Such information has been accurately reproduced from such sources and, so far as the Issuer is aware and is able to ascertain from such sources, no facts have been omitted from such sources which would render the reproduced information inaccurate or misleading.

The Securities will not be rated.

Prospective purchasers should be aware of the risks involved in investing in the Securities (see the “Risk Factors” section in the Information Memorandum and in this Series Information Memorandum below).

Neither the delivery of this Series Information Memorandum nor the offering, sale or delivery of any Securities shall in any circumstances imply that the information contained herein is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Securities is correct as of any time subsequent to the date indicated in the document containing the same.

No person is or has been authorised by the Issuer to give any information or to make any representation not contained in or not consistent with this Series Information Memorandum or any other information supplied in connection with the Programme or the Securities and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Trustee (as defined herein) or the Dealer (as defined herein).

This Series Information Memorandum does not constitute an offer to sell or the solicitation of an offer to buy any Securities in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of the Information Memorandum and this Series Information Memorandum and the offer or sale of Securities may be restricted by law in certain jurisdictions. The Issuer, the Trustee and the relevant Dealer do not and will not represent that the Information Memorandum or this Series Information Memorandum may be lawfully distributed, or that the Securities may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been or will be taken by the Issuer, the Trustee or any Dealers (save for the approval of this document as a prospectus by the Central Bank and, in the case of the Information Memorandum only, as may be specified in a Series Information Memorandum relating to any other series of securities of the Issuer) which is intended to permit a public offering of the Securities or distribution of the Information Memorandum or this Series Information Memorandum in any jurisdiction where action for that purpose is required. Accordingly, the Securities may not be offered or sold, directly or indirectly, and neither the Information Memorandum nor this Series Information Memorandum nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession the Information Memorandum, this Series Information Memorandum or any Securities come must inform themselves about, and observe, any such restrictions. In particular, there are restrictions on the distribution of the Information Memorandum and this Series Information Memorandum and the offer or sale of Securities in the United States, the European Economic Area (including the United Kingdom, the Netherlands, Italy, the Kingdom of Spain and Ireland), Japan and Hong Kong (see the "*Subscription and Sale and Transfer Restrictions*" in the Information Memorandum).

Claims of the Securityholders and the Counterparty will be limited in recourse to the Mortgaged Property.

The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the **Securities Act**), or with any securities regulatory authority of any state or other jurisdiction of the United States and the Securities are in bearer form and are subject to U.S. tax law requirements. Consequently, the Securities may not be offered, sold, resold, delivered or transferred within the United States or to, or for the account or benefit of, U.S. Persons (as defined in Regulation S under the Securities Act (Regulation S)) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws and the Securities forming part of a Non-U.S. Series may not be offered, sold, resold, delivered or transferred within the United States or to, or for the account or benefit of, U.S. Persons or to a person who is not a Non-United States Person (as defined in CFTC Rule 4.7 of the United States Commodity Futures Trading Commission). In addition, the Issuer has

not been and will not be registered as an "investment company" under the United States Investment Company Act of 1940, as amended. For a description of certain restrictions on offers and sales of Securities in the United States or to U.S. Persons, see the "Subscription and Sale and Transfer Restrictions" section in the Information Memorandum and such further restrictions as may be described in the Information Memorandum and in this Series Information Memorandum, as the case may be.

The Securities have not been approved or disapproved by the United States Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities reviewed or passed upon the accuracy or adequacy of this Series Information Memorandum or the Information Memorandum. Any representation to the contrary is a criminal offence in the United States.

Securities have not been registered under the Securities Act and may not be offered or sold in the United States or to U.S. Persons or to persons who are not Non-United States Persons (as defined in CFTC Rule 4.7 of the United States Commodity Futures Trading Commission).

The Issuer is not and will not be regulated by the Central Bank as a result of issuing the Securities. Any investment in the Securities does not have the status of a bank deposit and is not within the scope of the deposit protection scheme operated by the Central Bank.

If any commissions or fees relating to the issue and sale of the Securities have been paid or are payable by the Dealer to an intermediary, then such intermediary may be obliged to fully disclose to its clients the existence, nature and amount of any such commissions or fees (including, if applicable, by way of discount) as required in accordance with laws and regulations applicable to such intermediary, including any legislation, regulation and/or rule implementing the Markets in Financial Instruments Directive (2004/39/EC) (**MIFID**), or as otherwise may apply in any non-EEA jurisdictions. Investors in the Securities who have purchased an interest in Securities through an intermediary (including by way of introducing broker) should request details of any such commission or fee payment from such intermediary before making any purchase thereof.

The language of this Series Information Memorandum is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

RISK FACTORS

The purchase of the Securities involves substantial risks and is suitable only for sophisticated purchasers who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and the merits of an investment in the Securities. The Securities are not principal protected and purchasers of the Securities are exposed to full loss of principal. The Issuer believes that the following factors may affect either its ability to fulfil its obligations under the Securities or the performance of the Securities. Some of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Securities, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Securities may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Securities are exhaustive.

