RISK FACTORS

The following risk factors are factors which the Issuer believes may be material for the purposes of (i) assessing the ability of the Issuer to fulfil its obligations under the Security and (ii) assessing the market risks associated with the Security.

An investment in the Security involves certain risks, including risks relating to the Initial Charged Assets and risks relating to the structure and rights of such Security and the related arrangements. Prospective investors should carefully consider the following factors and the risk factors in the Base Listing Particulars referred to above, in addition to the matters set forth elsewhere in this Series Listing Particulars, prior to investing in the Security. The following is a description of certain aspects of the issue of the Security of which any prospective purchaser of the Security should be aware, but it is not intended to be exhaustive and any prospective purchaser of the Security should also read the detailed information set out elsewhere in this Series Listing Particulars and the other documents relating to the Security and take their own tax, legal and other relevant advice as to the advisability, structure and viability of their investment. Additional risks and uncertainties not presently known to the Issuer or that it currently believes to be immaterial could also have a material impact on its business operations and on the Security.

In particular, the attention of prospective purchasers of the Security is drawn to the section headed "*Risk Factors*" in the Base Listing Particulars (incorporated herein by reference, subject to certain amendments and exclusions; see "*Documents Incorporated by Reference*" above).

ADDITIONAL RISK FACTORS

1. Risks relating to the Security

Physical Delivery Securities

If the Security fall to be redeemed following: (i) a default or redenomination of the Initial Charged Assets; (ii) an amendment to the interest and/or principal due under the Initial Charged Assets; (iii) an Event of Default or a Termination Event under the Swap Agreement; (iv) an Arranger Insolvency Event; (v) an Illegality Event; (vi) a Change of Law Event; (vii) a Custodian /PPA Event where it is not possible to substitute the affected Custodian or Principal Paying Agent; (viii) a Regulatory Treatment Event where it is not possible to substitute the Issuer or amend the Conditions of the Security to avoid such an event; (ix) an Administrator Benchmark Event; (x) a tax related event that has an adverse impact on the Issuer; or (xi) an Event of Default, each such event as described in the Conditions, the Security shall be redeemed by physical settlement and delivery of the Asset Amount.

The value of any Asset Amounts deliverable in respect of Physical Delivery Securities may fluctuate and may be less than an investor's initial investment and may in certain circumstances be zero, in which case investors will lose the value of their entire investment.

Certain settlement disruption events may occur which may restrict the relevant Issuer's ability to deliver an Asset Amount (together with any related cash amounts) and therefore the date of delivery of such amounts will be delayed accordingly. Holders will not be entitled to any payment whether on account of interest or otherwise on the Securities in the event of any delay in the delivery of such amounts due to such settlement disruption events and no liability in respect thereof shall attach to the Issuer, or any of the Programme Parties.

All Delivery Expenses arising from the delivery of the Asset Amount shall be for the account of the relevant Holder. The payment of such Delivery Expenses, being all costs, taxes, duties and/or expenses, including stamp duty reserve tax and/or other costs, duties or taxes, will be a condition precedent, along with delivery by the relevant Holder of an Asset Transfer Notice, to the Asset Amount being delivered.

If delivery of an Asset Amount is not practicable by reason of a settlement disruption event or a Holder has not delivered an Asset Transfer Notice with respect to its Securities, in either case as of a specified cut-off date, then in lieu of physical settlement the relevant Issuer will satisfy its obligations in respect of the relevant Securities by payment of a cash amount calculated either by reference to the realisation proceeds of a specified amount of the Charged Assets, less certain expenses and unwind costs, or as specified in the relevant Pricing Supplement.

Range accrual interest and risks associated with interest rates - various unpredictable factors may affect the performance of interest rates

Interest accrues on each day of the Accrual Period provided that the Accrual Condition is satisfied. If the Accrual Condition is not satisfied, interest accrues at 0.00% per annum for that day. The satisfaction of the Accrual Condition depends on the performance of specified swap rates linked to the USD ICE Swap Rate (as defined in the Pricing Supplement). The performance of interest rates is dependent upon a number of factors, including supply and demand on the international money markets, which are influenced by measures taken by governments and central banks, as well as speculations and other macroeconomic factors.

Various unpredictable factors may affect the performance of interest rates

The performance of interest rates is dependent upon a number of factors, including supply and demand on the international money markets, which are influenced by measures taken by governments and central banks, as well as speculations and other macroeconomic factors.

A negative floating rate may reduce any positive margin payable on the Security

As the Interest Rate on the Security is linked to the relevant USD ICE Swap Accrual Rate (as defined in the Pricing Supplement) for the relevant Interest Period, a negative USD ICE Swap Accrual Rate will reduce the margin, potentially to zero. Accordingly, the Interest Rate on the Security may be lower than the margin and this would adversely affect the value of and return on the Security.

2. Risks relating to the Charged Assets

Additional risks in relation to Charged Assets which are corporate debt

The Initial Charged Assets are linked to CLP Power Hong Kong Financing Limited, which is a wholly owned subsidiary of CLP Power Hong Kong Limited (the Guarantor in respect of the Initial Charged Assets), which is a corporate entity. The market price of debt securities issued by or guaranteed by corporate entities may be volatile and will be affected by, amongst other things, the time remaining to the relevant redemption date, changes in prevailing interest rates and credit spreads and the creditworthiness of the relevant issuer which in turn may be affected by the economic, financial and political events in one or more jurisdictions. In particular, a downturn in the market and industries in which the relevant issuer and/or the guarantor operates will materially impact the market value of such debt securities. No assurance can be made that any such conditions will not occur, subsist or become more acute following the date on which such assets were initially purchased. Prospective investors should ensure that they have sufficient knowledge of the relevant corporate entity to enable them to make their own evaluation of the risks and merits of an investment in the Securities.

