This Series Prospectus, under which the Series 2016-18 USD 10,000,000 CDX HY Index Skew Repackaged Notes due 2020 (the “**Notes**”) were issued, incorporates by reference, and should be read in conjunction with pages 1 to 416 of the Base Prospectus dated 22 July 2015 relating to the Secured Note Issuance Programme (the “**Programme**”) and the Issuer Disclosure Annex to the Base Prospectus dated 23 July 2015 (together, the “**Base Prospectus**”) relating to the issuance by Libretto Capital P.L.C. (the “**Issuer**”) of secured notes under the Programme. Terms defined in the Base Prospectus have the same meaning in this Series Prospectus. The Series Prospectus has been approved by the Central Bank of Ireland (the “**Central Bank**”), as competent authority under Directive 2003/71/EC (such directive, as amended, including Directive 2010/73/EU, the “**Prospectus Directive**”). The Central Bank only approves this Series Prospectus as meeting the requirements imposed under Irish and EU law pursuant to the Prospectus Directive. This Series Prospectus constitutes a Prospectus for the purposes of Regulation 13 of the Prospectus (Directive 2003/71/EC) Regulations 2005 and Article 5 of the Prospectus Directive and for the purpose of giving information with regard to the Issuer which is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of the Issuer. Application has been made to the Irish Stock Exchange (the “**ISE**”) for the Notes to be admitted to the official list (the “**Official List**”) of the ISE and to trading on its regulated market. This Series Prospectus is to be read in conjunction with all documents which are deemed to be incorporated herein by reference.

The Notes are CDX HY index skew repackaged notes. In connection with the Notes, the Issuer has entered into (a) the Interest Rate Swap Confirmation, (b) the Credit Derivative Index Swap Confirmation and (c) the Credit Derivative Multiple Single Name Swap Confirmation (as each such term is defined in Annex 3) under the ISDA Master Agreement including the Schedule (as defined in the ISDA Master Agreement) in the form of the ISDA Schedule Terms 22 July 2015 Version relating to the Programme (as such Schedule may have been amended by the relevant Swap Confirmation (as defined in Annex 3)) with Citibank, N.A. London Branch (in such capacity, the “Swap Counterparty”).

The forms of Interest Rate Swap Confirmation, Credit Derivative Index Swap Confirmation and Credit Derivative Multiple Single Name Swap Confirmation are as set out, respectively, in Annexes 4, 5 and 6 hereto.

Capitalised terms used but not otherwise defined herein or in the Base Prospectus have the meaning given to them in Annex 1 and, if not defined in Annex 1, such terms shall have the meaning given to them in the Swap Agreement (as defined in Annex 3). The Annexes to this Series Prospectus form part of, and should be read together with, this Series Prospectus.

Investors are advised to refer to the forms of Interest Rate Swap Confirmation, Credit Derivative Index Swap Confirmation and Credit Derivative Multiple Single Name Swap Confirmation in relation to the Swap Agreement as attached in Annexes 4, 5 and 6.

If the Issuer is deemed to be a “covered fund” for the purposes of the Volcker Rule (as defined below), then in the absence of regulatory relief, the provisions of the Volcker Rule and its related regulatory provisions, will impact the ability of U.S. banking institutions to hold an ownership interest in the Issuer or enter financial transactions with the Issuer. Investors are required to independently consider the potential impact of the Volcker Rule in respect of any investment in the Notes. See Risk Factors “Modification to the Conditions and Transaction Documents or early redemption in relation to Regulatory Consequences” and “Volcker Rule” below.

The delivery of this Series Prospectus at any time does not imply that any information contained herein is correct at any time subsequent to the date hereof.

The Issuer accepts responsibility for the information contained in this Series Prospectus. To the best of the knowledge and belief of the Issuer (which has taken all reasonable care to ensure that such is the case) the information contained in this Series Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

No person has been authorised to give any information or to make any representation other than those contained in this Series Prospectus in connection with the issue and sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer or Citigroup Global Markets Limited ("**CGML**", in such capacity, the "**Dealer**").

The net proceeds of this issue were USD 10,000,000 and, together with the initial exchange amount from the Swap Counterparty to the Issuer under the Interest Rate Swap, were applied by the Issuer to purchase the Collateral on the Issue Date.

The Notes have not been and will not be registered under the U.S. Securities Act of 1933 (the "**Securities Act**") the operator of the Issuer is not registered as a commodity pool operator under the U.S. Commodity Exchange Act (as amended) and the rules of the Commodity Futures Trading Commission thereunder (the "**CFTC Rules**"), and the Notes may not be offered or sold within the United States or to, or for the account or benefit of, (i) U.S. persons (as such term is defined under Rule 902(k)(1) of Regulation S under the Securities Act) or (ii) persons who are not Non-United States persons (as such term is defined under CFTC Rule 4.7, but excluding, for the purposes of subsection (D) thereof, the exception for qualified eligible persons who are not Non-United States persons). For a description of certain further restrictions on offers and sales of Notes and distribution of the Base Prospectus and the Series Prospectus, see "Subscription and Sale and Transfer Restrictions" in the Base Prospectus.

The credit ratings included or referred to in this Series Prospectus have unless otherwise specified, been either issued or endorsed by Moody's Investors Service Limited ("**Moody's**"), Standard & Poor's Credit Market Services Europe Limited ("**S&P**") or Fitch Ratings Limited ("**Fitch**"). Moody's, S&P and Fitch are established in the European Union and registered under Regulation (EC) 1060/2009 on credit rating agencies. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning rating agency.

This Series Prospectus does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation, and no action is being taken to permit an offering of the Notes or the distribution of this Series Prospectus in any jurisdiction where such action is required.

In this Series Prospectus, references to "**USD**" are to U.S. Dollars, the lawful currency of the United States.

Risk Factors

THE CONSIDERATIONS SET OUT BELOW ARE NOT, AND ARE NOT INTENDED TO BE, A COMPREHENSIVE LIST OF ALL CONSIDERATIONS RELEVANT TO A DECISION TO PURCHASE OR HOLD ANY NOTES.

PROSPECTIVE INVESTORS SHOULD ALSO READ THE BASE PROSPECTUS, THE RISK FACTORS SET OUT THEREIN AND THE DETAILED INFORMATION SET OUT ELSEWHERE IN THIS SERIES PROSPECTUS.

The Issuer believes that the risk factors set out on pages 19 to 44 of the Base Prospectus, together with the following risk factors, may affect its ability to fulfil its obligations under the Notes. The Issuer is not in a position to express a view on the likelihood of any contingency highlighted by a risk factor occurring.

Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with the Notes are also described below.

The Issuer believes that the factors described in the Base Prospectus, together with the following risk factors, represent the principal risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may occur for other reasons and the Issuer does not represent that the statements in the Base Prospectus and below regarding the risks of holding the Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Series Prospectus (including any documents incorporated by reference herein) and reach their own views prior to making any investment decision.