The Securities are complex financial instruments and involve a high degree of risk and prospective purchasers should be prepared to sustain a loss of all or part of their investment.

The Issuer believes that the following factors may affect its ability to fulfil its obligations under Securities issued under the Programme.

Prospective purchasers should also read the detailed information set out elsewhere in the Information Memorandum and in this Series Information Memorandum and, in the light of their own financial circumstances and investment objectives, reach their own views prior to making any investment decision.

Prospective purchasers should note that certain of the risks below may relate only to the issue of Securities. Accordingly, such prospective purchasers should review carefully the Information Memorandum, this Series Information Memorandum as well as the following section by way of a general introduction to the risks associated with limited recourse investments and the Issuer.

Investor suitability

Prospective purchasers of the Securities should reach an investment decision only after carefully considering the suitability of the Securities in light of their particular circumstances. Investment in the Securities may only be suitable for investors who:

- (a) have substantial knowledge and experience in financial, business matters and expertise in assessing credit risk which enable them to evaluate the merits and risks of an investment in the Securities and the rights attaching to the Securities;
- (b) are capable of bearing the economic risk of an investment in the Securities for an indefinite period of time;
- (c) are acquiring the Securities for their own account (as principal and not as agent) for investment, not with a view to resale, distribution or other disposition of the Securities (subject to any applicable law requiring that the disposition of the investor's property be within its control); and
- (d) recognise that it may not be possible to make any transfer of the Securities for a substantial period of time, if at all.

Independent review and advice

Each prospective purchaser of the Securities must determine, based on its own independent review (including as to the financial condition and affairs and its own appraisal of the creditworthiness of the Issuer, the Counterparty, any Reference Entity and Reference Obligation and any relevant obligor in respect of the Charged Assets and such professional advice (including, without limitation, tax, accounting, credit, legal and regulatory advice) as it deems appropriate under the circumstances, to assess the economic, social and political condition of the jurisdiction in which each relevant obligor is located and determine whether an investment in the Securities is appropriate in its particular circumstances.

In so doing, and without restricting the generality of the preceding paragraph, such prospective purchaser must determine that its acquisition and holding of the Securities (i) is fully consistent with its (or if it is acquiring the Securities in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether it is acquiring the Securities as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or if it is acquiring the Securities in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Securities. None of the Issuer, the Trustee, the Dealer(s) or any of their respective affiliates is acting as an investment adviser, or assumes any fiduciary obligation, to any purchaser of Securities.

Neither the Information Memorandum nor this Series Information Memorandum is intended to provide the basis of any credit or other evaluation or should be considered as a recommendation or as constituting an invitation or offer that any recipient of the Information Memorandum or this Series Information Memorandum should purchase any of the Securities. The Trustee and the Dealer(s) expressly do not undertake to review the financial condition, creditworthiness or affairs of any relevant obligor(s).

No secondary market

Neither the Issuer, the Trustee, the Agents, the Dealer nor any of their respective affiliates is under an obligation to provide liquidity for the Securities and no secondary market is expected to develop in respect of the Securities. Whilst the Securities may be listed or admitted to trading on the Irish Stock Exchange, the Issuer does not expect a trading market for the Securities to develop. In the unlikely event that a secondary market does develop, there can be no assurance that it will provide the Securityholders with liquidity of investment or that it will continue for the life of the Securities. Accordingly, the purchase of the Securities is suitable only for investors who can bear the risks associated with a lack of liquidity in the Securities and the financial and other risks associated with an investment in the Securities. Purchasers must be prepared to hold the Securities for an indefinite period of time or until final redemption or maturity of the Securities.

Limited recourse

Claims against the Issuer by the Securityholders of a Series and by the Counterparty will be limited to the Mortgaged Property relating to such Series. The proceeds of realisation of such Mortgaged Property may be less than the sums due to the Securityholders and the Counterparty. Any shortfall will be borne by the Securityholders and by the Counterparty in accordance with the Security Ranking Basis specified in the relevant Issue Terms. Each Securityholder, by subscribing for or purchasing such Securities, will be deemed to accept and acknowledge that it is fully aware that, in the event of a shortfall, (i) the Issuer shall be under no obligation to pay, and the other assets (if any) of the Issuer including, in particular, assets securing other Series of Securities or Alternative Investments will not be available for payment of, such shortfall, (ii) all claims in respect of such shortfall shall be extinguished, and (iii) the Trustee, the Securityholders and the Counterparty shall have no further claim against the Issuer in respect of such unpaid amounts and will accordingly not be able to petition for the winding up of the Issuer as a consequence of such shortfall.

The Securities of each Series are direct, limited recourse obligations of the Issuer alone and not of the officers, members, directors, employees, securityholders or incorporator of the Issuer, the Counterparty, any Reference Entity or the issuer(s) in respect of the Charged Assets or any of their respective successors or assigns. Furthermore, they are not obligations of, or guaranteed in any way by, any Dealer(s).