3. Risks relating to the Credit Linked Security

General risks relating to the Credit Linked Security

Prospective investors in the Security should be aware that (i) they may receive no or a limited amount of interest (or other periodic payments), (ii) payments may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. The market price of Credit Linked Securities may be volatile and will be affected by, amongst other things, the time remaining to maturity, prevailing

credit spreads and the financial condition and perceived creditworthiness (which may take into account the views of analysts or rating agencies) of the Reference Entity, which in turn may be affected by the economic, financial, political, regulatory and judicial events in one or more jurisdictions, the availability and payment profiles of debt obligations of the Reference Entity and liquidity and other technical factors affecting pricing in the credit default swap market.

Potential investors should also ensure that they understand fully the 2014 ISDA Credit Derivatives Definitions (the "**Credit Derivatives Definitions**") incorporated into the Credit Default Swap Transaction. These are available from the website of ISDA.

Physical Settlement

Following the occurrence of an Event Determination Date, if (i) the proceeds of realisation of the Initial Charged Assets (deducting any amount due to the Swap Counterparty) ("the **Net Realisation Amount**") is greater than the aggregate nominal amount of the Security; or (ii) the Net Realisation Amount is greater than zero; and (1) the Holder has notified the Issuer and the Swap Counterparty of its election to physically settle the Security on or before the Cash Top Up Notification Date (as defined in the Pricing Supplement), and (2) the Holder has paid the Cash Top Up Amount (as defined in the Pricing Supplement) on or prior to the Cash Top Up Payment Date (as defined in the Pricing Supplement), the Security may redeem by delivery of an Asset Amount.

The Asset Amount in this circumstance means the Deliverable Obligations (as defined in the Credit Default Swap Transaction) and does not include the Initial Charged Assets. If the Deliverable Obligations are not admitted to trading on any public trading market, they may be illiquid and investor may be unable to sell the assets received on the credit event early redemption. Potential investors should consider reinvestment risk in light of other investments available at that time.

The value of the Asset Amounts deliverable may fluctuate and may be less than an investor's initial investment. Certain settlement disruption events may occur and therefore the date of delivery will be delayed. Holders will not be entitled to any payment whether on account of interest or otherwise on the Security in the event of any delay in the delivery. All delivery expenses will be borne by the Holders.

Auction Settlement

The Auction Final Price will be determined according to an auction procedure in relation to certain obligations of the Reference Entity set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by or on behalf of ISDA on www.cdsdeterminationscommittees.org (or any successor website thereto) from time to time (as may be amended from time to time). The value of those obligations may vary widely and it is likely that after a Credit Event the value of those obligations will fall substantially (including in the case of a Restructuring Credit Event notwithstanding that the Reference Entity may not be in default). If this happens the relevant amount payable under the Security would be substantially reduced, and may in certain circumstances be zero. The Auction Final Price may also be less than the market value that could otherwise have been determined in respect of the Reference Obligation for the relevant Reference Entity. The Issuer, the Swap Counterparty (subject as provided below) and the Holders may have little or no influence on the outcome of any such auction.

Investors should be aware that there is a possibility that the Swap Counterparty, the Calculation Agent or the CDS Calculation Agent (or one of their Affiliates) would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant obligations. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), the Swap Counterparty, the Calculation Agent or the CDS Calculation Agent (or any Affiliate of any of them) shall be under no obligation to consider the interests of the Issuer or any Holder.

Cash Settlement

If an Event Determination Date occurs and Cash Settlement applies under the Credit Default Swap Transaction as described above, the Swap Counterparty is entitled to select Valuation Obligation(s) for valuation with the lowest value in the market at the relevant time.

It is also possible for market value of the Valuation Obligation(s) the Swap Counterparty selects to be valued for the purposes of calculating the Cash Settlement Amount may vary widely and it is likely that after a Credit Event the market value of such Valuation Obligation(s) will fall substantially (including in the case of a Restructuring Credit Event notwithstanding that the Reference Entity may not be in default), and if this happens the relevant amount payable under the Security would be substantially reduced, and may in certain circumstances be zero.

Nature of Synthetic Credit Exposure

An investment in the Security does not constitute a purchase or other acquisition or assignment of any interest in any obligation of the Reference Entity. None of the investors, the Issuer or the Swap Counterparty will have recourse against the Reference Entity with respect to the Security or the relevant Credit Default Swap Transaction. Holders will not have rights equivalent to those of a holder of obligations of the Reference Entity. In particular they will not have the right to vote or give or withhold any consent in relation to any obligation of the Reference Entity, the right to coupons, fees or other distributions which may be paid by the Reference Entity to holders of any obligations of the Reference Entity, or the right to receive any information from the Reference Entity.

Net Realisation Amount equal to zero

Upon the occurrence of an Event Determination Date, the amount of cash payable and/or securities physically deliverable are dependent on the proceeds of realisation of the Initial Charged Assets (deducting any amount due to the Swap Counterparty under the Interest Rate Swap Transaction) (the “**Net Realisation Amount**”). If the Selling Agent is unable to realise the Initial Charged Assets and/or the Net Realisation Amount is equal to zero, the Issuer will cancel the Security and no amount will payable in respect of the Security, in which case the Holder will lose the value of their entire investment.