The Base Prospectus, read together with this Series Prospectus, identifies in general terms certain information that a prospective investor should consider prior to making an investment in the Notes. However, a prospective investor should, without any reliance on Citigroup Global Markets Limited or its affiliates, conduct its own thorough analysis (including its own accounting, legal and tax analysis) prior to deciding whether to invest in the Notes as any evaluation of the suitability for an investor of an investment in the Notes depends upon a prospective investor's particular financial and other circumstances, as well as on the specific terms of the Notes and, if it does not have experience in financial, business and investment matters sufficient to permit it to make such a determination, it should consult with its financial adviser prior to deciding to make an investment on the suitability of the Notes.

This Series Prospectus is not, and does not purport to be, investment advice, and neither the Issuer nor Citigroup Global Markets Limited makes any recommendation as to the suitability of the Notes. The provision of this Series Prospectus to prospective investors is not based on any prospective investor's individual circumstances and should not be relied upon as an assessment of suitability for any prospective investor of the Notes. Even if the Issuer or Citigroup Global Markets Limited possesses limited information as to the objectives of any prospective investor in relation to any transaction, series of transactions or trading strategy, this will not be deemed sufficient for any assessment of suitability for such person of the Notes. Any trading or investment decisions a prospective investor takes are in reliance on its own analysis and judgement and/or that of its advisers and not in reliance on the Issuer, Citigroup Global Markets Limited or any of their respective affiliates.

In particular, each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes (i) is fully consistent with its (or if it is acquiring the

Notes in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Notes as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or, if it is acquiring the Notes in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

Each prospective investor in the Notes should have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes.

Investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should therefore consult its professional advisers to determine whether and to what extent (i) the Notes are legal investments for it, (ii) if relevant, the Notes can be used as underlying securities for various types of borrowing and (iii) other restrictions apply to its purchase or, if relevant, pledge of the Notes. Financial institutions should consult their professional advisers or the appropriate regulators to determine the appropriate treatment of the Notes under any applicable risk-based capital or similar rules.

Risks relating to the Notes generally

In addition to the risk factors set out in the Base Prospectus under the heading "Risks Factors relating to the Notes" from page 22 of the Base Prospectus, set out below are a brief description of certain additional risks relating to the Notes generally:

Early redemption for tax or other reasons

Upon giving notice to the Trustee, the Issuer may redeem Notes earlier than the Maturity Date for either (a) specified tax or other reasons, as detailed in Condition 7.3 (*Redemption for Taxation and other Reasons*) (but see "Risk Factors relating to the Swap Counterparty and any Swap Agreement" in the Base Prospectus for a description of how such redemption is effected where it results from termination of the Swap Agreement) or (b) any illegality, as detailed in Condition 7.12 (*Redemption for illegality*). If the Issuer redeems the Notes early, the Issuer will, if and to the extent permitted by applicable law, redeem the Notes at their Early Redemption Amount as specified in the Conditions. Such Early Redemption Amount is not principal-protected and will be equal to the sale proceeds from the disposal of the Collateral plus (if due from the Swap Counterparty to the Issuer) or minus (if due from the Issuer to the Swap Counterparty) the Swap Termination Value minus the Unwind Costs, as detailed in the Conditions.

No protection under any deposit protection scheme

An investment in the Notes does not have the status of a bank deposit and is not within the scope of any deposit protection scheme.

Cash held by Custodian as banker not as trustee

Any cash held in an account with the Custodian (including any cash held in the Cash Account) will be held by the Custodian as banker and not as trustee. Any such cash will therefore not be held as client money in accordance with any client money rules. As a result, if the Custodian becomes insolvent, the Issuer will only have an unsecured claim against the Custodian's estate in respect of any such cash. If the Issuer is unable to recover such cash in full from the Custodian's estate, it may not have sufficient proceeds to redeem the Notes in full and the amount paid to Noteholders may be significantly less than the Noteholders' original investment and may be zero.

Swap Counterparty exercise of discretion

In exercising its discretion or deciding upon a course of action, the relevant Swap Counterparty shall attempt to maximise the beneficial outcome for itself (that is maximise any payments due to it and minimise any payments due from it) and will not be liable to account to the Noteholders or any other person for any profit or other benefit to it or any of its affiliates that may result directly or indirectly from any such selection.

Modification to the Conditions and Transaction Documents or early redemption in relation to Regulatory Consequences

Investors in the Notes should be aware that if the performance of the Swap Counterparty's and/or its Affiliates' obligations under any Transaction Document (as defined in the Conditions), or any arrangement made to hedge such obligations has or will become unlawful, illegal or otherwise prohibited due to Regulatory Consequences, the Swap Counterparty has the right to terminate the Swap Agreement and this will cause the Notes to redeem early. Upon any such redemption, the amount paid to Noteholders to redeem such Notes may be significantly less than the Noteholders' original investment in such Notes and may be zero.

Investors in the Notes should also be aware that the Swap Counterparty may, for the purposes of causing the transactions contemplated by the Transaction Documents to comply with or take into account Dodd-Frank (as such term is defined in the Base Prospectus) or EU Regulations or any enactment of or supplement or amendment to, or a change in law, policy or official interpretation, implementation or application of any relevant regulations or as a result of any official communication, interpretation or determination made by any relevant regulatory authority, which affects the transactions contemplated by the Transaction Documents, make modification(s) to the Conditions and the Transaction Documents, at any time, at its own expense and, provided that such modifications satisfy certain criteria (as set out in the Conditions), such modifications shall be made without the need for the consent of any other party to such Transaction Documents or the Noteholders.

Modification to the Conditions and Transaction Documents in relation to the Common Reporting Standard

Investors in the Notes should be aware that the Issuer and the other parties to the Transaction Documents may agree to make modifications to the Notes and Transaction Documents which the Issuer certifies are necessary to enable the Issuer to comply with any automatic exchange of information obligations (including under CRS) without the consent of Noteholders.

Volcker Rule

On 10 December 2013, the SEC, the CFTC and three U.S. banking regulators approved a final rule to implement Section 619 of the US Dodd-Frank Act (the "**Volcker Rule**"). Subject to certain exceptions, the Volcker Rule prohibits sponsorship of and investment in certain "covered funds" by "banking entities", a term that includes Citibank, N.A. and most internationally active banking organizations that may be Swap Counterparties. Even if an exception allows a banking entity to sponsor or invest in a covered fund, the banking entity may be prohibited from entering into certain "covered transactions" with that covered fund. Covered transactions include (among other things) entering into a swap transaction if the swap would result in a credit exposure to the covered fund.

If the Issuer is considered a covered fund and if any affiliate of the Swap Counterparty were to be deemed to be a "sponsor" of the Issuer, the Swap Counterparty could be prohibited from entering into the Swap Agreement with the Issuer, which could have material adverse effects on the Notes. Alternatively, the Issuer may incur additional costs in seeking new swap counterparties in order to

maintain the payment characteristics of the Notes, although there is no guarantee that it will be able to find such counterparties. Such costs could materially and adversely affect the value of and any return on the Notes. If the Issuer is considered a covered fund, the liquidity of the market for the Notes may be materially and adversely affected, since banking entities could be prohibited from, or face restrictions in, investing in the Notes. This could make it difficult or impossible for Noteholders to sell the Notes or it could materially and adversely affect their market value.

