## GENERAL

This Series Information Memorandum dated 13 May~~TBD~~ 2019 under which the Series 2019-550 EUR 25,000,000 Secured Limited Recourse Variable Interest Amount Securities due 2024 (the “**Securities**”) are described, is supplemental to the Information Memorandum dated 3 July 2018 (the “**Information Memorandum**”) relating to the EUR 5,000,000,000 Limited Recourse Secured Debt Issuance Programme (the “**Programme**”) of Douro Finance B.V. (the “**Issuer**”) and is issued in conjunction with, and incorporates by reference, the Information Memorandum. It should be read together with the Information Memorandum as one document. To the extent that the Information Memorandum is inconsistent with this Series Information Memorandum, this Series Information Memorandum shall prevail. Terms defined in the Information Memorandum shall, unless the context otherwise requires, bear the same meanings herein.

The Issuer accepts responsibility for the information contained in this Series Information Memorandum. Application has been made to the Irish Stock Exchange plc trading as Euronext Dublin (“**Euronext Dublin**”) for the Securities to be admitted to the Official List and trading on its regulated market. There can be no assurance that any such admission to trading will be obtained.

This Series Information Memorandum has been approved by the Central Bank of Ireland (the “**Central Bank**”) as competent authority under the Prospectus Directive. The Central Bank only approves this Series Information Memorandum as meeting the requirements imposed under Irish and EU law pursuant to the Prospectus Directive.

The information relating to the Charged Assets and the Counterparty (each as defined herein) and each issuer of the Charged Assets (an “**Underlying Obligor**”) has been accurately reproduced from information published by the Counterparty and each Underlying Obligor (as applicable). Such information has been accurately reproduced from such sources and, so far as the Issuer is aware and is able to ascertain from such sources, no facts have been omitted from such sources which would render the reproduced information inaccurate or misleading.

The Securities will not be rated.

**Prospective purchasers should be aware of the risks involved in investing in the Securities (see the “Risk Factors” section in the Information Memorandum and in this Series Information Memorandum below).**

Neither the delivery of this Series Information Memorandum nor the offering, sale or delivery of any Securities shall in any circumstances imply that the information contained herein is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Securities is correct as of any time subsequent to the date indicated in the document containing the same.

No person is or has been authorised by the Issuer to give any information or to make any representation not contained in or not consistent with this Series Information Memorandum or any other information supplied in connection with the Programme or the Securities and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Trustee (as defined herein) or the Dealer (as defined herein).

This Series Information Memorandum does not constitute an offer to sell or the solicitation of an offer to buy any Securities in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of the Information Memorandum and this Series Information Memorandum and the offer or sale of Securities may be restricted by law in certain jurisdictions. The Issuer, the Trustee and the relevant Dealer do not and will not represent that the Information Memorandum or this Series Information Memorandum may be lawfully distributed, or that the Securities may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been or will be taken by the Issuer, the Trustee or any Dealers (save for the approval of this document as a prospectus by the Central Bank and, in the case of the Information Memorandum only, as may be specified in a Series Information Memorandum relating to any other series of securities of the Issuer) which is intended to permit a public offering of the Securities or distribution of the Information Memorandum or this Series Information Memorandum in any jurisdiction where action for that purpose is required. Accordingly, the Securities may not be offered or sold, directly or indirectly, and neither the Information Memorandum nor this Series Information Memorandum nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession the Information Memorandum, this Series Information Memorandum or any Securities come must inform themselves about, and observe any such restrictions. In particular, there are restrictions on the distribution of the Information Memorandum and this Series Information Memorandum and the offer or sale of Securities in the United States, the European Economic Area (including the United Kingdom, France, the Netherlands, Italy, the Kingdom of Spain and Ireland), Colombia, Chile, Perú, Mexico and Hong Kong (see the "*Subscription and Sale and Transfer Restrictions*" in this Series Information Memorandum).

**Claims of the Securityholders and the Counterparty will be limited in recourse to the Mortgaged Property.**

The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the **Securities Act**), or with any securities regulatory authority of any state or other jurisdiction of the United States and the Securities are in bearer form and are subject to U.S. tax law requirements. Consequently, the Securities may not be offered, sold, resold, delivered or transferred within the United States or to, or for the account or benefit of, any person who is (i) a "U.S. person" (as defined in Regulation S under the Securities Act (**Regulation S**)), (ii) a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the United States Commodity Futures Trading Commission (the **CFTC**), as amended, modified or supplemented from time to time, under the United States Commodity Exchange Act, as amended (the **CEA**), (iii) a person other than a "Non-United States person" as defined in CFTC Rule 4.7, or (iv) a "United States person" as defined in the

U.S. Internal Revenue Code of 1986, as amended (the **Code**) and the U.S. Treasury regulations promulgated thereunder, in each case, as such definition may be amended, modified or supplemented from time to time (each such person, a **U.S. Person**). In addition, the Issuer has not been and will not be registered as an "investment company" under the United States Investment Company Act of 1940, as amended. For a description of certain restrictions on offers and sales of Securities in the United States or to U.S. Persons, see the "Subscription and Sale and Transfer Restrictions" section in the Information Memorandum and such further restrictions as may be described in the Information Memorandum and in this Series Information Memorandum, as the case may be.

**The Securities have not been approved or disapproved by the United States Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities reviewed or passed upon the accuracy or adequacy of this Series Information Memorandum or the Information Memorandum. Any representation to the contrary is a criminal offence in the United States.**

The Issuer is not and will not be regulated by the Central Bank as a result of issuing the Securities. Any investment in the Securities does not have the status of a bank deposit and is not within the scope of the deposit protection scheme operated by the Central Bank.

