

OFFERING CIRCULAR

SAXO BANK A/S

EUR 2,000,000,000

Senior Note and Subordinated Note Programme

Under this EUR 2,000,000,000 Senior Note and Subordinated Note Programme (the “**Programme**”), Saxo Bank A/S (the “**Issuer**”) may from time to time issue notes (the “**Notes**”). Notes may be (i) senior notes (“**Senior Notes**”) or (ii) dated subordinated notes (in Danish: *kapitalbeviser*) (“**Subordinated Notes**”), as indicated in the relevant Pricing Supplement (as defined below). Notes may be denominated in any currency agreed between the Issuer and the relevant Dealer (as defined below).

The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not at any time exceed EUR 2,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described herein.

The Notes may be issued on a continuing basis to one or more of the Dealers specified under “Overview of the Programme” and any additional Dealer appointed under the Programme from time to time by the Issuer (each a “**Dealer**” and together the “**Dealers**”), which appointment may be for a specific issue or on an ongoing basis. References in this Offering Circular to the “**relevant Dealer**” shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

This offering circular (the “**Offering Circular**”) has not been approved as a prospectus for the purposes of the Prospectus Directive. When used in this Offering Circular, “**Prospectus Directive**” means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in a relevant Member State of the EEA (as defined below). This Offering Circular has been approved as “Listing Particulars” by the Irish Stock Exchange plc (the “**Irish Stock Exchange**”). Application has been made to the Irish Stock Exchange for the Notes issued under the Programme to be admitted to the Irish Stock Exchange’s Official List and trading on the Global Exchange Market of the Irish Stock Exchange (the “**Global Exchange Market**”) for a period of 12 months from the date of this Offering Circular. This Offering Circular constitutes “Listing Particulars” for the purposes of the admission of the Notes to the Irish Stock Exchange’s Official List and to trading on the Global Exchange Market and, for such purposes, does not constitute a “prospectus” for the purposes of the Prospectus Directive. The Global Exchange Market is not a regulated market for the purposes of Directive 2004/39/EC (the “**Markets in Financial Instruments Directive**”).

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchange(s) or market(s) as may be agreed between the Issuer and the relevant Dealer and as specified in the relevant pricing supplement document (the “**Pricing Supplement**”). Notes which are neither listed nor admitted to trading on any stock exchange or market may also be issued. However, this Offering Circular has not been approved as a base prospectus for the purposes of the Prospectus Directive and, accordingly, no offer to the public may be made and no admission to trading may be applied for on any market in the EEA designated as a regulated market, in each case for the purposes of the Prospectus Directive. Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche (as defined under “Terms and Conditions of the Notes”) of Notes will be set out in the relevant Pricing Supplement which with

respect to Notes to be admitted to the Official List and to trading on the Global Exchange Market, will be delivered to the Irish Stock Exchange on or before the date of issue of the Notes of such Tranche.

An investment in Notes issued under the Programme involves certain risks. Prospective purchasers of Notes should ensure that they understand the nature of the relevant Notes and the extent of their exposure to risks and that they consider the suitability of the relevant Notes as an investment in the light of their own circumstances and financial condition. For a discussion of these risks see “Risk Factors” below.

IMPORTANT INFORMATION

This Offering Circular does not constitute a “prospectus” for the purposes of the Prospectus Directive. Notes may only be issued under this Programme in circumstances where no prospectus is required to be published under the Prospectus Directive (see the “Subscription and Sale” section of this Offering Circular).

The Issuer accepts responsibility for the information contained in this Offering Circular. To the best of the knowledge of the Issuer (having taken all reasonable care to ensure that such is the case), the information contained in this Offering Circular is in accordance with the facts and does not omit anything likely to affect the import of such information.

This Offering Circular is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see “Documents Incorporated by Reference”). This Offering Circular shall be read and construed on the basis that such documents are incorporated in, and form part of, this Offering Circular.

The Dealers have not independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Arranger or the Dealers as to the accuracy or completeness of the information contained or incorporated in this Offering Circular or any other information provided by the Issuer in connection with the Programme or the issue or sale of Notes under the Programme. No Dealer accepts any liability in relation to the information contained or incorporated by reference in this Offering Circular or any other information provided by the Issuer in connection with the Programme or the issue or sale of Notes under the Programme.

No person is or has been authorised by the Issuer or any of the Dealers to give any information or to make any representation not contained in, or not consistent with, this Offering Circular or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer or any of the Dealers.

Notes issued under the Programme to be admitted to the Irish Stock Exchange’s Official List and trading on the Global Exchange Market will, because of their nature, normally be bought and traded by a limited number of investors who are particularly knowledgeable in investment matters.

Neither this Offering Circular nor any other information supplied in connection with the Programme or any Notes (a) is intended to provide the basis of any credit or other evaluation or (b) should be considered as a recommendation by the Issuer or any of the Dealers that any recipient of this Offering Circular or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Offering Circular nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of the Issuer or any of the Dealers to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Offering Circular nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers expressly do not undertake to review the financial condition or affairs of the Issuer during the life of the Programme or to advise any investor in the Notes of any information coming to their attention.

IMPORTANT – EEA RETAIL INVESTORS – If the Pricing Supplement in respect of any Notes includes a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Notes, from 1 January 2018, are not intended to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in

point (11) of Article 4(1) of Directive 2014/65/EU (“**MiFID II**”); (ii) a customer within the meaning of Directive 2002/92/EC, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the Prospectus Directive). Consequently no key information document required by Regulation (EU) No 1286/2014 (the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS OFFERING CIRCULAR AND OFFERS OF NOTES GENERALLY

This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Offering Circular and the offer or sale of Notes may be restricted by law in certain jurisdictions. Neither the Issuer nor any of the Dealers represent that this Offering Circular may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer or any of the Dealers which is intended to permit a public offering of any Notes or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Offering Circular or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes in the United States, the United Kingdom and Denmark, see “Subscription and Sale”.

This Offering Circular has been prepared on the basis that any offer of Notes in any Member State of the EEA which has implemented the Prospectus Directive (each, a “**Relevant Member State**”) must be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer of Notes in that Relevant Member State may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended, (the “**Securities Act**”) and are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (see “Subscription and Sale”).

RISK FACTORS

Prospective investors should read the entire Offering Circular and reach their own views prior to making any investment decision.

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. All of these factors are contingencies that may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with the Notes are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but the Issuer may be unable to pay interest, principal or other amounts on or in connection with the Notes for other reasons which may not be considered significant risks by the Issuer based on information currently available to it and which it may not currently be able to anticipate.

The following is a general discussion of certain risks typically associated with the Issuer and the acquisition and ownership of the Notes. In particular, it does not consider an investor's specific knowledge and/or understanding about risks typically associated with the Issuer and the acquisition and ownership of the Notes, whether obtained through experience, training or otherwise, or the lack of such specific knowledge and/or understanding, or circumstances that may apply to a particular investor.

Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Offering Circular have the same meanings in this section, unless otherwise stated. References to a numbered "Condition" shall be to the relevant Condition in the Terms and Conditions of the Notes.

FACTORS THAT MAY AFFECT THE ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER NOTES ISSUED UNDER THE PROGRAMME

Risks relating to the Issuer

The Group is exposed to a number of risks, which can be categorised as follows:

- General Credit risk: The potential risk that a borrower or counterparty will fail to meet its obligations in accordance with agreed terms.
- Counterparty Credit risk: The risk that the counterparty to a derivative transaction could default before the final settlement of the transaction's cash flows.
- Settlement risk: The risk of a counterparty failing to deliver money or securities according to contractual terms at the time of settlement.
- Market risk: The risk of loss in value as a result of changes in market rates and parameters that affect the market values, for example interest rates, credit spreads, foreign exchange ("FX") rates, equity prices, commodity prices and option volatilities.
- Operational risk: The risk of direct or indirect financial losses or damaged reputation due to failure attributable to technology, employees, procedures or external events. Operational risk includes legal, compliance and model risk, but excludes strategic risk.
- Liquidity risk: The risk that the Group's cost of funds rise to disproportionate levels or, in the worst case scenario, prevents the Group from continuing as a going concern under its current business model. Also, the risk that the Group does not have sufficient liquidity to fulfil its payment

obligations as and when they fall due. Finally, the risk that the Group does not comply with regulatory liquidity requirements, for example Liquidity Coverage Ratio.

- Business risk: The risk of a direct or an indirect loss, or damaged reputation as a result of changes in external circumstances or events.

Regulatory changes could materially affect the Issuer's business

The Issuer is subject to financial services laws, regulations, administrative actions and policies in Denmark and in each other jurisdiction in which the Issuer carries on business. Changes in supervision and regulation, in particular in Denmark, could materially affect the Issuer's business, the products and services offered or the value of its assets. Although the Issuer works closely with its regulators and continually monitors the situation, future changes in regulation, fiscal or other policies can be unpredictable and are beyond the control of the Issuer.

The European Market Infrastructure Regulation and its various regulatory technical standards ("**EMIR**") imposes certain requirements with regard to posting of margin for OTC derivatives and with regards to clearing in respect of certain standardised OTC derivatives.

The Issuer is currently subject to posting of variation margin under EMIR which was implemented by the Issuer in early 2017. The Issuer is not yet subject to posting of initial margin under EMIR. This requirement is phased in over the coming years with the required implementation date depending on the scope of the covered institution's derivative trading. The implementation of posting of initial margin is expected to be a complex process.

Changes in the Markets in Financial Instruments Directive ("**MiFID II**"), which was adopted by the European Council and European Parliament in January 2014, are required to be transposed into the national legislation of each of the EU Member States and come into force on 3 January 2018, together with the Regulation on Markets in Financial Instruments ("**MiFIR**") (Regulation No. 600/2014/EU). MiFID II and MiFIR include provisions regarding trading in certain standardised OTC products, enhanced investor protection and transparency regulation, which are all key issues to the Issuer.

The fourth Directive on the prevention of the use of the financial system for the purpose of money laundering and terrorist financing ("**AMLD IV**"), and Regulation on information accompanying transfers of funds, was adopted by the European Council and European Parliament on 20 May 2015. Member States had two years to transpose the new rules which came into force on 26 June 2017. Tax crimes have been added as a predicate offence and domestic politically exposed persons are now covered by the directive, which broadens the scope of the directive. The regulation adds information on the payee to the information that has to follow a transaction.

In addition the Group may be affected by change in local regulation in countries where the Group have subsidiaries.

The Issuer faces increased capital and liquidity requirements as a result of the Basel III Framework *and forthcoming revisions to this framework* ("**Basel IV**")

The Regulation No. 575/2013 of the European Parliament and of the Council on prudential requirements for credit institutions and investment firms (the "**CRR**") and Directive (2013/36/EU) of the European Parliament and of the Council on access to the activity of credit institutions and prudential supervision of credit institutions and investment firms (the "**CRD IV Directive**") were adopted in June 2013. The CRR entered into force on 1 January 2014, whereas the CRD IV Directive was implemented in Denmark in March 2014.

The framework implemented, among other things, the Basel Committee on Banking Supervision's (the "**Basel Committee**") proposals imposing stricter capital and liquidity requirements upon banks ("**Basel III**") in the EU. Each of the CRR and the CRD IV Directive covers a wide range of prudent requirements for

banks across EU member states, including capital requirements, stricter and aligned definitions of capital, risk-exposure amounts, leverage ratio, large exposure framework and liquidity and funding requirements. The CRD IV Directive covers the overall supervisory framework for banks (including the individual risk assessment) and other measures such as the combined capital buffer requirements, governance and remuneration requirements. As a consequence of the European Banking Authority's (the "**EBA**") on-going development of regulatory technical standards and related best practice guidelines, the Group is subject to the risk of possible interpretational changes.