Yield Enhancement

Investors in the Notes are entitled to a floating interest rate. The Issuer is expected to fund the interest payments on the Notes through the amounts receivable from the Swap Counterparty under the Interest Rate Swap. The interest rate of 3 month USD LIBOR plus 2.00 per cent. per annum on the Notes represents a position of enhanced yield compared to the yield of the Securities as of the Trade Date of approximately 0.51 per cent. per annum. This enhanced yield is achieved through the Issuer's entry into the Basis Swap with the Swap Counterparty. In respect of the Basis Swap, the Swap Counterparty has in turn entered into separate hedging arrangements with the relevant market participants under which the Swap Counterparty received an initial upfront amount based on the difference between the prevailing pricing of credit protection on the Index and on the Reference Entities that comprise the Index. This upfront amount will help fund amounts equal to the 3 month USD LIBOR plus 2.00 per cent. per annum interest payments on the Notes payable by the Swap Counterparty to the Issuer under the Interest Rate Swap.

The ability of the Issuer to pay interest amounts reflecting the enhanced yield is dependent on the ability of the Swap Counterparty to perform its obligations under the Swap Agreement. Default by the Swap Counterparty may result in the termination of the Swap Agreement and, in such circumstance, any amount due to the Issuer upon such termination may not be paid in full. See also "Risk Factors relating to the Swap Counterparty and any Swap Agreement" in the Base Prospectus for a description of how such payments due to the Issuer may be affected as a result of the termination of the Swap Agreement.

Disposal of Collateral

If the Issuer becomes obliged under the Conditions or the Swap Agreement to sell Collateral in order for it to make a payment under the Conditions or the Swap Agreement, the Disposal Agent will use reasonable endeavours to seek firm bid quotes from five dealers in obligations of the type of the Collateral for the purchase of the Collateral (or relevant portion thereof) and will arrange the sale of such Collateral to the highest bidder if at least two bid quotations are received on the same Business Day. If the Disposal Agent is unable to obtain at least two bid quotations on a Business Day on or prior to the date falling two Business Days prior to the date on which the Issuer is required to make the relevant payment under the Conditions or the Swap Agreement, the Disposal Agent will, if a single bid quotation is available on such date, arrange the sale of such Collateral at such bid quotation or, if no bid quotations are received by the Disposal Agent on such date, the Collateral will not be sold, but for the purposes of determining the Early Redemption Amount, the net realised proceeds of the sale of the Collateral will be deemed to be zero. The amount payable to Noteholders upon early redemption of the Notes will be affected by the ability of the Disposal Agent to obtain bid quotations in respect of the Collateral during the relevant disposal period and may be significantly reduced if no bid quotations are obtained during such period.

Early termination of the Basis Swap

The payments under the Basis Swap are intended to be equal to zero due to the application of payment netting. However, if the Basis Swap were to terminate early, a termination payment would

be determined in respect of the Credit Derivative Index Swap Transaction and each Component Single Name Transaction comprised in the Basis Swap.

The termination payments in respect of the Credit Derivative Index Swap Transaction and each Component Single Name Transaction comprised in the Basis Swap will be determined based on the losses or costs or, as the case may be, gains of the determining party in entering into replacement transactions or their economic equivalent (or otherwise determined in accordance with the terms of the Basis Swap). The determination of such losses or costs or, as the case may be, gains will be dependent on a number of factors including, without limitation, (i) the creditworthiness and liquidity of the assets underlying the swap payments, (ii) market perception, interest rates, yields and foreign exchange rates, (iii) the leverage and (iv) the time remaining to the scheduled termination date of the Credit Derivative Index Swap Transaction and each Component Single Name Transaction under the Basis Swap.

The aggregate of such termination payments may not be equal to zero (when taken into account in determining the termination payment due under the Swap Agreement) and may be payable by the Issuer to the Swap Counterparty or by the Swap Counterparty to the Issuer but, in either case, shall be capped at a maximum amount equal to the principal amount of the Collateral. If the aggregate termination payment of the Basis Swap is payable by the Issuer to the Swap Counterparty, the Early Redemption Amount payable to the Noteholder will be reduced accordingly, potentially to zero.

As a result of the Basis Swap, the value of the Notes will be subject to the difference between the prevailing pricing of credit protection on the Index and on the Reference Entities that comprise the Index. The Issuer's and, therefore, the Noteholders' exposure to the value of the Basis Swap will only be crystallised (for so long as the investor holds the Notes) if an event occurs that gives rise to an early redemption of the Notes (and, therefore, early termination of the Swap Agreement).

Leverage

Losses on the Notes will be "leveraged" because, as of the Issue Date, each of (a) the original notional amount of the Credit Derivative Index Swap Transaction and (b) the original notional amount of each Component Single Name Transaction in aggregate is larger than the principal amount of the Notes by a factor of 15. Losses incurred in the event of early termination of the Basis Swap (where the aggregate of the relevant termination payments may not be equal to zero) will therefore have a greater impact on the Notes than would be the case for direct investments in an unleveraged Basis Swap. The impact on the Notes as a consequence of losses incurred in the event of early termination of the Basis Swap may be magnified or reduced accordingly.

Foreign Account Tax Compliance Withholding

Certain provisions of U.S. federal income tax law, commonly known as "FATCA", impose reporting requirements and a withholding tax of 30% on (i) certain U.S. source payments (including Dividend Equivalent Payments), (ii) proceeds from the disposition of assets that can produce U.S. source interest or dividends (including assets that give rise to Dividend Equivalent Payments), and (iii) certain payments by non-U.S. financial institutions ("foreign passthru payments") made to persons that fail to meet certain certification or reporting requirements. A number of jurisdictions (including the Ireland) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("IGAs"), which modify the way in which FATCA applies in their jurisdictions.

Withholding under FATCA began, or is expected to begin, as applicable, on (i) 1 July 2014, in respect of certain U.S. source payments, (ii) 1 January 2019, in respect of payments of gross proceeds (including principal repayments) from the disposition of property that can produce U.S. source interest or dividends, and (iii) 1 January 2019, at the earliest, in respect of "foreign passthru payments". FATCA withholding in respect of "foreign passthru payments" generally is not required for "obligations" that are not treated as equity for U.S. federal income tax purposes (i) that can only produce "foreign passthru payments", unless such obligations are issued or materially modified more than six months after the date on which the final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register or (ii) that are subject to FATCA withholding solely because they are treated as giving rise to Dividend Equivalent Payments, unless such Notes are issued or materially modified more than six months after the date on which obligations of its type are first treated as giving rise to Dividend Equivalent Payments.

