IMPORTANT: You must read the following before continuing. The following applies to the Prospectus following this page, and you are therefore advised to read this carefully before reading, accessing or making any other use of the Prospectus. In accessing the Prospectus, you agree to be bound by the following terms and conditions, including any modifications to them any time you receive any information from us as a result of such access.

NOTHING IN THIS ELECTRONIC TRANSMISSION CONSTITUTES AN OFFER TO SELL OR THE SOLICITATION OF AN OFFER TO BUY THE SECURITIES OF THE ISSUER IN THE UNITED STATES OR ANY OTHER JURISDICTION WHERE IT IS UNLAWFUL TO DO SO. THE SECURITIES HAVE NOT BEEN, AND WILL NOT BE, REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**"), OR THE SECURITIES LAWS OR "BLUE SKY" LAWS OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES. ACCORDINGLY THE SECURITIES MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**")) EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND IN ACCORDANCE WITH APPLICABLE STATE OR LOCAL SECURITIES LAWS.

THE FOLLOWING PROSPECTUS MAY NOT BE FORWARDED OR DISTRIBUTED TO ANY OTHER PERSON AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER, AND IN PARTICULAR, MAY NOT BE FORWARDED TO ANY U.S. PERSON OR TO ANY U.S. ADDRESS. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS DOCUMENT IN WHOLE OR IN PART IS UNAUTHORISED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS.

THE TRANSACTION WILL NOT INVOLVE RISK RETENTION BY THE SELLER (AS SUCH TERM IS DEFINED BELOW) FOR PURPOSES OF THE FINAL RULES PROMULGATED UNDER SECTION 15G OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED (THE "**U.S. RISK RETENTION RULES**"), AND THE ISSUANCE OF THE NOTES WAS NOT DESIGNED TO COMPLY WITH THE U.S. RISK RETENTION RULES. THE SELLER INTENDS TO RELY ON AN EXEMPTION PROVIDED FOR IN SECTION 20 OF THE U.S. RISK RETENTION RULES REGARDING NON-U.S. TRANSACTIONS THAT MEET CERTAIN REQUIREMENTS. CONSEQUENTLY, EXCEPT WITH THE PRIOR WRITTEN CONSENT OF THE SELLER (A "**U.S. RISK RETENTION CONSENT**") AND WHERE SUCH SALE FALLS WITHIN THE EXEMPTION PROVIDED BY SECTION 20 OF THE U.S. RISK RETENTION RULES, ANY NOTES OFFERED AND SOLD BY THE ISSUER MAY NOT BE PURCHASED BY, OR FOR THE ACCOUNT OR BENEFIT OF, ANY "U.S. PERSON" AS DEFINED IN THE U.S. RISK RETENTION RULES ("**RISK RETENTION U.S. PERSONS**"). PROSPECTIVE INVESTORS SHOULD NOTE THAT THE DEFINITION OF "U.S. PERSON" IN THE U.S. RISK RETENTION RULES IS SUBSTANTIALLY SIMILAR TO, BUT NOT IDENTICAL TO, THE DEFINITION OF "U.S. PERSON" IN REGULATION S. EACH PURCHASER OF SUCH NOTES OR A BENEFICIAL INTEREST THEREIN ACQUIRED IN THE INITIAL SYNDICATION OF THE NOTES BY ITS ACQUISITION OF THE NOTES OR A BENEFICIAL INTEREST THEREIN, WILL BE DEEMED TO HAVE MADE, AND IN CERTAIN CIRCUMSTANCES WILL BE REQUIRED TO MAKE, CERTAIN REPRESENTATIONS AND AGREEMENTS (INCLUDING AS A CONDITION TO ACCESSING OR OTHERWISE OBTAINING A COPY OF THE PROSPECTUS, THE PROSPECTUS OR OTHER OFFERING MATERIALS RELATING TO THE NOTES), INCLUDING THAT IT (1) EITHER (i) IS NOT A RISK RETENTION U.S. PERSON OR (ii) IT HAS OBTAINED A U.S. RISK RETENTION CONSENT FROM THE SELLER, (2) IS ACQUIRING SUCH NOTE OR A BENEFICIAL INTEREST THEREIN FOR ITS OWN ACCOUNT AND NOT WITH A VIEW TO DISTRIBUTE SUCH NOTE, AND (3) IS NOT ACQUIRING SUCH NOTE OR A BENEFICIAL INTEREST THEREIN AS PART OF A SCHEME TO EVADE THE REQUIREMENTS OF THE U.S. RISK RETENTION RULES (INCLUDING ACQUIRING SUCH NOTE THROUGH A NON-RISK RETENTION U.S. PERSON, RATHER THAN A RISK RETENTION U.S. PERSON, AS PART OF A SCHEME TO EVADE THE 10 PER CENT. RISK RETENTION U.S. PERSON LIMITATION IN THE EXEMPTION PROVIDED FOR IN SECTION 20 OF THE U.S. RISK RETENTION RULES).

The Central Bank only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Final Rules promulgated under Section 15(G) of the U.S. Securities Exchange Act Of 1934

The Seller, as the sponsor under the U.S. Risk Retention Rules, does not intend to retain at least 5 per cent. of the credit risk of the securitized assets for purposes of compliance with the U.S. Risk Retention Rules, but rather intends to rely on an exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions that meet certain requirements. Consequently, except with a U.S. Risk Retention Consent and where such sale falls within the exemption provided by Section 20 of the U.S. Risk Retention Rules, any Notes offered and sold by the Issuer may only be purchased by, or for the account or benefit of, any Risk Retention U.S. Persons. Prospective investors should note that the definition of "U.S. person" in the U.S. Risk Retention Rules is different from the definition of "U.S. person" in Regulation S. Each purchaser of Notes, or, beneficial interests therein acquired in the initial distribution of the Notes will be deemed, and in certain circumstances (including as a condition to accessing or otherwise obtaining a copy of the Prospectus or other offering materials relating to the Notes) will be required, to have made certain representations and agreements, including that it (1) either (i) is not a Risk Retention U.S. Person or (ii) has obtained a U.S. Risk Retention Consent, (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note; and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section 10 of the U.S. Risk Retention Rules).

The Seller or any of its respective affiliates makes no representation to any prospective investor or purchaser of the Notes as to whether the transactions described in this Prospectus comply as a matter of fact with the U.S. Risk Retention Rules on the Note Issuance Date or at any time in the future. Investors should consult their own advisers as to the U.S. Risk Retention Rules. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

Article 6 of the EU Securitisation Regulation

The Seller, as originator for the purposes of Regulation (EU) no. 2017/2402 of 12 December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation and amending Directives 2009/65/EC, 2009/138/EC, 2011/61/EU and Regulations (EC) No. 1060/2009 and (EU) No. 648/2012 (the "**EU Securitisation Regulation**") will undertake (i) to retain, on an ongoing basis, a material net economic interest equivalent to not less than five per cent. in the Securitisation, comprised of certain randomly selected exposures held on the balance sheet of the Seller which would otherwise have been securitised in the Securitisation in accordance with Article 6(3)(c) of the EU Securitisation Regulation and the applicable Regulatory Technical Standards, (the "**Minimum Retained Amount**"), (ii) not to or surrender all or any part of its rights, benefits or obligations arising from of the Minimum Retained Amount, (iii) not to, allow the Minimum Retained Amount to become subject to any form of credit risk mitigation or hedging (iv) not to change the manner in which the net economic interest is held, unless expressly permitted by Article 6(3) of the EU Securitisation Regulation and the applicable Regulatory Technical Standards, and to procure that any such change will be notified to the Servicer to be disclosed in the Investor Report, and (v) to comply with the disclosure obligations imposed on originators under Article 7 of the EU Securitisation Regulation and the applicable Regulatory Technical Standards, subject always to any requirement of law, in each case, in accordance with the provisions of the EU Securitisation Regulation. In addition, the Seller has undertaken that the material net economic interest held by it shall not be split among different types of retainers. For further details, see the section headed "*EU Securitisation Regulation*".

The Seller takes responsibility for the information set out in the foregoing paragraphs of this summary of certain provisions of the EU Securitisation Regulation; provided however that, each prospective investor for whom the EU Securitisation Regulation is relevant is required to independently assess and determine the sufficiency of the information described under this sub-heading and in this Prospectus generally for the purposes of complying with Article 5 of the EU Securitisation Regulation and none of the Issuer, the Purchaser, Santander Consumer Finance Oy (in its capacities as the Seller and the Servicer), the Joint Lead Managers or the Arranger makes any representation that the information described above is sufficient in all circumstances for such purposes. In addition, each prospective investor for whom the EU Securitisation Regulation is relevant should ensure that it complies with any implementing provisions in respect of Article 5 of the EU Securitisation Regulation in its relevant jurisdiction. Investors who are uncertain as to the requirements which apply to them in respect of their relevant jurisdiction should seek guidance from their regulator and/or independent legal advice on the issue.

Santander Corporate and Investment Banking, Barclays Bank PLC and BofA Merrill Lynch (together, the "**Joint Lead Managers**") will, on a best endeavours basis, subscribe and make payment for, or procure subscription of and payment for, the Class A Notes. An investment in the Notes is suitable only for financially sophisticated investors who are capable of evaluating the merits and risks of such investment and who have sufficient resources to be able to bear any losses which may result from such investment.

Rating Agencies

The Class A Notes, Class B Notes and Class C Notes (together the "**Rated Notes**") are expected, on issue, to be rated by Moody's Investors Service Limited ("**Moody's**") and Fitch Ratings Ltd (Fitch and, together with Moody's, the "**Rating Agencies**"). The Class D Notes will not be rated.

In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union ("**EU**") and registered under Regulation (EC) No 1060/2009 (as amended) (the "**CRA Regulation**"). Such general restriction will also apply in the case

of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU credit rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended).

Each of Moody's and Fitch is established in the European Union and has been registered under the CRA Regulation.

Credit Ratings

It is a condition of the issue of the Rated Notes that they are assigned the ratings indicated in the table on page vi of this Prospectus. The rating of the Rated Notes by Fitch addresses the likelihood of (a)(i) the timely payment of interest due on the Rated Notes on each Payment Date and (ii) ultimate payment of interest due on the Rated Notes by a date that is no later than the Maturity Date and (b) the repayment of principal on the Rated Notes by the Maturity Date. The rating of the Rated Notes by Moody's addresses the expected loss posed to the holders of the Rated Notes by the Maturity Date. Moody's ratings address only the credit risks associated with the transaction. Other non-credit risks have not been addressed, but may have a significant effect on yield to investors.

The ratings assigned to the Rated Notes do not represent any assessment of the likelihood or level of principal prepayments prior to the Maturity Date. The ratings do not address the possibility that the holders of the Rated Notes might suffer a lower than expected yield due to prepayments or amortisation or may fail to recoup their initial investments.

The ratings assigned to the Rated Notes should be evaluated independently against similar ratings of other types of securities. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal by the Rating Agencies at any time.

The Issuer has not requested a rating of the Rated Notes by any rating agency other than the Rating Agencies; there can be no assurance, however, as to whether or not any other rating agency will rate the Rated Notes or, if it does, what rating would be assigned by such other rating agency. The rating assigned to the Rated Notes by such other rating agency could be lower than the respective ratings assigned by the Rating Agencies.

The Issuer has not requested a rating of the Class D Notes by any rating agency.

Simple, transparent and standardised securitisation

The Securitisation is intended to qualify as a simple, transparent and standardised securitisation ("**STS-securitisation**") within the meaning of Article 18 of Regulation (EU) no. 2017/2402 of 12 December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation and amending Directives 2009/65/EC, 2009/138/EC, 2011/61/EU and Regulations (EC) No. 1060/2009 and (EU) No. 648/2012 (the "**EU Securitisation Regulation**"). Consequently, the Seller believes, to the best of its knowledge, that the Securitisation meets, as at the Note Issuance Date, the requirements of Articles 19 to 22 of the EU Securitisation Regulation and will, prior to the Note Issuance Date, be notified by the Seller, as originator, to be included in the list published by ESMA referred to in Article 27(5) of the EU Securitisation Regulation. The Seller, as originator, has used the services of Prime Collateralised Services (PCS) UK Limited ("**PCS**") as a verification agent authorised under Article 28 of the EU Securitisation Regulation in connection with an assessment of the compliance of the Securitisation with the requirements of Articles 19 to 22 of the EU Securitisation Regulation (the "**STS Verification**") and to prepare an assessment of compliance of the Notes with Articles 243 and 270 of the CRR (together with the STS Verification, the "**STS Assessments**"). It is expected that the STS Assessments prepared by PCS will be available on the PCS website (<https://pcsmarket.org/sts-verification-transactions/>) together with a detailed explanation of its scope (<https://www.pcsmarket.org/disclaimer>). For the avoidance of doubt, this PCS website and the contents thereof do not form part of this Prospectus.

No assurance can be provided that the Securitisation does or will continue to qualify as an STS-securitisation under the EU Securitisation Regulation as at the date of this Prospectus or at any point in time in the future. None of the Issuer, the Purchaser, the Seller, the Reporting Entity, the Arranger, the Joint Lead Managers, the Note Trustee or any other party to the Transaction Documents makes any representation or accepts any liability for the Securitisation to qualify as an STS-securitisation under the EU Securitisation Regulation as at the date of this Prospectus or at any point in time. The "STS" status of the Securitisation may change and prospective investors

should verify the current status of the Securitisation on ESMA's website. Investors should also note that, to the extent that the Securitisation is designated as a "STS-securitisation", such designation of the Securitisation as a "STS-securitisation" is not an assessment by any party as to the creditworthiness of such Securitisation but is instead a reflection that specific requirements of the EU Securitisation Regulation have been met as regards to compliance with the STS-Requirements.

Status of information

Neither the delivery of this Prospectus nor any offering, sale or delivery of any Notes will, under any circumstances, create any implication (i) that the information in this Prospectus is correct as of any time subsequent to the date hereof or, as the case may be, subsequent to the date on which this Prospectus has been most recently amended or supplemented, or (ii) that there has been no adverse change in the financial situation of the Issuer since the date of this Prospectus or, as the case may be, the date on which this Prospectus has been most recently amended or supplemented, or the date of the most recent financial information which is contained in this Prospectus by reference, or (iii) that any other information supplied in connection with the issue of the Notes is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

Prospective investors in the Notes should conduct such independent investigation and analysis as they deem appropriate to evaluate the merits and risks of an investment in the Notes. **If you are in doubt about the contents of this document, you should consult your stockbroker, bank manager, legal adviser, accountant or other financial adviser.** The Arranger, the Joint Lead Managers, the Note Trustee, the Issuer Security Trustee, the Transaction Account Bank, the Purchaser Security Trustee and the Agents make no representation, recommendation or warranty, express or implied, regarding the accuracy, adequacy, reasonableness or completeness of the information contained herein or in any further information, notice or other document which may at any time be supplied by the Issuer in connection with the Notes and do not accept any responsibility or liability therefor. Forward looking statements

Certain matters contained in this Prospectus are forward-looking statements. Such statements appear in a number of places in this Prospectus, including with respect to assumptions on prepayment and certain other characteristics of the Portfolio, and reflect significant assumptions and subjective judgments by the Issuer that may not prove to be correct. Such statements may be identified by reference to a future period or periods and the use of forward-looking terminology such as "may", "will", "could", "believes", "expects", "anticipates", "continues", "intends", "plans" or similar terms. Consequently, future results may differ from the Issuer's expectations due to a variety of factors, including (but not limited to) the economic environment and regulatory changes. This Prospectus also contains certain tables and other statistical analyses (the "**Statistical Information**"). Numerous assumptions have been used in preparing the Statistical Information, which may or may not be reflected in the material. As such, no assurance can be given as to the Statistical Information's accuracy, appropriateness or completeness in any particular context, or as to whether the Statistical Information and/or the assumptions upon which they are based reflect present market conditions or future market performance. The Statistical Information should not be construed as either projections or predictions or as legal, tax, financial or accounting advice. The average life of or the potential yields on any security cannot be predicted, because the actual rate of repayment on the underlying assets, as well as a number of other relevant factors, cannot be determined. No assurance can be given that the assumptions on which the possible average lives of or yields on the securities are made will prove to be realistic. None of the Transaction Parties has attempted to verify any forward-looking statements or Statistical Information, nor does it make any representations, express or implied, with respect thereto. Prospective investors should therefore not place undue reliance on any of these forward-looking statements or Statistical Information. None of the Transaction Parties assumes any obligation to update these forward-looking statements or Statistical Information or to update the reasons for which actual results could differ materially from those anticipated in the forward-looking statements or Statistical Information, as applicable.

Offer/Distribution Restrictions

No action has been taken by the Issuer or the Joint Lead Managers other than as set out in this Prospectus that would permit a public offering of the Notes, or possession or distribution of this Prospectus or any other offering material, in any country or jurisdiction where action for that purpose is required. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither this Prospectus (nor any part thereof) nor any other information memorandum, prospectus, form of application, advertisement, other offering material or other information may be issued, distributed or published in any country or jurisdiction except in compliance with applicable laws, orders, rules and regulations and the Issuer and the Joint Lead Managers have represented that all offers and sales by them have been and will be made on such terms.

This Prospectus may be distributed and its contents disclosed only to the prospective investors to whom it is provided. By accepting delivery of this Prospectus, the prospective investors agree to these restrictions.

The distribution of this Prospectus (or any part thereof) and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Prospectus (or any part hereof) comes are required by the Issuer and the Joint Lead Managers to inform themselves about and to observe any such restriction.

THE NOTES HAVE NOT BEEN, AND WILL NOT BE, REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**") OR THE SECURITIES LAWS OR "BLUE SKY" LAWS OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES. ACCORDINGLY, THE NOTES MAY NOT BE OFFERED, SOLD OR DELIVERED WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND IN ACCORDANCE WITH APPLICABLE STATE OR LOCAL SECURITIES LAWS. EACH JOINT LEAD MANAGER HAS REPRESENTED AND AGREED THAT IT HAS NOT OFFERED AND SOLD THE NOTES, AND WILL NOT OFFER AND SELL THE NOTES (I) AS PART OF ITS DISTRIBUTION AT ANY TIME AND (II) OTHERWISE UNTIL FORTY (40) CALENDAR DAYS AFTER THE COMPLETION OF THE DISTRIBUTION OF ALL NOTES ONLY IN ACCORDANCE WITH RULE 903 OF REGULATION S PROMULGATED UNDER THE SECURITIES ACT. NONE OF THE JOINT LEAD MANAGERS, THEIR RESPECTIVE AFFILIATES OR ANY PERSONS ACTING ON THEIR BEHALF HAVE ENGAGED OR WILL ENGAGE IN ANY DIRECTED SELLING EFFORTS WITH RESPECT TO THE NOTES, AND THEY HAVE COMPLIED AND WILL COMPLY WITH THE OFFERING RESTRICTIONS REQUIREMENTS OF REGULATION S UNDER THE SECURITIES ACT.

AT OR PRIOR TO CONFIRMATION OF SALE OF NOTES, EACH JOINT LEAD MANAGER WILL HAVE SENT TO EACH DISTRIBUTOR, DEALER OR PERSON RECEIVING A SELLING CONCESSION, FEE OR OTHER REMUNERATION THAT PURCHASES NOTES FROM IT DURING THE RESTRICTED PERIOD A CONFIRMATION OR NOTICE TO SUBSTANTIALLY THE FOLLOWING EFFECT:

"THE SECURITIES COVERED HEREBY HAVE NOT BEEN REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**"), OR THE SECURITIES LAWS OR "BLUE SKY" LAWS OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES. ACCORDINGLY, THE NOTES MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATIONS UNDER THE SECURITIES ACT ("**REGULATION S**")) (X) AS PART OF THEIR DISTRIBUTION AT ANY TIME OR (Y) OTHERWISE UNTIL FORTY (40) CALENDAR DAYS AFTER THE COMPLETION OF THE DISTRIBUTION OF THE SECURITIES AS DETERMINED AND CERTIFIED BY EACH JOINT LEAD MANAGER, EXCEPT IN EITHER CASE IN ACCORDANCE WITH REGULATION S. TERMS USED ABOVE HAVE THE MEANING GIVEN TO THEM BY REGULATION S.

TERMS USED IN THE FOREGOING PARAGRAPH HAVE THE MEANING GIVEN TO THEM BY REGULATION S."

THE TRANSACTION WILL NOT INVOLVE RISK RETENTION BY THE SELLER (AS SUCH TERM IS DEFINED BELOW) FOR PURPOSES OF THE FINAL RULES PROMULGATED UNDER SECTION 15G OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED (THE "**U.S. RISK RETENTION RULES**") AND THE ISSUANCE OF THE NOTES WAS NOT DESIGNED TO COMPLY WITH THE U.S. RISK RETENTION RULES. THE SELLER INTENDS TO RELY ON AN EXEMPTION PROVIDED FOR IN SECTION 20 OF THE U.S. RISK RETENTION RULES REGARDING NON-U.S. TRANSACTIONS THAT MEET CERTAIN REQUIREMENTS CONSEQUENTLY, EXCEPT WITH THE PRIOR WRITTEN CONSENT OF THE SELLER (A "**U.S. RISK RETENTION CONSENT**") AND WHERE SUCH SALE FALLS WITHIN THE EXEMPTION PROVIDED BY SECTION 20 OF THE U.S. RISK RETENTION RULES, ANY NOTES OFFERED AND SOLD BY THE ISSUER MAY NOT BE PURCHASED BY, OR FOR THE ACCOUNT OR BENEFIT OF, ANY "U.S. PERSON" AS DEFINED IN THE U.S. RISK RETENTION RULES ("**RISK RETENTION U.S. PERSONS**"). PROSPECTIVE INVESTORS SHOULD NOTE THAT THE DEFINITION OF "U.S. PERSON" IN THE U.S. RISK RETENTION RULES IS SUBSTANTIALLY SIMILAR TO, BUT NOT IDENTICAL TO, THE DEFINITION OF "U.S. PERSON" IN REGULATION S. EACH PURCHASER OF SUCH NOTES OR A BENEFICIAL INTEREST THEREIN ACQUIRED IN THE INITIAL SYNDICATION OF THE NOTES, BY ITS ACQUISITION OF THE NOTES OR A BENEFICIAL INTEREST THEREIN WILL BE DEEMED AND IN CERTAIN CIRCUMSTANCES WILL BE REQUIRED TO MAKE CERTAIN REPRESENTATIONS AND AGREEMENTS, (INCLUDING AS A CONDITION TO ACCESSING OR OTHERWISE OBTAINING A COPY OF THE PROSPECTUS, THE PROSPECTUS OR OTHER OFFERING MATERIALS RELATING TO THE NOTES) INCLUDING THAT EACH PURCHASER (1) EITHER (i) IS NOT A RISK RETENTION U.S. PERSON OR (ii) HAS OBTAINED A U.S. RISK RETENTION CONSENT, (2) IS ACQUIRING SUCH NOTE OR BENEFICIAL INTEREST THEREIN FOR ITS OWN ACCOUNT AND NOT WITH A VIEW TO DISTRIBUTE SUCH NOTE, AND (3) IS NOT ACQUIRING SUCH NOTE OR A BENEFICIAL INTEREST THEREIN AS PART OF A SCHEME TO EVADE THE REQUIREMENTS OF THE U.S. RISK RETENTION RULES (INCLUDING ACQUIRING SUCH NOTE THROUGH A NON-RISK RETENTION U.S. PERSON, RATHER THAN A RISK RETENTION U.S. PERSON, AS PART OF A SCHEME TO EVADE THE 10 PER CENT. RISK RETENTION U.S. PERSON LIMITATION IN THE EXEMPTION PROVIDED FOR IN SECTION 20 OF THE U.S. RISK RETENTION RULES). SEE "*RISK FACTORS – U.S. RISK RETENTION REQUIREMENTS*".

This Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any securities other than the securities to which it relates or an offer to sell or the solicitation of an offer to buy any of the securities offered hereby in any circumstances in which such offer or solicitation is unlawful. This Prospectus does not constitute, and may not be used for, or in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it is unlawful to make such offer or solicitation. For a further description of certain restrictions on offerings and sales of the Notes and distribution of this Prospectus, or an invitation by, or on behalf of, the Issuer or the Joint Lead Managers to subscribe for or to purchase any of the Notes (or of any part thereof), see "*Subscription and Sale*".

Volcker Rule

On 10 December 2013, five U.S. financial regulators approved a final rule to implement Section 13 of the Bank Holding Company Act of 1956 commonly known as the "**Volcker Rule**". Subject to certain exceptions, the Volcker Rule prohibits sponsorship of, and investment in, "covered funds" by "banking entities", a term that includes most internationally active banking organisations and their respective affiliates although a banking entity may sponsor and invest in a "covered fund" in certain limited circumstances and subject to a number of exceptions. The Volcker Rule includes as a "covered fund" any entity that would be an "investment company" but for the exemptions provided by Section 3 of the Investment Company Act of 1940, as amended (the "**Investment Company Act**"). A sponsor or adviser to a covered fund is prohibited from entering into certain "covered transactions" with that covered fund. Covered transactions include (among other things) entering into a swap transaction or guaranteeing notes if such swap or guarantee would result in a credit exposure to the covered fund.

Not all investment vehicles or funds, however, fall within the definition of a "covered fund" for the purposes of the Volcker Rule. For example, the Issuer may be regarded as exempt from the definition of "investment company" under the Investment Company Act pursuant to Section 3(c)(5) thereunder. However, if the Issuer is deemed to be a "covered fund", the provisions of the Volcker Rule and its related regulatory provisions, will severely limit the ability of "banking entities" to hold an "ownership interest" in the Issuer or enter into certain credit related financial transactions with the Issuer and this could adversely impact the ability of the banking entity to enter into new transactions with the Issuer and may require amendments to certain existing transactions and arrangements. "Ownership interest" is defined to include, among other things, interests arising through a holder's exposure to profits and losses in the covered fund or through any right of the holder to participate in the selection of an investment manager or advisor or the board of directors of such covered fund.

There is limited interpretive guidance regarding the Volcker Rule, and implementation of the regulatory framework for the Volcker Rule is still evolving. The Volcker Rule's prohibitions and lack of interpretive guidance could negatively impact the liquidity and value of the Notes. Any entity that is a "banking entity" as defined under the Volcker Rule and is considering an investment in the Notes should consider the potential impact of the Volcker Rule in respect of such investment and on its portfolio generally.

Each prospective investor must determine for itself whether it is a banking entity subject to regulation under the Volcker Rule. Neither the Issuer nor the Arranger nor the Joint Lead Managers makes any representation regarding the ability of any purchaser to acquire or hold the Notes, now or at any time in the future

Prospective investors for whom the Volcker Rule may be relevant are required (in consultation with their advisers) to independently assess, and reach their own views on, the effect that that legislation may have on the merits and risks of an investment in the Notes.

The Issuer is of the view that it is not now and immediately following the issuance of the Notes and the application of the proceeds thereof it will not be, a "covered fund" as defined in the regulations adopted under Section 13 of the Bank Holding Company Act of 1956, as amended, commonly known as the "Volcker Rule". Although other exclusions may be available to the Issuer, this conclusion is based on the determination that the Issuer may rely on the exemption from the definition of "investment company" in the Investment Company Act of 1940, as amended, provided by Section 3(c)(5)(c) thereunder. Any prospective investor in the Notes, including a bank or a subsidiary or other affiliate thereof, should consult its own legal advisors regarding the Volcker Rule and its effects.

Benchmark Regulations

Amounts payable on the Class A Notes and the Class B Notes are calculated by reference to EURIBOR. As at the date of this prospectus, the administrator of EURIBOR, the European Money Markets Institute, appears on ESMA's register of administrators under Article 36 of the Regulation (EU) No. 2016/1011 (the "**Benchmarks Regulation**").

Prohibition of Sales to European Economic Area Retail Investors

The Notes are not intended to be offered, sold or otherwise made available to any retail investor in the European Economic Area. For these purposes, a "**retail investor**" means a person who is one (or more) of: (a) a retail client as defined in point (11) of Article 4 (1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (b) a customer within the meaning of Directive 2016/97/EU (as amended or superseded, the "**Insurance Distribution**

Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Accordingly, none of the Issuer, the Arranger or the Joint Lead Managers expects to be required to prepare, and none of them has prepared, or will prepare, a "key information document" in respect of the Notes for the purposes of Regulation (EU) No 1286/2014 of 26 November 2014 on key information documents for packaged retail and insurance-based investment products (as amended, the "**PRIIPs Regulation**").

Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturers' target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

An investment in the Notes is only suitable for financially sophisticated investors who are capable of evaluating the merits and risks of such investment and who have sufficient resources to be able to bear any losses which may result from such investment. It should be remembered that the price of securities and the income from them can go down as well as up.

RISK FACTORS

The following is a summary of certain factors which prospective investors should consider before deciding to purchase the Notes. The following statements are not exhaustive; prospective investors are requested to consider all the information in this Prospectus (including "Legal Matters - Finland)", make such other enquiries and investigations as they consider appropriate and reach their own views prior to making any investment decisions.

The Issuer believes that the factors described below represent the material risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons which may not be considered material risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate. Furthermore, prospective investors should consider the potential interplay of multiple risk factors, since where more than one risk materialises the potential loss to an investor may be significantly increased. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and, in the light of their own financial circumstances and investment objectives, reach their own views prior to making any investment decision.

The Issuer believes that the following factors may be relevant to it and its business. All of these factors involve contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

Except as is otherwise stated below, such risk factors are generally applicable to all Classes of Notes, although the degree of risk associated with each Class of Notes will vary in accordance with the position of such Class of Notes in the applicable Issuer Priorities of Payments.

Credit aspects of the Transaction and other considerations relating to the Notes

Suitability

An investment in the Notes is only suitable for investors experienced in financial matters who are in a position to fully assess the risks relating to such an investment and who have sufficient financial means to suffer any potential loss stemming therefrom. Each potential investor should ensure that it understands the nature of such Notes and the extent of its exposure to risk, that it has sufficient knowledge, experience and/or access to professional advisers to make its own legal, tax, regulatory, accounting and financial evaluation of the merits and risks of investment in such Notes and that it considers the suitability of such Notes as an investment in light of their own circumstances and financial condition and that of any accounts for which they are acting.

Liability under the Notes, limited recourse

The Notes represent obligations of the Issuer only, and do not represent obligations of, and are not guaranteed by, any other person or entity. In particular, the Notes do not represent obligations of, and will not be guaranteed by, any of the Arranger, the Joint Lead Managers, the Listing Agent, any Transaction Party or any of their respective Affiliates or any Affiliate of the Issuer or any other third person or entity other than the Issuer. No person other than the Issuer will accept any liability whatsoever to the Noteholders in respect of any failure by the Issuer to pay any amount due under the Notes.

Prior to the delivery by the Note Trustee of an Enforcement Notice, all payment obligations of the Issuer under the Notes constitute exclusive obligations to pay out on each Payment Date the Issuer Pre-Enforcement Available Revenue Receipts determined as of the Cut-Off Date immediately preceding such Payment Date in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments and the Issuer Pre-Enforcement Available Redemption Receipts determined as of the Cut-Off Date immediately preceding such Payment Date in accordance with the Issuer Pre-Enforcement Redemption Priority of Payments. After the delivery by the Note Trustee of an Enforcement Notice, all payment obligations of the Issuer under the Notes constitute exclusive obligations to pay out on each Payment Date the Issuer Post-Enforcement Available Distribution Amount as at such Payment Date in accordance with the Issuer Post-Enforcement Priority of Payments. If, following enforcement of the security over the Issuer Secured Assets, the proceeds of such enforcement prove ultimately insufficient, after payment of all claims ranking in priority to amounts due under the Notes, to pay in full all principal and interest and other amounts whatsoever due in respect of the Notes, any shortfall arising will be extinguished and the Noteholders will neither have any further claim against the Issuer in respect of any such amounts nor have recourse to any

other person for the loss sustained. The enforcement of the security over the Issuer Secured Assets by the Issuer Security Trustee is the only remedy available to the Noteholders for the purpose of recovering amounts payable in respect of the Notes. Such assets and proceeds of the Issuer will be deemed to be "ultimately insufficient" at such time as no further assets of the Issuer are available and no further proceeds can be realised therefrom to satisfy any outstanding claim of the Noteholders, and neither assets nor proceeds will be so available thereafter.

The Issuer's primary asset will be its rights under the Loan Agreement and the related security created by the Purchaser. Neither the Issuer nor the Noteholders will have any direct interest in the Portfolio, although the Issuer will share in the benefit of a security interest created by the Purchaser over its rights to the Purchased HP Contracts. The Finnish Pledge Authorised Representative, the Issuer and the other Purchaser Secured Parties will not be able to exercise any rights in relation to the Portfolio beyond those which may be exercised by the Purchaser. The Purchaser's and the Purchaser Secured Parties' rights in relation to the Portfolio will be limited to the rights which the Seller had under the Purchased HP Contracts and applicable law to enforce the Purchased HP Contracts. Enforcement against a Debtor can only take place if, among other things, the relevant Purchased HP Contract is in default.

Non-existence of the Purchased HP Contracts

If any of the Purchased HP Contracts has not come into existence at the time of their transfer to the Purchaser under the Auto Portfolio Purchase Agreement, or are subject to any encumbrances, there is a risk that such transfer would not result in the Purchaser acquiring title to the Purchased HP Contract or (in the case of any encumbrances) that the Purchaser would acquire the Seller's title to the Purchased HP Contract subject to any such encumbrances. The Seller has also agreed in the Auto Portfolio Purchase Agreement that, if a Purchased HP Contract proves not to have been legally valid as of the Purchase Date, the Seller will repurchase such Purchased HP Contract at a repurchase price equal to the Outstanding Principal Amount of such Purchased HP Contract plus accrued and unpaid finance charges and certain other amounts.

Limited resources of the Issuer

The Issuer is a special purpose financing entity with no business operations other than the issue of the Notes and entering into the Transaction Documents including the Loan Agreement.

Therefore, the ability of the Issuer to meet its obligations under the Notes will depend, *inter alia*, upon its receipt of:

- (a) payments of principal and interest and certain other payments received under the Loan Agreement;
- (b) payments (if due) from the Swap Counterparty under the Swap Agreement;
- (c) interest (or other forms of return, as applicable) earned on the Issuer Secured Accounts and Permitted Investments; and
- (d) payments (if any) under the other Transaction Documents in accordance with the terms thereof. Other than the foregoing, the Issuer will have no funds available to meet its obligations under the Notes.

If there is a shortfall between the interest and/or principal amounts payable by the Purchaser to the Issuer in respect of the Loan under the Loan Agreement and the amounts payable by the Issuer on the Notes, then the Noteholders may not, depending on what other sources of funds are available to the Issuer and the Purchaser, receive the full amount of interest and/or principal which would otherwise be due and payable on the Notes.

In addition, in the event of an early redemption of the Notes in accordance with Note Condition 5.3 (*Optional redemption following exercise of clean-up call option*), Note Condition 5.4 (*Optional redemption for taxation reasons*), the funds available to the Issuer to redeem the Notes of the relevant Classes shall be limited to either:

- (a) the Final Repurchase Price, received by the Purchaser from the Seller (with respect to Note Condition 5.3 (*Optional redemption following exercise of clean-up call option*) and Note Condition 5.4 (*Optional redemption for taxation reasons*)) and subsequently received by the Issuer from the Purchaser in accordance with the applicable Purchaser Pre-Enforcement Priority of Payments; or

- (b) the Seller Loan Purchase Price, received from the Seller (with respect to Note Condition 5.5 (*Optional redemption for regulatory reasons*)),

in each case, as determined on the Cut-Off Date immediately preceding the relevant Early Redemption Date. There can be no guarantee that such amounts shall be sufficient to repay all amounts of principal and interest outstanding under each Class of Notes that shall be redeemed on the applicable Early Redemption Date and following distribution of such amounts in accordance with the Issuer Pre-Enforcement Priority of Payments the relevant Noteholders shall not receive any further payments of interest or principal on the redeemed Notes and the Notes of each affected Class shall be cancelled on such Early Redemption Date.

Limited resources of the Purchaser

The Purchaser is a special purpose financing entity with no business operations other than acquiring, owning and collecting and financing the Portfolio and entering into the Transaction Documents.

Therefore, the ability of the Purchaser to meet its obligations under the Loan Agreement will depend, *inter alia*, upon its receipt of:

- (a) payments of principal and interest received under the Purchased HP Contracts;
- (b) Deemed Collections (if due) and certain other payments received from the Seller under the Auto Portfolio Purchase Agreement;
- (c) interest earned on the Purchaser Transaction Account and Permitted Investments;
- (d) amounts paid by any third party upon the resale of Defaulted HP Contracts or the disposal of Financed Vehicles; and
- (e) payments (if any) under the other Transaction Documents in accordance with the terms thereof.

Other than the foregoing, the Purchaser will have no funds available to meet its obligations under the Loan Agreement. For a discussion of certain factors which may adversely affect the amounts received by the Purchaser and therefore the Issuer's ability to make payments on the Notes, please see "Risk Factors – Amounts available to make payment on the Notes may be reduced as a result of counter-claims Debtors have against the Dealer or the Seller", "*Risk Factors – Risk of losses on the Portfolio*" and "*Risk Factors – Risk of early repayment*".

Subordination

The Issuer's obligations under the Swap Agreement and the Issuer Subordinated Loan advanced under the Auto Portfolio Purchase Agreement will be secured by the Issuer Secured Assets and such obligations (excluding termination payments due to the Swap Counterparty because of (i) an event of default under the Swap Agreement where the Swap Counterparty is the defaulting party or (ii) an additional termination event under the Swap Agreement as a result of a Ratings Downgrade of the Swap Counterparty) will rank, in respect of payment and security following the delivery by the Note Trustee of an Enforcement Notice, in priority to payments of interest and principal due on the Notes. The senior ranking of each Swap Agreement and the Issuer Subordinated Loan advanced under the Auto Portfolio Purchase Agreement may result in insufficient funds being available to make required payments of interest and/or principal on the Notes.

In certain circumstances (described further below), the holders of the Class B Notes, the Class C Notes and the Class D Notes will be subject to greater risk because of subordination. No payments of interest or principal will be made on any Class of the Notes until all of the Issuer's fees and expenses that, in accordance with the Issuer Priorities of Payments, rank ahead of such payments on the Notes and which are then due are paid in full. In addition:

- (a) the Class B Notes will bear a greater risk of loss than the Class A Notes because:
 - (i) prior to the service of an Enforcement Notice:

- (A) no payments of interest will be made on the Class B Notes until all amounts of interest on the Class A Notes then due have been paid in full;
 - (B) and prior to the occurrence of a *Pro rata* Trigger Event and following the occurrence of a Sequential Payment Trigger Event, no payments of principal will be made on the Class B Notes until all amounts of principal on the Class A Notes then due have been paid in full; and
 - (ii) (following the service of an Enforcement Notice, no payments of interest or principal will be made on the Class B Notes until all amounts of interest and principal on the Class A Notes have been paid in full;
- (b) the Class C Notes will bear a greater risk of loss than the Class A Notes and the Class B Notes because:
- (i) prior to the service of an Enforcement Notice:
 - (A) no payments of interest will be made on the Class C Notes until all amounts of interest on the Class A Notes and the Class B Notes then due have been paid in full;
 - (B) and prior to the occurrence of a *Pro rata* Trigger Event and following the occurrence of a Sequential Payment Trigger Event, no payments of principal will be made on the Class C Notes until all amounts of principal on the Class A Notes and the Class B Notes then due have been paid in full; and
 - (ii) following the service of an Enforcement Notice, no payments of interest or principal will be made on the Class C Notes until all amounts of interest and principal on the Class A Notes and the Class B Notes have been paid in full; and
- (c) the Class D Notes will bear a greater risk of loss than the Class A Notes, the Class B Notes and the Class C Notes because:
- (i) prior to the service of an Enforcement Notice:
 - (A) no payments of interest will be made on the Class D Notes until all amounts of interest on the Class A Notes, the Class B Notes and the Class C Notes then due have been paid in full;
 - (B) and prior to the occurrence of a *Pro rata* Trigger Event and following the occurrence of a Sequential Payment Trigger Event, no payments of principal will be made on the Class D Notes until all amounts of principal on the Class A Notes, the Class B Notes and the Class C Notes then due have been paid in full; and
 - (ii) following the service of an Enforcement Notice, no payments of interest or principal will be made on the Class D Notes until all amounts of interest and principal on the Class A Notes, the Class B Notes and the Class C Notes have been paid in full.

Resolutions of Noteholders

The Note Conditions provide for resolutions of Noteholders of each Class to be passed by a vote taken and passed at a Meeting of the Noteholders or by a written resolution. Each Noteholder is subject to the risk of being outvoted. As resolutions properly adopted are binding on all Noteholders of such Class, certain rights of such Noteholders against the Issuer under the Note Conditions may be amended, reduced or even cancelled.

Resolutions of the Senior Class of Notes will bind holders of the other Classes of Notes, save where they relate to a Reserved Matter. However, holders of the other Classes of Notes may not bind holders of the Senior Class of

Notes. Any Extraordinary Resolution involving a Reserved Matter that is passed by the holders of one Class of Notes will not be effective unless it is sanctioned by an Extraordinary Resolution of the holders of each of the other Classes of Notes then Outstanding. Subject to the foregoing, any resolution passed at a Meeting of Noteholders (other than an Extraordinary Resolution involving a Reserved Matter), duly convened and held in accordance with the Note Trust Deed, will be binding upon all Noteholders, regardless of Class.

The Notes and the Note Trust Deed also provide that the Note Trustee may agree, or may direct the Issuer Security Trustee or the Purchaser Security Trustee to agree, without the consent of the Noteholders:

- (a) (i) to any modification of the Notes and the Transaction Documents, or the waiver or authorisation of certain breaches or proposed breaches of the Notes or any of the Transaction Documents, which, in the opinion of the Note Trustee, will not be materially prejudicial to the interests of the holders of the Senior Class of Notes, (ii) to any modification which, in the opinion of the Note Trustee, is of a formal, minor or technical nature or is to correct a manifest error or (iii) to any modification which has been certified by the Servicer as being necessary (A) for the purposes of complying with, or implementing or reflecting, any change in the criteria of one or more of the Rating Agencies which may be applicable from time to time, (B) for the purposes of complying with any changes in the requirements of the EU Securitisation Regulation after the Note Issuance Date, (C) for the purposes of enabling the Notes to be (or to remain) listed on Euronext Dublin or any other stock exchange on which the Notes are listed, (D) for the purposes of enabling the Issuer or any of the other Issuer Secured Parties to comply with FATCA (or any voluntary agreement entered into with a taxing authority in relation thereto), (E) for the purpose of complying with any changes in the requirements of the CRA Regulation after the Note Issuance Date, including as a result of the adoption of regulatory technical standards in relation to the CRA Regulation or regulations or official guidance in relation thereto, (F) for the purposes of enabling the Issuer and/or the Swap Counterparty to comply with any obligation which applies to it under EMIR, (G) for as long as the Notes are intended to be held in a manner which will allow for Eurosystem eligibility (the criteria in respect of which are currently set out in the Guideline (EU) 2015/510 of the European Central Bank (the "**ECB**") of 19 December 2014 on the implementation of the Eurosystem monetary policy framework (ECB/2014/60), recast (the "**2015 Guideline**"), for the purposes of maintaining such eligibility, (H) for the purposes of enabling the transactions effected by the Transaction Documents to constitute a transfer of significant credit risk within the meaning of Article 243(2) of the CRR, (I) for the purpose of complying with the EU Securitisation Regulation, including any of the requirements for STS-securitisations set out in the EU Securitisation Regulation and in any Regulatory Technical Standards authorised under the EU Securitisation Regulation, (J) for the purpose of effecting a Base Rate Modification pursuant to Note Condition 4.5 (*Interest Rate*) and (K) for the purpose of changing the base rate that then applies in respect of the Swap Agreement to an alternative base rate as is necessary or advisable in the commercially reasonable judgment of the Issuer (or the Servicer on its behalf) and the Swap Counterparty solely as a consequence of a Base Rate Modification and solely for the purpose of aligning the base rate of each Swap Agreement to the Alternative Base Rate of the Class A Notes and the Class B Notes following such Base Rate Modification, (L) on or after the Regulatory Call Redemption Date, in order to: (i) achieve in respect of the parties to the Transaction Documents (other than, for the avoidance of doubt, the Seller) an equivalent economic effect as the position under the Transaction Documents on the date immediately prior to the Regulatory Call Early Redemption Date; (ii) reflect, as applicable: (A) the purchase all of the Issuer's rights, title, interest and benefit in, to and under the Available Junior Loan Tranches by the Seller; or (B) the advance by, and, without limitation, the repayment of the Seller Loan to, the Seller, by amending, without limitation and to the extent necessary or desirable, the Issuer Priorities of Payments, the Purchaser Priorities of Payments, the tranching of the Loan and the establishment of a principal deficiency ledger for the purposes of the Loan on equivalent economic terms, and to achieve an equivalent economic result, as the Principal Deficiency Ledger; and (iii) facilitate the accession of the Seller to any relevant Transaction Documents, provided that the Servicer on behalf of the Issuer certifies to the Note Trustee in writing that such modification is required solely for such purposes and has been drafted solely to such effects and provided further that no such modification, waiver and/or additions are materially prejudicial to the interests of the Senior Class of Notes then Outstanding **provided**, in the case of limbs (iii)(B), (C), (D), (E), (F), (G) and (H) above and, in some circumstances, in the case of limb (iii)(A) and limb (J) above, that, *inter alia*, such modification has been notified to the Rating Agencies and, based upon such notification, the Servicer is not aware that the then current ratings of the Rated Notes would be adversely affected by such modification; and
- (b) subject to certain conditions in the Note Trust Deed being complied with, to the substitution of the Issuer for another entity.

The Transaction Documents provide that, subject to certain conditions, the Note Trustee will agree, without the consent of the Noteholders, to the substitution of the Seller, the Servicer and/or the Subordinated Loan Provider for another entity which acquires all or substantially all of the automotive finance business of the Seller, the Servicer and/or the Subordinated Loan Provider and the amendment of certain of the Transaction Documents in connection therewith.

Interest Rate Risk

Payments made to the Seller by any Debtor under a HP Contract comprise monthly amounts calculated with respect to a fixed interest rate which may be different from EURIBOR (and therefore payments made by the Purchaser to the Issuer under the Loan Agreement will reflect these fixed interest rate receipts). However, payments of interest on the Class A Notes and Class B Notes are calculated with respect to EURIBOR plus the applicable margin (subject to a floor of zero).

To ensure that the Issuer will not be exposed to any material interest rate discrepancy, the Issuer and the Swap Counterparty have entered into the Swap Agreement in respect of the Class A Notes (the "**Class A Swap Transaction**") and the Class B Notes (the "**Class B Swap Transaction**"). Under the Class A Swap Transaction, on each Payment Date (A) the Issuer will make payments to the Swap Counterparty based on a fixed rate of 0.2506 per cent. per annum, applied to the Class A Swap Notional Amount and (B) the Swap Counterparty will pay to the Issuer an amount calculated on the basis of the product of (i) the Interest rate payable in respect of all Class A Notes on the relevant Payment Date (ii) the Class A Swap Notional Amount on the immediately preceding Payment Date (after the making of all payments on such date) and (iii) the actual number of days in the applicable Interest Period in respect of which payment is being made divided by 360. Under the Class B Swap Transaction, on each Payment Date (A) the Issuer will make payments to the Swap Counterparty based on a fixed rate of 0.2755 per cent. per annum, applied to the Class B Swap Notional Amount and (B) the Swap Counterparty will pay to the Issuer an amount calculated on the basis of the product of (i) the Interest rate payable in respect of all Class B Notes on the relevant Payment Date (ii) the Class B Swap Notional Amount on the immediately preceding Payment Date (after the making of all payments on such date) and (iii) the actual number of days in the applicable Interest Period in respect of which payment is being made divided by 360.

A default by the Swap Counterparty of its obligations under the Swap Agreement may lead to the Issuer not having sufficient funds to meet its obligations to pay interest on the Class A Notes and/or the Class B Notes and/or, in turn, other Classes of Notes. See "*Credit Structure – Swap Agreement*" and "*Outline of the Other Principal Transaction Documents – The Swap Agreement*".

Swap Agreement

If the Swap Counterparty defaults in respect of its obligations under the Swap Agreement which results in a termination of the Swap Agreement, prior to the service by the Note Trustee of an Enforcement Notice or the redemption in full of the Class A Notes or the Class B Notes, the Issuer will use commercially reasonable efforts to enter into a replacement arrangement with another appropriately rated entity. A failure to enter into such a replacement arrangement may result in the downgrading of the rating or ratings of the Class A Notes, the Class B Notes and/or other Classes of Notes. If a replacement arrangement is put in place, its terms may be less favourable than those in the original arrangement due, for example, to changes in economic conditions. See "*Outline of the Other Principal Transaction Documents – The Swap Agreement*".

Swap termination payments

If the Swap Agreement terminates, the Issuer may be obliged to pay a termination payment to the Swap Counterparty. The amount of any termination payment will be based on the market value of the terminated swap based on market quotations of the cost of entering into a swap with the same terms and conditions that would have the effect of preserving the respective full payment obligations of the parties (or based upon loss in the event that market quotation cannot be determined). There can be no assurance that the Issuer will have sufficient funds available to make any termination payment under the relevant Swap Agreement or that the Issuer, following termination of the Swap Agreement, will have sufficient funds to make subsequent payments to the Noteholders in respect of the Class A Notes, the Class B Notes and/or, in turn, other Classes of Notes.

Except where the Swap Counterparty has caused the Swap Agreement to terminate by its default or an Additional Termination Event (as defined in the Swap Agreement) occurs under the Swap Agreement as a result of a Ratings Downgrade of the Swap Counterparty, any termination payment in respect of the Swap Agreement due from the

Issuer will rank in priority to payments of interest due on the Notes. Therefore, if the Issuer is obliged to make a termination payment to the Swap Counterparty or to pay any other additional amount as a result of the termination of the Swap Agreement, this may reduce or otherwise adversely affect the amount of funds which the Issuer has available to make payments on the Notes.

If the Swap Agreement terminates, there can be no assurance that the Issuer will be able to enter into a replacement swap agreement with a replacement swap counterparty with the Required Rating, to prevent the downgrading of the then current rating or ratings of the Notes by the Rating Agencies.

Insolvency of the Swap Counterparty

In the event of the insolvency of the Swap Counterparty, the Issuer will be treated as a general creditor of the Swap Counterparty. Consequently, the Issuer will be subject to the credit risk of the Swap Counterparty. To mitigate this risk, under the terms of the Swap Agreement, in the event that the relevant ratings of the Swap Counterparty fail to meet the relevant Required Ratings, the Swap Counterparty will, in accordance with the terms of the Swap Agreement, be required to elect to take certain remedial measures within the applicable time frame stipulated in the Swap Agreement (at its own cost) which may include providing collateral for its obligations under the Swap Agreement, arranging for its obligations under the Swap Agreement to be transferred to an entity with the relevant Required Ratings, or procuring another entity with the Required Ratings to become co-obligor or guarantor, as applicable, in respect of its obligations under the Swap Agreement. However, no assurance can be given that, at the time that such actions are required, sufficient collateral will be available to the Swap Counterparty or that another entity with the Required Ratings will be available to become a replacement swap counterparty, co-obligor or guarantor or that the Swap Counterparty will be able to take the requisite other action.

Priorities of payment in the Swap Counterparty's insolvency

There is uncertainty as to the validity and/or enforceability of a provision which (based on contractual and/or trust principles) subordinates certain payment rights of a creditor to the payment rights of other creditors of its counterparty upon the occurrence of insolvency proceedings relating to that creditor. In particular, recent cases have focused on provisions involving the subordination of a swap counterparty's payment rights in respect of certain termination payments upon the occurrence of insolvency proceedings or other default on the part of such counterparty. Such provisions are similar in effect to the terms included in the Transaction Documents relating to the subordination of certain payments under the Swap Agreement.

The Supreme Court of the United Kingdom in *Belmont Park Investments Pty Limited (Respondent) v BNY Corporate Trustee Services Limited and Lehman Brothers Special Financing Inc.* [2011] UKSC 38 unanimously upheld the decision of the Court of Appeal in upholding the validity of similar "flip" priorities of payment, stating that, provided that such provisions formed part of a commercial transaction entered into in good faith which did not have, as its predominant purpose or one of its main purposes, the deprivation of the property of one of the parties on bankruptcy, the anti-deprivation principle was not breached by such provisions. On that basis, such provisions would be enforceable as a matter of English law.

In contrast, the U.S. Bankruptcy Court for the Southern District of New York in *Lehman Brothers Special Financing Inc. v. BNY Corporate Trustee Services Limited (in re Lehman Brothers Holdings Inc.)* Adv. Pro. No. 09-1242-JMP (Bankr. S.D.N.Y. May 20, 2009) examined a "flip" clause and held that such a provision, which seeks to modify a creditor's position in a priority of payments when that creditor files for bankruptcy, is unenforceable under the U.S. Bankruptcy Code. Judge Peck acknowledged that this had resulted in the U.S. courts coming to a decision "directly at odds with the judgement of the English Courts". While BNY Corporate Trustee Services Limited filed a motion for, and was granted leave to, appeal with the U.S. Bankruptcy Court, the case was settled before the appeal was heard. On 26 June 2016, Judge Shelley Chapman in the same court disagreed with Judge Peck and ruled in a different group of cases commenced by the Lehman Brothers Chapter 11 debtors that a series of flip clauses were enforceable for several reasons, including the protection of those clauses by provisions in the U.S. Bankruptcy Code known as "safe harbors". This ruling is not final and remains subject to possible appeal.

Therefore, English and U.S. courts may potentially take different approaches to "flip" clauses, which (were the Issuer to need to rely upon such a provision) may adversely affect the Issuer's ability to make payments on the Notes. There also remains the issue whether in respect of foreign insolvency proceedings relating to a creditor located in a foreign jurisdiction, an English court will exercise its discretion to recognise the effects of the foreign insolvency proceedings, whether under the Cross Border Insolvency Regulations 2006 or any similar common

law principles. Given the current state of U.S. law, this is likely to be an area of continued judicial uncertainty, particularly in respect of multi-jurisdictional insolvencies.

If a creditor of the Issuer (such as the Swap Counterparty) or a related entity becomes subject to insolvency proceedings in any jurisdiction outside England and Wales, and it is owed a payment by the Issuer (such as a termination payment due under the Swap Agreement which has been subordinated as a result of the Swap Counterparty's insolvency), a question arises as to whether the insolvent creditor or any insolvency official appointed in respect of that creditor could successfully challenge the validity and/or enforceability of subordination provisions included in the English law governed transaction documents (such as a provision relating to the ranking of the Swap Counterparty's payment rights under the Swap Agreement). In particular, based on the 2009 decision of the U.S. Bankruptcy Court referred to above, there is a risk that such subordination provisions would not be upheld under U.S. bankruptcy law. More generally, there can be no assurance that such subordination provisions would be upheld under the insolvency laws of any relevant jurisdiction outside England and Wales.

Given the general relevance of the issues under discussion in the judgments referred to above and that the Transaction Documents include terms providing for the subordination of certain payments under the Swap Agreement, there is a risk that the final outcome of the dispute in such judgments (including any recognition action by the English courts) may result in negative rating pressure in respect of the Notes. If any rating assigned to any of the Notes is lowered, the market value of such Notes may reduce.

Non-petition

The Issuer Security Trustee and the other Issuer Secured Parties (or any other person acting on behalf of any of them) will not be entitled to take any action or commence any proceedings against the Issuer to recover any amounts due and payable by the Issuer under the Transaction Documents except as permitted in the Transaction Documents and will not be entitled to take any action or commence any proceedings or petition a court for the liquidation of the Issuer, nor enter into any arrangement, examinership, reorganisation or insolvency proceedings in relation to the Issuer (save for the appointment of a Receiver in accordance with the provisions of the Issuer Security Documents), whether under the laws of Ireland or other applicable bankruptcy laws.