Reference Entity Information

Publicly available information in relation to the Reference Entity (including, without limitation, with respect to creditworthiness) may be incomplete, inaccurate or misleading. None of the Issuer, the Swap Counterparty, the Dealer or any of their respective Affiliates is under any obligation to verify the accuracy of any such information or makes or gives any representation, warranty, undertaking or assurance that such information is complete, accurate or not misleading. If any previously non-publicly available information in respect of the Reference Entity becomes available, depending on its nature and materiality, this could affect the creditworthiness of such Reference Entity, the market value of the Security and the likelihood of the occurrence of a Credit Event.

The Issuer, the Swap Counterparty, the Dealer(s) or any of their respective Affiliates may have acquired, or during the term of the Security may acquire, non-public information with respect to the Reference Entity (that may be relevant to the accuracy or completeness of publicly available information and/or the creditworthiness of the Reference Entity) that they may not disclose. Prospective investors must therefore make an investment decision based upon their own due diligence and purchase the Security in the knowledge that non-public information which the Issuer, the Swap Counterparty, the Dealer(s) or any of their respective Affiliates may have will not be disclosed to investors. None of the Issuer, the Swap Counterparty, the Dealer(s) or any of their respective Affiliates is under any obligation (i) to review on the Holders' behalf the business, financial conditions, prospects, creditworthiness, status or affairs of the Reference Entity or conduct any investigation or due diligence into the Reference Entity or (ii) other than as may be required by applicable rules and regulations relating to the Security, to make available (a) any

information relating to the Security or (b) any non-public information they may possess in respect of the Reference Entity.

The Pricing Supplement will not provide any detailed information with respect to the Reference Entity and in particular will not describe any financial or other risks relating to the business or operations of any Reference Entity either in general or in relation to its debt obligations or provide any information on the creditworthiness or the likelihood of the occurrence of a Credit Event with respect to any Reference Entity.

No representations, warranties, undertakings or assurances whatsoever have been or will be made or given by the Issuer, the Swap Counterparty, the Dealer(s), any of their respective Affiliates or any other related person in respect of the Reference Entity (including existing or future creditworthiness) or any Reference Obligation, Obligation, Deliverable Obligation, Valuation Obligation or other obligations of any Reference Entity (as applicable). Prospective investors in the Security should make their own evaluation as to the creditworthiness of the Reference Entity and the likelihood of the occurrence of a Credit Event.

No Exposure to Reference Entity

The Issuer's obligations under the Credit Default Swap Transaction are irrespective of the existence or amount of the Swap Counterparty's and/or any Affiliates' credit exposure to the Reference Entity and the Swap Counterparty and/or any Affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

Swap Counterparty and Affiliates may effect transactions for their own account

The Swap Counterparty or any of its Affiliates may effect transactions for their own account or for the account of their customers or hold long or short positions in any applicable Reference Obligation or related derivatives as part of their ordinary business or market-making activity. In addition, the Swap Counterparty or any of its Affiliates may enter into one or more hedging transactions with respect to the Reference Entity or Reference Entities, any applicable Reference Obligation or related derivatives. See also the risk factor titled "Conflicts of interest" on page 63 of the Base Listing Particulars

Increase of risk due to the replacement of the Reference Entity or succession

The Reference Entity may be replaced due to events beyond the control of the Issuer and the Swap Counterparty, such as the merger of a corporate entity with another entity, in which case the Reference Entity may be replaced by its successor. Each such replacement may result in an increase in the risks involved for the Holders, including the likelihood of the occurrence of a Credit Event.

Conflicts of Interest

The Swap Counterparty acting for its own account as Buyer (including as Notifying Party) and as CDS Calculation Agent will be entitled to make certain determinations and take certain actions and exercise certain discretions under the Credit Default Swap Transaction which will influence amounts (if any) payable under the Security and may be detrimental to investors. Where the Swap Counterparty acts as Buyer it will act in its own interests and without regard to the interests of the Holders.

In addition the Swap Counterparty or one of its Affiliates acting as Calculation Agent under the Security will be entitled to make certain determinations and take certain actions and exercise certain discretions under the terms of the Security which may also influence amounts (if any) payable under the Security and may be detrimental to investors.

As a result, potential conflicts of interest exist between the Swap Counterparty and its Affiliates and the Holders. Neither the Swap Counterparty as Buyer or CDS Calculation Agent under the Credit Default Swap Transaction or the Calculation Agent under the Security acts as fiduciary for or as an adviser to any of the Holders in respect of any such capacity or otherwise.

Role of the Credit Derivatives Determinations Committee

Credit Derivative Determinations Committees were established pursuant to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions (published on 12 March 2009) to make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency. Credit Derivatives Determination Committees also apply under the Credit Derivatives Definitions, as incorporated into the Credit Default Swap Transaction.

In respect of a Credit Event, which will affect the amount (if any) due under the Security as described above, prospective purchasers should note that the Credit Derivatives Determinations Committee has the power to make binding decisions on critical issues such as whether a Credit Event has occurred, which obligations are to be valued and whether an auction should take place in accordance with and as more fully described in the Credit Derivatives Determinations Committees Rules, as published by DC Administration Services, Inc. on behalf of ISDA at www.cdsdeterminationscommittees.org (or any successor website thereto) from time to time (as amended from time to time in accordance with the terms thereof). Consequently, payments under the Credit Default Swap Transaction and thereby on the Security and the timing of any such payments may be affected by any such relevant decisions if Auction Settlement is specified as the applicable Settlement Method under the relevant Credit Default Swap Transaction.