If any commissions or fees relating to the issue and sale of the Securities have been paid or are payable by the Dealer to an intermediary, then such intermediary may be obliged to fully disclose to its clients the existence, nature and amount of any such commissions or fees (including, if applicable, by way of discount) as required in accordance with laws and regulations applicable to such intermediary, including any legislation, regulation and/or rule implementing the Markets in Financial Instruments Directive (2004/39/EC) (**MIFID**) as amended, varied or replaced from time to time including through the implementation of Directive 2014/65/EU ("**MIFID II**"), or as otherwise may apply in any non-EEA jurisdictions. Investors in the Securities who have purchased an interest in Securities through an intermediary (including by way of introducing broker) should request details of any such commission or fee payment from such intermediary before making any purchase thereof.

The language of this Series Information Memorandum is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

### **Information on Benchmark**

Interest Amounts payable under the Securities are calculated by reference to EURO STOXX Select Dividend 30 Index, which is provided by EURO STOXX Select Dividend 30 Index, which is currently sponsored by STOXX Limited (the "**Administrator**"). As at the date of this Series Information Memorandum, the Administrator does not appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Benchmarks Regulation Regulation (EU) 2016/1011 in the European Union (the "**Benchmarks Regulation**").

As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmarks Regulation apply, such that STOXX Limited is not currently required to obtain authorisation or registration.

### **Prohibition of sales to EEA retail investors**

The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11)

of Article 4(1) of MIFID II; (ii) a customer within the meaning of Directive 2002/92/EC (“**IMD**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the “**Prospectus Directive**”). Consequently no key information document required by Regulation (EU) No 1286/2014 (the “**PRIIPs Regulation**”) for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPS Regulation.

## **RISK FACTORS**

*The purchase of the Securities may involve substantial risks and is suitable only for sophisticated purchasers who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and the merits of an investment in the Securities. The Issuer believes that the following factors may affect either its ability to fulfil its obligations under the Securities or the performance of the Securities. Some of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Securities, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Securities may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Securities are exhaustive.*

*The Securities are complex financial instruments and involve a high degree of risk and prospective purchasers should be prepared to sustain a loss of all or part of their investment.*

*The Issuer believes that the following factors may affect its ability to fulfil its obligations under Securities issued under the Programme.*

*Prospective purchasers should also read the detailed information set out elsewhere in this Series Information Memorandum and, in the light of their own financial circumstances and investment objectives, reach their own views prior to making any investment decision.*

*Prospective purchasers should note that certain of the risks below may relate only to the issue of Securities. Accordingly, such prospective purchasers should review carefully this Series Information Memorandum as well as the following section by way of a general introduction to the risks associated with limited recourse investments and the Issuer.*

### **Investor suitability**

Prospective purchasers of the Securities should reach an investment decision only after carefully considering the suitability of the Securities in light of their particular circumstances. Investment in the Securities may only be suitable for investors who:

- (a) have substantial knowledge and experience in financial, business matters and expertise in assessing credit risk which enable them to evaluate the merits and risks of an investment in the Securities and the rights attaching to the Securities;
- (b) are capable of bearing the economic risk of an investment in the Securities for an indefinite period of time;
- (c) are acquiring the Securities for their own account (as principal and not as agent) for investment, not with a view to resale, distribution or other disposition of the Securities (subject to any applicable law requiring that the disposition of the investor's property be within its control); and
- (d) recognise that it may not be possible to make any transfer of the Securities for a substantial period of time, if at all.

### **Independent review and advice**

Each prospective purchaser of the Securities must determine, based on its own independent review (including as to the financial condition and affairs and its own appraisal of the creditworthiness of the Issuer, the Counterparty, and any relevant obligor in respect of the Charged Assets and such professional advice (including, without limitation, tax, accounting, credit, legal and regulatory advice) as it deems appropriate under the circumstances, to assess the economic, social and political condition of the jurisdiction in which each relevant obligor is located and determine whether an investment in the Securities is appropriate in its particular circumstances.

In so doing, and without restricting the generality of the preceding paragraph, such prospective purchaser must determine that its acquisition and holding of the Securities (i) is fully consistent with its (or if it is acquiring the Securities in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether it is acquiring the Securities as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or if it is acquiring the Securities in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Securities. None of the Issuer, the Trustee, the Dealer(s) or any of their respective affiliates is acting as an investment adviser, or assumes any fiduciary obligation, to any purchaser of Securities.

Neither the Information Memorandum nor this Series Information Memorandum is intended to provide the basis of any credit or other evaluation or should be considered as a recommendation or as constituting an invitation or offer that any recipient of the Information Memorandum or this Series Information Memorandum should purchase any of the Securities. The Trustee and the Dealer(s) expressly do not undertake to review the financial condition, creditworthiness or affairs of any relevant obligor(s).

### **No secondary market**

None of the Issuer, the Trustee, the Agents, the Dealer or any of their respective affiliates is under an obligation to provide liquidity for the Securities and no secondary market is expected to develop in respect of the Securities. Whilst the Securities may be listed or admitted to trading on Euronext Dublin, the Issuer does not expect a trading market for the Securities to develop. In the unlikely event that a secondary market does develop, there can be no assurance that it will provide the Securityholders with liquidity of investment or that it will continue for the life of the Securities. Accordingly, the purchase of the Securities is suitable only for investors who can bear the risks associated with a lack of liquidity in the Securities and the financial and other risks associated with an investment in the Securities. Purchasers must be prepared to hold the Securities for an indefinite period of time or until final redemption or maturity of the Securities.