Credit enhancement limitations

The Class A Notes will benefit from credit enhancement provided by subordination of the Class B Notes, the Class C Notes and the Class D Notes. There can be no assurance that the subordination provisions will protect Class A Notes from all risks of loss. Greater than expected losses on the Portfolio would have the effect of reducing, and could eliminate, the protection against loss afforded by this credit enhancement.

In addition, credit enhancement for the Class A Notes and the Class B Notes will be provided by the Liquidity Reserve. Whilst the Liquidity Reserve is required to be maintained at a fixed amount, the amount of funds that may be available to the Issuer at any time is uncertain and such amount may be lower than expected such that there may be insufficient funds to reserve amounts required under the Issuer Pre-Enforcement Revenue Priority of Payments. Furthermore, after the Note Issuance Date, the Issuer will not be entitled to any further drawings under the Issuer Subordinated Loan to fill or refill the Liquidity Reserve up to the Required Liquidity Reserve Amount or otherwise to make payments in respect of principal or interest on the Notes of any Class. See "*Credit Structure – Purchaser Subordinated Loan*".

Limited secondary market liquidity and market value of Notes

Although application has been made to Euronext Dublin for the Notes to be admitted to the Official List and traded on its regulated market, there is currently a limited secondary market for the Notes. There can be no assurance that a secondary market for the Notes will provide the Noteholders with liquidity of investment, or that it will continue for the whole life of the Notes. Potential investors in the Notes should be aware of the prevailing global credit market conditions and the level of liquidity in the secondary market for instruments similar to the Notes. Such secondary markets have, in the recent past, experienced severe disruptions resulting from reduced investor demand for asset-backed securities and increased investor yield requirements for those securities. As a result, the secondary markets for asset-backed securities have recently experienced extremely limited liquidity. These conditions may return in the future. Limited liquidity in the secondary market may have a severe adverse effect on the market value of asset-backed securities, especially those securities that are more sensitive to prepayment or credit risk and those securities that have been structured to meet the investment requirements of limited categories of investors. Consequently, any purchaser of the Notes must be prepared to hold such Notes for an indefinite period of time or until final redemption or maturity of such Notes. The market values of the Notes are likely to fluctuate. Any such fluctuation may be significant and could result in significant losses to investors in the Notes. In addition, the forced sale into the market of asset-backed securities held by structured investment vehicles, hedge funds, issuers of collateralised debt obligations and any other entities experiencing funding difficulties could adversely affect an investor's ability to sell, and/or the price an investor receives for, the Notes in the secondary market. Neither the Joint Lead Managers nor the Seller is under any obligation to assist in the resale of the Notes.

Ratings of the Rated Notes

The ratings assigned to the Rated Notes by each of the Rating Agencies takes into consideration the structural and legal aspects associated with the Rated Notes and the Portfolio, the credit quality of the Portfolio and the extent to which the Debtors' payments under the Purchased HP Contracts are adequate to make the payments required under the Rated Notes as well as other relevant features of the structure, including, *inter alia*, the credit quality of the Swap Counterparty, the Transaction Account Bank, the Collections Account Bank, the Seller and the Servicer. Each Rating Agency's rating reflects only the view of that Rating Agency. In particular, the ratings of the Rated Notes, by Fitch address the likelihood of (a) (i) the timely payment of interest due on the Rated Notes on each Payment Date and (b) the repayment of principal on the Rated Notes. The ratings of the Rated Notes by Moody's address the expected loss posed to the Noteholders of the Rated Notes by the Maturity Date. Moody's ratings address only the credit risks associated with the transaction. Other non-credit risks have not been addressed, but may have a significant effect on yield to investors.

The Issuer has not requested a rating of the Rated Notes by any rating agency other than the Rating Agencies. However, rating organisations other than the Rating Agencies may seek to rate the Notes and, if such "shadow ratings" or "unsolicited ratings" are lower than the comparable ratings assigned to the Rated Notes by the Rating Agencies, such shadow or unsolicited ratings could have an adverse effect on the value of the Rated Notes. Future events, including events affecting the Swap Counterparty, the Transaction Account Bank, the Collections Account Bank, the Seller and the Servicer, could also have an adverse effect on the rating of the Rated Notes.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the rating organisation. The ratings assigned to the Rated Notes should be evaluated independently from similar ratings on other types of securities. There is no assurance that the ratings will continue for any period of time or that they will not be lowered, reviewed, suspended or withdrawn by the Rating Agencies. In the event that the ratings initially assigned to the Rated Notes by the Rating Agencies are subsequently withdrawn or lowered for any reason, no person or entity is obliged to provide any additional support or credit enhancement to the Rated Notes.

Enforcement by the Note Trustee and the Issuer Security Trustee

The Note Trustee will act as the representative of the Noteholders and, as such, is able to claim and enforce or procure the enforcement of the rights of all the Noteholders. A Noteholder will not have an individual right to pursue and enforce its rights under the Note Conditions against the Issuer, except in limited circumstances where (i) a specified percentage of Noteholders instruct the Note Trustee to take any such action and the Note Trustee fails to do so (or fails to so instruct the Issuer Security Trustee) within a reasonable period and the failure is continuing or (ii) (as determined by a court of competent jurisdiction in a decision not subject to appeal) applicable law requires that the Noteholders exercise their rights individually and not through the Note Trustee.

Upon enforcement of the security for the Notes by the Issuer Security Trustee, the proceeds of such enforcement may be insufficient, after payment of all other claims ranking in priority to and *pari passu* with amounts due under the Notes, to pay in full all principal and interest due on the Notes.

Economic conditions in the Euro-zone

Concerns relating to credit risks (including those of sovereigns and those of entities which are exposed to sovereigns) have periodically intensified. In particular, concerns have been raised with respect to recent economic, monetary and political conditions in the Euro-zone. If such concerns return and/or such risks increase or such conditions deteriorate (including as may be demonstrated by any relevant credit rating agency action, any default or restructuring of indebtedness by one or more states or institutions and/or any changes to, including any break-up of, the Euro-zone), then these matters may cause severe stress in the financial system generally and/or may adversely affect one or more of the Transaction Parties (including the Seller and the Servicer) and/or significant numbers of Debtors under the Purchased HP Contracts. No assurance can be given as to the likelihood or potential impact of any of the matters described above and, in particular, no assurance can be given that such matters would not adversely affect the rights of the Noteholders, the market value of the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

UK's exit from the European Union

On 23 June 2016, the UK held an advisory referendum with respect to its continued membership of the EU (the "**Referendum**"). The result of the Referendum was a vote in favour of leaving the EU. Whilst the result of the Referendum itself is clear, the next steps of the UK executive and UK Parliament and the reaction of the other EU member states (the "**Member States**") to these steps is not. In particular, the format of the negotiation, negotiation positions of the participants and timeframe are uncertain, with any limited public statements subject to change.

Article 50 of the Treaty on European Union ("**Article 50**") provides that a Member State which decides to withdraw from the EU is required to notify the European Council of its intention to do so.

The UK government gave notice of the UK's intention to withdraw from the EU pursuant to Article 50 on 29 March 2017, which triggered the commencement of a negotiation process between the UK and the EU in respect of the arrangements for the UK's withdrawal from the EU. Article 50 provides for a two year period for such negotiations to take place. Under Article 50, the UK would then cease to be a member of the EU from the date of entry into force of a withdrawal agreement or, if a withdrawal agreement had not been concluded, two years after the notification under Article 50 was served, unless the European Council, in agreement with the UK, unanimously decided to extend this period.

On 14 November 2018, a form of withdrawal agreement was agreed between the European Commission and the UK's negotiators, or the "**November 2018 Article 50 Withdrawal Agreement**". The November 2018 Article 50 Withdrawal Agreement includes a transitional period which would extend the application of EU law and provide for continuing access to the EU single market, until the end of 2020. The November 2018 Article 50 Withdrawal Agreement has however been rejected by the UK Parliament in three separate 'meaningful votes'.

It remains uncertain whether an Article 50 withdrawal agreement will be finalised and ratified by the UK and the European Union. The UK and the European Union have now agreed to a flexible extension until 31 October 2019.

Whilst continuing to negotiate the November 2018 Article 50 Withdrawal Agreement, the Government of the UK has commenced preparations for a "hard" Brexit or "no-deal" Brexit to minimise the risks for firms and businesses associated with an exit with no transitional agreement. This has included publishing draft secondary legislation under powers provided in the EU (Withdrawal) Act 2018 to ensure that the UK has a functioning statute book on 1 November 2019. The European authorities have not provided UK firms and businesses with similar assurances in preparation for a 'hard' Brexit.

(a) *Applicability of EU law in the UK*

It is at present unclear what type of relationship between the UK and the EU will be established, or at what date (whether by the time when, or after, the UK ceases to be a member of the EU), or what would be the content of such a relationship. It is possible that a new relationship would preserve the applicability of certain EU rules (or equivalent rules) in the UK. At this time it is not possible to state with any certainty to what extent that might be so. While the UK is still a member of the European Union, EU law will apply.

Upon any withdrawal from the EU by the UK, and subject to agreement on (and the terms of) any future EU-UK relationship, EU laws (other than those EU laws already transposed into English law (see below)) will cease to apply within the UK pursuant to the terms and timing of a future withdrawal agreement. This would be achieved by the UK ceasing to be party to the Treaty on European Union and the Treaty on the Functioning of the European Union, and by the parallel repeal of the European Communities Act 1972.

Upon any withdrawal from the EU by the UK, and subject to agreement on (and the terms of) any future UK-EU relationship, EU law will cease to apply in the UK. However, many EU laws have been already transposed into English law and these transposed laws will continue to apply until such time that they are repealed, replaced or amended. Over the years, English law has been devised to function in conjunction with EU law (in particular, laws relating to financial markets, financial services, prudential and conduct regulation of financial institutions, financial collateral, settlement finality and market infrastructure). As a result, depending on the terms of the UK's exit from the EU, substantial amendments to English law may occur. Consequently, English law may change and it is impossible at this time to

predict the consequences on the Portfolio or the Issuer's business, financial condition, results of operations or prospects. Such changes could be materially detrimental to Noteholders.

(b) *Regulatory Risk*

Currently, under the EU single market directives, mutual access rights to markets and market infrastructure exist across the EU and the mutual recognition of insolvency, bank recovery and resolution regimes applies. In addition, regulated entities licensed or authorised in one European Economic Area (the "EEA") jurisdiction may operate on a cross-border basis in other EEA countries without the need for a separate licence or authorisation. There is uncertainty as to how, following a UK exit from the EU, and probably the EEA (whatever the form thereof), the existing passporting regime will apply (if at all). Depending on the terms of the UK's exit and the terms of any replacement relationship, it is likely that, UK regulated entities may, on the UK's withdrawal from the EU, lose the right to passport their services to EEA countries, and EEA entities may lose the right to reciprocal passporting into the UK. Also, UK entities may no longer have access rights to market infrastructure across the EU and the recognition of insolvency, bank recovery and resolution regimes across the EU may no longer be mutual.

There can be no assurance that the terms of the UK's exit from the EU will include arrangements for the continuation of the existing passporting regime or mutual access rights to market infrastructure and recognition of insolvency, bank recovery and resolution regimes. Such uncertainty could adversely impact the Issuer and, in particular, the ability of third parties to provide services to the Issuer, and could be materially detrimental to Noteholders.

(c) *Market Risk*

While the longer term effects of the Referendum and the UK's exit strategy are difficult to predict, these are likely to include further financial instability and slower economic growth as well as higher unemployment and inflation, in the UK, continental Europe and the global economy, at least in the short to medium term. For instance, the UK could lose access to the single EU market and to the global trade deals negotiated by the EU on behalf of its members and this could affect the attractiveness of the UK as a global investment center and, as a result, could have a detrimental impact on UK growth and/or interest rates set by the Bank of England.

Investors should be aware that the result of the Referendum and any subsequent negotiations, notifications, withdrawal and changes to legislation may introduce potentially significant new uncertainties and instabilities in the financial markets. These uncertainties and instabilities could have an adverse impact on the business, financial condition, results of operations and prospects of the Issuer, the Debtors, the Portfolio and the Transaction Parties (including in particular, the Note Trustee, Issuer Security Trustee, Purchaser Security Trustee, Swap Counterparty, Transaction Account Bank, Arranger and the Joint Lead Managers), and could therefore also be materially detrimental to Noteholders.

(d) *Exposure to Counterparties*

The Issuer will be exposed to a number of counterparties throughout the life of the Notes. Investors should note that if the UK does leave the EU, such counterparties may be unable to perform their obligations due to changes in regulation, including the loss of, or changes to, existing regulatory rights to do cross-border business in the EU or the costs of such transactions with such counterparties may increase. In addition, counterparties (including in particular, the Note Trustee, Issuer Security Trustee, Purchaser Security Trustee, Swap Counterparty, Transaction Account Bank, Arranger and the Joint Lead Managers, may be adversely affected by rating actions or volatile and illiquid markets (including currency markets and bank funding markets) arising from the result of the Referendum, therefore increasing the risk that such counterparties may become unable to fulfil their obligations. Such inability could adversely impact the Issuer and could be materially detrimental to Noteholders.

(e) *Ratings actions*

Following the result of the Referendum, S&P and Fitch have each downgraded the UK's sovereign credit rating and each of S&P and Fitch has placed such rating on negative outlook, suggesting possible further negative rating action.

The credit rating of a country affects the ratings of entities operating in its territory, and in particular the ratings of financial institutions. Accordingly, the recent downgrades of the UK's sovereign credit rating and any further downgrade action may trigger downgrades in respect of the Transaction Parties. If a counterparty no longer satisfies the relevant rating requirement, the Transaction Documents may require that such counterparty be replaced with an entity that satisfies the relevant rating requirement. If rating downgrades are widespread, it may become difficult or impossible to replace counterparties with entities that satisfy the relevant rating requirements.

While the extent and impact of these issues are unknown, investors should be aware that they could have an adverse impact on the Issuer, its service providers, the payment of interest and repayment of principal on the Notes and therefore, the Noteholders.

Regulatory considerations

Regulatory initiatives may result in increased regulatory capital requirements and/or decreased liquidity in respect of the Notes

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the asset-backed securities industry. This has resulted in a raft of measures for increased regulation, which are currently at various stages of implementation and which may have an adverse impact on the regulatory capital charge to certain investors in securitisation exposures and/or the incentives for certain investors to hold asset-backed securities, and may thereby affect the liquidity of such securities. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Purchaser, the Arranger, the Joint Lead Managers, the Seller or any other party to the Transaction Documents makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment on the Note Issuance Date or at any time in the future.

In addition, the Basel Committee on Banking Supervision (the "**Basel Committee**") proposed certain revisions to the regulatory capital framework published by it in 2006. The implementation of such revisions requires legislation in each jurisdiction such that there may be some level of variation between jurisdictions.

In particular, investors should note that the Basel Committee has approved a series of significant changes to the Basel regulatory capital and liquidity framework (such changes being referred to by the Basel Committee as "**Basel III**"), including revisions to the securitisation framework which may result in increased regulatory capital requirements in respect of certain positions. Basel III provides for a substantial strengthening of existing prudential rules, including new requirements intended to reinforce capital standards (with heightened requirements for global systemically important banks) and to establish a leverage ratio "backstop" for financial institutions and certain minimum liquidity standards (referred to as the "Liquidity Coverage Ratio" and the "Net Stable Funding Ratio"). Basel Committee member countries agreed to implement the initial phase of the Basel III reforms from 1 January 2013 and the second phase from 1 January 2022, subject to transitional and phase-in arrangements for certain requirements. As implementation of any changes to the Basel framework (including those made via Basel III) requires national legislation, the final rules and the timetable for its implementation in each jurisdiction, as well as the treatment of asset-backed securities, may be subject to some level of national variation. It should also be noted that changes to regulatory capital requirements have been made for insurance and reinsurance undertakings through participating jurisdiction initiatives, such as the Solvency II Regulation framework in Europe.

In addition, investors should be aware of the EU risk retention and due diligence requirements which currently apply, or are expected to apply in the future, in respect of various types of EU regulated investors including credit institutions, authorised alternative investment fund managers, investment firms, insurance and reinsurance undertakings, UCITS funds and institutions for occupational retirement provision. Amongst other things, such requirements restrict a relevant investor from investing in asset-backed securities unless (i) that investor is able to demonstrate that it has undertaken certain due diligence in respect of various matters including its note position, the underlying assets and (in the case of certain types of investors) the relevant sponsor or originator and (ii) the originator, sponsor or original lender in respect of the relevant securitisation has explicitly disclosed to the investor that it will retain, on an ongoing basis, a net economic interest of not less than 5 per cent. in respect of certain specified credit risk tranches or asset exposures. Failure to comply with one or more of the requirements may result in various penalties including, in the case of those investors subject to regulatory capital requirements, the imposition of a penal capital charge on the notes acquired by the relevant investor. The retention and due diligence requirements hereby described apply, or are expected to apply, in respect of the Notes. Relevant investors are required to independently assess and determine the sufficiency of the information described in this Prospectus for

the purposes of complying with any relevant requirements and none of the Issuer, the Purchaser, the Note Trustee, the Seller, the Arranger, the Joint Lead Managers or any other party to the Transaction Documents makes any representation that the information described above is sufficient in all circumstances for such purposes.

Prospective investors in the Notes who are uncertain as to the requirements that will need to be complied with in order to avoid the additional regulatory charges for non-compliance with the applicable provisions and any implementing rules in a relevant jurisdiction should seek guidance from their regulator and/or independent legal advice on the issue.

EU Securitisation Regulation

On 12 December 2017, the European Parliament adopted the EU Securitisation Regulation which has applied from 1 January 2019. The EU Securitisation Regulation creates a single set of common rules for European "institutional investors" (as defined in the EU Securitisation Regulation) as regards (i) risk retention, (ii) due diligence, (iii) transparency, and (iv) underwriting criteria for loans to be comprised in securitisation pools. Such common rules replace the existing provisions in the CRR, the AIFM Regulation and the Solvency II Regulation and introduce similar rules for UCITS management companies as regulated by the UCITS Directive and institutions for occupational retirement provisions falling within the scope of Directive (EU) 2016/2341 or an investment manager or an authorised entity appointed by an institution for occupational retirement provisions pursuant to Article 32 of Directive (EU) 2016/2341. Secondly, the EU Securitisation Regulation creates a European framework for STS-securitisations.

The EU Securitisation Regulation applies to the fullest extent to the Notes. The Securitisation is intended to qualify as a STS-securitisation within the meaning of Article 18 of the EU Securitisation Regulation. Consequently, the Seller believes, to the best of its knowledge, that the Securitisation meets, as at the Note Issuance Date, the requirements of Articles 19 to 22 of the EU Securitisation Regulation and will, prior to the Note Issuance Date, be notified by the Seller to be included in the list published by ESMA referred to in Article 27(5) of the EU Securitisation Regulation. The Seller has used the services of PCS, as a verification agent authorised under Article 28 of the EU Securitisation Regulation, in connection with the STS Assessments. It is expected that the STS Assessments will be available on the PCS website (<https://pcsmarket.org/sts-verification-transactions/>) together with a detailed explanation of its scope (<https://www.pcsmarket.org/disclaimer>). For the avoidance of doubt, this PCS website and the contents thereof do not form part of this Prospectus.

The risk retention, transparency, due diligence and underwriting criteria requirements described above apply in respect of the Securitisation. Investors should therefore make themselves aware of such requirements (and any corresponding implementing rules made at the national level), where applicable to them, in addition to any other regulatory requirements applicable to them with respect to their investment in the Notes. Prospective investors are required to independently assess and determine the sufficiency of the information contained in this Prospectus or made available by the Issuer and the Seller for the purposes of complying with any relevant requirements and none of the Issuer, the Purchaser, the Seller, the Reporting Entity, the Arranger, the Joint Lead Managers, the Note Trustee or any other party to the Transaction Documents makes any representation that such information is sufficient in all circumstances for such purposes.

Various parties to the Securitisation are subject to the requirements of the EU Securitisation Regulation. However, there is at present some uncertainty in relation to some of these requirements, including with regard to the risk retention requirements under Article 6 of the EU Securitisation Regulation and transparency obligations imposed under Article 7 of the EU Securitisation Regulation. The Regulatory Technical Standards relating to such requirements have not been adopted yet. Therefore, the final scope of application of such Regulatory Technical Standards and the compliance of the Securitisation with the same is not assured. Non-compliance with final Regulatory Technical Standards may adversely affect the value, liquidity of, and the amount payable under the Notes. Prospective investors in the Notes must make their own assessment in this regard.

The matters described above and any other changes to the regulation or regulatory treatment of the Notes for some or all investors may negatively impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market.

Risks from reliance on verification by PCS

The Seller, as originator (as defined in the EU Securitisation Regulation), has used the services of PCS, a third party authorised pursuant to Article 28 of the EU Securitisation Regulation, to verify whether the securitisation

transaction described in this prospectus complies with Articles 19 to 22 of the EU Securitisation Regulation and the compliance with such requirements is expected to be verified by PCS on the Signing Date. However, none of the Issuer, the Purchaser, the Seller, the Servicer, the Arranger or the Joint Lead Managers gives any explicit or implied representation or warranty as to (i) inclusion in the list administered by ESMA within the meaning of Article 27 of the EU Securitisation Regulation, (ii) that the Securitisation does or continues to comply with the EU Securitisation Regulation, (iii) that this Securitisation does or continues to be recognised or designated as an STS-securitisation after or on the date of this Prospectus.

The verification by PCS does not affect the liability of the Seller, as originator and the Issuer, as SSPE (as defined in the EU Securitisation Regulation), in respect of their legal obligations under the EU Securitisation Regulation. Furthermore, the use of such verification by PCS will not affect the obligations imposed on institutional investors as set out in Article 5 of the EU Securitisation Regulation. Notwithstanding PCS' verification of compliance of a securitisation with Articles 19 to 22 of the Securitisation Regulation, such verification by PCS does not ensure the compliance of a securitisation with the general requirements of the EU Securitisation Regulation. A verification does not remove the obligation placed on investors to assess whether a securitisation labelled as 'STS' or 'simple, transparent and standardised' has actually satisfied the criteria. Investors must not solely or mechanistically rely on any STS notification or PCS' verification to this extent.

It is important to note that the involvement of PCS as an authorised verification agent is not mandatory and the responsibility for compliance with the EU Securitisation Regulation remains with the relevant institutional investors, originators and issuers, as applicable in each case. The STS Assessments will not absolve such entities from making their own assessment and assessments with respect to the EU Securitisation Regulation and the relevant provisions of Article 243 and Article 270 of the CRR and/or Article 7 and Article 13 of the LCR Regulation, and the STS Assessments cannot be relied on to determine compliance with the foregoing regulations in the absence of such assessments by the relevant entities. In addition, the Seller has not used the services of PCS, as a verification agent authorised under Article 28 of the EU Securitisation Regulation, to prepare an assessment of compliance of the Notes with Article 7 and Article 13 of the LCR Regulation; therefore, the relevant entities shall make their own assessments with respect to compliance with such provisions of the LCR Regulation. Furthermore, the STS Assessments are not an opinion on the creditworthiness of the Notes nor on the level of risk associated with an investment in the Notes. It is not an indication of the suitability of the Notes for any investor and/or a recommendation to buy, sell or hold Notes. Institutional investors that are subject to the due diligence requirements of the EU Securitisation Regulation need to make their own independent assessment and may not solely rely on the STS Assessments, the STS notification or other disclosed information.

No assurance can be provided that the Securitisation does or will continue to qualify as an STS-securitisation under the EU Securitisation Regulation as at the date of this Prospectus or at any point in time in the future. None of the Issuer, the Purchaser, the Seller, the Reporting Entity, the Arranger, the Joint Lead Managers, the Note Trustee or any other party to the Transaction Documents makes any representation or accepts any liability for the Securitisation to qualify as an STS-securitisation under the EU Securitisation Regulation as at the date of this Prospectus or at any point in time in the future.

The Seller, as originator, will include in its notification pursuant to Article 27(1) of the Securitisation Regulation, a statement that compliance of the securitisation described in this prospectus with Articles 19 to 22 of the Securitisation Regulation has been verified by PCS. The designation of the Securitisation as an STS-securitisation is not a recommendation to buy, sell or hold securities. It is not investment advice whether generally or as defined under MiFID II and it is not a credit rating whether generally or as defined under the CRA3 or Section 3(a) of the United States Securities Exchange Act of 1934 (as amended). By designating the Securitisation as an STS-securitisation, no views are expressed about the creditworthiness of the notes or their suitability for any existing or potential investor or as to whether there will be a ready, liquid market for the notes.

Non-compliance with the status of an STS-securitisation may result in higher capital requirements for investors, as well as in various administrative sanctions and/or remedial measures being imposed on the Issuer or the Seller. Any of such administrative sanctions and/or remedial measures may affect the ability of the Issuer to fulfil its payment obligations under the Notes.

Investors' compliance with due diligence requirements under the EU Securitisation Regulation

Investors should be aware of the due diligence requirements under Article 5 of the EU Securitisation Regulation that apply to institutional investors defined in Article 2(12) of the EU Securitisation Regulation (including credit institutions, authorised alternative investment fund managers, investment firms, insurance and reinsurance

undertakings, institutions for occupational retirement provision and UCITS funds). Amongst other things, such requirements restrict an institutional investor (other than the originator, sponsor or original lender within the meaning of the EU Securitisation Regulation) from investing in securitisation positions unless, prior to holding the securitisation position:

- (a) that institutional investor has verified that:
 - (i) for certain originators, certain credit-granting standards were met in relation to the origination of the underlying exposures;
 - (ii) the risk retention requirements set out in Article 6 of the EU Securitisation Regulation are being complied with; and
 - (iii) information required by Article 7 of the EU Securitisation Regulation has been made available; and
- (b) that institutional investor has carried out a due diligence assessment which enables it to assess the risks involved, which shall include at least (among other things) the risk characteristics of its securitisation position and the underlying exposures of the Securitisation, and all the structural features of the transaction that can materially impact the performance of its securitisation position.

In addition, under Article 5(4) of the EU Securitisation Regulation, an institutional investor (other than the originator, sponsor or original lender) holding a securitisation position shall at least establish appropriate written procedures that are proportionate to the risk profile of the securitisation position and, where relevant, to the institutional investor's trading and non-trading book, in order to monitor, on an ongoing basis, compliance with its due diligence requirements and the performance of the securitisation position and of the underlying exposures.

The institutional investor due diligence requirements described above apply in respect of the Securitisation. Relevant institutional investors are required to independently assess and determine the sufficiency of the information contained in this Prospectus for the purposes of complying with Article 5 of the EU Securitisation Regulation and any corresponding national measures which may be relevant to investors and none of the Issuer, the Arranger, the Joint Lead Managers, the Seller or any other party to the Transaction Documents makes any representation that any such information is sufficient in all circumstances for such purposes.

Aspects of the requirements and what is or will be required to demonstrate compliance to national regulators remain unclear and are still evolving. Prospective investors who are uncertain as to the requirements that will need to be complied with in order to avoid the consequences of the non-compliance should seek guidance from their regulator and/or independent legal advice on the issue.

Depending on the approach in the relevant EU Member State, failure to comply with one or more of the due diligence requirements may result in penalties including fines, other administrative sanctions and possibly criminal sanctions. In the case of those institutional investors subject to regulatory capital requirements, penal capital charges may also be imposed on the securitisation position (i.e., the Notes) acquired by the relevant institutional investor.

EU risk retention requirements

Article 6 of the EU Securitisation Regulation provides for a new direct obligation on the originator, sponsor or original lender of a securitisation to retain on an ongoing basis a material net economic interest in the securitisation of not less than five per cent. Article 5(1)(c) of the EU Securitisation Regulation requires institutional investors to verify that, if established in the European Union, the originator, sponsor or original lender retains on an ongoing basis a material net economic interest in accordance with Article 6 of the EU Securitisation Regulation and the risk retention is disclosed to the institutional investor in accordance with Article 7(1)(e) of the EU Securitisation Regulation.

With respect to the commitment of the Seller to retain a material net economic interest in the Securitisation, please see the section entitled "*EU Securitisation Regulation*".

The Seller takes responsibility for the information set out in the foregoing paragraphs of this summary of certain provisions of the EU Securitisation Regulation; provided however that, each prospective investor for whom the

EU Securitisation Regulation is relevant is required to independently assess and determine the sufficiency of the information described under this sub-heading and in this Prospectus generally for the purposes of complying with Article 5 of the EU Securitisation Regulation and none of the Issuer, the Purchaser, Santander Consumer Finance Oy (in its capacities as the Seller and the Servicer), the Joint Lead Managers or the Arranger makes any representation that the information described above is sufficient in all circumstances for such purposes. In addition, each prospective investor for whom the EU Securitisation Regulation is relevant should ensure that it complies with any implementing provisions in respect of Article 5 of the EU Securitisation Regulation in its relevant jurisdiction. Investors who are uncertain as to the requirements which apply to them in respect of their relevant jurisdiction should seek guidance from their regulator and/or independent legal advice on the issue.

If, for any reason, this transaction does not comply with the foregoing requirements of the EU Securitisation Regulation, the ability of the Noteholders to sell their Notes, and/or the price investors receive for the Notes in the secondary market, may be adversely affected.

Disclosure requirements under EU Securitisation Regulation

The disclosure requirements imposed on originators, sponsors and SSPEs to make certain prescribed information available to holders of a securitisation position, to the relevant competent authorities and, upon request, to potential investors under Article 7 of the EU Securitisation Regulation apply in respect of the Notes. The originator, sponsor and SSPE of a securitisation are required to designate one of them to fulfil the reporting requirements in Article 7 of the EU Securitisation Regulation. The Seller, the Purchaser and the Issuer will designate amongst themselves Santander Consumer Finance Oy, as the Reporting Entity, to fulfil the applicable disclosure requirements.

With respect to the disclosure obligations of the Reporting Entity, please see the section entitled "*EU Securitisation Regulation*".

On 22 August 2018, ESMA published its Final Report on securitisation disclosure technical standards (RTS/ITS) which included draft reporting templates, but on 31 January 2019, ESMA published a document headed "Opinion regarding amendments to ESMA's draft Regulatory Technical Standards on disclosure requirements under the EU Securitisation Regulation which included revised draft reporting templates". As at the date of this Prospectus, such disclosure technical standards are still subject to review by the European Commission and not yet adopted in a binding delegated regulation of the European Commission. The transitional provision of Article 43(8) of the EU Securitisation Regulation applies and, consequently, disclosures in respect of the Securitisation must be made in accordance with the requirements of Annexes I to VIII of Commission Delegated Regulation (EU) no. 2015/3 of 30 September 2014. In a joint statement of the European Supervisory Authorities published on 30 November 2018, the European Supervisory Authorities confirmed that with the repealing of Article 8b of the CRA Regulation effective since 1 January 2019 and until the ESMA reporting templates to be used to meet the reporting requirements under Article 7 of the EU Securitisation Regulation will be available, the national competent authority will be required to make a case-by-case assessment when examining the compliance with the disclosure requirements of the EU Securitisation Regulation, taking into account the type and extent of information being disclosed by the reporting entity. In addition, there remains uncertainty as to the nature and detail of the information to be published, the manner in which it will need to be published and what the consequences would be for the Issuer, related third parties and investors resulting from any potential non-compliance by the Issuer with the reporting obligations.

The matters described above in relation to the EU Securitisation Regulation and any other changes to the regulation or regulatory treatment of the Notes for some or all investors may negatively impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market.

U.S. Risk Retention Requirements

Section 941 of the Dodd-Frank Act amended the Exchange Act to generally require the "securitizer" of a "securitization transaction" to retain at least 5 per cent. of the "credit risk" of "securitized assets", as such terms are defined for purposes of that statute, and generally prohibit a securitizer from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the credit risk that the securitizer is required to retain. Final rules implementing the same came into effect on 24 December 2016 with respect to non-RMBS securitisations. The U.S. Risk Retention Rules provide that the securitizer of an asset backed securitisation is its sponsor. The U.S. Risk Retention Rules also provide for certain exemptions from the risk retention obligation that they generally impose.

The Seller, as the sponsor under the U.S. Risk Retention Rules, does not intend to retain at least 5 per cent. of the credit risk of the securitised assets for the purposes of the U.S. Risk Retention Rules and the issuance of the Notes was not designed to comply with the U.S. Risk Retention Rules. The Seller intends to rely on an exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions. Such non-U.S. transactions must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the securities are issued) of all classes of securities issued in the securitization transaction are sold or transferred to U.S. persons (in each case, as defined in the U.S. Risk Retention Rules) or for the account or benefit of U.S. persons (as defined in the U.S. Risk Retention Rules and referred to in this Prospectus as Risk Retention U.S. Persons); (3) neither the sponsor nor the issuer is organised under U.S. law or is a branch located in the United States of a non-U.S. entity; and (4) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

The Seller has advised the Issuer that it has not acquired, and it does not intend to acquire more than 25 per cent. of the assets from an affiliate or branch of the Seller or the Issuer that is organised or located in the United States.

The Notes provide that they may not be purchased by Risk Retention U.S. Persons except with the express written consent of the Seller up to the 10 per cent. Risk Retention U.S. Person limitation under the exemption provided by Section 20 of the U.S. Risk Retention Rules. Prospective investors should note that the definition of "U.S. person" in the U.S. Risk Retention Rules is different from the definition of "U.S. person" under Regulation S. The definition of U.S. person in the U.S. Risk Retention Rules is excerpted below. Particular attention should be paid to clauses (b) and (h), which are different than comparable provisions from Regulation S.

Under the U.S. Risk Retention Rules, and subject to limited exceptions, "U.S. person" means any of the following:

- (a) any natural person resident in the United States;
- (b) any partnership, corporation, limited liability company, or other organisation or entity organised or incorporated under the laws of any State or of the United States;¹
- (c) any estate of which any executor or administrator is a U.S. person (as defined under any other clause of this definition);
- (d) any trust of which any trustee is a U.S. person (as defined under any other clause of this definition);
- (e) any agency or branch of a foreign entity located in the United States;
- (f) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition);
- (g) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated, or (if an individual) resident in the United States; and
- (h) any partnership, corporation, limited liability company, or other organisation or entity if:
 - (i) organised or incorporated under the laws of any foreign jurisdiction; and
 - (ii) formed by a U.S. person (as defined under any other clause of this definition) principally for the purpose of investing in securities not registered under the Securities Act.²

¹ The comparable provision from Regulation S is "(ii) any partnership or corporation organised or incorporated under the laws of the United States."

² The comparable provision from Regulation S "(vii)(B) formed by a U.S. person principally for the purpose of investing in securities not registered under the [Securities Act], unless it is organised or incorporated, and owned, by accredited investors (as defined in [17 CFR 230.501(a)]) who are not natural persons, estates or trusts."

Consequently, the Notes may not be purchased by any person except for (a) persons that are not Risk Retention U.S. Persons or (b) persons that have obtained a U.S. Risk Retention Consent from the Seller where such purchase falls within the exemption provided by Section 20 of the U.S. Risk Retention Rules. Each holder of a Note or a beneficial interest acquired in the initial syndication of the Notes, by its acquisition of a Note or a beneficial interest in a Note, will be deemed to represent to the Issuer, the Seller and the Arranger that it (1) either (i) is not a Risk Retention U.S. Person or (ii) it has obtained a U.S. Risk Retention Consent, (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention Rules described herein).

The Seller has advised the Issuer that it will not provide a U.S. Risk Retention Consent to any investor if such investor's purchase would result in more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the securities are issued) (as determined by fair value under US GAAP) of all Classes of Notes to be sold or transferred to Risk Retention U.S. Persons on the Note Issuance Date.

The Seller, the Issuer, the Arranger and the Joint Lead Managers have agreed that none of the Arranger, the Joint Lead Managers or any person who controls any of them or any director, officer, employee, agent or Affiliate of the Arranger or the Joint Lead Managers (as applicable) shall have any responsibility for determining the proper characterisation of potential investors for such restriction or for determining the availability of the exemption provided for in Section 20 of the U.S. Risk Retention Rules, and none of the Arranger or Joint Lead Managers or any person who controls it or any director, officer, employee, agent or Affiliate of the Arranger or Joint Lead Managers accepts any liability or responsibility whatsoever for any such determination or characterisation.

There can be no assurance that the exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions will be available. No assurance can be given as to whether a failure by the Seller to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) may give rise to regulatory action which may adversely affect the Notes or their market value. Furthermore, the impact of the U.S. Risk Retention Rules on the securitization market generally is uncertain, and a failure on the part of the Seller to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) could give rise to regulatory action against the Seller which may adversely affect the Notes and the ability of the Seller to perform its obligations under the Transaction Documents. Furthermore, a failure by the Seller to comply with the U.S. Risk Retention Rules could negatively affect the value and secondary market liquidity of the Notes.

None of the Issuer Security Trustee, the Purchaser Security Trustee, the Note Trustee, the Arranger, the Joint Lead Managers or any of their respective Affiliates makes any representation to any prospective investor or purchaser of the Notes as to whether the transactions described in this Prospectus comply as a matter of fact with the U.S. Risk Retention Rules on the Note Issuance Date or at any time in the future and no such Person shall have any liability to any prospective investor or any other Person with respect to any failure by the Seller or of the transaction contemplated by this Prospectus to satisfy the U.S. Risk Retention Rules or any other applicable legal, regulatory or other requirements. **Investors should consult their own advisers as to the U.S. Risk Retention Rules. No predictions can be made as to the precise effects of such matters on any investor or otherwise.**

The regulation and reform of "benchmarks" may adversely affect the value of the Class A Notes and the Class B Notes

Interest rates and indices which are deemed to be "benchmarks", (including EURIBOR) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a "benchmark". Regulation (EU) 2016/1011 (the "**Benchmarks Regulation**") was published in the Official Journal of the EU on 29 June 2016 and applied from 1 January 2018. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. It will, among other things, (i) require benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevent certain uses by EU supervised entities of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

The Benchmarks Regulation could have a material impact on any Notes linked to or referencing "benchmarks" (including EURIBOR), in particular, if the methodology or other terms of the "benchmarks" are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of EURIBOR.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the following effects on certain "benchmarks" (including EURIBOR): (i) discourage market participants from continuing to administer or contribute to the "benchmarks"; (ii) trigger changes in the rules or methodologies used in the "benchmarks" or (iii) lead to the disappearance of the "benchmarks". Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on the Class A Notes and the Class B Notes (which are linked to EURIBOR).

While (i) an amendment may be made under Note Condition 4.5 (*Interest Rate*) to change the base rate on the Class A Notes and the Class B Notes from EURIBOR to an alternative base rate under certain circumstances broadly related to EURIBOR dysfunction or discontinuation and subject to certain conditions being satisfied, (ii) the Issuer (or the Servicer on its behalf) is under an obligation to appoint a rate determination agent (the **Rate Determination Agent**) which must be the investment banking division of a bank of international repute and which is not an affiliate of the Seller to determine an Alternative Base Rate in accordance with Note Condition 4.5 (*Interest Rate*), and (iii) an amendment may be made under Note Condition 14.3 (*Additional modification and waiver*) to change the base rate that then applies in respect of the Swap Agreement for the purpose of aligning the base rate of the Swap Agreement to the Reference Rate of the Class A Notes and the Class B Notes following a Base Rate Modification, there can be no assurance that any such amendments will be made or, if made, that they (a) will fully or effectively mitigate all relevant interest rate risks or result in an equivalent methodology for determining the interest rates on the Class A Notes, the Class B Notes and the Swap Agreement or (b) will be made prior to any date on which any of the risks described in this risk factor may become relevant.

It is a condition of any Base Rate Modification that any change to the Reference Rate of the Class A Notes and the Class B Notes results in an automatic adjustment to the relevant rate applicable under the Swap Agreement or that any amendment or a modification to the Swap Agreement to align the Reference Rate applicable under the Class A Notes, the Class B Notes and the Swap Agreement will take effect at the same time as the Base Rate Modification takes effect.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms in making any investment decision with respect to any Class A Notes or any Class B Notes.

Regulatory changes under the Dodd-Frank Act may affect the liquidity of the Notes

The United States (US) adopted the Dodd-Frank Wall Street Reform and Consumer Protection Act on 21 July 2010 (the "**Dodd-Frank Act**"), which, among other things, implements new regulation of the derivatives market as it relates to the US financial markets. Under the Dodd-Frank Act, regulation of the derivatives market is split between two agencies, the Commodity Futures Trading Commission (the **CFTC**) which has jurisdiction over the "swap" market, and the SEC which has jurisdiction over the "security-based swap" market. Many of the key regulations implementing the Dodd-Frank Act have only recently become effective, have not yet become effective or, in some cases, have not yet been published or finalised. Accordingly, it is uncertain how the regulation of the derivatives market under the Dodd-Frank Act will impact swaps of the type to be entered into by the Issuer. However, based on the cross-border guidance which has been finalised by the CFTC with respect to "swaps" and by the SEC with respect to "security-based swaps", transactions that are entered with counterparties that are US persons (as defined under the applicable CFTC or SEC rules) will be subject to the Dodd-Frank Act requirements. In many instances the Dodd-Frank Act requirements, although addressing similar issues, may impose materially different requirements than those under EMIR. Thus, compliance with both regulatory schemes may create difficulty or challenges for counterparties that find themselves subject to both regulatory schemes. As a result, parties to swaps of the types to be entered into by the Issuer may find it easier and more efficient to choose to only transact with parties subject to the same regulatory scheme. The difficulties posed by the differing regulatory schemes have already started to bifurcate the market based on the application of the different regulatory schemes. Accordingly, it may be more difficult, expensive or riskier (from a credit and/or diversification perspective) for

the Issuer to replace, novate or amend the terms of the Swap Agreement should that become necessary in the future.

Volcker Rule

The enactment of the Dodd-Frank Act, which was signed into law on 21 July 2010, imposed a new regulatory framework over the U.S. financial services industry and the U.S. consumer credit markets in general. On 10 December 2013, U.S. regulators adopted final regulations to implement Section 619 of the Dodd-Frank Act. Section 619 of the Dodd-Frank Act added a new section 13 to the Bank Holding Company Act of 1956, commonly referred to as the "**Volcker Rule**".

The Volcker Rule generally prohibits "banking entities" broadly defined to include U.S. banks, bank holding companies and foreign banking organisations, together with their respective subsidiaries and other affiliates from (i) engaging in proprietary trading in financial instruments, (ii) acquiring or retaining any "ownership interest" in, or in "sponsoring", a "covered fund" and (iii) entering into certain transactions with such funds subject to certain exemptions and exclusions.

An "ownership interest" is defined widely and may arise through a holder's exposure to the profits and losses of the "covered fund", as well as through certain rights of the holder to participate in the selection or removal of an investment advisor, investment manager, or general partner, trustee, or member of the board of directors of the "covered fund". A "covered fund" is defined widely, and includes any issuer which would be an investment company under the Investment Company Act of 1940 but is exempt from registration solely in reliance on section 3(c)(1) or 3(c)(7) of that Act, subject to certain exemptions found in the Volcker Rule's implementing regulations.

Not all investment vehicles or funds, however, fall within the definition of a "covered fund" for the purposes of the Volcker Rule. For example, the Issuer may be regarded as exempt from the definition of "investment company" under the Investment Company Act pursuant to Section 3(c)(5) thereunder and therefore not a "covered fund". However, if the Issuer is deemed to be a "covered fund", the provisions of the Volcker Rule and its related regulatory provisions, will severely limit the ability of "banking entities" to hold an "ownership interest" in the Issuer or enter into certain credit related financial transactions with the Issuer and this could adversely impact the ability of the banking entity to enter into new transactions with the Issuer and may require amendments to certain existing transactions and arrangements. "Ownership interest" is defined to include, among other things, interests arising through a holder's exposure to profits and losses in the covered fund or through any right of the holder to participate in the selection of an investment manager or advisor or the board of directors of such covered fund.

The Volcker Rule and any similar measures introduced in another relevant jurisdiction may restrict the ability of relevant individual prospective investors to purchase the Notes and, in addition, may have a negative impact on the price and liquidity of the Notes in the secondary market. There is limited interpretive guidance regarding the Volcker Rule, and implementation of the regulatory framework for the Volcker Rule is still evolving. The Volcker Rule's prohibitions and lack of interpretive guidance could negatively impact the liquidity and value of the Notes. Any entity that is a "banking entity" as defined under the Volcker Rule and is considering an investment in "ownership interests" of the Issuer should consult its own legal advisors and consider the potential impact of the Volcker Rule in respect of such investment and on its portfolio generally. Each investor must determine for itself whether it is a "banking entity" subject to regulation under the Volcker Rule. If investment by "banking entities" in the Notes of any Class is prohibited or restricted by the Volcker Rule, this could impair the marketability and liquidity of such Notes. None of the Issuer, the Purchaser, the Arranger, any of the Joint Lead Managers or the other Transaction Parties makes any representation regarding (i) the status of the Issuer under the Volcker Rule or (ii) the ability of any purchaser to acquire or hold the Notes, now or at any time in the future.

The Issuer is of the view that it is not now and immediately following the issuance of the Notes and the application of the proceeds thereof it will not be, a "covered fund" as defined in the regulations adopted under Section 13 of the Bank Holding Company Act of 1956, as amended, commonly known as the "Volcker Rule". Although other exclusions may be available to the Issuer, this conclusion is based on the determination that the Issuer may rely on the exemption from the definition of "investment company" in the Investment Company Act of 1940, as amended, provided by Section 3(c)(5)(c) thereunder. Any prospective investor in the Notes, including a bank or a subsidiary or other affiliate thereof, should consult its own legal advisors regarding the Volcker Rule and its effects.

Derivative regulation

The European Market Infrastructure Regulation (EU No. 648/2012) and its various delegated regulations and technical standards ("**EMIR**") impose a range of obligations on parties to derivative contracts, according to whether they are "financial counterparties" ("**FCs**"), such as investment firms, credit institutions, insurance companies, amongst others or "non-financial counterparties" ("**NFCs**") (or third country entities equivalent to "financial counterparties" or "non-financial counterparties").

NFCs whose transactions in OTC derivative contracts exceed EMIR's prescribed clearing threshold ("**NFC+s**") are generally subject to more stringent requirements under EMIR than NFCs whose transactions in OTC derivative contracts do not exceed such clearing threshold (the calculation of which excludes contracts objectively measurable as reducing risks directly relating to the NFC's commercial activity or treasury financing activity) ("**NFC-s**").

Even though the Issuer will enter into the Class A Swap Transaction and the Class B Swap Transaction or any replacement swap transaction as an NFC and solely to reduce risks directly relating to its commercial activity or treasury financing activity, the relevant clearing threshold could be exceeded on a consolidated basis pursuant to Article 10(3) EMIR to the extent the Issuer forms part of the Banco Santander S.A. Group and consequently becomes an NFC+.

Broadly, EMIR's requirements in respect of derivative contracts are (i) mandatory clearing by FCs and NFC+s of OTC derivative contracts declared subject to the clearing obligation through an authorised central counterparty (a "**CCP**") (the "**Clearing Obligation**"); (ii) risk mitigation techniques in respect of uncleared OTC derivative contracts; and (iii) reporting and record-keeping requirements in respect of all derivative contracts. Some of those requirements are described in more detail below.

Clearing obligation

The regulatory technical standards governing the mandatory clearing obligation for certain classes of OTC derivative contracts which entered into force on 21 December 2015 specify that the clearing obligation in respect of interest rate OTC derivative contracts that are (i) basis swaps and fixed-to floating swaps denominated in euro, GBP, USD and Japanese Yen and (ii) forward rate agreements and overnight swaps denominated in euro, GBP and USD, in each case, would take effect on dates ranging from 21 June 2016 (for major market participants grouped under "Category 1") to 21 December 2018 (for non-financial counterparties that are not AIFs grouped under "Category 4").

While it is not currently clear that the Class A Swap Transaction, the Class B Swap Transaction or any replacement swap transaction will form part of a class of OTC derivatives that will be declared subject to the Clearing Obligation, this risk cannot be excluded. If the Clearing Obligation applies to the Issuer amendments may be required to the Swap Agreement and to the Transaction to allow the Issuer to post collateral, amongst other consequences. Should the Issuer be thus required to post collateral, the Class A Swap Transaction and the Class B Swap Transaction are likely to become more expensive for the Issuer and/or the Issuer may not have sufficient funds to post the required collateral.

Eurosystem eligibility

The Notes of each Class are intended to be held in a manner which will allow Eurosystem eligibility. This means that the Notes of each Class are intended upon issue to be deposited with one of Euroclear or Clearstream, Luxembourg and does not necessarily mean that the Notes of each Class will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem ("**Eurosystem eligible collateral**") either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria set out in the 2015 Guideline. In addition, the Servicer will, for as long as the Notes of each Class are intended to be held in a manner which will allow Eurosystem eligibility, make loan-level data available in such manner as is required by the ECB to comply with the Eurosystem eligibility criteria, subject to applicable Irish data protection rules.

In addition, pursuant to the Guideline of the ECB of 26 November 2012 amending Guideline ECB/2011/14 on monetary policy instruments and procedures of the Eurosystem (ECB/2012/25), for asset-backed securities to become or to remain eligible for Eurosystem monetary policy operations, the Eurosystem requires comprehensive and standardised loan-level data on the pool of cash flow generating assets underlying an asset-backed security to

be submitted by the relevant parties in the asset-backed security, as set out in annex 8 (loan level data reporting requirements for asset-backed securities) of the 2015 Guideline. Non-compliance with provision of loan-level data will lead to suspension of or refusal to grant eligibility to the asset-backed security transaction in question.

If the Notes of each Class do not satisfy the criteria specified by the ECB, or if the Servicer fails to submit the required loan-level data, the Notes of each Class will not be eligible collateral for the Eurosystem. None of the Issuer, the Purchaser, the Joint Lead Managers or the Arranger give any representation, warranty, confirmation or guarantee to any investor in the Notes of each Class that the Notes of each Class will, either upon issue, or at any or at all times during their life, satisfy all or any requirements for Eurosystem eligibility and be recognised as Eurosystem eligible collateral. Any potential investor in the Notes of each Class should make its own conclusions and seek its own advice with respect to whether or not the Notes of each Class constitute Eurosystem eligible collateral.

Margin requirements

On 4 October 2016, the European Commission adopted regulatory technical standards on risk-mitigation techniques for OTC derivative contracts not cleared by a central clearing counterparty to the European Commission (the "**RTS**"). The RTS were published in the Official Journal on 15 December 2016 and entered into force on 4 January 2017.

The RTS detail the risk mitigation obligations and margin requirements in respect of non-cleared OTC derivatives as well as specify the criteria regarding intragroup exemptions and provide that the margin requirement will take effect on dates ranging, originally, from one month after the RTS entered into force (for certain entities with a non-cleared OTC derivative portfolio above €3 trillion) to 1 September 2020 (for certain entities with a non-cleared OTC derivative portfolio above €8 billion). The margin requirements apply to financial counterparties and non-financial counterparties above the clearing threshold and, depending on the counterparty, will require collection and posting of variation margin and, for the largest counterparties/groups, initial margin.

If the Issuer becomes subject to the clearing obligation or to the margin requirement, it is unlikely that it would be able to comply with such requirements, which would adversely affect the Issuer's ability to enter into transaction under the Swap Agreement or significantly increase the cost thereof, negatively affecting the Issuer's ability to hedge its interest rate risk. As a result of such increased costs, additional regulatory requirements and limitations on ability of the Issuer to hedge interest rate risk, the amounts payable to Noteholders may be negatively affected.

The Swap Agreement may also contain early termination events which are based on the application of EMIR and which may allow the Swap Counterparty to terminate any transaction under the Swap Agreement upon the occurrence of an adverse EMIR-related event. The termination of a transaction under the Swap Agreement in these circumstances may result in a termination payment being payable by the Issuer.

Prospective investors should be aware that the regulatory changes arising from EMIR may in due course significantly increase the cost of entering into derivative contracts (including the potential for non-financial counterparties such as the Issuer to become subject to marking to market and collateral posting requirements in respect of non-cleared OTC derivatives). These changes may adversely affect the Issuer's ability to or manage interest rate risk. As a result of such increased costs and/or additional regulatory requirements, investors may receive significantly less or no interest or return. Investors should consult their own independent advisers and make their own assessment about the potential risks posed by EMIR in making any investment decision in respect of the Notes.

Proposal for a Regulation amending EMIR

Prospective investors should also be aware that on 4 May 2017, the European Commission published its proposal for a Regulation amending EMIR as regards the clearing obligation, the suspension of the clearing obligation, the reporting requirements, the risk-mitigation techniques for OTC derivatives contracts not cleared by a central counterparty, the registration and supervision of trade repositories and the requirements for trade repositories (the "**Proposal**"). On 5 February 2019, political agreement between the European Council, European Parliament and European Commission was reached on the reform of EMIR, or the "**EMIR REFIT**", although the technical details and timing are still to be confirmed. The final text of the EMIR REFIT has been adopted by the European Parliament in its final plenary session on 18 April 2019 and was published in the Official Journal of the EU on 28 May 2019. The EMIR REFIT entered into force on 17 June 2019. The EMIR REFIT makes certain changes

including introducing a new category of "small financial counterparty", delegated reporting and changes to the NFC+s calculation whereby non-financial counterparties would only have to clear relevant derivatives contracts in the asset class(es) in which the NFC+s exceeds the specified clearing thresholds.

The EU regulatory framework and legal regime relating to derivatives is set not only by EMIR but also by a new Directive and Regulation containing a package of reforms to the existing Markets in Financial Instruments Directive (Directive 2004/39/EC), collectively referred to as ("**MiFID II**"). MiFID II was formally adopted by the European Parliament, and was published in the Official Journal of the European Union on 12 June 2014. In particular, MiFID II will require certain standardised transactions between FCs and NFC+s in sufficiently liquid OTC derivatives to be executed on a trading venue which meets the requirements of the MiFID II regime. MiFID II came into force on 3 January 2018. While it is not currently clear that the Swap Agreement or any replacement swap transaction will form part of a class of OTC derivatives that will be declared subject to the MiFID II trading obligation, this possibility cannot be excluded, and the Issuer could therefore become subject to the trading obligation to the extent that it exceeds the EMIR clearing threshold on a consolidated basis in future.

It should also be noted that the EU Securitisation Regulation makes provision for the development of technical standards in connection with the EMIR regime, specifying (i) an exemption from clearing obligations, and (ii) a partial exemption from the collateral exchange obligations for non-cleared OTC derivatives, in each case for STS-securitisation swaps (subject to satisfaction of the relevant conditions). The final draft technical standards have been prepared by the European Supervisory Authorities and were submitted to the European Commission in December 2018 and these are now subject to the EU political negotiation process. As a result, the time of entry into force and the date of application of the new technical standards is unknown at this point.

Prior to the Note Issuance Date, the Seller intends to make the STS notification. However, until the final new technical standards referred to above are in force, no assurance can be given that the Issuer will meet the applicable exemption criteria provided therein. Notwithstanding the STS designation and the ability, as a result, to rely on the exemptions from clearing and collateral exchange obligations under the EMIR regime, the expectation is that the Issuer should not be required to comply with the EMIR collateral exchange obligations and clearing requirements for the reasons outlined above (being their non-financial counterparty below the "clearing threshold" status) in any event. The STS designation and the related forthcoming exemptions from collateral exchange obligations and clearing requirements are only likely to become relevant should the status under the EMIR of the Issuer change from non-financial counterparty below the "clearing threshold" to non-financial counterparty above the "clearing threshold" or financial counterparty and, if applicable, should the Issuer be regarded as a type of entity that is subject to EMIR clearing requirement.

Considerations relating to the legal structure

Failure to perfect the sale and assignment of the Purchased HP Contracts or the security over the Portfolio may prevent the Purchaser or the Purchaser Secured Parties from enforcing its or their rights in respect of the Purchased HP Contracts or the security over the Portfolio

In order to make the sale of the Purchased HP Contracts and the pledge of the Purchaser's right, title and interest in the Purchased HP Contracts in favour of the Purchaser Secured Parties effective in relation to third parties, notifications of such sale and subsequent pledge must be sent to the Debtors and the holders of the Financed Vehicles with an instruction to make the payments under the Purchased HP Contracts directly to the Issuer Collections Account. Further, the Finnish Transport and Communications Agency must be notified of the transfer of title to the Financed Vehicles. Such notifications will be posted to Debtors and the holders of the Financed Vehicles on or about the Purchase Date and to the Finnish Transport and Communications Agency on or prior to the date falling seven (7) calendar days after the Purchase Date.