Prospective investors should note that the Swap Counterparty, the Calculation Agent or the CDS Calculation Agent (or any Affiliate of any of them) may be a member of the Credit Derivatives Determinations Committee responsible for determining the occurrence of Credit Events for the purposes of the relevant Credit Default Swap Transaction. This may cause conflicts of interest which could affect its voting behaviour, and thus the determinations made by a Credit Derivatives Determinations Committee, which may be detrimental to investors.

Credit Event and Successor Backstop Dates

In respect of a Credit Event, which will affect the amount (if any) due under the Security as described above, in most cases a Credit Event may only trigger an Event Determination Date (whether by a Credit Derivatives Determinations Committee determination or by the Swap Counterparty delivering a Credit Event Notice under the relevant Credit Default Swap Transaction) if the relevant event occurred within a 60 calendar day look-back period.

For the purposes of determining a Successor to the Reference Entity pursuant to the succession provisions, the look-back period is 90 calendar days and functions in a similar way.

These provisions mean that there is a time limit on the ability to act on a Credit Event or succession and that it is possible that the Credit Default Swap Transaction and thereby the Security could be affected by a Credit Event or succession that took place prior to the Issue Date of the Security and Trade Date of the Credit Default Swap Transaction.

CONDITIONS OF THE SECURITY

The terms and conditions of the Security will comprise the terms and conditions set out in the Registered Securities Base Conditions Module as modified and/or supplemented to the extent set out in the Pricing Supplement set out below.

PRICING SUPPLEMENT

PRICING SUPPLEMENT

PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS – The Security is not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA") or in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Security or otherwise making them available to retail investors in the EEA or in the United Kingdom has been prepared and therefore offering or selling the Security or otherwise making them available to any retail investor in the EEA or in the United Kingdom may be unlawful under the PRIIPs Regulation.

MIFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Security has led to the conclusion that: (i) the target market for the Security is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Security to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Security (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Security (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

"Single Name Credit Linked Securities

- (a) *Occurrence of an Event Determination Date*
- (i) Subject as provided in Credit Linked Conditions 4 to 6, 8, 9 and 11, if an Event Determination Date occurs under the Credit Default Swap Transaction, (i) the Issuer will give notice (such notice an "**Initial Settlement Notice**") as soon as reasonably practicable to the Holder in accordance with Condition 15 (Notices) and to the Trustee, the Principal Paying Agent, the Registrar, the Swap Counterparty and the Selling Agent (which notice shall be irrevocable); and (ii) the Calculation Agent shall determine in its sole and absolute discretion the Net Realisation Amount within the Realisation Period.
- (ii) The Initial Settlement Notice will be deemed to be an instruction to the Selling Agent to arrange for, and administer the sale of, the Initial Charged Assets (if any) in accordance with the Agency Agreement on and/or after the Realisation Period Date (subject to the Issuer's receipt of any Initial Charged Assets comprised in the Issuer's Credit Support Balance (as defined in the Swap Agreement) prior to such realisation of the Initial Charged Assets), for which purposes the Charged Assets will be deemed to be released by the Trustee from the Security Interests.
- (b) *Net Realisation Amount greater than Aggregate Amount of Series*
- Subject to Credit Linked Condition 1.1(e), if the Net Realisation Amount is determined during the Realisation Period and is greater than or equal to the Aggregate Nominal Amount of the Series, the Issuer shall redeem the Security by delivery of the Asset Amount and by payment of any Credit Event Redemption Amount on the Credit Event Redemption Date.
- (c) *Net Realisation Amount is less than Aggregate Amount of Series*
- (i) If the Net Realisation Amount is determined during the Realisation Period and is zero, the Issuer will cancel the Credit Linked Security following the Cash Top Up Payment Date with no amounts payable in respect thereof and the Issuer's obligations in respect of the Credit Linked Security will be immediately discharged and the Issuer will have no further liability in respect thereof.
- (ii) Subject to Credit Linked Condition 1.1(e), if the Net Realisation Amount is determined during the Realisation Period and is less than the Aggregate Nominal Amount of the Series but greater than zero, within 2 Business Days following determination of the Net Realisation Amount, the Issuer shall give notice (such notice a "**Physical Redemption Cash Top Up Notice**") to the Holder in accordance with Condition 15 (Notices) and copied to the Trustee, the Principal Paying Agent, the Registrar and the Swap Counterparty (which notice shall be irrevocable), that the Holder may elect to redeem the Security by:

(b) physical settlement by (I) notifying the Issuer, the Calculation Agent and the Principal Paying Agent (copied to the Trustee, the Registrar and the Swap Counterparty) of such election on or prior to the Cash Top Up Notification Date; and (II) paying the Cash Top Up Amount on or prior to the Cash Top Up Payment Date.

For the avoidance of doubt, the Swap Counterparty is entitled to select any Deliverable Obligations in its sole and absolute discretion to deliver under the Credit Default Swap Transaction irrespective of their market value..

Any delay in the delivery of an Initial Settlement Notice, Final Settlement Notice or Physical Redemption Cash Top Up Notice or failure by the Issuer to deliver an Initial Settlement Notice, Final Settlement Notice or Physical Redemption Cash Top Up Notice will not affect the validity of an Event Determination Date.