In order to avoid becoming subject to withholding tax under FATCA, non-U.S. financial institutions must submit to certain reporting requirements (generally pursuant to an agreement with the IRS or under local law implementing an IGA ("IGA Legislation")) or otherwise be exempt from the

requirements of FATCA. Specifically, non-U.S. financial institutions that are not exempt from the requirements of FATCA may be required to identify and report to the government of the United States or another relevant jurisdiction certain information regarding “financial accounts” held by U.S. persons or entities with substantial U.S. ownership, as well as accounts of other financial institutions that are not themselves participating in (or otherwise exempt from) the FATCA reporting regime.

In addition, a financial institution may be required to withhold 30% from all, or a portion of, certain payments made to persons that fail to provide the financial institution information, consents, and forms or other such documentation that may be necessary for such financial institution to determine whether such person is compliant with FATCA or otherwise exempt from FATCA withholding. Non-U.S. financial institutions in a jurisdiction that has entered into an IGA generally are not expected to be required to withhold under FATCA or an IGA (or any IGA Legislation) from payments that they make on securities such as the Notes. However, the full impact of IGAs and IGA Legislation on reporting and withholding responsibilities under FATCA is unclear at this time and no assurance can be given that withholding under FATCA, IGAs, or IGA Legislation will not become relevant with respect to payments made on or with respect to Notes in the future.

Impact on Payments on Assets and the Swap Agreement (if any)

If the Issuer fails to comply with its obligations under FATCA (including the Ireland IGA, and any IGA Legislation thereunder), it may be subject to FATCA withholding on all, or a portion of, payments it receives with respect to the Collateral and under the Swap Agreements. Any such withholding would, in turn, result in the Issuer having insufficient funds from which to make payments that would otherwise have become due in respect of the Notes and/or such Swap Agreement with respect to the Notes. No other funds will be available to the Issuer to make up any shortfall and, as a result, the Issuer may not have sufficient funds to satisfy its payment obligations to Noteholders. Additionally, if payments to the Issuer in respect of its assets are, will become, or are deemed on any test date to be subject to FATCA withholding, the Notes may be subject to early redemption (see “Mandatory Redemption” below). No assurance can be given that the Issuer can or will comply with its obligations under FATCA or that the Issuer will not be subject to FATCA withholding.

Impact on Payments on the Notes

The Issuer expects to require (and expects other intermediaries through which Notes are held to require) each Noteholder to provide certifications and identifying information about itself and its owners (or beneficial owners) in order to enable the Issuer (or such intermediary) to identify and report on the Noteholder and certain of the Noteholder’s direct and indirect U.S. beneficial owners to the IRS or another applicable authority. Withholding may also be required on payments of amounts to Noteholders (or payments to intermediaries through which such Notes are held) that are non-U.S. financial institutions that are not compliant with, or exempt from, FATCA or Noteholders that do not provide the information, documentation, or certifications required for the Issuer (or relevant intermediary) to comply with its obligations under FATCA.

Neither a Noteholder or beneficial owner of Notes will be entitled to any additional amounts in the event FATCA withholding tax is imposed on any payments on or with respect to the Notes. As a result, Noteholders may receive less interest or principal, as applicable, than expected.

FATCA IS PARTICULARLY COMPLEX AND ITS APPLICATION TO THE ISSUER, THE NOTES, THE NOTEHOLDERS, AND THE SWAP AGREEMENTS IS SUBJECT TO CHANGE. EACH NOTEHOLDER SHOULD CONSULT ITS OWN TAX ADVISER TO OBTAIN A MORE DETAILED

EXPLANATION OF FATCA AND TO LEARN HOW IT MIGHT AFFECT EACH HOLDER IN ITS PARTICULAR CIRCUMSTANCE.

Security Arrangements

Subject as set out below the obligations of the Issuer under the Notes are secured pursuant to the Trust Deed by:

- (i) a first fixed charge over the Collateral in favour of the Trustee;
- (ii) an assignment by way of security in favour of the Trustee of all the Issuer's rights, title and interest attaching to or relating to the Collateral and all sums derived therefrom including, without limitation, any right to delivery thereof or, in the case of Collateral in the form of Securities, to an equivalent number or nominal value thereof which arises in connection with any such assets being held in a clearing system or through a financial intermediary;
- (iii) an assignment by way of security in favour of the Trustee of the Issuer's rights, title and interest against the Custodian and the Disposal Agent, to the extent that they relate to the Collateral;
- (iv) an assignment by way of security in favour of the Trustee of the Issuer's rights, title and interest under and in respect of the Agency Agreement, to the extent that they relate to the Notes;
- (v) an assignment by way of security in favour of the Trustee of the Issuer's rights, title and interest under and in respect of the Custody Agreement, to the extent that they relate to the Notes;
- (vi) an assignment by way of security in favour of the Trustee of the Issuer's rights, title and interest under the Swap Agreement and in respect of any sums and securities received thereunder; and
- (vii) a first fixed charge in favour of the Trustee of (a) all sums held by the Issuing and Paying Agent and the Custodian to meet payments due in respect of the obligations and duties of the Issuer under the Trust Deed, the Swap Agreement, the Agency Agreement, the Custody Agreement and the Notes, (b) all sums held by the Disposal Agent under the Agency Agreement and (c) any sums received by the Issuing and Paying Agent under the Swap Agreement,

(the rights and assets of the Issuer referred to in this paragraph being the **“Mortgaged Property”**).

In circumstances where the Collateral is held by or through the Custodian in a clearing system, the security will take the form of an assignment of the Issuer's contractual rights against the Custodian rather than a charge over the Collateral.

A charge, although expressed in words which would suffice to create a fixed charge, may be treated as a floating charge, particularly if it appears that it was intended that the chargor should have licence to dispose of the assets charged in the course of its business without the consent of the chargee.

The Custodian, acting on behalf of the Issuer, may procure the realisation of the equivalent proportion of the Collateral in connection with any purchase and cancellation of the Notes by the Issuer in accordance with Condition 7.4 (*Purchases*) and Condition 7.10 (*Cancellation*).

In the event that the Mortgaged Property described above is realised by the Trustee on behalf of the Noteholders, there can be no assurance that the proceeds of realisation thereof will be sufficient to repay the principal amount and any other amount that is due under the Notes.

The Custodian

A description of the Custodian is set out in the section entitled “Description of Citibank, N.A.” in the Base Prospectus.

Description of the Collateral Issuer

The Collateral Issuer is Lloyd’s Bank PLC. The company was incorporated in 1865 and is based in the United Kingdom. Lloyd’s Bank PLC is a wholly owned subsidiary of Lloyd’s Banking Group PLC.

Annex 3

The Swap Agreement

The description of the Swap Agreement set out below is a summary of certain features of the Swap Agreement and is qualified by reference to the detailed provisions of the Swap Agreement.