In the event that a notice were not to have been served on a Debtor and/or the holder of the relevant Financed Vehicle and/or the Finnish Transport and Communications Agency, the transfer of the Seller's right, title and interest in the corresponding Purchased HP Contract to the Purchaser and/or the pledge of the Purchaser's right, title and interest in the corresponding Purchased HP Contract in favour of the Purchaser Secured Parties would not be considered duly perfected, and, in such case, there would be a risk that the transfer and/or the pledge would not be deemed effective in relation to third parties, in which case the transfer and/or the pledge over that Purchased HP Contract would be unenforceable or the order of priority of such rights against third parties could be adversely affected.

Other Security Interests created under the Purchaser Security Documents and Issuer Security Documents may be adversely affected by the failure to perfect the security arrangements

Generally, a security arrangement can only be properly perfected, and its priority retained, through certain actions undertaken by the secured party and/or the grantor of the security and/or through restricting the control of the grantor of the security to the security assets. The security arrangements may not be perfected if any relevant party fails, is unable to or is not permitted or required to take the actions required to be taken to perfect any of these security arrangements. Any failure to perfect the Security Interests created under the Purchaser Security Documents or the Issuer Security Documents may result in the invalidity of such Security Interests or adversely affect the priority of such Security Interests against third parties, in which case the relevant secured party may be unable to effectively enforce or realise its security over the relevant assets.

Amounts available to make payment on the Notes may be reduced as a result of counter-claims Debtors have against the Dealer or the Seller

Following the Purchase Date, a Debtor will be entitled to invoke the same objections and defences relating to a Purchased HP Contract against the Purchaser (or any party having a security interest in the Purchased HP Contracts) as the Debtor was entitled to invoke against the Seller on or prior to the Purchase Date or against the relevant Dealer on or prior to the date on which the Seller purchased the relevant Purchased HP Contract from the relevant Dealer. In the event that a Debtor has a claim against the Seller or the relevant Dealer, the Debtor may be allowed to set-off the amount of such claim against any amount outstanding under the relevant Purchased HP Contract if the Debtor had such a claim before the Debtor was notified of (or otherwise became or should have become aware of) the transfer of the Purchased HP Contract by the Seller or, respectively, the Dealer. Claims which a Debtor may have against a Dealer may include, for example, claims for mis-selling of, or defects in, the relevant Financed Vehicle. Such claims may arise as a result of incomplete or inaccurate information being provided in respect of a Financed Vehicle at the point of sale and/or as a result of faulty design, manufacture or maintenance of the Financed Vehicle, and similar claims may arise in respect of multiple Financed Vehicles or an entire class of Financed Vehicles (for example, it is alleged that a significant number of models manufactured by members of the Volkswagen corporate group contain software which produces anomalous results in emissions and fuel consumption tests).

A Debtor who is a consumer under Finnish law is, pursuant to chapter 7, section 39 of the Finnish Consumer Protection Act, able to direct against the Seller in respect of any claim the Debtor may have against the Dealer of the relevant Financed Vehicle as a result of the purchase of the Financed Vehicle from the Dealer. Pursuant to a Finnish Supreme Court ruling, non-consumer Debtors may also in some circumstances be entitled to invoke similar claims against the Seller. Therefore, following the Purchase Date, the Purchaser will be exposed to the same liability in respect of such claims (in case of consumers, also including claims pursued in the form of a class action) as the Dealer of the relevant Financed Vehicle under the relevant sales contract and any applicable law of sales, e.g. claims arising from a defect or other manufacturing irregularity with respect to a Financed Vehicle. However, non-contractual claims, such as, for example, claims relating to a personal injury, cannot be brought against the Purchaser, even if such injury were caused by, or in connection with, the use of a Financed Vehicle. The Debtor can, furthermore, only bring monetary claims against the Purchaser, and not claims for specific performance, and the Purchaser's liability is limited to the amount the Seller and, after the Purchase Date, the Purchaser has received from the relevant Debtor in connection with the relevant Financed Vehicle, meaning that the Purchaser's liability can never exceed the total amount payable under the relevant Purchased HP Contract.

One of the Eligibility Criteria is that each Purchased HP Contract is not subject to any right of revocation, set-off or counter-claim or warranty claim of the Debtor or any other right of objection. If any Purchased HP Contract failed to comply with the Eligibility Criteria as at the Purchase Cut-Off Date and if such non-compliance constitutes a Seller Asset Warranty Breach, the Seller will be required to repurchase such Purchased HP Contract for an amount equal to at least the then Outstanding Principal Amount of such Purchased HP Contract. See "*Outline of the Other Principal Transaction Documents – Auto Portfolio Purchase Agreement*".

While the Purchaser's liability will be limited to the extent described above, the right of Debtors to invoke objections and defences that were available against the Seller, and the right of Debtors to direct against the Seller claims that the Debtor may have against the Dealer of the relevant Financed Vehicle, may adversely affect the Purchaser's ability to meet its obligations to the Issuer, which could result in a shortfall of funds available to make payments on the Notes.

Unsuccessful enforcement of Purchased HP Contracts may result in a shortfall of funds available to make payments on the Notes

Each Purchased HP Contract provides for retention of the title to the relevant Financed Vehicle until all payments under the Purchased HP Contract have been made in full. In the event of a Debtor's default on a Purchased HP Contract, the Purchaser (or any party having a security interest in the Purchased HP Contract) may have to enforce the Purchased HP Contract through repossession of the relevant Financed Vehicle. If for any reason the Purchaser (or any party having a security interest in the Purchased HP Contract) (with the aid of the Servicer) is unable to enforce the Purchased HP Contract against the defaulting Debtor, or repossess the relevant Financed Vehicle but receives proceeds of sale upon repossession which are lower than the outstandings, the Purchaser may not be able to meet its obligations to the Issuer, which could result in a shortfall of funds available to make payments on the Notes.

Collection of payments from a Debtor who is a natural person may further be restricted under Finnish law, which requires that certain personal items and a protected portion i.e. the amount needed for the livelihood of the Debtor and his or her family, is left outside of execution. Such protected portion is dependent on the personal circumstances and includes, among other things, certain social subsidies and usually two-thirds of any wages, salaries, pensions, unemployment benefits and sickness or parental benefits and five-sixth of any business income of the Debtor.

Repossession of the Financed Vehicles may be delayed or prevented because of regulatory restrictions

Enforcement of Purchased HP Contracts and repossession of Financed Vehicles are subject to the provisions of the Finnish Enforcement Code (fi: *ulosottoakaari*, 705/2007, as amended) (the "**Finnish Enforcement Code**") and the Finnish Act on Hire Purchases (fi: *laki osamaksukaupasta*, 91/1966, as amended) (the "**Finnish Act on Hire Purchases**") as well as, in the case of consumers, the Finnish Consumer Protection Act (fi: *kuluttajansuojalaki*, 38/1978, as amended) (the "**Finnish Consumer Protection Act**"), the application of which may delay or prevent enforcement of the Purchased HP Contracts and repossession of the Financed Vehicles and which regulate the amounts that are credited in favour of the Debtor and in favour of the repossessing party in accordance with a statement of accounts required to be made in connection with any repossession.

Where a Debtor is a consumer under the Finnish Consumer Protection Act, enforcement of the Purchased HP Contract and the repossession of the relevant Financed Vehicle in the event of a default by the Debtor is subject to the following restrictions under chapter 7, section 33 of the Finnish Consumer Protection Act:

- (a) both:
 - (i) one month or more must have passed since the date on which payment should have been made and the payment remains outstanding; and
 - (ii) the defaulted amount due for payment must amount to at least ten (10) per cent. or, if the amount due includes several instalments, at least five (5) per cent. of the total amount of the original credit or constitute the creditor's entire remaining claim; or
- (b) six months or more must have passed since the date on which payment should have been made and the defaulted payment must remain outstanding, in whole or in significant part,

and, in each case, repossession must not be unreasonable because of the Debtor's personal force majeure under chapter 7, section 34 of the Finnish Consumer Protection Act.

Approximately 90.6 per cent. (by EUR outstanding amount) of the Purchased HP Contracts have been granted to Debtors who are consumers under Finnish law.

Where a Debtor is not a consumer under the Finnish Consumer Protection Act, enforcement of the Purchased HP Contract and the repossession of the relevant Financed Vehicle in the event of a default by the Debtor is subject to the following restrictions under section 2 of the Finnish Act on Hire Purchases:

- (a) fourteen (14) calendar days or more must have passed since the date on which payment should have been made and the payment remains outstanding; and

- (b) the defaulted amount due for payment must amount to at least ten (10) per cent. or, if the amount due includes several instalments, at least five (5) per cent. of the total amount of the original credit or constitute the creditor's entire remaining claim,

and repossession must not be unreasonable because of the Debtor's personal force majeure and the Debtor must not have made full payment of the amounts outstanding under the Purchased HP Contract prior to the repossession taking place.

Approximately 9.4 per cent. (by EUR outstanding amount) of the Purchased HP Contracts have been granted to Debtors who are companies or otherwise not classified as consumers under Finnish law.

Finally, repossession of the Financed Vehicle may be delayed or prevented in the event that a third party has a right of retention over the Financed Vehicle. The right of retention means that a service provider who has stored a Financed Vehicle or prepared or carried out any reparation, maintenance or similar work on a Financed Vehicle has the right to hold the Financed Vehicle in its possession until the services have been paid for in full.

Finnish rules on personal force majeure may delay or prevent repossession of Financed Vehicles

In the event that a Debtor defaults on a Purchased HP Contract, there is a risk that the relevant Financed Vehicle could not be repossessed, or that repossession could be significantly delayed, due to mandatory provisions regarding personal force majeure contained in the Finnish Act on Hire Purchases and the Finnish Consumer Protection Act, which may result in the Purchaser not having sufficient funds to meet all of its obligations to the Issuer and in a shortfall of funds available for making payments under the Notes.

In respect of Debtors who are consumers, chapter 7, section 34 of the Finnish Consumer Protection Act prohibits enforcement of the Purchased HP Contracts and, accordingly, repossession of the Financed Vehicles by the Purchaser (or any party having a security interest in the Purchased HP Contracts) upon default by a Debtor if the default is due to the illness or unemployment of the Debtor or to another comparable circumstance which is beyond the Debtor's control, except where, considering the duration of the delay of payments and the other circumstances, this would be perceptibly unreasonable to the Purchaser. In respect of Debtors who are not consumers, the Finnish Act on Hire Purchases prohibits enforcement in the event that repossession would be unreasonable, considering the Debtor's financial difficulties resulting from illness, unemployment or other particular circumstances beyond the Debtor's control, and the Debtor pays any amount due for payment, including interest, and reimburses the costs caused by the delay of payment, before the repossession has been implemented.

Further, in respect of all Debtors, the Finnish enforcement authority may postpone enforcement and repossession proceedings for a maximum of four months in the event that it is perceived that the financial difficulties of a Debtor result from personal force majeure reasons specified above and such difficulties can be presumed to be temporary, except where this would prejudice the Purchaser's rights to the relevant Financed Vehicle or would otherwise unreasonably violate the rights of the Purchaser.

In the event of insolvency or debt reorganisation, repossession of Financed Vehicles may be delayed or prohibited due to mandatory provisions of Finnish law.

Debtors may become subject to insolvency or debt reorganisation proceedings which may result in a delay or prevention in the enforcement of Purchased HP Contracts and the repossession of the relevant Financed Vehicles.

The primary insolvency proceedings for corporate entities under Finnish law are bankruptcy (fi: "*konkurssi*") or corporate reorganisation (fi: "*yrittysaneeraus*") proceedings. In the event of bankruptcy of a corporate Debtor, the bankruptcy estate is vested with the right to elect whether or not to remain bound by the Purchased HP Contract. If the estate chooses to continue the Purchased HP Contract, the bankruptcy estate will have to make full payment of any unpaid amounts due under the Purchased HP Contract and will continue to exercise the Debtor's rights and obligations thereunder, and the Purchaser will not be entitled to repossess the Financed Vehicle. However, if the bankruptcy estate resolves to terminate the Purchased HP Contract, the Purchaser may repossess the relevant Financed Vehicle, in which case a statement of accounts shall be prepared in accordance with the Finnish Act on Hire Purchases. See "*Risk Factors – Repossession of Financed Vehicles may require down payments to the Debtors and result in a shortfall of funds available to make payments on the Notes*".

In the event of a corporate reorganisation of a corporate Debtor repossession may be prohibited by mandatory provisions of law. Pursuant to the Act on Company Reorganisation (fi: "*laki yrityksen saneerauksesta*", 47/1993, as

amended), after the commencement of company reorganisation proceedings against a Debtor, repossession of Financed Vehicles from that Debtor is prohibited and any repossession proceedings that have already been initiated are stayed and resale of already repossessed Financed Vehicles prohibited until the restructuring programme has been approved by the court or the company reorganisation proceedings have been terminated. The restructuring programme, once approved by the court having jurisdiction over the Debtor, may adjust the terms and conditions of the Purchased HP Contract, such as by postponing the maturity or reducing the interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle at the time of commencement of the company reorganisation proceedings. Similarly, for a Debtor that is subject to the resolution regime for financial institutions, the resolution authority may suspend the termination of the HP Contracts or adjust the terms and conditions of the Purchased HP Contract, such as by postponing the maturity or reducing the interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle.

In the event of adjustment of the debts of a Debtor who is a natural person, repossession may be prohibited by mandatory provisions of law. Pursuant to the Act on the Adjustment of the Debts (fi: *laki yksityishenkilön velkajärjestelystä, 57/1993*, as amended), of a private individual, after the commencement of debt adjustment proceedings against a Debtor, repossession of any Financed Vehicle from that Debtor is prohibited and any repossession proceedings that have already been initiated are stayed and resale of already repossessed Financed Vehicles prohibited until the adjustment programme has been approved by the court or the application for debt adjustment denied. The adjustment programme, once approved by the court having jurisdiction over the Debtor, may adjust the terms and conditions of the Purchased HP Contract, such as by postponing maturity or reducing interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle at the time of commencement of the debt adjustment proceedings.

Repossession of Financed Vehicles may require down payments to the Debtors and result in a shortfall of funds available to make payments on the Notes

When repossessing a Financed Vehicle, the Purchaser (or the Finnish Pledge Authorised Representative if the repossession is made by it) (with the aid of the Servicer) will, pursuant to the Finnish Act on Hire Purchases and the Finnish Consumer Protection Act, be required to agree with the Debtor a statement of accounts, failing which the statement of accounts may be drawn up and imposed on the parties by the Finnish enforcement authority.

In the case of a Debtor who is a consumer, in the statement of accounts, the value of the relevant Financed Vehicle at the time of repossession (assuming reasonable maintenance and repair) will be credited in favour of the Debtor. Correspondingly, (i) the total amount outstanding under the Purchased HP Contract, reduced by such portion of the interest and other credit costs as are attributable to the time between the repossession and the initial final maturity date of the Purchased HP Contract; (ii) default interest on the delayed payments, (iii) direct expenses caused by the repossession; and (iv) any compensation to which the Purchaser may be entitled for maintenance or repair of the Financed Vehicle, will be credited in favour of the Purchaser. If the total amount credited in favour of the relevant Debtor exceeds the total amount credited in favour of the Purchaser, the relevant Financed Vehicle may be repossessed only provided that the difference is paid to the Debtor or deposited with the Finnish enforcement authority in favour of the Debtor. Where the total amount credited in favour of the relevant Debtor is less than the total amount credited in favour of the Purchaser, the Purchaser may, in addition to repossession of the Financed Vehicle, claim compensation only for such difference. Such difference constitutes an unsecured claim against the Debtor.

In the case of a Debtor who is not a consumer, in the statement of accounts, the value of the relevant Financed Vehicle at the time of repossession (assuming reasonable maintenance and repair) will be credited in favour of the Debtor. Correspondingly, (i) the total unpaid amount that, at the time of repossession, is due for payment under the Purchased HP Contract; (ii) the total unpaid amount that, at the time of repossession, is not yet due for payment under the Purchased HP Contract multiplied by an amount equal to (A) the cash price of the Financed Vehicle, divided by (B) the total amounts payable under the Purchased HP Contract; (iii) such interest and compensation for insurance premiums that the Purchaser may be entitled to; (iv) costs for the repossession; and (v) any compensation to which the Purchaser may be entitled for maintenance or repair of the Financed Vehicle, will be credited in favour of the Purchaser. If the total amount credited in favour of the relevant Debtor exceeds the total amount credited in favour of the Purchaser, the relevant Financed Vehicle may be repossessed only provided that the difference is paid to the Debtor or deposited with the Finnish enforcement authority in favour of the Debtor. Where the total amount credited in favour of the relevant Debtor is less than the total amount credited in favour of the Purchaser, the Purchaser may, in addition to repossession of the Financed Vehicle, claim compensation only for such difference. Such difference constitutes an unsecured claim against the Debtor.

Further, if, upon repossession of a Financed Vehicle, the relevant Debtor within fourteen (14) calendar days of presentation of the statement of accounts pays the amount which stands to credit in favour of the Purchaser, the repossessed Financed Vehicle must be returned to the possession of the relevant Debtor.

There is a risk that the provisions on statements of accounts and the required down payment could delay or prevent enforcement of Purchased HP Contracts, which may result in the Purchaser not having sufficient funds to meet all of its obligations to the Issuer and in a shortfall of funds available for payments under the Notes.

However, where the Purchaser is required by law or otherwise to pay (i) any amount to the Debtor or to deposit such amount with the Finnish enforcement authority on behalf of the Debtor in respect of the repossession of the relevant Financed Vehicle and/or (ii) any VAT to the Finnish tax authorities in relation to the resale of any Financed Vehicle following its repossession, pursuant to the Servicing Agreement the Servicer may, in its sole discretion, make a Servicer Advance in an amount equal to the amount payable by the Purchaser, to the extent that the Servicer reasonably believes that the amount of such Servicer Advance will be subsequently repaid by the Purchaser. The Servicer will make any Servicer Advance it has elected to make by way of paying, on behalf of the Purchaser, the relevant amount owed by the Purchaser to the Debtor or the Finnish tax authorities, as applicable, by no later than the date on which such amount is due and payable. If the Servicer elects not to make a Servicer Advance, the payments which the Purchaser is required by law to make will be funded by the Servicer Advance Reserve. If there are insufficient funds in the Servicer Advance Reserve for the Purchaser to meet its obligations to make such required payments, it could delay or prevent enforcement of Purchased HP Contracts, which may result in the Purchaser not having sufficient funds to meet all of its obligations to the Issuer and in a shortfall of funds available for payments under the Notes. However, any such risk should be mitigated by the requirement that the Purchaser replenish the Servicer Advance Reserve on each Payment Date pursuant to the Purchaser Pre-Enforcement Revenue Priority of Payments.

The Purchaser's title to the Financed Vehicles is restricted under Finnish law

While legal title to each Financed Vehicle is vested with the Purchaser under the Purchased HP Contracts, the Purchaser is not, prior to the repossession of a Financed Vehicle, entitled to sell or otherwise dispose of the Financed Vehicle, whether voluntarily or involuntarily, or to pledge or create other encumbrances over the Financed Vehicles on a stand-alone basis separately from the claims against the Debtors under the Purchased HP Contracts. In the event of the enforcement of claims of a creditor, including those of the Issuer, against the Purchaser or in the event of the insolvency of the Purchaser, only the Purchased HP Contracts, but not the Financed Vehicles separately from the claims against the Debtors under the Purchased HP Contracts, may be realised to settle the Purchaser's obligations.

In the event of the Seller's insolvency, collections received by the Seller may not be available to the Purchaser, resulting in a shortfall of funds available to make payments on the Notes

On or about the Purchase Date, the Seller will notify the Debtors of the transfer of the Purchased HP Contracts to the Purchaser and will direct the Debtors to make payments under the Purchased HP Contracts to the Issuer Collections Account. If, notwithstanding the notification to Debtors, any Collections are received and credited to any Seller Collections Account following the Purchase Date, the Servicer will instruct the Collections Account Bank to transfer such Collections to the Issuer Collections Account within one Helsinki Banking Day after receipt (or, in the case of exceptional circumstances causing an operational delay in the transfer, within three (3) Helsinki Banking Days after receipt). However, to the extent that the Servicer fails to make transfers of such Collections to the Issuer Collections Account and the Seller becomes subject to bankruptcy or company reorganisation proceedings, Collections received in the Seller Collections Account may be commingled with the Seller's other funds and may not be available for the Purchaser to meet its obligations to the Issuer, which may lead to a shortfall of funds available to make payments on the Notes.

Considerations relating to commercial risks

Risk of losses on the Portfolio

If the Purchaser does not receive the full amount due from the Debtors in respect of the Purchased HP Contracts, the Noteholders are at risk of receiving less than the face value of their Notes and interest payable thereon. Consequently, the Noteholders are exposed to the credit risk of the Debtors. Neither the Seller, the Purchaser nor the Issuer guarantees or warrants the full and timely payment by the Debtors of any sums payable under the Purchased HP Contracts. The ability of any Debtor to make timely payments of amounts due under the relevant HP Contracts will mainly depend on his or her assets and liabilities as well as his or her ability to generate sufficient income to make the required payments. The Debtors' ability to generate income may be adversely affected by a large number of factors. There is no assurance that the present value of the Purchased HP Contracts will at any time be equal to or greater than the principal amounts outstanding of the Notes. In addition, there can be no assurance as to the future geographical distribution of the Debtors or the Financed Vehicles within Finland and its effect, in particular, on the rate of amortisation of the Purchased HP Contracts. Consequently, any deterioration in the economic condition of Finland where Debtors and Financed Vehicles are located could have an adverse effect on the ability of the Debtors to repay the loans and the ability of the Purchaser Security Trustee to sell the Financed Vehicles and could trigger losses in respect of the Notes or reduce their yield to maturity. Furthermore, although the Debtors are located throughout Finland, these Debtors may be concentrated in certain locations, such as densely populated or industrial areas. Any deterioration in the economic condition of the area in which the Debtors are located (or any deterioration in the economic condition of other areas) may have an adverse effect on the ability of the Debtors to make payments under the Purchased HP Contracts. A concentration of the Debtors in such area may therefore result in a greater risk that the Noteholders will ultimately not receive the full principal amount of the Notes and interest thereon than if such concentration had not been present. The rate of recovery upon a Debtor default may itself be influenced by various economic factors, such as the level of interest rates from time to time, and tax, legal and other factors, such as fluctuations in the value of the Financed Vehicles (including, without limitation, fluctuations arising due to changes in market perception of the Financed Vehicles, including as a result of latent defects thought to affect multiple Financed Vehicles or an entire class of Financed Vehicles (such as those it is alleged affect a significant number of models manufactured by members of the Volkswagen corporate group due to software which produces anomalous results in emissions and fuel consumption tests)). There might be various risks involved in the sales of used vehicles which could significantly influence the amount of proceeds generated from the sale, e.g. damage and high mileages, less popular configuration (engine, colour etc.), oversized special equipment, large numbers of homogeneous types of vehicles in short time intervals, general price volatility in the used vehicles market or seasonal impact on sales. Circumstances may also arise where the Debtors suspend or set-off payments due under the HP Contract to the Purchaser to the extent of any claim it has in respect of the purchased Financed Vehicle (please see "*Risk Factors – Amounts available to make payment on the Notes may be reduced as a result of counter-claims Debtors have against the Dealer or the Seller*" for further information on the Purchaser's set-off risk).

The risk to the Class A Noteholders that they will not receive the maximum amount due to them under the Class A Notes (as stated on the cover page of this Prospectus) is mitigated by the subordination of the Class B Notes, the Class C Notes and the Class D Notes as well as by the amounts credited to the Reserve Account which will be available on any Payment Date to meet certain obligations of the Issuer, including its obligations under the Class A Notes and the Class B Notes in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments.

However, there is no assurance that the Noteholders will receive for each Class of Notes, as applicable, the total initial Note Principal Amount with respect to the relevant Class of Notes plus interest as stated in the Note Conditions nor that the distributions and amortisations which are made will correspond to the monthly payments originally agreed upon in the underlying HP Contracts.

Revenue and the Principal Deficiency Ledger

On each Reporting Date, any Principal Addition Amounts and any Defaulted Amounts will be recorded as a debit first on the Class D Principal Deficiency Sub-Ledger until the balance of the Class D Principal Deficiency Sub-Ledger is equal to the Class D Principal Amount, and next on the Class C Principal Deficiency Sub-Ledger until the balance of the Class C Principal Deficiency Sub-Ledger is equal to the Class C Principal Amount, and next on the Class B Principal Deficiency Sub-Ledger until the balance of the Class B Principal Deficiency Sub-Ledger is equal to the Class B Principal Amount, and next on the Class A Principal Deficiency Sub-Ledger until the balance of the Class A Principal Deficiency Sub-Ledger is equal to the Class A Principal Amount.

On each Payment Date and by reference to the amounts standing to the debit of the Principal Deficiency Ledger, any Issuer Pre-Enforcement Available Revenue Receipts will be applied in accordance with items (f), (i), (k) and (m) of the Issuer Pre-Enforcement Revenue Priority of Payments towards any debit against the Class A Principal Deficiency Sub-Ledger, the Class B Principal Deficiency Sub-Ledger, the Class C Principal Deficiency Sub-Ledger and the Class D Principal Deficiency Sub-Ledger and such amounts shall be applied in sequential order.

Balloon HP Contracts may result in higher losses

The Purchased HP Contracts may be structured as Balloon HP Contracts with a substantial portion of the original principal amount under the receivable required to be repaid in a single instalment at maturity. By deferring the repayment of a substantial portion of the principal amount of the receivable until its final maturity date, the impact of non-payment of the final instalment under a Balloon HP Contracts will be greater than under a receivable where all instalments are of equal size (assuming both receivables have the same term). Approximately 57.0 per cent. of the Purchased HP Contracts (as at the Purchase Cut-Off Date) were Balloon HP Contracts.

Reliance on representations and warranties

If the Portfolio does not correspond, in whole or in part, to the representations and warranties made by the Seller in the Auto Portfolio Purchase Agreement, the Purchaser has certain rights of recourse against the Seller, including, for example, requiring the Seller to repurchase the affected Purchased HP Contracts under Clause 16.3 (*Mandatory repurchase*) of the Auto Portfolio Purchase Agreement at a repurchase price equal to the aggregate of (i) the Outstanding Principal Amount of such Purchased HP Contract; (ii) an amount equal to all other amounts due from the relevant Debtor in respect of the relevant Purchased HP Contract as at the date of the repurchase; (iii) unpaid interest or finance charges (as applicable) accrued but not yet due and payable in respect of the relevant Purchased HP Contract as at the date of the repurchase; and (iv) an amount equal to the reasonable costs incurred by the Purchaser in relation to such repurchase, less an amount equal to any interest or finance charges (as applicable) not yet accrued but paid in advance to the Purchaser in respect of such Purchased HP Contract. These rights are not collateralised with respect to the Seller. Consequently, a risk of loss exists in the event that any representation or warranty of the Seller is breached. This could potentially cause the Issuer to default under the Notes.

Reliance on administration and collection procedures

The Servicer will carry out the administration, collection and enforcement of the Portfolio in accordance with the Servicing Agreement, the Purchased HP Contracts and applicable law. However, if a Debtor has defaulted under a Purchased HP Contract, the Servicer will not be able to enforce such a loan against the Debtor in its own name, although under the Servicing Agreement it has agreed to assist the Purchaser in relation to the enforcement of Purchased HP Contracts. The Purchaser or the Purchaser Security Trustee, as applicable, would be the party which would formally enforce the claim.

Accordingly, the Noteholders are relying on the business judgment and practices of the Servicer when enforcing claims against the Debtors, including taking decisions with respect to enforcement in respect of the Portfolio. See "*Outline of the Other Principal Transaction Documents – Servicing Agreement*" and "*Credit and Collection Policy*".

No independent investigation and limited information

None of the Joint Lead Managers, the Arranger, the Note Trustee, the Purchaser Security Administrative Parties, the Issuer Security Trustee, the Purchaser or the Issuer has undertaken or will undertake any investigations, searches or other actions to verify the details of the Portfolio or to establish the creditworthiness of any Debtor or

any other party to the Transaction Documents. Each such person will rely solely on the accuracy of the representations and warranties given by the Seller to the Purchaser on the Purchase Date in the Auto Portfolio Purchase Agreement in respect of, *inter alia*, the Debtors and the Purchased HP Contracts, including, without limitation, any security interests in the Financed Vehicles.

The monetary benefit of all such representations and warranties given to the Purchaser will be pledged by way of security by the Purchaser to the Purchaser Secured Parties under the Purchaser Finnish Security Agreement.

The Seller is obliged to provide the Purchaser, the Issuer and the Issuer Security Trustee with financial or other information that it may have on each individual Debtor or the Purchased HP Contracts only as set out in the relevant Transaction Documents and as permitted by applicable laws.

Further, none of the Joint Lead Managers, the Arranger, the Note Trustee, the Purchaser Security Administrative Parties, the Issuer Security Trustee, the Purchaser or the Issuer will have any right to inspect the internal records of the Seller.

The primary remedy of the Purchaser for breaches of any warranty with respect to, *inter alia*, the enforceability of the Purchased HP Contracts, the absence of material litigation with respect to the Seller, the transfer of free title to the Purchaser and the compliance of the Purchased HP Contracts with the Eligibility Criteria will be to require the Seller to repurchase the affected Purchased HP Contract for a repurchase price equal to the then Outstanding Principal Amount of such Purchased HP Contract (or the affected portion thereof) plus accrued and unpaid interest thereon and certain other amounts. With respect to breaches of warranties under the Auto Portfolio Purchase Agreement generally, the Seller is obliged to indemnify the Purchaser against any Losses directly resulting from such breaches.

Risks arising in connection with an early redemption of the Notes

In the event of an early redemption of the Notes in accordance with any of: (a) Note Condition 5.3 (*Optional redemption following exercise of clean-up call option*); (b) Note Condition 5.4 (*Optional redemption for taxation reasons*); or (c) Note Condition 5.5 (*Optional redemption for regulatory reasons*), the Issuer shall apply proceeds resulting from a repurchase in accordance with Note Condition 5.3 (*Optional redemption following exercise of clean-up call option*) or Note Condition 5.4 (*Optional redemption for taxation reasons*) (which shall include proceeds attributable to the Final Repurchase Price to be applied in accordance with the relevant Purchaser Pre-Enforcement Priority of Payments on such Early Redemption Date) or the Seller Loan Purchase Price (with respect to a redemption under Note Condition 5.5 (*Optional redemption for regulatory reasons*)) and any other available amounts of the Purchaser and/or the Issuer on such Early Redemption Date in order to redeem all (but not some only) of the applicable Notes in accordance with the relevant Issuer Pre-Enforcement Priority of Payments whereupon no further amounts will be payable in respect of the redeemed Notes and any remaining amounts outstanding shall cease to be due and payable and no further amounts of interest shall accrue in respect of such Notes. As a result, Noteholders of Notes that are not Rated Notes may not receive the total initial Note Principal Amount with respect to the relevant Class of Notes plus interest as stated in the Note Conditions in the event of an early redemption. Additionally, revenue receipts available on an Early Redemption Date may be applied as Deferred Purchase Price in circumstances where there are shortfalls in the payment of the Note Principal Amount of the Notes to be redeemed on such date.

Limited availability of the Liquidity Reserve in respect of interest due on the Notes

Prior to the delivery by the Note Trustee of an Enforcement Notice, in the event of shortfalls under the Purchased HP Contracts, amounts from the Liquidity Reserve may only be drawn to reduce shortfalls with respect to interest due under the Class A Notes, the Class B Notes and higher ranking obligations in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments.

Risk of early repayment

In the event that the Purchased HP Contracts are prematurely terminated or otherwise settled early, the Noteholders will (barring the loss of some or all of the Purchased HP Contracts) be repaid the principal which they invested, but will receive interest for a shorter period than that provided in the respective HP Contracts. Under the Finnish Consumer Protection Act, Debtors who are consumers have a statutory right for early repayment of the HP Contract without needing to pay interest or other costs under the HP Contract for the remaining contract time. The rate of early termination under the HP Contracts cannot be predicted and is influenced by a wide variety

of factors, including personal financial circumstances, issues with the vehicles, prevailing interest rates, the buoyancy of the auto finance market, the availability of alternative financing, local and regional economic conditions.

The yield to maturity of any Note of each Class will depend on, *inter alia*, the amount and timing of payment of principal and interest on the Purchased HP Contracts and the price paid by the Noteholder for such Note. On any Payment Date on which the aggregate of (i) the Aggregate Outstanding Asset Principal Amount and (ii) the Outstanding Principal Amounts of any Purchased HP Contracts that are Defaulted HP Contracts as at the date that such Purchased HP Contract became a Defaulted HP Contract less any realised Recoveries already received by the Purchaser in connection with such Defaulted HP Contracts, has been reduced to less than 10 per cent. of the Aggregate Outstanding Asset Principal Amount as of the Note Issuance Date, the Seller may, subject to certain conditions, repurchase all Purchased HP Contracts which have not been sold to a third party and the proceeds from such repurchase will constitute Collections and the payments of interest and principal in accordance with the Issuer Post-Enforcement Priority of Payments on such Payment Date will lead to an early redemption of the Classes of Notes then Outstanding (see Note Condition 5.3 (*Optional redemption following exercise of clean-up call option*)). This may adversely affect the yield on each Class of Notes then Outstanding.

In addition, the Issuer may, subject to certain conditions, redeem: (a) all of the Notes if under applicable law the Issuer or Purchaser is required to make a deduction or withholding for or on account of tax (see Note Condition 5.4 (*Optional redemption for taxation reasons*)); or (b) all (but not some only) of the Junior Notes if a Regulatory Event is occurring on any Payment Date and the Seller elects to either: (i) in accordance with the Loan Agreement, purchase all of the Issuer's rights, title, interest and benefit in, to and under the Available Junior Loan Tranches; or (ii) in accordance with the Auto Portfolio Purchase Agreement advance the Seller Loan to the Issuer, in each case, for an amount that is equal to the Seller Loan Purchase Price (see Note Condition 5.5 (*Optional redemption for regulatory reasons*)). This may adversely affect the yield on each Class of Notes.

Weighted average life of the Notes

The weighted average life of the Notes is volatile. The prepayment rates cannot be predicted as they are influenced by a wide variety of economic and other factors, including the buoyancy of the vehicle finance market, model changes, marketing campaigns, the financing and local and regional economic conditions.

Payments and prepayments of principal on the Purchased HP Contracts will be applied, *inter alia*, to reduce the Note Principal Amount of the Notes on a pass-through basis on each Payment Date in accordance with the Issuer Pre-Enforcement Redemption Priority of Payments.

Prior to the occurrence of a *Pro rata* Trigger Event and following the occurrence of a Sequential Payment Trigger Event (in each case, when Issuer Pre-Enforcement Available Redemption Receipts shall be applied to redeem the Notes of each Class in sequential order), if prepayment rates of the Purchased HP Contracts are slower than expected and the Issuer Pre-Enforcement Available Redemption Receipts are insufficient to pay an amount equal to the Class A Principal Amount to the Class A Noteholders, the Noteholders of each Class of Junior Notes will not receive principal payments until shortfalls in principal payments to the Class A Noteholders have been made up.

Risk of late payment due to deferral of Purchased HP Contracts

Under the Servicing Agreement, the Servicer may, in specific circumstances in accordance with the Credit and Collection Policy and in its sole discretion, grant a deferral of the date on which certain payments are due under the Purchased HP Contracts. This results in a risk of late payment of instalments due under the Purchased HP Contracts.

Replacement of the Servicer

If the appointment of the Servicer is terminated, the Issuer may appoint a substitute servicer pursuant to the Servicing Agreement. Further, any substitute servicer may charge a servicing fee on a basis different from that of the Servicer. Both the failure to appoint a replacement servicer in the event that the Servicer can no longer perform its agreed function and/or the charging by a substitute servicer of a servicing fee greater than that charged by the Servicer may result in a shortfall in funds available to make payments on the Notes. See "*Outline of the Other Principal Transaction Documents – Auto Portfolio Purchase Agreement*" and "*Outline of the Other Principal Transaction Documents – Servicing Agreement*".

Under the terms of the Servicing Agreement, Santander Consumer Finance, S.A. will act as the back-up servicer facilitator (the "**Back-Up Servicer Facilitator**"). Pursuant to that agreement, if, so long as the Servicer is Santander Consumer Finance Oy:

- (a) the unsecured, unsubordinated debt obligations of Santander Consumer Finance, S.A. cease to have long-term ratings of at least Baa3 by Moody's or BBB- by Fitch; and/or
- (b) Santander Consumer Finance, S.A. ceases to control the Servicer,

the Back-Up Servicer Facilitator will (unless Banco Santander, S.A. or one of its Affiliates has long-term ratings of at least Baa3 by Moody's or BBB- by Fitch and retains or assumes control of the Servicer) (i) select within sixty (60) calendar days a bank or financial institution meeting the requirements set out in the Servicing Agreement and willing to assume the duties of a successor servicer in the event that a Servicer Termination Notice is delivered, (ii) review the information provided to it by the Servicer under the Servicing Agreement, (iii) enter into appropriate data confidentiality provisions and (iv) notify the Servicer if it requires further assistance.

For these purposes, "**control**" means the power, direct or indirect, (A) to vote more than 50 per cent. of the securities having ordinary voting power for the election of directors of the Servicer, or (B) to direct or cause the direction of the management and policies of the Servicer, whether by contract or otherwise.

Creditworthiness of the Transaction Parties

The ability of the Issuer to meet its obligations under the Notes will be dependent on the performance of the duties of each Transaction Party.

No assurance can be given that the creditworthiness of any of the Transaction Parties, including, without limitation, the Servicer, will not deteriorate in the future. Such a deterioration could affect any such Transaction Party's performance of its respective obligations under the Transaction Documents. In particular, in the case of the Servicer, any such deterioration could affect the administration, collection and enforcement of the Purchased HP Contracts by the Servicer in accordance with the Servicing Agreement.

Sharing with other creditors

The proceeds of enforcement and collection of the security over the Issuer Secured Assets created by the Issuer in favour of the Issuer Security Trustee will be used in accordance with the Issuer Post- Enforcement Priority of Payments to satisfy claims of all Issuer Secured Parties thereunder. The claims of certain creditors will be settled ahead of those of the Noteholders in accordance with the Issuer Post-Enforcement Priority of Payments.

Preferred creditors and floating charges under Irish law

Under Irish law, upon the insolvency of an Irish incorporated company (such as the Issuer or the Purchaser), when applying the proceeds of assets subject to fixed security which may have been realised in the course of a liquidation or receivership, the claims of a limited category of preferential creditors will take priority over the claims of creditors holding the relevant fixed security. These preferred claims include the remuneration, costs and expenses properly incurred by an examiner of the company (which may include any borrowing made by any examiner to fund the company's requirements for the duration of his appointment) which have been approved by the Irish courts. See "*Examinership*".

The holder of a fixed security over the book debts of an Irish incorporated company (which would include the money standing to the credit of the accounts of the Issuer or the Purchaser) may be required by the Irish Revenue Commissioners, by notice in writing from the Irish Revenue Commissioners, to pay to them sums equivalent to those which the holder of the fixed security thereafter receives in payment of debts due to it by the company. Where the holder of the security has given notice to the Irish Revenue Commissioners of the creation of the security within twenty-one (21) calendar days of its creation, the holder's liability is limited to the amount of certain outstanding Irish tax liabilities of the company (including liabilities in respect of value added tax) arising after the issuance of a notice by the Irish Revenue Commissioners to the holder of fixed security.

The Irish Revenue Commissioners may also attach any debt due to an Irish tax resident company by another person in order to discharge any liabilities of the company in respect of outstanding tax whether the liabilities are due on its own account or as an agent or trustee. The scope of this right of the Irish Revenue Commissioners has

not yet been considered by the Irish courts and it may override the rights of holders of security (whether fixed or floating) over the debt in question.

In relation to the disposal of assets of an Irish tax resident company which are subject to security, a person entitled to the benefit of the security may be liable for tax in relation to any capital gains made by the company on a disposal of those assets on exercise of the security.

The essence of a fixed charge is that the person creating the charge does not have liberty to deal with the assets which are the subject matter of the security in the sense of disposing of such assets or expending or appropriating the moneys or claims constituting such assets and, accordingly, if and to the extent that such liberty is given to the Issuer or the Purchaser, any security constituted by the Issuer Security Documents and the Purchaser Security Documents, respectively, may operate as a floating, rather than a fixed charge.

In particular, the Irish courts have held that, in order to create a fixed charge on hire purchase contracts, it is necessary to oblige the chargor to pay the proceeds of collection of the hire purchase contracts into a designated bank account and to prohibit the chargor from withdrawing or otherwise dealing with the monies standing to the credit of such account without the consent of the chargee.

Depending on the level of control actually exercised by the chargor, it is possible that security created by the Issuer and the Purchaser pursuant to the Issuer Security Documents and the Purchaser Security Documents, respectively, would be regarded by the Irish courts as creating a floating charge. Under Irish law, floating charges have certain weaknesses, including the following:

- (a) they have weak priority against purchasers (who are not on notice of any negative pledge contained in the floating charge) and chargees of the assets concerned and against lien holders, execution creditors and creditors with rights of set-off;
- (b) they rank after certain preferential creditors, such as claims of employees and certain taxes on winding up;
- (c) they rank after certain insolvency remuneration expenses and liabilities;
- (d) the examiner of a company has certain rights to deal with the property covered by floating charges; and
- (e) they rank after fixed charges.

Examinership

Examination is a court procedure available under the Companies Act 2014 (as amended) to facilitate the survival of Irish companies in financial difficulties.

The Issuer, the directors of the Issuer, a contingent, prospective or actual creditor of the Issuer, or shareholders of the Issuer holding, at the date of presentation of the petition, not less than one-tenth of the voting share capital of the Issuer are each entitled to petition the court for the appointment of an examiner. The examiner, once appointed, has the power to set aside contracts and arrangements entered into by the company after his appointment and, in certain circumstances, can avoid a negative pledge given by the company prior to his appointment. Furthermore, the examiner may sell assets which are the subject of a fixed charge. However, if such power is exercised, the examiner must account to the holders of the fixed charge for the amount realised and discharge the amount due to the holders of the fixed charge out of the proceeds of the sale.

During the period of protection, the examiner will formulate proposals for a compromise or scheme of arrangement to assist the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the relevant court when at least one class of creditors has voted in favour of the proposals and the relevant court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement.

In considering proposals by the examiner, it is likely that secured and unsecured creditors would form separate classes of creditors. In the case of the Issuer, if the Issuer Security Trustee represented the majority in number and value of claims within the secured creditor class (which would be likely given the restrictions agreed to by the

Issuer in the Note Conditions), the Issuer Security Trustee would be in a position to reject any proposal not in favour of the Noteholders. The Issuer Security Trustee would also be entitled to argue at the relevant court hearing at which the proposed scheme of arrangement is considered that the proposals are unfair and inequitable in relation to the Noteholders, especially if such proposals included a writing down of the value of amounts due from the Issuer to the Noteholders or resulted in Noteholders receiving less than they would have if the Issuer were to be wound up. The primary risks to the holders of Notes if an examiner were appointed to the Issuer are as follows:

- (a) the potential for a compromise or scheme of arrangement being approved involving the writing down or rescheduling of the debt due from the Issuer to the Noteholders as secured by the Issuer Security Documents;
- (b) the potential for the examiner to seek to set aside any negative pledge in the Transaction Documents prohibiting the creation of security or the incurring of borrowings by the Issuer to enable the examiner to borrow to fund the Issuer during the protection period; and
- (c) in the event that a scheme of arrangement is not approved and the Issuer subsequently goes into liquidation, the examiner's remuneration and expenses (including certain borrowings incurred by the examiner on behalf of the Issuer and approved by the Irish High Court) will take priority over the monies and liabilities which from time to time are or may become due, owing or payable to each of the Noteholders under the Notes or the other Transaction Documents and which are secured by the security granted pursuant to the Issuer Security Documents.

The foregoing considerations equally apply to the Purchaser.

Centre of Main Interests

The Issuer has its registered office in Ireland. As a result, there is a rebuttable presumption that its centre of main interests ("**COMI**") is in Ireland and consequently that any main insolvency proceedings applicable to it would be governed by Irish law. In the decision of the Court of Justice of the European Union ("**ECJ**") in relation to Eurofood IFSC Limited, the ECJ restated the presumption in the then applicable Council Regulation (EC) No. 1346/2000 of 29 May 2000 on Insolvency Proceedings that the place of a company's registered office is presumed to be the company's COMI and stated that the presumption can only be rebutted if "factors which are both objective and ascertainable by third parties enable it to be established that an actual situation exists which is different from that which locating it at the registered office is deemed to reflect". As the Issuer has its registered office in Ireland, has Irish directors, is registered for tax in Ireland and has an Irish corporate services provider, the Issuer does not believe that factors exist that would rebut this presumption, although this would ultimately be a matter for the relevant court to decide, based on the circumstances existing at the time when it was asked to make that decision. In addition, under Regulation 2015/848 of the European Parliament and of the Council of 20 May 2015 on Insolvency Proceedings, the registered office presumption will not apply if there has been a move of the registered office during the three months prior to the opening of proceedings. If the Issuer's COMI is not located in Ireland, and is held to be in a different jurisdiction within the European Union, main insolvency proceedings may not be opened in Ireland.

Tax considerations

Tax treatment of the Purchaser in Finland

VAT is normally charged in Finland at a standard rate of 24% and applied to most sales of goods and provisions of services.

The sale of the Purchased HP Contracts of the Financed Vehicles at face value should qualify for VAT exemption in Finland as a consequence of the Servicer having initially acquired the Purchased HP Contracts for its VAT exempt business and as there is no discount available to or compensation paid to the Purchaser otherwise. The services provided and charged separately at arms' length terms by the Servicer under the Servicing Agreement are not expected to be supplied in Finland for VAT purposes when supplied to a taxable person, i.e. other than a private person, in Ireland (i.e. the Purchaser) and thus the services so provided should not be subject to VAT in Finland.

The resale of any repossessed Financed Vehicles located in Finland is considered as a taxable supply for VAT purposes in Finland. To the extent that the said vehicles are sold to individuals, the Purchaser must be registered

for Finnish VAT purposes and charge Finnish VAT on the resale of the Financed Vehicles. As the Vehicles are used, the VAT margin scheme can be applied. Provided that the Purchaser would like to take advantage of the VAT margin scheme also with respect to supplies to taxable persons, the Purchaser must opt for voluntary VAT registration in Finland. The margin taxation scheme will require that VAT is payable by the Purchaser on the resale of the Financed Vehicles by reference to the difference between the sales price and the repossession value attributed to the Financed Vehicles (i.e. the realised profit margin). Under the margin taxation scheme, VAT may be calculated and accounted for on a monthly basis or per each resold Financed Vehicle.

Notwithstanding the foregoing, to the extent that any of the Financed Vehicles are registered on the Åland Islands and to the extent any such Financed Vehicles are brought from the Åland Islands to Finland for resale, this would for VAT purposes be considered as an import of goods from outside the EU. Following such import, the margin taxation scheme would in most circumstances not be applicable to the resale of the imported Financed Vehicles in question.

Any payments made under the Purchased HP Contracts are not subject to withholding tax in Finland.

Finnish advance tax ruling

On 8 July 2019, the Finnish Corporate Tax Office issued an advance tax ruling (decision number/journal number PO113050274) to the Purchaser. According to the advance tax ruling, a permanent establishment will not be created for the Purchaser in Finland for Finnish income tax purposes if the Purchaser acquires the Purchased HP Contracts from the Seller in a manner set out in this Prospectus and if the Portfolio subsequent to the acquisition will be administered, collected and enforced by the Seller in its capacity as Servicer and on behalf of the Purchaser under the Servicing Agreement. The advance tax ruling is binding and final.

Finnish VAT treatment of hire purchase contracts is under scrutiny

On 26 June 2019, the Finnish Supreme Administrative Court ("SAC") ruled that certain hire-purchase arrangements, including an economic option on buyer's discretion to return the vehicle to the seller/financier or to extend the term of the arrangement, constituted a provision of leasing services for Finnish VAT purposes, as opposed to sale of goods. On hire-purchase arrangements constituting provision of leasing services VAT should be charged on each instalment of the purchase price, including amounts reflecting the applicable vehicle tax. In comparison, if a hire-purchase arrangement is considered a sale of goods, VAT is paid on the purchase price of the vehicle up front when the initial purchase contract is made with the dealer and no VAT is payable on instalments and the applicable vehicle tax.

As a result of the above case, it is expected that the VAT treatment of hire-purchase arrangements in the Finnish market will be under a tighter scrutiny by the tax authorities. However, in comparison to the SAC case, the HP Contracts transferred to the Purchaser do not include an option of the customer to return the Financed Vehicle to the Seller or the Dealer or to extend the term of the HP Contract. Because of this difference, the purchase of the Financed Vehicles and HP Contracts should continue to be treated as a sale of goods for VAT purposes and no VAT should be levied on the installments payable under the HP Contracts.

Changes in Irish Tax Laws

Changes in Irish tax laws may adversely impact the business of the Issuer and the value of the Noteholders' investment.

Each of the Issuer and Purchaser are treated as a securitisation vehicle which is taxed pursuant to section 110 of the Irish Taxes Consolidation Act 1997 (the "TCA"). There is no guarantee that the tax treatment of an Irish securitisation company will not change in the future. The tax deductibility of the Purchaser's and/or Issuer's interest costs will depend on the applicability of section 110 of the TCA and the current practice of the Irish Revenue Commissioners in relation thereto. Any change to these rules may have an impact on Noteholders."

Interest payments on the Notes and under the Loan Agreement may be subject to Irish withholding tax if there is a change in Irish tax law or if the various exemption conditions set forth under "*Taxation – Taxation in Ireland – Withholding tax*" are not fulfilled. The Issuer is not obliged to gross up or otherwise compensate Noteholders for withholding taxes incurred. In addition, the Purchaser is not obliged to gross up or otherwise compensate the Issuer for withholding taxes incurred. This may, therefore, affect the return that Noteholders receive on the Notes.

Financial Transaction Tax

On 14 February 2013, the European Commission issued proposals, including a draft directive (the Commission's proposal) for a financial transaction tax ("**FTT**") to be adopted in certain participating EU Member States (including Belgium, Germany, Estonia (although Estonia has since stated that it will not participate), Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia). If the Commission's proposal was adopted, the FTT would be a tax primarily on "financial institutions" (which would include the Issuer) in relation to "financial transactions" (which would include the conclusion or modification of derivative contracts and the purchase and sale of financial instruments).

Under the Commission's proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the financial transaction is issued in a participating Member State.

The FTT may give rise to tax liabilities for the Issuer with respect to certain transactions if the conditions for a charge to arise are satisfied and the FTT is adopted based on the Commission's proposal. Any such tax liabilities may reduce amounts available to the Issuer to meet its obligations under the Notes and may result in investors receiving less interest and/or principal than expected. To the extent that such liabilities may arise at a time when winding up proceedings have been commenced in respect of the Issuer, such liabilities may be regarded as an expense of the liquidation and, as such, be payable out of the floating charge assets of the Issuer (and its general estate) in priority to the claims of Noteholders and other secured creditors. It should also be noted that the FTT could be payable in relation to relevant transactions by investors in respect of the Notes (including secondary market transactions) if the conditions for a charge to arise are satisfied and the FTT is adopted based on the Commission's proposal. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

EU Anti-Tax Avoidance Directive and EU Anti-Tax Avoidance Directive 2

As part of its anti-tax avoidance package the EU Commission published a draft Anti-Tax Avoidance Directive on 28 January 2016, which was formally adopted by the EC Council on 12 July 2016 in Council Directive (EU) 2016/1164 (the "**Anti-Tax Avoidance Directive**"). The Anti-Tax Avoidance Directive must be implemented by each Member State by 2019, subject to derogations for Member States which have equivalent measures in their domestic law. Amongst the measures contained in the Anti-Tax Avoidance Directive is an interest deductibility limitation rule similar to the recommendation contained in the BEPS Action 4 proposals. The Anti-Tax Avoidance Directive provides that interest costs in excess of the higher of (a) EUR 3,000,000 or (b) 30% of an entity's earnings before interest, tax, depreciation and amortisation will not be deductible in the year in which they are incurred but would remain available for carry forward. However, the restriction on interest deductibility would only be in respect of the amount by which the borrowing costs exceed "interest revenues and other equivalent taxable revenues from financial assets". Accordingly, as the Issuer will generally fund interest payments it makes under the Notes from interest payments to which it is entitled under the Purchased HP Contracts (that is such that the Issuer pays limited or no net interest), the restriction may be of limited relevance to the Issuer even if the Anti-Tax Avoidance Directive were implemented as originally published. There is also a carve out in the Anti-Tax Avoidance Directive for financial undertakings, although legislation is awaited in Ireland to confirm how it will be applied in a domestic context.

The European Commission is also pursuing other initiatives, such as the introduction of a common corporate tax base, the impact of which, if implemented, is uncertain. On 21 February 2017, the Economic and Financial Affairs Council of the European Union agreed an amendment to the Anti-Tax Avoidance Directive to provide for minimum standards for counteracting hybrid mismatches involving EU Member States and third countries ("**Anti-Tax Avoidance Directive 2**"). Anti-Tax Avoidance Directive 2 requires EU Member States to either delay deduction of payments, expenses or losses or include payments as taxable income, in case of hybrid mismatches. Anti-Tax Avoidance Directive 2 needs to be implemented in the EU Member States' national laws and regulations

by 31 December 2019 and will have to apply as of 1 January 2020, except for the provision on reverse hybrid mismatches for which implementation can be postponed to 31 December 2021, and will apply as of 1 January 2022.

Action Plan on Base Erosion and Profit Shifting

At a meeting in Paris on 29 May 2013, the Organisation for Economic Co-operation and Development ("**OECD**") Council at Ministerial Level adopted a declaration on base erosion and profit shifting urging the OECD's Committee on Fiscal Affairs to develop an action plan (the "**Action Plan**") to address base erosion and profit shifting in a comprehensive manner. In July 2013, the OECD launched an Action Plan on Base Erosion and Profit Shifting ("**BEPS**"), identifying fifteen specific actions to achieve this. Subsequently, the OECD published discussion papers and held public consultations in relation to those actions, also publishing interim reports, analyses and sets of recommendations in September 2014 for seven of the actions. On 5 October 2015, the OECD published final reports, analyses and sets of recommendations for all of the fifteen actions it identified as part of its Action Plan, which G20 finance ministers then endorsed during a meeting on 8 October 2015 in Lima, Peru (the "**Final Report**"). The Final Report was endorsed by G20 Leaders during their annual summit on 15-16 November 2015 in Antalya, Turkey.

Action 4

In the Final Report relating to Action 4, the OECD recommends as a best practice that countries introduce a general limitation on tax deductions for net interest and economically equivalent payments under which, broadly speaking, a company would be denied those deductions to the extent they exceeded a particular percentage of the company's EBITDA ranging from 10 to 30 per cent.

The OECD recommends that, as a minimum, countries would apply this restriction to companies that form part of domestic and multinational groups only, or to companies that form part of multinational groups. However, the OECD acknowledges that countries may also apply such restriction more broadly to include companies in a domestic group and standalone companies which are not part of a domestic group.

However, the restriction recommended would only apply to tax deductions for net interest and economically equivalent payments. As a result, since the Issuer will generally fund interest payments it makes under the Notes from interest payments to which it is entitled under Purchased HP Contracts (that is, such that Issuer pays limited or no net interest), the restriction may be of limited relevance to the Issuer even if Ireland chose to apply such a restriction to companies such as the Issuer.