If an Event Determination Date has occurred under the Credit Default Swap Transaction and the Credit Linked Security becomes redeemable in accordance with this Credit Linked Condition 1.1, upon payment of the Credit Event Redemption Amount and/or delivery of the Asset Amount or payment of the CDS Cash Settlement Price, as the case may be, (and any amount payable pursuant to Credit Linked Condition 5), the Issuer will have discharged its obligations in respect of the Credit Linked Security and will have no other liability or obligation whatsoever in respect thereof. Any shortfall will be borne by the Holder and no liability will attach to the Issuer."

- (b) Credit Linked Condition 5 (Adjustment Payment) is deleted and replaced with the following:

"If the Calculation Agent determines that any adjustment has been made (or will be made) to the terms of the Interest Rate Swap pursuant to paragraph 2(c)(Adjustments) of the Interest Rate Swap, the Calculation Agent may adjust any of the terms of the Security as it determines appropriate to account for such adjustment to the Interest Rate Swap including, without limitation, any adjustment to any

"Net Realisation Amount" means, following an Event Determination Date in respect of a Reference Entity, an amount calculated by the Calculation Agent (which may never be less than zero) equal to (without duplication):

- (a) the relevant Realisation Amount determined in respect of the Initial Charged Assets only (if applicable, after the Issuer’s receipt of any Initial Charged Assets comprised in the Issuer’s Credit Support Balance (as defined in the Swap Agreement); less
- (b) any amount payable by the Issuer to the Swap Counterparty (expressed as a positive number) or by the Swap Counterparty to the Issuer (expressed as a negative number) pursuant to the Swap Agreement as a consequence of such Event Determination Date (which will take into

account, amongst other things, the Interest Rate Swap pursuant to the Swap Agreement but will exclude (i) the Issuer's or the Swap Counterparty's Credit Support Balance returned to the Issuer or the Swap Counterparty, as applicable, pursuant to the Credit Support Annex; (ii) any Auction Settlement Amount or Cash Settlement Amount (as applicable and as defined under the Credit Default Swap Transaction); and (iii) any amounts that may be payable pursuant to "Terms Relating to Physical Delivery" under the Credit Default Swap Transaction); less

- (c) all other amounts that are due or may be due to any party in connection with the related cancellation or redemption, as the case may be, of the Credit Linked Securities who ranks in priority to the Holder in accordance with Condition 5 (*Application of Secured Property*).

"Realisation Period" means the period from (and including) the Event Determination Date up to (and including) the date falling 8 Business Days immediately prior to the Auction Final Price Determination Date (or such other date as the Calculation Agent may select in its sole discretion).

"Realisation Period Date" means the Business Day immediately following the Event Determination Date.

Amendments to Registered Securities Base Conditions Module

If the Security is to be redeemed by delivery of the Asset Amount in accordance with Credit Linked Condition 1.1:

- (a) Condition 5 (*Application of Secured Property*) is deemed amended for such purposes by the deletion of the first sentence thereof and the substitution of the following therefor:

"Prior to the security created by the Trust Instrument becoming enforceable, the Realisation Amount and, if the Securities are subject to redemption by physical delivery pursuant to Credit Linked Condition 1.1, the assets comprising the Asset Amount or the CDS Cash Settlement Price, as applicable, shall be applied by or on behalf of the Issuer as set out in (a) to (f) below:"

- (b) Condition 8.7 (*Redemption by delivery of the Asset Amount*) is deemed amended for such purposes as follows:

- (i) sub-paragraph (B) of paragraph (a) thereof is deleted and replaced with the following:

"(B) in the case of Securities represented by a Registered Global Security, specify the nominal amount of the Security and the number of the Holder's account at Euroclear and/or Clearstream, Luxembourg, as the case may be, to be debited with the Security and irrevocably instruct and authorise Euroclear and/or Clearstream, Luxembourg, as the case may be, to debit the Holder's account with the Security on or before the date on which the Security is redeemed in full;"

- (ii) the last four paragraphs of paragraphs (a) thereof are deleted and replaced with the following:

"Delivery by or on behalf of the Issuer of the Asset Amount to the Holder in accordance with these Conditions and the Asset Transfer Notice will satisfy all the Issuer's obligations to the Holder in respect of the delivery of the Asset Amount in respect of the Security.

If the Holder fails to give an Asset Transfer Notice as provided herein on or prior to the Cut-Off Date, the Issuer will, subject as provided above, deliver or procure the delivery of the Asset Amount in respect of the Security as soon as practicable after the receipt of the duly completed Asset Transfer Notice, provided that if the Holder fails to give an Asset Transfer Notice prior to the day falling 30 calendar days after the Cut-Off Date, then in lieu of physical

settlement and notwithstanding any other provision hereof, the Issuer will satisfy its delivery obligations in respect of the Security by payment to the Holder of the CDS Cash Settlement Price on the date that is two Business Days following the payment by the Swap Counterparty of the CDS Cash Settlement Price to the Issuer pursuant to the Credit Default Swap Transaction. For the avoidance of doubt, payment of the CDS Cash Settlement Price will discharge the Issuer's obligations to deliver the Asset Amount in respect of the Security and the Issuer shall have no liability in respect thereof.";

- (iii) the following is inserted as the third paragraph of paragraph (b) thereof:

"The Issuer will deliver or procure the delivery of the Asset Amount on the Settlement Date or, as applicable, as soon as practicable after the receipt of the duly completed Asset Transfer Notice as provided above, subject as provided below."; and

- (iv) the last two paragraphs of paragraphs (b) thereof are deleted and replaced with the following:

"If delivery of the Asset Amount in respect of the Security is not practicable by reason of a Delivery Disruption Event as of the 30th Business Day thereafter, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer will satisfy its delivery obligations in respect of the Security by payment to the Holder of the CDS Cash Settlement Price on the date that is two Business Days following the payment by the Swap Counterparty of the CDS Cash Settlement Price to the Issuer pursuant to the Credit Default Swap Transaction. For the avoidance of doubt, payment of the CDS Cash Settlement Price will discharge the Issuer's obligations to deliver the Asset Amount in respect of the Security and the Issuer shall have no liability in respect thereof.".