In January 2016, the Basel Committee endorsed the new market risk framework including a revised standardised approach with a closer calibration to the internal model approach. The revised standardised approach is more advanced than the standard model currently used by the Group. The revised market risk framework is planned to come into effect on 1 January 2019. The expected implementation in EU regulation may have an impact on the Group's future capital requirements.

In addition the Basel Committee have issued consulting documents regarding revision of the Standardised Approach for credit risk, revision of the Operational Risk Approach, revision of the Standardised Approach for counterparty credit risk and revision of the Credit Valuation Adjustment Framework. Issue of final approaches and the expected following implementation in EU regulation may have an impact on the Group's future capital requirements.

The Group may be affected by change in local capital and liquidity regulation in countries where the Group have financial subsidiaries.

The Notes may be subject to write-down or conversion into equity

On 2 July 2014, Directive 2014/59/EU providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the "**BRRD**") entered into force. The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing relevant entity so as to ensure the continuity of the relevant entity's critical financial and economic functions, while minimising the impact of a relevant entity's failure on the economy and financial system.

The BRRD provides that it will be applied by Member States from 1 January 2015, except for the general bail-in tool (see below) which applies from 1 January 2016. The BRRD was transposed into Danish law and entered into force as of 1 June 2015.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) a relevant entity is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such relevant entity within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business - which enables resolution authorities to direct the sale of the relevant entity or the whole or part of its business on commercial terms; (ii) bridge institution - which enables resolution authorities to transfer all or part of the business of the relevant entity to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control); which may limit the capacity of the relevant entity to meet its repayment obligations (iii) asset separation - which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in - which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing relevant entity (which write-down may result in the reduction of such claims to zero) and to convert certain unsecured debt claims (including the Notes) to equity or other instruments of ownership (the "**general bail-in tool**"), which equity or other instruments could also be subject to any future cancellation, transfer or dilution.

The BRRD also provides for a Member State as a last resort, after having assessed and exploited the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide

extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

A relevant entity will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write-down or convert into equity capital instruments such as the Subordinated Notes at the point of non-viability and before any other resolution action is taken (“**non-viability loss absorption**”). Any shares issued to holders of the Subordinated Notes upon any such conversion into equity may also be subject to any future cancellation, transfer or dilution.

For the purposes of the application of any non-viability loss absorption measure, the point of non-viability under the BRRD is the point at which (i) the relevant authority determines that the relevant entity meets the conditions for resolution (but no resolution action has yet been taken) or (ii) the relevant authority or authorities, as the case may be, determine(s) that the relevant entity or its group will no longer be viable unless the relevant capital instruments (such as the Subordinated Notes) are written-down or converted (iii) or extraordinary public financial support is required by the relevant entity other than, where the entity is an institution, for the purposes of remedying a serious disturbance in the economy of an EEA member state and to preserve financial stability.

Any application of the general bail-in tool and, in the case of Subordinated Notes, non-viability loss absorption under the BRRD shall be in accordance with the hierarchy of claims in normal insolvency proceedings. Accordingly, the impact of such application on holders of Notes will depend on their ranking in accordance with such hierarchy, including any priority given to other creditors such as depositors.

To the extent any resulting treatment of holders of Notes pursuant to the exercise of the general bail-in tool is less favourable than would have been the case under such hierarchy in normal insolvency proceedings, a holder has a right to compensation under the BRRD based on an independent valuation of the relevant entity (which is referred to as the “no creditor worse off safeguard” under the BRRD). Any such compensation is unlikely to compensate that holder for the losses it has actually incurred and there is likely to be a considerable delay in the recovery of such compensation. Compensation payments (if any) are also likely to be made considerably later than when amounts may otherwise have been due under the Notes. In the event that Subordinated Notes are subject to the application of non-viability loss absorption, compensation (if any) would only be in the form of equity.

Under the BRRD, resolution authorities are vested with broader powers to implement other resolution measures with respect to distressed banks, which may include, without limitation, the replacement or substitution of the bank as obligor in respect of debt instruments, modifications to the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments) and discontinuing the listing and admission to trading of financial instruments.

With the implementation of the BRRD, European banks are required to have bail in-able resources in order to fulfil the Minimum Requirement for Eligible Liabilities (“**MREL**”). There is no minimum EU-wide level of MREL. Each resolution authority is required to make a separate determination of the appropriate MREL requirement for each resolution group within its jurisdiction, depending on the resolvability, risk profile, systemic importance and other characteristics of each institution. The requirement for Danish institutions is expected to be based on the EBA methodology. This may require that Danish banks are to issue debt that can be bailed in. If an institution does not fulfil the MREL requirement, the relevant authority may withdraw its banking license.

The powers set out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. The BRRD has resulted in changes to the insolvency hierarchy in Denmark as certain deposits are granted priority ranking in an insolvency hierarchy. The BRRD establishes a preference within the ordinary insolvency hierarchy, firstly for insured depositors and, secondly, for all other deposits of individuals and micro, small and medium-sized enterprises held in EEA or non-EEA branches of an EEA bank exceeding the thresholds in respect of deposit guarantee schemes. Such deposits rank ahead of all other unsecured senior creditors of the Issuer in the insolvency hierarchy. The insolvency hierarchy may be changed in the future.

The exercise of any power under the BRRD or any suggestion of such exercise could have a material adverse effect on the rights of Holders, the price or value of their investment in any Notes and/or the ability of the Issuer to satisfy its obligations under any Notes. The implementation of the BRRD in Denmark provides for certain limited safeguard measures for creditors under specific conditions as the objective is that they are not to incur greater losses than they would have incurred if the relevant financial institution had been wound up under normal insolvency proceedings, however, if the powers under the BRRD are exercised this may affect such safeguard measures. The determination that all or a part of the principal amount of the Notes will be subject to bail-in is likely to be inherently unpredictable and may depend on a number of factors which may be outside of the Group's control. The application of the general bail-in tool with respect to the Notes may result in the write-down or cancellation of all, or a portion of, the principal amount of, or outstanding amount payable in respect of, and/or interest on, the Notes and/or the conversion of all, or a portion, of the principal amount of, or outstanding amount payable in respect of, or interest on, the Notes into shares or other securities or other obligations of the bank or another person, including by means of an amendment to the terms of the Notes. Accordingly, potential investors in the Notes should consider the risk that the general bail-in tool may be applied in such a manner as to result in Holders losing all or a part of the value of their investment in the Notes or receiving a different security than the Notes, which may be worth significantly less than the Notes and which may have significantly fewer protections than those typically afforded to debt securities. Furthermore, the general bail-in tool may be applied by the relevant resolution authority without providing any advance notice to the Holders.

The powers set out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. The Holders may be subject to the application of the general bail-in tool and non-viability loss absorption, which may result in such holders losing some or all of their investment. Such application could also involve modifications, including alteration of the principal amount or any interest payable on the Notes, the maturity date or any other dates on which payments may be due, as well as the suspension of payments for a certain period, to or the disapplication of provisions in, the Terms and Conditions of the Notes. As a result, the exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of Holders, the price or value of their investment in any Notes and/or the ability of the Issuer to satisfy its obligations under any Notes.

The Group may have to pay additional amounts under deposit guarantee schemes or resolution funds

In Denmark and other jurisdictions, deposit guarantee schemes and similar funds (each, a “**Deposit Guarantee Scheme**”) have been implemented from which compensation for deposits may become payable to customers of financial services firms in the event a financial services firm is unable to pay, or unlikely to pay, claims against it. In many jurisdictions (including material jurisdictions in which the Group operates), these Deposit Guarantee Schemes are funded, directly or indirectly, by financial services firms which operate and/or are licensed in the relevant jurisdiction.

The future target level of funds to be accumulated in Deposit Guarantee Schemes and resolution funds across different EU countries may exceed the minimum target levels provided for in the BRRD, Directive 2014/49/EC (the “**revised Deposit Guarantee Schemes Directive**”) and in Regulation 2014/806/EC of the European Parliament and of the Council establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution

Mechanism and a Single Resolution Fund and amending Regulation 1093/2010/EC (the “SRM”) (the latter of which will be relevant for Danish credit institutions should Denmark choose to participate in the Single Resolution Mechanism). Both the BRRD and the revised Deposit Guarantee Schemes Directive have been transposed into Danish legislation.

Danish credit institutions participating in the Danish deposit guarantee scheme are required to contribute to the deposit guarantee fund. In addition, Danish credit institutions are required to contribute to the Danish resolution fund which can be used in connection with the exercise of the powers set out in the BRRD. The resolution fund is targeted to reach 1 per cent. of covered deposits by 2024.

In addition, the Group may be required to pay to other funds in other countries where the Group operates.

The Group may be affected by general economic and geopolitical conditions

The financial services industry generally prospers in conditions of economic growth, stable geopolitical conditions, capital markets that are transparent, liquid and buoyant, and positive investor sentiment. Each of the Group’s operating segments is affected by general economic and geopolitical conditions, which can cause the Group’s results of operations and financial position to fluctuate from year to year as well as on a long-term basis.

Risks related to the market generally

Set out below is a brief description of certain market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Notes

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid and may be sensitive to changes in financial markets. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case should the Issuer be in financial distress, which may result in any sale of the Notes having to be at a substantial discount to their principal amount or for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes. See also “The Group may be affected by general economic and geopolitical conditions” above.

If an investor holds Notes which are not denominated in the investor’s home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor’s financial activities are denominated principally in a currency or currency unit (the “Investor’s Currency”) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor’s Currency) and the risk that authorities with jurisdiction over the Investor’s Currency or Specified Currency may impose or modify exchange controls. An appreciation in the value of the Investor’s Currency relative to the Specified Currency would decrease (i) the Investor’s Currency-equivalent yield on the Notes, (ii) the Investor’s Currency-equivalent value of the principal payable on the Notes and (iii) the Investor’s Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal as measured in the Investor's Currency.

The value of Fixed Rate Notes may be adversely affected by movements in market interest rates

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Notes, this will adversely affect the value of the Fixed Rate Notes.

In addition, a holder of securities with a fixed interest rate that will be periodically reset during the term of the relevant securities, such as Notes to which the reset provisions apply, is also exposed to the risk of fluctuating interest rate levels and uncertain interest income.

Credit ratings assigned to the Issuer or any Notes may not reflect all the risks associated with an investment in those Notes and may be lowered, withdrawn or not maintained

One or more independent credit rating agencies may assign credit ratings to the Notes and/or the Issuer. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes or the standing of the Issuer.

The expected rating(s), if any, of the Notes will be set out in the relevant Pricing Supplement for each Tranche of Notes. Any rating agency may lower its rating or withdraw its rating if, in the sole judgment of the rating agency, the credit quality of the Notes has declined or is in question. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

There is no guarantee that any rating of the Notes and/or the Issuer will be maintained by the Issuer following the date of this Offering Circular. If any rating assigned to the Notes and/or the Issuer is revised lower, suspended, withdrawn or not maintained by the Issuer, the market value of the Notes may be reduced.