Credit risk

The ability of the Issuer to meet its obligations under the Securities will be dependent, where applicable, upon the payment of principal and interest due on the Charged Assets, the payment of all sums due from the relevant Counterparty under the Charged Agreements, upon the Principal Paying Agent and the Custodian making the relevant payments when received and upon all parties to the Transaction Documents (other than the Issuer) performing their respective obligations thereunder. Moreover, in certain cases, the security for the Securities will be limited to the claims of the Issuer against the Counterparty under the Charged Agreements. Accordingly, Securityholders are exposed, *inter alia*, to the creditworthiness of the issuer(s) in respect of the Charged Assets, the Counterparty, the Principal Paying Agent, the other Paying Agents and the Custodian, in addition to the creditworthiness of any Reference Entities.

The Issuer will hold cash (if any) comprising the Charged Assets in the Cash Deposit Account. Any cash held by the Account Bank on behalf of the Issuer will be held by the Account Bank in its capacity as banker, and not as trustee. The Issuer and the Securityholders will therefore be exposed to the credit risk of the Account Bank on an unsecured basis for the period during which the cash is held by the Account Bank on behalf of the Issuer.

In the case of Credit-Linked Securities, the Securities involve additional credit risk in relation to each relevant Reference Entity specified in the applicable CDS Transaction. In addition, the Securities will redeem early if a Credit Event occurs to the Issuer of the Charged Assets and therefore Securityholders are exposed to the credit risk of the Issuer of the Charged Assets also.

Business relationships

Each of the Issuer, the Dealer(s), the Trustee, the Agents and/or any of their affiliates may have existing or future business relationships with any Counterparty, issuer(s) in respect of any Charged Assets or any Reference Entity of any Series of Securities (including, but not limited to, lending, depository, risk management, advisory and banking relationships), and will pursue actions and take steps that it deems necessary or appropriate to protect its interests arising therefrom without regard to the consequences for a Securityholder. Furthermore, the Dealer(s), the Trustee, the Agents or any of their respective affiliates may buy, sell or hold positions in obligations of, or act as investment or commercial bankers, advisers or fiduciaries to, or hold directorship and officer positions in, any issuer(s) in respect of Charged Assets or any Reference Entity.

Conflicts of Interest

Each of the Counterparty and any of its affiliates is acting or may act in a number of capacities in connection with the issue of Securities. The Counterparty and any of its affiliates acting in such capacities in connection with the issue of Securities shall have only the duties and responsibilities expressly agreed to by it in the relevant capacity and shall not, by virtue of its or any other affiliates acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a standard of care other than as expressly provided with respect to each such capacity. Each of the Counterparty and any of its affiliates in its various capacities in connection with the issue of Securities may enter business dealings, including the acquisition of

investment securities as contemplated by the Transaction Documents from which it may derive revenues and profits in addition to any fees stated in various documents, without any duty to account therefor, provided that any such revenue, profits or fees will be paid or received only in accordance with applicable regulations.

Various potential and actual conflicts of interest may arise between the interests of the Securityholders and either the Issuer and/or the Counterparty, as a result of the various businesses, management, investment and other activities of such persons, and none of such persons is required to resolve such conflicts of interest in favour of the Securityholders. In respect of Credit-Linked Securities, unless Auction Settlement (as defined in the Issue Terms) applies, the Counterparty will determine if a Credit Event has occurred and select the cheapest Reference Obligation(s) or deliverable obligation(s) practicable, thereby maximising a Securityholder's loss. The following briefly summarises some of those conflicts, but is not intended to be an exhaustive list of all such conflicts. The Counterparty shall manage any conflicts of interest in accordance with its conflicts of interest policy.

Such persons may (a) deal in Charged Assets or securities or other obligations of any Reference Entity, (b) enter into other credit derivatives involving Reference Entities that may include the Reference Entities in respect of the Credit-Linked Securities (including credit derivatives to hedge its obligations under the Swap Agreement), (c) advise and distribute securities on behalf of, arrange or manage transactions on behalf of, accept deposits from, make loans or otherwise extend credit to and generally engage in any kind of commercial or investment banking or other business with, any Reference Entity or any other person or other entity having obligations relating to any Reference Entity and (d) act with respect to such business in the same manner as if the Securities did not exist, regardless of whether any such relationship or action might have an adverse effect on any Reference Entity (including, without limitation, any action which might constitute or give rise to a Credit Event), the Charged Assets, the Securities, or on the position of any other party to the transaction described herein or otherwise.

No Obligations owing by the Calculation Agent

The Calculation Agent shall have no obligations to the Securityholders, and shall only have the obligations expressed to be binding on it pursuant to the Agency Agreement, unless otherwise specified in the Issue Terms. All designations and calculations made by the Calculation Agent in respect of any Securities shall be conclusive and binding on the Securityholders.

Legal opinions

No legal opinions relating to the Securities will be obtained on issue with respect to the laws of England and of the Netherlands and no legal opinions will be obtained with respect to any other applicable laws and no investigations will be made into the validity or enforceability of the laws of any other jurisdiction in respect of the obligations under the Securities.