Action 6

The focus of one of the actions (Action 6) is the prevention of treaty abuse by developing model treaty provisions to prevent the granting of treaty benefits in inappropriate circumstances. The Final Report recommends, as a minimum, that countries should include in their tax treaties: (i) an express statement that the common intention of each contracting state which is party to such treaties is to eliminate double taxation without creating opportunities for non-taxation or reduced taxation through tax evasion or avoidance; and one, or both, of (ii) a "limitation-on-benefits" ("**LOB**") rule; and (iii) a "principal purposes test" ("**PPT**") rule.

The PPT rule could deny a treaty benefit (such as a reduced rate of withholding tax) if it is reasonable to conclude, having regard to all facts and circumstances, that obtaining that benefit was one of the principal purposes of any arrangement or transaction that resulted directly or indirectly in that benefit, unless it is established that granting that benefit in those circumstances would be in accordance with the object and purpose of the relevant provisions of the treaty. It is unclear how a PPT, if adopted, would be applied by the tax authorities of those jurisdictions from which payments are made to the Issuer.

In contrast, the LOB rule has a more objective focus. More particularly, the OECD has included both a detailed and simplified version of the LOB rule in its Final Report relating to Action 6, albeit recommending in the related commentary to the LOB rule that the simplified version of the LOB rule should be included in a double tax treaty in combination with a PPT rule. The more detailed version of the LOB provision would limit the benefits of treaties, in the case of companies and in broad terms, to: (i) certain publicly listed companies and their affiliates; (ii) certain not-for-profit organisations and companies which carry on a pensions business; (iii) companies owned by a majority of persons who would be eligible for treaty benefits provided that the majority of the company's gross income is not paid to a third country in a tax deductible form; (iv) companies engaged in the active conduct

of a trade or business (other than of making or managing investments); (v) companies which were not established in a particular jurisdiction with a principal purpose of obtaining treaty benefits; and (vi) certain collective investment vehicles ("CIVs"). The simplified version of the LOB provision would limit these benefits to companies in similar but, generally speaking, less prescriptive circumstances. The ability to claim treaty benefits under (v) above, however, would be included in both versions, albeit that it would require a company to apply to the tax authorities of the other contracting state for the granting of that benefit.

Action 7

The focus of another action point (Action 7) was to develop changes to the treaty definition of a permanent establishment and the scope of the exemption for an "agent of independent status" to prevent the artificial avoidance of having a permanent establishment in a particular jurisdiction. The Final Report on Action 7 sets out the changes that will be made to the definition of a "permanent establishment" in Article 5 of the OECD Model Convention and the OECD Model Commentary. Among other recommendations, the Final Report on Action 7 recommended two specific changes to the OECD Model Convention: (i) the expansion of the circumstances in which a "permanent establishment" is created to include the negotiation of contracts where certain conditions are satisfied; and (ii) narrowing the exemption for agents of independent status where contracts are concluded by an "independent agent" and that agent is connected to the foreign enterprise on behalf of which it is acting.

Implementation of the recommendations in the Final Report

The OECD Action Plan noted the need for a swift implementation of any measures which are finally decided upon and suggested that Action 7, among others, could be implemented by way of multilateral instrument, rather than by way of negotiation and amendment of individual tax treaties.

Subsequently, therefore, on 24 November 2016, the OECD published the text and explanatory statement of the "Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting", developed by an ad hoc group of 99 countries which included Ireland and the UK (the "**Multilateral Instrument**"). The Multilateral Instrument is to be applied alongside existing tax treaties (rather than amending them directly), modifying the application of those existing treaties in order to implement BEPS measures. The first high-level signing ceremony for the Multilateral Instrument took place on 7 June 2017. The United Kingdom and Ireland signed the Multilateral Instrument with both countries indicating that the double tax treaty entered into between the United Kingdom and Ireland is to be designated as a Covered Tax Agreement, being a tax treaty that is to be modified by the Multilateral Instrument. Following Slovenia's ratification of the Multilateral Instrument on 22 March 2018, the Multilateral Instrument entered into force and had legal effect in Austria, the Isle of Man, Jersey and Poland (each of which had already ratified the Multilateral Instrument), as well as Slovenia from 1 July 2018. For signatories who deposit their instrument of ratification, acceptance or approval with the OECD after 22 March 2018, the Multilateral Instrument comes into force at the start of the month which is three entire calendar months after such instrument of ratification, acceptance or approval is deposited with the OECD. The United Kingdom deposited its instrument of ratification with the OECD on 29 June 2018 and therefore the Multilateral Instrument entered into force in respect of the United Kingdom on 1 October 2018. Ireland deposited its instrument of ratification of the Multilateral Instrument with the OECD on 29 January 2019 and therefore the Multilateral Instrument entered into force in respect of Ireland on 1 May 2019. Finland deposited its instrument of ratification of the Multilateral Instrument with the OECD on 25 February 2019 and therefore the Multilateral Instrument entered into force in respect of Finland on 1 June 2019.

Upon ratifying the Multilateral Instrument, the United Kingdom and Ireland deposited a final list of reservations and notifications to be made pursuant to it. Based on the information contained in these documents and the Multilateral Instrument, the double tax treaties Ireland has entered into with the United Kingdom and other jurisdictions will apply a PPT rule. It is not clear, however, how this test would be interpreted by the relevant tax authorities. On 24 March 2016, the OECD published a public discussion draft consulting on the treaty entitlement of non-CIV funds (that is, of funds that are not collective investment vehicles). The OECD published a further public discussion draft on 6 January 2017, which included examples of common transactions involving non-CIV funds to help clarify the application of the principal purpose test. These examples were subsequently incorporated in the 2017 update to the OECD Model Treaty and associated commentary published on 16 December 2017. This work may be relevant to the treaty entitlement of the Issuer.

Accordingly, at least some of the recommendations of the Final Reports on Action 7 may be applied to existing tax treaties in a relatively short time. However, the Multilateral Instrument generally allows participating countries to opt in or out of various measures which are not a BEPS "minimum standard". It remains to be seen, therefore,

precisely which options participating countries will choose and, as the Final Report on Action 6 observed, there are various reasons why countries may not implement the proposed amendments in an identical manner and/or to the same extent.

A change in the application or interpretation of these double tax treaties (as a result of the adoption of the recommendations of the Final Report by way of the Multilateral Instrument or otherwise) might result in the Issuer being treated as having a taxable permanent establishment outside of Ireland, in denying the Issuer the benefit of Ireland's network of double tax treaties or in other tax consequences for the Issuer. In each case, this could have a material adverse effect on the Issuer's business, tax and financial position.

Other risks

The Issuer believes that the risks described above are the principal risks inherent in the transaction for the Noteholders, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may occur for other reasons and the Issuer does not represent that the above statements regarding the risks of holding the Notes are exhaustive. Although the Issuer believes that the various structural elements described in this Prospectus lessen some of these risks for the Noteholders, there can be no assurance that these measures will be sufficient to ensure payment to Noteholders of interest, principal or any other amounts on or in connection with the Notes on a timely basis or at all.

The Interest Period with respect to each Payment Date (other than the first Payment Date) will be the period commencing on (and including) the Payment Date immediately preceding such Payment Date and ending on (but excluding) such Payment Date, with the first Interest Period

commencing on (and including) the Note Issuance Date and ending on (but excluding) the first Payment Date.

The amount of interest payable by the Issuer in respect of each Class of Notes will be calculated by applying the relevant Interest Rate (as defined in Note Condition 4.5 (*Interest Rate*)) to the Aggregate Outstanding Note Principal Amount of such Class immediately prior to the relevant Payment Date and:

- (a) in the case of the Class A Notes and the Class B Notes, multiplying the resultant figure by the actual number of calendar days in the relevant Interest Period divided by 360; or
- (b) in the case of the Class C Notes and the Class D Notes dividing the resultant figure by 12, or in relation to the Interest Amount which is payable on the first Payment Date following the Note Issuance Date or any subsequent Interest Amount which falls to be paid in relation to a period which is longer or shorter than an Interest Period, multiplying the resultant figure by the actual number of calendar days in the relevant Interest Period divided by 360,

and, in each case, rounding the result for such Class of Notes to the nearest EUR 1.0 (with EUR 0.5 being rounded upwards).

Payment Dates

Payments of principal and interest on the Notes will fall due for payment to the Noteholders on the 25th day of each calendar month, or, if such day is not a Business Day, the next succeeding Business Day in that calendar month (if there is one) or the preceding Business Day (if there is not). The first Payment Date will be 25th December 2019 or, if such day is not a Business Day, the next succeeding Business Day in that calendar month (if there is one) or the preceding Business Day (if there is not).

Cut-Off Date

"**Cut-Off Date**" shall mean the last day of each calendar month, beginning on 30th November 2019, and the Cut-Off Date with respect to any Payment Date is the Cut-Off Date immediately preceding such Payment Date.

Maturity Date

Unless previously redeemed or purchased and cancelled as described herein, each Class of Notes will be redeemed in full on the Payment Date falling in October 2029, subject to the limitations set forth in Note Condition 2.7 (*Limited recourse and non-petition*). The Issuer will be under no obligation to make any payment under the Notes after the Maturity Date.

Mandatory redemption

On each Payment Date prior to the delivery by the Note Trustee of an Enforcement Notice, as described in more detail in Note Condition 5.1 (*Amortisation*) the Notes will be subject to mandatory early redemption in part in accordance with the Issuer Pre-Enforcement Redemption Priority of Payments.

Following the delivery by the Note Trustee of an Enforcement Notice, on any Payment Date the Issuer will redeem the Notes in accordance with the Issuer Post-Enforcement Priority of Payments.

Optional redemption following exercise of clean-up call option

On any Payment Date on which the aggregate of (i) the Aggregate Outstanding Asset Principal Amount and (ii) the Outstanding Principal Amounts of any Purchased HP Contracts that are Defaulted HP Contracts as at the date that such Purchased HP Contract became a Defaulted HP Contract less any realised Recoveries already received by the Purchaser in

connection with such Defaulted HP Contracts has been reduced to less than 10 per cent. of the Aggregate Outstanding Asset Principal Amount as of the Note Issuance Date, the Seller will have, subject to certain requirements, the option under the Auto Portfolio Purchase Agreement to repurchase all outstanding Purchased HP Contracts held by the Purchaser for the Final Repurchase Price. If the Seller exercises this repurchase option, the Purchaser will apply the repurchase monies in repaying the Loan then outstanding and the Issuer may apply the monies received from the Purchaser in redeeming the Notes on the Clean-up Call Early Redemption Date. The Seller shall have the sole benefit of all Collections received after the Cut-Off Date immediately prior to the Clean-up Call Early Redemption Date and may apply such Collections towards the payment of the Final Repurchase Price on the Clean-up Call Early Redemption Date.

The "**Final Repurchase Price**" for any such repurchase will equal the sum of:

- (a) the Aggregate Outstanding Asset Principal Amount (excluding any Delinquent HP Contracts and, for the avoidance of doubt, any Defaulted HP Contracts) as at the Cut-Off Date immediately preceding the relevant Early Redemption Date; plus
- (b) for Defaulted HP Contracts and Delinquent HP Contracts, the aggregate Final Determined Amount as at the Cut-Off Date immediately preceding the relevant Early Redemption Date; plus
- (c) any interest on the Purchased HP Contracts (other than any Defaulted HP Contracts or Delinquent HP Contracts) accrued until, and outstanding on, the Cut-Off Date immediately preceding the relevant Early Redemption Date.

"Final Determined Amount" means:

- (a) in relation to any Delinquent HP Contract where payments are past due by up to 90 calendar days as at the Early Redemption Date, the Outstanding Principal Amount of such Delinquent HP Contract at the end of the immediately preceding Collection Period minus an amount equal to any IFRS 9 Provisioned Amount for such Delinquent HP Contract; or
- (b) in relation to any Delinquent HP Contract where payments are past due by 90 calendar days or more as at the Early Redemption Date, the higher of (i) the Outstanding Principal Amount of such Delinquent HP Contract at the end of the immediately preceding Collection Period multiplied by the Average Recovery Rate calculated on the Cut-Off Date immediately preceding the relevant Early Redemption Date, and (ii) the Outstanding Principal Amount of such Delinquent HP Contract at the end of the immediately preceding Collection Period minus an amount equal to any IFRS 9 Provisioned Amount for such Delinquent HP Contract; or
- (c) in relation to any Defaulted HP Contract (whether or not written off by, or on behalf of, the Purchaser) on the Early Redemption Date, an amount equal to: (x) the higher of (i) the Defaulted Amount with respect to such Defaulted HP Contract multiplied by the Average Recovery Rate calculated on the Cut-Off Date immediately preceding the relevant Early Redemption Date, and (ii) the lesser of (A) the value of the relevant Financed Vehicle

as provided in the official government valuation (if received by the Seller); and (B) the Defaulted Amount; minus (y) any realised Recoveries already received by the Purchaser with respect to such Defaulted HP Contract.

"Average Recovery Rate" means:

- (a) the arithmetic mean of the realised Recoveries expressed as a percentage of the Defaulted Amount of all Purchased HP Contracts that became Defaulted HP Contracts during the period starting on the later of: (i) the date falling 18 months prior to that Early Redemption Date and (ii) the Purchase Cut-Off Date; and ending on the date falling six months prior to that Early Redemption Date; or
- (b) if less than 30 Purchased HP Contracts became Defaulted HP Contracts in the period set out in item (a) above, the arithmetic mean of the realised Recoveries expressed as a percentage of the Defaulted Amount of all Purchased HP Contracts that became Defaulted HP Contracts during the period starting on the Purchase Cut-Off Date and ending on the date falling six months prior to the Early Redemption Date; or
- (c) if less than 30 Purchased HP Contracts became Defaulted HP Contracts in the period set out in item (b) above, 70 per cent.

"IFRS 9 Provisioned Amount" means, with respect to any Delinquent HP Contract on the Early Redemption Date, any amount that constitutes any expected credit loss for such Delinquent HP Contract as determined by the Seller in accordance with International Financial Reporting Standard 9 ("**IFRS 9**") (as amended) or any such equivalent financial reporting standard promulgated by the International Accounting Standards Board in order to replace IFRS 9.

Optional redemption for taxation reasons

On any Payment Date on which a Redemption Event is continuing, the Seller will have, subject to certain requirements, the option under the Auto Portfolio Purchase Agreement to repurchase all outstanding Purchased HP Contracts held by the Purchaser for the Final Repurchase Price. The Seller shall have the sole benefit of all Collections received after the Cut-Off Date immediately prior to the Tax Call Early Redemption Date and may apply such Collections towards the payment of the Final Repurchase Price.

"Redemption Event" shall occur if the Issuer satisfies the Note Trustee immediately before giving the notice referred to in Note Condition 5.4 (*Optional redemption for taxation reasons*) that a Tax Event is continuing and that the appointment of the Principal Paying Agent or a substitution in accordance with Note Condition 11 (*Substitution of the Issuer*) would not avoid the effect of the Tax Event or that, having used its reasonable endeavours, the Issuer is unable to arrange such appointment or substitution.

"Tax Event" means a change in tax law (or the application or official interpretation thereof), which change becomes effective on or after the Note Issuance Date, by reason of which on the next Payment Date, the Issuer or the Principal Paying Agent would be required to deduct or withhold from any payment of principal or interest on any Class of the Notes any amount for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by Ireland or any political sub-division

thereof or any authority thereof or therein having power to tax or any other tax authority outside Ireland.

Optional redemption for regulatory reasons

On any Payment Date on which a Regulatory Event is continuing, the Seller will have, subject to certain requirements, the option to either: (a) in accordance with the Loan Agreement, purchase all of the Issuer's rights, title, interest and benefit in, to and under the Available Junior Loan Tranches; or (b) in accordance with the Auto Portfolio Purchase Agreement advance the Seller Loan to the Issuer, in each case, for an amount that is equal to the Seller Loan Purchase Price and the Issuer shall apply such amounts received from the Seller towards redemption of all (and not some only) of the Junior Notes on such Payment Date, being the Regulatory Call Early Redemption Date.

"Available Junior Loan Tranches" shall mean, with respect to any date, the aggregate of any principal amount outstanding under the Tranche B Loan, the Tranche C Loan and the Tranche D Loan on the relevant date.

"Junior Notes" means each of the Class B Notes, the Class C Notes and the Class D Notes then outstanding on the relevant date.

"Regulatory Event" means, in the determination of the Seller, there is:

- (a) an enactment or implementation of, or supplement or amendment to, or change in, any applicable law, policy, rule, guideline or regulation of any relevant competent international, European or national body (including the European Central Bank, the Prudential Regulation Authority or any other relevant competent international, European or national regulatory or supervisory authority) or the application or official interpretation of, or view expressed by any such competent body with respect to, any such law, regulation, rule, policy or guideline; or
- (b) a notification by or other communication from an applicable regulatory or supervisory authority is received by the Seller with respect to the Securitisation,

which, in either case, occurs on or after the Note Issuance Date and results in, or would in the reasonable opinion of the Seller result in, a material adverse change in the capital treatment of the Notes or the capital relief afforded by the Notes or materially increasing the cost or materially reducing the benefit of the Securitisation, in either case, for the Seller or its Affiliates, pursuant to applicable capital adequacy requirements or regulations (as compared with the capital treatment or relief reasonably anticipated by the Seller or its Affiliates on the Note Issuance Date).

The declaration of a Regulatory Event will not be prevented by the fact that, prior to the Note Issuance Date (i) the event constituting any such Regulatory Event was: (A) announced or contained in any proposal (whether in draft or final form) for a change in the laws, regulations, applicable regulatory rules, policies or guidelines (including any accord, standard, or recommendation of the Basel Committee on Banking Supervision), as officially interpreted, implemented or applied by the European Central Bank, the Prudential Regulation Authority or the European Union; or (B) incorporated in any law or regulation approved and/or published but the effectiveness or application of which is deferred, in whole or in part, beyond the Note Issuance Date; or (C) expressed in any statement by any official of the competent authority in expert meetings or other discussions in connection with such Regulatory Event or (ii) the competent authority has issued any notification, taken any decision or

expressed any view with respect to any individual transaction, other than this transaction. Accordingly, such proposals, statements, notifications or views will not be taken into account when assessing the capital treatment of the Notes or the capital relief afforded by the Notes for the Seller or its Affiliates or an increase of the cost or reduction of benefits to the Seller or its Affiliates of the Securitisation immediately after the Note Issuance Date.

"Securitisation" means the securitisation transaction entered into on or about the Note Issuance Date under the Transaction Documents in connection with the issue of the Notes by the Issuer.

"Seller Loan" means a loan that, following the occurrence of a Regulatory Event, the Seller may elect to advance to the Issuer in accordance with the Auto Portfolio Purchase Agreement, for an amount equal to the Seller Loan Purchase Price to be applied by the Issuer in order to redeem all (and not some only) of the Junior Notes in accordance with Note Condition 5.5 (*Optional redemption for regulatory reasons*), which satisfies the Seller Loan Conditions.

"Seller Loan Purchase Price" means the amount calculated on the Reporting Date immediately preceding the Regulatory Call Early Redemption Date that is equal to the Final Repurchase Price less the principal outstanding balance of the Tranche A Loan after application of item (b) of the relevant section of the Issuer Pre-Enforcement Redemption Priority of Payments on the Regulatory Call Early Redemption Date.

"Seller Loan Redemption Purchase Price" means the amount calculated on the Reporting Date immediately preceding the Regulatory Call Early Redemption Date that is equal to the (a) the aggregate of the amounts set out in items (a) and (b) of the Final Repurchase Price as at the Cut-Off Date immediately preceding the Regulatory Call Early Redemption Date minus the principal outstanding balance of the Tranche A Loan after application of item (b) of the relevant section of the Issuer Pre-Enforcement Redemption Priority of Payments on the Regulatory Call Early Redemption Date.

"Seller Loan Revenue Purchase Price" means the amount calculated on the Reporting Date immediately preceding any Early Redemption Date that is equal to the aggregate of the amounts set out in item (c) of the Final Repurchase Price as at the Cut-Off Date immediately preceding the Regulatory Call Early Redemption Date.

Repurchases of securitisation positions

Any purchase or repurchase of positions in the Securitisation (including the Notes) by the Seller (or an entity that is an originator within the meaning of the EU Securitisation Regulation) in relation to the Securitisation as a related entity of the Seller (a **"Group Originator"**) beyond its contractual obligations would be exceptional, and any such purchase or repurchase, and any repurchase, restructuring or substitution of underlying assets by the Seller (or a Group Originator) beyond its contractual obligations would be made in accordance with prevailing market conditions with the parties to them acting in their own interests as free and independent parties (arm's length).

Issuer Event of Default

An **"Issuer Event of Default"** shall occur when:

- (a) the Issuer becomes subject to Insolvency Proceedings;

- (b) on the Maturity Date, the Issuer fails to pay any principal or interest then due and payable in respect of the Notes;
- (c) the Issuer fails to pay on any Payment Date any principal then due and payable in respect of any Notes and such failure continues for five (5) Business Days, provided that such a failure to pay with respect to the Class A Notes (prior to the Maturity Date) or the Class B Notes, the Class C Notes or the Class D Notes (at any time) will only constitute an Issuer Event of Default if the Issuer Pre-Enforcement Available Redemption Receipts as of the immediately preceding Cut-Off Date would have been sufficient to pay such amount in full in accordance with the Issuer Pre-Enforcement Redemption Priority of Payments;
- (d) the Issuer fails to pay on any Payment Date any interest then due and payable in respect of the Senior Class of Notes then Outstanding;
- (e) the Issuer fails to pay or perform, as applicable, when and as due, any other obligation under the Transaction Documents (in the case of any payment obligation with respect to any Payment Date, to the extent the Issuer Pre-Enforcement Available Revenue Receipts as of the immediately preceding Cut-Off Date would have been sufficient to pay such amounts in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments or the Issuer Pre-Enforcement Available Redemption Receipts as of the immediately preceding Cut-Off Date would have been sufficient to pay such amounts in accordance with the Issuer Pre-Enforcement Redemption Priority of Payments, as applicable), other than any obligation referred to in paragraphs (b) and (c) of this definition, and such failure is, in the opinion of the Note Trustee, materially prejudicial to the interests of the holders of the Senior Class of Notes then Outstanding and continues for thirty (30) calendar days after the date on which the Note Trustee gives written notice thereof to the Issuer; or
- (f) a Purchaser Event of Default occurs which has not been waived in accordance with the Transaction Documents.

If an Issuer Event of Default occurs and is continuing, then the Note Trustee at its discretion may and, if so requested in writing by holders of at least 50 per cent. of the aggregate principal amount of the Senior Class of Notes then Outstanding or if so directed by an Extraordinary Resolution of the holders of the Senior Class of Notes then Outstanding, shall, in all cases subject to the Note Trustee having been indemnified and/or prefunded and/or provided with security to its satisfaction, give written notice (an "**Enforcement Notice**") to the Issuer, copied to the Noteholders, the Issuer Security Trustee, the Agents, each other Issuer Secured Party and the Purchaser, declaring the Notes to be immediately due and payable, whereupon:

- (i) the Notes shall become immediately due and payable at their principal amount together with accrued interest without further action or formality; and
- (ii) no amount of cash shall be trapped in the Issuer beyond what is necessary to ensure the operational functioning of the Issuer or the orderly payments of the amounts due under the Notes in accordance with the Issuer Post-Enforcement Priority of Payments and pursuant to the terms of the Transaction

Documents, as required by Article 21(4) of the EU Securitisation Regulation and the EBA Guidelines on STS criteria.

For the avoidance of doubt, following service of an Enforcement Notice, the Issuer Security Trustee is not automatically required to liquidate any HP Contract in the Portfolio at market value.

Issuer Secured Assets

The Issuer's obligations to pay interest and principal in respect of the Notes will be funded primarily from the payments of interest and principal received by the Issuer from the Purchaser under the Loan Agreement. The Issuer's primary asset will be its rights under the Loan Agreement and the Issuer will only have a security interest in the Portfolio.

The obligations of the Issuer under the Notes will be secured by:

- (a) pursuant to the Issuer Finnish Security Agreement, a first priority pledge, to the Issuer Secured Parties (represented by the Issuer Security Trustee), of (i) all present and future claims, rights and receivables that the Issuer has or will have against the Servicer pursuant to the Servicing Agreement and the Subordinated Loan Provider pursuant to the Auto Portfolio Purchase Agreement; and (ii) the Issuer's right, title and interest in and to the Issuer Collections Account;
- (b) pursuant to the Issuer Irish Security Deed a security assignment, to the Issuer Security Trustee for the benefit of the Noteholders and the other Issuer Secured Parties, of all the Issuer's present and future right, title and interest in relation to the Issuer Corporate Administration Agreement; and
- (c) pursuant to the Issuer Security Trust Deed:
 - (i) an assignment with full title guarantee of all of the Issuer's rights under the Issuer Assigned Documents;
 - (ii) an assignment with full title guarantee of all of the Issuer's right, title, benefit and interest and all claims, present and future, under the Purchaser Security Trust Deed (including the Issuer's beneficial interest in the trust created pursuant to the Purchaser Security Trust Deed) and including all rights to receive payment of any amount which may become payable to the Issuer thereunder and all rights to serve notices and/or make demands thereunder and/or to take such steps as are required to cause payments to become due and payable thereunder and all rights of action in respect of any breach thereof and all rights to receive damages or obtain relief in respect thereof and the proceeds of any of the foregoing;
 - (iii) a first fixed charge over all of the Issuer's rights in and to the Issuer Secured Accounts and any Permitted Investments purchased with funds standing to the credit of the Issuer Secured Accounts and/or the Issuer Collections Account in which the Issuer may at any time acquire or otherwise obtain any interest or benefit (including all monies, income and proceeds payable or due to become payable thereunder and all interest accruing thereon from time to time) and all rights in

respect of or otherwise ancillary to such Permitted Investments; and

- (iv) a first floating charge with full title guarantee over the whole of the Issuer's undertaking and all of its present and future property, assets and rights, whatsoever and wheresoever and from time to time (other than its rights as pledgee under the Purchaser Finnish Security Agreement),

in each case, to the Issuer Security Trustee for the benefit of the Noteholders and the other Issuer Secured Parties.

Upon the delivery by the Note Trustee of an Enforcement Notice, the Issuer Security Trustee will, subject to the terms of the Issuer Security Trust Deed, enforce or arrange for the enforcement of the security over the Issuer Secured Assets and any proceeds obtained from the enforcement of the security over the Issuer Secured Assets pursuant to the Issuer Security Documents (together with any other funds forming part of the Issuer Post-Enforcement Available Distribution Amount) will be applied exclusively in accordance with the Issuer Post-Enforcement Priority of Payments.

Taxation

All payments of principal of, and interest on, the Notes will be made free and clear of, and without any withholding or deduction for or on account of, tax (if any) applicable to the Notes under any applicable jurisdiction, unless such withholding or deduction is required by law. If any such withholding or deduction is imposed, the Issuer will not be obliged to pay any additional or further amounts as a result thereof.

THE LOAN AGREEMENT

Loan and purpose

Under the terms of the Loan Agreement, the Issuer will apply the net proceeds from the issue of the Notes to make an advance (the "**Loan**") to the Purchaser in an amount equal to the Aggregate Purchase Price. The Loan will have four tranches: the **Tranche A Loan** in an amount equal to the Note Principal Amount of the Class A Notes as the Note Issuance Date, the **Tranche B Loan** in an amount equal to the Note Principal Amount of the Class B Notes as the Note Issuance Date, the **Tranche C Loan** in an amount equal to the Note Principal Amount of the Class C Notes as the Note Issuance Date and the **Tranche D Loan** in an amount equal to the Note Principal Amount of the Class D Notes as the Note Issuance Date. Each of the Tranche A Loan, the Tranche B Loan, the Tranche C Loan and the Tranche D Loan, a **Tranche**.

The Purchaser will apply the proceeds of the Loan to pay the Seller for the Portfolio which the Seller will sell and assign to the Purchaser on the Note Issuance Date pursuant to a purchase agreement entered into between, among others, the Purchaser and the Seller (the "**Auto Portfolio Purchase Agreement**").

Interest

The amount of interest payable to the Issuer in respect of each Tranche on each Payment Date will be calculated by the Servicer, the Cash Administrator and/or the Calculation Agent, as applicable. The amount of interest payable on each Payment Date to the Issuer in respect of:

- (a) the Tranche A Loan will be equal to (i) for so long as the Issuer is a party to the Swap Agreement, zero or (ii) if the Swap Agreement has been terminated on such date, an amount equal to the interest due and payable on the Class A Notes less an amount equal to any Principal Addition

Amounts used to cure any Senior Expenses Deficit on the Class A Notes in accordance with item (a) of the Issuer Pre-Enforcement Redemption Priority of Payments;

- (b) the Tranche B Loan will be equal to (i) for so long as the Issuer is a party to the Swap Agreement, zero (ii) if the Swap Agreement has been terminated on such date, an amount equal to the interest due and payable on the Class B Notes less an amount equal to any Principal Addition Amounts used to cure any Senior Expenses Deficit on the Class B Notes in accordance with item (a) of the Issuer Pre-Enforcement Redemption Priority of Payments;
- (c) The Tranche C Loan, will be an amount equal to the amount of interest required by the Issuer to pay interest due and payable on the Class C Notes on such Payment Date less an amount equal to any Principal Addition Amounts used to cure any Senior Expenses Deficit on the Class C Notes in accordance with item (a) of the Issuer Pre-Enforcement Redemption Priority of Payments; and
- (d) The Tranche D Loan, will be an amount equal to the amount of interest required by the Issuer to pay interest due and payable on the Class D Notes on such Payment Date less an amount equal to any Principal Addition Amounts used to cure any Senior Expenses Deficit on the Class D Notes in accordance with item (a) of the Issuer Pre-Enforcement Redemption Priority of Payments.

Fee

On each Payment Date, the Purchaser will pay to the Issuer, in accordance with the Purchaser Pre-Enforcement Priority of Payments, a fee in consideration of the making of the Loan in an amount equal to:

- (a) the aggregate of all amounts due and payable by the Issuer pursuant to items (a) to (c) (inclusive), (f), (h), (i), (k), (m) and (n) and of the Issuer Pre-Enforcement Revenue Priority of Payments;
- (b) the aggregate of all amounts due and payable by the Issuer:
 - (i) in respect of Tranche A loan, for so long as the Issuer is a party to the Swap Agreement, the Issuer's obligations in respect of any Swap Transaction relating to the Class A Notes specified in item (d) of the Issuer Pre-Enforcement Revenue Priority of Payments;
 - (ii) in respect of Tranche B loan, for so long as the Issuer is a party to the Swap Agreement, the Issuer's obligations in respect of any Swap Transaction relating to the Class B Notes specified in item (d) of the Issuer Pre-Enforcement Revenue Priority of Payments; and

(iii) any Swap Subordinated Amounts due and payable to the Swap Counterparty under the Swap Agreement specified in item (o) of the Issuer Pre-Enforcement Revenue Priority of Payments.

(c) the aggregate of all amounts due and payable by the Issuer pursuant to item (a) of the Issuer Pre-Enforcement Redemption Priority of Payments.

Loan Maturity Date

Unless previously repaid as described herein, each Tranche of the Loan will be repaid in full on the Maturity Date of the corresponding Class of Notes, subject to the limitations set forth in the Non-Petition/Limited Recourse Provisions. The Purchaser will be under no obligation to make any payment under the Loan Agreement after the Loan Maturity Date.

Mandatory repayment on each Payment Date

On each Payment Date, the Loan will be subject to repayment in accordance with the Purchaser Pre-Enforcement Redemption Priority of Payments or the Purchaser Post-Enforcement Priority of Payments as applicable.

The amount of principal repayable to the Issuer in respect of the Loan on each Payment Date will be calculated by the Servicer, the Cash Administrator and/or the Calculation Agent, as applicable, and will be equal to (i) the amount required by the Issuer to fund the aggregate of the amount of principal repayable on such Payment Date on the outstanding Notes of each Class, but not including (ii) an amount equal to the aggregate of the amounts applied under (f), (i), (k) and (m) of the Issuer Pre-Enforcement Revenue Priority of Payments.

Following the application of the relevant Issuer Priority of Payments, the principal amount outstanding in respect of each Tranche will be adjusted so that it is equal to the Note Principal Amount of the corresponding Class of Notes.

Mandatory repayment following exercise of clean-up call or tax call option

Upon the exercise by the Seller of the clean up call option or a tax call option under the Auto Portfolio Purchase Agreement the Seller shall repurchase all outstanding Purchased HP Contracts subject to Note Condition 5.3 (*Optional redemption following exercise of clean-up call option*) or Note Condition 5.4 (*Optional redemption for taxation reasons*) (as applicable) and upon receipt of the Final Repurchase Price from the Seller, the Purchaser will apply the repurchase monies in repaying the Loan on the relevant Early Redemption Date in accordance with the relevant Purchaser Pre-Enforcement Priority of Payments and the Issuer will apply the monies received from the Purchaser in redeeming the Notes on the relevant Early Redemption Date in accordance with the relevant Issuer Pre-Enforcement Priority of Payments.

Seller option to purchase Available Junior Loan Tranches or advance a Seller Loan following the occurrence of a Regulatory Event

On any Payment Date on which a Regulatory Event is continuing, the Seller will have, subject to certain requirements, the option: (a) under the Loan Agreement to purchase all of the Issuer's rights, title, interest and benefit in, to and under the Available Junior Loan Tranches; or (b) under the Auto Portfolio Purchase Agreement to advance the Seller Loan to the Issuer, in each case, for an amount that is equal to the Seller Loan Purchase Price and the Issuer shall apply any such amounts received from the Seller towards redemption of all (and not some only) of the Junior Notes on such Payment Date, being the Regulatory Call Early Redemption Date, in accordance with the relevant Issuer Pre-Enforcement Priority of Payments (see Note Condition 5.5 (*Optional redemption for regulatory reasons*)).

Further assurance

Following the Regulatory Call Early Redemption Date the relevant parties to the Transaction Documents have agreed to promptly execute and deliver all instruments, notices and documents and take all further action that the Issuer or the Seller may reasonably request including, without limitation, agreeing all necessary modifications, waivers and additions to the Transaction Documents required in order to, among others: (A) achieve, in respect of the parties to the Transaction Documents (other than, for the avoidance of doubt, the Seller) an equivalent economic effect as the position under the Transaction Documents on the date immediately prior to the Regulatory Call Early Redemption Date; and (B) reflect, as applicable: (i) the purchase all of the Issuer's rights, title, interest and benefit in, to and under the Available Junior Loan Tranches by the Seller; or (ii) the advance by, and, without limitation, the repayment of the Seller Loan to, the Seller, provided that no such modifications, waivers and additions are materially prejudicial to the interests of the holders of the Senior Class of Notes then Outstanding.

Taxation

All payments of principal of, and interest on, the Loan and fees will be made free and clear of, and without any withholding or deduction for or on account of, tax (if any) applicable to the Loan under any applicable jurisdiction, unless such withholding or deduction is required by law. If any such withholding or deduction is imposed, the Purchaser will not be obliged to pay any additional or further amounts as a result thereof.

Purchaser Events of Default

A "**Purchaser Event of Default**" shall mean the occurrence of any of the following events:

- (a) the Purchaser becomes subject to Insolvency Proceedings;
- (b) the delivery by the Note Trustee of an Enforcement Notice following the occurrence of an Issuer Event of Default;
- (c) the Purchaser fails to pay on any Payment Date or the Loan Maturity Date, as applicable, any interest or principal then due and payable in respect of the Loan and such failure continues for five (5) Business Days; provided that such a failure to pay will not constitute a Purchaser Event of Default unless an Issuer Event of Default as described in paragraph (b) and (c) of the definition thereof has also occurred;
- (d) the Purchaser fails to pay or perform, as applicable, when and as due, any other obligation under the Loan Agreement (in the case of any payment obligation with respect to any Payment Date, to the extent the Purchaser Pre-Enforcement Available Revenue Receipts as of the immediately preceding Cut-Off Date would have been sufficient to pay such amounts in accordance with the Purchaser Pre-Enforcement Revenue Priority of Payments or to the extent the Purchaser Pre-Enforcement Available Redemption Receipts as of the immediately preceding Cut-Off Date would have been sufficient to pay such amounts in accordance with the Purchaser Pre-Enforcement Redemption Priority of Payments, as applicable), other than any obligation referred to in paragraph (c) of this definition, and such failure is, in the opinion of the Note Trustee, materially prejudicial to the interests of the holders of the Senior Class of Notes then Outstanding and continues for thirty (30) calendar days after the date on which written notice thereof is given by, or on behalf of, the Issuer to the Purchaser; or
- (e) the Purchaser fails to pay when due (subject to any applicable grace periods) (i) any amount to a Debtor or to deposit such

amount with the Finnish enforcement authority on behalf of such Debtor in respect of the repossession of the relevant Financed Vehicle or (ii) any VAT to the Finnish tax authorities in relation to the resale of any Financed Vehicle following its repossession because: (A) (I) the amount standing to the credit of the Servicer Advance Reserve Ledger on the day such payment is due is insufficient to make such payment; and (II) either the Servicer has not made a Servicer Advance with respect to such payment or, if it has made a Servicer Advance, the Servicer Advance is insufficient to cover the amount of such payment after applying any available amount standing to the credit of the Servicer Advance Reserve Ledger towards making such payment; or (B) it is not possible to make such payment by its due date (subject to any applicable grace periods) in accordance with the applicable Purchaser Priority of Payments.

Purchaser Secured Assets

The obligations of the Purchaser to the Issuer under the Loan Agreement and the other Purchaser Secured Parties will be secured by first ranking security interests granted to the Issuer and the other Purchaser Secured Parties (in the case of (a) below) and to the Purchaser Security Trustee for the benefit of the Issuer and the other Purchaser Secured Parties (in the case of (b) and (c) below) over the Purchaser Secured Assets, including:

- (a) a pledge over (i) the Purchased HP Contracts; (ii) the present and future claims, rights and receivables that the Purchaser has or will have against the Servicer pursuant to the Servicing Agreement and the Seller and the Subordinated Loan Provider pursuant to the Auto Portfolio Purchase Agreement; and (iii) the Financed Vehicles, in accordance with the Purchaser Finnish Security Agreement;
- (b) security over the Purchaser's rights under the Purchaser Corporate Administration Agreement, in accordance with the Purchaser Irish Security Deed; and
- (c) security over the Purchaser's right, title and interest in, to and under (i) the Purchaser Transaction Account and any Permitted Investments purchased with funds standing to the credit of the Purchaser Transaction Account; and (ii) certain English law Transaction Documents to which it is a party, in accordance with the Purchaser Security Trust Deed.

The pledge granted in respect of the Purchased HP Contracts pursuant to the Purchaser Finnish Security Agreement will be legally perfected by virtue of notification to the Debtors and holders of the relevant Financed Vehicles and directing the Debtors and holders of the relevant Financed Vehicles to make payments under the Purchased HP Contracts to the Issuer Collections Account.

Pursuant to the Purchaser Security Trust Deed, the Issuer will declare that, until the Discharge Date, it will hold all of its rights, title, benefits and interests as pledgee under the Purchaser Finnish Security Agreement upon trust absolutely for itself and the other Purchaser Secured Parties as beneficiaries in accordance with the Purchaser Security Trust Deed.

Following delivery by the Note Trustee of an Enforcement Notice, the relevant Purchaser Security Administrative Parties will, subject to the terms of the Purchaser Security Documents, enforce or arrange for the enforcement of the security over the Purchaser Secured Assets and any proceeds obtained from the enforcement of the security over the Purchaser

Secured Assets pursuant to the Purchaser Security Documents (together with any other funds forming part of the Purchaser Post-Enforcement Available Distribution Amount) will be applied exclusively in accordance with the Purchaser Post-Enforcement Priority of Payments, no provisions of the Transaction Documents require the automatic liquidation of the Portfolio at market value pursuant to Article 21(4)(d) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria.

The Issuer, the Finnish Pledge Authorised Representative and the other Purchaser Secured Parties will not be able to exercise any rights in relation to the Portfolio beyond those which may be exercised by the Purchaser. The Purchaser's and the Purchaser Secured Parties' rights in relation to the Portfolio will be limited to the rights which the Seller had under the Purchased HP Contracts and applicable law to enforce those Contracts. Enforcement against a Debtor can only take place in accordance with applicable enforcement legislation and provided that, among other things, the relevant Purchased HP Contract is in default.

Limited recourse

All payment obligations of the Purchaser under the Loan Agreement will be limited recourse obligations of the Purchaser to pay only the amounts available for such payment from the applicable Purchaser Available Distribution Amount in accordance with the Purchaser Priorities of Payments.

THE PORTFOLIO, SERVICING AND COLLECTIONS

The Portfolio: Purchased HP Contracts

The Portfolio consists of HP Contracts executed by certain debtors as borrowers (the "**Debtors**") for the purpose of financing the acquisition of the Financed Vehicles (including the right to payment under such HP Contracts and the title to the Financed Vehicles until all such payments have been made in full).

The Portfolio will be transferred to the Purchaser on the Purchase Date pursuant to the Auto Portfolio Purchase Agreement. As of the Purchase Cut-Off Date, the Eligibility Criteria must have been satisfied by an HP Contract in order for it to be eligible for acquisition by the Purchaser pursuant to the Auto Portfolio Purchase Agreement. For further details see section entitled "*Eligibility Criteria*".

The aggregate of the Principal Amounts of the HP Contracts in the Portfolio as at the Purchase Cut-Off Date was EUR 799,072,147.

Servicing of the Portfolio

The Portfolio will be administered, collected and enforced by Santander Consumer Finance Oy, in its capacity as Servicer and on behalf of the Purchaser and others, under a servicing agreement with, *inter alios*, the Purchaser (the "**Servicing Agreement**") dated on or before the Note Issuance Date, and, upon termination of the appointment of the Servicer following the occurrence of a Servicer Termination Event, by a substitute servicer appointed pursuant to the provisions of the Servicing Agreement.

Under the terms of the Servicing Agreement, Santander Consumer Finance, S.A. will act as the back-up servicer facilitator (the "**Back-Up Servicer Facilitator**"). Pursuant to that agreement, if, so long as the Servicer is Santander Consumer Finance Oy:

- (a) the unsecured, unsubordinated debt obligations of Santander Consumer Finance, S.A. cease to have long-term ratings of at least "Baa3" by Moody's or "BBB-" by Fitch; and/or

- (b) Santander Consumer Finance, S.A. ceases to control the Servicer,

the Back-Up Servicer Facilitator will (unless Banco Santander, S.A. or one of its Affiliates has long-term ratings of at least "Baa3" by Moody's or "BBB-" by Fitch and retains or assumes control of the Servicer) (i) select within sixty (60) calendar days a bank or financial institution meeting the requirements set out in the Servicing Agreement and willing to assume the duties of a successor servicer in the event that a Servicer Termination Notice is delivered, (ii) review the information provided to it by the Servicer under the Servicing Agreement, (iii) enter into appropriate data confidentiality provisions and (iv) notify the Servicer if it requires further assistance.

For these purposes, "**control**" means the power, direct or indirect (A) to vote more than 50 per cent. of the securities having ordinary voting power for the election of directors of the Servicer, or (B) to direct or cause the direction of the management and policies of the Servicer whether by contract or otherwise.

Servicer Termination Event

"Servicer Termination Event" shall mean the occurrence of any of the following events:

- (a) the Servicer fails to remit to the Issuer any Collections received by it or to make any payment required to be made by the Servicer to the Purchaser pursuant to the Servicing Agreement, in each case, on or within three (3) Business Days after the date when such remittance or payment is required to be made in accordance with the Servicing Agreement or, if no such due date is specified, the date of demand for payment, provided, however, that subject to (g) below, a delay or failure to make such a remittance or payment will not constitute a Servicer Termination Event if such delay or failure is caused by a Force Majeure Event;
- (b) the Servicer fails to perform any of its obligations (other than those referred to in paragraph (a) above) owed to the Purchaser under the Servicing Agreement and such failure is materially prejudicial to the interests of the Noteholders (as determined by the Note Trustee) and continues for (i) five (5) Business Days in the case of failure by the Servicer to deliver the Loan by Loan Report and the Investor Report when due or (ii) thirty (30) calendar days in the case of any other failure to perform, in each case after the date on which the Note Trustee gives written notice thereof to the Purchaser, the Issuer and the Servicer or the Servicer otherwise has notice or actual knowledge of such failure (whichever is earlier), provided, however, that, subject to paragraph (g) below, a delay or failure to perform any obligation will not constitute a Servicer Termination Event if such delay or failure is caused by a Force Majeure Event;
- (c) any of the representations and warranties made by the Servicer with respect to or in the Servicing Agreement or any Loan by Loan Report or Investor Report or any information transmitted is false or incorrect in a manner which is materially prejudicial to the interests of the Noteholders (as determined by the Note Trustee);
- (d) the Servicer becomes subject to Insolvency Proceedings;
- (e) any licence, authorisation or registration of the Servicer required with respect to the Servicing Agreement and the Services to be

performed thereunder is revoked, restricted or made subject to any material conditions that would be reasonably likely to have a material adverse effect on the Servicer's ability to perform the Services;

- (f) it is or becomes unlawful for the Servicer to perform or comply with any of its obligations under the Servicing Agreement; or
- (g) the Servicer is prevented or severely hindered for a period of sixty (60) calendar days or more from complying with its obligations under the Servicing Agreement as a result of a Force Majeure Event and such Force Majeure Event continues for thirty (30) Business Days after written notice of such non-compliance has been given by, or on behalf of, the Purchaser.

Collections

Prior to the Purchase Date, the Debtors make payments on HP Contracts into one or more bank accounts in the name of the Seller at the Collections Account Bank (the "**Seller Collections Accounts**"). On or about the Purchase Date, notices will be posted to the Debtors notifying them of the transfer of the Purchased HP Contracts to the Purchaser and of the Finnish law pledge granted by the Purchaser over the Purchased HP Contracts and certain claims and directing them to make payments under the Purchased HP Contracts to a specified account of the Issuer (the "**Issuer Collections Account**"). The funds in the Issuer Collections Account (other than any amounts identified as relating to payments in respect of PPI Policy premiums), in the discretion of the Servicer, be invested by the Issuer from time to time in Permitted Investments.

"Collections" shall mean any:

- (a) Revenue Receipts;
- (b) Redemption Receipts; and
- (c) Insurance Premium Payments.

"Revenue Receipts" means, with respect to any Purchased HP Contract:

- (a) all payments by or on behalf of any Debtor or any relevant guarantor or insurer in respect of interest and other fees in respect of such Purchased HP Contract (including, without limitation, any and all proceeds by way of interest from vehicle insurance policies relating to the Financed Vehicles and all interest Allocated Overpayments) other than Unallocated Overpayments;

- (e) any other amounts by way of interest received by the Purchaser in connection with any Purchased HP Contract.

"Arrears of Interest" means at any date in respect of a Purchased HP Contract the aggregate of all interest on that Purchased HP Contract which is currently due and payable and unpaid on that date.

"Recoveries" means any amounts received or recovered by the Servicer in relation to a Defaulted HP Contract (including principal, interest, fees and proceeds from the sale of the relevant Financed Vehicles)

"Redemption Receipts" means:

- (a) all payments by or on behalf of any Debtor or any relevant guarantor or insurer in respect of principal (including payment of arrears of principal) in respect of any Purchased HP Contract (including, without limitation, any principal proceeds from vehicle insurance policies relating to the Financed Vehicles and all principal Allocated Overpayments) other than Unallocated Overpayments;
- (b) all principal amounts paid by or on behalf of the Seller into the Issuer Collections Account in respect of any Deemed Collections;
- (c) any other amounts received by the Purchaser in the nature of principal in connection with any Purchased HP Contract.

Collection Period

Collection Period shall mean, in relation to any Cut-Off Date, the period commencing on (but excluding) the Cut-Off Date immediately preceding such Cut-Off Date and ending on (and including) such Cut-Off Date and, with respect to the first Payment Date, the period that commenced on 14 September 2019 and ends on 30 November 2019.

Deemed Collections

Pursuant to the Auto Portfolio Purchase Agreement, the Seller has undertaken to pay to the Purchaser (or to its order) as a Deemed Collection the Outstanding Principal Amount (or the affected portion thereof) of any Purchased HP Contract (plus accrued and unpaid interest) if such Purchased HP Contract becomes a Disputed HP Contract, such Purchased HP Contract is rescheduled or modified other than in accordance with the Servicing Agreement or certain other events occur. In accordance with the terms of the Auto Portfolio Purchase Agreement, in certain circumstances the receipt by the Purchaser of a Deemed Collection will result in the relevant Purchased HP Contract being automatically re-assigned to the Seller on the next Payment Date following the payment of the Deemed Collection.

"Deemed Collection" shall mean, in relation to any Purchased HP Contract, an amount equal to:

- (a) the Outstanding Principal Amount of such Purchased HP Contract (or, as the context may require, the affected portion of such Outstanding Principal Amount, in each case before giving effect to an event described in this definition), plus accrued and unpaid interest on such Outstanding Principal Amount (or, as applicable, such portion) as of the date when the Seller makes payment to the Issuer Collections Account with respect to such Deemed Collection, if:

- (i) such Purchased HP Contract becomes a Disputed HP Contract (irrespective of any subsequent court determination in respect thereof);
- (ii) such Purchased HP Contract is rescheduled (including any extension of its maturity date) or otherwise substantially modified (in each case, other than as a result of a Payment Holiday or otherwise in accordance with the Servicing Agreement or the Credit and Collection Policy or applicable law); or
- (iii) such Purchased HP Contract is cancelled pursuant to applicable law,

and, in the case of (i) above, the Seller does not cure such event or condition within 60 days after the day it receives notice from the Purchaser (or the Servicer on its behalf) or otherwise obtains knowledge of such event or condition; and

- (b) the amount of any reduction of the Outstanding Principal Amount of such Purchased HP Contract or any accrued and unpaid interest or any other amount owed by a Debtor with respect to such Purchased HP Contract, due to:
 - (i) any set-off against the Seller or the Purchaser (as the case may be) due to a counterclaim of the Debtor, or any set-off or equivalent action against the relevant Debtor by the Seller;
 - (ii) any discount or other credit in favour of the Debtor (in each case, other than as a result of a Payment Holiday or otherwise in accordance with the Servicing Agreement or the Credit and Collection Policy or applicable law); or
 - (iii) any final and conclusive decision by a court or similar authority with binding effect on the parties, based on any reason (other than where the Servicer has given written notice, specifying the relevant facts, to the Purchaser that, in its reasonable opinion, such dispute is made because of the inability or unwillingness of the relevant Debtor to pay).

Application of Collections

The Servicer will (via the Collection Accounts Bank's payment system) transfer, on a monthly basis, the amount of all Collections received during the immediately preceding Collection Period and which are (after the transfer of Insurance Premium Payments to the Seller) standing to the credit of the Issuer Collections Account (being the Revenue Receipts and the Redemption Receipts received during the immediately preceding Collection Period) to a specified account in the name of the Issuer at the Transaction Account Bank, as the same may be redesignated or replaced from time to time in accordance with the Transaction Documents (the "**Issuer Transaction Account**"). The Insurance Premium Payments shall be transferred by the Seller to the relevant third party insurers in accordance with the agreements in place between the Seller and such insurance companies.

If, notwithstanding the notices to Debtors, any Collections are received and credited to any Seller Collections Account following the Purchase Date, the Servicer will instruct the Collections Account Bank to transfer such Collections to the Issuer Collections Account within one Helsinki Banking

Day after receipt (or, in the case of exceptional circumstances causing an operational delay in the transfer, within three (3) Helsinki Banking Days after receipt).

The Servicer will pay to the Purchaser (or to its order) interest on the amount of those Collections, for each day from and including the Helsinki Banking Day when the Seller receives those Collections to but excluding the date on which it transfers those Collections to the Issuer Collections Account, at the same rate as the effective rate of interest received by the Seller on amounts held in the Seller Collections Accounts during the relevant period. Such interest will be payable on each Cut-Off Date.

Application of funds from the Issuer Transaction Account

On the fifth Business Day falling after each Cut-Off Date, the amount of Revenue Receipts and Redemption Receipts transferred from the Issuer Collections Account to the Issuer Transaction Account in excess of the aggregate amount payable by the Purchaser to the Issuer under the Loan Agreement (taking into account payments to be made under the applicable Purchaser Priority of Payments) on the immediately following Payment Date will be transferred by the Servicer from the Issuer Transaction Account to a specified account in the name of the Purchaser at the Transaction Account Bank, as the same may be redesignated or replaced from time to time in accordance with the Transaction Documents (the "**Purchaser Transaction Account**") and, for the avoidance of doubt, such excess will form part of the Purchaser Pre-Enforcement Available Revenue Receipts, the Purchaser Pre-Enforcement Available Redemption Receipts or Purchaser Post-Enforcement Available Distribution Amount, as applicable.

On each Payment Date, the remaining Revenue Receipts and Redemption Receipts standing to the credit of the Issuer Transaction Account will (i) be applied *pro tanto* against the Purchaser's obligation to pay interest, principal, fees and any other amounts to the Issuer under the Loan Agreement on such Payment Date and thereafter (ii) form part of the Issuer Pre-Enforcement Available Revenue Receipts, the Issuer Pre-Enforcement Available Redemption Receipts, or the Issuer Post-Enforcement Available Distribution Amount, as applicable, and will be applied in accordance with the relevant Issuer Priority of Payments.

Application of funds from the Purchaser Transaction Account

Payments will be made by the Purchaser on the Payment Dates from amounts standing to the credit of the Purchaser Transaction Account (although payments due under the Loan Agreement will be satisfied by amounts standing to the credit of the Issuer Transaction Account). The funds standing to the credit of the Servicer Advance Reserve Ledger on the Purchaser Transaction Account may, in the discretion of the Servicer, be invested by the Purchaser from time to time in Permitted Investments.

Any Senior Expenses Deficit will be cured by applying Principal Addition Amounts

On each Reporting Date prior to the service of an Enforcement Notice, the Cash Administrator shall determine the amount of any Senior Expenses Deficit. To the extent that there is a Senior Expenses Deficit, the Cash Administrator on behalf of the Issuer shall, on the relevant Payment Date, apply Issuer Pre-Enforcement Available Redemption Receipts as Issuer Pre-Enforcement Available Revenue Receipts in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments. Issuer Pre-Enforcement Available Redemption Receipts shall only be applied to provide for any such Senior Expenses Deficit in respect of items (a) to (e) (inclusive), (g) and (only in the event that the Notes referred to in such items are the most senior class Notes) items (j) and (l) of the Issuer Pre-Enforcement Revenue Priority of Payments.

Any Issuer Pre-Enforcement Available Redemption Receipts applied as Principal Addition Amounts will be recorded as a debit on the Principal Deficiency Ledger (as further described below)

ISSUER'S SOURCES OF FUNDS

Revenue Receipts and Redemption Receipts

The Issuer's primary source of funds to make payments on the Notes will be the payments it receives from the Purchaser under the Loan Agreement. However, the ultimate source of payment on the Notes will be Revenue Receipts and Redemption Receipts on the Purchased HP Contracts. See section entitled "*The Portfolio, Servicing and Collections*" above for further details.

Liquidity Reserve

The Class A Notes and the Class B Notes will have the benefit of a liquidity reserve in an amount equal to the Required Liquidity Reserve Amount (the "**Liquidity Reserve**"), which is designed to cover temporary shortfalls in the amounts required to pay interest on the Class A Notes and the Class B Notes and certain prior-ranking amounts, as specified in the Issuer Pre-Enforcement Revenue Priority of Payments.

For so long as any of the Class A Notes or the Class B Notes are outstanding, and provided the Note Trustee has not delivered an Enforcement Notice, to the extent the Liquidity Reserve has been applied to meet the payment obligations of the Issuer in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments, the Reserve Account will be replenished on each Payment Date, up to the sum of the Required Liquidity Reserve Amount as determined as of the Cut-Off Date immediately preceding such Payment Date, by any funds of the Issuer Pre-Enforcement Available Revenue Receipts which are not used to meet the prior-ranking payment obligations of the Issuer in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments.