Amendments to General Definitions Module

If the Security is to be redeemed by delivery of the Asset Amount in accordance with Credit Linked Condition 1.1, the General Definitions Module is deemed amended for such purposes as follows:

- (a) the definition of "Asset Amount" therein is deleted and replaced with the following (which definition will prevail over the definition included in the Pricing Supplement):

""**Asset Amount**" means the Deliverable Obligations (as defined in the Credit Default Swap Transaction) delivered by the Swap Counterparty to the Issuer under the Credit Default Swap Transaction. For the avoidance of doubt, for these purposes the term Deliverable Obligations includes any Asset Package (as defined in the Credit Default Swap Transaction) that may be delivered in satisfaction of delivery of a Prior Deliverable Obligation under (and as defined in) the Credit Default Swap Transaction.";

- (b) the definition of "**Cut-Off Date**" therein is deleted and replaced with the following (which definition will prevail over the Cut-Off Date included in the Pricing Supplement)

""**Cut-Off Date**" means the date that is two Business Days following the Auction Settlement Date or Cash Settlement Date, as applicable, under (and as defined in) the Credit Default Swap Transaction."

- (c) the definition of "Delivery Disruption Event" therein is deleted and replaced with the following (which definition will prevail over the Delivery Disruption Event included in the Pricing Supplement):

""**Delivery Disruption Event**" means, in relation to a Series of Securities which are Physical Delivery Securities, either:

- (i) an event beyond the control of the Issuer as a result of which the Issuer or any agent acting on its behalf cannot make delivery of the relevant Asset Amount(s) in the manner specified in the Conditions.
 - (ii) the Swap Counterparty notifies the Issuer that a CDS Disruption Event has occurred under (and as defined in) the Credit Default Swap Transaction.
- (d) the following new definitions are inserted in alphabetical order therein:

""CDS Cash Settlement Price" means the market value (in USD, notwithstanding the currency or currencies in which the relevant Deliverable Obligations are denominated) of the Deliverable Obligations comprising the Asset Amount, as determined by the Calculation Agent in its sole and absolute discretion by reference to such source(s) and as such time as it determines appropriate and which, for the avoidance of doubt, may be zero; and

""Settlement Date" means the Relevant Delivery Date (as defined in the Credit Default Swap Transaction).".

Article VII of the Credit Derivatives Definitions (other than Section 7.4 thereof) is amended by

substituting the words "Reference Obligation" with the words "Valuation Obligation".

Furthermore:

- (a) Section 7.4 of the Credit Derivatives Definitions is deleted in its entirety and the following substituted therefor:

"Section 7.4 Final Price. "Final Price" means the price of the relevant Valuation Obligation or, if there is more than one Valuation Obligation, the weighted average price of the Valuation Obligations, as the case may be, each expressed as a percentage of its Outstanding Principal Balance or Due and Payable Amount, as applicable (in the case of a Valuation Obligation which is a Prior Deliverable Obligation, determined immediately prior to the relevant Asset Package Credit Event), determined in accordance with the Valuation Method or, in the case of a Valuation Obligation which is an Asset Package, as determined by the Calculation Agent and expressed as a percentage on such basis as the Calculation Agent determines appropriate (and if the relevant Asset Package is zero the relevant Final Price, or portion thereof determined by reference to the Asset Package, will be deemed to be zero). For these purposes (other than in relation to an Asset Package) any weighted average price will be determined by reference to the Outstanding Principal Balance(s) or Due and Payable Amount(s) of each Valuation Obligation selected by Buyer and the Calculation Agent will seek to obtain Quotations for each such Valuation Obligation. The Calculation Agent will, as soon as practicable after obtaining all Quotations for a Valuation Date, notify the parties in writing of each such Quotation that it receives in connection with the calculation of the Final Price and will provide to the parties a written computation showing its calculation of the Final Price."

- (b) Section 7.12 of the Credit Derivatives Definitions will not apply.
- (c) Section 11.1 of the Credit Derivatives Definitions will be amended by the addition of the words ", any Valuation

Obligation" after each occurrence of the words "Reference Obligation"; and

- (d) Section 11.3 of the Credit Derivatives Definitions will be amended by the addition of the words ", Valuation Obligations" after the words "Deliverable Obligations".