In particular, no legal opinions will be obtained in relation to:

- (a) the laws of the country of incorporation of any Reference Entity or the issuer(s) in respect of the Charged Assets;
- (b) the laws of the country in which the obligations of any Reference Entity or the Charged Assets are situated; or
- (c) the laws of the country which are expressed to govern any obligations of the Reference Entity or the Charged Assets.

Such laws, depending upon the circumstances, may affect, among other things, the validity and legal and binding effect of the obligations of any Reference Entity and/or Charged Assets and the effectiveness and ranking of the security for the Securities. Consequently, no responsibility is accepted by the Issuer in relation to such matters.

Legality of purchase

None of the Issuer, the Dealer(s) or any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Securities by a prospective purchaser of the Securities, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective purchaser with any law, regulation or regulatory policy applicable to it. However, notwithstanding the lawfulness of any acquisition of the Securities, sales or transfers of Securities that would cause the Issuer to be required to register as an investment company under the 1940 Act will be void *ab initio* and will not be honoured by the Issuer and, where a Security is held by or on behalf of a U.S. person (as defined in Regulation S) who is not an Eligible Investor at the time it purchases such Security or by or on behalf of any investor that would cause the Issuer to be required to register as an investment company under the 1940 Act, the Issuer may, in its discretion and at the expense and risk of such holder, (A) redeem such Securities, in whole or in part, to permit the Issuer to avoid registration under the 1940 Act or (B) compel any such holder to transfer the Securities to an Eligible Investor, to a non-U.S. Person outside the United States or to any other investor that would not cause the Issuer to be required to register as an investment company under the 1940 Act, or cause a transfer of the Securities on behalf of such holder.

Hiring Incentives to Restore Employment Act withholding may affect payments on the Securities

The U.S. Hiring Incentives to Restore Employment Act (the "**HIRE Act**") imposes a 30% withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met. While significant aspects of the application of the relevant provisions of the HIRE Act to the Securities are uncertain, if the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section "*Taxation – Hiring Incentives to Restore Employment Act.*"

Foreign Account Tax Compliance Act withholding may affect payments on the Securities

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (or "**FATCA**") impose a new reporting regime and, potentially, a 30% withholding tax with respect to (i) certain payments from sources within the United States, (ii) "foreign passthru payments" made to certain non-U.S. financial institutions that do not comply with this new reporting regime, and (iii) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-U.S. financial institution.

While the Securities are in global form and held within Euroclear Bank SA/NV or Clearstream Banking, société anonyme (together, the "**ICSDs**"), in all but the most remote circumstances, it is not expected that FATCA will affect the amount of any payment received by the ICSDs. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary

with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. The Issuer's obligations under the Securities are discharged once it has made payment to, or to the order of, the common depository or common safekeeper for the ICSDs (as bearer or registered holder of the Securities) and the Issuer has therefore no responsibility for any amount thereafter transmitted through the ICSDs and custodians or intermediaries. Further, foreign financial institutions in a jurisdiction which has entered into an intergovernmental agreement with the United States (an "IGA") are generally not expected to be required to withhold under FATCA or an IGA (or any law implementing an IGA) from payments they make. Prospective investors should refer to the section in the Information Memorandum headed "*Taxation – Foreign Account Tax Compliance Act.*"

EU Savings Directive

Under Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of other Member States details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in another Member State or certain limited types of entities established in another Member State.

On 24 March 2014, the Council of the European Union adopted a Council Directive (the "**Amending Directive**") amending and broadening the scope of the requirements described above. The Amending Directive requires Member States to apply these new requirements from 1 January 2017. If they take effect, the changes will expand the range of payments covered by the Directive, in particular to include additional types of income payable on securities. The Directive will also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

For a transitional period, Austria is required (unless during that period it elects otherwise) to operate a withholding system in relation to such payments.

The end of the transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

However, the European Commission has proposed the repeal of the Savings Directive from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to on-going requirements to fulfill administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The proposal also provides that, if it proceeds, Member States will not be required to apply the new requirements of the Amending Directive.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Security as a result of the imposition of such withholding tax.

Financial Transaction Tax

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common financial transaction tax ("**FTT**") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating member states**"). However Estonia has since stated that it will not participate.

The Commissions' Proposal has a very broad scope and could, if introduced, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. Under the Commission's Proposal, the FTT would apply to persons both within and outside of the participating member states. Generally, it would apply to certain dealings in the Securities where at least one party is a financial institution, and at least one party is established in a participating member state. A financial institution may be, or be deemed to be, "established" in a participating member state in a broad range of circumstances, including (a) by transacting with a person established in a participating member state or (b) where the financial instrument which is subject to the financial transaction is issued in a participating member state.

However, the FTT proposal remains subject to negotiation between the participating member states. It may therefore be altered prior to any implementation date, the timing of which is unclear. Additional EU member states may decide to participate.

Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

Modifications to the terms of the Securities

The attention of prospective purchasers is drawn to Condition 19 (*Meeting of Securityholders, Modification, Waiver and Substitution*) and in particular, the provision that the Trustee shall agree to make any modification (whether or not it may be materially prejudicial to the Securityholders) requested by the relevant Dealer(s) in respect of a Series of Securities if, and to the extent that, such modification is to correct an error in the Conditions arising from a discrepancy between the Conditions and the final termsheet provided to the initial Securityholders, as certified by the relevant Dealer(s) to the Trustee.