The "**Required Liquidity Reserve Amount**" will be:

- (a) on the Note Issuance Date, EUR 3,836,000;
- (b) on each Cut-Off Date falling after the Note Issuance Date (prior to the occurrence of an event listed in paragraph (c) below), an amount equal to 0.50 per cent. of the aggregate of the Class A Principal Amount and the Class B Principal Amount as at such Cut-Off Date; and
- (c) zero, following the earliest of:
 - (i) a Clean-Up Call Early Redemption Date or a Tax Call Early Redemption Date;
 - (ii) the Cut-Off Date falling immediately prior to the Payment Date on which the Class A Notes and the Class B Notes are redeemed in full; and
 - (iii) the Cut-Off Date falling immediately prior to the Maturity Date,

provided that in respect of the above:

- (A) until the occurrence of an event listed in paragraph (c) above, the Required Liquidity Reserve Amount will not be less than 0.15 per

cent. of the aggregate of the initial Class A Principal Amount and the initial Class B Principal Amount; and

- (B) until the occurrence of an event listed in paragraph (c) above, if a Liquidity Reserve Shortfall occurred on the preceding Payment Date, the Required Liquidity Reserve Amount will not be less than the Required Liquidity Reserve Amount as of the Cut-Off Date immediately preceding that Payment Date.

A "**Liquidity Reserve Shortfall**" will occur on any Payment Date if the amount standing to the credit of the Reserve Account in respect of the Liquidity Reserve as of such Payment Date, after replenishing the Reserve Account in accordance with item (h) of the Issuer Pre-Enforcement Revenue Priority of Payments, is less than the Required Liquidity Reserve Amount as of the Cut-Off Date immediately preceding such Payment Date.

The Liquidity Reserve will be held in a specified account in the name of the Issuer at the Transaction Account Bank, as the same may be redesignated or replaced from time to time in accordance with the Transaction Documents ("**Reserve Account**"). The funds in the Reserve Account may be invested by the Issuer from time to time in Permitted Investments.

The amounts standing to the credit of the Reserve Account in excess of the Required Liquidity Reserve Amount (the "**Liquidity Reserve Excess Amount**") will be part of the Issuer Pre-Enforcement Available Revenue Receipts.

Principal Deficiency Ledger

A Principal Deficiency Ledger will be established to record as a debit any Defaulted Amounts and/or any Principal Addition Amounts in reverse sequential order up to the Note Principal Amount of each Class of Notes. On each Payment Date and by reference to the amounts standing to the debit of the Principal Deficiency Ledger, any Issuer Pre-Enforcement Available Revenue Receipts will be applied in accordance with items (f), (i), (k) and (m) of the Issuer Pre-Enforcement Revenue Priority of Payments towards any debit against the Class A Principal Deficiency Sub-Ledger, the Class B Principal Deficiency Sub-Ledger, the Class C Principal Deficiency Sub-Ledger and the Class D Principal Deficiency Sub-Ledger and such amounts shall be applied in sequential order.

"**Defaulted Amounts**" means, as at each Cut-Off Date, the aggregate Outstanding Principal Amount of any Purchased HP Contract that has become a Defaulted HP Contract during the Collection Period ending on such Cut-Off Date as at the date that such Purchased HP Contract became a Defaulted HP Contract.

"**Principal Addition Amounts**" means, on each Reporting Date prior to the service of an Enforcement Notice on which the Cash Administrator determines that a Senior Expenses Deficit would occur on the immediately succeeding Payment Date, the amount of Issuer Pre-Enforcement Available Redemption Receipts (to the extent available) equal to the lesser of:

- (a) the amount of Issuer Pre-Enforcement Available Redemption Receipts available for application pursuant to the Issuer Pre-Enforcement Redemption Priority of Payments on the immediately succeeding Payment Date; and
- (b) the amount of such Senior Expenses Deficit.

Subordinated Loan

Pursuant to, and in accordance with, the terms of the Auto Portfolio Purchase Agreement, the Subordinated Loan Provider will make available

to the Issuer and the Purchaser a loan facility denominated in Euro under which the Subordinated Loan Provider will: (a) on the Note Issuance Date: (i) make an interest-bearing amortising advance to the Issuer in order to fund the Reserve Account; and (ii) make an interest-bearing amortising advance to the Purchaser in order to fund the Servicer Advance Reserve and (b) on or prior to the first Payment Date, make an interest bearing amortising advance to the Purchaser of an amount of EUR 127,853 (being the difference between the Aggregate Purchase Price and the Aggregate Outstanding Asset Principal Amount as of the Purchase Cut-Off Date) (the "**Gap Amount**") to provide further funds for the purpose of meeting the Purchaser's obligations under the Purchaser Pre-Enforcement Redemption Priority of Payments on such Payment Date.

After the Note Issuance Date, the Subordinated Loan Provider will not be required to make further advances to the Purchaser or the Issuer (other than the Gap Amount).

The Issuer Subordinated Loan and the Purchaser Subordinated Loan will be repaid in accordance with the applicable Issuer Priorities of Payment and applicable Purchaser Priorities of Payment, respectively, and the Transaction Documents.

CREDIT STRUCTURE

Purchased HP Contract interest rates

The Purchased HP Contracts include (i) level payment contracts under which Instalments are calculated on the basis of (approximately) equal monthly periods during the life of each loan and (ii) Balloon HP Contracts under which the final Instalment may be substantially higher than the previous Instalments. Each Instalment is comprised of a portion allocable to interest and a portion allocable to principal under the relevant HP Contract.

Cash collection arrangements

Payments by the Debtors under the HP Contracts are due on a monthly basis on the same day each month (subject to business day adjustment). Under the majority of the HP Contracts, the Debtor can choose the date each month on which payments are to be made.

The majority of Debtors have payment dates falling throughout the month, with the most popular payment dates falling on the fifteenth and thirty-first.

Prior to the Purchase Date, the Debtors make payments on HP Contracts into one or more Seller Collections Accounts. On or about the Purchase Date, the Seller will notify Debtors of the transfer of the HP Contracts to the Purchaser and the pledge granted in respect of the Purchased HP Contracts pursuant to the Purchaser Finnish Security Agreement. Such pledge will be legally perfected by virtue of such notification and directing the Debtors to make payments under the Purchased HP Contracts to the Issuer Collections Account.

All Collections paid into the Issuer Collections Account will be transferred to the Issuer Transaction Account on a monthly basis in accordance with the provisions of the Servicing Agreement (other than Insurance Premium Payments, which will be transferred on a monthly basis to the Seller).

On the fifth Business Day following each Cut-Off Date, any Collections transferred from the Issuer Collections Account to the Issuer Transaction Account representing Insurance Premium Payments will be transferred to the Seller for its own account, in accordance with the Servicing Agreement.

On the fifth Business Day following each Cut-Off Date, the remaining amount of Collections (representing Redemption Receipts and Revenue Receipts) in excess of the aggregate amount payable by the Purchaser to the Issuer under the Loan Agreement (taking into account payments to be made under the applicable Purchaser Priority of Payments) on the immediately following Payment Date will be transferred by the Servicer from the Issuer Transaction Account to the Purchaser Transaction Account and, for the avoidance of doubt, such excess will form part of the Purchaser Pre-Enforcement Available Revenue Receipts, the Purchaser Pre-Enforcement Available Redemption Receipts or the Purchaser Post-Enforcement Available Distribution Amount, as applicable, and will be applied in accordance with the relevant Purchaser Priority of Payments.

On each Payment Date, the remaining Redemption Receipts and Revenue Receipts standing to the credit of the Issuer Transaction Account will (i) be applied *pro tanto* against the Purchaser's obligation to pay interest, principal, fees and any other amounts to the Issuer under the Loan Agreement on such Payment Date (taking into account payments to be made under the applicable Purchaser Priority of Payments) and thereafter (ii) form part of the Issuer Pre-Enforcement Available Revenue Receipts, the Issuer Pre-Enforcement Available Redemption Receipts or the Issuer Post-Enforcement Available Distribution Amount, as applicable, and will be applied in accordance with the relevant Issuer Priority of Payments.

If, notwithstanding the notification to Debtors, any Collections are received and credited to any Seller Collections Account following the Purchase Date, the Servicer will instruct the Collections Account Bank to transfer such Collections to the Issuer Collections Account within one Helsinki Banking Day after receipt (or, in the case of exceptional circumstances causing an operational delay in the transfer, within three Helsinki Banking Days after receipt). The Servicer will pay the Purchaser interest on the amount of those Collections, for each day from (and including) the Helsinki Banking Day on which the Seller receives those Collections to (but excluding) the date on which it transfers those Collections to the Issuer Collections Account, at the same rate as the effective rate of interest received by the Seller on amounts held in the Seller Collections Accounts during the relevant period. Such interest will be payable on each Cut-Off Date. See "*Outline of the Other Principal Transaction Documents — Servicing Agreement*".

The Servicer will keep ledgers which, among other things, identify all amounts paid into the Purchaser Transaction Account, the Issuer Collections Account, the Issuer Transaction Account and the Reserve Account and the amount standing to the credit of the Servicer Advance Reserve Ledger.

Application of Issuer Pre-Enforcement Available Revenue Receipts and Issuer Pre-Enforcement Available Redemption Receipts

The Issuer Pre-Enforcement Available Revenue Receipts and the Issuer Pre-Enforcement Available Redemption Receipts will be calculated as at each Cut-Off Date with respect to the Collection Period ending on such Cut-Off Date for the purpose of determining, *inter alia*, the amount to be applied under the relevant Issuer Pre-Enforcement Priority of Payments on the immediately following Payment Date.

The amounts to be applied under each Issuer Pre-Enforcement Priority of Payments will vary during the life of the transaction as a result of possible variations in amounts received by the Issuer from the Purchaser under the Loan Agreement and certain costs and expenses of the Issuer. The effect of such variations could lead to drawings, and the replenishment of such drawings, from the Reserve Account.

The Issuer Pre-Enforcement Available Revenue Receipts will, pursuant to the Note Conditions and the Issuer Security Trust Deed, be applied as of each Payment Date in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments as set out in Note Condition 2.3(a) (*Issuer Pre-Enforcement Revenue Priority of Payments*) and the Issuer Pre-Enforcement Available Redemption Receipts will, pursuant to the Note Conditions and the Issuer Security Trust Deed, be applied as of each Payment Date in accordance with the Issuer Pre-Enforcement Redemption Priority of Payments as set out in Note Condition 2.4(b) (*Issuer Pre-Enforcement Redemption Priority of Payments*).

The amount of interest and principal payable under the Notes on each Payment Date will depend primarily on the amounts received by the Issuer from the Purchaser pursuant to the Loan Agreement and certain costs and expenses of the Issuer.

Payments to satisfy amounts due to third parties (other than pursuant to the Transaction Documents) and payable in connection with the Issuer's business may be made from the Issuer Transaction Account and the Reserve Account other than on a Payment Date.

Application of Purchaser Pre-Enforcement Available Revenue Receipts and Purchaser Pre-Enforcement Available Redemption Receipts

The Purchaser Pre-Enforcement Available Revenue Receipts and the Purchaser Pre-Enforcement Available Redemption Receipts will be calculated as at each Cut-Off Date with respect to the Collection Period ending on such Cut-Off Date for the purpose of determining, *inter alia*, the amount to be applied under the relevant Purchaser Pre-Enforcement Priority of Payments on the immediately following Payment Date.

The amounts to be applied under each Purchaser Pre-Enforcement Priority of Payments will vary during the life of the transaction as a result of possible variations in the amount of Collections and certain costs and expenses of the Purchaser.

The amount of interest and principal payable under the Loan Agreement on each Payment Date will depend primarily on the amount of Collections received in respect of the Purchased HP Contracts during the Collection Period immediately preceding such Payment Date and certain costs and expenses of the Purchaser. The amount of Collections received in respect of the Purchased HP Contracts will vary during the life of the Notes as a result of, *inter alia*, the level of delinquencies, defaults, repayments and prepayments in respect of the Purchased HP Contracts.

The Purchaser Pre-Enforcement Available Revenue Receipts will be applied as of each Payment Date in accordance with the Purchaser Pre-Enforcement Revenue Priority of Payments and the Purchaser Pre-Enforcement Available Redemption Receipts will be applied as of each Payment Date in accordance with the Purchaser Pre-Enforcement Redemption Priority of Payments.

Payments to satisfy amounts due to third parties (other than pursuant to the Transaction Documents) and payable in connection with the Purchaser's business may be made from the Purchaser Transaction Account other than on a Payment Date.

Deferred Purchase Price

On each Payment Date, the Deferred Purchase Price will be paid to the Seller in accordance with, and subject to, the relevant Purchaser Priority of Payments.

Issuer Post-Enforcement Priority of Payments

Following the delivery by the Note Trustee of an Enforcement Notice and prior to the full discharge of all Issuer Secured Obligations, any amounts payable by the Issuer will be paid out in accordance with the Issuer Post-Enforcement Priority of Payments set out in Note Condition 2.4 (*Issuer Pre-Enforcement Redemption Priority of Payments*).

Purchaser Post-Enforcement Priority of Payments

Following the delivery by the Note Trustee of an Enforcement Notice and prior to the full discharge of all Purchaser Secured Obligations, any amounts payable by the Purchaser will be paid out in accordance with the Purchaser Post-Enforcement Priority of Payments.

Liquidity Reserve

The Issuer will establish and maintain the Reserve Account for the purpose of holding the Liquidity Reserve, which comprises a liquidity reserve in an amount up to the Required Liquidity Reserve Amount, which is designed to cover temporary shortfalls in the amounts required to pay interest on the Class A Notes, the Class B Notes and certain prior-ranking amounts, as specified in the Issuer Pre-Enforcement Revenue Priority of Payments. On the Note Issuance Date, an amount of EUR 3,836,000 will be credited to the Reserve Account.

Prior to delivery by the Note Trustee of an Enforcement Notice, the amount, (only in the event of a shortfall and equal to and no greater than required) to pay items (a) to (e) (inclusive) and (g) of the Issuer Pre-Enforcement Revenue Priority of Payments) standing to the credit of the Reserve Account as of the Cut-Off Date immediately preceding any Payment Date will be available to pay such items.

The amounts standing to the credit of the Reserve Account in excess of the Required Liquidity Reserve Amount (the "**Liquidity Reserve Excess Amount**") will be part of the Issuer Pre-Enforcement Available Revenue Receipts.

If and to the extent that the Issuer Pre-Enforcement Available Revenue Receipts (excluding the Liquidity Reserve) on any Payment Date exceeds the amounts required to meet the items (a) and (g) (inclusive) in the Issuer Pre-Enforcement Revenue Priority of Payments, the excess amount will be applied to credit the Liquidity Reserve.

Pursuant to the Note Conditions, the "**Required Liquidity Reserve Amount**" will be equal to:

- (a) on the Note Issuance Date EUR 3,836,000;
- (b) on each Cut-Off Date falling after the Note Issuance Date (prior to the occurrence of an event listed in paragraph (c) below), an amount equal to 0.50 per cent. of the aggregate of the Class A Principal Amount and the Class B Principal Amount, as at such Cut-Off Date; and
- (c) zero, following the earliest of:
 - (i) a Clean-Up Call Early Redemption Date or a Tax Call Early Redemption Date;
 - (ii) the Cut-Off Date falling immediately prior to the Payment Date on which the Class A Notes and the Class B Notes are redeemed in full; and
 - (iii) the Cut-Off Date falling immediately prior to the Maturity Date,

provided that in respect of the above:

- (A) until the occurrence of an event listed in paragraph (c) above, the Required Liquidity Reserve Amount will not be less than 0.15 per cent. of the aggregate of the initial Class A Principal Amount and the initial Class B Principal Amount; and
- (B) until the occurrence of an event listed in paragraph (c) above, if a Liquidity Reserve Shortfall occurred on the preceding Payment Date, the Required Liquidity Reserve Amount will not be less than the Required Liquidity Reserve Amount as of the Cut-Off Date immediately preceding that Payment Date.

Principal Deficiency Ledger

A Principal Deficiency Ledger will be established to record as a debit any Defaulted Amounts and/or Principal Addition Amounts in reverse sequential order.

On each Payment Date and by reference to the amounts standing to the debit of the Principal Deficiency Ledger, any Issuer Pre-Enforcement Available Revenue Receipts will be applied in accordance with items (f), (i), (k) and (m) of the Issuer Pre-Enforcement Revenue Priority of Payments towards any debit against the Class A Principal Deficiency Sub-Ledger, the Class B Principal Deficiency Sub-Ledger, the Class C Principal Deficiency Sub-Ledger and the Class D Principal Deficiency Sub-Ledger and such amounts shall be applied in sequential order.

The "**Senior Expenses Deficit**" shall be, on any Payment Date, an amount equal to any shortfall in Issuer Pre-Enforcement Available Revenue Receipts to pay items (a) to (e) (inclusive), (g) and (only in the event that the Notes referred to in such items are the most senior class Notes) items (j) and (l) of the Issuer Pre-Enforcement Revenue Priority of Payments.

Any Issuer Pre-Enforcement Available Redemption Receipts applied as Principal Addition Amounts will be recorded as a debit on the Principal Deficiency Ledger (as further described below).

"**Defaulted Amounts**" means, as at each Cut-Off Date, the aggregate Outstanding Principal Amount of any Purchased HP Contract that has become a Defaulted HP Contract during the Collection Period ending on such Cut-Off Date as at the date that such Purchased HP Contract became a Defaulted HP Contract.

The "**Principal Deficiency Ledger**" will comprise sub-ledgers corresponding to each Class of Notes (each, a "**Principal Deficiency Sub-Ledger**"). Any Defaulted Amounts and/or any Principal Addition Amounts will be recorded as a debit on each Reporting Date:

- (a) *first*, to the Class D Principal Deficiency Sub-Ledger up to a maximum amount equal to the Class D Principal Amount; then
- (b) *second*, to the Class C Principal Deficiency Sub Ledger up to a maximum amount equal to the Class C Principal Amount; then
- (c) *third*, to the Class B Principal Deficiency Sub Ledger up to a maximum amount equal to the Class B Principal Amount; then
- (d) *fourth*, to the Class A Principal Deficiency Sub Ledger up to a maximum amount equal to the Class A Principal Amount.

On each Payment Date and by reference to the amounts standing to the debit of the Principal Deficiency Ledger, any Issuer Pre-Enforcement Available Revenue Receipts will be applied in accordance with items (f), (i), (k) and (m) of the Issuer Pre-Enforcement Revenue Priority of Payments towards any debit against the Class A Principal Deficiency Sub-Ledger, the Class B Principal Deficiency Sub-Ledger, the Class C Principal Deficiency Sub-Ledger and the Class D Principal Deficiency Sub-Ledger and such amounts shall be applied in sequential order.

Swap Agreement

The interest rate payable by the Issuer with respect to the Class A Notes and the Class B Notes is calculated as the sum of EURIBOR and the applicable margin (subject to a floor of zero) as set out in the Note Conditions. The HP Contracts bear interest at fixed rates. The Issuer has hedged this interest rate basis exposure in respect of the Class A Notes and the Class B Notes by entering into the Swap Agreement with the Swap Counterparty, in order to appropriately mitigate the interest rate risk pursuant to Article 21(2) of the EU Securitisation Regulation.

Under the Swap Agreement, on each Payment Date, the Issuer will make payments to the Swap Counterparty (i) in respect of the Class A Swap Transaction, a fixed rate of 0.2506 per cent. per annum, applied to the Class A Swap Notional Amount, and (ii) in respect of the Class B Swap Transaction, a fixed rate of 0.2755 per cent. per annum, applied to the Class B Swap Notional Amount. The Swap Counterparty will pay (i) in respect of the Class A Swap Transaction, a floating rate equal to the sum of (A) EURIBOR, as determined by the calculation agent under the Class A Swap Transaction and (B) a margin equal to 0.70 per cent. per annum (subject to a floor of zero), applied to the Class A Swap Notional Amount, and (ii) in respect of the Class B Swap Transaction, a floating rate equal to the sum of (A) EURIBOR, as determined by the calculation agent under the Class B Swap Transaction and (B) a margin equal to 0.73 per cent. per annum (subject to a floor of zero) applied to the Class B Swap Notional Amount. See "*Outline of the Other Principal Transaction Documents — The Swap Agreement*".

The Swap Counterparty will be obliged under the terms of the Swap Agreement to post collateral into the Swap Collateral Account in accordance with the terms of the Swap Agreement. Prior to a Ratings Downgrade of the Swap Counterparty, and pursuant to the terms of the Swap Agreement, the amount of collateral to be posted by the Swap Counterparty will be equal to an estimation of the amount (if any) that would be payable to the Issuer in the event of a termination of the Swap Agreement which will generally be based on the costs of entering into a replacement swap agreement (as determined by the Swap Counterparty acting in good faith and in a commercially reasonable manner).

Pursuant to the Swap Agreement, if and so long as the short-term (if applicable) or long-term unsecured, unsubordinated and unguaranteed debt obligations of the Swap Counterparty (or its guarantor) are assigned a rating lower than the Required Ratings or any such rating is withdrawn by any Rating Agency, then the Swap Counterparty (at its own cost) will do the following:

In the case of Moody's, if the Swap Counterparty (or its guarantor) ceases to have the Moody's Qualifying Collateral Trigger Rating, it will post collateral within 30 Business Days for its obligations in accordance with the provisions of the relevant Swap Agreement.

In the case of Moody's, if the Swap Counterparty (or its guarantor) ceases to have the Moody's Qualifying Transfer Trigger Rating, it:

- (a) will post collateral on each Business Day for its obligations in accordance with the provisions of the Swap Agreement; and
- (b) will, within thirty (30) calendar days, (i) obtain a guarantee of its obligations under the Swap Agreement from a third party with the Required Ratings; (ii) transfer all of its rights and obligations under the Swap Agreement to a third party with the Required Ratings; or (iii) take any further action to maintain the then current rating of the Rated Notes (subject to confirmation from the Rating Agencies that such action will not affect the then current ratings of the Rated Notes).

In the case of Fitch, if the Swap Counterparty (or its guarantor) ceases to have the Fitch First Trigger Required Rating, it:

- (a) will post collateral on each Business Day for its obligations in accordance with the provisions of the Credit Support Annex; or
- (b) may, within fourteen (14) calendar days, (i) obtain a guarantee of its obligations under the Swap Agreement from a third party with the Required Ratings; or (ii) transfer all of its rights and obligations under the Swap Agreement to a third party with the Required Ratings.

In the case of Fitch, if the Swap Counterparty (or its guarantor) ceases to have the Fitch Second Trigger Required Rating, it:

- (a) will post collateral on each Business Day for its obligations in accordance with the provisions of the Credit Support Annex; and
- (b) will, within thirty (30) calendar days, (i) obtain a guarantee of its obligations under the Swap Agreement from a third party with the Required Ratings; or (ii) transfer all of its rights and obligations under the Swap Agreement to a third party with the Required Ratings.

Failure by the Swap Counterparty to comply with the aforementioned requirements will entitle the Issuer to terminate the Swap Agreement in accordance with the conditions thereof. Where the Swap Counterparty provides collateral in accordance with the provisions of the Credit Support Annex, such collateral or interest thereon will not form part of the Issuer Pre-Enforcement Available Revenue Receipts or the Issuer Post-Enforcement Available Distribution Amount (other than collateral amounts retained by the Issuer following the designation of an early termination date under the Swap Agreement). See "*Outline of the Other Principal Transaction Documents – The Swap Agreement*" and "*Termination of the Swap Agreement*".

Swap Collateral Account

No amount may be withdrawn from the Swap Collateral Account or any other account used for the purpose of holding collateral passed by the Swap Counterparty in accordance with a Credit Support Annex, other than (i) to effect the return of excess collateral or payment of interest earned on the collateral to the Swap Counterparty (which return or payment will be effected by the transfer of such excess or interest amount directly to the Swap Counterparty without deduction for any purpose and outside the relevant Issuer Priority of Payments) or (ii) following the termination of the Swap Agreement where an amount is owed by the Issuer to the Swap Counterparty (for the avoidance of doubt, after any close out netting has taken place), to pay the Swap Counterparty or (iii) following the termination of the Swap Agreement where an amount is owed by the Swap Counterparty to the Issuer (for the avoidance of doubt, after any close out netting has taken place), to be retained by the Issuer in accordance with the Swap Agreement.

Where the Swap Counterparty provides collateral in accordance with the provisions of a Credit Support Annex, such collateral or interest thereon will not form part of the Issuer Pre-Enforcement Available Revenue Receipts or the Issuer Post-Enforcement Available Distribution Amount (other than collateral amounts applied in satisfaction of termination payments due to the Issuer following the designation of an early termination date under the Swap Agreement). See "*Outline of the Other Principal Transaction Documents – The Swap Agreement*" and "*The Swap Counterparty*".

Credit enhancement

As, on the Note Issuance Date, the average interest rate under the Purchased HP Contracts exceeds the average weighted interest rate of the Notes, it is expected that the Issuer Pre-Enforcement Available Revenue Receipts on each Payment Date will exceed the amounts required to pay the aggregate amounts of interest payable on the Notes and the items ranking higher than such amounts in the Issuer Pre-Enforcement Revenue Priority of Payments and that, over the life of the Transaction, the sum of the Issuer Pre-Enforcement Available Redemption Receipts will exceed the amounts needed to pay item (a) in the Issuer Pre-Enforcement Redemption Priority of Payments and to repay the Note Principal Amount with respect to each respective Class of Notes.

Prior to the delivery by the Note Trustee of an Enforcement Notice:

- (a) the Class A Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal, of the Class B Notes, the Class C Notes and the Class D Notes and through the Liquidity Reserve;
- (b) the Class B Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal, of the Class C Notes and the Class D Notes and through the Liquidity Reserve; and
- (c) the Class C Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal, of the Class D Notes.

On or after the occurrence of a *Pro rata* Trigger Event and before the occurrence of a Sequential Payment Trigger Event payments of principal on the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes shall be made on a *pro rata* and *pari passu* basis. Any Defaulted Amounts and Principal Addition Amounts shall continue to be recorded as a debit to the Principal Deficiency Ledger in reverse sequential order while any credits to the Principal Deficiency Ledger will continue to be recorded in sequential order.

Following the delivery by the Note Trustee of an Enforcement Notice:

- (a) the Class A Notes have the benefit of credit enhancement provided through the subordination, both as to payment of principal and interest and on enforcement of the security over the Issuer Secured Assets, of the Class B Notes, the Class C Notes and the Class D Notes;
- (b) the Class B Notes have the benefit of credit enhancement provided through the subordination, both as to payment of principal and interest and on enforcement of the security over the Issuer Secured Assets, of the Class C Notes and the Class D Notes;
- (c) the Class C Notes have the benefit of credit enhancement provided through the subordination, both as to payment of principal and interest and on enforcement of the security over the Issuer Secured Assets, of the Class D Notes; and
- (d) any amount standing to the credit of the Reserve Account will be included in the Issuer Post-Enforcement Available Distribution Amount and applied on the next Payment Date in accordance with the Issuer Post-Enforcement Priority of Payments.

Purchaser Subordinated Loan and Issuer Subordinated Loan

The Subordinated Loan Provider will (a) make available to the Issuer on or prior to the Note Issuance Date an interest-bearing amortising advance in the principal amount of EUR 3,836,000, which will be utilised for the purpose of funding the Reserve Account up to the Required Liquidity Reserve Amount as at the Note Issuance Date; and (b) make available to the Purchaser on or prior to the Note Issuance Date an interest-bearing amortising advance in the principal amount of EUR 100,000, which will be utilised for the purpose of funding the Servicer Advance Reserve; and (c) on or prior to the first Payment Date, make an interest bearing amortising advance to the Purchaser of an amount of EUR 127,853 (being the difference between the Aggregate Purchase Price and the Aggregate Outstanding Asset Principal Amount Outstanding as of the Purchase Cut-Off Date) (the "**Gap Amount**") to provide further funds for the purpose of meeting the Purchaser's obligations under the Purchaser Pre-Enforcement Redemption Priority of Payments on such Payment Date.

After the Note Issuance Date, the Subordinated Loan Provider will not be required to make further advances to the Purchaser or the Issuer (other than the Gap Amount).

The obligations of the Issuer under the Issuer Subordinated Loan are subordinated to the obligations of the Issuer under the Notes and, following the delivery by the Note Trustee of an Enforcement Notice, rank against the Notes and all other obligations of the Issuer subject to and in accordance with the Issuer Post-Enforcement Priority of Payments.

The obligations of the Purchaser under the Purchaser Subordinated Loan are subordinated to the obligations of the Purchaser under the Loan and, following the delivery by the Note Trustee of an Enforcement Notice, rank against the Loan and all other obligations of the Purchaser in accordance with the Purchaser Post-Enforcement Priority of Payments.

Prior to the delivery by the Note Trustee of an Enforcement Notice, interest under the Issuer Subordinated Loan and the Purchaser Subordinated Loan will be payable by the Issuer and the Purchaser, respectively, monthly in arrear on each Payment Date, subject to and in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments and the Purchaser Pre-Enforcement Revenue Priority of Payments, respectively.

The principal amount outstanding and unpaid on the Issuer Subordinated Loan will be repaid by the Issuer in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments as the amount of the Required Liquidity Reserve Amount reduces. The principal amount outstanding and unpaid on the Purchaser Subordinated Loan will be repaid by the Purchaser in accordance with the relevant Purchaser Priority of Payments together with any accrued but unpaid interest thereon.

("**Clearstream, Luxembourg**") and/or Euroclear Bank S.A./N.V. ("**Euroclear**" and, together with Clearstream Luxembourg, the "**Clearing Systems**"). Whilst any Note is represented by a Temporary Global Note, payments of principal, interest and any other amount payable in respect of such Note due prior to the Exchange Date (as defined below) will be made only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.
- (b) On and after the date (the "**Exchange Date**") which is forty (40) calendar days after a Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein for interests in a permanent global note of the same Class (each a "**Permanent Global Note**") against certification of beneficial ownership as described above unless such certification has already been given. The

holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note is improperly withheld or refused.

- (c) Payments of principal, interest or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg without any requirement for certification.

1.2 Denomination

The Notes will be issued in the denomination of EUR 100,000.

1.3 Title

- (a) Subject as provided below, title to the Notes will pass upon delivery and the bearer of any Note shall (except as otherwise required by law) be treated as its absolute owner for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing thereon or any notice of any previous loss or theft thereof) and no person shall be liable for so treating such holder.
- (b) For so long as any Notes are represented by a Temporary Global Note or a Permanent Global Note (each a "**Global Note**") held on behalf of Euroclear and/or Clearstream, Luxembourg, as the case may be, each person (other than Euroclear or Clearstream, Luxembourg, as the case may be) who is for the time being shown in the records of the relevant Clearing System as the holder of a particular amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg, as the case may be, as to the amount of Notes standing to the account of any person shall be conclusive evidence for all purposes) shall be treated by the Issuer, the Note Trustee and the Agents as the holder of such amount of such Notes for all purposes, save with respect to the payment of principal or interest on the principal amount of such Notes (and the expressions "**holder**" and "**Noteholder**" and related expressions shall be construed accordingly).
- (c) Transfers of beneficial interests in Global Notes will be effected by Euroclear or Clearstream, Luxembourg, as the case may be, and, in turn, by other participants and, if appropriate, indirect participants in Euroclear or Clearstream, Luxembourg, as the case may be, acting on behalf of beneficial transferors and transferees of such interests. Title will pass upon registration of the transfer in the books of Euroclear or Clearstream, Luxembourg, as the case may be.
- (d) Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each an "**Accountholder**") must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other clearing system (as the case may be) for such Accountholder's share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by a Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the bearer of such Global Note.
- (e) Notes and interests therein may not be transferred at any time, directly or indirectly, in the United States or to or for the benefit of a U.S. person, and any such transfer shall not be recognised.

1.4 Definitive Notes

Upon the occurrence of an Exchange Event (as defined below), each Global Note may be exchanged for duly executed and authenticated definitive Notes without charge.

An **Exchange Event** will occur if:

- (a) the Note Trustee has served an Enforcement Notice (as defined in Note Condition 12 (*Events of Default*));
- (b) the Issuer has been notified that both Euroclear and/or Clearstream, Luxembourg, as the case may be, has been closed for business for a continuous period of fourteen (14) calendar days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system satisfactory to the Note Trustee is available; or
- (c) a change in law has or would cause the Issuer to become subject to adverse tax consequences which would not be suffered were the Notes in definitive form.

The Issuer will promptly give notice to Noteholders if an Exchange Event occurs. In exchange for the surrender of a Global Note, the Issuer or such other person as the Issuer may direct will deliver, or procure the delivery of, in full (but not in partial) exchange for such Global Note, an aggregate principal amount of duly executed and authenticated definitive Notes (having attached to them coupons in respect of interest which has not already been paid on the Global Note) equal to the outstanding principal amount of the relevant Global Note, security printed in accordance with any applicable legal and stock exchange requirements and in, or substantially in, the form set out in the Note Trust Deed.

- (l) *twelfth*, to pay any Class D Notes Principal due and payable (*pro rata* on each Class D Note) until the Class D Principal Amount has been reduced to zero;
- (m) *thirteenth*, to pay interest (including deferred interest) due and payable to the Subordinated Loan Provider under the Auto Portfolio Purchase Agreement in respect of the Issuer Subordinated Loan;
- (n) *fourteenth*, to pay any Swap Subordinated Amounts due and payable to the Swap Counterparty under the Swap Agreement;
- (o) *fifteenth*, to repay outstanding principal due and payable to the payable to the Subordinated Loan Provider under the Auto Portfolio Purchase Agreement in respect of the Issuer Subordinated Loan;
- (p) *lastly*, to pay the balance (if any) to the Purchaser.

When amounts are due to be paid on a *pro rata* basis, to the extent sufficient funds are not available to make all payments of such amounts within the same priority, the amounts will be distributed proportionately between the owed recipients according to each owed recipient's share of the total amount owed to all participants within that priority.

When amounts are due to be paid on a *pro rata* basis and the recipients are owed amounts denominated in Euro and other currencies, for the purposes of calculating each recipient's share of the total amount, amounts that are denominated in such other currencies shall be converted into Euro using the Spot Rate as at the date immediately preceding the date of such calculation.

If any amount payable under the Issuer Post-Enforcement Priority of Payments is denominated in a currency other than Euro, the Transaction Account Bank shall convert funds in the Issuer Transaction Account into the relevant currency using the Spot Rate as at the date immediately preceding the date of such calculation.

2.7 Limited recourse and non-petition

- (a) Notwithstanding any provision of these Note Conditions or any other Transaction Document to the contrary, all payment obligations of the Issuer under the Notes constitute limited recourse obligations of the Issuer and therefore the Noteholders' claim under the Notes against the Issuer shall be limited to:
- (i) in respect of amounts payable prior to the Issuer Security becoming enforceable:
 - (A) the Issuer Pre-Enforcement Available Revenue Receipts, but only to the extent of the balance of the Issuer Pre-Enforcement Available Revenue Receipts remaining after paying amounts of a higher order of priority and providing for amounts payable *pari passu* therewith in accordance with, and subject to, the Issuer Pre-Enforcement Revenue Priority of Payments; and
 - (B) the Issuer Pre-Enforcement Available Redemption Receipts, but only to the extent of the balance of the Issuer Pre-Enforcement Available Redemption Receipts remaining after paying amounts of a higher order of priority and providing for amounts payable *pari passu* therewith in accordance with, and subject to, the Issuer Pre-Enforcement Redemption Priority of Payments;
 - (ii) in respect of amounts payable following the Issuer Security becoming enforceable, the Issuer Post-Enforcement Available Distribution Amount, but only to the extent of the balance of the Issuer Post-Enforcement Available Distribution Amount remaining after paying amounts of a higher order of priority and providing for amounts payable *pari passu* therewith in accordance with, and subject to, the Issuer Post-Enforcement Priority of Payments.

Upon and after the enforcement of the Issuer Security and realisation of all the Issuer Secured Assets or the Issuer Secured Assets are otherwise realised in full and distributed in accordance with the terms of these Note Conditions and the Transaction Documents, to the extent that the actual amounts received or recovered are less than the amounts due and payable to the Noteholders and the other Issuer Secured Parties, the Issuer's obligations in respect of the unpaid amount shall be automatically extinguished and Noteholders and the other Issuer Secured Parties shall have no further claim against the Issuer. The Notes shall not give rise to any payment obligation in excess of the foregoing and recourse shall be limited accordingly.

- (b) The Transaction Account Bank shall hold all monies paid to it in the Issuer Transaction Account, the Reserve Account and the Swap Collateral Account.
- (c) The Issuer shall exercise all of its rights and obligations under the Transaction Documents with due care such that obligations under the Notes may be performed to the fullest extent possible.
- (d) None of the Note Trustee, the Issuer Security Trustee nor the Noteholders shall be entitled to (i) institute against the Issuer any action or commence any proceedings against the Issuer to recover any amounts due and payable by the Issuer under the Transaction Documents except as permitted by the provisions in the Transaction Documents; or (ii) take any action or commence any proceedings or petition a court for the liquidation or examinership of the Issuer, or enter into any arrangement, reorganisation or any other Insolvency Proceedings in relation to the

Issuer (save for the appointment of a Receiver in accordance with the provisions of the Issuer Security Documents), whether under the laws of Ireland or other applicable bankruptcy laws.

- (e) No recourse under any covenant, undertaking, agreement or other obligation of the Issuer contained in these Note Conditions, the Issuer Security Trust Deed or in any other Transaction Document shall be made against any shareholder, officer, agent or director of the Issuer as such, by the enforcement of any assignment, by any proceeding, by virtue of any statute or otherwise. These Note Conditions, the Issuer Security Trust Deed and each of the other Transaction Documents is a corporate obligation of the Issuer and no liability shall attach to, or be incurred by, the shareholders, officers, agents or directors of the Issuer as such, or any of them, under or by reason of any of the covenants, undertakings, agreements and other obligations of the Issuer contained herein or therein, or implied herefrom or therefrom. Any and all personal liability for breach by the Issuer of any of such covenants, undertakings, agreements or other obligations, either at law or by statute or certification, of every such shareholder, officer, agent or director shall be waived.

The provisions of this Note Condition 2.7 shall survive redemption of the Notes.

2.8 **Shortfall after application of proceeds**

To the extent that such assets, or the proceeds of realisation thereof, after payment of all claims ranking in priority to any Class of Notes, prove ultimately insufficient to satisfy the claims of the relevant Class of Noteholders in full, then any shortfall arising therefrom shall be extinguished and neither any such Noteholder nor the Note Trustee or the Issuer Security Trustee shall have any further claims against the Issuer. Such assets and proceeds shall be deemed to be ultimately insufficient at such time as no further assets of the Issuer are available and no further proceeds can be realised therefrom to satisfy any outstanding claim of the relevant Class of Noteholders, and neither assets nor proceeds shall be so available thereafter.

The provisions of this Note Condition 2.8 shall survive redemption of the Notes.

2.9 **Enforcement of the Issuer Security**

- (a) The Notes are secured by the Issuer Security.
- (b) The Issuer Security will become enforceable upon delivery by the Note Trustee of an Enforcement Notice in accordance with Note Condition 12 (*Events of Default*).
- (c) If the Issuer Security has become enforceable, subject to the Issuer Security Trustee being indemnified and/or secured and/or pre-funded to its satisfaction, the Issuer Security Trustee shall take such action as it is instructed to take by the Note Trustee in order to enforce its rights under the Issuer Security Documents.
- (d) Only the Issuer Security Trustee (acting on the instructions of the Note Trustee) may pursue the remedies available under the Issuer Security Documents to enforce the rights of the Noteholders in respect of the security over the Issuer Secured Assets and no Noteholder is entitled to proceed against the Issuer unless (i) the Note Trustee, having become bound to do so, fails to take action against the Issuer, or fails to instruct the Issuer Security Trustee to enforce any of the Issuer Security or the Issuer Security Trustee fails to enforce any of the Issuer Security as so instructed, in each case within a reasonable time and such failure is continuing or (ii) (as determined by a court of competent jurisdiction in a decision not subject to appeal) Finnish law requires that the Noteholders exercise their rights individually and not through the Note Trustee.
- (e) Upon the Issuer Security Trustee having realised the Issuer Security and the Note Trustee having distributed the net proceeds in accordance with this Note Condition 2, neither the Issuer Security Trustee, the Note Trustee nor any Noteholder may take any further steps against the Issuer to recover any sums still unpaid and any such liability shall be extinguished.

2.10 **Obligations of the Issuer only**

The Notes represent obligations of the Issuer only and do not represent an interest in or obligation of the Issuer Security Trustee, the Note Trustee, any other party to the Transaction Documents or any other third party.

3. **GENERAL COVENANTS OF THE ISSUER**

As long as any Notes are Outstanding, the Issuer shall not be entitled, without the prior consent of the Note Trustee, to engage in or undertake any of the activities or transactions specified in Clause 6 (*General covenants*) of the Issuer Security Trust Deed, and in particular the Issuer agrees not to:

(a) *Negative pledge*

at any time prior to the Discharge Date, create or permit to subsist any Security Interest over any Issuer Secured Asset other than pursuant to and in accordance with the Transaction Documents;

(b) *No disposals*

at any time prior to the Discharge Date, dispose of (or agree to dispose of) any Issuer Secured Asset except as expressly permitted by the Transaction Documents;

(c) *Dividends or distributions*

except with respect to any dividends payable to the Issuer Share Trustee arising from the Issuer reserved profit of EUR 1,000 per annum, pay any dividend or make any other distribution or return or repay any equity capital to any shareholders, or increase its share capital save as required by applicable law;

(d) *Subsidiaries*

have any subsidiaries or any employees or premises;

(e) *Borrowings*

incur any indebtedness in respect of borrowed money whatsoever or give any guarantee in respect of indebtedness or of any obligation of any person, save as provided in the Transaction Documents;

(f) *Merger*

consolidate or merge with any other person or convey or transfer all or substantially all of its properties or assets to any other person;

(g) *Derivatives*

enter into derivative contracts, other than the Swap Agreement and save as expressly permitted by Article 21(2) of the EU Securitisation Regulation; or

(h) *Other*

amend, terminate, discharge or exercise any powers of consent or waiver pursuant to the terms of any of the Transaction Documents to which it is a party, or permit any party to any of the Transaction Documents to which it is a party to be released from its obligations thereunder.

In giving any consent to the foregoing, the Note Trustee may require the Issuer to make such modifications or additions to the provisions of any of the Transaction Documents or may impose such other conditions or requirements as the Note Trustee may determine.

The Note Trustee shall not be responsible for monitoring, nor liable for any failure to monitor, compliance by the Issuer with the above covenants and will be entitled to rely upon certificates signed on behalf of the Issuer as to compliance.

4. INTEREST

4.1 Interest calculation

Subject to the limitations set forth in Note Condition 2.7 (*Limited recourse and non-petition*) and, in particular, subject to the Issuer Pre-Enforcement Revenue Priority of Payments and, following the delivery by the Note Trustee of an Enforcement Notice, the Issuer Post-Enforcement Priority of Payments, each Note shall bear interest on its Note Principal Amount from (and including) the Note Issuance Date until (but excluding) the day on which such Note has been redeemed in full.

4.2 Payment Dates

Subject to Note Condition 4.7 (*Interest deferral*), interest shall become due and payable monthly in arrear on the 25th day of each calendar month, commencing on 25 December 2019, or, if any such day is not a Business Day, on the next succeeding Business Day in that calendar month (if there is one) or the preceding Business Day (if there is not) (each such day, a "**Payment Date**").

4.3 Interest Amount

The amount of interest payable by the Issuer in respect of each Class of Notes on any Payment Date (the "**Interest Amount**") shall be calculated by applying the relevant Interest Rate (as defined in Note Condition 4.5 (*Interest Rate*)) to the Note Principal Amount of such Class immediately prior to the relevant Payment Date and:

- (a) in the case of the Class A Notes and the Class B Notes, multiplying the resultant figure by the actual number of calendar days in the relevant Interest Period divided by 360; or
- (b) in the case of the Class C Notes and the Class D Notes, dividing the resultant figure by 12 or in relation to the Interest Amount which is payable on the first Payment Date following the Note Issuance Date or any subsequent Interest Amount which falls to be paid in relation to a period which is longer or shorter than an Interest Period, multiplying the resultant figure by the actual number of calendar days in the relevant Interest Period divided by 360,

and, in each case, rounding the result for such Class of Notes to the nearest EUR 1.0 (with EUR 0.5 being rounded upwards).

4.4 Interest Period

Interest Period shall mean, in respect of the first Payment Date, the period commencing on (and including) the Note Issuance Date and ending on (but excluding) the first Payment Date and, in respect of any subsequent Payment Date, the period commencing on (and including) a Payment Date and ending on (but excluding) the immediately following Payment Date.

4.5 Interest Rate

- (a) The interest rate payable on any Note (each, an Interest Rate) shall be:
 - (i) in the case of the Class A Notes, EURIBOR or, as applicable, the Alternative Base Rate as determined pursuant to Note Condition 4.5(d) (the "**Reference Rate**") plus 0.70 per cent. per annum (subject to a floor of zero);
 - (ii) in the case of the Class B Notes, EURIBOR, or as applicable, the Reference Rate plus 0.73 per cent. per annum (subject to a floor of zero);
 - (iii) in the case of the Class C Notes, 1.40 per cent. per annum; and

- (iv) in the case of the Class D Notes, 5.00 per cent. per annum.

"EURIBOR" shall mean, in respect of any Interest Period, the European Interbank Offered Rate, determined on the following basis:

- (a) the Calculation Agent will determine EURIBOR for such Interest Period as being the rate for deposits in Euro for a period equal to one month which appears on the Reuters Page EURIBOR01 as of 11:00 a.m. (Brussels time) on the EURIBOR Determination Date provided that, in respect of the first Interest Period, the Calculation Agent will determine such rate by straight line linear interpolation of the rates which appear in respect of two month and three month deposits; or
- (b) if such rate does not appear on that page, the Calculation Agent will:
 - (i) request that the principal Euro-zone office of each of four major banks (selected by the Issuer or by a rate determination agent (the "**Rate Determination Agent**") which must be the investment banking division of a bank of international repute and which is not an affiliate of the Seller) provide a quotation of the rate at which deposits in Euro are offered by it at approximately 11:00 a.m. (Brussels time) on the EURIBOR Determination Date to prime banks in the Euro-zone interbank market for a period of one month commencing on the first day of the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time, assuming an Actual/360 day count basis; and
 - (ii) if at least two quotations are provided accordingly, determine the arithmetic mean (rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, 0.000005 being rounded upwards) of such quotations and the Calculation Agent will determine EURIBOR for such Interest Period as being such mean. or
 - (iii) if such rate does not appear on that page and fewer than two such quotations are provided as requested in the manner described above, the Calculation Agent will determine the arithmetic mean (rounded, if necessary, as aforesaid) of the rates quoted by major banks in the Euro-zone, selected by the Issuer or by a rate determination agent, at approximately 11:00 a.m. (Brussels time) on the first day of the relevant Interest Period for loans in Euro to leading European banks for a period of one month commencing on the first day of the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time, and the Calculation Agent will determine EURIBOR for such Interest Period as being such mean; or
 - (iv) if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, EURIBOR for such Interest Period will be EURIBOR as last determined in relation to the immediately preceding Interest Period.
- (b) Notwithstanding anything to the contrary, including Note Condition 4.5(a) above, the following provisions will apply if the Issuer (acting on the advice of the Servicer) determines that any of the following events (each a "**Base Rate Modification Event**") has occurred:
 - (i) a material disruption to EURIBOR, an adverse change in the methodology of calculating EURIBOR or EURIBOR ceasing to exist or to be published;
 - (ii) the insolvency or cessation of business of the EURIBOR administrator (in circumstances where no successor EURIBOR administrator has been appointed);
 - (iii) a public statement by the EURIBOR administrator that it will cease publishing EURIBOR permanently or indefinitely (in circumstances where no successor

EURIBOR administrator has been appointed that will continue publication of EURIBOR or will be changed in an adverse manner);

- (iv) a public statement by the supervisor of the EURIBOR administrator that EURIBOR has been or will be permanently or indefinitely discontinued or will be changed in an adverse manner;
 - (v) a public statement by the supervisor of the EURIBOR administrator which means that EURIBOR may no longer be used or that its use is subject to restrictions or adverse consequences;
 - (vi) a public announcement of the permanent or indefinite discontinuity of EURIBOR as it applies to the Class A Notes and the Class B Notes; or
 - (vii) the reasonable expectation of the Issuer (acting on the advice of the Servicer) that any of the events specified in Note Conditions 4.5(b)(i), 4.5(b)(ii), 4.5(b)(iii), 4.5(b)(iv), 4.5(b)(v) or 4.5(b)(vi) will occur or exist within six months of the proposed effective date of such Base Rate Modification.
- (c) Following the occurrence of a Base Rate Modification Event, the Issuer (acting on the advice of the Servicer) will inform the Seller, Note Trustee and the Swap Counterparty of the same and will appoint a Rate Determination Agent to carry out the tasks referred to in Note Condition 4.5(d).
- (d) The Rate Determination Agent shall determine an alternative base rate (the "**Alternative Base Rate**") to be substituted for EURIBOR as the Reference Rate of the Class A Notes and the Class B Notes and those amendments to the Note Conditions and the Transaction Documents to be made by the Issuer as are necessary or advisable to facilitate such change (the "**Base Rate Modification**"), provided that no such Base Rate Modification will be made unless:
- (i) the Rate Determination Agent has determined and confirmed to the Issuer and the Issuer has certified to the Note Trustee in writing (such certificate, a "**Base Rate Modification Certificate**"), and the Note Trustee shall be entitled to rely on such certificate without further enquiry or liability to any person and, if the Note Trustee does so rely, such certificate shall, in the absence of manifest error, be conclusive and binding on the Noteholders that:
 - (A) such Base Rate Modification is being undertaken due to the occurrence of a Base Rate Modification Event and, in each case, such modification is required solely for such purpose and it has been drafted solely to such effect; and
 - (B) such Alternative Base Rate is:
 - (I) a base rate published, endorsed, approved or recognised by the relevant regulatory authority or any stock exchange on which the Notes are listed or any relevant committee or other body established, sponsored or approved by any of the foregoing);
 - (II) a base rate utilised in a material number of publicly-listed new issues of Euro denominated asset backed floating rate notes prior to the effective date of such Base Rate Modification;
 - (III) a base rate utilised in a publicly-listed new issue of Euro denominated asset backed floating rate notes where the originator of the relevant assets is an affiliate of Santander Consumer Finance Oy; or
 - (IV) such other base rate as the Rate Determination Agent reasonably determines (and in relation to which the Rate Determination Agent

has provided reasonable justification of its determination to the Issuer and the Note Trustee),

and:

- (V) in each case, the change to the Alternative Base Rate will not, in the Servicer's opinion, be materially prejudicial to the interest of the Noteholders; and
- (VI) for the avoidance of doubt, the Servicer may propose an Alternative Base Rate on more than one occasion provided that the conditions set out in this Note Condition 4.5(d) are satisfied;

(e) It is a condition to any such Base Rate Modification that:

- (i) any change to the Reference Rate of the Class A Notes and the Class B Notes results in an automatic adjustment to the relevant rate applicable under the Swap Agreement or that any amendment or modification to the Swap Agreement to align the Reference Rates applicable under the Class A Notes, the Class B Notes and the Swap Agreement will take effect at the same time as the Base Rate Modification takes effect;
- (ii) the Seller pays (or arranges for the payment of) all fees, costs and expenses (including legal fees) properly incurred by the Issuer and the Servicer and each other applicable party including, without limitation, any of the agents to the Issuer, in connection with such modifications. For the avoidance of doubt, such costs shall not include any amount in respect of any reduction in the interest payable to a Noteholder or any change in the amount due to the Swap Counterparty or any change in the mark-to-market value of the Swap Agreement;
- (iii) with respect to each Rating Agency, the Servicer has notified such Rating Agency of the proposed modification and, in the Servicer's reasonable opinion, formed on the basis of due consideration and consultation with such Rating Agency (including, as applicable, upon receipt of oral confirmation from an appropriately authorised person at such Rating Agency), such modification would not result in (x) a downgrade, withdrawal or suspension of the then current ratings assigned to the Class A Notes and/or the Class B Notes by such Rating Agency or (y) such Rating Agency placing the Class A Notes and/or the Class B Notes on rating watch negative (or equivalent); and
- (iv) the Issuer (or the Servicer on its behalf) provides at least 30 days' prior written notice to the Class A Noteholders and the Class B Noteholders of the proposed Base Rate Modification. If the proposed Alternative Base Rate is determined by the Rate Determination Agent on the basis of Note Condition 4.5(d)(i) above and if either (A) Class A Noteholders representing at least 10 per cent. of the aggregate Class A Principal Amount, or (B) Class B Noteholders representing at least 10 per cent. of the aggregate Class B Principal Amount have notified the Issuer in accordance with the notice provided above and the then current practice of any applicable clearing system through which the Class A Notes and the Class B Notes may be held within the notification period referred to above that they object to the proposed Base Rate Modification, then such modification will not be made unless (Y) a resolution of the Class A Noteholders is passed in favour of such modification in accordance with Note Condition 14.1(a) (*Noteholder Meetings*) by the Class A Noteholders representing at least a majority of the Class A Principal Amount, and/or (Z) a resolution of the Class B Noteholder is passed in favour of such modification in accordance with Note Condition 14.1(a) (*Noteholder Meetings*) by the Class B Noteholders representing at least a majority of the Class B Principal Amount (as applicable).

- (f) When implementing any modification pursuant to this Note Condition 4.5, the Rate Determination Agent, the Issuer and the Servicer, as applicable, shall act in good faith and (in the absence of fraud, bad faith or wilful misconduct), shall have no responsibility whatsoever to the Issuer, the Noteholders or any other party.
- (g) If a Base Rate Modification is not made as a result of the application of Note Condition 4.5(d) above, and for so long as the Issuer (acting on the advice of the Servicer) considers that a Base Rate Modification Event is continuing, the Servicer may or, upon request of the Seller, must, initiate the procedure for a Base Rate Modification as set out in this Note Condition 4.5.
- (h) Any modification pursuant to this Note Condition 4.5 (x) must comply with the rules of any stock exchange on which the Notes are from time to time listed or admitted to trading and (y) may be made on more than one occasion.
- (i) As long as a Base Rate Modification is not deemed final and binding in accordance with this Note Condition 4.5, the Reference Rate applicable to the Class A Notes and the Class B Notes will be equal to the last Reference Rate available on the relevant applicable screen rate pursuant to Note Condition 4.5(a).

This Note Condition 4.5 shall be without prejudice to the application of any higher interest under applicable mandatory law.

4.6 **Notifications**

The Calculation Agent shall, as soon as reasonably practicable on or after each Interest Determination Date, determine the Interest Period, any Interest Shortfall, the Interest Rate, the Interest Amount and Payment Date with respect to each Note and shall notify the Principal Paying Agent. The Principal Paying Agent shall notify such information (i) to the Issuer, the Note Trustee, the Cash Administrator, the Swap Counterparty and the Corporate Administrator and (ii) on behalf of the Issuer, by means of notification in accordance with Note Condition 16 (*Notices to Noteholders*), to the Noteholders. As long as any Notes are listed on the Official List and traded on the regulated market of Euronext Dublin, the Issuer shall notify such information to Euronext Dublin. In the event that such notification is required to be given to Euronext Dublin, this notification shall be given no later than the close of the first Business Day following each relevant Interest Determination Date.

4.7 **Interest deferral**

Accrued interest not distributed on any Payment Date related to the Interest Period in which it is accrued will be an "**Interest Shortfall**" with respect to the relevant Note. An Interest Shortfall in respect of the Class B Notes (for so long as any of the Class A Notes are Outstanding), the Class C Notes (for so long as any of the Class A Notes or the Class B Notes are Outstanding) and the Class D Notes (for so long as any of the Class A Notes, the Class B Notes or the Class C Notes are Outstanding) shall be deferred and shall become due and payable on the next Payment Date and on any following Payment Date (subject to Note Condition 2.7 (*Limited recourse and non-petition*)) until it is reduced to zero. Interest shall accrue on all Interest Shortfalls at the Interest Rate applicable to the Class of Notes in respect of which the Interest Shortfall arises.