The Issuer is exposed to changing methodology by rating agencies

The Issuer is exposed to changes in the rating methodologies applied by rating agencies. Any adverse changes of such methodologies may materially and adversely affect the Issuer's operations or financial condition, the Issuer's willingness or ability to leave individual transactions outstanding and adversely affect the Issuer's capital market standing.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

The Notes may not be a suitable investment for all investors

Each potential investor of Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement to this Offering Circular;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;

- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the currency in which such potential investor's financial activities are principally denominated;
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to the investor's overall portfolio. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the assistance of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

The claims of Holders in respect of Subordinated Notes are subordinated

The Issuer may issue Subordinated Notes which will constitute direct, unsecured and subordinated debt obligations of the Issuer as described in Condition 4.2 (*Status – Subordinated Notes*).

The Issuer may issue other obligations or capital instruments that rank or are expressed to rank senior to the Subordinated Notes or *pari passu* with the Subordinated Notes, in each case as regards the right to receive periodic payments on a liquidation or bankruptcy of the Issuer and the right to receive repayment of capital on a liquidation or bankruptcy of the Issuer. In the event of a liquidation or bankruptcy of the Issuer, the Issuer will be required to pay its depositors, its unsubordinated creditors and its other subordinated creditors other than the present or future claims of creditors that rank or are expressed to rank *pari passu* with or junior to the Subordinated Notes in full before it can make any payments on the Subordinated Notes. If this occurs, the Issuer may not have enough assets remaining after these payments are made to pay amounts due under the Subordinated Notes. In addition, in the event of a liquidation or bankruptcy of the Issuer, to the extent the Issuer has assets remaining after paying its creditors who rank senior to the Subordinated Notes, payments relating to other obligations or capital instruments of the Issuer that rank or are expressed to rank *pari passu* with the Subordinated Notes may, if there are insufficient assets to satisfy the claims of all of the Issuer's *pari passu* creditors, further reduce the assets available to pay amounts due under the Subordinated Notes on a liquidation or bankruptcy of the Issuer.

No Events of Default and limited Enforcement Events in relation to Subordinated Notes

There are no Events of Default in relation to Subordinated Notes. Holders of Subordinated Notes may not at any time demand repayment or redemption of their Subordinated Notes, and enforcement rights for any payment are limited to the claim of Holders in a liquidation or bankruptcy of the Issuer. In a liquidation or bankruptcy of the Issuer, a Holder of Subordinated Notes may prove or claim in such proceedings in respect of such Subordinated Note, such claim being for payment of the Early Redemption Amount of such Subordinated Note at the time of commencement of such bankruptcy or liquidation together with any interest accrued and unpaid on such Subordinated Note from (and including) the Interest Payment Date immediately

preceding commencement of such liquidation or bankruptcy and any other amounts payable on such Subordinated Note under the Terms and Conditions of the Notes.

If proceedings with respect to the liquidation or bankruptcy of the Issuer should occur, the Holders of the relevant Series of Subordinated Notes would be required to pursue their claims on such Notes in proceedings with respect to the Issuer in Denmark. In addition, to the extent that the Holders are entitled to any recovery with respect to such Notes in any such Danish bankruptcy proceedings, such Holders would be entitled to a recovery in Danish Kroner or, as the case may be, other currencies, which would be based on the relevant conversion rate in effect on the date the Issuer entered into such liquidation or bankruptcy proceedings.

If the Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return

A Series of Notes may include certain optional redemption features. For example, in the case of Subordinated Notes, subject as provided herein, including Condition 8.10 (*Conditions to redemption etc. prior to Maturity Date*), the Issuer may, at its option, redeem all (but not some only) of a Series of Subordinated Notes at their Outstanding Principal Amounts, together with accrued interest thereon, upon the occurrence of a Tax Event or a Capital Event. Any such optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of such Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates.

The market values of securities issued at a substantial discount (such as Zero Coupon Notes) or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing securities. Generally, the longer the remaining term of such securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities.

No right of set-off or counterclaim for Subordinated Notes

As provided in the Terms and Conditions of the Notes and as a general principle of Danish law, in respect of Subordinated Notes only, no Holder, who shall in the event of the liquidation or bankruptcy of the Issuer be indebted to the Issuer, shall be entitled to exercise any right of set-off or counterclaim against moneys owed by the Issuer in respect of the Subordinated Notes held by such Holder.

Limitation on gross-up obligation under the Subordinated Notes

The Issuer's obligation to pay additional amounts in respect of any withholding or deduction in respect of taxes under the terms of the Subordinated Notes applies only to payments of interest due and paid under the Subordinated Notes and not to payments of principal. As such, the Issuer would not be required to pay any additional amounts under the terms of the Subordinated Notes to the extent any withholding or deduction applied to payments of principal. Accordingly, if any such withholding or deduction were to apply to any payments of principal under the Subordinated Notes, Holders of Subordinated Notes may receive less than the full amount due under the Subordinated Notes, and the market value of the Subordinated Notes may be

adversely affected. Holders of Subordinated Notes should note that principal for these purposes may include any payments of premium.

Risks related to Notes generally

Because the Global Notes are held by or on behalf of Euroclear and/or Clearstream, Luxembourg, as the case may be, investors will have to rely on the clearing system procedures for transfer, payment and communication with the Issuer.

Notes issued under the Programme may be represented by one or more Global Notes. Global Notes will be deposited with a common depositary or common safekeeper, as the case may be, for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive Definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are in global form, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg, as the case may be.

While the Notes are in global form, the Issuer will discharge its payment obligations under the Notes by making payments (i) to a common depositary (for Notes which are Classic Global Notes) or (ii) to a common safekeeper (for Notes which are New Global Notes). A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and/or Clearstream, Luxembourg, as the case may be, to receive payments under the relevant Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in such a Global Note.

The Terms and Conditions of the Notes contain provisions which may permit their modification without the consent of all investors

The Terms and Conditions of the Notes contain provisions for calling meetings of Holders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Holders including Holders who did not attend and vote at the relevant meeting and Holders who voted in a manner contrary to the majority.

In addition, the Issuer may, subject to Condition 8.10 (*Conditions to redemption etc. prior to Maturity Date*), make any modification to the Notes, the Terms and Conditions of the Notes, the Agency Agreement and/or the Deed of Covenant which is not prejudicial to the interests of the Holders without the consent of the Holders. Any such modification shall be binding on the Holders.

Change of Law

The Terms and Conditions of the Notes will be governed by the laws of England, except for Condition 4.2 (*Status of the Subordinated Notes*), Condition 4.3 (*No right of set-off or counterclaim*), Condition 8.2 (*Early redemption for tax reasons: Subordinated Notes*), Condition 8.3 (*Early redemption upon the occurrence of a Capital Event*) and Condition 12 (*Enforcement Events*) which shall be governed by, and construed in accordance with, Danish law. No assurance can be given as to the impact of any possible judicial decision or change to the laws of England or Denmark or administrative practice after the date of this Offering Circular.

Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus an integral multiple of another smaller amount in excess thereof, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a Holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a Definitive Note in respect of such holding (should Definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If Definitive Notes are issued, Holders should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Interests of the Dealers

Certain of the Dealers and their affiliates have engaged, and may in the future, engage in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business.

The recognition as eligible collateral for the Eurosystem and intra-day credit operations by the Eurosystem of New Global Notes is dependent upon satisfaction of the Eurosystem eligibility criteria at the relevant time

Although, in the case of Notes which are Senior Notes, the New Global Note form has been introduced to allow for the possibility of Notes being issued and held in a manner which will permit them to be recognised as eligible collateral for monetary policy of the central banking system for the Eurosystem and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life, in any particular case such recognition will depend upon satisfaction of the Eurosystem eligibility criteria at the relevant time.

OVERVIEW OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Words and expressions defined in “Terms and Conditions of the Notes” herein shall have the same meanings in this “Overview of Provisions relating to the Notes while in Global Form”.

The Notes of each Series will be in bearer form.

Form of Notes

Each Tranche of Notes will initially be in the form of either a temporary global note (the “**Temporary Global Note**”), without interest Coupons, or a permanent global note (the “**Permanent Global Note**” and together with the Temporary Global Note, the “**Global Notes**” and each a “**Global Note**”), without interest Coupons, in each case as specified in the relevant Pricing Supplement. Each Temporary Global Note or, as the case may be, Permanent Global Note which is not intended to be issued in NGN form, as specified in the relevant Pricing Supplement, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear and Clearstream, Luxembourg and each Global Note which is intended to be issued in NGN form, as specified in the relevant Pricing Supplement, will be deposited on or around the relevant issue date with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

If the Notes have a maturity of more than 1 year, the relevant Pricing Supplement will specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (or any successor U.S. Treasury Regulation Section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) (the “**TEFRA C Rules**”) or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (or any successor U.S. Treasury Regulation Section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) (the “**TEFRA D Rules**”) will apply in relation to the Notes. If the Notes do not have a maturity of more than 1 year, neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Pricing Supplement specifies the form of Notes as being “Temporary Global Note exchangeable for a Permanent Global Note”, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than forty days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of a NGN, effectuated, to the bearer of the Temporary Global Note or (in the case of any subsequent exchange of a part of the Temporary Global Note) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and
- (ii) in either case, receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership,

within seven days of the bearer requesting such exchange.

The principal amount of Notes represented by the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; provided, however, that in no circumstances shall the principal amount of Notes represented by the Permanent Global Note exceed the initial principal amount of Notes represented by the Temporary Global Note.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Pricing Supplement specifies the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes”, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Notes in definitive form (“**Definitive Notes**”) not earlier than forty days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Pricing Supplement), in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership to the bearer of the Temporary Global Note against presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent within thirty days of the bearer requesting such exchange.

Permanent Global Note exchangeable for Definitive Notes

Interests in the Permanent Global Note will be exchangeable, in whole but not in part only and at the request of the bearer of the Permanent Global Note, for Definitive Notes, if:

- (i) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of fourteen days (other than by reason of legal holidays) or announces an intention permanently to cease business or in fact does so; or
- (ii) any of the circumstances described in Condition 12 (*Enforcement Events*) occurs.

Interests in the Permanent Global Note will also become exchangeable, in whole but not in part only and at the request of the Issuer, for Definitive Notes if, by reason of any change in the laws of Denmark, the Issuer will be required to make any withholding or deduction from any payment in respect of the Notes which would not be required if the Notes are in definitive form.

Definitive Notes will have attached thereto at the time of their initial delivery Coupons. Definitive Notes will also, if necessary, have attached thereto at the time of their initial delivery Talons and the expression Coupons shall, where the context so requires, include Talons.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and, if necessary, Talons attached, in an aggregate principal amount equal to the Outstanding Principal Amounts of the Notes represented by the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within thirty days of the bearer requesting such exchange.

The Permanent Global Note also provides, *inter alia*, that:

- (i) if Definitive Notes have not been delivered in accordance with the terms of the Permanent Global Note by 6.00 p.m. (London time) on the thirtieth day after the day on which such Permanent Global Note becomes due to be exchanged; or

- (ii) if the Permanent Global Note (or any part thereof) becomes due and payable in accordance with the Terms and Conditions or the date for final redemption of the Permanent Global Note has occurred, and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made on the due date for payment by 6.00 p.m. (London time) on such due date,

then the Permanent Global Note will become void in accordance with its terms but without prejudice to the rights conferred by the Deed of Covenant.

Terms and Conditions applicable to the Notes

The Terms and Conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the Terms and Conditions set out under “Terms and Conditions of the Notes” below and the provisions of the relevant Pricing Supplement which complete and/or amend and/or replace those Terms and Conditions.

The Terms and Conditions applicable to any Notes represented by one or more Global Notes will differ from those Terms and Conditions which would apply to the Notes were they in definitive form to the extent described in this “Overview of Form of the Notes”.