Trustee Indemnity

Upon the occurrence of an Event of Default in relation to the Securities, Securityholders may be required to provide an indemnity to the Trustee to its satisfaction as provided for in Condition 11 (*Events of Default*) before the Trustee gives notice to the Issuer accelerating the Securities. The Trustee shall not be obliged to take any action if not indemnified, secured and/or prefunded to its satisfaction.

Provision of information

Neither the Issuer, the Trustee, the Agents, the Dealer(s) nor any of their respective affiliates makes any representation as to the credit quality of the Counterparty, any issuer(s) in respect of the Charged Assets or any Reference Entity for any Series of Securities. Any of such persons may have acquired, or during the term of the Securities may acquire, non-public information with respect to such Counterparty or any issuer(s) in respect of the Charged Assets or Reference Entity. None of such persons is under any obligation to make available any information relating to, or keep under review on the Securityholders' behalf, the business, financial conditions, prospects, creditworthiness or status of affairs of any issuer(s) in respect of the Charged Assets or any Reference Entities or conduct any investigation or due diligence into any such issuer(s) in respect of the Charged Assets or any Reference Entities.

Market Conditions

Any liquidity shortage and volatility in the credit markets will introduce a variety of increased risks relating to several aspects of the Issuer's operations. Such additional risks include the inability of the Issuer to sell its assets which, among other things, may render it unable to dispose of underperforming or defaulted assets and satisfy its obligations in respect of the redemption of the Securities. Such market conditions may also lead to the inability of the Issuer to determine a reliable valuation of its assets. All of such factors could materially adversely affect the interests of Securityholders.

Concerns have been raised since the financial crisis with respect to economic, monetary and political conditions in the Eurozone (including the credit risk of sovereigns and of those entities which have exposure to sovereigns). If such concerns persist and/or such conditions further deteriorate (including as may be demonstrated by any relevant credit rating agency action, any default or restructuring of indebtedness by one or more states or institutions and/or any changes to, including any break-up of, the Eurozone), then these matters may increase stress in the financial system generally and/or may adversely affect the Issuer, one or more of the other parties to the Transaction Documents (including the Vendor and/or the Counterparty) and/or any obligor in respect of the Charged Assets. Given the current uncertainty and the range of possible outcomes, no assurance can be given as to the impact of any of the matters described herein and, in particular, no assurance can be given that such matters would not adversely affect the rights of the Securityholders, the market value of the Securities and/or the ability of the Issuer to satisfy its obligations under the Securities.

Comparative Returns

Risk-adjusted returns and absolute returns on the Securities may be lower than that of comparable investments. Each prospective purchaser should be aware that any return on the Securities may not exceed or even equal the return that might have been achieved had the amount of its initial investment been placed on deposit for the same period.

Eurosystem Eligibility

There may be an intention for certain Securities to be held in a manner which will allow Eurosystem eligibility. This simply means that such Securities are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that such Securities will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

The Charged Assets

The value of any Charged Assets may have a direct impact on the amounts payable to Securityholders in respect of the Securities upon early redemption. The Charged Assets may comprise cash and/or other assets.

Prospective purchasers are advised to review carefully any offering documents for the Charged Assets before deciding whether an investment in the Securities is suitable for them.

Illiquid Charged Assets

The Charged Assets may comprise assets which are not admitted to any public trading market and may therefore be illiquid and not readily realisable.

Credit Risk of Banco Bilbao Vizcaya Argentaria S.A. group entities as a Counterparty

The Issuer has entered into a Swap Agreement with BBVA as Counterparty. To the extent that BBVA fails to make due and timely payment or delivery under the Swap Agreement, as the case may be, such agreement may be terminated, the security enforced and the Securities redeemed and a loss of principal or a delay in payment under the Securities may result.

BBVA may act as Counterparty and investors will be exposed to the credit risk of BBVA group entities as the Counterparty. In the event of an insolvency of the Counterparty, various insolvency and related laws applicable to such entity(ies) may limit the amount investors may recover and determine or affect when such recovery may be made.

The value of the Charged Assets may be less than the value of the Securities

Due to potential market volatility and other factors, the market value of the Charged Assets at any time will vary, and may vary substantially, from the principal amount of such Charged Assets. To the extent that the nominal amount and/or market value of the Charged Assets (if any) is at any time less than the outstanding principal amount and/or market value of the Securities an investor's exposure to the obligations of the Counterparty under the Swap Agreement, as the case may be, is increased. Accordingly, no assurance can be given as to the amount of proceeds of any sale or disposition, or the amount received or recovered upon maturity, of such Charged Assets, or that the proceeds of any such sale or disposition would be sufficient to repay principal of the Securities of the related Series and amounts payable prior thereto. Where this is the case and the Counterparty is unable to perform its obligations under the Swap Agreement, as the case may be, the Issuer will be unable to meet the payments owed to investors under the Securities in full, resulting in investors losing some or all of the money invested in Securities.