Payments under the Swap Agreement

Under a 2002 ISDA Master Agreement deemed entered into between the Issuer and the Swap Counterparty and dated as of the Issue Date (including the Schedule (as defined in the ISDA Master Agreement) in the form of the ISDA Schedule Terms 22 July 2015 Version relating to the Programme (as such Schedule may have been amended by the relevant transaction confirmation) as amended and restated from time to time (the “**ISDA Master Agreement**” and, together with the Swap Confirmations (as defined below), the “**Swap Agreement**”), the Issuer and the Swap Counterparty have entered into:

- (a) a swap confirmation, the form of which is set out in Annex 4 (the “**Interest Rate Swap Confirmation**”) which constitutes an interest rate swap transaction with an effective date of the Issue Date of the Notes (the “**Interest Rate Swap**”) (into which the 2006 ISDA Definitions are incorporated by reference);
- (b) a swap confirmation, the form of which is set out in Annex 5 (the “**Credit Derivative Index Swap Confirmation**”) which constitutes the Credit Derivative Index Swap Transaction (as defined below) (into which the 2014 ISDA Credit Derivatives Definitions are incorporated by reference); and
- (c) a swap confirmation, the form of which is set out in Annex 6 (the “**Credit Derivative Multiple Single Name Swap Confirmation**” and, together with the Interest Rate Swap Confirmation and the Credit Derivative Index Swap Confirmation, the “**Swap Confirmations**”) which constitutes the Component Single Name Transactions (as defined below and, together with the Credit Derivative Index Swap Transaction, the “**Basis Swap**”) (into which the 2014 ISDA Credit Derivatives Definitions are incorporated by reference).

Under the Interest Rate Swap, if the initial exchange amount (being an amount equal to the purchase price of the Collateral minus the issue proceeds of the Notes as determined by the Calculation Agent in its sole discretion acting in good faith and in a commercially reasonable manner) is a positive number, the Swap Counterparty will pay such initial exchange amount to the Issuer; if the initial exchange amount is a negative number, the Issuer will pay the absolute value thereof to the Swap Counterparty. In addition, the Issuer will pay to the Swap Counterparty periodic amounts equal to the interest receivable on the Collateral and will receive from the Swap Counterparty periodic amounts equal to the amount due on each Interest Payment Date under the Notes.

Under the Basis Swap, the Issuer will (a) buy credit protection on the CDX.NA.HY.24 Version 3 credit derivatives index (the “**Index**”) (the “**Credit Derivative Index Swap Transaction**”) by entering into the Credit Derivative Index Swap Confirmation and (b) sell credit protection on each of the constituents of the Index (where the aggregate original swap notional amounts of the Component Single Name Transactions will be equal to the original swap notional amount of the Credit Derivative Index Swap Transaction) (each a “**Component Single Name Transaction**” and collectively, the “**Component Single Name Transactions**”) by entering into the Credit Derivative Multiple Single Name Swap Confirmation. A list of Credit Events and Final Prices is available on www.markit.com (in the CDX Settled Entity Matrix revised from time to time) and changing spreads (or upfront amounts) are available on Bloomberg.

Pursuant to the Basis Swap:

- (a) the Swap Counterparty will pay to the Issuer a fixed amount of 5.00 per cent. per annum of the outstanding swap notional amount of the Credit Derivative Index Swap Transaction on each Fixed Rate Payer Payment Date (as defined in the Credit Derivative Index Swap Confirmation); and
- (b) the Issuer will pay to the Swap Counterparty a fixed amount of 5.00 per cent. per annum of the outstanding swap notional amount of each Component Single Name Transaction on each Fixed Rate Payer Payment Date (as defined in the Credit Derivative Multiple Single Name Swap Confirmation),

and such payments will net to zero. Settlement of the credit default provisions under the Credit Derivative Index Swap Transaction and each Component Single Name Transaction will occur automatically following ISDA announcements that the relevant Credit Derivatives Determinations Committee has determined that a Credit Event has occurred. Neither the Issuer nor the Swap Counterparty shall be required to deliver a Credit Event Notice. All settlement amounts due under the Basis Swap net out and no amounts will be payable from the Issuer to the Swap Counterparty or from the Swap Counterparty to the Issuer following such Credit Event.

In addition, the Issuer will pay to the Swap Counterparty (or the Swap Counterparty will pay to the Issuer, as the case may be) the termination amounts in connection with the termination of the Swap Agreement whether in whole or in part (as further described in “Consequences of Early Termination” below).

Termination of the Swap Agreement

Except as stated in the following paragraphs, the Interest Rate Swap shall terminate on the Maturity Date of the Notes and the Basis Swap shall terminate on the relevant Termination Date (as defined in the Credit Derivative Index Swap Confirmation or the Credit Derivative Multiple Single Name Swap Confirmation (as the case may be)) which shall occur no later than the Maturity Date of the Notes).

The Swap Agreement may be terminated (either in whole or in part only) before the relevant termination date, among other circumstances:

- (i) if at any time any of the Notes becomes payable in accordance with the Conditions prior to the Maturity Date;
- (ii) if the Issuer or the Calculation Agent determines that the performance of the Issuer's obligations under the Notes has or will become unlawful, illegal or otherwise prohibited in whole or in part, including without limitation, as a result of an enactment of or supplement or amendment to, or a change in law, policy or official interpretation, implementation or determination made by any relevant regulatory authority or for any other reason;
- (iii) if at any time the Swap Counterparty determines that the performance of the Swap Counterparty's and/or its Affiliates' obligations under the Swap Agreement, the Trust Deed or under any other Transaction Document or any arrangement made to hedge such obligations has or will become unlawful, illegal or otherwise prohibited due to a Regulatory Consequence and that, if applicable, a transfer of the Swap Agreement to an Affiliate of the Swap Counterparty will not be timely, practical or desirable for any reason, all determined in its sole and absolute discretion;
- (iv) at the option of one party, if there is a failure by the other party to pay any amounts due, or to comply with or perform any obligation, under the Swap Agreement;

- (v) if withholding taxes are imposed on payments made either by the Issuer or by the Swap Counterparty under the Swap Agreement or it becomes illegal for either party to perform its obligations in respect of any Transaction under the Swap Agreement (see “Transfer to avoid Termination Event” below);
- (vi) upon the occurrence of certain other events with respect to either party to the Swap Agreement, including a breach of a representation, insolvency or, in respect of the Swap Counterparty, a merger without an assumption of the obligations in respect of the Swap Agreement; and
- (vii) if an early termination date is designated or deemed to occur under the ISDA Master Agreement or any of the Swap Confirmations for any reason whatsoever, then the date so designated shall also be deemed to have been designated as the early termination date in respect of the Swap Agreement.

Consequences of Early Termination

Upon any early termination of the Swap Agreement in the circumstances set out in sub-paragraphs (i) to (vii) above, the Issuer or the Swap Counterparty may be liable to make a termination payment to the other (regardless, if applicable, of which of the parties may have caused such termination).

Such termination payments will be based on the replacement cost or gain for a swap agreement that would have the effect of preserving for the party making the determination the economic equivalent of the Swap Agreement. Such termination amounts shall also include amounts that are either due and remain unpaid as at the Early Termination Date (as defined in the Swap Agreement) or represent the fair market value of any obligation that was required to have been performed under the Swap Agreement had it not been terminated on the relevant Early Termination Date (as defined in the Swap Agreement).