Each Global Note will contain provisions which modify the Terms and Conditions of the Notes as they apply to the relevant Global Note. The following is a summary of certain of those provisions:

Payments: The Holder of a Global Note shall be the only person entitled to receive payments in respect of the Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the Holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of the Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the Holder of such Global Note. For the purpose of any payments made in respect of a Global Note, the relevant place of presentation shall be disregarded in the definition of “**Payment Business Day**” set out in Condition 2.1 (*Definitions*).

Exercise of put option: In order to exercise the option contained in Condition 8.6 (*Redemption at the option of the Holder*) the Holder of the relevant Global Note must, within the period specified in the Terms and Conditions give written notice of such exercise to the Fiscal Agent specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Partial exercise of call option: In connection with an exercise of the option contained in Condition 8.4 (*Redemption at the option of the Issuer*) in relation to some only of the Notes, the relevant Global Note may be redeemed in part in the principal amount specified by the Issuer in accordance with the Terms and Conditions and the Notes to be redeemed will not be selected as provided in the Terms and Conditions, but in accordance with the rules and procedures of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion).

Notices: Notwithstanding Condition 18 (*Notices*), while all the Notes are represented by one or more Global Notes and such Global Note(s) are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, the requirement in Condition 18 (*Notices*) for a notice to be published in a leading English language daily newspaper having general circulation in Europe shall not apply and notices to Holders may instead be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system for communication by them to the persons shown in their respective records as having interests therein and, in any case, such notices shall be deemed to have been given to the Holders in accordance with Condition 18 (*Notices*) on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Legend concerning United States persons

In the case of any Tranche of Notes having a maturity of more than 1 year, Permanent Global Notes, Definitive Notes and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

“Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code.”

The sections referred to in such legend provide that a United States person who holds a Note, Coupon or Talon will generally not be allowed to deduct any loss realised on the sale, exchange or redemption of such Note, Coupon or Talon and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.

Clearing Systems

Any reference herein to Euroclear and/or Clearstream, Luxembourg, as the case may be, shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer, the Fiscal Agent and the relevant Holders.

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the Terms and Conditions of the Notes which, as completed and/or amended and/or replaced by the relevant Pricing Supplement, will be endorsed on each Definitive Note issued under the Programme. The Terms and Conditions applicable to any Global Note will differ from those Terms and Conditions which would apply to a Definitive Note to the extent described under “Overview of Form of the Notes” above.

1. Introduction

- 1.1 *The Programme:* Saxo Bank A/S (the “**Issuer**”) has established a EUR 2,000,000,000 Senior Note and Subordinated Note Programme (the “**Programme**”) for the issuance of senior notes and dated subordinated notes (together, the “**Notes**”).
- 1.2 *Pricing Supplement:* Notes issued under the Programme are issued in series (each a “**Series**”) and each Series may comprise one or more tranches (each a “**Tranche**”) of Notes. Each Tranche of Notes is the subject of a pricing supplement (the “**Pricing Supplement**”) which completes and/or amends and/or replaces these Conditions. The Terms and Conditions applicable to any particular Tranche of Notes are these Conditions as completed and/or amended and/or replaced by the relevant Pricing Supplement. In the event of any inconsistency between these Conditions and the relevant Pricing Supplement, the relevant Pricing Supplement, as applicable, shall prevail.

Where a particular Condition is applicable only to certain classes or to a particular Tranche or Series of Notes, “Notes” shall be construed in accordance with the relevant Condition.

- 1.3 *Issue and Paying Agency Agreement:* The Notes are the subject of an issue and paying agency agreement dated 21 June 2016 (as supplemented, amended and/or replaced from time to time, the “**Agency Agreement**”) between the Issuer, BNP Paribas Securities Services, Luxembourg Branch as fiscal agent and paying agent (the “**Fiscal Agent**”, which expression shall include any successor to BNP Paribas Securities Services, Luxembourg Branch in its capacity as such and together with any additional or successor paying agents appointed from time to time in accordance with the Agency Agreement, the “**Paying Agents**”).

- 1.5 *The Notes:* All subsequent references in these Conditions to “Notes” are to the Notes which are the subject of the relevant Pricing Supplement. Copies of the relevant Pricing Supplement are available for inspection by Holders during normal business hours at the Specified Office of each of the Paying Agents. In the case of a Tranche of Notes which is not admitted to listing, trading and/or quotation on any listing authority, stock exchange and/or quotation system, copies of the Pricing Supplement will only be available for inspection by Holders (as defined in Condition 1.6 (*Summaries*) below) or, as the case may be, Relevant Account Holders (as defined in the Deed of Covenant) in respect of, such Notes.
- 1.6 *Summaries:* Certain provisions of these Conditions are summaries of the Agency Agreement and the Deed of Covenant and are subject to their detailed provisions. The holders of the Notes (the “**Holders**” or “**Noteholders**”, which expressions shall, where appropriate, be deemed to include holders of Notes and Couponholders (as defined below)) and the holders of the related interest coupons, if any, (the “**Couponholders**” and the “**Coupons**”, respectively) are bound by, and are deemed to have notice of, all the provisions of the Agency Agreement and the Deed of Covenant applicable to them. (0.0005 per cent. being rounded upwards)) of the relevant quotations provided, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest (or, in the event of equality, one of the lowest) and (B) the Relevant Reset Margin, all as determined by the Calculation Agent;
- (iii) if only two relevant quotations are provided, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) for the relevant Reset Period will be equal to the sum of (A) the arithmetic mean (rounded as aforesaid) of the relevant quotations provided and (B) the Relevant Reset Margin, all as determined by the Calculation Agent;

- 5.9 *Publication*: The Calculation Agent will cause the First Reset Rate of Interest, any Subsequent Reset Rate of Interest and, in respect of a Reset Period, the Interest Amount payable on each Interest Payment Date falling in such Reset Period to be notified to the Paying Agents, each listing authority, stock exchange and/or quotation system (if any) on which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination. - (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the principal financial centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the principal financial centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading banks in the Relevant Financial Centre interbank market for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or, as the case may be, the arithmetic mean so determined; provided, however, that if the Calculation Agent is unable to determine a rate or, as the case may be, an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or, as the case may be, the arithmetic mean last determined in relation to the Notes in respect of the last preceding Interest Period.

6.4 *ISDA Determination:* If ISDA Determination is specified in the relevant Pricing Supplement as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where “ISDA Rate” in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Pricing Supplement;
- (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Pricing Supplement; and
- (ii) the relevant Reset Date (as defined in the ISDA Definitions) is the day specified in the relevant Pricing Supplement.

6.5 *Linear Interpolation:* Where Linear Interpolation is specified as applicable in respect of an Interest Period in the relevant Pricing Supplement, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the relevant Pricing Supplement), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case

may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

- 6.6 *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Pricing Supplement, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- 6.7 *Calculation of Interest Amount:* The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of the Calculation Amount for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit (as defined in Condition 5.4 (*Calculation of interest amount*)) of the Specified Currency (half a sub-unit being rounded upwards).

Where the Specified Denomination of a Note is the Calculation Amount, the amount of interest payable in respect of such Note shall be the Interest Amount.

Where the Specified Denomination of a Note is a multiple of the Calculation Amount, the amount of interest payable in respect of such Note shall be the product of the Interest Amount (determined in the manner provide above) for each Calculation Amount and the amount by which the Calculation Amount is required to be multiplied to reach the Specified Denomination, without any further rounding.

Calculation of other amounts: If the relevant Pricing Supplement specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Pricing Supplement.

- 6.8 *Publication:* The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents, each listing authority, stock exchange and/or quotation system (if any) on which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Holders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period.
- 6.9 *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 6 by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Holders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

7. Zero Coupon Note Provisions

- 7.1 *Application:* This Condition 7 is only applicable to Senior Notes and shall only apply if the Zero Coupon Note Provisions are specified in the relevant Pricing Supplement as being applicable.

7.2 *Late payment on Zero Coupon Notes:* If the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of:
 - (a) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Holder; and
 - (b) the day which is seven days after the Fiscal Agent has notified the Holders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

8. Redemption and Purchase

8.1 *Scheduled redemption:* Unless previously redeemed, or purchased and cancelled, the Notes will be redeemed at their Final Redemption Amount on the Maturity Date, subject as provided in Condition 9 (*Payments*).

8.2 *Early redemption for tax reasons:*

- (A) This Condition 8.2(A) is only applicable to Senior Notes.

If, in relation to any Series of Senior Notes:

- (i) as a result of any change in the laws, regulations or rulings of Denmark or of any political subdivision thereof or any authority or agency therein or thereof having power to tax or in the interpretation or administration of any such laws, regulations or rulings which becomes effective on or after the date of issue of the first Tranche of such Senior Notes or any other date specified in the relevant Pricing Supplement, the Issuer would be required to pay additional amounts as provided in Condition 10 (*Taxation*); and
- (ii) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

the Issuer may, at its option at any time and having given no less than thirty nor more than sixty days' notice (ending, in the case of the Senior Notes which bear interest at a floating rate, on a day upon which interest is payable) to the Holders of the Senior Notes in accordance with Condition 18 (*Notices*) (which notice shall be irrevocable), redeem all (but not some only) of the outstanding Senior Notes comprising the relevant Series at their Early Redemption Amount (Tax), together with accrued interest (if any) thereon, provided, however, that no such notice of redemption may be given earlier than ninety days (or, in the case of Senior Notes which bear interest at a floating rate, a number of days which is equal to the aggregate of the number of days falling within the then current interest period applicable to the Senior Notes plus sixty days) prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Senior Notes then due.

The Issuer may not exercise any such option in respect of any Senior Note which is the subject of the prior exercise by the Holder of its Put Option (if applicable) pursuant to Condition 8.6 (*Redemption at the option of the Holder*).

(B) This Condition 8.2(B) is only applicable to Subordinated Notes.

If, in relation to any Series of Subordinated Notes:

- (i) as a result of any change in the laws, regulations or rulings of Denmark or of any political subdivision thereof or any authority or agency therein or thereof having power to tax or in the official interpretation or administration of any such laws, regulations or rulings on or after the Issue Date of the first Tranche of a Series of such Notes, the Issuer receives an opinion of external counsel in Denmark that (A) it would be required to pay additional amounts as provided in Condition 10 (*Taxation*) or (B) it will no longer be able to obtain a tax deduction for the purposes of Danish tax for such payment of interest, in each case provided that the Issuer satisfies the Relevant Regulator that such change in tax treatment of the Notes is material and was not reasonably foreseeable at the time of their issuance; and
- (ii) (in the case of (i)(A), above, only) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

any such event, a “**Tax Event**”,

the Issuer may, at its option (but subject to Condition 8.10 (*Conditions to redemption etc. prior to Maturity Date*)) at any time and having given no less than thirty nor more than sixty days’ notice (ending in the case of the Subordinated Notes which bear interest at a floating rate, on a day upon which interest is payable) to the Holders of the Subordinated Notes in accordance with Condition 18 (*Notices*) (which notice shall be irrevocable), redeem all (but not some only) of the outstanding Subordinated Notes at their Outstanding Principal Amounts, together with accrued interest (if any) thereon, provided, however, that no such notice of redemption may be given earlier than ninety days (or, in the case of Subordinated Notes which bear interest at a floating rate, a number of days which is equal to the aggregate of the number of days falling within the then current interest period applicable to the Subordinated Notes plus sixty days) prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Subordinated Notes then due.

8.3 *Early redemption upon the occurrence of a Capital Event:* This Condition 8.3 is only applicable to Subordinated Notes.