### **Limited recourse**

Claims against the Issuer by the Securityholders of a Series and by the Counterparty will be limited to the Mortgaged Property relating to such Series. The proceeds of realisation of such Mortgaged Property may be less than the sums due to the Securityholders and the Counterparty. Any shortfall will be borne by the Securityholders and by the Counterparty in accordance with the Security Ranking Basis specified in the relevant Issue Terms. Each Securityholder, by subscribing for or purchasing such Securities, will be deemed to accept and acknowledge that it is fully aware that, in the event of a shortfall, (i) the Issuer shall be under no obligation to pay, and the other assets of the Issuer including, in particular, assets securing other Series of Securities or Alternative Investments will not be available for payment of, such shortfall, (ii) all claims in respect of such shortfall shall be extinguished, and (iii) the Trustee, the Securityholders and the Counterparty shall have no further claim against the Issuer in respect of such unpaid amounts and will accordingly not be able to petition for the winding up of the Issuer as a consequence of such shortfall.

The Securities of each Series are direct, limited recourse obligations of the Issuer alone and not of the officers, members, directors, employees, securityholders or incorporator of the Issuer, the Counterparty, or

obligor(s) in respect of the Charged Assets or any of their respective successors or assigns. Furthermore, they are not obligations of, or guaranteed in any way by, any Dealer(s).

### **Credit risk**

The ability of the Issuer to meet its obligations under the Securities will be dependent, where applicable, upon the payment of principal and interest due on the Charged Assets, the payment of all sums due from the relevant Counterparty under the Charged Agreements, upon the Principal Paying Agent and the Custodian making the relevant payments when received and upon all parties to the Transaction Documents (other than the Issuer) performing their respective obligations thereunder. Moreover, in certain cases, the security for the Securities will be limited to the claims of the Issuer against the Counterparty under the Charged Agreements. Accordingly, Securityholders are exposed, inter alia, to the creditworthiness of the issuer(s) or obligor(s) in respect of the Charged Assets, the Counterparty, the Principal Paying Agent, the other Paying Agents and the Custodian.

The Issuer will hold cash comprising the Charged Assets in the Cash Deposit Account, Issuer Series Account or such other account specified in the Issue Terms. Any cash held by the Account Bank on behalf of the Issuer will be held by the Account Bank in its capacity as banker, and not as trustee. The Issuer and the Securityholders will therefore be exposed to the credit risk of the Account Bank on an unsecured basis for the period during which the cash is held by the Account Bank on behalf of the Issuer.

### **Business relationships**

Each of the Issuer, the Dealer(s), the Trustee, the Agents and/or any of their affiliates may have existing or future business relationships with any Counterparty, issuer(s) or obligor(s) in respect of any Charged Assets of any Series of Securities (including, but not limited to, lending, depository, risk management, advisory and banking relationships), and will pursue actions and take steps that it deems necessary or appropriate to protect its interests arising therefrom without regard to the consequences for a Securityholder. Furthermore, the Dealer(s), the Trustee, the Agents or any of their respective affiliates may buy, sell or hold positions in obligations of, or act as investment or commercial bankers, advisers or fiduciaries to, or hold directorship and officer positions in, any issuer(s) or obligor(s) in respect of Charged Assets.

### **Conflicts of Interest**

Each of the Counterparty and any of its affiliates is acting or may act in a number of capacities in connection with the issue of Securities. The Counterparty and any of its affiliates acting in such capacities in connection with the issue of Securities shall have only the duties and responsibilities expressly agreed to by it in the relevant capacity and shall not, by virtue of its or any other affiliates acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a standard of care other than as expressly provided with respect to each such capacity. Each of the Counterparty and any of its affiliates in its various capacities in connection with the issue of Securities may enter business dealings, including the acquisition of investment securities as contemplated by the Transaction Documents from which it may derive revenues and profits in addition to any fees stated in various documents, without any duty to account therefor, provided that any such revenue, profits or fees will be paid or received only in accordance with applicable regulations.

Various potential and actual conflicts of interest may arise between the interests of the Securityholders and either the Issuer and/or the Counterparty, as a result of the various businesses, management, investment and other activities of such persons, and none of such persons is required to resolve such conflicts of interest in favour of the Securityholders.

### **No Obligations owing by the Calculation Agent**

The Calculation Agent shall have no obligations to the Securityholders, and shall only have the obligations expressed to be binding on it pursuant to the Agency Agreement, unless otherwise specified in the Issue Terms. All designations and calculations made by the Calculation Agent in respect of the Securities shall be conclusive and binding on the Securityholders.

### **Legal opinions**

No legal opinions relating to the Securities will be obtained on their issue with respect to the laws of England and of the Netherlands and no legal opinions will be obtained with respect to any other applicable laws and no investigations will be made into the validity or enforceability of the laws of any other jurisdiction in respect of the obligations under the Securities.

No legal opinions will be obtained in relation to:

- (a) the laws of the country of incorporation of the issuer(s) or obligor(s) in respect of the Charged Assets;
- (b) the laws of the country in which the obligations of the Charged Assets are situated; or
- (c) the laws of the country which are expressed to govern any obligations of the Charged Assets.

Such laws, depending upon the circumstances, may affect, among other things, the validity and legal and binding effect of the obligations of Charged Assets and the effectiveness and ranking of the security for the Securities. Consequently, no responsibility is accepted by the Issuer in relation to such matters.