The termination payment in respect of the Basis Swap will be an aggregate of the early termination amounts calculated in respect of the Credit Derivative Index Swap Transaction and each Component Single Name Transaction, and may not be equal to zero. The termination payment may be payable by the Issuer to the Swap Counterparty or by the Swap Counterparty to the Issuer but, in either case, shall be capped at a maximum amount equal to the principal amount of the Collateral.

Such amount will be aggregated with the early termination amount calculated in respect of the Interest Rate Swap to determine the Swap Termination Value.

In all cases of early termination, the termination payment will be determined by the Swap Counterparty.

General

Except as stated under “Transfer to avoid Termination Event” and “Transfer by the Swap Counterparty to its Affiliates” below, neither the Issuer nor the Swap Counterparty are, save for the assignment by way of security in favour of the Trustee under the Trust Deed and certain limited circumstances set out in Section 7 (*Transfer*) of the ISDA Master Agreement, permitted to assign, novate or transfer as a whole or in part any of their rights, obligations or interests under the Swap Agreement.

Taxation

The Issuer is not obliged under the Swap Agreement to gross up if withholding taxes or other deductions for taxes are imposed on payments made by it under the Swap Agreement. The Swap

Counterparty is not obliged under the Swap Agreement to gross up if withholding taxes or other deductions for taxes are imposed on payment made by it under the Swap Agreement, unless the relevant tax is an “Indemnifiable Tax”.

Sanctions

Upon the occurrence of a Sanctions Event as defined in Condition 8.9 (*Suspension of Obligations following a Sanctions Event*) of the Notes, all obligations will be suspended under the Swap Agreement.

Transfer to avoid Termination Event

If withholding taxes are imposed on payments made by the Issuer or the Swap Counterparty under the Swap Agreement, then the Swap Counterparty shall, at its sole option, have the right to require the Issuer:

- (a) to transfer all of its interest and obligations under the Swap Agreement together with its interests and obligations under the Notes, the Trust Deed, the Dealer Agreement, the Custody Agreement and the Agency Agreement to another entity, whether or not in the same tax jurisdiction as the Issuer, which would not have any obligation to withhold or deduct (if the Issuer is or would be required to make such withholding or deduction) or to which the Swap Counterparty would be entitled to make payments free from the relevant withholding or deduction and/or not to be subject to any gross-up obligations (if the Swap Counterparty is or would otherwise be required to make such withholding or deduction), subject to obtaining the prior written consent of the Trustee; or
- (b) to transfer its residence for tax purposes to another jurisdiction, subject to obtaining the prior written consent of the Trustee.

If the Issuer is unable to transfer its interests to another party or to transfer its tax residence in accordance with the preceding provisions prior to the 30th calendar day following the date of imposition of such withholding taxes or, if earlier, the 10th calendar day prior to the first date on which it or the Swap Counterparty would otherwise be required to make a payment net of withholding taxes or subject to gross-up, the Swap Counterparty may terminate the swap transaction under the Swap Agreement.

Transfer by the Swap Counterparty to its Affiliates

The Swap Counterparty may, at any time, transfer to any of its Affiliates all or part of its interests and obligations under the Swap Agreement together with its interests and obligations under the Notes, the Trust Deed, the Dealer Agreement and the Agency Agreement to any of its Affiliates upon providing at least five Business Days prior written notice to the Issuer and the Trustee provided that:

- (a) as of the date of such transfer the transferee will not, as a result of such transfer, be required to withhold or deduct on account of any tax under the Swap Agreement;
- (b) a Termination Event or an Event of Default will not occur under the Swap Agreement as a result of such transfer; and
- (c) no additional amount will be payable by the Issuer to the Swap Counterparty or the transferee on the next succeeding scheduled payment date under the Swap Agreement as a result of such transfer.

Provided that the criteria set out in (a) to (c) above are satisfied, no consent shall be required from the Issuer or the Trustee to such transfer and the Issuer and Trustee shall promptly take such

action and execute all documentation as the Swap Counterparty may reasonably require to effect such transfer.

The Swap Counterparty

A description of the Swap Counterparty is set out in the section entitled “Description of Citibank, N.A.” in the Base Prospectus.

EMIR Portfolio Reconciliation and Dispute Resolution Deed

The Issuer and the Swap Counterparty have entered into an EMIR Portfolio Reconciliation and Dispute Resolution Deed dated 4 April 2014 as amended and restated on 30 April 2014 to comply with the portfolio reconciliation and dispute resolution requirements of Regulation (EU) No 648/2012 of the European Parliament and of the Council on OTC derivatives, central counterparties and trade repositories dated 4 July 2012.

References herein to a “**Transaction**” shall be deemed to be references to a “Swap Transaction” for the purposes of the 2006 Definitions.

All provisions contained in the Agreement govern this Confirmation except as expressly modified below.

In this Confirmation, the “**Conditions**” refers to the terms and conditions of the Notes as set out in or incorporated by reference into the Series Prospectus.

(a) Linked Transactions

Party A and Party B have also entered into a credit derivative multiple single name transaction (the “**Multiple Single Name Swap Confirmation**”) comprised of Component Single Name Transactions (as such term is defined in the Multiple Single Name Swap Confirmation) (bearing reference numbers CA117873117 to CA117873177 as specified in the Multiple Single Name Swap Confirmation) and an interest rate swap transaction (bearing a Reference Number LXS703072) (the “**Interest Rate Swap Transaction**”), in each case on the Effective Date. (d) **Final Price Determination on Fallback Settlement**

If the Fallback Settlement Method is applicable in respect of a Reference Entity referenced by a Component Transaction, the Calculation Agent shall determine the Final Price for such Component Transaction and the corresponding Component Single Name Transaction referencing the same Reference Entity on the basis of the same Quotations, resulting in the same Final Price.

- (f) The Calculation Agent may in good faith make such amendment to, or supplement, the terms of this Transaction following the announcement or publication by the International Swaps and Derivatives Association, Inc. of any provision, standard protocol or material relating to credit derivatives transactions which, by agreement or otherwise, affects the Notes, this Transaction or any hedge transaction related to the Notes or the Swap Agreement entered into by Party B, Party A or any of its

affiliates as the Calculation Agent determines appropriate to take into account the effect of such provision, standard protocol or material.

- (g) Any amendment, supplement or other modification to the terms of this Transaction determined by the Calculation Agent under paragraph (f) above or otherwise, or any other exercise of discretion of the Calculation Agent shall, to the extent possible, also be applied to the corresponding Component Single Name Transaction in order to achieve the same economic effect under the Component Transaction and the corresponding Component Single Name Transaction.
- (h) Party A and Party B agree that, other than in connection with the calculation of any Early Termination Amount, if either Party A or Party B exercises any discretion in respect of a Component Transaction (such party, "**X**"), X shall also exercise any equivalent discretion in the corresponding Component Single Name Transaction to, to the extent possible, achieve the same economic effect under the Component Transaction and the corresponding Component Single Name Transaction. If the party other than X has the right in the corresponding Component Single Name Transaction to exercise such equivalent discretion, Party A shall determine how such discretion shall be exercised.