Further issues

The terms of the Securities may provide for the issue of further securities fungible with the existing Tranche(s) thereof in certain circumstances. The additional Charged Assets which the Issuer may be required to provide as security for such further securities relative to the aggregate nominal amount of the further securities may be such as to affect the value of the original security provided for the Securities.

Substitution of Initial Charged Assets for Cash Collateral where Initial Charged Assets are not delivered

Where the Securities are secured by Cash Collateral on the Issue Date prospective purchasers should be aware that Initial Charged Assets may be substituted, pursuant to Condition 4(c) (*Substitution with Cash Collateral*), for the Cash Collateral following the Issue Date. If an event of default (howsoever described in the terms and conditions of the Initial Charged Assets) has occurred with respect to the Initial Charged Assets prior to the delivery by the Vendor of all or any part of the Initial Charged Assets, any undelivered Initial Charged Assets shall be deemed to have been delivered by the Vendor to the Issuer and sold by the Selling Agent in accordance with the Agency Agreement.

Early Redemption

The Securities may be redeemed early in certain circumstances, including where there is an event of default in relation to the Securities or where Securities are Credit-Linked Securities, following occurrence of an Event Determination Date in respect of the CDS Transaction, where there is an event of default or credit event in relation to the Charged Assets, where certain regulatory events occur (which may also lead to an adjustment), where illegality event occurs and where there is a termination under a Swap Agreement. Prospective purchasers should note that the amount payable on early redemption may be significantly less than the amount that would otherwise have been payable at maturity of the Securities. Prospective

purchasers should note in particular that pursuant to Condition 7(j) (*Cessation of interest*), on early redemption, interest payable on the Securities will cease to accrue from, and including, the immediately preceding Interest Payment Date or, if none, the Interest Commencement Date or, in the case of early redemption following occurrence of an Event Determination Date in respect of the CDS Transaction, the Interest Payment Date immediately preceding the Event Determination Date.

Physical Delivery

As the Securities provide for physical delivery, the Calculation Agent may determine that a Settlement Disruption Event is subsisting and/or where Failure to Deliver due to Illiquidity is specified as applying in the Issue Terms, that it is impossible or impracticable to deliver when due some or all of the Relevant Assets due to illiquidity in the relevant market. A Settlement Disruption Event is an event beyond the control of the Issuer, as a result of which, in the opinion of the Calculation Agent, delivery of the specified assets to be delivered by or on behalf of the Issuer in accordance with the Conditions is not practicable. Any such determination may affect the value of the Securities and/or may delay settlement in respect of the Securities and/or lead to cash settlement in whole or in part rather than physical settlement in respect of the Securities.

The Issuer will not be responsible for any such consequences and shall not be obliged to compensate Securityholders. Securityholders will be solely responsible for determining whether they are permitted to hold the Relevant Assets, including under applicable securities laws.

Expenses for Physical Delivery

As the Securities provide for physical delivery, all expenses arising from the delivery of the Relevant Assets in respect of such Securities shall be for the account for the relevant Securityholders and no delivery of the Relevant Assets shall be made until all expenses have been paid to the satisfaction of the Issuer and the relevant Securityholders.

Asset Transfer Notices

As the Securities which provide for physical delivery, the investor must deliver a duly completed Asset Transfer Notice within 180 calendar days of the Cut-Off Date or the Issuer will be discharged in respect of its obligations under the Securities.

If an Asset Transfer Notice is not provided or is incomplete by the Cut-Off Date, the Calculation Agent may nevertheless deliver the Relevant Assets in a commercially reasonable manner at the risk of the Securityholder.

Risks relating to Credit-Linked Securities

The Issuer has issued Credit-Linked Securities where the redemption amount payable is dependent upon whether certain events ("**Credit Events**") have occurred in respect of one or more Reference Entity/Entities and, if so, on the value of certain specified assets of such Reference Entity/Entities or where, if such events have occurred, on redemption or cancellation (as applicable) the Issuer's obligation is to deliver certain specified assets.

Prospective investors in any such Credit-Linked Securities should be aware that depending on the terms of the Credit-Linked Securities (i) they may receive no or a limited amount of interest (or other periodic payments), (ii) payments may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

Currency Risk

An investment in Securities denominated or payable in a currency other than the currency of the jurisdiction of a particular purchaser (the "**Purchaser's Currency**"), entails significant risks that are not associated with a similar investment in a security denominated and/or payable in the Purchaser's Currency. These risks include, but are not limited to:

- (a) the possibility of significant market changes in rates of exchange between the Purchaser's Currency and the currency in which the Securities are denominated and/or payable;
- (b) the possibility of significant changes in rates of exchange between the Purchaser's Currency and the currency in which the Securities are denominated and/or payable resulting from the official redenomination or revaluation of the currency; and
- (c) the possibility of the imposition or modification of foreign exchange controls by either the jurisdiction of the purchaser or foreign governments.