### **Legality of purchase**

None of the Issuer, the Dealer(s) or any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Securities by a prospective purchaser of the Securities, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective purchaser with any law, regulation or regulatory policy applicable to it.

### **Hiring Incentives to Restore Employment Act withholding may affect payments on the Securities**

The U.S. Hiring Incentives to Restore Employment Act (the “**HIRE Act**”) imposes a 30% withholding tax on amounts attributable to U.S. source dividends that are paid or “deemed paid” under certain financial instruments if certain conditions are met. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section “Taxation – Hiring Incentives to Restore Employment Act.”

### **Modifications to the terms of the Securities**

The attention of prospective purchasers is drawn to Condition 19 (*Meetings of Securityholders, Modification, Waiver and Substitution*) and in particular, the provision that the Trustee shall agree to make any modification (whether or not it may be materially prejudicial to the Securityholders) requested by the relevant Dealer(s) in respect of a Series of Securities if, and to the extent that, such modification is to correct an error in the Conditions arising from a discrepancy between the Conditions and the final termsheet provided to the initial Securityholders, as certified by the relevant Dealer(s) to the Trustee.

### **Trustee Indemnity**

Upon the occurrence of an Event of Default in relation to the Securities, Securityholders may be required to provide an indemnity to the Trustee to its satisfaction as provided for in Condition 11 (*Events of Default*) before the Trustee gives notice to the Issuer accelerating the Securities. The Trustee shall not be obliged to take any action if not indemnified, secured and/or prefunded to its satisfaction.

### ***Provision of information***

None of the Issuer, the Trustee, the Agents, the Dealer(s) or any of their respective affiliates makes any representation as to the credit quality of the Counterparty, any issuer(s) or obligor(s) in respect of the Charged Assets for any Series of Securities. Any of such persons may have acquired, or during the term of the Securities may acquire, non-public information with respect to such Counterparty, the Issuer or obligor(s) in respect of the Charged Assets. None of such persons is under any obligation to make available any information relating to, or keep under review on the Securityholders' behalf, the business, financial conditions, prospects, creditworthiness or status of affairs of any issuer(s) or obligor(s) in respect of the Charged Assets or conduct any investigation or due diligence into any such issuer(s) or obligor(s) in respect of the Charged Assets.

### **Market Conditions**

Any liquidity shortage and volatility in the credit markets will introduce a variety of increased risks relating to several aspects of the Issuer's operations. Such additional risks include the inability of the Issuer to sell its assets which, among other things, may render it unable to dispose of underperforming or defaulted assets and satisfy its obligations in respect of the redemption of the Securities. Such market conditions may also lead to the inability of the Issuer to determine a reliable valuation of its assets. All of such factors could materially adversely affect the interests of Securityholders.

Concerns have been raised since the financial crisis with respect to economic, monetary and political conditions in the Eurozone (including the credit risk of sovereigns and of those entities which have exposure to sovereigns). If such concerns persist and/or such conditions further deteriorate (including as may be demonstrated by any relevant credit rating agency action, any default or restructuring of indebtedness by one or more states or institutions and/or any changes to, including any break-up of, the Eurozone), then these matters may increase stress in the financial system generally and/or may adversely affect the Issuer, one or more of the other parties to the Transaction Documents (including the Vendor and/or the Counterparty) and/or any obligor in respect of the Charged Assets. Given the current uncertainty and the range of possible outcomes, no assurance can be given as to the impact of any of the matters described herein and, in particular, no assurance can be given that such matters would not adversely affect the rights of the Securityholders, the market value of the Securities and/or the ability of the Issuer to satisfy its obligations under the Securities.

### **Comparative Returns**

Risk-adjusted returns and absolute returns on the Securities may be lower than that of comparable investments. Each prospective purchaser should be aware that any return on the Securities may not exceed or even equal the return that might have been achieved had the amount of its initial investment been placed on deposit for the same period.

### **Eurosystem Eligibility**

There may be an intention for certain Securities to be held in a manner which will allow Eurosystem eligibility. This simply means that such Securities are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that such Securities will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either

upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

### **The Charged Assets**

The value of the Charged Assets may have a direct impact on the amounts payable to Securityholders in respect of the Securities upon early redemption. The Charged Assets may comprise the benefit of loans, securities, cash and/or other assets.

Prospective purchasers are advised to review carefully any offering documents for or description of the Charged Assets before deciding whether an investment in the Securities is suitable for them.

### **Illiquid Charged Assets**

The Charged Assets may comprise assets which are not admitted to any public trading market and may therefore be illiquid and not readily realisable.

### **Margin calls under Swap Agreements with credit support annex**

As the Swap Agreement includes a credit support annex pursuant to which, (a) the relevant Counterparty will be required to post eligible collateral to the Issuer to collateralise the Issuer's exposure (if any) to the relevant Counterparty under such Swap Agreement(s) (such collateral being referred to as “**Counterparty Margin Collateral**”) and/or (b) the Issuer will be required to post eligible collateral to the relevant Counterparty to collateralise the relevant Counterparty's exposure (if any) to the Issuer under such Swap Agreement(s) (such collateral being referred to as “**Issuer Margin Collateral**”).

In respect of the Counterparty Margin Collateral, this may not in all circumstances be sufficient to negate all credit exposure of the Issuer to the relevant Counterparty because, for example, (a) of the requirement for the minimum transfer amount to be satisfied; (b) the Issuer's exposure to the Counterparty may increase from the time at which the last valuation was made; (c) where assets are delivered as collateral to the Issuer, such assets may have a volatile market value that decreases from the date of delivery of such assets; and/or (d) due to currency exchange rate fluctuations, in which circumstances Securityholders will have uncollateralised exposure to the credit risk of the relevant Counterparty. If the Issuer is required to sell any Counterparty Margin Collateral, the Securityholders will assume market risk in respect of such Counterparty Margin Collateral and credit risk in respect of the obligor(s) in respect of such Counterparty Margin Collateral.