Upon the occurrence of a Capital Event, the Issuer may, at its option (but subject to Condition 8.10 (*Conditions to redemption etc. prior to Maturity Date*)) at any time and having given no less than thirty nor more than sixty days’ notice (ending in the case of such Notes which bear interest at a floating rate, on a day upon which interest is payable) to the Holders of the relevant Notes, as the case may be, in accordance with Condition 18 (*Notices*) (which notice shall be irrevocable), redeem all (but not some only) of such outstanding Notes, as the case may be, at their Outstanding Principal Amounts, together with accrued interest (if any) thereon.

8.4 *Redemption at the option of the Issuer:* If the Call Option is specified in the relevant Pricing Supplement as being applicable, the Notes may be redeemed at the option of the Issuer but in the case of Subordinated Notes subject to Condition 8.10 (*Conditions to redemption etc. prior to Maturity Date*) in whole or, if so specified in the relevant Pricing Supplement, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call), together with accrued interest (if any) thereon upon the Issuer’s giving not less than the minimum period nor more than the maximum period of notice specified in the relevant Pricing Supplement to the Holders in

accordance with Condition 18 (*Notices*) (which notice shall be irrevocable and shall oblige the Issuer to redeem the Notes or, as the case may be, the Notes specified in such notice on the relevant Optional Redemption Date (Call)).

The notice to Holders referred to in this Condition 8.4 shall specify the serial numbers of the Notes so to be redeemed.

If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Pricing Supplement, then the Optional Redemption Amount (Call) shall in no event be greater than the maximum or be less than the minimum so specified.

The Issuer may not exercise such option in respect of any Note which is the subject of the prior exercise by the Holder of its Put Option pursuant to Condition 8.6 (*Redemption at the option of the Holder*).

- 8.5 *Partial redemption*: If the Notes are to be redeemed in part only on any date in accordance with Condition 8.4 (*Redemption at the option of the Issuer*), the Notes to be redeemed shall be drawn by lot in such European city as the Fiscal Agent may specify, or identified in such other manner or in such other place as the Fiscal Agent may approve and deem appropriate and fair;
- 8.6 *Redemption at the option of the Holder*: This Condition 8.6 is only applicable to Senior Notes. If the Put Option is specified in the relevant Pricing Supplement as being applicable, upon a Holder of any Senior Note giving not less than the minimum period nor more than the maximum period of notice specified in the relevant Pricing Supplement to the Issuer, the Issuer will redeem such Senior Note on the Optional Redemption Date (Put) at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date.

In order to exercise the option contained in this Condition 8.6, the Holder of such Senior Note must, within the notice period described above, deposit at the Specified Office of any Paying Agent such Note together with all unmatured Coupons relating thereto and a duly completed Put Option Notice in the form obtainable from any Paying Agent specifying the aggregate Outstanding Principal Amount in respect of which such option is exercised. The Paying Agent with which a Note is so deposited shall deliver a duly completed Put Option Receipt to the depositing Holder. No Senior Note, once deposited with a duly completed Put Option Notice in accordance with this Condition 8.6, may be withdrawn; provided, however, that if, prior to the relevant Optional Redemption Date (Put), any such Senior Note becomes immediately due and payable or, upon due presentation of any such Senior Note on the relevant Optional Redemption Date (Put), payment of the redemption moneys is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the depositing Holder at such address as may have been given by such Holder in the relevant Put Option Notice and shall hold such Senior Note at its Specified Office for collection by the depositing Holder against surrender of the relevant Put Option Receipt. For so long as any outstanding Senior Note is held by a Paying Agent in accordance with this Condition 8.6, the depositor of such Senior Note and not such Paying Agent shall be deemed to be the holder of such Senior Note for all purposes.

The Holder of a Senior Note may not exercise such Put Option in respect of any Senior Note which is the subject of an exercise by the Issuer of its Call Option.

- 8.7 *Early redemption of Zero Coupon Notes*: Unless otherwise specified in the relevant Pricing Supplement, the Redemption Amount payable on redemption of a Zero Coupon Note at any time before the Maturity Date shall be an amount equal to the sum of:

- (i) the Reference Price; and

- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or, as the case may be, the date upon which the Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the relevant Pricing Supplement for the purposes of this Condition 8.7 or, if none is so specified, a Day Count Fraction of 30E/360.

- 8.8 *Purchase*: The Issuer or any of its Subsidiaries may at any time (but in the case of Subordinated Notes subject to Condition 8.10 (*Conditions to redemption etc. prior to Maturity Date*)) purchase Notes in the open market or otherwise and at any price, provided that all unmatured Coupons are purchased therewith. Such Notes may be held, reissued, resold or surrendered to any Paying Agent for cancellation.
- 8.9 *Cancellation*: All Notes which are redeemed will forthwith (but in the case of Subordinated Notes subject to Condition 8.10 (*Conditions to redemption etc. prior to Maturity Date*)) be cancelled (together with all unmatured Coupons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes purchased and cancelled pursuant to Condition 8.8 (*Purchase*) above (together with all unmatured Coupons cancelled therewith) shall be forwarded to the Fiscal Agent and cannot be reissued or resold.
- 8.10 *Conditions to redemption etc. prior to Maturity Date*: This Condition 8.10 is only applicable to Subordinated Notes.

Such Notes may only be redeemed, purchased, cancelled or modified (as applicable) pursuant to Condition 8.2(B) (*Early redemption for tax reasons*), Condition 8.3 (*Early redemption upon the occurrence of a Capital Event*), Condition 8.4 (*Redemption at the option of the Issuer*), Condition 8.8 (*Purchase*), Condition 8.9 (*Cancellation*), Condition 16.1 (*Meetings of Holders*) or paragraph (ii) of Condition 16.2 (*Modification of Notes*), as the case may be, if:

- (i) in the case of any such modification, the Issuer has notified the Relevant Regulator of, and the Relevant Regulator has not objected to, such modification in accordance with the CRD IV requirements;
- (ii) in the case of any such redemption, purchase or cancellation, the Issuer has notified the Relevant Regulator of, and the Relevant Regulator has granted its permission to, such redemption, purchase (only if required by applicable law at the time of such purchase) or cancellation (as applicable) in accordance with the CRD IV requirements (which, as at 3 November 2017, are set out in Articles 77 and 78 of the CRR and Article 29 of the 2014 RTS); and
- (iii) in the case of a redemption of such Notes as a result of a Special Event, the Issuer has delivered a certificate signed by two of its Directors to the Fiscal Agent (and copies thereof will be available at the Fiscal Agent's Specified Office during its normal business hours) not less than 5 Business Days prior to the date set for redemption that such Special Event has occurred or will occur no more than ninety days following the date fixed for redemption, as the case may be.

As regards Condition 8.10(ii), the CRD IV requirements (which, as at 3 November 2017, are set out in Articles 77 and 78 of the CRR) prescribe certain conditions for the granting of permission by the Relevant Regulator to a request by the Issuer to redeem, purchase or cancel Notes.

In this respect, as at 3 November 2017, Article 78(1) of the CRR provides that the Relevant Regulator shall grant permission to a redemption, purchase or cancellation of Notes, provided that either of the following conditions is met:

- (i) earlier than, or at the same time as, such redemption, purchase or cancellation (as applicable) of Notes, the Issuer replaces the relevant Notes with own funds instruments of equal or higher quality on terms that are sustainable for the Issuer's income capacity; or
- (ii) the Issuer has demonstrated to the satisfaction of the Relevant Regulator that its own funds would, following such redemption, purchase or cancellation (as applicable), exceed the requirements laid down in Article 92(1) of the CRR and the combined buffer requirement as defined in Article 128(6) of the CRD IV Directive by a margin that the Relevant Regulator considers necessary on the basis of Article 104(3) of the CRD IV Directive.

In addition, the CRD IV requirements (which, as at 3 November 2017, are set out in Article 78(4) of the CRR) provide that the Relevant Regulator may only permit the Issuer to redeem Notes before five years after the date of issue of the relevant Notes if:

- (a) in the case of any such redemption of the relevant Notes upon the occurrence of a Tax Event, the Issuer has demonstrated to the satisfaction of the Relevant Regulator that the change in the applicable tax treatment of the relevant Notes is material and was not reasonably foreseeable at the time of their issuance; or
- (b) in the case of any such redemption of Notes upon the occurrence of a Capital Event, the Issuer has demonstrated to the satisfaction of the Relevant Regulator that the change in the regulatory classification of the relevant Notes was not reasonably foreseeable at the time of their issuance.

The CRD IV requirements may be modified from time to time after the date of issue of a Series of Notes.

Any refusal by the Relevant Regulator to grant its permission to any such redemption, purchase or cancellation (as applicable) pursuant to Condition 8.10(ii) will not constitute an event of default under the Notes.

9. Payments

9.1 *Principal:* Payments of principal shall be made only against presentation and (provided that payment is made in full) surrender of the relevant Note at the Specified Office of any Paying Agent outside the United States. Subject as provided in these Conditions:

- (i) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency; and
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

9.2 *Interest:* Payments of interest shall, subject to Condition 9.8 (*Payments other than in respect of matured Coupons*) below, be made only against presentation and (provided that payment is made in full) surrender of the appropriate Coupons at the Specified Office of any Paying Agent outside the United States in the manner described in Condition 9.1 (*Principal*) above.

9.3 *Payments in New York City:* Payments of principal or interest may be made at the Specified Office of a Paying Agent in New York City if:

- (i) the Issuer has appointed Paying Agents outside the United States with the reasonable expectation that such Paying Agents will be able to make payment of the full amount of the interest on the Notes in the currency in which the payment is due when due;
- (ii) payment of the full amount of such interest at the offices of all such Paying Agents is illegal or effectively precluded by exchange controls or other similar restrictions; and

payment is permitted by applicable United States law.

9.4 *Payments subject to fiscal laws:* All payments in respect of the Notes are subject in all cases to (i) any applicable fiscal or other laws and regulations in the place of payment, but without prejudice to the provisions of Condition 10 (*Taxation*) and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. No commissions or expenses shall be charged to the Holders in respect of such payments.

9.5 *Deductions for unmatured Coupons:* Except in the case of Subordinated Notes, if the relevant Pricing Supplement specify that the Fixed Rate Note Provisions are applicable (and, in the absence of specification, except in the case of Subordinated Notes, this Condition 9.5 shall apply to Notes which bear interest at a fixed rate or rates or in fixed amounts) and a Note is presented for final redemption (or partial redemption in accordance with Condition 8.4 (*Redemption at the option of the Issuer*) or Condition 9.9 (*Partial redemption*)) without all unmatured Coupons relating thereto:

- (i) if the aggregate amount of the missing Coupons is less than or equal to the amount of principal due for payment, a sum equal to the aggregate amount of the missing Coupons will be deducted from the amount of principal due for payment; provided, however, that if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of such missing Coupons which the gross amount actually available for payment bears to the amount of principal due for payment;
- (ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for payment:
 - (a) so many of such missing Coupons shall become void (in inverse order of maturity) as will result in the aggregate amount of the remainder of such missing Coupons (the “**Relevant Coupons**”) being equal to the amount of principal due for payment; provided, however, that where this sub-paragraph would otherwise require a fraction of a missing Coupon to become void, such missing Coupon shall become void in its entirety; and
 - (b) a sum equal to the aggregate amount of the Relevant Coupons (or, if less, the amount of principal due for payment) will be deducted from the amount of principal due for payment; provided, however, that, if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of the Relevant Coupons (or, as the case may be, the amount of principal due for payment) which the gross amount actually available for payment bears to the amount of principal due for payment.

