The non-incorporated parts of the Interim Report are either not relevant for the investor or covered elsewhere in the Base Prospectus.

SIGNIFICANT OR MATERIAL CHANGE STATEMENT

Paragraph 7 of the General Information section on page 455 of the Base Prospectus shall be deemed to be deleted in its entirety and replaced by the following wording:

"There has been no material adverse change in the prospects of the Group since 31 December 2018 and there has been no material adverse change in the prospects of the Issuer since 31 December 2018.

There has been no significant change in the financial position of the Group since 30 June 2019 and there has been no significant change in the financial position of the Issuer since 31 December 2018.”

CHANGE IN CREDIT RATINGS

Paragraph 12 of the General Information section on page 456 of the Base Prospectus shall be deemed to be deleted in its entirety and replaced by the following wording:

“The Programme is rated A- by Standard & Poor’s Credit Market Services Europe Limited ("**S&P Global**") and A3 by Moody's Investors Services España, S.A. ("**Moody's**"). The Guarantor has been rated A- by S&P Global, A3 by Moody's and A by Fitch Ratings España, S.A.U. ("**Fitch**"). The Issuer has been rated A- by S&P Global. Each of S&P Global, Moody's and Fitch is established in the European Union and is registered under the CRA Regulation. As such, each of S&P Global, Moody's and Fitch is included in the list of credit rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with such CRA Regulation. Notes issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating will be disclosed in the Final Terms and will not necessarily be the same as the rating assigned to the Programme by the relevant rating agency. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

The Credit Ratings stated above have the following meanings according to the relevant rating agencies:

S&P Global

An obligor rated “A” has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

An S&P Global negative outlook means that a rating may be lowered.

Moody’s

Obligations rated “A” are considered upper-medium-grade and are subject to low credit risk.

Fitch

“A” ratings denote expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.””

UPDATE TO THE SUMMARY

The Summary of the Programme on pages 9-40 of the Base Prospectus shall be deemed updated and replaced in its entirety with the Summary of the Programme, as specified in the Schedule to this Supplement.

GENERAL

To the extent that there is any inconsistency between (a) any statement in this Supplement or any statement incorporated by reference into the Base Prospectus by this Supplement and (b) any other statement in or incorporated by reference in the Base Prospectus, the statements in (a) above will prevail.

Save as disclosed in this Supplement there has been no other significant new factor, material mistake or inaccuracy relating to information included in the Base Prospectus since the publication of the Base Prospectus.

In accordance with Regulation 52 of the Prospectus Directive (2003/71/EC) Regulations 2005 of Ireland, investors who have agreed to purchase or subscribe for any Notes before this Supplement is published have the right, exercisable before the end of the period of two working days beginning with the working day after the date on which this Supplement was published, to withdraw their acceptances. This right to withdraw shall expire by close of business on 13 August 2019.

This Summary contains all the Elements required to be included in a summary for the Notes and the Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

D.2	Key risks regarding the Issuer and the Guarantor:	<p>In purchasing Notes, investors assume the risk that the Issuer and the Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer and the Guarantor becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's and the Guarantor's control. The Issuer and the Guarantor have identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Notes. These factors include:</p> <p>Risk Factors relating to the Issuer</p> <ul style="list-style-type: none"> • The Issuer is dependent on the Guarantor to make payments on the Notes. • Certain considerations in relation to the forum upon insolvency of the Issuer. <p>Risk Factors that may affect the Guarantor's ability to fulfil its obligations under the Guarantee</p> <p>Macroeconomic Risks</p> <ul style="list-style-type: none"> • Economic conditions in the countries where the Group operates could have a material adverse effect on the Group's business, financial condition and results of operations. • Since the Guarantor's loan portfolio is highly concentrated in Spain, adverse changes affecting the Spanish economy could have a material adverse effect on its financial condition. • The Group may be adversely affected by political events in Catalonia. • Any decline in the Kingdom of Spain's sovereign credit ratings could adversely affect the Group's business, financial condition and results of operations. • The Group may be materially adversely affected by developments in the emerging markets where it operates. • The Group may be adversely affected by the United Kingdom's planned exit from the European Union. • The Group's business could be adversely affected by global political developments, particularly with regard to U.S. policies that affect Mexico. • The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by asset impairment.. • Exposure to the real estate market makes the Group vulnerable to developments in this market. <p>Legal, Regulatory and Compliance Risks</p>