In respect of the Issuer Margin Collateral, this will be provided from the Charged Assets and will therefore reduce the realisable value of such Charged Assets and, consequently, increase Securityholders' exposure to the credit risk of the Counterparty, in circumstances where the Issuer Margin Collateral is subsequently required to be returned to the Issuer.

### **Credit Risk of Banco Bilbao Vizcaya Argentaria S.A. group entities as a Counterparty**

The Issuer has entered into a Swap Agreement with BBVA as Counterparty. To the extent that BBVA fails to make due and timely payment or delivery under the Swap Agreement, as the case may be, such agreement may be terminated, the security enforced and the Securities redeemed and a loss of principal or a delay in payment under the Securities may result.

### **The value of the Charged Assets may be less than the value of the Securities**

Due to potential market volatility and other factors, the market value of the Charged Assets at any time will vary, and may vary substantially, from the principal amount of such Charged Assets. To the extent that the

nominal amount and/or market value of the Charged Assets is at any time less than the outstanding principal amount and/or market value of the Securities an investor's exposure to the obligations of the Counterparty under the Swap Agreement is increased. Accordingly, no assurance can be given as to the amount of proceeds of any sale or disposition, or the amount received or recovered upon maturity, of such Charged Assets, or that the proceeds of any such sale or disposition would be sufficient to repay principal of the Securities of the related Series and amounts payable prior thereto. Where this is the case and the Counterparty is unable to perform its obligations under the Swap Agreement the Issuer will be unable to meet the payments owed to investors under the Securities in full, resulting in investors losing some or all of the money invested in Securities.

### **Further issues**

The terms of the Securities may provide for the issue of further Securities fungible with the existing Tranche(s) thereof in certain circumstances. The additional Charged Assets which the Issuer may be required to provide as security for such further Securities relative to the aggregate nominal amount of the further Securities may be such as to affect the value of the original security provided for the Securities.

### **Substitution of Initial Charged Assets for Cash Collateral where Initial Charged Assets are not delivered**

Where the Securities are secured by Cash Collateral on the Issue Date, prospective purchasers should be aware that Initial Charged Assets may be substituted, pursuant to Condition 4(c) (Substitution with Cash Collateral), for the Cash Collateral following the Issue Date. If an event of default (howsoever described in the terms and conditions of the Initial Charged Assets) has occurred with respect to the Initial Charged Assets prior to the delivery by the Vendor of all or any part of the Initial Charged Assets, any undelivered Initial Charged Assets shall be deemed to have been delivered by the Vendor to the Issuer and sold by the Selling Agent in accordance with the Agency Agreement.

### **Early Redemption**

The Securities may be redeemed early in certain circumstances, including where there is an event of default in relation to the Securities, where there is an event of default in relation to the Charged Assets, where certain regulatory events occur (which may also lead to an adjustment), where an illegality event occurs, where there is a termination under a Swap Agreement. Prospective purchasers should note that the amount payable on early redemption may be significantly less than the amount that would otherwise have been payable at maturity of the Securities. Prospective purchasers should note in particular that pursuant to Condition 7(k) (Cessation of interest), on early redemption, interest payable on the Securities will cease to accrue from, and including, the immediately preceding Interest Payment Date or, if none, the Interest Commencement Date.

### **Risks relating to Index-Linked Securities**

The Issuer may issue Index-Linked Securities where the Final Redemption Amount or interest or other interim amounts payable are dependent upon the level of or changes in the level of an index, indices and/or a formula. The index or indices may relate to reference equities, bonds, other securities, property, currency exchange rates or other assets or bases of reference and may be a well-known and widely published index or indices or an index or indices established by the Arranger or the Dealer or an Affiliate of the Arranger or the Dealer or another entity which may not be widely published or available. An investment in Index-Linked Securities will entail significant risks not associated with a conventional fixed rate or floating rate debt security.

### **Currency Risk**

An investment in Securities denominated or payable in a currency other than the currency of the jurisdiction of a particular purchaser (the “**Purchaser's Currency**”), entails significant risks that are not associated with a similar investment in a security denominated and/or payable in the Purchaser's Currency. These risks include, but are not limited to:

- (a) the possibility of significant market changes in rates of exchange between the Purchaser's Currency and the currency in which the Securities are denominated and/or payable;
- (b) the possibility of significant changes in rates of exchange between the Purchaser's Currency and the currency in which the Securities are denominated and/or payable resulting from the official redenomination or revaluation of the currency; and
- (c) the possibility of the imposition or modification of foreign exchange controls by either the jurisdiction of the purchaser or foreign governments.

### **UK Banking Act 2009**

The Banking Act 2009 (the “**Banking Act**”), which originally came into effect on 21 February 2009, includes (amongst other things) provision for a special resolution regime pursuant to which specified UK authorities have extended tools to deal with the failure (or likely failure) of certain UK incorporated entities (such as any UK bank acting as Principal Paying Agent or Custodian and, including authorised deposit-taking institutions and investment firms) and powers to recognise and give effect to certain resolution actions in respect of third country institutions. In addition, those extended tools may be used in certain circumstances in respect of UK established banking group companies, where such companies are in the same group as a relevant UK or third country institution or in the same group as an EEA credit institution or investment firm. Relevant transaction parties for these purposes include any UK deposit-taker/investment firm or non-EEA deposit-taker/investment firm, or relevant UK banking group company. In particular, such tools include share and property transfer powers (including powers for partial property transfers), bail-in powers, certain ancillary powers (including powers to modify contractual arrangements in certain circumstances) and special insolvency procedures which may be commenced by UK authorities. It is possible that the extended tools described above could be used prior to the point which an application for insolvency proceedings with respect to a relevant entity could be made and, in certain circumstances, the UK authorities may exercise broad pre-resolution powers in respect of relevant entities with a view to removing impediments to the exercise of the stabilisation tools (such tools being one of the extended tools conferred on UK authorities).