The definitions and provisions contained in the 2014 ISDA Credit Derivatives Definitions, as published by the International Swaps and Derivatives Association, Inc. (the “**Credit Derivatives Definitions**”), are incorporated into this Confirmation. In the event of any inconsistency between the Credit Derivatives Definitions and this Confirmation, this Confirmation will govern.

This Confirmation supplements, forms a part of, and is subject to the 2002 ISDA Master Agreement dated the Effective Date (the “**Agreement**”) deemed entered into between Citibank, N.A. London Branch (“**Party A**”) and Libretto Capital P.L.C. (“**Party B**”) in respect of which the Schedule to such 2002 ISDA Master Agreement is in the form of the ISDA Schedule Terms 22 July 2015 Version (a copy of which Party A has provided to Party B and Party B acknowledges it has receipt of), modified as set out herein and in the Supplemental Trust Deed. All provisions contained in, or incorporated by reference in, the Agreement shall govern this Confirmation except as expressly modified below.

Party A and Party B have also entered into an Interest Rate Swap Transaction and a Credit Derivative Index Swap Confirmation (each as defined below) in relation to the Notes by means of relevant confirmations under the Agreement.

Party A represents and warrants that it has the capacity and power to enter into this Agreement and that the entry into this Agreement has been validly authorised, executed and delivered by it.

Capitalised terms used but not otherwise defined herein have the meanings given to such terms in the Series Prospectus dated 3 May 2016, as amended and supplemented from time to time, relating to the issue of the Notes (the “**Series Prospectus**”).

In this Confirmation, the “**Conditions**” refers to the terms and conditions of the Notes, as set out in the Series Prospectus.

In the event of any inconsistency between terms defined in this Confirmation and the corresponding terms in the Conditions, the terms as defined in the Conditions shall govern.

Party A and Party B agree that, by entering into this Master Transaction, they have entered into a separate and independent Credit Derivative Transaction in respect of each Reference Entity listed in Schedule 1 (*Component Single Name Transactions*) or any Successor to a Reference Entity identified pursuant to the terms set out herein (each a “**Component Single Name Transaction**”). A Confirmation in the form of this Confirmation shall be deemed to be entered into in respect of each Component Single Name Transaction in respect of each of the Reference Entities listed in Schedule 1 (*Component Single Name Transactions*).

As indicated in this Confirmation, certain terms for each Component Single Name Transaction are set forth in Schedule 1 (*Component Single Name Transactions*). Each Component Single Name Transaction (a) constitutes a separate and independent Credit Derivative Transaction between Party A and Party B with respect to one of the Reference Entities listed in Schedule 1 (*Component Single Name Transactions*), (b) shall not be affected by any other Credit Derivative Transaction between Party A and Party B and (c) shall operate independently of each other Component Single Name Transaction in all respects.

(a) Linked Transactions

Party A and Party B have also entered into a credit derivative index swap transaction referencing CDX.NA.HY.24 Version 3 (bearing reference number CA117873279) (the “**Credit Derivative Index Swap Confirmation**”) comprised of multiple Component Transactions (as such term is defined in the Credit Derivative Index Swap Confirmation) and an interest rate swap transaction (bearing a Reference Number LXS703072) (the “**Interest Rate Swap Transaction**”), in each case on the Effective Date. Party A and Party B agree and acknowledge that the Reference Entities referenced in the Component Single Name Transactions are the same reference entities as those which comprise the CDX.NA.HY.24 Version 3 credit derivatives index referenced in the Credit Derivatives Index Swap Confirmation.

If an Early Termination Date is designated or deemed to occur in respect of any Component Transaction or the Interest Rate Swap Transaction for any reason whatsoever (including, without limitation, by agreement between Party A and Party

B), then the date so designated shall be deemed to have been designated as an Early Termination Date in respect of this Master Transaction.

(b) **Regulatory Consequence**

An Additional Termination Event (for which the Affected Party shall be Party B and all Transactions shall be Affected Transactions) shall occur if at any time Party A notifies Party B that it has determined that the performance of the Swap Counterparty's and/or its Affiliates' obligations under the Swap Agreement, the Trust Deed or under any other Transaction Document or any arrangement made to hedge such obligations has or will become unlawful, illegal or otherwise prohibited due to a Regulatory Consequence and that, if applicable, a transfer of the Swap Agreement to an Affiliate of the Swap Counterparty will not be timely, practical or desirable for any reason, all determined in its sole and absolute discretion.

(c) **Deemed Restructuring Credit Event**

If there is a DC Credit Event Announcement and an Auction is held pursuant to which an Auction Final Price is determined with respect to an M(M)R Restructuring in relation to a Reference Entity referenced by a Component Single Name Transaction, the Buyer shall not be able to deliver multiple Credit Event Notices but rather will have been deemed to have delivered a single Credit Event Notice for the relevant total outstanding Floating Rate Payer Calculation Amount in respect of such Reference Entity (and not a portion thereof), such amount being the Exercise Amount.

(d) **Final Price Determination on Fallback Settlement**

If the Fallback Settlement Method is applicable in respect of a Reference Entity referenced by a Component Single Name Transaction, the Calculation Agent shall determine the Final Price for such Component Single Name Transaction and the corresponding Component Transaction referencing the same Reference Entity on the basis of the same Quotations, resulting in the same Final Price.

(e) **Offsetting Settlements**

Pursuant to paragraph 13 (*Netting of Payments*) of Part 4 of the Schedule and for the avoidance of doubt, on any Fixed Rate Payer Payment Date, Auction Settlement Date or Cash Settlement Date, the aggregate of any amount that becomes payable under this Master Transaction by a party and any amount that becomes payable under the relevant Component Transaction(s) by the other party will be equal to zero. No amounts will be due from either party to the other under this Master Transaction or the relevant Component Transaction(s).

Where an Auction Settlement Date or Cash Settlement Date has occurred before the Effective Date, any payment due from either party under this Master Transaction will be deemed to have been satisfied pursuant to paragraph 13 (*Netting of Payments*) of Part 4 of the Schedule by net settlement against any corresponding payment due under the relevant Component Transaction(s) so that no amounts will be due from either party to the other.

(f) **Payments on Early Termination**

Notwithstanding anything else in the Agreement, upon the designation of an Early Termination Date, the aggregate Close-out Amounts and Termination Currency

Equivalent of the Unpaid Amounts due in respect of such Early Termination Date in accordance with Section 6(e)(ii)(1) of the Agreement in respect of each Component Single Name Transaction and each Component Transaction (as such term is defined in the Credit Derivative Index Swap Confirmation) shall be subject to a maximum amount equal to the aggregate principal amount of the Collateral and any amount in excess thereof shall not be payable.

(g) **Merger of Reference Entity and Seller**

Section 11.4 of the Credit Derivatives Definitions shall not apply to this Master Transaction.