Each sum of principal so deducted shall be paid in the manner provided in Condition 9.1 (*Principal*) against presentation and (provided that payment is made in full) surrender of the relevant missing Coupons subject to Condition 13 (*Prescription*).

- 9.6 *Unmatured Coupons void*: If the Notes are Subordinated Notes or the relevant Pricing Supplement specify that this Condition 9.6 is applicable or that the Floating Rate Note Provisions are applicable (and, in the absence of specification, this Condition 9.6 shall apply to Notes which bear interest at a floating rate or rates or in variable amounts or which are Subordinated Notes), on the due date for final redemption of any Note or early redemption in whole of such Note pursuant to Condition 8.2 (*Early redemption for tax reasons*), Condition 8.3 (*Early redemption upon the occurrence of a Capital Event*), Condition 8.4 (*Redemption at the option of the Issuer*), Condition 8.6 (*Redemption at the option of the Holder*), Condition 11 (*Events of Default*) or Condition 12 (*Enforcement Events*), all unmatured Coupons relating thereto (whether or not still attached) shall become void and no payment will be made in respect thereof.
- 9.7 *Payments on business days*: If the due date for payment of any amount in respect of any Note or Coupon is not a Payment Business Day, the Holder shall not be entitled to payment of the amount due until the next succeeding Payment Business Day and shall not be entitled to any further interest or other payment in respect of any such delay.
- 9.8 *Payments other than in respect of matured Coupons*: Payments of interest other than in respect of matured Coupons shall be made only against presentation of the relevant Notes at the Specified Office of any Paying Agent outside the United States (or in New York City if permitted by Condition 9.3 (*Payments in New York City*) above).
- 9.9 *Partial payments*: If a Paying Agent makes a partial payment in respect of any Note or Coupon presented to it for payment, such Paying Agent will endorse thereon a statement indicating the amount and date of such payment.
- 9.10 *Exchange of Talons*: On or after the maturity date of the final Coupon which is (or was at the time of issue) part of a Coupon Sheet relating to the Notes, the Talon forming part of such Coupon Sheet may be exchanged at the Specified Office of the Paying Agent for a further Coupon Sheet (including, if appropriate, a further Talon but excluding any Coupons in respect of which claims have already become void pursuant to Condition 13 (*Prescription*)). Upon the due date for redemption of any Note, any unexchanged Talon relating to such Note shall become void and no Coupon will be delivered in respect of such Talon.

10. Taxation

- 10.1 *Gross up*: All payments of principal and interest in respect of the Notes and the Coupons by or on behalf of the Issuer shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of Denmark or any political subdivision therein or any authority or agency therein or thereof having power to tax, unless the withholding or deduction of such taxes, duties, assessments, or governmental charges is required by law. In that event, the Issuer shall pay such additional amounts (“**Additional Amounts**”) as will result in receipt by the Holders after such withholding or deduction of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable in relation to any payment in respect of any Note or Coupon:
- (i) to, or to a third party on behalf of, a Holder which is liable to such taxes, duties, assessments or governmental charges in respect of such Note or Coupon by reason of it having some connection with Denmark other than:
 - (a) the mere holding of the Note or Coupon; or

- (b) the receipt of principal, interest or other amount in respect of such Note or Coupon; or
- (ii) presented for payment more than thirty days after the Relevant Date, except to the extent that the relevant Holder would have been entitled to such additional amounts on presenting the same for payment on or before the expiry of such period of thirty days.

Notwithstanding any other provision of these Conditions, in no event will the Issuer be required to pay any additional amounts in respect of the Notes for, or on account of, any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto.

In the case of Subordinated Notes only, and notwithstanding the foregoing, the payment of Additional Amounts by the Issuer will be limited to payments of interest only.

- 10.2 *Taxing jurisdiction:* If payments made by the Issuer become generally subject at any time to any taxing jurisdiction other than Denmark, references in these Conditions to Denmark shall be construed as references to Denmark and/or such other jurisdiction.

11. Events of Default

This Condition 11.1 is only applicable in relation to Senior Notes.

- 11.1 *Events of Default:* The following events or circumstances as modified by, and/or such other events as may be specified in, the relevant Pricing Supplement (each an “**Event of Default**”) shall be acceleration events in relation to the Notes of any Series of Senior Notes, namely:
- (i) *Non-Payment:* default in the payment on the due date of interest or principal in respect of any of the Notes is made for more than seven days after written notice has been given by the Fiscal Agent or the Holder of any such Note to the Issuer; or
 - (ii) *Breach of Other Obligations:* the Issuer does not perform or comply with any one or more of its other obligations in the Notes which default is incapable of remedy or is not remedied within 30 days after notice of such default shall have been given to the Fiscal Agent at its specified office by any Holder; or
 - (iii) *Cross-Acceleration:* (A) any other present or future indebtedness of the Issuer or any Material Subsidiary for or in respect of moneys borrowed or raised becomes due and payable prior to its stated maturity by reason of any actual or potential default, event of default or the like (howsoever described), or (B) any such indebtedness is not paid when due or, as the case may be, within any originally applicable grace period, or (C) the Issuer or any Material Subsidiary fails to pay when due any amount payable by it under any present or future guarantee for, or indemnity in respect of, any moneys borrowed or raised provided that the aggregate amount of the relevant indebtedness, guarantees and indemnities in respect of which one or more of the events mentioned above in this paragraph (iii) have occurred equals or exceeds EUR 5,000,000 or its equivalent (on the basis of the middle spot rate for the relevant currency against the Euro as quoted by any leading bank on the day on which this paragraph operates); or
 - (iv) *Enforcement Proceedings:* a distress, attachment, execution or other legal process is levied, enforced or sued out on or against any part of the property, assets or revenues of the Issuer or any Material Subsidiary which is material in its effect upon the financial condition or operations of the Issuer and is not discharged or stayed within 60 days; or

- (v) *Bankruptcy*: (A) an application for the commencement of bankruptcy against the assets of the Issuer or any Material Subsidiary is filed by or on behalf of the Issuer or such Material Subsidiary, or (B) a third party files an application for the commencement of bankruptcy against the assets of the Issuer or any Material Subsidiary and either (1) the DFSA advises the competent court to commence bankruptcy proceedings, or (2) a competent court commences bankruptcy proceedings or liquidation against the assets of the Issuer or any Material Subsidiary, or (C) under Section 233 of the Danish Financial Business Act, the liquidators of the Issuer or any Material Subsidiary appointed pursuant to Section 231 of the Danish Financial Business Act file a petition for bankruptcy under and pursuant to Section 17 of the Danish Bankruptcy Act in relation to the Issuer or such Material Subsidiary, or (D) under Section 233 or 234 of the Danish Financial Business Act, the DFSA files a petition for bankruptcy under and pursuant to Section 17 of the Danish Bankruptcy Act in relation to the Issuer or any Material Subsidiary; or
- (vi) *Reconstruction*: the DFSA files a petition under Section 238 of the Danish Financial Business Act, for the reconstruction of the Issuer or any Material Subsidiary.

11.2 *Acceleration*: If any Event of Default shall occur in relation to any Series of Senior Notes, any Holder of a Note of the relevant Series may, by written notice to the Issuer (effective upon receipt), at the Specified Office of the Fiscal Agent, declare that such Senior Note and (if the Senior Note is interest-bearing) together with all interest (if any) accrued thereon shall be forthwith due and payable, whereupon the same shall become immediately due and payable at its Early Termination Amount, together with all interest (if any) accrued thereon without presentment, demand, protest or other notice of any kind, all of which the Issuer will expressly waive, anything contained in such Senior Notes to the contrary notwithstanding, unless, prior thereto, all Events of Default in respect of the Senior Notes of the relevant Series shall have been cured.

12. Enforcement Events

This Condition 12 is only applicable in relation to Subordinated Notes.

- (i) There are no events of default in respect of the Subordinated Notes. Holders shall not be entitled at any time to file for bankruptcy or liquidation of the Issuer.
- (ii) If an order is made or an effective resolution is passed for the bankruptcy or liquidation of the Issuer (an “**Enforcement Event**”), any Holder may prove or claim in such proceedings in respect of such Note, such claim being for payment of the Early Redemption Amount of such Note at the time of commencement of such bankruptcy or liquidation of the Issuer together with any interest accrued and unpaid on such Note from (and including) the Interest Payment Date immediately preceding the occurrence of such Enforcement Event and any other amounts payable on such Note (including any damages payable in respect thereof). Such claim shall rank as provided in Condition 4.2.
- (iii) Subject to Condition 12(i) and without prejudice to Condition 12(ii), any Holder may, at its discretion and without further notice, institute such proceedings against the Issuer as it may think fit to enforce any obligation, condition or provision binding on the Issuer under the Notes, provided that the Issuer shall not by virtue of the institution of any proceedings be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it.

13. Prescription

Claims for principal shall become void unless the relevant Notes are presented for payment within ten years of the appropriate Relevant Date. Claims for interest shall become void unless the relevant Coupons are presented for payment within five years of the appropriate Relevant Date.

14. Replacement of Notes and Coupons

If any Note or Coupon is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the Specified Office of the Fiscal Agent (and, if the Notes are then admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent in any particular place, the Paying Agent having its Specified Office in the place required by such listing authority, stock exchange and/or quotation system), subject to all applicable laws and listing authority, stock exchange and/or quotation system requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

15. Agents

15.1 *Obligations of Agents:* In acting under the Agency Agreement and in connection with the Notes and the Coupons, the Paying Agents and the Calculation Agent act solely as agents of the Issuer and do not assume any obligations towards or relationship of agency or trust for or with any of the Holders or Couponholders, and each of them shall only be responsible for the performance of the duties and obligations expressly imposed upon it in the Agency Agreement or other agreement entered into with respect of its appointment or incidental thereto.

15.2 *Termination of Appointments:* The initial Fiscal Agent and their initial Specified Offices are listed in the Agency Agreement. Unless the Calculation Agent is the Fiscal Agent, the Calculation Agent in respect of any Notes shall be specified in the relevant Pricing Supplement. The Issuer reserves the right at any time to vary or terminate the appointment of any Paying Agent (including the Fiscal Agent) or the Calculation Agent and to appoint an additional or successor fiscal agent, paying agent or calculation agent; provided, however, that:

- (i) the Issuer shall at all times maintain a Fiscal Agent;
- (ii) the Issuer shall at all times maintain a Paying Agent (which may be the Fiscal Agent) in a jurisdiction within Europe, other than the jurisdiction in which the Issuer is incorporated;
- (iii) if a Calculation Agent is specified in the relevant Pricing Supplement, the Issuer shall at all times maintain a Calculation Agent with a Specified Office located in such place as may be required by the Conditions;
- (iv) if and for so long as the Notes are admitted to listing and/or to trading and/or quotation on any listing authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent in any particular place, the Issuer shall maintain a Paying Agent (which may be the Fiscal Agent) each with a Specified Office in the place required by such listing authority, stock exchange and/or quotation system; and
- (v) in the circumstances described in Condition 9.3 (*Payments in New York City*), the Issuer shall maintain a Paying Agent with a Specified Office in New York City.

15.3 *Change of Specified Offices:* The Paying Agents and the Calculation Agent reserve the right at any time to change their respective Specified Offices to some other Specified Office in the same city. Notice of any change in the identities or Specified Offices of any Paying Agent or the Calculation Agent shall promptly be given to the Holders in accordance with Condition 18 (*Notices*).