In general, the Banking Act requires the UK authorities to have regard to specified objectives in exercising the extended tools provided for by the Banking Act. One of the objectives (which is required to be balanced as appropriate with the other specified objectives) refers to the protection and enhancement of the stability of the financial system of the United Kingdom. The Banking Act includes provisions related to compensation in respect of instruments and orders made under it. In general, there is considerable uncertainty about the scope of the powers afforded to UK authorities under the Banking Act and how the authorities may choose to exercise them.

If an instrument or order were to be made under the Banking Act in respect of any UK bank acting as Principal Paying Agent or Custodian, such action may (amongst other things) affect the ability of such entity to satisfy its obligations under the Transaction Documents and/or result in modifications to any unsecured liability of such entity under the Transaction Documents, and, more generally, affect the ability of such entity to perform its obligations under the Transaction Documents.

One of the five stabilisation options conferred upon UK authorities by the Banking Act is the bail-in option. The provisions in the Banking Act which relate to the bail-in option were included in the statute following

the promulgation of the Bank Recovery and Resolution Directive (referred to in the following section) and in order to give effect to the provisions of that Directive in England and Wales, Scotland and Northern Ireland.

### **Bank Recovery and Resolution Directive**

One consequence of the global financial crisis has been the regulatory focus on recovery and resolution regimes for financial institutions. The purpose of such regimes is to allow supervisory authorities to take action to manage financial institutions in the event they are unable to perform their principal economic functions. To this end the European Union has published framework legislation for bank recovery and resolution under Directive 2014/59/EEC, as amended (“BRRD”). The BRRD provides supervisory authorities with certain powers to manage financial institutions in an orderly manner. Such powers include:

- the introduction of a bail-in power, which gives the resolution authorities the power to write down certain liabilities and to convert certain liabilities into ordinary shares or other instruments of the surviving entity (if any);
- powers to suspend enforcement or termination rights that might be invoked as a result of the exercise of the resolution powers; and
- powers to effect a close-out of financial contracts and derivative transactions and determine the value of such transactions.

The taking of any actions by the relevant resolution authorities under any regime in respect of the relevant Counterparty, the Charged Agreement and/or in respect of any other liabilities arising under any other agreement entered into by the Issuer with the Counterparty in respect of a Security (a “Liability”) may adversely affect the Securityholders. If the Counterparty is within the scope of any implementing legislation by reason of the Charged Agreement or Liability, being a liability of the type which may fall within the implementing legislation, then:

- a) any applicable bail-in power might be exercised in respect of the Charged Agreement and/or Liability to write down or convert any claim of the Issuer as against such person;
- b) any applicable suspension power might prevent the Issuer from exercising any termination rights under the Charged Agreement and/or any other agreement in relation to Liability; or
- c) any applicable power to close-out or terminate might be exercised to enforce a termination of the Charged Agreement and/or any other agreement in relation to a Liability and to value the transactions in respect of such agreements.

For example, if any Swap Agreement is “in-the-money” for the Issuer at a time when a resolution regime applies to the Counterparty, then any claims the Issuer has against the Counterparty for the close-out amount thereof may be adversely affected by being postponed, converted into other assets or even written down to zero.

Accordingly, following an exercise of any powers by a resolution authority, the Issuer may have insufficient assets or sums to meet its obligations under the Securities or any Transaction Document for that Series of Securities, the Securities may be the subject of an early redemption and any payment of redemption proceeds to Securityholders may be delayed.

In addition to a resolution regime affecting the Counterparty, Securityholders should be aware that the BRRD may also apply to the obligor of the Charged Assets in respect of a Series of Securities and that in such case similar considerations to those set out above may apply. Furthermore, other resolution and

recovery regimes, including those in specific European Union member states, the United States and elsewhere, may also apply.

As a consequence of any of the resolutions or actions referred to above, the Securityholders may lose all or some of their investment in the Securities.

### **European Market Infrastructure Regulation**

Regulation (EU) No 648/2012 of the European Parliament and Council on OTC derivatives, central counterparties and trade repositories dated 4 July 2012 ("EMIR") came into force on 16 August 2012. EMIR and the regulations made under it imposes certain obligations on parties to OTC derivative contracts according to whether they are "financial counterparties", such as European investment firms, alternative investment funds, credit institutions and insurance companies, or other entities which are "non-financial counterparties" or third country entities equivalent to "financial counterparties" or "non-financial counterparties". EMIR establishes certain requirements for OTC derivatives contracts including mandatory clearing obligations, bilateral risk-management requirements and reporting requirements. These requirements are subject to phased implementation. Investors should be aware that certain currently applicable requirements of EMIR impose obligations on the Issuer, to the extent it enters into derivative transactions, and future requirements of EMIR may impose further obligations on the Issuer, directly, or indirectly, by impacting on the terms that the Counterparty is able to enter into under agreements with the Issuer.