5. **REDEMPTION**

5.1 **Amortisation**

- (a) Prior to the delivery by the Note Trustee of an Enforcement Notice, subject to the limitations set forth in Note Condition 2.7 (*Limited recourse and non-petition*), on each Payment Date after the occurrence of the Pro rata Trigger Event but prior to the occurrence of a Sequential Payment Trigger Event, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes will be subject to redemption on a *pro rata* and *pari passu* basis in accordance with the Issuer Pre-Enforcement Redemption Priority of Payments
- (b) Prior to the delivery by the Note Trustee of an Enforcement Notice, subject to the limitations set forth in Note Condition 2.7 (*Limited recourse and non-petition*), on each Payment Date prior

- (d) after all Class A Notes, Class B Notes and Class C Notes have been redeemed in full, each Class D Note shall, unless previously redeemed or purchased and cancelled, be redeemed in full at its Note Principal Amount,

subject (in each case) to the availability of funds pursuant to the Issuer Pre-Enforcement Redemption Priority of Payments. In the event of insufficient funds pursuant to the Issuer Pre-Enforcement Redemption Priority of Payments, any Note then Outstanding shall be redeemed on the next Payment Date and on any following Payment Date in accordance with and subject to the limitations set forth in Note Condition 2.7 (*Limited recourse and non-petition*) until each Note has been redeemed in full.

5.3 Optional redemption following exercise of clean-up call option

- (a) On any Payment Date on which the aggregate of (i) the Aggregate Outstanding Asset Principal Amount and (ii) the Outstanding Principal Amounts of any Purchased HP Contracts that are Defaulted HP Contracts as at the date that such Purchased HP Contract became a Defaulted HP Contract less any realised Recoveries already received by the Purchaser in connection with such Defaulted HP Contracts, has been reduced to less than 10 per cent. of the Aggregate Outstanding Asset Principal Amount as of the Note Issuance Date, the Seller shall have the option under the Auto Portfolio Purchase Agreement to repurchase all outstanding Purchased HP Contracts held by the Purchaser (and the proceeds from such repurchase shall constitute Collections), subject to the following requirements:
 - (i) the Issuer having certified, prior to giving the notice referred to in Note Condition 5.3(a)(ii), to the Note Trustee in a certificate signed by two directors of the Issuer that the amounts distributable on the Clean-Up Call Early Redemption Date (which shall include proceeds attributable to the Final Repurchase Price applied in accordance with the Purchaser Pre-Enforcement Priority of Payments on such Clean-Up Call Early Redemption Date (as defined below)) will be sufficient to redeem all of the Rated Notes in full at their respective Note Principal Amounts plus pay accrued but unpaid interest thereon together with all amounts ranking prior thereto in accordance with the applicable Issuer Pre-Enforcement Priority of Payments;

 - (iii) the repurchase price to be paid by the Seller being equal to the Final Repurchase Price.
- (b) In the event that all of the conditions set out in Note Condition 5.3(a) are met, the Issuer may, at its option, apply the proceeds distributable as a result of such repurchase on the Clean-Up Call Early Redemption Date (which shall include proceeds attributable to the Final Repurchase Price applied in accordance with the relevant Purchaser Pre-Enforcement Priority of Payments on such Clean-Up Call Early Redemption Date) together with any other available amounts in order to redeem all (but not some only) of the Notes of each Class, such amounts to be applied to pay the Note Principal Amount together with accrued but unpaid interest up to the Clean-Up Call Early Redemption Date of each Class of Notes in accordance with the relevant Issuer Pre-Enforcement Priority of Payments, whereupon no further amounts will be payable in respect of the Notes and any remaining amounts outstanding shall cease to be due and payable and no further amounts of interest shall accrue in respect of such Notes.
- (c) The Seller shall have the sole benefit of all Collections received after the Cut-Off Date immediately prior to the Clean-up Call Early Redemption Date and may apply such Collections towards the payment of the Final Repurchase Price on the Clean-up Call Early Redemption Date.
- (d) Upon payment of the redemption amounts in accordance with Note Condition 5.3(b), the Noteholders shall not receive any further payments of interest on or principal with respect to the Notes and the Notes shall be cancelled on such Clean-Up Call Early Redemption Date.

5.4 **Optional redemption for taxation reasons**

- (a) If, by reason of a change in tax law (or the application or official interpretation thereof), which change becomes effective on or after the Note Issuance Date, on the next Payment Date, the Issuer or the Principal Paying Agent would be required to deduct or withhold from any payment of principal or interest on any Class of the Notes any amount for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by Ireland or any political sub-division thereof or any authority thereof or therein having power to tax or any other tax authority outside Ireland (a "**Tax Event**"), the Issuer may, if the same would avoid the effect of the Tax Event, appoint a Principal Paying Agent in another jurisdiction or use its reasonable endeavours to arrange the substitution of a company incorporated and/or tax resident in another jurisdiction as principal debtor under the Notes in accordance with Note Condition 11 (*Substitution of the Issuer*).
- (b) A **Redemption Event** shall occur if the Issuer satisfies the Note Trustee immediately before giving the notice referred to in Note Condition 5.4(c) below that the Tax Event is continuing and that the appointment of a Principal Paying Agent or a substitution in accordance with Note Condition 11 (*Substitution of the Issuer*) would not avoid the effect of the Tax Event or that, having used its reasonable endeavours, the Issuer is unable to arrange such appointment or substitution.
- (c) If the Seller offers to repurchase all of the Purchased HP Contracts following the occurrence of a Redemption Event for the Final Repurchase Price and the Issuer accepts such offer, the Issuer shall redeem all (but not some only) of the Notes on the next following Payment Date (the "**Tax Call Early Redemption Date**") in accordance with the relevant Issuer Pre-Enforcement Priority of Payments, provided that:
 - (i) the Issuer has given not more than 60 days nor less than 30 days' notice (or such shorter period expiring on or before the latest date permitted by relevant

law) to the Noteholders in accordance with Note Condition 16 (*Notices to Noteholders*) and to the Note Trustee of its intention to redeem all, but not some only, of the Notes in the case of the Notes of each Class, by applying the proceeds distributable as a result of such repurchase (which shall include proceeds attributable to the Final Repurchase Price applied in accordance with the Purchaser Pre-Enforcement Priority of Payments on such Tax Call Early Redemption Date) to pay the Note Principal Amount together with accrued but unpaid interest up to the Tax Call Early Redemption Date of each Class of Notes in accordance with the relevant Issuer Pre-Enforcement Priority of Payments, whereupon no further amounts will be payable in respect of the Notes and any remaining amounts outstanding shall cease to be due and payable and no further amounts of interest shall accrue in respect of such Notes; and

- (ii) prior to the publication of any notice of redemption pursuant to this Note Condition 5.4, the Issuer shall deliver to the Note Trustee a certificate signed by two directors of the Issuer certifying that:
 - (A) a Redemption Event is continuing;
 - (B) the Final Repurchase Price to be paid by the Seller; and
 - (C) that the proceeds distributable as a result of such repurchase on the Tax Call Early Redemption Date (which shall include proceeds attributable to the Final Repurchase Price applied in accordance with the relevant Purchaser Pre-Enforcement Priority of Payments on such Tax Call Early Redemption Date) will be sufficient to redeem all of the Rated Notes in full at their respective Note Principal Amounts plus pay accrued but unpaid interest thereon together with all amounts ranking prior thereto in accordance with the applicable Issuer Pre-Enforcement Priority of Payments,

and the Note Trustee shall be entitled to accept the certificate as sufficient evidence of the satisfaction of the conditions precedent set out in Note Conditions 5.4(c)(ii)(A), 5.4(c)(ii)(B) and 5.4(c)(ii)(C) and it shall be conclusive and binding on the Noteholders.

- (d) The Seller shall have the sole benefit of all Collections received after the Cut-Off Date immediately prior to the Tax Call Early Redemption Date and may apply such Collections towards the payment of the Final Repurchase Price.
- (e) Upon payment to the Noteholders of the redemption amounts specified in Note Condition 5.4(c), the Noteholders shall not receive any further payments of interest on or principal with respect to the Notes and the Notes shall be cancelled on such Tax Call Early Redemption Date.

5.5 Optional redemption for regulatory reasons

- (a) If, on a Payment Date following the occurrence of a Regulatory Event, the Seller elects to either: (a) purchase all of the Issuer's rights, title, interest and benefit in, to and under the Available Junior Loan Tranches in accordance with the Loan Agreement; or (b) advance the Seller Loan to the Issuer in accordance with the Auto Portfolio Purchase Agreement, in each case, for an amount that is equal to the Seller Loan Purchase Price, the Issuer shall apply the funds received from the Seller to redeem all (but not some only) of the Junior Notes on the next following Payment Date in accordance with the relevant Issuer Pre-Enforcement Priority of Payments, provided that:
 - (i) the Issuer has given not more than 60 days nor less than 30 days' notice (or such shorter period expiring on or before the latest date permitted by relevant law) to the Noteholders in accordance with Note Condition 16 (*Notices to Noteholders*) and to the Note Trustee of its intention to redeem all, but not

some only, of the Junior Notes by applying the Seller Loan Purchase Price to pay the Note Principal Amount together with accrued but unpaid interest of each class of Junior Notes up to but excluding the date of redemption, which shall be a Payment Date (the "**Regulatory Call Early Redemption Date**") and certain amounts ranking prior thereto in accordance with the relevant Issuer Pre-Enforcement Priority of Payments, whereupon no further amounts will be payable in respect of the Junior Notes and any remaining amounts outstanding shall cease to be due and payable and no further amounts of interest shall accrue in respect of such Junior Notes; and

- (ii) prior to the publication of any notice of redemption pursuant to this Note Condition 5.5, the Issuer shall deliver to the Note Trustee a certificate signed by two directors of the Issuer stating that (A) a Regulatory Event is continuing; (B) the Seller Loan Purchase Price to be paid by the Seller; and (C) that the Seller Loan Purchase Price distributable as a result of such repurchase on the Regulatory Call Early Redemption Date will be sufficient to redeem all of the Class B Notes and the Class C Notes in full at their respective Note Principal Amounts plus pay accrued but unpaid interest thereon in accordance with the applicable Issuer Pre-Enforcement Priority of Payments,

and the Note Trustee shall be entitled to accept the certificate as sufficient evidence of the satisfaction of the conditions precedent set out in Note Conditions 5.4(c)(ii)(A), 5.4(c)(ii)(B) and 5.4(c)(ii)(C) and it shall be conclusive and binding on the Noteholders.

- (b) Upon payment to the Noteholders of the redemption amounts specified in Note Condition 5.5(a), the Noteholders of the Junior Notes shall not receive any further payments of interest on or principal with respect to the Junior Notes and the Junior Notes shall be cancelled on such Regulatory Call Early Redemption Date.

6. NOTIFICATIONS

The Principal Paying Agent shall notify the Issuer, the Note Trustee, the Swap Counterparty, the Corporate Administrator, the Cash Administrator and, on behalf of the Issuer, by means of notification in accordance with Note Condition 16 (*Notices to Noteholders*), the Noteholders and, for so long as any of the Notes are listed on the Official List and traded on the regulated market of Euronext Dublin, Euronext Dublin:

In each case, such notification shall be given by the Principal Paying Agent no later than the close of the first Business Day following the Interest Determination Date preceding the relevant Payment Date.

7. AGENTS

7.1 Appointment of Agents

The Issuer has appointed the Agents pursuant to the Agency Agreement.

7.2 Replacement of the Agents

The Issuer shall procure that, for as long as any Notes are Outstanding, there shall always be a Principal Paying Agent, a Calculation Agent and a Cash Administrator to perform the functions assigned to each of them in these Note Conditions. The Issuer may at any time, by giving not less than thirty (30) calendar days' notice in accordance with Note Condition 16 (*Notices to Noteholders*), replace any of the Agents with one or more other banks or other financial institutions which assume such functions in accordance with the Agency Agreement.

7.3 Calculations binding

All Interest Amounts determined and other calculations and determinations made by the Principal Paying Agent and the Calculation Agent for the purposes of these Note Conditions shall, in the absence of manifest error, be final and binding.

7.4 Relationship of the Agents

In acting under the Agency Agreement and in connection with the Notes, the Agents act solely as agents of the Issuer and (to the extent provided therein) the Note Trustee and do not assume any obligations towards or relationship of agency or trust for or with any of the Noteholders.

7.5 Variation of appointment

The Issuer reserves the right (with the prior written approval of the Note Trustee) to vary or terminate the appointment of any Agent and to appoint a successor calculation agent, principal paying agent or cash administrator, at any time, having given not less than thirty (30) calendar days' prior notice to such Agent.

7.6 Specified Offices

The initial Agents and their initial Specified Offices are listed in the Note Trust Deed and the Prospectus.

8. PAYMENTS IN RESPECT OF THE NOTES

8.1 Payments and discharge

For so long as the Notes are in the form of Global Notes:

- (a) payments of principal and interest in respect of the Notes shall be made by the Issuer, through the Principal Paying Agent, on each Payment Date to, or to the order of the holder of the relevant Global Note for subsequent transfer to the Noteholders; and
- (b) all payments made by the Issuer through the Principal Paying Agent to, or to the order of the holder of the relevant Global Note, shall discharge the liability of the Issuer under the relevant Notes to the extent of the sums so paid to the Principal Paying Agent. Any failure to make any required entries in the records of the Clearing Systems in respect of the Notes shall not affect the discharge referred to in the preceding sentence.

Payments of principal in respect of definitive Notes (if issued) will be made against presentation of the relevant Note (except where, after such payment, the unpaid principal amount of a definitive Note would be reduced to zero, in which case that payment of principal will be made against presentation and surrender of such Note and all unmatured coupons) at the specified office of any Principal Paying Agent. Payments of interest in respect of definitive Notes (if issued) will be made only against presentation and surrender of the relevant coupons at the specified office of any Principal Paying Agent. No Principal Paying Agent shall make payments on definitive Notes from within the United States or its possessions.

8.2 Subject to law

All payments in respect of the Notes are subject in each case to:

- (a) any applicable fiscal or other laws and regulations;
- (b) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto; and
- (c) any withholding or deduction required to be made pursuant to any law implementing or complying with, or introduced in order to conform to, European Council Directive 2014/107/EU, or any agreement between the European Union and any non-EU jurisdiction providing for equivalent measures.

No commissions or expenses shall be charged to the Noteholders in respect of such payments.

8.3 **Payment on a non-Business Day**

Notwithstanding any other term of these Note Conditions or the Transaction Documents, if any date for payment in respect of a Note falls on a day which is not a business day in the place of payment, payment shall not be made on such day but on the next succeeding business day in such place and no further interest or other payment in respect of any such delay shall be due in respect of such Note.

8.4 **Partial payment**

If the Principal Paying Agent makes a partial payment in respect of any Note, the partial payment will, for so long as such Note is in the form of Global Note, be effected in accordance with the rules and procedures of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion).

9. **PRESCRIPTION**

Claims for principal and interest in respect of the Notes shall become void unless presented for payment within a period of 10 years from the Relevant Date in respect of payment of principal and five years in respect of payment of interest. After the date on which a Note becomes void in its entirety, no claim may be made in respect thereof. In this Note Condition 9, the **Relevant Date** in respect of a Note is the date on which a payment in respect thereof first becomes due or (if the full amount of the monies payable in respect of all the Notes due on or before that date has not been duly received by the Principal Paying Agent or the Note Trustee on or prior to such date) the date on which, the full amount of such monies having been so received, notice to that effect is duly given to the Noteholders in accordance with Note Condition 16 (*Notices to Noteholders*).

10. **TAXES**

Payments in respect of the Notes shall only be made by the Issuer after the deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (collectively, "**taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by, or for the account of, any political subdivision thereof or government agency therein authorised to levy taxes, to the extent that such deduction or withholding is required by law. The Issuer shall account for the deducted or withheld taxes with the competent government agencies and shall, upon request of a Noteholder, provide proof thereof. The Issuer is not obliged to pay any additional amounts as compensation for taxes.

11. **SUBSTITUTION OF THE ISSUER**

11.1 **Substitution of the Issuer**

If, in the determination of the Issuer, as a result of any enactment of or supplement or amendment to, or change in, the laws of any relevant jurisdiction or as a result of an official communication of previously not existing or not publicly available official interpretation, or a change in the official interpretation, implementation or application of such laws, that becomes effective on or after the Note Issuance Date any of the Issuer, the Seller, the Swap Counterparty or the Servicer would, for reasons beyond its control,

and after taking reasonable measures (such measures not involving any material additional payment or other expenses):

- (a) be materially restricted from performing any of its obligations under the Notes or the Transaction Documents to which it is a party;
- (b) be required to make any tax withholding or deduction in respect of any payments on the Notes and/or the Transaction Documents to which it is a party; or
- (c) would not be entitled to relief for tax purposes for any amount which it is obliged to pay, or would be treated as receiving for tax purposes an amount which it is not entitled to receive, in each case under the Notes or the Transaction Documents,

then, without prejudice to Note Condition 5.4 (*Optional redemption for taxation reasons*), the Issuer shall immediately inform the Note Trustee accordingly and shall, in order to avoid the relevant event described in Note Condition 11.1(a) or, if it determines it would be practicable, as provided in Note Condition 5.4 (*Optional redemption for taxation reasons*), to avoid the relevant event described in Note Condition 11.1(b) and Note Condition 11.1(c), arrange the substitution of the Issuer with a company incorporated in another jurisdiction in accordance with the terms of the Note Trust Deed.

11.2 **New Issuer**

The Note Trustee may, without the consent of the Noteholders or any other Issuer Secured Party, subject to the conditions specified in the Note Trust Deed, concur with the Issuer as to the substitution of a new issuer in place of the Issuer as the principal debtor in respect of the Transaction Documents, the Notes and the other Issuer Secured Obligations.

11.3 **Notice of substitution of Issuer**

Not later than fourteen (14) calendar days after the execution of any documents required to be executed pursuant to Clause 10 (*Substitution*) of the Note Trust Deed and after compliance with any requirements under this Note Condition 11 and/or Clause 10 (*Substitution*) of the Note Trust Deed, the new issuer shall cause notice thereof to be given to the Noteholders and the other Issuer Secured Parties in accordance with Note Condition 16 (*Notices to Noteholders*) and the relevant Transaction Documents.

11.4 **Change of law**

In connection with any proposed substitution of the Issuer or any previous substitute, the Note Trustee may, in its absolute discretion and without the consent of the Noteholders or the other Issuer Secured Parties, agree to a change of the law from time to time governing the Notes and/or the Note Trust Deed and/or the Issuer Security Trust Deed provided that such change of law, in the opinion of the Note Trustee, would not be materially prejudicial to the interests of the holders of the Senior Class of Notes then Outstanding.

11.5 **No indemnity**

No Noteholder shall, in connection with any such substitution, be entitled to claim from the Issuer any indemnification or payment in respect of any tax consequence of any such substitution upon such individual Noteholder.

12. **EVENTS OF DEFAULT**

If an Issuer Event of Default occurs and is continuing, then the Note Trustee at its discretion may and, if so requested in writing by holders of at least 50 per cent. of the aggregate principal amount of the Senior Class of Notes then Outstanding or if so directed by an Extraordinary Resolution of the holders of the Senior Class of Notes then Outstanding, shall, in all cases subject to the Note Trustee having been indemnified and/or prefunded and/or provided with security to its satisfaction, give written notice (an **Enforcement Notice**) to the Issuer, copied to the Noteholders, the Issuer Security Trustee, the Agents, each other Issuer Secured Party and the Purchaser, declaring the Notes to be immediately due and

payable, whereupon they shall become immediately due and payable at their principal amount together with accrued interest without further action or formality.

13. PROCEEDINGS

The Note Trustee may, at its discretion and without notice, institute such proceedings against the Issuer as it may think fit to recover any amounts due in respect of the Notes which are unpaid or to enforce any of its rights under the Note Trust Deed, the Note Conditions or the other Transaction Documents, but it shall not be bound to take any such proceedings (including directing the Issuer Security Trustee or the Purchaser Security Trustee) or to take any other action under the Note Trust Deed, the Notes or the other Transaction Documents, unless:

- (a) it shall have been so directed by an Extraordinary Resolution or so requested in writing by the holders of at least 50 per cent. of the aggregate principal amount of the Senior Class of Notes then Outstanding; and
- (b) it shall have been indemnified and/or secured and/or prefunded to its satisfaction against all Losses to which it may therefore become liable and all costs, charges and expenses which may be incurred by it in connection therewith,

provided that the Note Trustee shall not be held liable for the consequence of taking any such action and may take such action without having regard to the effect of such action on individual Noteholders or any other Issuer Secured Party, provided that the Note Trustee shall not, and shall not be bound to, act at the request or direction of the holders of any Class of Notes other than the Senior Class of Notes then Outstanding.

14. MEETINGS OF NOTEHOLDERS; MODIFICATION

14.1 Noteholder Meetings

The Note Trust Deed contains provisions for convening joint meetings of all Noteholders or separate meetings of Noteholders on the basis of a Class or Classes of Notes to consider matters relating to the Notes, including the modification of any provision of these Note Conditions, the Note Trust Deed or the other Transaction Documents. Any such modification may be made if sanctioned by an Extraordinary Resolution. A Meeting may be convened by the Issuer or by the Note Trustee and shall be convened by the Note Trustee, (in each case subject to its being indemnified and/or prefunded and/or secured to its satisfaction), upon the request in writing of a Class or Classes of Noteholders holding not less than one-tenth of the Aggregate Outstanding Note Principal Amount of the Notes of the relevant Class or Classes. The quorum at any Meeting of a particular Class or Classes of Notes convened to vote on an Extraordinary Resolution, other than relating to a Reserved Matter, will be two or more Voters (as defined in the Note Trust Deed) holding or representing more than half of the Aggregate Outstanding Note Principal Amount of the Notes of the relevant Class or Classes or, at any adjourned Meeting, two or more Voters being or representing Noteholders of the relevant Class or Classes whatever the Aggregate Outstanding Note Principal Amount of the Notes so held or represented in such Class or Classes; provided, however, that certain proposals (including any proposal to change any date fixed for payment of principal or interest in respect of the Notes, to alter the amount of principal or interest payable on any date in respect of the Notes of any Class, to alter the method of calculating the amount of any payment in respect of the Notes of any Class, to change the currency of payments under the Notes, to change the quorum requirements relating to Meetings or to change the majority required to pass an Extraordinary Resolution (each, a "**Reserved Matter**") may only be sanctioned by an Extraordinary Resolution passed at a Meeting of Noteholders at which two or more Voters holding or representing in the aggregate not less than three-quarters or, at any adjourned Meeting, one quarter of the Aggregate Outstanding Note Principal Amount of the Notes of the relevant Class or Classes form a quorum.

No Extraordinary Resolution involving a Reserved Matter that is passed by the holders of one Class of Notes shall be effective unless it is sanctioned by an Extraordinary Resolution of the holders of the other Class of Notes then Outstanding.

No Extraordinary Resolution to approve any matter other than a Reserved Matter of any Class of Notes shall be effective unless it is sanctioned by an Extraordinary Resolution of the holders of the Senior Class

of Notes then Outstanding and any other Class of Notes then Outstanding which ranks senior to such Class (to the extent that there are Notes then Outstanding ranking senior to such Class) unless the Note Trustee considers that none of the holders of the Senior Class of Notes would be materially prejudiced by the absence of such sanction. For the purposes of this Note Condition 14.1: (i) Class A Notes rank senior to Class B Notes, Class C Notes and Class D Notes; (ii) Class B Notes rank senior to Class C Notes and Class D Notes; and (iii) Class C Notes rank senior to Class D Notes.

Subject to the above:

- (a) any resolution passed at a Meeting of any Class or Classes of Noteholders, duly convened and held in accordance with the Note Trust Deed, shall be binding upon all Noteholders of such Class or Classes, whether or not present at such Meeting and whether or not voting; and
- (b) any resolution (other than a resolution in respect of a Reserved Matter) passed at a Meeting of the holders of the Senior Class of Notes then Outstanding, duly convened and held as aforesaid, shall also be binding upon all the other Noteholders,

and all Classes of Noteholders shall be bound to give effect to any such resolution accordingly and the passing of any such resolution shall be conclusive evidence that the circumstances justify the passing thereof.

In addition, a resolution in writing signed by or on behalf of Noteholders holding not less than 75 per cent. of the Aggregate Outstanding Note Principal Amount of the Notes of the relevant Class or Classes will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

The quorum at any Meeting of the Noteholders of any Class or Classes of Notes for all business other than voting on an Extraordinary Resolution shall be two or more Voters holding or representing in the aggregate not less than 10 per cent. of the Aggregate Outstanding Note Principal Amount of the Notes of the relevant Class or Classes or, at any adjourned Meeting, two or more Voters being or representing the Noteholders of the relevant Class or Classes, whatever the Aggregate Outstanding Note Principal Amount of the Notes of the relevant Class or Classes so held or represented.

14.2 **Modification and waiver**

The Note Trustee may or, as set out in Note Condition 14.3 (*Additional modification and waiver*) and subject to the provisions therein, shall, without the consent or sanction of the Noteholders of any Class of Notes or any of the other Issuer Secured Parties, concur with the Issuer or any other relevant parties in making:

- (a) any modification (other than in respect of a Reserved Matter) of these Note Conditions, the Notes, the Note Trust Deed or the other Transaction Documents which, in the sole opinion of the Note Trustee, will not be materially prejudicial to the interests of the holders of the Senior Class of Notes then Outstanding or,
- (b) any modification of the Note Conditions, the Notes, the Issuer Security Trust Deed, the Note Trust Deed or any other Transaction Document if, in the sole opinion of the Note Trustee, such modification is of a formal, minor or technical nature or is to correct a manifest error.

In addition, the Note Trustee may, without the consent of the Noteholders or the other Issuer Secured Parties, authorise or waive any proposed breach or breach of these Note Conditions, the Notes, the Note Trust Deed or any other Transaction Document (other than a proposed breach or breach relating to the subject of a Reserved Matter) if, in the sole opinion of the Note Trustee, the interests of the holders of the Senior Class of Notes then Outstanding will not be materially prejudiced thereby. Unless the Note Trustee agrees otherwise, any such authorisation, waiver or modification shall be notified to the Noteholders as soon as practicable thereafter.

14.3 Additional modification and waiver

Notwithstanding the provisions of Note Condition 14.2 (*Modification and waiver*), the Note Trustee shall be obliged, without any consent or sanction of the Noteholders, or, subject to Modification Condition 14.3(e) below, any of the other Issuer Secured Parties, to concur with the Issuer or any other relevant parties in making any modification (other than in respect of a Reserved Matter) to the Note Conditions, the Notes or any Transaction Document that the Issuer considers necessary:

- (a) for the purposes of effecting a Base Rate Modification pursuant to Note Condition 4.5 (*Interest Rate*) of the Notes provided that, solely in circumstances in which the proposed Alternative Base Rate is determined by the Rate Determination Agent and certified to the Note Trustee in a Base Rate Modification Certificate, on the basis of Note Condition 4.5(d)(i) (*Interest Rate*), if, prior to the expiry of the 30 day notice period described in Note Condition 4.5(e)(iv) (*Interest Rate*), if the Issuer is notified by either (A) the Class A Noteholders representing at least 10 per cent of the Class A Principal Amount, or (B) the Class B Noteholders representing at least 10 per cent of the Class B Principal Amount that they object to the proposed modification, then following such a notification of objection the modification will only be made if it is approved by (Y) a resolution of the Class A Noteholders representing at least a majority of the Class A Principal Amount passed in accordance with Note Condition 14.1 (*Noteholder Meetings*) above, and/or (Z) a resolution of the Class B Noteholders representing at least a majority of the Class B Principal Amount passed in accordance with Note Condition 14.1 (*Noteholder Meetings*) above (as applicable);
- (b) for the purpose of changing the base rate that then applies in respect of the Swap Agreement to an alternative base rate as is necessary or advisable in the commercially reasonable judgment of the Issuer (or the Servicer on its behalf) and the Swap Counterparty solely as a consequence of a Base Rate Modification and solely for the purpose of aligning the base rate of the Swap Agreement to the Reference Rate of the Class A Notes and the Class B Notes following such Base Rate Modification (a "**Interest Rate Swap Rate Modification**"), provided that the Servicer, on behalf of the Issuer, certifies to the Note Trustee in writing that such modification is required solely for such purpose and it has been drafted solely to such effect (such certificate being a "**Swap Rate Modification Certificate**");
- (c) for the purposes of complying with, or implementing or reflecting, any change in the criteria of one or more of the Rating Agencies which may be applicable from time to time, provided that:
 - (i) the Servicer on behalf of the Issuer certifies in writing to the Note Trustee that such modification is necessary to comply with such criteria or, as the case may be, is solely to implement and reflect such criteria; and
 - (ii) in the case of any modification to a Transaction Document proposed by the Transaction Account Bank or the Collections Account Bank in order (x) to remain eligible to perform its role in such capacity in conformity with such criteria and/or (y) to avoid the Transaction Account Bank, the Collections Account Bank or the Swap Counterparty (as the case may be) taking action which it would otherwise be required to take to enable it to continue performing such role (including, without limitation, posting collateral or advancing funds):
 - (A) the Transaction Account Bank, the Collections Account Bank or the Swap Counterparty, as the case may be, certifies in writing to the Issuer and the Note Trustee that such modification is necessary for the purposes described in Note Condition 14.3(c)(ii)(x) and/or (y) above; and
 - (B) either:
 - (I) the Transaction Account Bank, the Collections Account Bank or the Swap Counterparty, as the case may be, obtains from each of the Rating Agencies written confirmation that such modification would not result in a downgrade, withdrawal or suspension of the then

current ratings assigned to the Rated Notes by such Rating Agency and would not result in any Rating Agency placing the Rated Notes on rating watch negative (or equivalent) and delivers a copy of such confirmation to the Issuer and the Note Trustee; or

- (II) the Transaction Account Bank, the Collections Account Bank or the Swap Counterparty, as the case may be, certifies in writing to the Issuer and the Note Trustee that it has notified each of the Rating Agencies of the proposed modification and in its opinion, formed on the basis of due consideration and consultation with the Rating Agencies, such modification would not result in (x) a downgrade, withdrawal or suspension of the then current ratings assigned to the Rated Notes by any Rating Agency or (y) any Rating Agency placing the Rated Notes on rating watch negative (or equivalent);
- (d) in order to enable the Issuer and/or the Swap Counterparty to comply with:
- (i) any obligation which applies to it under Articles 9, 10 and 11 of EMIR; or
 - (ii) any other obligation which applies to it under EMIR,

provided that the Servicer on behalf of the Issuer or the Swap Counterparty, as appropriate, certifies to the Note Trustee in writing that such modification is required solely for the purpose of enabling it to satisfy such obligation and has been drafted solely to such effect;

- (e) for the purposes of complying with any changes in the requirements of the EU Securitisation Regulation after the Note Issuance Date, including as a result of the adoption of Regulatory Technical Standards in relation to the EU Securitisation Regulation or any other risk retention legislation or regulations or official guidance in relation thereto, provided that the Servicer on behalf of the Issuer certifies to the Note Trustee in writing that such modification is required solely for such purpose and has been drafted solely to such effect;
- (f) for the purpose of complying with the EU Securitisation Regulation, including any of the requirements for STS-securitisations set out in the EU Securitisation Regulation and in any Regulatory Technical Standards authorised under the EU Securitisation Regulation, provided that the Servicer on behalf of the Issuer certifies to the Note Trustee in writing that such modification is required solely for such purpose and has been drafted solely to such effect;
- (g) for the purposes of enabling the Notes to be (or to remain) listed on Euronext Dublin or any other stock exchange on which the Notes are listed, provided that the Servicer on behalf of the Issuer certifies to the Note Trustee in writing that such modification is required solely for such purpose and has been drafted solely to such effect;
- (h) for the purposes of enabling the Issuer or any of the other Issuer Secured Parties to comply with FATCA (or any voluntary agreement entered into with a taxing authority in relation thereto), provided that the Servicer on behalf of the Issuer certifies to the Note Trustee in writing that such modification is required solely for such purpose and has been drafted solely to such effect;
- (i) for the purposes of complying with any changes in the requirements of the CRA Regulation after the Note Issuance Date, including as a result of the adoption of regulatory technical standards in relation to the CRA Regulation or regulations or official guidance in relation thereto, provided that the Servicer on behalf of the Issuer certifies to the Note Trustee in writing that such modification is required solely for such purpose and has been drafted solely to such effect;
- (j) for so long as the Notes are intended to be held in a manner which will allow for Eurosystem eligibility (the criteria in respect of which are currently set out in the 2015 Guideline), for the purposes of maintaining such eligibility, provided that the Servicer on behalf of the Issuer certifies to the Note Trustee in writing that such modification is required solely for such purpose and has been drafted solely to such effect; or

- (k) for the purposes of enabling the transactions effected by the Transaction Documents to constitute a transfer of significant credit risk within the meaning of Article 243(2) of the CRR, provided that the Servicer on behalf of the Issuer certifies to the Note Trustee in writing that such modification is required solely for such purpose and has been drafted solely to such effect; or
- (l) on or after the Regulatory Call Redemption Date, in order to: (i) achieve in respect of the parties to the Transaction Documents (other than, for the avoidance of doubt, the Seller) an equivalent economic effect as the position under the Transaction Documents on the date immediately prior to the Regulatory Call Early Redemption Date; (ii) reflect, as applicable: (A) the purchase all of the Issuer's rights, title, interest and benefit in, to and under the Available Junior Loan Tranches by the Seller; or (B) the advance by, and, without limitation, the repayment of the Seller Loan to, the Seller, by amending, without limitation and to the extent necessary or desirable, the Issuer Priorities of Payments, the Purchaser Priorities of Payments, the tranching of the Loan and the establishment of a principal deficiency ledger for the purposes of the Loan on equivalent economic terms, and to achieve an equivalent economic result, as the Principal Deficiency Ledger; and (iii) facilitate the accession of the Seller to any relevant Transaction Documents, provided that the Servicer on behalf of the Issuer certifies to the Note Trustee in writing that such modification is required solely for such purposes and has been drafted solely to such effects and provided further that no such modification, waiver and/or additions are materially prejudicial to the interests of the holders of the Senior Class of Notes then Outstanding, (the certificate to be provided by the Servicer on behalf of the Issuer, the Transaction Account Bank, the Collections Account Bank or the Swap Counterparty, as the case may be, pursuant to Note Condition 14.3(c) to Note Condition 14.3(i) above being a "**Modification Certificate**").

The Note Trustee is only obliged to concur with the Issuer in making any modification for the purposes referred to in Note Condition 14.3(c) to Note Condition 14.3(i) above if the following conditions have been satisfied (the "**Modification Conditions**"):

- (a) at least thirty (30) days' prior written notice of any such proposed modification has been given to the Note Trustee;
- (b) the Modification Certificate in relation to such modification shall be provided to the Note Trustee both at the time the Note Trustee is notified of the proposed modification and on the date that such modification takes effect;
- (c) the Issuer provides the Note Trustee with such legal opinions as the Note Trustee considers necessary in connection with the implementation of such modifications;
- (d) the consent of each Issuer Secured Party which is party to the relevant Transaction Document and any other Issuer Secured Party which has a right to consent to such modification pursuant to the provisions of the Transaction Documents has been obtained;

OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS

Auto Portfolio Purchase Agreement

On the Note Issuance Date, the Purchaser will have purchased the Portfolio from the Seller in accordance with the Auto Portfolio Purchase Agreement.

To be eligible for sale to the Purchaser under the Auto Portfolio Purchase Agreement, the Portfolio and any part thereof will have to meet the eligibility criteria set out in "Eligibility Criteria" herein. Pursuant to the Auto Portfolio Purchase Agreement, the Seller represents and warrants that, as at the Purchase Cut-Off Date, each Purchased HP Contract meets such eligibility criteria.

Upon payment of the Aggregate Purchase Price for the Portfolio, the Purchaser will acquire unrestricted title to any and all the Purchased HP Contracts (including legal title to the Financed Vehicles) as from the Purchase Cut-Off Date (other than any Instalments which have become due prior to or on such Purchase Cut-Off Date) in accordance with the Auto Portfolio Purchase Agreement. As a result, the Purchaser will have obtained the full economic ownership in the Portfolio, including principal and interest, and is free to transfer or otherwise dispose of the Portfolio, subject only to the contractual restrictions applying to the Purchased HP Contracts and all applicable laws.

The sale and assignment of the HP Contracts pursuant to the Auto Portfolio Purchase Agreement constitutes a sale without recourse. This means that the Seller will not bear the risk of the inability or unwillingness of any Debtors to pay the relevant Purchased HP Contracts.

The sale and assignment will be perfected (fi: "*julkivarmistus*") by notifying the Debtors of such sale and directing the Debtors to make payments to the Purchaser or to its order. Since the Financed Vehicles are in the possession of the Debtors, the transfer of the title to the Financed Vehicles will also be perfected by notifying the Debtors of the sale (lat: "*traditio longa manu*"). Under the Auto Portfolio Purchase Agreement, the Seller agrees to deliver such notices by mailing them on or about the Purchase Date and, within seven (7) days from the transfer of the Portfolio to the Purchaser, to give instructions to the Finnish Transport and Communications Agency to register the Purchaser as the owner of each Financed Vehicle in the Vehicle Register.

According to the standard terms of the Purchased HP Contracts, all notices to a Debtor under a Purchased HP Contract may be validly served by mailing such notices to the address that the Debtor has given upon the signing of the Purchased HP Contract or to such new address that the Debtor has verifiably provided. Under the Finnish Consumer Protection Act, unless otherwise proven, notices that have been mailed to consumers under the Finnish Consumer Protection Act are deemed to have been received by the consumers on the seventh day from mailing, and notices that have been delivered electronically to consumers under the Finnish Consumer Protection Act are deemed to have been received by the consumers on the day of delivery. While the main legal implications of the notices follow from the Finnish Promissory Notes Act (622/1947, as amended, the "**Promissory Notes Act**", fi: "*velkakirjalaki*") and general principles of law, rather than the Finnish Consumer Protection Act, and while the provisions of the Finnish Consumer Protection Act do not apply to Debtors and holders of Financed Vehicles who are not consumers, it is believed that, in the absence of evidence to the contrary, the notices would be deemed to be duly served to the Debtors and holders of Financed Vehicles on the seventh day from mailing and that the due delivery of the notices could not after such period be successfully challenged by any third party creditors of the Seller or in any insolvency proceedings commenced against the Seller.

Deemed Collections

If certain events (see the definition of Deemed Collections in "*Certain Definitions – Deemed Collections*") occur with respect to a Purchased HP Contract, the Seller has undertaken to pay to the Purchaser as a Deemed Collection the Outstanding Principal Amount (or the affected portion thereof) of such Purchased HP Contract (plus accrued and unpaid interest). In accordance with the terms of the Auto Portfolio Purchase Agreement, in certain circumstances the receipt by the Purchaser (or its order) of a Deemed Collection will result in the relevant Purchased HP Contract being automatically re-assigned to the Seller on the next Payment Date following the Deemed Collection on a non-recourse or guarantee basis on the part of the Purchaser. The costs of such re-assignment will be borne solely by the Seller.

As between the Seller and the Purchaser, the risk that the amount owed by a Debtor on a Purchased HP Contract is reduced due to set-off, counterclaim, discount or other credit in favour of such Debtor has been retained by the

Seller. To this end, the Seller will be deemed to receive an amount equal to the amount of such reduction, which will constitute a Deemed Collection and be payable by the Seller to the Purchaser (or its order).

When the Seller is deemed to receive any Deemed Collections during any Collection Period, it will pay the amount of those Deemed Collections to the Issuer Collections Account on or before the Cut-Off Date for such Collection Period.

Optional redemption calls

If (a) the aggregate of (i) the Aggregate Outstanding Asset Principal Amount and (ii) the Outstanding Principal Amounts of any Purchased HP Contracts that are Defaulted HP Contracts as at the date that such Purchased HP Contract became a Defaulted HP Contract less any realised Recoveries already received by the Purchaser in connection with such Defaulted HP Contracts has been reduced to less than 10 per cent. of the Aggregate Outstanding Asset Principal Amount as of the Note Issuance Date; or (b) a Redemption Event occurs, the Seller may, subject to certain requirements, offer to purchase all (but not part) of the outstanding Portfolio held by the Purchaser.

Such resale and retransfer would occur on a Payment Date specified by the Seller as the repurchase date, be at the cost of the Seller and coincide with the early redemption of the Notes. See Note Condition 5.3(a) (*Optional redemption following exercise of clean-up call option*) and Note Condition 5.4 (*Optional redemption for taxation reasons*).

Such resale and retransfer would be for a repurchase price in an amount equal to the Final Repurchase Price. The repurchase and early redemption of the Notes will be excluded if the amounts distributable on the Early Redemption Date (which shall include proceeds of the Final Repurchase Price applied in accordance with the Purchaser Pre-Enforcement Priority of Payments on such Early Redemption Date) is not sufficient to fully satisfy the obligations of the Issuer under the Rated Notes together with all amounts ranking in priority thereto according to the Issuer Pre-Enforcement Priorities of Payments.

The Purchaser will retransfer the Purchased HP Contracts at the cost of the Seller to the Seller upon receipt of the full repurchase price and all other payments owed by the Seller or the Servicer under the Auto Portfolio Purchase Agreement or the Servicing Agreement. The Seller and the Purchaser acknowledge that the terms agreed for such repurchase represent arm's length commercial terms for transactions of this type.

If a Regulatory Event is continuing, the Seller will have, subject to certain requirements, the option to advance the Seller Loan to the Issuer for an amount that is equal to the Seller Loan Purchase Price and the Issuer shall apply such amounts received from the Seller towards redemption of all (and not some only) of the Junior Notes on such Payment Date, being the Regulatory Call Early Redemption Date. The advance of the Seller Loan would coincide with the early redemption of the Junior Notes. See Note Condition 5.5 (*Optional redemption for regulatory reasons*).

The repurchase and early redemption of the Junior Notes will be excluded if the Seller Loan Purchase Price to be paid by the Seller is not sufficient to fully satisfy the obligations of the Issuer under the Class B Notes.

Subordinated Loans

Pursuant to the Auto Portfolio Purchase Agreement, a loan is made available to the Issuer and the Purchaser by the Seller as Subordinated Loan Provider. Pursuant to the terms of the Auto Portfolio Purchase Agreement, on or before the Note Issuance Date, the Issuer will make a drawing thereunder, the proceeds of which will be credited to the Reserve Account, and the Purchaser will make a drawing thereunder, the proceeds of which will be credited to the Servicer Advance Reserve Ledger.

On or prior to the first Payment Date, the Purchaser will make a drawing thereunder, in an amount of EUR 127,853 (being the difference between the Aggregate Purchase Price and the Aggregate Outstanding Asset Principal Amount as of the Purchase Cut-Off Date), to provide further funds for the purpose of meeting the Purchaser's obligations under the Purchaser Pre-Enforcement Redemption Priority of Payments on such Payment Date. After the Note Issuance Date, the Subordinated Loan Provider will not be required to make further advances to the Purchaser (other than the Gap Amount).

As of the Note Issuance Date, the outstanding amount of the Issuer Subordinated Loan is expected to amount to EUR 3,836,000. As of the Note Issuance Date, the outstanding amount of the Purchaser Subordinated Loan is expected to amount to EUR 227,853 (which for the avoidance of doubt will include the Gap Amount).

Each of the Issuer and the Purchaser will pay interest on the Issuer Subordinated Loan and the Purchaser Subordinated Loan respectively, at an agreed rate to the extent funds are available for such payment in accordance with the applicable Issuer Priority of Payments and Purchaser Priority of Payments. To the extent any accrued interest is not paid on any Payment Date, that unpaid amount will be added to the principal amount of the Issuer Subordinated Loan and/or the Purchaser Subordinated Loan (as applicable).

Pursuant to the Auto Portfolio Purchase Agreement (a) the Issuer is under no obligation to pay any amounts under the Issuer Subordinated Loan unless the Issuer has received funds which may be used to make such payment in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments or, following the delivery by the Note Trustee of an Enforcement Notice, the Issuer Post-Enforcement Priority of Payments; and (b) the Purchaser is under no obligation to pay any amounts under the Purchaser Subordinated Loan unless the Purchaser has received funds which may be used to make such payment in accordance with the Purchaser Pre-Enforcement Revenue Priority of Payments or, following the delivery by the Note Trustee of an Enforcement Notice, the Purchaser Post-Enforcement Priority of Payments.

Servicing and Credit and Collection Policy

The Auto Portfolio Purchase Agreement includes provisions for the Seller to act as Servicer with respect to the Portfolio in accordance with the Servicing Agreement and the Credit and Collection Policy. The Seller may not materially change the Credit and Collection Policy unless: (i) such change relates only to the origination of new HP Contracts and not to the servicing, administration or collection of any of the Purchased HP Contracts, (ii) such change would be consistent with the Servicing Agreement and the Seller determines that such change would not be reasonably likely to have a material adverse effect on the validity or Collectability of the Purchased HP Contracts or the Purchaser's ability to make timely payment on the Loans or (iii) such change is required by applicable law or regulation.

Other than as described in this Prospectus, there have been no material changes to the Credit and Collection Policy in the last five years. In the Master Framework Agreement, the Seller has undertaken to disclose to potential investors, without undue delay, any material change from prior underwriting standards or other change to the Credit and Collection Policy, together with an explanation of such change and an assessment of the possible consequences on the HP Contracts, pursuant to Article 20(10) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria.

- (g) *Purchased HP Contracts unencumbered:* Each Purchased HP Contract is unencumbered, free of any third-party rights and is not otherwise in a condition which would adversely affect the enforceability of the transfer of such Purchased HP Contract to the Purchaser
- (h) *Selection Procedures:*
 - (i) No selection procedures adverse to the Purchaser have been employed by the Seller in selecting the Portfolio; and
 - (ii) the Seller has not selected the Portfolio with the aim of rendering losses on the Purchased HP Contracts, measured over the life of the Securitisation (or over a maximum of four years where the life of the Securitisation is longer than four years), higher than the losses over the same period on comparable contracts held on the Seller's balance sheet.
- (i) *Homogeneity:* As at the Purchase Date, the Purchased HP Contracts (pursuant to Article 20(8) of the EU Securitisation Regulation and the applicable Regulatory Technical Standards) are homogenous in terms of asset type, taking into account the specific characteristics relating to the cash flows of the asset type including their contractual, credit-risk and prepayment characteristics, as all Purchased HP Contracts:
 - (i) have been originated by the Seller based on similar underwriting standards which apply similar approaches to the assessment of credit risk associated with the underlying exposures;
 - (ii) are serviced by the Seller in accordance with similar servicing procedures and the Servicing Agreement;
 - (iii) fall within the same asset category (under the EU Securitisation Regulation and the applicable Regulatory Technical Standards) of "auto loans"; and
 - (iv) reflect the homogeneity factor of the "jurisdiction of obligors", being all Debtors resident in Finland as at the Purchase Date.
- (j) *No securitisation position:* None of the Purchased HP Contracts is a "securitisation position" as defined in point 19 of Article 2 of the EU Securitisation Regulation.
- (k) *No derivatives:* None of the Purchased HP Contracts is a derivative contract.
- (l) *No transferable security:* None of the Purchased HP Contracts is a "transferable security" as defined in Article 4(1) of Directive 2014/65/EU.
- (m) *No Default:*
 - (i) So far as the Seller is aware, any agent appointed by the Seller in relation to the servicing of the Purchased HP Contracts has received written notice of, or has become aware of, a material default, breach or violation under any Purchased HP Contract (including a default within the meaning of Article 178(1) of Regulation (EU) 575/2013) which has not been remedied or any event which, with the giving of notice and/or the making of any determination and/or the expiration of any applicable grace period, would constitute such a default, breach or violation (except for a default, breach or violation consisting of a Purchased HP Contract being no more than one Instalment in arrears), provided that any default, breach or violation shall be material only if it affects the amount or Collectability of the relevant Purchased HP Contract or it would be such as would cause the relevant Purchased HP Contract not to comply with the Eligibility Criteria.

- (ii) No Purchased HP Contract qualifies as an exposure to a credit-impaired Debtor who, to the best of the Seller's knowledge:
 - (A) has been declared insolvent or had a court grant his creditors a final non-appealable right of enforcement or material damages as a result of a missed payment within 3 (three) years prior to the date of origination or has undergone a debt-restructuring process with regard to his non-performing exposures
 - (B) was, at the time of the origination, where applicable, on a public credit registry of persons with adverse credit history or, where there is no such public credit registry, another credit registry that is available to the Seller; or
 - (C) has a credit assessment or a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than the ones of comparable contracts held by the Seller which are not Purchased HP Contracts.
- (n) *Insurance:* The terms of each Purchased HP Contract require the Debtor thereunder to insure the Financed Vehicle which is the subject thereof with mandatory third party motor insurance and voluntary vehicle insurance (fi: "Iiikennevakuutus", "autovakuutus" or "kasko") with the owner of the Financed Vehicle registered in the Vehicle Register as beneficiary.
- (o) *Status:* Each Purchased HP Contract was entered into on the terms of one of the standard form documents listed in the Auto Portfolio Purchase Agreement.
- (p) *Fraud:* So far as the Seller is aware, each Purchased HP Contract has not been entered into or performed fraudulently.
- (q) *Seller experience and expertise:*
 - (i) The Seller has originated exposures of a similar nature to the Purchased HP Contracts since 2007 and so has the relevant expertise pursuant to Article 20(10) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria; and
 - (ii) The Seller (in its capacity as Servicer) has expertise in servicing exposures of a similar nature to those securitised since 2007 and has well-documented and adequate policies, procedures and risk management controls relating to the servicing of exposures since 2007, pursuant to Article 21(8) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria.
- (r) *Creditworthiness of the Debtors:* The Seller has assessed each Debtor's creditworthiness in compliance with the requirements set out in Article 8 of Directive 2008/48/EC, pursuant to Article 20(10) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria.
- (s) *Credit granting:* The Seller has:
 - (i) entered into each Purchased HP Contract on the basis of sound and well-defined criteria for credit granting, and has clearly established processes for approving, amending, renewing and financing such Purchased HP Contract and has effective systems in place to apply those criteria and processes to ensure that any such credit granting was based on a thorough assessment of the Debtor's creditworthiness, taking appropriate account of the Debtor meeting its obligations under the relevant contracts;
 - (ii) applied to each Purchased HP Contract purported to be sold and assigned by it to the Purchaser the same sound and well-defined criteria for credit-granting which it applies to non-securitised HP Contracts and has applied the same clearly established processes for approving and, where relevant, amending, renewing and refinancing credits in relation to each Purchased HP Contract which it applies to other HP Contracts that are originated by it but are not purported to be transferred to the Purchaser; and
 - (iii) effective systems in place to apply the criteria and processes referred to in sub paragraphs (i) and (ii) above in order to ensure that credit granting is based on a thorough assessment of the

relevant Debtor's creditworthiness taking appropriate account of factors relevant to verifying the prospect of the Customer's meeting its obligations under the relevant contracts.

Any matter or circumstance which is a breach of a Seller Asset Warranty will be deemed to be a "**Seller Asset Warranty Breach**" if the relevant matter or circumstance materially and adversely affects the Purchaser's interest in the affected Purchased HP Contract (without regard to credit enhancement, if any) or the Collectability of such Purchased HP Contract and, if such matter or circumstance is capable of remedy, it has not been remedied within 30 Business Days of the Seller becoming actually aware, or being notified, of the occurrence of such Seller Asset Warranty Breach.

If a Seller Asset Warranty Breach occurs, pursuant to the Auto Portfolio Purchase Agreement, the Seller will be obliged to repurchase the affected Purchased HP Contracts at a repurchase price equal to the aggregate of:

- (i) the Outstanding Principal Amount in respect of such Purchased HP Contracts;
- (ii) an amount equal to all other amounts due from the relevant Debtors in respect of the relevant Purchased HP Contracts as at the date of the repurchase;
- (iii) unpaid interest or finance charges (as applicable) accrued but not yet due and payable in respect of the relevant Purchased HP Contracts as at the date of the repurchase; and
- (iv) an amount equal to the reasonable costs incurred by the Purchaser in relation to such repurchase,
- (v) less an amount equal to any interest or finance charges (as applicable) not yet accrued but paid in advance to the Purchaser in respect of such Purchased HP Contracts.

If a Purchased HP Contract does not exist, the Seller will not be obliged to repurchase the relevant Purchased HP Contract, but will be required to indemnify the Purchaser in an amount, as calculated by the Servicer, equal to any loss suffered by the Purchaser resulting directly from such breach of representation and warranty by the Seller.

Servicer's duties

In respect of the Portfolio, the Servicer acts as manager, servicer and administrator for the Purchaser, the Finnish Pledge Authorised Representative, the Issuer and the Issuer Security Trustee under the Servicing Agreement (according to their respective interests). - (d) be authorised to grant Payment Holidays to Debtors from time to time in accordance with the Credit and Collection Policy; provided that the Servicer will not grant any Payment Holiday or any other extension of maturity of any Purchased HP Contract which would cause the final maturity date of that Purchased HP Contract to fall later than December 2027, unless such Payment Holiday is mandatorily provided by law;

- (j) provide, without undue delay, any information in its possession which is required for the preparation and delivery of the Inside Information Report and the Significant Event Report in compliance with points (f) and (g) of the first sub-paragraph of Article 7(1) of the EU Securitisation Regulation and the applicable Regulatory Technical Standards.

The Servicer will administer the Portfolio in accordance with the Credit and Collection Policy and give such time and attention and exercise such skill, care and diligence in servicing the Portfolio as it does in servicing HP Contracts other than the Purchased HP Contracts, subject to the provisions of the Servicing Agreement, the other Transaction Documents, the Purchased HP Contracts and applicable laws. Other than as described in this Prospectus, there have been no material changes to the Credit and Collection Policy in the last five years. In the Master Framework Agreement, the Seller has undertaken to disclose to potential investors, without undue delay, any material change from prior underwriting standards or other change to the Credit and Collection Policy, together with an explanation of such change and an assessment of the possible consequences on the HP Contracts, pursuant to Article 20(10) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria.

The Servicer will also acknowledge that the Issuer will have to comply with the FVC Report filing obligations with the Central Bank. in each case in accordance with the requirements provided by the EU Securitisation Regulation and the applicable Regulatory Technical Standards.

Servicer Advances and Servicer Advance Reserve

Where the Purchaser is required by law or otherwise to pay (i) any amount to a Debtor or to deposit such amount with the Finnish enforcement authority on behalf of the Debtor in respect of the repossession of the relevant Financed Vehicle and/or (ii) any VAT to the Finnish tax authorities in relation to the resale of any Financed Vehicle following its repossession, the Servicer may, in its sole discretion, make a Servicer Advance in an amount equal to the amount payable by the Purchaser, to the extent that the Servicer reasonably believes that the amount of such Servicer Advance will be repaid by the Purchaser at a future time.

The Servicer will make any Servicer Advance it has elected to make by way of paying, on behalf of the Purchaser, the relevant amount owed by the Purchaser to the Debtor, the Finnish enforcement authority and/or the Finnish tax authorities, as applicable, by no later than the date on which such amount is due and payable.

The Purchaser will repay each Servicer Advance made to the Purchaser on the Payment Date immediately following the date on which payment was made to the Debtor, the Finnish enforcement authority and/or the Finnish tax authorities, as applicable; provided that (i) if such Servicer Advance was made on or after the Cut-Off

Date immediately preceding such Payment Date, the Purchaser will repay such Servicer Advance on the second Payment Date to occur after such Cut-Off Date; and (ii) the Purchaser will only be obliged to repay such Servicer Advance if there are sufficient funds available to the Purchaser on the relevant Payment Date, after making all prior ranking payments in accordance with the applicable Purchaser Priority of Payments, to repay such Servicer Advance in accordance with the relevant Purchaser Priority of Payments and any shortfall will become due and payable on the next Payment Date and on any following Payment Date until it is reduced to zero.