(h) **Section 13.2 of the Credit Derivatives Definitions**

The reference to "Trade Date" in Section 13.2 of the Credit Derivatives Definitions will be deleted and replaced with a reference to "the Effective Date".

(i) **Monoline Insurer as Reference Entity**

The "Additional Provisions for Monoline Insurer Reference Entities", published by the International Swaps and Derivatives Association, Inc. on September 15, 2014, are incorporated by reference herein and shall be applicable to each Reference Entity for which "Applicability of Monoline Provisions" is specified as "Applicable" in Schedule 1 (*Component Single Name Transactions*).

(j) **Transfer and Termination of Component Single Name Transactions**

Without prejudice to the generality of Section 7 of the Agreement, each Component Single Name Transaction (or any part thereof) may only be transferred (by way of assignment, novation or otherwise) or terminated prior to the Scheduled Termination Date together with an equal part of each other Component Single Name Transaction entered into under this Master Transaction.

(k) **Successors**

Section 2.1 of the 2014 Credit Derivatives Definitions is amended by (i) adding the words "unless already reflected in the Index Annex," after "(b)" in the third line thereof; and (ii) deleting the words "on or following the Trade Date" in the fifth line thereof and replacing them with the words "on or following 20 March 2015 (provided that any Successor that is reflected in the Index Annex shall be deemed identified by the Calculation Agent in accordance with Section 2.2)".

For the purposes of the Master Transaction, "**Index Annex**" has the meaning given to it in the Credit Derivative Index Swap Confirmation.

7 Other Terms

- (a) Party A and Party B acknowledge and agree that this Master Transaction is not intended to constitute insurance business and is not a contract of insurance, assurance, suretyship or guarantee and payments may be made under this Master Transaction by each party independently and without proof of the economic loss (if any) of the other party.
- (b) For the purpose of determining any amounts payable pursuant to Section 6 (*Early Termination; Close-Out Netting*) of the Agreement in connection with an early termination of this Transaction, notwithstanding any other provision of the

Agreement, all calculations and determinations that, under the Agreement, would otherwise be made by Party B shall be made by Party A.

- (c) The “Breach of Agreement” provisions of Section 5(a)(ii) of the Agreement shall not apply to Party A or Party B.
- (d) The “Misrepresentation” provisions of Section 5(a)(iv) of the Agreement shall not apply to Party A or Party B.
- (e) If the Calculation Agent identifies an entity as a Successor to a Reference Entity pursuant to Section 2.2 (*Provisions for Determining a Successor*) of the Credit Derivatives Definitions, such entity shall constitute a Successor to such Reference Entity referenced by both the relevant Component Single Name Transaction and the corresponding Component Transaction.
- (f) The Calculation Agent may in good faith make such amendment to, or supplement, the terms of this Transaction following the announcement or publication by the International Swaps and Derivatives Association, Inc. of any provision, standard protocol or material relating to credit derivatives transactions which, by agreement or otherwise, affects the Notes, this Transaction or any hedge transaction related to the Notes or the Swap Agreement entered into by Party B, Party A or any of its affiliates as the Calculation Agent determines appropriate to take into account the effect of such provision, standard protocol or material.
- (g) Any amendment, supplement or other modification to the terms of this Transaction as determined by the Calculation Agent under paragraph (f) above or otherwise, or any other exercise of discretion of the Calculation Agent shall, to the extent possible, also be applied to the corresponding Component Transaction in order to achieve the same economic effect under the Component Single Name Transaction and the corresponding Component Transaction.
- (h) Party A and Party B agree that, other than in connection with the calculation of any Early Termination Amount, if either Party A or Party B exercises any discretion in respect of a Component Single Name Transaction (such party, “X”), X shall also exercise any equivalent discretion in the corresponding Component Transaction to, to the extent possible, achieve the same economic effect under the Component Single Name Transaction and the corresponding Component Transaction. If the party other than X has the right in the corresponding Component Transaction to exercise such equivalent discretion, Party A shall determine how such discretion shall be exercised.

8 Third Party Rights

No person shall have any right to enforce any provision of this Master Transaction under the Contracts (Rights of Third Parties) Act 1999.

9 Relationship between parties

Each party represents to the other party that:

- (a) **Non-Reliance:** It is acting for its own account and it is not relying on any communication (written or oral) of the other party as investment advice or as a recommendation to enter into this Transaction. It has not received from the other party any assurance or guarantee as to the expected results of this Transaction;

- (b) **Acceptance:** It accepts the terms, conditions and risks of this Transaction. It is also capable of assuming, and assumes, the financial and other risks of this Transaction;
- (c) **Status of Parties:** The other party is not acting as a fiduciary or an advisor for it in respect of this Transaction; and
- (d) **Risk Management:** It has entered into this Transaction for the purpose of (i) managing its borrowings or investments, (ii) hedging its underlying assets or liabilities or (iii) in connection with its line of business.

Irish Taxation

In addition to the disclosure following the heading Irish Taxation on pages 420 to 423 of the Base Prospectus, for the purpose of this Series Prospectus, the following shall apply.

Common Reporting Standard (“CRS”)

The CRS framework was first released by the OECD in February 2014. To date, more than 90 jurisdictions have publically committed to implementation, many of which are early adopter countries, including Ireland. On 21 July 2014, the Standard for Automatic Exchange of Financial Account Information in Tax Matters (the “**Standard**”) was published, involving the use of two main elements, the Competent Authority Agreement (the “**CAA**”) and the CRS.

The goal of the Standard is to provide for the annual automatic exchange between governments of financial account information reported to them by local Financial Institutions (“**FIs**”) relating to account holders tax resident in other participating countries to assist in the efficient collection of tax. The OECD, in developing the CAA and CRS, have used FATCA concepts and as such the Standard is broadly similar to the FATCA requirements, albeit with numerous alterations. The introduction of the Standard will result in a significantly higher number of reportable persons due to the increased instances of potentially in-scope accounts and the inclusion of multiple jurisdictions to which accounts must be reported.

Ireland is a signatory jurisdiction to a Multilateral Competent Authority Agreement on the automatic exchange of financial account information in respect of CRS while the Finance Act 2014 and Finance Act 2015 of Ireland contain measures necessary to implement the CRS internationally and across the European Union, respectively. The Returns of Certain Information by Reporting Financial Institutions Regulations 2015 (the “**Regulations**”) of Ireland, giving effect to the CRS from 1 January 2016, came into operation on 31 December 2015.

Under the Regulations, reporting FIs are required to collect certain information on accountholders and on certain Controlling Persons in the case of the accountholder(s) being an “Entity” (as defined for CRS purposes), to identify accounts which are reportable to the Irish tax authorities. The Irish tax authorities shall in turn exchange such information with their counterparts in participating jurisdictions. However, to the extent that the Notes are held within a recognised clearing system, the Issuer should have no reportable accounts in a tax year. In that event the Issuer will make a nil return for that year to the Irish Revenue Commissioners.

Further information in relation to CRS can be found on the Automatic Exchange of Information (AEOI) webpage on <http://www.revenue.ie>.