Investors should, in particular, be aware that should any future obligation of EMIR require the Issuer to modify the economic terms of any derivative transaction into which it enters, there is a risk that this may materially increase the costs associated with such derivative transaction or replacement derivative transaction. This is a particular risk should any derivative transaction into which the Issuer enters become subject to (i) the requirement to exchange segregated collateral with the Counterparty to such transaction, which forms a part of the risk-management requirements, or (ii) to mandatory clearing. It is not currently possible to conclude with any certainty whether the Issuer will be or become subject to such requirements or obligations as there remains legislative uncertainty with respect to the scope of such requirements and obligations, which are not yet in effect. However, irrespective of becoming subject to such requirements or obligations, and irrespective of it becoming necessary to amend or replace derivative transactions into which the Issuer enters, the Issuer may in any event have to bear certain costs or fees arising out of steps it is required to take to comply with the requirements of EMIR. Investors should therefore be aware of the risk that the requirements of EMIR may require amendment to derivative transactions and/or materially increase the costs of entering into derivative transactions which may in certain circumstances result in the redemption of the Securities.

Were any future obligations of EMIR to require the Issuer or the Counterparty to clear a Swap Agreement or to post collateral, the Issuer might not be practically able to comply with such requirement and/or the Issuer and/or Counterparty would be subject to additional financial and operational burdens. In such circumstance, it is likely to result in the redemption of the Securities.

### **Title Transfer Collateral Arrangements and reuse of Collateral**

The Issuer may enter into one or more "title transfer collateral arrangements" (as defined in Article 2(1)(b) of Directive 2002/47/EC) with one or more counterparties in connection with the Securities, as specified in the Issue Terms (such arrangement a "**Title Transfer Collateral Arrangement**" and each such counterparty a "**Title Transfer Collateral Counterparty**"). Such Title Transfer Collateral Arrangements could include standard agreements entered into between the Issuer and a Title Transfer Collateral Counterparty, such as a credit support annex with the relevant Counterparty being the Title Transfer Collateral Counterparty.

Under Article 15 of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 (the "**SFTR**"), the transferee under any Title Transfer Collateral Arrangement is required to inform the transferor of the risks and consequences that may be involved under such Title Transfer Collateral Arrangement. Such risks are described below and will affect Securityholders insofar as they affect the Issuer's rights against the relevant Title Transfer Collateral Counterparty.

The rights, including any proprietary rights, that the Issuer has in collateral transferred to a Title Transfer Collateral Counterparty will be replaced by an unsecured contractual claim for redelivery of equivalent Charged Assets, subject to the terms of the Title Transfer Collateral Arrangement. The Title Transfer Collateral Counterparty is not under any restrictions on what it does with the securities transferred and may sell or otherwise dispose of them. If the Title Transfer Collateral Counterparty becomes insolvent or otherwise defaults under the Title Transfer Collateral Arrangement, the Issuer's claim for redelivery of equivalent Charged Assets will not be secured.

Similarly, the Title Transfer Collateral Counterparty will lose the rights, including any proprietary rights, in any Charged Assets it transfers to the Issuer. The Issuer will usually grant security over such Charged Assets in favour of the Trustee for the benefit of the secured creditors.

In each case, the transferor will lose its voting rights in any securities transferred as Charged Assets under a Title Transfer Collateral Arrangement. Furthermore, the transferee may not be required to notify the transferor of any notifications sent by the Issuer of the securities transferred, which could include any corporate actions.

Following the financial crisis, regulatory authorities worldwide have been implementing measures for the orderly resolution of failing firms, particularly banks. In the EU, the main framework legislation for the resolution of banks is BRRD.

If the Title Transfer Collateral Counterparty is subject to a resolution process, then the relevant resolution authority may impose a stay or other restriction on the Issuer's rights to terminate the Title Transfer Collateral Arrangement and enforce the relevant close-out provisions. This may affect the Issuer's ability (or that of any agent or the Trustee acting on its behalf) to enforce timely termination of any credit support annex between itself and the relevant Counterparty(ies) or other agreement and consequently the recovery of any amounts due thereunder.

### **Alternative Investment Fund Managers Directive**

EU Directive 2011/61/EU on Alternative Investment Fund Managers ("**AIFMD**") came into force on 21 July 2011 and the requirements thereunder were broadly implemented into the national laws of the Member States of the European Union by 22 July 2013.

AIFMD provides, amongst other things, that all alternative investment funds (each an "**AIF**") must have a designated alternative investment fund manager ("**AIFM**") with responsibility for portfolio and risk management. The application of the AIFMD to special purpose entities such as the Issuer is unclear. The Issuer does not operate in the same manner as a typical alternative investment fund. The Issuer has been established solely for the purpose of issuing securities and entering into agreements in relation thereto and performing acts incidental thereto or necessary in connection therewith. However, the definition of AIF and AIFM in the AIFMD is broad and there is only limited guidance as to how such definition should be applied in the context of special purpose entities such as the Issuer.

Were the Issuer to be found to be an AIF or an AIFM, or were the Arranger acting in any capacity in respect of the Securities and/or the Trustee to be found to be acting as an AIFM with respect to the AIF, the AIFM

would be subject to the AIFMD. Owing to the special purpose nature of the Issuer, it would be unlikely that either the Issuer or Arranger could comply fully with the requirements of the AIFMD and, in addition, the Issuer might be classified as a financial counterparty for the purposes of EMIR (defined above) and be required to comply with clearing obligations or other risk mitigation techniques with respect to derivatives transactions.

