A copy of the Guarantor Interim Consolidated Financial Statements has been filed with the Central Bank of Ireland and is available at [http://shareholdersandinvestors.bbva.com/TLBB/fbinir/mult/01\\_Financial\\_Statements\\_BBVA\\_Group\\_tcm927-535542.pdf](http://shareholdersandinvestors.bbva.com/TLBB/fbinir/mult/01_Financial_Statements_BBVA_Group_tcm927-535542.pdf)

By virtue of this Supplement (i) the Guarantor Interim Consolidated Financial Statements; and (ii) the unaudited interim financial statements of the Issuer for the six month period ended 30 June 2015 (the “**Issuer Interim Financial Statements**”), which have been filed with the Central Bank and made available on [http://www.rns-pdf.londonstockexchange.com/rns/5836V\\_-2015-8-10.pdf](http://www.rns-pdf.londonstockexchange.com/rns/5836V_-2015-8-10.pdf) are incorporated in, and form part of, the Base Prospectus.

## NO SIGNIFICANT CHANGE IN THE FINANCIAL AND TRADING POSITION OF THE GROUP AND THE ISSUER

There has been no significant change in the financial and trading position of the Group since the date of the Guarantor Interim Consolidated Financial Statements.

There has been no significant change in the financial and trading position of the Issuer since the date of the Issuer Interim Financial Statements.

## **CONCLUSION OF THE ACQUISITION OF AN ADDITIONAL 14.89 PER CENT OF GARANTI**

As described in the Base Prospectus, on November 19, 2014, the Group signed a new agreement with Dogus Holding AS, Ferit Faik Sahenk, Dianne Sahenk and Defne Sahenk (hereinafter "Dogus") to, among other terms, the acquisition of 62,538,000,000 shares of Garanti (equivalent to 14.89% of the capital of this entity) for a maximum total consideration of 8.90 Turkish lira per batch (Garanti traded in batches of 100 shares each).

In the same agreement stated that if the payment of dividends for the year 2014 was executed by Dogus before the closing of the acquisition, that amount would be deducted from the amount payable by BBVA. On April 27, 2015, Dogus received the amount of the dividend paid to shareholders of Garanti, which amounted to TL 0,135 per batch.

On July 27, after obtaining all the required regulatory approvals, the Group has materialized said participation increase after the acquisition of the new shares. Now the Group's interest in Garanti is 39.9%. The total price effectively paid by the Group amounts to 8.765 Turkish Liras per share (amounting to approximately TL5,481 million and €1,854 million applying a 2,9571 TL/EUR exchange rate).

In accordance with the NIIF-UE accounting rules, and as a consequence of the agreements reached, the Group shall, at the date of effective control, measure at fair value its previously acquired stake of 25.01% in Garanti (at present classified as a joint venture accounted for using the equity method, see Note 16) and shall fully consolidate Garanti in the consolidated financial statements of the Group, beginning on the abovementioned effective control date.

Measuring the above-mentioned stake in Garanti Bank at fair value will result in a one-off negative impact in the Profit attributable to parent company of the Group in the second semester amounting to approximately 1,800 MM Euros. Such accounting impact does not translate into any additional cash outflow from BBVA. Most of this impact is generated by the exchange rate differences due to the depreciation of the TL against Euro since the initial acquisition by BBVA of the 25.01% stake in Garanti Bank up to the date of effective control. As of June 30, 2015, these exchange rate differences are already registered as Other Comprehensive Income deducting the stock shareholder's equity of the Group.

At the date of preparation of the interim consolidated financial statements, the calculation, in accordance with the purchase method of IFRS-3, to determine the potential existence of a goodwill related to this transaction was not complete.

The acquisition of an additional 14,89% of Garanti will mean an estimated reduction (as mentioned in the announcement of the transaction closing on July 27 2015) of the Common Equity Tier 1 (fully loaded) of the Group of approximately 50 basis points.

Garanti Group has total assets over €85,000 million, of which €53,000 million are loans to customers, and a volume of customer deposits of €45,000 million.

## **UPDATE TO THE SUMMARY**

This Supplement has been prepared for the purpose of updating the Summary of the Programme on pages 12-58 of the Base Prospectus which shall be deemed updated and replaced in its entirety with the Summary of the Programme, as specified in the Schedule to this Supplement.

To the extent that there is any inconsistency between (a) any statement in this Supplement or any statement incorporated by reference into the Base Prospectus by this Supplement and (b) any other statement in or incorporated by reference in the Base Prospectus, the statements in (a) above will prevail.

#### **GENERAL**

Save as disclosed in this Supplement there has been no other significant new factor, material mistake or inaccuracy relating to information included in the Base Prospectus since the publication of the Base Prospectus.

In accordance with Regulation 52 of the Prospectus Directive (2003/71/EC) Regulations 2005 of Ireland, investors who have agreed to purchase or subscribe for any Notes before this Supplement is published have the right, exercisable before the end of the period of two working days beginning with the working day after the date on which this Supplement was published, to withdraw their acceptances. This right to withdraw shall expire by close of business on 2 September 2015.

<b>D.2</b>	<b>Key risks regarding the Issuer and the Guarantor:</b>	<p>In purchasing Notes, investors assume the risk that the Issuer and the Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer and the Guarantor becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's and the Guarantor's control. The Issuer and the Guarantor have identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Notes. These factors include:</p> <p><b>Risk Factors relating to the Issuer</b></p> <ul style="list-style-type: none"> <li>• The Issuer is dependent on the Guarantor to make payments on the Notes.</li> <li>• Certain considerations in relation to the forum upon insolvency of the Issuer.</li> </ul> <p><b>Factors that may affect the Guarantor's ability to fulfil its obligations under the Guarantee</b></p> <p>Macroeconomic Risks</p> <ul style="list-style-type: none"> <li>• Economic conditions in the countries where the Group operates could have a material adverse effect on the Group's business, financial condition and results of operations.</li> <li>• Since the Guarantor's loan portfolio is highly concentrated in Spain, adverse changes affecting the Spanish economy could have a material adverse effect on its financial condition.</li> </ul>