16. Meetings of Noteholders and Modification

16.1 *Meetings of Holders:* The Agency Agreement contains provisions (which shall have effect as if incorporated herein) for convening meetings of Holders of Notes of any Series to consider matters

relating to such Series of Notes, including (without limitation) the modification by Extraordinary Resolution (as defined in the Agency Agreement) of any provision of these Conditions and the Deed of Covenant insofar as the same may apply to such Notes. Any Extraordinary Resolution duly passed at any such meeting of Holders of Notes of any Series will be binding on all Holders of Notes of such Series, whether present or not at the meeting and on all Holders of Coupons relating to Notes of such Series.

In addition, a resolution in writing signed by or on behalf of all Holders who for the time being are entitled to receive notice of a meeting of Holders of Notes will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Holders of Notes.

In the case of Subordinated Notes, any modification to these Conditions and/or the Deed of Covenant pursuant to the operation of the provisions described in this Condition 16.1 is subject to Condition 8.10 (*Conditions to redemption etc. prior to Maturity Date*).

16.2 *Modification of Notes:* The Issuer may make, without the consent of the Holders or Couponholders:

- (i) any modification to the Notes of any Series, these Conditions, the Agency Agreement and/or the Deed of Covenant to correct a manifest error; or
- (ii) subject to Condition 8.10 (*Conditions to redemption etc. prior to Maturity Date*) in the case of Subordinated Notes, any modification to the Notes of any Series, these Conditions, the Agency Agreement and/or the Deed of Covenant which is not prejudicial to the interests of the Holders and the Couponholders of the relevant Series.

Any such modification to the Agency Agreement shall be subject to the consent of the Fiscal Agent. Subject as provided in these Conditions, no other modification may be made to the Notes of any Series, these Conditions, the Agency Agreement or the Deed of Covenant except with the sanction of an Extraordinary Resolution and, in the case of a modification to the Agency Agreement, the consent of the Fiscal Agent.

Any such modification shall be binding on the Holders and the Couponholders and any such modification shall be notified to the Holders in accordance with Condition 18 (*Notices*) as soon as practicable thereafter.

17. Further Issues

The Issuer may from time to time, without the consent of the Holders or the Couponholders, create and issue further Notes having the same Terms and Conditions as the Notes in all respects (or in all respects except for the first payment of interest, if any, on them and/or the issue price thereof) so as to form a single series with the Notes.

18. Notices

Notices to Holders will, save where another means of effective communication has been specified herein or in the relevant Pricing Supplement, be deemed to be validly given if published in a leading English language daily newspaper having general circulation in Europe or, if the Notes are listed on the Official List of the Irish Stock Exchange and admitted to trading on the Global Exchange Market of the Irish Stock Exchange (so long as such Notes are listed on the Official List of the Irish Stock Exchange and the rules of that exchange so permit), if published on the website of the Irish Stock Exchange (www.ise.ie).

The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of any stock exchange or other relevant authority on which the Notes are for the time being listed or by which they have been admitted to trading.

Any notice so given will be deemed to have been validly given on the date of first such publication (or, if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers). Couponholders will be deemed for all purposes to have notice of the contents of any notice given to the Holders in accordance with this Condition.

19. Currency Indemnity

The currency in which the Notes are denominated or, if different, payable, as specified in the relevant Pricing Supplement (the “**Contractual Currency**”), is the sole currency of account and payment for all sums payable by the Issuer in respect of the Notes, including damages. Any amount received or recovered in a currency other than the Contractual Currency (whether as a result of, or of the enforcement of, a judgment or order of a court of any jurisdiction or otherwise) by any Holder in respect of any sum expressed to be due to it from the Issuer shall only constitute a discharge to the Issuer to the extent of the amount of the Contractual Currency which such Holder is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so). If that amount is less than the amount of the Contractual Currency expressed to be due to any Holder in respect of such Note or Coupon the Issuer shall indemnify such Holder against any loss sustained by such Holder as a result. In any event, the Issuer shall indemnify each such Holder against any cost of making such purchase which is reasonably incurred. These indemnities constitute a separate and independent obligation from the Issuer’s other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Holder and shall continue in full force and effect despite any judgment, order, claim or proof for a liquidated amount in respect of any sum due in respect of the Notes or any judgment or order. Any such loss as aforesaid shall be deemed to constitute a loss suffered by the relevant Holder and no proof or evidence of any actual loss will be required by the Issuer.

20. Waiver and Remedies

No failure to exercise, and no delay in exercising, on the part of the Holder, any right in these Conditions shall operate as a waiver thereof nor shall any single or partial exercise thereof preclude any other or future exercise thereof or the exercise of any other right. Rights hereunder shall be in addition to all other rights provided by law. No notice or demand given in any case shall constitute a waiver of rights to take other action in the same, similar or other instances without such notice or demand.

21. Governing Law and Jurisdiction

- 21.1 *Governing Law:* The Notes, the Agency Agreement and the Deed of Covenant, and any non-contractual obligations arising therefrom or in connection therewith, shall be governed by, and construed in accordance with, English law, except for Condition 4.2 (*Status of the Subordinated Notes*), Condition 4.3 (*No right of set-off or counterclaim*), Condition 8.2 (*Early redemption for tax reasons: Subordinated Notes*), Condition 8.3 (*Early redemption upon the occurrence of a Capital Event*) and Condition 12 (*Enforcement Events*) which shall be governed by, and shall be construed in accordance with, Danish law.
- 21.2 *English courts:* The courts of England have jurisdiction to settle any dispute (a “**Dispute**”) arising from or connected with the Notes (including any Dispute relating to any non-contractual obligations arising from or connected with the Notes).

- 21.3 *Appropriate forum:* The Issuer agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary.
- 21.4 *Rights of the Holders to take proceedings outside England:* Condition 21.2 (*English courts*) is for the benefit of the Holders only. As a result, nothing in this Condition 21.2 (*English courts*) prevents any Holder from taking proceedings relating to a Dispute (“**Proceedings**”) in any other courts with jurisdiction. To the extent allowed by law, any Holder may take concurrent Proceedings in any number of jurisdictions.
- 21.5 *Service of process:* The Issuer agrees that the documents which start any Proceedings and any other documents required to be served in relation to those Proceedings may be served on it by being delivered to Saxo Bank Capital Markets UK Ltd at 40 Bank Street, Canary Wharf, London E14 5DA United Kingdom or at any address of the Issuer in Great Britain at which service of process may be served on it in accordance with the Companies Act 2006. Nothing in this paragraph shall affect the right of any Holder to serve process in any other manner permitted by law. This Condition applies to Proceedings in England and to Proceedings elsewhere.
- 21.6 *Acknowledgement of Danish Statutory Loss Absorption Powers:* Notwithstanding and to the exclusion of any other term of the Notes or any other agreements, arrangements or understanding between the Issuer and any Holder (which, for the purposes of this Condition 21.6, includes each holder of a beneficial interest in the Notes), by its acquisition of the Notes, each Holder acknowledges and accepts that any liability arising under the Notes may be subject to the exercise of Danish Statutory Loss Absorption Powers by the Relevant Resolution Authority and acknowledges, accepts, consents to and agrees to be bound by:
- (i) the effect of the exercise of any Danish Statutory Loss Absorption Powers by the Relevant Resolution Authority, which exercise (without limitation) may include and result in any of the following, or a combination thereof:
 - (a) the reduction of all, or a portion, of the Relevant Amounts in respect of the Notes;
 - (b) the conversion of all, or a portion, of the Relevant Amounts in respect of the Notes into Ordinary Shares, other Securities or other obligations of the Issuer or another Person, and the issue to or conferral on the Holder of such Ordinary Shares, Securities or obligations, including by means of an amendment, modification or variation of the terms of the Notes;
 - (c) the cancellation of the Notes or the Relevant Amounts in respect of the Notes; and
 - (d) the amendment of the amount of interest payable on the Notes, or the date on which interest becomes payable, including by suspending payment for a temporary period; and
 - (ii) the variation of the terms of the Notes, as deemed necessary by the Relevant Resolution Authority, to give effect to the exercise of any Danish Statutory Loss Absorption Powers by the Relevant Resolution Authority.

22. Rights of Third Parties

No person shall have any right to enforce any term or Condition in respect of a Note under the Contracts (Rights of Third Parties) Act 1999.

Swiss Franc event

The decision made by the Swiss National Bank to remove the fixed floor between the Swiss Franc and the Euro on 15 January 2015 (the “**Swiss Franc Event**”) adversely affected the results for the year ended 31 December 2015. The Swiss Franc Event caused the CHF exchange rate against the Euro to increase significantly. A number of the Saxo Bank Group’s clients had insufficient margin collateral to cover their losses on short positions in the Swiss Franc. The losses have, to some extent, subsequently been covered by some of the clients. Any unsettled negative balance as of the end of the period was fully provided for in the Saxo Bank Group’s results for the year ended 31 December 2015. The net loss for the Saxo Bank Group

related to the Swiss Franc Event amounted to approximately DKK 0.7 billion and was included in the results for 2015. The collection process concerning the unsettled negative balances will continue and any further coverage from clients will have a positive impact on the Saxo Bank Group's future results.

DFSA inspections and reviews

IT Inspection

The Danish FSA performed an IT Inspection on Saxo Bank during the period from March 2017 to May 2017.

The Danish FSA reviewed selected areas of the IT domain, including the general IT security management, IT strategy, Organisation, Contingency, Security policies and guidelines. Furthermore, the Danish FSA reviewed Saxo Bank's procedures for IT application and data access governance, change management, recurring access attestation and control of outsourced IT functions, as well as requirements and procedures for controlling and reporting.

Saxo Bank's business model makes the Bank very dependent on having a stable and secure IT environment. In recognition of this, and based on a risk based approach, Saxo Bank has implemented well documented business procedures, and also ensured ongoing reporting concerning changes in the IT risk landscape to both Management and Board. However the Danish FSA ordered Saxo Bank to ensure that all outsourcing agreements are properly risk assessed and are in accordance with Saxo Bank's own policies and business procedures.

Review of the Bank's Risk Management of Margin Trading

The Danish FSA conducted an inspection at Saxo Bank A/S in May 2015. The inspection was partly a follow-up of the review in spring 2014 of the Bank's risk management of clients' margin trading and partly carried out following the Bank's losses on 15 January 2015 due to the Swiss Franc Event.

The review included the Board of Director's determination of risk appetite for margin trading and as well the Board of Director's guidelines to the Bank's Board of Management with regards to limits for clients' margin trading and sub-delegation hereof. The review also covered the Bank's risk management function and risk committees, especially concerning risk management of clients' margin trading. As a consequence of their findings the Danish FSA issued Executive Orders on 3 July 2015. The Executive Orders were all fully addressed by the Bank by the end of Q3 2015, which was formally confirmed by the Danish FSA in Q2 2016.

The inspection also included a review of the Bank's capital requirement assessment and the Danish FSA noted that the Group's capital was sufficient to cover the Bank's estimated net loss due to the Swiss Franc Event. The Danish FSA also noted that the Bank subsequently strengthened the Group's total capital.

Review of the handling of the Swiss Franc Event

The Danish FSA received a number of complaints and, within the framework of investor protection regulation, the Danish FSA then conducted a thorough investigation of the Bank's handling of the Swiss Franc Event on 15 January 2015. On 7 July 2015, the Danish FSA issued two reprimands but found no reason to criticise the Bank's procedures. The first reprimand related to incomplete marketing information and the second related to lack of immediate communication to some of the clients.