Investors should therefore be aware of the risk that the requirements of AIFMD may result in the Securities being redeemed early at the Early Redemption Amount in the circumstances set out in Condition 8(e) or Condition 8(g).

Given the material and presently unknown extent of the risks which may affect the Securities as a consequence of the implementation of AIFMD, potential investors in the Securities should take independent advice and make an independent assessment about such risks in the context of any potential investment decision with respect to the Securities.

### **Reform of Benchmarks**

A key element of the reform of benchmarks within the EU is Regulation (EU) 2016/1011 of the European Parliament and of the Council on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment fund (the “**Benchmark Regulation**”). The Benchmark Regulation applies to “contributors,” “administrators” and “users of” “benchmarks” in the EU, and, among other things, (i) requires benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of “benchmarks” and (ii) bans the use of “benchmarks” of unauthorised administrators. The scope of the Benchmark Regulation is wide and, in addition to so-called “critical benchmark” indices such as LIBOR, EURIBOR and the Euro Overnight Index Average (“EONIA”), could also potentially apply to many other interest rate indices, as well as other indices (including “proprietary” indices or strategies) which are referenced in listed financial instruments (including listed Securities), financial contracts and investment funds.

The Benchmark Regulation could also have a material impact on any listed Securities linked to a “benchmark” index, including in any of the following circumstances:

(i) an index which is a “benchmark” could not be used as such if its administrator does not obtain authorisation or is based in a non-EU jurisdiction which (subject to any applicable transitional provisions) does not have equivalent regulation. In such event, depending on the particular “benchmark” and the applicable terms of the Securities, the Securities could be de-listed, adjusted, redeemed or otherwise impacted; and

(ii) the methodology or other terms of the “benchmark” could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could lead to adjustments to the terms of the Securities, including calculation agent determination of the rate or level in its discretion.

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of benchmarks could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain benchmarks, trigger changes in the rules or methodologies used in certain benchmarks or lead to the disappearance of certain benchmarks.

The disappearance of a benchmark or changes in the manner of administration of a benchmark could result in adjustment to the terms and conditions, early redemption, discretionary valuation by the calculation agent, delisting or other consequence in relation to Securities linked to such benchmark. Any such consequence could have a material adverse effect on the value of and return on any such Securities.

### **Risks of the United Kingdom leaving the European Union**

On 23 June, 2016 the United Kingdom held a referendum to decide on its membership of the European Union. The United Kingdom voted to leave the European Union and the UK Government invoked article 50 of the Lisbon Treaty relating to withdrawal on 29 March 2017. Under article 50, the Treaty on the European Union and the Treaty on the Functioning of the European Union cease to apply in the relevant state from the date of entry into force of a withdrawal agreement, or, failing that, two years after the notification of intention to withdraw, although this period may be extended in certain circumstances. There are a number of uncertainties in connection with the future of the United Kingdom and its relationship with the European Union. The negotiation of the United Kingdom's exit terms is likely to take a number of years. Until the terms and timing of the United Kingdom's exit from the European Union are clearer, it is not possible to determine the impact that the referendum, the United Kingdom's departure from the European Union and/or any related matters may have on the business of the Issuer. As such, no assurance can be given that such matters would not adversely affect the business, financial condition and results of operations of the Issuer. Investors should also be aware that such matters could adversely affect European or worldwide economic, market conditions and could contribute to instability in global financial and foreign exchange markets, including volatility in the pound sterling or euro.

## **USE OF PROCEEDS**

The net proceeds of the issue of the Securities, which amount to EUR 25,000,000 will be used by the Issuer along with the payment of EUR 2,467,875.00 by the Counterparty under the Swap Agreement to purchase the Charged Assets from the Vendor.

### **Method of Payment**

### European Union

#### *Public Offer Selling Restriction under the Prospectus Directive*

In relation to each Member State of the EEA which has implemented the Prospectus Directive (each, a “Relevant Member State”), the Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “Relevant Implementation Date”) it has not made and will not make an offer of Securities which are the subject of the offering

contemplated by this Series Information Memorandum in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Securities to the public in that Relevant Member State:

- (A) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (B) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (C) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Securities shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer of Securities to the public” in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “Prospectus Directive” means Directive 2003/71/EC (as amended and superseded, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

### **Prohibition of Sales to EEA Retail Investors**

If the Issue Terms in respect of the a Tranche of Securities includes a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Dealer has represented and agreed, and each further Dealer appointed under the Programme in respect of such Securities will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available such Securities to any retail investor in the EEA.

For these purposes:

- (i) a “retail investor” means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2002/92/EC (“IMD”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive; and
- (ii) The expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities.

Consequently no key information document required by PRIIPs Regulation for offering or selling such Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling such Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPS Regulation.

## United Kingdom

The Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (A) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Securities in, from or otherwise involving the United Kingdom; and

Banco Bilbao Vizcaya Argentaria, S.A. ("**BBVA**") is a highly diversified international financial group, with strengths in the traditional banking businesses of retail banking, asset management, private banking and wholesale banking. It also has a portfolio of investments in some of Spain's leading companies.

BBVA was incorporated in Spain for an unlimited term on 28th January, 2000. BBVA was formed as the result of a merger by absorption of Argentaria into BBV, which was registered at the Vizcaya Mercantile Registry (Registro Mercantil de Vizcaya) on 28th January, 2000.

It also includes the Industrial and Financial Holdings Unit and the Group's Spanish real estate business.

The registered office of BBVA is at Plaza San Nicolas 4, Bilbao, Spain.

BBVA has securities admitted to trading on the regulated market of the Madrid Stock Exchange and the New York Stock Exchange.