UK Banking Act 2009

The Banking Act 2009 (the "**Banking Act**"), which came into effect on 21 February 2009, includes (amongst other things) provision for a special resolution regime pursuant to which specified UK authorities have extended tools to deal with the failure (or likely failure) of certain UK incorporated entities (such as any UK bank acting as Principal Paying Agent or Custodian and, including authorised deposit-taking institutions and investment firms) and powers to recognise and give effect to certain resolution actions in respect of third country institutions. In addition, powers may be used in certain circumstances in respect of UK established banking group companies, where such companies are in the same group as a relevant UK or third country institution or in the same group as an EEA credit institution or investment firm. Relevant transaction parties for these purposes include any UK deposit-taker/investment firm or non-EEA deposit-taker/investment firm, or relevant UK banking group company. In particular, such tools include share and property transfer powers (including powers for partial property transfers), bail-in powers, certain ancillary powers (including powers to modify contractual arrangements in certain circumstances) and special insolvency procedures which may be commenced by UK authorities. It is possible that the extended tools described above could be used prior to the point which an application for insolvency proceedings with respect to a relevant entity could be made and, in certain circumstances, the UK authorities may exercise broad pre-resolution powers in respect of relevant entities with a view to removing impediments to the exercise of the stabilisation tools.

In general, the Banking Act requires the UK authorities to have regard to specified objectives in exercising the powers provided for by the Act. One of the objectives (which is required to be balanced as appropriate with the other specified objectives) refers to the protection and enhancement of the stability of the financial system of the United Kingdom. The Banking Act includes provisions related to compensation in respect of instruments and orders made under it. In general, there is considerable uncertainty about the scope of the powers afforded to UK authorities under the Banking Act and how the authorities may choose to exercise them.

If an instrument or order were to be made under the Banking Act in respect of any UK bank acting as Principal Paying Agent or Custodian, such action may (amongst other things) affect the ability of such entity to satisfy its obligations under the Transaction Documents and/or result in modifications to any unsecured liability of such entity under the Transaction Documents, and, more generally, affect the ability of such entity to perform its obligations under the Transaction Documents.

Bank Recovery and Resolution Directive

On 2 July 2014, Directive 2014/59/EU providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the "**Bank Recovery and Resolution Directive**" or "**BRRD**") entered into force. The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system.

The BRRD provides that it will be applied by Member States from 1 January 2015, except for the general bail-in tool (see below) which is to be applied from 1 January 2016.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business - which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) bridge institution - which enables resolution authorities to transfer all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation - which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in - which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims including the Securities to equity (the "**general bail-in tool**"), which equity could also be subject to any future write-down.

The BRRD also provides for a Member State as a last resort, after having assessed and exploited the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

The powers set out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. Once the BRRD is implemented, if a credit institution or investment firm subject to the BRRD acts as a Counterparty, an obligor in respect of Charged Assets, an Account Bank or other Agent, obligations of any such entity may be subject to write-down or conversion into equity on any application of the general bail-in tool, which may result in such holders losing some or all of their investment. The exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of Securityholders, the price or value of their investment in any Securities and/or the ability of the Issuer to satisfy its obligations under any Securities.

European Market Infrastructure Regulation

European Regulation 648/2012 of 4 July 2012, known as the European Market Infrastructure Regulation (**EMIR**) entered into force on 16 August 2012. EMIR and the regulations made under it impose certain obligations on parties to OTC derivative contracts according to whether they are “financial counterparties”, such as European investment firms, alternative investment funds, credit institutions and insurance companies, or other entities which are “non-financial counterparties” or third country entities equivalent to “financial counterparties” or “non-financial counterparties”.

Financial counterparties will be subject to a general obligation, to clear through a duly authorised or recognised central counterparty all “eligible” OTC derivative contracts entered into with other counterparties subject to the clearing obligation. They must also report the details of all derivative contracts to a trade repository and undertake certain risk-mitigation techniques in respect of OTC derivative contracts which are not cleared by a central counterparty such as timely confirmation of terms, portfolio reconciliation and compression and the implementation of dispute resolution procedures. Non-cleared OTC derivatives entered into by financial counterparties must also be marked to market and collateral must be exchanged. Non-financial counterparties are exempted from the clearing obligation and certain of the additional risk mitigation obligations (such as posting of collateral) provided the gross notional value of all derivative contracts entered into by the non-financial counterparty and other non-financial counterparties within its “group”, excluding eligible hedging transactions, do not exceed certain thresholds (set per asset class of OTC derivatives). If the Issuer is required to comply with certain obligations under EMIR which may give rise to additional costs and expenses for the Issuer, this may in turn reduce amounts available to make payments with respect to the Securities. In particular, there is a particular risk that derivative transactions to which the Issuer enters into become subject to (i) the requirement to exchange segregated collateral with the Counterparty, which forms part of a risk-mitigation requirement, or (ii) mandatory clearing. It is not currently possible to conclude with any certainty whether the Issuer will be or become subject to such requirements or obligations as there remains legislative uncertainty with respect to the scope of such requirements and obligations, which are not yet in effect. However, irrespective of becoming subject to such requirements or obligations, and irrespective of it becoming necessary to amend or replace derivative transactions into which the Issuer enters, the Issuer may in any event have to bear certain costs or fees arising out of steps it is required to take to comply with the requirements of EMIR.