Review of the handling of the requirements in the Money Laundering Directive

In May 2015, the Danish FSA conducted an investigation of the Bank's assessment of the risks related to money laundering. The Danish FSA determined that, due to the Bank's business model, money laundering is high risk for the Bank as compared to other financial institutions in Denmark. The Danish FSA's determined

that the Bank had implemented significant measures aimed at mitigating the risk of money laundering – however, in certain areas the procedures in place could be improved. On 8 October 2015, the Danish FSA issued Executive Orders related hereto. In addition, the Danish FSA acknowledged that part of these had already been fulfilled at the time of the issue.

Inspection in Saxo Privatbank

In November 2016 DFSA conducted an inspection of Saxo Privatbank. The inspection was a regular inspection in which the Bank's key areas were reviewed on the basis of a risk-based assessment, which emphasized the areas with the greatest risk. The inspection resulted in eight orders and one reprimand to Saxo Privatbank.

The Issuer's Business Model

Saxo Bank's core business is to facilitate online trading and investments by providing access to multiple asset classes traded in the global financial markets. The Bank continuously works to improve its platforms and products to provide its private and institutional clients, as well as clients of Saxo Bank's partners, with increasingly sophisticated, cloud-based, multi-asset platforms.

Historically, access to financial markets was the preserve of financial institutions, and private clients were restricted in their access to market information and trading venues.

Saxo Bank provides innovative solutions to individuals who want to invest in and trade the world's financial markets.

The Bank provides services to its private clients both directly and indirectly through Saxo Bank's partners. Saxo Bank also provides services to financial institutions such as hedge funds, asset managers and corporates, for whom Saxo Bank has developed dedicated solutions and service models. Saxo Bank's ambition is to empower clients to execute on their investment ideas, reducing intermediation and squeezing out cost inefficiencies. At the same time, the Bank offers clients a robust trading infrastructure, providing secure and real-time access to the markets. The Bank also supports its customers through news updates, market information, ideas, social interaction with fellow traders and offers assistance when needed.

Trading facilitation

Liquidity provision

To facilitate online margin trading in non-listed products on its trading platforms, Saxo Bank obtains liquidity from more than 15 large banks. For trading in listed products, liquidity is provided through connectivity to the world's major trading venues and stock exchanges. By aggregating liquidity from multiple sources, Saxo Bank is able to stream competitive prices and spreads to its clients, and deal with the flow of transactions in a cost-effective way. Due to Saxo Bank's wide client base, the Bank is often able to match two sides of the trade on the Bank's own platform, thereby improving the efficiency of the trading process and eliminating the cost of hedging that exposure. Efficient execution and risk management are thus core competencies of Saxo Bank.

Saxo Bank offers a wide range of assets and products for online trading, including Over-The-Counter ("OTC") FX and Contracts for Difference ("CFD") products as well as exchange-traded funds ("ETFs"), stocks, futures and options from across the globe including:

Margin trading and risk management

FX, CFDs and futures are typically traded on margin, enabling clients to enter into nominal investments/positions that exceed the value of their deposits with Saxo Bank, with dynamic margin changes reflecting the changes in the risk profile of the trades. To facilitate clients' trading in margin products, Saxo Bank allows clients to use cash deposits, stocks and bonds as collateral. The Bank's risk exposure to clients' margin trading is managed in real-time by through the Bank's proprietary risk-management systems.

Trading platforms

To facilitate its clients' trading needs, Saxo Bank has developed proprietary online trading platforms, tailored to fit different client experiences, preferences and different types of hardware. The trading platform remains the focal point of Saxo Bank's core business. It was therefore a significant event when SaxoTraderGO, based on HTML5 technology, was launched in 2015. This trading platform, which is accessible via mobile, tablet and web, was born out of a clear mission: to create the world's most intuitive multi-asset trading platform for private traders and investors. The fact that SaxoTraderGO is developed to be device-neutral has made it popular among clients and partners. Saxo Bank continues to further develop that platform, and plans to launch SaxoTraderPRO in 2017. In addition to tradeable prices and spreads, Saxo Bank's trading platforms provide clients with access to real-time market news and analysis from recognised sources such as Dow Jones Newswires and Reuters. Clients also have access to real-time charts, a financial calendar, risk management tools and educational resources. An advanced Application Programming Interface ("API")-based trading solution is also offered, branded as Saxo Direct. The API solution provides access to Saxo Bank's own multi-asset liquidity. This access is suited to retail aggregators and asset managers who can benefit from competitive spreads on a range of assets, including FX, CFDs (Indices and Commodities), CFD DMA, stocks and futures.

Open API

Saxo Bank is one of the first financial institutions to give access to its trading infrastructure through the Bank's new REST-based Open API. This allows partners, clients and external developers to access over 20 years of trading infrastructure innovation and enables them to customise their trading experience and create new revenue streams.

Saxo Bank's APIs, combined with single sign-on features, enable institutions to create a seamless user experience within their own client offerings. The Bank to allow partners to plug in their own liquidity on the front-end and gives the partner the choice to either use existing relationships or the open back-office of Saxo Bank as the prime broker or custodian.

While active traders remain Saxo Bank's key priority, the Bank is also focusing on developing propositions for investors looking for tools to self-invest or automated investment management solutions. Saxo Bank is considered a leading provider of FX prime brokerage. Saxo Bank is extending its offering to include synthetic and ultimately cash equity prime brokerage services going forward.

In 2016, Saxo Bank continued to gain market share in the FX Prime Brokerage arena amidst continued industry consolidation. The Bank is recognised for how its technology capabilities help smaller players access liquidity with enhanced credit risk controls. Saxo Bank achieved significant recognition to this effect, including "Best overall boutique prime broker" at the HFM Asia Hedge Fund Services Awards, "Best Prime of Prime Broker Provider" from FX week and "Best FX Broker" and "Best Prime of Prime/Retail Liquidity Provider" from Finance Magnates.

The launch of Saxo Bank's digitised bond offering marked another milestone in the continued digitisation of markets.

The framework for the Group's capital management is rooted in the CRD IV Pillars I, II and III, and the primary capital management tool is the Group's Internal Capital Adequacy Assessment Process (“**ICAAP**”).

The calculation of the ICAAP is based on an internal process in which the Board of Management, supported by Group Risk and Capital Management (“**GRCM**”), assesses the Group's risks. A full ICAAP is performed when required, but at least once a year. Capital adequacy levels are assessed and approved by the Board of Directors on a quarterly basis. The capital adequacy levels are reported to the Danish FSA on a quarterly basis. The ICAAP reports are available at www.saxobank.com/investor-relations.

As such, the Group's capital plan includes expectations to regulations, strategic initiatives and any other potential major changes to the risk profile, and thereby the future solvency needs.

The capital plan is revisited on quarterly basis, or upon need, to ensure that the Group's projected capital adequacy is up-to-date.

SUBSCRIPTION AND SALE

The Dealers have, in a Programme Agreement (such Programme Agreement as modified and/or supplemented and/or restated from time to time, the “**Programme Agreement**”) dated 21 June 2016, agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under “Overview of provisions relating to the Notes while in global form” and “Terms and Conditions of the Notes”. In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

United States of America

Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in the preceding sentence have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder. The relevant Pricing Supplement will identify whether TEFRA C rules or TEFRA D rules apply or whether TEFRA is not applicable.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes (a) as part of their distribution at any time or (b) otherwise until 40 days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Prohibition of sales to EEA Retail Investors

From 1 January 2018, unless the Pricing Supplement in respect of any Notes specifies “Prohibition of Sales to EEA Retail Investors” as “Not Applicable”, each Dealer will be required to represent and agree, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Offering Circular as completed by the Pricing Supplement in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (a) the expression **retail investor** means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); or

- (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the “**Insurance Mediation Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the “**Prospectus Directive**”); and
- (b) the expression an offer includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

Prior to 1 January 2018, and from that date if the Pricing Supplement in respect of any Notes specifies “Prohibition of Sales to EEA Retail Investors” as “Not Applicable”, in relation to each Member State of the EEA which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer will be required to represent and agree, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Offering Circular as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision:

- the expression **an offer of Notes to the public** in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State; and
- the expression **Prospectus Directive** means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

United Kingdom

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) it has only communicated or caused to be communicated, and will only communicate or cause to be communicated, any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000) received by it in connection with the issue

or sale of any Notes in circumstances in which section 21(1) of the Financial Services and Markets Act 2000 would not, if the Issuer was not an authorised person, apply to the Issuer; and

- (b) it has complied and will comply with all applicable provisions of the Financial Services and Markets Act 2000 with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Denmark

Each Dealer will be required to represent and agree, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered or sold and will not offer, sell or deliver any Notes directly or indirectly in Denmark by way of a public offering, unless in compliance with the Danish Consolidated Act No. 251 of 21 March 2017 on Trading in Securities, as amended, or replaced from time to time, and any Executive Orders issued thereunder.

General

Each Dealer has agreed and each further Dealer appointed under the Programme will be required to agree that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Offering Circular and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer nor any of the other Dealers shall have any responsibility therefor.

None of the Issuer and the Dealers represents that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

TAXATION

The following is a general description of relevant tax considerations and is not to be regarded as a complete tax analysis of all tax issues related to the Notes. Prospective holders of the Notes should consult their professional tax advisers if they are in doubt about their own tax position.

Denmark Taxation

According to the Danish tax laws in effect as of the date of this Offering Circular, (i) except as provided below, payments of interest or principal amounts to any holder of a Note are not subject to taxation in Denmark, (ii) no withholding tax should be required on such payments and (iii) any gain realised upon the sale, exchange or retirement of a Note will not be subject to taxation in Denmark. This tax treatment applies solely to holders of the Notes who are not subject to full tax liability in Denmark or included in a Danish joint taxation scheme or do not carry on business in Denmark through a permanent establishment. If the holder of a Note is affiliated with the Issuer, as set out in Section 3B of the Danish Tax Control Act, a withholding tax of 22 per cent. may in certain circumstances apply.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a “**foreign financial institution**” may be required to withhold on certain payments it makes (“**foreign passthru payments**”) to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions (including Denmark) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (“**IGAs**”), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to 1 January 2019 and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining “foreign passthru payments” are filed with the U.S. Federal Register generally would be “grandfathered” for purposes of FATCA withholding unless materially modified after such date. However, if additional notes (as described under “Terms and Conditions—Further Issues”) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

The proposed financial transactions tax (“FTT”)

On 14 February 2013, the European Commission published a proposal (the “**Commission’s Proposal**”) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the “**participating Member States**”). However, Estonia has since stated that it will not participate.

The Commission’s Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

The sections referred to in such legend provide that a United States person who holds a Note or Coupon generally will not be allowed to deduct any loss realised on the sale, exchange or redemption of such Note or Coupon and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.

5. Settlement arrangements will be agreed between the Issuer, the relevant Dealer and the Fiscal Agent in relation to each Tranche of Notes.

8. The annual financial statements of the Issuer for the financial years ended 31 December 2016 and 31 December 2015 have, in each case, been audited by Ernst & Young (“EY”), being the relevant independent public auditors of the Issuer for such periods. EY is a member of “FSR - Danske Revisorer” (Association of State Authorised Public Accountants).

13. Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and their affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer’s affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
14. In relation to any Tranche of Fixed Rate Notes, an indication of the yield in respect of such Notes will be specified in the relevant Pricing Supplement. The yield is calculated at the Issue Date of the Notes on the basis of the relevant Issue Price. The yield indicated will be calculated as the yield to maturity as at the Issue Date of the Notes and will not be an indication of future yield.

15. The issue price and amount of the Notes of any Tranche to be issued under the Programme will be determined by the Issuer and the relevant Dealer at the time of the issue of such Tranche in accordance with prevailing market conditions.
16. The language of this Offering Circular is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.