The Servicing Agreement will provide that if the Purchaser is required by law or otherwise to make any payment to a Debtor, the Finnish enforcement authority or the Finnish tax authorities and the Servicer elects not to make a Servicer Advance in respect thereof, the Servicer will arrange for an amount equal to the amount payable by the Purchaser to be released from the Servicer Advance Reserve in immediately available funds and applied towards such payment by no later than the date on which it is due and payable.

On or before the Note Issuance Date, the Servicer Advance Reserve will be funded through the proceeds of an advance made by the Subordinated Loan Provider to the Purchaser in an amount equal to EUR 100,000. Prior to the delivery by the Note Trustee of an Enforcement Notice, if on any Cut-Off Date the amount standing to the credit of the Servicer Advance Reserve Ledger is less than the Servicer Advance Reserve Required Amount, the Servicer Advance Reserve Ledger will be replenished on the immediately following Payment Date up to the Servicer Advance Reserve Required Amount by any funds received by the Purchaser from the Issuer in accordance with the Issuer Pre-Enforcement Revenue Priority of Payments.

On the Payment Date on which the Notes are redeemed in full, the Servicer will arrange for any amount standing to the credit of the Servicer Advance Reserve Ledger to be released and such amount will be applied towards repayment of the Purchaser Subordinated Loan on such Payment Date. If the Purchaser has insufficient funds to repay all amounts outstanding under the Loan Agreement in full following enforcement of the Purchaser Security, an equivalent amount of the funds standing to the credit of the Servicer Advance Reserve Ledger will be treated as part of the Purchaser Post-Enforcement Available Distribution Amount.

Back-Up or replacement Servicer

If a Servicer Termination Event occurs, the Purchaser and/or the Issuer (with the consent of the Note Trustee) may terminate the appointment of the Seller as Servicer and appoint a qualified person as replacement Servicer, provided that the termination will not become effective until the qualified successor servicer has been appointed.

Under the terms of the Servicing Agreement, Santander Consumer Finance, S.A. will act as the Back-Up Servicer Facilitator. Pursuant to that agreement, if, so long as the Servicer is Santander Consumer Finance Oy:

- (a) the unsecured, unsubordinated debt obligations of Santander Consumer Finance, S.A. cease to have long-term ratings of at least "Baa3" by Moody's or "BBB-" by Fitch; and/or
- (b) Santander Consumer Finance, S.A. ceases to control the Servicer,

the Back-Up Servicer Facilitator will (unless Banco Santander, S.A. or one of its Affiliates has long-term ratings of at least "Baa3" by Moody's or "BBB-" by Fitch and retains or assumes control of the Servicer) (i) select within sixty (60) calendar days a bank or financial institution meeting the requirements set out in the Servicing Agreement and willing to assume the duties of a successor servicer in the event that a Servicer Termination Notice is delivered, (ii) review the information provided to it by the Servicer under the Servicing Agreement, (iii) enter into appropriate data confidentiality provisions and (iv) notify the Servicer if it requires further assistance.

For these purposes, "**control**" means the power, direct or indirect, (A) to vote more than 50 per cent. of the securities having ordinary voting power for the election of directors of the Servicer, or (B) to direct or cause the direction of the management and policies of the Servicer whether by contract or otherwise.

Successor in business

The Servicing Agreement provides that any entity which replaces the Servicer as a party to the Issuer Security Trust Deed in accordance with the terms thereof will automatically replace the Servicer as a party to the Servicing Agreement, and certain consequential changes may also be made to the Servicing Agreement with the approval of the Note Trustee.

Applicable law and jurisdiction

The Servicing Agreement, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of Finland. The Helsinki District Court, as the court of first instance, will have non-exclusive jurisdiction to settle any disputes that may rise in connection therewith.

Loan Agreement

Pursuant to the terms of the Loan Agreement, the Issuer will advance to the Purchaser, on the Note Issuance Date, the Loan in an amount in Euro equal to the Aggregate Purchase Price. The Loan will have four tranches: the Tranche A Loan in an amount equal to the Note Principal Amount of the Class A Notes as the Note Issuance Date, the Tranche B Loan in an amount equal to the Note Principal Amount of the Class B Notes as the Note Issuance Date, the Tranche C Loan in an amount equal to the Note Principal Amount of the Class C Notes as the Note Issuance Date and the Tranche D Loan in an amount equal to the Note Principal Amount of the Class D Notes as the Note Issuance Date.

The Purchaser will use the proceeds of the Loan to pay for the HP Contracts purchased by it from the Seller pursuant to the Auto Portfolio Purchase Agreement.

Payment of interest and fees in respect of the Loan will be made principally from and to the extent of Collections received in respect of the Purchased HP Contracts. Such payments of interest and fees are required to be made by the Purchaser on Payment Dates in accordance with the Purchaser Priorities of Payments. All payment obligations of the Purchaser under the Loan Agreement constitute limited recourse obligations of the Purchaser in accordance with the Non-Petition/Limited Recourse Provisions.

The amount of interest payable to the Issuer in respect of each Tranche on each Payment Date will be calculated by the Servicer, the Cash Administrator and/or the Calculation Agent, as applicable. The amount of interest payable to the Issuer in respect of the Tranche A Loan on each Payment Date will be equal to (i) for so long as the Issuer is a party to the Swap Agreement, zero or (ii) if the Swap Agreement has been terminated on such date, an amount equal to the interest due and payable on the Class A Notes less an amount equal to any Principal Addition Amounts used to cure any Senior Expenses Deficit on the Class A Notes in accordance with item (a) of the Issuer Pre-Enforcement Redemption Priority of Payments. The amount of interest payable to the Issuer in respect of the Tranche B Loan on each Payment Date will be equal to (i) for so long as the Issuer is a party to the Swap Agreement, zero (ii) if the Swap Agreement has been terminated on such date, an amount equal to the interest due and payable on the Class B Notes less an amount equal to any Principal Addition Amounts used to cure any Senior Expenses Deficit on the Class B Notes in accordance with item (a) of the Issuer Pre-Enforcement Redemption Priority of Payments. The amount of interest payable to the Issuer in respect of the Tranche C Loan will be equal to the amount of interest required by the Issuer to pay interest due and payable on the Class C Notes on such Payment Date less an amount equal to any Principal Addition Amounts used to cure any Senior Expenses Deficit on the Class C Notes in accordance with item (a) of the Issuer Pre-Enforcement Redemption Priority of Payments. The amount of interest payable to the Issuer in respect of the Tranche D Loan will be equal to the amount of interest required by the Issuer to pay interest due and payable on the Class D Notes on such Payment Date less an amount equal to any Principal Addition Amounts used to cure any Senior Expenses Deficit on the Class D Notes in accordance with item (a) of the Issuer Pre-Enforcement Redemption Priority of Payments.

On each Payment Date, the Purchaser will pay to the Issuer, in accordance with the Purchaser Pre-Enforcement Priority of Payments, a fee in consideration of the making of the Loan in an amount equal to:

- (a) the aggregate of all amounts due and payable by the Issuer pursuant to items (a) to (c) (inclusive), (f), (h), (i), (k), (m) and (n) and of the Issuer Pre-Enforcement Revenue Priority of Payments.
- (b) the aggregate of all amounts due and payable by the Issuer:
 - (i) in respect of Tranche A loan, for so long as the Issuer is a party to the Swap Agreement, the Issuer's obligations in respect of any Swap Transaction relating to the Class A Notes specified in item (d) of the Issuer Pre-Enforcement Revenue Priority of Payments;

- (ii) in respect of Tranche B loan, for so long as the Issuer is a party to the Swap Agreement, the Issuer's obligations in respect of any Swap Transaction relating to the Class B Notes specified in item (d) of the Issuer Pre-Enforcement Revenue Priority of Payments; and
 - (iii) to pay any Swap Subordinated Amounts due and payable to the Swap Counterparty under the Swap Agreement specified in item (o) of the Issuer Pre-Enforcement Revenue Priority of Payments; and
- (c) the aggregate of all amounts due and payable by the Issuer pursuant to item (a) of the Issuer Pre-Enforcement Redemption Priority of Payments.

Repayment of the principal of the Loan will be made principally from and to the extent of the Collections received in respect of the Purchased HP Contracts. The amount of principal repayable to the Issuer in respect of the Loan on each Payment Date will be calculated by the Servicer, the Cash Administrator and/or the Calculation Agent, as applicable, and will be equal to (i) the amount required by the Issuer to fund the aggregate of the amount of principal repayable on such Payment Date on the Notes then Outstanding of each Class, but not including (ii) an amount equal to the aggregate of the amounts applied under items (f), (i), (k) and (m) of the Issuer Pre-Enforcement Revenue Priority of Payments. Such principal repayments will be made on each Payment Date in accordance with the Purchaser Priorities of Payments. All payment obligations of the Purchaser under the Loan Agreement constitute limited recourse obligations of the Purchaser in accordance with the Non-Petition/Limited Recourse Provisions.

Following the application of the relevant Issuer Priority of Payments, the principal amount outstanding in respect of each Tranche will be adjusted so that it is equal to the Note Principal Amount of the corresponding Class of Notes.

The security granted in respect of the Purchased HP Contracts pursuant to the Purchaser Finnish Security Agreement will be legally perfected by virtue of notification to the Debtors of such security and directing the Debtors to make payments under the Purchased HP Contracts to the Issuer Collections Account. All Collections paid into the Issuer Collections Account will be transferred to the Issuer Transaction Account in accordance with the provisions of the Servicing Agreement (other than Insurance Premium Payments which will be transferred on a monthly basis to the Seller).

On the fifth Business Day following each Cut-Off Date, any Collections transferred from the Issuer Collections Account to the Issuer Transaction Account representing Insurance Premium Payments will be transferred to the Seller for its own account, in accordance with the Servicing Agreement.

On the fifth Business Day following each Cut-Off Date, the remaining amount of the Revenue Receipts and Redemption Receipts in excess of the aggregate amount payable by the Purchaser to the Issuer under the Loan Agreement (after giving effect to payments to be made under the applicable Purchaser Priority of Payments) on the immediately following Payment Date will be transferred by the Servicer from the

Issuer Transaction Account to the Purchaser Transaction Account and, for the avoidance of doubt, such excess will form part of the Purchaser Pre-Enforcement Available Revenue Receipts, the Purchaser Pre-Enforcement Available Redemption Receipts or the Purchaser Post-Enforcement Available Distribution Amount, as applicable.

On each Payment Date, the remaining Revenue Receipts and Redemption Receipts standing to the credit of the Issuer Transaction Account will (i) be applied *pro tanto* against the Purchaser's obligation to pay interest, principal, fees and any other amounts to the Issuer under the Loan Agreement on such Payment Date and thereafter (ii) form part of the Issuer Pre-Enforcement Available Revenue Receipts, Issuer Pre-Enforcement Available Redemption Receipts or the Issuer Post-Enforcement Available Distribution Amount, as applicable, and will be applied in accordance with the relevant Issuer Priority of Payments.

The Loan Agreement contains and/or incorporates representations, warranties and undertakings to be given by the Purchaser to the Issuer.

The representations include, among others, that:

- (a) the Purchaser is a limited liability company duly incorporated, validly existing and registered under the laws of Ireland, capable of being sued in its own right and not subject to any immunity from any proceedings;
- (b) the Purchaser has the power to carry on its business as it is being conducted;
- (c) the Purchaser has the power to enter into, perform and deliver, and has taken all necessary corporate and other action to authorise the execution, delivery and performance by it of each of the Transaction Documents to which it is a party; and
- (d) no Purchaser Event of Default is continuing unremedied (if capable of remedy) or unwaived or would result from the making of the Loan.

The undertakings include, among others, that:

- (a) the Purchaser will supply to the Issuer, the Note Trustee, the Purchaser Security Trustee and the Rating Agencies:
 - (i) promptly after publication is available, its audited accounts for each financial year; and
 - (ii) promptly, such other information in connection with the matters contemplated by the Transaction Documents as the Purchaser Security Trustee and the Finnish Pledge Authority Representative may reasonably request;
- (b) the Purchaser will notify the Issuer, the Note Trustee, the Purchaser Security Trustee and the Issuer Security Trustee if it becomes aware of the occurrence of a Purchaser Event of Default (and the steps, if any, being taken to remedy it);
- (c) the Purchaser will promptly:
 - (i) obtain, maintain and comply with the terms of; and
 - (ii) upon request, supply certified copies to the Issuer, the Issuer Security Trustee and the Purchaser Security Trustee of,

any authorisation required under any law or regulation to enable it to perform its obligations under, or for the validity or enforceability of, any Transaction Document to which it is a party;
- (d) except as provided or contemplated under the Transaction Documents or the Purchased HP Contracts, the Purchaser will not make any loans or provide any other form of credit to any person. For the avoidance of doubt, the Purchaser agrees that it will not make any further advances to Debtors in respect of the Purchased HP Contracts;
- (e) the Purchaser will not give any guarantee or indemnity to, or for the benefit of, any person in respect of any obligation of any other person or enter into any document under which the Purchaser assumes any liability of any other person;
- (f) the Purchaser will not incur any indebtedness in respect of any borrowed money other than under the Transaction Documents;
- (g) the Purchaser will not create or permit to subsist any security interest over or in respect of any of its assets (unless arising by operation of law) other than as provided for pursuant to the terms of the Transaction Documents;
- (h) the Purchaser will not sell, assign, transfer, lease or otherwise dispose of or grant any option over all or any of its assets, properties or undertakings or any interest, estate, right, title or benefit to or in such

assets, properties or undertakings other than as provided for pursuant to the terms of the Transaction Documents;

- (i) the Purchaser will not enter into any amalgamation, demerger, merger or reconstruction, nor acquire any assets or business nor make any investments other than as provided for pursuant to the terms of the Transaction Documents;
- (j) the Purchaser will not pay any dividend or make any other distribution in respect of any of its shares other than in accordance with the Purchaser Security Trust Deed, or issue any new shares or alter any rights attaching to its issued shares as at the date of the Loan Agreement;
- (k) the Purchaser will not carry on any business or engage in any activity other than as provided for pursuant to the terms of the Transaction Documents or which is not incidental to or necessary in connection with any of the activities in which the Transaction Documents provide or envisage that the Purchaser will engage; and
- (l) the Purchaser will not have any subsidiaries or subsidiary undertakings as defined in the Companies Act 2006 of the United Kingdom.

Pursuant to the terms of the Loan Agreement, if an Enforcement Notice is delivered by the Note Trustee, the Loan will become immediately due and payable together with accrued interest and fees without further action or formality.

Prior to the Loan Maturity Date, the Purchaser will only be obliged to pay amounts of interest, fees and principal to the Issuer in respect of the Loan to the extent it has funds to do so after making payments ranking in priority to amounts due on such Loan.

If, on the Loan Maturity Date, there is a shortfall between the amount of interest, fees and/or principal due on the outstanding Loan and the amount available to the Purchaser to make such payments, then that shortfall will become immediately due and payable irrespective of whether the Purchaser has the funds to make the payments then due. Any shortfall will be paid by the Purchaser in accordance with the relevant Purchaser Priority of Payments and subject to the limited recourse provisions set out in the Non-Petition/Limited Recourse Provisions.

Following enforcement of the Purchaser Security and distribution of all proceeds of such enforcement in accordance with the terms of the Purchaser Security Trust Deed and if there are no further assets available to pay any outstanding amounts due and owing by the Purchaser to the Issuer, all such outstanding amounts will be extinguished.

The ability of the Issuer to repay a Class of Notes will depend, among other things, upon payments received by the Issuer from the Purchaser in respect of the Loan.

If a Regulatory Event is continuing, the Seller will have, subject to certain requirements, the option to purchase all of the Issuer's rights, title, interest and benefit in, to and under the Available Junior Loan Tranches for an amount equal to the Seller Loan Purchase Price and the Issuer shall apply such amounts received from the Seller towards redemption of all (and not some only) of the Junior Notes on such Payment Date, being the Regulatory Call Early Redemption Date. The advance of the Seller Loan would coincide with the early redemption of the Junior Notes. See Note Condition 5.5 (*Optional redemption for regulatory reasons*).

The repurchase and early redemption of the Junior Notes will be excluded if the Seller Loan Purchase Price is not sufficient to fully satisfy the obligations of the Issuer under the Class B Notes.

Applicable law and jurisdiction

The Loan Agreement, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of England. The courts of England will have exclusive jurisdiction to settle any disputes that may rise in connection therewith.

Issuer Security Trust Deed

On the Note Issuance Date, the Issuer and the Issuer Security Trustee, among others, will enter into the Issuer Security Trust Deed. As continuing English law security for the payment and discharge of the Issuer Secured Obligations, the Issuer will grant in favour of the Issuer Security Trustee, for itself and on trust for the other Issuer Secured Parties, in accordance with the Issuer Security Trust Deed:

- (a) an assignment with full title guarantee of all of its rights under the Issuer Assigned Documents;
- (b) an assignment with full title guarantee of all of its right, title, benefit and interest and all claims, present and future, under the Purchaser Security Trust Deed (including its beneficial interest in the trust created by the Purchaser pursuant to the Purchaser Security Trust Deed) and including all rights to receive payment of any amount which may become payable to the Issuer thereunder and all rights to serve notices and/or make demands thereunder and/or to take such steps as are required to cause payments to become due and payable thereunder and all rights of action in respect of any breach thereof and all rights to receive damages or obtain relief in respect thereof and the proceeds of any of the foregoing;
- (c) a first fixed charge over all of the Issuer's rights in and to the Issuer Secured Accounts and any Permitted Investments purchased with funds standing to the credit of the Issuer Secured Accounts and/or the Issuer Collections Account in which the Issuer may at any time acquire or otherwise obtain any interest or benefit (including all monies, income and proceeds payable or due to become payable thereunder and all interest accruing thereon from time to time) and all rights in respect of or otherwise ancillary to such Permitted Investments; and
- (d) a first floating charge with full title guarantee over the whole of the Issuer's undertaking and all of its present and future property, assets and rights, whatsoever and wheresoever and from time to time (other than its rights as pledgee under the Purchaser Finnish Security Agreement).

Each of the Issuer Secured Parties which is a party to the Transaction Documents (other than the Noteholders) will agree to be bound by the provisions of the Issuer Security Trust Deed and, in particular, will agree to be bound by the Issuer Post-Enforcement Priority of Payments and the limited recourse and non-petition provisions set out within.

The Issuer Secured Assets will be available to satisfy the Issuer's obligations under the Notes. Accordingly, recourse against the Issuer in respect of such obligations will be limited to the Issuer Secured Assets and the claims of the Issuer Secured Parties against the Issuer under the Transaction Documents may only be satisfied to the extent of the Issuer Secured Assets. Once the Issuer Secured Assets have been realised:

- (a) neither the Issuer Security Trustee nor any of the other Issuer Secured Parties will be entitled to take any further steps or other action against the Issuer to recover any sums due but unpaid;
- (b) all claims in respect of any sums due but unpaid will be extinguished; and
- (c) neither the Issuer Security Trustee nor any of the other Issuer Secured Parties will be entitled to petition or take any other step for the winding up of the Issuer.

The security over the Issuer Secured Assets will become enforceable in accordance with the Note Conditions following delivery by the Note Trustee of an Enforcement Notice.

Where the Swap Counterparty provides collateral in accordance with the provisions of a Credit Support Annex, such collateral or interest thereon will not form part of the Issuer Pre-Enforcement Revenue Available Receipts or the Issuer Post-Enforcement Available Distribution Amount, as applicable, prior to or in the event of enforcement action (other than collateral amounts retained by the Issuer in accordance with the Swap Agreement following the termination of the Class A Swap Transaction or the Class B Swap Transaction to the extent not applied to put in place a replacement swap transaction).

Successor in business

The Issuer Security Trust Deed provides that, subject to certain conditions being satisfied, the Note Trustee will, without the consent of the Noteholders, approve the replacement of the Seller, the Servicer and/or the

Subordinated Loan Provider under the Issuer Security Trust Deed (and the other Transaction Documents to which the Seller, the Servicer and/or the Subordinated Loan Provider is a party) by an entity to which all, or substantially all, of the Seller, the Servicer and/or the Subordinated Loan Provider's automotive finance business is transferred (whether by operation of law, contract or otherwise). Any such replacement may involve amendments being made to the Issuer Security Trust Deed in order to reflect the legal form of the successor entity, its jurisdiction of incorporation and/or the jurisdictions in which it is resident or conducts its business or any other aspect in which it differs from its predecessor.

Applicable law and jurisdiction

The Issuer Security Trust Deed, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of England. The courts of England will have exclusive jurisdiction to settle any disputes that may rise in connection therewith.

Issuer Finnish Security Agreement

On the Note Issuance Date, the Issuer and the Issuer Security Trustee on behalf of the Issuer Secured Parties will enter into the Issuer Finnish Security Agreement.

Pursuant to the Issuer Finnish Security Agreement, as continuing security for the payment and discharge of the Issuer Secured Obligations, the Issuer will grant a first priority pledge over certain of its assets and rights in favour of the Issuer Secured Parties, represented by the Issuer Security Trustee, including:

- (a) all present and future claims, rights and receivables that the Issuer has or will have against the Servicer pursuant to the Servicing Agreement and the Subordinated Loan Provider pursuant to the Auto Portfolio Purchase Agreement; and
- (b) all present and future claims, rights and receivables that the Issuer has or will have in respect of the Issuer Collections Account.

Applicable law and jurisdiction

The Issuer Finnish Security Agreement, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of Finland. The Helsinki District Court, as the court of first instance, will have non-exclusive jurisdiction to settle any disputes that may rise in connection therewith.

Purchaser Security Trust Deed

On the Note Issuance Date, the Purchaser and the Purchaser Security Trustee among others, will enter into the Purchaser Security Trust Deed. As continuing security for the payment and discharge of the Purchaser Secured Obligations, the Purchaser will grant in favour of the Purchaser Security Trustee, for itself and on trust for the other Purchaser Secured Parties, in accordance with the Purchaser Security Trust Deed:

- (a) an assignment with full title guarantee of all of its rights under the Purchaser Assigned Documents;
- (b) a first fixed charge over the rights, amounts, benefits and securities standing to the credit of, or deposited in, the Purchaser Transaction Account and the indebtedness represented by it and any Permitted Investments purchased with funds standing to the credit of the Purchaser Transaction Account in which the Purchaser may at any time acquire or otherwise obtain any interest or benefit (including all monies, income and proceeds payable or due to become payable thereunder and all interest accruing thereon from time to time) and all rights in respect of or otherwise ancillary to such Permitted Investments; and
- (c) a first floating charge with full title guarantee over the whole of the Purchaser's undertaking and all of its present and future property, assets and rights, whatsoever and wheresoever and from time to time.

Pursuant to the Purchaser Security Trust Deed, the Issuer will declare that, with effect from (and including) the date thereof until the Discharge Date, it will hold all of its rights, title, benefits and interests in its capacity as pledgee under the Purchaser Finnish Security Agreement upon trust absolutely for itself and the other Purchaser Secured Parties as beneficiaries in accordance with the Purchaser Security Trust Deed.

Pursuant to the Purchaser Security Trust Deed, the Finnish Pledge Authorised Representative will be appointed by each of the Purchaser Secured Parties (other than the Finnish Pledge Authorised Representative) to act as the authorised representative agent of each of the Purchaser Secured Parties and to exercise its rights as pledgee under the Purchaser Finnish Security Agreement as well as any other rights which a pledgee may have under Finnish law to enforce the pledge granted pursuant to the Purchaser Finnish Security Agreement, in accordance with the provisions of the Purchaser Security Trust Deed and the Purchaser Finnish Security Agreement.

Pursuant to the Purchaser Security Trust Deed, the Finnish Pledge Authorised Representative will appoint the Purchaser Security Trustee to exercise the rights granted by the Purchaser Secured Parties to the Finnish Pledge Authorised Representative as authorised representative of the Purchaser Secured Parties, in accordance with the provisions of the Purchaser Security Trust Deed.

The Purchaser Security Trust Deed contains the following negative covenants given by the Purchaser:

- (a) the Purchaser undertakes that it will not, at any time prior to the Discharge Date, create or permit to subsist any Security Interest over any Purchaser Secured Asset other than pursuant to and in accordance with the Transaction Documents; and
- (b) the Purchaser undertakes that it will not, at any time prior to the Discharge Date, dispose of (or agree to dispose of) any Purchaser Secured Asset except as expressly permitted by the Transaction Documents.

Each of the Purchaser Secured Parties will agree to be bound by the provisions of the Purchaser Security Trust Deed and, in particular, will agree to be bound by the Purchaser Priorities of Payments and the limited recourse and non-petition provisions set out within.

The Purchaser Secured Assets will be available to satisfy the Purchaser Secured Obligations (including the Purchaser's obligations under the Loan Agreement). Accordingly, recourse against the Purchaser in respect of such obligations will be limited to the Purchaser Secured Assets and the claims of the Purchaser Secured Parties against the Purchaser under the Transaction Documents may only be satisfied to the extent of the Purchaser Secured Assets. Once the Purchaser Secured Assets have been realised:

- (a) none of the Purchaser Secured Parties will be entitled to take any further steps or other action against the Purchaser to recover any sums due but unpaid;
- (b) all claims in respect of any sums due but unpaid will be extinguished; and
- (c) none of the Purchaser Secured Parties will be entitled to petition or take any other step for the winding up of the Purchaser.

The security over the Purchaser Secured Assets will become enforceable following delivery by the Note Trustee of an Enforcement Notice.

Successor in business

The Purchaser Security Trust Deed provides that any entity to which all, or substantially all, of the Seller, the Servicer and/or the Subordinated Loan Provider's automotive finance business is transferred (whether by operation of law, contract or otherwise) which replaces the Seller, the Servicer and/or the Subordinated Loan Provider as a party to the Issuer Security Trust Deed in accordance with the terms thereof will automatically replace the Seller, the Servicer and/or the Subordinated Loan Provider as a party to the Purchaser Security Trust Deed, and certain consequential changes may also be made to the Purchaser Security Trust Deed with the approval of the Note Trustee.

Applicable law and jurisdiction

The Purchaser Security Trust Deed, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of England. The courts of England will have exclusive jurisdiction to settle any disputes that may rise in connection therewith.

Purchaser Finnish Security Agreement

On the Note Issuance Date, the Purchaser and the Issuer, acting in its capacities as a pledgee and as the Finnish Pledge Authorised Representative (on behalf of the Purchaser Secured Parties), will enter into the Purchaser Finnish Security Agreement.

Pursuant to the Purchaser Finnish Security Agreement, as continuing security for the payment and discharge of the Purchaser Secured Obligations, the Purchaser will grant a first priority pledge over certain of its assets and rights in favour of the Purchaser Secured Parties, represented by the Finnish Pledge Authorised Representative, including:

- (a) the Purchased HP Contracts (including all of the Purchaser's right, title and interest to the Purchased HP Contracts and to the related Financed Vehicles, and for the avoidance of doubt any proceeds from the sale of repossessed Financed Vehicles); and
- (b) all present and future claims, rights and receivables that the Purchaser has or will have against the Servicer pursuant to the Servicing Agreement and the Seller and the Subordinated Loan Provider pursuant to the Auto Portfolio Purchase Agreement.

The Purchaser Finnish Security Agreement includes an obligation on the Purchaser to take, at its own cost, any and all actions as requested by the Finnish Pledge Authorised Representative (including, but not limited to, signing and sealing any transfer, proxy, mandate or other document and giving any such instructions or directions as the pledgees may require relating to the Purchased HP Contracts, the Financed Vehicles (including assistance in relation to the repossession and resale of any Financed Vehicles) and/or the pledged claims) to preserve, protect and defend the pledge, and the priority thereof, against any and all adverse claims.

Applicable law and jurisdiction

The Purchaser Finnish Security Agreement, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of Finland. The Helsinki District Court, as the court of first instance, will have non-exclusive jurisdiction to settle any disputes that may arise in connection therewith.

Irish Security Deeds

Pursuant to the Issuer Irish Security Deed, the Issuer has granted a first priority security interest over all its rights, powers and interest under the Issuer Corporate Administration Agreement. Such security interest will secure the Issuer Secured Obligations. The Issuer Irish Security Deed and all contractual and non-contractual obligations arising out of or in connection with it, is governed by, and construed in accordance with, the laws of Ireland. The courts of Ireland will have exclusive jurisdiction to settle any disputes that may arise out of or in connection therewith.

Pursuant to the Purchaser Irish Security Deed, the Purchaser has granted a first priority security interest over all its rights, powers and interest under the Purchaser Corporate Administration Agreement. Such security interest will secure the Purchaser Secured Obligations. The Purchaser Irish Security Deed and all contractual and non-contractual obligations arising out of or in connection with it, is governed by, and construed in accordance with, the laws of Ireland. The courts of Ireland will have exclusive jurisdiction to settle any disputes that may arise out of or in connection therewith.

The Swap Agreement

The interest rate payable by the Issuer with respect to the Class A Notes and the Class B Notes is calculated as the sum of EURIBOR and the applicable margin (subject to a floor of zero) as set out in the Note Conditions. The HP Contracts bear interest at fixed rates. The Issuer has hedged this interest rate basis exposure by entering into the Swap Agreement with the Swap Counterparty, in order to appropriately mitigate the interest rate risk pursuant to Article 21(2) of the EU Securitisation Regulation.

On or about the Signing Date, the Issuer and the Swap Counterparty will enter into the Swap Agreement, comprising a 1992 ISDA Master Agreement together with a schedule and credit support annex thereto and a confirmation evidencing each Class A Swap Transaction and Class B Swap Transaction.

The Swap Agreement will contain provisions requiring certain remedial action to be taken if a Swap Counterparty Downgrade Event occurs in respect of the Swap Counterparty (or, as relevant, its guarantor), such provision being in accordance with the rating methodology of the Rating Agencies at the time of entry into the Swap Agreement. Such provisions may include a requirement that the Swap Counterparty must post collateral; or transfer the Swap Agreement to another entity (or, as relevant its guarantor) meeting the applicable Rating Requirement; or procure that a guarantor meeting the applicable Rating Requirement guarantees its obligations under the Swap Agreement or take other actions as may be agreed with the Rating Agencies.

Under the Swap Agreement, on each Payment Date, the Issuer will make payments to the Swap Counterparty (i) in respect of the Class A Swap Transaction, a fixed rate of 0.2506 per cent. per annum, applied to the Class A Swap Notional Amount, and (ii) in respect of the Class B Swap Transaction, a fixed rate of 0.2755 per cent. per annum, applied to the Class B Swap Notional Amount. The Swap Counterparty will pay (i) in respect of the Class A Swap Transaction, a floating rate equal to the sum of (A) EURIBOR, as determined by the calculation agent under the Class A Swap Transaction and (B) a margin equal to 0.70 per cent. per annum (subject to a floor of zero), applied to the Class A Swap Notional Amount, and (ii) in respect of the Class B Swap Transaction, a floating rate equal to the sum of (A) EURIBOR, as determined by the calculation agent under the Class B Swap Transaction and (B) a margin equal to 0.73 per cent. per annum (subject to a floor of zero) applied to the Class B Swap Notional Amount.

For information regarding the obligations of the Swap Counterparty to post collateral, see "*Credit Structure — Swap Agreement*" and "*Swap Collateral Account*".

Pursuant to the Issuer Security Trust Deed, the Issuer has created security in favour of the Issuer Security Trustee in all its present and future rights, claims and interests which the Issuer is now or becomes hereafter entitled to pursuant to or in respect of the Swap Agreement (see "*Outline of the Other Principal Transaction Documents — Issuer Security Trust Deed*").

Termination of the Swap Agreement

The Swap Agreement may be terminated in, *inter alia*, the following circumstances (each a "**Swap Early Termination Event**"):

- (a) at the option of one party to the Swap Agreement, if there is a failure by the other party to pay any amounts due and payable in accordance with the terms of the Swap Agreement and any applicable grace period has expired;
- (b) if the Class A Notes and the Class B Notes are redeemed early in accordance with either Note Condition 5.3 (*Optional redemption following exercise of clean-up call option*) or Note Condition 5.4 (*Optional redemption for taxation reasons*), in which event the swaps will be terminated on the actual redemption date of the Class A Notes and the Class B Notes pursuant to Note Condition 5.3 (*Optional redemption following exercise of clean-up call option*) or Note Condition 5.4 (*Optional redemption for taxation reasons*), as applicable;
- (c) upon the occurrence of an insolvency of the Swap Counterparty or certain insolvency events with respect to the Issuer (as set out in the Swap Agreement) or the merger of the Swap Counterparty without an assumption of its obligations under the Swap Agreement;
- (d) upon the occurrence of a Tax Event, Tax Event Upon Merger or an Illegality (as defined in the Swap Agreement);
- (e) if the Swap Counterparty is downgraded and fails to comply with the requirements of the ratings downgrade provision, contained in the relevant Swap Agreement (the "**Swap Counterparty Downgrade Event**") and described above in the section entitled "*Credit Structure – Swap Agreement*";
- (f) if there is an amendment to any material terms of the Transaction Documents without the prior written approval of the Swap Counterparty and/or if the Issuer Pre-Enforcement Revenue Priority of Payments or the Issuer Post-Enforcement Priority of Payments are/is amended without the prior written approval of the Swap Counterparty, such that the Issuer's obligations to the Swap Counterparty under the Swap Agreement are further contractually subordinated to the Issuer's obligations to any other beneficiary or the interests of the Swap Counterparty are otherwise materially prejudiced by any such amendment; and

- (g) if, as a result of an Issuer Event of Default under Note Condition 12 (*Events of Default*), an Enforcement Notice is delivered to the Issuer by the Note Trustee, declaring the Notes to be immediately due and payable.

It will constitute a Sequential Payment Trigger Event if a Swap Counterparty Downgrade Event occurs in respect of the Swap Counterparty and none of the remedies provided for in the Swap Agreement are put in place within the timeframe required thereunder.

Upon the occurrence of a Swap Early Termination Event, either the Issuer or the Swap Counterparty may be liable to make a termination payment to the other. The amount of any termination payment will be based on the market value of the terminated swap based on market quotations of the cost of entering into a swap with the same terms and conditions that would have the effect of preserving the respective full payment obligations of the parties (or based upon loss in the event that market quotation cannot be determined).

Any such termination payment could be substantial. Except where the Swap Counterparty has caused the Swap Agreement to terminate prior to its scheduled termination date by its own default or an Additional Termination Event (as defined in the Swap Agreement) has occurred under the Swap Agreement as a result of a Ratings Downgrade of the Swap Counterparty, any termination payment in respect of the Swap Agreement due by the Issuer to the Swap Counterparty will rank in priority to payments due on the Notes.

In the event that the Swap Agreement is terminated prior to its scheduled termination date, and prior to the service by the Note Trustee of an Enforcement Notice or the redemption in full of the Class A Notes and the Class B Notes, the Issuer will use commercially reasonable efforts to enter into a replacement arrangement with another appropriately rated entity. Such replacement swap must be entered into on terms acceptable to the Rating Agencies, the Issuer and the Note Trustee.

The Issuer will apply any termination payment it receives from a termination of the Swap Agreement (including, for the avoidance of doubt, any net amount due to the Issuer under the Swap Agreement in respect of an early termination date designated thereunder and discharged by way of application of the relevant amount of Swap Collateral held by the Issuer in accordance with the Swap Agreement) to enter into a replacement swap agreement (as described above). If, following the termination of the Swap Agreement, a replacement swap is not entered into, such termination payment will be deposited in the Issuer Transaction Account and applied to enter into any replacement swap agreement entered into at a future date. Following the application of a termination payment to enter into a replacement swap agreement, any excess amount of the termination payment remaining will constitute Issuer Pre-Enforcement Available Revenue Receipts. To the extent that the Issuer receives a premium under any replacement swap agreement, it will apply such premium first to make any termination payment due under the related terminated swap. Any termination payment due under a terminated Class A Swap Transaction or Class B Swap Transaction to the Swap Counterparty will be made in accordance with the applicable Issuer Priority of Payments and from any amount standing to the credit of the Swap Collateral Account to the extent the Issuer is not entitled to retain it and from any premium payable by any replacement swap counterparty.

Taxation

The Issuer is not obliged under the Swap Agreement to gross up payments made by it if withholding taxes are imposed on payments made under the Swap Agreement. The Swap Counterparty is always obliged to gross up payments made by it to the Issuer if withholding taxes (other than a FATCA withholding) are imposed on payments made by it to the Issuer under the Swap Agreement. The imposition of withholding taxes (other than a FATCA withholding) on payments made by the Swap Counterparty under the Swap Agreement will constitute a Tax Event or a Tax Event Upon Merger (each as defined in the Swap Agreement) and will give that Swap Counterparty the right to terminate the Swap Agreement subject to the terms thereof.

Applicable law and jurisdiction

The Swap Agreement, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of England. The courts of England will have exclusive jurisdiction to settle any disputes that may rise out of or in connection therewith.

Agency Agreement

On the Note Issuance Date, the Issuer, the Purchaser and the Note Trustee will enter into the Agency Agreement with the Principal Paying Agent, the Calculation Agent and the Cash Administrator. The Principal Paying Agent, the Calculation Agent and the Cash Administrator are appointed by the Issuer and, in certain circumstances as set out in the Agency Agreement, by the Note Trustee, to act as their agent to make certain calculations and determinations and to effect payments in respect of the Notes. In addition, the Cash Administrator is appointed by the Issuer and, in certain circumstances as set out in the Agency Agreement, the Note Trustee under the Agency Agreement to also act as their agent in providing certain cash management services such as, but not limited to: (i) calculating the Issuer Pre-Enforcement Available Revenue Receipts, Issuer Pre-Enforcement Available Redemption Receipts, the Issuer Post-Enforcement Available Revenue Receipts, the Purchaser Pre-Enforcement Available Revenue Receipts, the Purchaser Pre-Enforcement Available Redemption Receipts and the Purchaser Post-Enforcement Available Distribution Amount, (ii) to notify amongst others, the Servicer, the Issuer and the Purchaser of any differences and/or discrepancies in the calculations set out in Clause 8.1(a) (*Cash Administrator duties*) of the Agency Agreement performed by the Cash Administrator and the Servicer and in the event of any differences and/or discrepancies the Cash Administrator will reasonably assist in reconciling such differences and/or discrepancies and (iii) providing the Transaction Account Bank with payment instructions on behalf of the Issuer which are required to effect payments in respect of the Notes.

The Agency Agreement provides that the Issuer may terminate the appointment of any Agent with regard to some or all of its functions with the prior written consent of the Note Trustee upon giving such Agent not less than 45 calendar days' prior notice. It further provides that any Agent may at any time resign from its office by giving the Issuer and the Note Trustee not less than 45 calendar days' prior notice.

Any termination or resignation of any Agent will become effective only upon the appointment by the Issuer (with the prior written approval of the Note Trustee) of one or more, as the case may be, banks or financial institutions in the required capacity and the giving of prior notice of such appointment to the Issuer Security Trustee and the Noteholders in accordance with the Note Conditions. DESCRIPTION OF THE PORTFOLIO

The Portfolio consists of the Purchased HP Contracts originated by the Seller pursuant to the Credit and Collection Policy. See "*Credit and Collection Policy*".

The HP Contracts relate to the hire purchase of motor vehicles which are cars, vans, campers, caravans and motorcycles.

As at the Purchase Date, each Eligible HP Contract meets the conditions for being assigned a standardised risk weight equal to or smaller than 75% on an individual exposure basis where the exposure is a retail exposure, or for any other exposures equal to or smaller than 100% on an individual exposure basis, as such terms are described in Article 243 of the CRR.

The Aggregate Outstanding Asset Principal Amount in respect of the Portfolio as at close of business on the Purchase Cut-Off Date was EUR 799,072,147.

The number of Purchased HP Contracts in the Portfolio as at the Purchase Date is in excess of 15,000. Each Purchased HP Contract is denominated and payable in Euro and (other than, potentially, any Purchased HP Contract in respect of which any Unallocated Overpayment has been made) has a positive outstanding balance. Each Purchased HP Contract was originated in the ordinary course of the Seller's business and in accordance with the Credit and Collection Policy. In accordance with the Eligibility Criteria, each Debtor is resident or is registered in Finland.

As at the Purchase Date, the largest aggregate Outstanding Principal Amount due from:

- (a) any corporate Debtor is equal to or less than the lesser of (i) 0.25 per cent. of the aggregate outstanding Loan Principal Amount and (ii) EUR 2,000,000;
- (b) any ten corporate Debtors is equal to or less than the lesser of (i) 0.75 per cent. of the aggregate outstanding Loan Principal Amount and (ii) EUR 7,500,000;
- (c) any individual Debtor is equal to or less than the lesser of (i) 0.25 per cent. of the aggregate outstanding Loan Principal Amount and (ii) EUR 500,000; and
- (d) any ten individual Debtors is equal to or less than 0.60 per cent. of the aggregate outstanding Loan Principal Amount.

Each Debtor has made at least one scheduled payment on their respective HP Contract which take the form of repayment loans and include balloon repayments. For financial information regarding the Purchased HP Contracts, please see "*Information Tables Regarding the Portfolio*".

Typical HP Contract duration terms at point of origination are between 3 and 6 years (weighted average term at origination for the Portfolio is 63 months), but prepayments typically result in an effective duration of between 2 and 3 years. The weighted average down payment (equity) for loans within the Portfolio is 14.4 per cent.

For approximately 5.0 per cent. of the Purchased HP Contracts (as at close of business on 15 September), the relevant Debtor has taken out a payment protection policy with CNP Santander Insurance DAC. The agreements between each relevant Debtor and the relevant insurer provide that the Debtor, subject to certain conditions, may be entitled to a payment from the insurer in the case of accidental short-term disability, accidental hospitalisation, accidental death or involuntary unemployment.

The PPI Policies provide for payments of monthly premiums which are collected as an additional amount which is added to the Debtor's monthly Instalments but which is not included in the principal amount of the relevant HP Contract. The Debtor's corresponding payments in respect of the PPI Policy premium remain in the Issuer Collections Account and will be paid to the Seller on a monthly basis as these premium payments will not be sold to the Purchaser. In the event that a Debtor wishes to cancel his or her PPI policy, the monthly insurance premiums payable by the Debtor will be cancelled.

In the event of a (non-death) claim under a PPI Policy, the Debtor is obliged to inform the insurer directly, who will pay any eventual benefit claims directly to the Debtor. In the event of a death-related claim, the insurer will

forward any claim proceeds to the beneficiary specified by the Debtor in the PPI Policy or, in the absence of a specified beneficiary, to the estate of the deceased.

None of the Purchased HP Contracts is a "securitisation position" for the purposes of Article 2(4) of the EU Securitisation Regulation.

HISTORICAL DATA

The following historical data sets out certain information in relation to a pool of auto loan HP Contracts as of 10th September 2019. The pool selected for the basis of the historical data can be considered substantially similar exposures to the final securitised portfolio as they have been originated, underwritten and serviced in accordance with the policies of SCF Oy, which have been generally consistent over time

1. **STATIC CUMULATIVE GROSS DEFAULTS**

For a generation of HP Contracts (being all HP Contracts originated during the same quarter), the cumulative gross defaults in respect of a month is calculated as the ratio of (i) the cumulative defaulted balance recorded between the month when such HP Contracts were originated and the relevant month, to (ii) the original balance of such HP Contracts. The definition of default includes HP Contracts that are written off or 180 days delinquent, whichever is earlier. The cumulative defaulted balances are net of proceeds from the sale of repossessed vehicles when the sale occurs prior to the loan reaching 180 days delinquency or write-off.

2. **STATIC CUMULATIVE RECOVERIES**

For a generation of defaulted HP Contracts (being all HP Contracts defaulted during the same quarter), the cumulative recoveries in respect of a month is calculated as the ratio of (i) the cumulative recoveries recorded in each month following default for such HP Contracts that defaulted in the relevant period, to (ii) the gross defaulted balance of such HP Contracts that defaulted in the relevant period. Recoveries are primarily based on customer payments and proceeds on vehicle sales.

4. ANNUALISED PREPAYMENTS

At a given month, the annualised prepayment rate is calculated by raising one minus the monthly prepayment rate to the power of 12 and subtracting this number from one.

EXPECTED MATURITY AND AVERAGE LIFE OF NOTES AND ASSUMPTIONS

The expected average life of the Notes of each Class cannot be predicted with any degree of certainty as the actual rate at which the Purchased HP Contracts will be repaid and a number of other relevant factors are unknown.

Calculated estimates as to the expected average life of the Notes can be made based on certain assumptions. These estimates have certain inherent limitations. No representations are made that such estimates are accurate, that all assumptions relating to such estimates have been considered or stated or that such estimates will be realised.

The table below shows the expected average life of the Notes based on the pool amortisation profile at the Purchase Cut-Off Date and the following assumptions:

- (a) that the Purchased HP Contracts are subject to a constant rate of prepayment as shown in the table below;
- (b) that no Purchased HP Contracts are sold by the Purchaser except as contemplated in the Credit and Collection Policy;
- (c) that the Purchased HP Contracts continue to be fully performing;
- (d) that the Seller will exercise its right to repurchase the outstanding Purchased HP Contracts once the aggregate outstanding balance of such contracts falls below 10 per cent. of the aggregate outstanding balance of the Purchased HP Contracts on the Note Issuance Date in accordance with Clause 16.1 (*Optional repurchase following exercise of clean-up call option*) of the Auto Portfolio Purchase Agreement and Note Condition 5.3(a) (*Optional redemption following exercise of clean-up call option*);
- (e) that the Issuer will not exercise its right to redeem the Notes early for taxation reasons in accordance with Note Condition 5.4 (*Optional redemption for taxation reasons*);
- (f) that the Seller will not exercise its right to either (i) purchase all of the Issuer's rights, title, interest and benefit in, to and under the Available Junior Loan Tranches in accordance with the Loan Agreement; or (ii) advance the Seller Loan to the Issuer in accordance with the Auto Portfolio Purchase Agreement with such funds being applied by the Issuer to redeem all (and not some only) of the Junior Notes in accordance with Note Condition 5.5 (*Optional redemption for regulatory reasons*);
- (g) that Balloon HP Contracts are repaid in full on maturity;
- (h) that the Note Issuance Date is 17 October 2019;
- (i) that the pool balance as at the Purchase Cut-Off Date was EUR 799,072,147;
- (j) that there are no Payment Holidays;
- (k) that the difference between the aggregate Note Principal Amount and the pool balance as of the Purchase Cut-Off Date (the "**Gap Amount**") will be advanced by the Seller to the Purchaser on or prior to the first Payment Date under the Purchaser Subordinated Loan and such amount will form part of Purchaser Pre-Enforcement Available Redemption Receipts on the first Payment Date;
- (l) that payments are made on the 25th day of each calendar month (or, if such day is not a Business Day, the next following Business Day in the calendar month (if there is one) or the preceding Business Day (if there is not));
- (m) that the first Payment Date falls on 25 December 2019 (or, if such day is not a Business Day, the next following Business Day in the calendar month (if there is one) or the preceding Business Day (if there is not)); and
- (n) that the day count convention is "actual / actual".

Constant Prepayment Rate (percentage per annum)	Class A WAL	Class B WAL	Class C WAL	Class D WAL
0%	2.57	3.81	3.81	3.81
5%	2.34	3.55	3.55	3.55
10%	2.12	3.29	3.29	3.29
15%	1.93	3.02	3.02	3.02
20%	1.75	2.77	2.77	2.77
25%	1.59	2.51	2.51	2.51
30%	1.43	2.31	2.31	2.31
35%	1.30	2.06	2.06	2.06

Assumption (a) above is stated as an average annualised prepayment rate, as the prepayment rate for one interest period may be substantially different from that for another. The constant prepayment rates shown above are purely illustrative and do not represent the full range of possibilities for constant prepayment rates.

Assumption (c) above relates to circumstances which are not predictable.

The average lives of the Notes of each Class are subject to factors largely outside of the Issuer's or the Purchaser's control and consequently no assurance can be given that the assumptions and estimates above will prove in any way to be realistic and they must therefore be viewed with considerable caution.

CREDIT AND COLLECTION POLICY

The following is a description of the Seller's credit and collection policies and practices with respect to HP Contracts (the Credit and Collection Policy) as currently in effect. The Seller may change the Credit and Collection Policy from time to time provided that: (i) such change does not affect the Purchased HP Contracts, (ii) such change applies equally to Purchased HP Contracts and other HP Contracts and the Seller determines that such change would not be reasonably likely to have a material adverse effect on the validity or collectability of the Purchased HP Contracts or the Issuer's ability to make timely payment on the Notes or (iii) such change is required by applicable law or regulation.

Credit policies

All credit decisions follow the guidelines of the Credit Policy Manual, a document covering high-level policy, approval levels, organisation of the credit process, credit management routines, etc.

All applications are classified based on existing information, whether they are private individuals, individual enterprises or corporate clients. The Credit Policy Manual contains a set of business rules, describing policy rules and requirements for potential customers with regards to income, credit score, loan amount, terms, etc.

The Seller's risk analysis takes into consideration three types of risk:

- (a) customer risk, assessed based on the customer's character and capacity to repay each loan, among other things;
- (b) dealer risk, evaluated based on the amount of delinquencies and defaults on past applications presented by each origination source/dealer, among other things; and
- (c) product risk, considering the type of product, collateral, upfront payment, term and other business conditions.

Credit risk management

The Seller's risk management governance model is underpinned by the following Risk forums:

- (a) The Nordic Risk Department: Responsible for processing, analysing and making decisions on business proposals, and monitoring and supervising the risk of the bank's portfolio.
- (b) Credit Application Committee Finland (CAC): Comprised of the Risk Director Finland, Commercial Director for Auto, Commercial Director for Non-Auto and CFO. The CAC is responsible for reviewing business agreements and credit transactions to be approved by the Managing Director of the Business Unit (holder of Power of Attorney) according to the pre-established thresholds. Review and validate business agreements, including related extensions and amendments, to be signed-off by the Managing Director of the Business Unit prior to be sent to the Credit Committee. Review and approve pricing guidelines and limits for products and services within which the commercial teams can operate as well approve changes in pricing (e.g. changes in fee, APRs, price bands) that do not comply with the pricing guidelines and limits previously approved. Review, in case of escalation, the recommendations from the Residual Value Working Group including, among others, admission matrixes, exposures and provisions related to residual value, residual value measures to comply with Regulator and Internal Audit recommendations
- (c) SCB Credit Committee of the Nordics (CCC): Comprised of the Chief Financial Officer, the Chief Controlling Officer, and the Nordic Auto Director (or the Nordic Unsecured Director for decisions regarding unsecured lending). For operations in excess of EUR 3 million up to and including EUR 10 million the Nordic Auto Director holds Power of Attorney, and for operations in excess of EUR 10 million up to and including EUR 15 million the Chief Executive Officer holds Power of Attorney. Applications exceeding EUR 15 million are processed in the CCC and, if appropriate, recommended for approval to the SCF Loans Committee in Madrid. The Chief Risk Officer is the Chairman of the committee and has the right to veto all decisions. Secretary to the Committee is the Nordic Wholesale Risk Manager.

- (d) **Business Monitoring Committee (BMC):** The purpose of the local BMC is to review the client and portfolio situation and evolution. The BMC convenes bi-weekly and on an ad-hoc basis. Participants include the Chief Risk Officer, the Credit & Wholesale Manager, the Collections Manager and the Collection Specialist. The BMC has a standard agenda and documentation, which is reviewed in each meeting. The BMC review consists of all dealers, stock finance limits and exposures greater than EUR 100,000 for both corporate and individuals. The source of public data comes from D&B (Dun & Bradstreet), where the Santander non-standardised corporate client portfolio is reviewed for any changes in rating, public payment remarks, change in paydex (payment behaviour), bankruptcy applications etc. This data is available on a client by client basis with. Each client is reviewed for current and past payment behaviour at Santander. The communication between BMC and recovery management (collection) is easy and flexible as the Collections Manager is present in the BMC. Based upon the information presented in the BMC, actions are taken which can include, but are not limited to, further monitoring, termination of contract, collection department contacting client, Santander sales representative being informed or requested to provide further information, floor checks ordered, escalation to Senior Management Team (SMT) etc. The meeting minutes detail the decision for each of the clients reviewed.

The voting members are the CEO, Chief Financial Officer, Managing Directors of Business Units, Nordic IT & Ops Director, Nordic Legal, HR & Internal Communication Director.

Underwriting process

The underwriting process is divided between Standardised and Non-Standardised exposures.

Non-Standardised Risk operations are supervised by the Credit & Wholesale, consisting of one Credit & Wholesale Manager and two FTE Credit Analysts.

The underwriting process for Standardised Risk operations is de-centralised, according to a pre-defined credit authority structure shown below.

Decision level	Limit by application/client
Chief Risk Officer (Finland), Chief Executive Officer (Finland)	EUR < 1,000,000
Application Team Manager / Credit & Wholesale Manager	EUR < 500,000
Senior Application & Decision team caseworker/ Credit & Wholesale Analyst	EUR < 350,000
Sales Managers & Directors	EUR < 75,000 / < 200,000
Caseworkers	EUR < 30,000 / 50,000 / 75,000 / 80,000 / 150,000 / 200,000

Caseworkers are responsible for reviewing credit applications received through Preview (SCF Finland's front end computer system) and for also maintaining contact with car, van, camper, caravan and motorcycle dealers. The collection of data/applications is performed automatically to Preview, or via phone, fax, mail or email.

Caseworkers are on duty between 8:00 am and 7:00 pm on working days and 10:00 am to 3:00 pm on Saturdays. Applications received by 7:00 pm on working days are normally processed the same day.

From 1 January 2019 to 31 August 2019, 101,527 applications were processed, which amounts to a weekly and daily average of 2,900 and 417 applications respectively. 91 per cent. of these were approved.

The cause of most rejections are due to either (a) registered payment remarks against the applicant and/or the applicant having a bad credit history with the Seller or (b) the application scoring below the minimum credit score threshold level.

Scoring system

The Seller utilises a front end system called Preview, which relies on a decision engine called PANDE (Pan Nordic Decision Engine). PANDE is the decision engine across the Nordics, a common engine for credit decisions, which collects internal and external data in a standardised Credit Case document. The decision tool is Decision Module, ("DM") from FICO. All policy rules and scorecards are configured and maintained in the DM. Although centrally managed by Oslo for use on a Pan Nordic basis, the specific scorecards for Santander Consumer Finland have been developed using Finnish auto loan performance data.

The system automatically leads the applications through a set of pre-defined rules (credit scoring), and approves them if a certain score is achieved. A higher score indicates higher expected credit quality of an applicant. PANDE also automatically controls every application based on a variety of pre-defined policy rules covering items such as a customer's credit history, anti-money laundering, fraud and capital adequacy requirements.

Applications can receive one of three outcomes: approved, control or rejected.

Applications receiving a control outcome are referred to an underwriter for further review. The rationale for not relying only on a credit score relates to the market setup where only negative bureau data is available and the customer applies for the loan at the dealer premises. Control cases from a policy rule perspective relate to cases in which the customer is young, has negative payment remarks, has previously rejected applications, scores low, is unemployed or a student, has made an application with a low down payment or a high financed amount or falls into one or more other categories. Applications receiving a control outcome may be approved by underwriters, usually following modification of the application by, among other modifications, increasing the down payment, decreasing the number of terms, offering a loan for a smaller or less expensive vehicle or requiring a co-signatory.

The external data that is sourced to the credit case relates to credit record information for private individuals (checks for external payment remarks) and census bureau data (name verification, social security number verification, marital status, address, time at current address, potentially memberships in board of directors and rating of companies). For corporations, the underwriting procedure includes a review of the latest financial records, rating information, composition of the board of directors, external payment remarks and the paydex service (an indicator of how many days past due a company pays its bills on average). The data is provided electronically by Bisnode (Dun & Bradstreet) through the PANDE system.