USE OF PROCEEDS

SUBSCRIPTION AND SALE AND TRANSFER RESTRICTIONS

United States

The following selling restrictions shall apply:

The Securities have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and may include Securities in bearer form that are subject to U.S. tax law requirements. Consequently, the Securities forming part of a U.S. Series may not be offered, sold, resold, delivered or transferred within the United States or its possessions or to, or for the account or benefit of, U.S. persons (as defined in Regulation S) unless such Securities are registered under the Securities Act or pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws and the Securities forming part of a Non-U.S. Series may not be offered, sold, resold, delivered or transferred within the United States or its possessions or to, or for the account or benefit of, U.S. Persons. The Securities have not been approved or disapproved by the United States Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities reviewed or passed upon the accuracy or adequacy of the Information Memorandum or this Series Information Memorandum. Any representation to the contrary is a criminal offence in the United States. Prospective purchasers of Securities that are "qualified institutional buyers" (as defined in Rule 144A) ("**QIBs**") are hereby notified that the seller of such Securities may be relying on the exemption from the registration requirements of the Securities Act provided by Rule 144A thereof. The minimum aggregate principal amount of Securities which may be purchased by an Eligible Investor is U.S.\$250,000 (or the approximate equivalent thereof in any other currency). To the extent that the Issuer is not subject to or does not comply with the reporting requirements of Section 13 or 15(d) of the Exchange Act or the information furnishing requirements of Rule 12g3-2(b) thereunder, the Issuer has agreed to furnish to holders of Securities and to prospective purchasers designated by such holders, upon request, such information as may be required by Rule 144A(d)(4). In addition, the Issuer has not been and will not be registered as an "investment company" under the 1940 Act.

Non-U.S. Series

Securities of a Non-U.S. Series will be subject to the following selling restrictions. The Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that it will not offer, sell or, in the case of any bearer securities, deliver any such Securities (i) as part of their distribution at any time or (ii) otherwise within the United States or to, or for the account or benefit of, U.S. Persons, and it will give each dealer to which it sells Securities a confirmation or other notice setting out the restrictions on offers and sales of the Securities within the United States or to, or for the account or benefit of, U.S. Persons. Unless indicated herein, terms used in this paragraph have the meaning given to them by Regulation S. See "**Restrictions with respect to Securities in bearer form**" below for a discussion of certain U.S. tax law requirements with respect to Bearer Securities.

Beneficial interests in a Bearer Global Security may not be offered, sold, resold, delivered or transferred within the United States or its possessions or to, or for the account or benefit of, U.S. Persons. Such beneficial interest may only be transferred upon certification as to non-U.S. beneficial ownership as required by U.S. Treasury regulations and that the transferee is not a U.S. Person.

Restrictions with respect to Securities in bearer form

Securities issued in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder.

Each Security issued in permanent or definitive bearer form having a maturity of more than 1 year and its related Receipts and Coupons (if any) will bear the following legend: "Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the Internal Revenue Code".

Japan

The Securities have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended; the "FIEA") and the Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that it will not offer or sell any Securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (as defined under Item 5, Paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Act (Act No. 228 of 1949, as amended)), or to others for re-offering or resale, directly or indirectly, in Japan or to or for the benefit of a resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.

- (b) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Securities, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Securities which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the Securities and Futures Ordinance (Cap. 571) of the laws of Hong Kong and any rules made under that Ordinance.

- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or

DESCRIPTION OF THE COUNTERPARTY

BUSINESS OF THE COUNTERPARTY

Banco Bilbao Vizcaya Argentaria, S.A. ("BBVA") is a highly diversified international financial group, with strengths in the traditional banking businesses of retail banking, asset management, private banking and wholesale banking. It also has a portfolio of investments in some of Spain's leading companies.

BBVA was incorporated in Spain for an unlimited term on 28th January, 2000. BBVA was formed as the result of a merger by absorption of Argentaria into BBV, which was registered at the Vizcaya Mercantile Registry (Registro Mercantil de Vizcaya) on 28th January, 2000.

In 2012 BBVA's organisational structure was divided into five business areas (Spain, Eurasia, Mexico, the United States and South America) and, in addition, BBVA continues to have a separate "Corporate Activities" business area which handles BBVA's general management functions. These mainly consist of structural positions for interest rates associated with the euro balance sheet and exchange rates, together with liquidity management and shareholders' funds. This area also books the costs from central units that have a strictly corporate function and makes allocations to corporate and miscellaneous provisions, such as early retirement and others of a corporate nature. It also includes the Industrial and Financial Holdings Unit and the Group's Spanish real estate business.

The registered office of BBVA is at Plaza San Nicolas 4, Bilbao, Spain.

BBVA has securities admitted to trading on the Madrid Stock Exchange and the New York Stock Exchange.