"Valuation Obligation" means any obligation selected by Buyer on or prior to the Valuation Date, which is:

- (i) an obligation of the Reference Entity (either directly or as provider of any Relevant Guarantee) determined pursuant to the method described in Section 3.14 (*Method for Determining Deliverable Obligations*) as though the words "as of both the NOPS Effective Date and the Delivery Date (unless otherwise specified)" in the first paragraph thereof were deleted and replaced with "as of the Valuation Date";
- (ii) the Reference Obligation;
- (iii) if Asset Package Delivery is applicable, any Prior Deliverable Obligation; or
- (iv) any obligation of the Reference Entity included in the Final List published by ISDA on its website with respect to the applicable Transaction Auction Settlement Terms,

provided that any such obligation has an Outstanding Principal Balance or Due and Payable Amount that is greater than zero (determined for purposes of paragraph (iii) above, immediately prior to the relevant Asset Package Credit Event) and, in each case only to the extent applicable to a Valuation Obligation, the Quotation Amount or, if there is more than one Valuation Obligation, the aggregate Quotation Amounts in respect of the Valuation Obligations (which in such circumstances, notwithstanding Section 7.12 of the Credit Derivatives Definitions, will each be an amount selected by the Calculation Agent) is equal to the Floating Rate Payer Calculation Amount or, if there is more than one Valuation Obligation and any Valuation Obligation is an Asset Package, such lesser amount as determined by the Calculation Agent (all as determined by the Calculation Agent).

If Asset Package Delivery applies and Buyer has selected a Prior Deliverable Obligation as a Valuation Obligation in accordance with the above

provisions, Buyer may select the related Asset Package as a Valuation Obligation in lieu of thereof.

Without prejudice to the previous paragraph, in respect of a Valuation Obligation selected by Buyer in accordance with the above provisions, Buyer may alter such selection at any time on or prior to the Valuation Time on the Valuation Date provided that the newly selected Valuation Obligation complies with the requirements set forth above as at the date of its selection.

Quotation:

For the purposes of Section 7.7(b) of the Credit Derivatives Definitions where the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation on the same Business Day on or prior to the tenth Business Day following the applicable Valuation Date, Buyer is deemed to be the party that is not the Calculation Agent.

Cash Settlement Date:

Notwithstanding anything to the contrary in the Credit Derivatives Definitions, the Cash Settlement Date will not fall earlier than the second Business Day following the date of determination of the Net Realisation Amount.

Request for Credit Event Redemption Amount:

The Swap Counterparty, in its sole and absolute discretion, may request the Issuer to redeem the Security by payment of the Credit Event Redemption Amount on the Credit Event Redemption Date. In such circumstances, the Issuer follow such request, redeem the Security accordingly and the “Terms Relating to Physical Delivery” will not apply.

Terms Relating to Physical Delivery:

In the event that the Issuer is required to deliver the Asset Amount to redeem the Security pursuant to Credit Linked Condition 1.1 of the Credit Linked Security:

- (a) on the Auction Settlement Date or Cash Settlement Date, as applicable, Seller will pay to Buyer an amount equal to the Floating Rate Payer Calculation Amount less the Auction Settlement Amount or Cash Settlement Amount, as applicable, payable under this Transaction (the **Recovery Amount**); and
- (b) subject as provided below, on the Relevant Delivery Date, Buyer will:
 - (x) deliver to Seller Deliverable Obligations selected by Buyer in its sole and absolute discretion with:

- (i) in the case of Deliverable Obligations that are Borrowed Money, an Outstanding Principal Balance (determined as at the Relevant Delivery Date); or
- (ii) in the case of Deliverable Obligations that are not Borrowed Money, a Due and Payable Amount (determined as at the Relevant Delivery Date),

(or, in either case, the equivalent Deliverable Obligation Currency Amount of any such amount) in an aggregate amount that is at least equal to the Floating Rate Payer Calculation Amount; and

(y) where the Auction Settlement Amount or Cash Settlement Amount, as applicable, is greater than the Net Realisation Amount, pay to Seller an amount in USD equal to the Auction Settlement Amount or Cash Settlement Amount, as applicable, less the Net Realisation Amount.

Buyer is entitled to select any Deliverable Obligations in its sole and absolute discretion to deliver under this Transaction irrespective of their market value.

Where:

"Deliverable Obligation Currency Amount" means, with respect to a Deliverable Obligation denominated in a currency other than the Settlement Currency, an amount converted to the Settlement Currency using a conversion rate determined by reference to the Deliverable Obligation Currency Rate.

"Deliverable Obligation Currency Rate" means the rate of conversion between the Settlement Currency and the currency in which the Deliverable Obligation is denominated that is determined by Buyer in its sole and absolute discretion.

"Relevant Delivery Date" means the date selected by Buyer in its sole and absolute discretion following the date of the Deliverable Obligation Notification.

On or prior to the date that is 30 Business Days following the relevant Auction Settlement Date or Cash Settlement Date, as applicable, Buyer will notify Seller (a **"Deliverable Obligation Notification"**) of the Deliverable Obligations that it has selected pursuant to the provisions set out above.

For the purposes of Section 3.14 of the Credit Derivatives Definitions, the selected obligation(s) must satisfy the Deliverable Obligation Category and Deliverable Obligation Characteristics on the date of selection and in such circumstances, such obligation(s) may constitute Deliverable Obligations for the purposes hereof notwithstanding that this is not the case subsequent to such date. For the avoidance of doubt Buyer will be entitled to select any Deliverable Obligations for delivery irrespective of their market value.

If Asset Package Delivery applies, (i) delivery of a Prior Deliverable Obligation specified in a Deliverable Obligation Notification may be satisfied by delivery of the related Asset Package and such Asset Package will be treated as having the same currency, Outstanding Principal Balance or Due and Payable Amount, as applicable, as the Prior Deliverable Obligation to which it corresponds had immediately prior to the Asset Package Credit Event, (ii) if the Asset Package is zero, the relevant Prior Deliverable Obligation will be deemed to have been delivered in full on the date due without further action and nothing will be deliverable with respect thereto and (iii) if the relevant Asset is a Non-Transferable Instrument or Non-Financial Instrument, the Asset will be deemed to be an amount of cash equal to the Asset Market Value.