Collection process

When a borrower enters into arrears, an automated process of reminder letters is initiated requesting payment of outstanding instalments.

Instalment due dates for HP Contracts fall throughout the month, and reminder letters are dispatched from the Seller automatically. The first reminder is dispatched when the instalment is more than 14 days delinquent. It involves a late payment fee of EUR 5 together with instalment penalty interest.

If instalments are still outstanding 64 days after the first due date, a notice of termination of the HP Contract is dispatched. The notice of termination involves an additional termination fee of EUR 100 for private persons and EUR 200 for corporations, and instalment penalty interest. In respect of private persons, the additional termination fee must equal the actual reasonable collection costs, if these costs are less than EUR 100.

In parallel with the automated reminder letter process, the outsourced pre-collection teams contact delinquent customers by phone and SMS before the internal team terminates and transfers the case to external collection.

The external collection agencies are paid based on the amount collected, commissions and charges. They report daily, weekly and monthly on the results of the calls, including the number of "promise to pay" agreements made.

The Risk and Collection teams track and analyse the performance of the outsourced pre-collection teams. Through active management and requesting better performance and additional resources from the outsourced team, the activity levels have continued to improve during the last 12 months.

The whole contract can be terminated when several instalments amounting to 5 per cent. of the original financed amount are delinquent, which means that, for normal auto finance contracts, this will correspond to 64 days past due from the first instalment due date. At termination of the contract, invoicing and interest calculation is suspended in the Seller's systems. See *"Legal Matters — Finland – Enforcement of Purchased HP Contracts and repossession of Financed Vehicles"*.

Once the loan termination has been issued, the repossession agent will repossess the asset in case the customer does not pay the amount due. The repossession is in most cases a relatively swift process (one to two months) and assistance by government authority can be requested. The asset is then returned to Santander and the official evaluation by the government agency determines the value of the vehicle. The government agency conducts a thorough assessment of the value of the collateral based on similar vehicles in the market with similar mileage, condition and estimation of repairs needed, with both parties (debtor and creditor) able to attend the valuation. In some instances the collateral is inspected physically by the government agency, in others, it is based on a full suite of photographs. Based on this value, the loss booking will be made. If the valuation is less than the outstanding balance (together with the repossession costs, default interest and certain other items), this results in a loss booking (majority of cases). However, should the valuation exceed the outstanding balance (added with the repossession costs, default interests and certain other items), the difference is returned to the customer by Santander via the government agency. Any excess balance can be collected from the customer through legal collection processes. The asset will then be sold through auction or an indirect channel (dealer), where the average time to sell from the point of repossession is approximately three months. See *"Legal Matters — Finland – Finnish rules on statement of accounts in case of repossession of Financed Vehicles"*.

Of the 761 loan contracts which defaulted from 1 January 2019 to 31 August 2019, 18 contracts resulted in an official valuation which exceeded the book value of the contract at the point of default. The average excess amount for those 18 contracts was EUR 2,105.69.

After loss booking, the residual balance of the contract is transferred to an external debt collection agency for legal debt collection on behalf of SCF Finland.

SCF Finland conducts regular bad debt sales (twice a year, typically) where written-off debts are sold to the highest bidder through an auction process (with no forward flow agreement).

Finland is generally regarded as having a good legal environment for collection. Generally, a claim can be settled even after many years, as long as the claim is renewed continuously, i.e. the debtor is reminded of their debt through e.g. collection letters and other collection measures. Unless renewed, a claim will, generally, fall under the statute of limitations after three years. Once a court ruling has been obtained, personal debtors in Finland will be generally responsible for their debt for up to 15 years from the court ruling, i.e. the ground for execution (fi: *"ulosottooperuste"*) (exceptions to this general rule include an extension of the period up to 20 years in situations where the creditor is a private individual or the claim for compensation is based on a criminal offence for which the debtor was sentenced to prison or community service). In situations where the debtor has substantially impeded the payment of the debt, the period may be prolonged for up to 10 years through a separate court decision. Where no court decision has been obtained, a monetary debt of a personal debtor will finally fall under the statute of limitations in 20 years from the due date of the debt.

Payment holidays

The Seller operates a policy of offering payment holidays of up to 2 per calendar year to private customers. A payment holiday can be given for up to 4 if illness or unemployment can be documented. The decision to offer a payment holiday is made in accordance with internal guidelines and applicable law. These guidelines state that, subject to applicable law, the customer must be current and must have had no more than one reminder during the

last three months. The underlying agreement must also have been originated more than six months before the payment holiday. During the payment holiday only interest is paid by the customer and the original contract term is extended by the amount of the payment holiday.

The granting of payment holidays is performed in accordance with internally defined procedures, including payment history checks. A fee of EUR 5 is currently charged per monthly instalment subject to a repayment holiday.

Payment plan changes

The monthly payments in respect of a contract can be reduced upon customer request. The granting of reduced monthly payments is performed in accordance with internally defined procedures and guidelines.

According to these guidelines, the monthly payment can be reduced either by extending the original loan period or by increasing the final balloon payment of the loan. The increased final balloon payment cannot exceed the original credit policy maximum for balloon payments or the value of the vehicle.

Payment plan changes are not available simultaneously with payment holidays. Additionally, all actions which extend the original loan period cannot extend it for more than 10 months.

Modifications to the Credit and Collection Policy

Other than as described in this Prospectus, there have been no material changes to the Credit and Collection Policy in the last five years. In the Master Framework Agreement, the Seller has undertaken to disclose to potential investors, without undue delay, any material change from prior underwriting standards or other change to the Credit and Collection Policy, together with an explanation of such change and an assessment of the possible consequences on the HP Contracts, pursuant to Article 20(10) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria.

SCB AS, SCF Oy's direct parent company, is a private limited liability company based in Norway. SCB AS holds a credit institution licence in Norway. SCB AS's current structure was established in 2005, after its direct parent company SCF S.A. acquired Elcon Finans AS and Bankia Bank AS, and merged the two companies.

Following the acquisition of Elcon Finans AS, SCF S.A. demerged and sold Elcon Finans AS's factoring business, but retained its car finance business. Following this, Bankia Bank AS was acquired and merged with Elcon Finans AS to form SCB AS.

SCB AS is a pan-Nordic concern, with branches in Sweden and Denmark, and one hundred (100) per cent. owned subsidiary, SCF OY in Finland. Formal incorporation was 29 June 2001, the incorporation date of Bankia Bank AS, the formal acquiring company in the merger of Elcon Finans AS and Bankia Bank AS.

Elcon Finans AS's core business was within the Norwegian leasing, car financing and factoring sectors, in which it had specialised since the 1960s. The company established a Swedish branch in 2000.

Bankia Bank AS was a small Norwegian bank focused entirely on credit cards. The owners developed a lean organisation with low operating costs, and it was the first bank in Norway to offer independent non-fee Visa credit cards.

In 2007, Santander established a presence in both Denmark and Finland, strengthening its position in the Nordic region. At the end of June 2018, the SCB AS Nordic Group had total assets of NOK 174.36 billion and 1,545 employees.

In June 2014, SCF S.A signed a definitive agreement with GE Money Nordic Holding AB to acquire GE Capital business in the Kingdom of Norway, Sweden and Denmark (GE Money Bank AB). The acquisition took place in November 2014 after regulatory approval. Hereafter, GE Money Bank AB was renamed Santander Consumer Bank AB.

The merger between Santander Consumer Bank AS and Santander Consumer Bank AB was completed as per July 1st 2015, with Santander Consumer Bank AS the surviving entity.

Downpayment

The Seller does not operate a rigid minimum downpayment policy, but applies minimum downpayment requirements based upon considered risk criteria. The weighted average downpayment amount for loans within the proposed securitisation portfolio is 14.4 per cent. as at close of business on 15 September 2019.

Interest rates

Interest rates for "Car & Leisure Finance" products are fixed for the contract period except for stock finance, in which a fixed margin over three month EURIBOR is used. The reference rate is updated monthly.

"Consumer Loans" are floating rate with a fixed margin over three month EURIBOR. The reference rate is updated at the beginning of each quarter.

Instalments

HP Contracts offered by SCF Oy are, in general, offered for a maximum period of 72 months. HP Contracts are repayable in monthly instalments. Only HP Contracts with a minimum residual term of three months will be included in the Portfolio.

Insurance

The Seller requires that all Financed Vehicles are insured with fully comprehensive motor insurance. As at close of business on 15 September 2019, 100 per cent. by value of HP Contracts within the proposed portfolio have fully comprehensive insurance in place. The Seller markets motor insurance to Debtors on a voluntary basis.

The PPI Policies are also marketed on a voluntary basis to Debtors. The PPI Policies include life, unemployment and long-term illness protection. The Seller operates a revenue sharing agreement, where it retains a proportion of insurance premium revenues.

The PPI Policies provide for payments of monthly premiums which are collected as an additional amount which is added to the Debtor's monthly Instalments but which is not included in the principal amount of the relevant HP Contract. The Debtor's corresponding payments in respect of the PPI Policy premium remain in the Issuer Collections Account and will be paid to the Seller on a monthly basis as these premium payments will not be sold to the Purchaser. In the event that a Debtor wishes to cancel his or her PPI Policy, the monthly insurance premiums payable by the Debtor will be cancelled.

In the event of a (non-death) claim under a PPI Policy, the Debtor is obliged to inform the insurer directly, who will pay any eventual benefit claims directly to the Debtor. In the event of a death-related claim, the insurer will forward any claim proceeds to the beneficiary specified by the Debtor in the PPI Policy or, in the absence of a specified beneficiary, to the estate of the deceased.

Origination

The Seller is the leading provider of financial services to all participants along the car distribution chain in the Finnish market, from the importer to the end customer.

This position has been achieved by following a strategy of full integration in the car market, and through establishing a comprehensive set of products specifically designed to satisfy the financial needs of all the parties involved in the value chain. Being the market leader for the last three years has allowed the company to develop strong business relationships with all market participants: importers, dealers and end customers.

The Seller's origination strategy can be summarised thus:

- (a) strong relations to the car dealer network;
- (b) agreements with all major participants in Finnish market;
- (c) full product portfolio;
- (d) stock finance used/new;
- (e) strong sales force covering all of Finland; and
- (f) dealer training.

SCF Oy employs an indirect distribution channel through co-operating Dealers. There are approximately 890 Dealers with co-operation agreements.

LEGAL MATTERS — FINLAND

The following is a general discussion of certain Finnish legal matters. This discussion does not purport to be a comprehensive description of all Finnish legal matters which may be relevant to a decision to purchase Notes. This summary is based on the laws of Finland currently in force and as applied on the date of this Prospectus, which laws are subject to change, possibly also with retroactive or retrospective effect.

Prospective investors are requested to consider all the information in this Prospectus (including making such other enquiries and investigations as they consider appropriate and reach their own views prior to making any investment decisions).

Transfer of HP Contracts to the Purchaser

Under Finnish law and the terms and conditions of the Purchased HP Contracts, the Purchased HP Contracts may be freely transferred by way of ownership or security. A notification to each of the Debtors is, however, required in order to perfect the transfer of the Purchased HP Contracts and for such transfer to be effective against the Seller's creditors and other third parties, including bankruptcy creditors. After the delivery of the notice, the Debtors may no longer settle their debt by payment to the Seller and subsequently claim protection of payment against the Purchaser.

Pursuant to the Auto Portfolio Purchase Agreement, the Seller has undertaken to procure that, when completed in accordance with the Auto Portfolio Purchase Agreement, the sale and transfer of the Purchased HP Contracts obtains legal perfection by virtue of a notification to be mailed to each of the Debtors on or about the Purchase Date.

As security for the loans under the Purchased HP Contracts, the Seller has retained title to the Financed Vehicles. The transfer of title to the Financed Vehicles to the Purchaser is to be perfected through notification to the holders of the vehicles. In addition, the Purchaser will be registered as the owner of the Financed Vehicles in the Vehicle Register.

As purchaser of the Financed Vehicles, the Purchaser will not, unless it has become the holder of a Financed Vehicle through repossession, be liable for costs relating to the use, servicing or maintenance of the Financed Vehicle. However, the Purchaser may in certain circumstances incur liability for the costs of towing of the Financed Vehicle if such costs are not duly paid by the holder of the Financed Vehicle. Further, should a holder of a Financed Vehicle have failed (contrary to the terms of the relevant Purchased HP Contract) to subscribe to a mandatory traffic insurance policy (fi: *liikennevakuutus*), the Purchaser may incur secondary liability for compensation payable pursuant such omission if such compensation cannot be collected from the holder of the Financed Vehicle. The compensation payable includes a fee which corresponds to the insurance premium (fi: *vakuutusmaksua vastaava maksu*) and an omission fee (fi: *laiminlyöntimaksu*).

Absence of severe claw-back provisions

Once the sale and transfer of the Purchased HP Contracts has been perfected by virtue of a notification to be mailed to each of the Debtors on or about the Purchase Date, the sale of the Purchased HP Contracts is not subject to severe clawback provisions within the meaning of Article 20(2) of the EU Securitisation Regulation.

Grant of security over the Portfolio by the Purchaser to the Issuer

Pursuant to the Purchaser Security Documents, the Purchaser will grant security over its assets, including the Portfolio, to the Purchaser Security Trustee for the benefit of the Purchaser Secured Parties or to the Purchaser Secured Parties, as applicable. In order to make the sale of the Purchased HP Contracts and the pledge of the Purchaser's right, title and interest in the Purchased HP Contracts in favour of the Purchaser Secured Parties effective in relation to third parties, notifications of such sale and subsequent pledge must be sent to the Debtors and the holders of the Financed Vehicles with instructions to make payments under the Purchased HP Contracts directly to the Issuer Collections Account. Further, the Finnish Transport and Communications Agency must be notified of the transfer of title to the Financed Vehicles. Such notifications will be posted to Debtors and the holders of the Financed Vehicles on or about the Purchase Date and to the Finnish Transport and Communications Agency on or prior to the date falling seven (7) calendar days after the Purchase Date.

Existing rights of Debtors

Following the Purchase Date, a Debtor will be entitled to invoke the same objections and defences relating to a Purchased HP Contract against the Purchaser (or any party having a security interest in the Purchased HP Contracts) as the Debtor was entitled to invoke against the Seller on or prior to the Purchase Date or against the relevant Dealer on or prior to the date on which the Seller purchased the relevant Purchased HP Contract from the relevant Dealer. In the event that a Debtor has a claim against the Seller or the relevant Dealer, the Debtor may be allowed to set-off the amount of such claim against any amount outstanding under the relevant Purchased HP Contract if the Debtor had such a claim before the Debtor was notified of (or otherwise became or should have become aware of) the transfer of the Purchased HP Contract by the Seller or, respectively, the Dealer. Claims which a Debtor may have against a Dealer may include, for example, claims for mis-selling of, or defects in, the relevant Financed Vehicle. Such claims may arise as a result of incomplete or inaccurate information being provided in respect of a Financed Vehicle at the point of sale and/or as a result of faulty design, manufacture or maintenance of the Financed Vehicle, and similar claims may arise in respect of multiple Financed Vehicles or an entire class of Financed Vehicles (for example, it is alleged that a significant number of models manufactured by members of the Volkswagen corporate group contain software which produces anomalous results in emissions and fuel consumption tests).

A Debtor who is a consumer under Finnish law is, pursuant to Chapter 7, Section 39 of the Finnish Consumer Protection Act, able to direct against the Seller any claim the Debtor may have against the Dealer of the relevant Financed Vehicle as a result of the purchase from the Dealer. Pursuant to a Finnish Supreme Court ruling, non-consumer Debtors also may in some circumstances be entitled to invoke similar claims against the Seller. Therefore, following the Purchase Date, the Purchaser will be exposed to the same liability in respect of such claims as the Dealer of the relevant Financed Vehicle under the relevant sales contract and any applicable law of sales, e.g. a claim relating to a Financed Vehicle defect. However, non-contractual claims, such as, for example, claims relating to a personal injury, cannot be brought against the Purchaser, even if such injury were caused by, or in connection with, the use of a Financed Vehicle. The Debtor can, furthermore, only bring monetary claims against the Purchaser, and not claims for specific performance, and the Purchaser's liability is limited to the amount the Seller and, after the Purchase Date, the Purchaser has received from the relevant Debtor in connection with the relevant Financed Vehicle, meaning that the Purchaser's liability can never exceed the total amount payable under the relevant Purchased HP Contract.

One of the Eligibility Criteria is that each Purchased HP Contract is not subject to any right of revocation, set-off or counter-claim or warranty claim of the Debtor or any other right of objection. If any Purchased HP Contract failed to comply with the Eligibility Criteria as at the Purchase Cut-Off Date and if such non-compliance constitutes a Seller Asset Warranty Breach, the Seller will be required to repurchase such Purchased HP Contract for an amount equal to at least the then Outstanding Principal Amount of such Purchased HP Contract. See "*Outline of the Other Principal Transaction Documents – Auto Portfolio Purchase Agreement*".

Enforcement of Purchased HP Contracts and repossession of Financed Vehicles

Each Purchased HP Contract provides for retention of the title to the relevant Financed Vehicle until all payments under the Purchased HP Contract have been made in full. In the event of a Debtor's default on a Purchased HP Contract, the Purchaser (or any party having a security interest in the Purchased HP Contract) may have to enforce the Purchased HP Contract through repossession of the relevant Financed Vehicle. Enforcement of Purchased HP Contracts and repossession of Financed Vehicles are subject to the provisions of the Finnish Enforcement Code and the Finnish Act on Hire Purchases as well as, in the case of consumers, the Consumer Protection Act, the application of which may delay or prevent enforcement of the Purchased HP Contracts and repossession of the Financed Vehicles and which regulate the amounts that are credited in favour of the Debtor and in favour of the repossessioning party in accordance with a statement of accounts required to be made in connection with any repossession.

Where a Debtor is a consumer under the Finnish Consumer Protection Act, enforcement of the Purchased HP Contract and the repossession of the relevant Financed Vehicle in the event of a default by the Debtor is subject to the following restrictions under Chapter 7, Section 33 of the Consumer Protection Act:

- (a) both:
 - (i) one month or more must have passed since the date on which payment should have been made and the payment remains outstanding; and

- (ii) the defaulted amount due for payment must amount to at least ten (10) per cent., or, if the amount due includes several instalments, at least five (5) per cent. of the total amount of the original credit or constitute the creditor's entire remaining claim; or
- (b) six months or more must have passed since the date on which payment should have been made and the defaulted payment must remain outstanding, in whole or in significant part,

and, in each case, repossession must not be unreasonable because of the Debtor's personal force majeure under Chapter 7, Section 34 of the Consumer Protection Act.

Approximately 90.4 per cent. (by EUR outstanding amount) of the Purchased HP Contracts have been granted to Debtors who are consumers under Finnish law.

Where a Debtor is not a consumer under the Consumer Protection Act, enforcement of the Purchased HP Contract and the repossession of the relevant Financed Vehicle in the event of a default by the Debtor is subject to the following restrictions under Section 2 of the Finnish Act on Hire Purchases:

- (a) fourteen (14) calendar days or more must have passed since the date on which payment should have been made and the payment remains outstanding; and
- (b) the defaulted amount due for payment must amount to at least ten (10) per cent., or, if the amount due includes several instalments, at least five (5) per cent., of the total amount of the original credit, or must constitute the creditor's entire remaining claim,

and repossession must not be unreasonable because of the Debtor's personal force majeure and the Debtor must not have made full payment of the amounts outstanding under the Purchased HP Contract prior to the repossession taking place.

Approximately 9.6 per cent. (by EUR outstanding amount) of the Purchased HP Contracts have been granted to Debtors who are companies or otherwise not classified as consumers under Finnish law.

In respect of Debtors who are consumers, Chapter 7, Section 34 of the Consumer Protection Act prohibits enforcement of the Purchased HP Contracts and, accordingly, repossession of the Financed Vehicles by the Purchaser (or any party having a security interest in the Purchased HP Contracts) upon default by a Debtor if the default is due to the illness or unemployment of the Debtor or to another comparable circumstance which is beyond the Debtor's control, except where, considering the duration of the delay of payments and the other circumstances, this would be perceptibly unreasonable to the Purchaser. In respect of Debtors who are not consumers, the Finnish Act on Hire Purchases prohibits enforcement in the event that repossession would be unreasonable considering the Debtor's financial difficulties resulting from illness, unemployment or other particular circumstances beyond the Debtor's control, and the Debtor pays any amount due for payment, including interest, and reimburses the costs caused by the delay of payment, before the repossession has been implemented.

Further, in respect of all Debtors, the Finnish enforcement authority may postpone enforcement and repossession proceedings for a maximum of four months in the event that it is perceived that the financial difficulties of a Debtor result from personal force majeure reasons specified above and such difficulties can be presumed to be temporary, except where this would prejudice the Purchaser's rights to the relevant Financed Vehicle or would otherwise unreasonably violate the rights of the Purchaser.

Finally, repossession of the Financed Vehicle may be delayed or prevented in the event that a third party has a right of retention over the Financed Vehicle. The right of retention means that a service provider who has stored a Financed Vehicle or prepared or carried out any reparation, maintenance or similar work on a Financed Vehicle has the right to hold the Financed Vehicle in its possession until the services have been paid for in full.

Insolvency law

The primary insolvency proceedings for corporate entities under Finnish law are bankruptcy (fi: "*konkurssi*") or corporate reorganisation (fi: "*yriytysaneeraus*") proceedings. In the event of bankruptcy of a corporate Debtor, the bankruptcy estate is vested with the right to elect whether or not to remain bound by the Purchased HP Contract. If the estate chooses to continue the Purchased HP Contract, the bankruptcy estate will have to make full payment of any unpaid amounts due under the Purchased HP Contract and will continue to exercise the Debtor's rights and

obligations thereunder, and the Purchaser will not be entitled to repossess the Financed Vehicle. However, if the bankruptcy estate resolves to terminate the Purchased HP Contract, the Purchaser may repossess the relevant Financed Vehicle, in which case a statement of accounts will be prepared in accordance with the Finnish Act on Hire Purchases.

In the event of a corporate reorganisation of a corporate Debtor, repossession may be prohibited by mandatory provisions of law. Pursuant to the Act on Company Reorganisation, after the commencement of company reorganisation proceedings against a Debtor, repossession of Financed Vehicles from that Debtor is prohibited and any repossession proceedings that have already been initiated are stayed and resale of already repossessed Financed Vehicles prohibited until the restructuring programme has been approved by the court or the company reorganisation proceedings have been terminated. The restructuring programme, once approved by the court having jurisdiction over the Debtor, may adjust the terms and conditions of the Purchased HP Contract, such as by postponing the maturity or reducing the interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle at the time of commencement of the company reorganisation proceedings. Similarly, for a Debtor that is subject to the resolution regime for financial institutions, the resolution authority may suspend the termination of the HP Contracts or adjust the terms and conditions of the Purchased HP Contract, such as by postponing the maturity or reducing the interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle.

In the event of adjustment of the debts of a Debtor who is a natural person, repossession may be prohibited by mandatory provisions of law. Pursuant to the Act on the Adjustment of the Debts of a private individual, after the commencement of debt adjustment proceedings against a Debtor, repossession of any Financed Vehicle from that Debtor is prohibited and any repossession proceedings that have already been initiated are stayed and resale of already repossessed Financed Vehicles prohibited until the adjustment programme has been approved by the court or the application for debt adjustment denied. The adjustment programme, once approved by the court having jurisdiction over the Debtor, may adjust the terms and conditions of the Purchased HP Contract, such as by postponing maturity or reducing interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle at the time of commencement of the debt adjustment proceedings.

Finnish rules on statement of accounts in case of repossession of Financed Vehicles

When repossessing a Financed Vehicle, the Purchaser (or the Finnish Pledge Authorised Representative if the repossession is made by it) (with the aid of the Servicer) will, pursuant to the Finnish Act on Hire Purchases and the Consumer Protection Act, be required to agree with the Debtor a statement of accounts, failing which the statement of accounts may be drawn up and imposed on the parties by the Finnish enforcement authority.

In the case of a Debtor who is a consumer, in the statement of accounts, the value of the relevant Financed Vehicle at the time of repossession (assuming reasonable maintenance and repair) will be credited in favour of the Debtor. Correspondingly, (i) the total amount outstanding under the Purchased HP Contract, reduced by such portion of the interest and other credit costs as are attributable to the time between the repossession and the initial final maturity date of the Purchased HP Contract; (ii) default interest on the delayed payments, (iii) direct expenses caused by the repossession and (iv) any compensation to which the Purchaser may be entitled for maintenance or repair of the Financed Vehicle, will be credited in favour of the Purchaser. If the total amount credited in favour of the relevant Debtor exceeds the total amount credited in favour of the Purchaser, the relevant Financed Vehicle may be repossessed only provided that the difference is paid to the Debtor or deposited with the Finnish enforcement authority in favour of the Debtor. Where the total amount credited in favour of the relevant Debtor is less than the total amount credited in favour of the Purchaser, the Purchaser may, in addition to repossession of the Financed Vehicle, claim compensation only for such difference. Such difference constitutes an unsecured claim against the Debtor.

In the case of a Debtor who is not a consumer, in the statement of accounts, the value of the relevant Financed Vehicle at the time of repossession (assuming reasonable maintenance and repair) will be credited in favour of the Debtor. Correspondingly, (i) the total unpaid amount that, at the time of repossession, is due for payment under the Purchased HP Contract, (ii) the total unpaid amount that, at the time of repossession, is not yet due for payment under the Purchased HP Contract multiplied by an amount equal to (A) the cash price of the Financed Vehicle, divided by (B) the total amounts payable under the Purchased HP Contract, (iii) such interest and compensation for insurance premiums that the Purchaser may be entitled to, (iv) costs for the repossession and (v) any compensation to which the Purchaser may be entitled for maintenance or repair of the Financed Vehicle, will be credited in favour of the Purchaser. If the total amount credited in favour of the relevant Debtor exceeds the total amount credited in favour of the Purchaser, the relevant Financed Vehicle may be repossessed only provided that

the difference is paid to the Debtor or deposited with the Finnish enforcement authority in favour of the Debtor. Where the total amount credited in favour of the relevant Debtor is less than the total amount credited in favour of the Purchaser, the Purchaser may, in addition to repossession of the Financed Vehicle, claim compensation only for such difference. Such difference constitutes an unsecured claim against the Debtor.

Further, if, upon repossession of a Financed Vehicle, the relevant Debtor within fourteen (14) calendar days of presentation of the statement of accounts pays the amount which stands to credit in favour of the Purchaser, the repossessed Financed Vehicle must be returned to the possession of the relevant Debtor.

Restrictions of Purchaser's title to Financed Vehicles

While legal title to each Financed Vehicle is vested with the Purchaser under the Purchased HP Contracts, the Purchaser is not, prior to the repossession of a Financed Vehicle, entitled to sell or otherwise dispose of the Financed Vehicle, whether voluntarily or involuntarily, or to pledge or create other encumbrances over the Financed Vehicles on a stand-alone basis separately from the claims against the Debtors under the Purchased HP Contracts. In the event of enforcement of claims of a creditor, including those of the Issuer, against the Purchaser or in the event of the insolvency of the Purchaser, only the Purchased HP Contracts, but not the Financed Vehicles separately from the claims against the Debtors under the Purchased HP Contracts, may be realised to settle the Purchaser's obligations.

General consumer law considerations

Under the Consumer Protection Act, any contractual terms that are deemed unfair from the point of view of consumers may be mitigated or set aside. Contractual terms which conflict with the mandatory provisions of the Consumer Protection Act to the detriment of the consumer are void.

Pursuant to Chapter 7 of the Consumer Protection Act, a creditor providing consumer credit must act responsibly. In particular, the creditor must:

- (a) not market credit in a manner that is likely to significantly impair a consumer's ability to carefully consider the credit;
- (b) not use the granting of credit as the main marketing tool when marketing other consumer goods;
- (c) not use additionally charged text messages or other similar messaging when marketing or granting credit or when otherwise communicating with the consumer in relation to the credit;
- (d) before concluding a credit agreement, provide the consumer with adequate and clear information to allow the consumer to assess whether the credit meets his or her needs and his or her financial situation; and
- (e) in the event of payment delays, provide the consumer with information and advice to prevent further payment difficulties and insolvency, and consider payment arrangements in a responsible manner.

Under Finnish law, the Consumer Protection Ombudsman may bring a class action on behalf of a group of consumers having a claim against the same party based on the same or similar grounds, such as, for example, a defect in similar consumer goods or the interpretation of standard contractual terms. Consumers must opt in to participate in a class action. A judgment rendered by the Court will be binding on all members of the group.

TAXATION

The following is a general discussion of certain Finnish and Irish tax consequences of the acquisition, ownership and disposition of Notes. This discussion does not purport to be a comprehensive description of all tax considerations, which may be relevant to a decision to purchase Notes. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws and taxation practice of Finland and Ireland currently in force and as applied on the date of this Prospectus, which are subject to change, possibly also with retroactive or retrospective effect.

PROSPECTIVE INVESTORS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISERS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES AND THE RECEIPT OF INTEREST THEREON, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS OF FINLAND AND IRELAND AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS OR CITIZENS.

TAXATION IN FINLAND

The following is a summary of certain Finnish tax consequences for holders of the Notes who are residents of Finland for tax purposes. The summary is based on the assumption that the issue price is equal to 100 per cent. of the principal amount of the Notes.

The summary covers only the tax consequences of the acquisition, ownership and disposition of the Notes by individuals who are residents of Finland taxed in accordance with the Finnish Income Tax Act (fi: *tuloverolaki*, 1535/1992, as amended) and by Finnish limited liability companies taxed in accordance with the Finnish Business Income Tax Act (fi: *laki elinkeinotulon verottamisesta*, 360/1968, as amended). The summary does not cover situations where there are, *inter alia*, unrealised changes in the values of the Notes that are held for trading purposes. This summary addresses neither Finnish gift tax nor inheritance tax consequences. The tax treatment of each holder of the Notes partly depends on the holder's specific situation. This means that special tax consequences, which are not described below, may arise for certain categories of holders of the Notes as a consequence of, for example, the effect and applicability of foreign income tax rules or provisions contained in an applicable double taxation treaty.

Each prospective investor should consult a tax adviser as to the tax consequences relating to its particular circumstances resulting from acquisition, ownership and disposition of the Notes.

Withholding tax

There is no Finnish withholding tax (fi: *lähdevero*) applicable on payments made by the Issuer under the Notes.

However, Finland operates a system of preliminary taxation to secure payment of taxes in certain circumstances. In the context of the Notes, a tax of 30 per cent. would generally be deducted and withheld from all payments treated as interest or compensation comparable to interest (such as secondary market compensation), were such payments to be made by or through a Finnish paying agent or intermediary to individuals. Any preliminary tax (fi: *ennakonpidätys*) will be used for the payment of the individual's final taxes (which means that they are credited against the individual's final tax liability).

Taxation of interest

Individuals

Any interest and secondary market compensation (i.e., an amount corresponding to the interest accrued for the period from the last interest payment date to the date of disposal of the Notes) paid on the Notes whilst they are outstanding or upon redemption constitute capital income for the individual. All capital income of individuals is currently taxed at a rate of 30 per cent. and 34 per cent. for capital income exceeding EUR 30,000.

Corporate entities

Any interest and secondary market compensation paid on the Notes whilst they are outstanding or upon redemption would constitute part of the limited liability company's taxable business income. A limited liability company is subject to a corporate income tax, currently at the rate of 20 per cent. for its worldwide taxable income.

Taxation upon disposal or redemption of the Notes

Individuals

A gain arising from a disposal of the Notes constitutes a capital gain for individuals. All capital income of individuals — including capital gains — is currently taxed at a rate of 30 per cent. and 34 per cent. for capital income exceeding EUR 30,000.

Return of capital (i.e. the principal amount of the Notes) at redemption would not trigger capital gains taxation. However, any interest paid on the Notes upon redemption will be taxed as described under Taxation of interest above.

A loss from a disposal or redemption of the Notes would constitute a deductible capital loss. Capital losses arising from disposals of assets are primarily deductible from capital gains arising in the same year and the five following tax years. However, capital losses incurred during the tax year 2016 and later that cannot be fully deducted from capital gains may secondarily be deducted from other capital income in the same tax year. If capital losses cannot, in accordance with the procedure described above, be fully deducted in the tax year of the loss, any remaining unused capital losses can be carried forward for five tax years. Any carried forward capital loss must first be deducted from capital gains with the remainder (if any and if incurred during the tax year 2016 or later) being deducted from other capital income.

Capital gains arising from a disposal of assets, such as the Notes, are exempted from tax provided that the sales prices of all assets sold by the individual during the calendar year do not, in the aggregate, exceed EUR 1,000. Correspondingly, capital losses are not tax deductible if the acquisition cost of all assets disposed of during the calendar year does not, in the aggregate, exceed EUR 1,000 and the aggregate sales prices do not exceed EUR 1,000.

Corporate entities

Any income received from a disposal and/or redemption of the Notes would constitute, as a general rule, part of the limited liability company's taxable business income. The acquisition cost of the Notes sold (including the purchase price and costs) and any sales related expenses are generally deductible for tax purposes upon disposal or redemption. Accordingly, any loss due to disposal or redemption of the Notes would be deductible from the taxable business income.

Wealth taxation

No wealth taxation is applicable in Finland.

Transfer tax and VAT

Transfers of the Notes are not subject to transfer tax or stamp duty in Finland. No VAT will be payable in Finland on the transfer of the Notes.

TAXATION IN IRELAND

The following is a summary based on the laws and practices of the Irish Revenue Commissioners currently in force in Ireland regarding the tax position of investors beneficially owning their Notes and should be treated with appropriate caution. Particular rules may apply to certain classes of taxpayers holding Notes. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of interest thereon under the laws of their country of residence, citizenship or domicile.

Withholding tax

In general, tax at the standard rate of income tax (currently 20 per cent.), is required to be withheld from payments of Irish source yearly interest. However, an exemption from withholding on interest payments exists under section 64 of the TCA for certain interest-bearing securities that are issued by a body corporate (such as the Issuer) and are quoted on a recognised stock exchange (which would include Euronext Dublin) ("**quoted Eurobonds**").

Any interest paid on such quoted Eurobonds can be paid free of withholding tax provided:

1. the person by or through whom the payment is made is not in Ireland; or
2. the payment is made by or through a person in Ireland, and either:
 - (a) the quoted Eurobond is held in a clearing system recognised by the Irish Revenue Commissioners, or
 - (b) the person who is the beneficial owner of the quoted Eurobond and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to the person by or through whom the payment is made in the prescribed form.

So long as the Notes are quoted on a recognised stock exchange and are held in a recognised clearing system such as Euroclear or Clearstream, Luxembourg (or if not so held, the paying agent making payments of interest is not in Ireland), interest on the Notes can be paid without any withholding or deduction for or on account of Irish income tax, regardless of where the Noteholder is resident.

If, for any reason, the quoted Eurobond exemption referred to above does not or ceases to apply, the Issuer can still pay interest on the Notes free of Irish withholding tax provided it is a "**qualifying company**" (within the meaning of section 110 of the TCA) and provided the interest is paid to a person resident in a "**relevant territory**" (i.e. a member state of the European Union (other than Ireland) or in a country with which Ireland has signed a double taxation agreement). For this purpose, residence is determined by reference to the law of the country in which the recipient claims to be resident. This exemption from withholding tax will not apply, however, if the interest is paid to a company in connection with a trade or business carried on by it through a branch or agency located in Ireland.

In certain limited circumstances, a payment of interest by the Issuer which is considered dependent on the results of the Issuer's business or which represents more than a reasonable commercial return can be recharacterised as a distribution subject to dividend withholding tax.

A payment of profit-dependent or excessive interest on the Notes will not be recharacterised as a distribution to which dividend withholding tax could apply where, broadly, the Noteholder is either:

- (a) resident in Ireland for tax purposes or, if not so resident, is otherwise within the charge to Irish corporation tax on that interest;
- (b) a person subject to tax on the interest in a relevant territory which generally applies to profits, income or gains received in that territory from sources outside that territory without any reduction computed by reference to the amount of the payment;
- (c) for so long as the Notes remain quoted Eurobonds a person which is neither a company which directly or indirectly controls the Issuer nor which is controlled by the Issuer or a third company which directly or indirectly controls the Issuer nor a person (including any connected person) (A) from whom the Issuer has acquired assets, (B) to whom the Issuer has made loans or advances, or (C) with whom the Issuer has entered into a specified agreement (as defined in section 110(1) of the TCA), where the aggregate value of such assets, loans, advances or agreements represent 75 per cent. or more of the value of the assets of the Issuer (such a person falling within this category of person being a "**Specified Person**"); or
- (d) an exempt pension fund, government body or other person resident in a relevant territory (which is not a Specified Person) which is exempt from tax in that territory.

In certain circumstances, Irish tax will be required to be withheld at the standard rate from interest (currently 20 per cent.) on a quoted Eurobond, where such interest is collected by a bank or other agent in Ireland on behalf of any Noteholder.

Encashment Tax

In certain circumstances, Irish tax will be required to be withheld at the standard rate of income tax (currently 20 per cent.) from interest on any Note, where such interest is collected or realised by a bank or encashment agent in Ireland on behalf of any Noteholder. There is an exemption from encashment tax where the beneficial owner of the interest is not resident in Ireland and has made a declaration to this effect in the prescribed form to the encashment agent or bank.

Taxation of Noteholders

Notwithstanding that a Noteholder may receive interest on the Notes free of withholding tax, the Noteholder may still be liable to pay Irish income tax. Interest paid on the Notes may have an Irish source and therefore be within the charge to Irish income tax and (in the case of individuals only) the universal social charge. Ireland operates a self-assessment system in respect of income tax and any person, including a person who is neither resident nor ordinarily resident in Ireland, with Irish source income comes within its scope.

However, interest on the Notes will be exempt from Irish income tax if the recipient of the interest is resident in a relevant territory provided either (i) the Notes are quoted Eurobonds and are exempt from withholding tax as set out above and the recipient is not a resident of Ireland, or (ii) in the event of the Notes not being or ceasing to be quoted Eurobonds exempt from withholding tax, if the Issuer is a qualifying company and the interest is paid out of the assets of the qualifying company, or (iii) if the Issuer has ceased to be a qualifying company, the recipient of the interest is a company and (A) the relevant territory concerned imposes a tax that generally applies to interest receivable in that relevant territory by companies from sources outside that relevant territory or (B) where the interest is either (1) exempted from the charge to income tax under arrangements made with the government of a territory outside Ireland having the force of law under procedures set out in section 826(1) of the TCA, or (2) would be exempted from the charge to income tax if arrangements made on or before the date of payment of the interest with the government of a territory outside Ireland that do not have force of law under procedures set out in section 826(1) of the TCA had the force of law when the interest was paid.

In addition, provided that the Notes are quoted Eurobonds and are exempt from withholding tax as set out above, the interest on the Notes will be exempt from Irish income tax if the recipient of the interest is (i) a company under the control, directly or indirectly, of persons who by virtue of the law of a relevant territory are resident in that relevant territory and those persons are not themselves under the control, whether directly or indirectly, of a person who is not resident in a relevant territory, or (ii) a company, the principal class of shares of which, are substantially and regularly traded on one or more recognised stock exchanges in Ireland or a relevant territory or a stock exchange approved by the Irish Minister for Finance.

Notwithstanding these exemptions from income tax, a corporate recipient that carries on a trade in Ireland through a branch or agency in respect of which the Notes are held or attributed, may have a liability to Irish corporation tax on the interest.

Interest on the Notes which does not fall within the above exemptions may be within the charge to Irish income tax and the universal social charge.

Capital gains tax

A holder of Notes may be subject to Irish tax on capital gains on a disposal of Notes (at a rate of 33 per cent.) unless such holder is neither resident nor ordinarily resident in Ireland and does not carry on a trade in Ireland through a branch or agency in respect of which the Notes are used or held.

Capital acquisitions tax

A gift or inheritance comprising of Notes will be within the charge to capital acquisitions tax if either (i) the disponent or the donee/successor in relation to the gift or inheritance is resident or ordinarily resident in Ireland (or, in certain circumstances, if the disponent is domiciled in Ireland irrespective of his residence or that of the donee/successor) or (ii) if the Notes are regarded as property situate in Ireland. Bearer notes are generally regarded

as situated where they are physically located at any particular time, but the Notes may be regarded as situated in Ireland regardless of their physical location as they secure a debt due from an Irish resident debtor and they may be secured over Irish property. Accordingly, if such Notes are comprised in a gift or inheritance, the gift or inheritance may be within the charge to tax regardless of the residence status of the disponent or the donee/successor.

Stamp duty

For so long as the Issuer remains a qualifying company and the proceeds of the Notes are used in the course of the Issuer's business, no stamp duty or similar tax is imposed in Ireland (on the basis of an exemption provided for in Section 85(2)(c) of the Irish Stamp Duties Consolidation Act, 1999) on the issue, transfer or redemption of the Notes.

CRS and the implementation of FATCA in Ireland

FATCA

The foreign account tax compliance provisions contained in Sections 1471 to 1474 of the United States Internal Revenue Code and the regulations promulgated thereunder ("**FATCA**") impose a reporting regime which may impose a 30 per cent. withholding tax on certain U.S. source payments, including interest (and original issue discounts), dividends, other fixed or determinable annual or periodical gains, profits and income, made on or after 1 July 2014 (Withholdable Payments), if paid to certain non-U.S. financial institutions (any such non-U.S. financial institution, an FFI) that fail to enter into, or fail to comply with once entered into, an agreement with the U.S. Internal Revenue Service to provide certain information about their U.S. accountholders, including certain account holders that are non-U.S. entities with U.S. owners. The Issuer expects that it will constitute an FFI.

The United States and the Government of Ireland entered into an intergovernmental agreement to facilitate the implementation of FATCA (the **IGA**). An FFI (such as the Issuer) that complies with the terms of the IGA, as well as applicable local law requirements, will not be subject to withholding under FATCA with respect to Withholdable Payments that it receives. Further, an FFI that complies with the terms of the IGA (including applicable local law requirements) will not be required to withhold under FATCA on Withholdable Payments it makes to accountholders of such FFI (unless it has agreed to do so under the U.S. "qualified intermediary", "withholding foreign partnership" or "withholding foreign trust" regimes). Pursuant to the IGA, an FFI is required to report certain information in respect of certain of its accountholders to its home tax authority, whereupon such information will be provided to the U.S. Internal Revenue Service. The Issuer will undertake to comply with the IGA and any local implementing legislation, but there is no assurance that it will be able to do so.

The Issuer (or any nominated service provider) will be entitled to require Noteholders to provide any information regarding their (and, in certain circumstances, their controlling persons') tax status, identity or residency in order to satisfy any reporting requirements which the Issuer may have as a result of the IGA or any legislation promulgated in connection with the agreement and Noteholders will be deemed, by their holding of any Notes, to have authorised the automatic disclosure of such information by the Issuer (or any nominated service provider) or any other person on the Issuer's behalf to the relevant tax authorities.

The Issuer (or any nominated service provider) agrees that information (including the identity of any Noteholder) (and its controlling persons (if applicable)) supplied for the purposes of FATCA compliance is intended for use by the Issuer (or any nominated service provider) for the purposes of satisfying FATCA requirements and the Issuer (or any nominated service provider) agrees, to the extent permitted by applicable law, that it will take reasonable steps to treat such information in a confidential manner, except that the Issuer may disclose such information (i) to its officers, directors, agents and advisors, (ii) to the extent reasonably necessary or advisable in connection with tax matters, including achieving FATCA compliance, (iii) to any person with the consent of the applicable Noteholder or (iv) as otherwise required by law or court order or on the advice of its advisors.

Where the Notes are held within Euroclear, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer or any paying agent, given that each of the entities in the payment chain between the Issuer and the participants in Euroclear is a financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes.

Prospective investors should consult their advisors about the potential application of FATCA.

CRS

The common reporting standard framework was first released by the OECD in February 2014 and on 21 July 2014, the Standard for Automatic Exchange of Financial Account Information in Tax Matters was published by the OECD which includes the text of the Common Reporting Standard (CRS or the Standard). The goal of the Standard is to provide for the annual automatic exchange between governments of financial account information reported to them by local reporting financial institutions (as defined) (**FIs**) relating to account holders who are tax resident in other participating jurisdictions.

Ireland is a signatory to the Multilateral Competent Authority Agreement on Automatic Exchange of Financial Account Information. Over 100 jurisdictions have committed to exchanging information under the Standard and a group of 50 countries, including Ireland, committed to the early adoption of CRS from 1 January 2016 (known as the "**Early Adopter Group**"). The first data exchanges took place in September 2017. All EU Member States (with the exception of Austria) are members of the Early Adopter Group.

CRS was legislated for in Ireland under the Returns of Certain Information By Reporting Financial Institutions Regulations 2015 which came into effect on 31 December 2015 (the "**Irish CRS Regulations**"). The Irish CRS Regulations provide for the collection and reporting of certain financial account information by Irish FIs, being FIs that are resident in Ireland (excluding any non-Irish branch of such FIs), Irish branches of Irish resident FIs and branches of non-Irish resident FIs that are located in Ireland. Ireland elected to adopt the 'wider approach' to the Standard. This means that Irish FIs will collect and report information to the Irish Revenue Commissioners on all non-Irish and non-U.S. resident account holders rather than just account holders who are resident in a jurisdiction with which Ireland has an exchange of information agreement. The Irish Revenue Commissioners will exchange this information with the tax authorities of other participating jurisdictions, as applicable.

Directive 2014/107/EU on Administrative Cooperation in the Field of Taxation ("**DAC II**") implements CRS in a European context and creates a mandatory obligation for all EU Member States to exchange certain financial account information on residents in other EU Member States on an annual basis. The Irish Revenue Commissioners issued regulations to implement the requirements of DAC II into Irish law on 31 December 2015 and an Irish FI (such as the Issuer) is obliged to make a single return in respect of CRS and DAC II using the Revenue Online Service (ROS). Failure by an Irish FI to comply with its CRS or DAC II obligations may result in an Irish FI being deemed to be non-compliant in respect of its CRS or DAC II obligations and monetary penalties may be imposed on a non-compliant Irish FI under Irish legislation.

It is expected that the Issuer will be classified as an Irish FI for CRS purposes and will be obliged to report certain information in respect of certain of its equity holders and debt holders to the Irish Revenue Commissioners using the Revenue Online Service ("**ROS**"). The relevant information must be reported to the Irish Revenue Commissioners by 30 June in each calendar year.

For the purposes of complying with its obligations under CRS and DAC II, an Irish FI (such as the Issuer) shall be entitled to require Noteholders to provide any information regarding their (and, in certain circumstances, their controlling persons') tax status, identity, jurisdiction of residence, taxpayer identification number and, in the case of individual Noteholders, their date and place of birth in order to satisfy any reporting requirements which the Issuer may have as a result of CRS and DAC II and Noteholders will be deemed by their holding, to have authorised the automatic disclosure of such information, together with certain financial account information in respect of the Noteholder's investment in the Issuer (including, but not limited to, account number, account balance or value and details of any payments made in respect of the Notes) by the Issuer (or any nominated service provider) or any other person on the Issuer's behalf to the Irish Revenue Commissioners and any other relevant tax authorities.

The Issuer (or any nominated service provider) agrees that information (including the identity of any Noteholder (and its controlling persons (if applicable)) supplied for the purposes of CRS or DAC II is intended for the Issuer's (or any nominated service provider's) use for the purposes of satisfying its CRS and DAC II obligations and the Issuer (or any nominated service provider) agrees, to the extent permitted by applicable law, that it will take reasonable steps to treat such information in a confidential manner, except that the Issuer may disclose such information (i) to its officers, directors, agents and advisors, (ii) to the extent reasonably necessary or advisable in connection with tax matters, including achieving CRS and DAC II compliance, (iii) to any person with the consent of the applicable Noteholder, or (iv) as otherwise required by law or court order or on the advice of its advisors.

Prospective investors should consult their advisors about the potential application of CRS.

STS ASSESSMENTS

Application has been made to Prime Collateralised Securities (PCS) UK Limited, or "PCS", to assess compliance of the notes with the criteria set forth in the CRR regarding STS-securitisations, or the "STS Assessments". There can be no assurance that the notes will receive the STS Assessments (either before issuance or at any time thereafter) and that CRR is complied with. In addition, an application has been made to PCS for the securitisation transaction described in this prospectus to receive a report from PCS verifying compliance with the criteria stemming from Article 20, 21 and 22 of the EU Securitisation Regulation, or the "STS Verification".

There can be no assurance that the Securitisation will receive the STS Verification (either before issuance or at any time thereafter) and if the securitisation transaction described in this prospectus does receive the STS Verification, this will not, under any circumstances, affect the liability of the Seller, as the originator, and the Issuer, as the SSPE (as defined in the EU Securitisation Regulation), in respect of their legal obligations under the EU Securitisation Regulation, nor will it affect the obligations imposed on institutional investors as set out in Article 5 of the EU Securitisation Regulation.

The STS Assessments are provided by PCS. No STS Assessment is a recommendation to buy, sell or hold securities. The STS Assessments are not investment advice whether generally or as defined under MiFID II and are not a credit rating whether generally or as defined under CRA3 or Section 3(a) of the United States Securities Exchange Act of 1934 (as amended). PCS is not an "expert" as defined in the Securities Act.

PCS is not a law firm and nothing in any STS Assessment constitutes legal advice in any jurisdiction. PCS is incorporated in England and Wales and is authorised by the United Kingdom Financial Conduct Authority, pursuant to Article 28 of the EU Securitisation Regulation, to act as a third party verifying STS compliance. This authorisation covers STS Verifications in the European Union. Other than as specifically set out above, none of the activities involved in providing the STS Assessments are endorsed or regulated by any regulatory and/or supervisory authority nor is PCS regulated by any other regulator, including ESMA.

By providing any STS Assessment in respect of any securities, PCS does not express any views about the creditworthiness of these securities or their suitability for any existing or potential investor or as to whether there will be a ready, liquid market for these securities or financings. Investors should conduct their own research regarding the nature of the STS Assessment and must read the information set out in <http://pcsmarket.org>. In the provision of any STS Assessment, PCS has based its decision on information provided directly and indirectly by the Seller. PCS does not undertake its own direct verification of the underlying facts stated in the prospectus, deal sheet, documentation or certificates for the relevant instruments and the completion of any STS Assessment is not a confirmation or implication that the information provided by or on behalf of the seller as part of the relevant STS Assessment is accurate or complete.

In completing an STS Verification, PCS bases its analysis on the STS criteria appearing in Articles 20 to 26 of the EU Securitisation Regulation together with, if relevant, the appropriate provisions of Article 43. Unless specifically mentioned in the STS Verification, PCS relies on the English version of the EU Securitisation Regulation. In addition, Article 19(2) of the EU Securitisation Regulation requires the EBA, from time to time, to issue guidelines and recommendations interpreting the STS criteria. The EBA has issued the EBA STS Guidelines Non-ABCP Securitisations. The task of interpreting individual STS criteria rests with national competent authorities, or "NCAs". Any NCA may publish or otherwise publicly disseminate from time to time interpretations of specific criteria, or "NCA Interpretations". The STS criteria, as drafted in the EU Securitisation Regulation, are subject to a potentially wide variety of interpretations.

In compiling an STS Verification, PCS uses its discretion to interpret the STS criteria based on (a) the text of the EU Securitisation Regulation, (b) any relevant guidelines issued by EBA and (c) any relevant NCA Interpretation. There can be no guarantees that any regulatory authority or any court of law interpreting the STS criteria will agree with the interpretation of PCS. There can be no guarantees that any future guidelines issued by EBA or NCA Interpretations may not differ in their approach from those used by PCS in interpreting any STS criterion prior to the issuance of such new guideline or interpretation. In particular, guidelines issued by EBA are not binding on any NCA. There can be no guarantees that any interpretation by any NCA will be the same as that set out in the EBA guidelines and therefore used, prior to the publication of such NCA interpretation, by PCS in completing an STS Verification. Although PCS will use all reasonable endeavours to ascertain the position of any relevant NCA as to STS criteria interpretation, PCS cannot guarantee that it will have been made aware of any NCA interpretation in cases where such interpretation has not been officially published by the relevant NCA.

Accordingly, the provision of an STS Verification is only an opinion by PCS and not a statement of fact. It is not a guarantee or warranty that any national competent authority, court, investor or any other person will accept the STS status of the relevant securitisation.

The task of interpreting individual CRR criteria, liquidity cover ratio, or "LCR", criteria as well as the final determination of the capital required by a bank to allocate for any investment or the type of assets it may put in its LCR pool rests with prudential authorities supervising any European bank. The CRR and LCR criteria, as drafted in the CRR, are subject to a potentially wide variety of interpretations. In compiling an STS Assessment, PCS uses its discretion to interpret the CRR and LCR criteria based on the text of the CRR, and any relevant and public interpretation by the EBA. Although PCS believes its interpretations reflect a reasonable approach, there can be no guarantees that any prudential authority or any court of law interpreting the CRR and LCR criteria will agree with the PCS interpretation. PCS also draws attention to the fact that, in assessing capital requirements and the composition of any bank's LCR pool, prudential regulators possess wide discretions.

Accordingly, when performing a STS Assessment, PCS is not confirming or indicating that the securitisation the subject of such assessment will be allowed to have lower capital allocated to it under the CRR or that it will be eligible to be part of any bank's LCR pool. PCS is merely addressing the specific CRR and LCR criteria and determining whether, in PCS' opinion, these criteria have been met.

Therefore, no investor should rely on a STS Assessment in determining the status of any securitisation in relation to capital requirements or liquidity cover ratio pools and must make its own determination. All STS Assessments speak only as of the date on which they are issued. PCS has no obligation to monitor (nor any intention to monitor) any securitisation the subject of any STS Assessment. PCS has no obligation and does not undertake to update any STS Assessment to account for (a) any change of law or regulatory interpretation or (b) any act or failure to act by any person relating to those STS criteria that speak to actions taking place following the close of any transaction such as, without limitation, the obligation to continue to provide certain mandated information.

This Prospectus discloses all material Seller and Issuer undertakings, representations and warranties (including, but not limited to, corporate and asset matters) relating to the Transaction.

Authorisation

The issue of the Notes was authorised by a resolution of the board of directors of the Issuer passed on 14 October 2019.

In connection with the Notes, the Issuer will procure the notification to Euronext Dublin of the Interest Amounts and, if relevant, the payments of principal on the Class A Notes, in the manner described in the Note Conditions.

Payments and transfers of the Notes will be settled through Clearstream, Luxembourg and Euroclear, as described herein. The Notes have been accepted for clearing by Clearstream, Luxembourg and Euroclear.

All notices regarding the Notes will either be in a leading daily newspaper with general circulation in Ireland designated by Euronext Dublin (which is expected to be the Irish Times) or, if such newspaper ceases to be published or timely publication therein will not be practicable, in such English language newspaper or newspapers as the Note Trustee will approve having a general circulation in Dublin. Any such notice will be deemed to have been given to all Noteholders on the date of such publication.

Notwithstanding the above, so long as any of the Notes are listed on the Official List and traded on the regulated market of Euronext Dublin and the rules of Euronext Dublin so permit, any publication in respect of such Notes may be substituted by delivery to the Euronext Direct section of the Euronext Dublin website (or any successor online announcements platform maintained by or on behalf of Euronext Dublin) and the Clearing Systems of the relevant notice for communication to the relevant Noteholders. Any such notice will be deemed to have been given to such Noteholders, as applicable, on the same day that such notice was delivered to the Euronext Direct section of the Euronext Dublin website (or any successor online announcements platform maintained by or on behalf of Euronext Dublin) and the Clearing Systems.

Irish listing

This Prospectus has been approved by the Central Bank, as competent authority under the Prospectus Regulation. The Central Bank only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer or the quality of the Notes that are the subject of this Prospectus and investors should make their assessment as to the suitability of investing in the Note. Application has been made to Euronext Dublin for the Notes to be admitted to the Official List and trading on its regulated market (as defined in Article 2(j) of the Prospectus Regulation in conjunction with Article 4(1)(21) of Directive 2014/65/EC of the European Parliament
