not, and will not, apply to you.

We, or the entity on whose behalf we are acting, are an "employee benefit plan" within the meaning of Section 3(3) of ERISA that is subject to the fiduciary responsibility provisions of Title I of ERISA or a "plan" within the meaning of Section 4975(e)(1) of the Code that is subject to Section 4975 of the Code.

Examples: (a) tax qualified retirement plans such as pension, profit sharing and section 401(k) plans, (b) welfare benefit plans such as accident, life and medical plans, (c) individual retirement accounts or "IRAs" and "Keogh" plans and (d) certain tax-qualified educational and savings trusts.

Examples: (a) an insurance company separate account, (b) a bank collective trust fund and (c) a hedge fund or other private investment vehicle where 25% or more of the total value of any class of its equity is held by Benefit Plan Investors.

If you check Box 2, please indicate the maximum percentage of the entity or fund that will constitute **plan assets** for purposes of Title I of ERISA or Section 4975 of the Code: ____%.

AN ENTITY OR FUND THAT CANNOT PROVIDE THE FOREGOING PERCENTAGE HEREBY ACKNOWLEDGES THAT FOR PURPOSES OF DETERMINING WHETHER BENEFIT PLAN INVESTORS OWN LESS THAN 25% OF THE TOTAL VALUE OF ANY OF [CLASS E NOTES, CLASS F NOTES OR SUBORDINATED NOTES], 100% OF THE ASSETS OF THE ENTITY OR FUND WILL BE TREATED AS "PLAN ASSETS".

ERISA and the regulations promulgated thereunder are technical. Accordingly, if you have any questions regarding whether you may be an entity described in this Section 2, you should consult with your counsel.

Section 2510.3-101, as modified by Section 3(42) of ERISA (the **Plan Asset Regulations**).

If you check Box 3, please indicate the maximum percentage of the insurance company general account that will constitute "plan assets" under Section 401(a) of ERISA for purposes of conducting the 25% test under the Plan Asset Regulations: ____%. IF YOU DO NOT INCLUDE ANY PERCENTAGE IN THE BLANK SPACE, YOU WILL BE COUNTED AS IF YOU FILLED IN 100% IN THE BLANK SPACE.

We, or the entity on whose behalf we are acting, are a person that does not fall into any of the categories described in Sections (1) through (3) above. If, after the date hereof, any of the categories described in Sections (1) through (3) above would apply, we will promptly notify the Issuer and a Transfer Agent of such change.

5. No Prohibited Transaction

If we checked any of the boxes in Sections (1) through (3) above, we represent, warrant and agree that our acquisition, holding and disposition of [Class E Notes, Class F Notes or Subordinated Notes] (or any interest therein) will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code.

6. Not Subject to Similar Law and No Violation of Other Plan Law

If we are a governmental, church, non-U.S. or other plan, we represent, warrant and agree that (a) we are not subject to any federal, state, local or non-U.S. law or regulation that could cause the underlying assets of the Issuer to be treated as assets of the investor in any Note (or interest therein) by virtue of its interest and thereby subject the Issuer or the Collateral Manager (or other persons responsible for the investment and operation of the Issuer's assets) to laws or regulations that are substantially similar to the prohibited transaction provisions of Section 406 of ERISA and/or Section 4975 of the Code, and (b) our acquisition, holding and disposition of [Class E Notes, Class F Notes or Subordinated Notes] (or any interest therein) will not constitute or result in a violation of any federal, state, local or non-U.S. law or regulation that is substantially similar to the prohibited transaction provisions of Section 406 of ERISA and/or Section 4975 of the Code.

Compelled Disposition

We acknowledge and agree that:

- (a) if any representation that we made hereunder is subsequently shown to be false or misleading or our beneficial ownership otherwise causes a violation of the 25% Limitation, the Issuer may, (or upon notice from a Transfer Agent if the Transfer Agent makes the determination (who, in each case, agree to notify the Issuer of such discovery (if any)) send notice to us demanding that we transfer our [Class E Notes, Class F Notes or Subordinated Notes] or our interests therein to a person that is not a Non-Permitted ERISA Holder within 10 calendar days after the date of such notice;

- (e) the proceeds of such sale, net of any commissions, expenses and taxes due in connection with such sale shall be remitted to us; and
- (f) the terms and conditions of any sale under this subsection shall be determined in the sole discretion of the Issuer, and the Issuer shall not be liable to us as a result of any such sale or the exercise of such discretion.

8. Required Notification and Agreement

We hereby agree that we (a) will promptly inform the Issuer of any change in the information provided herein, (b) will inform the Issuer and a Transfer Agent of any proposed transfer by us of all or any portion of [Class E Notes, Class F Notes or Subordinated Notes] (or any interest therein) and (c) will not initiate any such transfer after we have been informed by the Issuer or a Transfer Agent in writing that such transfer would cause the 25% Limitation to be exceeded. We hereby agree and acknowledge that after a Transfer Agent effects any permitted transfer of [Class E Notes, Class F Notes or Subordinated Notes] (or any interest therein) owned by us to a Benefit Plan Investor or a Controlling Person or receives notice of any such permitted change of status, the Issuer and a Transfer Agent shall include such [Class E Notes,

Class F Notes or Subordinated Notes] in future calculations of the 25% Limitation made pursuant hereto unless subsequently notified that such [Class E Notes, Class F Notes or Subordinated Notes] (or such portion), as applicable, would no longer be deemed to be held by Benefit Plan Investors or Controlling Persons.

9. Continuing Representation; Reliance

We acknowledge and agree that the representations, warranties and agreements contained in this Certificate shall be deemed made on each day from the date we make such representations, warranties and agreements through and including the date on which we dispose of our interests in [Class E Notes, Class F Notes or Subordinated Notes]. We understand and agree that the information supplied in this Certificate will be used and relied upon by the Issuer and each Transfer Agent to determine that Benefit Plan Investors own or hold less than 25% of the total value of [Class E Notes, Class F Notes or Subordinated Notes] (determined separately by class) upon any subsequent transfer of [Class E Notes, Class F Notes or Subordinated Notes] in accordance with the Trust Deed.

10. Further Acknowledgement and Agreement

We acknowledge and agree that (a) all of the representations, warranties and assurances contained in this Certificate are for the benefit of the Issuer, the Trustee, the Placement Agent and the Collateral Manager as third party beneficiaries hereof, (b) copies of this Certificate and any information contained herein may be provided to the Issuer, the Trustee, the Placement Agent, the Collateral Manager, affiliates of any of the foregoing parties and to each of the foregoing parties' respective counsel for purposes of making the determinations described above and (c) any acquisition or transfer of [Class E Notes, Class F Notes or Subordinated Notes] (or any interest therein) by us that is not in accordance with the provisions of this Certificate shall be null and void from the beginning, and of no legal effect.