Buyer may elect to satisfy its obligation to deliver the Deliverable Obligations as provided above by delivering the relevant Deliverable Obligations to the Holder (as defined in the Trust Instrument) on behalf of the Issuer in accordance with Credit Linked Condition 1.1 of the Credit Linked Security.

For the avoidance of doubt, neither the Settlement Method nor the Fallback Settlement Method is "Physical Settlement" and Articles VIII and IX (and any related provisions) of the Credit Derivatives Definitions will not apply.

Delivery Disruption:

If Buyer determines, in its sole and absolute discretion, that it is impossible, illegal or impracticable (including, without limitation, because of illiquidity or because Buyer has not received sufficient relevant Deliverable Obligations pursuant to any Auction) for it to deliver to Seller the Due and Payable Amount or Outstanding Principal Balance of any Deliverable Obligations as specified in the Deliverable Obligation Notification (a "**CDS Disruption Event**"), Buyer may notify the Issuer and, upon such notification, a Delivery Disruption Event will occur pursuant to the terms of the Credit Linked Security.

If Seller is obliged to pay the CDS Cash Settlement Price (as defined in the Trust Instrument) in lieu of physical settlement of the Asset Amount pursuant to the terms of the Credit Linked Security, Buyer will, in lieu of delivering the relevant Deliverable Obligations to Seller, pay to Seller an amount equal to the CDS Cash Settlement Price on the date selected by Buyer (which will

be not more than 10 Business Days following the date that Seller's obligation to physically settle the Credit Linked Security is replaced by an obligation to pay the CDS Cash Settlement Price to the Holder of the Credit Linked Security).

- (a) For the purpose of determining an Early Termination Amount under Section 6(e) of the Agreement (including in the determination of an amount payable from one party to another pursuant to Part 1(q)(i) of the Schedule to the ISDA Master Agreement), the Close-out

Amount in respect of the Transaction (or the relevant Affected Transaction which is a transaction on terms identical to the Transaction except for the notional amount, as the case may be) shall be determined as if the Security has not been redeemed or cancelled prior to their scheduled Maturity Date, provided that where such determination is in connection with an Event Determination Date pursuant to the CDS Transaction, such Close-out Amount shall not include an amount representing the consideration for the credit protection provided by the Issuer to the Swap Counterparty under the CDS Transaction (such consideration will be determined by the Swap Counterparty in its sole and absolute discretion, the “**CDS Consideration**”).

- (b) For the purpose of Section 2(a)(iii) of the Agreement, other than the conditions precedent that (1) no Event of Default or Potential Event of Default with respect to the other party has occurred and is continuing and (2) no Early Termination Date in respect of the Transaction has occurred or has been effectively designated, each obligation of Swap Counterparty specified in this Confirmation shall also be subject to the additional condition precedent that no Event Determination Date has occurred under a CDS Transaction, provided that, in respect of a Partial Redemption Notice pursuant to Credit Linked Condition 1.3 (*Portfolio Credit Linked Securities – Floating Settlement Credit Linked Securities and Fixed Recovery Credit Linked Securities*) or a Partial Settlement Notice pursuant to Credit Linked Condition 1.4 (*Portfolio Credit Linked Securities – Zero Recovery Credit Linked Securities*) such additional condition precedent will be construed to apply only to the extent of the relevant Partial Termination Notional Amount and the provisions of this Confirmation will be construed as if such additional condition precedent only applied to a portion of the Transaction that is equal to the relevant Partial Termination Notional Amount. For the purpose of this provision, “**Event Determination Date**” shall have the meaning given to it in the Confirmation in respect of such CDS Transaction.

(c) **Adjustments**

If the circumstances occur that would cause any adjustment payment to be due from the Issuer to the Swap Counterparty under the CDS Transaction pursuant to Section 1.20 of the Credit Derivatives Definitions (determined as if a “Fixed Amount” was payable pursuant to the CDS Transaction on each Fixed Amount II Payment Date and each such Fixed Amount reflects the CDS Consideration), the Calculation Agent may adjust any of the terms of this Transaction as it determines appropriate to account for the economic effect of such circumstances on this Transaction and the CDS Transaction, including without limitation, to put the parties in the economic position that they would have been in had the revised date of the Event Determination Date (or determination that there was no Event Determination Date) had been the original determination.

3. **Representations:**

Each party will be deemed, as of the Trade Date:

- (a) to represent to the other party that it is entering into the Transaction for investment, financial intermediation, hedging or other commercial purposes; and
- (b) to agree with the other party that, so long as either party has or may have any obligation to the other party under the Transaction:
 - (i) **Non-reliance**

It is acting for its own account, and it has made its own independent decisions to enter into the Transaction and as to whether the Transaction is appropriate or proper for it based upon its own judgment and upon advice from such advisers as it has

deemed necessary. It is not relying on any communication (written or oral) of the other party as investment advice or as a recommendation to enter into the Transaction; it being understood that information and explanations related to the terms and conditions of the Transaction will not be considered investment advice or a recommendation to enter into the Transaction. It has not received from the other party any assurance or guarantee as to the expected results of the Transaction.

(ii) Evaluation and understanding

It is capable of evaluating and understanding (on its own behalf or through independent professional advice), and understands and accepts, the terms, conditions and risks of the Transaction. It is also capable of assuming, and assumes, the financial and other risks of the Transaction.

(iii) Hedging
